CRUSHED: These are the battered remains of Mrs. C. F. Keen's 1959 Chevrolet which was struck by a train early last Thursday southeast of the city. Mrs. Keen was critically

injured in the accident, but her condition was reported as improved Wednesday at St. Anthony's Hospital in Amarillo. (McLean News Photo)

HIGHWAY 273 PROJECT GETS STATE'S OKAY

11 More Miles Of Route to Pampa Due Improvement

More construction on Highway 273 between McLean and Pampa is in prospect, according to the Texas Highway Department.

P. C. Goode, THD supervising program engineer from Austin, disclosed Wednesday that this and several other Panhandle road construction projects can be started as soon as plans are completed and bids are taken.

The new SH 273 project would begin some 8 1/2 miles north of McLean, where the widening and re-surfacing project was completed last year, and extend 11 more miles toward Lefors.

The 11 miles would take the road to the North Fork of Red River, at a cost of an estimated \$800,000.

First of the SH 273 widening, reconditioning and re-surfacing projects began at U. S. 66 here in McLean and continued northward for the 8 1/2 miles.

Another Underway
Another portion of the improvement program for the highway now underway starts at the south edge of Pampa and extends southward to just north of Lefors.

No decision has yet been reached on the route the highway will follow through Lefors, and apparently this is delaying the awarding of contracts on the complete route between McLean and Pampa.

The Gray County Highway 273 project is among several road construction programs announced Wednesday for eight Panhandle counties.

Total combined cost of the work, which will extend over the next two years, is estimated at \$4,664,800.

Included are projects in Gray, Potter, Randall, Dallam, Hartley, Hemphill, Ochiltree and Carson Counties.

Donald Beall Dies; Burial to Be Here

Donald Beall, who lived in McLean for many years, died following a cerebral hemorrhage in the hospital at Heber City, Utah, on Monday, June 25.

Funeral services were held today (Thursday) in Heber City, with burial scheduled in Hillcrest Cemetery, McLean, on Saturday, June 30, at 2 p. m. Rev. J. B. Stewart, pastor of the Methodist Church, will conduct the graveside services.

The body will lie in state at the Lamb Funeral Home Saturday until time for the services.

Mr. Beall was born Nov. 20, 1902, in McLean and was a member of the Methodist Church.

He was a veteran of World War II, serving in England for two years. He was employed by the state of Utah at the time of his death.

Survivors include his wife, Vera, of the home; one son, Robert of Park City, Utah; one brother, Ewell Beall, Los Angeles, Calif.; four sisters, Mrs. Jake Kinard, Dalhart, Mrs. Clay Thompson, Lubbock, Mrs. Millard Anderson, Shamrock and Mrs. Cab Bogan, Dumas, and four grandchildren.

Old Timers Club Meets on July 6

The Old Timers Club will hold a meeting in Lovett Memorial Library in Pampa at 12 noon Friday, July 6. It was announced this week.

All persons who have been in the Black Hills of South Dakota from there they toured through North Dakota, Minnesota, Colorado, Nebraska, Wisconsin, Iowa and Missouri.

Vicki Welch remained in St. Louis, Mo., for a visit with relatives.

SCHOOL WAITS FURTHER WORD

The use of prayer in the McLean public schools will continue as in the past until a directive to the contrary is issued by the board of education or state school authorities, Supt. Lee Welch said Wednesday.

Welch announced that there would be no immediate change in local policy, when questioned about the effect of the U. S. Supreme Court's ruling declaring prayers in public schools are unconstitutional.

The high court issued its decision Monday in a case involving a prayer used by a New York school.

Welch said that if the Supreme Court's interpretation of the Constitution is enforced, this apparently will mean the elimination of baccalaureate programs for all schools, as well as stopping the use of prayer in any school exercises.

Left Up to Teachers
At present, the local school system does not have regular prayer to open classes, but teachers are permitted to hold such ceremonies if they desire.

Welch had planned to inaugurate a program of regular devotional services to open school each morning here, and final arrangements were expected to be made for the programs this fall.

The Supreme Court's decision, rendered after patrons in a New York school had objected to prayer in school exercises, has brought loud protests from many lawmakers and church leaders.

The possibility of an amendment to the Constitution is being considered, which would nullify the court's action. However, such an amendment would take years to become effective.

Ordinance Prohibits Fireworks in City

Parents and youngsters were reminded this week—as the Fourth of July approaches—that a city ordinance prohibits the use of fireworks inside the City of McLean.

Mayor John C. Haynes pointed out that the ordinance was not enacted to prevent residents from celebrating Independence Day, but to help eliminate the danger of injury to persons and damage to property.

He encouraged parents to closely supervise their children. If they are permitted to explode fireworks outside the city.

The city ordinance provides for the arrest and fining of persons caught exploding fireworks in McLean.

