Kluszewski Smashes Pair Of Home Runs

CHICAGO (AP)—Ted Kluszewski, a National League castoff, smashed two home runs and tied a series record with five runs batted in Thursday in leading the Chicago White Sox to an 11-0 rout of the Los Angeles Dodgers in the first World Series game. Early Wynn, Chicago's 39-year-old right-hander, held the Dodgers helpless on six hits until he went out with a sore elbow in the eighth inning.

• • •

CHICAGO (AP)—Play by play of the first game of the 1959 World Series:

FIRST INNING

Dodgers: Aparicio threw out Gilliam. Neal singled. Moon popped to Aparicio. Neal stole second. Snider walked. Larker lined to Rivera.

No runs, one hit, no errors, two left.

White Sox: Aparicio popped to Wills. Fox walked. Landis singled. Fox going to third. Kluszewski singled, scoring Fox, Landis taking third. Lollar flied to Larker, Landis scoring after the catch and Kluszewski holding first. Goodman flied to Snider.

Two runs, two hits, no errors, one left.

Dodgers: Hodges flied to Smith. Roseboro popped to Aparicio. Wills struck out.

No runs, no hits, no errors none left.

White Sox: Smith was called out on strikes. Rivera fouled to Hodges. Craig threw out Wynn.

No runs, no hits, no errors, none left.

Dodgers: Craig struck out. Gilliam popped to Fox. Aparicio threw out Neal.

No runs, no hits, no errors, none left.

White Sox: Aparicio lined to Larker. Fox doubled. Landis singled scoring Fox. Kluszewski hit a home run, scoring behind Landis. Churn replaced Craig for the Dodgers. Snider collided with Moon and dropped Lollar's fly for a two-base error. Goodman singled scoring Lollar. Smith doubled, and Goodman scored on Snider's wild throw past second. Smith reaching third on the error. Rivera bounced to Neal, who threw into the dirt trying to nab Smith at the plate. Smith scoring and Rivera reaching second on the error. Wynn doubled deep to the left center field wall, scoring Rivera. Churn tossed out Aparicio. Wills threw out Fox.

Seven runs, six hits, three errors, one left. (Three runs were earned).

Dodgers: Esposito replaced Goodman at third for the Sox. Moon beat out a bunt. Snider flied to Rivera. Larker flied to Landis. Hodges singled, Moon stopping at second. Roseboro struck out.

No runs, two hits, no errors, two left.

White Sox: Landis singled. Kluszewski smashed his second home run of the day, scoring Landis ahead of him. Labine replaced Churn. Lollar flied to Snider. Esposito was called out on strikes. Smith flied to Larker.

Two runs, two hits, no errors, none left.

Dodgers: Fox threw out Wills. Essegian batted for Labine and struck out. Gilliam was called out on strikes.

No runs, no hits, no errors, none left.

White Sox: Koufax went to the mound for the Dodgers. Rivera flied to Larker. Wynn was called out on strikes. Aparicio flied to Moon.

No runs, no hits, no errors, none left.

Dodgers: Neal singled. Moon grounded to Kluszewski, Neal taking second. Snider fouled to Esposito. Larker struck out.

No runs, one hit, no errors, one left.

White Sox: Don Demeter went to center field for the Dodgers. Fox flied to Moon. Wills threw out Landis. Kluszewski rolled out, Neal to Hodges.

No runs, no hits, no errors, none left.

Dodgers: Wynn threw out Hodges. Roseboro fouled to Kluszewski. Wills singled to left. Ron Fairly batted for Koufax and bounced to Kluszewski, who tossed to Wynn, covering first for the out.

No runs, one hit, no errors, one left.

White Sox: John Klippstein, a right-hander, became the fifth Dodger pitcher. Gilliam threw out Lollar. Klippstein threw out Esposito. Smith doubled to right. Rivera struck out.

No runs, one hit, no errors, one left.

Dodgers: Gilliam singled to left. Wynn complained of arm trouble and Manager Lopez summoned Gerry Staley. It was reported from the White Sox dugout that Wynn's right elbow had stiffened. Neal bounced into a double play, Aparicio to Fox to Kluszewski. Staley tossed out Moon.

No runs, one hit, no errors, none left.

White Sox: Staley struck out. Neal tossed out Aparicio. Fox went out the same way.

No runs, no hits, no errors, none left.

Dodgers: Demeter struck out. Larker singled to left center. Hodges singled off Esposito's glove. Larker stopping at second. Roseboro forced Hodges at second. Kluszewski to Aparicio, Larker reaching third. Carl Furillo batted for Wills and flied to Smith.

No runs, two hits, no errors, two left.

Tornado In Virginia Kills 11 Persons

CHARLOTTESVILLE, Va. (AP) — A tornado born of a dying hurricane dropped like a bomb on the little community of Ivy near here Wednesday. Eleven persons died, 10 of them members of one family.

The savage twister swooped down out of torrential rain produced by tropical storm Gracie about 4:30 p.m., two hours after a relatively minor tornado had struck not far away.

Twelve of the 14 members of the families of Ervin Morris Sr., about 48, and his son Ervin Jr., 21, were at home in the duplex they shared. Nine perished almost instantly, their bodies thrown with explosive force upon a wooded hillside. The remaining three were injured.

A hundred yards distant, the roof blew off the house of Raymond C. Bruce, 58, as he and his wife Lilly, 56, and their son sought refuge in the kitchen. A stone chimney toppled and Mrs. Bruce was killed.

"I heard a roaring up the back orchard — it sounded like a train. I saw Ervin Morris running into his house, and then the roof started coming off my house," said Bruce, who with his son suffered only minor injuries.

"The roof went up about 50 yards. My wife and I ran back toward the kitchen. Then the chimney came down. More of it hit my wife than me."

Witnesses said the Morris duplex disintegrated. Rescuers who fought their way to the scene over flooded and almost impossible impassable roads said the largest piece of its furnishings they found was a twisted refrigerator.

Over the foundations of the duplex lay a tangle of fallen trees. Bodies were found scattered over an area of 400 yards.

The Morris family dead were Ervin Sr.; his wife Frances, also in her late 40s; their children, Wilmer, 15, Ruby, 15, and James, 18; Mrs. Ervin Morris Jr., 18, and her two children, Peggy, 1½, and Michael, 7 months; and George Morris, 40, a brother of Ervin Morris Sr.

