## TO DALLAS FAIR \$5.75 STAY TWO DAYS

Northwestern Extends the Limit to Two Days Instead of One as Was Announced Last Week.

Our most efficient depot agent C. A. Milligan gives out the following extra announcement that the Northwestern Railway has extended the time of staying in Dallas on your visit to the Fair on the \$5.75 rate to two days instead of one as announced last week. This makes it so you can leave Wellington, Saturday Oct. 21, at 2:30 and arrive in Dallas at 8 a. m. Sunday; remaining in Dallas until 8:00 o'clock Monday evening. Mr. Milligan's announcement is as follows.

The limit on the \$5.75 fare tickets advertised last week has, been extended so that you can now stay in Dallas until 8:00 p. m. Monday Oct. 23rd instead of having to leave at that hour Sunday night. This will give you from Sunday morning at 8:00 a. m. until Monday night at 8:00 p. m. in Dallas instead of just one day as before.

C. A. MILLIGAN.

### At The Dreamland.

Manager Fox, of the Dreamland, informs us that he has changed his place of receiving films, and although his show has always been clean and very interesting, it is a known fact that the pictures are a great deal better since the change and for Friday night of this week he announces the following splendid films for presentment: "The Mirror," "When the Cat's away" "How Women Win," "Spring Tragedy."

### May Put in Phone System.

Mr. Dutton, of Dallas representing the Southwestern Telephone Company was here several days last week and stated to us that his company would either put out the company here or put a new system and in fact in either event a most up to date system would be installed.

### 1600 Bales Received.

You are informed by our most efficient cotton weigher, W. O. Hall, that up to date he has received about 1600 bales of cotton which is about 300 bales more than had been received up to this date last year. This crop began opening about three weeks earlier this year than last and the weather has been most favorable.

## GOVERNORS DELAY COTTON CONFERENCE

Brought About By Governor Colquitt's Belief that More Good Can Be Accomplished.

Austin, Tex., Oct. 16.—As indicated in last night's dispatches the Governor postponed the cotton conference to Monday, 30th inst. His letter to the Governors of the various cotton producing States, sent today, follows:

"I wired you yesterday changing the date for holding of the conference of Governors of cotton-producing States at New Orleans from Oct. 23 to Monday, Oct. 30, the majority of the Governors having voted in favor of this date by wire.

"I have also telegraphed Hon. P. C. Knox, Secretary of State, at Washington, asking him to cable the United States Consular agents and all cotton manufacturers of foreign countries for estimates of cotton which will be necessary to supply the demand up to Sept. 1, 1912.

"I think this information is of greatest importance. I am not settled in my mind as to just what the conference should undertake to do. I believe the deferring of the conference will agitate the matter and enable all of us to get together data bearing upon the demand for cotton, as well as the supply. The Federal Government makes a special effort to secure information as to the production of cotton, but does not make a similar effort to gather authentic information as to the demand and probable consumption of cotton.

"I would be glad to have you think over the matter, and if you agree with me, we should formulate a plan and demand an act of Congress which will cause reliable information to be gathered as to the probable consumption of cotton by all countries.

### WOULD PROSECUTE "BEARS."

"I think we should also insist upon the Federal Government, inasmuch as it prosecuted the cotton 'bulls' taking similar steps against the 'bears.'

"I sincerely hope that it will be agreeable with you to invite the heads of farmers' organizations of your respective States, interested in the growing and marketing of cotton, also the editors of your leading newspapers and some of the leading bankers and financiers, to attend the conference with you. I deem it a mat-

 Goliad, Texas, Oct. 21, 1911.  
 Farmers of Goliad county have adopted a new and unique method of building public roads, which is the split-log drag. The split-log drags which are used for keeping the county roads in good condition are placed on each road leading out from the city. Each farmer coming into town hitches the drag to his wagon and drags for a mile or two, leaving it for the next farmer who does likewise. In this way the drag is kept moving all the time and the result is good roads and smooth roads in all kinds of weather.

### Houston Land Show.

Houston, Texas, Oct. 14—Invitations have been issued to fourteen cities of Texas, granting them special days at the land show to be held at Houston in January, 1912. Each city having a special day will have charge of the ceremonies on that day. Speeches of welcome and response will be made by representatives of the Exposition and the Mayor and citizens of the city having the special day. One of the prominent features of the land show will be the display of "Made in Texas" articles. This will give Texans a chance to see just what goods are manufactured in their own state and promises to be one of the most attractive exhibits.

### THE PRESS.

While Texas has made remarkable progress in the last twenty-five years, its development has hardly been in keeping with that of the press of the state., said Will H. Mayes, editor of the Brownwood Bulletin and former president of the National Editorial Association, in addressing the Commercial Secretaries & Business Men in Dallas.  
 "Not many years ago" he continued, "the average country paper was published in a dingy dirty building around the corner in the rear of some abandoned shack. It was printed from an equipment that could readily be loaded into a one-horse wagon and move on to the next county when then the publisher's credit was exhausted and he could no longer get his 'patent insides' from the express office, because it took cash—nor fill his insides at the saloons.  
 "Now most of the papers in the state are published in their own buildings,—as good buildings, too, as can be found in the towns where they are published. The best presses are used, typesetting machines are common and printing plants are worth thousands where they were formerly worth dollars, were mere junk heaps, in fact.  
 Whatever has been accomplished by the Commercial Secretaries has been through the operation of the press of the state.  
 A few years ago, when it looked as if the entire state would eventually planted continuously in cotton, the press began to preach diversification, until now nearly every farmer is a diversifier.  
 The movements for good roads would have died in its infancy had it not been for the press of the state.  
 Do you realize, gentlemen, that in newspaper offices in every section of this nation Texas papers, in their respective classes, are regarded as the highest type of American Journalism? And when that is said it means the highest type of journalism in the world, for the American press leads the world.

Every good road leading into a town means that many more dollars profit to every merchant in that town.

It is well for the residents of any community to strive constantly for road improvement. Good roads mean continuous growth of that community.

Wellington cotton buyers pay the top price for cotton. Her merchants have large and complete stocks of goods, and their prices are right. Bring your cotton here Mr. Farmer, and get the top prices, and buy your goods from these merchants, they will treat you right.

Progress would be impossible without commerce for the exchange of commodities and for the interchange of thought and ideas which inculcate culture, and both of these requisites of commerce and the interchange of thought and ideas are impossible without means of highways.

Figures show that Texas buys annually from other markets about \$400,000,000 worth of merchandise. St. Louis has enjoyed about 30 per cent, New York 40 per cent, the remaining 30 per cent, being divided. The banks generally get the collections or exchange on these heavy purchases.

Yea, verily, I say unto you, he that hath the husky voice and is the bell wether of the town loafers is doomed to disappointment, for, lo, in the distance can be heard the tinkling bell of the approaching "steam roller," as it crushes under foot the knocker and the back-biter. It's right in the public road of Wellington.

Good roads bring with them new and higher and more perfect ideals of life. They bring deals which aim to provide better conditions and fuller opportunity for all. They promote the circulation of ideas, a most important element in good roads' life. The exchange of ideas is most essential to progress.

The last three years have been such as to bring the people to a definite understanding with themselves as to the safest and best way of farming. Can you imagine the conclusion? Wellington has the climate the soil and the water. What better does the investor want who is looking for a safe and sure investment.

