NUMBER 277

O'Daniel Tax Proposal Is Introduced

Committees Asked
To Consider Bill
By Representative

AUSTIN, Jan. 25 (AP).—An uproar over certain of Governor O'Daniel's appointments broke out afresh in the senate today with Elster M. Haile, tax-commissioner-designate, the target of Senator Joe Hill of Henderson.

Hill charged Haile was a resident of Kingman, Kansas. O'Daniel's former home. Senator Clint Small, Amarillo, countered with arguments Haile lives at Hereford.

Later the senate confirmed Harry Knox, Brownwood, as adjutant general.

The governor's transaction tax proposal was introduced by Representative Alfred Petch, Fredericksburg, who said he does not favor the bill but believed committees should consider it along with his proposed one and one half per cent sales tax.

Highway Commission Accepts Ector Share Odessa-Kermit Road

(Odessa News-Times).

ODESSA, Jan. 25. — The Texas Highway Commission late yesterday accepted Ector county's 26.15-mile portion of the Odessa-Kermit highway, to hard-surface and maintain, thus bringing to a close one of the hardest four-year highway battles this city has ever seen. Action was taken after an open hearing at which County Judge A. H. Dennison and three members of the Commissioners' Court appeared and presented a plea for immediate acceptance of this county's share of the route to prevent further deterioration of a road which has been in use since last spring.

The move for a direct route from Odessa to Kermit giving easy access to the Winkler county and New Mexico oil fields, was started here in 1934, and the present County Judge was a member of the original committee which started promotion of the route, forming a local highway association for the purpose.

For a number of years it was not possible to interest the state in the project, and it seemed doomed. With the increase in oil business, however, and the centralization of oil company and supply headquarters in Odessa, the necessity for such a road increased to a marked degree. The project appeared doomed in 1937, when Midland county and others started a move for a cutoff from Midland through Ector and Winkler counties, to connect at Orta with a direct route to El Paso. Favored at that time by the chairman of the highway commission, the cutoff seemed certain to go through. The project was delayed, however, and when on May 24 of 1937 this county voted bonds in the amount of \$135,000 by 12 to 1 to build its portion of a direct route between Odessa and Kermit, the project took on new life.

Difficulties were still encountered, however, as Winkler county favored the Midland-Kermit route, and refused for some time to build a road to meet the one from Odessa. The situation was a stalemate for the next year or more, but Ector county started work and built the first section of its road, to within five miles of Goldsmith. This section has been in use since the spring of 1938. Contract for the second stretch of the Ector county road, from a point south of Goldsmith to the county line, was let some time ago to Brown & Root, and they are now working on the roadbed. The state at the last highway commission hearing, agreed to take over the Odessa-Kermit road if Winkler county would meet the Ector road, and when both roadbeds had been completed.

PTA City Council To Meet Thursday

PTA City Council will meet at the high school auditorium Thursday morning at 10 o'clock, officers have been announced.

All PTA presidents and representatives, as well as others interested, are invited to attend.

BACK FROM WEST COAST.

Mr. and Mrs. Harry Adams have returned from a trip to Los Angeles and other west coast points.

OCTET CLUB TO MEET

Octet club will meet with Mrs. M. L. Weatherall, 1611 Illinois, Thursday afternoon at one o'clock.

HERE ON BUSINESS.

O. P. Luther, El Paso, a former resident of Midland, was here today on business.

The Sea Parted Them

Separated by the forced Atlantic landing of the flying boat Cavalier was this Lincoln, Neb., couple, Mrs. Donald Miller was among those rescued. Her husband, right, was one of three missing.

Allege O'Daniel Appointee Not Resident of the State

AUSTIN, Jan. 25 (AP).—Truett Smith of Tahoka, district attorney of Lynn county, today was appointed state life insurance commissioner by Governor O'Daniel. He will succeed R. L. Daniel, appointee of former governor Miriam Ferguson.

The governor also announced the appointment of W. C. Jackson, Fort Stockton, as judge of the 112th district.

AUSTIN, Jan. 25 (AP). — State Senator Joe Hill of Henderson charged in a statement Tuesday that Elster H. Haile, appointed by Gov. W. Lee O'Daniel as state tax commissioner, was a resident of Kansas instead of Texas.

The attack was the second launched against nominees of the new governor, himself a former Kansas resident. Some opposition has appeared to a third.

Organized labor fired protest at O'Daniel's choice for labor commissioner, Joe Kunschik of Austin, alleging he was a member of a company union. Objections also have been heard against the governor's selection for chairman of the highway commission, Carr P. Collins of Dallas.

All must be confirmed by the senate, which so far has not scheduled consideration.

Hill said he had information from a "wholly responsible source" in Kingman, Kans., that Haile was a resident of Kansas.

Haile brushed aside Hill's comment with an assertion he was a resident of Texas and had been for 27 of the last 35 years. He said he was the only authorized delegate from Deaf Smith county to the last democratic state convention in Beaumont and had paid his poll tax in Hereford, Tex., but had not voted there recently.

Governor O'Daniel, asked about Haile's residence, said he understood Haile had lived in Texas for a long time and referred questioners to the nominee.

Hill exhibited a telegram which said:

Four-County Singing Will Be at Lamesa

The Dawson, Howard, Midland, and Martin county singing convention will be held at the missionary Baptist church at Lamesa Sunday, according to information from the president, Sidney Cross. Singing will open at 10:30 o'clock in the morning and continue until 4 o'clock in the afternoon.

All singers and singing classes are invited to come and bring their books.

Several quartets are expected to attend and take part on the program.

TO CALIFORNIA.

Fred S. Wright left last night for Sacramento, Calif., upon receipt of news that his father, Thomas Wright, was critically ill. He went from here to El Paso on the train and took a plane this morning to continue the trip.

Report 2,000 Chileans Die In Earthquake

Conception Said
Damaged Heavily;
Relief Speeded

SANTIAGO, Chile, Jan. 25 (AP). — Three Chilean military planes sped south today to check unconfirmed reports 2,000 persons had been killed in the Conception area by a midnight earthquake which shook a 400-mile strip of Chile's coast and shattered communications.

Conception is a city of 77,000 inhabitants 250 miles south of Santiago.

President Pedro Aguirre Cerda and several cabinet members departed for the quake area on a special train carrying physicians, nurses and medical supplies.

Forty per cent of Conception's houses were reported demolished. Early reports accounted for 14 dead.

Lewis-Louis Bout Scheduled at Nine

NEW YORK, Jan. 25 (AP). — Heavyweight champion Joe Louis today weighed in at 201 1/4 pounds for his 15-round title bout with light heavyweight champion John Henry Lewis tonight at Madison Square Garden. Lewis weighed in at 183 1/2 pounds.

The fight will be broadcast over a nation-wide broadcast at nine o'clock.

Traffic Problems Are Explained at Lions Club Lunch

Devolving the entire program at its regular weekly luncheon to "Traffic Problems," the Midland Lions club had as its guest speaker today noon Traffic Officer Manning Manning who delivered a highly interesting and educational address as to the traffic situation existing in Midland and elsewhere.

The speaker, quoted figures on traffic accidents and fatalities and said that accidents are caused and do not just happen. He said that the traffic problem is the major police problem today and yet funds and equipment for traffic education and enforcement are the most limited of any police department.