Welches Return From Vacation in Canada

Mr. and Mrs. Leo Welch and family have returned from a two-week vacation that took them to Canada and various points of interest between here and there.

The Welches' first stop was in the Black Hills of South Dakota. From there they toured through North Dakota, Minnesota, Colorado, Nebraska, Wisconsin, Iowa and Missouri.

Vicki Welch remained in St. Louis, Mo., for a visit with relatives.

Mrs. Keen Showing Improvement From Accident Injuries

A McLean woman injured in a car-train collision near here last Thursday morning was reported showing improvement early Wednesday night.

Mrs. C. F. (Bessie Mae) Keen, 39, remains in St. Anthony's Hospital in Amarillo for treatment of injuries sustained in the accident.

But a member of her family said Wednesday night that her condition was improved, and she "is as well as could be expected."

However, Mrs. Keen remains on the critical list at the hospital, even though her physician was reported pleased with her progress to date.

The mishap occurred Thursday after Mrs. Keen's car stalled on the Rock Island Railroad tracks 2.1 miles southeast of McLean.

An employee of the Marie Foundations factory here, she was going to work when the crash happened at 6:25 a. m. The scene of the collision was near her home.

The car was pushed 332 feet west along the tracks and had to be removed from the front of the train—a Rock Island Budd car. Mrs. Keen fell from the car 209 feet from the point of impact.

School Equalization Board Will Meet

The McLean Independent School District board of equalization will meet at 9 a. m. Friday, July 13, in city hall, according to a notice appearing in this week's McLean News.

The meeting was called to set values on property located in the school district.

According to the notice, the board called the session for the purpose of "determining, fixing and equalizing the value of any and all taxable property situated in the said McLean Independent School District, until such values have finally been determined for taxation purposes for the year 1962."

"Any and all persons interested or having business with said board are hereby notified to be present," the notice states.

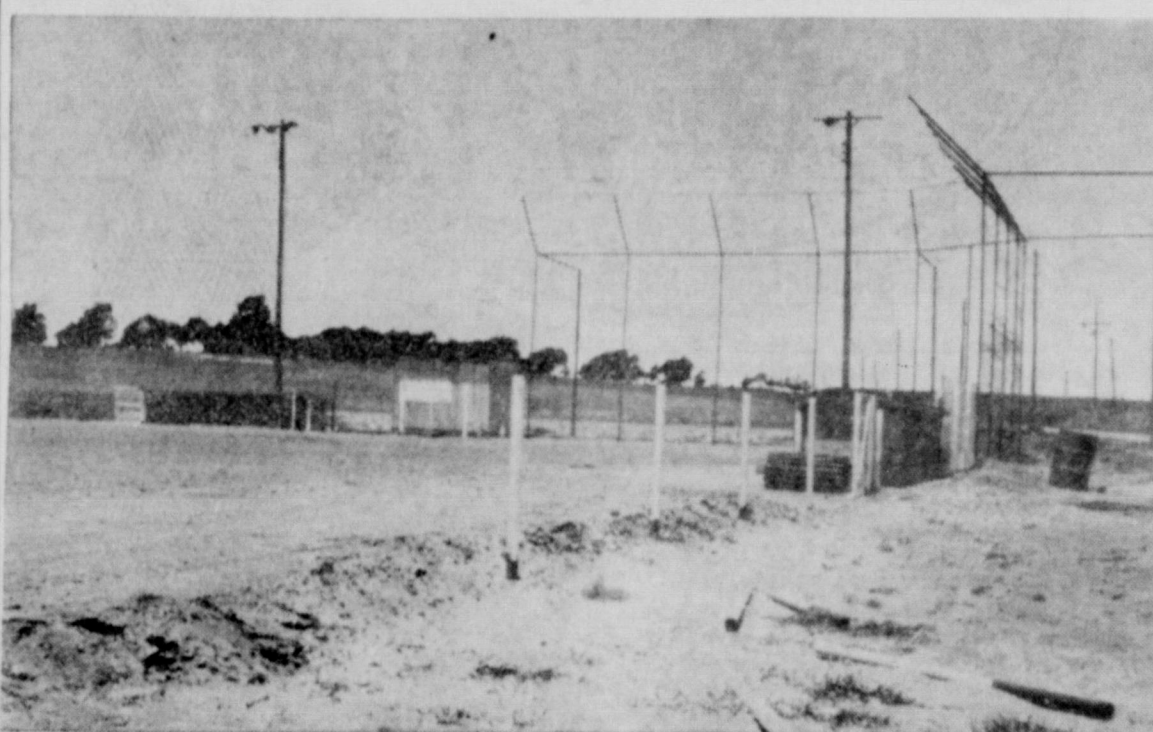

Independence Day Celebration Ahead

Independence Day next Wednesday will be observed as a holiday by most McLean businesses.

Few firms are expected to be open for the first holiday of the summer.

