Says Strauss...

Mideast Talks Shift Into 2nd

TEL AVIV, Israel (AP)—U.S. Mideast negotiator Robert Strauss arrived from Egypt today for consultations with Prime Minister Menachem Begin on the outlook for the Palestinian autonomy negotiations, with all sides agreeing they want to move ahead.

The American ambassador told reporters at Ben-Gurion Airport that he had had "most constructive and worthwhile" talks with Sadat and repeated a comment he made in Egypt in which he characterized the so-far slow pace of negotiations as "shifting into second gear."

"The chief of the Israeli autonomy negotiators, Interior Minister Yosef Burg, indicated Israel also wanted to speed up the pace. "We have no intention to wait for the last day of the eight months remaining in our negotiations," Burg said.

Strauss told reporters in Cairo Monday after two days of talks with Sadat and Egypt's chief negotiator, Prime Minister Mustafa Khalil, "I am terribly encouraged and hope to find the same feeling in Israel."

Strauss said Sadat was convinced of the "inevitability of success." But the American conceded "terrible difficulties" lie ahead and said he did not expect a breakthrough on "gut issues" before March.

However, he did seem to share Sadat's belief that the "personal chemistry" he and Begin have developed virtually rules out a breakdown in the negotiations.

"It seems reasonably certain now that we can do it," Strauss said of the possibilities of reaching agreement on the nature of self-rule for 1.2 million Arabs living in the West Bank of the Jordan River and the Gaza Strip.

Strauss said both Sadat and Khalil felt that by the time he returns to the Mideast in November "so much will have been either announced or already done that the picture that takes place will be one of success."

U.S. officials traveling with Strauss indicated that in the next few weeks the Egyptians and Israelis would begin debating their basic differences instead of arguing about agenda and procedure.

"We will move into second gear," Strauss said.

SHS BAND BOOSTER OFFICERS-Officers were elected last night at the high school band hall at a joint meeting of junior high and high school band parents. Sam Robertson, left, SHS band director, is pictured with new officers, Jo Shaw, secretary-treasurer; Kathryn Roberts, vice president; and Rev. David Robertson, president. Approximately 75 were present to plan activities for the year. Annual principal projects include the selling of Band Booster pins, the annual turkey dinner Nov. 16, and the selling of fruitcakes during holiday season were planned. Rev. Robertson said the club will meet every first Monday of the month. (SDN Staff Photo)

By Grand Jury...

16 Indictments Returned Here

Sixteen indictments on charges ranging from credit card abuse to forgery were returned last night by a Scurry County grand jury.

Indicted on three counts of credit card abuse was Dorothy Howard. The indictments allege she made three purchases of auto parts from Troy Williamson on Aug. 8 with an expired credit card.

Three more indictments were returned against Mary Lee Priestly for alleged forgery by passing. She is charged with issuing three forged checks, drawn for $22, $55 and $9, between June 23 and July 3.

A single count of forgery by passing was returned agianst Judy Shaver. She is alleged to have passed a forged check for $205 on July 12.

An indictment of aggravated assault on a peace officer was returned against Gregg Merritt. Merritt is alleged to have struck city police officer Robert Harbin on Aug. 17 while Harbin was on duty.

Dual charges of unauthorized use of a motor vehicle were returned against Gail Aurthur Baker Jr. and Alicia Hermosillo. They are reported to have taken without the owner's consent a 1967 International pickup truck last month from Guy Adams of Herm-

Tuesday update

Jury Hears Defense Tape

FORT WORTH (AP)-The judge in the murder-for-hire trial of millionaire Cullen Davis today allowed the jury to hear a defense tape of a conversation between the state's key witness and a member of the defense team.

The conversation on the tape between lawyer Steve Sumner and witness David McCrory also discusses the killings at the Davis mansion in August 1976.

The jury was allowed to read a transcript along with the tape playback.

State District Judge Gordon Gray told the defense he would allow lead attorney Richard "Racehorse" Haynes to cross-examine McCrory on those portions of the tape pertaining to the mansion shootings, but it was not clear at once if the defense would raise that issue before the jury.

Dope Smuggling Trial Begins

BEAUMONT (AP)-The trial of 14 persons charged in a $113 million international drug smuggling ring begins today with a huge defense team and massive amounts of evidence and testimony.

A Beaumont federal grand jury indicted 20 persons May 1 on charges they conspired to smuggle 86 tons of Colombian marijuana aboard four shrimp boats. Prosecutors say the boats made five trips from the South American coast to Texas from August 1976 to December 1978.

The SDN Column

We have always thought good ole' Alan Alda of the MASH television series was a good actor, and his stock took a big jump in our book Sunday night when he was called to the stage to accept an Emmy award.

Alda made no effort to hide his jubilation. In fact, he did a cartwheel right there in the aisle on the way to the stage. And when he got to the microphone, he let everyone know that he was happy to win an award.

He didn't even bad-mouth the industry that feeds him, or put in a plug for starving cockroaches. He had won an Emmy for outstanding television work ---for writing, incidentally, rather than acting---and it made him happy.

We don't know how you feel about it, but we have grown weary of hearing high-salaried individuals in the entertainment field look as if they were bored stiff when such accolades are handed out and downright tired of those who try to use the presentation as a forum for politics and to down-grade industry that feeds them.

★ ★ ★

We feel the same way about some high-priced professional athletes who sing sad songs and sulk in their tents as they try to degrade the industry that offers them an opportunity to make much more money as they come fresh off the college campuses each spring than any other new graduates.

So far as we are concerned, the entertainment field would be better off if these chronic complainers got together and formed their own commune on Jane Fonda's ranch.

★ ★ ★

If you want to grow Texas Bluebonnets next spring, you should sow the seeds now, reminds Carroll Abbott of Kerrville, the state's only full-time wildflower seed and plant collector. Abbott says bluebonnet seeds look like gravel and the hard outer covering must be softened before the seedlings can emerge. To overcome that problem, he suggests that seeds be soaked three to five days in warm water, changing the water daily. Bluebonnet seeds in the wild seldom germinate the first year because of the rock-like seed coat.

McNair Named To WTC Board

Wacil McNair, editor of the Snyder Daily News since 1954, Monday night was appointed to the board of trustees of Western Texas College.

McNair was appointed by the board to fill the vacancy left by George Patterson, former Snyder city manager who resigned to become city manager in Highland Park. The unexpired term runs through next April.

He was appointed to serve until the April 1980 election when the position, Place 2 on the board, will be on the ballot for the remaining four years of the current term.

WACIL McNAIR

Board President R.C. Patton presided at the brief meeting which saw the trustees approve several routine items.

The board okayed the resignations of Melisa Barker, biology instructor; Pam Cannon, director of audio visual technology; and Randy Weaver, golf and grounds maintenance superintendent.

Four new staff members were employed by the board. They are Frank W. Cannon, instructor in mid-management; Robert Grandjean, associate professor of biology; Glen Johnson, golf and grounds maintenance superintendent; and Charles A. Meek, accountant in the business office.

An auxiliary budget totaling $421,107 was approved by the board, although Business Manager Gay Hickman projected

(See WTC, Page 9)

School Board Session Set

Several changes in personnel and in regulations concerning use of facilities and food service are on the agenda for tonight's meeting of Snyder School trustees.

The meeting is set for 7:30 p.m. in the administration building.

Most of the personnel changes involve intra-district moves to balance teaching loads. The other changes up for consideration involves regulations for the use of gymnasiums, cafeterias, auditoriums, and regulations governing the food service program, including meal prices.

A policy revision cocerning immunizations and student health will be presented to put the local policy in accord with State Board of Health policy. Several reports which do not require board action will be presented.

Ask Us

Q--Why would the city council increase city property taxes since a few years ago they told people if they voted a one-cent sales tax they would not have to increase taxes?

A--Six years ago the city was faced with a possible tax increase, but approval of the one-cent sales tax took care of the problem, and citizens were so advised. No council has authority or the wisdom to say what the tax situation may be in future years, and the council at that time did not attempt to do so. Moreover, as the city itself advertised and a number of news stories have pointed out, the city is not raising taxes this year. Due to a quirk in the confusing "truth-in-taxation" law, it must say it is raising taxes because it will channel tax funds formerly set aside for debt service into operations.

County To Be Part Of Tax Appraisal District

Scurry County Commissioners voted Monday to put the county in the new unified tax appraisal district.

Already scheduled to become a part of the district are the City of Snyder and public school districts of Snyder, Hermleigh and Ira.

Legislation setting up the unified appraisal system did not include counties because under the state constitution commissioners courts are required to serve as boards of tax equalization. However, counties were given the option to come into the unified appraisal system by contract immediately and a constitutional amendment coming up for a vote in 1980 would make in mandatory for them to join.