WELLINGTON, TEXAS

The trolley roads radiating throughout the country scatter diamonds of value in the comforts and conveniences of living and in the enhancement of value. No turnpike or macadam road was ever built but that added increased conveniences and wealth to the adjacent territory, and no bridge was ever erected or common road improved but did the same.

If the railroads of the country can spend millions annually in straightening their roads and lessening grades and curves, cannot the farmers, aided by the people of the cities, as they would be by bond issues, spend a few thousands on good roads? Highways are the farmers' railways, and easy transportation is as essential to the farmer as it is to the railroad.

Every farm is a factor. It produces the raw material of commerce. Its prosperity must depend upon the markets, for its products. If the markets are good and easily accessible, then individual effort may count for something. If there are no good markets and if the markets are not cheaply accessible, then effort is handicapped and success is impracticable.

When you pull down the town in which is your home, you are pulling down yourself, and when you build up you are building up yourself and your neighbor. Try and banish from your mind the mistaken idea that all good things are away off in some other locality. Give your town all the praise it can legitimately bear. It certainly will do you no harm and will cost you nothing; and above all patronize your home institutions—including the printing.

Keep near to your children. Do not let them grow away from you. Keep them close in your confidence and affection, so they will confide in and not be afraid of you. We know a lad who takes pleasure in giving his mother an account of his doings during the day, whether they are pleasant or otherwise. She laughs with him if they are funny, and gently chides when he is wrong, but in a way that does not make him afraid of her. He will not relate a single instance to his father, because before the story is half through he will begin to scold him for doing so and so. It is plainly seen which can have the most influence with him.—Ex.

In building good roads the first thing to be learned is to make every dollar count. Nothing is so discouraging as a misguided application of funds and this can be avoided in road building by employing competent men as constructors. Because a man is honest and sincere in his work he is not necessarily a good road builder. There are engineers all over the country who make specialties of building roads along scientific lines and their work is the cheapest and most satisfactory. They have made a study of this kind of work, they know what they are doing every foot of the way and they should be consulted.

Ft. Worth Bankers have received advices that there is to be some concert of action on the part of banks of Chicago, St. Louis and Kansas city in loaning money to Texas banks to aid in moving Texas crops. Wholesalers and manufacturers are trying to develop new trade in Texas and the plan to lend financial support to Texas interests in handling crops is proposed as a vehicle of reciprocity.

There are but few idle men and boys around Wellington these days. There is no excuse for any of the able bodied ones doing nothing, for thousands of bales of cotton are yet to be picked in this section and we see farmers inquiring for pickers every day. Labor of all kinds is much scarcer here than last year. The season however, thus far, has been ideal for gathering crops, and if it continues, less hired help will be required.

**Citation.**

To the Sheriff or Any Constable of Collingsworth county—Greeting:

You are hereby commanded to summon T. B. Greenwood by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof; in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; to appear at the next regular term of the District Court of Collingsworth County, Texas, to be held at the Court House thereof, in Wellington, Texas on the 2nd Monday in November A. D. 1911 the same being the 13th day of November A. D. 1911, then and there to answer a petition filed in said Court on the 15th day of September A. D. 1911, in a suit num-

bered on the docket of said Court, No. 235, wherein Delia Greenwood is Plaintiff and T. B. Greenwood is Defendant and the cause of action being alleged as follows: That plaintiff is an actual bona fide inhabitant of the State of Texas, and has resided in Collingsworth County, Texas, for more than six months next preceding the filing of this suit, that the defendant is a non-resident of this state: that plaintiff and defendant were married at Quanah, Hardeman county, Texas, on Nov. 21st, 1908 and lived together as husband and wife until Nov. 14th 1910, when they separated that during the time they so lived together plaintiff did her duty as a wife and helpmeet and conducted herself as a virtuous and loving wife should, but the defendant has lived the life of a drunkard and an adulterer and failed to provide for plaintiff and has been guilty of such ill treatment as to render their living together insupportable; that since their marriage they have lived at various places, to-wit; Crowell, Texas; Paris, Texas; Marshall, Texas; Purcell, Oklahoma; and Shreveport, Louisiana. That the defendant began drinking and gambling in March, 1909, and continued such a course until the separation aforesaid, and would never get home until after twelve o'clock at night, and would frequently go off and get drunk and stay away from home for days at a time when plaintiff would not know where he was, and the defendant frequently left it to plaintiff to pay the living expenses which she did by calling on her mother for the money and plaintiff alleges that at Shreveport, Louisiana, the defendant began to neglect plaintiff more and to associate with lewd women, and would come home and brag to plaintiff about his conquests, and gave plaintiff letters from his paramours and would and did tell plaintiff of having been intimate with said lewd women, and plaintiff alleges that the defendant left her at Shreveport and went to Fort Smith, Arkansas, in response to a letter from a woman that had been lying up with the defendant, that thereupon plaintiff came home and has been living with her mother at Wellington, Texas, since said time, that the acts and conduct of defendant aforesaid was ill treatment of such a nature as to render their living together insupportable. Plaintiff alleges her maiden name to have been Delia Newberry and asks for citation upon the defendant, for judgment dissolving the bands of matrimony and for restoration of her maiden name, and for costs of suit and general relief.

Herein fail not, but have you before said Court, on said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Wellington Texas, this 15th day of September A. D. 1911.

Every good road leading into a town means that many more dollars profit to every merchant in that town.

It is well for the residents of any community to strive constantly for road improvement. Good roads mean continuous growth of that community.

Wellington cotton buyers pay the top price for cotton. Her merchants have large and complete stocks of goods, and their prices are right. Bring your cotton here Mr. Farmer, and get the top prices, and buy your goods from these merchants, they will treat you right.

Progress would be impossible without commerce for the exchange of commodities and for the interchange of thought and ideas which inculcate culture, and both of these requisites of commerce and the interchange of thought and ideas are impossible without means of highways.

Figures show that Texas buys annually from other markets about \$400,000,000 worth of merchandise. St. Louis has enjoyed about 30 per cent. New York 40 per cent, the remaining 30 per cent, being divided. The banks generally get the collections or exchange on these heavy purchases.

Yea, verily, I say unto you, he that hath the husky voice and is the bell wether of the town loafers is doomed to disappointment, for, lo, in the distance can be heard the tinkling bell of the approaching "steam roller," as it crushes under foot the knocker and the back-biter. It's right in the public road of Wellington.

Good roads bring with them new and higher and more perfect ideals of life. They bring deals which aim to provide better conditions and fuller opportunity for all. They promote the circulation of ideas, a most important element in good roads' life. The exchange of ideas is most essential to progress.

The last three years have been such as to bring the people to a definite understanding with themselves as to the safest and best way of farming. Can you imagine the conclusion? Wellington has the climate the soil and the water. What better does the investor want who is looking for a safe and sure investment.

The trolley roads radiating throughout the country scatter diamonds of value in the comforts and conveniences of living and in the enhancement of value. No turnpike or macadam road was ever built but that added increased conveniences and wealth to the adjacent territory, and no bridge was ever erected or common road improved but did the same.

If the railroads of the country can spend millions annually in straightening their roads and lessening grades and curves, cannot the farmers, aided by the people of the cities, as they would be by bond issues, spend a few thousands on good roads? Highways are the farmers' railroads, and easy transportation is as essential to the farmer as it is to the railroad.

Every farm is a factor. It produces the raw material of commerce. Its prosperity must depend upon the markets, for its products. If the markets are good and easily accessible, then individual effort may count for something. If there are no good markets and if the markets are not cheaply accessible, then effort is handicapped and success is impracticable.

