

Sign-Up Set On Grain Plan

Monday and Tuesday of next week have been set for farmers in the Olton, Springlake and Earth communities to sign up for an Emergency Feed Grain Program for 1961.

That word was passed on Wednesday by Lamar Aten, Lamb County ASC office manager at Littlefield.

The most important part of the program, Aten said is that it provides a means to "get more money into the farmer's pocket."

The program is not law yet, he added, but approval by Congress expected momentarily. The House Agriculture Committee Monday approved the program by 25-5 vote.

"Those entering the program will be eligible for price support of about 20 cents above the 1959-60 support price," Aten said.

"Although this is a preliminary sign-up," Aten said, "it will be necessary to sign up every farm on which feed grain was grown in 1959-60."

Farmers in the Hart Camp

and Amherst communities will sign up Wednesday and Thursday of next week.

"The preliminary sign-up does not obligate the farmer in any way to enter the program," Aten said. "It is being done to reach the correct total grain acreage figure for Lamb County."

The program, as sent to the Congress, is basically as follows:

Each producer will be asked to shift to a soil conserving use 20 per cent of the acreage he had planted, during the base period 1959-60, to corn, grains. Cooperators in the program will receive payments under the special conservation program equal to 60 percent of normal production on the diverted acres.

As an example, a corn grower in an area where the corn support price is the proposed national average of \$1.20 would compute his payment by multiplying 60 per cent of the sup-

FRED HICKS Hicks Heads Red Cross Drive Here

Fred Hicks, Olton farmer, has been named to head the annual fund campaign of the Lamb County Red Cross in the Olton area.

Announcement of Hicks' appointment was made at a recent meeting of the county chapter's board of directors in Littlefield.

Attending the meeting from Olton were G.T. Sides, chapter chairman, Clovis Poteet and Hicks.

Plans for the coming Red Cross drive were outlined at the meeting and community chairmen were named.

Leaders besides Hicks are Glen Reeves, Littlefield; Wayne Brown, Sudan; Rev. Woodrow Williams, Amherst; Ross Meddleton, Earth; Billy Braden, Pleasant Valley; and Mrs. R. A. Reed, Fieldton.

Slogan for the 1961 campaign is "Good Things Happen When You Help."

Chairman Sides, who presided at the meeting, pointed out that "good things do not happen when we don't help," and urged an all-out push by workers in the drive.

Record - Breaking Sale Closes 16th Stock Show

Tollett's Calf Wins Top Prize

Olton Stock Show officials closed the books this week on the 16th annual edition of the event, perhaps the most successful of them all.

The show closed late Saturday after a record-breaking auction sent 4-H, FFA and FHA youngsters home with money jingling in their pockets.

Stock show board president Henry Mathis said animals consigned for sale in the show's auction brought a total of \$12,014.55. The 1960 total was \$11,386.21.

This was believed to be a record for the auction. Two per cent of the total was set aside in a fund for maintenance of the show barns.

The show, as always attracted large crowds throughout its two-day run.

Jimmy Tollett walked away with the top prize of the show. He exhibited the grand champion steer, a 980-pound Hereford which only a week before captured the top honor at the Lamb County show.

Jimmy's calf was purchased by Olton State Bank at 75 cents a pound, or \$735.

Reserve grand champion calf was shown by Larry King. An 844-pound Shorthorn, the animal sold for 55 cents a pound to Panhandle Compress and Warehouse, Hart.

Grand Champion Barrow was exhibited by Robert Struve, Robert's 191-pound Poland China sold for 75 cents a pound to Hart Grain Co.