The taxing entities of Scurry County already have set in motion plans to implement the single appraisal district in 1980. They have agreed to submit nominees for the five-member appraisal board to the county clerk, as provided by the legislation; and later this year will vote on board members.

The appraisal board in turn will name a three-member board of review, which will take the place of boards of equalization, and set up and staff an appraisal office. The Scurry County taxing entities also are looking into the possibility of combining the tax collection functions of all agencies into a single office.

All property in the county will be appraised by the staff and its figures will be used by the various entities in levying their taxes. All tax levies will be calculated on the basis of 100 percent of the appraised values.

Reservations For Banquet Picking Up

Ticket sales for the annual banquet of the Snyder Chamber of Commerce are beginning to pick up, and groups wishing to reserve seating together are being urged to get their reservations in as soon as possible.

The banquet is set for the night of Thursday, Sept. 20. The banquet speaker will be Eddie Chiles, president of the Western Company.

Tickets are priced at $10 each and they may be purchased at the chamber office. Business firms, clubs and other groups may reserve seating together for their employees and-or members by calling the chamber office at 573-3558.

2 Tie In Football Contest

A tie was the outcome of the first week of the Snyder Daily News' Football Contest.

Donna Gafford, Rt. 3, Box 159; and R.B. von Roeder, 2207 45th St., will split the sum of the first and second prizes, giving each $8.75.

Ms. Gafford and von Roeder each mispredicted the outcome of only three games played over the weekend. Both incorrectly called Arizona State vs. California, Texas A&M vs. Brigham Young, and Tulane vs. Stanford. All three games were considered minor upsets.

The two winners may pick up their prize money at the SDN office.

Football fans will have another chance to win money watching for the SDN's Football Contest page in today's paper and picking up their entry blanks at participating merchants.

City Budget Approved...

TESCO Rate Request Put Off 30 More Days

Action on a rate hike request filed by Texas Electric Service Co. was temporarily shelved last night at a meeting of the Snyder City Council.

Acting on the recommendation of City Attorney Ernie Armstrong, council members decided to postpone action on the first reading of a proposed rate increase made by TESCO and to extend for another 30 days the rate hike suspension.

Council members indicated they would re-examine the matter at the city council's next regular meeting Oct. 1 after first studying the response to the rate hike by the Texas Municipal League, other cities served by the electric company, and by the electric company itself.

The motion to delay action in the matter was made by Milton Ham, seconded by Bryce Booker.

Passed last night on second reading was the city budget for 1979-80. The new budget is $1,940,713, which is approximately $20,000 over the 1978-79 budget.

Passed with it was an accompanying measure setting the city's tax rate at $1.85 per $100 valuation based on a 40 percent assessment ratio.

Discussed next was a misunderstanding between the council and Gary Parks, who had submitted a bid to lease and operate an alfalfa field owned by the city.

The Parks bid was for a

(See TESCO, Page 9)

PREPARING FOR FAIR—Construction of booths for the Scurry County Fair was underway this morning at the Scurry County Coliseum. On hand doing some of the work and overseeing were, from left, Joe Sterling, fair association board member; Jimmy Layne; Max von Roeder, fair association president, and Blake Walker. The fair will open Thursday morning and continue for three days, closing out Saturday night. (SDN Staff Photo)

WTC Registers Through Friday

Late registration for the fall semester at Western Texas College will be continuing through Friday.

Students beginning will go first to the offices of the counselors in the Student Center.

SUNNY

WEATHER

SNYDER TEMPERATURES: High Monday, 89 degrees; low, 58 degrees; reading at 7 a.m. today, 60 degrees; precipitation, none; total precipitation for 1979 to date, 16.73.

the animal intellect

Long time pet owners are sure their dogs and cats can understand every word they say, and many are prone to try and establish a dialogue with their animals at every opportunity.

Dogs and cats, let it be added, acquire lots of savvy if they expect to hang around a household long. They act as if they're comprehending what is being said to them.

According to a paper prepared by International Wildlife Magazine, animals fascinate humans because they perform hundreds of acts that bipeds just don't understand.

Just recently, however, the science of animal behavior has been finding explanations for wildlife antics that have puzzled man since Aristotle first studied birds and bees in the fourth Century B.C.

The study of wildlife, according to the magazine, is also becoming more closely linked with the study of human behavior.

Why do wolves howl? Contrary to popular belief, it's not because they're lonely. Wolves are highly social creatures with one of the most complex communications systems in the animal kingdom. The howling is a pack's way of keeping in touch at night or when the visibility is poor.

Howling also serves as a mechanism for keeping different packs away from each other, according to the publication. Rather than fight other packs, they howl. A bird's 'song' is a succession of musical notes repeated in a recognizable pattern. Of the world's 8,600 or so species, nearly half are songbirds, and usually the male of the species does the singing.

Their songs, which young birds must learn from adults, are closely connected to nesting and mating. Birds use their melodies to define their nesting territories and woo their mates. Aside from all these practical reasons, some researchers now believe that birds, like people, sing just for the 'sheer joy of it.'

Monkeys communicate with each other by making faces, according to the magazine. Raccoons don't really wash their food - they employ what looks like a scrubbing motion to probe and sift a stream bed.

All 15 species of the world's cranes dance the same dance to reenforce the union of a male and female. Animals fight when mates or territory are at stake. Few fatalities ever result when two creatures of the same species battle it out. One can usually escape from the other without major injury.

The science of animal behavior is admittedly still an infant discipline. Animals, on the other hand, are a lot farther advanced in their study of man. Most don't like what they see because they stay in perpetual retreat.

futile forecasting

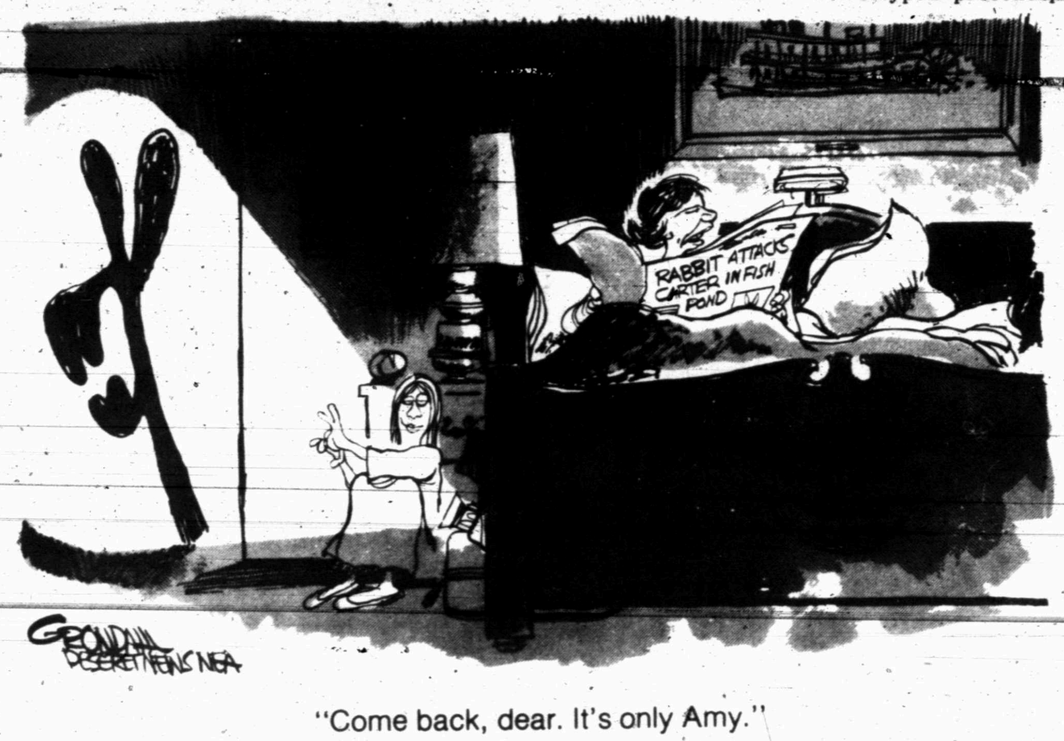
Some predictions of things to come: Space explorers from Earth will reach Mars by 1992. A woman will be elected president in the same year. American troops will be fighting a war in Africa by 1985.

If you believe those forecasts, here's another from the same group of prescient prognasticators: Gasoline won't reach the dollar-a-gallon level until 1982.

Omni, a magazine that attempts to popularize science and future-related subjects, last October asked its readers to predict when a variety of events might occur.

Claiming that approximately 20,000 responses were received, the publication last March released the findings with appropriate fanfare.

The predictions covered everything from nuclear war with the Soviet Union to the cloning of a human. But the abysmal lack of foresight on gasoline prices suggests that mere mortals ought to stick to predicting tomorrow's weather.