When you pull down the town in which is your home, you are pulling down yourself, and when you build up you are building up yourself and your neighbor. Try and banish from your mind the mistaken idea that all good things are away off in some other locality. Give your town all the praise it can legitimately bear. It certainly will do you no harm and will cost you nothing; and above all patronize your home institutions—including the printing.

Keep near to your children. Do not let them grow away from you. Keep them close in your confidence and affection, so they will confide in and not be afraid of you. We know a lad who takes pleasure in giving his mother an account of his doings during the day, whether they are pleasant or otherwise. She laughs with him if they are funny, and gently chides when he is wrong, but in a way that does not make him afraid of her. He will not relate a single instance to his father, because before the story is half through he will begin to scold him for doing so and so. It is plainly seen which can have the most influence with him.—Ex.

In building good roads the first thing to be learned is to make every dollar count. Nothing is so discouraging as a misguided application of funds and this can be avoided in road building by employing competent men as constructors. Because a man is honest and sincere in his work he is not necessarily a good road builder. There are engineers all over the country who make specialties of building roads along scientific lines and their work is the cheapest and most satisfactory. They have made a study of this kind of work, they know what they are doing every foot of the way and they should be consulted.

Ft. Worth Bankers have received advices that there is to be some concert of action on the part of banks of Chicago, St. Louis and Kansas city in loaning money to Texas banks to aid in moving Texas crops. Wholesalers and manufacturers are trying to develop new trade in Texas and the plan to lend financial support to Texas interests in handling crops is proposed as a vehicle of reciprocity.

There are but few idle men and boys around Wellington these days. There is no excuse for any of the able bodied ones doing nothing, for thousands of bales of cotton are yet to be picked in this section and we see farmers inquiring for pickers every day. Labor of all kinds is much scarcer here than last year. The season however, thus far, has been ideal for gathering crops, and if it continues, less hired help will be required.

Citation.

To the Sheriff for Any Constable of Collingsworth county—Greeting:

You are hereby commanded to summon T. B. Greenwood by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; to appear at the next regular term of the District Court of Collingsworth County, Texas, to be held at the Court House thereof, in Wellington, Texas on the 2nd Monday in November A. D. 1911 the same being the 13th day of November A. D. 1911, then and there to answer a petition filed in said Court on the 15th day of September A. D. 1911, in a suit num-

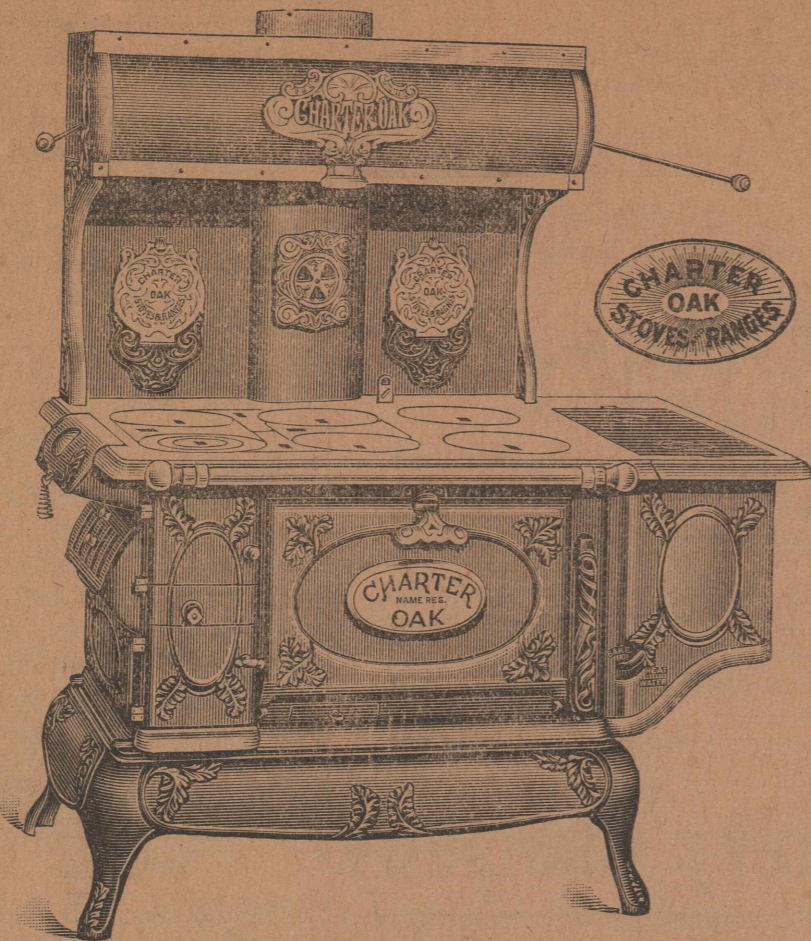

bered on the docket of said Court, No. 235, wherein Delia Greenwood is Plaintiff and T. B. Greenwood is Defendant and the cause of action being alleged as follows: That plaintiff is an actual bona fide inhabitant of the State of Texas, and has resided in Collingsworth County, Texas, for more than six months next preceding the filing of this suit, that the defendant is a non-resident of this state: that plaintiff and defendant were married at Quanah, Hardeman county, Texas, on Nov. 21st, 1908 and lived together as husband and wife until Nov. 14th 1910, when they separated that during the time they so lived together plaintiff did her duty as a wife and helpmeet and conducted herself as a virtuous and loving wife should, but the defendant has lived the life of a drunkard and an adulterer and failed to provide for plaintiff and has been guilty of such ill treatment as to render their living together insupportable; that since their marriage they have lived at various places, to-wit; Crowell, Texas; Paris, Texas; Marshall, Texas; Purcell, Oklahoma; and Shreveport, Louisiana. That the defendant began drinking and gambling in March, 1909, and continued such a course until the separation aforesaid, and would never get home until after twelve o'clock at night, and would frequently go off and get drunk and stay away from home for days at a time when plaintiff would not know where he was, and the defendant frequently left it to plaintiff to pay the living expenses which she did by calling on her mother for the money and plaintiff alleges that at Shreveport, Louisiana, the defendant began to neglect plaintiff more and to associate with lewd women, and would come home and brag to plaintiff about his conquests, and gave plaintiff letters from his paramours and would and did tell plaintiff of having been intimate with said lewd women, and plaintiff alleges that the defendant left her at Shreveport and went to Fort Smith, Arkansas, in response to a letter from a woman that had been lying up with the defendant, that thereupon plaintiff came home and has been living with her mother at Wellington, Texas, since said time, that the acts and conduct of defendant aforesaid was ill treatment of such a nature as to render their living together insupportable. Plaintiff alleges her maiden name to have been Delia Newberry and asks for citation upon the defendant, for judgment dissolving the bands of matrimony and for restoration of her maiden name, and for costs of suit and general relief.

Herein fail not, but have you before said Court, on said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Wellington Texas, this 15th day of September A. D. 1911.

**The McCASKEY SYSTEM**

The One Writing Method of handling accounts. By the use  
of The McCaskey System we furnish each customer with a  
sale slip after every purchase. This sale slip shows what was  
bought, the price paid for each item and the last previous  
balance, all footed up.

Our customers have the same record of their accounts as  
we, and in the same handwriting. Our customers always know  
what they owe, their accounts cannot grow over night.