The body of Shirley Ann Morris, 3, was discovered today. The family relationship could not be immediately established.

Ervin Morris Jr., 21, and two children of the elder couple, Mary, 12, and Georgia, 13, were waiting out the rain at the home of friends and escaped. They earlier had been reported missing.

A neighbor of the Morrises said he saw a child "just disappear right up into the air" when the tornado hit.

Probe Of Airliner Crash Is Pressed

WACO, Tex. (AP) — Why did a new turbojet airliner blow up 15,000 feet above east central Texas, killing 34 persons?

That's what Braniff Airways, Lockheed and federal investigators are trying to discover.

The Civil Aeronautics Board sent eight men to the scene of Tuesday night's crash in isolated brush country 68 miles southeast of here.

One Federal Aviation Agency official, who refused to be quoted by name, said a bomb could be ruled out. He said the disintegration could have been caused by explosive loss of pressure in the cabin.

The plane, a $2,300,000 Lockheed Electra, was en route to Dallas from Houston. The ship had been in operation only nine days.

The pilot, W. E. Stone, 47, of Dallas, made a routine radio report at 11:05 p.m. The weather was good. A few minutes later the ship virtually disintegrated.

Only one of the four engines was found immediately in the crash area, indicating it may have dropped off before the explosion.

Bruce Chambers of the Federal Aviation Agency's control office in Fort Worth said, "The aircraft was at 15,000 feet. Whatever happened happened there."

"In this early stage, and with the lack of survivors, it will be very difficult to determine the exact cause."

PLANE WRECKAGE—This is the tail section of the Braniff Airliner that exploded and crashed near Buffalo, Tex. Twenty-seven passengers and seven members of the plane crew died in the crash. (AP Wirephoto)

Rockies Get More Snow

By The Associated Press

Snow fell early today on the eastern slopes of the Rock Mountains. Six inches of new snow brought the total on the ground at Colorado Springs, Colo., to 17 inches.

Nearby high plains of Nebraska and Kansas also received some snow.

It was snowing in Denver, where nearly 11 inches Tuesday caused several millions of dollars in damages.

In the Northeast, what was Hurricane Grace two days ago had dissipated to feeble, spasmodic winds accompanied in most areas by rain.

WEATHER

SNYDER, TEMPERATURES: High Wednesday, 56 degrees; low, 45 degrees; reading at 7:30 a.m. today, 55 degrees; precipitation, .07.

East and South Central Texas: Mostly cloudy with scattered showers and thunderstorms through Friday. No important temperature changes.

North Central Texas: Cloudy with occasional rain and scattered thunderstorms through Friday. No important temperature changes.

Northwest Texas: Cloudy and rather cold with occasional rain and scattered thunderstorms through Friday. Lowest tonight 38 to 48 in Panhandle and upper South Plains.

Southwest Texas: Partly cloudy to cloudy with scattered showers and thunderstorms through Friday, mainly from Pecos Valley eastward. No important temperature changes.

West Gulf: Southeasterly winds 10 to 18 m.p.h. and widely scattered showers through Friday.

New Round Opens On Steel Dispute

By JOHN MOODY

PITTSBURGH (AP)—Steel negotiators, under White House pressure to end the 79-day-old steel strike before Oct. 8, opened a new round of contract talks today.

Both the United Steelworkers Union president, David J. McDonald, and industry negotiator, R. Conrad Cooper, appeared in good spirits as they arrived for the meeting. They joked briefly with newsmen but otherwise had no comment.

The strike has idled some 500,000 steelworkers and nearly 200,000 employes in allied industries, such as transportation and mining.

The negotiations, held in New York until now, were broken off last Friday by the United Steelworkers, which claimed the talks were getting nowhere.

The decision to resume the talks was made in Washington Wednesday after the President talked with union and industry leaders in separate meetings. He reportedly told both sides in firm language that he wanted collective bargaining to continue.

The President, who has referred to the strike as an intolerable situation, reportedly did not discuss issues during the meetings.

He also avoided discussing the possibility of invoking emergency provisions of the Taft-Hartley Act which would put the mills back in operation for an 80-day "cooling off" period.

But there was a strong implication that the President might take such action if nothing hopeful comes out of the negotiations before Oct. 8 when he is scheduled to return to Washington from a vacation at Palm Springs, Calif. Eisenhower's exact words were that he sincerely hopes "an agreement can be initiated before my return to Washington next week."

After their talks with the President, industry leaders and union officials met for two hours in a downtown Washington hotel. It was the first time that top industry executives, headed by Chairman Roger M. Blough of U.S. Steel, had talked to union leaders since the strike began. Industry negotiations have been handled by a team of lower-echelon executives headed by R. Conrad Cooper, a U.S. Steel executive vice president.

After the session, Cooper and President David J. McDonald of the Steelworkers said in a statement: "We have had a frank and constructive exploration of viewpoints. The industry and union negotiating teams will, in the light of today's discussions, resume collective bargaining in Pittsburgh tomorrow morning at 10 a.m."

There was no elaboration on the statement, but one well-placed source said he was convinced that a basis has been reached for what he called a serious effort to reach a settlement.

Joseph F. Finnegan, director of the Federal Mediation and Conciliation Service who took part in the New York talks, stayed away from the meeting in Washington. He said he asked the negotiators to call him into the negotiations if necessary and added: "If they can do it under their own steam, God bless them."

TWO CARS COLLIDE—Two cars collided two miles east of Snyder on U. S. Highway 180 about 8:50 o'clock this morning as fog blanketed the Snyder area. One woman, Faustina Costello, 2101 Twenty-fourth Street, was slightly injured, but not hospitalized. Gloria Gercero, 2101 Twenty-fourth Street, was driver of the 1951 Ford sedan overturned in the accident, and George Edwin Parks, Route 2, was driver of the 1957 Cadillac involved. Both cars were going east on the highway. (Lee Watson photograph)

Grand Jury Session Set

The Scurry County grand jury will begin its October session Monday, Wayland Holt, district attorney, said.