"Come back, dear. It's only Amy."

in washington

martha angle and robert walters

WASHINGTON (NEA)— For those who cherish stereotyped preconceptions about government and politics, the unusual circumstances under which Vincent P. Barabba recently arrived in Washington must surely be disconcerting.

Barabba, an expert in survey research, has spent much of his adult life conducting political polls exclusively for Republicans, many of them conservatives.

He first came to Washington more than six years ago, as a political appointee in the Republican administration of then-President Richard M. Nixon.

Yet Vice President Walter F. Mondale, a certified liberal Democrat, earlier this year personally beseeched C. Peter McColough, Barabba's boss at the time, to give Barabba a leave of absence so he could join the Carter administration.

McColough, board chairman of the Xerox Corp., consented, and Barabba now serves the Democrats as director of the Census Bureau - the same politically sensitive post he held with distinction during a Republican administration.

That unusual odyssey provides the framework for a story that is rare these days: Some good news from Washington.

The son of an Italian immigrant laborer, Barabba was born in Chicago 45 years ago. In 1969, he co-founded and became board chairman of Decision Making Information, Inc., a highly respected survey research firm based in Santa Ana, Calif.

The best indicator of the company's political proclivities is provided by the identity of its most famous current client, Ronald W. Reagan, one of the country's leading conservative spokesmen and a contender for the 1980 Republican presidential nomination.

In May 1973, Barabba was tapped by Nixon to head the Census Bureau. During his tenure, Barabba emerged as a boss who not only was professionally respected but also was politically sophisticated and personally well-liked.

In an administration not noted for its sensitivity to minority groups, Barabba became personally concerned about complaints that Hispanics and blacks had been badly undercounted in the 1970 population census.

To resolve that delicate problem, he established advisory committees composed not only of members of those groups but also of representatives of citizens of Asian and Pacific island heritage.

In September 1976, Barabba left the federal government to become manager of market research of Xerox. After Carter's inauguration, Manual D. Plotkin, an official of Sears, Roebuck & Co., was selected to head the Census Bureau.

Although Plotkin was a highly competent professional, he reportedly lacked the personal and professional qualities necessary to communicate effectively not only with Congress and other outside constituencies but also with subordinates within his own agency.

With the Census Bureau beset by moral and management problems and the 1980 population count rapidly approaching, the White House began a frantic search for a replacement.

Although Barabba quickly emerged as the best qualified candidate, his return posed two major problems.

First, a Democratic president would have to swallow his pride and admit that a Republican pollster was the best man for the job.

Second, Barabba had no self-serving reason to return to his old job. The honor of holding the post already was his, and a leave of absence from Xerox would require a major financial sacrifice and could harm his chances for future advancement within the corporation.

To their great credit, both sides surmounted those problems. Barabba returned in June and is committed to remain until January 1981, when most of the work on the 1980 census will be complete.

That's it - a happy story from Washington about a good man who agreed to tackle a tough job for only one reason: He was asked to serve his government.

ASTRO·GRAPH

Bernice Bede Osol

Your Birthday

Sept. 12, 1979

Alliances formed this coming year will be of help to you in material ways. Someone who once did something good for you will be in a position to do even more for you in the months ahead.

VIRGO (Aug. 23-Sept. 22) Unless you marshal your forces properly today you may not be able to accomplish all you hope to. Be wary of situations where the odds are not in your favor. How to get along with other signs is one of the sections you'll enjoy in your new new Astro-Graph. Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

LIBRA (Sept. 23-Oct. 23) Do not advise another to do something today unles you know from personal experience that it will work. If he or she fails, you'll be blamed.

SCORPIO (Oct. 24-Nov. 22) Joint ventures could become a sticky morass today if you get involved with incompetent asspciates. Do it yourself, rather than delegating.

SAGITTARIUS (Nov. 23-Dec. 21) Let no one pressure you into making important decisions today. In order to keep their good will, you may use faulty judgment.

CAPRICORN (Dec. 22-Jan. 19) Give co-workers the velvet glove treatment today if you hope to gain their co-operation. Being pushy when you should say "please" will prove disastrous.

AQUARIUS (Jan. 20-Feb. 19) Avoid situations with your peers today that have political overtones. Treat all your friends equally, instead of playing favorites.

PISCES (Feb. 20-March 20) Try not to bring up domestic issues that will arouse your mate's oppostion. It's not likely that these matters can be resolved today.

ARIES (March 21-April 19) Be careful how you phrase remarks to others today. Your words could be taken out of context and interpreted a way you didn't intend.

TAURUS (April 20-May 20) Your normal caution in managing your resources could desert you today and cause complications. Don't allow extravagant whims to gain control.

GEMINI (May 21-June 20) Attempting to juggle too many projects at one time is not a wise course of action today. Limit your agenda to top priority items.

CANCER (June 21-July 22) A failure to attend to your responsibilities today may be due to seeing them in your imagination as more difficult than they really are. Think "win".

LEO (July 23-Aug. 22) Pals who usually don't give you any grief may put your tolerance to the test today. If you're willing to excuse their behavior, they'll excuse yours.

at wits end

by erma bombeck

Mayva popped into my utility room the other morning and said, "So, you've switched to the new laundry detergent ALL NEW SCUM FIGHTER?"

"No, it's the one I've been using for 20 years. It's just had sparkle added to the second rinse."

"I thought they added sparkle last year."

"No, last year it was Improved with the bleach built in and before that they added an Advanced Formula so I could see the difference."

"Wasn't that the year my detergent was called Revolutionary Clean?"

"No, yours was Power Boosted to eliminate the odor. Remember? People were fainting a lot."

"I remember, but I liked it better when it was reborn."

"That was the year mine was Streamlined, but then the ecologists screamed and they came out with a low sudser called Perfected."

"Remember the year HMQ was added?" smiled Mayva.

"I certainly do. Indicentally, what was HMQ?"

"I don't know, but their advertising campaign had a fuzzy monster coming out of the washer and grabbing the clothes right off your back."

"You've used your detergent a long time too, haven't you?"

"Yep," said Mayva. "I've stuck with it through Renovated, Futurized, Upgraded and Reinforced to fight grease."

"Me too," I said. "I've hung in there through Newly-Developed, Renewed, Revised and Enriched."

"I was going to buy mine when it was All Modern, but before I could buy a box, it had changed to Advanced."

"You've got to move fast or you miss a step," I said, opening the dryer.

"Was yours ever All-Purpose?"

"Oh, sure, at one time my laundry detergent was so powerful it could clean without water and would take the liver spots off your hands."

"I wonder where they go from here," asked Mayva. "I mean, where do you go after Better! Better! All New! and Ultimate Perfection?"

"Funny you should say that. I just got a new box of my detergent in the cupboard. It reads, "The Original Scum Fighter!"

"We've been had," said Mayva.

"I know."

letter to editor

What price do you put on your life, the lives of your family and the people of Scurry County? Do you think $57.76 is too much? Are you satisfied with the emergency medical service we have in this county? Have you ever been in an accident or suffered a severe illness and needed fast, trained, emergency personal? These questions should strike home to a lot of us taxpayers.

Why does Scurry County have three emergency vehicles and one driver? He must depend on an offduty fireman, policeman or a friend to be rounded up after he receives a call. Who is left here when an out of town transfer must be made? An untrained pickup man! Does it unnerve you to think of being carried to a hospital in the back of an ambulance with only the driver to watch you in the rear view mirror? Can he watch for hemorrage, cardiac or pulmonary arrest, shock? Shock is called the "silent killer". It is brought on many times from an accident injury or emotional trama. Three minutes in shock can damage your kidneys beyond repair. Deep shock is fatal. How many children's lives saved and injuries lessened in the school bus wreck last year if a competent emergency medical technician had been available in Scurry County?

TSTI in Sweetwater is offering an extension course from University of Texas in emergency medical training. The newspaper gave it one story next to the obituaries on the last page. A very appropriate place, don't you think? Well undoubtedly we don't think! How much would the taxes be increased to train our firemen and policemen in how to save your life? If need be turn the ambulance service over to the fire department. They have men standing by 24 hours a day anyway.

The first announcement of this course was published the day of the meeting. Most people read it too late to attend. There was no mention of a section meeting planned. Only four working people came. No nurses, policemen, firemen, or oil company personnel came. Instead of a new ag complex, jail or street traffic lights we need to update our life saving services with trained personnel and equipment.

The instructors have come from Sweetwater twice to begin classes. Aren't there twelve people in the county interested in helping other people? If we pass this opportunity it will be at least 6 months before we can schedule it again. There are 7 towns in this area waiting for this class and Snyder isn't even interested.

Come to the Chamber of Commerce building Thursday at 6 p.m. to enroll. It is only 2 nights a week through September. Don't you value your life?

my turn

by john dunnam

In contrast to last year when at this time the fire department was working overtime trying to keep grass fires from leveling the dry countryside, summer rains have turned everything green and set it to growing like weeds -- especially the weeds.

