NOW THE 17-YEAR LOCUST NIGHTMARE

(Copyright, 1911.)

OPINION ON VIRGINIA'S DEBT

West Virginia Owes Virginia \$7,182,507—Question of Interest to Be Decided Later.

Washington.—The sum of \$7,182,507 was held Monday by the supreme court of the United States to be the proportion of the \$23,000,000 old Virginia state debt which West Virginia is under obligation to bear.

The court left the final determination of the matter, including the question of interest, to the two states to decide by conference.

The ratio of the valuation of the real and personal property of the two states at the time of their separation was taken as the proper basis for apportioning the debt. "Just and equitable proportion of the debt." The value of slaves was excluded. This ratio was determined as 67 to 235.

The \$23,000,000 debt would have been divided according to this ratio, said Mr. Justice Holmes, had not Virginia by legislation changed the amount to be apportioned. Virginia induced its creditors to accept \$22,000,000 as its share of the debt, whereas, by the court's figures, Virginia's share would be \$25,000,000. The difference between the two sums, \$3,000,000, should be subtracted from the \$22,000,000 debt, leaving \$19,000,000 to be apportioned. West Virginia's share of this would be \$7,182,507, said the justice.

Commenting on the width of the suit and difficulties interposed by the confederates, including the matter of interest money, Justice Holmes says: "We think it best at this stage to go no further, but to await the effect of a conference between the parties, which, whatever the outcome, must take place."

Ever since the civil war the commonwealth of Virginia has been endeavoring to collect from West Virginia what is claimed was the latter's share of the old state's debt. West Virginia was said to have acknowledged her liability.

Finally, because the payment was not made, Virginia brought suit in the supreme court for about one-third of the state debt as of Jan. 1, 1901, and created them to be about \$23,000,000.

Entrance Test Accident.
Houston, Tex.—C. W. McPherson was seriously injured Monday morning about eighteen miles from Houston on the Cypress road when the automobile in which he was a passenger skidded, overturned, turned a somersault in the air and was completely demolished in a ditch alongside the road. He sustained five broken ribs on the left side, internal injuries and a badly wrenched back, in addition to a shock which left him partially unconscious for several minutes. At the Houston infirmary it was stated that he would recover. Clinton Colgrove, who was driving, escaped uninjured. He was participating in the flying cup endurance race.

Knapp Is Made Mediator.
Washington.—President Taft has designated Presiding Judge Martin A. Knapp of the commerce court as one of the mediators under the Bryan act, in accordance with an amendment to that act which Congress recently attached to the sundry civil appropriation act.

Dollar Turpentine Forecast.
Savannah, Ga.—For the first time in the history of the industry turpentine was quoted Wednesday at 90c per gallon. The price has been gradually climbing for several weeks, each succeeding high price establishing a new record. It has been predicted locally that "dollar turpentine" is not far distant.

LOUISIANA UNIVERSITY STRIKE

Two Hundred and Eighty Cadets Walk Out and Don Their Civilian Clothes.

Baton Rouge, La.—As an outcome of the hazing episode which led to the dismissal of Cadets Ewing of New Orleans, Josseland of New Roads and Terry of Monroe, 250 students of the State University went on a strike Saturday, walking out of the chapel in a body. The hazing consisted in shaving the heads of the freshmen. Three of the boys were caught in the act.

The faculty agreed to reinstate the three students expelled if all other participants in the affair came forward with their names and would accept 50 demerits and 20 "tours," and have their heads clipped and 20 "tours," or take 50 "tours."

Upon the announcement some of the more hot-headed students led many of the cadets from the university and out into the town.

At 1 o'clock all the students implicated gathered at the confederate square, and passed resolutions, in which they stated they considered themselves no longer students of the university, and the cadets among the number agreed to turn in their guns and don civilian clothes.

President Boyd is earnestly trying to settle the trouble and it was thought that a way might be found to restore the three cadets to the university.

MEXICALI FEARS AN ATTACK

Non-Combatants Sent Away—Women and Merchants. Most of Them Americans. Leave.

Mexicali, Mex.—Five rebel scouts, one of whom apparently had been wounded, rode back into the insurgent stronghold Monday with information that a body of federals had entered the valley and probably would attack the town soon.

The reports of the scouts caused General Leyva, commanding the insurgents, to order all noncombatants out of Mexicali. Women and merchants of the town, most of whom are Americans immediately crossed the boundary of Calexico. The information of the scouts was supplemented by reports from rancheros that a large force of federals has crossed the Colorado Mountains and was marching in the direction of Mexicali.

Install Sanitary Drinking Fountains.
Bay City, Tex.—A committee of ladies, representing the Civic Club, canvassed the business and professional men of the town and received enough generous contributions from this source to entirely pay for the four sanitary drinking fountains which will be installed at the school building for the benefit of the scholastic population.

Abe Ruef's New Home.
San Francisco, Cal.—Having exhausted every legal resource in a three years' struggle to escape the penitentiary, Abe Ruef, former political boss of San Francisco, was sent to San Quentin Wednesday to begin a fourteen-year prison term for the bribery of supervisors during the regime of Mayor Eugene E. Schmitz.

Found Dead in Well.
Stamford, Tex.—Word was received in Stamford of the death of Henry Stromquist, an employee of the Swenson-Throckmorton ranch. He was found in a well and the supposition is that he walked into the well.

State Railroad Commission.
Austin, Tex.—The railroad commission Monday continued for the April hearing all cases set for March 14. Among those cases was the Galveston Wharf Company case.

Don't Use a Scarecrow

To Drive Away the
Mail Order Wolf

You can drive him out quickly if you use the mail order houses' own weapon—advertising. Mail order concerns are spending thousands of dollars every week in order to get trade from the home merchants. Do you think for a minute they would keep it up if they didn't get the business? Don't take it for granted that every one within a radius of 25 miles knows what you have to sell, and what your prices are. Nine times out of ten your prices are lower, but the customer is influenced by the up-to-date advertising of the mail order house. Every article you advertise should be described and priced. You must tell your story in an interesting way, and when you want to reach the buyers of this community use the columns of this paper.

Let Us Be Your Waiter

We never tire of helping others when they ask for good job printing. We can tickle the most exacting typographic appetite. People who have partaken of our excellent service come back for a second serving. Our prices are the most reasonable, too, and you can always depend on us giving your orders the most prompt and careful attention. Call at this office and look over our samples.

MAKE YOUR APPEAL

to the public through the columns of this paper. With every issue it carries its message into the homes and lives of the people. Your competitor has his store news in this issue. Why don't you have yours? Don't blame the people for flocking to his store. They know what he has.

The Buyers' Guide

The firms whose names are represented in our advertising columns are worthy of the confidence of every person in the community who has money to spend. The fact that they advertise stamps them as enterprising, progressive men of business, a credit to our town, and deserving of support. Our advertising columns comprise a Buyers' Guide to fair dealing, good goods, honest prices.

THE PANAMA RATE DIVISION

CONTRACT FOR STEAMSHIP AND RAILROAD LINES DRAWN.

The Present Flat Rates Will Be Announced and Commodity Rates Put in Force—Dickinson's Plan.

Washington.—After hearing all the interests involved, Secretary of War Dickinson determined Thursday the tentative outline of a contract which the government-owned Panama railroad will offer to its co-carriers of freight between Pacific and Atlantic ports providing for a proportionate division of the rate. It was determined to substitute commodity rates for the present flat rate of \$8 per ton for all classes of freight shipped from San Francisco to New York via the Panama route. The Pacific co-carriers will receive 60 per cent of the rates, the haul from San Francisco to Panama, while the railroad and its connecting line of steamers will receive 40 per cent for the trip across the isthmus and up to New York. Of the 40 per cent 18 per cent will go to the Panama railroad and 22 per cent to the Atlantic line. The Panama Mail and the California Atlantic Steamship companies at the present time constitute the Pacific co-carriers of the Panama railroad. On the Atlantic side, the steamers of the Panama railroad handle the freight to New York, while the California Atlantic Steamship company has established a line running to other Atlantic ports.