The Texas Department of Public Safety has urged all persons planning to leave town to drive carefully.

The department predicts that eight persons will die on state highways during the holiday period, from midnight Tuesday to midnight Wednesday.

READY, BUT IDLE NOW: The McLean Little League Park, about as modern as there is, stands idle this week while many of the baseball players are away at the Boy Scouts' Camp Kiowa, near Canadian. The

new park, constructed almost entirely by volunteer labor, includes a big-league-style screen and dugouts for the teams. The park is located just west of Duncan Football Stadium. (McLean News Photo)

HOME STRUCK BY LIGHTNING

Another vicious thunderstorm hit McLean Sunday night, and lightning struck at least one home in the city.

Damaged by the lightning was the home of Mr. and Mrs. J. D. Fish in north McLean.

The lightning hit the Fishes' television antenna, knocked out telephone service and badly damaged the television set.

It was the second time during the current storm season that lightning had struck in the city. In an earlier storm a gas meter and a television antenna in the north part of town were hit, touching off fires that were extinguished by local firemen.

45 Inch of Rain
Sunday's shower added .45 of an inch of moisture to McLean's total for the year, and brought to 4.32 inches the amount received here in the month of June.

A rain Monday night dumped another .38 inch.

The total for the year stood at 9.43 inches Wednesday, compared with 11.55 at this date in 1961.

Temperatures here have reached 90 degrees on two occasions—Saturday and Sunday—but moved no higher than that. The top reading Wednesday was 82.

Awarded by Booster Club

10 Band Students Win Scholarships

Ten McLean Tiger Band students have been awarded band camp scholarships, Director Jim Boyd announced Wednesday.

The \$25 scholarships were presented by the McLean Band Boosters Club, as has been the organization's custom for the past several years.

Making the scholarships available for the students is one of the many projects carried out by the Boosters Club to help produce a better band.

Students were selected to receive the awards following tryouts conducted by Boyd.

Recipients were: Janice Saunders, Toni Mertel, Linda Guill, Jim McCarty, E. B. Durham, Carolyn Willoughby, Cheryl Grimsley, Sharon Sitter, Jan Bailey and Barbara Dwight.

Most of the students plan to attend the annual Summer Band Camp in Canyon, Boyd said.

Last year McLean students occupied several first chairs in the two top bands at West Texas, and Boyd said "We are sure they will do a good job again this year."

GOLF TOURNEY SLATED SUNDY

Separate golf tournaments for men and women—held simultaneously—will be held Sunday at the McLean Golf Course.

Sonny Back, tournament chairman for the McLean Lions Golf Association, said flights for both men and women are planned.

The golfers will tee off at 1 p. m.

All local golfers are invited to participate.

Improvement at facilities at the local course is underway, and the fairways and greens are being kept in top condition.

A concession stand is being constructed at the first tee, as a part of the shelter built several months ago.

Soft Drink Machine

The stand will house a soft drink machine and possibly other refreshments, as well as being a storage area for golf course equipment.

A water tank also is being erected at the well drilled last year by Hershel McCarty.

Piping will be laid from the tank to provide drinking water at various sites around the course.

The association has employed Eddy Windom to take care of the course during the summer and early fall. His duties include mowing the fairways and rolling the greens.

Samnorwood Clips Inter-City Team

The McLean Inter-City League squad was defeated 4-1 in Samnorwood last Sunday, and the locals have another week of rest before re-entering the loop race.

Manager H. D. Banks said McLean was to have met Mobette this Saturday night, but that town has pulled out of the league and forfeited all remaining games.

The remainder of the schedule is:

July 8—Lefors, here.
July 15—Shamrock, here.
July 22—Wheeler, here.
July 29—Samnorwood, here.
McCabe and Watson pitched for McLean in Sunday's game at Samnorwood.

THE AMERICAN WAY

CITIZEN

COMMUNISM . . . COMPOSITE OF ALL CRIME . . .

The Communist world conspiracy enjoyed one of its most strategic victories when, by brain-washing and propaganda, it was able to convince people in positions of prominence that communism is merely a political idea which people have a right to be for or against.

This is a common misunderstanding which has led to much confusion. This hypothesis is totally incorrect. Not only that, it is dangerous.

Such a hypothesis implies that communism might have some good points. In reality, communism has no good points. It is completely bad. Of all the "isms" in the world, it must be rated as the most terrible with nothing worthwhile to offer.

Concerning communism, there can be no argument made in its favor any more than there can be substantial argument offered against any other crime.

I have submitted before that communism is the composite of all crime.

In support of this view I offer

several observations.

NUMBER ONE: Communism is murder. 100 million people have been officially slaughtered or starved to death by the Soviet and Red China regimes alone. It has been estimated. Communist sources tell us that there will have to be a mass slaughter of at least 60 million Americans when the Communists take over. To the warped Communist mind this is peace. It is peaceful because it enhances the establishment and maintenance of the Communist Utopia.

