

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, August 30, 1928

Number 29

COM. COURT LETS CON-TRACT FOR TARIATION

Last Wednesday, August 22, the Commissioners' Court signed a contract with the Kelly Construction Company of San Antonio, Texas, for the tarviation of the Main Street of Junction.

The contract called for the following approximate quantities:

810 cubic yards of unclassified street excavation at the price of 50c per cubic yard.

1000 cubic yards of gravel base in place at the price of \$1.05 per cubic yard.

7200 square yards of bituminous surface treatment at the price of 50c per square yard.

The date of the beginning of the work, as evidenced by the contract, will be the 6th day of September, and it will be completed in not more than forty working days.

A contract was also signed with Mr. H. L. George of San Angelo, Texas, to do the engineering work, and to represent the county in all matters pertaining thereto, as well as general superintendent of the whole street job.

This construction program is being financed by the property owners whose property is adjacent to Main Street. It is one of the best examples of what co-operation and community unity can do, when people are agreeably minded and willing to put their efforts into the same channel.

We are of the opinion that the tarviation of Main Street of Junction will add more to the health and convenience, to say nothing of the appearance of the town, than any single piece of work that has been put over in this town or county.

The full width work will begin at the east side of the block on which is located the Safety First Filling Station, and extend west to the Hugh Wilson house.

The Commissioners' Court should have the thanks of every person interested in this street construction. They generously agreed to accept the funds raised by popular subscription, and let the contract for the work. This gives the property owners the benefit of their wisdom and experience on road and construction work, which otherwise they could not have had.

ANOTHER BUSINESS OPENS IN WILSON BUILDING

As evidence of the growth of Junction, we have but to note the number of new businesses recently opened here.

Scott & Roberts recently opened a vulcanizing shop; J. W. Johnson last week opened a plumbing shop, and this week Mr. W. H. Morgan, recently of Menard, opened a saddle and harness shop in the east room of the Frank Wilson building. Mr. Morgan has had years of experience in the saddle and harness business. His advertisement appears in this issue of the Eagle.

AT THE TEXAN THEATRE

On Thursday and Friday nights of this week, the Texan will present Gene Stratton Porter's story, "Freckles." You will not be in the least disappointed in this picture; it is one of the best on the screen today.

Saturday, matinee and night, beginning at 3 o'clock and continuing till 10 o'clock, Richard Barthelmess in "The Noose." This is an exceptionally good picture and should be seen by good crowds at each showing Saturday.

Monday and Tuesday nights of next week will be seen Bebe Daniels in "The 50-50 Girl."

Mr. and Mrs. Marvin Bishop and daughter, Eva Blanche, and Mr. George Bishop and daughter, Miss Blanche Bishop, left Friday for their home in Waco after a visit with Mr. J. L. Bishop and Mrs. Hydie Felps.

CROOKED HOLLOW TEAM HOOKS WATSON DIVIDE

Last Saturday, August 25th, the Crooked Hollow team, in one of the hardest fought games of the season, defeated the Watson Divide team by a score of 4-1.

The game was characterized throughout by brilliant and spectacular plays on each side. The Crooked Hollow boys seemed to have better horses and a shade better team work than did the Watson Divide boys, but every inch of the ground was hotly contested, and each score piled up by the Crooked Hollow boys was hard won.

On Wednesday of last week, the Watson Divide team defeated the last Murr team by a score of 5-2. On the same day the Crooked Hollow team defeated the Treadwell team by a score of 11-9, and on Saturday, the 25th, the Murr team defeated the Treadwell team by a score of 4-2.

The culmination of this series of games gives the Crooked Hollow team a right to compete in the games to be held in San Angelo in the near future.

Crooked Hollow has won their laurels by fast, hard playing, and are to be congratulated for the efforts they have put into their work.

The Watson Divide boys took their defeat in an unexcelled sportsmanlike manner, and now stand ready to give the Crooked Hollow boys their hearty support in the coming contests.

The people of Junction manifest a great interest in the games, as shown by their attendance. Every available space on the west side of the polo field was filled by automobiles, and several were parked on the east side.

Greater interest in polo develops better and faster horses, and is also excellent advertising for the country and we should support our polo teams to the limit of our ability.

POLITICAL PARTY

Last Friday night Mrs. A. W. Loeffler entertained a large crowd of friends with a political party, Republicans and Democrats. Mrs. C. W. Atchison was Republican leader and Clifford Hamer Democratic leader.

Mrs. Loeffler being the society reporter for the Eagle, naturally was too modest to report this affair, and the writer knowing less than nothing about reporting society events, cannot do the occasion justice.

If there is any doubts in the minds of anyone as to the real enjoyment of this occasion, of the some sixty-six present, we will refer you to either of the leaders, Blackston Smith, Carl Wolf, Mrs. Conrad Holskamp, W. P. Riley, H. G. Hubert, Mrs. S. A. McDonald, Mrs. U. D. Kindrick, Mrs. C. T. Orth, any of whom will readily vouch for the statement that this was one of the most enjoyable occasions of the season.

A number of contests were engaged in by the two parties, and the Democrats won the greater number. Prizes were awarded and Clifford Hamer, the Democratic leader, carried off the miniature elephant. After the contests, a delicious luncheon, consisting of something extremely good; and if you care to know exactly what it was, we refer you to Mrs. A. L. Mudge or Miss Lottie Heyman.

PATIENTS AT THE STANDIFER HOSPITAL

Master Clayton Lawler, tonsilectomy, Junction.

Miss Donie Thiers, appendectomy, removal of tumor, Roosevelt.

Mrs. L. A. Rees, medical, Junction.

Mrs. Ed Hunger, tonsilectomy, Junction.

Master Raymond Phillips, tonsilectomy, Sheffield, Texas.

Miss Tommie Jones, tonsilectomy, Junction.

An Ode to the Llanos

The summer skies are bluest,
Where the fleecy clouds appear,
And the song-birds' notes the truest
When the mating days draw near;
While the brown on the distant mountain crest
Is forgot when nearer one sees
How they nurture upon their fertile breast
Those beautiful cedar trees.