Under the plan reached Thursday the private co-carriers will not be allowed to deliver freight in New York in competition with the government line but can deliver commodities to other ports receiving 22 per cent of the through rate from San Francisco for this service. The California Atlantic Steamship company desires to run its vessels to Philadelphia and receive 22 per cent but the Panama railroad officials claim that Philadelphia is a continental of New York.

WHAT CONGRESS DID

And Failed to Do at the Present Session of Congress Ending Saturday at Washington.

Washington.—One of the grief of bills that went to the mill of congress in the session that ended Saturday emerge these results of more or less imperative interest.

Positive Results.

Provision of \$200,000 for the fortification of the Panama Canal. Provision for two new battleships. Reorganization of the judicial code—regarded as most important for the amelioration of the law's delays. Creation of forest preserves in the Southern Appalachians and White mountains. Provision for the construction of embassy and legation buildings abroad. Requiring the inspection of locomotive boilers. Creating Robert E. Peary, a rear admiral on the retired list of the navy and formally tendering the thanks of congress to him.

Creating a commission of five senators and five representatives to investigate conditions in Alaska.

Negative.

Failure of the Canadian reciprocity agreement in the senate and consequent certainty of an extra session. Failure of the permanent tariff board bill which passed the senate, but was killed by a filibuster in the house. Failure of the resolution to admit to statehood Arizona and New Mexico following a filibuster in the senate.

Failure of the proposal to increase the rate of postage on the advertising sections of the large magazines, but provision for a commission to investigate the subject.

Failure of the senate resolution providing for the direct election of United States senators.

Failure of the general pension bill.

Failure to act on Baltimore-Pitcher investigation reports.

Failure to enact the ocean mail subsidy passed by the senate alone.

Failure of bill fixing canal tolls and settling form of government for Panama Canal zone.

Failure of congressional transportation bill based on the new census.

Flea Killing Chickens.

Colmesneer, Tex.—The poultry men are complaining of being up against one of their hardest propositions in the way of poultry raising that they have ever had to contend with. The Mexican of chicken fleas are killing little chicks as fast as they are hatched. All applications that will kill the fleas generally kill the chickens.

Entertain 100,000 Children.

London.—King George will entertain 100,000 children of London, according to announcement at a coronation fête to be held in Crystal Palace June 20.

Steamer Jennie B. Burns.

Morgan City.—The steamer Jennie B. owned by E. Fortin Sr., burned to the water's edge while lying on the Berwick side of the river. The vessel was valued at \$5,000, and was insured for \$3,000.

MILLIONS IN JEWELRY STOLEN

Antiques Dating Back to Pharaohs of Egypt Are Stolen From Museum. Most Valuable Specimens.

Philadelphia, Pa.—Jewels and antiques dating back to the days of the Pharaohs in Egypt, the value of which is beyond computation, but worth millions, have been taken from the Egyptian collection in Egyptian Hall in the University of Pennsylvania museum. The thieves got away without leaving a clue.

The gems were taken in broad daylight from a case within a few feet of the door to the office of Dr. George B. Gordon, the museum director. The thieves unscrewed the back of the case took the gems and walked out of the building, passing perhaps a dozen visitors and attendants.

Here is the list of what was taken: Necklace, gold and amethyst beads, with emeralds, three feet long; necklace of gold beads, with hawks and human heads representing gods, also bears, amulets, one foot long; necklace of gold beads, plain, one and a half feet long; two bracelets twin gold wire, tied in lovers' knots, gold finger ring, with pendants of amethysts and emeralds, one foot long; a half foot long; string of gold beads, containing cowrie shells and lions; two strings of plain gold beads and a small gold cylinder, an inch and a half long, with pendants of amethysts and gold and feidgar beads.

The theft occurred Saturday sometime between 12 and 2 o'clock. At noon just before going to his luncheon, one of the attendants saw the priceless car in their place. At the latter hour the case was found empty. The stolen gems were considered among the most valuable specimens of the jeweler's art of early Egypt. They were obtained beneath the ruins of ancient temples by an exploring expedition to Nubia, financed by Mr. Cox, in 1868, and had been in the museum only since 1909.

Reserve Agents.

Austin, Tex.—Reserve agents are provided. Guaranty State Bank, Athens, for First State Bank, Midland. Interstate National Bank, Kansas City, for First State Bank, Houston. National Bank of Denison, for West Guaranty State Bank, Austin. National Bank, New York, for Austin National Bank, Austin. South Texas National Bank, Houston, and First National Bank, San Antonio, for First State Bank, Dallas. First National Bank, Dallas, for Texas National Bank, Dallas. Texas National Bank, Dallas, for Texas National Bank, Dallas. Texas National Bank, Dallas, for Texas National Bank, Dallas.

Americans Win Two Events.

Oxford, Eng.—Two Rhodes scholars from the United States won the events in the concluding program of the Oxford-Varsity athletic contest Monday. The stolen gems were considered among the most valuable specimens of the jeweler's art of early Egypt. They were obtained beneath the ruins of ancient temples by an exploring expedition to Nubia, financed by Mr. Cox, in 1868, and had been in the museum only since 1909.

Prize Won at Marfa.

Marfa, Tex.—The local opinion election held Monday was one of the most hotly contested elections ever held in Marfa. Results of the election: The election held two years ago in this town went by only seven in majority.

Crack Postoffice Safe.

Shreveport, La.—Postoffice Inspector Purden was notified Wednesday that robbers had cracked the safe in the postoffice at Shreveport. In the morning the safe was opened and a considerable sum of money, evidently traveling from Louisiana, Ark.

Phosphate Schooner Ashore.

New York.—The three-masted schooner Westcott of Boston went ashore on the outer shoal of Diamond Shoals near Cape Hatteras Monday and her captain and crew of eight men, stranded there in their trap boat, leaving the vessel in a dangerous position.

Former State Senator Arrested.

Indian, Mass.—Former State Representative Frank J. Leland was arrested Wednesday on a charge of larceny and possession of stolen goods in connection with an investigation of sale of lumber, charged in a report ordered by the city of Boston.

Brigade School.

Berlin, Tex.—The public school will close Friday after a successful term of five months. Several country schools will be consolidated with the Berlin school the coming season and a consolidated school building erected.

Shipping Radios.

Richmond, Tex.—Large shipments of radios are being made daily by the leading truckmen.

THE GOVERNOR VETOES THREE MEASURES

Austin, Tex.—Governor Colquitt Saturday wrote his veto messages Nos. 7, 8 and 9.

No. 7 disapproves the bill to appropriate \$150,000 to establish a cotton baling factory at Rusk.

No. 8 disapproves the bill to extend the scholastic term three years, making the range from 7 to 20 instead of from 7 to 17, as at present.

No. 9, the "Lightfoot" bill appropriating \$25,000 to the attorney general's department for the enforcement of laws, and authorizing the employment of special counsel. This bill sought to make these funds subject to use upon the approval of the attorney general alone, instead of a similar bill passed by the thirty-first legislature made the use of the funds depend upon the approval of the governor and attorney general. Governor Colquitt and Attorney General Lightfoot have had words, through letters, about the matter.

Texas Senate Proceedings.

Austin, Tex.—Fred T. Wilson, chief clerk of the house representatives of the state of Tennessee, was invited to address the senate Saturday, and responded happily and briefly. He is visiting Texas during the recess of the Tennessee legislature.