Members of the panel are to be Harold P. Brown, 2900 Avenue U; Elmo Crowder, 709 Twenty-sixth Street; G. E. Chorn, Route 2; Glenn Tate, Route 1; Hermleigh; Leland Herod, 2700 Thirty-fifth Street; Weldon Johnson, Box 155; John Mark McLaughlin, 2085 Thirty-fifth Street; E. H. Williamson, 2701 Thirty-fifth Street.

Ed Owens, 1812 Twenty-sixth Street; V. T. Tracey, Box 1348; W. G. Herring, 3006 Forty-first Street; Joe Cargile, 2807 Avenue X; Edwin Parks, Route 2; Rex Robinson, box 494; Holman Odom, Route 2; and W. D. Everett Jr. 501 Twenty-fourth Street.

New Deputy Begins Work For Sheriff

Henry Camp, 2912 Avenue U, began work as a deputy in the county sheriff's department yesterday, Earl Abercrombie, sheriff, said.

Camp has been a resident of Scurry County for about 40 years, and is a member of the Northside Baptist Church, Abercrombie said.

Camp will be assigned to night duty.

Several Highways Closed By Floods

AUSTIN (AP) — The Highway Department said today these roads were closed:

Del Rio District: State 163 closed by high water 20 miles north of Comstock at the Devils River. Expected to be closed all day.

Fort Worth District: Farm 157 closed in Tarrant County between U.S. 80 and State 183 by high water. Farm 4 closed in Palo Pinto County between Santo and U.S. 180 by high water.

Rains Continue Over State; Central Texas Has Floods

Cool, damp weather continued in the Snyder area today, as heavy rains and damaging winds were reported in other parts of the state.

Showers added more moisture over the county during the past 24 hours. However, the rainfall since 7:30 a.m. Wednesday had been mostly mist and drizzle. Only .07 had been added to the Wednesday morning total of .51 of an inch.

The overnight low thermometer reading here was 45 degrees, following a high Wednesday of 56 degrees.

Elsewhere in the state, torrential rains drailed a train, snarled city traffic, threatened homes with flooding and sent streams out of their banks in North and Central Texas.

The disturbance kicked up high winds which ripped into the Gordon Junction community three miles south of the town of Gordon in Palo Pinto County. The wind caused some property damage but there were no injuries reported.

A woman passenger was treated for a bruised shoulder after three cars of a seven-car mail and passenger train left the Missouri-Kansas-Texas tracks at a washout in Red Oak, south of Dallas in Ellis County.

State Highways 121 and 157 and numerous rural roads were closed by high water in the Fort Worth and Dallas areas, which caught the heaviest rainfall.

Dallas measured an official 6.25 inches for the 24 hours ending at dawn Thursday, 5.77 inches of it coming between midnight and 5 a.m.

Grand Prairie, between Dallas and Fort Worth, caught an unofficial 8¼ inches of rain.

A half dozen major intersections were closed in Dallas as water fell too fast for storm sewers to carry it off. Police said stretches of U.S. Highways 75, 80 and 175 were under water during the early morning.

State Highways 157 and 121 were closed north and east of Fort Worth as the Trinity River and its tributaries went on the rise.

A crest of 30 feet—14 feet below the rim of levees—was forecast for Thursday afternoon at Dallas.

Fort Worth had a 5.86 inch rain which sent waters lapping toward homes in the oft-flooded Richland Hills area on the northeast edge of the city.

West of Fort Worth, rains of up to six inches were general. One family was evacuated when Sunday Creek went out of its banks near Santo.

Telephone lines were down in the Gordon and Gordon Junction areas, but reports received from those communities said damage from Wednesday night's high wind was largely to trees and roofs.

Mrs. Ira Ball of Gordon said some farm buildings were blown down. A tree was blown onto the roof of the J. L. Mitchell home, causing considerable damage.

The roof of the John Franks grocery in Mingus was blown off. Strawn reported a four inch rain and trees blown down. Highway crews were called out at 2 a.m. to clear fallen trees.

Mrs. L. W. Bundy of Langley, Wash., was taken to a hospital with a bruised shoulder after the train derailment at Red Oak. The train, carrying about 20 passengers, was en route from San Antonio to Kansas City.

The Ellis County sheriff's office said water had washed the roadbed from under the tracks at the point where the cars overturned.

Plate glass windows were blown from several stores in Waxahachie, which had 2.89 inches of rain. Farm roads in the area were closed by high water from several streams, including Waxahachie Creek.

The Dallas rain was the heaviest 24-hour fall in 12 years.

A three-foot section of pavement in front of Dallas Baker Hotel caved in, near the Commerce-Akard intersection often described as Texas' busiest. One lane was closed to traffic.

Minor damage was reported to a North Dallas home struck by lightning and to several autos abandoned after they stalled in deep water.

Dallas Power and Light reported power failures in neighborhoods throughout the city and police and sheriff's officers said traffic accidents were unusually heavy, during the rain.

Amarillo, Childress, Dalhart, Mineral Wells, Corsicana, Midland, Junction and Texarkana also reported rain.

It was the second straight day of heavy rains in Texas. The San Angelo area had rain of four inches Wednesday, and a ranch near, Mertzon measured seven inches.

Forecasts called for scattered thundershowers and thunderstorms for all sections of the state through Friday.

Mao Flexes Military Muscles For Russian Premier Today

BY JOHN RODERICK

TOKYO (AP) — Mao Tze-tung flexed his military and civilian muscles today for Soviet Premier Nikita Khrushchev with a vast parade celebrating Red China's first decade. More than 700,000 Chinese took part.

The 65-year-old Chinese Communist leader put on his big show of force in Peiping less than 24 hours after his guest of honor, in two important speeches, had in effect urged Mao to keep the peace of Asia.

Standing on the high red walls of the Forbidden City's magnificent Gate of Heavenly Peace, Mao, Khrushchev and the big men of the Communist world took the salute as 144 big guns, 15 jet fighters and bombers and 99 tanks roared past.

Peiping radio, which gave a running account of the ceremonies, said it was the biggest military display ever made by China's Communist rulers.

Troops of the Red army, navy and air force marched by under the eye of their new chief, Defense Minister Lin Piao, the man whose Chinese "volunteers" drove Gen. Douglas MacArthur's forces back from the Yalu River in Korea.

Lin talked tough about Nationalist-held Formosa. In an order of the day to his troops, he said the Red regime would take Formosa "by one means or another."

