Allen First In Contest

Mrs. Loren Allen, 117 S. Main, won first place in annual Lions Club Christmas home decoration contest. Judges placed second place to Mr. and Mrs. Reese Taylor, 1317 S. Baylor, and third place to Mrs. Textie Johnson, 309 S. Birch.

Allen home featured colts around the house, and figures of "Rudolph, the Red Reindeer" and Santa in the front of the house. Yard were miniature carolers lighted. The front door decorated with holly and were lights in the yard.

Committee spokesman said judging was difficult this year because of so many outstanding and unusual Christmas decorations. Some of the beautified homes had won in the past and last year's were not eligible to win this year.

SNOW SCENE—The Christmas Eve snow made beautiful patterns of white over Perryton and the Plains country, and the 6-inch snowfall was especially appropriate for the holiday season. Typical of the winter scene was this home of Judge and Mrs. Jack Allen, 621 S. Baylor.

Mention was given to following homes: Mr. and Mrs. Spencer Whippo, 914 S. Main; Mr. and Mrs. J. H. Gars, 706 S. Grinnell; Mr. Mrs. O. A. Schuster, 718 S. Hill; Mr. and Mrs. Irvin Her-701 SW 9th Ave.; Mr. and Mrs. Claude Schell, 502 S. Col- Mr. and Mrs. Louis Bryan, Baylor.

County Agent Report Reveals Year of Drought, Cattle Drop

The drought of 1952, which eliminated any substantial grain sorghum harvest and brought heavy losses to live-stock producers, takes first place in the annual report of county agent Delbert Timmons.

In 1950 and in 1951, the large grain sorghum harvest, aided by heavy spring rains, took up the slack of below-normal wheat crops, but in 1952 the grain sorghum harvest was lacking. The wheat crop, while small by usual standards, was the best in two years.

Beef cattle production saw a decline, due to the absence of wheat pasture and the shortage and high prices of feed. A large number of good commercial cattle were sold due to the short feed supply, and these cattle will be hard to replace with the same quality cattle when the ranges are re-stocked, the county agent pointed out.

Most of the registered cattle are being kept and should be helpful in keeping high quality cattle on the range.

Irrigation gained the interest of many farmers, due to the

Christmas Snow Has Half Inch Moisture

The 6-inch snow which fell Christmas Eve brought .50 inch of moisture, according to Judge Jack Allen. This, combined with the .31 inch of moisture received Dec. 19 made a total of .81 inch for the week. Continued cold temperatures this week have kept the snow from melting, and it was not until Tuesday that the snow and ice melted off city streets.

Wheat

Although the fall of 1951 and the spring of 1952 was too dry for ideal wheat growing conditions, Ochiltree county harvested an estimated 2,500,000 bushels of wheat in 1952, much of it on summer fallowed land.

There were over 3,000 acres of certified wheat, and a lively sale of certified seed was made throughout the wheat belt by the Certified Wheat Growers Association.

All of the wheat acreage in the county was "dusted in" during the fall of 1952, with producers hoping for winter snow and spring rains to bring in a 1953 harvest.

Beef Cattle

Ochiltree county's second largest industry, beef cattle, took a dive during 1952, with a combination of lower market prices, dry weather, and high feed costs driving cattle to market ahead of time.

Hereford Sale Registrations Are All Received

All certificates are in for the catalog of the annual North Plains Hereford Breeders Association sale, reports secretary Hood Willis, and plans are about completed for the annual event.

There are 60 head of registered Herefords consigned for the sale, including 42 bulls and 18 females.

The sale and show will be held February 9-10 at the livestock building at the county fair grounds.

The annual Junior Livestock Show, sponsored by the Chamber of Commerce, is scheduled to be held at the same time as the Hereford sale and show.

Business Houses to Be Closed Thursday

Perryton business houses will be closed Thursday, January 1, for New Year's Day. This is a date set aside for general closing by the retail merchants committee of the Chamber of Commerce. Only those businesses whose closing would cause a serious inconvenience to the public, such as cafes, drug stores and service stations will remain open Thursday.

Pampa Man Will Install Officers

E. O. "Red" Wedgeworth, manager of the Pampa Chamber of Commerce, will be installing officers at the Chamber of Commerce dinner for officers and directors, to be held January 8 at the Hotel Coffee Shop.

The new officers of the Ochiltree County Chamber of Commerce will take office at that time. The new president is C. E. Whippo; the vice president is Harold Hudson; new directors are F. L. Gerard, L. D. Stinson, Percy Powers and Harlan Hawk. Holdover directors are Giltner LaMaster, Virgil Castle, Alton Witt, Lawrence Elzey and Audie Conley.

Plans for the annual meeting of the Chamber of Commerce will be announced at a later date.

Borger Smothers Rangers, 78-40 In Cage Game

The Borger Bulldogs smothered the Rangers Tuesday night by a 78-40 score, almost duplicating their earlier 77-31 victory. The Rangers played the visitors a good game, and were within halting distance for the first half, but inability to hit their shots soon put them way behind.

The Ranger defense kept the Borger marksmen outside the free throw lane, but a trio of sharpshooters, Rogers, Newland and Woodfin, poured the ball through the hoop during the last half to make it a rout.

Woodfin had 21 points to lead the scoring for the night, followed by Rogers and Newland, each with 16 points. Dick Haar was high point man for the Rangers, with 15 points.

In the B team game, Borger went into a 20 point lead, and

Rainfall Records for 1952 Show Driest Year Since 1935

Only 14.57 In. Received In Past Year

Final moisture records released this week by Judge Jack Allen confirmed what had been suspected for a long time. The year 1952 was the driest since the dust bowl years of 1935 and compared with the previous drought of 1917. Only 14.57 inches of moisture was recorded during the year.

In 1935, the Perryton area had 13.40 inches and in 1934 it had 14.23 inches. The lowest moisture year on record here was in 1910, when only 10.62 inches fell. In 1917, the rainfall was 14.14 inches.

The past year would have been even drier had not a series of local showers fallen in July to boost the moisture for that month to 5.77 inches. This amount of rain did not fall generally over the county, however.

Until the snow fell in late November and December, only 1.33 inches of moisture had fallen since July. The December snow brought .81 inch of moisture and gave the 1953 wheat crop the first encouragement since the wheat was dusted in this fall.