If you feel like you are fighting a war with nature in your own front yard or garden and are losing don't feel alone. Bucky Lemons out at Fluvanna was so discouraged with chopping down the careless weeds around his farm last week that he was ready to throw down his hoe and look for another solution. I don't know what he finally decided but if you see some unusual looking Christmas trees on the market this season remember you heard it here first.

Another possible answer to the careless weed problem is a little fertilizer and a chainsaw. Who knows they might make good firewood. Or maybe we can convince the Environmental Protection Agency that the careless weed is an endangered variety of West Texas flora and have them put on the protected list. That wouldn't rid our yards and gardens of the pesky plants but it would give us an excuse for their presence.

Even experts miss the mark. I often wonder if the people who write Dear Abby take all that flippant advice she hands out seriously. Alice Goebel used to complain that her husband George made fun of her all the time. For example he told everyone that in their wedding picture people mistook her for Yogi Berra. Most of his jokes she didn't mind but this one bothered her and she wrote Abby not mentioning who her husband was. Abby said to ignore him. She said that with jokes as bad as that its lucky he's not in show business.

Inflation is robbing everyone nowadays except maybe the government who reaps the benefits of all the poor people entering tax brackets once reserved for the more affluent. Even crooks are having trouble coping with the double-digit demon. A shoplifter was recently apprehended in a jewely store as he tried to leave with a necklace.

He pleaded with the owner not to call the police saying he would gladly buy the merchandise. When presented with the bill he said. "That is a little more than I intended to spend. Could you show me something less expensive?"

BARBS

Hereditary baldness

By Lawrence Lamb, M.D.

DEAR DR. LAMB — My college-age son is very concerned about his hair which is getting thin on top of his head. His twin brother has a heavy head of hair. I've heard that this is inherited. I was told by someone that mixing a tablespoon of cod liver oil with a third of a cup of milk and taking this one hour before breakfast is supposed to be of help. What do you think about this suggestion or what help can you recommend?

DEAR READER — I don't think very much about that suggestion. In fact I'll try to forget it as soon as possible.

Anyone who has unexplained baldness at an early age should see a dermatologist. There are many causes for loss of hair. It can be associated with a poor diet as occurs in people who are on fad, crash diets. It can occur after an operation, after an acute illness and from certain diseases of the scalp itself.

The common cause of baldness, particularly in young men, is male pattern baldness. Each hair follicle has its own set of genes that are inherited. As a result, some follicles have an inherited characteristic to produce a particular form of testosterone or male hormone. These hair follicles don't really lose the hair but it becomes very fine and rudimentary, sort of like peach fuzz which doesn't do much to give you a full head of hair.

To give you more information about baldness and other problems, I'm sending you The Health Letter number 12-6, Hair Care. Other readers who want this issue can send 75 cents in check or coin with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

The Health Letter I'm sending you will give you quite a bit of information on what you can expect with different forms of baldness and other information about hair care.

I'm intrigued by your comment that his twin brother has a full head of hair. If they're identical twins, I wouldn't expect this to be the case if it involves hereditary baldness.

DEAR DR. LAMB — When I was a young girl I had to walk several miles in deep snow without anything on my legs and both my knees became frozen.

The doctors at that time painted my knees with iodine and wrapped them with wool. I'm now 63 years old and my knees hurt a great deal. Would it help me now if I would paint them again and wrap them in wool? If not, what could I do to help this pain?

DEAR READER — I'm glad doctors don't use that treatment anymore as it could result in iodine burns.

I don't know what's causing the pain in your knees but I doubt that it's related to the exposure to cold you had as a young girl. No one can tell you what causes your pain without a competent examination.

See your doctor and try to find out what's causing the pain. Once he knows he may be able to give you some medicine that will agree with you and help to control the pain or take other measures to correct whatever condition is causing it. It's more likely that the pain in your knees is associated with some arthritic changes.

AVISO PUBLICO

Breves Declaraciones Explicativas De Las

ENMIENDAS CONSTITUCIONALES

PROPUESTAS

ELECCION ESPECIAL

6 DE NOVIEMBRE DE 1979

PROPOSICION NO. 1 EN LA BOLETA

(H.J.R. 108)

La Resolución Conjunta #108 de la Cámara de Representantes propone una enmienda en la constitución de Tejas referente al nombramiento y a los plazos de los notarios públicos.

La enmienda propuesta:

—Requerirá que el Secretario de Estado nombre a un número conveniente de notarios públicos para el estado; y

—autorizará para que los plazos oficiales para notarios públicos sean por no menos de dos años y por no más de cuatro años.

La provisión temporal de la enmienda constitucional propuesta declara que la enmienda entrará en vigor el 1° de enero de 1980; que cada persona que haya sido nombrada como notario público antes del 1° de enero de 1980 continuará ejerciendo como notario público hasta vencerse el plazo por el que fue nombrado; y que esta provisión temporal se vencerá el 1° de enero de 1982.

La enmienda propuesta aparecerá en la boleta como sigue:

"La enmienda constitucional para el nombramiento de notarios públicos para el estado para un plazo de no menos de dos años ni de más de cuatro años, según lo provisto por la ley."

PROPOSICION NO. 2 EN LA BOLETA

(H.J.R. 133)

La Resolución Conjunta #133 de la Cámara de Representantes propone una enmienda en la constitución de Tejas para proveer una revisión del proceso reglamentario en las agencias del departamento ejecutivo. Esta enmienda propuesta permitirá a la Legislatura el decretar leyes:

—Para proveer una revisión legislativa del proceso reglamentario en las agencias del departamento ejecutivo;

—Para prescribir condiciones para que las leyes sean puestas en vigor;

—Para suspender, revocar o expirar las reglas;

—Para prescribir procedimientos; y

—Para delegar autoridad a cualquiera o a ambas cámaras, o a los comités de cualquiera o de ambas cámaras.

La enmienda propuesta aparecerá en la boleta como sigue:

"La enmienda constitucional para proveer una revisión legislativa del proceso reglamentario en las agencias del departamento ejecutivo."

PROPOSICION NO. 3 EN LA BOLETA

(S.J.R. 13)

La Resolución Conjunta Senatorial #13 propone una enmienda en la constitución de Tejas para autorizar a la Legislatura para que provea una garantía de préstamos, a las personas calificadas, para la compra de bienes raíces agrícolas y ganaderas. De esta manera, la enmienda propuesta podría permitir a la Legislatura el proveer, emitir y vender bonos de obligación general llamados "Farm and Ranch Loan Security Bonds" (Bonos de Seguridad Para Préstamos Agrícolas y Ganaderos) del Estado de Tejas, sin exceder la cantidad de $10 millones de dólares. Todo dinero recibido de la venta de estos bonos sería depositado en un fondo diferente en la Tesorería Estatal y sería administrado por el comisionado de agricultura, sin más apropiaciones. Estos fondos garantizarían préstamos para la compra de bienes raíces agrícolas y ganaderas. El comisionado de agricultura usaría estos fondos bajo las provisiones prescritas por la Legislatura, con el propósito de garantizar préstamos para la compra de bienes raíces agrícolas y ganaderas; para adquirir hipotecas de bienes raíces o escrituras de bienes raíces compradas con préstamos garantizados. Estos fondos serían usados también para adelantar un porcentaje del principal y del interés debido en esos préstamos, a la persona que califique para el préstamo. La Legislatura también podría autorizar al comisionado de agricultura para que venda cualquier terreno adquirido mediante esta enmienda. El comisionado de agricultura requeriría al menos un 6 por ciento de interés en dichos préstamos. La enmienda propuesta apropiaría la cantidad suficiente para pagar el principal y el interés de los bonos que vayan adquiriendo más valor, o que se venzan durante el año fiscal, menos la cantidad del fondo de interés y amortización al final del año anterior.

La enmienda propuesta aparecerá en la boleta como sigue:

"La enmienda constitucional para autorizar a la Legislatura para que por medio de la venta de bonos de obligación general del Estado de Tejas, provea una garantía para que las personas calificadas puedan obtener préstamos para la compra de bienes raíces agrícolas y ganaderas."

By Oswald Jacoby and Alan Sontag

Here is another Sommerville hand from the early Thirties. The North-South bidding would probably be duplicated by modern bidders. East's two-diamond bid relieves South of the need to respond to the double. North repeats the takeout double and when West bids three diamonds North overbids a trifle with four spades.

South worries some when he sees the dummy, but with clubs breaking 2-2 and spades 3-2 he can stand the loss of the trump finesse since the club finesse does succeed.

A modern East-West pair would have made things difficult and probably impossible for North and South. East would surely make a preemptive jump to three diamonds. If West passed, North would repeat his double at the three level, but suppose West carried on the barricade by going to four diamonds.