The McCaskey System protects you against error, it  
saves time and labor for us.  
We would like to have an opportunity of explaining our  
McCaskey System to you.

best farms in the county, located  
a short distance east of town,  
has purchased from J. I. Penrod  
a splendid five-room residence  
in the east part of the city, and  
will soon move to same. We  
welcome Mr. McClure and his  
excellent family among us.

**29 Loads Maize off 10 Acres.**

For raising the best maize, J.  
P. Rippetoe has 'em all "skinned"  
that have reported to us so far.  
He says he gathered off 10 acres  
29 big loads. How is that for  
raising feed.

Since writing the above we  
met A. P. Messick who informed  
us that he could go Mr. Rippetoe  
one load better, he having gath-  
ered 30 big loads off 10 acres,  
who next.

**Buys a Farm.**

We are informed that Mr. W.  
S. Nelson a former good citizen  
of Knox County, who has been  
here for some time looking over  
our country, has purchased the  
splendid farm of C. M. Masoner,  
east of town. Mr. Nelson is in-  
deed a most excellent citizen and  
we are very glad to have him  
move among us. We have not  
learned what Mr. Masoner in-  
tends doing, but trust he will  
not leave the county, for we need  
just such good men.

**Womans Study Club.**

The Womans Study Club met with Mrs. John Henard on Wednesday afternoon, Oct. 18 at the home of her mother.

The members responded to roll call with clever little jokes and stories.

The first number of our program was such an interesting paper by Mrs. O'Connell on "The Effect to Magazine Reading on the General Public." Mrs. Anderson read us quite a fascinating little story entitled "Entertainment for the Tired Dressmaker." Another of our good things, was a paper—"What Texas Clubs are doing" by Mrs. Thomas.

While discussing the leading features of standard magazines, Mrs. Hennard served the most delicious ambrosia and cake, after which we adjourned to meet with Mrs. Howell, Oct. 25.

H. C. Clement, brother to Rev. J. C. Clement of Okla Union, Texas, and S. P. Clement, missionary of Red Fork Baptist Association, with postoffice at Quanah Texas and deacon W. B. Clement of Denton Texas, died at his home four miles west of Wellington Sept. 21st 1911.

Bro. Clement was born in Alabama and lived to be about 65 years old. He came to Collingsworth county, Texas about 20 years ago coming here when the county was first being settled up and was therefore known and loved by all old settlers as well as the new. Bro. Clement professed faith in his Savior about 25 years ago and united with the Missionary Baptist church and ever remained a faithful member until his death. He leaves a wife and several children to mourn his death. It was never the privilege of this writer to meet Bro. Clement but two or three times in his life, but knew his brothers family for several years, and can say I never met a better class of men anywhere.

Loved ones, weep not for him, he is with his Savior and to his mother. His mothers prayers has gone thousands of times in the by gone days to the throne of grace, for him and for his, and our God hath heard them and will grant them every one. Her wise council and earnest prayers have ever been a blessing to this poor preacher, struggling to know his masters will. May each of you find your hearts desire, in this hour trouble, at the fountain of Gods Grace, for in it you will find a healing for your wounds and comfort for your loneliness.

Your friend and brother in Christ.  
J. T. Gillespie

**M. W. A. Deputy Here.**

Bert Oakman, of Amarillo, district deputy for the Modern Woodman of America is in Wellington boosting for new members and is meeting with good success. In 1910 Texas furnished more new members for the Modern Woodmen than any other state except Illinois, and an extra effort is being made to place Texas at the head of the list this year. The Modern Woodmen purchased almost five hundred thousand dollars worth of Texas bonds in the month of August, 1911, and the American National Bank of Austin has been designated as one of the national depositories for the society. Mr. Oakman will hold a class adoption at Quail Saturday night of this week, and a number of Wellington Woodmen will attend that meeting. It is the intention of Deputy Oakman to secure a large class for the Wellington Camp.

**Received our Melon.**

Dr. J. L. Johnson received a watermelon this week that cost him \$1.40 express. It weighed ninety-four pounds and was shipped to him by Tom Durham, editor of the Wellington Leader. This is a sample of Collingsworth county products.—E a s t l a n d Chronicle.

**Our School.**

In an interview with the authorities of our school we learn that the first month of school this fall has shown a larger enrollment than ever before in the history of the town. There are now eight teachers employed and an enrollment of about 400 students.

People are expressing satisfaction on many different occasions of the manner in which the school is being taught and disciplined. In spite of the fact that the railroad runs within less than forty feet of the front of the school house, the teachers are so far as we can see, keeping the children off of the track except necessary crossing in going to and from school. We feel that extraordinary vigilance is being exercised in this way.

Wellington may be proud of her school and its standing. Let everybody pull together as they have in the past. We feel sure that with this aid our splendid board of trustees will spare no efforts in keeping our school up to its present high standard.

**For Sale.**

6 room house on three lots, with entrance hall, cistern, small barn, chicken house; coal house, storm house, yard fenced with fencing wire and plank, 2 blocks from square. Price \$1700. Cash \$1200, balance on 2 years time. Benson & Baker.

**Cotton Brings Top Price.**

Notwithstanding the continued low price of cotton, the same has been pouring into Wellington this week at a rapid rate. Our buyers have been on the alert and are paying even more than the real market price, infact we are sure they have done this all the fall. Thats right farmers bring your cotton to Wellington where you can get the very best price; not what this the most staple of crops is really worth, but more than the market warrants.

Phone the Bottling Works to send you a case of Jersey Creme or Dr. Pepper at 60 cents per case. Or Soda Pop at 50 cents per case.

**Lets Help our School.**

The teachers and superintendent, as well as the school board should have the hearty support of the patrons of the school. They should visit the school from time to time, and make it their business to help the teachers in their work in every way possible. This is the only way that the school will be a success, and we are sure that a visit from you will be appreciated by the entire school and the teachers.

Let's do all we can for the promotion of the educational interests of the town.

For Sale—Some good Poland China stock hogs, at my place on Panther creek. O. W. Alexander.

Stealing is a penitentiary offense. Wonder what the fellow in Wellington thinks about it who is stealing valuable time by sitting around and cursing the country.

**A Card of Thanks.**

To all the dear friends of Wellington, who so kindly administered their services to my precious mother while here and sick in our home. We so appreciate such kindness as, tender words to cheer, medicine to restore, or to ease the body, good things to eat, flowers to brighten and make fragrant her room, and the earnest, sympathetic prayers to God for the welfare of her dear soul and body.

Especially do we express our gratitude to her faithful physician. Dear mother is gone now. Departed this life October 12 in the house of her daughter, Mrs. G. S. Watson, Stephenville, Tex. We feel assured that one so true to her family, her friends, the strangers, and to her God, has just marched right into the Holy city with the victors tread and triumph, which caused a great swell in the hallelujah chorus when her Saviour and Lord, the King of glory swept with her through the "Eastern Gate" and conducted her on to her own mansion, which he had already prepared for her. Praise God! no more suffering for mother.

**Mission Notes.**

Our week of prayer was a great success, especially with those who attended regularly.

During the five days we had five members who never missed a service. First and last eighteen members attended; namely, Mesdames Mamie Anderson, Pearl Glenn, Sue Smith, Nannie Harper, Emma Richards, Della Leach, Tinie Clark, Flora Williamson, Mary Austin, Della Allen, Mary Hite, Mary Stall, Fannie Stall, Lottie McDaniel, Lama Lonnie, Josie Wiles and Mrs. J. D. Camp and Emma Alexander as new members. Mrs. Minne Campbell also sent in her name for membership. We heartily welcome Mrs. Camp, Campbell and Alexander on our roll. Sister Camp is our District Secretary and suffice it to say she swells the tithing roll one. We should feel much encouraged to have one of our conference officers dwelling in our midst.

