

Lubbock Morning Avalanche

SIXTH YEAR, NO. 22

TWELVE PAGES TODAY

LUBBOCK, TEXAS, THURSDAY, DECEMBER 1, 1927.

MEANS "BY ASSOCIATED PRESS"

Citizens Endorse Plains Advertising Campaign Norther Grips All Of Texas; 'Warmer' Forecast Today

Ice Is Predicted for Early Today, But Clear Sky, Rising Temperature Due Later, According Weather Dopesters

Cold Wave Extends from Amarillo On North Down To Corpus Christi and Other Points On Coast.

FIRST SNOWSTORM IS FELT THROUGH WEST

Many States Report Heavy Blanket of Snow, Missouri Having Heaviest Fall for November.

With the icy blasts which swept across the section yesterday, the weather cleared up at midnight practically disappeared at dawn, and a clear sky and rising temperature for later in the day.

Temperatures here yesterday ranged from 21 in the early morning hours to 42 during the middle of the day. With tonight's snow, the mercury is standing at 21 at midnight.

A blizzard, but not altogether unexpected, hit a large portion of Texas Wednesday night with a promise of colder temperatures by Thursday morning. While the preliminary blasts had reached as far south as Corpus Christi, it was only in the northern portion that the winter temperatures had been anticipated.

Amarillo reported partly cloudy skies and a temperature ranging for the 24 hours of from 41 to 29 degrees, accompanied by a brisk north wind which died away at night. Edinburg, at the other end of the state, reported a temperature of 40 degrees accompanied by a rain which was reported in the Rio Grande valley late Wednesday.

Wichita Falls reported clear skies and a temperature of 46 degrees.

Smash Fatal For Air Mail Carrier

Body Found In Wrecked Plane; San Antonio Man Critically Hurt When Ship Spins While Making Film.

(By Associated Press) KENDALLVILLE, Ind., Nov. 30.—The body of Edward Asberg, air mail pilot, was found in the wreckage of his airplane today on the farm of George Simmons, eight miles northwest of here. The airplane, forced down in a storm last night, did not catch fire and the pilot's body was found crushed under a mass of wreckage.

Asberg is the second air mail pilot to lose his life in this vicinity.

John Millato was killed near Topeka, Ind., April 22.

Officials believe Asberg lost control as his plane touched the ground.

SAN ANTONIO FLIER BADLY HURT
SAN ANTONIO, Nov. 30.—John T. Kirk, civilian aviator, was probably fatally injured tonight when his plane crashed from the attempt to film a "thriller" for a new reel release.

Kirk's plane went into a power spin shortly after he left the ground.

Shopping Days Till Christmas

Steady growth in building here was continued with the issuance of a building permit issued from the city office yesterday to W. L. McDill for the erection of a 15000 five-room duplex residence on block 48, lot 24, of McCrummen addition. Tom Jackson is contractor for the building.

PERMIT ISSUED FOR NEW \$3000 RESIDENCE HERE

SAN ANTONIO TO INVITE 1928 G. O. P. CONVENTION

SAN ANTONIO, Nov. 30.—A committee of these San Antonio business men left for Washington Wednesday carrying the official invitation of this city for the Republican national convention next year. The committee carried a pledge of \$125,000 for the entertainment of the convention.

Don't get off all tomorrow in the way man's rule, you'll find Apply to your shopping lists. And get it all your mind.

"GUILTY" PRO VERDICT

One-Year Sentence Assessed On L. J. Denning

A verdict of guilty was returned and sentence of one year in the penitentiary assessed against L. J. Denning, 37, of the Nineteenth district court here last night. The verdict was returned about four hours after the case went to the jury. The verdict marked the second conviction and sentence for violation of the prohibition law in the same number of days.

Russians Extend World Challenge On Disarmament

Declaration Offers to Scrap Military Forces If Others Will Do Likewise; Soviet Seek Peace.

(By Associated Press) GENEVA, Nov. 30.—Soviet Russia today challenged the entire world to disarm. The Russian declaration in the preparatory discussions of the commission of the League of Nations offers to destroy her land, sea and air force, provided other nations would do the same.

The stipulations proposed left the other delegates bewildered and groping for an answer, but with the impression that Russia definitely had entered the peace fabric of Europe. However, the general impression, except possibly among the Russians, is that total disarmament is an idealistic dream for the present at least. Nevertheless, there is readiness to wrap it up amicably.

That the Russians themselves realize their plan to lay down all arms and make even their manufacture impracticable is to be idealistic for the present at least, was shown by the Russian's unwillingness to negotiate in a piecemeal form for the reduction of armaments if their radical program proved too revolutionary and that they did not insist on immediate action in detail of their sweeping program.

NO STATEMENT MADE

Four Held In Plomat Fray Refuse to Talk Further

No information which would throw any light on the slaying of Constable Leo Spangl of Plomat Monday night was forthcoming last night from any of the four men held here in connection with the shooting, according to Sheriff H. L. Johnston.

Each of the men has been grilled by officers, and according to Johnston, they will talk but won't say anything.

The four men held are Paul Landry, Scott Knight, W. P. Allen and Harmon Mosley. They are here pending orders from a Motley county grand jury which is at work on the investigation.

BUILDING TOTAL UP

Reaches \$1,210,277 for the Year; Nov. is \$187,628

Lubbock's building total for the year so far, to \$1,210,277 with the end of November, figures from the city hall showed yesterday.

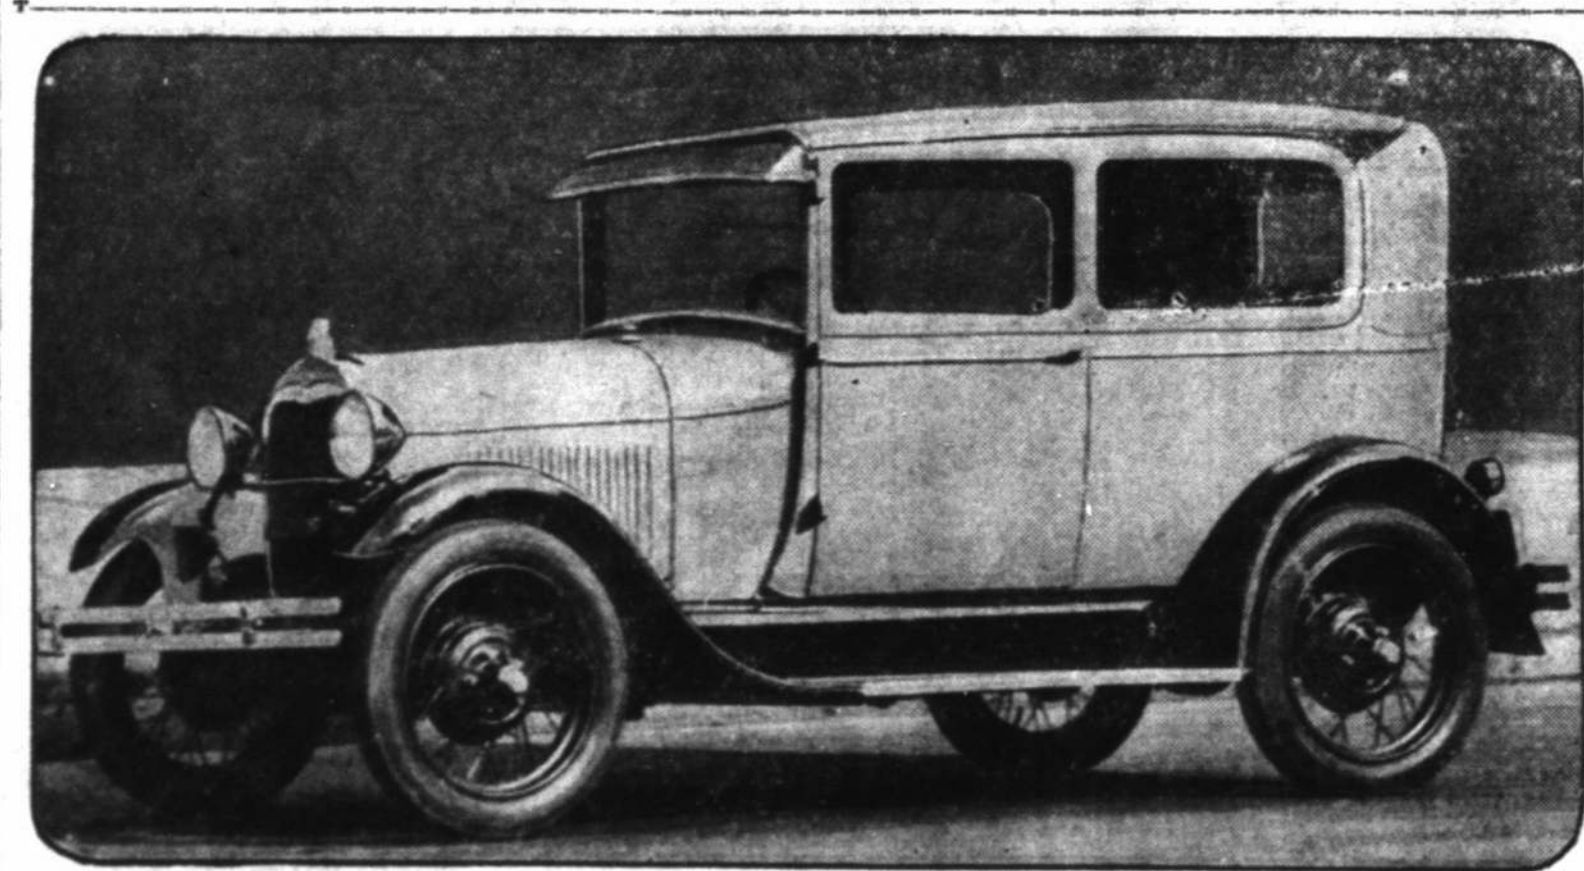

The total for November was \$187,628.