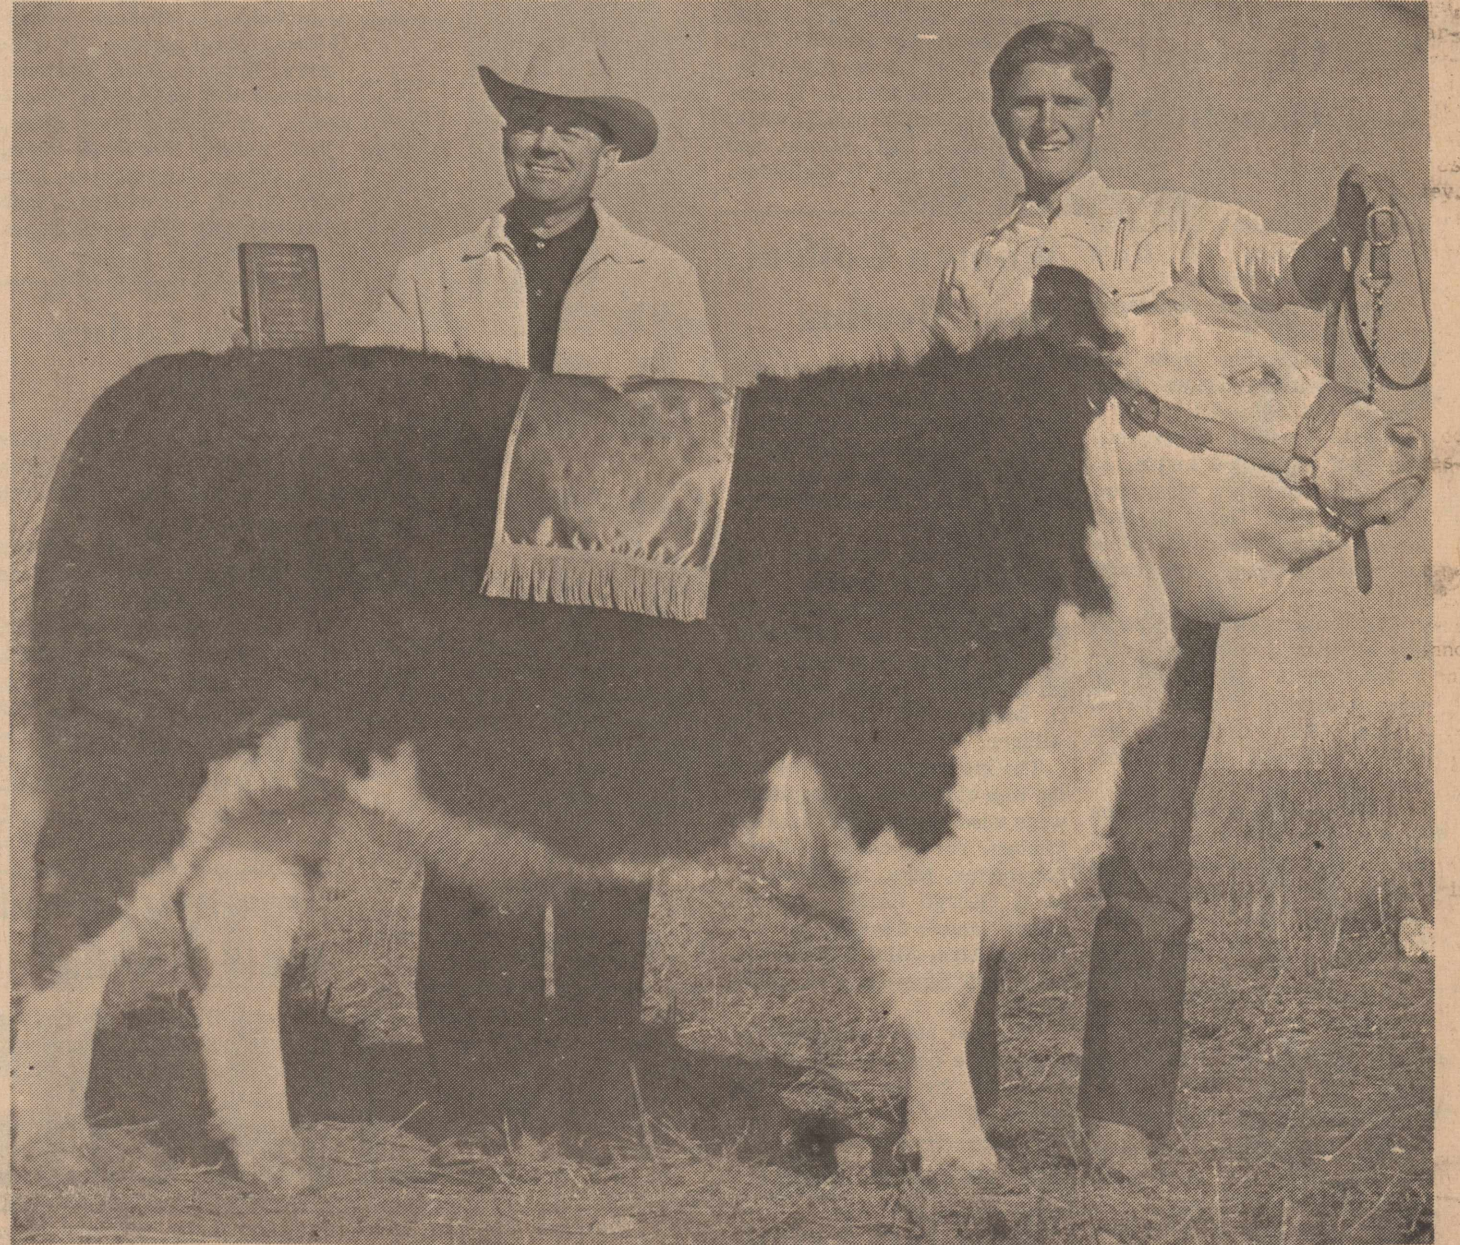

Reserve grand champion barrow, shown by Don Blades for his brother, Kenneth, sold for 60 cents a pound to Lester-Stone Fertilizer, Plainview. The animal weighed 199 pounds.

Grand Champion Lamb was exhibited by Jarold Simmons. The lamb, a Southdown, sold to United Elevators for \$150 a pound. Weight was 85 pounds. Carl Motley exhibited the Reserve Grand Lamb, also a Southdown. It was purchased by Olton Butane Co. at \$1.00 for each of its 79 pounds.

In the Gilt Show, it was again Duroc to the championship for his brother Kenneth.

Gary DeBerry showed the Grand Champion Heifer, a

ORC Gets Construction Under Way

Construction got under way this week on a community building at the Olton Recreation Center.

Eldon Franks, president of the ORC board of directors, said workmen had completed plumbing for the building early this week. Gas lines also have been installed.

Pouring of the floor of the structure is scheduled today. "The building will be completed by the middle of April if we have good weather," Franks said.

He also pointed out that fair weather Sunday brought out 65 members to the ORC.

A Story That Will Rate Your Interest

NEW YORK, March 1 - More than one dollar out of every ten that is being collected this year in Lamb County by the Federal government, through income taxes and excise taxes, is to meet the annual interest charges on the national debt.

The local contribution for that purpose is an estimated \$1,085,000. That takes care only of the carrying charges on the debt. It has no effect on the principal itself, which has risen to \$290 billion and is heading higher.

The breakdown is based on Government figures, which show that the interest on the

debt is nearly \$9 billion a year at the present time, and on data released by the Tax Foundation, which reveals that the average indebtedness for interest is now \$49.97 per capita. That is at the annual rate of \$184 per family nationally.

Commenting on this situation, the New Jersey Taxpayers Association states: "If one of every ten dollars in the family budget went to pay interest costs -- not to retire principal -- on the family debt, the family breadwinner would feel mightily burdened. Yet the Federal government and the taxpayer are in just such positions."

What it amounts to, as far as Lamb County is concerned, is that \$1,085,000 that would have been quite useful to the local economy in this year of recession, is taken out of circulation.

"In addition to the burden of carrying charges," the Tax Foundation points out, the big trouble with too much debt, particularly Government debt, is the inflationary pressure it exerts on the monetary system."