In discussing the local traffic situation, Manning stated that Midland is 40 years behind time in traffic and general law enforcement, a police station being the major need of the city in this regard. One officer for each 1,000 residents, several police cars and a police radio station were among the other local needs cited by the speaker.

Drunken driving, disobeying stop signs, rain, speeding and defective cars were cited by Officer Manning as the major causes of all traffic accidents, education and enforcement being the most effective remedies.

Two new members were elected to membership in the club today, the new members being J. B. Kelly, manager of C. G. Morris and Co., and H. N. Drake of the Drake Motor Co.

Lions J. P. Butler, T. L. Morgan and Butler Hurley were appointed to the program committee for the month of February.

Following the luncheon, members were the guests of school officials in inspecting the new gymnasium and the various school departments house din the new \$75,000 structure.

Guests at the luncheon today noon included Lion Bennie Estes of Mineral Wells, Dr. H. P. Bybee of Austin, Tom H. White of Lubbock and M. A. Cook, Coach of Lubbock, Glenn Roberts and C. A. McClintic of Midland.

Miss Bee Neal was introduced as the new Lions Club Sweetheart, succeeding Mrs. De Lo Duquesne.

The luncheon was served by the members of the West Side Home Demonstration Club.

Christmas Seal Sale Still on

Proceeds from the sale of Tuberculosis Christmas Seals this year are running below that of last year, according to Mrs. Nettie Romer, sales executive.

It is still not too late to contribute to the Seal sale fund for fighting tuberculosis, Mrs. Romer said. All persons who have received seals and have not sent in the money for them are asked to mail their contributions as soon as possible to the county health board or to Mrs. Romer personally.

Garner Urged to Run for President

LOS ANGELES, Jan. 25 (AP). — A message signed by 500 Los Angeles admirers was sent to Vice-President John N. Garner today urging him to run for president in 1940.

Advance Continues—

INSURGENTS ENTER BARCELONA

Blasting at Barcelona

of a battery of Nationalist General Franco's artillery hammering at Barcelona's gates, this big gun symbolizes imminent capture of Spanish Loyalist capital

Montecito Oil Firm Buys Stinson Plane

Purchase of a new Stinson airplane has been made by the Montecito Corporation, oil operators of Midland, the shop having been delivered to hangars at Sloan Field. A five passenger cabin plane, of latest model, it is powered by a 440-horse power Wasp motor.

The ship will be used in the company's business, "Little George" McEntire being pilot, Ben F. Nysewander Jr. and W. Watson LaForce are heads of the company, with offices in the First National Bank building.

Business Men Hear FHA Officials in Talk on Organization

Details concerning the eligibility requirements of FHA loans were discussed last night at a meeting of lumber dealers, architects, contractors, realtors and representatives of financial institutions, newspapers, and utilities with representatives of the Federal Housing Administration.

The meeting was attended by J. A. Raley Jr., Senior Valuator and R. E. Silkes, Mortgage Conference Representative.

Charles McClintic presided at the meeting and explained that it was the desire of the FHA to inform those connected with the building industry, especially dealers and lending institutions, as to the requirements so that they may in turn inform the people of the community and assist them in making applications for FHA loans.

Wm. H. Clark, Jr., State Director of the Federal Housing Administration, stated that 9,010 mortgages on homes in Texas have been accepted for insurance, amounting to \$35,311,125.00 as of December 30, 1938. He said that October, 1938, showed a volume increase of 271 per cent over 1937 and that indications pointed to a far greater increase in home building during 1939.

Eligibility requirements of the borrower, property and location were explained by Riley, valuator who emphasized the importance of selecting a suitable location or building site with desirable neighborhood features upon which to build a new home.

It is pointed out that a borrower with a good credit rating and sufficient income can obtain an FHA loan for 90 per cent of the appraised value from a private lending institution with whom the government agency agrees to underwrite or guarantee the repayment of the mortgage funds.

The term of the loan, in case of property valued at not more than \$8,000, not to exceed 25 years with maximum interest rate of 5 per cent plus 1/4 per cent mutual mortgage insurance premium on the outstanding monthly balance.

The risks involved in every transaction under the Federal Housing Administration's Insured Mortgage System are studied and rated from five distinct points of view, a procedure which provides a sound measure of safety for lenders, borrowers, and the mutual mortgage insurance fund, according to Raley.

The anticipated ability of borrowers to liquidate their mortgage indebtedness constitutes the "solid foundation" of the proposition, Raley pointed out. The individual transaction then comes under the study of five separate men who approach the problem of the risk from five separate angles.

A thorough and careful examination to determine whether the case really warrants appraisal is first made by a preliminary examiner. (See BUSINESS MEN, page 6)

Amerada 2 Riley Flows 227 Barrels An Hour to Set North Basin Record

BY FRANK GARDNER.

Largest West Texas producer north of Andrews county was witnessed today in Amerada Petroleum Corporation No. 2 T. S. Riley, in the Seminole pool of central Gaines, as it flowed at a rate of 227 barrels an hour. Producing from a new deep pay for the pool, the well gauged flow of 567 barrels in two and one-half hours after it had been allowed to flow into pits for an hour and a half following second treatment with 5,000 gallons of acid.

Flow is through open 2-inch tubing and two 3-inch flow lines leading off 5 1/2-inch casing. Gas-oil ratio is approximately 700-1. Total depth of the record well is 5,224 feet in lime, and it is producing from section between 5,152, where 5 1/2-inch casing was set, and total depth. Location is 660 feet from the south, 1980 from the east line of section 229, block G, W. T. R. R. survey, on the northwest edge of the main body of the Seminole pool.

Natural production of No. 2 Riley was 563 barrels in 16 hours, and first stage of treatment, with 2,000 gallons, brought output up to 999 barrels in 12 hours.

In north central Dawson, Dawson Oil Company No. 1 J. E. Neely, "tight" wildcat, is drilling at 4,132 feet in lime and anhydrite. It was reported that brown lime had been topped at 3,976 feet, but some called the point as high as 3,776.

Gist Strike Shut Down

M. B. K. Drilling Company No. 1 John M. Gist, proving a half-mile east extension of the Foster pool in Ector, this morning was shut down at 4,269 feet, awaiting running of steel line measurement and completion of pipe-line. A five-foot run was made yesterday, with continuous pay drilled all the way. Swabbing the casing last night failed to lower oil below 1,500 feet from surface, and hole had filled back up with oil early today. The well is in section 9, block 42, township 2 south, T. & P. survey.

East of the south end of the North Cowden pool in Ector, Cities Service No. 1 Rhodes is drilling below 3,160 in anhydrite.

In the Harper pool of Ector, Blackstock No. 2-B Fraser flowed 2,188 barrels of 36.3-gravity oil per day, with gas-oil ratio of 475-1, after shooting with 675 quarts at 4,160 feet. Pay was topped at 4,025.

Cochran Well Shows Oil

Newest production prospect for Cochran, T. G. Shaw No. 1 Carrie Slaughter Dean, yesterday was coring below 4,935 feet in lime. It showed staining of oil at 4,903 feet, and core from 4,907-27 was bleeding oil, showing little porosity and no complete saturation.

