

THE JUNCTION EAGLE

Volume 45 Junction, Kimble County, Texas, Thursday, February 14, 1929 Number 44

LEGISLATURE GRINDS OUT SEVERAL BILLS COMMITTEES WORKING

For a few weeks after the last Legislature convened bills were poured into the hopper by the hundreds. A few of them are finding their way through both houses, and the Governor is signing them. Immediately after the Legislature was convened a law passed both houses and was signed by the Governor withdrawing all school lands that have heretofore been leased for oil by the Land Commissioner from his jurisdiction, and later passed a resolution calling for an investigation of his department. The committee appointed is now busy with this work. Our representative, Coke R. Stevenson, is a member of the investigating committee.

The bill carrying appropriation of \$1,500,000 to supplement the State's available school fund was approved and filed Monday by Governor Moody. It is Senate Bill No. 225 and is the first appropriation of consequence to meet both branches of the present Legislature.

Bills creating two new district courts in West Texas were signed and filed Monday by Governor Moody and both measures became effective immediately.

Senate Bill No. 9 creates the 109th Judicial District, comprising the counties of Reeves, Ward, Winkler, Crane and the unorganized county of Loving. It also reorganizes the 70th Judicial District, consisting of Midland, Acker, Andrews, Martin and Glasscock counties.

Senate Bill No. 85 creates the 110th Judicial District, consisting of Briscoe, Floyd, Motley and Dickens counties and prescribing terms in the 50th and 63rd Districts.

The Governor signed Senate Bill No. 135 making appropriation of \$148,646 for deficiencies for three fiscal years ending August 31, 1929.

Senate Bill No. 136, appropriating \$119,438 for deficiencies for the Judicial Department was approved. Both the deficiency bills are effective immediately.

Other bills approved Monday are: Senate 67—Providing for extension of Teachers' certificates for one year when the holder of the certificate passes three courses or subjects at the summer school of any State Teacher College or any other institution rating as first class. Effective immediately.

Senate 184—Authorizing State Banks of \$500,000 capital or more to increase maximum number of directors to 35. Effective 90 days after adjournment of regular session.

Senate 145—Repealing provision of statute that no brands except as are recorded shall be recognized in law as any evidence of the ownership of cattle, horses or mules upon which the same may be used. Effective immediately.

C. OF C. MEETING

There will be a regular meeting of the Chamber of Commerce held at the Court House Tuesday night, February 19. All members are urgently requested to attend, as we feel that the success of the Chamber of Commerce depends entirely on the efforts of its members, and the old saying "No chain is stronger than its weakest link" is applicable to the membership of any organization, so let us all determine to make our organization a larger and better one for Kimble County.

COUNTY NEWS

During the past few months the number of county correspondents for the Eagle have steadily grown, and they have become regular in sending in the news. The county news has now become an integral part of the paper, and if it were discontinued, the paper would not be as good as it is at present. It takes local news, sparking and interesting, to make a good community newspaper, and for the past few months the Eagle has been able to print that sort of news, because of the co-operation of our county correspondents.

However, there are some sections of the county that have not been getting their share of news in the paper, and the Eagle would appreciate a correspondent from these communities.

Girls Win and Boys Lose In Basketball

The Junction basketball team, both boys and girls, played the Kerrville High School teams last Wednesday afternoon on the local courts. The scores as reported to the Eagle were: Boys—Junction 18, Kerrville 22; Girls—Junction 44, Kerrville 16.

These games were scheduled to be played here last Friday but the freezing weather prevented the games being played. On Friday night the boys and girls of Junction will go to Kerrville where return games will be played.

Last Wednesday evening the boys' team played Menard here on the Blackburn court and were defeated by the score of 12 to 4. Dunbar and Newman played at the forward posts, Little center, and Lavelle and Hendricks played the guard positions. Owing to the extreme cold weather the attendance was light at this game. This is the second defeat which the Junction team has suffered from Menard this season.

Coach Carl Bowers stated that the county championship would be settled here next Saturday, and any teams throughout the county who intend to try for the championship should get in touch with Mr. Bowers as soon as possible. The district meet is to be held in Kerrville on February 23 and the winner of the championship from this county will play in the district meet there.

McDonald Chevrolet Co. In New Building

The repair department of the McDonald Chevrolet Company began work in their new building this week, which has just recently been completed. The new building is constructed of concrete and is 38x70 feet. The battery department has been placed in this new building, and much new equipment has been purchased.

The McDonald Chevrolet Company was organized two years ago and at that time there was only a filling station at the present stand. The business has expanded now and the shop is one of the most complete in this section.

Under the direction of Clarence McDonald and L. F. Cosert, foreman, organization meetings are held twice a month, where the mechanics are given instructions.

The entire sales force of the company went to Kerrville Wednesday evening where they attended a sales meeting which was conducted there.

Messrs. L. D. and J. R. Webster of Austin were here this week in the interest of the Texas Highway Bulletin.

CITY COUNCIL ORDERS ELECTION FOR SEWERS AND PAVING BONDS

At a regular meeting of the City Council Tuesday night several important matters were passed. Among them being the payment of all bills, an ordinance regulating new connections for the water works system, granting a franchise to the Junction Telephone Co., and ordering an election to determine whether bonds shall be issued for a sewer system and paving for Junction.

The Mayor and members of the council have been interested in a cleaner Junction, and after discussing the matter with many citizens of the city it was decided that the only way that a real clean-up could be started would be the installation of a modern sewer system for the city. The proper petition was presented to the Council at its meeting Tuesday evening and the election was ordered. With this system installed the way would be paved for a real clean-up of the city.

The new sewer works system will soon be completed. The lines are laid and the tank erected. One thousand feet of new hose have been received. Tuesday morning the truck made a run to the square and tried out the new hose. The water pressure was not as good as expected and unless it is materially increased when the new pumps are installed at the well it will probably be necessary to buy a pump. Two good streams of water were thrown from the two long lines of hose, but the pressure was not sufficient to throw the water as high as might be necessary in case a fire should break out in some of the tallest buildings. After the new pumps are installed at the well it can then be determined if a pump will be necessary to give the desired pressure.

HILL COUNTRY ROADS LAUDED BY CHICAGOAN

Making a motor tour of Texas for the purpose of gathering first-hand road information to encourage northern tourists, Putney Haight, automobile editor of the Chicago Tribune, accompanied by Mrs. Haight, arrived Monday in driving through the Hill Country near Junction. In commenting on Texas highways, Mr. Haight declared about all the information Chicago receives about southwestern roads has turned out to be misinformation.

BIG HEREFORD SALE

There will be a large sale of Hereford bulls on the Premier Ranch, Mason County, Texas, on March 7, 1929. It is said that from thirty to fifty head will be offered for sale from the Premier Ranch Sale Pavilion, which is located 17 miles south-east of Mason.

Anyone desiring to obtain a sale catalogue will be sent one if application is made to Elgin O. Rothmann, Mason, Texas. For further information concerning this large sale read the large advertisement in this issue.

Messrs. Homer D. Wade, manager of the West Texas Chamber of Commerce, and Chas. Miller of the publicity department, passed through Junction today enroute from Austin to El Paso. Mr. Wade had been in Austin on several occasions since the Legislature convened and he said that Coke R. Stevenson is one of the strongest men in the Legislature. Mr. Wade is especially pleased with the stand that Mr. Stevenson takes on all questions affecting West Texas. He says that when Stevenson speaks the members listen for he always has a message worth while when he rises to speak.

Mrs. Joe Turner was a Kerrville visitor Tuesday.