NUMBER TWO: Communism is atheism. The idea of God is ridiculed. Christianity is classified as the opiate of the people. It is presented as the means by which the masters keep the workers content with their sad and burdensome lot in the world. The worship of God is outlawed and it would make of our young sons and daughters Christ-hating atheists.

NUMBER THREE: Communism is rape. The Communist lacks a civilized moral code. Territories that are overrun by communism

It's the Law

YOUR USE OF LEGAL NAME

This newfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because slight variance in facts may change the application of the law. Most probably you are never sure whether your wife should use your first name, or her own, when signing an important paper. Perhaps you also wonder whether to put a "Mr." or a "Mrs." in front of a signature, and you can get all mixed up about a "Jr." or a "Sr." after it. Then, what about your middle name or initial? It seems that for centuries under common law a legal name has consisted of one Christian or given name and one surname of family name. The law presumes that every person has a given name and a surname which must be stated in full on any legal document.

The law pays little attention to a middle name or initial, but it is wise to use either one or the other for exact identification. You must be consistent, too. For example, if a real estate buyer was advised to sign all papers by his full name, "William Alton Smith Jr.," to make it clear which of the Bill Smiths was buying the property.

If you are a "Jr." or a "Sr.," such description should be used to help distinguish you from namesakes.

As for "Mr." in front of your name, that's not important at all. The same is true for "Mrs.," because it's your wife's own given name that counts.

When a woman marries, she takes her husband's family name. Her maiden surname is absolutely lost. Many women incorrectly use their husband's full name, and sign "Mrs. William A. Smith," for example. The correct way is for her to sign her own given name and her husband's surname, such as "Joan Marie Smith."

A divorced woman who wants to resume the use of her maiden name may, under some circumstances, have it returned to her by court order.

TREASURE HUNTERS BEWARE

Jean LaFitte, the Creole Buccaneer, spent many wild years in free-booting on the Gulf Coast of Texas. That area abounds with legends of his many chests of gold and gems buried in the sands.

LaFitte knew the Texas Gulf Coast well, including the reefs, bays, inlets and sands. It was his knowledge that helped him escape the gunboats and continue his pirating.

It is said that the ghost of Pirate Jean LaFitte still walks the sands to protect his buried treasures—so let treasure hunters beware.

It's hard to believe all the stories of the fabulous buried treasure but there's a treasure in pleasure to be had on the Gulf by all.

Make your next vacation a "Gulf Holiday" and enjoy fishing, swimming, boating, or just relaxing in the year 'round vacation climate.

Treasure hunting, or just playing, on the fine sands of Padre Island is fun, too. Who knows, you may be the one to discover that at least one buried treasure story isn't just a fable.

Mr. and Mrs. Joe Crockett and children of Plainview spent Friday night with Mr. and Mrs. Sherman Crockett. They went to Galveston from here to return their daughter, Sherry, home from the hospital. Sherry was severely burned over a year ago and she was in Galveston for plastic surgery.

NEWS from YOUR COUNTY AGRICULTURAL AGENT

By FOSTER WHALEY

PRAIRIE DOGS

Jeff Railsback has two pretty good sized dog towns we plan to work in July.

At this time we will have the services of Tom Sparks, Rodent Control Service, Lubbock. We plan to do follow-up work in other parts of the county.

To the best of our knowledge we have completely eradicated the dogs on Guy Beasley's place, the golf course, Truitt Johnson's and Charles Cook's.

I learned from James Cliett that Victor Cliett, his father, had a few prairie dogs. Anyone in the vicinity that needs help on this problem should get in touch with me. If you live in Wheeler County, contact Bryan Swain, your county agent.

They saw 20 dogs eat and destroy as much grass as one cow.

They spread fast.

The mother dogs usually have four to four puppies. We have as a goal complete eradication of prairie dogs in 1962.

IRRIGATION

James Cliett has an irrigated pasture project that might interest others in this vicinity.

We have several others in this part of the county also. In late August James plans to plant Lanthanum alfalfa on a portion of this land. It will be irrigated.

This particular variety of alfalfa is resistant to aphids. For the past several years aphids have played havoc with common alfalfa. Leroy Williams has had trouble with his.

Drew Word planted the new variety two years ago. The floods held him back last year. Seed is a little difficult to obtain.

WEATHER

At this point I believe I would have given up had I been a farmer in the McLean vicinity. Some have re-planted the third time, and with over 1 1/2 inches last Sunday night it appears that a poor stand or no cotton at all for 1962.

Things are pretty well the same up on top.

NEWCOMERS

You have two new residents in town. They are Mr. and Mrs. Calip Cannon. They come from northeast Cook County in a little community called Bulcher, near Saint Jo, Texas.