According to potential gauge filed today with the Railroad Commission, Texas No. 1 H. T. Boyd, Cochran well a mile and a half southeast of the Dugan pool, flowed 239.91 barrels net oil, plus eight per cent water, through 7/8-inch tubing choke on 24-hour test. Oil is 29.8-gravity. The well topped pay at 5,945, is bottomed at 5,086, and was treated with 3,000 gallons.

S. W. Richardson No. 1 A. E. Coe, northeast outpost to the Slaughter pool of Hockley, is drilling below 4,570 feet in lime.

Bennett Extension Sought.

Location for an extension test over a mile northeast of the Bennett pool of Yoakum has been staked by Shell Petroleum Corporation at No. 1 Waples Platter Company. It is 330 feet out of the southwest corner of the northwest quarter of section 616, block D, J. H. Gibson survey. Carl King is contractor, and

operations will be started before Jan. 31, when commencement lease expires.

Southwest of Bennett production, Shell No. 1 Hodges is drilling at 3,710 in anhydrite; Mabey No. 3 Willard, bottomed at 4,965 feet in lime, is waiting for 150 sacks of cement to set around 5 1/2-inch casing at 4,901; Mabey No. 4 Willard is drilling at 4,150 in anhydrite and red rock; Devonian No. 1 Hodges, bottomed at 4,870 in lime is drilling out cement. Five and one-half inch casing cemented at 4,860 developed leak at 2,930, and a 1,000-sack cement squeeze job was necessary.

East of the Denver pool in Yoakum, Sinclair-Prairie No. 1 Kendrick is drilling at 4,298 feet in lime with shale breaks. Alcoa No. 1 Chatterton, pool well, is drilling at 1,980 in shale and shells. Shell No. 1-A Brand had reached 4,463 in lime.

New Fuhrman Producer.

In the Fuhrman pool of Andrews, Barnsdall No. 6 Walter Ford flowed 1,474.54 barrels of 27.3-gravity oil, with gas-oil ratio of 600-1, for completion at 4,455 feet. Pay topped at 4,300 was treated with 7,000 gallons.

Honolulu No. 1-13 Parker, central Andrews wildcat, this morning was drilling unchanged at 4,736 feet in lime.

In west central Andrews, Richmond Drilling Company and Wright and McMillen No. 1 Bryant-Link Company had drilled to 3,800 feet in anhydrite. Some reported a slight show of gas logged at 3,000.

S. W. Richardson No. 1 Sun-Jenkins, mile north extension of the Keystone pool in Winkler, gauged 174 barrels a day through 1-inch tubing choke, with gas-oil ratio of 5,470-1. Oil is 37-gravity. The well reached total depth of 3,547 feet and was plugged back to 3,485 preliminary to shooting with 300 quarts. It topped pay at 3,360.

These reports said all trains stopped running. Only members of the government and a lucky few were able to obtain cars and to carry them out of range of smashing shell fire that had pounded the city since noon.

The government's decision to move northward to Girona, guerras, respectively 50 and 70 miles nearer the French border, was to have started a mass trek of men, children and old people. Roads to the north were jammed with traffic that forced off the highways. Every automobile had been taken over by government for round-up of able-bodied to build emergency fortifications.

Other information reached French frontier indicated that hundreds of thousands faced famine.

These reports said there was a serious lack of ammunition. The total of deaths in yesterday's bombings were reported to have brought the total dead and wounded for the last days to nearly 500.

The government's removal was its third chance since the and-a-half year old civil war began in July, 1936.

Penetrate 3 Sides of City In Drive Today

Immediate Fall of
City Predicted by
Fascist Leaders

HENDAYE, France, Jan. 25 (AP). — The insurgent command reported today its troops had penetrated the southern section of Barcelona and by noon had extended a ring about all the city except the northern coastal portion.

The main body of insurgent troops by forced marches expected to arrive in Barcelona by nightfall. Insurgent artillery continued shelling the city.

AMERICAN REFUGEES ABOARD CRUISER.

ABOARD CRUISER OMAHA, Near Barcelona, Jan. 25 (AP). — Fifteen Americans, fleeing beleaguered Barcelona, had to run a gauntlet of bombs today before they reached safety aboard the Omaha and United States destroyer Badger.

One bomb from an insurgent plane fell 100 feet from the refugees, as they stood on a breakwater waiting for a small boat to take them to warships.

GERMAN PLANE FALLS ON FRENCH SOIL.

LOURDES, France, Jan. 25 (AP). — The five-man crew of a German-made bombing plane was killed today when their machine, believed to have been connected with Spanish insurgents, crashed near here. French officials sought to learn why the plane crashed on French soil 100 miles northwest of the Catalan border where it expected to smash into the Pyrenees. The plane was riddled with bullets, indicating it had been in a battle.

HENDAYE, France (At the Spanish Frontier) Jan. 25 (AP). — The fall of three columns of insurgent German Franco's army attacking Barcelona rolled its way to within a mile and a half of the city's center last night while insurgent shells ripped into the government capital.

The insurgents' southern army wheels, almost without firing a shot, captured the government airdrome at Prat De Llobregat, and along the coast to the suburb of the capital where it expected to smash into the Pyrenees. The plane was riddled with bullets, indicating it had been in a battle.

These reports said all trains stopped running. Only members of the government and a lucky few were able to obtain cars and to carry them out of range of smashing shell fire that had pounded the city since noon.

The government's decision to move northward to Girona, guerras, respectively 50 and 70 miles nearer the French border, was to have started a mass trek of men, children and old people. One May Lose by Paying Too Little As Well as by Paying Too Much

Admonition was given recently in a lumberman's magazine against false economy, making the point that you stand a chance to lose by paying too little as well as by paying too much.

When you pay too much you lose a little money and that is all. But when you pay too little, you stand a chance to lose everything, because the article you are buying may prove incapable of doing the very thing that it was bought to do. Taking it by and large, the common law of business balance makes it impossible to pay a little and get a lot. It may sometimes be advantageous to deal with the lowest bidder but when you buy on price alone it is well to set aside a "reserve" as a matter of self-protection in case the product should fail to meet your full requirements. Take the price quoted by the lowest bidder—add to it an amount of money sufficient to cover the chance you are taking, and you may find that the sum of the two is enough to buy known quality at the outset.

• SO THEY SAY

The State's Constitution

(Big Spring Herald.)
Coke Stevenson's defense of the Texas constitution, in his address after taking the oath as lieutenant governor, was a clearcut masterful presentation of the powers of that basic law to meet the needs—the legitimate needs—of the state of Texas. The people crying for its abrogation, for the writing of a new constitution, have never yet showed that something that should be done in Texas cannot be done under the aegis of the constitution nor have they showed that the constitution permitted the doing of harmful things. As new problems arose which were believed to be incapable of being settled under the constitution the people have assented to such amendments as accomplished the purpose sought—sometimes. For the sad fact is that some of the amendments have had an opposite effect from what they promised, and as a rule the people are chary of making changes that might make matters worse. They have refused to sanction more changes than they have endorsed, and that is a good sign.

Demand for a new constitution comes from people who have never added, nor why. Until they can do that and make it apparent that a new constitution would make living in Texas pleasant there is no reason to be a change, nor should there be.