The moisture for 1952, by months is:

Slick Streets Blamed for 3 City Accidents

Slick streets and poor visibility were blamed in three accidents in Perryton during the Christmas season. No serious injuries were reported.

On Dec. 24, a collision between automobiles driven by J. D. Langwell and Mrs. Gertrude Barlow at the intersection of Main street and 6th avenue resulted in \$183 damage to the Langwell car and \$83 to the Barlow car.

City policeman E. E. Jones said Langwell was going south on Main and Mrs. Barlow was going east on 6th avenue when the two cars collided. No one was injured.

On Friday, Dec. 26, Ray Compton was injured and his car was damaged when he struck the rear of a car parked on Brilliant avenue by Boxwell Bros. Funeral home. The car was owned by Gene Baker.

Compton was going east on Brilliant when he hit the rear of the parked automobile. He was taken to the Perryton hospital for treatment of minor injuries. Charges were filed against

News Roundup for 1952 Reveals Few Startling Events

The year of 1952 was not a big one for spot news events. There was nothing to compare with 1950, when Perryton had a jewel burglary, a tornado, fire and explosion and a murder.

But 1952 will long be remembered for the drought—one that capped two years of what people had thought was dry weather until 1952 came along. Less moisture was received than in any year since 1910, and that is a long time ago.

The year of 1952 was highlighted by several other things,

too. There was a surprising wheat harvest, Ochiltree county went Republican in a big way during the general election, the North Plains Fair made its debut, a blizzard stalled traffic in November, the city manager form of government was retained, the telephone company got a higher rate, the J. M. Huber Co. brought in a gasser, the government sent in disaster hay for stockmen, and the county held its first precinct and county political conventions.

The top stories of 1952, selected by the Herald staff, are:

1. The drought.
2. The surprising wheat harvest.
3. The Republican victory in the general election.
4. The North Plains Fair.
5. The city manager election.
6. The phone rate controversy.
7. The Huber gas well.
8. The shipments of disaster hay.
9. The precinct and county conventions.

The Drought

During 1952, there were only 12.66 inches of moisture received, less than any year since 1910 even less than the dry depression years of 1933-37.

The fall of 1951 started out dry, and it wasn't until after the first of the year that any snowfall came. Local showers kept the rain gauges washed out from time to time, but there was no general, soaking rains.

Even the customary spring rains, which had pulled the county out of a wheat crop failure in 1950 and 1951, failed to materialize, with the result that no grain sorghum harvest was made. There was no feed harvest and the stockmen went into a dry summer with lower cattle prices, parched pastures and high priced feed to buy.

The first general moisture was a 3-inch snow which came at Thanksgiving, but which was too dry and was drifted too much by the wind to be of much material benefit. Another snow, a wet 6-inch one, fell on December 23, which gave wheat farmers their first encouragement since the wheat was dusted in

ing conditions, the fair was considered a big success, and was attended by thousands of visitors during the three-day run.

There were entries in all classes of agricultural exhibits, the entertainment program was full, and the entire fair went over in a big way.

The North Plains Fair Association was formed and is now on a permanent basis to make the North Plains Fair an annual event.

The City Manager Election

Perryton's city manager form

of government, in effect since the spring of 1951, received its first test from the people in November.

An election was called to determine whether or not Perryton would continue the city manager form of government, and it was retained by a 2-1 majority, the vote being 680 for and 308 against.

This record turnout of voters was indicative of the growing political awareness of the voters in the year of 1952.

Don Cooper Is Regional Grid Team Selection

Donald Cooper, tackle and co-captain of the 1952 Ranger football team, was chosen by the Amarillo Globe-News on the All-Regional team in the selections announced Sunday.

He was the only Ranger on the regional first team, although Doc Carter and Don Dietrich received honorable mention.

Cooper made the 1-AA all district team last year at tackle and has been a regular for three years. He was a mainstay of the team this year.

District 1-AA, which was won by Phillips, placed nine men on the 22-man regional squad, which was taken from the four Panhandle districts.

Services Held For U. V. Todd

Funeral services were held Wednesday afternoon at the Follett Methodist church for U. V. Todd, 25-year-old butcher who died en route to an Oklahoma City hospital Sunday after a sudden illness struck him the day before.

He became ill Saturday at his Follett home and was brought to the Sanford Hospital in Perryton. When he failed to respond to treatment, he was sent to Oklahoma City to a specialist, but died in the ambulance at Arnett before reaching Oklahoma City.

Survivors include the wife, Flo Ella, a son, Donald Eugene and a daughter, Doris Jeanine, his father, Floyd Todd of Electra, his mother, Bertha Richardson of Corpus Christi, and a sister, Mrs. Verle Saltzman.

Rev. Orval Strong conducted the final rites. Pallbearers were John Heil, Gene Crump, Noble Brown, Scott O'Neal, Buck Frazier and Kenneth Piersall.

Interment was in the Fairview Cemetery.

Steel Received for Canadian Bridge

The last carload of structural steel for the new Canadian River bridge was shipped from Oklahoma City last week, according to the Canadian Record.

Approximately 30 carloads of steel have been received in Canadian the past ten days. Crews will begin assembling the steel beams immediately after Christmas, and Resident Highway Engineer Leo Cantrell reported that, barring unforeseen delays, the new bridge may be opened sometime this summer.

Thieves Wore Stripes

BUTTE, Mont. (AP)—Tavern occupants here thought they were collectively starting to see things as bad as pink elephants when thieves locked them in a rest room after relieving them of \$300 to \$400.

But after a few excited minutes of conjecture they agreed that the thieves all were dressed in striped overalls.

Howard Gordon spent the Christmas holidays with his daughter and family, the Leon Morris'. The family attended their get-together with the John Morris' on Christmas eve, then spent Christmas day with the Albert Morris and Jim Gordon families.

The Glen Myers spent Christmas day in the home of the R. C. Pyles of Turpin. The other members of the Pyle family who were home were the Clifford Beeks of Perryton, and the Lester Pyles of Turpin. This is the first family gathering in the new home of Mr. and Mrs. Pyle at Turpin.