OIL GAUGER NAMED

Charles A. Christian To Oversee Texas U. Lands

AUSTIN, Tex., Nov. 30.—Appointment of Charles A. Christian of San Antonio as oil gauger for the University of Texas board of regents to operate in the university's oil land holdings in Reagan county, was announced late Wednesday by R. V. Nichols, law enforcement chief of the attorney general's department. John H. Priest, of Marit, was named to succeed Christian as legal investigator for the state.

HERE IT IS—FIRST PICTURE OF FORD'S NEW MODEL

New Ford To Sell From \$385 to \$570 Statement Avers

Announcement Made at Detroit Last Night Shows Lower Mark Than Expected; Car Is Demonstrated.

(By Associated Press) DETROIT, Nov. 30.—Prices of the new Ford car, given out here tonight show a range of from \$385 to \$570 for the various types of pleasure cars and \$450 to \$610 for the various truck types.

The various types, and their prices: L. C. B. Detroit, \$450; Tudor sedan, \$485; Four door sedan, \$570; Coupe, \$485; Sport coupe, \$550; Phaeton, \$585; Roadster with pick up body, \$525; Chassis, \$325; Truck chassis, \$440; Truck chassis with cab, \$545; Truck chassis with cab and stake body, \$610; Truck chassis with cab and platform body, \$525.

DRIVEN 62 MILES AN HOUR DURING STORM

DETROIT, Nov. 30.—The new Ford car, which was driven at 62 miles an hour during a storm, was brought to abrupt halt and taken around curves at a terrific pace.

At the conclusion of the demonstration, Edsel Ford, in charge of ceremonies, was besieged with questions regarding the secret of the car.

WAR SCARE AIRED

Briand Optimistic Over Accumulating Clouds

PARIS, Nov. 30.—Accumulating threats of trouble between European nations were given an airing in the French chamber of deputies today, particularly friction between France and Italy. Several radical deputies professed to see a great many war clouds in the European sky but Foreign Minister Briand, in an eloquent resume of the foreign situation, was his usual hopeful self. He was optimistic as to the possibility of France and Italy straightening out their difficulties amicably.

War between the two countries, M. Briand declared, was unthinkable and impossible.

Reporter, Assigned to Get Story About Remus, Declares Ex-Booze King Insane

Holds Crowded Courtroom Spellbound With Tales Of Remus' Eccentric Actions; Says Remus Often Had "Brainstorms," Which Overcame Him

(By Associated Press) CINCINNATI, Nov. 30.—John T. Rogers, 47, five years a reporter for the St. Louis Post Dispatch and winner of a Pulitzer prize for the most meritorious newspaper work of a year, came into George Remus' murder trial as a witness today and held a crowded courtroom, jury and judge spellbound with his vivid pictures of Remus, a maniac.

Alabama's Battle Against Flogging Abruptly Stopped

Two Tried Are Acquitted And 31 Other Cases Are Dropped At Luverne; Masked Lashing Was Alleged.

(By Associated Press) LUVERNE, Ala., Nov. 30.—Alabama's fight against masked violence came to an abrupt end here today following the acquittal of two men, accused of complicity in hooded whippings and controversy between Attorney General Charles McCall, the state law enforcement department, and the Ku Klux Klan.

Judge A. E. Gamble adjourned court today after withdrawal by Solicitor Calvin Poole of the state's cases against 31 men remaining to be tried for participation in a score of masked lashings in Crenshaw county.

Solicitor Poole, who has aided McCall in prosecuting the cases, said he was not willing to quarrel the cases, but asked that they be tabled "until such time as there is a different sentiment in the county."

The collapse of the trials followed the withdrawal last night of Attorney General McCall from active participation in the prosecution after he had charged the Ku Klux Klan with attempting to "quiet him" in his investigation of floggings in the state.

FERGUSONS AGAIN

Rumor One Ma's Appointees Will Oppose Moody

AUSTIN, Nov. 30.—The Austin American will say tomorrow that unconfirmed rumors around Austin were to the effect that the "Fergusons to come" will figure in next year's gubernatorial campaign, possibly with Luther Nickels, appointee of former Governor Miriam A. Ferguson, to make the race against Dan Moody and others.

Nickels, who served as judge on the supreme court commission of appeals under appointment of Miriam A. Ferguson, is considered a likely entry into the gubernatorial race, the paper's political writer predicted.

That the political following of the Fergusons would line up behind him is declared inevitable.

DELAY LUBBOCK CASE

Suit of J. M. Jones on State Tax Law Is Set Back

AUSTIN, Nov. 30.—Hopes for early decision in a suit involving J. M. Jones, Lubbock county, and the state, in which Jones attacks constitutionality of the state inheritance tax law, were slightly set back today when the supreme court over ruled a motion to set arguments.

Salvation Army Campaign Today

Teams Take Streets at 10 This Morning In Drive for \$4000, Needed to Carry On Work During 1928.

Expansion of work of the Salvation Army in Lubbock is planned for 1928, according to the Rev. E. L. Whiddon, Dallas, special representative of the Salvation Army.

Teams will take the streets this morning at 10 o'clock in an effort to raise \$4000, which amount is needed to adequately care for work planned by the Salvation Army during 1928.

Expansion of work of the Salvation Army in Lubbock is planned for 1928, according to the Rev. E. L. Whiddon, Dallas, special representative of the Salvation Army.

Teams working today will be headed by Judge Charles Nordyke, Judge J. L. Ratliff and Charles A. Guy. Workers will also include T. W. Sawyer and Nell Wright. A call has been issued by Mr. Whiddon and the team captains for additional workers.

"We want them only for an hour or two," declared Mr. Whiddon.

The city will be divided into districts and the districts assigned to teams. Mr. Whiddon expressed belief that the quota would be subscribed in a short time.

Singers Coming

Featuring the campaign will be a brigade of singers and musicians from Wichita Falls who will be here.

WAR SCARE AIRED

Briand Optimistic Over Accumulating Clouds

PARIS, Nov. 30.—Accumulating threats of trouble between European nations were given an airing in the French chamber of deputies today, particularly friction between France and Italy. Several radical deputies professed to see a great many war clouds in the European sky but Foreign Minister Briand, in an eloquent resume of the foreign situation, was his usual hopeful self. He was optimistic as to the possibility of France and Italy straightening out their difficulties amicably.

War between the two countries, M. Briand declared, was unthinkable and impossible.

Alabamians Club To Select Officers

Two Complete Tickets Are Named and Will Be Voted Upon by Club Members at Luncheon Today.

Election day will be observed by Lubbock Kiwanians at the noon luncheon today at the Lubbock Hotel.

Two complete tickets have been submitted by nomination committees and these will be voted upon by the club.

The selections for officers and directors are as follows:

No. 1—Fred W. Standefer, president; E. E. White, 1st vice-president; A. H. Leidigh, 2nd vice-president; L. E. Holland, secretary; Sam C. Arnett, treasurer; W. C. Rylander, district trustee. Directors—Amos H. Howard, W. L. Stangel, S. C. Wilson, D. D. Roderick, K. N. Klapp, V. Y. Clark, G. P. Kaykendall, M. H. Duncan, Tom Garrard, J. T. Krueger.

No. 2—Fred W. Standefer, president; H. D. Wood, 1st vice-president; Lutwood H. Bradley, 2nd vice-president; Amos H. Howard, secretary; L. C. Ellis, treasurer; L. G. H. Williams, district trustee. Directors—Allen Hill, Allen T. Stewart, J. W. Rollo, F. J. McClure, Frank Jones, Ray C. Mowery, Chas. Whitacre, T. E. May, V. V. Clark, M. H. Duncan.

REPORTER, ASSIGNED TO GET STORY ABOUT REMUS, DECLARES EX-BOOZE KING INSANE

Holds Crowded Courtroom Spellbound With Tales Of Remus' Eccentric Actions; Says Remus Often Had "Brainstorms," Which Overcame Him

(By Associated Press) CINCINNATI, Nov. 30.—John T. Rogers, 47, five years a reporter for the St. Louis Post Dispatch and winner of a Pulitzer prize for the most meritorious newspaper work of a year, came into George Remus' murder trial as a witness today and held a crowded courtroom, jury and judge spellbound with his vivid pictures of Remus, a maniac.

Rogers testified he revealed to Remus alleged plots of Mrs. Inez Hester, Remus, and the woman for whose slaying Remus is on trial for his life, and Franklin Dodge, Jr., to have him deported to Germany and later to have him slain by paying gangsters \$10,000.

Those tales, with a host of others narrating the alleged misconduct of Mrs. Remus and Dodge, were his basis, according to Rogers, for his sensational "brainstorm" plan of fraudulent maniacal insanity, for driving him out of his mind.

Rogers testified he had informed the managing editor of the St. Louis Post Dispatch as long as last summer that Remus was insane.

The reporter, coming first into contact with Remus, he said, when the Post Dispatch assigned him to get the story of Remus' life as a whiskey dealer and bootlegger after Remus had been released from the federal penitentiary at Atlanta twenty seven days. From that time until three months ago he was in intimate contact with Remus.

Fifty Community Leaders Listen To Preliminary Plans and Unanimously Favor Broadcasting Merits of Area

PERJURY CHARGED

Defense Witnesses in Bank Bandit Trial Arraigned

CORSICANA, Tex., Nov. 30.—Four defense witnesses who offered an alibi for C. C. Howe, in Howe's trial here for robbery with firearms in connection with the holdup of the First State Bank of Corsicana, were arraigned Wednesday and charged with perjury.

Those arrested were J. E. Howe, Jr., brother of the defendant, Mrs. C. C. Howe, his wife, Louie York, her brother, and Jeff Ward.

Brakes Clamped Down To Prevent Undue Tax Slice

The Administration Leaders Hope To Prevent Congress "Safe Limit" in Reduction

(By Associated Press) WASHINGTON, Nov. 30.—Brakes were clamped down by administration leaders today in an effort to prevent congress from over running what the treasury regards as the safety line in the question of tax reduction.

At the capital Representative Tillson, Republican House leader, backed up the treasury position for a cut, not in excess of \$25,000,000 and at the department itself Secretary Mellon reiterated that the treasury figure represented the maximum slice that could be effected with safety.