Another phase of the Stevenson address is worth special notice. He said: "The constitution prohibits the legislature from doing certain things. Conversely it requires it to do certain things." Observance of prohibitions is more frequent than the commands. One direct command is that its first session after each federal census the state be divided into senatorial and representative districts. Perhaps Stevenson can persuade the legislature to do this.

JOHN T. FLYNN

JOHN T. FLYNN
Service Staff Correspondent.
President, in asking Congress for \$522,000,000 for arms, \$215,000,000 of which is to be available at once, left out any suggestion as to where money is to come from. It has been rather calmly assumed, however, by many observers, that the money is to be provided by further government loans rather than by taxes.

Twenty-two years ago Congress faced the problem of fabricating a financial policy for the war into which it was about to lead the

country. At that time over 200 leading

statesmen from 48 of our fore-

most universities sent a petition to Congress, urging it "to adopt the

policy of the war into which it was about to lead the

Add to list of local hospitality dispensers: Roy McKee, life insurance agent; Jim Kendrick, automobile salesman; Elmer Bizzell, farmer; C. A. McClimic, realtor, trader, building planner, capitalist and representative of the president of the FHA committee.

Midland sports fans have been getting more of a variety this winter, what with the basketball games in the new gym and the Golden Gloves bouts. The school board, tax payers, school officials and coaches, as well as the boy athletes and the older ones of the industrial league, deserve credit for the facilities and entertainment provided on the basketball court. And Jess Rodgers and Bob Royall deserve a vote of thanks from the fans for the two Golden Gloves performances. And H. H. Kendrick and the Mustangs come in for a long share of the cheers on account of the weekly boxing bouts they have been staging up at the Mustang hall.

Engagement of Miss Vivian Smelley and Boyd Woods Is Announced Tuesday Evening

Mr. and Mrs. B. W. Reer have announced the betrothal of their sister, Miss Vivian Smelley, to Boyd Woods, son of Mr. and Mrs. A. C. Woods.

The engagement and date of the wedding were revealed at a social for the Business Girls' auxiliary for which Mrs. Reer, 1001 W. Florida, was hostess Tuesday evening. The couple will recite wedding vows in a quiet ceremony in the Reer home Saturday evening, January 28, at 8 o'clock, with Rev. J. E. Pickering, pastor of the First Christian church officiating. Immediately following the ceremony, a reception will be given by Mr. and Mrs. Reer.

Tiny scrolls tied with sweetheart colors of red and white placed on tea plates at the refreshment hour contained the important announcement.

Four tables of bridge furnished amusement for the group during the evening. Mrs. Clint Creech held high score for auxiliary members and Miss Lucile Johnson high for guest.

Present were: The honorees, Miss Lucile Johnson, Miss Madeline Roberts, Miss Zelah Gravette, Mrs. Clint Creech, Mrs. Olin Fryar, Mrs. W. J. Coleman, Mrs. M. D. Johnson, Jr., Mrs. Sherwood O'Neal, Mrs. Fred Hallman, Mrs. G. B. Hallman, Mrs. John B. Mills, Mrs. L. H. Tiffin, and the hostess.

The auxiliary members also conducted a social service project as part of the evening's program.

Mrs. Phillips Reviews Bromfield Novel for Club

Mrs. R. M. Rutledge led the program at the regular meeting of the Twentieth Century Study club at the home of Mrs. Stanley Erskine, 802 W. Storey, Tuesday afternoon.

Mrs. L. L. Payne presided in the absence of the president, Mrs. Karl Ratliff.

Louis Bromfield's "The Rains Came" was reviewed by Mrs. Jerry Phillips. She presented the story of the book which is a modern novel of India and sets forth an account of a great flood and earthquake and the resultant changes brought about in the lives of the characters.

Mrs. R. E. L. Taylor read a current-affairs paper on "Our National Defense."

Present were: Mmes. Payne, Oliver Haag, Leon Lusk, W. C. Fritz, Taylor, Phillips, Rutledge, and the hostess.

RETURN HOME.

Mr. and Mrs. Geo. Barham have returned from a visit to Fort Worth and Shreveport.

IT CLEARS UP A STUFFY HEAD FAST!

AFTER THIS, USE IT SOONER AND HELP PREVENT MANY A COLD FROM DEVELOPING

Va-tro-nol is specialized medication for the nose and upper throat—where most colds start. Used at the first sniffle or sneeze, just a few drops up each nostril, it helps to prevent many colds from developing. Even when your head is stopped-up from a neglected cold, Va-tro-nol clears away clogging mucus, shrinks swollen membranes, lets you breathe again.

Exposition Ranch-Girl

Miss Sydna Yokley, Canadian high school senior, who has been chosen as one of the eight ranch-girl honor guests at the Southwestern Exposition and Fair Stock Show, March 10-19. Miss Yokley was selected by her neighbors and cattlemen of the North Plains area to represent that section at the Stock Show. The girls will be introduced at each performance of the world championship rodeo. Several social functions are being planned in Fort Worth in honor of the girls. The North Plains representative is the daughter of Mr. and Mrs. Jess Yokley.

Mrs. Cooper Leads Program of Study At Delphian Chapter

Mrs. A. J. Cooper led the program in the study of Stephen Phillips' play, "Paola and Francesca" at the meeting of the Delphian chapter in the assembly room of the courthouse Tuesday morning.

Mrs. H. J. Kemler discussed Act I, "The Preparation," and Act II, "The Rising Action."

Mrs. Robert Turpin continued with the discussion of Act III.

NOTICE

The Commissioners' Court of Midland County, Texas, will, at the regular February term of said Court to be held at the Court House in the town of Midland, Midland County, Texas, on the 13th day of February, A. D. 1939, same being the second Monday of said month, at 10:00 o'clock A. M., receive proposals from any banking corporation, association, or any individual banker in Midland County, Texas, that may desire to be selected as the depository of the funds of said County, and as the depository for trust funds in the possession of the County and District Clerks of Midland County, Texas, for the ensuing two years, as prescribed by law.

Any such bank, corporation, association or individual banker in said county desiring to bid shall observe the following laws, to-wit: (a) Said bidder, desiring to be selected as the depository of the funds of said County, shall deliver to the County Judge on or before the first day of the said term of Commissioners' Court, a sealed proposal stating the rate of interest offered on the funds of the County for the term between the date on such bid and the next regular time for the selection of a depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the county revenue of the preceding year as a guarantee of the good faith on the part of the bidder, and that if his bid is accepted, he will enter into the bond hereinafter accepted.

(b) Said bidder, desiring to be selected as the depository of trust funds in hands of the County and District Clerks, shall file a sealed proposal with the County Clerk on or before ten o'clock A. M. on the first day of the said term of Commissioners' Court. The proposals submitted shall state the rate of interest offered on average daily deposits of the said trust funds for the term between the date of the bid and the selection of another depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the balances of the amount of trust funds in the possession of said clerks during the preceding calendar year, which amount shall be determined by the County Clerk on or before ten days before the bids herein provided for are filed. Said certified check shall be a guarantee of the good faith on the part of the bidder, and that if his or its bid is accepted the bond hereinafter provided for will be entered into.

