4-H WINNERS--These Scurry County 4-H'ers entered the district 2 4-H horse show last Thursday in Lubbock. They are from left, back row: Rachel Everett, Wendy Lunsford, and Dan Krenek; front row: Stephanie Weaver, Melody Schwarz, and Shanna Hays. Stephanie placed first in barrel racing and fifth in pole pending. Wendy placed fifth in barrel racing. Chris McGee, not shown, placed second in halter class. (SDN Staff Photo)

Horse Competition...

4-H'ers Advance To State Show

Scurry County had one 4-H horseman and one alternate qualify to compete in the state 4-H horse show. Stephanie Weaver earned a spot in the top 20 horsemen from district 2 by placing first in the barrel race and fifth in pole bending. Wendy Lunsford placed fifth in the barrel race to gain fourth alternate.

The district 2 4-H horse show was held Thursday, July 2, in Lubbock with over 190 horsemen entered from the 20 South Plains counties. The state 4-H horse show will be held in Waco July 14-17.

Other 4-H members placing and participating were: Chris McGee, second place in halter class; Melody Schwarz, Dan Krenek, Shanna Hays, and Rachel Everett.

By Polish Workers...

Another Strike Is Threatened

WARSAW, Poland (AP) — Polish workers are making new strike threats, a course certain to anger the Soviets less than 24 hours after they apparently agreed not to interfere with next week's Polish Communist Party congress.

Solidarity union leaders at LOT, the national airline, declared a strike alert effective today, sources in the independent labor federation said. Union officials said the dispute is over "workers' self-government" — specifically whether the employees or the Transportation Ministry should pick a new director for the airline.

For Supreme Court Justice...

Reagan Names Woman

WASHINGTON (AP) — President Reagan today nominated Judge Sandra D. O'Connor of the Arizona Court of Appeals to become the first woman justice in the history of the Supreme Court.

Reagan called this "the most awesome appointment" that presidents make because justices leave "footprints on the sands of time."

Reagan chose Mrs. O'Connor to succeed the retiring Potter Stewart, whose decision to leave the high court opened the first vacancy there in six years.

The president made his announcement even as far-right conservatives mounted a mail-and-telegram campaign in opposition to her nomination, on grounds she had supported the Equal Rights Amendment and had not opposed abortion.

His choice of a woman justice fulfilled a campaign promise made last Oct. 14, when candidate Reagan said "one of the first Supreme Court vacancies in my administration will be filled by the most qualified woman I can find."

Reagan repeated that campaign pledge as he announced the choice of Mrs. O'Connor and urged swift Senate confirmation so that she can take her seat on the court "and her place in history."

He said he did not name a woman 'merely to do so," but because Mrs. O'Connor meets the standards he set for an appointment he called one of the most awesome a president can make. He said to have made the choice on the basis of her sex would have been unfair to women, to the nation, and to the future generations that will be affected by high court decisions.

Mrs. O'Connor, 51, was graduated from Stanford University law school in 1952, with the Order of the Coif. Among her law school classmates was Supreme Court Justice William Rehnquist.

By Grand Jury...

19 Indictments Are Returned

The 132nd Judicial District Grand Jury returned 19 indictments Monday on charges ranging from aggravated assault with a deadly weapon to driving while intoxicated.

Bond was set at $5,000 on Madaleno Castillo who is charged with aggravated assault with a deadly weapon in the June 27 shooting of Rodolfo N. Alvarado in Hermleigh. Alvarado was shot nine times with a .22 pistol.

Nolan Baylor Baggett was indicted for theft of property by check. The check, for $379.94, was allegedly written April 9 to Timely Pawn owned by Ken Minyard. Bond was set at $1,500.

John William Lowrance was indicted on two counts of forgery by making and forgery by passing. He is charged with writing two checks, totalling $145 on the account of Kelli Dement. Bond was set at $1,500 on each count.

James R. Beights and Ricky Ornelas were indicted in connection with the Christmas Eve 1980 burglary of Hoyt's Furniture Store. Bond was set at $1,500 each.

Benito B. Ramon was indicted for possession of marijuana, more than four ounces and for possession of a prohibited weapon. Bond was set at $2,500 on each count.

Joe L. Barrera Jr. was indicted on charges of possession of marijuana, more than four ounces. Bond was set at $2,500.

Bond was set at $1,500 each for Daniel C. and Telena L. Halley, both indicted on charges of possession of marijuana, more than four ounces.

James Lewis Bloom and Timothy Ray McCright were indicted on charges of theft of property, more than $200, in connection with the theft of auto parts belonging to James Dennis. Bond was set at $1,500 each.

William Wayne Turnbow was indicted on charges of unauthorized use of a vehicle, a 1978 Chevrolet owned by Freddy Joe Tolleson of Fort Worth. Bond was set at $5,000.

Michael Wayne Wood was indicted on charges of possession of a controlled substance, Dihydrocodeine. Bond was set at $1,500.

Bond was also set at $1,500 on Willie Porter Tippins, indicted on charges of taking a stratolounger chair which belonged to Gary Landes.

Arturo Aguilar was indicted on charges of burglary of a habitation stemming from a July 4 incident. Bond was set at $1,500.

Roberto Martinez and Silvero Guerrero were indicted on charges of driving while intoxicated. Bond was set at $1,500 each.

Serving on the Grand Jury were H.F. Clark, foreman; Charles Anderson, Dan R. Ubando, Mrs. Billie Smith, Betty Boswell, Wayne Bethel, Esten Blackmon, Jim Rosson, Howard Crenshaw, Mrs. Ted Crenwelge, Frank McCravey and Joyce Dow.

Budget Up For Study

Scurry County Commissioners meet at 9 a.m. Wednesday to begin deliberations on the 1982 budget.

The budget work session was set Monday by the commissioners court. The 1981 county budget is $9.3 million of which 60 per cent represents the county hospital budget.

Tuesday update

Secret Meetings With Cuba

WASHINGTON (AP) — In a bid to normalize diplomatic relations, the Carter administration held a series of secret and sometimes stormy meetings with Cuban President Fidel Castro, starting in December 1978, informed sources say.

The two sides were unable to resolve their differences over Cuba's military involvement in Africa, however, and the talks did not prosper, the sources said Monday night.

Riots Under Control

LIVERPOOL, England (AP) — Liverpool police got the upper hand on youths rioting and looting for the third night in the port city's Toxteth slum district and reported much less violence than on the two previous nights.

At daybreak, the police said only one of their men had been injured slightly and 62 youths had been arrested, compared with 259 officers injured and 69 rioters arrested Saturday and Sunday nights.

"We were better prepared, mentally as well as physically, and we had a much greater police presence," said a police spokesman.

Sugar Supports

WASHINGTON (AP) — Acknowledging a concession made two weeks ago, Agriculture Secretary John Block says he expects to see government support of sugar prices in the new farm bill.

But Block says the levels proposed by the House and Senate Agriculture Committees are "unacceptable." He indicated that their figures are more than 2 cents a pound above what President Reagan might accept.

"I would suspect there'll be some kind of sugar program," Block told reporters Monday.

Reagan, pushing for less government involvement in farm marketing, had been staunchly opposed to price supports for sugar. But he agreed to the concept two weeks ago as a way to get conservative House Democrats to vote for his budget-cutting package.

The SDN Column

We made a change yesterday in the SDN. In a move to provide more space for current news, the full editorial page is being put on a once-per-week schedule. Beginning this week it will run in the Sunday issue.

This does not mean that the popular features appearing regularly on that page the past few years will disappear. Paul Harvey and Erma Bombeck will continue to run on alternate days. They will appear now on regular news pages rather than the full editorial page.

Also, we hope to give more emphasis to local editorials on our Sunday editorial page.

The full daily editorial page has evoked favorable comment from readers from time-to-time, and actually it has been a source of pride for us. But, more and more as time moves along, we find that we are going to press without space for quantities of "live" news from our wire service. We feel that many of these stories deserve space in our paper to help keep our readers abreast of the happenings in the world.

So, Page 2, the editorial page during the week, is now being devoted to current news stories.

★ ★ ★

Congressman Charles Stenholm, who was in Snyder twice within a week, says the general attitude in Washington still is good concerning a sound fiscal policy.

One of the major concerns now, however, is the patience of the people. Nobody, not even Congress, can cure the nation's financial ills overnight. After all, they were some 50 years in the making.

Stenholm says the administration and lawmakers must watch their steps so that they can retain the support of the people. This may mean moving more slowly than some would prefer on some issues. The fact is that no matter which "handout" program you mention, there is a group somewhere that wants it continued. And sometimes these are the groups that the general public assumes to be on the side of a tight fiscal policy.

