This Is America

WHERE HARD GUYS of the battlefield, men who met the enemy at bayonet point, now spend their time keeping their minds off the horrors of war by weaving so that when ready they can accept training provided by Victory Loan Bond dollars and once again stand on their own economic feet, heads proudly erect and say, "This IS America." About Our Men In Service

Carl H. Mills of Eastland has received his honorable discharge from the Navy at Norman, Okla., according to a Navy news release. He had the rating of C. M. 3-c.

WITH THE 1ST CAVALRY DIVISION IN TOKYO—The Silver Star has been awarded to Sgt. Bill A. Wallace of Eastland, Texas, for gallantry in action in the Philippine campaign.

After a successful but costly assault on a heavily fortified position atop a ridge, Sergeant Wallace's squad was designated as the protecting force for the litter squads and troop aid men. One wounded man was seen lying in an exposed position, and each attempt to approach him was frustrated by accurate and heavy rifle fire from the enemy, entrenched in cleverly concealed foxholes.

Wallace decided to go alone to the aid of the wounded trooper. Skillfully, he crawled forward and when almost at the trooper's side, a Jap in a nearby foxhole arose and opened up with a machine gun. Sergeant Wallace without hesitation returned the fire, killing the Jap. He then rushed to a foxhole and delivered such accurate fire that the Japanese fire was silenced and the casualty could be evacuated.

SHRIVENHAM, England—Sgt. E. M. Gussett, formerly of Eastland, Texas, and a former student at Texas A. & M., is enrolled at Shrivenham American University where the second two-months term opened Oct. 8 with an enrollment of more than 4,000 students.

Sergeant Gussett, a medic with the 506th Hospital Center, is taking animal husbandry and other agricultural courses.

Sgt. Marlin McMinn, son of Mrs. M. W. McMinn of Olden, received his discharge from the Army Oct. 25 at Camp Pannin, Tyler, after serving in Europe with the 90th Infantry Division of Patton's 3rd Army. He spent nine and a half months of combat duty in Normandy, the Rhineland, northern France and central Europe, and spent two months in hospitals in France and England. He has been awarded the Bronze Star with Oak Leaf cluster, the Combat Infantryman's Badge, four battle stars, the Bronze Arrowhead and the Purple Heart.

Harold Scott Greear, S. C. 1-c, son of Mrs. Ruth Chancellors of Olden, received his discharge from the Navy Oct. 31 at Camp Wallace. He left for overseas duty April 7, 1943, and was assigned to the U. S. S. Fulton for 18 months. The remainder of his service time was spent in and around Australia.

Master Sgt. Joe Wilson, stationed at the Air Depot at San Bernardino, Calif., was home recently on a two weeks furlough visiting his parents, Mr. and Mrs. C. A. Wilson.

Mr. and Mrs. Cyrus I. James of Olden have received word from the U. S. Naval Training Center at San Diego that their

son, Byron O. James, S. 2-c, has completed his course in Class A radio school there and has been selected honor man of his class. He made the highest average of 95.27, and was promoted to rank of Seaman first class.

Marine Lt. Milburn McCarty, Jr., who grew up in Eastland and later lived in San Angelo, has been relieved from active duty and has joined the New York firm of Douglas Leigh, Inc., as a vice president, according to news from New York. The firm has a national reputation in the field of electrical "spectaculars," huge animated electrical advertising signs.

McCarty served three years as a Marine combat correspondent in the South Pacific. He enlisted as a private, and later received a field commission.

His father now is an assistant to the Attorney General of the United States, Tom Clark.

Mr. and Mrs. Frank Sparks received a phone call from their son, Sgt. Joe Sparks, who had just arrived in New York aboard the Le Jeune and will go to San Antonio for his discharge.

First Lieutenant and Mrs. R. L. Perkins, Jr., and daughter, Patti Lee, are visiting in the home of Mr. and Mrs. R. L. Perkins, Lieut. Perkins is on terminal leave from the USAF with final separation from the armed services due Dec. 16th.

Lieutenant Perkins entered the Air Forces on May 5, and was last stationed at Napier Field, Dothan, Alabama, where he was the base air inspector (training.)