Mr. and Mrs. Ralph Bobbitt, family and Uncle Leslie were the guests of the J. L. Bobbitts and family and Mother Hoffman, on Christmas day.

All the Davis children attended the family gathering on Christmas day at the home of their parents, Mr. and Mrs. John Davis. The Harold Davis' were here from Colorado, the Harry Sawyers of Liberal, the C. E. Dains of Guymon, the Lester Janzens of Tyrone, and Johnnie Davis and family and LaVern

Mr. and Mrs. Carl Carter had Christmas dinner in the O. E. Carter home. Cleta stayed her vacation with her grandparents. Howard spent the night with his uncle, the Elza Kutch's. They took him on Friday evening and enjoyed a visit in the Carter home. Some callers came during the evening. After a few days of debating the possible character of these callers, the Carters found it to be a neighbor prank. The Buck Sharps were visiting with the Leon Morris' and Mr. Sharp succeeded in scaring all the neighbors when he appeared with a disguise and begged for money to have his face lifted. I'll tell you it is a good thing that we didn't find out, until he left the country that it was Mr. Sharp. There is just no telling what some of us may have cooked up. It greatly relieved us to find out that we were only one of four families that he had thinking it a case of pure truth. We all felt less foolish.

MOLASSES FOR HORSES—These sweet-tooth horses on the Wardlaw Bros. Rosenow Ranch seem glad Del Rio-area ranchmen are using cheap blackstrap molasses to cut down their livestock feed costs during the dry winter. Imported from Cuba, the blackstrap is available at less than \$30 a ton, compared with \$100 for cottonseed cake. Roughage and protein are necessary to supplement the blackstrap, but the molasses goes a long way in cutting down the overall feed costs. (P) Photo.

Inspection Sticker Out for Plates

It appears that the car owner can get his 1953 Texas automobile license plates without a second checkup of his car under the Auto Inspection Law.

Chairman Hoxie Thompson of the public safety commission said in Austin Monday that the commission has no plan now to set a new inspection period and deadline.

That, plus the fact there is a shortage of windshield stickers, means that the section of the inspection law requiring certificates before cars can be licensed won't apply for 1953 plates.

Mr. and Mrs. Roy Johnson and Stephen spent Thursday and Friday at Waynoka, Oklahoma visiting relatives.

Bartel Wins Pilot's Wings

Rex E. Bartel, son of Mr. and Mrs. Henry G. Bartel of Balco, was commissioned a second lieutenant in the Air Force Reserve and awarded pilot wings during ceremonies held at Reese Air Force Base, Texas, on Dec. 19. He was a member of Class 52-H of the USAF Basic Pilot School (Multi-Engine).

Lt. Bartel is a graduate of Panhandle A & M College, Goodwell. There he was active in the men's ensemble, the a cappella choir and was listed in Who's Who Among American Colleges and Universities. He has been with the Air Force since June, 1951.

Rock Hudson Is Gunfighter In New Picture

Rock Hudson brings another of the Old West's notorious gunfighters to the screen in his rugged portrayal of John Wesley Hardin, Texas gunslinger whose life story is vividly told in "The Lawless Breed," coming to the Ellis Theatre on Friday and Saturday, Jan. 2-3.

In his portrayal of the outlaw, Hudson has a difficult assignment. The 27-year-old star begins his role as an 18-year-old and progresses to the age of 40. He also is required to change his personality from that of a quick-shooting gambler to a character returned by a 16-year prison term.

TELEVISION BOOM—Typical of the increased interest in television is this new metal antenna erected last week at the Good Furniture Co. by A. R. Macias. The Macias company is making the antennas at the former state highway warehouse south of Perryton and reports a booming demand for the new product.

Jennifer Jones Stars In Tale Of North Carolina Swamp Life

Jennifer Jones stars in "Ruby Gentry," a powerful melodrama about a girl from the swamps of the Tidewater country in North Carolina. The picture comes to the Ellis Theatre on Tuesday-Thursday, Jan. 6-8, with Carlton Heston and Karl Malden in supporting roles.

The story of the picture revolves around a vibrant girl whose love for a southern aristocrat leads to disaster for both. Ruby's amorous nature completely captivates both Heston, a southern blue-blood, and Karl Malden, a self-made millionaire of the

small North Carolina community.

Ruby is crushed when Heston marries a girl of social background and breeding. She decides to marry Malden to get security and social background. However, the people of the community refuse to accept her and tragedy follows her every move.

The film was made in North Carolina and for contrast the \$1,500,000 Budick estate in San Marino, near Pasadena, Calif., was used for the scenes showing Ruby Gentry's wealthy home.

Boyer, Jourdan Speak of Love

Love is the keynote of "The Happy Time," which comes to the Ellis Theatre on Sunday and Monday, Jan. 4-5, starring Charles Boyer and Louis Jourdan.

The picture is all about the birds and bees and the happy time of a boy on the verge of that well known urge. Everybody makes love to everybody else. Everybody, that is, except Boyer, who, married to Marsha Hunt, is surrounded by a household of Lotharios. His elderly father is forever chasing pretty widows in search of romance. His brother is a traveling salesman with a hobby of collecting fancy garters from fancy women, and his young son Bibi has a crush on the French maid.

East of Boyd

By Mrs. Aldeen Rodgers

A nice level snow fell here Tuesday evening. The weather has been very cold so most of the ground is still covered with two to three inches of snow.

Mr. and Mrs. Emmitt Nichols entertained Mr. and Mrs. Leon Hayden of Denver, Virgie Watkins of Dover Creek, Colo., Ray Hayden and James Rodgers at a party one evening recently.

Hugh Williams and James Rodgers went to Plainview, Tuesday, to get a load of cottonseed cake for Hugh.

Mr. and Mrs. George Kirton and Mary Ann went to Woodward Christmas to visit Mrs. Kirton's mother, Mrs. Bill Leach and Mr. Leach.

Mr. and Mrs. Fred Whittet entertained with a family dinner for their children and grandchildren, Christmas day.

Don Cruzan has been visiting his cousin, Jerry Williamson.

Mrs. Emmitt Nichols, Elta Mae and Patsy visited Mr. and Mrs. John Winter Sunday evening.