It boils down to the adage, "It depends on whose ox is gored."

Ordinance To Prohibit Alcohol In Parks OK'd

The Snyder City Council last night passed on first reading an ordinance prohibiting the possession or consumption of alcoholic beverages in public parks.

The action was taken following a discussion which drew some 75 persons and lasted an hour and 20 minutes. The ordinance was presented by Juluis Roemisch, and several in the audience spoke out to endorse it. The lone dissenter who commented on the ordinance was Ken Minyard, who said he felt it infringed on the rights of those who liked to "have a cold beer" in the park.

The ordinance will be up for second and final reading at the council's next regular meeting on Aug. 3.

Those actively supporting the ordinance cited the litter of bottles and cans, safety and vandalism in opposing drinking in the parks. They attributed damage to park property, especially to public rest room facilities, which has become a continuing problem, to persons consuming alcoholic beverages.

Following the discussion, Councilman Don Gressett made a motion to adopt the ordinance on first reading. The motion drew a second from Councilman David Holt, and Councilmen Rod Waller and Ed Thrift made it unanimous. Councilmen Gale McPherson and John Wilson were absent.

The council approved a 25 percent increase in the city's support of programs for senior citizens. A request for the increase from $12,000 to $15,000 per year was made by Dr. Don Newbury, president of Western Texas College which sponsors the senior citizen programs here.

An ordinance setting speed limits for a school zone on 37th St. near East Elementary School was passed on second and final reading. It reduces the legal speed limit from 50 mph to 35 mph in the school zone during hours when warning lights are flashing.

A request for stop signs to replace yield signs at intersections on Ave. U between 26th and 30th Sts. was referred to the city engineer to be included in a study of traffic for the entire area. City Engineer Mike Smith was instructed to present recommendations at the Aug. 3 council meeting. The request was presented by Jerry Lee Hendon, who said that residents in the area were concerned about the speed of traffic there and the danger involved for children.

A gift of the north half of Lot 2, Block 13 in the Blankenship Addition to the city by Mrs. John Blum was accepted. The property involved is on Deep Creek west of city hall and north of the bus station.

Mrs. Juanita Srader was granted permission to use propane gas at 1409 Ave. E. Natural gas service is not available there.

Designation of July as "Clean-up, Paint-up, Fix-up Month" in Snyder was approved. Both the city and the chamber of commerce will promote the month-long campaign.

The Scurry County Sheriff's Posse was granted permission to hold its annual rodeo parade on July 15, which is the opening date of the annual Scurry County Rodeo.

City Attorney Ernie Armstrong brought the council up to date on the Southwestern Bell Telephone Co. rate case. He said over 200 cities have joined the fight against the rate increase request. Following his report, the council voted to participate in the fight and authorized its pro rata share of expenses at 3.5 cents per capita, a total expenditure of some $442.50.

The city manager was authorized to seek bids for the purchase of 50 tons of lime for use at the water treatment plant.

Bids were accepted for the sale of some used sanitation service containers. The City of Sweetwater purchased 30 two-yard containers for $1,500 and 20 three-yard containers for $1,200, and Mason's Automotive purchased one two-yard container for $50. The containers being sold are those replaced by the new side-load type here.

Ask Us

Q.—Why does the Snyder Independent School District lean so heavily toward drama-related activities while the remainder of the state and nation is leaning heavily toward the basics---reading, writing and arithmetic?

A.—School officials are puzzled by the phrase "leaning heavily." In response to our inquiry, Jack Gorman, assistant superintendent-administration and personnel, reported that, of 219 classroom teachers in the system there is one teacher of speech courses in the junior high school and one in the high school who devotes part time to drama. The program has been highly successful, but there has been no indication that it interfered with "the basics," and it is not a required activity, but is strictly elective.

Requests Heard By United Way

Requests by participating agenies were reviewed Monday afternoon by the Scurry County United Way budget committee in a meeting at the chamber of commerce office.

The committee, headed by Brenda Hedges, is in the process of preparing a budget for the coming year, which will become the goal of the 1981 United Way Campaign here.

The new budget is scheduled to be presented to the United Way board of directors at a meeting scheduled for 9 a. m. Wednesday at city hall.

Hearing Aug. 3 On City Budget

A public hearing will be held Aug. 3 on a proposed city budget for the fiscal year beginning next Oct. 1.

The city council officially set the date last night. The hearing will be conducted at the outset of the council's regular August meeting, beginning at 6:30 p. m.

City Manager John Gayle said the new budget totals $3,972,000, an increase of about 14 percent over that of the current year.

However, the city expects to lower its tax rate by some 15 percent. It will be able to do this because of increased property values stemming from new contruction as well as revaluations by the appraisal district, and increases in sales tax rebates.

City valuations are expected to increase from $148 million to $175 million. Sales tax rebates have been running about 29 percent greater than the previous year.

The proposed new budget includes nearly $800,000 in capital improvements. These include additional sanitary landfill facilities, development of the new Line Park, and sanitation service facilities. The city hopes to complete distribution of new sanitation containers to cover all residential areas during the coming year.

The budget provides a cost-of-living pay increase of 10 percent for city personnel and funds for three percent merit raises.

WEATHER

FAIR

SNYDER TEMPERATURES: High Monday, 88 degrees; low, 67 degrees; reading at 7 a. m. today, 68 degrees; precipitation, none; total precipitation for 1981 to date, 14.16.

WEST TEXAS: Fair today and north tonight. Partly cloudy south tonight and most of area Wednesday. Highs 90s except near 103 Big Bend. Lows 60s mountains to low 70s south.

Key Republicans Rule Out Tax Hike...

SS Is Almost Bankrupt

WASHINGTON (AP) — Two key Senate Republicans are ruling out further Social Security tax increases, despite a fresh warning that the retirement fund will be bankrupt by the end of 1982 unless taxes are raised or benefits are slashed.

On the eve of Senate hearings today, Sens. William L. Armstrong of Colorado and Bob Dole of Kansas stopped short of endorsing President Reagan's proposals for major reductions in benefits, including a hefty penalty for early retirement.

Armstrong compared Monday's annual assessment of Social Security's solvency to "a slow-motion fall off a cliff."

"We can see the end coming but still have a little time to consider saving alternatives," he said.

But he and Dole also ruled out another alternative — using general revenue funds in an effort to make the retirement fund solvent.

Health and Human Services Secretary Richard Schweiker and John Svahn, head of the Social Security Administration, were called before Armstrong's Senate Finance subcommittee today to testify on the administration's plans for rescuing the retirement fund.

The system's trustees reported Monday that the retirement fund will go broke by the end of next year and the related Medicare program could fall within the decade unless taxes are raised or benefits are slashed.

The report, compiled by Schweicker, Labor Secretary Raymond Donovan and Treasury Secretary Donald T. Regan, urged Congress to act quickly to adopt the Reagan plan or one "which will accomplish the same objectives."

"I don't expect we will raise payroll taxes — they are already a back-breaking burden — and I don't think we will go into the general revenue fund," Armstrong said. "That's sort of like asking Amtrak to bail out Chrysler. The rest is completely negotiable."

Dole, the Senate Finance chairman, said the trustees' projections "underscore the need for Congress to move quickly to restore the soundness of the Social Security system."

He noted that a series of increasingly gloomy trustees' reports in the mid-1970s led to the enactment in 1977 of the largest peacetime tax increase in U.S. history.

About 115 million workers pay payroll taxes. Some 35 million people receive benefits from the old age and disability funds and nearly 25 million are enrolled in the Medicare program.

The current payroll deduction rate is 6.65 percent on incomes up to $29,700. It is scheduled to rise to 7.65 percent over the next decade, and the income ceiling will go up as well.

Svahn said Monday that the system will experience a shortfall of from $10 billion to $111 billion over the next five years, depending upon which economic forecasts are used.

Some of Social Security's financial problems may be attributed to higher-than-expected inflation, a growing trend toward earlier retirement, longer lifespans and the end of the baby boom.

Dallas Darkened By Power Outage

DALLAS (AP) — About 100 office workers were trapped briefly in high rise elevators when a flash electrical fire cut off power to a large section of downtown Dallas.

The fire was touched off when heavy rains caused flooding in an underground electrical vault, resulting in a series of explosions that sent flames shooting through manhole covers at the north end of the downtown area, a spokesman for Dallas Power & Light Co. said. No injuries were reported.

A fire department spokesman said power to most elevators was restored a few minutes later with backup generators.

DP&L turned off power to the northeastern quarter of downtown at about 10:30 a.m. after the fire broke out, said Terry Griffin, community service manager.