He has accepted a reserve commission in the Army Air Forces.

Lt. Robert L. Galloway landed this week on the east coast and expects to be sent to San Antonio for discharge, according to a message received by his parents, Mr. and Mrs. R. V. (Rip) Galloway. The wife and five months old son of Lieutenant Galloway lives in Eastland with his parents.

Mr. and Mrs. C. E. Owen had two welcome messages Saturday. Lt. Wilson Owen called from New York to let them know he was nearing home. He will go to Tyler for his discharge. Then a few hours later, they had a telephone call from Alameda, Calif., from their youngest son, A. M. 2-c Pat Owen, that he was on his way to Camp Wallace for his discharge.

Captain Finice L. Burkhead and family are visiting his mother, Mrs. F. E. Burkhead, and family. Captain Burkhead has just returned from Germany, where he served with Headquarters, 3rd Army.

Pvt. Austin Williamson, Jr., is visiting his parents, Mr. and Mrs. Austin Williamson, en route to Fort Riley, Kansas, for an overseas assignment, from Camp Pannin, where he completed his infantry training.

Eastland To Meet Hamilton Today On Home Gridiron

Playing only for a chance to tie for second place in District 10-A, the Eastland Mavericks will take on Hamilton's up and down football team at 2:30 p. m. Friday on the Eastland field.

It will be the last home game of the season for the Mavericks unless a tenth game is scheduled here following the Cisco tilt next week. The Cisco game originally was set to be played here, but was shifted to Cisco.

Dublin has sewed up the district title, and with it the dubious pleasure of meeting the Ballinger Bearcats in a bi-district set-to.

Hamilton has played good games this year against the stronger teams in the district, and has barely won from the weaker teams, so it will likely be a fairly tough contest in Eastland today.

As Coach Chief Warden of Eastland said this week, every team in the district was laying for Eastland this year, and every one, with an exception or two, has played its best game against Eastland. This especially was true of Dublin and DeLeon.

Hamilton reputedly has two of the best backfield men in the district.

The Eastland boy may find it a little hard to play Hamilton today for thinking of the Cisco game next Thursday. In which case Hamilton could pull an upset.

Members of the Eastland team reported that members of the Cisco team had bragged at the Breckenridge - Brownwood game Monday that Cisco would beat Eastland by 40 points.

This might well be true, but whether or no, the Mavericks have been a little riled over it. They also would like to win the mythical Eastland County championship, which they feel they would accomplish by pushing over the heavily favored Cisco eleven.

Eastland-Cisco Tilt Site Is Changed To Lobo Stadium

Eastland school authorities announced this week that the Eastland-Cisco football game originally scheduled to be played on the Eastland field next Thursday, Nov. 22, Thanksgiving Day, will be played in Cisco instead.

The site was changed because of the much greater seating capacity of the Cisco stadium, it was said. Time of the game will remain unchanged at 2:30 p. m.

All seats in the Cisco stands will be reserved, it was announced, and the reserved seat tickets are on sale at the three drug stores in Eastland.

Olden Beats Eastland B Squad 51 To 0

Olden's Hornets took it out good and proper on an undermanned Eastland High B team Thursday afternoon in Olden and won a football game, 51 to 0.

None of the Eastland players who might be used in the Hamilton game Friday got into the game at Olden, since Interscholastic League rules forbid players to appear in games so close together.

Retail Sales Here Climb In October

Eastland retailers' sales figures in October showed the effects of the peanut harvest in the county and reflected the generally prosperous business conditions here.

Burr's Store in Eastland led the entire chain in sales increases in the month. The Burr's chain has stores in the Southwest, Midwest and South.

The J. C. Penney store in Eastland was at the top of this district in sales increases for October.

Other merchants in Eastland reported business was good.

Mr. and Mrs. Dale Swan of Des Moines, Ia., will arrive in Eastland Monday to visit Mrs. Swan's parents, Mr. and Mrs. W. I. Allison.

Improving School Finances Described For Lions Club

Eastland Lions Tuesday were told by C. A. Hertig, tax collector of the Eastland Free Schools, Inc., that the school district is in much better condition financially than since he first became connected with the schools in 1929.