Callers at the Aldeen Rodgers home Sunday evening were Mrs. Emmitt Nichols, Bill, Elta Mae and Patsy, Claude Phillips, Jerry Williamson and Don Cruzan.

Emmitt Nichols and Truman Hiney went to South Dakota to get a load of hay.

War-Casualty Ship Salvaged

SINGAPORE (AP)—A salvage company has raised the barnacle and mud-covered hulk of the Japanese ship, Zenya Maru, off Singapore.

The wreck has a large hole in its side big enough to hold three three-ton trucks. Capt. W. A. Doust, general manager of the salvage firm, said. No records exist as to how it was destroyed during the war. The ship will be broken up here and its steel used for building construction.

There are 83,840 acres of lakes in New Mexico.

Mrs. Conley Is Much Improved

Mrs. J. N. Conley, who underwent surgery in the Perryton Hospital recently, was moved home Sunday and is reported to be much improved.

Her condition was considered critical at the time of the operation and all the children were called home to be at her bedside for several days.

Mr. and Mrs. W. H. Lance returned Sunday from Lafayette, Ind. where they visited during Christmas with their daughter and family, Mr. and Mrs. Jim Spain and daughter.

Mrs. E. L. Whippo was called to Wichita Falls because of her son's death. The son, John Stroop, passed away on Dec. 22. The body was taken to St. Louis, Mo. for burial.

Georgia Hurthey spent Christmas day with relatives in Amarillo.

Mr. and Mrs. Donald Ellis and Smith were guests of Mrs. Ellis parents, Mr. and Mrs. S. F. Rogers of Amarillo, during Christmas.

Beavers Try to Dam Mississippi

DAVENPORT, Ia. (AP) — Some bold beavers seem to have bitten off more than they can chew in setting out to dam the Mississippi River at Credit Island Park here, naturalists say.

Beavers usually cut small saplings with tender bark for food. And they usually fell big trees only for dams. Since the only thing to dam at Credit Island is the broad Mississippi, naturalists say that must be what the beavers have in mind.

The industrious little animals with the wood-cutter teeth already have felled a number of big trees into the water, some up to 3 feet in diameter. To save the park's other trees, park employees have daubed the trunks with some stuff that doesn't taste good to beavers.

The North Plains Hereford Breeders Association and the North Plains Aberdeen-Angus Association continued their shows and sales during 1952, in spite of unfavorable conditions. A number of foundation registered females and several good herd bulls were brought into the county during 1952.

4-H Club
There are 47 boys enrolled in 4-H Club work in Ochiltree county. Demonstrations include baby beef feeding, breeding cattle herds, wheat production, swine production, poultry and garden projects.

Neal Flathers won the State 4-H Wheat King crown in September, showing a top sample of wheat and winning an expense-paid trip to Fort Worth terminal markets.

There were 25 club calves entered in the Ochiltree County Junior Livestock Show in February, and calves were exhibited at Fort Worth, San Angelo, Amarillo and the North Plains Fair in Perryton.

Dairying

Dairying has not made a very strong comeback since the war, although there are several dairy herds. Most of the dairymen are short on feed since very little was produced in 1952. They are buying most of their feed, thus increasing their costs.

Swine

Few farmers produce swine, and the number of swine decreased due to the short supply of feed this year. The Lions Club sponsors a program for 4-H Club boys designed to encourage swine production and this program is resulting in more high quality swine.

Poultry

Most of the work with poultry consists of culling, sanitation, housing problems, diseases and feeding. Most farms raise some poultry for home use and most have poultry products for sale. However, poultry production has not reached a very high level.

Bindweed

Bindweed control and eradication continues to be a major problem in Ochiltree county. Several farmers have used 2-4-D continuously for several years and have done a good job of eradication. Others have used 2-4-D and a cropping system with some success.

Application of concentrated Borasac has been used to a greater extent than any other method and is quite successful on small plots.

Grain Sorghums

Very little grain sorghum harvest was made in 1952, due to the dry spring and summer. The

total acreage for the county was about 3,000 acres, compared to 200,000 acres last year. Very little feed was produced this year and drought relief hay was brought in for the livestock producers.

Gardens

Gardens did not do very well this year, due to the hot weather and drought. Those with windbreaks to ward off the hot dry winds, did much better than other gardens.

About 500 acres of safflower were planted this year, but the dry spring kept it from doing well. Most of the safflower was seeded in sorghum stubble and had very little chance of making a crop. Several farmers intend to plant some more safflower if conditions are favorable in the spring.

Rodent Control

Approximately 1,100 pounds of poison grain has been spread for rodents during the year. Prairie dog eradication was carried out with 1080 poison.

Irrigation

The drought and crop failures caused much interest in irrigation, and there were 4 new wells drilled this year, making a total of 11. Water must be pumped from 300 to 370 feet. Cost of a well with an 8-inch pump runs from \$18,000 to \$20,000.

Two irrigation meetings were held with Extension Service specialist Bob Thurmond. The main crops under irrigation are grain sorghums, wheat, alfalfa and permanent pasture.

Fellowship Baptist Opens Service

A revival meeting will open at the Fellowship Baptist church, starting Monday night, January 5, and continuing through January 15, Rev. Everett Cavin, pastor, has announced.

Rev. Leaford H. Cavin, pastor of the East Side Baptist church of Topeka, Kansas, and brother of the Perryton pastor, will conduct the revival meeting, which starts at 7:30 o'clock each night. "We welcome everyone to attend these services," Rev. Cavin said. "It is an opportunity to hear the old time Gospel that was once delivered to the saints."

Baker for improper parking. City policeman Arlie Elinson said the Baker car was parked 18 feet from the curb and had no lights on at the time of the accident. Damage to the Compton car, a 1946 Plymouth, was estimated at \$285, and damage to the Baker car was estimated at \$45.

Another collision Saturday at the intersection of 6th avenue and S. Ash street damaged two vehicles. Involved in the wreck were Frank Easdon, in a 1951 Chevrolet, and Orville Brashwell of Amarillo in a 1950 Hudson.

City policeman E. E. Jones said Easdon was going east on 6th avenue and Brashwell was going south on Ash when they met at the intersection. Damage to the Easdon car was estimated at \$125 and there was an estimated \$20 damage to the Brashwell car.