"Heavy rains over the weekend" flooded the electrical vault, where equipment is stored, causing an underground cable to short out, Griffen said.

The utility said most service was restored by 11:27 a.m.

at wit's end

by erma bombeck

For years, parents have been trying to figure out where they went wrong with their children.

Did we nag too much? Love too little? Give in to social pressure?

When I think back on it, everything started to go downhill when digital watches came into being. Teaching a child to tell time is the only thing a mother ever does that a child believes in and has respect for.

My mother couldn't do anything. She couldn't spit through her teeth without dribbling on her chin. She couldn't put two fingers in her mouth and whistle. She couldn't ride a two-wheel bicycle without hands. She couldn't pick up eight jacks at a time. She couldn't hold her breath and count to a hundred without fainting. The woman was useless.

But one day I discovered she could glance at that clock and tell you exactly the hour and the minutes you had to play, come to dinner, go to bed or take your bath. She was a mathematical genius.

I figured out that if I had a watch of my own I'd soon have control over my own life. When I asked her for one, she laughed her little remember-who-is-nearer-the-floor laugh nd sad, "We'll see."

It took me three years to learn how to tell time. Every morning we sat at the dinning room table and mother would point out how the big hand, within the next 60 minutes, would travel to the china cabinet, then to the bay windows, to the kitchen and the door to the basement before the small hand would move toward the fireplace.

I caught on quickly. Then we moved.

This time, the big hand would begin its clockwise descent toward the refrigerator, then the sink, the back yard and ventually the sewing closet.

I learned things about my mother during those years that I had never known before. Her ring finger was skinnier than the rest of the. She was pretty when she smiled. She didn't have to run alongside a bicycle balancing me to gain my respect. She was patient.

Then watches came out that beeped, lit up in the dark, went right on ticking after they'd been tied to a motor boat, and had little buttons that you pushed and flashed the time. And mothers made such a big deal out of it.

Something interesting is happening though. There's a new watch with a voice on it that not only announces the time, but if the alarm isn't reset in five minutes the voice nags, "Attention, please! Please hurry!"

Mothers don't give up easily do they?

Reagan Wants Quick Action...

Tax Cut Action Needed

WASHINGTON (AP) — President Reagan, trying to spur the House Ways and Means Committee into quicker action on his tax-cut plan, is taking his campaign to the backyard of one of the most important congressional Democrats.

A pitch for the tax plan is expected to be the centerpiece of Reagan's trip to Chicago this evening, his first purely political venture outside Washington since taking office in January.

But the Democrat on Reagan's mind, House Ways and Means Chairman Dan Rostenkowski of Chicago, isn't going to be there.

The occasion is a Republican fund-raising affair, a $250-a-person dinner and a $5,000-a-couple reception expected to gross about $1.5 million for Gov. James Thompson's 1982 re-election campaign.

Among Thompson's invited guests were the parents of James S. Brady, the White House press secretary who is still recovering from a bullet wound to the brain suffered in the March 30 assassination attempt on Reagan. The governor planned to fly the Bradys from their home in Centralia, Ill., aboard a state airplane, so they could meet Reagan at the reception.

Thompson's campaign committee is paying for Reagan's roundtrip flight, the White House said.

Deputy White House press secretary Larry Speakes said Monday that Reagan's speech at the McCormick Place convention center would deal with the need to cut taxes "and the fact that the Democratic proposal is a tax bill and not a tax cut."

Under current law, Speakes said, income taxes would increase 22 percent over the next three years and the tax plan proposed by the Democrats would cut taxes 15 percent over two years. The Reagan plan calls for a three-year, 25 percent cut in personal tax rates.

Reagan, who won his battle for budget reductions with a last-minute lobbying attack on recalcitrant Democrats, is gearing up for a similar battle for his tax proposal.

Later this week, he may meet with members of Congress in an effort to win approval of his plan before the congressional summer recess begins in August.

Tonight's political trip was planned well before the tax bill began to slow down in the House. Speakes said that by Reagan's hoped-for schedule, the measure would have been out of Rostenkowski's hands by now.

But Rostenkowski's committee is still working on a tax cut and probably will be for several weeks yet.

Nuclear Accidents Could Happen

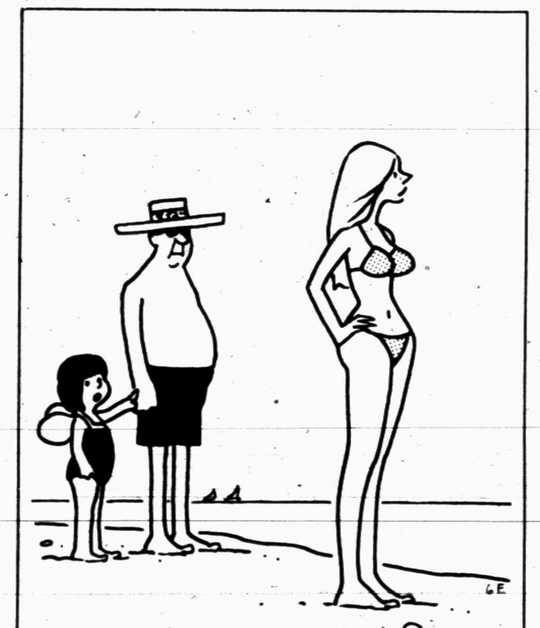

WASHINGTON (AP) — The Energy Department's failure to heed warnings about the safety of 49 federally owned nuclear facilities is "an invitation to nuclear accident," the chairman of a House subcommittee says.

"Warnings have been sounded," Rep. Edward J. Markey, D-Mass., head of the Interior subcommittee on oversight and investigations, said Monday. "Yet in the past several months business-as-usual bureaucracies have apparently dictated that little will change in the management of nuclear power within DOE."

Markey cited a March report by John W. Crawford, the department's deputy assistant secretary for nuclear energy, which Markey said found deficiencies in the safety program for DOE's facilities, which are not inspected by the Nuclear Regulatory Commission.

The people of the Caribbean are all descendants of individuals who came from elsewhere. Most are partly descended from African slaves. Other nations that have contributed to the stock of the Caribbean people include India and China.

Berry's World

"How come SHE gets to wear her water wings backwards?"

Big things come in small packages when it comes to uranium. A pound of enriched uranium fuel contains nearly 3 million times the energy in a pound of coal, according to National Geographic.

Lasagne & Sauce Good For Summer

By
CECILY BROWNSTONE
AP Food Editor

There are a good many lasagne recipes in this world, but as a rule they call for a meat sauce or a tomato sauce with meatballs to be layered with lasagne noodles and the usual variety of cheeses. In her "Italian Regional Cooking," Ada Boni, noted for her classic Italian culinary contributions, gives five lasagne recipes from different sections of Italy — all containing meat.

Americans have made innovations. Of late, vegetarian recipes for lasagne have sprung up. And previously to these, in his book "The World of Cheese," Evan Jones gives a recipe for lasagne calling for shrimp and crab instead of meat.

Don't ask me how I got the following idea. Maybe from the plainest sort of pizza. But recently I longed to make a change: to create a new version of lasagne, one featuring the noodles, a light French tomato sauce and the usual cheeses. It would be a main dish that, with a green salad and some crusty garlic bread, plus fresh fruit and espresso, would make a warm-weather supper friends would welcome.

According to my tasters and to one of my assistants who used the recipe in her own household, it was extremely successful. My recipe, then, for your consideration.

SUMMERTIME CHEESE LASAGNE

French Tomato Sauce, recipe follows
8-ounce package lasagne
1 pound (about) ricotta cheese
¾ cup freshly grated Parmesan cheese, not packed down
8 ounces whole-milk mozzarella cheese, cut in 8 slices

Make the French Tomato Sauce. It may be refrigerated for a few days or frozen for longer storage.

Cook the lasagne according to package directions and drain in a colander and separate strips.

In a 2-quart baking dish (8 by 8 by 2 inches) layer the ingredients as follows: enough Tomato Sauce to cover the bottom of the dish; half the lasagne strips, overlapping sides and folding ends over to fit pan; about 1 cup ricotta; ¼ cup Parmesan; 4 slices Mozzarella. Repeat layers, but this time end with the remaining Sauce; sprinkle with the remaining ¼ cup Parmesan. Bake, uncovered, in a preheated 375-degree oven until hot through — 20 to 30 minutes. Let stand at room temperature for at least 10 minutes before serving hot. Or serve at room temperature. Makes 6 servings.