Senator Cofer and others offered a resolution to amend the rules so as to require only a majority vote to take up house bill No. 146, which locates a normal at Abilene, Tex.

Senator Hudspeth offered an amendment including senate bill No. 199, which is the amendment to the International & Great Northern bill.

The senate had refused to take up both bills by the necessary two-thirds vote.

Senator Adams, representing Brownwood, opposed the Abilene Normal proposition in some vigorous remarks, in which he said it was an attempt to play politics and waste time in the closing hours of the session.

Bryan Denies Politics.

Senator Bryan was emphatic in replying. He denied playing politics in opposing the bill, but was representing the West and an immediate action which needs a normal. He said the International & Great Northern bill may be needed, but it is a senate bill and the motion to take it up comes to later.

Senator Vaughan said he was in favor of the normal bill and the resolution, but was wasting time when the governor had vetoed the Waco Normal bill and was sure to veto this bill.

Senator Bryan moved to table the Hudspeth amendment, which motion was lost 14 to 17. The amendment adding the International & Great Northern bill was adopted viva voce.

Senator Vaughan moved to table the resolution as amended.

Senator Bryan, in support of the resolution, which is in support of the resolution.

Senator Colquitt demanded a division of the question, the same as was done on the Bailey-Culbertson resolution several days since.

Senator Vaughan withdrew his motion to table and moved the previous question, which was duly carried.

On direct vote the resolution as amended was lost 10 to 22. Those who voted were Messrs. Bryan, Colquitt, Johnson, Lattimore, Sturgeon, Terrell, of Waco, Ward and Verrier.

All other members of the senate voted no.

The resolution providing joint rules to govern the two bodies was adopted.

Finally passed senate bill prohibiting pollution of streams.

Finally passed house bills exempting Hunt County from the auditor's act, vacating the extension of the city limits of Kansas, incorporating Whinnboro Independent School District, Denison city charter, amended so as to conform to election held in Denison Friday amendment to Austin city charter.

Finally passed house bills providing road laws for counties of less than 1,000.

Adopted conference committee report on house bill exempting fire, hurricane and tornado insurance from gross receipts occupation tax on reinforced building.

Consented in house amendments to senate bill providing a charter for the State Training School for Juveniles.

Finally passed house bill giving a permanent certificate of exemption from payment of poll taxes to males over 21 years of age.

Some one jokingly offered to take on the Dallas charter amendment bill, but it was too funny for Senator McNeader, who said:

"I want to say in all seriousness that there is a disposition by some men in this senate to put through a measure of which I am the author—the Dallas charter amendment bill. It has been mutilated in the house, and I do not want it called up. If it is called up I want to be recognized."

Austin, Tex.—The senate Friday adopted the free conference committee report on the bill prohibiting doctors from advertising business through drummers or runners.

By resolution of Senator McNeader, Hon. S. J. Hay, mayor of Dallas, addressed the senate.

Senator Warren had a resolution adopted recalling the Terrell city charter in order to strike out the initiative and referendum provision of the charter, which had been inadvertently permitted to remain. The governor would have vetoed it.

The Legislature

The Solons at Work at the State Capital on New and Old Laws

Governor Approves Bills.

Austin, Tex.—Governor Colquitt Friday approved bills as follows:

Authorizing the Texas Traction Company to construct the Denison & Sherman Railroad. Both lines are interurban electric railways, extending from Dallas to Sherman and Sherman to Denison, respectively.

Requiring cotton gins to write or stamp weight of bagging and ties on every bale of cotton.

Reorganizing the twenty-eighth judicial district, composed of Starr, Hidalgo, Cameron, Willacy and other counties.

Authorizing the superintendent of public buildings and grounds to lease certain state property in Austin.

Governor Vetoes Normal Bill.

Austin, Tex.—Governor Colquitt's sixth veto message, sent to the senate Friday, disapproved the bill providing for the establishment of a normal college at Waco. He expressed the belief that another normal is not needed at this time, and also said the revenue condition was not such as to stand the appropriation of \$100,000 made by the bill.

Later in the day the governor sent this additional message:

To the Senate: In vetoing senate bill No. 199, providing for the establishment of the Central Texas Normal School, under the conditions named in the bill, I committed an error in saying that the bill carried a \$100,000 appropriation, which error I regret making very much.

I desire to say, however, that my principal objection to the bill is the increase in the expense which a constitutional multiplication of these schools entails to the state. I see no reason why, if this bill is a state normal, that provision should be made to accept any part of bonds and establish a normal school in any town making such a proposition. I think it will be for the state to encourage itself with unnecessary contracts of this kind, which are far in excess of the public demand or necessity of same. Very respectfully,

O. B. COLQUITT, Governor of Texas.

Governor's Fourth Veto.

The text of the message follows: Governor's Office, March 7, 1911. To the Senate:

It appears from the statements contained in the caption that one of the purposes of the act is to authorize an increase in the bonded indebtedness of the city of Tyler through paper act, by which the city is authorized to issue bonds for the erection of a school house. On this account I regret very much that I can not give the bill my approval.

The city council shall have the right to enact all necessary ordinances to restrict, punish regulate and control the collection and use of all bonds of public utility or assignment, and the keepers and trustees thereof.

The foregoing provision of the proposed amendment to the charter of the city of Tyler is in direct conflict with the provisions of chapter 4 of title 19 of the penal code, which defines offenses against public morals and provides penalties for violation of same. I do not think the legislature ought to confer authority on the city of Tyler to set aside and by an ordinance amend the statutes herein referred to.

For this reason senate bill No. 212 is vetoed. Respectfully,

O. B. COLQUITT, Governor of Texas.

Governor's Fifth Veto.

Governor's Office, March 8, 1911. To the Senate: Senate concurrent resolution No. 2, providing for the creation of a commission to investigate and report to the legislature of this state during its present session a bill to fairly compensate employees for employment, and defining the duties of said commission, making an appropriation to carry into effect, and declaring an emergency, is hereby vetoed without approval, for the reason that a resolution practically identical, embraced in house concurrent resolution No. 1, has already been passed by the legislature, and I see no necessity for the approval of two resolutions on identical the same subject—one originating in the house and the other originating in the senate. Respectfully,

O. B. COLQUITT, Governor of Texas.

Internal Improvements.

Austin, Tex.—The senate committee upon internal improvements has reported favorably Senator Kaufman's bill placing telegraph and telephone companies under the control of the railroad commission.

A favorable report, with adverse minority report by Senator Hudspeth, was given Senator McNeader's bill requiring street car companies to operate separate cars for whites and blacks.

Texas House Proceedings.

Austin, Tex.—In the house Saturday Mr. Watson's senate joint resolution submitting a constitutional amendment authorizing towns and cities to levy a school tax upon themselves by a majority instead of a two-thirds vote failed to pass finally, not receiving a two-thirds vote.

Senate joint resolution by Mr. Townsend, providing for a confederate woman's home was passed finally.

Mr. Singleton's bill increasing the amount of property confederate veterans may have, and be eligible to pensions, to \$2500, was killed by indefinite postponement.

The Railroad senate bill providing for monthly meetings of county commissioners was engrossed.

The house refused to concur in the senate amendment to the Williams of Dallas insurance bill, designed to avoid the double payment of gross receipt taxes upon reinsurance business.

Jury Wheel Bill.

The Lattimore bill providing for the filing of the jury wheel each twelve months was passed finally.

Mr. Mayfield's bill adding religious services to the day's program at the state institution for the training of juveniles and providing for a chaplain was passed finally, amended by Mr. Gilmore to provide a chaplain's salary of \$20 instead of \$1,000 per year.

The Terrell of McLennan senate bill school districts containing territory in two or more counties was finally passed.

