Swim Club Directors Met May To Select Manager, Life Guards

The board of directors of the Burkburnett Swim Club, Inc., met Thursday, May 14th, in the Electric Reddy Room to select a manager and life guards for this season's activities.

The club is happy she has selected this position once again, especially the children who are delighted to know that Anderson has consented to assume responsibility as manager. Her wonderful work with children is apparent to all known in town. The club is happy she has held this position once again.

Four life guards, highly recommended by the Red Cross, are Crowley, Paul Gilchrist, Karstetter and Charles...

The pool will open Saturday, May 23rd at 10 A. M. and reopen until 9:00 P. M. with the life guards on duty.

Some of the rules of the pool are as follows: a rest period of 15 minutes will be enforced for all children under ten years of age. Each swimmer must have their own towel, a shower cap and a life preserver. No dogs or cats are allowed within the pool area.

Swimmers must wear proper swimwear for at least one hour before entering the pool. No diving is allowed in the shallow end of the pool. No running is allowed in the pool area.

Life guards may expel anyone who is not obeying instructions. Life guards will cause suspension of pool privileges for anyone who is causing trouble or who is causing a disturbance.

On Friday, May 22nd, the Burkburnett Swim Club, Inc., will hold its annual meeting in the Texas Electric Reddy Room at 8:00 p. m. at which time regular business will be conducted, a club report made and election of three new directors held.

H. R. Hays, president will preside. All members are urged to attend.

adults alike. Please stick to the rules and enjoy safe fun.

Mrs. Joe Crowley (569-3439) and Mrs. Finis Taylor (569-3213) are in charge of season passes, which cost \$20 for members and \$30 for non-members.

Start and time of swimming lessons will be announced at a later date.

Clean-up of the pool and area will begin Monday, May 25th and all aid volunteered will be gratefully appreciated.

The board of directors of the Burkburnett Swim Club, Inc., have worked hard to make swimming in the pool, good clean fun and a safe sport. They are very grateful to all who have helped in any way.

Chairman of the board is Mrs. Ralph White, supported by the following members: Joe Crowley, Dr. J. A. Davey, Ray Anderson, Paul Fisher, Harold Van Loh, Finis Taylor, Floyd Marten and Bill Vincent.

Also contributing much time and effort for the pleasure of residents and their children are the officers of Swim Club, Inc., who are, H. R. Hays, president, Joe Viavattene, vice president, Joe Viavattene, secretary-treasurer, and Mrs. Hugh Preston, Jr., recording secretary. All have served for the past year or more.

Special appreciation goes to Mrs. D. C. Dodson, who has been responsible for purchasing 21 trees and landscaping the area with donations from Mrs. C. M. Archer, Mrs. Hugh Jones, Mrs. Walter Riley and several clubs.

Also a special 'thank you' to the Park Commission and city employees for their wonderful assistance.

Chaplain Weldon Wright, son of Mr. and Mrs. J. B. Wright, of 506 E. 3rd St., has returned to Fort Benning Ga., after visiting his parents, some other relatives and friends in Burkburnett. He left on the 8th of the month.

Girl Scout Day Camp, at the Baptist encampment grounds, will be from June 15th to the 19th.

Training of Councelors will begin Wednesday and Thursday, May 13th and 14th, at 9:30 a. m. at the First Christian Church.

Mrs. Lloyd Bloodworth will be the director of the Day Camp and says councelors are needed and one need not be connected with scouting to help in this capacity. Any aid will be most gratefully received.

Anyone interested in being of assistance, may call Mrs. Bloodworth at 569-3863. She will be most happy to answer all inquiries.

Mr. W. C. Mullins wishes to express his gratitude and appreciation to everyone who sent flowers and visited him during his stay in the hospital.

Special thanks go to the adult Sunday School class of the Central Baptist Church for the very nice gift.

The Lord's blessings on all of you.

D. E. C. A., the Distributive Education Students, held a very impressive Banquet for their employers, May 7th at the Villa Motel, where they gave their thanks and certificates to the people who have provided training stations and personal guidance for them during this year.

Gerald Butcher, president of the organization, was presented with a trophy as the top D. E. Student.

The main speaker of the evening was Mrs. Eva Bishop, a long-time employee of Sears Roebuck and Co. of Wichita Falls.

She gave a very inspiring oration about what is required to become successful and reach ones goal. Her talk was sparked with pertinent bits of wit and humor.

Mrs. William Spurgeon and her son, Bill, delighted everyone with their guitars and songs. Mrs. Spurgeon did a fine performance singing such songs as Jambalya, I'd Rather Die Young and I Can't Help It If I'm Still In Love With You. Bill did a beautiful instrumental.

Chicken fried steak and a cherry desert were enjoyed by all.

I wish to thank the D. E. students for inviting me to attend. I enjoyed the evening very much.