And oh, how lovely the valleys,
Where the sky-kissed violets grow,
And the cypress and weeping willows
Shade the cool, clear streams below;
And the fragrance of flowers ascending
As they jewel the grass so green.
Great God! I alone seemed offending
With my presence that beautiful scene.

So I turned to the silent wild-woods
For they seemed more akin to me,
And I knew in their solemn solitude
My sadness no eye might see;
And lost in their depths I might ponder
O'er the hopes that are ever gone,
Alone, just alone to wander,
Sadly and wearily on.

—Donald.

Review of Junction Newspaper Published by Winslett in 1898

A copy of the JUNCTION CITIZEN, which was printed on June 21, 1898 was found in Heyman's Drug store last week and is the oldest Junction paper in existence as far as the writer knows. H. L. Winslett was the editor at that time. This issue was published during the Spanish-American war and contains the "latest news" of that war.

At this time also, considerable damage was reported to dams and flumes by high water.

The ads are very interesting, since some of the commodities advertised are no longer sold. Whiskey and other liquors were advertised then as much as our soft drinks are now. The paper is also rather unusual in that it contains no ads for automobiles, radios or any of our modern conveniences, and that was only thirty years ago! A brief summary of the ads follows:

T. C. Johnston, druggist.
Mrs. Boone, millinery.
G. K. Gordon & Co., general merchandise.
J. W. Graham, contractor and builder.

L. E. Richardson, saddle and harness maker.
T. C. Taylor, general merchandise.

Jeff Meredith, barber shop.
J. B. King, M. D.
S. A. McGinty, blacksmith and wheelwright.

Alex J. Hamer, general merchandise.
Billie's Saloon, "The Favorite Resort."

The Favorite Saloon, choice wines, liquors and cigars. Prices to suit the times. Good goods and honest dealing is my motto. Give me a trial and be convinced.

For Sale at a Bargain: Two houses, and two lots go with each house. Will sell all for \$500. Inquire at Citizen office.

W. M. U. PARTY A SUCCESS

The ladies of the W. M. U. of the Baptist Church are very well pleased with the results of the birthday party which they gave last Tuesday afternoon at Schreiner Park for the benefit of the Buckner Orphan's Home.

About forty dollars in cash and many nice articles of wearing apparel were donated. Two new warm quilts were made by the ladies and were sent to the home with the other

donations. Several interesting and entertaining games were played by the sixty women who were present. After the games, refreshments of ice cream and cake were served.

Everyone present reported a good time and are thankful that so many pretty and useful gifts were procured for the orphans.

Miss Gladys Luckey and Miss Karcher, of Temple, are guests of Mr. and Mrs. John Phillips.

Patent medicines were highly recommended and advertised at that time. One ad in particular, for a certain kind of pills, which were guaranteed to cure everything from dizziness to dyspepsia, including halitosis, stated, that no matter what the trouble is, one will do you good, and you get ten for five cents.

The county officials at this time were:

Judge, W. A. Spencer.
Treasurer, T. C. Johnston.
Sheriff and Tax Collector, J. L. Jones.

Clerk, W. G. Boyle.
Assessor, J. A. Browning.
Surveyor, W. T. Hope.

Commissioners, J. W. Turman, E. E. Bolt, W. A. Bannowsky, W. G. Moos.

Justices of the Peace, J. W. Turman and F. M. Adams.

A few locals from THE CITIZEN are:

J. A. Heyman left for Sonora last week in the interest of the New York Life.

Geo. W. Hardesty, the well driller, was in town making gay with the boys Saturday evening.

Arthur Lawler returned Saturday from Tampico, Mexico, where he has been the past ten months.

J. T. Wilson and Clarence W. Atchison returned from Kerrville Friday evening and report a muddy trip.

The following people were mentioned in various other news items: Thos. Black, from Red Creek, Sam Hunter of London, Felix L. Harrison of Johnson Fork, Peter Patterson, Prof. D. C. Broyles, Miss Gussie Bannowsky, G. W. Hodges and Little son, Raymond; Miss Lizzie Alley; Jas. Prentice; Maude Jones; Eva McMullen; Carrie Eppes; R. W. Bradshaw; B. F. Mogford; Frank Baker; H. E. Wilson; L. W. Joy; W. W. Taylor; Chas. T. Allen and Arthur Taylor.

HOLDS REGULAR MONTHLY MEETING OF THE C. OF C.

The regular monthly meeting of the Kimble County Chamber of Commerce was held at the Court House Tuesday night, August 28.

A fair sized crowd was present, but it was the slightest attendance the meeting has had since the 1st of January. For that reason it was decided at this meeting to postpone the regular meeting of the Chamber of Commerce until the third Tuesday night in November, and thereby give the members a chance to recuperate from the effects of hot weather.

Since January 1st the Chamber has put over each and every project it has undertaken, with the exception of the promotion of a progressive voting spirit among the people of this county which would culminate in the levying of a Fair Tax for Kimble County. We have believed, and do believe that the erection and maintenance of facilities for showing agriculture and livestock products in this county would be extremely beneficial to each and every person within its boundary, and we hope that this proposition will go over in the near future.

In order to maintain a compact and efficient Chamber of Commerce, it is essential that we have the co-operation of each individual member, as there is no place where the adage that "strength lies in unity" is so evident and material as it is in the Chamber of Commerce work.

At an early date the membership intends to make a drive for new members in order that the organization will be more complete and efficient during the coming year.

One of the most attractive features of the Chamber of Commerce is the band. With a little more practice, and some bright new uniforms, this arm of the organization will do as much or more to advertise our county than any other single piece of advertising that could be conceived of. We should give our every support, both moral and financial to the band boys.

Mrs. R. J. Motley prepared and served a most excellent supper for the above occasion, and she has our thanks for such admirable service.