Engravings Have That 'Halo' Look

Readers will notice the pictures in this issue of the Herald have a "halo" effect, what is known as a "halo" effect, and it's all the fault of the engraving machine. The machine went slightly out of order when the engravings were being made this week and since there was not time for the factory maintenance man to correct the trouble, these engravings had to be printed as is. A better set of news pictures is promised next week.

The Phone Rate Controversy
The Southwestern Associated Telephone Co. appeared before the City council in May, asking for a rate increase. This was the third time the company had met with the council since presenting their first rate increase demand a year before, in May, 1951.

The council tabled the request, and on June 4 the company put their higher rates into effect anyway. The city got an injunction to prevent the company levying the higher rates and the dispute went to court.

After a hearing on June 27, the company and city settled their dispute on July 7. The rates, lower than the company asked, and higher than the city offered, were decided upon as \$8.50 for a business phone, and \$4.25 for a residence phone. The former rates were \$5.50 for a business and \$3.00 for a residence phone.

Huber Well

The J. M. Huber Corp. No. 1 Pazourek well, six miles south of Farnsworth, came in with a good showing of gas and oil in April. The well was completed with 6,800,000 cubic feet of gas and an undetermined amount of distillate.

After bringing in the well, the rig was moved one-half mile south, where a dry hole was drilled, taking much of the bloom off the little oil scare generated by the success of the Pazourek well.

Disaster Hay

Stockmen hit hard by a dropping cattle market, rising feed costs and a feed crop failure, applied for government hay under the disaster area program in October. A total of 160 carloads of hay was ordered and the first car came in November.

The hay, purchased about \$20 a ton cheaper than through commercial channels, is still being received.

Political Conventions

Both the Democrats and Republicans held precinct conventions in May, the first time political conventions had been held in Ochiltree county. Delegates from both parties in Ochiltree county attended the state conventions, too.

The political conventions were another indication of the increased interest in politics in 1952, from the payment of poll taxes to the record number of voters in primary and general elections, to the political conventions.

Mrs. Tillman recently purchased the restaurant lease from Chuck Milward and took over the business on January 1. The best of steaks and dinners will be featured, the new manager said.

Only 682 Poll Taxes Paid in County

As of this week, only 682 poll taxes had been paid at the tax collector's office, a far less rate than a year ago. Since 1951 is an off-year, politically, the number of poll tax payments is not expected to reach the record high of 2,131 set in 1952, but there will be school and city elections this year. Poll taxes cost \$1.75 per person and must be paid before January 31. A poll tax receipt or exemption is a requirement for voting in Texas.

Prison to be Shrine

MANILA (AP)—The Philippines government will convert historic Ft. Santiago—hell-hole prison for many Filipino martyrs and heroes during the Spanish and Japanese regimes—into a national shrine. President Elpidio Quirino has created a committee for the rehabilitation of the old fort, which was virtually razed during the battle for Manila in 1945.

There were 627,751 telephones in North Carolina in 1952.

What Good Is a Baby?

The story is told of a research man who had just discovered a new substance. A friend asked, "What good is it?"

"What good is a baby?" countered the researcher.

Babies and new products have to grow up before anyone knows how important they may be. Quite a lot of infants have been brought up at General Electric during the past 75 years. During the bottle stage, nobody could predict their future accurately. But as it turns out today, they were real prodigies. Here are just a few that were first brought to the American public by General Electric men and women:

- the first electric lamp
- the first home refrigerator with sealed mechanism
- the first high-vacuum radio power tube
- the first fluorescent lamp
- the first automatic electric blanket
- the first large steam turbine for electric power
- the first jet plane engine in U. S.
- the first disposer for kitchen food waste
- the first high-voltage x-ray

We don't ordinarily trot out the past like this. But 1953 marks a birthday. For it was in 1878 that Thomas Edison organized the first of the companies which, in 1892, became the General Electric Company. And, like anyone on his birthday, we do look back over our shoulder.

This is just the beginning, really. Research and engineering are bringing out new things faster than ever—new "babies" to lighten labor and brighten everybody's life.

An ample central water supply must be created not only for the northern part of the Panhandle and the western side but also for the eastern and southeastern sections of the district. Much work has been done towards such a project in the southeastern section of the Panhandle that would be of immense benefits to the Hall, Childress, Cottle and Motley Counties vicinity.

The pressure for the development of these facilities must continue if we are to continue in our forward progress. The year 1953 should see great strides made in that direction.

THE EISENHOWER APPOINTMENTS: Most everyone in Washington seems to be well pleased or satisfied with the appointments that have been made by General Eisenhower.

It is generally talked that the new President is not being dominated by political motives, but is seeking to satisfy himself as to the ability of the appointees, rather than to satisfy the political bosses of the several states. There is much comment here about the fact that Eisenhower is not consulting the governors or the senators of the states from which he chooses the appointees.

There is much conjecture as to whether or not this will subsequently cause trouble between the President and the political leaders and high office holders in the states from which he has picked his men. Certainly it should not cause a break if the man chosen does a good job.

Eisenhower is certainly to be commended for accepting full responsibility in these appointments. Should one of them turn out bad, it would be the result of an honest mistake and not the result of a political play. The American people have always been willing to accept an honest mistake where there was a sincere desire to do right.

They have never been willing to accept a mistake that was the result of political expediency alone. Texas need not worry about a mistake being made in Eisenhower's choice of his Secretary of the Navy. I have known R. B. Anderson, of Vernon, Texas, for twenty years. In fact, he preceded me in the University of Texas law schools. Subsequently it was my pleasure to have him as an instructor in one of the law courses. His brilliance of mind is well tempered by a natural ability to understand and appreciate the problems of his fellow man.

He is to me a living example of a true American success story. Bob Anderson, by his own integrity, his own ability, his own industry, has made the most of the opportunities available to every citizen, whether he be rich or poor.

If Eisenhower has done as well on all of his appointments as he did on his Secretary of the Navy he need have no fear as to his own success.

Mennonites Hold Youth Institute

The MYF of the Perryton Mennonite church sponsored a Youth Institute on Dec. 26-30, with Rev. R. J. Yordy, Freeport, Ill., and Edd Miller of Gulfport, Miss., as the speakers.