WESTERN ELECTRIC CO. GIVES C. C. RANDOLPH DESERVED PROMOTION

Mr. C. C. Randolph, son of Judge and Mrs. J. B. Randolph of this city, who has been in the employ of the Western Electric Co. at Chicago, Illinois, since 1920, has been promoted in his work. An article concerning his promotion which appeared in the official publication of that company read: "C. C. Randolph has been appointed chief of the newly formed Apparatus Assembly and Inspection Planning Division."

"Mr. Randolph came to our company direct from college, on October 1, 1920. His first job carried the title of Methods Engineer in the Inspection Methods Department. Two years later he was promoted to second chief in the same organization, handling telephone repeaters, carrier current equipment, etc. In July, 1923, he was made a department head in the Inspection Planning organization, which later became a part of the Engineer of Manufacture branches. Some of Mr. Randolph's most interesting work was done in planning and assembly and inspection of sound picture apparatus."

Mr. C. C. Randolph grew up in Junction and was graduated from the Junction High School. Later he attended the Agricultural and Mechanical College of Texas and finally he attended the Electrical School of Engineering at Milwaukee, Wisconsin, where he was graduated. Mr. Randolph is 36 years of age.

SIDEWALKS BUILT

The first concrete was poured Tuesday by the boys of the Vocational Agriculture Class in the forms which have been prepared on the west side of the High School building, which will provide a good walk for the children of the lower grades as well as the music students and other students who use the Vocational Agriculture building. The money for this work was provided by the Parent-Teachers' Association, and the work is being done by the V. A. boys under the direction of their instructor, Mr. A. J. Bierschwald. This new walk will prove invaluable to the children in the grades, because it will provide a dry walk for them to march in and out on in the wet rainy days. This work is the result of the activity and foresight of the P. T. A.

CLEAN-UP, CLEAN-UP

Mayor E. Hokekamp urges that everyone gather up all cans and rubbish of all kinds that cannot be burned and place in receptacles convenient to the street so that it can be hauled off Saturday. The City Council is making an effort to make Junction the cleanest city in all West Texas, and asks the hearty co-operation of the citizens. The truck will pass your place Saturday and haul off all rubbish that is placed convenient to the street. Make Saturday the biggest clean-up day that Junction has ever experienced.

STYLE SHOW

A style show will be given by the Model Shop under the direction of Mrs. Vera James Stephen at the Texan Theatre, Monday night, February 25, at 7:30 o'clock. This will be given in connection with the show. A program is given elsewhere in this issue.

Mrs. Stephen asks that you mark this date on your calendar, Monday night, February 25.

Mrs. R. C. Smith and son, Roy Allen, of Bowie arrived in Junction last Saturday to make this their home. Mr. Smith is employed at the City Market and has been here for some time.

WEATHER REPORT

An unusual spell of weather has prevailed here since last Thursday night when the thermometer dropped to freezing and the temperature went as low as 11 degrees F. Sunday and Monday. For four days beginning last Thursday the thermometer remained below 32 degrees. There was very little moisture during the cloudy days from Thursday until Saturday. Everyone who did not use precaution and many who did have bursted water pipes. All plumbers in town have been busy all week repairing water pipes. Several reports the plungers pulled off their pumps. It is the coldest spell of weather since January 2, 1928, when the thermometer went as low as 6 degrees F.

Pecan Meeting Here Saturday, February 23

The quarterly meeting of the directors of the West Texas Pecan Association will be held in Junction on February 23, according to Dr. J. Fred Burt, who is one of the directors. The complete program of the meeting will be published in next week's issue.

The people over the country who are interested in pecans and the development of pecans in this section are cordially invited to attend this meeting, stated Dr. Burt.

The pecan movement in this section received impetus last fall when the exhibit of the Vocational Agriculture Class of the Junction High School won first place in the exhibition which was held in Brownwood. It is claimed that Kimble County has more native pecan trees than any other county in the United States. The climate, soil and streams all combine to make this county the most suited spot for the growth of pecans in the world. In the future, the pecans will furnish one of this county's most substantial sources of income.

McCarroll Lumber Co. Now Three Years Old

The McCarroll Lumber Company, established in San Angelo in 1926, passed its third birthday last Friday.

Officers of the company since its beginning have been S. A. McCarroll, president; C. A. McCarroll, vice-president; and L. L. McCarroll, secretary and treasurer.

L. L. McCarroll was well known in San Angelo prior to opening the business, having been engaged in operating a grocery store in that city for six or seven years. He has lived in Tom Green county since 1906.

S. A. McCarroll came to San Angelo from Wellington to join his brothers in establishment of the lumber company. At that place he was employed by the Cicero-Smith Lumber Company, which owns and operates a string of yards throughout that section of the state.

Two more yards, one at Menard and the other here, were purchased by the McCarroll company last year. C. W. McCarroll assumed charge of the business here, and E. B. Burk was placed in charge of that at Menard.

BANK CLOSURES TUESDAY

The Junction State Bank was closed all day Tuesday in commemoration of Lincoln's birthday.

Mr. E. M. Burt and his mother spent Sunday and Monday in San Antonio. They returned Monday night.

MEMBERSHIP DRIVE IS NOW IN PROGRESS BY CHAMBER OF COMMERCE

A good thermometer of any city is the chamber of commerce. When the chamber of commerce becomes inactive the city assumes a dormant state. Realizing this fact the Kimble County Chamber of Commerce is making a successful effort to increase the membership of the local organization. Mr. J. B. Stevenson, who has been secretary several months, notified the directors several weeks ago that he would tender his resignation soon. He continued to serve until three weeks ago when he filed his resignation with the president.

At a meeting of the directors last week Mr. H. W. Bierschwald was elected secretary and assumed the duties of the office immediately. President Conrad T. Hokekamp, Mr. Chris Schraub and Mr. Bierschwald have been busy with the membership drive. Many members have voluntarily increased their monthly dues and a large number of new members have been added during the week. Mr. Bierschwald hopes to enlist everyone in Kimble County in the work of the association.

As stated at the beginning of this article the chamber of commerce is a good thermometer of the activity of the city and county. It is now time for everyone to be letting the world know of our unrivaled scenery and climate for summer vacations. At the proper time next fall the advantages offered here as a place for winter vacations will be advertised. The purpose of the membership drive is to secure funds to accomplish this purpose. The secretary and directors thank those who have responded so liberally to the membership call. The work will be continued until everyone has had an opportunity to enroll in the organization.

The president has appointed an advertising committee to formulate plans for this season. There is no better place in Texas to spend a vacation than in Kimble County and we want to let the world know it.

A meeting of the entire organization is called for next Tuesday night, February 19. If you are interested in the growth and development of Kimble County make your plans to attend the meeting next Tuesday night. A good program is being planned.

CONCRETE FLOOR LAID

Work of laying a concrete floor in the Gann Grocery Co. has been completed this week. The shelves are being returned to the proper places and a general straightening up is going forward. The interior of the store has been greatly improved by this modern concrete floor.

DOBBS HAS GONE

Automobile registrations in Kimble County totaled 1053 at the end of January, according to reports from the office of the tax collector of this county. During December, 1928, 396 automobiles were registered. In January, 1929, there were 657 registered which swelled the total to 1053.

According to the last official census taken in Kimble County there are 3,581 people living in the county. Comparing this with the number of autos registered, these figures show that there is one automobile for every three and one-third persons in the county.

Automobiles from North Carolina, Kansas and Louisiana were registered in this county.

School Notes

An interesting basket ball game was played between Junction and Menard on the Blackburn court Wednesday, February 6. The Junction boys put up a good fight but the Menard boys carried off the victory. The score was 12-4. Although the boys lost this game the practice that they are getting now is putting them in fine trim for Tivy High School's fast team. After the game with Menard one of the boys in the grades came to Coach Bowers and said that he would quit if he couldn't play better than the coach's boys did. The coach asked him if he quit trying to walk the first time he fell. So that is the way we feel about our defeat. We are not going to quit trying even if we did fall to win.