FRENCH TOMATO SAUCE

1-3rd cup olive oil (generous)
2 medium onions, minced
(about 1 cup) 35-ounce can Italian peeled plum tomatoes (packed in tomato juice and basil), undrained
1 teaspoon salt
⅛ teaspoon freshly ground pepper
1 teaspoon sugar
1 large clove garlic, minced
1 teaspoon dried crushed thyme

In a 5-quart heavy saucepot, in the hot oil, gently cook the onion, stirring often, until soft but not brown — about 10 minutes. Add the tomatoes, salt, pepper, sugar, garlic and thyme. Simmer, uncovered, stirring often, until the consistency of chili sauce — about 1¼ hours. Puree in an electric blender or a food processor. Taste and adjust seasoning as desired. Makes about 2 1-3rd cups. Use as directed in the Summertime Cheese Lasagne recipe.

Note: We adapted this French Tomato Sauce recipe from one created by Lydie Pinoy Marshall, who conducts the French cooking school, A La Bonne Cocotte, in New York City.

PRACTICE MAKES PERFECT—Practicing for this year's Game Day and Bake Sale hosted each year by the Martha Ann Woman's Club are several of the club's officers. From left is Mrs. Mickey Nunley, president; Mrs. A.C. Floyd, Jr., treasurer, and Mrs. James Northcott, first vice president. The Game Day will begin at 10 a.m. on July 13 and all Martha Ann Woman's Club members and guests are invited to attend and bring any game of their choice. The fee of $5.00 per person will include a salad luncheon and game time to be played before and after the luncheon. (SDN Staff Photo)

FIRST ANNIVERSARY—The Single Alternative singles' group observed its first anniversary recently. Among those attending were, on the first row are Janie Gibson, Marge Sealy and Pat Whittenburg. On the back row are John Long, George Mraz and Vernon Young. The banquet was held at the Delbert Hataway residence with approximately 30 people attending and Cindy Hataway provided the entertainment. Single Alternative is composed of single men and women between the ages of 21 and 60. The group meets every Tuesday night.

Man Gives Away Land To People With Kids

ANTLER, N.D. (AP) — Harley "Bud" Kissner believes tiny towns like Antler "wither and die" without schools, and since you can't have schools without children, the 72-year-old bachelor is offering free land to modern-day homesteaders willing to settle here.

"I've had a lot of phone calls," said Kissner. "About 30 or so from Idaho, West Virginia, Minnesota, North Dakota."

Kissner offered to give away four lots of nine acres each near Antler Creek, but now he is being asked to provide more land from his 640-acre spread.

Land in the area, which is near the Canadian border, sells for about $450 to $500 an acre.

The community's 29-student elementary school closed this spring when the enrollment potential for the fall dropped to 23. The following year it would drop to 15, officials said. Students are to be bused to the towns of Sherwood, Mohall and Westhope, each about 20 miles away to the west, south and east.

"These little towns just wither and die" without schools, Kissner said.

He said he is interested in preserving the town of 150 because he has lived there all his life and has enjoyed it.

"I come from a very poor childhood, but my folks took in people and helped them out," Kissner said. "Here's my opportunity to help the community and maybe help the school."

He placed advertisements in three area newspapers that promised free land to people with school-age children willing to remain five years.

Kissner said loss of a rail line and the growth in the size of farms has contributed to the population drop over the years, which led in turn to the school's closing and his decision to help out.

"I suppose we need 20 kids; if we get more, so much the better," Kissner said. "I can't see that we should just sit down and do nothing and let our schools be closed."

He said a young Antler native named Rick Jorgensen is helping him, and Jorgensen has proposed that Kissner provide more land and reduce the number of acres involved in each lot to five.

"I'm still scratching my head on that," Kissner said.

Jorgensen said Kissner isn't just a sentimentalist.

"He is basically determined he will do whatever is necessary to make sure this town will exist after he's gone," Jorgensen said. "I've never run across another guy as generous and civic-minded as he is."

Don Conroy, former school board president, who resigned at the last meeting, said the decision to close the school was largely a matter of economics.

"We're in a relatively good financial position at this point, but there was just no future," he said.

"We could operate another year, but we looked at it over a two-or three-year period, and we felt with the school not now in bad financial shape it was a better point to terminate. Obviously, a lot of people disagreed."

By Oswald Jacoby and Alan Sontag

South's jump to four hearts showed almost exactly what he held in accordance with their partnership bidding principles. A seven-card heart suit with one possible loser and little else.

The game was duplicate so South started by playing dummy's ace of diamonds and then leading a heart and finessing his 10. It held but the ace failed to drop the king so he went after spades. East ruffed the second spade with his high trump and led a diamond which South ruffed.

Now it was all up to the clubs. West surely didn't hold ace and king. He would have opened that suit if he did so South's only hope was to find West with jack and one of the top honors.

He led a club to dummy's nine. East took his king and led another diamond for South to ruff.

A second club was led and West could do no better than to take his ace.

Looks like a normal result, but less than half the pairs in the field got to game so South had a very good score.

Dear Abby

Ballplayers' Tobacco Gives Readers Something to Chew

By Abigail Van Buren

© 1981 by Universal Press Syndicate

DEAR ABBY: Why ask Steve Garvey why baseball players chew tobacco? He doesn't chew. You should have asked that handsome hunk, Tommy Lasorda, who manages the Dodgers. I used to see him on TV with a plug of tobacco in his mouth as big as a baseball. Not lately, however. Either he's reformed or he's ducking the camera.

IN LOVE WITH LASORDA

* * *

DEAR ABBY: Regarding the letter the woman wrote on how disgusting baseball players look, spitting tobacco juice all over the place:

I read it to my husband, a devoted chewer, and in answer to her question, "Why do baseball players chew tobacco?" he calmly said, "Have you ever tried to hold a cigarette with a baseball glove?"

GAVE UP NAGGING IN TEXAS

* * *

DEAR ABBY: I'm a 12-year-old girl who loves baseball. I think I know why baseball players chew tobacco. It calms their nerves. I think it looks icky when they spit on the ground, but they can't carry around a garbage can. I would rather see ballplayers spit tobacco than chew their nails, keep tying their shoelaces or scratching whatever itches.

YANKEE FAN

* * *

DEAR ABBY: Baseball players aren't the only ones who chew tobacco. I belong to an organization called Cuspidor Hitters Worldwide, and we have members (both men and women) who are doctors, lawyers and socialites. I've been chewing tobacco and dipping snuff for three years. Some people may think it's disgusting, but there are worse habits.

CHEWING IN MELBOURNE, FLA.

* * *

DEAR ABBY: Kissing a guy who chews tobacco is like licking a dirty ashtray. Yech!

VICKI

* * *

DEAR ABBY: Baseball players chew tobacco because they don't realize how harmful it is. If they could hear a surgeon describe his feelings of helplessness and remorse after performing surgery for cancer of the tongue, the mouth or the throat caused from habitual tobacco chewing, they would never chew again.

BOSTON M.D.

* * *

DEAR ABBY: You were asked, "Why do baseball players chew tobacco?"

In the early days of baseball, the old-timers chewed tobacco to keep the dust out of their throats. Today, however, baseball is played on meticulously manicured diamonds where groundskeepers sprinkle the dirt infields before and again halfway through the game to keep the dust down.

My gripe is with the TV turkeys who put the camera on the ballplayers while they're chewing and spitting. What a poor example for our growing boys to see!

JOHN IN CONCORD, CALIF.

* * *

DEAR ABBY: A couple recently wrote objecting to ballplayers spitting tobacco juice. I don't think the spitting is nearly as disgusting as the half-naked jerks who come to the ballpark and occupy seats in the midst of decently dressed people!

FAN IN FT. PIERCE

Selman, whose watercolors have appeared on the cover of various art related magazines, was one of the many participants in the crafts fair on July 3 and 4 in the National Guard Armory. He is shown with the reproductions of his watercolors that he sold at the fair. (SDN Staff Photo)

Liner Searchers Near Alleged Sinking Site

ORLEANS, Mass. (AP) — Stalkers of the ill-fated luxury liner Titanic neared their hunting grounds today.

"They should be there and ready to start work in that area probably some time tomorrow," said Tex Treadwell of Texas A&M University after taking a radio report early Monday morning from the voyagers.

"As of this morning they're on their way to the area in which the Titanic was supposed to have been lost."

Treadwell said he has been monitoring the vessel Gyre since it sailed from Woods Hole, Mass., June 27.

"This leg of operations they're on right now involves two things," he said. "The first one is purely a research project on the geology of the sea bed out on the New England coast. And the second leg is some more research plus a search for the Titanic hulk itself. All last week they were working on the research project, and the reports I have is that everything went just fine."

The site of the sinking is roughly 200 miles south of Newfoundland.