At the said regular term of the Commissioners' Court of Midland County, Texas, to be held on the second Monday in February, A. D. 1939, same being the 13th day of February, A. D. 1939, at ten o'clock A. M. such bids as may be presented will be opened and acted upon by the said Court, as prescribed by law.

Given under my hand and official seal of office, at Midland, Texas, this 10th day of January, A. D. 1939.

E. H. BARRON,
County Judge, Midland
County, Texas.

FEMININE FANCIES

By Kathleen Eiland

We've just been reading a chapter in that best-seller, "Designing Women" and have found it quite interesting. "Designing Women" is not a book for the modern Cleopatra or her sister vamps, though indeed most any girl will acquire glamor through following the rules for becoming dress laid down by the authors. For "Designing Women" is merely concerned with helping every average-looking girl find and develop the princess under her Cinderella exterior.

Plaids and checks, this popular volume tells us, accent both height and width.

By the way, we are noting numbers of solid color spring dresses topped by plaid coats, or plain skirts with plaid jackets in soft colors. These combinations are very nice, particularly if you want a sporty-looking costume.

Have you noticed how often in the new flowered materials the figures appear in bands or set into squares, rather than scattered helterskelter over the surface of the cloth? Of course there are still designs with such scattered blossoms but the more geometrically arranged figures are newer.

In sheer cotton materials, dots seem to be in for another season of hard wear. And truly, soft blues or greens or reds or yellows spattered with white dots, or white materials with colored dots make one dream of adorable cool, frilly summer dresses or comfortable little blouses for spring suits.

From advanced styles displayed, we'd say that open toes are again with emphasis for the warmer days.

Not forgetting the fact that at the recent inauguration of Governor O'Daniel both his good-looking wife and daughter Molly wore the "toes out" type of shoe.

If you like to experiment with new kinds of cake fillings and your husband has a "sweet tooth," he'll be delighted with this easy made and delicious filling. Take equal parts of whipped sour or sweet cream (as your taste dictates), your favorite nuts, and sugar. Mix thorough-

ly and spread thickly between cake layers.

Your family will all vote for "seconds" on this.

Glass, cut to Mr. Henry Wolcott, and high for guest to Mrs. Fred Cowden.

A party plate was served at the tea, hour.

A Queen in Crinoline

At recent formal functions, Queen Elizabeth wore the crinoline gown which she has made popular. It's of white lace and white net. With it, Her Majesty wears a diamond tiara, necklace and earrings, and a short bolero jacket of white fox.

ly and spread thickly between cake layers.

Blue-and-Yellow Are Favored in Party Appointments

Yellow-and-blue was the favored color scheme in party appointments when Mrs. Ellis Cowden entertained Tuesday afternoon at her home, 810 W. Louisiana, for the Enigma club and guests.

Acacia blossoms were used in the party rooms.

Three tables of bridge furnished diversion for the group with high score for club going to Mrs. Geo.

Crooning Cowboy Singers Decried

FORT WORTH, (AP)—"If a cowboy sang cowboy songs as crooners and radio singers do, he'd get the breath knocked out of him, or be thrown from the saddle," said Mr. Newton Gaines of Texas Christian University, past president of the Texas Folk-Lore Society and authority on cowboy songs.

"The real cowboy has to use 'horse rhythm' in singing," Dr. Gaines pointed out. "His songs are framed in the rhythm of his working day in the saddle. The time of his songs fitted naturally into the walk, trot or gallop of his cow pony."

"Most persons sing cowboy songs too loudly. The cowboy did most of his singing when alone in order to quiet the cattle and to keep himself company. There was no occasion for noise."

"The music of the cowboy song can be traced by musical critics to popular songs of the '80s and '90s. Yet in almost every case one finds that the cowboys altered the rhythm and melody to suit their pioneer experiences and feelings."

Dr. Gaines grew up on a West Texas ranch in the Big Bend country and has been singing cowboy songs since he was 7 years old. He has recorded several of the most popular.

Italy has had about 14,000 earthquakes during the past 34 years.

Take Calotabs to Help Nature Throw off Colds

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fourth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of any virus-laden mucus and toxins. Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the blood. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which may be needed in the treatment of colds. Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package.—(adv.)

Garnering Joy From a White House Dinner

Eyes sparkling with anticipation, 16-year-old Genevieve Garner, granddaughter of Vice President and Mrs. Garner, is framed in car window between her grandparents, arriving at White House for dinner.

He Married an Angel

Vera Zorina, the angel in the Broadway musical success, "I Married an Angel," and George Balanchine (right name: George Melintonovitch Balanchivadze), Russian ballet director, are pictured in their New York apartment after announcing that they had been secretly wed since Christmas Eve.

Baylor Girl Works Way Through School

WACO, (AP)—Caring for babies, dispensing sodas and typing Miss Doris Thomas has supported herself and earned school expenses her four years in Baylor university. She will be graduated next June, the first woman student to work her way through the institution.

An honorary scholarship was awarded Miss Thomas her freshman year because she was valedictorian

of her graduating class at Valley Mills high school. By caring for babies she earned room and board her first two years. Tuition her second year was earned by typing three hours a day at the Baylor Press.

She remained at Waco the summer vacation of 1937 typing for various departments of the university for her tuition the next year. She repeated this last summer in order to be free in the regular school term to work after school curbing-hopping for a drug store and soda fountain.

Despite her schedule of three hours and forty minutes class attendance and eight hours work at the drug store daily, Miss Thomas finds time occasionally for a show or other form of relaxation. Her only whole holiday last year was Christmas Day, her only visit home at Valley Mills, 30 miles from Waco.

Doris' work at the drug store is sufficient also to pay for the meals of her sister, Hazel, a sophomore.

The ambitious young woman was born at Lamesa, but received her elementary and high school education where her family moved during her early life. Her father is a farmer.

She is majoring in education and minoring in English and sociology, and aspires to teach in a high school. Her chief pleasure is meeting and associating with people.

Teacher Rewarded For School Work

TEAGUE, (AP)—Miss Sallie Mounger, principal of the O. M. Roberts grammar school of Teague, is the first woman to receive the W. R. Boyd, Jr., service cup for outstanding community service and work for the preceding year. Miss Mounger was selected by a Committee from the Teague Business Men's Luncheon club, and the presentation was made Jan. 16.

The cup, donated by W. R. Boyd, Jr., first mayor of Teague and now executive vice president of the American Petroleum Institute, has been awarded heretofore to J. E. Woods banker; Rev. E. Homer Tierney, Baptist minister; Dr. J. D. Davidson; John F. Wallace, former member of the state board of control; N. W. Bendy, merchant, and P. T. Weatherholt, fire chief.

Miss Mounger was chosen "on account of her work in pushing the care of underprivileged school children, both in feeding and clothing them; her high standard of community loyalty through 20 years of teaching, and her unflagging energy in carrying to conclusion all activities undertaken."

Chase Murphys Are Honored With Farewell Party

Mr. and Mrs. Chase Murph, who are leaving Midland early next week to make their home in Altus, Okla., were honored with a party given by Mrs. Pearl Blair and Mrs. A. T. Donnelly, Monday evening at the home of Mrs. Blair, 809 W. Michigan.