In an obvious reference to the United States, he asserted that "no foreign country can interfere in this."

Khrushchev, leader of the world Communist bloc, went to Peiping after a 13-day tour of the United States and talks with President Eisenhower in which both agreed that peaceful methods must be used to solve international disputes.

On his arrival in Peiping Wednesday, the Soviet Premier told the Chinese Reds and visiting Communist delegations that the Red world "must do everything possible to preclude war as a means of settling outstanding questions."

Chinese Premier Chou En-lai said Wednesday night he welcomed the Eisenhower-Khrushchev communique, which emphasized a lessening of world tensions. But no other hints have been given of official Chinese reaction to Khrushchev's words.

Radioman Is Held In Ship Slaying

NEW YORK (AP) — A Dutch seafarer receives a hearing today on a warrant charging him with the murder of pretty divorcee Lynn Kauffman, who vanished from an outbound freighter in Boston Harbor almost two weeks ago.

The beaten body of 23-year-old Miss Kauffman who resumed her maiden name after her divorce washed ashore in Boston Sept. 19, the day after the freighter Utrecht sailed for Brooklyn.

Held without bail in Brooklyn Felony Court on a Boston Municipal Court warrant was handsome Willem Louis Van Rie, 30, radioman aboard the Utrecht.

Authorities said Van Rie broke down during questioning and admitted striking Miss Kauffman during an argument in her cabin. Van Rie, who has a wife in Holland, said he had been having a shipboard romance with the girl during the voyage from Singapore. A radio operator's jacket was found in her cabin.

But Van Rie denied throwing Miss Kauffman overboard. He said he shugged her when she got excited and came at him as they heatedly discussed her "supposed pregnancy."

Examination of her body in Boston, said Capt. James B. Allon, Boston homicide squad chief, showed no pregnancy.

Ironically, it fell to Van Rie to radio from his ship, that Miss Kauffman was missing.

Also aboard the vessel was Juanita Spector, wife of Dr. Stanley Spector, 45, professor of Oriental studies at Washington University in St. Louis, and the Spectors' three children.

Miss Kauffman had been secretary for Spector at the university and had moved into the Spector home. About 14 months ago she accompanied the family to the Orient, where Spector did research work and then flew home alone some weeks ago.

Miss Kauffman was the daughter of Theodore Kauffman Jr., head of a Chicago boiler equipment firm. She was divorced in 1956 from Arthur B. Tucker, a St. Louis, Mo., attorney.

The 8,300-ton Utrecht sailed Wednesday for Norfolk, New Orleans and Houston.

STATEMENT REQUIRED BY THE ACT OF AUGUST 24, 1912, AS AMENDED BY THE ACTS OF MARCH 3, 1933, AND JULY 2, 1946 (Title 39, United States Code, Section 233) SHOWING THE OWNERSHIP, MANAGEMENT, AND CIRCULATION OF THE SNYDER DAILY NEWS, published daily (Except Sat.) and Sunday at SNYDER, TEXAS, FOR October 1, 1959.

1. The names and addresses of the publisher, editor, managing editor, and business manager(s) are:

PUBLISHER — Herbert Feather, Snyder, Texas.

EDITOR — Wacil McNair, Snyder, Texas.

BUSINESS MANAGER — Dillard Pope, Snyder, Texas.

2. The owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual member, must be given.)

Feather Printing & Publishing Co., a corporation.

Herbert Feather, Snyder, Texas.

J. F. Feather, Snyder, Texas.

Earle Feather, Snyder, Texas.

3. The known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are:

There are no bondholders or preferred stockholders.

4. Paragraphs 2 and 3 include, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for which such trustee is acting; also the statements in the two paragraphs show the affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner.

5. The average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the 12 months preceding the date shown above was: 6,088.

HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS — Louis Chesnut, Air View Apts.; Arah Boone, 3105 Thirty-first Street; Rebecca Riojas, Route 3; Melissa Stallings, 710 Thirtieth Street; Betty Jo Buckley, 912 Twenty-sixth Street; Ernest Potter, Hicks Trailer Court; Ninfa Rosas, Arah Route; Richard Harper, 2700 Avenue F; Albert O'Niel, Route 2; Jake Huffman, 2701 Thirty-sixth Street; Michael Anweiler, 2801 Avenue J.

DISMISSALS — Mrs. Harland R. Parks and Baby, David Delcy, Patsy Geiger, Tommy Favers, Sam Curry, Farlie Norris, Farner Brewer, R. L. Sturdivant, Eldon Grant, Myrtle Glasscock, Mrs. Marion Becerra and baby, Mrs. Blanche Grant.

Last Ditch Effort Set

PITTSBURGH (AP) — Federal mediator William Rose slated another meeting today in what he called "a last ditch effort to break the deadlock" in the 19-day strike of some 2,000 moldmakers against the glass container industry.

Rose said negotiations between the American Flint Glass Workers Union and the Glass Container Manufacturers Institute probably would be recessed indefinitely if nothing toward a settlement took place.

Rose said both sides rejected new proposals exchanged Wednesday. Terms were not disclosed.

Rose said the chief bones of contention in the contract talks continued to be arbitration of grievances and wages.

The company wants grievances submitted to binding arbitration if they are not settled at a local level. The union wants to keep the present procedure of holding all unsettled grievances for settlement until new contract talks begin.

Arguments Begin In Saunders Trial

AUSTIN (AP)—Final arguments in the J. Byron Saunders perjury trial are expected to begin about noon today.

The reading of Judge Mace Thurman's charge to the jury was called up at about 11 a.m.

Thurman said no time limit has been set for either side in presenting their final arguments. The usual routine calls for state's attorneys to present their argument first, defense attorneys second, then the state rebuttal argument.

UNION OFFICIALS AT WHITE HOUSE—President Eisenhower meets with David McDonald, president of the striking steelworkers union, and his aides as the White House entered the dispute now in its 12th week. Previous to the session with the union officials, the Chief Executive conferred with executives of the nation's largest steel producers. With Eisenhower and McDonald are: I. W. Abel, left, union secretary treasurer, and Howard Hague, second from left, vice president. (AP Wirephoto)

Series Of Services For Crash Victims

MOUNT VERNON (AP)—This East Texas city of 1,500 started a series of funerals today for two school teachers and six teen-age students killed in a bus-truck crash at Cooper Tuesday night.