The 174-foot vessel Gyre, with a crew of 20, including scientists and filmmakers, is on a 26-day trip with special underwater search equipment: sonar, metal-detectors and television cameras with lights.

They are due back in Boston July 22.

They seek the Titanic, which hit an iceberg on her maiden voyage from Europe to the United States April 14, 1912, and sank in 12,000 feet of water. About 1,500 perished.

The study team last year found some likely spots for further research.

Trio Of Yellowjackets Hospitalizes Deputy

Andy Anderson is convinced that big trouble can come in small doses—like a trio of yellow jackets.

Anderson, chief deputy in the Scurry County Sheriff's Department, spent his Independence Day holiday in the hospital, mostly in intensive care, as a result of an encounter with the winged stinging pests. It happened late Friday afternoon as Anderson was mowing his lawn. As he leaned over to adjust his mower, he disturbed a yellow jacket nest and three of them popped him, one on the right side of his chin and two on his right shoulder.

Within minutes, Anderson said, he "began to feel funny." He was not particularly alarmed, however, because he had been stung by bees, yellow jackets and even red wasps in Arkansas in the past without any ill effects.

But this proved to be a different ball game. He went into the house and advised his wife that he had been stung and that he apparently was experiencing some reaction to stings. He started to move to a couch and stretch out, "but it just disappeared."

Fortunately, his son, Monty, also was home, and he started to assist his father to the car to take him to the hospital. Then "everything stopped" and Anderson slumped to the driveway, a victim of cardiac arrest. Both Mrs. Anderson and Monty are employed at Cogdell Memorial Hospital, and Monty immediately began resuscitation procedures right there on the driveway. He was able to restore heart action and get Anderson to the hospital, where he remained until noon Sunday.

How did he feel after his release? Just plenty sore in the chest from the resucitation, but he is not complaining.

"I'm just glad they (Mrs. Anderson and Monty) were both home," the lawman said. "Otherwise they would have found my body there."

A tiny, 3-inch-long fish known as a stickleback lays its eggs in an underwater nest built by its mate. The nest has a sandy bottom and is lined with underwater plant bits, according to National Geographic.

Use a fan to help hold down electric bills.

In many homes, air conditioning uses more electricity than all other appliances combined. And with electricity costing a lot more this summer, it pays to do everything you can to use less electricity. Try living a little warmer. Set your thermostat at 78° or 80° or even higher, and use a fan to circulate the air. You may be slightly uncomfortable at first, but most people adjust very quickly to living warmer. If you use a fan and dress in cool clothing, you may not even notice a difference.

Texas Electric Service Company
H. F. CLARK, Manager, Phone 573-5461

Says TDHR Representative...

Urgent Need For Foster Parents

The Texas Department of Human Resources currently has openings for additional foster families in this area according to Winona Curfman, foster home coordinator for the agency.

Foster parents are needed to provide temporary care for children of all ages, and, especially for sibling groups of three or four children. Many of these children have been abused or neglected by their own parents. Through the love and care of Foster Families the emotional as well as physical needs of these children can be met while permanent plans are made for the children.

Sometimes a child can return to his own home after rehabilitative work with the natural parents. In most serious cases the natural parents often have their parental rights terminated by the court and the child is then placed in an adoptive home.

Curfman says that foster parenting is perhaps the most important and vital role a person can play in strengthening and preserving our society. Foster parenting is a rewarding job with meaning, purpose and direction, but Curfman says that it takes special people to be foster parents. They must not only be able to handle the daily adjustments and problems of an additional child in the family, but must also be emotionally mature and experienced enough to cope with the problems of abused children.

Then, after coming to love and care for the children, they must be prepared for the trauma of seeing them leave their door step just as suddenly as they came. The reward for the foster parents is the knowledge that the love and guidance they have shown the child will someday be reflected in that child's life--perhaps in a small way or perhaps in a very significant way.

Foster parents work closely with the child's caseworker in a teamwork approach. There is always someone to help if problems arise. Foster parents receive special foster care rates to cover the child's expenses including all medical expenses. Foster parents receive ongoing training with leading psychologists and consultants. Foster parents choose the age and number of children with whom they work. They may have a child in their home for a few days or for several months.

The basic requirements are a family with love, compassion, flexibility and a desire to learn more about the special problems of abused and neglected children.

Foster parents in this all have the special benefit of a strong Foster Parent Association which allows them to share experiences and ideas with other foster parents. Workshops, seminars and individual training programs are presented throughout the year for Foster Parents and their families.

Foster Care is not something most families can do, but for a few very special families it can be a very rewarding experience. If you are interested in a new experience in family living and would like to know more about Foster Parent Program, contact Curfman at the Department of Human Resources in Snyder at 573-6501.

RETIREE HONORED—Gwyn Fleming was honored recently with a retirement party in the Texas Electric Reddy Room, with fellow employees and other friends attending. Shown here with Henry Clark, Texas Electric manager, she had been employed by TESCO here since May 3, 1957.

Charges May Be Dropped In Case

LOS ANGELES (AP) — An exasperated prosecutor in the "hillside stranglings" says his star witness is "dishonest" and says he may be forced to drop charges against a second man charged in the killings.

The case against Angelo Buono was thrown into doubt Monday as Buono's cousin, confessed "hillside strangler" Kenneth Bianchi, delivered his first public testimony.

Bianchi, who has implicated Buono in the slayings of young women in 1977 and 1978, gave two utterly different stories in a full day on the witness stand at a pre-trial hearing, which was held at the request of the defense to show why the charges against Buono should be dropped.

Buono is charged with 10 counts of murder. Bianchi confessed to the murders of five young women whose bodies were found on hillsides, in a deal with prosecutors in which he agreed to testify against Buono in exchange for avoiding the death penalty himself.

On Monday, Bianchi first said that neither he nor Buono was involved in the killings. Then he said he had changed his mind and described in a monotone the grisly tortures and strangulations, insisting that Buono was his partner in murder.

"I would regard Mr. Bianchi as dishonest and unable to come to terms with his own guilt," said Deputy District Attorney Roger Kelly, who has based his prosecution of Buono almost entirely on Bianchi's account of the killings.

"He simply does not want to believe he is guilty," Kelly said.

Local's Grandaughter Wins Beauty Pageants

Mrs. Roy Ford of Snyder is understandably proud of her granddaughter, Felecia Ford of Big Spring, as the teenager has consistently won several beauty pageants and is an accomplished gospel singer having recently signed with the Gaither Trio.

Miss Ford, the daughter of Mr. and Mrs. V. P. Dunbar and Roy Ford all of Big Spring, also plays the piano and has been invited to provide music for the Southern Baptist Convention this fall. She has also been listed among Distinguished High School Students of America.

Felecia has garnered a total of 80 trophies and 12 crowns since she entered her first contest as a tot. A few of her honors includes being crowned 1981 Texas Miss T.E.E.N. recently in Dallas. She competed against 117 contestants from troughout the state.

Felecia Ford

Felecia won, among other things, a $1,000 cash award and a trip to the national finals in Albuquerque, N.M. in December 1981 to compete for the National Title of Miss T.E.E.N. This event will open New Mexico's Fiesta Encantada. Among prizes to be awarded at the national pageant this year are $15,000 in scholarships and awards, $2,000 personal appearance contract and a $2,000 reward.

Other honors include being crowned Texas State Miss Regal Talent; she was awarded eight first places in fashion and in talent and received the highest modeling point from ages 3-21. In addition Felecia won a diamond necklace, a Snoopy telephone and a trip to Las Vegas to compete in the national pageant.

Felecia was also the first place winner in the 1979 Starlight Specials Talent Show and served as hostess and appeared in a special non-competitive performance at the 1980 Talent show. She has also been named Miss Regal Talent and Our Miss Regal Girl Talent.

Other honors include winning the Cinderella Girl Pageant and the Camero Girl award, which is in the beauty division.

After signing with the Gaither Trio, a gospel group, Felecia attended a two-week workshop in Alabama this summer.

HEALTH

Lawrence E. Lamb, M.D.

How much water is needed?

By Lawrence Lamb, M.D.

DEAR DR. LAMB — How much water should a person drink a day? Is it good for your kidneys or is it for your bowels? Sometimes my urine is very dark and other times it is very light. Is this because of the amount of water I drink? How long after you drink water does it take for it to come out in your urine? If your urine is too light does that mean your body is losing too much water?

DEAR READER — A healthy person's normal kidneys will carefully control the amount of water they eliminate so that the body retains the right amount of water. You ought to drink enough fluids to maintain a urinary output of at least a quart a day. If you sweat a lot in hot weather, you may need to drink a lot more. In cold weather you might not need so much.