The games with the Tivy boys' and girls' basketball teams scheduled for last Friday were postponed because of the cold weather. However, these games will be played Wednesday, Feb. 13, on the local courts. It will be well worth the small admission to see these two games. The Junction boys and girls will then go to Kerrville Friday.

We are delighted to learn that Louise Turner, who has been absent from school since the Christmas holidays on account of illness is improving. She is now in the hospital at Kerrville.

Under the supervision of Mr. Bierchwald the Vocational Agriculture class is building a walk from the west side of the school house to the Art Building. By the time this goes to press the boys will probably be pouring the concrete.

Dr. J. Holt Smith, the dentist, has been examining the teeth and gums of the pupils. He began with the first grade Monday and will continue until he has examined every pupil in school.

Oscar Duderstadt and H. L. Richardson are back in school again. It was reported that Oscar is a married man. We suppose that after he was married that school wasn't the worst thing in the world.

Jack King was sick last week. Some said that he had a light attack of love sickness and others are whispering that it was something worse, so we are unable to chronicle the cause of his illness.

The eleventh grade is struggling with some of Chaucer's works, which are the horror of all eleventh grade pupils. Chaucer's works are written in English but if you could hear Fred Beasley repeat the first eighteen lines of Chaucer's "Prologue to the Canterbury Tales" you would think that they were written in some foreign language.

Crocodile meat is reckoned good by the African.

A tree will make a million matches—and a match will destroy a million trees. Be sure your match is out before throwing it away in the woods.

BIDS WANTED

Sealed bids will be opened for the sale of the old Baptist Church building, located in Junction, Texas, on Saturday, March 2, 1929. File all bids with Mrs. Roy Skaggs at the Junction Grocery or any member of the committee, who reserves the right to reject any or all bids.

Mrs. Roy Skaggs,
Dan St. Clair,
Bennett Kendrick,
Committee.

FAME OF SARGON HAS NOW SPREAD OVER THE ENTIRE NATION

Never before, perhaps, in all history has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Sargon, the new scientific formula which has been accomplishing such remarkable results throughout this section. Its fame is rapidly spreading over the entire country and wherever introduced, Sargon is the most talked of medicine in the country today. Nothing like it has ever been seen before.

Sargon was first placed on the market just a little over six months ago. Its success was immediate and people everywhere were quick to recognize in it a new and epoch-making product—a medicine of great power and extraordinary merit. In leading cities where it has been placed on sale it has required from 70,000 to 100,000 bottles to supply the unprecedented demand, establishing a record probably never before equaled in the history of the drug trade.

Countless thousands of men and women, in all walks of life, suffering with stomach, liver and bowel troubles, some of them of long standing; as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse have voluntarily come forward and testified that they have been fully restored to their normal health, strength and weight by its use.

Still others, who seemed fairly well, yet suffered with constipation in its worst form, indigestion, dyspepsia, headaches, shortness of breath, had complexion, bad breath, loss of appetite, sleeplessness at night and of terribly dejected, depressed feelings, stated that they have been entirely relieved of these distressing symptoms and restored to health by its use.

Sargon is the result of the last ten years of world-wide scientific research; it embodies new knowledge of certain organs and fluids of the body recently come to light; it is helping build up run-down men and women by modern methods undreamed of a generation ago.

Sargon may be obtained in Junction from J. A. Heyman. (Advertisement)

What is declared to be the "world's largest" steam pipe has recently been completed in the Westinghouse Electric & Manufacturing Company plant at South Philadelphia. It is 7 feet in diameter and is composed of section of rolled steel which are joined together by arc welding. It will carry 1,600,000 pounds of steam per hour at 40 pound absolute pressure.

to keep the chicks indoors on wood floors that can be cleaned and disinfected regularly. There is nothing worse than allowing chicks to run on yards with older chicks or grown stock.

HOOVER INAUGURATION TO BE BROADCAST

Washington, D. C.—The inauguration ceremonies March 4 will be broadcast by the most extensive radio hookup ever undertaken.

The inaugural committee is arranging to have the 58 stations of the National Broadcasting Company and the 42 stations of the Columbia network broadcast the program and in addition Hoover's inaugural address may be carried on short wave lengths to many foreign nations.

LONDON LOCALS

Work on the McKinney concrete building has been at a standstill during the freezing weather but will go forward as soon as the weather moderates.

The town is full of strangers. The show with about 60 people exclusive of the elephant and other animals keeps us wondering what will happen next.

Quite an accident happened two miles south of town the 6th when the car driven by Miss Eunice Brewer skidded and turned over two or three times. The occupants were Miss Eunice Brewer, Eunice and Goldie Brewer, Virginia Jones, Faye McKinney and Juanita Puckett. The girls had started to Junction when the accident occurred. It seems a miracle that none of the girls were real seriously hurt, however, all were cut and bruised considerably except Miss Puckett who was thrown thru the glass door at the first turnover. She received no injury at all. Virginia Jones says she doesn't know how many times the car turned over, but she remembers definitely that it turned twice on the ground and once in the air. That was a narrow escape. Girls be careful. You can't tell me and make it stick that London isn't attractive when two shows are on our streets the same day, one coming in and the other going out.

Mr. and Mrs. W. L. Amaon and Pat went to Johnson City Saturday to visit relatives and transact business, returning Sunday evening. On their way home Master Pat had a collision with another car but no bad damage resulted. I haven't found out yet what brand Pat had been drinking.

O. D. Price was on the streets early Monday morning on his way to court and was disappointed when he heard court had adjourned.

Mr. John Rush and the writer visited the N. J. Johnson store Sunday evening. We found the proprietor as full of laugh as usual and his store building as full of goods as he is full of laughter. One thing sure, Naith will have to enlarge his building, reduce his stock or move himself out in front. While we were there a truck drove up with more goods. I nudged my partner and told him Let's get out and give room for the new stock. If you don't believe the above is reasonably near the truth just stop at Johnson's, fill your whoops, buy you some chewing wax and see for yourself.

The farmers all along the highway are well advanced in preparing their lands for another crop.

Judge Daymon Slaytor was in town Monday.

E. H. Kothmann was in from the ranch Monday.

L. M. Walters was also buying supplies and getting his mail Monday.

Mr. Russell Lavelle of Schreiner High School spent the weekend at home.

Mrs. E. W. Brewer accidentally fell Monday and bruised and sprained her arm badly.

J. J. Ake has bought the Weaver stock of goods and is now one of London's merchants.

Mrs. Robert Fritz marketed her eggs in Junction first of the week. Their eggs and cream more than make their living and it doesn't hinder Robert but very little from his farm and stock work. Don't everybody turn their attention to the hen and cow, but there is plenty of room for others, besides there is pleasure—lots of it, and money—oodles of it yet awaiting the man who will put 25 acres of land to fruits and pecans and give his attention to it. Where, did you ask? Right here around London in the sand belt of Kimble County. You need not go further. There is awaiting the right man a life of pleasure, plenty of money, plenty of good, honest, wholesome work and a remembered name who will demonstrate the above facts.

A case is known where a man held his eyes open for one hour and 57 minutes without blinking. See how long you can do it.

It is said that playing cards were invented in China in 1126.

POULTRY COLUMN

(By F. W. Kasmier)

When Chicks Come

Give them a good start in life. Just what does that mean? Does that mean chilling them occasionally by letting the brooder stove go out, especially some cold night, starving them at other times, by allowing feed boxes to go empty and the drinking vessels to remain upside down? There is only one way of raising baby chicks successfully and that is by giving them a good start.