While Tillson and the secretary withheld specific reference to the announcement by the Chamber of Commerce of the United States, reiterating its belief that a reduction of \$400,000,000 should be authorized both contended that it would be dangerous if congress exceeded the limit proposed by the treasury and favored by President Coolidge.

Secretary Mellon said that he believed the corporation tax, now 13 1/2 per cent was too high and should be reduced as soon as possible, even below the 11 1/2 per cent figure approved by the House ways and means committee for incorporation in the new tax bill it has drafted.

The treasury favors an immediate cut in the corporation rate to 12 per cent but Mr. Mellon indicated that his department did not regard the forthcoming tax reduction as the "last" to be recommended and that this levy probably would come in for more consideration in a future tax bill.

MINES TO RESUME

Troops-Operators Plan To Start Again Today

DENVER, Colo., Nov. 30.—(AP)—National guard troops were stationed in every coal mine in northern Colorado today as operators announced they would attempt to resume operations tomorrow. Only one mine, the Columbine, where six strikers were shot and killed November 21, has operated since the "I. W. W." strike call was made nearly seven weeks ago.

Mines in southern Colorado reported larger forces and the coal production of the Colorado Fuel and iron company mines yesterday was said to be the highest since the strike was called.

No apparent headway has been made on any of the plans suggested for ending the dispute between the operators and the miners.

MISSING PARTY SAFE

Colorado River Expedition Reaches Town In Safety

SALK LAKE CITY, Nov. 30.—(AP)—The thirteen members of the Colorado River expedition, unharmed from since they left Green River, Utah, November 16, were reported safe in a radio message received at the Fort Douglas station of the army signal corps tonight. The message was sent from Camp Pearson, on the Painted Desert, Arizona.

The boats of the expedition were first seen by Indian runners above Lee's Ferry late this afternoon and tonight the weather-worn travelers were taken to Camp Pearson after their boats had been beached, the message says.

The party had been battling winter conditions during the trip which made their voyage difficult and dangerous.

Further Plans are Started To Bring Project Before General Public Here for Approval of All.

DETAILS YET TO BE DECIDED BY EXPERTS

Southwest Advertising Co. Man Tells Plans Thus Far And Offers His Advice For Future.

After listening to pre-campaign plans and hearing of the successes of other sections along the same lines, approximately 50 prominent Lubbock citizens, gathered together in the Chamber of Commerce offices to discuss the needs of the South Plains along colonization lines, went on record as being unambiguously in favor of a South Plains advertising campaign, as outlined by directors of the Board of City Development.

Erle M. Roney, of the Southwest Advertising company, Dallas, explained community advertising, tracing its success through various cities and communities where it has been utilized, following which A. B. Davis, manager of the Lubbock Chamber of Commerce and Board of City Development, quoted figures to show how this section, with Lubbock as its hub, could profit by telling the world of the benefits open to the farmer.

After Mr. Davis' talk the meeting evolved into a round-table discussion, with Spencer A. Wells, president of the Board of City Development and the chairman of the evening, in charge.

A number of citizens availed themselves of the opportunity of expressing themselves and after

Child Testifies In Lilliendahl Trial

Tells of Meetings Between Wife of Slain Doctor and Alleged Lover; Plowman Describes Tryst.

(By Associated Press) MAYS LANDING, N. J., Nov. 30.—A frightened little boy was one of the most important witnesses at today's session of the Lilliendahl murder trial. The boy was Lewis Behler, 12 year old playmate of Alfred Lilliendahl, son of Mrs. Margaret Lilliendahl, and the aged doctor, with whose murder she and Willis Beach are jointly charged.

He was called to the stand to establish that an intimacy existed between the doctor's wife and Beach, which caused a rift in the home life of the Lilliendahls and thus furnished a possible motive for the killing.

Behler is timid, nothing but his frightened face showing above the bench and his answers were so indistinct they had to be repeated each time for counsel and jury.

"Do you live across the street from the Lilliendahls?" he was asked.

Today In Society

Miss D'Aann Sammons will be hostess to the Gamma Pi Alpha club at 12:30 o'clock this afternoon at her home, 2207 13th street.

Mr. and Mrs. W. R. Washburn, 2114 15th street, will be host and hostess at the second of a series of musicales this evening at their home.

A meeting of Junior high school parent-teacher association has been called for 3:30 o'clock this afternoon and Mrs. E. M. Smith is to report on the state convention meeting in Houston, which she attended as a delegate from Lubbock.

Mothers of underweight children in the Dupre ward school are to meet at 2 o'clock at the school with the P. T. A. health committee.

MISS MCKEE HOSTESS

Bridge Played When Miss Ruth McKee Entertains

Games of bridge were played Tuesday evening when Miss Ruth McKee was hostess to a group of friends at the home of her parents, Mr. and Mrs. A. W. McKee. After a pleasant evening of games, dainty refreshments were served to Misses Evelyn Phillips, Kate Prentiss, Evelyn Porter, Wylie Sue Cole, Blanche Bean and Messrs. Sears Anderson, Albert Yeagley, Scott Abernathy, Raymond Rogstead, Wallace Varley and Henry Sloan.

WEDDING ANNOUNCED

Miss Ola Marion Meador and Clifford Sampson Wed

Announcement was made yesterday of the marriage of Miss Marion Meador and Clifford Sampson in Plainview on October 3, the wedding having been kept secret by the couple until now.

The bride is a daughter of Mrs. W. A. Meador, 2412 14th street, and her room is a son of Mr. and Mrs. O. O. Sampson, 1215 16th street. Mr. and Mrs. Sampson expect to leave Saturday for a honeymoon trip to Dallas, Fort Worth and other points and they expect to make their home in Lubbock or Corsicana. Mr. Sampson is associated with his father in the construction business here.

Mr. and Mrs. Sampson were married by J. P. Siler of Plainview.

MEETING POSTPONED

High School P. T. A. Board Meeting Monday

A meeting of the senior high school Parent-Teacher association executive board, which was to have been held yesterday afternoon, was postponed until 4 o'clock Monday afternoon.

MRS. BENSON HOSTESS

Bluebonnet Club Members Enjoy Party Yesterday

Mrs. B. D. Benson was hostess to Bluebonnet club members and guests yesterday afternoon at her home and after a number of enjoyable games had been played, dainty refreshments were served.

Club high society was made by Mrs. J. H. Hankins and visitors score was made by Mrs. Homer Grant. Those enjoying this occasion were Mesdames W. J. Miller, J. H. Hankins, R. A. Mills, W. H. Meador, Homer Grant, T. J. Hutchinson, Fred Snyder, W. B. Schenck, W. B. Price, W. H. Hodson, J. S. Johnson, S. C. Arnett, W. W. Rix, A. V. Weaver, Earl Spoles and W. A. Bacon.

SPECIAL SERVICE

"Husband and Wife" Sunday to be Observed

"Husband and Wife" Sunday is to be observed at the First Presbyterian church Sunday morning at 9:30 o'clock. J. M. Gordon, superintendent of the Sunday school, has planned a special program and this occasion is to be one of the outstanding ones of the church year, according to announcements being made.

Walter G. Jennings of Amarillo district representative of Frigidaires, is in this city on business.

Rhinestone Quills

Points of rhinestone on the quill draw attention to the face half hidden behind this green ostrich feather.

THE WOMAN'S DAY By Allene Sumner

The most beautiful and fashionable belle of a certain German town recently came down the church aisle as a bride. The fashionable audience, gasped in admiration at the gowns of the bride and her attendants—knee-length in front but trailing into trains at the back. The pastor gasped, too, but it was not with admiration. He ordered the bride party either to wear the choir surplices or leave his church immediately because it was further desecrated by such indecent exposure.

"SUCH BUNK"

A few late taxpayers of New York are asking why in tarnation they should pay school taxes in order that their children may learn how to hold a tea cup or how to ask a girl to dance, for courses in social forms have been installed in most of the New York schools. Spout as they will, the truth is that anything and everything learned in classes of "social form" will do more for their children towards making an easy and pleasant life than all the typewriting, cooking, or carpentry imaginable. It's all very well to know how to make a living, but an easier way than through carpentry or plumbing is through a charming personality.

DOG'S PERFUME

Are you very careful, Milady, about matching your dog's personality with the "correct" perfume? The fashionable world is very careful, we learn, to drop just the proper blend of perfume behind the Peking's silky ears. One wonders if it is consistency or droll humor which makes the perfumers add "the dog's perfume" should also match that of Milady herself. Two dog personalities, it would seem, and I for one, am quite ready to agree that any woman who will spend her days matching her dog's personality with the correct soul surging perfume has something much lower than even a dog personality.

"FOR MEN ONLY"

There is one spot in the world where women may not enter, talk as we will about "the open door." No woman may enter the judicial chambers of London's law courts. Even the vase of flowers on a judge's table is given fresh water by a male worker. Windows and floors are scrubbed by men who also wield the dust rag. There are thousands of rooms and four and a half miles of corridors to be cared for. Nineteen male "fishers" as they are called, do the dirty work.

MORE WOMAN HATERS

Another bunch of women-haters is a secret Mohammedan clan waging war and mutilation upon women in Turkestan who have wel-

comed the State Soviet decree which permits them to doff the veil and have full equality with men. This secret clan says that their behavior "betrays Mohammed, the prophet." Women have been shamed, mutilated, ridiculed and hounded until hundreds of them have committed suicide. Members of the clan, send women of their own families, to death, proving again that religion is stronger than even family bonds of human love.

CLUB MEETS FRIDAY

Mesdames Spikes and Chipley to be Hostesses

Mrs. Fred Spikes and Mrs. H. D. Chipley will be hostess to the Merry Bidders club Friday afternoon at 2:30 o'clock at the home of Mrs. Spikes.

TO ATTEND PARTY.

Hi-Leaders of the First Methodist church are to attend a party Friday evening at the home of Mr. and Mrs. George Smallwood, 1505 Avenue X.

Beauty!

How and Why

SHOULD THE HAIR BE DYED? THE ANSWER.