Our visitors during week of prayer were Mesdames Smallwood, Black, Evans, Beurger, Rhodes and Rev. Clark, whose presence we greatly appreciated. We will soon be prepared to announce our offering for Brevard Institute. The enlargement of vision and death of spiritual life, wrought upon us through week of Prayer, was plainly demonstrated in meeting, Monday Oct. 16, when twelve members and one visitor, Miss Simmons was present. Every one on duty was present and excuted their parts in a very helpful and entertaining manner, Sister Smith did give us such beautiful spiritual light from the wonderful yi chapter of 2 Corinthians.

Sister Richards, our new treasure is doing splendid work

**Rumors Bailey Will Resign.**

Austin, Texas, Oct. 16.—There was a rumor in some quarters tonight that Senator J. W. Bailey would resign in the near future and that R. M. Johnson of Houston would probably be appointed to fill out the unexpired term. A political settlement has been promised by some and this is said to be it.

According to the first report, C. N. Ousley, of Fort Worth, who has been mentioned as a probable Senatorial candidate, was suggested as the appointee of the Governor, but it was said that the Governor was not disposed to appoint some one who might become a candidate, preferring to name a person who would not enter the race and who would be content to serve out the unexpired term of the junior Senator. It was then said that Mr. Johnson would be the man and that his presence in Washington at this time was significant.

Rumor also had it that at a Gainesville conference the Senator offered to resign if his friends could name his successor outright, but this was not acceptable to the Governor, it is understood.—Dallas News.

It's no disgrace to be broke. Because a fellow hasn't as much money as you is no reason why you should pass him by like a hitching post.

**The Texas Dollar.**  
The Texas born dollar, taken from the soil and from the bowels of the earth, is the most honest dollar in circulation and has more prosperity in it than any other form of legal tender. It spends the week days at the markets and goes to church on Sunday and has few bad habits. It builds our homes, churches and school houses and when these tasks are completed its love for the fireside leads it to prefer doing chores for the family rather than embark in the gigantic enterprises of the 20th century civilization.

It takes special delight in buying the baby a new dress; providing ease and comfort for the home and taking the family on a summer vacation. It is timid and clannish. It will shy at a railroad or a factory like a young colt at a locomotive. As a rule it avoids foreign company and seeks select companions; it travels only in well trodden paths and when it wanders in new fields it soon becomes frightened at the strange sights and goes scampering to the land of its birth.

Along with the noble traits of character, it has inherited some of the frailties of human nature, and one of the most pronounced is idleness. We have \$279,000,000 on deposit in our banks, some of our specie hides in tin cans buried in the back yards and occasionally a roll of bills is snugly tucked away in the hosiery of the family; the idle dollar seldom moves except to run from the tax assessor. Then we have dollars which are inclined to wander; probably \$100,000 per day goes the State seeking foreign investments, but like the prodigal son, they usually return after having sown their wild oats and they come home to us broken in spirit, subdued in courage and other evidences of a miss-spent life and in some instances bring with them a severe case of hook worm. In any event they are too cautious to step outside the bank vault. Many a dollar is now chained to foreign investments that is sadly singing home, sweet home.

The Texas dollar can never develop Texas. The volume is entirely too small and it lacks courage. But with all its faults we love it still and the Texas dollar is a welcomed guest wherever and whenever it appears.

**A Billion Dollars for Factories.**

Texas needs a billion dollars for factories. The amount seems large but it would require an immediate investment of that amount to manufacture the raw material now being shipped out of the state and we have only one-fifth of our land under cultivation and our minerals are practically untouched.

A good way to encourage factory investments in Texas is to patronize home industries. Home patronage would result in flooding our present plants with orders and would require additional factories to take care of the business.

Texas is today the most inviting field on the globe for capital and when our opportunities are understood and our citizenship ready to welcome factory investments by patronizing the products, we will experience no difficulty in securing factories.

# Which Had You Rather Do?

**G**O INTO a one-price dry goods store to buy a pair of shoes where they price you a shoe at \$2.00 and will take no more or no less for it, or go into a dry goods store where they price you the same shoe for \$2.50, but after you tell them a number of times that because it is YOU, and you do most of your trading at their store and etc., and after telling them you will look around and see what you can find in town, they finally sell you this shoe that was worth \$2.00 to begin with, but which they would have charged you \$2.50 for, if you would have paid it, at the \$2.00 price.

Does this "Jew" store know which particular item you are going to ask them to cut on? No. Then what do they do? Mark up every item in the store and if you hammer them on everything, you may get part of them at the right price.

If you wanted something in a hurry and didn't have time to stop and "Jew," which store would you go to?

If you wanted to send for something by a neighbor, which store would you send them to, the ONE-PRICE store or the "Jew" store?

If your five year old child went to this "Jew" store to buy this pair of shoes, which price do you suppose they would charge her for them, the 2.00 or the 2.50 price?

### The Place to Buy.

Our readers are all interested in the best place to buy their supplies, and it is well that they should be. We are just as much interested in assisting every reader of the Leader in any way we can. We therefore call your attention to the ads of our business men in Wellington. They are after your business and will

treat you right and appreciate the trade given them. Watch the Leader each week, they are going to have some rare bargains for you and would especially insist on you watching their ads each week so as to not miss any bargains during the fall season.

See those new ties at the Famous, they are the latest.

### Making Good.

It does not matter so much what claims a man makes about his ability to do a certain work if he only makes good on the job. The fellow who promises little and does much is the one to tie to in the long run. Disappointment in ones fellows is discouraging in the extreme. Do not promise to deliver the goods unless you have the goods on hand. Wind-jamming will not clothe the naked nor feed the hunger. Make good on the job. That is the main thing. Deliver the goods and keep it up. There is but one time to get busy and that is all the time. Every day has its tasks and if you shirk one it will not be long till you shrink them all. Be a worker in the battle. Do not be a drone and live off the labors of others. Add to the sum each day. Make good on the job.

### Citation By Publication.

THE STATE OF TEXAS.  
To the Sheriff or any Constable of Collingsworth County—Greeting:  
You are hereby commanded to summon John Brewer, K. A. Brewer, George Alexander, Floyd Alexander, Charlie Alexander, Sol Brewer, Artemis Martin by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the Forty Sixth Judicial District; to appear at the next regular term of the District Court of Collingsworth County, Texas, to be held at the Court House thereof, in Wellington, Texas on the 2nd Monday in November A. D. 1911, the same being the 13th day of November A. D. 1911, then and there to answer a petition filed in said Court on the 12th day of October A. D. 1911, in a suit numbered on the docket of said Court, No. 242, wherein Reece Bowen, joined by his wife N. E. Bowen, J. W. Brewer and Albert Brewer are Plaintiffs and John Brewer, K. A. Brewer, George Alexander, Floyd Alexander, Charlie Alexander, Sol Brewer and Artemis Martin are Defendants and the cause of action being alleged as follows: plaintiffs represent to the court that plaintiffs and defendants are the joint owners in fee simple of the following described lots of land, situated in the city of Wellington in the county of Collingsworth and State of Texas, to-wit: lot No.