What Chilling Does

Chilling chicks after they have been fed, is much more harmful, than before being fed. The reason is, if chilled after they are fed, especially any time the first two weeks, upsets the digestive system, causes the food to sour, bowel trouble and then the characteristic, "pasting up." When this happens many people want to throw up their hands and "holer" White Diarrhoea, and of course, the man producing the chicks is to blame. The trouble is not "White Diarrhoea," it is common bowel trouble caused by chilling some time after being fed. Over heating will cause practically the same trouble and symptoms. The first ten days or two weeks in the life of a chick, make it a profitable or unprofitable chick. Good care especially during that period will mean much in the future growth of the chicks.

Brooder Houses

Too many people still try to raise the chicks in make-shift coops or in a part of the old hen house. The worst place in the world, to raise baby chicks is in your poultry house and yards, where your hens are running. It is nothing short of suicide for the chicks. Such a house and yards are always disease infected and vermin infested and to try to raise the baby chicks under such conditions is hopeless. In Texas and other Southwestern States on account of our wonderful climate too many do not realize the importance of good brooders and brooder houses.

The most profitable way of raising baby chicks and to reduce cost as much as possible is in flocks of 250 or more. We have found you can raise 350 chicks in one brood very successfully. This idea of wasting time on small bunches of 25 or 50 is poor business and not profitable. For the farm we recommend the movable or portable colony brooder house with a good tight floor. A house 12x12 is an ideal brooder house for 350 chicks and will take care of them up to 10 or 12 weeks when the cockerels should be

culled out and sold on the broiler market unless you want to save a few of the choicest ones for breeding purposes. These should be kept away from the pullets. We hope to see the time when on every farm or back yard, where chicks are raised, a well constructed brooder house is regular equipment. We will send you free blue prints showing construction of such colony brooder houses, if you are interested in building one, and cannot get them from your local lumber dealer.

HOW FAR IN A DAY

A national automobile association finds that the average day's run for motor tourists is now 234 miles a day as compared with 100 miles a day ten years ago. In searching for the reasons, better highways stand first, with improvements of motor cars adding the second contributing reason for the longer distances.

PIANOS FOR SALE

I have in the vicinity of Junction two upright pianos and one Baby Grand. All brand-new, high-grade and standard, never been unboxed, manufacturers nationally known. Rather than reship will make a special low price. In writing for information state whether you want the cash or term price.

AL SMITH'S PENSION \$508 EVERY MONTH

New York.—The office of former Gov. Alfred E. Smith received from the state controller a certificate of membership in the employees retirement service, which entitles him to an annuity for life of \$508.38 a month.

The state controller found that Gov. Smith was entitled to credit for 25 years, 10 months and 16 days of public service up to his retirement as governor. During his terms of public service he made contributions to the retirement fund, as prescribed by the state laws of 1920 and 1924.

Forced from their native lairs by heavy snowfall, wolves have been ravaging the countryside of Czechoslovakia, especially administering hardships upon the rural population. A 19 year old boy was torn to threads by a pack of ferocious wolves; one woman was killed, and several were wounded by these animals.

Buy With Assurance

Now that the New Ford has been fully tried and proven you may buy your new car with the assurance that it will do all that is claimed for it and more too. You are not trying something new—you are buying a car that has stood up under more than one year's grueling tests and has fully proven its claim to popularity.

Yet it is the lowest priced of the light cars and one of the most distinctive in appearance. On the New Ford you will find many outstanding features, such as Houdaille shock absorbers, non-shatter glass wind-shield, same as are used on much higher priced cars.

We can now make deliveries within from 10 to 30 days.

Buy a Ford and Save the Difference.

VETERAN LEGISLATOR DISGUSTED WITH JOB

Austin.—John H. Veatch, with the second longest legislative service in the Texas House, went to the Governor's office to offer his resignation as a legislator, but failed to see the Governor and did not leave it. Shortly afterward Speaker Barron talked with Veatch an hour to dissuade him from resigning, and late Saturday he was undecided as to his course.

Veatch served in the 34th, 35th, 36th, 37th, 38th, 39th and now the 41st Legislature from Joshua, Johnson County, having skipped the 38th. He is second to John E. Davis, who started with the 32nd Legislature and has served continuously since then with the exception of the 38th Legislature.

Veatch says he is highly disgusted with the action of the House in establishing more jobs, bureaus, commissions and experiment stations. His chagrin came to a climax when the House, over his vigorous protest, finally passed a bill creating a new experiment station in the "Blackland Region."

The legislative manual lists Veatch as farmer, but that did not prevent him from opposing a new agricultural station.

"I am wholly out of tune with the policy here of creating a new State position every few days, and since my business needs me at home, I ought to resign and return to it," declared Veatch after he left the Governor's office. "It is time to call a halt," he continued, "and stop spending the people's money in such fashion. Since it is being done over my opposition, and I am out of sympathy with it, there is nothing I can do for my people, and I might as well return home under those conditions."

Some members who are endeavoring to have Veatch remain a member of the Legislature have intimated that the Governor may bring him solace by vetoing the new jobs and bureaus, especially since the Governor has asked for consolidation of several bureaus, departments and commissions.

COST OF LIVING

The cost of living throughout the United States showed an average increase of a fraction of one per cent during 1928, but the United States Bureau of Labor statistics supplies the very comforting information that during the last seven and one-half years that living costs have gone down nearly 21 per cent.

This indicates that something must be cheaper, or used less. You have observed an absence of silk shirts and expensive furs, but where else is the economy?

Acting on a motion submitted by Representative Beck of Tarrant County, the House voted to seat Representative W. R. Montgomery of Edinburg, whose right to serve in the 41st Legislature had been assailed by E. M. Smith of Hidalgo County.

REAR ADMIRAL DRAKE, NAVY VETERAN, DIES

Washington, D. C.—Rear Admiral Franklin J. Drake, 32 degree, eighty-four years old, U. S. N., retired, died at his home here recently. Admiral Drake entered the Navy in 1863 and retired on his own application in 1906. He was one of the few surviving men who enjoyed the distinction of serving on the Constitution, or Old Ironsides, as the famous frigate was called.

RADIO REGULATION

Government regulation of radio has become a muddled problem of late. While Congress has considered the questions involved in continuing the existence of the Radio Commission among the members of the Commission to quit their "thankless jobs." The straightening out of radio broadcasting and the solution of the problems that are constantly arising, have involved slow processes, and no end of experimentation. There has followed an endless amount of criticism. The consequence the Commissioners have suffered from the necessity of making many rules and orders which were obliged to admit did not prove to be satisfactory to the public.

Evidently radio broadcasting will never be solved until the different schemes are tested out. The present Commissioners seem to have become tired out by the criticism and abuse that has been directed against them.

The train in which President Portes Gil of Mexico was riding Monday morning was bombed by rebels, but the president escaped uninjured. One fireman was killed and several of the cars were thrown from the track. The attempt upon the president came within twenty-four hours after the execution of Jose De Leon Toral, assassin of President-elect Alvaro Obregon.

Discover your shortcomings before your boss does.—Selected.

EASTERN STAR FOUNDS ORDER FOR GIRLS

Jacksonville, Florida.—Mount Hattin, No. 1, of the Order of the Beatitudes, an organization for girls founded by the authority of the Grand Chapter of Florida, Order of the Eastern Star, was instituted recently in the Masonic temple of this city. This organization is planned to take for young girls the position that the Order of DeMolay has for boys. The ritual includes history, declarations, landmarks, general regulations, ceremonies, lectures and floor work.