A resolution by Messrs. Hayhausen and Standifer inviting the International Typographical Union to hold its 1912 convention in Houston was adopted.

The Mayfield senate bill permitting commissioners courts to appropriate not more than \$1,000 per annum for farmers' cooperative demonstration congresses was passed finally.

The Watson senate bill, increasing court stenographers salaries, was passed finally.

The Weinert-Rail bill, authorizing the governor to transfer to the German Evangelical Society about three acres of state land near San Antonio, was passed finally.

Pass Wharf Company Bill.

The Terrell of McLennan senate bill, placing wharf companies under the regulation of the railroad commission, was passed finally.

Concurred in senate amendments to Denison charter bill.

The house refused to concur in senate amendments to the Spradley amendment of wages bill.

The Meacham senate bill to regulate professional nursing was passed finally.

By a vote of 47 to 14 the house requested the senate to return the stenographers' bill. Mr. Terrell made the motion, saying he did so for the purpose of offering a substitute, reducing the payment for transcripts from \$10 to \$5.

The Townsend senate bill, permitting the heirs of W. E. Collins to sue the state, was passed finally.

The Vaughan senate bill, authorizing cities and towns to issue viaduct bonds, was passed finally.

The Adams senate bill, giving the right of eminent domain to gas and electric companies through the surrounding territory around towns, was passed finally.

The Lattimore senate bill, moving the pure food inspectors' headquarters to Austin, was passed finally.

The Hudspeth bill to validate titles of school lands was passed finally.

The house refused to take up the Terrell land bill, reconsidered that action after an impassioned address by Mr. Terrell, and then once more refused to take it up.

Senate joint resolution by Austin subdividing an impassioned amendment, separating the A and M and State Universities was taken up.

Mr. Hubbard of Travis said that as there were only about eighty-nine members present, and as some had told him they would vote against it, although a platform demand, he moved to postpone until tomorrow morning.

Mr. Kennedy opposed postponement saying "let's vote it now."

Finally passed senate bill regulating sale of commercial fertilizer.

Passed finally senate bill authorizing chairman of board of regents of university to authorize some other officer to sign vouchers.

Austin, Tex.—The house Friday adopted the free conference report on the tuberculosis bill, appropriating of \$10,000 for two colonies. Also free conference report on the booster bill.

Passed finally Kennedy joint resolution submitting a constitutional amendment providing that cities of more than 5,000 inhabitants may adopt city charters independent of legislative action.

The Brown of Tarrant bill providing for the appointment of a commission by the higher courts to reform court procedure.

Mr. Dotson's bill appropriating \$6,000 for a tobacco experiment station at Nacogdoches, after a motion by Mr. Cox of Rockwall to strike out the enacting clause had failed.

Mr. Self's bill permitting of one central voting place in cities of less than 3,500 with a ballot box for each ward.

The Humphrey-Crisp bill providing that fraternal beneficiary societies may loan funds to their members.

The Smith of Houston bill making minimum ex-officio salary of county judges \$1,000 per year in counties of 2,500 or more.

To Be Consecrated to God

IN THE Old Testament, God commands that all the first born of both man and beast, in fact the whole race of Israel, should be consecrated to God. They also consecrated their grain substance—the tithe of the land—holly unto the Lord.

In the New Testament, all were commanded to consecrate that they might be a holy people, a chosen generation, a royal priesthood. From Hebrews we learn that the Son of God was consecrated forever; then let us press into this new and living way. The ministry never can have power with God and man, unless truly consecrated to the one who has given them the call to preach the gospel. They also consecrated their grain substance—the tithe of the land—holly unto the Lord.

In the New Testament, all were commanded to consecrate that they might be a holy people, a chosen generation, a royal priesthood. From Hebrews we learn that the Son of God was consecrated forever; then let us press into this new and living way. The ministry never can have power with God and man, unless truly consecrated to the one who has given them the call to preach the gospel. They also consecrated their grain substance—the tithe of the land—holly unto the Lord.

Want Full Service.

A preacher half given up to the ministry will discourage any class and weaken their faith and, when this takes place, those who follow (though they are men of God given up to the gospel) will suffer because of the unfaithfulness. Let us have a consecrated ministry first, then, and not till then, can we lead the flock into a full consecration. I firmly believe that in our little Zion we have some of the most self-sacrificing, self-denying, both in the ministry and laity. The shepherds must lead in this great battle against sin. Dear brethren keep where the fire of the Holy Ghost can burn out all trace of things that will entangle or hinder or divide our minds. We have often had the question put to us, "What will become of our families?" Our income will not permit us to lay aside anything for the future. We can only trust to the one who has called us with the highest calling. Here again is the keeping of our consecration fully. Oh, for that spirit of "gospel" who said, "Be ye followers of me even as I also am of Christ," again, "determined not to know anything among men, save Jesus Christ and him crucified."

Will Join and Keep Flock.

Oh, my beloved brethren, a ministry "ordained with Christ" will carry in influence that will stimulate and win the confidence of God's people. Without having the confidence of God's people, the shepherd never can lead them. A consecrated and sanctified preacher will prove himself. It may take time, but with patience let us possess our souls. Brethren, we are apt to think too much of ourselves. The life that is poured out for others will receive the richest treasure. "Give and it shall be given unto you, good measure, pressed down, and shaken together, and running over." Many of God's servants, brethren, God being our helper, let us venture further out on these exceeding great and precious promises; then, as our consecration unfolds, oh let us plunge deeper into the fountain that cleanseth from all sin. God's servant who lives these truths before the flock will surely find those who will be ready to pluck out their eyes (read Gal. 6:5); yea, give of their hard earned means for the support of God's called man. If you suffer the will of God "Ye do well," ye do well, do well. —E. J. Managh, in Gospel Banner.

Working With God.

Man can only work successfully on God's lines. In every successful achievement there is always more of God than of man. To win we must find out his way and let him work for us. In physical things we have learned to let God in Nature's forces carry our messages, turn our wheels, and pull our coaches. Not less so, in the spiritual world, we shall only reach good works by joining ourselves to his power. There is no high goodness outside of divine grace. Yet even God cannot reach his end without us. His path to his highest purpose flows through man's will and needs man for its full accomplishment. Neither faith nor works is God's final goal, but faith that forms character and works that spring from character.

Respect to Authorities.

There is a great evil in this land that forbodes revolution or a partial upheaval of society. The only way to avoid a catastrophe is to teach our young men to respect the authorities placed over them. —Rev. R. S. MacArthur, Baptist, New York City.

Heil.

We speak of hell as a place, but its essential elements are found in the inward conditions and not the outward circumstances. The external and material description is the reflection of the internal and spiritual condition. —Rev. R. S. MacArthur, Baptist, New York City.

TWENTIETH-CENTURY PIONEERING

By GEORGE SHERMAN

COPYRIGHT BY FIELD AND STREAM

THE creative genius and the constructive ability of Robinson Crusoe, as portrayed by the vivid imagination of Defoe, have been paralleled in the real life of the pioneer, even during this final period of frontier reclamation. It is satisfying to undertake to verify the proverbial ingenuity of our forefathers in a story that tells of what is being done in this very day by a few industrious homesteaders in Uncle Sam's remaining wilderness. "Fifty miles off the railroad," in either direction, describes but a few isolated spots that may be pointed to on a very modern map of the United States. One of these is in Arkansas, among those extremely southern rugged spurs of the Ozark mountains. It is of the very little territory yet remaining to be taken up under the homestead laws. Its boundary is Hot Springs to the east, Mena to the west, Guda to the south and Waldron to the north. In the heart of this territory, in a jumble of the Brushy range, you may still build a house and boast of your isolation, for, indeed, it is possible to reside from

"COMPLETED, THE DIMENSIONS OF THE HOUSE ARE 16 X 18 FEET"

eight to ten miles distant from your nearest neighbor. If you should so choose to settle, among a group of steep up-and-downs, quite removed from a wagon road, a little nearer to a trail, and yet a greater and laborious overland distance from a sawmill, it is obvious that you will have to depend, to a great degree, upon your own resources and upon your ability to create with your own hands from those things which nature has provided in a well-wooded country. Imagine yourself placed in one of these valleys or upon one of these foothills, with no greater amount of baggage, tools and provisions than could be conveyed over a country of this character with a yoke of oxen. Then, to be commanded, "Here is the forest and all it contains; go, prepare for yourself your future abode."