Would North double again? If he did double again would South decide to pass and hope that North could take four tricks against the diamond contract?

Incidentally, four diamonds makes because South never gets on lead and eventually West can discard one of East's clubs on his long heart.

Ask the Experts

A Florida reader asks what the key card convention is.

Basically, it is Blackwood except that the king of trumps is counted as a fifth ace. When it works it is wonderful.

The tapestry hangs among many of her works in the Scurry County Museum. Mrs. Davis' daughter, Cindy, pictured at right, attended the reception honoring her mother at the museum Sunday 1-5 p.m. The display will remain there through Sept. 15. (SDN Staff Photo)

Watermelon Feast Held

The Western Band and the Country Cousins Band were on hand to furnish entertainment at a watermelon feast held recently at Snyder Oaks Care Center.

It was reported a large number of residents and friends attended the outdoor affair.

Baby Shower Held

A baby shower honoring Mrs. Nancy Ballinger was held in the home of Mrs. Richard Chambers. Hostesses for the occasion were Mrs. James Tucker, Mrs. Kenneth W. Preston, Mrs. Albert Wood, Mrs. Greg Graves, Mrs. R.W. Bowman and Mrs. Chambers.

Like most living things, apples respire. Respiration causes sugars to be burned and carbon dioxide, water vapor, and heat to be produced. In apples, respiration gradually diminishes crispness, flavor and attractiveness.

For an inexpensive insulated container, wrap several layers of newspaper around a container, fold ends, tape and enjoy food at the right temperature hours later.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION

NOVEMBER 6, 1979

PROPOSITION NO. 1 ON THE BALLOT

(H.J.R. 108)

House Joint Resolution 108 proposes an amendment to the Texas Constitution relating to the appointment and terms of notaries public. The proposed amendment would:

—Require the Secretary of State to appoint a convenient number of Notaries Public for the state; and

—Authorize terms of office of Notaries Public of not less than two years nor more than four years.

A temporary provision of the proposed constitutional amendment provides that the amendment would take effect January 1, 1980; that each person who was appointed a notary public before January 1, 1980, would continue to serve as a notary public for the term for which the person was appointed; and that this temporary provision would expire January 1, 1982.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the appointment of notaries public for the state and for a term of not less than two years nor more than four years as provided by law."

PROPOSITION NO. 2 ON THE BALLOT

(H.J.R. 133)

House Joint Resolution 133 proposes an amendment to the Texas Constitution to provide for legislative review of the process of rulemaking by agencies in the executive department. The proposed amendment would allow the Legislature to enact laws:

—To provide for legislative review of the process of rulemaking by agencies in the executive department;

—To prescribe conditions for rules to take effect;

—To provide for suspension, repeal, or expiration of rules;

—To prescribe procedures; and

—To delegate powers to either or both houses or to committees of either or both houses.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for legislative review of the process of rulemaking by agencies in the executive department."

PROPOSITION NO. 3 ON THE BALLOT

(S.J.R. 13)

Senate Joint Resolution 13 proposes an amendment to the Texas Constitution authorizing the Legislature to provide for the guarantee of loans used to purchase farm and ranch real estate for qualified borrowers. The proposed amendment would allow the Legislature to provide for, issue, and sell general obligation bonds called "Farm and Ranch Loan Security Bonds" of the State of Texas not to exceed 10 million dollars. All money received from the sale of such bonds would be deposited in a separate fund with the State Treasurer and administered by the commissioner of agriculture without further appropriations. These funds would be used to guarantee loans for the purchase of farm and ranch real estate. The commissioner of agriculture would use these funds, under provisions to be prescribed by the Legislature for the purpose of guaranteeing loans used for the purchase of farm and ranch real estate, to acquire real estate mortgages or deeds of trust on lands purchased with guaranteed loans. These funds would also be used to advance to the borrower a percentage of the principal and interest due. The Legislature may also authorize the commissioner of agriculture to sell at foreclosure any land acquired in the manner authorized by this amendment. The commissioner of agriculture would be required to charge at least 6 percent interest on such loans. The proposed amendment appropriates an amount that is sufficient to pay the principal and interest on the bonds that mature or become due during the fiscal year less the amount in the interest and sinking fund at the close of the prior fiscal year.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the guarantee of loans for purchase of farm and ranch real estate for qualified borrowers by the sale of general obligation bonds of the State of Texas."

Meter Cheaters Rewire for God

By Abigail Van Buren

1979 by Chicago Tribune-N.Y. News Synd. Inc

DEAR ABBY: Some years ago I helped one of my tenants cheat the electric company by installing a special outlet wired ahead of the meter so she could use electricity free. I did it because I felt the electric company had treated her unfairly by cutting off her service before giving her enough of a chance to pay the money she owed them, then charging her an unjust amount to turn it back on.

She's a poor widow on Social Security. I'm charging her about half the rent someone else would be willing to pay.

This lady got away with about $150 worth of electricity before deciding she was even with them, then she asked me to restore her meter to its original state, which I did. Now she's paying for her electricity like everybody else.

Her health has been failing lately, and she told me she wants to make things right with the Lord before she dies. I feel sorry for her and hate to spoil her chances for getting into heaven. Also, I don't want to make my own chances any worse, which aren't too good to start with.

Abby, which one of us will be held accountable for the stolen electricity come judgment day? And how can we both make things right with the Lord?

OMIT THE TOWN IN IOWA

DEAR OMIT: Come judgment day, you BOTH will be held accountable for the stolen electricity. And to make things right with the Lord, first you'd better make things right with the electric company!

DEAR ABBY: We have two children, an 11-year-old daughter and a 9-year-old son.

They both do well in school and have always been complimented on their behavior. My husband and I are very proud of them and feel we have made a lot of right decisions in their upbringing, and one being that they don't get in their upbringing, one being that they don't get something or do something just because the kid next door does.

My husband and I disagree when it comes to our daughter getting her ears pierced. She's the only one among our friends, relatives and neighbors, many of whom are much younger than she, who hasn't had her ears pierced.

My husband refuses to let her. He thinks it's a silly idea for one so young, and that the only reason she wants her ears pierced is because everyone else has had it done—which isn't good enough. It's such a small thing she wants, and if ever a little girl deserves something she wants so desperately, she does.

We can't agree on this, Abby. We want what's best for our daughter and will abide by your decision.

MASS. MOM

DEAR MOM: The word from here is a piercing yes!

DEAR ABBY: We have a family problem. Our mother, an intelligent woman in all other respects, is married to a man who does not work. He lives off her money. (Our father left her very well off.)

Our mother's husband has made all her children (grown) feel unwelcome in their home. Nothing we can say will make mother see the light. She is so in love with this man she thinks he can do no wrong. Meanwhile, he lives the life of a retired gentleman with mother caring for him as if he were royalty.

We do not feel that it's fair that we should be made to feel unwelcome in our mother's home—especially since it was provided for her by our father.

How do you suggest we cope with this?

JUST PLAIN ANGRY

DEAR ANGRY: Philosophically. Ask the Lord to grant you the serenity to accept the things you cannot change, the courage to change the things you can. And the wisdom to know the difference.

If you need help in writing letters of sympathy, congratulations or thank-you letters, get Abby's booklet "How to Write Letters for all Occasions." Send $1 and a long, stamped (28 cents) self-addressed envelope to Abby: 132 Lasky Dr., Beverly Hills, Calif. 90212.

Baptists Set Area Meeting

The Mitchell-Scurry Baptist Association will meet tonight at First Baptist Church in Colorado City.

The host church will serve the evening meal at 6 p.m. and the executive board and Women's Missionary Union meetings are set for 6:30 p.m.

The associational conference will begin at 7 p.m. It will be followed by an assembly in the auditorium of the church at which time a film on witnessing will be shown.

Mozart wrote his first symphony at the age of 7.

An estimated 20 million people were reported homeless in 1949 as a result of floods.

Draft Kennedy Fans Heartened

WASHINGTON (AP)— Democrats trying to drum up support to draft Sen. Edward M. Kennedy as the party's 1980 presidential nominee are riding a wave of encouragement brought on by events of the past few days.

"The phone is ringing off the hook," said State Sen. Sharon Pollard of Massachusetts, a leader of the draft movement in Kennedy's home state.

"As the indications become more clear that Sen. Kennedy is thinking seriously of making a bid, more and more people are calling," she said. "It's a social phenomenon we've never seen before and we'll never see again."

The latest of the "indications" came in a Kennedy interview published in today's editions of The Boston Globe.

"I have not ruled out the possibility of a candidacy," Kennedy told the Globe. "I have no time frame; I have no date and I have no further comments or statements about a date."

In another development Monday, House Speaker Thomas P. O'Neill of Massachusetts told reporters: "I don't think that he (Kennedy) could be denied the Democratic nomination if he were to run."