The Mount Vernon schools, closed when news of the highway tragedy was received, will not reopen until Monday. A junior high school football game which was to have been played Tuesday night and a senior high grid game scheduled for Friday night were cancelled.

The first funeral was for Mrs. Bill Meek, a sixth-grade teacher. Double services were set today for Jack Henry, 45, principal of the school and driver of the bus, and his son, Billy Max Henry, 12.

Another double service—for 12-year-old schoolgirl chums, Jaquita Raney and Audrey Sue Turner—were set for Friday morning.

Separate rites were scheduled for Zach Taylor and Kenneth Hightower.

Still pending were services for Rex Weatherford, 11. His twin brother, Lex Weatherford, was one of the three students who remained in critical condition at hospitals in this area.

In addition to the eight deaths, 22 persons—21 students and the driver of the truck—were hospitalized.

A total of 34 persons were riding in the bus en route to Cooper for the football game between Mount Vernon and Cooper junior high teams.

Officers said the accident occurred when Henry signaled for a left turn. J. W. Warrington, 39, of Grand Saline, driver of the salt truck, said after signaling for a left turn, the bus swerved back. The two vehicles collided in the middle of the highway.

Lower Meat Prices Forecast By USDA

WASHINGTON (AP) — Meat prices this fall will be lower than a year ago. Beef and lamb prices will be down moderately, and pork cuts will be well under last fall's prices.

The Agriculture Department said the current uptrend in meat animal production is the reason for the lower prices at retail. Total meat production in 1959 promises to be second only to the 1956 total. A further increase is expected for next year.

The number of beef and dairy cattle on farms is expected to set a record high of between 102 and 103 million head by Jan. 1.

You can't run for a subway in Paris. The platform raises slightly when the train starts pulling out.

Anchovies, an expensive dish of tiny fish for human beings, is the staple food of the guano birds in South America.

PRESENTING AMERICA'S MOST CAREFULLY BUILT CAR

THE IMPERIAL OF 1960

Tomorrow, at showrooms across America, we introduce the totally new . . . totally wonderful Imperial.

It is built more carefully, tested more thoroughly, than any other car which has been or will be introduced this year. It requires more individual handcrafting than other cars. It takes longer to build . . . because the skills which build it are the kind that can't be hurried. It has brought automotive craftsmanship back to America.

The new instrument panel has bold, readable calibrations . . . logically placed controls . . . and a remarkable new Panelescent lighting which aids vision and depth perception at night by eliminating glare and reflection.

New swivel seats turn automatically as the door is opened. An exclusive, improved Auto-Pilot tends the accelerator on long trips (two very practical options) . . . the engine has more wheel-turning power than any other passenger car engine in the world.

When you drive our Imperial of 1960, we think you will agree it proves one satisfying point . . . that a fine car can be almost awesomely impressive, and still be a vivid, engaging personality . . . a good companion as well as an obedient servant.

Compare Imperial's riding quality, space and comfort . . . ease of entry and exit, front and rear . . . driving liveliness . . . and learn that it is, in luxurious fact, the finest car America has yet produced.

CLASSES IN PROGRESS—Instructions for members of the Cogdell Memorial Hospital Auxiliary have been started in Snyder. Pictured above from left to right are: Mrs. Mary Smith, instructor, Mrs. Fla Joyce and Mrs. Wayland Holt. Different stations at the hospital are being explained by Mrs. Smith and the duties that can be performed by the auxiliary members. Those who do not care to come in contact with patients are given such duties as the information desk, mending and numerous other tasks that are vital to the welfare and comfort of patients and visitors. (Lee Watson photograph)

An orientation program and class of instructions for members of the Woman's Auxiliary of Cogdell Memorial Hospital started last Monday evening at the Scurry County Health Unit. Mrs. Mary Smith, director of nurses at the hospital is the instructor.

The purpose of this program is to instruct each Auxiliary member how to be of help in more ways in the work at this particular hospital.

Classes are being held each Monday, Tuesday and Thursday evenings from 7 to 9 o'clock for a period of three weeks.

The auxiliary emphasizes the fact that more members are needed in this challenging and rewarding volunteer service. If any person has just a few hours a day or week they would like to spend in this worthwhile cause they are asked to contact Mrs. M. L. Broman, membership chairman, at HI 3-3763.

The instructions and orientation programs are free of charge and will not only benefit the person in hospital work but may prove most rewarding in time of disaster and even for the individual's family.

With the enlarging of the hospital more auxiliary members will be needed. Although the membership enrollment was a huge success when organized in April, 1958, many faithful workers have moved from our midst and must be replaced. Aside from this more and more duties are being undertaken by the auxiliary, enabling the regular nursing staff to perform their duties.

The Snyder Auxiliary has been praised for their outstanding services, but, it should not fall on the shoulders of the same few year after year, every woman in the community should at least give it a try and once she has, she will realize the satisfaction of helping those when they are unable to help themselves.

WOMEN

WOMEN'S CALENDAR

THURSDAY

Gamma Epsilon Chapter of ESA meets at 7:30 p.m. in the home of Mrs. Peggy Guy, 3602 Fortieth Street.

The Auxiliary to the Fire Department will meet at 7:30 p.m. in the home of Mrs. J. M. Newton, 2711 Avenue V.

AAUW Holds First Meeting

The Snyder branch of the American Association of University Women met for a business and planning session at the Martha Ann Woman's Club recently.

Policies of the group which participates in projects of international, national, state and local scope were reviewed. Program theme for the year's work is "Building for the Future."

Miss Ruby Butts as president heads the roster of officers. Other officers are: Mrs. K. L. Haught, first vice president; Mrs. J. E. Cross, second vice president; Mrs. Velia Shifflett, secretary; Miss Vela Bell, treasurer and Mrs. Marvin Hanback, parliamentarian.

Fluvanna 4-H Elects Officers

The Fluvanna 4-H Club met last Friday at the Fluvanna school room.