Although Mrs. Cannon won't admit it, she is a cousin of mine. Even so, they are the salt of earth type of people. Get acquainted with them.

Calip is an employee of Kewanee Oil Co.

RANGE WEEDS

O. R. Blankenship stumped me on the identification of a weed that is invading his pasture land.

We have sent the weed off to a specialist at Texas A and M College. We advised him to spray with 2,4-D.

When we get the information back from A and M we can be more specific. Blank has one of the prettiest pieces of grass I've seen.

He mows his pasture every year. No doubt this accounts for the absence of other weeds and brush. Mowing or spraying is a paying proposition.

See you next week.

PLOWIN' Out the CORNERS

We have all heard stories about the absent minded professor. The following incident along that line should send someone to the head of the class.

During a recent ice storm in the eastern Panhandle most of the electric lines were down. Many homes were without electricity for several hours. On a certain morning this family arose to find no lights. They hunted up some candles and proceeded to have breakfast and prepare to go to work. Sitting around the breakfast table all lighted up with candles they plugged in the electric percolator and sat waiting. After some minutes they realize their absent mindedness.

One hundred years ago our forefathers crossed the vast wide open plains by wagon train. Today our sons whirl around the earth at 25,000 miles per hour and scarcely no one is watching. The trouble is, everyone today is watching Wagon Train.

We heard of a fellow who would drive around town with the windows up on his car even during the hottest days in order to impress his neighbors with the idea that he owned an air conditioner.

Marriage is said to be a union of two people, but the man is supposed to get the bill for the union dues. Whoever thought of this expression must have lived before the days of labor unions because nowadays almost as many women hold down jobs as men. Many of them belong to a union.

We may be sort of outdated if we can remember when "Fall out" meant a slight rift between a boy and his girl.

Finally, fishing has received some of the recognition and official sanction it so well deserves.

Recently the governor of Missouri issued the following proclamation that so aptly describes the soul-soothing yet exhilarating sport of fishing.

The proclamation reads:

"WHEREAS piscatorial pursuit has bemused mankind for generations, leading to his betterment physically, mentally and (except for veracity) morally, and;

"WHEREAS the pleasures of fishing have been extolled by philosophers from time immemorial (upon which persons of all political persuasions can agree), and;

"WHEREAS fishing is the most democratic of activities, as all men are equal in the eyes of fish, and;

"WHEREAS men engaged in fishing are almost entirely free from mischief (a fact which totalitarian countries totally fail to see), and;

"WHEREAS we can expect to be treated to a world-wide display of shakings of the mallee fist by totalitarian nations who make a mockery of gentle May Day;

"NOW, THEREFORE, I, John M. Dalton, governor of Missouri, do hereby proclaim as our answer to woes besetting the world that Friday, May 4, 1962, is FISHING DAY IN MISSOURI.

"Let all who may go forth into this commonwealth's great outdoors and enjoy the angling pleasures of her many waters, declaring to all the world that while others may bedevil themselves with war and rumors of war, we would rather, for this day at least, be about the peaceful pursuit of fishing."

This is Texas—not Missouri. But it looks like we'll have many a happy fisherman this year.

During the first of 1962 we saw the fish make their runs, the dove nest and the quail call. With all that activity we can look forward to a vigorous year for Texas sportsmen.

Game and Fish Commission, reported heavy runs of white bass and crappie in most all of the Texas lakes. This, along with the early-year catches of some prize-size blacks, makes the picture

look pretty favorable.

Along with the good must always come a little bad. Namely, water pollution.

The 1961 report of fish kills from the U. S. Department of Health, Education and Welfare showed that a little over 6,000,000 fish bobbed to the surface. Most were killed by industrial waste.

The 1961 report gives a little more complete outlook but shows a disgusting massacre of 15,000,000 fish.

Most prevalent killer was agricultural poisons. Next came industrial wastes. Mining operations and sewage discharge also took their toll.

Texas' reports didn't look too bad, but they were incomplete reports.

If the fish-kill problem doesn't worry you, one thing is sure to do so, it's the drinking-water problem.

In a sense, these floating fish are like the canaries that coal miners take down into the mine. When the canary dies, it is a warning to the miners that there is danger of deadly gas. Actually the fish are warning us of deadly wastes.

It is difficult for a sportsman to do much about this problem by himself. But, collectively they have great power.

Some business firms need to be more careful with their industrial wastes.

Local governmental units should take steps to improve sewage disposal systems.

The many good sportsmen's groups in Texas can do much to correct the evils of pollution.

If pollution problems exist in your community, call on your local fishing club. If you don't have a club—then organize one.

certainly not to everyone.

Wayne Poucher, the "voice" for Life Line, a group of Americans dedicated to informing the people about communism and to the threats against our freedom, warned months ago that just such a movement was underway.

Poucher, in a radio-television address, cautioned listeners that this was just another in a series of efforts to take away the liberties of Americans in the guise of preserving these liberties.