There's never been any question about the support for Kennedy in Massachusetts. But 3,200 miles away in Vancouver, Wash., Jim Carty, the Clark County prosecutor, has operated largely as a one-man draft movement and grasps encouragement where he can find it.

Carty tells how at a county fair last month he put out Kennedy campaign material - buttons, brochures and bumper stickers left over from Robert F. Kennedy's 1968 presidential bid.

"They were all gone in less than two hours and weren't well displayed at all," Carty said Monday.

More important, he says, is the sudden change in the response to his frequent letters to Kennedy urging the senator to run.

"In the past, I've always gotten back the standard response you see and hear about," he said. "the one I got back today (Monday) about the response at the fair surprised me.

"It offered me 'many thanks' and 'appreciation' and said, 'I want to thank you for warm words of encouragement and support.' I think he's moving in the right direction."

And in Oregon, Bill Garrett, head of the "Ready for Teddy" committee said he has had so many telephone calls in the past couple of days he "can't keep up."

"It's really been overwhelming," said Garrett. "The response is explosive."

There are Kennedy committees in at least 19 states, some tiny like Carty's and others highly organized like the one headed by Dudley W. Dudley in New Hampshire.

Arms Flow To Cuba Predicted

WASHINGTON (AP)- The Defense Intelligence Agency has predicted a "steady flow" of new Soviet weapons to Cuba, aimed at increasing the firepower and mobility of Fidel Castro's forces.

In a heavily censored version of a report to Congress, DIA experts said, "The weapons could be used equally well in any arena."

The Pentagon's intelligence agency estimated that Russia has given Cuba more than $1.6 billion in free military aid since 1960.

"The state of readiness of the Cuban army continues to improve," the DIA said. "This is because of increased combat experience in Africa, intensified training at home and delivery of new weapons systems."

The report, given behind closed doors to a House subcommittee last April and released recently, said Russia may send Cuba bigger assault guns, mobile-surface-to-surface missiles, interceptor versions of the advanced MiG-23 jet fighter, larger troop transport helicopters and additional ocean-going naval combat vessels.

The censored version of the report made only indirect references to Soviet military personnel in Cuba and said nothing about the Russian ground combat brigade there whose presence was recently confirmed by the Carter administration.

It said that Cuba's military, economic and political ties with the Soviet Union are "closer than ever" and that deliveries of Russian military equipment "greatly increased" in dollar value last year.

"Traditionally, Cuba has had to settle for older systems while other Moscow client states received more recent production," said DIA analyst Martin J. Scheina.

"Of late, however, in line with the professionalization of the military, Cuba has been taking delivery on systems comparable to those received by Moscow's other allied states."

In addition to Cuba's extensive involvement in Africa, DIA specialists reported "a noticeable increase in Cuban support of Latin American insurgents."

The report linked what it described as a "resurgence" of Cuban activity in Latin America particularly to the then-raging battle by Sandinista rebels to overthrow the Somoza regime in Nicaragua.

But it also spoke of close Cuban relations with Jamaican Prime Minister Michael Manley and of ties with Guyana.

Gary R. McClellan, a Latin American analyst for DIA, said there was evidence of Cuban "contacts in practically all of the Caribbean islands, either officially with the governments themselves or with the more leftist-leaning radical or Communist-oriented individuals, parties or movements."

Machu Picchu, the lost city of the Incas in Peru, is visited annually by 400,000 tourists.

Texas Electric TIPS help keep home electric bills down.

Saving energy—and energy dollars—in your home can be as simple as using energy wisely.

For example, make sure filters are kept clean in your furnace, air conditioner and clothes dryer. This ensures units are operating efficiently. And using less energy.

For additional savings on heating and cooling, keep drapes closed for extra insulation on overcast winter days and hot summer days. But on sunny winter days, open them to let the warm sunshine in.

And, turn off ALL appliances when you're not using them. When you stop and think of the many ways you use electricity, you'll see what an energy saver this can be!

For more information—and a lot more tips—get the TIPS booklet from Texas Electric. Just call Texas Electric or ask for the booklet on the comments section of your next electric bill.

At Texas Electric, we're trying to help you keep your electric bill down.

Get Your Fireplace Before The Rush, Says Jerry Richardson

"Beat the rush!" These words of advice come from Jerry Richardson at Richardson's Sewing Center, 1902 37th St.

Jerry says "if you need a fireplace now is the time to do it" before the winter rush begins.

Richardson's has energy conserving fireplaces that run on alternate fuel sources to help you cut down on your fuel bill.

The really nice thing about fireplaces is that they are as beautiful and complimentary to your home as they are practical and complimentary to your heating bills.

Jerry has heat circulators and free standing fireplaces as well as cast iron stoves. In the cast iron category he carries air tight stove, pot belly stoves and paror stoves.

Don't let installation worries stop you from having a warm fireplace this winter – Jerry says he can furnish installation for you.

Richardson's has a large selection and a wide variety of firepaces to let you have a choice of color style, and size

They also offer free estimates if you decide to install a custom built fireplace. That's right. They can build a fireplace to suit you.

Richardson's also carries the most efficient woodburner on the market today, which is a model with outside air available.

Right now you can have a heat circulating, economical wood burning, attractive rock fireplace built in a corner in your home for only $1499.

Another energy saver Richardson's stocks is the paddle ceiling fan. Jerry has a wide variety in several colors and styles and sizes.

And don't forget, Richardson's Sewing Center also carries kitchen cabinets, sewing machines, and vacuum cleaners. The shop is running a close-out right now on 1978 model vacuum cleaners, which includes used, rebuilt and new ones.

Drop by Richardson's today and take a look at his selection of fireplaces. You'll find one you'll just have to take home with you!

And don't forget -- beat the rush!

WARMING UP--Helen (Mrs. Jerry) and Crystal Richardson are warming up for winter in front of one of Richardson Sewing Center's attractive and energy saving rock fireplaces. (SDN Staff Photo)

State Farm Agent Roy McCloskey Can Cover Your Insurance Needs

Roy J. McCloskey, your State Farm Agent, is able to provide almost every coverage needed in the field of insurance by the average family or individual.

In fact, he feels that the insurance services provided by State Farm are very competitive and result in substantial savings to State Farm policy holders.

McCloskey suggests that you cut this article out of the newspaper and keep it for future reference. The next time you need something in the field of insurance just give him a call at 573-7266 or come by his office at 3904 College Ave.

In addition to insurance, he is also able to provide a financing service through a cooperative bank.

So, if you need a loan on a car, boat or vacation trailer, check with McCloskey before you close the deal.

There is no obligation to obtain the information about the financing, and you may find that you will save important dollars.

Also, (not available through State Farm) McCloskey provides a service to those individuals who have had their driver's license suspended and need SR 22 Forms in order to get their driving privileges restored. He will be glad to assist individuals in obtaining these forms from the Texas Automobile Insurance Plan.

McCloskey has been a State Farm agent in Snyder for the last 23 years and with a record like that you can feel secure trusting your insurance needs to him!

FINANCER--Roy J. McCloskey looks over a car he is arranging the financing on for a State Farm policy holder. The next time you are in the market for a car, it may be to your advantage to check with him first and save. (SDN Staff Photo)

Division Toughs To Battle...

Cincy Entertains Astros

CINCINNATI (AP)-The Cincinnati Reds, who trail by half a game in the National League West, battle head-to-head tonight and Wednesday night with the division-leading Houston Astros, but none of the Reds wants to put too much importance on the series.

"We know one series isn't going to win it," said Dave Collins, the Reds' hot-hitting supersub. "We've got to take it like any other series."

Collins, who leads Cincinnati batters with a .318 average, said the Reds know what to expect from Houston.

"You're going to get good pitching, and they execute well," he said. "They do the little things well; that's why they're where they are. And everybody in the lineup can run."

Both Houston and Cincinnati had a day off Monday, and first baseman Dan Driessen said that might help the Reds.

"Both sides know they can't take anything for granted," Driessen said. "Everybody will up for the series, everybody on both sides."

But Driessen also thought the division title wouldn't be determined this week, even if Houston were to sweep the series.

"As long as we're real close, anything could happen," he said. "I believe it could go to the very end."

First night pitchers were scheduled to be Tom Seaver, 14-6, for the Reds, and J.R. Richard, 16-12, for Houston. Each has been hot lately, Seaver winning 12 of his last 13 decisions and Richard leading the league in strikeouts and possessing a string of 37 innings without an earned run.

Tomorrow night, the Reds' Mike LaCoss, 14-6, will face Joe Niekro, who leads the National League in victories with an 18-9 record.

Snyder Hosts D-City Tonight...

Bobcats Defeat Local Varsity Volleyballers

SAN ANGELO—Snyder High School girl's varsity volleyball team fell to San Angelo Central here last night in a tough three-game match. The Tiger junior varsity won.