Hertig said the present \$1.50 tax rate was set by special election in 1936 after bond holders had gone into federal court to force some sort of action to make their bonds good. Prior to that, the tax rate had been \$1 on the \$100 valuation, but no money had been set aside to pay principal or interest on \$430,000 of school bonds, he said.

In fact, in 1936 the operation costs of the schools totalled more than the total revenues received, he said.

In contrast, in 1945 the operation costs were around \$48,000, about the same as in 1936, but revenues had risen to about \$60,000, and in the meantime \$49,000 in bonds had been retired, a big standing debt had been paid off, and the original \$1,000 bonds had risen in value from slightly over \$300 apiece to nearly \$800 apiece.

Hertig praised the county's current tax collection campaign, and said it was helping school revenues.

He told of plans for next year of improving and enlarging the seating facilities at the local football field, and installing lights if possible for night football.

Last year, he reported, for the first time since he could remember money instead of costing it. The athletic fund wound up about \$400 to the good, he said, on total receipts of over \$1,700.

Lions Club members asked numerous questions seeking to get a picture of the future of school finances. Hertig in answer to questions said he believed the school system now could see some hope of getting into the clear some time.

It must, he said, since the present grade schools will not last forever, and must be replaced at some future date.

However, the Lions had the present \$381,000 school bonded indebtedness on their minds when they left the meeting.

Union Thanksgiving Service Set Nov. 21

A union Thanksgiving service will be held at the Methodist Church in Eastland at 7:30 p. m. Wednesday, Nov. 21, it was announced this week.

Rev. Fred Porter, pastor of the First Baptist Church, will give the sermon.

The service was arranged by the Eastland Ministerial Association. Special music will be given by members of the various churches, and it was believed a joint choir from all the churches would sing.

HOME AGENTS HAVE MEETING HERE

Miss Myra Tankersley, and Miss Frances Barton were hostesses to a sub-district Home Demonstration meeting here Thursday. Conferences were held in the courtroom at the courthouse.

Those attending were Miss Thelma Casey, district agent, from College Station; Mrs. Gesell, Palo Pinto; Miss Annie Lucy Lane, Comanche; Miss Jean Bain, Steph County; Miss Maisie Malone, Brownwood; Miss Dorothy Wilkerson, Erath County.

Mrs. Wade Massengale has gone to San Antonio to attend the 37th State convention of Texas Congress of Parents and Teachers.

The P.T.A. of the South Ward School will have a regular meeting Tuesday at 3:15 p. m. in the school cafeteria.

Side Issues

By HENRY G. VERMILLION

Two or three people have asked me recently why I skipped writing this great piece of literature once or twice on recent occasions. That proves to me that I have two or three readers, and perhaps even four or five.

The reason I don't always get around to writing Side Issues is because I have too much else to do sometimes, and sometimes the paper just gets too full of other things.

The fact that a weekly newspaper is not always searching for stuff with which to fill up its columns is something that a number of people seem to have a hard time grasping. Frequently someone gives us some news item or something that I really wouldn't consider news, and remarks that at least we can use it to help fill up the paper.

It may be that such persons at some time have had association with a weekly newspaper that had trouble getting space filled, but I can assure all of you that such a condition is rare indeed in the office of The Eastland County Record.

More frequently we are scrambling around fighting some way we can get in all the stuff we have worked so hard all week to assemble. If you don't believe me, just ask Mrs. Parker. She's the one whose stuff often suffers, if it isn't our country correspondents, those brave souls who each week chronicle the happenings of their respective communities.

This week is an exception, in a way. This week, I hoped to put out a fast paper, because we've been trying to get ready to move to our new building, and things always come up at such a time that require attention.

Also, Monday was a holiday and to all intents and purposes our time for getting out the paper was cut by a full day. No news, no ads on Monday.

So along come some late ads and we have to put out two more pages than I had planned on, and me having to set all the type on this machine.

This is not a squawk, you understand, simply an explanation of some of the factors concerned in the operation of a weekly newspaper in Eastland, Texas, in the year 1945 in the post-war era.