This is a story of home making under such conditions. The progress of the work is illustrated and in its completion no other than the raw materials of the forest entered into the structure or its furnishings, save a small amount of hardware and incidentals forming a portion of the initial supplies brought in as a settler's outfit. Two young men, homesteaders, both city bred, completed the entire work, unassisted.

Of the tools used the double-bit ax performed the greater portion of the heavy work. It followed in the wake of the cross-cut saw after the felling of the trees, and from then on was the chief implement of construction. With it, every duty of preparing the logs for raising them into their positions in the building was most adequately performed. First it scored the logs lengthwise, on two opposite sides, ready for wedging and splitting into semicircular halves. Then it followed as the tool for heaving the flat surfaces of the half-logs, which, completed, formed the smooth inside walls of the dwelling. After each log had been raised into position came the task of "notching down," which required even more skill in the use of an ax. Those few of the native inhabitants of the forest who are most proficient in making the dovetailed notches which are necessary in completing a perfect set of interlocking timbers are known as "corner men." At a native house raising the ones chosen for the work are usually skilled woodmen residing in widely separated settlements among the hills. How well this part of the work was done by two young men totally unaccustomed to pioneer life is better illustrated in the series of photographs which show each successive operation of preparing the logs and raising the framework of the structure. In going on to the flooring, shingling, window framing, partitioning, finishing and furnishing you would know how it was all accomplished in the absence of the products of a saw and planing mill or any of the manufactures so essential to building construction and home making.

Five very common tools constituted the board-making outfit. This primitive substitute for a sawmill included an ax; two or three steel wedges and as many, hand made, of hickory; a frow, with hickory handle, the blade made of a section of iron tire, a mallet and a maul, each cut from unseasoned hickory timber.

The selection of perfect "board trees" is guess work to a degree, as practiced by the natives. Out of every four trees chosen by the woodsman's system of identifying marks, usually only one is perfectly adaptable to board making by the method of splitting with mallet and frow. The most reliable way to select the right kind of timber is to observe the general trend of the crevices in the bark. The course of these lines should be nearly perpendicular with the trunk. Another good method of selecting the right-grained trunk is to note the distribution and the general design of the scaly, turtle-shell patches

THE 5000 1/2-INCH ROOFING BOARDS ARE SPLIT FROM 18-INCH LOG LENGTHS

HEAVING FLAT SURFACE OF HALF-LOGS

of bark. These scales should be long and narrow, and their design should show a reasonable amount of regularity. The trend of these patches of bark scale should deviate but slightly from the perpendicular. It is impossible to split a perfect board from a log in which the markings and bark scales are inclined to encircle the trunk like a corkscrew. Nor is it always possible to make perfect boards, even if the markings of the bark are in accord with governing rules. Native intuition, difficult to define, aids considerably in selecting the best trees. The practice of "chipping" is a final test. In the most remote forests, many miles from a railroad, it is difficult to find an area, even on the crest of a mountain, that has not been penetrated by the pioneer in search of splitting timber. Far from the nearest settlement, in the depth of a virgin forest, the intrepid hunter frequently observes these notches for board trees, even when there is entire absence of other signs of advancing civilization.

Out of 21 trees selected and chipped, while observing these rules, 17 were discarded. The remaining four supplied all the lumber necessary to complete the building operations and a sufficient quantity of choice boards for the mission furnishings. After sawing into eight and ten foot lengths the logs were rolled into position for splitting. Then followed the scoring preparatory to splitting with mallet, maul and wedges. In the diagram of a cross-section of a piece of pine board timber the entering wedge points the line of the first seam which separates the semicircular halves. The timber is then quartered and again split the third time. An 18-inch log will produce eight well-shaped bolts, the most practical and convenient size for splitting with a frow. Each of these bolts is placed upright into an oak crotch, which is staked firmly to the ground to act as a support in prying. The cutting edge of the frow blade is the lower side of the tool when the handle is held upright with the blade resting across the V-shaped end of the bolt. The heart is waste, which is split from the bolt with a wedge. When the cutting edge of the frow blade is placed across these markings the upper or broad edge of the blade is tapped gently with the mallet. This operation starts the board. By rocking the upright handle to and fro the blade opens a seam and is entered deeper with little exertion. Ten or fifteen seconds of this prying operation will release a perfectly smooth board from the bolt. All of the lumber used in the building operations was produced by this method.

The same process was applied to shingle making. The 5000 1/2-inch boards required for roofing purposes, all split from 18-inch log lengths, were turned out by two operators with mallet and frow in a day and a half.

Other timbers required, such as the solid oak foundation sills, the pine sleepers, or flooring supports, the joists and the rafters, were all hand-hewn with a broadax from unseasoned trunks. The work bench for hand planing and finishing lumber was improvised from a half-log, 24 inches in diameter, mounted on two large stumps and held in position with wooden pegs. Smaller wooden pegs were used also, to an extent, as a substitute for nails and screws in the building operations. An abbreviated assortment of carpenter's and cabinet maker's tools constituted the outfit. Completed, the dimensions of the house are

16x18 feet and there is a second story and also a kitchen and bathroom annex. The wing is eight feet wide and extends the length of one end of the house. The main living room is most ingeniously arranged for both convenience and comfort. It is at once convertible into either a sitting room, a dining room or a bachelor's den. In one corner of this room is a broad, turning stairway, easy to ascend, with a rustic balustrade, artistically designed—all made of young hickory. The variegated colorings of the natural bark appear as if oxidized, which lends a feeling of soft warmth and comfort. The cozy corner is diagonally opposite the stairway. Its overhanging shelves are at once a gallery of interesting photographic studies and a miniature museum of natural history. They are a repository for a collection of Indian pottery, flint arrow heads and implements, queer freaks of vegetation, fascinating bits of strange mineral formations, brilliant plumage of rare birds, hawk's claws, antlers and a variety of

MILD, GENTLE LAXATIVE FOR WOMEN GIVEN FREE

So many of the ills of women are due to habitual constipation, probably because of their false modesty on the subject that their attention cannot be too strongly called to the importance of keeping the bowels open. It is always important to do that, regardless of the sex, but it is especially important in women. From the time the girl begins to menstruate until menopause comes she is always a vastly better prospect of coming through healthy if she watches her bowel movements. If you find yourself constipated, with bad breath, pimply complexion, headaches, belching gas and other symptoms of indigestion and constipation, take a small dose of Dr. Caldwell's Syrup

Pepsin. It is a woman's favorite laxative. You will find that you can do away with salts, strong cathartics, etc., which are entirely unsuited to women's requirements. Mrs. Katherine Haberstroff of McKees Rocks, Pa., and Mrs. A. E. Harbeck of Wheeler, Mich., who were almost paralyzed in her stomach and bowels, are now cured by the use of this remedy. A free sample bottle can be obtained by addressing Dr. Caldwell, and after you are convinced of its merits buy it of your druggist at fifty cents and one dollar a bottle. For the free sample address Dr. W. B. Caldwell, 231 Caldwell building, Monticello, Ill.