The one bright spot in the picture, it notes is the fact that population in the United States is growing faster than debt, so that the amount owed per person is now \$1,583, compared with \$1,622 a year ago. For Lamb County as a whole, on the basis of its present population, its portion of the national debt is an awesome \$34,351,000.

If local families were suddenly called upon to pay off this amount it would take them 5.9 months to do so if they applied every cent of their net income, which averaged \$7,207 per household in fiscal 1960, to that purpose.

TRASH FIRE

Olton volunteer firemen received a call to a trash fire behind Thompson Implement shortly after noon Wednesday. They put it out in short order.

INTEREST IS HIGH IN SUGAR BEET PRODUCTION PEOPLE ARE ASKING

Q. How many acres does it take to support a sugar beet plant?

A. From 27,000 to 40,000 acres.

Q. What is the relationship between the plant and the grower?

A. The plant enters into a contract with a grower whereby the grower agrees to plant his allotted acres, the production from which is purchased by the sugar company. The company provides technical assistance and a representative remains on hand to offer suggestions. Of course if for any reason there is no production, the contract is cancelled.

Q. How are sugar beets grown?

A. Five pounds of seed are planted per acre. 400 pounds of 16-20-0 fertilizer are used. The land is disced or floated. The crop is listed in 30-inch rows. A ring roller is used to pack. The crop is planted with 1-inch deep beet planter furnished by the beet company, controlled by depth bands. Watered until the bed is black. When beets are up 1 1/2 inches, use cultivator. Field man always helps. Use disc hook knife, corrugators or water furrow plows.

Q. What labor is needed?

A. Use hand labor to thin. Price established by Department of Labor is \$13.80 per acre. The government refunds this cost for labor from tax on sugar paid by consumers. If second over, cost is \$6 per acre.

Q. How much water is required?

A. The crop should be thinned to 6-8 inches and watered every 15 to 18 days. If beet leaves stand up in the morning, do not water. Water about four times, cultivating. Planting dates are from April 20 to May 10. Harvest is from Oct. 15 to Dec. 1, depending on when sugar company can handle beets.

Q. What are the hazards?

A. Hazards are at a minimum, compared with other crops grown here. Early fall freezes or prolonged rain in the fall do not endanger the crop. The sugar content of the beet improves with age up to a certain point. Hail during the growing season will not damage the crop unless it is of such intensity as to knock the beet out of the ground. Ordinarily it is not necessary to carry hail insurance.

Q. What is the estimated cost of production and the estimated return.

A. Farmers who have been growing the crop in this area estimate that the production cost is from \$65 to \$75 per acre and that the return is approximately \$280.

THE PRIMARY PROBLEM IS NOT THE ACTUAL PRODUCTION OF THE CROP, BUT SECURING LEGISLATION NECESSARY TO SECURE AN ALLOTMENT FOR THIS AREA.

This is a reminder to mail your \$10 membership dues in to Olton Chamber of Commerce & Agriculture.

Letter to the Editor

Dear Editor,

Several weeks ago I met with a government economist and a member of the local housing authority appointed by the mayor of Olton to discuss the possibility for Olton to qualify for the Federal low cost housing. If Olton were to meet the qualifications for this housing, costs would be handled in a manner similar to FHA with the exception that the city of Olton would be the owner of this property when the forty-year loan is paid.

My motive for writing this letter to you is because I feel this matter is and should be of vital interest to all citizens of Olton. If our town is to acquire a debt that will take forty years to pay off we must have the full knowledge and consent of all the taxpayers of the city of Olton. This will be a responsibility the city will have to assume and in view of the fact just last year we had to have two elections to elect the Mayor of Olton, we must think this over before we accept.

After we made the survey we found there were some thirty nine sub-standard houses being rented in Olton. The worst of these are being rented by the Mexican and Negro population.