By Ann Alysia

When the advanced age calls for greater care and closer attention to all phases of appearance one of the first questions to arise is this: Shall we dye our hair?

If you ask me, yes. Why should we not take advantage of any and everything that will improve our looks? Greying hair is a sign that cannot be denied. All the talk about neither being grey at 25, 30, or 35, no matter how true it may be, makes no impression on the observant listener. It only means that you are unconsciously erecting a defense against the approach of that arch-enemy, Time. In this day of fashionable frankness, let us be frank.

We will suppose now, that upon looking at yourself closely in the mirror, you discover that time has insidiously and considerably crept one year in your hair, and that the effect is far from pleasing. You have noticed other persons to whom grey hair seemed to lend added dignity. That is true, but they have reached the point where there is more grey than black, while your changing tresses are of that yellowish, iron variety and just enough of them present to spoil the party.

How about dyeing it, or tinting it, as it is now called? That is the thing to do, provided it can be done artistically. It helps you retain a claim to youth and in that way bolsters up your morale. And in this world of competition, anything that bolsters morale is good. But, you say, are not dye dangers? Some are, yes, but so is rotting and too much sun. Done properly, they are all right. And some dyes, such as those made of wadnut shells and henna and other harmless vegetables, are perfectly safe.

Next: Hair-dye care. (Copyright 1927 NEA Service, Inc.)

Miss D. Shelton Is To Visit Here

Daughter of Man Murdered On Missionary Journey to Speak at Christian Church Here.

Miss Doris Shelton of Pomona, Calif., who is taking her master's degree at Texas Christian University this year, is to be a guest of the First Christian church this week-end and a house guest of Rev. and Mrs. Walter P. Jennings. Her trip here is under the sponsorship of the Berean Sunday school class, of which Mrs. Jennings is teacher.

Miss Shelton will be honor guest at a seated tea Saturday afternoon from 4 until 5:30 o'clock in the Charles F. O'Neal home, 1623 Broadway. Women in the First Christian church are to attend. W. M. S. members will act as hostesses in the house party, young women in J. E. Hartley's Sunday school class will make up the receiving line, and high school girls are to serve in the dining room. Tea will be served by Mrs. Earl Spoles and Mrs. R. A. Mills.

A daughter of Dr. A. L. Shelton, missionary to Tibet who was murdered in 1922, Miss Shelton has many interesting experiences to relate while she is here and she is to speak Sunday morning at the First Christian church. Dr. Shelton was at one time captured and held for ransom for three months, suffering many persecutions. He returned to the United States for medical treatment before starting to Lhasa, city of priests and the last unconquered heathen stronghold, but was murdered enroute by bandits, according to Mrs. Jennings. His daughter was with him on many of his trips.

Paul Readis has returned to his home in Dallas. He was called here a week ago by the illness of his mother, Mrs. Josephine Readis, who died Sunday morning and was buried that afternoon. Mr. Readis is a brother of Mrs. J. J. Chalmers, 1624 12th street.

The Australian government committee's hearings on aviation are creating much interest in air travel in that country.

HOSTS TO CLUB

Dr. and Mrs. G. H. Ater Entertain Tuesday

Hi-Lo Bridge club members were guests Tuesday evening of Dr. and Mrs. G. H. Ater at their home, 2407 24th Street. The Christmas motif was found in decorations, table appointments and a salad course served.

Guests in attendance were Messrs. and Mesdames R. V. Kimmel, H. S. Figgis, R. C. Smith, Dr. and Mrs. O. W. English. Members in attendance were Messrs. and Mesdames E. Y. Freeland, B. F. Conroy, Don L. Jones, Dr. and Mrs. D. D. Cross, Dr. and Mrs. M. A. Jackson and Dr. and Mrs. W. H. Abbott.

OPEN DISPLAY

Pottery, Prints and Pictures To Be Shown Here

A display of pictures, prints and pottery is to be opened in the Carter Hill building by the K. Carter pottery club association, under the direction of Mrs. G. T. Seales, resident, and a group of assistants. Articles being displayed may be bought and a half of the proceeds will be used in purchasing pictures to be placed in the schools, the other half to go into the Carter P. T. A. treasury.

CONCERT TONIGHT

Proceeds from High School Affair Go To Uniforms

Proceeds from a high school band concert to be given at 8 o'clock this evening at the high school auditorium, are to go toward purchasing sweaters for orchestra members. It was announced last night by J. W. Crowler, director. More than 600 tickets have already been sold to the concert.

A girl weighing 134 pounds was born yesterday morning to Mr. and Mrs. H. F. Mann, 1630 17th street. The child had not been named yesterday.

CHALLIS FROCK

A sweet afternoon frock, with quaint charm, is made of flowered challis, with sheer skirt and bolero edged in rich blue.

GIRL'S CLUB MEETS

Lesson In Sewing to be Given at Estacada Meeting

Miss Louise Baird, county home demonstration agent, will meet with the Estacada girls' club this afternoon at 1 p. m. for the first time since the club was suspended. The lesson for the meeting is sewing.

CUPID IS LEADING

43 Marriages, Only Six Divorces During November

Cupid scored heavily against the forces of family dissension during the month just past, according to the records of County Clerk Amos Howard and District Clerk Fiera Green. The records show that 43 marriages were issued from the county clerk's office last month while only six divorce suits were filed in the district courts.

Two marriage licenses were issued yesterday. Prentiss Clark and Miss Iola Grimes were married by Justice of the Peace G. R. Scott immediately after taking out their license; and Ed Walspka and Miss Minnie Simmacher were granted licenses.

HAMILTON'S—THE FIRST TO INTRODUCE—Stoddard Solvent. A Cleaning Fluid, that because of the special refining process makes it odorless and more effective for cleaning purposes. Each garment comes under the personal supervision of Mr. Hamilton, who gives you the benefit of the experience gained through 25 years in this business. You are invited to visit the plant or telephone Mr. Hamilton about your cleaning problems. Stoddard Solvent is odorless and has been proven to be more effective for cleaning purposes than gasoline. In addition to that feature, it is non-explosive, a feature that brings it the approval of the Underwriter's Laboratory to the extent that it carries their label, and further proven by the fact that it reduces our Fire Insurance cost \$2.04 per \$100. Every garment sent here is returned to you free from any offensive odor, and when there is no additional cost involved why not send it to the plant that is continually looking out for your interests by providing the best? NEW EQUIPMENT! With the announcement of Stoddard Solvent, we also wish to announce the installation of a new Glover Continuous Purifying System. Under this new arrangement a continuous flow of pure water-white Stoddard Solvent enters our washers every minute of the day, actually digging out the grease, filth and germs which have gathered in the garment.

MEN'S SUITS Cleaned and Pressed \$1 Pressed 50c Ladies' work at the most reasonable prices in the city. PARCEL POST Out-of-town patrons are urged to take advantage of our one-day Parcel Post service.

Lubbock Finishes Training Today For Plainview Game

Grid Supremacy Of Two Towns Is Stake In Contest

Tit Not Only Marks Fade-out for Local Eleven But Also Will Close Careers of Several Stars.

The Lubbock Westerners will conclude their football operations for 1927 with the Plainview Bulldogs, their most ancient gridiron rivals. Not only will the homecoming go into their last 1927 game tomorrow but several of the brilliant heroes of this season's machine will conclude their high school careers.

Signal practice has shown the one aim, the get off with every play with the same stride and action. If the Westerners come through with their attack Friday the coaches will be well pleased with the results of the year.

The Bulldogs and Westerners battled to a 6-6 tie game here on Armistice, in a regularly scheduled conference game, and the attack from the front Bulldogs backfield is very threatening and dangerous.

With the brilliant running of McGill, Schroeder, and Cross, the Bulldogs back, "Duckie" Allen hopes to give the Westerners a real treat in broken field running.

Signal practice has shown the one aim, the get off with every play with the same stride and action. If the Westerners come through with their attack Friday the coaches will be well pleased with the results of the year.

The game Friday determines the annual supremacy between the two high schools, considerable interest has been worked up over the game and the Plainview high school authorities are looking forward to the largest attendance the Bulldogs have had this season.

Frog Frosh Make Splendid Record

Pollywogs Go Through 3rd Undeclared Season. Many of High School Stars are Found on Team.

PORT WORTH, Nov. 30.—Coach Leo "Ducky" Meyer of the T. C. U. freshman football team, is pleased by Pollywogs through their third consecutive undefeated season this year.

The game Friday determines the annual supremacy between the two high schools, considerable interest has been worked up over the game and the Plainview high school authorities are looking forward to the largest attendance the Bulldogs have had this season.

Signal practice has shown the one aim, the get off with every play with the same stride and action. If the Westerners come through with their attack Friday the coaches will be well pleased with the results of the year.

Versatility Of Tony Lazzeri Is Loudly Praised By His Big Yank Boss, Huggins

TONY LAZZERI

NEW YORK, Nov. 30.—Manager Miller Huggins of the world champions says he regards Tony Lazzeri as the most versatile but also the most valuable utility player in the majors.

Lazzeri, who has played three positions in the Yankees' infield, second, short and third base.

"He is undoubtedly the best second baseman in the league," continues Huggins, "and incidentally has no peer at short or third. He would be an asset at either of those positions if he is at second if he is at short."

Mass Meeting At Slaton Stirs Grid Spirit to Climax

Business Men Join Fans At Monster Pep Rally; Game Of Passes Looms; Canyon Charters Special Train.

SLATON, Nov. 30.—The football spirit is at a higher pitch in Slaton today than it has ever been in the history of the city.

Confidence and determination to win formed the gist of addresses made by business men and football players at a meeting in the Slaton Club House Tuesday evening when more than 100, including all male members of the teaching faculty in Slaton schools, the entire football squad and many business leaders, enjoyed a light meal and short program.

The game Friday will settle the district championship in districts one and two, Class II high schools, with Slaton representing the North Plains while the Canyon Bulldogs will defend the North Plains region, both teams now holding district titles.