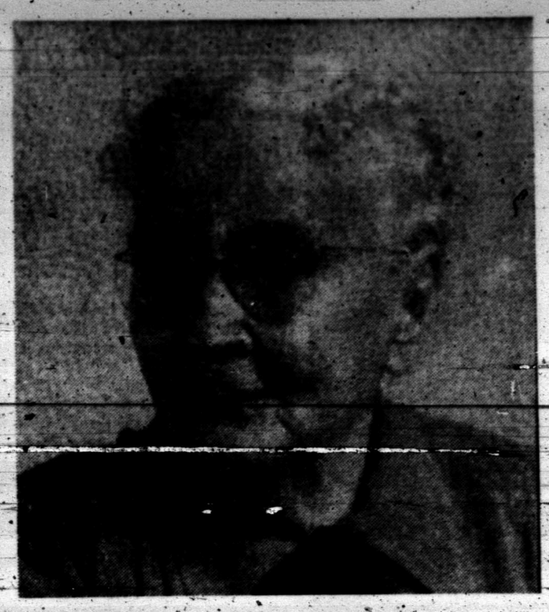

The meeting was called to order by Betty Pylant, who led the motto pledge and prayer.

Officers for the new year were elected. They were, Robin Beaver, prexy; LaRue Reeder, veep; Betty Pylant, secretary; Gloria Hill, treasurer; Sue Herring, reporter; Nelda Jo Warren, song leader; and Janet Martin, recreation leader.

New officers received their officer's pins.

EASY SALAD

Scoop out tiny tomatoes and turn upside down to drain. Sprinkle insides lightly with salt and pepper, then fill with a little mayonnaise to which you have added minced chives or scallions.

TO CELEBRATE—Mrs. D. C. Bentley, better known to her many friends as Granny will celebrate her 91st birthday Sunday at the home of her daughter, Mr. and Mrs. J. H. Rollins, 2503 Avenue A. Mrs. Bentley has been a Scurry County resident for 61 years. Friends have been asked to call between the hours of 2 and 4 o'clock.

Oil Women's Convention To Open In San Antonio Friday

The eighth annual convention of the Association of Desk and Derrick Clubs of North America is convening in San Antonio, Texas, October 2 and 3. Desk and Derrick is an educational organization for women employed in the petroleum industry. A total of 1500 oil women are expected to attend from the United States and Canada.

Keynote speaker for the convention is Miss Maxine R. Hacke, immediate past president of the Association, whose topic is "The Golden Tread." Miss Hacke is with Warren Petroleum Corporation, Tulsa, Oklahoma.

During the two-day meet, an address will be given by Michel T. Halbouty, noted consulting geologist, petroleum engineer, and independent oil operator from Houston Texas. In addition to many scientific articles on geology and petroleum engineering, Mr. Halbouty is author of the book entitled "Petrographic Characteristics Of Gulf Coast Oil Sands," and co-author of the best-seller "Spindletop." Mr. Halbouty's address, entitled "They Said It Couldn't Be Done" will be given at the convention banquet on Saturday.

Dr. Frank B. Conselman, well-known consulting geologist from Abilene, Texas, will talk on "A Perspective for Petroleum" at the Friday luncheon. Dr. Conselman, who is this year's Distinguished Lecturer for the American Association of Petroleum Geologists, is also the author of a number of professional papers.

Another highlight of the meeting will be a panel discussion of foreign oil on Saturday afternoon, to be presented by Mr. D. B. Eicher, Staff Geologist, Foreign Department, Continental Oil Company, Houston, Texas; Mr. H. W. Haight, Chairman of the Board, The Carter Oil Company, Tulsa, Oklahoma; and Mr. William A. Sackmann, Attorney, Foreign Production Division, The Ohio Oil Company, Findlay, Ohio. Group discussions on club activities, led by leading club members, will be held on Friday afternoon.

Other highlights of the oil women's meeting will be the election of officers for the coming year. Gladys Watford, Houston, Texas, will be a candidate for president.

On the entertainment side, there will be a fiesta in the Spanish-Texas tradition and a reception honoring candidates for office.

Three consecutive buzz sessions on club activities are scheduled for Friday afternoon, October 2, during the 8th Annual Convention of the Association of Desk and Derrick Clubs of North America. In making the announcement, Miss Ellen M. Vaughan, Shreveport, Louisiana, Association President, said that these sessions will provide convention-goers an excellent opportunity to become better acquainted with certain club functions and ADDC policies and procedures.

Plans for this membership participation program were made by Miss Doris L. Hege, Washington, D. C., Chairman and members of the Association Program Committee.

The Hilton Hotel, San Antonio, Texas, will be headquarters for this annual meeting of oil women from the United States, Hawaii and Canada, on October 2-3, 1959. The theme of the convention is "Education Anew With a Broader View."

FRENCH TOAST

If you add a little sugar to the egg and milk mixture for French toast, you'll find the bread will brown well when you fry it. Some folks like the French toast served with maple syrup, others go for a sprinkling of cinnamon mixed with superfine sugar.

CHEERIES

You can add well-drained tart red canned cherries to the sweet muffin batter you usually use with blueberries. Before baking, sprinkle the tops of the muffins with a mixture of sugar and cinnamon, nutmeg or mace.

LAZY FROSTING

Distribute thin pieces of milk chocolate over a white cake you've just taken from the oven. As soon as the chocolate softens spread it smoothly with a spatula, over the top of the cake. Lazy woman's way but good!

POTATOES

Like stuffed baked potatoes? Try adding creamstyle cottage cheese to the mashed potatoes before putting them back into the shells.

Coming October 8th

A Wonderful New World of Fords for 1960

A new world of style! A new world of savings!
A new world of performance! A new world of built-for-people comfort!
A new world of station wagon living!

On October 8, for the first time, there will be not one, not two, but *three* completely new kinds of Ford cars designed and priced for nine out of ten Americans:

The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View, worth more from every Point of Value!

The 1960 Falcon—The New-size Ford, the world's most experienced new car, and the easiest car in the world to own!

The 1960 Thunderbird—The World's Most Wanted Car!

FORD—*The Finest Fords of a Lifetime*

Here are 15 new models! Economy-minded Fairlanes. Big-value Fairlane 500's. Elegant Galaxies. Five beautifully husky new station wagons. A sleek new Sunliner convertible and a brand-new hardtop model, the Starliner.