10 in Block No. 228; lots 17 and 18 in Block No. 157; Lots 17 and 18 in Block No 183 in the city of Wellington according to the original map of the said city now on file in the office of the county Clerk of Collingsworth, County, Texas; that plaintiffs Reece Bowen, and wife, N. E. Bowen are the owners of an equal undivided 13-20 part of said lots, that J. W. Brewer is an owner of an equal 1-20 part of said land and premises; and also Albert Brewer is an owner of an equal undivided 1-20 part of said lots; that John Brewer, K. A. Brewer, Sol Brewer and Artemis Martin also own each an equal undivided 1-20 part in said lots; and that George Alexander, Floyd Alexander and Charlie Alexander own together an equal undivided 1-20 part of said lots of land.

That plaintiffs and defendants are the sole owners of the said lots and premises so far as plaintiffs know and estimate the value of same at \$200.00

Wherefore plaintiffs pray the court that defendants be cited to appear and answer this petition, and that they have judgment for the partition and division of said lots, that no commission be appointed but that the court appoint some suitable person to sell the lots at public auction and divide the proceeds, and for such other and further relief, special and general in law and in equity, that they may be entitled to.

Herein fail not, But have you before said Court, on said first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Wellington, Texas, this 12th day of October A. D. 1911.

Geo. W. Lee, Clerk District Court, Collingsworth County, Texas.  
By Grover C. Cunningham Deputy.

### Much Business Coming Here.

It is no uncommon thing to see a number of farmers on our streets every day with produce for the market, who live many miles away, some even over in Oklahoma. One man who lives beyond Madge, Okla., was here Wednesday with two bales of cotton, says the Wellington buyers are paying more for cotton than they do at Mangum, a town

much larger than Wellington, and he further says that he can buy goods cheaper from Wellington merchant, too. And he informed us that if the sandy roads from here to Madge were strawed or fixed there would be lots of cotton come here, and our merchants would realize a large volume of trade from that country that otherwise goes to Mangum and other towns.

You owe it to your children to see that they are well dressed and comfortable. How can it be done on the least money? Stockings have been the greatest trouble. You know the kind that look well until the first recess. If your boy is the right kind of boy, he plays so fast he forgets all about his stockings. To grow he must play that way. Give him the kind of stockings that take care of themselves—

Leap-frog, hop-scotch, foot ball, and many other games need have no terrors for the mother who has bought her son Wunderhose. Let him scuffle, slide, jump all over the play ground—no strain, no holes, no ravel. These wonderful stockings are made from Wunderyarn, dyed with Wunderdye. Wunderyarn are spun from the largest and toughest cotton fibre known. They are twisted and combed until they have the strength of rope, with the "feel" of silk. Only double threads of Wunderyarn—no single ones whatever—are used in Wunderhose. The heels, toes and knees are reinforced, and remember the strength of re-inforcing yarns does not depend on the thickness. That is one of the reasons why the heels and toes of Wunderhose are so soft and pliable and yet so strong. In Wunderhose families the mother helps her children with their books when other mothers are slaving with the darning needles.

**Extra Primaries.**

The fact that the primary election law makes no provision for the selection and instruction of delegates to a National convention is well known. That defect shines forth glaringly enough to be clearly perceived by blind men. The fact that a primary election has no legally binding force on a Legislature in the matter of choosing a United States Senator is equally well known. Only those who have an instinctive aversion to every assertion of popular sovereignty could think it necessary to remind us of those palpable defects in the law. Likewise, only those who feel a natural resentment when the people demand a direct voice in the choosing of their public servants could see any formidable obstacles in the fact that no provision is made for the cost of such

elections and in the further fact that they are not hedged about with penalties. The gentlemen who are candidates for United States Senator will have no difficulty in finding adherents in every voting precinct of the State who will do the work of holding the election without charge. Every candidate could be allowed his own representative. That would provide an ample safeguard against a false return. In every precinct every candidate would doubtless have enough active adherents to make it difficult, if not impossible, to cast unqualified votes. Once already in this State we have held a primary election for the election of delegates to a National convention. No one has asserted that the returns from that election were false. No one has charged that there was fraud enough to vitiate the result. What was done once can as easily be done again. As to the binding force of a preliminary primary for United States Senator, there need be no fear. They are only conjuring up spooks who think those who are eliminated in the first primary would insist on being voted for in the second. That would be a course of politeness that would be visited by such certain and condign punishment in the way of popular derision that no man who is capable of aspiring to the United States Senatorship would incur the risk of it.

No objection which is not pitiful and paltry can be urged to the proposal that has been made by Mr. Ball and acquiesced in by Mr. Sheppard. The people of Texas have an inherent and inalienable right to say for themselves whom they prefer to have represent them in the Senate and whom they prefer to have the Democratic party nominate for President. If the spirit of democracy lives in the Democratic Executive Committee of this State that right will be recognized. If it is not recognized, it will not be because the men who urge the objection to it really believe in those objections.—Dallas News

**A King of the Forest.**

One of the interesting features of the fair, was the head of an Elk, killed by Mr. — Smith, a citizen who lives in the north east part of the county. It was killed in Idaho, about two years ago, and is one of the finest specimens of this animal, perhaps, in existence. This specimen proves that Collingsworth county, while not classed as a hunting district yet it can boast of as fine marksmen as the world produces, Teddy Roosevelt not excepted.

The horns of the animal measured four feet in length, and the left horn had eight prongs, while the right had six. They measured four feet between the horns at the widest points. The head measured twenty inches from the point of the nose to the top of the head.

Some wag had placed the following inscription on the relic. "Killed on Salt Fork, at the mouth of Indian Creek, by L. M. Small 19 years ago.

Charley McClaskey, who is also an old residenter, remarked when he read the inscription, "Lem might have killed that elk, but I lived up there about that time, and if he did, he kept the secret 'all fired' close."

Mr. Smith will send this relic along with the county exhibits to

the Dallas Fair, where he will probably get a handsome price for it. It is indeed one of the finest to be found any where.

**Farm Tenantry Question.**

More than a hundred tenant farmers' associations have been organized in this State, it is said, and there is to be a meeting at Waco on the last day of this month to organize a State association, and to consider the whole problem growing out of farm tenantry. That farm tenantry does present a problem must be pretty evident, both an economic and a social problem. As a social problem it interests chiefly the tenants, but as an economic problem it concerns not only tenants, and landlords, but every man in Texas, whether he live in city or country. The last census showed that just about one half the farmers in the State are tenant farmers, and that fact discloses anything but a healthful condition from the sociological point of view. But the economic phase of the matter is that so large a tenant class, under the conditions of tenantry that now exist, absolutely precludes that conservation of soil fertility which every one is beginning to see must be practiced if the agricultural industry is to be made steadily prosperous. Why this is so is too obvious to need statement. The sufficient reason of it is that a tenant having the certainty of no more than a year's use of the soil which he cultivates has no interest in conserving the soil's fertility.

### Beauties in Chickens.

Our County Fair has demonstrated that our people are considerably interested in the raising of fine chickens. The collection is much larger this year than has been at any of our trades day exhibitions. We see this year, some of the very finest birds that it has been our pleasure to look at for some time. Two coops of Buff Rocks were exhibited, one by L. M. Montgomery, and the other by D. S. Hardman.

Mrs. W. T. Cantrell was in, of course with her fine Rhode Island Reds. Mrs. Cantrell has made a specialty of this bird, and has worked a revolution in this county in the breeding of this splendid chicken. Mr. W. L. Harris, who through Mrs. Cantrell, began raising this chicken,

showed some as fine four month olds as one would wish to see. W. H. Griffin also showed some fine birds of this strain.