The Institute opened with a banquet on Friday evening, Dec. 26, in Fellowship Hall of the church, with Marvin Sweigart as master of ceremonies.

The program included the welcome by Bill Moreland, response by Alice Miller, song by Miriam Sweigart, Margie Pletcher and Juanita Pletcher, prophecy by Larry Pletcher and Juanita Pletcher, poem by Mrs. Marvin Sweigart, song by Margie Pletcher, Janice Miller and Juanita Pletcher, and the address, "Space Ship Bound for Which Port?" by Rev. R. J. Yordy.

Theme of the program was "Christian Youth in the World of Tomorrow."

Those present were Mr. and Mrs. Eli Unruh, Ellison and Helen Unruh; Ala Holdeman, Greensburg, Kansas; Allen and John Wagner; Clifford, Joe Paul, James, Floyd, Lonnie and Roberta Kauffman; Mr. and Mrs. Bill Moreland; Harvey, Larry, Wilma, Juanita, Margie and B. Physical Check-Up Urged to Stop Disease Spread

AUSTIN, Texas—If you have not had an audit made recently of your physical assets and liabilities, go to your doctor now and have it done, is the advice of Dr. Geo. W. Cox, State Health Officer, to grown-ups in Texas. It is quite as important to check up on your physical resources as it is to look into the state of your financial possessions. By regular care under your physician's directions, you can conserve your physical assets and avoid an accumulation of destructive liabilities.

Everyone starts with a certain amount of physical capital and as a personal business proposition it is worthwhile to preserve. In infancy and childhood our physical resources, as a rule, are safeguarded for us. As we grow older, the responsibility for doing so rests upon the individual. The critical period for many comes in middle life with the sudden realization that the physical capital is yielding diminishing returns in the way of physical well being.

The records of health departments and of insurance companies show that from 10 to 15 years have been added to the average length of life. But the same records show that a majority of the deaths are due to the degenerative diseases of middle age.

Nearly all of these diseases have slow beginnings and their onset discovered through physical examinations before they have gained serious headway. Early detection, adjustment of physical expenditures and better budgeting of activities under a physician's direction will help shift the balance from the unfavorable to the favorable side of the ledger.

Indian Jews Seek Israel Re-entry

BOMBAY (AP)—Fifty-eight of the 128 Indian Jews who returned from Israel last August charging racial discrimination have petitioned Prime Minister David Ben Gurion for permission to re-settle in Israel.

The dark-skinned emigrants to Israel made news when they started a hunger strike to compel Israeli authorities to send them back to India. Now they have called for financial assistance for a second attempt at integration in the Jewish homeland.

Coffee Tops Exports
NEW YORK (AP)—Dependence of Brazil's economy on a one-crop export-coffee is illustrated by figures for the first half of 1952, reported by the Brazilian Government Trade Bureau here. During the first six months, coffee accounted for 60.4 per cent of total export volume with a value of \$487,820,833. The next highest single export item was raw cotton which accounted for only 3.6 per cent of total export trade with a value of \$25,204,725.

From the SIDELINE

with HAROLD HUDSON

We heard a story during the Christmas holidays about a 3-year-old boy whose mother was telling him the story of the Nativity for the first time. As the mother went on, the 3-year-old grew more and more aghast. Jesus, parents couldn't get a room in a hotel. They had to go to a stable. There wasn't any carpet on the floor or any bedclothes, just hay. They had no furniture. The infant Jesus didn't have any clothes. They wrapped him in rags. The 3-year-old's eyes grew wider and wider. "Where," he finally demanded, "was his grandmother?"

"Bear Spring Grid Drills Set Jan. 27," announces a headline on the sports pages, referring to spring football practice at Baylor. They must have an early spring at Waco—or why don't they call it "Winter Grid Drills,"

Progress marches on—at the expense of the barbers. First it was the safety razor that caused many barber shop patrons to shave at home, then the electric razor came along to take care of many remaining customers. And now they have a gadget that cuts your own hair, as easily as combing it, according to the advertisements. We doubt if home haircutting will ever become as popular as home shaving, however, judging from the success of the home permanent tads in the women's hairdressing field.

Here it is the starting of a new year, and we doubt if we shall have any troubles this year to compare with those of Republican National Committeeman Jack Porter of Houston, who finally was ordered to bed until he recovers from a bad case of jitters he acquired trying to divide 108 Eisenhower inauguration tickets among the thousands of Texans who thought they had first choice on the ducaats. Such is the price of political success, they say.

The Globe-News came out with their annual all-regional football team, listing Don Cooper on the first team at tackle. Doc Carter and Don Dietrich received honorable mention on the squad. We have been asked why district 1-AA didn't have an all-district team selection this year and the blunt truth is that the coaches spent all their time haggling over the district schedule at their November meeting and never did get around to selecting an all-star team. They still plan to do it, however.

It was interesting to us to note the observations of Rhodes Scholar Duane Bell, home for the holidays, regarding foreign aid to Europe. It isn't doing any good toward solving Europe's economic problems, Duane says.

SNOW IN TEXAS PANHANDLE—Jane Brissman (left) and her sister, Barbara Ann, leave their home to play in the snow. The white blanket across the Texas Panhandle measured up to 10 inches at Amarillo where the Brissman children live. (P Photo)

The millions of dollars given Europe by the U. S. is nice to get, but when it is spent, the European countries are not any better off than they were before, and all they have bought is time, with their basic problems merely postponed. Duane points out.

The thing that will solve their problems, and get Europe off the U. S. taxpayer's back is to lower our tariffs and let them trade with us, he says. The countries that have goods to sell find themselves with only one customer, the U. S. and Canada. Until the tariffs are reduced so that foreign goods can come into the U. S. there is no way to expect European countries to make their own way.

Another interesting thing he brought back is the fact that Germany is coming into prominence by leaps and bounds. With a hard-working, eager-to-go population and plenty of natural resources, German industry has rebuilt to the point where German goods are seen in shops all over the continent, Duane says. Expert observers believe the day is not far off when Germany will again assume a dominant role in Europe, even with the division of East and West.

We are glad to get some encouragement about this foreign aid. We have been told for so long that it is absolutely necessary to pour out the billions abroad that it is refreshing to know that the U. S. could get along without it and still have Europe strong enough to resist Communism.