Using a stiff defense, the Bobcat girls defeated the Tigers 14-12, 4-15 and 14-4, while Snyder's JV won, 14-16, 15-7 and 14-10.

"Angelo played a very strong defensive game," commented Coach Joyce Elrod. "They (the varsity) picked up everything we hit. Lack of experience hurt us in that respect. When you hit everything you can at a team and they still pick it up you eventually let down, and that's what happened to us."

Snyder lost the first game by only two points and rallied to dominate the second one, but San Angelo used that rugged defense to win the final and demote the Tigers' season record to 2-1. Snyder JV is 3-0.

Individually for the Snyder varsity, Billie Owens had 15 points, followed by Lisa Cobb, Patsy Casas and Suzanne Fisher with 4 each; Kim Harlin with 2; and Shauna Pate and Sherry Neves with one apiece.

In a triple-header tonight, Snyder will host Denver City. A varsity game at 7 will be preceded by a 6 p.m. JV contest, and a 5 o'clock freshman encounter.

Tickets are $1 adults and .50 students.

Gabelich Protests Record Method

LONG BEACH, Calif. (AP) - Gary Gabelich holder of the land speed record recognized throughout the world since 1970, has protested the short-course method used by Stan Barrett in his claimed record-breaking run of Sunday.

Barrett, of Bishop, Calif., steered his 48,000-horsepower 39-foot Budweiser Rocket, a three-wheel motorcycle, to a top speed of 638.637 miles-perhour at the Bonneville Salt Flats.

This exceeded the land speed record of 622.407 mph two-way average by Gabelich in 1970, and also was faster than Gabelich's one-way average speed run of 631.367 mph the same year. But Gabelich made his record over a one-mile course, 100 times the distance used in Barrett's runs.

Bears Lose Bishop, Center, For Season

WACO (AP)-Keith Bishop, the Baylor University starting center injured in the Bears' contest with Lamar Saturday, is expected to be out for the remainder of the season.

Bishop tore ligaments in his right knee during the first quarter of the game, which Baylor won 20-7.

Baylor head coach Grant Teaff said Monday the loss of the Midland senior "will be a tremendous blow to the team."

Because of his athletic ability and leadership, Keith was one of the most valuable players in our program," Teaff said at his weekly press conference.

Bishop will be replaced by sophomore Buzzy Nelson, who also is the Bears' deep snapper for punts.

Exit A&M, Enter SMU

By The Associated Press

Southern California, Alabama, Oklahoma and Texas held onto the top four places in The Associated Press' first regular-season college football poll today while Stanford, Texas A&M and Arizona State were casualties of the year's first upsets.

Southern Cal, a 21-7 winner over Texas Tech in its opening game, received 47 first-place votes and 1,222 of a possible 1,240 points from a nationwide panel of 62 sports writers and broadcasters.

However, second-ranked Alabama closed the gap from the preseason poll. The Crimson Tide, which opened by thrashing Georgia Tech 30-6, received 14 first-place ballots and 1,172 points. The margin of difference in the preseason poll was 1,242-1,141.

Brownwood Slips To 7th; Snyder Left Unranked

By The Associated Press

Abilene Cooper, the preseason choice in The Associated Press Schoolboy Football poll to win the state Class 4A title, did nothing to tarnish its image in the first week of play last week although the Cougars defeated "only" a Class 3A school.

Cooper's stock remained high because the team they humbled was defending state Class 3A champion Brownwood, which went into the game ranked No. 1 in its classification.

Abilene Cooper, which lost to Brownwood last year when the Lions went unbeaten in 15 games, blasted Brownwood 50-14 in one of the worst defeats ever for veteran Coach Gordon Wood.

Jasper, which defeated Henderson 27-7 last week, moved up from third place to assume the No. 1 position in 3A, while Pittsburg in 2A and China Spring in A, retained their leadership roles.

The loss toppled Brownwood into seventh place among the 3A ranks this week. McKinney dropped from second to eighth place after a 15-14 loss to Paris, which jumped from 10th to sixth.

Two other 3A teams, Tuloso Midway and Snyder dropped from the rankings after losses and No. 9 Huntsville and No. 10 Gainesville moved in as replacements.

By The Associated Press

Here is The Associated Press Schoolboy Football Poll with first places votes in parentheses, season records and points based on 10-9-8-7-6-5-4-3-2-1:

Class 4A

1. Abilene Cooper (18)	1-0-0	198

Horton Homer Hammers Texas

ARLINGTON (AP)—Willie Horton is just on a one-year contract with the Seattle Mariners, so he's eligible to declare for the baseball free agent draft after this year.

But don't hold your breath waiting for it to happen.

"I'm not interested in the free agent draft. Settle has been too good to me," said Horton, whose 27th homer and sacrifice fly drove in two runs for the Mariners in a 5-2 victory over the Texas Rangers Monday night.

He played with four clubs, including the Rangers, last year, "and I was thinking of quitting." But Mariner president Dan O'Brien, a Ranger executive last year, persuaded Horton to play for Seattle and the veteran star is happy.

His 27th homer of the year disappeared over the fence in left center in the fifth inning for the Mariners' first hit off Ferguson Jenkins. Teammate Leon Roberts followed with another solo homer, his 14th, two batters later.

Two errors by Texas shortstop Nelson Norman let Seattle score two unearned runs in the seventh, and the Mariners added an insurance marker in the eighth on Larry Milbourne's triple and Rupper Jones' single.

Rob Dressler got his second victory of the season, the first having come last week with Horton driving in the run in a 1-0 victory over Jenkins and Texas. Dressler gave up eight hits Monday night, three of them to Billy Sample and two to Mickey Rivers, before he left with a 4-2 lead and two out in the seventh.

Byron McLaughlin held the Rangers hitless the rest of the way, getting his 13th save. Dave Rajsich wrapped up for Texas, allowing only an infield hit, after the eighth-inning departure of Jenkins, whose record fell to 13-13.

In 1960, the Cleveland Indians and Detroit Tigers traded managers, Joe Gordon going from Cleveland to Detroit and Jimmy Dykes going in the other direction.

Football Backers To Meet

Parents and Snyder High School football fans are invited to a meeting Wednesday evening at 8:30 in the SHS field house, head coach Mike Jenkins announces.

The Snyder-Midland Lee game film will be shown, and coaches will be introduced.

Pee Wee Registration On

Signups for Pee Wee football continue today through Thursday at the Scurry County Boy's Club.

Boys ages 9-12 as of Sept. 1, 1979 and still in elementary school are eligible to participate. To register, boys need to bring a parent, birth certificate and $5 playing fee.

Registration is held after 3 p.m. each day.

Westerners Begin Season

HOBBS, N.M.--Western Texas College's Westerners were to begin the 1979 fall golf schedule here today, competing in the New Mexico Junior College Intercollegiate Invitational.

The tournament continues through Thursday.

Members of the golf squad are Scott Barrett, Johnny Curbo, Chris Johnson, Phil Kuss, Ken Lawrence, Bill Leonard, Mike Mahan, Lance McMillan, Frank Monfrey, Victor Villarreal, Jeff Wagner and Richard White.

Bob O'Day is the Westerner coach.

Boosters Name Executive Panel

Western Texas College athletic booster club members heard a financial report and approved the creation of an executive committee during a noon meeting Monday in the WTC student center.

Judge Wayland Holt, WTC Booster Club president, reported that the membership drive is progressing well and that the club is just $2,020 shy of the $10,000 goal.

He said there were additional pledges, and also several past booster club members who had not been contacted that would help the club exceed the goal.

Dr. James Tulley, WTC learning resources dean, was elected treasurer of the organization. Named to the executive committee along with Holt and Dr. Tulley were Guy Sullivan, Dennis Ball and Mrs. Corky Kruse.

Named as an additional vice president of the booster club was Virginia Whitson. She will help organize a senior citizens arm of the booster club.

The club also heard brief remarks by basketball coaches Nolan Richardson and Joe Cushing.

WANTED: OIL FIELD EQUIPMENT OPERATORS
Halliburton Services has openings for Oil Field Equipment Operators. Job responsibilities include driving a truck to deliver bulk cement to an oilfield location, transferring the cement to field storage bins or mixing equipment, and operation and maintenance of assigned equipment.
Applicants should be 19 or over, in good health, have or can get a commercial driver's license, have good driving records and have some mechanical aptitude. Experience would be helpful but is not required. Halliburton Services offers a generous wage and benefit plan.
Apply in person and talk to Joe Fowler or John Risehooyer at the Snyder yard, located at the intersection of Highway 1611 and Highway 84, approximately 8 miles north of Snyder.

Equal opportunity employer, M F

TODAY'S FASHIONS

...STARTED HERE.