Passes Expected. Canyon is expected to have a strong passing combination which will probably flash into play if the Bulldogs show a strong offense. In fact, it has been predicted by some that the entire battle will be in the air.

The NUT CRACKER

By Joe Williams

Upsala criers at East Orange, N. J., scored nothing in seven games while its opponents ran up 285. The coaches are planning for a touchdown some time next season.

By the time that team crosses the enemy line the goal-kicker will be head of the table in the Old Folks Home. His fee will be about as useful as a man hood at a thirteenth picnic.

In one game this season Upsala's goal line was crossed only once by the enemy. Alumni are overjoyed by that victory.

A former coach is suing the college for \$25,000, charging breach of contract. Maybe he still thinks he was hired to coach a football team.

But then cheer up. One of these days there may be an insect at Upsala. There's many an insect caused by a setup.

REFeree

When does a "down" occur in football? At N. M.

A "down" occurs when the referee blows his whistle or declares the ball dead.

What players were on the all-Pacific coast basketball team last year? J. H. Watson, California, and Badgro, South California, forwards; Oberberg, Oregon, center; Dixon, California, and Westgren, Oregon, guards.

PALESTINE (P)—An infant was born here with a large tumor in its body fractured. Dr. J. L. Cahill, is making a study of the case.

LUXURIOUS WRAP. A dolman wrap of white velvet is richly embroidered in crystals and strops and has a luxurious collar of white fox.

Nazarenes Plan For New Church

Edifice to Cost \$20,000 Is Sought In Campaign To Be Started Next Week; Lot Already Purchased.

A building campaign, destined to secure for the Nazarene church congregation here a new edifice, will be launched some time the latter part of next week, the pastor, S. H. Erwin announced yesterday.

A lot, 125 by 50 feet, has already been secured for the structure. This is located on Fourteenth and Avenue O.

A modern bungalow church building, to cost about \$20,000, will be erected, building units to the extent of \$5000 having already been subscribed by the Nazarene congregation. The public will be given an opportunity to subscribe.

Floor Sweep Firm Enlarges Factory

Will Make 30,000 Pounds Of Sweeping Compound A Day When Enlargement Of Plant Is Finished.

Adding another modern manufacturing plant to the city's industrial district, the Lubbock Floor Sweep Manufacturing company is installing new plant machinery at 15th and Avenue O this week, according to their present plans, the production needs of the city.

The new plant being erected at a cost of approximately \$10,000 will contain a large mixing mill, mixer and motor power, giving a capacity of about 30,000 pounds of floor sweeping compound as a daily output. Twenty men will be employed by the company when the new machinery is installed and production is under way.

The product manufactured by the company is known as "Sure Clean" sweeping compound. It is made from wood pulp, sand, and a high grade floor oil with a paraffine base and can be used according to A. J. Stevill, sales representative and John McKemie, manager, on the finest of floors. Both men have had wide experience in the industry, having been connected with it for several years. The company will wholesale their product. It will be packed in 100 and 200 pound cans for wholesale but later will be packed in 20 pound cans for households.

The entire city of Lubbock will be supplied with the product in the near future, Mr. Stevill said today.

TEXAS TECH TOPICS

By C. W. Ratliff, Phones 13 and 14

INTRAMURAL FOOTBALL TO OPEN ON CAMPUS THIS WEEK.

With the engineers, winners of the grid title last year, classed as the favorites, intramural football will be ushered in again on the campus this week when the 1928 champions clash with the Aggies on the Tech field Saturday afternoon at 2:30. Both teams are wired to a high pitch for the game and enthusiasts are looking forward to an interesting and close game.

The Engineer team is being coached by Winfield Nicholas, three year letterman on the varsity squad and practices have been going on for the past month in preparation for the opening game. His lineup includes a host of exceptionally fast players. Among them, Ted Sams, Julius Bergfeld, Charlie Woodfield, Jamie Atcheson, Mose Witherspoon and others. Sams and Bergfeld have been elected captains of the team.

The Aggie squad is being coached by three varsity lettermen, Al Jennings on the ends, Vaughn Corley with the line and Percy Walker with the backs. Their team is also fast and shifty and will present a mixture of running plays and overhead attack, the coaches report.

Interest in the games is greater this year and a good crowd of students and fans are expected at the games. The intramural season calls for the following games: Aggies versus the Engineers, December 3; Engineers versus Liberal Arts, December 7; Aggies versus Liberal Arts, December 10.

CHRISTMAS CAROLS WILL BE REPEATED THIS YEAR.

The singing of Christmas carols, an annual affair since the establishment of the college, will be repeated on the campus this year, according to an announcement from the music department. The entire student body will take part in the ceremonies which will be featured by a pageant, the plans say. The services will be held just before the Christmas holidays.

REPORTS TO BE MADE SOON ON STUDENTS TO DETROIT.

Reports by the various committees on the question of sending delegates to the Tenth Quadrennial Student Valedictory conference, at Detroit, December 28 to January 1, will be made in the near future, according to statements made by workers yesterday. A delegation of approximately 10 students is expected to go from the Tech.

The conference will be attended by delegates from practically every college in the United States. Speakers on the program include: Sherwood Eddy, nationally known speaker; Francis Wolf, president of the Central China Christian university; Reinhold Neuhoff, pastor of the Bethel Evangelical church of Detroit and others.

NEW ZEALAND FOLDERS ARE RECEIVED HERE, BY C. OF C.

The local Chamber of Commerce was the recipient yesterday of some interesting data and folders sent from New Zealand.

One folder extolls the virtues of Motouira, New Zealand, as a place of beauty, as health resort, and of natural phenomena.

Another information bearing publication sent is a section of the Walkata, (New Zealand) Times, which is taken up with a description of the Winter Dairy Show held there recently.

NORFLEET

The Manhunter's Own True Story
As told to Gordon Hines

Chapter Forty-six

"Throw up your hands, Spencer! You're my prisoner!"

"That's not my name!" he cried out, as his hands went skyward. He started arguing with me, contending that I was mistaken. One of his partners took a card from Spencer's pocket and held it toward me.

"This man is not Spencer. Here's his card. Look at it. His name is not Spencer. The partner had a sincere ring in his voice and I wondered at it. Perhaps he believed it was not Spencer. I knew better. Spencer or Spencerwood or Spencer—anything else, I would take him for Spencer. I was calling out for the police and, as I reached toward my hip pocket for my handcuffs, I took a sledge-hammer blow on my left jaw. I don't know who hit me. It must have been the fellow who had handed me the card. I went down almost out, but I had presence of mind enough to reach to a corner of Spencer's overcoat tail. It was the same grip I had sunk into Furey's lapel in the Hilton Cafe at Jacksonville, and I was just as determined to hold it. Spencer kicked me in the face, but the round toe of his rubber overshoe softened the impact. I was in a murderous humor. I wanted to kill him. I was almost blinded with pain and I reached for my gun. Then I remembered my promise to the Canadian officers. I wanted to keep it. The two accomplices ran away through the snow and I hoped to be able to handle Spencer without shooting. I gave him a vicious jab in the groin with the gun barrel and he shrieked with pain and whirled, dragging me along in the snow after him. I hung on and he ran as fast as he could pull me. We made twenty or thirty yards when the coat tail gave away and I was left in the snow with the tattered piece in my hand. Spencer broke into a wild run and I sprang up after him, wiping the blood from my eyes and away from my mouth and nose that I might breathe more freely. He ran like a scared whippet, dodging and shutting in and out alleys. He was gaining on me, his longer legs having a great advantage. I kept shouting for help but no one came. It was almost dark, but the white snow made his running form visible. Then two husky lads came into sight and I called out to them, pointing after Spencer.

"Catch that thief, boys! Catch him!"

They turned and took after him like a pair of greyhounds. Gaining they cut a corner and got in his path. He checked his speed and I heard him call out an angry threat. The lads became nervous and let him pass. Then Spencer darted into the Strand Theater on St. Catherine Street and I followed. By the time I had reached the inside, I saw him talking the last turn at the top of the long flight that led into the gallery. I sped up the steps, three at a time. The house was crowded and we caused considerable commotion. I reached the gallery and he kept on going higher until he reached the attic of the playhouse. A door stood open and, quick as a flash, he banged it between us and shoved the lock into place. Hearing our racket and the cries of the audience, the house detective had followed me to the gallery. He demanded to know what was happening. I told him that I was an officer and that the fugitive I wanted was barricaded behind the door in the attic.

"I want you to help me to get him!" I said, wiping frozen blood from my eyes, nose and mouth. "I must have been a pitiful sight. My face was as raw as a beefsteak

the police. I have full confidence that the Montreal police department did its honest best, but they could find no further trace of Spencer. He seemed to have vaporized.

A day or so before we left the city, a large Shrine ceremony was held. We waited over for it and handed every Noble a little circular describing Spencer and his operations. The newspapers also published considerably in circulating reports of the battle in the streets. One of the circulars produced interesting results. The Potentate of the Shrine organization at Albany, New York, who was also the city's mayor, got in touch with me and tipped me off to a deal, similar to Spencer's, that was being pulled off in Albany. Pete and I left for Albany that night to follow the lead. By the time we had argued the police had arrested Messrs. Harmon and Trent, two of the country's most notorious confidence men. They were old-timers at the game. We learned that Spencer had been in on the deal and had gone away with the cash before the police could nab him. I later learned that Harmon and Trent were convicted and that they got long sentences.

From Albany, we went to New York City. We hoped to get a trace of Spencer there, since it was known that the swindlers operated a training school for young accomplices somewhere in the great city. We had the address of Ward's lawyer, Joseph B. Rosenback, and located him at 206 West Fifty-fourth Street. He told us of Ward's tragic end. Following the dramatic meeting with Mr. Nee in Edin' Worth, arrangements had been made to bring Ward to Washington to stand trial on the Nee swindling charge. Nee had been beaten out of \$25,000. Ward was being held in jail and arrangements had been made to repay Nee's loss in exchange for Ward's freedom. Rosenback, it seems, was on his way from New York to Washington with the cash. When he arrived he was met with the news that Ward had killed himself in his jail cell.