This particular week is a trying one each year for the newspaper staff. The week between Christmas and New Year's is traditionally the one when a slim paper is issued and it is a hard scratch to dig up enough news and advertising to fill even a slim edition. People are still in a holiday mood, organizations don't meet, projects are postponed, school is out, and the general level of activity in the community is way down. And sometimes it takes this post-Christmas week to shake down the huge amounts of turkey and stuffing consumed during the holidays.

The Herald was issued too early last week with the Christmas edition to carry any story about the wonderful 6-inch snow which is still on the ground. But it's not too late to point out how this snow has raised the spirits of wheat farmers and everyone else. In fact, we overheard a farmer at the post office the other day ask an insurance agent if he could take out some rust in-

Wolf Creek Philosopher Awaits New Year With Calm Nerves

(Ed. note: The Wolf Creek Philosopher is off on his 1953 comments, his letter this week reveals. As usual, these comments are typical of him.)

Dear editor:
 Along about this time, with a new year already on us and nothing we can do about it, I know it's customary to look back over the past one and try to figure out how you can make the new one a big improvement, but with the world so closely knit these days, with my future out here tied up with maybe the next unknown move of Stalin over in Russia or somebody I never heard of in Scandinavia, it's sort of hard to make any plans. A man wants to be careful about putting up a new fence or fixing his sagging gate when he hasn't got the slightest idea of what the international situation is gonna be thirty days from now. Why go to the trouble of fixing a leaky roof when there may be a worse drought in 1953 than there was in 1952?

It used to be all a man had to worry about was his personal affairs, all he had to do was to resolve to spend less and save more and behave better or get caught less and his New Year's resolutions were taken care of, but things are different now. It used to be all a Congressman had to worry about was keeping the voters in his own district satisfied or in the dark, but now a Congressman has to know not only what I want out here on my place but what England wants, France wants, Spain wants, etc., and while this seems to give a Congressman without the expense and on top of that they don't have to listen to em campaign, one Congressman is about as good as another for their purposes so long as he's quick on the appropriation trigger, still it shows you how things have changed and also how long one of my sentences can get.

While generally about half the people in this country for example will lose their vote in a Presidential election, don't anybody lose in England, they shift gears faster than we do.

Q—I am a totally disabled World War II veteran. I want to convert my National Service Life Insurance term policy to some permanent plan of insurance. Is there any limitation because of my disability?

A—Yes, you may convert your term insurance to straight life, 20-pay life or 30-pay life. You may not convert it to any of the endowment plans, while you are totally disabled.

Q—I want to get a GI business loan to buy equipment for a gas station. How many years can I take to pay it back?

A—Under the law, GI non-real-estate business loans may be made for up to 10 years. But your lender has the right to ask for repayment before that time.

insurance on his wheat—with all this snow, he didn't want to take any chances.

and by the time the losin side is makin up its mind to concede, England already has a diplomat eatin dinner with the winner, and while I didn't set out this week to discuss the international situation, I'm just bringin it in to point out how hard it is for a thinkin, informed man to make any plans for the new year.

As for me, however, I am goin ahead and makin plans. I plan to live each day this year like it was meant to be enjoyed, and it'll take more than Stalin and an unsettled international situation to stop me. The international situation has been unsettled ever since nations were invented and anybody who postpones his livin until things quieten down is in for a long hollow life. As for 1953, let it rip.

Yours faithfully,
 J. A.

Cost of Motoring

The Texas motorist, long saddled with new taxes and levies by the lawmakers on the theory that he who drives an automobile must have money, is due for another jolt, it appears. The legislature will devise new ways to raise money to build highways, and the motorist is the logical one to foot the bill.

At the present time, only 3.35 per cent of the motorist's total cost of operating his car goes for highways, according to the Texas Parade, publication of the Texas Good Roads Association. Part of the state gasoline tax goes for roads, the rest for school maintenance and general government.

The average annual cost of operating an automobile, according to the Texas Parade, is \$830.30 for an average \$2,000 car driven 10,000 miles a year. The breakdown of that total is: \$442.05 for depreciation, \$160.07 for gasoline and oil, \$75.50 for insurance, \$68 for repairs, greasing and washing; \$46 for tires, \$32.01 taxes and fees for roads (excluding federal taxes) and \$6.67 gasoline tax for nonroad purposes.

Present proposals for raising the road building money hint at an increase of about \$30 per year for each motorist. Whether this is more or less depends upon the lawmakers who convene in Austin this month.

The Foreign Aid Record

As the Department of Commerce reviews the history of foreign aid of all sorts extended by the United States since 1940 it totals a little more than \$87 billion. Repayments on loans and certain other credit items are stated to have reduced the net amount to about \$76 billion.

Strong though the temptation may be to judge whether we have expended too much or too little to help other peoples, this newspaper will strive to resist it. We can see no basis of demonstrable fact on which such judgment might rest. Decisions made under the stress of military or economic crisis—as many of the decisions to extend aid were—cannot be fairly appraised in the dazzling glare of hindsight.

But it is still possible for us to learn something from the record of our wartime and post-war loans and gifts, or at least to raise a question bearing upon the measure of our foreign aid hereafter. Our lend-lease program during the war and some of our loans and grants since the war grew out of our conviction that dollars were the cement with which to build structures of political solidarity. Was that conviction sound?

Any attempt to answer that question must first distinguish between the aid we extended to our allies in the midst of a global war and that which followed the end of hostilities in the field and became a measure of defense in the "cold war" that succeeded it. The great quantities of arms and munitions we supplied to Russia, for example, while that country was fighting in our then common cause, did undoubtedly further the purposes of the alliance while it existed and the war was won.

When it comes to serving the political objectives with money grants between nations which are not allies in a war in being, the case is obscure. Our assistance to Greece has so far kept that country outside the Iron Curtain. But what of enigmatic Yugoslavia, of Poland and Czechoslovakia? Just what has our \$34 million to Iran got us? And what about the attitudes of the American republics, which the Commerce Department says have shared to the extent of \$1 billion net in our foreign aid?

We are still trying to resist the temptation to draw a pat and easy conclusion from this record of our foreign aid. But we venture to suggest that Congress re-examine the theory that the way to gain friends and influence peoples is to extend loans and grants in aid.—Wall Street Journal.