FAMILY PRIDE.
Prof. Stork—And how are we getting on with our studies, Ernestine? Have you been promoted to the flying class yet?
Little Miss Quacker—Oh, no, professor. Mother has decided that I shall not take that course. She says anybody can fly—but only the best families take to water naturally.

OATS—259 Bu. Per Acre.
That is the sworn to yield of Theodore Harmon, Leetsa Co., Wash., from Robert's Rejuvenated White Romanas oats and won a handsome 80 acre farm. Other big yields are 141 bus., 119 bus., 133 bus., etc., had by farmers scattered throughout the U. S.
S. S. Pollock Barley, Flax, Corn, Oats, Wheat, Potatoes, Grasses and Clovers are famous the world over for their purity and tremendous yielding qualities. We are easily the largest growers of farm seeds in the world.
Our seedling seedling with seed thrives free for the sowing or send 10c in stamps and receive 10 packages of farm seed now—clover, alfalfa, timothy, etc.—and more marvelous oats, together with big catalog. John A. Salzer Seed Co., 182 South 8th St., La Crosse, Wis.

Her Wedding March.
A young girl who had never heard of Mendelssohn's "Wedding March," but was familiar with the more popular parody on it, was a witness to a wedding ceremony in an uptown church recently. As the betrothed pair walked with dignified tread toward the altar to be wed and the organ pealed forth Mendelssohn's inspiring march, the young girl was plainly shocked. When she arrived at her home she told her mother of the ceremony and innocently exclaimed: "What do you think, mother, they played Gee Whizz! I'm glad I'm Free!"

FROM ECZEMA AND RINGWORM
You can obtain instant relief by using Tetterine. It kills the bacteria known for Eczema, Bites of Insects, Tetter, Itching Piles, Burns, Chills, etc. It has cured hundreds of dollars and has no equal for your itching skin troubles. Besides devoting a great deal of energy scratching and paying at the pharmacy for every ill that flesh is heir to, Tetterine will cure you perfectly, promptly and completely. Nothing else will.
Send for drugists or sent by mail for 90c. by J. J. Shuptrine, Savannah, Ga.

All Over.
The Tiger—What's the matter with the giraffe? He doesn't look well.
The Lion—No, he says he feels sick all over.
The Tiger—Has a sore throat, I suppose.

Cause and Effect.
"I see from the papers," said Dawson, "that there is a great scarcity of chorus girls this year."
"I was afraid there would be," said Wiggins. "It's only another case of cause and effect. The French champagne crop has practically failed, and lobsters are scarcer than hens' teeth this season."—Harper's Weekly.

Plenty of Time to Fatten Up.
Cheerful Old Idiot—I say, you'll excuse me, but d'you know that you are the thinnest policeman I've ever seen.
Robert—Yes, I'm a new hand, and haven't got to know the cooks yet.—London Opinion.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

Every man is a comer until he reaches a certain age—then he's a goer.

ONLY ONE "BROMO QUININE"
That is LAXATIVE BROMO QUININE. Look for the signature of W. B. Caldwell. Beware of cheap imitations. It's the only one that cures. Sold everywhere.

No doubt the mind cure is all right—if you have the mind to begin with.

In the Spring cleanse the system and purify the blood by the use of Garfield Tea. Her savings are the saving of many a business girl.

30 ft. Bowels—

Biggest organ of the body—the bowels—and the most important—It's got to be looked after—neglect means suffering and years of misery. CASCARETS help nature keep every part of your bowels clean and strong—then they act right—means health to your whole body.

CASCARETS are a box for a week's treatment. All druggists. Biggest seller in the world—million boxes a month.

Cardui Worked Wonders

"I had sick headache," writes Mrs. Margaret L. Pheral, of Newburg, Ind., "continuous hurting in my side; was always tired, and, every month, had such pains I could hardly stand. I was treated by the best doctors in our town, for more than a year, without any help.
At last, I took Cardui, and it worked wonders. Before I had taken one bottle, I felt better. Now, I feel better than in two years, and owe it all to Cardui."
When a woman's nervous and physical systems are tired out—worn out—they need something more than food to refresh them.

TAKE CARDUI

The Woman's Tonic
It acts as Nature planned that a tonic should act, in helping along the functions of life, when ordinary methods fail. Cardui is a natural remedy, and one that you can feel confidence in. Its ingredients are mild, medicinal herbs, which act specifically on the womanly constitution. Besides, Cardui has a record of more than fifty years' success, in the treatment of womanly ailments and weaknesses. During this time, more than a million women have been benefited. Try what it will do for you!

New Tailor Shop.

Edd Sanders has purchased
the Tailor business of Bert &
Ragland, also that of Kittrell
Durst and others who have been
ordering tailor made clothes, and
expects to be THE TAILOR of
Junction. The old Market stand
in the phone office building is be-
ing remodeled and prepared for
the new tailor shop, and will be
opened for business in a few
days.

John T. Baker, one of Kimble's
most prominent stockmen, came
into town one day this week,
and in an interview with THE
CITIZEN said: "Stock are doing
well, and with the recent rains
to bring up weeds and green
stuff, we should have a fine
Spring. The prospects were
never better for a prosperous
year with our people. One of
the best indications of good times
for the stockman is the readi-
ness with which the bank here
grants accommodations to its
customers. The Junction Bank
is the greatest asset the stock-
man in Kimble County has, and
the fact that over 600 of our peo-
ple are doing their business with
it is ample evidence that they ap-
preciate the service the bank is
giving, and it has always been
this bank's policy to do its very
best for its customers. During
the panic in 1907 the local bank
placed no limit on cash payments
while the banks at all surround-
ing towns would not pay out or-
der \$5 or \$10 at a time. This is
the kind of a bank to stick to.
Any bank can pay out cash in
flush times when money is plen-
tiful, but the bank that can meet
all demands in times of panic is
the one for me."

Coming Again

FRIDAY AND SATURDAY
MARCH 31st AND APRIL 1.

Dr. J. Harvey Moore,
The Eye, Ear, Nose, and
Throat Specialist of
San Antonio.

Dr. Moore has been
making regular visits to
Kerrville for some time
and has treated quite a
number of patients, who
express themselves as
being well pleased with
his treatment. He cures
all diseases of the eye,
ear, nose and throat that
are curable. If incurable
he will tell you and will
not take your money. He
positively cures granu-
lated sore eyes, without
caustics or the knife,
straightens cross eyes,
removes growths from
the eyes, nose or throat.
His consultations and ex-
aminations are free.

RHEUMATISM

Murray's Rheumatism Remedy relieves pain in the legs, arms, back, stiff or swollen joints. Contains no morphine, opium, cocaine or drugs to deaden the pain. It neutralizes the acid and drives out all rheumatic poisons from the system. Write Prof. Murray, 523 and Jefferson Sts., Philadelphia, Pa., for medical advice, absolutely free.

PROOF POSITIVE.

He—Oh, yes; I write verse occasionally—but I tear it all up as soon as I write it. She—Ah! I knew you were clever.

Kind but Careless.

John P. Irish, the San Francisco editor and officeholder, was entertaining Joaquin Miller, the poet, one night. Upon hearing a particularly funny story by the host the poet fell off his chair in a paroxysm of mirth. Irish thought the poet had a seizure of some kind and he rushed to the sideboard, took a bottle of whiskey and struck the top of it into Miller's mouth, hoping to revive him. Presently Miller waved his hands feebly and Irish removed the bottle. "What is it?" asked Irish solicitously.

"Remove the cork!" whispered the poet, hoarsely. "Remove the cork!"—Saturday Evening Post

Exhorting the Ducks.