Speaking of the post-war era, a goodly number of our fellow citizens of Eastland seem to be on the same track in taking advantage of the post-war boom in home appliances, when and if the OPA and strikers and so forth ever calm down and get prices and labor and so forth to a position where dealers can start getting the items to sell.

A friend and I were discussing this point the other day and listed no less than 15 Eastland merchants and individuals who have franchises to sell home appliances of one kind or another. The list includes people in almost every kind of business in Eastland.

The opinion is voiced frequently that this will inevitably lead to a bunch of people getting their fingers burned, but I am not so sure. I'm going to just wait and see.

Townsend Attend Medical Meeting

Dr. and Mrs. E. R. Townsend are in Fort Worth attending the Northwest District Medical Society and Auxiliary convention. Mrs. Townsend is president of the Auxiliary. The doctors register at the Texas Hotel, and the Auxiliary at the Blackstone, where a luncheon was prepared for each unit. This is Mrs. Townsend's second year as president of the Auxiliary. A number of Eastland County doctors and their wives attended.

Earnest Says Plans Drawn For Building And Equipment

Construction will start soon on a 700-locker frozen food locker plant in Eastland, J. O. Earnest, who will build and operate the plant, said this week.

Reservations for lockers are being accepted now at the Eastland National Bank, Chamber of Commerce, and Clover Farm Store.

Earnest said he was not ready yet to specify the building location, but said building plans have reached the blueprint stage. They call for a building with approximately 200,000 feet of floor space, to be constructed of gray face tile with the most modern materials available.

Estimated cost of the structure is in the \$45,000-\$60,000 range.

Plans call for ample space for caring out meat, and another large room for frozen storage of large animals. The plant will offer slaughtering service on animals, and will include a blanching room where individuals who rent lockers may prepare fruits and vegetables for frozen storage.

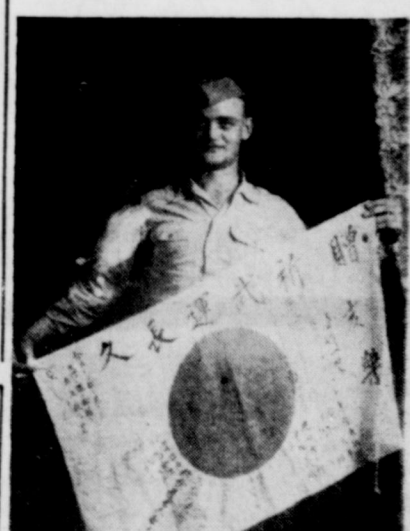

Rentals on the lockers will be \$12.50 and \$15 a year.

Many persons in the Eastland area have rented lockers in Cisco in the past, and the only close-by food locker plant.

It was understood that plans are under way for construction of a similar plant in Ranger also.

Earnest said his plant will have the latest type of cooling system, and also will have steam heat in the offices and other rooms that need it.

Planting Cover Crops Is Urged

Many tons of precious topsoil from the peanut fields of Eastland County will be washed down the rivers this fall unless farmers plant adapted cover crops as soon

as peanut crops are harvested.

AAA Administrator Emmett Powell said this week. Powell said that more farmers than ever before are planting cover crops this fall, but that every farmer who can obtain seed and equipment should cover his peanut land for the winter, and thus help assure a bigger crop next year, as well as save the topsoil.

Removal of peanuts, he pointed out, leaves the soil wide open to erosion, leaching and wind damage. However, the same soil usually is ideal for planting of cover crops, since weeds and grass are removed when peanuts are dug, he said. Next spring, the cover crops can be turned under as green manure to add fertility to the soil.

Further details may be obtained at the AAA office, from local committeemen, from County Agent J. M. Cooper, or from other agricultural workers.

County Record, Eastland, Texas.

Information hereto is some data obtained from the collector's office and the auditor's office, which the commissioners Court believes will be interesting to the people of the county.

Very truly yours,
P. L. CROSSLEY,
County Judge.

Payees Benefitted By Tax Contract.

rapid and striking improvement in Eastland County's tax is the result, and proves the worthiness of the Delinquent Contract now in progress.

WILL BE carried on to completion.

people are paying their taxes and are proud of that they have not only met their duty, but also have relieved themselves

of this tax debt.