Junior High Band Annual Concert To Be Tues., May 19th

The Burkburnett Junior High Band will hold its annual Spring Concert on Tuesday, May 19th at 7:30 p. m. in the old High School auditorium.

Admission will be 25c and 50c. This will be used toward band expenses.

This group recently won sweepstakes in sight reading, marching and concert in interscholastic competition. Mr. Jimmy McLean is band director.

So, Mr. and Mrs. Public, come out Tuesday night and see what a grand job this group of musicians is doing.

Water wheels built some 2,000 years ago by the Romans are still in daily use near Hana, Syria. One artesian well near Lillers, France, has been flowing continuously for over 800 years; another near Charleston, South Carolina, produces water with a temperature of 87 degrees, the year round.

Burk Study Club Installation Dinner Held At Wichita Falls Country Club

The Wichita Falls Country Club was the scene of the Burkburnett Study Club installation dinner, Tuesday evening, May 12th. The banquet table was laid with a pink cloth featuring a white Bible, Madonnas, pink candles and pink baby's breath. The invocation was given by Mrs. F. C. Royce.

Mrs. Geo. McClarty, the president, introduced Mrs. Philip Carpenter, who spoke on the "Goals We Have Achieved." She said, "the plans can be made and the rules can be read but the response of each member makes possible the goals the club achieves." We have complied with the score card set up for us by the General and Texas Federation of Women's Clubs. We have shown appreciation for others by entertaining our Senior Citizens; taking gifts to the County Farm; State Hospital; Fath Mission; Fowler Home and Salvation Army. Life is an investment and the returns come by spending. Many hours of each members time has been spent in making our Community a better place to live. Our remunerative projects were to our parks, Youth Center, Town Hall and Cemetery. We have found that blessings like seed corn — multiply by planting."

Mrs. McClarty gave the treasurer's report.

Mrs. M. E. Bean introduced Mrs. Fred Hunt, who reviewed the book, "Does It Make Into a Bed?" by Lorna Novak.

Mrs. Harold Van Loh presented the gifts and awards. The Most Outstanding Club Member award was received by Mrs. Philip Carpenter, The Best Club Paper of the Year was a tie vote. Mrs. M. E. Bean received one award for her paper on "Enlarging the Opportunities for Outdoor Recreation." Mrs. E. Y. Buckner received the other award for her paper on "Unlocking the Resources of the Sea."

Mrs. McClarty received a silver tray for services as president. She then installed the following officers: Mesdames Glen Bear, president; D. H. Smith, vice president; E. Y. Buckner, recording secretary; Howard Henderson, corresponding secretary; Jack Smith, treasurer; W. G. Mayberry, parliamentarian; Harold Preston, reporter; and F. C. Royce, historian, using a religious installation, giving each a small nosegay topped with a tiny white Bible.

Mrs. Glen Bear, incoming president made a very inspiring response and the meeting was adjourned.

Lt. Col. Jane Sewell was welcomed as a special guest for the dinner. She is a corresponding member, stationed in Dayton, Ohio with the Air Force. Others attending were, Mesdames, M. E. This Is The Way

When you want meat, there's no problem to getting it. You go to your market and order what you want — steaks, chops, hamburger, whatever. This is taken for granted. But back of it is an intricate industry, closely related with other industries, which makes available the meats we want, when we want them, in every part of this far flung nation.

And it is an ever changing, ever moving industry. A year ago the National Association of Food Chains and the American Meat Institute held a joint meeting. It was so fruitful it is being repeated. Its theme this year: "Improved Sales and Profits—Better Service to Consumers." And there objectives are inextricably tied together. Good service, and all the areas of progress that make for good service, depend upon profit. A profitless industry, in the long haul, is an industry which can go nowhere but down. During this year's meeting the representatives of the meat industry and the retailers will discuss just about every phase of the business. They will consider the existing facts and the future prospects. And they will come up with finding and recommendations designed to make a fine national asset a still finer one, to the advantage of all concerned, all the way from the ranch to the table of the consumer.

This is the way things are done in a free enterprise economy. And this is the way that the typical American family gets more and more of the good things of life.

Boys' Clubs Answer For "Every Boy"

Youth unemployment and high school "drop outs," are not new problems to the Boys' Clubs of America. For 50 years, this national youth-guidance organization has conducted programs designed to combat what they term "this dissipation of natural resources." The latest of these, "Operation Lift-Up," is now in operation through some 635 Boys' Clubs in more than 400 communities.

In providing "The Right Answer For Every Boy," some 635 publicly supported Boys' Clubs of America are open every day after school, every evening and all day on Saturday. At a Boys' Club, trained, professional youth leaders offer instruction in "everything from marbles to music, from science to swimming and from camping to cooking." Well over 600,000 deserving boys use the facilities every day in more than 400 communities.