BABY BEEF CLUB IS FORMED IN GILLESPIE

Fredericksburg.—At the suggestion and under the direction of Henry Grote, agricultural agent of Gillespie County, nine boys and one girl have formed a "Baby Beef Club." Each one of the members is feeding and otherwise caring for one or two calves that will be sold at auction in Fredericksburg on March 2. Money prizes will be offered by business men of Fredericksburg to the winner in the "show," which will be held before the auction. Members of the club are: Vera Helmers, Walter Helmers and Milton Grona of Morris Ranch; Victor A. and Milton Wendel of Harper; Harvey Stevens, Jr., of Klein Ranch; Victor and Martin Sagebiel of Eckert; William Bruns, Jr., and Daniel Sagebiel of Crabapple.

SHEEP AND GOAT MEN MEET AT UVALDE

The executive committee of the Sheep and Goat Raisers' Association is meeting today in Uvalde, Texas. The discussions are centered about the stock industry.

Governor Bilbo of Mississippi with his eighty colonels will attend the inauguration of Herbert Hoover in Washington. It was Governor Bilbo who received national publicity when he is said to have made the allegation that Hoover danced with a negress while in Mississippi.

Junction, year-round playground

BABY BEEF SHOW SET FOR FEB. 23

As adjoining counties intend to have their baby beef sales about March the first, it has been decided to have the Gillespie County exhibition on February the twenty-third. The calves are ready and the boys are ready to sell, provided they can obtain a satisfactory price.

The calves will be taken to Fredericksburg Saturday morning, February 23, and placed by a competent judge who will give his reasons for the placings. They will be sold by weight, each calf to be weighed separately. As the boys have kept a record of the feed consumed by the calves, they know exactly what they will have to bring in order to show a profit.—Harper Herald.

BORDER RULES SOUGHT FOR PLANE OCCUPANTS

Mexico City.—Among measures being studied by the Government Committee on Aeronautics is a project for special regulations obliging air travelers to comply with immigration and sanitary rules upon entering the country.

With a steady increase in air travel between the United States and Mexico, the problem afforded by those who fly over the border without regard to these rules has become acute.

RHEUMALAX RELIEVES RHEUMATISM

Mitchell McLendon left Wednesday for a visit in Waco.

Mr. D. S. Satterwhite of Brownwood is visiting in Junction.

Get feed for your stock, sheep, and goats at the Junction Grocery. 44c

Sayres Farmer and Miss Elizabeth Horner were Menard, visitors Monday.

Mr. T. B. Phillips is slowly recovering from a month's siege with the flu.

Mr. and Mrs. Luther McDonald were business visitors in Bangs the first of the week.

Earl McDonald and wife visited with Mrs. Joe Myers of London Sunday a week ago.

For Road Service call 51 and count the minutes. Powell Motor Co. 42c

In this issue of the Eagle is found a copy of the election notice for the issuance of bonds for a sewer system for Junction.

Mr. E. R. Borden returned the latter part of last week from Austin where he had been called on account of the death of his father.

Friends of Mrs. Frank C. Patterson are glad that she is able to be out in her car after being ill with flu since the first of January.

E. L. McKay, who suffered a broken arm while cranking a car last week, is getting along fine. His right arm was broken in two places.

For best quality feed at low prices go to the Junction Grocery where a full line of feed is kept in stock for cattle, sheep, goats and poultry. 44c

The new curb along the west side of the Gann Grocery Co. adds to the appearance of the street between the Loeffler Motor Company and the Gann Grocery.

Mr. Howard Blackburn, proprietor of the B-C Music Shop, returned last week from San Angelo where he took a course in the Westinghouse electrical school. An electrical wiring and plumbing department has been added to the Music Shop.

Mr. and Mrs. Sayres Farmer and little daughter returned Friday from Austin and San Antonio where they were guests of relatives. They were accompanied home by Mrs. Farmer's sister, Miss Elizabeth Horner.

The Rev. Milton F. Hill of Junction was a visitor at the Rocksprings Methodist Church last Friday where he met with that congregation in the service held there. Rev. Hill is an old schoolmate of the Rocksprings pastor, Rev. Williamson.

For sheet metal work, plumbing, windmill work, pump repairing and all line of work done by a sheetmetal and plumbing company see the Junction Sheet Metal Company which has just opened this week, first door east of the Powell Motor Company.

Call at our Student Department (separate from main shop) where you may get good work at half price—marcel 50c, manicure 40c, shampoo 40c and 50c, facials 75c to \$1.75, etc. Be sure to ask for Student Department. You do not need to telephone for this work.

Williams Beauty Parlor, San Angelo Texas. 43-2c

Mr. Albert Bartley returned to Junction Friday from San Antonio where he was attending the bedside of his infant son who has undergone an operation. Mrs. Bartley has been in San Antonio for the past four weeks with the baby. Mr. Bartley went back to San Antonio last Monday. While in Junction he said that the baby was getting on nicely after the operation, but the physicians stated that it would be some time before he could bring the baby home.

Many go out for wool and come home shorn themselves.

Messrs. Dick and Weldon Curtis left last Saturday for Yuma, Arizona.

Mrs. J. B. Randolph returned Wednesday from a visit in San Antonio.

Mr. and Mrs. Arthur Thompson spent the first of the week in San Antonio.

Mrs. W. L. Coleman and Mrs. Joe Turner spent Monday in Rocksprings.

Mr. Joe Sid Patterson of Rocksprings was a Junction visitor this week.

Mr. A. W. Loeffler has been ill with the flu for two weeks, but is able to be up now.

Get feed for your stock, sheep, and goats at the Junction Grocery. 44c

Mr. J. P. Boone has had a long siege of the flu, but is able to be on the streets again.

For Gas, Oil, Tire Service, Battery Service, Quick Repair Work, go to Powell Motor Company. 42c

Mr. and Mrs. Edgar McLendon returned Sunday afternoon from Austin where they attended the mid-winter meeting of the Texas Press Association.

Kathryn Hodges, daughter of Mr. and Mrs. Lester Hodges, is slowly improving from a siege of the flu that has confined her to her home for more than one month.

Mrs. Cleve Stephen returned the latter part of last week from Dallas where she bought a full line of ladies' ready-to-wear for the Model Shop.

Next to making a sale the most pleasant experience is collecting the money.

If all of the automobiles in the United States were placed end to end it would be Sunday afternoon.

Avoid argument with the verbose; power of speech is given to all; wisdom of mind to few.—Cato.

PUBLIC SCHOOL CREED

"I believe in the school system of the United States of America as an institution of the people, by the people, for the people; conceived by the founders of this Republic; nurtured for nearly three centuries by our fathers; sustained today by the consent and support of all our citizens. I believe in free universal education, equal opportunities for all our children, which guarantees our democracy within a Republic established upon the principles of freedom, equality, justice and humanity. I therefore believe it by duty to the school to love it, to support it morally and materially, to send my child to it, to help my neighbor's child to have the same opportunity, and to defend the schools against all enemies."

WHY SOME FAIL

Too much talk;
Not enough walk.
Too much sigh;
Not enough try.
Too much ask;
Not enough go.
Too much blow;
Not enough go.
Too much blink;
Not enough think.
Too much mope;
Not enough hope.
Too much shirk;
Not enough work.
The result is,
They miss the biz.

TEXAS' PUBLIC DOMAIN

Land has always been Texas' greatest resource. It was utilized to foster a great railroad construction program which opened the land up to settlers and aided in the distribution of resources.

Texas built up a great public school fund with the use of her lands. The University of Texas was permanently endowed by the utilization of these lands. In addition soldiers were rewarded, manufacturing encouraged, and the great State Capitol was built, all by the direct barter of our public lands.