We would never even suggest that the Supreme Court is packed with Communists or Red sympathizers. But some decisions like this latest one are causing grave concern among America's true patriots.

—JBU—

The 19th America seems to be taking toward an almost certain socialist state also is resulting in some bitter feelings.

In this world battle over the President's medical care program, a humorous yet perhaps not so exaggerated poem has been written.

Entitled "Socialized Medicine," the poem goes like this:

"Well, hello, Doctor, look who's here.

It's old Joe Doakes and I feel queer.

I've such a hurting in my chest That I just can't get any rest. So look me over, will you please, And see if you my pain can ease?"

And the doctor said, "It's plain to see

That you're as sick as sick can be. If you'll fill out form six-o-one Then we'll see what can be done. To make you well should be no trick.

But first we'll have to prove you're sick.

"You haven't got your eight-three-two?"

"Well, then, I don't know what we'll do

For if you have read section nine You know we BOTH could pay a fine

If I should treat you right away Without the government OK.

"So write your congressman you're ill

That he may introduce a bill And have the Congress legislate The right for me to operate.

And if he gets it through in time, My boy, it won't cost you a dime."

Mr. and Mrs. Marvin Henderson and family of Amarillo visited Mrs. Ola Henderson during the weekend.

John Ernest Eudey Rites Held Today

John Ernest Eudey, a former resident of McLean, died Wednesday morning in Northwest Texas Hospital in Amarillo.

Funeral services were at 2:30 p. m. today in the LaGrone Funeral Home chapel in Canyon, with Rev. Dale Harter, pastor of the Canyon First Christian Church, officiating.

Interment was in Dreamland Cemetery.

Mr. Eudey, who lived at 601 Eighth Avenue in Canyon, was 38. He was born on Oct. 24, 1923, in McLean, and was married to Kitty Ruth Bailey of Clarendon on Dec. 2, 1945.

He was a nephew of Charlie Eudey and a brother-in-law of Mrs. S. A. Cousins of McLean.

A veteran of World War II, Mr. Eudey was a member of the First Christian Church.

He is survived by his wife, two children, Janiece and Johnny, both of the home; his mother, Mrs. John Waters, Clarendon, and one brother, Earl Eudey of Ontario, Calif.

Merging Set For Red Cross Chapters

Application has been made for the merging of the McLean and Pampa American Red Cross chapters, it was learned here this week.

Final approval of the merger was given at a meeting of the Red Cross directors in Pampa, but the action will not be official until national approval.

The request to merge the two chapters was presented to the Pampa executive committee by Bob Blackburn of Amarillo, Panhandle Red Cross field representative.

Jimmie Don Morris, manager of the Southwestern Public Service Co. here, is chairman of the McLean chapter.

Final approval of the merger must come from the Red Cross board of governors in Washington, D. C., before the action is official.

The Lefors Red Cross chapter has been affiliated with the Pampa chapter for several years.

AMERICAN WAY

(Continued from Page 1)

are subjected to the ravages of rape and assault. This was vividly illustrated following World War II when the women and girls of the iron countries were ravaged beyond description.

NUMBER FOUR: Communism is subversive conspiracy. Some few years ago there was a law passed known as the Smith Act, branding communism as a criminal conspiracy and subversive in its purposes. The Communists have ignored this law for over 10 years by the employment of legal technicalities. Many thoughtful people have thought that this law was not enforced because of the left-wing nature of the Supreme Court whose weak, watered-down decisions relative to communism are notorious and myraid.

NUMBER FIVE: Communism is smuggling. Any citizen who would smuggle merchandise into the United States would be arrested and adjudged a criminal; but smuggling is common practice among Red agents. These traitors have been caught on numerous occasions smuggling guns and ammunition out of the United States and into the hands of Red agents.

I would challenge you to learn the dangerous doctrines of the enemy in order that you may fortify against it. Remember, material forces alone do not determine the destinies of men. The resources of an infinite God can change the balance of material assets. As free men humbly seek God and to do His will—and as they become truly dedicated citizens of the land of the free and the home of the brave—we may well expect that tyranny shall not triumph and freedom shall not perish from the earth.

Will you stand for freedom?

Experts Back Versatile Youths

When 400,000 men and women volunteer their time and know-how to help 2.3 million 4-H Club members "learn, live and serve," the results are no less than spectacular.

For instance, the Head, Heart, Hands and Health youths finished nearly 4 million projects in more than 40 different categories just this past year.

In almost every instance, the completed project benefited the entire family and in many cases, the community as well.

The information comes from the Cooperative Extension Service which directs 4-H Club work.

Further proof of the far-reaching effect of 4-H was found in 1,900 record books maintained by state award winning club members. The records were reviewed in the headquarters of the National 4-H Service Committee last November, said Norman C. Mindrum, director, for the purpose of selecting boys and girls for scholarships and trip awards to the National 4-H Club Congress in Chicago.