"Keystone Clubs," which encourage older boys to assume adult responsibilities in community service, are proving one of the most popular—and useful—programs among the 635 Boys' Clubs of America. Purpose of these Clubs, whose name stems from the national Boys' Clubs' keystone insignia, is to "create and maintain high standards of health, character and citizenship."

Recognized as the fastest growing youth-guidance organization, Boys' Clubs of America operating budgets top \$20,000,000. Replacement costs of the 635 Boys' Clubs buildings and camps top \$150,000,000. New Boys' Clubs, alterations and additions average about \$11,000,000 each year.

ROGER W. BABSON
DISCUSSES THE WORLD'S GREATEST MIRACLE

ROSE PARK, Mass.—The greatest miracle, of course, is the conception and birth of a baby with its unparalleled opportunities. It is said one reason the Chinese has had such a long and glorious history is because Chinese figure their child age from nine months to what they do and during those nine months. **Importance of Seeds** The next wondrous miracle to the birth of babies is the birth of seeds. This will be the subject of this week's report. I have just returned from the Evers Flower Farm at Evers, Florida run and operated by Orris R. Evers who

raises over 275,000 plants every spring and 100,000 more every fall. He is a graduate of the University of Florida and has a Master's Degree from Ohio State University. I mention this to show the importance of an education to a "farmer." This should be an inspiration to those college graduates who think that they must be doctors, lawyers, or insurance agents in order to build a large business and make a better, happier, more beautiful world. This my friend Evers is now doing. God bless him. He knows that every seed contains a miracle.

Each Seed a Little Computer
Two facts about seeds interest me intensely; the first is the billions of seeds—both vegetable and flower—going to waste every year. The head of one company which raises and sells only vegetable seeds sell over one hundred billion (100,000,000,000) live and active seeds each year. The second fact that each seed is a complete factory. Had I had space I would prove this to every reader. Moreover, each "factory" knows exactly when to commence operating without the need for any labor union or any legislation. Each seed is a most marvelous automated device—far more extraordinary than any computer.

What Computers Are Now Seeking
Computers are a very wonderful invention; but they give out only what has been fed into them. This is probably true also of seeds; but NATURE "programs" the SEED. As yet, computers do not THINK, but seeds apparently do "think"—at least they know when to sprout or burst their shell and grow into a vegetable or into a flower or into a magnificent oak tree. You say this is merely done by the seed "listening" to the sun. Or to put it another way, the sun "programs" the seed to send a sprout upward to form leaves, and a fiber downward to form roots. Truly it all is very wonderful.

Possibilities of Computers
Computers also are wonderful; but none of the five leading computer manufacturing companies (a list will be sent gratis on request) will claim that their computers will work by doing their own THINKING. They need to be "programmed", which means that the information must be fed into them by some human brain. Psychologists tell me that the

time is coming when brain waves—in leaving our heads—will operate computers. I feel sure, too, that the day is coming when the computer will secure its knowledge from the rays of the sun, from the direction of the wind, or from other invisible data fed to it by nature.

Every Seed is A Thinker
Now let me get back to my favorite subject of "seeds." Each seed is a miniature computer already being "programmed" by nature. It, however, depends greatly upon environment and almost wholly upon what has happened before. Let me again refer to the writing of Dr. Rufus Cole of Mt. Kisco, New York. Every seed proves his basic claim: That there is nothing new under the sun, and that what happens today is dependent upon all that has happened generations before. Furthermore, seeds will someday become real economic forces, though this possibility is now almost entirely ignored. I wish I were a young man and could enjoy the great changes ahead of us; we have only tapped the great computer era! Even Edison once said to me: "Give me a few more years, and I would have seeds perform wonders such as the incandescent light and the electric motor have done for the industrial era."

Receives Promotion

ROBERT W. LANDRUM

Robert W. Landrum, son of Mr. and Mrs. Sylvester Landrum, 608 Tidal, Burkburnett, has recently been promoted to Sergeant E-5 in the United States Army at Fort Hood, Texas.

Sergeant Landrum has been stationed at Fort Hood since July, 1961, where he has received a diploma in projectionist school and small arms maintenance school.

Landrum participated in Operation Big Lift with the famed 2nd Armored Division (Hell On Wheels). Being an expert rifleman he also participated on the rifle team in which he received a plaque for winning first place.

Sergeant Landrum's enlistment date is up in July. He and his family plan on making their home near Wichita Falls.

Pool Companion

A covered patio is an ideal companion for a home swimming pool.

According to the Southern Pine Association, the patio can be built by a competent handyman with material available from retail lumber dealers.

A simple wood frame structure with a flat roof is suitable.