Those who were in touch with

Ward just before his death declare that the act was brought about by constant remorseful brooding over his past life and the hopelessness of his future. He had arranged, it was claimed by those in his confidence, to make good a great part of the money he had stolen from the victims all over the country. Large amounts had been raised by himself and his family, to be transferred through his attorneys. A considerable sum paid to a Fort Worth attorney for this purpose disappeared and was never heard of again. It was this, it is claimed, that precipitated his suicide. He was branded as a crook and, when he tried to make restitution through recognized professional men, he was thwarted at every turn by their duplicity. Rosenback seemed to be his real friend and to greatly regret the whole affair.

Out of curiosity, we decided to try to look up the "training school" Furey had given us the address as the corner of — Street and Broadway, in the heart of the Great White Way. We found, at this address, a highly ornamental cabaret with gayety in full swing. The clubhouse or classrooms were located above. Furey had said.

(Continued Tomorrow)

trade territory" stated Mr. Bradford, "and we must erect a modern wool warehouse for the storage of this wool and for regular dates for sales. This industry is growing very rapidly and I know of three or four sheep ranches that have been started in this county during the past month."

An issue is something that never gets into a party platform.—The Sta. Bernardino Sun.

Specifications Of New Ford Show It Has Unusual Class

Speed, Pick-up, Comfort, Body Beauty and Flexibility are Among Outstanding Features of Auto.

Unusual speed, beauty, comfort, riding qualities, economy, and "class" are visualized in the new Ford automobile, with the official announcement yesterday of detailed specifications.

Although the prosaic black and white print can not adequately convey a description of any automobile, the listing of parts and accessories indicates a much higher class of automobile than that usually associated with the light car field.

The car is unusually speedy making from 55 to 65 miles an hour, and being possessed of a rapid acceleration, it is stated, "the car rides comfortably at all speeds, hugs the road well, and performs equally efficiently on bad and rough roads."

Has Good Pick-up Appreciating the constantly increasing importance of acceleration, the company has given a great deal of study to this feature of the new car. In high gear tests with two passengers in a Tudor sedan it has shown an acceleration of from 5 to 25 miles an hour in 8 1/2 seconds.

The new car also introduces a new type of four-wheel brakes. An exclusive Ford development, they are of the mechanical, shoe-expanding type, and are self-centering. The brake pedal and the hand brake each operates all four brakes. It is stated that this is the most reliable and simplest type of four-wheel brakes and also the easiest to adjust, all adjustments being made from the outside without removing any parts.

An engine that is practically vibrationless develops 40 horsepower at 2700 revolutions per minute. This low revolution speed in relation to the high horsepower is illustrative of the unusual efficiency of the engine. Also, it means longer life, the lower engine speed insuring less wear on engine parts. The low revolution speed is also a substantial factor in lowering vibration. The bore is 37-3/8 inches, stroke 4 1/2 inches. The unusually large crankshaft, which is both statically and dynamically balanced, weighs 28 pounds. This balance, combined with the lightness of aluminum alloy pistons, further combine to reduce vibration and increase riding and driving comfort and safety.

Car Runs Quietly In addition to freedom from vibration, it is announced that the car is unusually quiet, a great deal of attention having been paid to this feature by the Ford engineers. In the engine, the timing gears are made of bakelized fabric, which is much quieter than metal. The cams on the camshaft have been so designed as to prevent valve clicking.

The coachwork of the car is as distinctive as its performance. There is a noticeable European touch in line and contour. It is not only designed for exterior beauty, but has as well the interior roominess, convenience and luxurious appointments to be found in much higher priced automobiles. On an instrument board of satin-finished nickel are mounted the speedometer, gasoline gauge, ammeter and ignition lock with a dashboard in the center. The new military-type sun visor, with crown roof and round corners, are features of the closed models. Unusually narrow pillars and very wide doors and windows give maximum vision. Nickel radiator shell and headlamps further accentuate the exterior attractiveness, while choices of four colors in pyroxylin finish are offered.

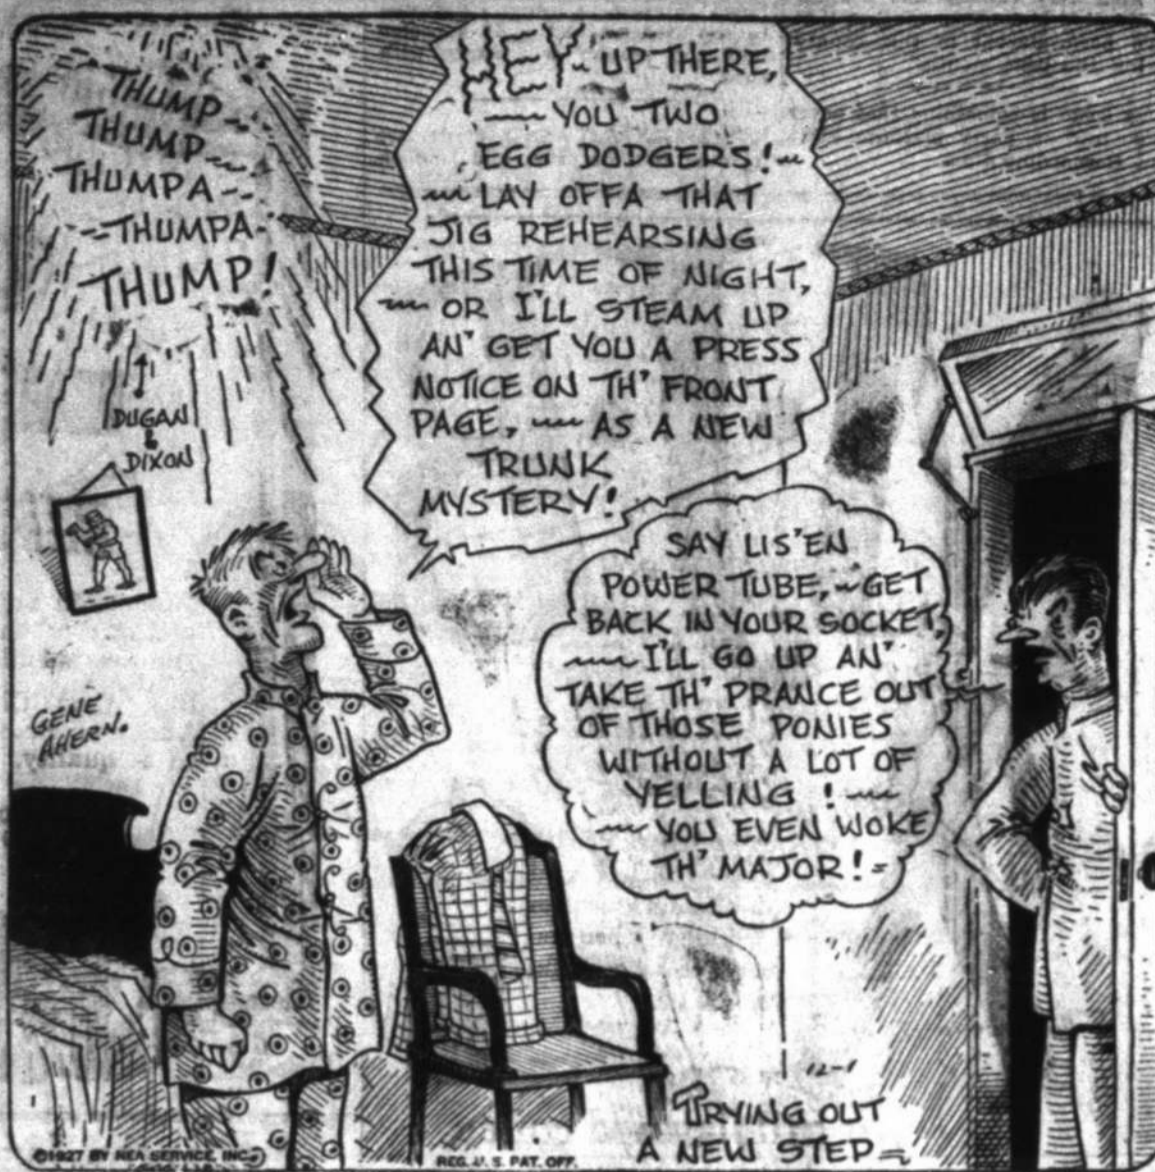

Simplicity is Keynote Simplicity has also been carried to the ignition. There is only one coil in a waterproof case. There are no vibrators to adjust, and no exposed cables to work loose or short circuit from water. The distributor is located in a readily accessible position on top of the engine.

Centrifugal water pump, large radiator and airplane propeller-type fan provide a cooling system which makes the motor every difficult to overheat, except from abuse, such as running without enough oil, or dry radiator.

From 25 to 28 gallon of gasoline, depending upon driv-

OUR BOARDING HOUSE

By Ahern

ing speed, is the gasoline consumption announced. Feed to carburetor is by gravity. Dilling System Unique The dilling system, also a distinctive Ford design, is a combination of pump, splash and gravity feed. The new transmission is of the selective sliding gear type, with standard shift, three speeds forward and one reverse. The main shaft runs on ball bearings, the counter-shaft on roller bearings and the reverse idler on bronze bearings, a power-saving design unusual on light cars. Shifting of gears is noiselessly and easily accomplished at the pressure of a finger. Multiple dry-disc clutch rear axle of three-quarter floating type housed in electrically welded steel and spiral bevel gear drive are interesting features. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. Newly developed springs of the transverse semi-elliptic type and hydraulic shock-absorbers prevent excessive up-and-down movement and remove side sway. Irreversible steering gear, which prevents shocks from being transmitted back to the hands of the driver, makes handling exceptionally easy. Maximum steering safety is further provided by a gear housing of welded steel forgings, and a steel tube steering column welded into the housing, making a sturdy and exceptionally safe one-piece unit. Ford-designed steel spoke wheels completely welded into a one-piece assembly, are provided. There are six models of the new car. They are the phaeton, roadster, sport coupe, coupe, Tudor sedan and Fordor sedan. Local dealers are preparing for

a public reception Friday, when models of the new line will be shown in photographs and charts.