In conclusion let us reiterate: Join the Chamber of Commerce; be an integral part of the greatest organization that exists within the limits of the county for the development and furtherance of the interests of all.

SATURDAY'S ELECTION

While the election was rather quiet last Saturday, the voting was a good deal heavier than was anticipated by many.

The total number of votes polled in the county was 1,379.

The candidates in the run-off in this county were, Sheriff and Tax Collector, Frank Patterson and Dee Gibbs. Patterson received 743 votes while Gibbs got 636; County and District Clerk was contested for by U. D. Kindrick and L. R. Hodges. Kindrick receiving 722 votes and Hodges 650.

The vote for State officers was as follows: Connally, 308, and Mayfield 587; Love 354 and Miller 503; Garner 244, Marrs 610; Robison 546, Terrell 306. This is the county vote with three boxes incomplete as to State officers.

RAINFALL OF 1 1/2 INCHES

Last Thursday night this immediate section was visited by a good rain, amounting to one and three quarters inches, coming at a time when the period of dry weather was becoming quite serious.

It had the effect of at least settling the dust for a few days, and also refreshing the growth of grass and weeds.

August 31st, last day for City Taxes.

NOTES ON VOCATIONAL AGRICULTURE

Our vocational agriculture teacher has made 14 farm and ranch surveys recently. One of the purposes of making these surveys is to help the teacher to determine the most important things to teach the boys in this particular community, and to enable him to make out his long-time program and annual teaching plan to suit the needs of the community.

Another purpose of making these surveys is to show the farmer and ranchman that the V. A. teacher is interested in their work, in his own work, and in the welfare of their boys.

Mr. Floyd Little has experienced a case which clearly demonstrates the need of seed selection, and with his permission it is being published.

He has about 1/4 acre of fine land under irrigation. This year he planted the patch in tomato plants that he knew nothing about, the age of the seed from which they were grown, the variety, the bearing qualities, or anything else. A few hills died and he replaced them with plants from the McGee tomato. He put in a lot of time and labor cultivating and irrigating his tomatoes and has found, to his disappointment, that none of the vines are bearing except the few McGee plants, and they are loaded down. He not only lost his time and labor but also the value of the tomatoes (probably \$75.00) that he would have grown had he selected the right kind of seed for planting.

Your boys are taught the value of seed selection in vocational agriculture.

TO THE CITIZENS OF JUNCTION

Having been asked by quite a number of citizens in regard of the new Waterworks, which the City is contemplating installing, I therefore make this statement, so that everyone interested can understand the situation in regard to the matter.

The City Council, through their attorneys, Messrs. Blackburn & Wilson, compromised the pending suit in the District Court, against the City, by buying the old water system for the sum of \$18,000, to be paid for in Water Works Funding Warrants, bearing 6% interest and becoming due from two to ten years. This Waterworks will not interfere with the new Waterworks, for which the \$55,000 bonds were voted. The old plant will be salvaged, and a perfect new plant will be installed as per the plans and specification made by the Municipal Engineering Co. of Dallas, Texas. An elevated tank near the Round Mountain will be installed from which large water mains will distribute the water.

Water will be supplied by wells, which will be fully tested as to its capacity and purity, before being used.

None of the bond money will be used for the payment of the old water system. Construction has been contracted for, and will commence as soon as the bonds are sold. Bids will be received for the sale of the bonds on September 4th, 1928.

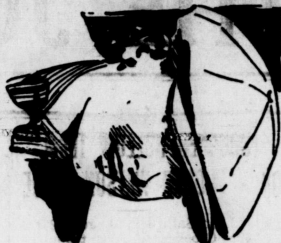

The City will take over the old water plant on September 1st, and the present water rates will not be changed until the new system is installed.

E. Holskamp, Mayor.

John Evans brought to this office Tuesday some of the products from his farm on the Orth ranch at Seven Hundred Springs. The products were a cushion weighing 27 1/2 pounds, and a pumpkin which weighed 24 pounds. These were grown without irrigation and the rainfall has been slight.

SCHOOL OPENS MONDAY---PREPARE NOW!

Come to our store to supply your every need for your Children during School. We have just received a complete stock of goods for the opening of School. You will find here everything for the Boy or Girl who is entering school—no matter what age. We have stocked Boys' Suits, Shirts, Hats, Caps, Shoes and Hose; Girls' Dresses, Hats, Shoes and Hose. All suitable for School Wear. Bring the School Children to our store for complete outfitting.

BIG MEN FROM SMALL TOWNS

Henry Ford is one of the outstanding mechanical geniuses of the age as well as perhaps the richest man in the world. Every dollar of Henry Ford's fortune has been earned by his own hard work and mechanical ingenuity.

Henry Ford was born in Greenfield, Mich., in 1863. He is one of the remarkable products of American small town life.

He learned the machinist's trade, and for some time was with the Edison Illuminating Company, where he gained the title of Chief Engineer.

In 1903 he organized the Ford Motor Company, and became the largest manufacturer of automobiles in the world, employing over 200,000 persons and turning out 7,500 automobiles a day. The great popularity of the Ford car was due to its quality combined with its low price. The inexpensive auto proved a great boon to the farmers of the country.

Ford has just brought out a new model which has excited wonder and admiration. He never rests on achievement. In order to bring out the new model, he had to spend millions to completely revamp his gigantic plant.

In 1914 Ford announced a plan of profit-sharing involving distribution of ten to thirty million dollars annually to employees. Ford has been a pioneer in paying good wages to all his help and looking out constantly for their welfare.

Ford maintains corps of social workers to look after his employees and their families, also legal and medical facilities free of charge to employees, and a school for the teaching of the English language. He built the Henry Ford hospital at the cost of \$7,500,000.

There is no waste motion at the Ford plant. Everything is done so efficiently that not a minute's time nor a scrap of material is lost.

Ford is a genius both as to the big undertakings of life and as to the little details. He is constantly in the public eye. But few know that the world's richest man hails from a small town in Michigan.