These houses are little more than a shack and the people are paying as much as \$6 a week for rent plus their utilities. In the Turner Addition I was impressed with the cleanliness and neatness inside the majority of these shacks. How they were able to keep these places clean under such conditions was evidence of work. I am not qualified to say what condition the houses were in in the Mexican or Latin American homes, as I did not enumerate in that area. In the white area I found only four families that were renting sub-standard houses.

There is a definite need for more rent housing, especially low rent housing. The teachers at Bohner school are not able to live in the Turner addition because they cannot rent decent houses. Two of these families live out of town in farm houses. These people are financially able to rent but there are no houses to rent. Under the Federal Housing Project the minimum rental unit would be \$25 a month including utilities. The rental rate is based on the size of the family and the family income. The income cannot be over \$3500 a year and the family still be eligible to rent a unit in this project.

The people who have been working on this project are aware of the fact if this project is approved it will bring more Socialism into our city. That is the main purpose of this letter to you. Under Socialism ownership may be by national or local government, or by co-operatives. For example, the city ownership of an electric power plant is no less an example of socialism than is the ownership of railroads by a national government. This is according to the Encyclopedia; The World Book.

Jessie Thomas On Honor Roll

Jessie Thomas of Olton is among some 300 students of Eastern New Mexico University who achieved recognition on the dean's honor roll during the fall semester, according to Dr. Gail Shannon, dean of academic affairs.

All students on the honors list are required to earn a minimum average of "B" and to be carrying at least twelve hours of work.

Letters to parents of these students are going out from Dr. Shannon's office notifying them of the outstanding scholastic achievement of their sons and daughters.

CIVIL DEFENSE

The Hart Senior Demonstration Club is sponsoring a Civil Defense program Tuesday, March 7, at 3 p.m. in the Legion Hall.

The public is invited to attend.

President Kennedy has stated the next four years may well prove to the world that the American way of life and government will be changed. This is a challenge to the citizens of Olton. Do we believe in Socialism as a way of providing decent rent houses or do we do nothing?

I listen to a daily broadcast called "Lifeline". I also receive material from this organization.

This is a patriotic and religious organization. In the material the writer says "Let's teach our children to be flag wavers." The enemies of freedom work hard to make the youngsters think there is something sort of amusing - even something shameful about displays of patriotism.

We cannot teach our children to be flagwavers unless we are. We cannot be flagwavers unless we believe it is good business to buy American-made products and to travel at home now that our dollar is in trouble. I was listening to a salesman talk in Olton the other day and he was telling the story of a lady in a gift shop that refused to buy his imported artificial fruit. He told her she could not sell the American-made fruit because it was too high but she still refused to buy so he told her he could cry all the way to the bank because he could walk down the street and sell it. I made a mental note to check the next time and be sure that I did not buy imported artificial fruit and if enough of us will help this lady, this artificial American will cry all the way to the bank for quite another reason.

Socialism is not the American way of life and we have a matter that is before us in the city of Olton to decide which way we are going to choose. Socialism takes on a new meaning when we come face to face with it. Some comments that have been made to me were "I do not like it but can't afford to say anything" or "If we don't get it someone else will."

Where are those citizens that only last November were so sure they were informed about Socialism. I have had a number of people quote Tom Anderson and Barry Goldwater to me on the National level but when I try to tell them this is Socialism right here at home they begin to make excuses.

I voted for Mr. Kennedy but not for Socialism and Tom Anderson and Barry Goldwater are both Republicans and in the past eight years we have moved closer and closer to Centralized Government and the Communist have made considerable gains. They haven't shown me anything that would make me believe they practice what they preach and I made the survey for this project in Olton and I have not had one person protest that it is Socialism.

Mrs. Jethro Pinkerton
Box 333
Olton, Texas

Dear Editor:

It is bad enough that some State Senators will condone and permit the waste of the people's money on offices that are useless.

It is even worse that these same Senators would refuse to pass a bill that would simply permit the people of each county to vote on whether to keep the office of county school superintendent or not.

Senators opposing this legislation give no logical reasons for their opposition in public; in private, they admit that they have personal friends they wish to protect in huge, glorified pensions.