No man can go completely to the dogs without a good deal of determination.

SEGOVIA SIFTINGS

Fires have been glowing warmly and wood piles disappearing since these cold days. We would enjoy seeing a big snow.

Mrs. Joe Taylor and son, Lloyd, spent the week-end with their relatives, Mr. and Mrs. W. Fairchild and family.

Miss Naomi Knowles spent Saturday night and Sunday with Miss Bussis at Telegraph.

Misses Opal and Maxine Jobs were Junction visitors Saturday.

Mr. Ben E. Neal and son, Robert, made a business trip to Junction Saturday.

Mrs. W. N. Hatch and son, Arlton, spent Saturday afternoon in the R. R. King home.

Mr. and Mrs. Sam Bowers of Junction spent the week-end with Mr. and Mrs. Crate Phillips.

Mr. and Mrs. L. B. Kirkpatrick and family were Sunday afternoon guests of Mr. and Mrs. Dave Maxie.

Mr. Don Jobs spent Sunday with his parents, Mr. and Mrs. Doug Jobs.

Mr. and Mrs. Bill Bishop and son, Phillips, and Nell Phillips spent the week-end in Junction.

Mr. and Mrs. Roque Jobs are the proud parents of a baby girl.

We welcome Mr. and Mrs. M. L. Jones and family back to Segovia after an absence of several months.

Miss Gussie Burris, Millard Bennett and Henry Coleman were guests of Miss Knowles Sunday night.

Mrs. H. D. Jobs and daughter, Miss Opal, made a business trip to Junction Monday.

Mr. and Mrs. J. E. Rouse and daughter, Maurine, and John, Bryan and Louise, Keithley attended the show at Junction Tuesday night.

ZONE MEETING OF M. E. MISSIONARY SOCIETY

The members of the local Missionary Society of the Methodist Church were hostesses Thursday to members of societies from Melvin, Menard, Brady, Rochelle and Paint Rock.

The meeting opened at ten o'clock in the morning. Miss Pearl Smith of Eldorado, secretary of the fifth district, presided during the meeting. After the devotional services Mrs. Ada Duckery, president of the Junction auxiliary gave the welcome address which Miss Pearl Smith responded to.

The morning session was given over to the training of officers. This school was conducted by Miss Smith.

The piano selections rendered by Mrs. C. W. McCarroll were particularly enjoyed by the assemblage.

At noon the ladies were invited into the Sunday School room where a long table was laid with snowy linen, pretty china and silver. Violets in Italian pattern baskets were placed in the center of the table. A delicious repast of baked chicken and dressing, mince pie, potato salad, slaw, Waldorf salad, hot rolls, a variety of delicious cakes, ambrosia and hot coffee were served here.

The afternoon session opened with an interesting report by Rev. M. K. Fred of Brady on the proceedings of the Missionary Council held in Nashville, Tenn., in January. This was followed by an interesting discussion by Rev. Marshall of Melvin.

A business meeting was then held when it was decided to hold the next zone meeting in Melvin, the date to be announced later. The benediction was pronounced by Rev. Milton F. Hill.

The out-of-town visitors were Mesdames G. C. Hubbard, G. A. Sheffield, Con Loveless, B. B. Day, E. J. Hensley, Oscar Sellers, J. E. Sockwell, F. W. Crumalt of Melvin, Rev. and Mrs. Joe W. Bickley, Mesdames R. Graham, W. T. Hancock, J. S. Ford, Frank Hartgraves, L. D. Hartley, Geo. Stengel, White, Sonenderker of Menard, Rev. M. K. Fred of Brady, and Rev. and Mrs. Whittaker of Paint Rock.

For Gas, Oil, Tire Service, Battery Service, Quick Repair Work, go to Powell Motor Company. 42c

Plant a pecan tree today.

M. E. BIBLE CLASS

Thursday evening the "Heart to the Hills Bible Class" met in regular monthly session in the Sunday School room of the Methodist church.

After a series of interesting games and contests a business meeting was held with Mr. Ovie Buster as presiding officer.

A variety of sandwiches with ambrosia and coffee were served at the close of the evening to Messrs. Joe Bissett, Frank Randolph, Ramsey Randolph, Albert Bierschwaile, Walter Timney, Bissett, Frank Patterson, W. M. McDonald, Ovie Buster, Dennis Wallace, I. W. Myers, A. A. Edmuntson and Rev. M. F. Hill.

THE METHODIST CHURCH

The Golden Hour—Sunday night, 7:30—has a message and an inspiration for you. Miss Bernice Sutton will sing; there will be a selection by the double quartette; a fine song service and a message you will want to hear. Don't miss this service.

Morning worship, 11 o'clock. The pastor will preach at 3:30 p. m. in London.

Sunday School, 10 a. m. Classes for all ages and a welcome.

Midweek service, 7:30 p. m. Wednesday.

Politicians who have beaten the path to the Mayflower Hotel, where Mr. Hoover has been maintaining headquarters since returning from his good-will tour, to advise on selections for his Cabinet, have made no "hit" with the President-elect. Word comes from the inner circle that Mr. Hoover secretly looks forward to next week, when he will depart for Florida to finish his preliminary plans for taking over the presidency March 4.

The Lone Star flag of Texas was adopted by the Third Congress of the Texas Republic in session at Houston January 25, 1839.

Office—West side Court House square

PERPETUAL STUDENT AT UNIVERSITY, 78, DIES

New York.—William Cullen Kemp, known as "the perpetual student" at Columbia University, died at the age of 78. He studied at the university for 60 years.

During his years of study he acquired 13 degrees. It was said in university circles that when he started as an undergraduate he had no liking for study and that a wealthy relative, in order to urge him on, left him \$2,500 a year, as long as he remained in college. His friends, however, said that he wanted to study and remained at Columbia to indulge in this desire.

Undergraduates for decades called him "Doc" and conferred upon him a degree not listed in the catalogue—D. P. M.—"Doctor of Perpetual Motion." Aside from his studies, he traveled considerably, but always made certain that he was registered as a student.

Notwithstanding his scholastic bent, he was greatly interested in student activities and always attended the annual "Cane Sprints" and junior promenade.

He was a member of the Sons of the American Revolution and several prominent New York clubs.

Plan to hatch your chicks early. Early hatching this spring means early maturity and early laying next fall when prices are highest. It also means marketing of broilers and roasters when prices are up. In the Northern States, March 1 is a good date to commence and May 15 a good date to complete hatching, says the U. S. Department of Agriculture. In the Southern States hatch two weeks earlier.

The telephone industry of the United States employs nearly 443,000 people in the manufacture of telephone material and in the management and operation of the telephone companies themselves. In the operation of telephone service, 394,000 people are employed of which 256,000 are women.

Did you know that the Texas State Capitol covers three acres and is nearly as large as the National Capitol at Washington?

OUTLAW STEER FOR TEN YEARS FINALLY CAUGHT

For 10 years "Brownie," a giant brown-colored Texas longhorn steer, has been almost a legend in McMullen County while he roamed the brush country an outlaw.

Efforts to round him up failed ever since the day he escaped the lead steer 10 years ago. Then seven years old, perhaps it was increasing age after another 10 years' time that made him less wary than usual.

At any rate, his career was brought to an end in San Antonio Wednesday when he was one of a shipment of beef cattle by G. T. Copeland of Three Rivers, sent to the Alamo Livestock Commission Company by J. B. Franklin of Tilden. He weighed 1,335 pounds and brought 7½ cents a pound on foot, or a total of \$100.12½.

His gigantic horns, spanning seven feet from tip to tip, will be sent to Franklin.