SOCIALISM IMPERILS ALL BUSINESS

Present efforts which are being made to put the government into the electric power business in different parts of the country, threaten the safety of all private business in America, declares Matthew S. Sloan, president of the Brooklyn Edison Company.

"Creating a government power monopoly would be merely the beginning," he says. "Do that, and you notify American business and the American people that the door of opportunity has begun to shut against them. You tell them that one business, a vital key industry, has been taken out of the realm of individual opportunity and has been socialized. What will that do to our American spirit? What will it do to American business—not alone that one which happens to be on the firing line now?"

"The spirit of men cannot be crushed by obstacles, so long as there remains the opportunity for achievement. But if the opportunity itself be narrowed—if there exists the prospect that it may become still narrower—the inducement to struggle is stifled at birth."

"The situation presents something for our consideration far bigger and broader than the future of the electrical industry, important as they may be to our country. There is involved a vital question of national policy, settlement of which must create a lasting precedent. Either this country is to remain what it has been—a land in which business is to be conducted by the people, and the

people are to be economically free—or it is to be changed to something else, something not contemplated by the founders of our government. All business is to remain free from government competition and absorption, or we are to find ourselves on the road to socialism of all business, which means destruction of individual rights, liberty and happiness as we have visioned and experienced them."

FIVE-CENT CIGARS

The five-cent cigar is being dressed up and is "coming back," according to a survey recently made in the tobacco field. Five-cent cigars today amount to well over fifty per cent of the total production.

so cut out some of your extravagance, if you must smoke, and join the partisans of the five-cent smokes. Some of the best sellers are being wrapped in cellophane, which gives them the "de luxe" appearance of higher-priced cigars and keeps them fresh and sweet. One company has found that after dressing up its five-cent cigars in this way that their sales have doubled.

NOTICE

On September 1st, 1923, at 2 o'clock p. m., at the Court House in the town of Junction, I shall sell to the highest bidder for cash, what is known as the Copperas school house. Re-

serving the right to reject any and all bids.

EFFECTS OF THE LIANOS

It is sometimes amusing to note the different effects that the atmosphere of the Llanos has on different types of people. For instance, it has been noted that some of the boys who visit the Llanos immediately become wild Indians or cow boys; while some of the girls attempt, as near as possible, to emulate Mother Eve; some have been known to imagine they were hunters and fishermen, and therefore privileged characters, permitted to violate all the game laws and get by with it; while the great majority remain mere human beings, out for a real vacation.

But the unusual effect of the atmosphere of the Llanos is portrayed in a poem by a visitor some weeks ago. The poem appears on the front page of this issue; read it and judge for yourself how some may be effected.

PARTY

Mrs. A. S. Rieck entertained a few friends with a bridge Monday evening at her pretty home. Bowls of cut flowers and greenery made a bright note of color in the attractive rooms. The tallies and score pads were decorated with old fashioned girls.

Mrs. H. G. Hubert made high score and received a dainty hand-made sachet trimmed with hand-made organdy flowers. Mrs. C. R. Stevenson won the second prize, a ship wall vase, while the consolation, a miniature monkey, filled with perfume, went to Mrs. P. Joseph. These prizes were wrapped in layers of pink and blue paper, and ribbon tied. Little glassine bags of bath salts in pastel tints were presented to each guest.

Fruit salad on lettuce leaf, topped with whipped cream and apple roses, sandwiches, fruit punch, chocolate cake, sunshine cake and stuffed dates were served to Mesdames H. W. Rieck, R. H. Spiller, A. L. Mudge, C. R. Stevenson, A. W. Loeffler, U. D. Kindrick, P. Joseph, H. G. Hubert, S. P. Woodward, Carl Wolf and Misses Mary Spiller and Olive Chadwell.

Pay City Taxes August 31st
—last day.

PICNIC

The members of the Friends Class of the Methodist Sunday School and a number of friends enjoyed a picnic at Patterson's Park Monday evening.

After a picnic supper of fried chicken and all the trimmings, the crowd was divided into three groups and three leaders, Cecil Craven and Misses Myrtis Merrill of Kerrville and Cecelia Merchant, were chosen. Each group presented stunts. Miss Merrill's group pantomimed "Ramona." They received a package of dates for the best stunt. Cecil Craven's group gave a wedding; their reward was a package of rice for use in future weddings. Miss Merchant's side staged a horse race; they received an onion for putting on the most dangerous stunt.

Those present were Misses Audrey Blackburn, Cecelia Merchant, Myrtis Merrill of Kerrville, Clara Fritz, Eleene Newby, Natalie Lowry, Blix Hankins, Jamie Gardner, of Sonora, Dorothy Ann Mynette of Dallas, Mary Hubert, Ruby Johnson and Ray Munn and Ramsey Randolph, Guy Munn, Doc Scott, Vic Urban, Alton Mason, Cecil Craven, Lanan and Bob Bissett, Mr. and Mrs. E. R. Borden and children and Mr. and Mrs. R. T. Slaughter of Denton.

DANCE

Bob Motley entertained a number of the younger set with a dance Saturday evening at the Hodges Hotel.

Those present were Misses Betty Butland, Elizabeth Summers, Clara Fritz, Vivian James, Flossie Boone, Blix Hankins, Virginia Strong, Mildred Hodges, Lucile Motley and L. T. Richardson, Shorty Taylor, Dillard Motley, La Rue Newby, Lonie Ragland, Lemuel Jones, Ned and Don Maddox, Mr. and Mrs. Ed Allen, Mr. and Mrs. Brown King of San Angelo, and Mesdames S. S. Bundy and A. L. Mudge.

SHOWER

Mrs. Robert Loeffler was given a surprise house-warming on Tuesday afternoon at her new home.