Men Wanted for USO Work

(U.P.) Newsfeatures
GIRLS are the top favorite of U. S. servicemen when it comes to USO entertainment. But men have their place in the work of the organization. Thousands of men all over the country have found their skills and time valuable in making life easier for men in uniform. They run movie machines, teach golf, drive cars, and give legal advice. These pictures show some of them at work. At top, Patrick Badolato of New Jersey checks a coat for a soldier. Lower left is Joseph Grant, professional cameraman. He gives volunteer instruction in his off-hours. At right is George Garlick, a New York stock exchange member. He provides kitchen help at one of the New York City USO centers and spends a lot of time at the job.

PORTRAIT UNVEILED—A portrait of the late Texas Gov. Beauford H. Jester was hung among portraits of other former governors in the rotunda of the state capitol. Mrs. Joan Jester Berry of Houston, the late governor's youngest daughter, and Gov. Allan Shivers unveil the painting by Douglas Chander of Weatherford.

HAPPY REUNION—Ernest Vickers, 57, warmly embraces his wife in the country jail in Dallas, Texas, Dec. 17 just before he was released on a conditional pardon by Gov. Allan Shivers of Texas. Mrs. Vickers made a personal appeal before the Board of Pardons for the release of her husband, who was held in the Dallas jail for return to the state prison as a parole violator. Vickers left the prison in 1940 on a six months reprieve and never returned, believing that the reprieve had become a conditional pardon. He was discovered in Dallas when he called police to investigate a man getting into his car. Vickers originally was sentenced to hang in 1922 for the slaying of a railroad special agent. His sentence was commuted to life in prison just 18 hours before he was to go to the gallows.

TERRELL FUMBLES—BUT SCORES—Wayne Boles (32), Terrell back, lets the ball get away from him as he goes through his right tackle from the one-foot line against Yoakum High School in College Station Texas. The ball went over the goal line, but was recovered by Terrell Back Lavone Cox for Terrell's first score in the first quarter of the state high school Class AA championship game. Terrell won, 63-13. Terrell Guard Charles Crider is on the ground at left as Terrell Tackle Wade Driver (64) attempts to block out Yoakum defense men at center. Others identified are Terrell Backs James Harris (30) and Rupert Henry (24). Yoakum End Jimmy Moore (43) is blocked out of play at right.

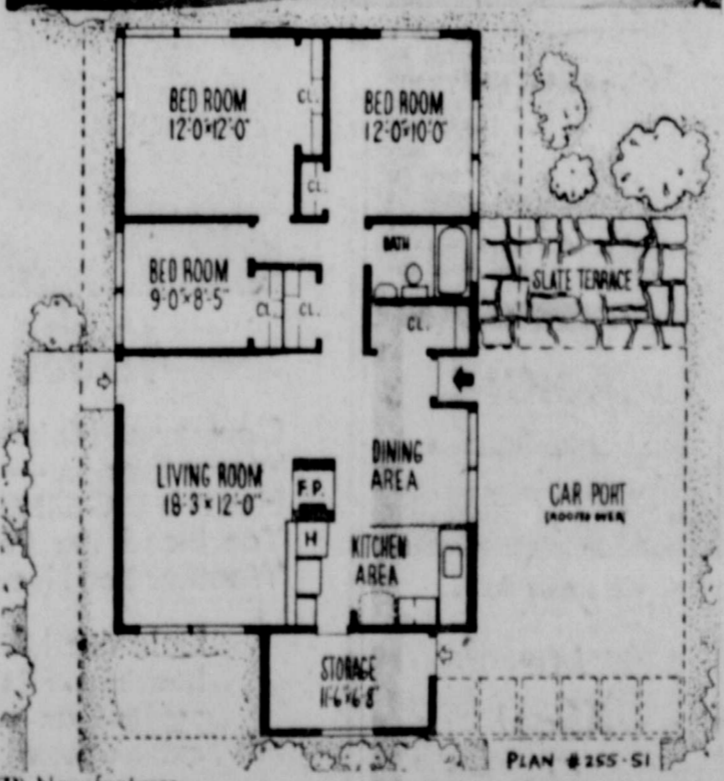

NEW NAVY SECRETARY—Robert Bernard Anderson (above) talked to newsmen in his office in Vernon, Texas, shortly after he was named to be secretary of the navy in the new Eisenhower administration. Anderson, 42, is a rancher, oilman and banker. He was a Democrat for Eisenhower.

ROBERT S. TROTTI of Port Arthur (above) has been named first assistant attorney general of Texas, the appointment to take effect Jan. 1. He will be aide to John Ben Sheppard who takes office on that date. This picture was taken while Trotti was serving with the Third Army in Germany in World War II.

HOMES FOR AMERICANS

In order to reach his grave you must climb high on Mount Vaea in Samoa. Robert Louis Stevenson died in 1894 at the age of forty-four. From childhood he was afflicted with a terrible cough and incipient tuberculosis. Stevenson was born in Edinburgh in 1850. His father and grandfather were famous engineers. His mother was the daughter of a clergyman. The family means were ample and provided for a nurse, tutor and much travel in search of health. When it was found that his health would not enable him to follow the profession of engineering, he turned to law and was admitted to the bar, but never practiced. His first and last interest was literature.

He wrote incessantly and voluminously, essays, travel narratives, poetry, plays, novels. Worldwide fame came from the publication in 1882 of "Treasure Island," and four years later from "The Strange Case of Dr. Jekyll and Mr. Hyde." Articles and books poured in a steady stream from his pen.

All this represents a supreme triumph of the spirit. Day by day, year after year, he was struggling to keep alive. He labored with the consciousness that any

day might be his last one on this earth. Listen to his own words: "For years I have not had a day's real health; I have wakened sick and gone to bed weary, and I have done my work unflinchingly. I have written in bed and written out of it, written in haemorrhages, written in sickness, written torn by coughing, written when my head swam for weakness."

In 1888 he and his wife set out for the South Seas in search of health and adventure. They cruised so extensively and Stevenson observed so closely that he became an authority on the life of the people. The end came suddenly, from a broken blood vessel in his brain. His life is a monument to the ability of the human spirit to triumph over the body.