The American Farmer. He makes it all happen.
When you stop and think about it, almost everything we wear and use starts on a farm. Cotton for denim suits and flowing dresses. Leather for fashion boots and belts. Even women's make up and men's personal care products contain ingredients derived from agricultural products. The American Farmer — he's always in style.

PUBLIC NOTICES

TREASURY DEPARTMENT, BUREAU OF ALCOHOL, TOBACCO AND FIREARMS: On August 16, 1979, one Government Model Colt .45 caliber semi-auto pistol, S-N 129-4197 with .38 caliber barrel and magazine and five live WCC 67 match rounds, .45 caliber ammo were seized in Lubbock County, Texas, for violation of 18 USC, Chapter 44. Any person claiming an interest in said property may file a petition for remission or mitigation of forfeiture or file a claim and deliver a $250.00 cost bond with the undersigned on or before October 4, 1979, otherwise the property will be forfeited and disposed of according to law. Dan H. Johnson, Regional Administrative Officer, Bureau of Alcohol, Tobacco and Firearms, 1200 Main Street, Dallas, Texas 75202.

LODGES A-1

Rate Request

(Continued From Page 1)

term of two years, and was rejected by the council last week on the grounds it did not meet specifications which called for one year bids. Approved by the council in last month's action was a one year bid submitted by M.L. Duke.

Parks argued that because his bid was proportionately better money-wise than the Duke bid that his bid should have been accepted by the council. He claimed also that he was led to believe after talking to an employee of the city that the city was seeking two and three-year bids for the operation of the lease.

The council, however, pointed out that the bid specifications explicitly called for one year bids and said that Parks should have abided by that rather than any understanding of the bids he had after talking to any employee of the city.

The council said the Duke bid was accepted over his because the Duke bid was for a term of one year, as set forth in the bid specifications.

In its final action during open session, the city council briefly discussed rising health insurance rates with its present carrier and decided to seek new bids.

The council went into executive session to discuss possible nominees for the unified tax appraisal board, but announced no decisions.

Two Mishaps Are Reported

Two minor traffic accidents were investigated by city police officers yesterday.

The first occurred at 11:30 a.m. in the 1600 block of Ave. E. It involved a 1978 GMC driven by Eddie Melvin Cobb and a 1963 Chevrolet pickup driven by Gaither Bell.

The other accident was in the 3800 block of Austin at 12:10 p.m. There, a 1976 Chevrolet driven by Bettye Patterson and a 1977 Toyota driven by Billy Stroud were in collision.

Indictments Returned

(Continued From Page 1)

leigh.

Burglary indictments were returned against James Henry George and Robert Frank Essery.

George is alleged to have broken into the residence of Bill Lee July 27. Essery is alleged to have broken into the residence of Oliver Groce Aug. 16.

Named in a theft indictment was Terry Lynn Mize. He is charged with stealing property from R.B. Duke on July 28.

Indicted on charges of driving while intoxicated were Valerio Torrez, Robert Lee Anderson, and Roy Pacheco Martinez.

The grand jury also no-billed (refused to indict) two persons on charges of criminal mischief.

Serving on the grand jury were Thomas H. Scannicchio, Ruben Felan, Mrs. John W. Salmon, J.B. Tate Jr., Hubert F. Dunn, Joe Coronado, Geral Mac Greene, John Pickering, Karen Pevehouse, Eddie Peterson, and Clarence Payne.

Expect Drilling To Increase In Next 6 Months

TULSA, Okla. (AP)—Drilling should increase sharply during the next six months, resulting in a tight supply situation for equipment and pipe, oil industry officials attending the International Petroleum Exposition are being told.

The show, which is concentrating on on-shore drilling, has representatives from 346 companies from throughout the United States and about 60 other nations for its four-day stand.

"I think the real drilling activity hasn't started yet," said Tom Loula, district sales manager for Gulfco Industries, Inc., of Oklahoma City, manufacturer of well-head equipment.

Loula said manufacturing firms have been turning out equipment about as fast as it is ordered. But late this year and early in 1980, he predicted demand will exceed supplies of some equipment.

The price of wellheads has climbed about 35 percent in the last year and prices will continue to go up due to inflation, he predicted.

HOUSE DAMAGED-Alfred Kohl, fire chief, surveys the damage at the Barbara Abell residence, 417 29th St., that was partially gutted by a fire late this morning. The fire was reported at 10:37 a.m. and the house is owned by R. C. Patton, report firefighters. (SDN Staff Photo)

Dixon Trial Begins...

McCaulley Crash Scene Described To Jury Panel

COLORADO CITY (AP)—A Department of Public Safety trooper described the grisley scene he encountered at the scene of a school bus-oilfield servicing truck collision to jurors hearing the involuntary manslaughter trial of William Clarence Dixon Jr.

Allen Arnwine, the first witness to testify at the trial, said Monday bodies and debris were strewn through the intersection near Roby. Five students died and 20 persons were injured in the Dec. 8 accident.

Dixon, the driver of the truck, faces three counts of involuntary manslaughter. If convicted, he could be sentenced to 10 years in jail and a $5,000 fine.

Arnwine told the six-man, six-woman jury a flashing warning signal suspended above the intersection "was working when I got there."

But defense attorney Malcolm Shulz of Abilene objected when Arnwine testified the school bus was traveling west on U.S. 180 and that Dixon's truck was traveling south on Farm-to-Market Road 611.

Shulz said Arnwine was not a witness to the accident. District Judge Weldon Kirk sustained the objection.

Earlier, Schulz objected when Assistant District Attorney Rusty Caroll told prospective jurors they "should not show sympathy toward the defendant simply because he is charged in the deaths of four or five kiddos."

Kirk advised jurors to disregard the remark but refused to declare a mistrial.

The trial has been postponed four times, and was moved to Colorado City from Roby on a change of venue.

The bus carried the McCaulley High School girls' and boys' basketball teams, and since the crash 16 civil lawsuits totaling $14 million have been filed by families of the victims.

State traffic records show Dixon was convicted of 13 traffic violations in the four years before the collision.

After the trooper's testimony, Kirk recessed the trial until 9 a.m. today. He ordered jurors not to read or listen to news accounts of the trial and instructed attorneys not to discuss the case.

WTC

(Continued From Page 1)

that the final figure would be approximately $5,000 less.

Trustees also ratified purchase of five IBM typewriters in the amount of $7,932. The board then accepted the low bid of $7.25 per foot from Price Construction Co. for approximately 1,700 feet of curb and gutter at the apartment project site south of the WTC campus.

Dr. Robert Clinton, WTC president, reported that current fall enrollment is 1150 students compared to 1184 last year. Because registration is still underway both on campus and at extension centers, Dr. Clinton said it is possible that this fall's enrollment may exceed the 1975 record of 1257. The president also reported that semester credit hour enrollment is up 3 percent over last year, reflecting that more people on campus are taking a full class load.

Dr. Clinton also told the board that a committee had been formed to plan a 10th year celebration for the college. Nov. 18 has been set as the date for the observance.

Board members present were Patton, McNair, Dr. Robert Hargrove, Bill Jones and Bill Wilson Jr. Absent was trustee Howard Sterling. Edwin Parks, who was present at the outset of the meeing, left early to attend another meeting.

The boll weevil has destroyed an estimated 85 million bales of cotton since the turn of the century.

Taxi Service Opens Today

A taxi service opened in Snyder today. Safety Cab Co., 2405 College Ave. is owned by Donald Giesige and offers 24 hour service. Pick-up and delivery of small packages is also available.

Giesige who also operates a taxi service in Sweetwater says he is looking forward to operating a business in Snyder and says that with a rotary telephone number his customers will never get a busy signal.

Jackpot Barrel Race Today At 8

An open jackpot barrel race is set for today at 8 p.m. in the Sundowners Arena north of town. There will be open, novice and junior categories. There will also be competition in flags and poles.

The jackpot race is sponsored by the Texas-New Mexico Barrel Racing Association but is open to everyone. For more information call Ann Henderson at 573-7098.

Football Contest

3 BIG PRIZES

Perfect Score $100

First Prize $12.50

Second Prize $5.00

ENTER NOW! SNYDER'S Football Contest

NOTHING TO BUY
NO OBLIGATION

Bring Your Entry to the News Office or Mail to Snyder Daily News Box 949 Snyder, Texas 79549

Entries Must Be In By NOON FRIDAY!

Test Your Skill...Win Cash Prizes

HERE ARE THE RULES OF THE CONTEST

In each advertisement on this page you will find the contestants in a prominent football game being played the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only...opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS or bring your entry by the Snyder Daily News office. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie must be specified as a tie or else it will be considered a miss.

If there is a tie for first place the winners will divide the cash money of $17.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for the place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's prize. Tie for perfect score will split $100. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all the persons's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blank and list your address and phone number and watch for the story on next Tuesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employees of The Snyder Daily News and their families are not eligible to enter.