If all of the automobiles in the United States were placed end to end it would be Sunday afternoon.

The velocity of light is 186,000 miles per second.

ASKS RAISE ON WOOL

F. J. Hagenbarth, president of the American Wool Growers' Association addressed the House Ways and Means Committee yesterday and suggested a 9 per cent raise on fine wool duty.

He said that South American wool growers could land their wool in Boston at 50 cents per pound cheaper than could domestic growers. He stated that the United States produced one-tenth of the world's output of wool and consumed one-fifth of the world's output.

No idea is worth much unless a first-class man is back of it.

Let it be the high privilege of this great and free people to establish a republic where rural pride is equal to civic pride, where men of the most refined and culture select the rural villa, and where the wealth that comes from the soil finds its greatest return in developing and perfecting that great domain of nature which God has given to us as an everlasting estate.—Dr. Seaman A. Knapp.

Texas has in the neighborhood of 17 billion board feet of pine and seven billion five hundred million feet of hardwood standing.

Kazmeier Baby Chicks

Come from hens, trapnested 365 days in the year, and have been for many years. Our best grade certified chicks come from hens with records of 200 up to 250, sired by males out of hens with official records of 250 to 302.

Trap-Nested and Blood-Tested

All of our chicks come from hens, blood-tested for White Diarrhoea and all reactors removed under the supervision of the State Sanitary Live-Stock Commission.

Better Layers

Baby chicks from trapnested hens, as pullets will develop into much better layers than pullets from just ordinary baby chicks.

We breed S. C. White Leghorns, Barred Plymouth Rocks and S. C. R. I. Reds.

We guarantee 100% live delivery of strong, vigorous and healthy chicks at destination.

POULTRY COLUMN

Brooding Temperature for Baby Chicks

When the chicks are put in the brooder have the temperature 100 degrees, at the edge of the hover and two or three inches from the floor, or on a level with the backs of the chicks. If you have it too hot the chicks will have to go too far away from the edge of the hover. If you do not have it warm enough to cause the chicks to hover around edge of hover, they will get chilled in the morning, as a rule the coldest part of the night. Gradually reduce the temperature as the chicks grow older. It is better to have it a little too warm than too cold. When the chicks crowd together under the hover it is much too cold for them. When they want to get away from the hover and show a tendency to crowd into the corners of the house, it probably is too hot in the entire house, especially beneath the hover. After the chicks are several days old, it is better to watch them, than the thermometer. Proper brooding temperature, is just as important as good feed and care. We have already told you what happen to chilled chicks, after they have been fed, especially the first two weeks. Bowel trouble, non-absorption of yolk and many other chick ailments will surely follow. If they are kept too hot for any length of time the chicks are weakened and will grow up like hot house plants.

Ventilation

Chicks need an abundance of fresh and pure air, but drafts are very undesirable and floor drafts are exceptionally injurious. In cold weather a roll of tin about 18 inches high may be placed in circular fashion all the way around edge of hover, at least 18 inches from the edge of the hover, this will provide place for the feed and water troughs and also a cool place for the chicks in case it gets too hot beneath the hover. When the chicks are about ten days old, they should of course be given more room. A close and poor ventilated house is a death trap for baby chicks or growing stock. Fresh air is just as important as feed or warmth. Allowing chicks to crowd, for lack of heat, soon causes all kinds of chick losses and trouble.

Outside Yards

If you cannot provide clean and uncontaminated yards it is better not to let the chicks run out doors until they are 8 to 10 weeks old. If you have yards, where no chicks were the past year, then you can let them run out doors any time after the first week. If the yards are contaminated by droppings from the older chicks or grown hens, then it is better

Plant a pecan tree today.

TRIPLETS ARE ADDED TO VALLEY FAMILY

Brownsville.—The family of six children of Mr. and Mrs. Jose Gonzales of Point Isabel took a sudden jump to nine when triplets were born. The new group included two boys and a girl, each weighing four pounds.

The children and the mother, who is only 26, are doing well, their physician reports.

Hens are creatures of habit and will give best results if attended to regularly. Remember a hen that spends all her time in one pen has little to do but watch for the next feeding. She should be fed at regular times early in the morning and afternoon. If a moist mash is fed, it also should be given at the same time each day.

Having cut a new set of teeth since she was 100 years old, last May, Mrs. Alice Robertson of Cisco, native Texan, is planning to celebrate her 101st birthday by crossing the ocean for her fourth trip and visiting relatives in London. She wears glasses, can see to thread a needle, reads a great deal and hopes to live long enough to become the oldest living woman in Texas.

Abstracts for your lands can be secured on short notice from E. Holekamp; 25 years in business; we know how. (adv)

OZARK PYRAMID TO KEEP RECORD OF 20TH CENTURY

Monte Ne, Ark.—Long after our 20th century civilization is gone, and perhaps forgotten, a permanent and complete record of it may be found in a 30-foot pyramid being built here. Even as the ancient inhabitants of Egypt preserved records of their civilization in the massive pyramids of the Nile Valley, so will this towering pyramid in the foothills of the Ozarks preserve that of the 20th century.

Every item that goes to make up our modern civilization from now almost extinct hair pin to television and radio apparatus is to be included.

HIGHWAY ADVERTISING

The question of advertising signs along the public highways has been discussed in a statement by the United States Bureau of Public Roads which brings out the fact that statutes governing this class of advertising is regulated by forty-one States—all except South Carolina, Arkansas, Texas, New Mexico, Oklahoma, Kansas and Wyoming.

The United States Government has nothing to do with the advertising sign boards along public highways and it is up to the different States to continue to make their own regulations.

A BACHELOR'S LAMENT

Reunion night at a certain club had brought two old friends face to face with an interval of some years. In the meantime, one of the two had taken a wife. "Well, Harry," he remarked, "tell me why you have never married."

"It's like this," replied the single one. "When I was quite young I resolved that I'd never marry until I met the ideal woman. I was difficult to please but after four years I met her."

"Lucky beggar! And then—"

"Oh, she was looking for the ideal man," came the heart-broken reply.

WORLD'S FAIR

Plans are being made to hold a World's Fair in Chicago in 1933 to celebrate the 100th anniversary of that city. A House Joint Resolution, introduced by Representative Wallis C. Hawley, of Oregon, and sponsored in the Senate by Senator Deneen, of Illinois, providing that when the sum of \$5,000,000 has been collected and turned into the treasury of the Chicago World's Fair Centennial Celebration Corporation, the President shall invite the participation of other nations of the world, and that exhibitions from other countries may be imported free of duty, custom's fees, or charges, has passed the House and the Senate and now awaits the signature of the President. When this bill was before the Committee on Ways and Means of the House, Vice President Dawes stated his approval of the plans for the celebration and urged a favorable report from the committee.

The announcement that such a fair is to be held arouses no special enthusiasm upon first thought. The people of this country generally have become somewhat tired of what the average exhibition known as a fair consists. The term connotes to most persons a heterogeneous mass of individual exhibits constructed largely for advertising purposes.

But, it is said that the proposed fair in Chicago is to be based upon an entirely different idea. It is to have as its purpose an exhibitory review of the progress of the various sciences, arts and industries of the world in the last century. Instead of being upon a competitive basis as heretofore, the business of each industry are to join in contributing toward the exhibit of that particular industry only those things which have added to its progress. It will be similar to the plan adopted by the Baltimore & Ohio Railroad in exhibiting the progress of transportation, last year in Baltimore, which drew a larger attendance than the Sesquiennial Exposition at Philadelphia. Only, of course, the Chicago celebration will be upon a much larger scale as

here will be portrayed the progress of practically all of the arts, sciences and industries.