The evening was spent in games. The honorees were presented with a blanket as a farewell gift.

Refreshments were served to Mr. and Mrs. Murph, Mr. and Mrs. Jerry Phillips, M. and Mrs. Joe Mims, Dr. and Mrs. L. A. Absher, Mr. and Mrs. John Scroggin, and the hostesses and their husbands.

Personals

Mr. and Mrs. D. O. Wiley of Lubbock were guests of Miss Lydia G. Watson and Ned Watson Monday night. Mr. Wiley is head of the Texas Tech college band and is arranging a concert tour for the group.

Mrs. Marion Grey O'Connor left Monday night for her home in Pasadena, Calif. She had been in Midland some time following the death of her mother, Mrs. A. Harry Anderson. She and Mr. Anderson made a trip last weekend to Fort Sill, Okla., to visit Mrs. O'Connor's son, Lieut. Geo. O'Connor.

Harry Adams, Midland oil man, has returned from Crawford, Nebr. where he and Mrs. Adams were called by the death of her sister. En route home, he spent one night in Denver, Colo. Mrs. Adams remained in Crawford, with another sister who is seriously ill.

For the second time in the 15 years the National Park Service has operated the Carlsbad Caverns, the 1938 attendance passed 200,000. Regardless, the number of visitors was 6,424, or three per cent less than in 1937.

"Zig-Zag" Reading Used in Conoco Ads

PONCA CITY, Okla.—"Zig-zag" reading, the proposed reform for relieving eye-strain, became the basis of a new game this week when sample paragraphs of the new method appeared in the national newspaper advertising of Continental Oil Company.

Introduced by a Los Angeles research psychologist, the new zig-zag reading is based on the logical idea that there is no need for bringing the eye all the way back to the beginning of each new line after completing the one above it. The words of each second line are arranged in reverse order so that the eye can

rad its way back.

"Tests made with an extremely accurate instrument called the ophthalmograph," a famous optical scientist has stated, "show that the eye never sweeps across a printed line in a series of jumps and pauses, due to the fact that it cannot observe fine detail unless it is momentarily at rest. The ophthalmograph reveals that zig-zag reading produces similar short movements in returning along the reverse line instead of the customary long backward sweep that appears when the subject reads conventional print."

"The average reader's eye neither spells words out nor analyzes them by syllables. It simply lights on some distinctive reference point in

Accused of Running "Trailer Harem"

On testimony of one of four girls who shared their trailer, John Dingwall was charged with violating the Mann Act and Mrs. Caroline Carter with conspiracy by Federal authorities in Miami, Fla. Dingwall was accused of maintaining a "trailer harem."

the combination of letters and identifies the word—or even a combination of words by their general appearance. Since we are taught to spell and then to sound out syllables by moving from left to right, it is logical that most of our reference points are at or near the left of the word of phrase we want to identify. In zig-zag reading, the approach from the right in every second line might, in some cases, give new or alternate reference points in words and phrases and, consequently, speed up the regular reading.

makes a game out of zig-zag by printing samples side by side with the normal text. Players compete by clocking each other's reading time for the zig-zag column.

CHESTERTOWN, Md. (U) — George Patrick abs decided that not even the barrel of a shotgun is a safe place to hide money. Patrick put \$90 in the gun for safe-keeping, but thieves stole the firearm.

The Capitol Jigsaw

By Howard Marshall
Associated Press Writer

AUSTIN, Jan. 25. (AP) — Gov. Lee O'Daniel has much better offices at the capitol than James V. Alfred had at the start of his administration as all other governors of Texas had throughout their terms.

When Alfred became governor four years ago the executive offices were on the first floor at the right of the main entrance to the capitol.

They comprised rather a dingy-looking suite of two private offices, an ante-room where visitors waited in uncomfortable straight-backed chairs and several smaller rooms for stenographers and clerks.

A suite on the second floor, partly over the rooms on the first floor and connected with it by a winding stair, years previously had been used for various purposes by governors but subsequently virtually abandoned.

A large reception room that once had been beautifully furnished had fallen into gloom and decay. The hangings at great windows were full of moth and mouse holes and the upholstery of chairs and divans had been worn out.

Gov. Alfred changed this. He asked the board of control and the legislature to re-furnish the second floor suite and outfit it as was intended originally. It was done at a cost of several thousand dollars.

Now the reception room, entered at the front through two glass-paned doors on which the state seal is etched, has an atmosphere of rich dignity.

On the floor is a thick red carpet while golden draperies hang at the 15-foot windows. The walls and ceiling are painted blue, while the old-fashioned chairs and a settee are upholstered in gold, red and blue.

In the center is an antique marble topped table and on one wall are two long mirrors. At one end of the chamber is a bronze bust of Vice-President Garner.

A tiny connecting hall leads to the office of the governor's private secretary, which is furnished with two fine hardwood desks a number of wooden chairs and a bookcase.

Windows in this office are shaded with Venetian blinds while the drapes are royal blue and gold in color.

The governor's private office, the same size as the adjoining one of his secretary, impresses with its quietude because, for some reason, no sound comes to it from without.

The color scheme in this office is light cream for the walls, blue and gold draperies at the windows and a very dark red for the carpet, chairs and a divan are upholstered in blue leather.

The divan, seven feet long, is at one end and the governor's mahogany desk at the other. The chair at the desk is swivel type and the deep upholstery also is with blue leather.

At the governor's elbow is a little stand for anything he wishes to keep on it, for example, telephones or a pitcher of water.

In a corner nearby is a bookcase, specially constructed for the spot by the statehouse carpenter.

It's all much better arranged and much handsomer than the suite downstairs, which Alfred used for about two years.

When the governor moved out of the offices on the first floor the private one was taken over by secretary of state Edward Clark, but the one occupied by stenographers and clerks were retained for that purpose.

The whole plan may be changed by any governor.

Llano Polo Player Moves to San Antonio

LLANO (P) — York Ratliff of Llano, polo pony dealer and trainer, has joined the winter polo colony at San Antonio, shipping a string of 10 ponies, which he has

been schooling at his home here. He will take part in the winter tournaments, and finish his ponies at his training grounds there the

next few months. In May he will ship his mounts to Long Island for the summer polo season.

Ratliff went into the polo busi-

ness 15 years ago and was among the first Texas dealers to take trained ponies East to sell. Although he carries only a three-goal polo handi-

cap, he is rated one of the best horsemen in the game.