T. M. Stansell sticks to the old rough and ready Plymouth Rock. Heshowed a fine coop of this fowl, and demonstrates that for quick growth and a big yield, he stands second to none.

Then comes J. B. Algood, with the little Leghorn daisies. They are noted, the world over, for the number of eggs they produce.

### To The Public.

I wish to announce to my friends and the public that I am now on the streets with a job and express wagon and will be glad to do your express and other hauling. Careful attention given all work entrusted to me. Phone Henry Forbis.

### Cotton.

Sweetwater Reporter: The sharp decline in the price is causing many of the farmers to carry their cotton to their homes or place of storage. The decline is evidently caused by the fact that much of the staple is being thrown on the market at this time. While the crop is not large the conditions throughout the cotton belt has caused it to be gathered and rushed on the market considerably earlier than usual. But then the "guys" at the other end of the cotton market can do pretty much as they please about the price of cotton anyway.

The spinners believe there is a large crop. It is difficult to convince them otherwise when there is so much cotton being sold and coming steadily into sight. They are buying what they want at

the prevailing prices, and as business men they see no necessity for bidding up the price as long as the cotton comes in quantities at the quotations prevailing. Then there are our friends, the bulls, whom we patted so enthusiastically on the back last year. It is currently reported that some of them, after carefully considering both sides, have become bears. That is always one great trouble with a bull—he may be a bear next year.—Dallas News.

### The Texas Hog

The dinner bell of the nation rings out the praises of the Texas hog and he is diligently sought after by the consumers of both continents.

No domestic animal has ever made such sacrifices to meet the demands of progress as the hog. He has given half of his life and fifty-six pounds of flesh to meet the market demand for young stock. Certainly the human race has made no such sacrifice for success as this dumb brute. According to the census reports of the Federal department of agriculture the average weight of the hog has decreased from 275 pounds to 219 pounds during the past thirty years and he is now going to the market one year earlier than formerly.

### 1910 VALUE PER HEAD \$7.70.

As a revenue producer he undoubtedly excels any other animal on the globe and enjoys the distinction of being the only animal that can swell a bank account by emptying a swill barrel. The hog is the most prolific of all domestic animals. As a rule the hog is not troubled with competitors, although King Cotton has made an effort to imitate his by-products by putting on the market a compound substitute for lard, but wherever the fat of the hog can supply the market his counterfeit quickly disappears.

The hog has thickly populated the rural districts of Texas and his rapid approach has so alarmed city councils that numerous ordinances have been passed prohibiting him from entering the city limits, but when properly dressed and cooked he quickly wins the favor of both aldermen and citizens.

The Texas swine is the most prosperous of all hogs in the United States. According to the census reports of the Federal department of agriculture on Jan. 1, 1911, the average value of hogs of all ages in Texas was \$7.70, which is an increase of 373 per cent since 1870. No state in the Union can compare with us in increase in value per head of hogs. The total value of all hogs of all ages at the present time is approximately \$25,000,000. We have shown an increase of \$39,000 in number and \$17,000,000 in value during the past decade.

Texas is one of the best hog countries on the globe and the animal fattens economically under natural conditions.

**When.**

When you envy the rapid success of another, try to find out the price for it.

When you meet a man, study his good rather than his bad qualities. Man is an imitative animal.

When you find an employe who is a machine, look farther and you will discover an employer who is a crank.

When you have learned to keep your mouth shut at the proper time, you have acquired enough capital to embark in almost any business.

When you begin to think every other man's business is superior to your own, you will soon realize that your own business is superior to yourself.

When you are tempted to engage in some business because of the great fortunes won in it, find out what the average success is before you make up your mind.

When you hear it said "Don't put off till tomorrow what you can do today," remember, this does not apply to contracting debts, writing "mad" letters, or discharging employes.

When you are inclined to believe Barnum's saying that "The American people like to be humbugged," a good look at any of our populous penitentiaries will restore your mental balance.

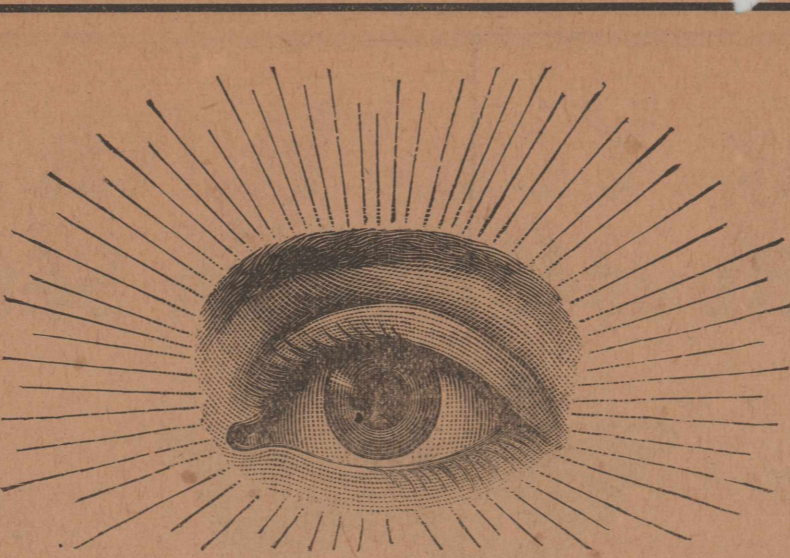

**Growing Pigs.**

It should always be born in mind that a growing pig needs abundant exercise. This will not only stimulate growth, but will also do much toward warding off sickness. Many outbreaks of diseases in hog herds might have been avoided if its victims had not been too closely confined.

A pig having plenty of exercise is almost immune from thumps. A successful hog breeder whose pigs were never affected with thumps, attributed their immunity to the fact that he kept a large box near the pen, and if a pig began to get unduly fat and particularly chubby around the neck it was put into the box and left to squeal and chase about for two hours at a time in endeavor to escape. This treatment was repeated twice a day until the pig showed satisfactory evidence of being out of danger.

**The Future of Wellington.**

Possessed of every natural advantage that mind could conceive or heart desire, Wellington should now, with her facilities, take first rank in the list of commercial wonders of Northwest Texas.

Surrounded by the most fertile soil that ever furnished sustenance to a people, and possessed of a trade territory of extensive proportions, its growth should be phenomenal, but permanent; its future should furnish an illustration of progress and industry seldom witnessed in the history of townbuilding.

Wellington has every advantage that is calculated to incite the interest of the investor. It is most ideally located in the center of a vast expanse of beautiful country, as attractive as the blue grass regions of Kentucky and as fine as the famous valley of the Nile.

In natural advantages it stands prominently above any undeveloped section of this great state, and is unusually inviting to the interested investor who seeks an assured reward for his capital.

This, and more, could be truthfully said of Wellington, but encumbrances will not build a city, nor will prase produce the desired growth.

Wellington people must "put their shoulder to the wheel," they must unite their energies for the future of the town, and must fight the commercial warfare with unrelenting energy.

Natural resources of themselves never build a city, advantages of even the most pronounced nature were never known to develop a country. It takes the organized efforts of a progressive citizenship to produce the best results.

This proposition present itself squarely to the property owners and business men of Wellington. The town has now attained the critical stage in the history of its career when the foundation of the fortune must be laid. It is just now merging from the discouraging condition incident to the work of an inland town, and is blessed with the advantages of railroad facilities.