A number of scientific and educational organizations have shown interest in the project. The National Research Council, which is the organization of the scientific intelligence of the Nation, has endorsed the idea, pledged its support and appointed a commission of distinguished members to aid in the preparation and development of the plans.

Doubtlessly, the proposed World Fair at Chicago conducted in accordance with the proposed plans would be a success and of great educational value. In the rapid progress of the last century, few have had time to pause and contemplate the backwash. Each new development has caused the majority to discard and forget the old in admiration and wonder of the new. What an opportunity, what an education, to be enabled to study the whole, to connect each step, to catch a vision of what may be accomplished in the future.

NEW TEXAS ALMANAC

Just off the press is the 1929 Texas Almanac and State Industrial Guide. The Dallas News is the publisher of this guide of Texas information. It is the most useful book for Texas for the business firm, school, library and home.

Names of over 9,000 state officials, description of each county, review of Texas finances, events of 1928, many tables of statistics, new population figures, resources of Texas, industrial progress, and maps are some of the important features of this handbook of information. This book is worthwhile to casually read as well as worthwhile as a matter of record and a correct source of information.

Abraham Lincoln's 120 anniversary was observed at the Junction State Bank. Others in Junction, who were so inclined, worked during the day.

Mrs. Maggie Jones, capable manager of Junction Hotel since its construction, transferred to Brownwood this week where she becomes dean of women at the ladies' dormitory of Howard Payne College.

Mr. and Mrs. V. B. Hardeman have plans drafted for the erection of a distinctive home residence on their beautiful property up South Llano. The home will be constructed of native stone. Contract for construction of the summer home of Mrs. Autrey of Houston, twelve miles up the Llano, was scheduled to be let this week.

L. Rust has contracted the purchase of 2,000 unborn mixed lambs for September delivery, at price of \$7, according to recent report from Del Rio.

Recent figures submitted by the Government show that in 1928 the United States produced 18,000,000 pounds mohair, of which 14,000,000 pounds were produced in Texas. The yearly mohair production in the world was placed at 35,000,000 pounds.

It is stated that 44,000 lbs. shelled pecans were imported from Mexico through Eagle Pass during the month of December. That is a small item, figuratively speaking, but it stresses the importance of the tariff should the shelling of pecans across the Rio Grande become a considerable industry. Commenting on the fact that large quantities of Texas pecans are still in storage and that approximately 250,000 lbs. pecans in Junction territory were ungathered because of low prices, the San Antonio Express suggests that Texans show their patriotism by putting shelled pecans in the school children's lunches.

LIFE

A little burst of laughter,
A little snatch of song,
A little hour of struggle
To make the spirit strong,
A little touch of failure,
A bit of triumph blest,
A little honest labor,
A bit of quiet rest.

A little thrill of gladness,
A little pang of pain,
A little ray of sunshine,
A little fall of rain,
A little flash of glory,
A little strain of strife—
These well shaken together
Compound the thing called life.

Four hostile newspapers are more to be feared than a thousand bayonets.

NOTICE OF ELECTION

THE STATE OF TEXAS,
CITY OF JUNCTION,
COUNTY OF KIMBLE:

Whereas, the City Council of the City of Junction, Texas, deems it advisable to issue the bonds of the said City for the purpose hereinafter mentioned: Therefore, be it ordered by the City Council of the City of Junction, Texas, that an election be held on the 19th day of March, 1929, at which election the following propositions shall be submitted:

"Shall the City Council of the City of Junction, Texas, be authorized to issue the bonds of the City of Junction, Texas, in the sum of \$45,000.00 and \$15,000.00, respectively, (Forty-five Thousand Dollars for the purpose of construction of sewers, and Fifteen Thousand Dollars for the purpose of Street paving), payable serially within any given number of years not to exceed forty years from the date thereof, bearing interest at the rate of not to exceed Six Per Cent (6%) per annum, payable semi-annually, and to levy taxes sufficient to pay the bonds at maturity, said \$45,000.00 bonds being issued for the purpose of construction of Sewers, and \$15,000.00 bonds being issued for the purpose of Street paving, within and for said City, as authorized by the Constitution and General Laws of the State of Texas, particularly Chapters 1 and 7, Title 22, Revised Statutes, 1925."

The said election shall be held at the Court House in the City of Junction, Texas, and the following named persons are hereby appointed managers of said election, to-wit: Chris Schraub, Alton Miller, D. P. Taylor, W. B. Buster, and Clifford Hamer; and the said Chris Schraub shall be presiding judge, and the said Alton Miller and W. B. Buster shall be judges, and the said D. P. Taylor and Clifford Hamer shall be clerks at said election.

The said election shall be held under the provisions of the Constitution and Laws of the State of Texas, and only qualified voters who are property taxpayers of said City shall be allowed to vote.

All voters desiring to support the proposition for the issuance of Sewer bonds shall have written or printed upon their bal-

lot the words:

"FOR THE ISSUANCE OF SEWER BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF SEWER BONDS."

And all voters desiring to support the proposition for the issuance of Street paving bonds shall have written or printed upon their ballots the words:

"FOR THE ISSUANCE OF STREET PAVING BONDS."

And those opposed shall have written or printed upon their ballots the words:

"AGAINST THE ISSUANCE OF STREET PAVING BONDS."

The manner of holding said election shall be governed by the laws of the State governing General Elections.

A copy of this order, signed by the Mayor of the City of Junction, and attested by the City Secretary of said City, shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause said notice of election to be posted at the Court House (the place designated for holding said election) and at two other public places in the City of Junction, all of said notices to be posted for at least thirty (30) full days prior to the date of election.

The Mayor is further authorized and directed to have said notice of election published in the Junction Eagle, a newspaper of general circulation, published in said City, and which notice shall be published once each week for five weeks, the date of the first publication to be not less than thirty (30) full days prior to the date of election.

Passed and approved on this the 12th day of February, 1929.

E. HOLEKAMP,
Mayor, City of Junction, Texas.

Attest:
JOHN S. MUNN,
City Secretary.

Many poultry growers in northern parts of the country are finding straw lofts a good investment for the poultry house. Gable-roof houses are especially well adapted for this, a layer of straw being put in the gable about 7 feet above the floor. The straw keeps the house dry by absorbing moisture and keeps it warm in winter and cool in summer by insulation.

BLACKIE AND BROWNIE
CELEBRATE BIRTHDAY

The twin daughters of Mrs. R. J. Motley celebrated their 13th birthday with a slumber party at the Hodges Hotel last Saturday night. Their birthday came on February 11th, but as that day would interfere with their school duties, "Blackie" and "Brownie" invited their friends to call Saturday night for the celebration.

A lunch was served at midnight after which the boys who had been invited departed and the girls continued their merry-making until eight o'clock Sunday morning. A parade was staged at three o'clock.

The following girls were present and wished for "Blackie" and "Brownie" many more birthdays:

Katherine Johnson, Maude Boone, Ella Annie Henderson, Vivienne Livingston, Jewel Riley, Madeline Ragland, Margaret Ray, Lucille Taylor, Maxine Wright, Eunice Northeutt, Christine Schraub and the hostesses, "Blackie" and "Brownie."

Overlooking his objection to its time clause, President Coolidge Wednesday approved the naval construction bill under which 15 cruisers and one aircraft carrier will be laid down before July 1, 1931.

LOSS OF TEMPER

It is as undignified to lose one's temper, publicly, as it is to appear in a crowd without being properly clothed. For, in a moment of anger, the mind and soul and heart are revealed—without the dress of civilization and modesty and tenderness—to the casual eye.

Never lose your temper, if possible, before a child. For the child may look upon you as an ideal—and you may break something precious if you spoil that ideal.—Ex.