FAIR DATES GIVEN Time for Three Texas Fairs Next Year Announced

CHICAGO, Nov. 30. (AP)—Dates of fairs for associations affiliated with the International Association of Fairs and expositions in annual sessions here next year were announced today as follows: Oklahoma Free State Fair, September 23 to October 1; Oklahoma State Fair and Exposition, Oklahoma City, September 22 to 29; South Texas State Fair, Beaumont, Texas, November 8 to 17; State Fair of Texas, Dallas, October 4 to 21; Texas Cotton Palace, Waco, October 20 to November 4.

RECORD GINNINGS

Fifty-four Bales are Ginned For One Man at Vernon

VERNON, Nov. 30. (AP)—Fifty-four bales of cotton, all for one man, were ginned at the Thulia-Vernon gin here recently, requiring a full day's run. The farmer in John S. Ray, claimed to be the only man in the country to hold such a record. Ray has 114 acres planted in cotton, and has already gathered 130 bales with more cotton yet in the field.

“Elaine -- it's simply gorgeous”

HER engagement ring! Treasured symbol of enduring love! How modestly, yet proudly, she showed it to her friends. Their exclamations of praise and delight at its sparkling beauty were adding to her happiness.

How carefully she and her fiancée had chosen it. How glad she was to use woman's inherent trait to compare . . . to compare the beauty of one with another until they found the one and only one.

Comparison . . . helpful, indeed, in such a great event. Helpful, too, in everyday affairs. This is true in buying coffee also.

Folger's Coffee is the supreme of the world's coffees. Inviting, appetizing . . . its rich, marvelous flavor is matched by no other coffee. There's cheer in each steaming cup . . . for the famous flavor of Folger's never fails to refresh and satisfy. Compare Folger's by making the famous Folger Coffee Test.

The Folger Coffee Test: Drink Folger's Coffee tomorrow morning; the next morning drink the coffee you have been using; the third morning drink Folger's again. You will decidedly favor one brand or the other. The Best Coffee Wins. That's fair, isn't it?

The first thought in the morning FOLGER'S Coffee

The New Ford Car will sell at a SURPRISINGLY LOW PRICE

Complete details of the new car which will be
officially announced
this FRIDAY

THE MINUTE you see the pictures of the new Ford car you will be delighted with its low, smart lines and the artistic color combinations. There, you will say, is a truly modern car.

But a still greater thrill awaits you when you slip into the roomy seat behind the wheel and start away for your first ride. Then you will know that you have found the most unusual value ever offered in a low-price car.

You will like the feeling of speed and power that the new Ford gives you—the comfortable, prideful feeling that comes from having a car worthy of any occasion and equal to every emergency.

You will like the flexibility and safety of the new Ford car as you weave in and out of city traffic—its flashing pick-up as the light turns green and the sign says "Go." You will like its smooth, quiet steadiness on the open road where you can lazy along according to your mood, or do 55 and even 65 miles an hour if you desire. The new Ford has unusual speed—no doubt of that!

*A smart, low, speedy car that
has been built to endure*

The new Ford will climb hills that you never thought a low-price car would climb on high. It will pass cars that you never thought you could pass. The longest trips will seem easy, for here is a car that puts new joy in motoring.

There is still another reason why the new Ford car is the most outstanding value ever offered in a low-price car. An important three-word reason that means a great

deal to you—*endurance—durability—long life.*

The new Ford car is made to stand up under thousands upon thousands of miles of steady running over all kinds of roads. It has even more stamina than the Model T Ford because we have learned to make every part stronger and sturdier without increased weight or greatly increased cost.

Many of the Model T Ford cars are still in active service after 75,000, 100,000 and 150,000 miles. This new Ford car will do even better. In the words of Henry Ford: "It is our ambition to have every piece of machinery or non-consumable product that we turn out so strong and so well-made that no one ought ever to have to buy a second one."

*Four-wheel brakes and standard,
selective gear shift*

On the right, we are printing, for the first time, the complete details of the new Ford car. Read them over carefully, especially the paragraphs dealing with the new engine, the new bodies, the new standard, selective gear shift transmission with roller bearings, the new four-wheel brakes, the new hydraulic shock absorbers, the new mechanical design ignition, the new oiling system and the new dry-plate, multiple-disc clutch.

Then decide that whatever else you do Friday you are going to set aside at least fifteen minutes to get the full story of the new Ford car. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

FEATURES OF THE NEW FORD CAR

55 TO 65 MILES AN HOUR

The new Ford has unusual speed. It will do 55 to 60 miles an hour with ease. This is a conservative statement. In many road tests it has exceeded 65 miles an hour. So well does the new car hold the road that you can travel at high speed for long stretches with a new feeling of comfort and safety. Even bad roads may be taken at a fast pace. You will be delighted too with the way the new Ford climbs the hills. You will face the steepest grades with confidence, knowing you have power and power to spare to climb them all without greatly reduced speed, without strain, or unnecessary shifting of gears.

40-HORSE-POWER ENGINE

At 2200 revolutions per minute, the new Ford four-cylinder engine develops 40 horse-power. This r. p. m., or revolution speed, is low for such power and shows that the engine is unusually efficient. It also means long life, for the lower the speed of the engine, the less the wear on its parts. The bore is 3 1/2 inches and the stroke 4 1/2 inches. (S. A. E. and N. A. C. C. rating for license purposes, 24.05-horse-power.)

REMARKABLE ACCELERATION

The new Ford is remarkably quick on the get-away. In tests in high gear, with a Tudor sedan body and two passengers, it has accelerated from 5 to 25 miles per hour in 8 1/2 seconds. This acceleration is an outstanding feature of the new Ford car.

PREVENTING VIBRATION

The engine in the new Ford is practically vibrationless. This is due in part to its lower r. p. m., the statically and dynamically balanced crankshaft, and the aluminum pistons. To insure quiet, the timing gears are made of bakelite fabric instead of metal, and the cams on the camshaft are so designed that the valve push rods follow them closely, preventing valve clicking.

GASOLINE ECONOMY

You will get from 20 to 30 miles per gallon of gasoline, depending on the speed at which you drive. Feed to the carburetor is by gravity from a unique welded one-piece steel tank integral with the cowl.

UNIQUE NEW OILING SYSTEM

The oiling system is distinctly Ford in design, being a combination of pump, splash, and gravity feed. The pump delivers the oil to the valve chamber, from which it flows by gravity feed to the main bearings of the crankshaft. An oil dipper is provided on each connecting rod bearing cap, so that the force of rotation of the crankshaft drives oil into the connecting rod bearings, as well as splashing oil over all working parts within the engine. This is a simple but entirely dependable system, assuring proper lubrication of each bearing and each cylinder without pressure.

PERFECTED COOLING

The new Ford car has a centrifugal water pump, and large radiator. The fan runs on the pump shaft and is made according to airplane propeller design. It is exceedingly difficult to make the new Ford engine overheat; only abuse will do it, such as racing without enough oil.

IGNITION SYSTEM OF NEW DESIGN

The ignition system of the new Ford is unique in mechanical design, extremely simple, and will give the car owner exceptional performance with a minimum of trouble. There is only one coil, in a water-proof case. The distributor is located on top of the engine where it is clean and easily accessible. Connections are made to the spark-plugs by short bronze springs. The coincidental lock on the new Ford is placed in the ignition circuit. It not only replaces the regular ignition switch, but in the "off" position grounds the entire circuit. From the switch to the distributor a steel cable protects the primary current wire, this wire being grounded to the distributor casing, thereby making it impossible to wire around the device. The new generator is of the power-house type.

STANDARD, SELECTIVE GEAR SHIFT

The new Ford transmission is of the selective sliding gear type, with standard shift. It has three speeds forward and one reverse. The main shaft runs on ball bearings, the countershaft on roller bearings, and the reverse idler on a bronze bearing. This is the highest type of bearing mounting and is unusual on light cars. All gears are made of heat-treated chrome alloy steel. You will be delighted with the easy, noiseless shifting of gears in this new transmission. You can go from one to another easily, silently, with the pressure of a finger.

EXCEPTIONALLY EASY TO STEER

The steering gear on the new Ford car is irreversible. Shocks are not transmitted back to the hands of the driver. You need not grip the wheel tightly. A light touch is enough to guide the car safely. Large steering wheel is made of steel, covered with hard rubber. Light switch and horn button are conveniently located on top of wheel.

NEW FOUR-WHEEL BRAKES

The brakes on the new Ford car are an exclusive Ford development. They are of the mechanical, inverted cam-shoe type and are self-centering. This is the most reliable and the simplest type of four-wheel brake and the easiest to adjust. All adjustments are made from the outside without removing any parts. No special tools are needed. Uniform, correct adjustments on each

wheel is quickly and easily obtained. The brake pedal and the hand lever each operate all four brakes. Total braking surface is 168 square inches. All brake working parts are cadmium plated to make them rust-proof.

MULTIPLE DRY-DISC CLUTCH

The clutch in the new Ford is of the multiple dry-disc type, which is the most reliable. It is also the easiest to operate, for it takes hold gently and smoothly. It has four driving discs and five driven discs.

COMFORTABLE TRANSVERSE SPRINGS

The springs are of the transverse, semi-elliptic type, designed and built for the new Ford. This type, which was used in the Model T, was adapted to the new car because no better spring type could be found. They are built of the finest spring steel, and the leaves are wide and thin. Each spring is built up of varying sizes and number of leaves to give proper flexibility and to meet riding requirements of the different body types. The size and number of leaves used in these springs is one of the reasons why the new Ford is such a comfortable car. The construction of the transverse springs also contributes to the safety and efficiency of the 4-wheel brakes.

HYDRAULIC SHOCK ABSORBERS

The finest type hydraulic shock absorbers are standard equipment on the new Ford. These combine with the low center of gravity, the minimum unsprung weight, and the easy riding qualities of the transverse springs to make the new Ford one of the most comfortable cars on the road today.