Mrs. Loeffler was the recipient of many pretty and useful gifts for her house. A program of readings was much enjoyed after which ice cream and cake with pretty favors were served to Mesdames A. P. Urban, B. B. Ragland, E. O. Logren, B. L. Smith, Curry, L. A. Jetton, Boyd Jetton, Terry Jetton, Clarence Jetton, L. R. Hodges, Odie Wright, Minnie Barnes, of Brownwood, Misses Stella Whittle, Lillian Kindrick, Paralee Linn and Madelle Lowry.

ENTERTAINS CLUB

Wednesday evening at her home. Mrs. John Martin gave a bridge for the Ladies' Afternoon Card Club and a number of friends, with Mrs. Rowland Martin as honoree. The party was given on the lawn which was lighted with electricity, and provided an attractive setting for the players.

Mrs. E. O. Holekamp won the Ladies' Afternoon Card Club prize, a hand-made guest towel. Mrs. U. D. Kindrick received

the guest prize, a corsage, and the honoree, Mrs. Rowland Martin, was presented with a Paul Revere lemon fork. A box of cigars went to Mr. A. L. Mudge, who made men's high score; the consolation, a memorandum pad, was presented to Mrs. Roy Williams.

Potato salad, saltine wafers, olives, iced tea and cake were served at the close of the evening.

Ewes and lambs for sale; you may buy either or both. Ewes range from 2 to 7 years of age. 20-tfc
Robert Hunger.

TO THE VOTERS OF KIMBLE COUNTY

I desire to take this method of thanking each and every voter in Kimble County for their loyalty and hearty support tendered me in the recent primary election.

I have no ill will against anyone who opposed me, and I intend to give to each and every voter of Kimble County fair and impartial treatment in the exercise of my official duty.

Again thanking you sincerely for your support and influence. I am

Your friend,
Turk Kindrick.

JAMES MUNROE SMITH

James Munroe Smith was born in Burnet County, April 11, 1875. He was brought by his parents to Kimble County in 1877, and has made his home here ever since. Apparently in good health he was taken suddenly ill at about 11 o'clock on the morning of August 16, 1922. The attack did not appear serious, but late in the afternoon

he became much worse and died at about seven o'clock. Funeral services were held the following afternoon at the Junction Cemetery, Rev. Milton F. Hill, pastor of the Methodist Church, officiating. Mr. Smith had for many years been a member of the Methodist Church. He had for many years the sole care of his mother, Mrs. M. A. Smith, aged 90 years, who survives him. He is also survived by his brother, Jesse Smith, of San Antonio, a half-brother, J. W. Smith, of Junction, and a half-sister, Mrs. Maggie Mills, of Weed, New Mexico. Six sons survive him: Elbert, Orion, Chester, at present serving with the Marines, Munn, John and Daniel.

He had many friends in and near Junction who held him in high regard for his kindness of heart and generosity.

Only a few days before his death he had expressed to several friends a determination to renew the loyalty and allegiance of his religious life. He was

a hard worker, and will long be remembered for the devotion and care he showed his aged mother.

Dr. L. E. Standifer has been ill for the past two weeks with the "flu."

Mr. H. G. Perry and son, without Wright, are visiting here this week.

Mr. and Mrs. Sanford Roe and family and Mr. Roe were Menard visitors Sunday.

FOR SALE—Upright piano. See Mrs. T. M. Hodges, phone 44. 19-4c

Mr. and Mrs. A. W. Loffler and Mrs. Ada Dockery spent Sunday in Menard.

For dressmaking and designing, see Mrs. B. Babb, or phone 211; prices reasonable. 17-8p

E. A. Loeffler returned Monday from Alpine where he visited his wife and sons, Louis and Reuben.

Mrs. Roy Blackburn, Miss Audrey Blackburn and Howard Blackburn visited Mr. and Mrs. W. A. Quisenberry in Menard Sunday.

Madames J. A. Browning, Joe Ramsey and Lucy Motley and Miss Stella Whittle attended a meeting of the Rebekah Lodge in Menard last Thursday evening.

Mrs. Pearl Chadwell left last week for a visit in San Antonio before taking up her duties as director of the Woman's Building at the University of Texas in Austin next month.

Mrs. Charles W. McCarroll announces elsewhere in this issue of the Eagle the opening of a music class. Mrs. McCarroll is recently of San Angelo where she was directress of the primary and junior orchestra in the First Baptist Church of that place, and was also assistant pipe organist in same church.

75 CORDS OF WOOD WANTED for Junction school. Those interested in submitting bids see E. R. Borden for specifications. Bids will be received until September 4, 1928.

Board of Trustees, District No. 1. 19-2c

TO OPEN MUSIC CLASS

Mrs. Chas. W. McCarroll, teacher of piano, harmony, theory and history of music. Degree in music from Baylor University, Waco, Texas. Student of piano, Schimmelpenninck Hofmann, C. Professor New England Conservatory of music.

Voice, Harry Spavell, and Zuma Wallace.

Class open for limited number of pupils.

AN APPRECIATION

I wish to extend my thanks and express my appreciation for the support given me by my friends for their votes in the voting boxes all over Kimble County on August 25th.

I have not command of language to say how much I thank you or tell of my appreciation. As a native born son of Kimble County, I am very proud of having been the first one to have been elected to fill the office of Sheriff and Tax Collector from among Kimble's native sons.

Yours respectfully,

Frank Patterson.

REAL RANCH LAND

7300 acres, known as Williams, or Hays City Ranch, near San Marcos. Nearly all black land; some honey comb, some red flint; all mesquite grass, fine live oak and other brush and timber. The finest kind of virgin sheep and goat range and mighty hard to beat for cattle. Plenty of tillable land; very little cedar. 1 1/2 mile river front. If you enjoy looking at good land you will never regret the time spent in looking at this place. For about thirty days I am offering this ranch as a whole or any size tract at very low price and good terms. If not sold I will give good lease. Hurry.

A. B. Vogt.

Boerne, Texas.

Office in Masonic Bldg.

THE BENEFITS OF HIGHWAYS

Highways are an investment that pays real dividends and shows profits, according to Frank Page, chairman of the North Carolina Highway Commission. In a recent speech he showed what benefits have come to that state from its fine roads.