Mrs. Ratliff, formerly Miss Lucille Stewart of Llano and a cousin

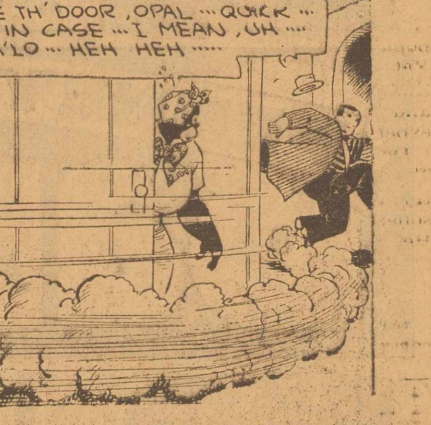

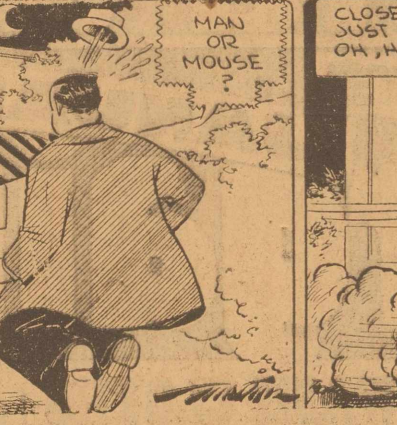

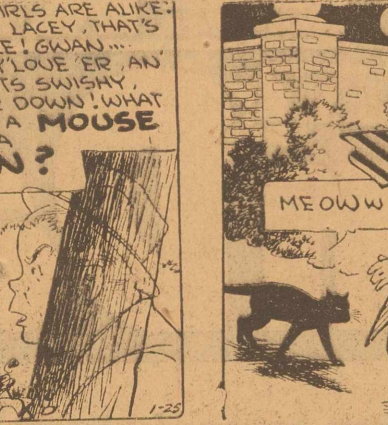

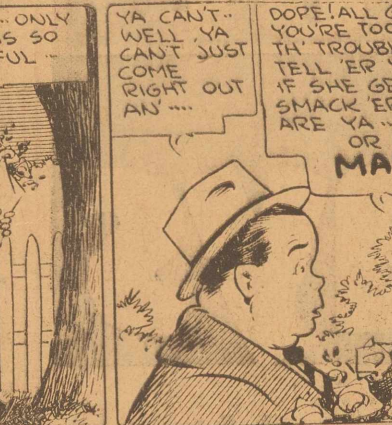

of the 10-goal Texas star, Cecil Smith, also is an expert horsewoman, and has played some polo in the East.

OUT OUR WAY

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just stays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A more bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse anything else.

READ THE CLASSIFIEDS.

Business Men—

CONTINUED FROM PAGE ONE

Next, a trained architect analyzes the case to be sure of compliance with minimum construction requirements established by the Federal Housing Administration.

Following that, the security is studied from all economic angles by a valuator who examines the rental value, location and special characteristics of the neighborhood, and marketability of the property. Simultaneously, a mortgage risk examiner investigates the relationship between the borrower's income and the contemplated mortgage debt.

Reports from each of these men

are brought together and reviewed by FHA Chief Underwriter whose duty it is to measure the over all degree of relative safety which characterizes the mortgage.

Considerable interest in the FHA plan was indicated by the large number of questions asked during the open forum.

Raley and Sikes remained in Midland today for the purpose of making informal inspections of proposed sites for residential construction and furnishing information to lumber and material dealers, realtors and representatives of financial institutions.

Outline of the July 1 changes in the housing act was pointed out by Sikes. The property improvement loans and catastrophe loans under

the credit insurance division of title 1 will expire on July 1.

Changes in title 2 provisions of FHA insurance or mortgages and existing properties constructed prior to January 1, 1936, unless previously insured by FHA will expire on July 1.

Properties built between January 1, 1937 and July 1, 1939 will continue to remain eligible for insurance upon the same basis as at present.

Ninety per cent loans-mortgages not in excess of \$5400 upon newly-built single family owner-occupied properties will be placed on the same basis as all other eligible mortgages—the maximum term of 20 years with one-half of one per cent mortgage insurance premium

instead of 25 years with one-fourth of one per cent mortgage insurance premiums as is now fixed by the act.

Insurgent Advance Worries Britain

LONDON, Jan. 25 (AP)—As the Italian and German-backed forces of Francisco Franco thrust at Barcelona last night anxiety grew in British government and opposition quarters over what an insurgent victory in Spain would mean to British and French interests.

Prime Minister Chamberlain, while having refused to summon parliament to consider the Spanish situation ahead of its scheduled meeting next Tuesday, agreed to meet a deputation of labor leaders to hear a new plea for action to help the Barcelona government.

Despite arguments of the opposition and some conservatives that a Franco victory would be a serious threat to Britain and France, Chamberlain has refused to relax the British nonintervention policy.

In Rome the fascist press warned France against any last-minute effort to save the Spanish government capital. The newspaper said such intervention not only would be fruitless but would have international consequences.

Fresh diplomatic reports on the speed of German rearmament since the peace of Munich deepened official worries that insurgent success would further Premier Mussolini's and Reichsfuehrer Hitler's expansion plans.

Some quarters expected Germany and Italy soon to stage simultaneous moves designed to frighten the democracies into a colonial settlement. Germany thus might join her own colonial claims with Italy's demands for territorial concessions from France.

Emergency Feed and Crop Loans Accepted

Application for emergency crop and feed loans for 1939 are now being received at courthouse by J. G. Dougherty, Field Supervisor of the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

The loans will be made, as in the past, only to farmers whose cash requirements are small and who can not obtain credit from any other source. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1939 crops or for the purchase of feed for livestock.

Farmers who can obtain the funds they need from an individual, production credit association, bank or other concern are not eligible for the crop and feed loans from the Emergency Crop and Feed Loan Section of the Farm Credit Administration. The loans will not be made to standard rehabilitation clients whose current needs are provided for by the Farm Security Administration, formerly known as the Resettlement Administration.

As in the past, farmers who obtain emergency crop and feed loans will give as security a first lien on the crop financed, or a first lien on the livestock to be fed if the money borrowed is to be used to produce or purchase feed for livestock.

Where loans are made to tenants, the landlords, or others having an interest in the crops financed or the livestock to be fed, are required to waive their claims in favor of a lien to the Governor of the Farm Credit Administration until the loan is repaid.

Checks in payment of approved loans will be mailed from the Regional Emergency Crop and Feed Loan Office at Dallas, Texas.