"It is hoped that all who owe delinquent taxes will pay NOW in order to avoid suit. However, it is not the desire of the tax authorities to SUE ANYONE.

"They will cooperate with anyone who will make an honest, sincere effort to pay their taxes.

"You can be assured that if you pay your taxes the others will also, because the program WILL NOT cease until the delinquent taxes of this county are collected.

"The taxpayers are reaping the benefits of this now, in that it was the means by which the Commissioners Court did reduce the tax rate 26 cents for this year.

"Last year's (1944) rate was \$1.16; this year's rate is \$0.90.

"They were also in position to allow a 3 per cent discount on all taxes paid during the month of October. This discount will be 2 per cent in November and 1 per cent in December.

"A careful survey indicates with reasonable certainty that your tax bill for next year (1946) will be based upon an UNPRECEDENTED low tax rate of not more than 60 cents on the \$100 of taxable values.

"A reduction of ALMOST ONE-HALF of the tax rate within ONE YEAR means a saving to the people of the county of about \$125,000 per year.

"A careful survey of income for debt purposes clearly indicates that sufficient funds will be on

hand by December 31, 1945, to meet our sinking fund, bond and interest requirements for NEXT YEAR, 1946.

"A comparison of tax collections for October, 1944, with October, 1945, reveals some interesting facts, bearing in mind the reduction of tax rate and discount allowed.

"Total current taxes collected during October, 1944, were \$146,872. Current collections during October, 1945, were \$193,190, or an increase of more than \$46,000. This is CURRENT taxes which were paid when due.

"The DELINQUENT taxes collected during October, 1944, were \$5,043, while during October, 1945, delinquent collections were \$42,137, a gain of more than \$37,000 in one month."

Mrs. Kelley of Brownwood, district deputy of the Order of Eastern Star will be here to meet with the local Eastern Star chapter Nov. 23.

THINGS WE NOTICE

The queer things some people find to do on dates like popping each other's knuckles, for instance. "Muggy's" beautiful new locket. How gay the old school seems to be lately.

The price on some notebook paper.

Billie Floy and her new (?) romance.

Wanda's high spirits lately. It is not because of Tommy—or is it?

Marion and Dorothy's cute clothes.

How clean all the practice suits look when the boys run out to the field on Monday.

How proud Blair, Hicks, and Matthews are of their new "Spot-built" football shoes.

Buster! Buster! Has anyone seen Buster, Lu-Lu!

All the exes are home—are we heart-broken?

Wesley's back!

Wayne and Dorothy Sue—or is it?

The new couples that have sprung up.

Geometry class.

What has happened to Milton's class ring? (Eh, Milton).

Donald Kinnaird's poem about girls in blue jeans dedicated the girls of E.H.S. (The girls appreciated that, I'm sure. Ha, ha).

Prudie's poem—need we say more?

Miss Morehart's opinion of Bangs.

That sweet look Betty gave Jack in assembly last week.

Junior class picnic! Swell, wasn't it?

You can get embarrassed around a sailor—eh, Wanda and Bob?

Memory work—need we say more?

Harmony practice at noon!

Talk about wolves! Hubba! Hubba! (And we don't mean prairie wolves, either).

Blue eyes!

"Gimme a little kiss, willya, hon?"

Cute but corny. What will they think of next!

How are the first year Home-making girls feeling after the first

breakfast they cooked.

Why doesn't Cyrus make up his mind or why don't the girls?

All the wide belts.

The attention Joyce received Friday.

How Bettie Overbey dislikes the nickname "B. O." Can you blame her?

The new hair style of braiding and putting it on top of the head.

The detentions the teachers are dishing out.

Wayne Lambert's nose.

What have those little pieces of paper been saying that Jack Chamberlain has been giving Betty Ferguson lately? I wonder!

What in the world did Audrey Brown do to the top of her hair?

The boys wonder which is worst, the girls with the long skirts and jeans or the girls when they were initiated into the Rip & Sew.

With Nell Frost is it Dick or Jack or Dick?

Just who is Prudie Hardeman thinking about "now-a-day?"

How are Bobby Shero and Fort Worth getting along?