At this time more than at any other, is the importance of an earnest effort emphasized and never had it been so necessary that the entire citizenship pull together.

It is true, that such action was important and necessary in securing the railroad, but it must be remembered that this achievement was but the entering wedge for greater acquisitions and to stop now would mean that the timber would never be worked up; one railroad alone, essential as it is, will not of itself build a city. There must be a well organized commercial effort all along the line.

To accomplish these conditions the Commercial Club must first consistently and persistently advertise the resources of the town and surrounding country.

First the inventors must be made acquainted with the opportunities offered, then when they shall become interested every effort must follow to have them located.

W. Hedrick and C. E. Greenmeyer whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the county of Collingsworth at the Court House thereof, in Wellington Texas, on the 10th Monday after the first Monday in September A. D. 1911, the same being the 13th day of November, A. D. 1911, then and there to answer a petition filed in said court on the 22nd day of June A. D. 1911, in a suit numbered on the docket of said Court No. 225, wherein H. E. Singley is plaintiff and B. W. Hedrick and C. E. Greenmeyer are defendants.

The nature of the plaintiffs demand being as follows, to wit: For cause of action plaintiff represents to the court that on or about September 1st, 1910, that the plaintiff herein H. E. Singley was and is still lawfully seized and possessed of the following described lots of land situated in the city of Wellington, Collingsworth County Texas, known and numbered as lots Thirteen (13) and sixteen (16) in block two hundred and twenty-nine (229) in said city of Wellington Texas, according to the original map of said city now on file in the office of the County Clerk of Collingsworth county Texas, in Vol. 1 page 145, of the Deed Record of Collingsworth county Texas.

That on the day and year last above named the said defendants unlawfully entered upon the said two lots of land so belonging to this plaintiff, which said lots of land, this plaintiff was then and owning and holding the same in fee simple title, and ejected plaintiff therefrom, and now unlawfully withholds from plaintiff the possession thereof to plaintiff's damage in the sum of five hundred (\$500.00) dollars.

Wherefore plaintiff prays judgement of the court that said defendant be cited in terms of law to appear and answer this petition and that upon hearing hereof that plaintiff have judgement for title and possession thereof and the cancellation of all outstanding deeds to the said lots of land, and that a writ or restitution issue, and for his damage and cost of suit and for such other and further relief special and general in law and in equity as he may be entitled to, and in duty bound will ever pray.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said court, at office in Wellington Tex

this the 3rd day of October A. D. 1911.

Goe. W. Lee,  
Clerk District Court Collingsworth County Texas.

**Cotton Opening Fast.**

The constant dry weather and the warm sunshine is causing the cotton bolls to burst open all at once, almost, and the roads leading to the gins are a constant train of wagons, coming and going, and our gins are running day and night, and then its no unusual thing to find from 50 to 75 bales on the yards at any time for they come in during the night.

From all sections there is an urgent demand for pickers and enough can not be found to fill the wants of near all the cotton growers, some of whom must wait impatiently until the pickers finish their neighbors fields. It is said by every one coming here from other parts of this state and from other states, that the crop is much better here than at any place they had seen, and many of our farmers report from a half to three fourths bale per acre. We are informed that our farmers are now offering \$1. per hundred and board, in order that they might help to get their cotton out before the bad weather shall have set in.

REAL ESTATE AND ABSTRACTS

Special Attention Given to Land Titles

**BUSINESS CHANGE**

By mutual consent W. N. Benson dissolves his connection with the firm of Witherspoon, Painter & Co., the dissolution taking place on Sept. 1, 1911. Our law and abstract office will remain for the present with these gentlemen. As our time will be considerably divided in making abstracts and selling land, we have decided to adopt our original plan of advertising in the newspapers, listing exclusively, allowing customers to examine the lands listed with us at their own expense, and charge the owners only 2-1-2 cents commission. We desire to co-operate with all the real estate firms of Wellington, and other parts of the county, when they have special bargains, we paying the expense of advertising, in case of sale, realizing our commission.

*The Following Will be Our Rules*

1. We list nothing that does not appeal to us as being a bargain.
2. By listing with us the owner understands that we are to advertise the same at least one time in the county paper.
3. We claim thirty days in which to make a sale from the date of last advertisement.
4. Advertisements may continue to run until ordered out.
5. We advertise bargains in the name of the owner, and parties can see either agent or owner to close trades; commission being due when sale is made by agent or owner.
6. Parties may list their land with any other agency, but in case of sale, we claim 2-1-2 per cent on amount of sale for the advertising and personal efforts given to effect a sale.
7. In case of exchanges, each party pays one half of the commission.
8. In the sale of personal property, we charge 5 per cent on the value of the stuff, when sold.
9. When the property offered, appeals to us as deserving advertisement in other papers, other than the county papers, or by other methods, we pay all the cost of such advertising.
10. Watch this space for bargains, as they are likely to appear each week.

## GOVERNORS EELAY COTTON CONFERENCE

(Continued from page 1)

ter of the highest importance that every Governor of a cotton-producing State be present. It is my intention to sacrifice other matters to attend this meeting, as I think the presence of the Governor of each state will have a better effect than any representative he could send.

"I will be glad to receive any suggestion from you which you may desire to make."—Dallas News.

### Take Care of the Heard.

What arrangements are you making to maintain the sows and pigs through the winter, asks a writer in Farm and Ranch. Dry feed will not be sufficient because it will not make satisfactory gains. Cheap pork cannot be produced on dry feed alone.

If a winter crop has not been planted the swine grower should sow a crop right away at the earliest possible hour—don't wait. Haste should be made because the young plants will need time to make growth before severe winter interrupts.

Rye is a good grazing crop for swine. It is comparatively hardy grows rapidly and affords plenty

of grazing when conditions are favorable.

Wheat may be sown for swine with good results. It stands late planting fairly well and usually gives an abundance of green food where the land is strong.

Rape is especially desirable on good land. It should have been planted earlier, but if this was not done it may succeed well this late. Dwarf Essex rape is preferable. The land should be of good fertility and in fine condition when sown. Plant in rows about three feet apart and cultivate a few times, or sow broadcast if the land is free from weeds and is of good fertility.

Rye and vetch sown together

make excellent hog pasture. The rye supports the vetch, which has a weak stem. Vetch is a legume and in addition to furnishing rich food for the animals benefits the soil.

### What the Editor Wants to Know.

One desire of the editor is to please his readers. But it is not always easy to find out whether he is doing this or not. If a mistake is made, he is likely to hear it. But on the other hand, if he prints something that pleases it is not easy to find out. A pleased reader is not so likely to write as a displeased reader is. He is pleased and lets go at that. There are few things we value more than a letter of honest crit-

icism; but on the other hand it would make our work surer if our readers would, even more than they do, reach out a hand to us and make it evident when they feel we are pleasing them. Not that we seek praise, but we do seek help, and to know when one is on the right track is just as helpful as to know when one is on the wrong track. It is true you are all busy, and to write a letter takes time. Still it is always time well spent, for if we knew when we were going right we could make the paper stronger and better, and that recompenses you in that you get better worth your money. We are all inclined to withhold praise, when in fact, nothing is more stimulat-

ing or conducive to better work than a word of honest commendation. To let us ask this: Whenever you are particularly pleased with something we do, take the trouble to tell us your pleasure while we are doing it. It will help us materially and it often happens that such a cheery word comes at the time when the pen feels the heaviest.