As the first item, Mr. Page listed relief to towns and counties and savings to road users, through reducing wear and tear and losses.

Second, educational opportunities.

Third, the rapid, cheap and safe transportation of agricultural products.

Fourth, factories avoid congested centers and labor needs no tenements in town.

Fifth, increased accessibility of resorts and places of scenic interest.

Sixth, the appeal good highways make to potential residents.

Seventh, social advantages, by doing away with isolation.

These are highway "dividends" that are paid in every state and every locality. A community that neglects building good and adequate roads is condemning itself to mediocrity and retrogression.

You want your land abstracted; then you had better see E. Holekamp; he has complete index of all County lands. (adv)

Will open my piano class September 3rd. Those interested please communicate with me. 19-2c Mrs. Irene Brown.

Abstracts for your lands can be secured on short notice from E. Holekamp. 25 years in business; we know how. (adv)

John Moody studies and thinks, and predicts five more years at least, of rising values and prosperity. "The old breeders of financial panic that brought on the crises of 1893, 1903 and 1907 have disappeared."

"We are living in a new kind of America, with a new kind of prosperity. America's world of today is not the world of twenty years ago," says Moody. "If you were feeling gloomy, cheer up."

Many are prosperous. NOT all. Barney Deboka, having vainly hunted a job, stood at a restaurant window, watching a woman turning butter cakes. He fell in a faint and doctors are treating him for starvation.

Great is the power of civilization, training a man so well that he stands watching food until he drops of hunger rather than steal. Man is a teachable animal.

Delegations of college men from different parts of the United States will record their voices on talking machines that scientists may study "American dialects."

The main thing is that all of them are understood from New York to San Francisco.

In Europe, traveling 3,000 miles from Oslo to the south-east, you would hear Norwegian, Swedish, Danish, German, Czech-Slovakian, Hungarian, Rumanian, Bulgarian, Turkish, Greek and, in Egypt, Arabic, twelve different languages in a 3,000-mile trip, and not hear one-half the languages that Europe speaks.

Europe feels the need of an "inter-language." The sensible thing would be to make that language English, that all waiters and clerks need, and nearly all educated Europeans know.

National pride prevents that. So why not use Latin, once the universal learned language, making it possible for Erasmus to speak to Henry the Eighth; for all learned men in Europe to talk to each other through their books? Nothing could be more hideous than a made to order language.

Russia names a dictator, with absolute power over crops, their production and distribution.

Our farmers will watch that experiment for the benefit of producer and consumer, but will not want any crop dictator here.

The thing that reconciles a farmer to his lot is the fact that he is his own boss.

Tell him that others must decide what he shall plant, what price he shall ask, and he will join the crowd to the cities.

Men do not farm merely for profit. They farm because land ownership and management, plus independence, give them intense pleasure. If profit were the only inducement, there would be no farmers.

An old gentleman, aged 104, arrived from Lithuania to see

this country. He said he didn't believe in "spending all your life in one place," so he only lived 104 years in Lithuania. He danced a gig for reporters, said he had given up tobacco eight years ago, but "never found that liquor ever hurt anybody."

He will change his mind if he tries certain brands on sale in this country.

A WELL ICED REFRIGERATOR SAVES MUCH FOOD

"Milk at all times is one of the best possible foods for the child," states Dr. Herman N. Bundesen, president, American Public Health Association. "But during summer weather the milk supply must be watched carefully. Probably the greatest cause of intestinal disturbances in childhood is the use of spoiled milk. In most cities milk is safeguarded, both through testing cows and thorough pasteurization. But all such care along these lines will do no good unless the milk is handled properly after it reaches the home."

"It must be kept in a cool, clean place and the bottles must be kept covered and free from contamination. It is wise to get a fresh supply of milk for the younger child each day. For children up to two years of age, the milk should be brought to a boil before using. Handle milk properly and it becomes a good food with no element of danger."

"Other foods, such as fruits and vegetables also spoil quickly in the summer time. Food spoils because of the action of bacteria upon it and hot weather favors bacterial growth. A good ice box, well supplied with ice, is one of the best health measures in hot weather for young and old."

"Vegetables and fruits also dry out quickly in hot weather. Vegetables should be wrapped

in a damp cloth, placed in the ice box and used as soon as convenient. If possible, fruits should be used the same day as purchased. A great number of fruits are obtainable and there is no need of buying more than one day's supply at a time. Meat and eggs also spoil quickly in hot weather and the same care must be taken with them as with milk, fruits and vegetables."

GREAT ROAD-BUILDING OUTLAY

An estimate issued by the American Automobile Association places the probable outlay for highway construction in the

Bleeding Gums Healed

The sight of sore gums is alarming. Reliable dentists often report the successful use of Leto's Pyorrhea Remedy on their very worst cases. If you will get a bottle and use as directed, it will return money if it fails.

DR. FRANK CRANE SAYS:

Impulse
Miss Jackson, after eleven years' experience at San Quentin State Prison, declares that women criminals are the victims of uncontrolled impulse rather than of a physiological leaning toward crime.

"There is no criminal type among women prisoners," she says. "Crime among women generally follows an uncontrolled impulse in which women leave the usual path of life to make a detour into crime without thought of the results that follow."

It appears from this that self-control in all emergencies is the virtue most needed.

The writer was once a prison official and frequently visited the State Prisons of Illinois. He was surprised to find that the vast majority of the prisoners were usually committed on a sudden impulse and a man need not be a hardened criminal to be guilty of this crime.

Of course there are some people who are simply lacking in moral sense. Their whole tone of morals is low and all they need to commit a crime is the opportunity.

But all of us are potential criminals when it comes to impulse, a sudden surging of passion or some overwhelming desire.

Parents should learn from this that the most necessary lesson to teach children is self-control. Children do not need so much to be taught obedience as to be taught how to obey their own better selves.

Anyone who finds his passion too strong for him and who loses his sense of restraint when the influence of them is danger of committing any crime.