There are two tiny boys in this town whose mother sings often to them at their request, and as she is an ardent church woman, the children hear as many hymns as anything else. The other day they were playing with their wooden ducks in the bathtub and strongly chided the ducks were more inclined to float sideways than in the approved manner. After several attempts to keep the misbegotten ducks straight the elder boy shouted: "Stand up, duck, stand up!" Then two-voiced, noting the familiar tones, barked over the tub edge: "Stand up, duck! Stand up!"

In Its Due Order.

Champ Clark, at a dinner in Washington, pleaded indifferently for a somewhat rambling speaker. "Well, arriving, and the immediate leader of it would only say this: 'It is in its due order.'"

The Thirdly was dividing up his energy.

"The Thirdly was dividing up his energy into its appropriate parts, one Sunday morning, when a member of the congregation shouted reproachfully: 'Well, now, first, as matter.'"

Well, said he, 'Thirdly, promptly.

Should on, then, till I'm done saying.'"

EDITOR BROWNE

Of The Rockford Morning Star.

"About seven years ago I ceased drinking coffee to give your readers a trial."

"I had suffered acutely from various forms of indigestion and my stomach had become so disordered as to reject almost every sort of substantial food. My general health was bad. At once I turned to your excellent Food Drink and assured you most cordially that I am indebted to you for the relief it has brought me."

"Wishing you a continued success, I am, Yours very truly,

J. Stanley Browne, Managing Editor."

Of course, when a man's health shows he can stand coffee without trouble, let him drink it, but most highly organized brain-workers simply cannot."

"The drugs natural to the coffee berry affect the stomach and other organs and thence to the complex nervous system, throwing it out of balance and producing disorders in various parts of the body. Keep up this daily poisoning and serious disease generally supervenes, as when man or woman finds that coffee is a smooth but deadly enemy and health is of any value at all, there is but one road—quit."

"It is easy to find out if coffee be the cause of the trouble, for it left off 10 days and Postum be used in its place and the sick and diseased conditions begin to disappear, the proof is unanswerable."

"Postum is not good if made by short boiling. It must be boiled full 15 minutes after boiling begins, when the crisp flavor and the food elements are brought out of the grains and the beverage is ready to fulfill its mission of palatable comfort and renewing the cells and nerve centers broken down by coffee."

"There's a Reason"

in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest."

TROOPS IN BOTH CAMPS

SECURE RATIONS FOR FOUR MONTHS' STAY.

GIVES WAR-LIKE SPECTACLE

Scout Cruiser Salem and Over a Thousand Officers and Men Now at Galveston.

San Antonio, Tex.—Now that the real reasons for the mobilization of troops in Texas and along the Mexican border seem to have been made known through the medium of dispatches from Washington the army connections at Fort Sam Houston, where the largest concentration camps will be located, are watching with interest the result of the war department's effort to effectively concentrate the troops at a given point in a short space of time. So far the results are gratifying to the army officers located at San Antonio, and it is believed that the movement will be complimentary to the army as a whole.

The troops which have arrived were the Seventeenth Infantry, Colonel Van Orsdale commanding, from Fort McPherson, Georgia; the Eleventh Cavalry, Colonel James Parke commanding, from Fort Oglethorpe, Georgia; and Company D of the signal corps from Fort Leavenworth, Lieutenant Sebring C. McGill commanding.

Within seventy-two hours after the orders to mobilize at Fort Sam Houston were given the Seventeenth Infantry, stationed at Fort McPherson, Ga., was in camp at Fort Sam Houston, Tex.

To accomplish this movement an entire regiment of infantry, with commissary wagons and mules, and ten days' rations, hand and all field equipment belonging to that body of troops was moved, 1,600 miles across half dozen states and over several different lines of railways.

The actual movement consumed only forty-three hours. The orders to mobilize at Fort Sam Houston were received at Fort McPherson on Monday afternoon.

It was not until Tuesday afternoon that the railroad company had supplied sufficient baggage cars. The regiment arrived at San Antonio on Thursday evening, consuming forty-three hours including all stops. Colonel Van Orsdale, commanding the regiment, states that he would have arrived, eleven hours sooner with his men by running ahead of his transportation and camp equipment had he desired to arrive at his destination in proper condition to go into camp.

One of the significant developments in the orders by Colonel Clem, chief quartermaster, to secure supplies for 10,000 men for four months. This is regarded as conclusive evidence that the movement will be in Texas or that the Seventeenth Infantry will remain at the base of supplies for that number of men at least two months.

Contracts were awarded for a large amount of commissary supplies.

Galveston, Tex.—Development in the great war game which is being carried on partly through Fort Crockett, San Antonio and Travis, located at Galveston Island, were the arrival and anchoring of the scout cruiser Salem, the arrival of a number of additional companies of coast artillery, the arrival of the battleship Oregon, U. S. N. 3333, and the establishment of the quarters at sea.

The companies that arrived Saturday were the Fifth, the Nineteenth and the One Hundred and Seventeenth of Fort Morgan. The officers are Captain H. K. Taylor of the Seventy-fifth, Captain Charles L. Latham of the Ninety-ninth and Captain M. M. Mills of the One Hundred and Seventeenth.

The three lieutenants are Nathan H. Witz, Lieutenant Warren Bell and Lieutenant H. S. Hemingway. Three other lieutenants who were absent from the company and will join their commands later are First Lieutenant A. J. Cooper, First Lieutenant Gardner and Second Lieutenant R. H. Smith. Two more companies from Fort Banam, Pensacola, the Fifteenth and the Twenty-fifth arrived in camp, making a total of six of the twelve companies necessary to complete the 72nd regiment. A special train of two sections, consisting of seventeen cars, one sleeper, six day coaches, four box cars, two stock and two flat cars, brought the troops and their equipment to the city. Later three more companies arrived at Fort Crockett, being companies Seven, Second, Seventy-fourth and One Fort Shimon, Captains C. C. Curt, R. H. Smith and W. C. Murray in command.

Prospects for Bumper Crop.

Bandera, Tex.—There is a splendid season in the ground and corn planting is the order of the day. Bandera County has the best prospects for a bumper crop it has ever had. Wheat and oats stand the freeze without any damage and the corn and cotton land is all ready for planting.

Approval in England.

London.—Well balanced men of all parties and callings in England appear to approve the action of the United States in taking effective measures against a possible governmental obstacle in Mexico.

Snowslide Kills Eight.

Carson, Nev.—The powder house of the Hydro-Electric Company at Jordan, Cal., was destroyed by a snowslide. Seven men and a woman were killed and several others were hurt.

THE ONE DEFECT.

"An heirloom," explained the farmer's wife to her 13-year-old boy, "is something that has been handed down from father to son, and in some instances is greatly prized."

"I'd prize these heirlooms I'm wearing," remarked the youngster, "a good deal more if they wasn't so long in the legs."—"Everybody's Magazine."

WOULD LIE AWAKE ALL NIGHT WITH ITCHING ECZEMA

"Ever since I can remember I was a terrible sufferer of eczema and other irritating skin diseases. I would lie awake all night, and my suffering was intolerable. A scaly humor settled on my back, and being but a child, I naturally scratched it. It was a burning, itching sensation, and utterly intolerable. In fact, it was so that I could not possibly forget about it. It did not take long before it spread to my shoulders and arms, and I was almost covered with a mass of raw flesh on account of my scratching it. I was in such a condition that my hands were tied."

"A number of physicians were called, but it seemed beyond their medical power and knowledge to cure me. Having tried numerous treatments without deriving any benefit from them, I had given myself up to the mercy of my dreadful malady, but I thought I would try the Cuticura treatment as a last resort. Words cannot express my gratitude to the one who created 'The Cuticura Miracles,' as I have named them, for now I feel as if I never suffered from even a pimple. My disease was routed by Cuticura Soap and Ointment, and I shall never cease praising the wonderful merits they contain. I will never dare any skin diseases to attack me so long as I have Cuticura Remedies in the house. I hope that this letter will give other sufferers an idea of how I suffered, and also hope that they will not pass the Cuticura Life Saving Station." (Signed) C. Louis Green, 929 Chestnut St., Philadelphia, Pa., Aug. 29, 1910.