Miss Sheila Nixon, 20, of Pomona, California, winner of a \$400 Ford scholarship, commented: "The awards we win in 4-H work aren't totally ours. Many people have helped us win them."

Another national champion, who won a Sears-Roebuck Four-

state scholarship for leadership, is 20-year-old Hoosier farmer Wayne Buck. He has a 4-H record so long "it would fill a book." Now a student at Purdue University, Buck credits 4-H training with teaching him how to accept responsibility, and to better understand the world and the people in it.

President Kennedy expressed a similar feeling when he said in a recent message to 4-H members: "I would commend you especially for your constructive and worthwhile efforts in learning to live and work cooperatively with others."

In the beginning, 4-H Clubs were intended for farm youngsters, and offered only projects in crops, livestock, home canning and cooking. The present program embraces a wide range of agricultural, home economics and scientific programs. With the exception of a few such as livestock, tractor and field crops, the projects can be carried on in town as well as on the farm.

4-H Moves to Town Today, membership in 4-H Clubs is about equally divided between farm and non-farm boys and girls. The main reason for this shift is the disappearance of the small farm from the American agricultural scene.

Meanwhile, more and more business people are participating in 4-H as it moves into suburban and urban areas. Mindrum points out. National 4-H Club Week, National 4-H Club Congress, Farm-City Week, achievement days, county and

state fairs, Farm-Safety Week and the like are but a few examples, he said.

Director Mindrum, who is a former 4-H member and state extension official, has this to say: "To sum up 4-H achievement one should call special attention to the concurrent efforts of many which, over the years, have made the 'learn by doing' program the success it is.

Business Gives Cash

"Besides the paid and volunteer workers who carry out the teaching-training aspect, there are business people who contribute know-how and money," he added.

Approximately 60 different business concerns provide funds for 4-H through the National 4-H Service Committee, he said. Donors of awards for the last 25 years or more include: International Harvester, Montgomery Ward, Westinghouse Educational Foundation, Kerr Glass Mfg. Corp., Cudahy Packing Co., Armour and Co., Livestock Conservation, Inc., Wilson & Co., Mrs. Charles R. Walgreen, Also, Santa Fe, Chicago and North Western, Illinois Central and Burlington railways.

Newer 4-H backers are the Sperry and Hutchinson Co., Ralston Purina, Moorman Mfg. Co., General Foods, E. I. du Pont de Nemours and John Deere. Also, Pyrofax Gas and International Minerals & Chemical corporations. These firms have supported the program for five years or less, according to the 4-H Service Committee.

Grandma Rogers celebrated her 80th birthday last Thursday, June 10, at the home of her daughter, Mrs. Nida Rippy Green, in the Heald community, where she makes her home.

Two hundred-four relatives and friends registered during the day, partaking of the bountiful dinner spread on long tables under the shade of the trees in the yard at the noon hour.

The invocation was given by a grandson, Rev. Leo Rippy, director of adult education of the Methodist church.

After luncheon, and the tables were cleared, a service was conducted with Rev. George Palmer Clarendon in charge, who paid glowing tribute to Grandma.

Mrs. and Mrs. Cliff Day, accompanied by Mr. and Mrs. Dave Day and daughter of Pampa, attended a Day family reunion at the home of Mr. and Mrs. Frank Day in Plainview on Sunday.

MANN-HOLLABAUGH VOWS SAID IN CHURCH CEREMONY

The First Baptist Church in McLean was the setting for the double-ring ceremony performed June 16 which united in marriage Miss Pamela Mann, daughter of Mr. and Mrs. J. L. Mann of McLean, and James M. Hollabaugh, son of Mr. and Mrs. James L. Hollabaugh of Shamrock.

Rev. Dan Beltz, pastor, officiated, and traditional wedding selections were by Miss Betty Dilbeck, organist, and Mrs. Jeanne Brown, vocalist.

Miss Sherry Biggers of McLean was maid of honor, and Miss Linda Reed of Amarillo, cousin of the bride, was bridesmaid.

Best man was Jerry Settle, and Jerry Brown was groomsmen. Both men are from Shamrock. Mack Bentley of Shamrock and Mike McIntyre of Springer, N. M., cousin of the groom, served as ushers.

Mike Simpson and Johnnie Mann, cousin and brother of the bride, served as candlelighters.

Given in marriage by her father, the bride wore a floor-length gown of chantilly lace, fashioned with sabrina neckline outlined with iridescent sequins and seed pearls.

The bouffant skirt had a satin bustle bow and the skirt formed a chapel train. Her veil of bridal illusion was attached to a tiara of seed pearls. She carried a white Bible topped with a white orchid.

The maid of honor and bridesmaid wore identical dresses of blue nylon chiffon and matching hats of blue veiling. Their corsages were of white carnations.