A wonderful new world of style. Ford's beautiful new proportions flow smoothly through an elegant Thunderbird-inspired roof to swift rear-quarter lines.

A wonderful new world of performance. For action, there are new Thunderbird V-8's that blend blazing power and acceleration with kid-glove smoothness.

A wonderful new world of ride. With Ford's new Wide-Tread Design, wheels are spread farther apart for a *full 5-foot tread*. It handles and rides like the Thunderbird!

A wonderful new world of economy. Ford's Mileage Maker Six and Thunderbird 292 V-8 and 352 V-8 all travel beautifully on *regular* gas at savings up to a dollar a tankful. And go 4,000 miles between oil changes.

A wonderful new world of built-for-people comfort. Six big people—including the man-in-the-middle—ride in greater comfort than ever. The new Fords give you as much as 4 inches more shoulder room, more knee room, more hip room. You relax on chair-high seats.

A wonderful new world of safety. Ford's big safety news for 1960 includes new *Truck-Size Brakes* with brake linings 25% bigger. Ford's new *Safety-Girder Frame* is 25% stronger than ever before. Better visibility, too.

FALCON—*The New-Size Ford*

Here is the welcome news Americans have been waiting for . . . the *Falcon*, a product of Dearborn, Michigan, automotive capital of the world, *was expressly designed for American needs on the American road*. It's the one economy car without the economy-car look.

Averages up to 30 miles per gallon. Experience Run, U.S.A., *proved* it! Oil savings? Ford's *standard* Full-Flow Oil Filter stretched oil changes 4,000 miles apart.

The engine's up front for greater safety and stability. Built brand-new for the Falcon, the short-stroke Falcon Six was developed, and mounted up front, according to long-proved, thoroughly accepted engineering principles.

1960 Falcon seats six with ease. Six fit comfortably into the Falcon—and it swallows luggage for six in the big rear trunk that holds 23 cu. ft. Compare this with others!

Easiest car in the world to own. A Falcon is so easy on the wallet that it's easier than ever to be a 2-Ford family!

THUNDERBIRD—*The World's Most Wanted Car*

For 1960, the Ford Thunderbird is distinctively new—without basically disturbing the famous profile that has made it America's new fine-car favorite. It's the most wanted car of all!

No matter who you are . . . or what your tastes and needs . . . there's an exciting 1960 Ford styled, sized and priced for you. See *your* Ford Dealer October 8!

Serve Supreme Salad Wafers more ways... more often...during Supreme Bakers'

CRACKER CRAZE DAYS

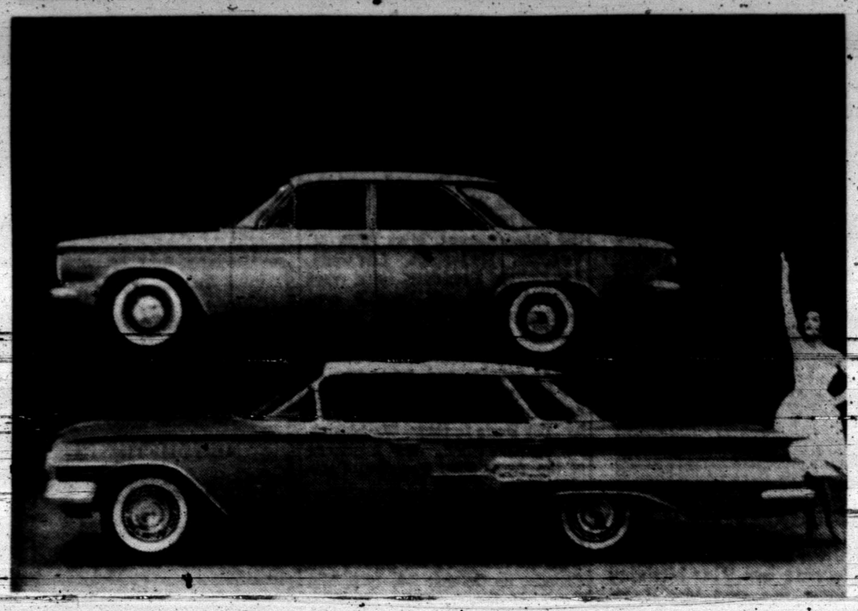

When you shop, look for these cards that suggest how to enjoy Supreme Salad Wafers more ways . . . more often.

No matter how you serve them... or how often... Supreme Salad Wafers are right for the occasion. These thin saltine crackers are flavor favorites. Featured at all fine food stores.

SUPREME BAKERS

BOWMAN BISCUIT COMPANY
DIVISION OF UNITED BISCUIT COMPANY OF AMERICA

CORVAIR AND IMPALA—Differing sharply in size, but related in elegance, the Corvair and its conventional-size counterpart bear a marked Chevrolet family resemblance. Uniquely arranged in this photograph, the 180-inch Corvair "floats" over the 210.9-inch long 1960 Chevrolet Impala.

New Chevrolets Show Tomorrow

Chevrolet's new 1960 models will go on public display tomorrow at Lamb Chevrolet Co., Twenty-fifth Street and Avenue H.

The Chevrolet Motor Division, which earlier released details of its highly original Corvair, announced the rest of its 1960 passenger car line today.

A distinctive new appearance, added comfort and increased economy of the most popular V8 engine are among outstanding features.

Nineteen models (including the Corvair and the spirited Corvette sports car) will be included in the first public showing by Chevrolet dealers tomorrow.

All passenger car series have been completely re-styled. There is a fresh new appearance to the exteriors. The interiors are roomier and offer new elegance of upholstery and sidewall treatment.

The most notable design changes occur in frontal and rear areas. An oval-shaped grille spans the hood and encloses widely spaced twin head-lamps at the outer edges. The wing overhang at the rear has been revamped to widen the trunk opening and lower the loading sill. An ensemble of circular tail-lamps replaces the former teardrop configuration.

Side-trim mouldings establish distinctive appearance for the Impala, Bel Air and Biscayne series.

The front compartment transmission tunnel has been significantly reduced in width and height to benefit roominess. The frame has been reinforced and new rubber-insulated body mounts give a quieter ride.

In addition to the new economy in the Turbo-Fire V8, the power packages include a six and six other V8 choices. To improve overall economy and engine performance in the normal driving ranges, a low-lift camshaft with reduced valve overlap, and recalibrated carburetor are featured on the new economy Turbo-Fire V8.