THANKS

I wish to thank all those wonderful people who helped with the Square Dance and Cake Walk last Saturday night. I want to express my personal thanks to all the Sundowners and the area dancers for the wonderful turnout. The Youth Center directors and those who worked the concession stands are to be commended for their work, effort and success in the project.

A very good dance was enjoyed by all and the thanks for that to Cecil Curtis and our visiting caller, Glen Crow of Electra.

Thanks to the management of Piggly Wiggly for the use of their facilities. We don't want to miss anybody so thanks to any and all donated the use of their time and equipment. Rosy and Ina Roark Pres., of the Sundowners

Stunning 'Brunnettes'

With modern finishes for wood paneling, "blonde" woods can become stunning "brunnettes"

Southern Pine actually—golden—can be transformed to dark grey or even ebony with oil tinting. Since the finishes are transparent, the applied colors look just as natural as the wood's actual hue.

I promised Harry Dodson an Ad for this week and by Ned He got it on time.

If you read it—you will agree its a "Dilly".

BEACHED... and forgotten!

This old forgotten boat is almost buried in the reeds. Can this boat in any way be compared to our talents? What of these talents that God has given us? Have they been beached, forgotten, buried?

Heaven expects us to help in this matter of creating a better world where brother helps brother by using to the fullest extent the talents He has bestowed upon us. God always provokes and prods mankind to do good works, and accomplish great things. And He says that if we dedicate ourselves to this matter He will help. But the decision to use our talents and develop them is our choice.

Attend church this Sunday and begin to learn how God would have you use these gifts He has given you.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Circle No. 2 Met Monday, May 11th

Circle No. 2 of the First Methodist Church met May 11th in the home of Mrs. A. H. Bazell. The meeting opened with a song, "Jesus Calls," and a prayer by Mrs. Copeland. Mrs. R. L. Gragg brought a wonderful devotion from St. Mark, "Walk With Jesus," and also a story of faith. Each member brought gifts for a mission in San Antonio. We were all glad to have Mrs. Regar back, who has been ill for some time. The hostess served lovely refreshments to Mesdames Bill Cauthorn, W. W. Chambers, Lowery, Gage, Willis, Shrum, Rigby, Gragg, Galloup, Reger, and Bazell.

SCOPE COVER

A two-inch-wide band cut from an old rubber inner tube makes a fine scope protector in bad weather. Band fits easily over ends, keeps water and dirt off lenses. In an instant you can slip it off to bring rifle into action.

\$13,100.00 For Farm-to-Market Roads In County

The Texas Highway Commission today approved the expenditure of \$13,100.00 for construction of new Farm-to-Market Road mileage in Wichita County as part of the 1964 FM Road Program, announced District Engineer L. B. Dean of Wichita Falls, Texas. The District Engineer said 0.9 miles in this county will be involved. The work authorized for this county is part of the new \$23.0 million FM Road Construction Program just announced by the Texas Highway Commission.

The annual Farm-to-Market Program this year will build more than 1,000 miles of Farm and Ranch to Market Roads in 166 Texas counties. The Commission authorized a total package of 277 projects financed for construction by the action. Construction on a total of 1,032 miles of Farm-to-Market Roads is involved.

The Farm-to-Market Program is an annual road building undertaking of the Texas Highway Department under legislation authorizing a yearly budget for new FM construction. The Farm-to-Market Road grid in Texas now stands at 37,143 miles of Designated roads. "Designated" includes both roads already built and those financed to be built in the near future.

With addition of new FM miles authorized by the Highway Commission, the Texas Highway network exceeds 65,000 miles for the first time. New total for highways of all types in Texas: 65,778.

Of this designated mileage, 3,031 miles represent Interstate Highways and 25,604 miles are U. S. and State-numbered highways of the "Primary" system. The remaining mileage is Farm-to-Market Roads.

Of the new farm roads to be added to the Texas Highway system under the 1964 pro-

gram announced today, 69 per cent are school bus routes and 67 per cent are mail routes. The remaining per cent are generally new routes that when improved will also be utilized as school bus and mail routes.

Today's sprawling Farm-to-Market Road system in Texas traces its genesis to a six-mile stretch built in 1936 between the communities of Mount Enterprise and Shiloh in Rusk County. From this first Farm-to-Market Road the Texas Highway Department has been pointing toward an ultimate system of 50,000 miles of such roads. Biggest expansion of the system has occurred since 1949.

The projects authorized for construction on this program for Wichita County are located as follows:
From FM 1180 South to end of proposed FM Road at Archer County Line.
From new location of U. S. 277 and 281 East to Spur 325.

WHAT MAKES A FOX TICK

Here's how to catch a fox: Place watch on ground, cover with grass. On top of this place fox trap, suitably chained and pegged. Cover trap with grass. Fox hears ticking, decides it's a mouse and pounces into trap. Pretty dumb fox!