The newspapers of Texas have almost unanimously supported this bill, for which I am deeply grateful.

But unless the average citizen will spend three minutes of his time and a 4¢ stamp to ask his State Senator to vote for it, I do not believe it will pass the Senate this session either, even though the House strongly supports the bill.

'Best Beau' Event Staged By Hart FHA

Harmon Bishop, youth director of the First Baptist Church, was guest speaker for the FHA "Best Beau" Banquet at Hart last Friday night. Scene for the banquet was the American Legion Hall.

The Rev. Denzil Leonard led the invocation and the benediction was led by Malcolm Atwood.

Entertainment was provided by a girls' ensemble composed of Marie Davis, Freda Davis, Vivian Shive, Judith Cheves and accompanied by Carol Futrell. Also a skit entitled "Shortenin' Bread" was given by Judy Humphrey and Rene Brooks.

Mrs. W. T. Sanders and Mrs. Ena Bowden were recognized as Chapter Mothers. The Chapter sponsor, Mrs. J. V. Wescott, and the Chapter FHA Beau, Jerry Felder, were also recognized.

P-TA Meeting

Is Monday Night

"Time-How is it Used?" will be topic at the regular meeting of the Hart P-TA Monday at 8 p.m. in the Hart School Gym.

First graders and teachers, Mrs. Malcolm Atwood and Mrs. Lanny Tucker, will present the program.

Judy Humphrey Has Accident

Judy Humphrey, 13-year-old daughter of Mr. and Mrs. A.L. Talléy, suffered a broken leg Sunday afternoon when a horse she was riding on the J. M. Kendrick farm became frightened and threw her. The animal stepped on her leg, breaking the leg in two places just above the ankle.

She was admitted to Castro County Hospital for treatment.

HART POTATO

Harold Smith, a partner in the H and S Produce Company of Hart has announced the construction of a cold storage vault of 15 to 20-car capacity.

The firm is planning an increase in shipping of red potatoes this season.

THIS & THAT

BY MYRT LOMAN

The month of March, Pappy and I will be on our vacation. I'm not sure that I will not come home and say, "I told you the best place to spend a vacation was at home."

Found this little saying in a paper and thought how appropriate it is, "A vacation consists of 2 weeks, which are 2 short, after which you are 2 tired 2 return 2 work and 2 broke not 2."

Mrs. Laurence McLain, known to most of us as Margaret, will be your correspondent while I am away. Will you please be just as nice to her as you have been to me in giving her your news. Her phone number is not in the book, but it is WE 8-3207.

Most of you subscribed for the paper to see what is going on in Hart so please give her your news. She says, "The month of March will be known as the Month to be Kind to Margaret."

Next week is Teacher Ap-

check up and treatment, returning home Tuesday.

Mrs. Evans Ray of Rochester has been visiting in the home of her son, Mr. and Mrs. Claude Ray and Clifford.

Mrs. Pete Brown had major surgery in Castro County Hospital Saturday.

Mr. and Mrs. Lonnie Bradley and Mrs. Tommy Kemp of Plainview were Sunday visitors in the home of Mr. and Mrs. Myrtle Bradley.

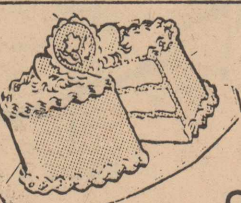

Hart Seniors To Present

Banquet For Teachers To Feature School Week

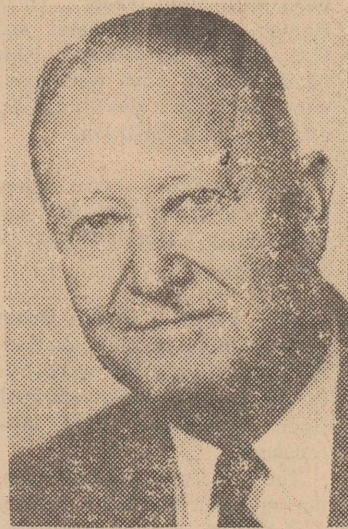

Highpoint of the observance of Public Schools Week, March 6-10, in Hart will be the annual Teacher Appreciation Banquet, scheduled Tuesday night at 7:30 in the Hart Gym.