Brought the Tears.

An unusual incident marked a recent fire in New York. The fire started in the cellar of a five-story tenement and before it was extinguished the 18 families in the building and all the fleeing were weeping copiously from inflamed eyes. In the cellar many bags of onions had been stored. The chief fireman allowed the tenants to remain in the building, assuring them that the fire was confined to the cellar. "They did not stay long, however, when the onions had got well alight."

No Apparent Reason.

Reporter—Thank you, and I know there was nothing used in eliciting this behavior. How much did it cost him? You may as well tell me, for I'm going to find out.

Politician—What makes you think there was any—hilarity?

Reporter—Why, blame it, man, he was elected.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that Bears the Signature of *Dr. J. C. H. H. H.*

Mrs. H. C. Taylor and Lolina visited Junction Thursday.

The Hog Law election comes off at Evergreen next Saturday. Lee Lowery was up from Junction and spent a pleasant while with us.

Jno. Graham was up from Junction Sunday enjoying the mountain breeze.

F. B. Adams, of Leakey, passed through Monday on his return to Paint Rock.

Julius Ridgway of Kerrville came through Tuesday on his way to the Divide.

Frank Alve came down last week for household goods which he took to Lula.

H. Thiers and family of Fowler ranch were here Saturday after shearing machines.

Dr. W. G. Lee and family and J. D. Lee of Denton were here Saturday on return from Uvalde.

Mrs. J. W. Wooten lost a gold ring at church Sunday. It had "J. B. Wooten" inscribed within it.

Mr. and Mrs. J. L. Smith of Brown County were here Monday on their way to visit in Edwards.

Tom Hamm visited the county site Saturday. He was accompanied on his return by W. J. Miller.

Jim and W. H. Adkins, of Edwards spent several days on our pretty river fishing and had splendid luck.

Wheat Bradford demonstrated that a low quartered high heel shoe and a spur doesn't work well together.

T. B. Phillips the enterprising telephone man was up from Junction this week after a load of telephone poles.

J. L. Smith and wife and F. E. Moore, from Lees Taylors passed through Friday on their way to Bear Creek.

Alexander Estes was initiated into the art of broncho busting Sunday; he promises to develop into a finished broncho peeler.

An auto or two full of Junctionites came up South Llano Sunday. Our scenery, our air and our pretty maids bring them this way.

Mrs. Quilla Taylor and Clarence undertook to drive a "gentle" broncho which broke a single tree, but the drivers escaped injury.

Mr. and Mrs. Smith and Mrs. Klingler, of Bear Creek, were here Thursday on their way to the Lees Taylor ranch in Edwards County.

D. T. Roe of Junction, who had carried a load of household goods to the Divide for Mr. Klingler, passed through Wednesday on his return.

Pug Meredith says "we" caught about 150 lbs of fish between Friday and Sunday morning. There were thirtythree of "we." Big catch wasn't it?

W. Cross, E. and C. Adkins, J. Phillips, W. Gardner and Clyde Randolph wheeled up from Junction to attend Sunday school. Come again. Plenty of room.

The weather man evidently believes in a variety. One day ninety-two, the next a slender norther, the next a little hail, the next—well, it hasn't come yet.

H. Jeffrey, the Baptist pastor, filled his regular appointment. He gave two splendid lessons and had attentive audiences. The Sunday school had good attendance.

Uncle Ben Corder while on his return from Menard and of her places was taken for Taft. We think probably he will get over

the effect of this mistake by the time he gets through with those post holes in the mountains.

Jno. S. Durst, County Chairman Statewide Prohibition, will be at Evergreen schoolhouse 15th to help organize a precinct Prohibition Club. Everybody come and bring your enthusiasm with you.

That report that Joy's misfortune was unenjoyable has caused several great joy; they also ask if it was Joy or the breeches that was reversed. Joy was caused anything but joy by threatening to pull the wrong line. FUZZ

THE STATE OF TEXAS.

To the Sheriff or any constable of Kimble County, Greeting:

You are hereby commanded, that by making publication of this citation in some newspaper published in the County of Kimble, if there be one published in said county, (but if not, then in the nearest county where a newspaper is published), for eight weeks previous to the return day hereof, you summon the unknown heirs of Ruben Runner and of Eugene Reed and Edwin Reed whose residences are unknown, to be and appear before the Honorable District Court of Kimble County at the next regular term thereof to be holden in the County of Kimble, at the Courthouse thereof in Junction, Texas, on the 20th day of March, 1911, File Number being 514, then and there to answer the petition of W. W. Back, filed in said court on the 8th day of December, 1910, against the unknown heirs of the said Ruben Runner, Eugene Reed and Edwin Reed, and alleging in substance as follows, to wit:

That he is the owner and in actual possession of that part of Survey No. 372, (except 100 acres conveyed to R. S. Price, May 13, 1908) No 372, Section No. 9, described by metes and bounds as follows:

Beginning at the upper corner Survey No. 372, R. S. Beard and lower corner of Survey 372, William Berry on the S. bank of the S. fork of the Llano River; thence S. 55.40 vrs. to a stone mound under pasture fence; thence E. 95.0 vrs. to a stone mound; thence N. 45.91 vrs. to a stone mound, the S. E. cor. of a 100 acre tract out of said Survey No. 372 in name of R. S. Beard, from which stone mound a cedar 8 in. bears N. 10 W. 19 varas, clump of Spanish Oaks, N. 51 W. 27 varas; thence S. 77 W. with S. line of said 100 acre tract 617 varas to stone mound, its S. W. corner from which a double elm 3 and 4 in. bears S. 24 E. 10 2-5 varas, a SP. O. 6 in. bears S. 64 W. 13 varas; thence N. 87.0 varas to a stone mound on S. bank of river from which a pecan 15 in. bears S. 24 W. 9 varas, another 15 in. N. 19 E. 17 1-5 varas; thence up the river with its meanders to the place of beginning.

Also 246 acres, the East half of the Edwin Quinby 492 acre survey No. 374, Sec. 5, Cert. No. 672, patent No. 178, Vol. 2, and being same land conveyed to Mary A. Thomas by Lula May McDonald and A. A. McDonald, Sept. 23, 1907, by deed recorded in Bk. 7, page 462 of Kimble Co. deed records.

Plaintiff alleges that he and those whose estate he has, claiming under deeds duly registered, has had peaceable, continuous and adverse possession of the land and tenements herein claimed, cultivating, using or enjoying the same, and paying all taxes thereon for a period of more than five years before the commencement of this suit, and this he is ready to verify.

Plaintiff alleges that he and those whose estate he has, claiming to have good and perfect right and title to the lands here in claimed has had and held peaceable said lands and adverse possession of same cultivating, using or enjoying the same for a period of more than ten years before the commencement of this suit, and this he is ready to verify.

Plaintiff alleges that the defendants the unknown heirs of Ruben Runner, are setting up some character of claim to the first tract of land herein described, but that the claims set up by the defendants are spurious, fraudulent and unjust, but that the said claims of the defendant cast a cloud upon plaintiff title to said lands, seriously depreciating the value thereof.

Herein fail not, but have you then and there before said court this writ with your return there on showing how you have executed the same.

Given under my hand and seal of office, this 22d day of December, 1910.

A. O. LAWLER,
Clerk District Court Kimble Co.

MENARD LUMBER CO.

E. B. HOLLINGER, Proprietor
H. VANDERSTUCKEN, Secty.