Your food also contains water. Even that dry table sugar is broken down into carbon dioxide and water to release energy. Carbohydrates are literally hydrates (water) of carbon. When fats and proteins are broken down to release energy, the process also releases water for your body's use. If a person is reducing and using fat stores, that also releases water.

Normally about 200 quarts of fluid pass out of your circulation into the kidney structure. Here most of the fluid is reabsorbed to keep you from getting dehydrated. A powerful hormone helps control these complex actions. You'll understand this better from The Health Letter number 12-12, Your Kidneys and How They Work, which I am sending you. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

If you drink a lot of water you should have an increased urine flow in about 40 minutes. This is collected in your bladder so you may not notice it until you feel the urge to empty your bladder.

In general, it is better to have light-colored urine, which means diluted with adequate water, than to have concentrated urine which means your body is having to make an effort to conserve water. Water concentration in the body is normally controlled by the kidneys, not the bowels. The fluid you drink in excess to body needs is eliminated through the kidneys so normally water intake has a limited effect upon bowel function.

DEAR DR. LAMB — My wife still has a great figure after having four children. She jogs with me every day and is in perfect health. The problem is that she refuses to wear her bikini swim suit anymore. Over the course of her four pregnancies she has developed "stretch marks" on her body. She is very self-conscious about this and worries that this may be unhealthy. What actually causes them? Will they fade away eventually? If not, what can be done about them?

DEAR READER — They are caused by stretching the skin and they will not go away spontaneously. They are not a sign of poor health at all. In her case they signify merely that she is a woman and has been pregnant — which isn't all that unusual.

Since she is so self-conscious about it, suggest to her that she see a plastic surgeon for an examination. He may or may not be able to do some cosmetic repairs that will make her happier. But why does she have to wear a bikini? A good figure can still be appreciated in a swim suit that doesn't bare the midsection.

(NEWSPAPER ENTERPRISE ASSN.)

Companies May Still Cheat

WASHINGTON (AP) — Companies which have cheated the government may continue to get contracts because information about their wrongdoing is not always disseminated among all federal agencies, a congressional report says.

Some agencies, added a Senate Governmental Affairs subcommittee, refuse to bar firms from bidding on work even when "debarment" is recommended by an agency which has had trouble with those firms.

The report was released by Sens. Bill Cohen, R-Maine, and Carl Levin, D-Mich., who said there is "a general failure by the government to effectively protect the disbursement of federal tax dollars by doing business with only honest, responsible public contractors."

The subcommittee recommended that lists of disqualified firms be circulated to all agencies and that contracts not be awarded to them except under "compelling circumstances."

In 1611, Dutch navigator Henry Hudson's crew mutinied and set him and eight other men adrift in a small boat.

The world's first daylight saving act was passed in Britain on May 17, 1915, and clocks were put forward one hour the following Sunday.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas effective July 21, 1981, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 15.8 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas.

Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Publicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de telefono en Texas con vigencia a partir del 21 de Julio de 1981, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 15.8 por ciento en los ingresos intraestatales de la compañia.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañia para negocios con el publico en Texas tiene una copia para lectura publica.

Aviso a los Clientes de Otras Compañias de Telefono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de linea privada entre centrales telefonicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio tambien afectarian a clientes de otras compañias de telefono porque dichas compañias proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell.

Diet facts & fallacies

These nutritional tips brought to you by DIET CENTER

Once again, it's time to bring out the bicycles, tennis rackets, water skis, and jogging shoes. Summer has finally arrived (all the more reason to get your B vitamins)! If you plan to step up your exercise in the months to come, thiamine B-1 is especially important.

Acting as a coenzyme in converting sugar into a usable energy source, thiamine also helps the body rid itself of two waste products of exercise: pyruvic acid (by breaking it down into carbon dioxide and water) and lactic acid (by helping to reconvert it into glycogen).

Thiamine, because it is not stored in the body in any great quantity, must be supplied daily. While excessive amounts of sugar cause a thiamine depletion, so will smoking and drinking alcohol. Foods with high levels of thiamine include brewer's yeast, wheat germ, blackstrap molasses and bran.

It is because thiamine is a component of the germ and bran of wheat, the husk of rice, and that portion of all grains, which is commercially milled away to give the grain a lighter color and finer texture, that Diet Center recommends you use whole grain products. Not only do they contain more bulk and fiber, but also more vitamins, including thiamine.

Weekly Interest Rate Notice

First National Bank's Money Market Certificate of Deposit

Minimum Deposit:	$10,000
Annual Interest Rate:	14.30%
Date Good:	July 7-13
Term:	182 day maturity

NLR Board Resumes Case

NEW YORK (AP) - The National Labor Relations Board resumed its case against major league baseball today before an administrative law judge who asked Mark Belanger and Bob Boone for their autographs after the first day of hearings.

Melvin Welles, the NLRB's chief administrative law judge, listened with a bemused smile to the testimony offered Monday as the labor board sought to force management to open its books to the union.

"I am a baseball fan," the judge said. "Most of us are. I root for the Yankees. When Washington had a team I saw 30 games a year. Now I see 10 or 12, almost all of them in Baltimore."

That's why the judge must have been particularly impressed by the presence of Belanger, the Orioles' shortstop, who was called to testify for the union.

"It was interesting to have Belanger," Welles said. "He takes so many hits away from Yankee batters. I like the fact that he bats about .200 against us, though."

Welles is in charge of assigning administrative law judges for cases like the one the NLRB is pursuing against the owners. "I assigned this one to myself, because it sounded interesting. It will be more fun for me"

Acting on behalf of the union, the NLRB is seeking to prove management has bargained in bad faith by refusing to open its financial books in negotiations while, at the same time, various club owners and Commissioner Bowie Kuhn have bemoaned the game's financial condition.

Kuhn and three club owners, Jerry Reinsdorf of the Chicago White Sox, Calvin Griffith of the Minnesota Twins and Ruly Carpenter of the Philadelphia Phillies, were scheduled to testify today. Also scheduled for tonight is a meeting of the executive board of the Major League Players Association. The 26 player representatives will be briefed on the status of negotiations in their strike, which entered its 26th day today with 13 more games canceled for a total of 324 lost since the walkout began June 12. On Thursday, the 26 club owners will meet in New York for a briefing from chief negotiator Ray Grebey and the Player Relations Committee.

The owners' meeting came about after eight teams reportedly asked league presidents Lee MacPhail of the American League and Chub Feeney of the National by telegram to set it up

The New York Times said that the New York Yankees and Mets, Houston Astros, Cleveland Indians, Chicago White Sox, San Diego Padres, Texas Rangers, and Baltimore Orioles had requested the meeting, the first by the owners since the strike began. The Times also said that two of the owners of those teams identified Edward Bennett Williams, owner of the Orioles, as the main force behind the request.

Most of the opening day of the NLRB hearing was devoted to testimony from Marvin Miller, executive director of the union, who traced relations between the players and management which led to the strike. Miller spent more than two hours on the stand, testifying under questioning from Mary Schuette, the NLRB attorney, and David Silberman, representing the union.

Plans For All-Star Tilt On Despite Talk Breaks

CLEVELAND (AP) - As the strike by baseball players nears its one-month anniversary, the chore of preparing for an All-Star Game that may never happen has become increasingly frustrating.

"Extremely frustrating," said Cleveland Indians spokesman Bob DiBiasio Monday as baseball Commissioner Bowie Kuhn declined to cancel the game, scheduled for Municipal Stadium next Tuesday.

"There's no change in plans," said Gabe Paul, president of the host Indians. "We're going full steam ahead and will until the last possible minute."

Thousands of souvenir T-shirts, mugs and pennants are locked away, 5,000 pounds of hot dogs are stored in the Stadium's freezers, 50,000 programs are printed and 1,600 hotel rooms are reserved for incoming media and baseball officials.

"I'm still processing credentials. We're still getting requests," DiBiasio said. More than 500 media representatives planned to cover the event.

But no one seems optimistic that the players' strike will be settled in time to save the game, at least for its scheduled date.

"The game hasn't been canceled," said Chuck Adams, a spokesman for Kuhn. "We're continuing to re-evaluate it day by day. But obviously a decision has to be made soon. We're rapidly running out of time."

If it is not played next Tuesday, the game could be rescheduled, with July 30, the second rain date, the most logical choice. July 15 is the primary rain date.

"The thing they obviously don't want to do is cancel the game," DiBiasio said. "A postponement would be OK."

Cancellation of the contest would cost the Cleveland economy $4-$6 million according to Frank Carrell, vice president of the Convention and Visitors Bureau. Also, the baseball players' pension fund would lose about $2 million.