Principal speaker will be Dr. Floyd D. Golden, educational consultant for Rittenberry and Rittenberry and Associates, Amarillo architectural firm.

Dr. Golden, with more than 40 years experience in educational planning, is a former superintendent of schools in several districts.

He is president emeritus of Eastern New Mexico University, Portales, listed in Who's Who in America, and a member of the National Education Association and American Association of School Administrators.

Dr. Golden was one of 30 educational administrators chosen throughout American to

tour the Soviet Union during the months of October and November, 1959, primarily to study the Soviets' educational system. "So many conflicting reports were coming from the Soviet Union relative to their educa-

tional system that three national organizations decided to send a group of American educators there to study the USSR system and bring back factual information," Dr. Golden says.

A 1925 graduate of West Texas State, Canyon, Dr. Golden holds a master's degree from the University of Colorado. He received an honorary LL.D. from Hardin-Simmons University, Abilene, in 1950.

Dr. Golden joined Rittenberry and Rittenberry last year after serving 19 years as president of ENMU.

port price, 72 cents, by his normal corn yield. If his yield was 50 bushels an acre, his payment for shifting 20 per cent of his corn acreage would be 50 times 72 cents, or \$36 per acre.

The cooperating producer will be eligible, at his option, to divert additional feed grain acreage into a soil-conserving use. For this he will be paid in kind from government stocks of grain at a rate of two-thirds his normal yield per acre. These payments-in-kind will be made by issuing certificates which the producer can redeem in grain or in cash at his option. The producer can receive these payments-in-kind for shifts up to 20 per cent making a total shift of up to 40 per cent.

The producer who cooperates by shifting at least 20 per cent of his acreage from feed grain production will, in addition to the special conservation payment he receives, be eligible for price supports at a national average rate. Producers who do not cooperate will not be eligible for price supports.

Support prices for soybeans will be raised to \$2.30 per bushel, and the support price for cottonseed raised to a competitive relationship with soybean support prices.

The estimated cost to the government of the conservation payments under this program is from \$400 million to \$500 million. There would be an outlay also for payments-in-kind but these would be more than counter-balanced in time by expensive storage and by reducing production of grain that would be eligible for price support loans if produced.

This would replace the estimated expenditures under the existing program of \$1.5 to \$1.6 billion of which \$500 million would eventually be recovered.

Sweetheart Banquet Held At Hart Church

The Fellowship Hall of the Hart Baptist Church was scene of a Sweetheart Banquet Tuesday night honoring the Intermediates and Young Peoples Department of the Church.

The dining area was decorated with an arch way, red candles, red and white streamers carrying out the theme of "Stairway of Love."

Ronnie Gardner was master of ceremonies. The speaker was Haywood Kube of McCoy, who spoke on "Bells and Pomegranates."

Meal was prepared by the ladies of the Church and served by the Deacons.

Approximately 50 attended the banquet.

CAPROCK

Ammonium Phosphate

1. Caprock Ammonium Phosphate is a water-soluble fertilizer processed by mixing liquid Phosphoric Acid and Sulphuric Acid, then neutralizing this mixture with ammonia.

2. Caprock Ammonium Phosphate is free-flowing, easy to handle, gives uniform coverage, and contains high concentrations of plant food per bag.

3. Caprock Fertilizer distributes this product to meet the requirements of the farmers of this area. Some farmers desire this type of product. Because Caprock Fertilizer Company is located in West Texas, it recognizes and can supply the needs of the West Texas farmer. Don't depend on distant sources of supply for Ammonium Phosphate. It can be purchased in the area.

THIS IS NOT A BLENDED FERTILIZER. EACH PELLET CONTAINS THE GUARANTEED ANALYSIS.