Self discipline may be very hard; to people of strong emotions it is sure to be hard.

But is none the less essential. Most lawsuits would be avoided if people would control themselves and could learn to be good sports and take their losses without yielding to a desire for revenge.

LOOKING DOWN FROM THE CLOUDS

More and more air travelers are viewing the ever-changing panorama from on high.

The massive hydro-airplanes of the Cuba-America Airlines operating between Miami, Florida, and Havana, Cuba, and between Palm Beach and Havana give passengers the benefit of large windows, and they use a transparent plexiglas pane, which is preferable to glass. These ultra-modern flying boats are used on the first international service from the American continent operating hydro-airplanes on regular schedules. Seating accommodations for ten passengers are provided in the forward section and six more passengers may be seated in the roomy and comfortable individual chairs of the drawing room in the rear cabin. Alongside each seat is a large porthole affording clear view of the vast space of ocean over which the trips are made, and of interesting and fascinating sights as the planes leave and approach port.

TELEPHONE GROWTH RESULT OF RESEARCH

Fifty-two years ago there were two telephones in the world, both of them inventor's models. Today the United States alone has more than 18,000,000 and the world's total surpasses 29,000,000.

The public has a fair understanding of the more concrete facts of telephone progress; of the extensions, the gradual perfection of the mechanics of transmission, of the constantly bettered service.

It knows less of the intensive research, behind the scenes, that has made our telephone history possible.

The industry has taken the

best science can offer to solve step by step the many problems that have presented themselves. Perfection of the telephone art, or any other, can only be reached by the most meticulous and exhaustive experimentation.

No difficulty, no matter how imposing, can discourage these workers of progress. And in half a century they have paved the way for transforming those first two rude instruments into a gigantic industry absolutely necessary to modern life and business.

Today 3700 people make up this laboratory division. We have seen fruits of their labors recently, in television, and transatlantic telephony. Every citizen, whether he uses his telephone to settle a party thousands of miles away, or to make a date to play golf with Jones down the street, owes them a debt.

ABOUT YOUR HEALTH

(by John Joseph Galina, M. D.)

Just Work
Regular, legitimate toil never harmed anyone. We often hear of "overwork" being a cause of break-down mentally and physically; but, when we look carefully into the matter, we find the victim, long prior to his invalidism, wrecked the machinery of his body by improper feeding, irregular sleep, and unsystematic exercise.

Can you imagine a tubby, swivel-chair club-ridden gormandizer, getting exercise from a ride in an upholstered automobile, and three hours a week devoted to panting around a fancy golf course, where he does his heavy-ballooning carcass more harm than good. Wouldn't you think he is about fifteen years too

Our Bread Speaks For Itself!

And, boy, it says a mouthful!

THE "WRIGHT" WAY TO HEALTH

late with his "exercise"? There is no hope of long life for that sort of man—absolutely none! He is in danger every moment he exists.

One thing our city business men should remember: There is a vast difference between "good business" and right living. My idea is, there is nothing that pays quite so well as a rigorous adherence to proper care of the body. It is a shame that we violate every law of diet, sleep, and exercise—die young—and put the blame on over-work. Does Providence remove the man that commits suicide?

I knew a man who worked in a stone-quarry on his farm until he was nearly eighty. "A freak," you say. No, you are the freak! This man ate regularly, never sat in a swivel chair in his life; when tired, he rested. He had his full allotment of fresh air; he slept eight hours every night; he ate just what he wanted and no more. He died at eight-two—and he didn't die of overwork. His was a perfectly natural death.

Junction Trade Notes

M. C. White has marketed through Gann Grocery Company \$20 worth of green beans, which represents the crop from one 20c package bean seed. He has done proportionately well from his planting of bell peppers. It is not all velvet, however; there was considerable work involved in the planting and harvesting.

Mr. Morgan, recently of Menard and Globe, Arizona, has opened a saddle shop in Junction, being located in the Wilson building south side of square and is already at work making saddles. J. W. Johnson, recently of San Angelo, has opened the Junction Plumbing Company in the Wilson building. His family will join him here later. W. B. Arnold, formerly a citizen of Junction but has lived the last 22 years in California, has leased for a term of years a portion of the Hunger property abutting the South Llano ten miles southwest of Junction and has started construction of a tourist camp. He intends to erect as many as 25 cabins, which he will have open for next tourist season.

George Brown of Lampasas was scalded to death in a geyser of Yellowstone national park. He was leaning over the edge of the pool and fell in. Nothing like that could ever happen on the Llanos, the summer playground of Texas.

Found: Hub cap for Dodge car. Owner can recover by applying to Gann Grocery Company.

George G. Murray of San Antonio, vice-president Standard Trust Company, with his family, is registered at Fritz Hotel and vacationing on the Llanos.

Mr. and Mrs. Albert Becker, who conduct the popular Becker boarding house in Junction, are enjoying a vacation in camp on the main Llano and will be A. W. O. L. most of the week.

Fresh shipment hams and bacon received weekly at Gann Grocery Company. You can buy a whole ham or a half, and know it is fresh.

Considerable mohair, 20,000 pounds or more, first of the fall clips, were unloaded at Junction wool warehouse during the week. Wool growers report the fall clip as turning out satisfactory.

Fresh shipment prunes in packages, also prepared prunes in tins. Gann Grocery Company.

U. S. Dept. of Agriculture, under date Aug. 27, makes the following forecast, in substance: A continuation of present 'active demand' for beef cattle, with sensational price declines, is expected. Prices, the report said, would remain at "approximately present levels" rather than a continuance of the upward trend which has characterized the market since 1921. Other factors named by the department as likely to maintain present prices are the anticipated lower supplies of pork and an increase in the consumers' purchasing power.

LONDON LOCALS

Our teachers, who have been attending the State School at San Marcos, have returned and are now ready and better prepared to discharge their duties the coming year. Those from this school attending the State Normal were Miss Victoria Brewer, Miss Lola V. Cummins and Miss Goldie Brewer.