The decision rests with baseball's executive committee, comprising Kuhn and team owners from Detroit, Milwaukee, Cincinnati, Kansas City, San Francisco, Los Angeles, Boston and Pittsburgh.

Controversy Still Shrouds McEnroe

NEW YORK (AP) - John McEnroe returned from England to prepare for this week's Davis Cup competition bearing two Wimbledon titles he won on the court and a tattered reputation he says he doesn't deserve.

The brash, 22-year-old New York captured the men's singles crown by defeating Bjorn Borg 4-6, 7-6, 7-6, 6-4 Saturday, snapping the Swede's 41-match winning streak and his five-year grip on the Wimbledon championship. On Friday, McEnroe teamed with Peter Fleming to win the men's doubles title.

But his behavior made as many headlines as his brilliant court play.

He was fined a total of $4,750 for three separate on-court comments he made about the officiating during the tournament. He bristled when reporters asked if he and his girlfriend, Stacy Margolin, had broken up. He was livid when one London newspaper reported that he had been arrested for speeding.

Saturday night, he failed to show up at the traditional Wimbledon champions' dinner. And, on Sunday, he reportedly was involved in an incident at London's Heathrow Airport when he was returning home.

McEnroe, who met with reporters briefly at the National Tennis Center Monday after practicing for the Davis Cup series between the United States and Czechoslovakia starting Friday, said the All-England Club had withdrawn its champions' dinner invitation to him.

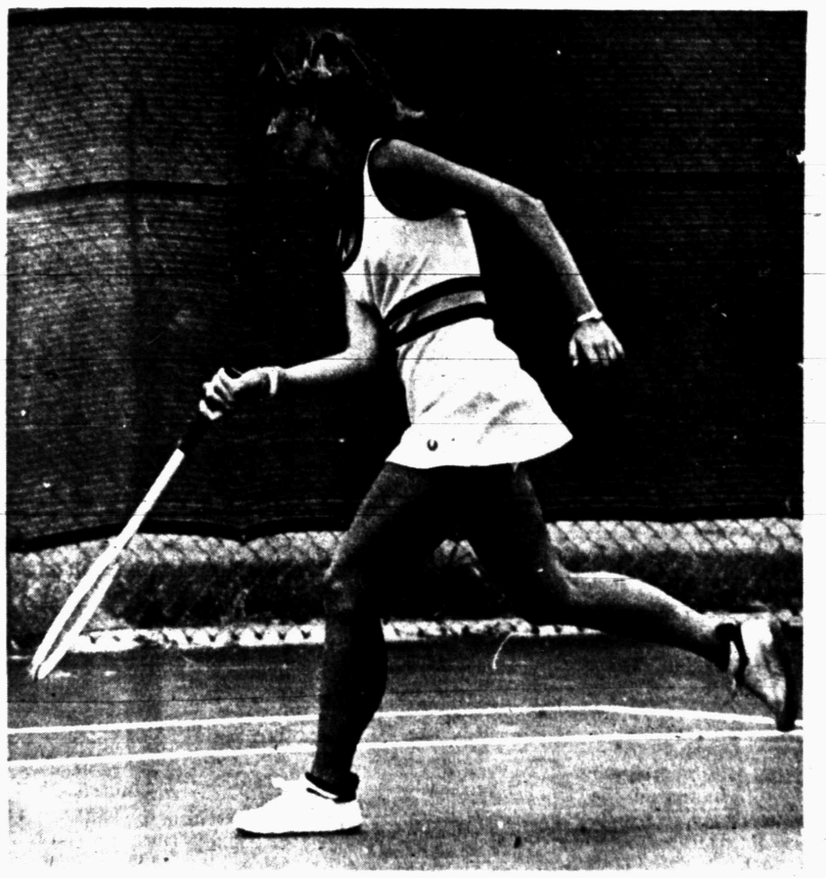

He said his father, John McEnroe Sr., an attorney who also is his son's agent, had asked if the newly crowned singles winner could make a brief appearance at the dinner Saturday night and give the traditional champion's speech. The younger McEnroe said he asked to be excused from most of the evening because he was tired and he wanted to spend time with his family.

According to McEnroe, the All-England Club wanted him to spend the entire evening at the private dinner, and when he refused, the invitation was withdrawn.

"Their words were, 'If you don't come to the whole dinner, then we respectfully rescind your invitation,'" McEnroe said.

Sir Brian Burnett, chairman of the All-England Club, said places for the McEnroes at the dinner had been reserved although they told him they would not be able to get there until 11 p.m.

"They never turned up," Burnett said.

SINGLES CHAMP -- Caroline McKee of San Angelo defeated local netter Donna Gafford to cop the women's singles title of the Snyder Tennis Tournament held here last weekend. Above, McKee races to return a soft shot down the sideline. (SDN Staff Photo)

All-Star Game Features Snyder Coach, Player

FORT WORTH -- The Texas High School Girls Coaches Association Senior All-Star Volleyball Match will be held here at Wiley G. Thomas (Birdwell) Coliseum, July 10 at 7 p.m.

Playing for the West team will be Snyder's Sherry Mayes, a 5-8 spiker and middle blocker who was named All-District, All-State Tournament and All-State last year.

Mayes, who will be attending Southwest Texas State University on a volleyball scholarship this fall, was a key figure in Snyder's class 4A state championship last year.

Joyce Elrod, who has coached numerous all-state players and has taken Snyder High School to the state championships in Austin two of the past three years, will coach the West team. She will be aided by Waynette Dolan from Monahans, both district 2-AAAA rivals in 1980.

Other area players participating on the West team will be Christy Bizzell of Lamesa, Shelly Heath of Monahans, Belinda Bass of Seminole and Linda Magers of Big Spring.

Tickets may be purchased at the door.

Walker To Challenge 'Underclassman Rule'

ATLANTA (AP) - University of Georgia All America running back Herschel Walker says the National Football League regulation against signing underclassman is unfair and he may challenge it.

A similar rule was recently adopted by the Canadian Football League after its Montreal team made an attempt to draft the super freshman off the national champion Bulldogs' squad this spring.

"As things go on and I get better, there's a chance that I may challenge that rule sometime," Walker said Monday.

He commented in an interview with WSB-TV here.

"It's not right," Walker said, "that if I wanted to play in the NFL for them to hold me out of that right. The next year, the CFL can't draft anyone who is not a senior now. They've got it where you can't do anything."

Walker set a freshman rushing record of 1,616 yards in leading Georgia to the 1980 national championship and a victory over Notre Dame in the Sugar Bowl.

His achievement broke the mark of 1,586 yards set in 1973 by Pittsburgh's Tony Dorsett.

The Montreal Alouettes made a determined bid to sign Walker this spring, but Walker decided in April he would play at least his sophomore season at Georgia.

Heavyweight Gerry Cooney won two Golden Gloves championships in the New York area as an amateur.

Three More Qualify For Ryder Cup Meet

OAK BROOK, Ill. (AP) - Weekend performances at the Western Open golf tournament earned Jack Nicklaus, Bill Rogers and Howard Twitty spots on the 12-member U.S. Ryder Cup team headed for England in September.

The team plays in biennial competition against the top 12 British pros.

The three touring pros earned the final three Ryder Cup berths with their performances at the tournament, in which Rogers finished tied for fifth, Nicklaus was tied for seventh and Twitty was far back in the field.

Murphy Rep Schedules Meeting With Rockets

HOUSTON (AP) - Bob Woolf, agent for free-agent guard Calvin Murphy, says he'll meet with the Houston Rockets officials Thursday to discuss a new contract for the National Basketball Association's free-throw champion.

Woolf announced Monday he plans to meet with Rockets General Manager Ray Patterson in an effort to negotiate a new pact for the 11-year veteran.

"Calvin met with the Rockets, and from what I understand it was a positive session. He is convinced that Houston wants him on the ballclub next season, and he has never changed his stance that he wants to remain a Rocket," Woolf said. "I'm a heckuva lot more optimistic about Calvin remaining with the Rockets than I was two days ago."

But Patterson took a more cautious approach.

"It's July and so it's time ... to talk," he said.

Mason Wins Tour Classic

HOUSTON (AP) - Cindy Mason of Duarte, Calif., bowling in only her third national professional tournmanent, took first place Monday night in the Ladies Professional Bowlers Tour $25,000 Houston Classic at Big Texan Lanes.