Why doesn't Jeanne Greene get another beau, then the freshman gang would be set for anything.

The football games everyone sees.

Jerry and "her" car!

The girls bow ties.

The scheduled area Naomi and "Cobra" chose to sit in in study hall.

Marilyn's cupid business.

Lessons!

How good our B string is.

The boaters in study hall.

Andrey Faye Brown's hair seems to have gotten a G. I. in front.

A topic around here that is spoken of with anticipation is Monday, November 12—no school!

A hilltop and hill scene are brown and white moccasins and girls with their hair on top of their head. These styles are quite popular with the freshman girls.

Yea, fish!

A very hilly topic is the freshman detentions. We seem to be getting more than our share.

A topic of discussion is who will be candidates for queen and king of the "Fish" class. We have

a pretty good idea about the candidate for queen but oh, for a king!

The junior class really appreciates the good time that Miss Moreheart was responsible for on the junior picnic.

It is really a relief to have the hardest of the memory work off.

Lusk and Hicks are kind of unpopular for Wednesday night!

SENIORS SELECT INVITATIONS

The mighty senior class was called to a special meeting Thursday at 2 p. m. to choose the invitations.

After a lengthy discussion of the three types shown, the class voted and came out majority on Sample No. 2. This was the "Mascot Invitation" which seemed to be a favorite of all. It is solid white with the Maverick head in the middle and "Commencement" printed in raised letters across the top. In the inside the announcement is written in beautiful print of black letters and on the opposite side is printed "seniors" in raised letters which is the holder for the name card.

We are all very proud of them and are anxious to send them all out!!

YEA SENIORS!!!

ADVICE FOR LOVELORN

This year, as an added attraction, the Round-Up is featuring an article that has never before been published in the Record. It is called "Advice for Lovelorn," and is conducted by Petunia Hearthrob. She wants you to tell her all your troubles because there is nothing she likes better than for someone to cry on her shoulder, where she can publish it in the paper. Of course, you won't want everyone to know who you are, so sign your best friend or comic character's name and put your troubles in Mrs. Woloszyn's mail box. Don't get any ideas though because she is not Petunia, but merely editor of the paper.

Petunia guarantees that all correspondence will be kept strictly confidential and all interesting ones will be published weekly in the paper.

Your cooperation will be appreciated.

THE EDITOR.

CHARM QUARTET ENTER-TAINS STUDENT BODY

Last week the student body of Eastland High School was entertained by the Charm Quartet.

This quartet was furnished by the Southern School Assemblies Company. The company furnishes an average of four paid programs per year to the high schools all over the country.

Included in the program given by the Charm Quartet were a number of vocal solos, duets and trios. There also was a piano solo, "Clare de Lune." Among the vocal numbers were a number of vocal selections from the stage play, "Oklahoma," including "Oh What a Beautiful Morning," "People Will Say We're in Love," "The Surrey With the Fringe on Top," and "Oklahoma;" a melody from the operetta "Naughty Marietta," a selection from "Carmen," "Chir-Chir Ben," "Begin the Beguine" and "Ave Maria."

Everyone greatly enjoyed the program and are very glad to have had the privilege of listening to the quartet.

Step right up, amigos... Have a Coca-Cola

...Yank friendliness comes back to Leyte

Naturally Filipinos thrilled when their Yankee comrades came back to the Philippines. For along with freedom they brought back all the friendliness that America stands for. You find it quickly expressed in the simple phrase Have a Coke. There's no easier way to say Relax and be yourself. Everywhere the pause that refreshes with ice-cold Coca-Cola has become a symbol of how Yankee friendliness follows the flag around the globe.

Carriers HELP SPEED LONG DISTANCE

A big help in our job of providing urgently needed long distance circuits is a device called a "carrier."

Resembling somewhat the equipment inside your radio, carriers send or "carry" several long distance calls over one pair of wires at the same time. Some carriers handle 3 calls, some 12, others many more.

By installing carriers as fast as they're available, we're trying to provide as many new circuits as we can, as quickly as we can, to handle today's heavy load of long distance calls. Meanwhile, if any of your calls are delayed, we know you'll understand why.