Mrs. Ely Hodge of San Antonio visited her parents, Mr. and Mrs. Henry Wadell, last week.

Our latest news item is that the D. G. Adams Telephone system has changed hands, and D. G. Adams contemplates moving. We regret to lose these good people.

Mr. W. P. Riley of Junction State Bank passed through our

town the 21st on his way to Fredericksburg, stopping in to see us just long enough to say everything is O. K. over Kimble County.

Mr. E. I. Cummins and Mr. C. E. Weaver purchased three fine bucks from Joe Bishop this week.

Mr. E. H. Kothmann and son, Rankin, had business at Junction the 22nd.

The Chamber of Commerce held an interesting meeting on the 21st. Some questions of interest were discussed, and some steps taken to secure desired results. It did not seem that all was well to hold a meeting for the general welfare with-

out the presence of F. Cummins. We shall expect his presence and co-operation in the future.

Mr. N. Henderson left the 22nd for his home after several weeks visit with relatives here. Mrs. G. T. May is spending a few days vacation in San Antonio, while G. T. and Mrs. W. L. Amaon and sons, George May and Pat, visited in Blanco.

Lack of space caused us to fail to mention the many visitors to our town during the revival, but among them were Mrs. C. M. Young and Mr. W. H. Alexander and family of San Angelo, Mr. and Mrs. Lucky Allen of Aspermont were guests

at the home of Mr. and Mrs. E. W. Brewer.

The writer had the pleasure of visiting the home of W. L. Kothmann last Friday. Walton has an ideal ranch. C. R. Robinson was drilling the third well on this ranch. We had the opportunity of seeing the drilling machine in operation and can say it is the smoothest running machinery we ever saw at work, besides most all the heavy labor is performed by machinery.

The Menard Lion's Club will come to Junction September 7th on a goodwill visit. They promise to render a program. Music by Menard band, speaking and other numbers will be on their program. Everyone is invited to attend. It will be free to all. They will entertain at the Community Hall the night of the 7th.

The delegation of business men and others who met the general superintendent of the West Texas Utilities Co. at Fredericksburg on the 24th for the purpose of interesting that corporation in supplying this town with an electric current report that their request was promised favorable consideration some time in the near future.

Mr. and Mrs. Howard Horn attended church at Mason Sunday.

In giving the vital statistics for 1927 the San Antonio Light gives the statement of birth of 45 sets of triplets, 1920 pair of twins, and the birth rate at nearly double that of the death rate for Texas. Hurrah for Texas.

The primary is over. Let's now settle down to build a better and greater London and become more useful citizens of Kimble County and the State of Texas.

Mr. and Mrs. Robert Fritz market butter, eggs, friers and vegetables each month to the amount of \$65 to \$80. Another case of little things that prove a source of thrift.

I close with a quotation from Theodore Cuyler, D. D.: Often the most useful Christians are those who serve their master in little things. He (God) never disposes the day of small things, or else he would not hide his sturdy oaks in tiny acorns, or the wealth of a wheatfield in bags of little seed.

Thus we close with the

thought that it is the small things in every phase of life that count.

CAMP

Mr. and Mrs. Hubert Furr chaperoned the Gleaner's Class of the Methodist Sunday School

on a camping trip last week. Those who enjoyed the outing were Misses Lucile Motley, Nevada Blackburn, Elsie Bennett, Louise King, Ruth Sandherr, Paralee Linn, Audrey Blackburn.

DOES YOUR CHURCH NEED THE MONEY?

Read our Mutual Self-Help Plan

Religious and Civic Organizations of Junction are to share in the profits of **SCHREINER-HODGES CO'S.** Large Dry Goods Department

As all of us are vitally interested in Junction and want to see and help our school and churches increase their scope of usefulness, we have decided on the following plan:

Beginning Saturday, September 1st, and continuing for seven consecutive Saturdays, we will give 5% of our cash sales on each Saturday as follows:

Saturday, Sept. 1, to Junction Baptist Church
Saturday, Sept. 8, to Junction Methodist Church
Saturday, Sept. 15, to Junction Church of Christ
Saturday, Sept. 22, to Fannie Dupuy Memorial Church
Saturday, Sept. 29, to Junction Episcopal Church
Saturday, Oct. 6, to Junction Parent-Teachers' Assn.
Saturday, Oct. 13, to Junction Cemetery Aid

We trust that all our schools and churches will co-operate with us on these days and make our Cash Sales as large as possible. We are for Junction first, last and always. So come ahead everybody and spend your money at home and with your home merchants. We appreciate it, and it will help Junction, the town you live in. By helping your home merchants you keep your money at home. When you send your money away from home it certainly does not help the town you live in and the town you should be interested in. We have a large stock of merchandise at all times to select from and can always supply your needs.

Our prices are always right. We buy our goods in large quantities and pay cash for them. By so doing we can always save you money. We sell everything that is to be found in a first class, up-to-date store.

We ask you, one and all, to boost this plan and everyone can help Junction and its churches and schools. Let's all boost it and put it over BIG for each church and school in Junction.

ICE, in a good ice box, pays for itself many times over in the saving of food, with its precious flavors intact. Ice keeps food in prime condition.

Not only is ice the cheapest refrigerant known, but it is the only refrigerant that constantly and automatically eliminates food odors and impurities. These are carried to and deposited on the ice cake, then out they go, through the outlet! The value of ice in safeguarding health is too great to be expressed in terms of dollars and cents.

Use ice freely—it pays big returns on a very small investment.

Borden Ice Company

Labor Day

On this day we pay tribute to the dignity and nobility of labor.

Labor is the backbone of the nation, the factor that builds our resources and provides our citizens with the necessities of life.

It is to the drawers of water and the hewers of wood that we all must be grateful for the prosperity which this country enjoys.

The habit of saving is the laborer's greatest asset. It protects him from want and dependence in old age.

We welcome new accounts, which may be started with one dollar.