PUBLIC NOTICES 010

PUBLIC NOTICE OF PROPOSED USED HEARING of Revenue Sharing Funds

The Scurry County Commissions Court will meet on Monday, July 17 1981, at 10:00 a.m. in the Commissioner's Courtroom, Scurry County Courthouse, Snyder, Texas, to discuss the uses of revenue sharing money. It is estimated that Scurry County will have no revenue sharing funds available at the beginning of the Budget Year of 1982. Scurry County will receive an estimated $226,360.00 for the coming fiscal year. The purpose of this Notice is to give the citizens of Scurry County an opportunity to make oral or written suggestions regarding uses of the revenue sharing funds. Dated this 6th day of July, 1981.

Preston Wilson
Presiding Scurry County
Commissioners Court
Snyder, Texas

Attempted Rape Reported

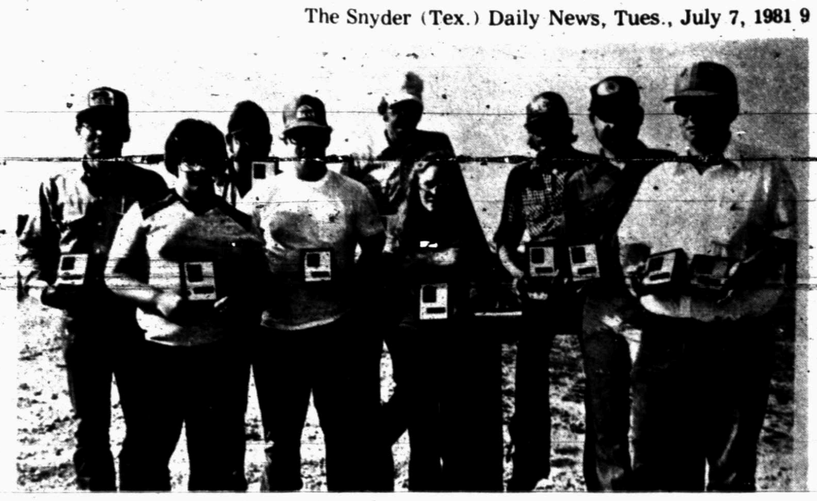

City police are investigating a report of an attempted rape that occurred July 4 and was reported to police Monday morning. A woman told Sgt. Dale Burns that her son-in-law had attempted to rape her and had assaulted her son. The man is currently being held in city jail on other charges of public intoxication and illegal alien.

In other activity Monday, Norma Grimmett, 2907 29th, reported the theft of a boys' 20" bicycle from her back yard. The bike was found an hour after it was reported stolen.

Officer Richard McCulley investigated a hit-and-run at 1800 39th at 4:09 p.m. Involved was a legally parked 1981 Datsun owned by Kyle Lee Cox and a vehicle which left the scene.

Ms. Ramirez, 803 28th, reported the theft of a ten speed bicycle valued at $175, at 5:12 p.m. Taking the report was officer Don Cheek.

Japanese bombers carried out their first attack on the Australian mainland during World War II on Feb. 19, 1942.

OBITUARIES

Tankersley

Fungral service was held Friday afternoon in the Bakker Funeral Home Chapel in Eastland for Mrs. Mamie E. Tankersley, 91, who died Thursday in Eastland Manor Nursing Home.

The Rev. Jerry Speer, pastor of Eastside Baptist Church in Ranger, and the Rev. Jim Hooton, pastor of First Baptist Church in Eastland, officiated. Burial was in Eastland Cemetery.

A native of Oklahoma, she moved to Eastland County in 1900. She was married on Dec. 29, 1907, to Daniel B. Tankersley, who preceded her in death in 1940.

Surviving are five sons, Burton and Clifton Tankersley, both of Snyder, Wilburn Tankersley of Eastland, G. W. Tankersley of Ranger and Velton Tankersley of Van; three sisters, Ina McCullough of Breckenridge, Edna Thompson and Lola Hammett, both of Odessa; 15 grandchildren, 43 great-grandchildren and 10 great-grandchildren.

W. J. Manley

Funeral services for W. J. Manley, 83, of San Angelo will be conducted at 11:30 a.m. Wednesday morning at the Johnson Funeral Chapel in San Angelo. Burial will follow at a San Angelo cemetery.

Mr. Manley died Monday at St. John's Hospital in San Angelo.

Survivors include his wife, Sarah of the home; a son, James Manley of Snyder; four daughters, Ruth Baree of Dallas, Louise Rich of Baraboo, Wisc., Marie Bentley of San Angelo and Mearl Cross of Brownwood; 11 grandchildren and 20 great-grandchildren.

NEW ADDITION This new addition to I&R Industries, Inc. houses sales and repair shops. If oil is your business, you should know the folks at I&R. (SDN Staff Photo)

I & R Undergoes Many Changes During Past Several Months

Changes are taking place at I&R Industries, Inc.—and they're all being made to more fully serve the oil industry.

First, the company changed it's name a few months back to more fully reflect the growth and direction that has come about over the years.

Now I&R, located at 2507 25th St., has expanded it's facilities in order to serve it's customers better. The new addition houses sales and repair shops.

A new line being handled by I&R is the GASSO pump line.

The products and services offered by I&R are as varied as the industry they serve. They build ASME Code Pressure Vessels in their shop. Vessels such as oil-water coalescers, oil-water-gas treaters, separators, etc. are all constructed.

The firm has a complete repair shop and can repair pumps, engines, valves, compressors, mud pumps and meters. They also have electrical installation and service, a complete machine shop, engineering, shop and field service.

The company is a distributor for the Toshiba D.C. drilling rig motor. They also carry the Wood's line of belts and sheaves.

I&R also specializes in motor and control sales, offering the Siemens-Allis line of electric motors, industrial controls, switchgear and oilfield pumping motors.

Behind all of I&R Industries, Inc. products and services stands a well equipped and staffed machine shop, fabrication shop, and electrical shop, with related engineering, accounting and sales personnel to guarantee satisfaction for their valued customers.

TOM AND FRANCIS MACHEN—Shown here with one of the top sellers at Tom's Marine, the Glastron Boat. (SDN Staff Photo)

Tom's Marine Is The Motorboat Headquarters For Scurry Co.

Tom's Marine, located at 315 East Highway, is the boat and motor headquarters for Scurry County.

The top seller in Tom's line of sport boats is the Glastron. In lengths from 15 to 25 feet, Glastron manufactures just the right boat for your needs.

Tom offers the best in ourboard motors, selling the popular Mercury and Johnson lines. In the Mercury motor, choose from the mighty 300 h.p. black max down to a 3.5 h.p. fishing motor. The Johnson line offers choices from 235 h.p. all the way down to 2 h.p.

At this time of year fishing is on lots of folks minds, and Tom can outfit the serious fisherman with the Caddo Fishing Boat. The best selling boats in the Caddo line is the 15 foot Bravo, which features as standard equipment a rub rail, console, teleflex mechanical steering, running lights, a live well-aerator, fold down seats, a locking rod box and much, much more. For those in the market for a mini-bass boat, Tom's Marine carries the Water-Spider.

In addition to boats and motors, Tom Machen offers water sport related equipment such as skis, ski ropes and life jackets. Tom also offers all types of boat supplies as well as a repair service for boats and motors.

Tom's Marine Sales and Service is the Lawn-Boy dealer for this area. After the recent rains, your mower needs to be in good shape. If its not, why not move up to a Lawn-Boy? Tom also carries chain saws for those tough jobs.

More and more people are using ceiling fans to help keep cool during these hot summer days. Tom's Marine carries the Spartan Ceiling Fans. And a new product is the security vault. Made of 12 gauge steel, it is great for home or office. Use the security vault for securing guns, ammo and valuables.

If you haven't been in Tom's place lately, go by. You're sure to find something just right for you.

Rates Reach All Time High

WASHINGTON (AP) — Interest rates on conventional home mortgages reached an all-time high average of 16.75 percent in early June at savings and loan associations and mutual savings banks, the Federal Home Loan Bank Board says.

The average was the highest since 16.59 percent in April 1980 during a recession. The level dropped gradually to 12.52 percent last August before rising to 16.1 percent in early May and setting the record a month later.

The board attributed the situation to higher interest rates that the thrifts must pay to lure savings deposits, which are being attracted to other investments because of better returns.

Liquor Kills Many Indians

NEW DELHI, India (AP) — Fifty-four people died and 60 were hospitalized after drinking bootlegged liquor in the southern city of Bangalore, government radio reported today.

The broadcast quoted police as saying 10 people were arrested in connection with the Monday night deaths. No other details were immediately available.

The first United States gold coins were struck in 1795. The last appeared in 1933.

Grigori Rasputin, the evil genius of the Russian court, was murdered in 1916 after a group of noblemen had decoyed him to an all-night party. After Rasputin's murder, the Russian empress recovered his body from the river and had it buried at the imperial summer palace.