For her daughter's wedding, Mrs. Mann chose a beige sheath dress with a lace overskirt and pony pink accessories. She wore a pink carnation corsage.

The groom's mother, Mrs. Hollabaugh, wore a rose lace sheath dress with white accessories. Her corsage was of white carnations.

Immediately following the ceremony a reception was held in the church parlor. The bride's table was appointed with a white lace cloth centered with an arrangement of blue and white daisies.

Miss Mary Ann Smith presided at the punch service and Miss Doris VanHuss served the cake. Guests were registered by Miss Margie Railback.

For her going away costume, the bride chose a white linen sheath dress and jacket with black accessories.

The bride is a graduate of McLean High School. The bridegroom graduated from Shamrock High School and is presently associated with Reeder Plumbing and Heating of Amarillo.

The couple now resides at 4100 West Eighth Avenue in Amarillo.

Mr. and Mrs. A. L. Conatser, Barbara and Vicki Sue of Stinnett visited Mr. and Mrs. Clyde Willis recently. Vicki Sue remained for a longer visit with her grandparents.

TEXAS—BEST IN NATION

There are more than 700 roadside parks along Texas highways. All offer complete picnicking facilities. Many have drinking water and firewood.

No other state is so well blessed with these wonderful facilities to make your traveling more enjoyable.

These parks are a mighty welcome sight when you need that restful nap, that thirst quenching drink of water, or that delicious picnic lunch or dinner.

It's often said that there's more to see in Texas! Thanks to Texas highways and roadside parks you can also see it better.

Little Bessie was sitting on her grandfather's knee one day, and after looking at him intently for a time, said: "Grandpa, were you in the ark?"

Grandfather—Certainly not, my dear. Little Bessie—Then why weren't you drowned?

We're not old enough to have been in the ark, but we are old enough to have established a reputation for dealing in good products and service that is second to none when it comes to caring for your auto needs. Let us check your car, tires, etc., before you start on that vacation trip—and fill up, of course, with Chevron gas!

**4-H's Tally
 Year's Work On
 Dairy Projects**

Raising dairy cattle and dem-
 onstrating the use of dairy prod-
 ucts in meals are popular 4-H
 Club projects. Hundreds of girls
 and boys throughout the state,
 in checking project results, are
 probably asking themselves the
 question a prize-winning dairy-
 maid asked herself.

"Where would I be today if
 I had not had the opportunity
 to join 4-H?" According to the
 youths' own stories, they learn
 good health habits, accept re-
 sponsibility and work with
 others. And they usually profit
 from their efforts.

The dairy project is open to
 boys and girls who have one
 dairy animal or an established
 herd. Many young dairy mem-
 bers started with a single heifer,
 and in 10 years or less built a
 valuable herd.

Of the 134,000 club members
 in 50 states enrolled in a dairy
 animal project today, about a
 third are girls. This ratio held
 among the six national dairy
 scholarship winners last year.

Cows Cooperate

The 4-H's not only learn
 how to care for dairy animals,
 but also adopt proven scientific
 methods of feeding, milking,
 marketing and breeding.

Showing and judging cattle
 are exciting aspects of the dairy
 program, according to the mem-
 bers. Extension dairy special-
 ists, dairy industry personnel
 and volunteer club leaders help
 the young people acquire know-
 how and skills that will enable
 them to continue a modern
 dairy operation.

Seeing Leads to Eating

This year an estimated 200,000
 club members from Maine to
 California are participating in

4-H CLUB DAIRY PROJECTS

TEACH....

 consumption

the dairy foods demonstration
 program.

The "know-how, show-how"
 project is a favorite of the
 younger teenagers. Sometimes
 the girls pair off and work up
 a team demonstration. Others
 develop a solo demonstration.
 Audiences range from a few
 club members, groups of adults,
 to television viewers.

Rewards Vary

Among favorite recipes are
 frosty milk drinks, cottage
 cheese salads, cakes, sandwich
 spreads, snacks and party fare.
 The recipes are double-barreled,
 youthful meal planners point
 out, because they are packed
 with nutrition and good eating.

Each of the 4-H dairy pro-
 grams has a sponsor that pro-
 vides incentive awards in the
 form of medals, wrist watches,
 educational trips and college
 scholarships.

This year marks the 15th
 anniversary of the dairy foods
 demonstration program spon-
 sored by the Carnation Company
 of Los Angeles.

The Oliver Corporation of
 Chicago, for the sixth straight
 year, provides the dairy animal
 program awards.

County, state and national
 winners are selected by the
 Cooperative Extension Service,
 and awards are distributed
 through the National 4-H Ser-
 vice Committee.

Locals

Mr. and Mrs. Ted Foster and
 Ted III and Lynn of Santa Rosa,
 N. M., visited with Mr. and Mrs.