THREE-QUARTERS-FLOATING REAR AXLE

The rear axle of the new Ford is of the three-quarters-floating type. The axle housing is made entirely of steel, built up by welding steel forgings to steel subings. The differential housing, to which these housings are bolted, is made of rolled channel steel. The axle shafts carry none of the weight of the car, the wheels running on roller bearings on the housing. All bearings in the rear axle are of the roller type. Drive is by spiral bevel gear.

FORD-DESIGNED STEEL-SPOKE WHEELS

Original design and great strength are two features that mark the unique, Ford-designed steel-spoke wheels. Each wheel is assembled by welding, and becomes one piece of metal. Spokes cannot work loose. Each spoke has a tensile strength of 4000 pounds. Outside spokes do not cross, so that the wheels are easy to clean. There are only 30 spokes in each wheel.

BEAUTIFUL NEW LOW BODY LINES

There is a bit of the European touch in the coachwork and contour of the new Ford. Bodies are steel. Fenders are of the full crown type. Appointment and hardware are of a luxurious type seldom found in a low-price car. Upholstery is of rich, durable material. Cushions are deep and easy. Door handles and window lifts are fully nickel-plated. Speedometer, gasoline gauge, ammeter and ignition lock are mounted on an instrument panel of satin-finish nickel, illuminated by a lamp in center. Headlamps and radiator shell are fully nickel-plated. Closed cars have the new military-type sun visor and crown roof. Great care has been taken in designing the new Ford to provide generous seat space and ample leg room. Clear, unobstructed vision is assured at front by unusually narrow pillars and at sides by specially designed doors with large windows.

CHOICE OF FOUR COLORS

The color combinations used on the new Ford are especially artistic and attractive. Four color choices are offered for each body type—a most unusual feature in a low-price car. Purchasers may choose any one of the following colors—Niagara Blue, Arabian Sand, Dawn Gray, and Gun Metal Blue. Belt and reveals are finished in contrasting colors, with attractive striping. The finish is pyroxylin lacquer, one of the finest and most enduring finishes for automobile bodies. It is not affected by heat or cold, withstands all kinds of weather conditions, and is not easily marred or scratched. The luster actually improves with washing.

A QUIET CAR

In designing the new Ford, every precaution was taken to prevent squeaks, rattles and drumming sounds. Body panels and frame sections are welded and riveted together wherever there is possibility of the body-weaving. In all structural details the new Ford bodies are built to afford the utmost quietness and comfort.

GREASE GUN LUBRICATION

The chassis of the new Ford is lubricated by the pressure grease gun system, the simplest and most effective method of lubrication.

Kansas City Hall Is Cattle Temple

Eighty Thousand Herefords Were Registered There In Year Just Past; Is Beautiful Structure.

KANSAS CITY, Mo., (AP)—Responsibility for the care of a million purchased calves, the Hereford temple here is famous as a shrine to better beef. It is a cattle "capitol," and in its archives are the records of all blue-blood Hereford stock.

Eighty thousand calves were registered there last year, and from the temple offices the American Hereford Cattle Breeders' association directed prize exhibits and paid a fortune in awards and premiums.

Build of marble, the structure cost \$200,000. It stands upon the threshold of a beef-producing empire, where white faced cattle graze in thousands from Montana to the Rio Grande.

R. J. Kinser, the Hereford association secretary, is the "high priest" of the temple. He knows the history of each animal whose pictures grace the walls, and his records list the "blue bloods" of every herd and brand.

Henry Clay, he says, brought the first Hereford to America. They came in 1817 from Herefordshire, England, where the breed was developed for beasts of burden.

The beef qualities were recognized, and Clay's three cows and a bull are credited with the ancestry of all white faced cattle in America up to 60 years ago.

Pure Herefords were imported again from England about 1875, and the Hereford industry was firmly established here. Registration of pedigrees started in 1881.

Kinser, secretary of the Hereford association for 17 years, explains that only animals used for breeding purposes are recorded. Steers and heifers sold for beef are never pedigreed, although many of them are purebred. No Hereford may be registered after it is one year old. An additional fee is charged after the calf is six months old. The association desires to establish proof of ancestry before the calf is separated from its dam.

Gotham Skyline Gets Alteration

Million Dollar Changes In Contour of Wall Street Area Being Made as New Structures Go Up.

(By Associated Press) NEW YORK, Nov. 29.—The skyline of the city's financial district is undergoing million dollar alterations.

Six skyscraper buildings, now under construction, five of them in or near Wall street and the sixth on lower Broadway, will before spring send new and higher towers piercing the blue.

In round sums \$100,000,000 or more is being expended on these structures. The land on which they stand alone is valued at millions; so costly, in fact, that it probably is worth more as real estate than as mining property, even were the world's richest subterranean treasure chests hidden beneath it.

The three tallest of the new skyscrapers each have 28 stories. The Chase National bank, now under construction on the \$5,000,000 plot at Nassau, Pine and Cedar streets, will rear its recessed stories above the old United States sub-treasury. The Equitable Trust company building, whose squared tower rises above Wall street at Exchange place, will cast its shadow upon the comparatively low structure housing J. P. Morgan and company. At 39 Broadway the Harriman 39 Broadway building will stand in slender magnificence tall and unchallenged as the highest peak in the lower reaches of the famous thoroughfare.

Each will house the population of a small city, 12,000 persons being employed in one building alone. A 22-story building for the Bank of New York and Trust company will mark Wall street with a tower, cupola and weather vane rising far above the corner at William street. The structure will increase by an estimated \$14,000,000 the real estate value of a plot for which the bank is reported to have paid \$2,000,000 back about 1860.

Adjoining, on the plot at 52 Wall street, the National City company is building a companion 22-story structure topped by what is in effect a Grecian temple. Towers and minarets will gleam in the sunlight above the corner at Broad and Beaver streets upon the completion of a new 31 story International Telephone building.

A number of smaller structures also are being erected, but they are small in comparison with the six giants and cannot affect the skyline. Notable among them is the 17-story building for the Commercial Exchange bank. It is being built at 70 Wall street upon a plot only 23 feet wide and 100 feet deep, but worth a fortune.

TO REPRESENT TEXAS Leading Farmers Will Be Delegates to Meet

DALLAS, Nov. 26.—Texas will be represented by leading farmers of the state, and Farm Bureau officials at the ninth annual convention of the American Farm Bureau Federation in Chicago, December 5 to 7 inclusive, according to L. R. Campbell, secretary of the Texas bureau.

Harry Williams of Dallas, general manager of the Texas Farm Bureau Custom Association, will head the party which is to leave here Friday afternoon. He will officially represent the Texas Farm Bureau Federation, and will be accompanied by L. R. Ingle, of Grandview, J. H. Gray of Hillsboro, and Glenn W.

Stinnett of Marlin. "The national Farm Bureau convention is one of the notable agricultural events of the year," Mr. Campbell said. General John J. Pershing will address the meeting on the closing day.

59 SMITHS AT STATE Johnsons, Browns, Joneses Are Also Numerous

AUSTIN, Nov. 30 (AP)—Do you know where a fellow named Smith lives?

That question, asked on the University of Texas campus, would call for considerable qualification by the interrogator. If he expected to learn anything, even the first name and a description might not be such a strong clue, because 59 students named Smith are attending the university, a student statistician has found.

The statistician found that the Johnsons also are plentiful, being second in number with 42. Other families are represented numerically as follows: Browns and Williams, 34 each; Moores, 30; Joneses, 29; Taylors 28; Whites 25; Kings and Millers, 23 each; Thompsons and Davises, 22 each.

BRADY. (AP)—Brady stockmen have sold to F. J. Brown of Langford, Kansas, 5,000 head of Hereford cattle. The deal involves half a million dollars.

CATTLE SALES Charles Lewis of Nolan Co. Gets \$150 a Head

SWEETWATER, Nov. 28.—Charles Lewis, Blackwell, prominent Nolan County cattle breeder, made two important sales last week from his fine herd of Anxiety Herefords. He sold 20 head of coming yearling males to A. S. Gage, Marathon, Texas, which will be distributed among the members of the Highland Hereford association for breeding purposes.

The other sale was to Barney Carter of Goldwaite and consisted of 10 cows and heifer calves, and one bull. The consideration was \$150,000 each for the cows, calves and bull.

SWEETWATER LAKE Permission Granted, Large Water Reservoir

SWEETWATER, Nov. 30.—This city was granted permission this week by the State Board of Water Engineers to erect a dam of 10,000 acre foot capacity at the junction of Bitter and Cottonwood creeks in Nolan County for a municipal and industrial water supply.

This project will be erected to care for the increasing water needs of this city, and this supply with the present well and Lake Trammell will supply the needs of a city of 60,000 people.

CORN CROP SHORT Early Predictions Far Over-Estimated Proportions

FORT WORTH, Nov. 30 (AP)—Early predictions concerning the Texas corn crop far overestimated its proportions, according to H. B. Dorsey, secretary manager of the Texas Grain Dealers association. "This fact, Dorsey said, is attested by disappointing movement of the crop even after completion of the cotton harvest. "The movement of corn has been slow since the opening of the season, but this has been explained in a measure by the fact that farmers have been busy with cotton," he said. "Dealers expected acceleration to follow immediately after completion of cotton picking, but this has not followed."

TERRY YIELD 10,000 Decrease in Production As Compared with 1926

BROWNFIELD, Nov. 30.—It is estimated that cotton production for Terry County will reach 10,000 bales, which is 12,446 less than the ginning for 1926. Estimates of course, are based upon actual bales ginned in the county, but are short several thousand bales of actual production on account of the fact that we do not receive credit for all cotton raised, which is caused by the fact that there are six gins in four different directions from Brownfield, located just over the county line. These depend to a large extent for their supply from Terry County farmers. It is estimated that three of the

gins receive as much as sixty per cent of their total run, from Terry farms and that two of them will use as much as 75 per cent while supplies used by the sixth gin will be normal. It is believed that if a check were had on the loads hauled by our farmers to these gins, that Terry's 1927 production would run well above 15,000 bales.