Pioneer Tascosa Resident Moved

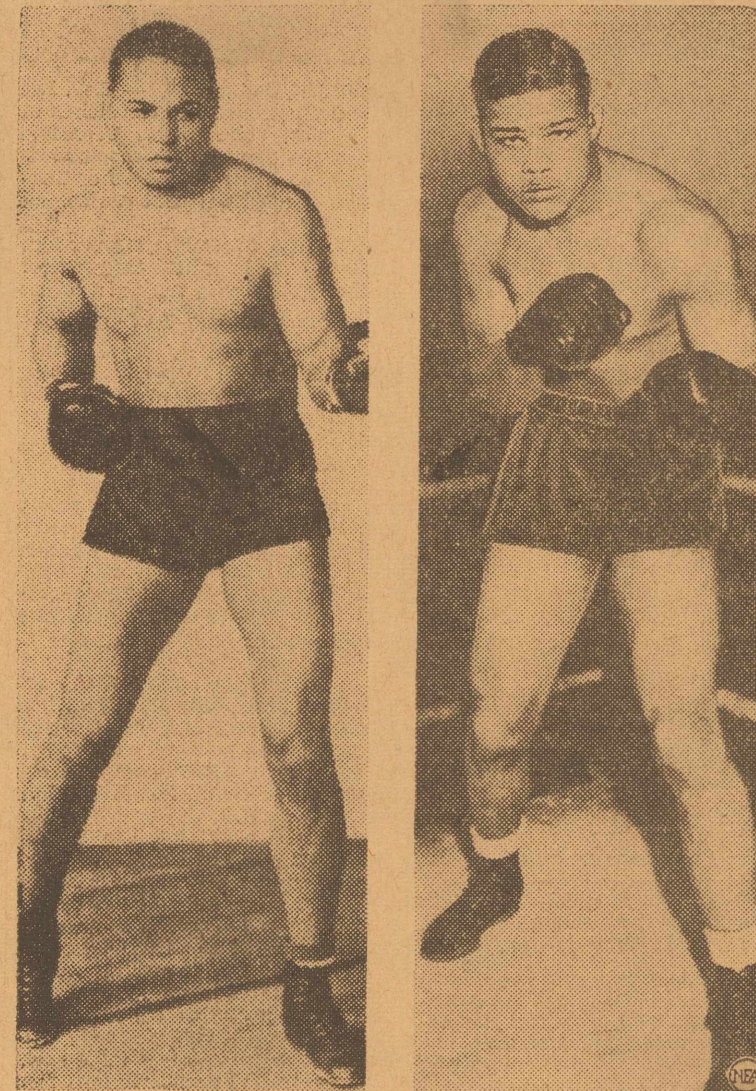

CHANNING, Hartley County, Texas. (AP)—Mrs. Mickey McCormick, last survivor of Old Tascosa who lived through the lawless days of the frontier and free cattle ranges, recently was moved to Channing for proper care.

Mrs. McCormick, who had lived alone in a little stone house facing famous "Boot Hill" cemetery several years, obtained a promise from the county commissioners she would be buried at Tascosa beside her husband, owner of an early-day gaming place and who died about 20 years ago. Mrs. McCormick's 18-year-old dog died a few weeks ago and caused her much distress.

Many tourists visited her little home, but she was distrustful of outsiders and would talk very little unless the visitor was an old-timer. Mrs. McCormick is of French Creole descent and nothing is known about her family.

Japan's Imperial regalia consists of a jewel, a mirror, and a sword; there is no crown.

"What Round?" Only Question Bothering the Fight Experts

John Henry Lewis

Joe Louis

BY SID FEDER.

NEW YORK, Jan. 25 (AP)—Installed as a prohibitive favorite, at odds as high as 1 to 10, Joe Louis puts his world heavyweight boxing championship on the line for the fifth time tonight against John Henry Lewis in Madison Square Garden.

They meet over the 15-round route, and indications are for a crowd of about 17,000 contributing to a gross gate of \$100,000 for the first all-negro heavyweight title clash in a quarter-century.

The odds, hitherto placed at 1 to

6 and 7, have skyrocketed to a point where a Lewis victory, however improbably regarded, would go down as one of the most astonishing upsets in ring history. In most quarters the Brown Bomber is quoted at odds of 1 to 3 to score a knockout.

Joe will go into the ring at about 9 p. m. (CST) sporting a weight advantage of 15 or more pounds. Trained as as fine a condition as for any previous fight—although not in the same "killer" frame of mind as the night he chopped Max Schmeling to defeat last summer the champion will scale just about 200

GG Champions to Big Spring For District Show Tonight

An estimated 100 participants and spectators are expected to go to Big Spring from here tonight for the opening night of the Golden Gloves district tournament.

Nine boys, seven of whom won championships in the recently completed city-county tournament here, are expected to enter the tournament. Interest among the fans here is high and a record crowd will attend the matches.

First matches at Big Spring will start tonight at 8 o'clock. Admission will be \$1.00 for ringside seats, 75 cents for main floor and 50 cents for balcony tickets. Matches will be held tonight and tomorrow night.

A record field of contestants from over West Texas has filed for the district tournament this year and four nights may be needed to establish the winners in all divisions.

Compulsory Bangs Tests Opposed

AMARILLO, Texas. (AP)—Texas cattlemen will oppose proposed legislation designed to make tests for Bangs disease among range cattle compulsory.

Such a bill has been drawn up for introduction at the current regular session of the legislature.

The Panhandle Livestock Association, which is affiliated with the Texas and Southwestern Cattle Raisers Association, Inc., has passed resolutions urging the legislature not to take action on the matter. The larger association also will fight the proposed bill.

The cattlemen have taken the stand that compulsory tests for Bangs disease (contagious abortion) among range cattle is not practical. They approve of tests for dairy herds because the disease is spread to the human family through milk. Cattlemen say beef is not affected by the disease.

Cost of making the required tests, they say, would take the profit out of the cattle business. The cattlemen say the federal government is

Best chances of Midland winning any district awards appears to be in the flyweight, featherweight and light heavyweight divisions, represented by Johnny Pickering, Jack Childress and Hyson "Dummy" Smith, respectively.

Alton Towery, winner of the welterweight title in the tournament here, received a side injury yesterday that will prevent him from entering the district matches. Earl Pace, winner of the light heavyweight title, also announced he would be unable to participate. However, Smith, who won the heavyweight title here, has dropped enough pounds to be eligible to enter the light heavy division.

All the fights tonight and tomorrow night will be broadcast by the Big Spring radio station, KBST, on 1500 kilocycles.

Two Industrial League Games Are Scheduled Tonight

Two Industrial League basketball games are on schedule tonight with the Petroleum Pharmacy and Atlantic clubs meeting in the first game, the Texas company and Tot's Gulfers in the second affair.

First game will be started promptly at 7 o'clock in order for fans to leave the gymnasium and return home to their radios by the time the Louis-Lewis championship fight broadcast starts at nine.

Tomorrow night, the Midland high school Bulldogs meet the strong Lamesa team on the local court.

The Bulldogs lost a closely played game to the Lamesa team last week and will be out to make up for the defeat tomorrow night. The Bulldogs have lost only two games on the local court this year and chances for a victory are far better than when the home team journeyed to Lamesa for the game. Second teams of the two schools will probably play preceding the scheduled game between the two high school first teams.

experimenting with a vaccine which may be successful in combating the disease. They say they feel the experiments should be completed before any regulation affecting range cattle is passed by the legislature.

PLANT WORKER ILL

Ross Steed, employee of the A&M Meat Packing company, became ill while at the plant Tuesday. An ambulance was sent to take him to the hospital for treatment.

Realistic Photo Too Real.

BRENTWOOD, Cal. — Louise Scott, 27, wanted a "realistic" picture of herself so picked up a supposedly unloaded gun and told Clement Reasonable, amateur Filipino cameraman to "shoot." He did and so did she. Louise got the realistic picture she wanted and Reasonable got a bullet in the calf.

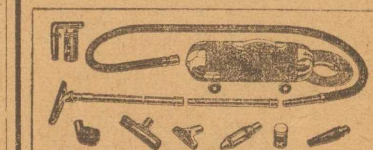

Whether or not thunder affects the hatching eggs is a subject that has not been settled conclusively.

pounds. John Henry, who only recently abdicated the light - heavyweight throne, figures to tip the beam at 185 or less.

Veteran ring observers, their minds made up that Lewis is past his prime and can't hope to cope with the most dangerous puncher since Jack Dempsey, asked each other only "what round?"

There had been some faint hope that John Henry's boxing skill would enable him to last the distance, out those who have watched both fighters training in recent days now feel that would be whistling in the dark.