New tires are more durable. Tread life has been increased 12 per cent by new synthetic rubber and a change in the proportion of synthetic and natural rubber. The higher energy-absorbing tread material also promises less impact on bumps, reduced tire squeal on turns and surer traction.

Brakes have been improved and require less pedal pressure. The parking brake now carries a pop-out release lever.

Color choices in the 1960 conventional passenger car line include 13 solids and 10 two-tone combinations.

Body types offered include:

Impala: four-door sedan and sport sedan, sport coupe and convertible Bel Air; Two and four-door sedans; sport coupe and sport sedan. Biscayne: Two-door and four-door sedans and a utility sedan. Station wagons: Nomad, Parkwood, Kingswood and two choices of Brookwood.

Little Rock Case Delayed

LITTLE ROCK, Ark. (AP) — A federal judge postponed a hearing set for today on a motion challenging the Little Rock School Board's use of pupil placement laws to limit integration.

The hearing was scheduled before Judge John E. Miller in U.S. District Court at Fort Smith, Ark. A Negro attorney, Wiley Branton of Pine Bluff, Ark., obtained the postponement.

Miller said he would reset the hearing at Little Rock.

Branton said that when the hearing was first scheduled he thought testimony could be completed in one day. He said it had since developed that the hearing might take several days and pose problems for numerous witnesses called from Little Rock.

The motion filed by the Negro students contends that their right to attend Central, Hall or Technical high schools at Little Rock should be restricted by attendance areas only.

Breakthrough In Missile Fuel Logged

SAN ANTONIO (AP) —A major breakthrough in the missile fuel field — encasing liquid fuel within a metal shell — was announced by the southwest research institute here today.

The announcement by the SWRI Chemistry Department was made at the annual trustees meeting of the institute.

At present, aluminum or magnesium is used in small particles to provide additional thrust. However, these particles may ignite prematurely. The fuel and oxidizers also may react with one another.

What the missile industry has been seeking is a coated metal capsule which could contain the fuel or oxidizer.

The first metal covered capsule which was exhibited shows such a system is possible.

Other developments revealed to the trustees were:

A gas fired air conditioner as inexpensive as electrical models to install and less expensive to operate.

Plans for the world's first deep-diving submarine, which will explore the unknown depths of the ocean to a depth of three miles.

The design of an analog which electrically simulates a gas compression system and has resulted in savings of millions of dollars.

The redesign of multi - use engines for the Army which resulted in a $3 saving per unit.

Here's What Would Happen If T-H Law Invoked By Ike

WASHINGTON (AP) — What steps would be taken if President Eisenhower should decide to invoke the national emergency provisions of the Taft-Hartley Act in the steel strike?

Here's the step-by-step sequence:

First, the President would declare a national emergency growing out of the prolonged shutdown of the basic steel industry.

Then he would set up a fact-finding board to report to him in a set period of time. The board would report only on issues or facts. It would make no recommendations. In the steel strike, the chief issues are the industry's demand for more freedom in making economies in work practices, and the union's demand for a 15-cent hourly pay increase and benefits for every year under a new contract. Steelworkers averaged $3.11 hourly before the strike began July 15.

After he gets the board's report, the President may order the Justice Department to seek a court injunction to halt the strike for 80 days.

A court order would send the strikers back to work. Meantime the law requires that both sides "make every effort" to settle their dispute.

After 60 days, the inquiry board would report to the President on the strike situation. A statement on management's latest offer of settlement would be included. (Industry said Wednesday it had offered the union, in exchange for reasonable contract improvements, certain pension and insurance advances in the first year of a two-year agreement, and a modest wage increase in the second year. The union said the report of this offer was a falsehood.)

The board would hold a secret vote within the next 15 days among the strikers themselves on the management offer. After the results were certified to the Justice Department, it would discharge the injunction at the end of the 80 days.

If the workers turned down the offer, they would be free to resume their walkout. All government remedies, except mediation, would be exhausted.

Emergency provisions have been invoked 15 times since the Taft-Hartley Act became law 12 years ago. In nine of these cases, settlements were reached during the 80-day injunction period.

Actor Leaves Fund For Friends' Party

LOS ANGELES (AP) — Actor Wayne Morris left $300 in his will to "buy booze and canapes for my friends."

Morris, 45, died of a heart attack Sept. 14.

His will, filed for probate Wednesday, said:

"One hundred dollars shall be expended at the discretion of my closest surviving relative, for the purpose of buying booze and canapes for my friends.

"On second though, make it $300 'cause I don't want my friends to go away sober or serious."

Morris left the bulk of his estate, valued in excess of $10,000, to his wife, Patricia Ann O'Rourke.

Seven Nations Join To Eliminate Tariff

MONTEVIDEO, Uruguay (AP) —Seven South American countries have joined tentatively in plan to eventually eliminate all tariffs and other trade barriers among them.

The common market agreement was signed Wednesday night by Argentina, Brazil, Bolivia, Chile, Paraguay, Peru and Uruguay, but will not be effective until the foreign ministers approve it next February.

The agreement calls for full operation of a common market within 12 years. Supporters hope the free trade zone will cover all of Latin America.

Rockets For Climbing Seen

LOS ANGELES (AP)—A soldier with a rocket on his back soon may be able to fly to a clifftop.

Aerojet - General Corp. said Wednesday it plans to make a test flight of its strap-on AeroPAK rocket next winter.

AeroPAK is designed to make it possible for specialized combat troops to overcome difficult terrain obstacles.

The rocket weighs 100 pounds and is maneuverable through use of control levers.

With the controls, the company said, the operator could travel up or down, forward or backward, or turn around in the air and vault himself in a 30-second flight to desired landing spot.

Aerojet-General said AeroPAK will have sufficient power to lift a man 20,000 feet in 20 seconds although it is not expected ever to be used in such a manner.

Algerian War Costs 150,000 Lives

ALGIERS (AP)—The five year Algerian war has cost nearly 150,000 lives, the French government says. The toll includes rebels, French soldiers and victims of rebel terrorism.

In addition, a French communique said Wednesday night, 110,000 persons are being held in prison camps or have fled the country as a result of the nationalist rebellion.

Here Friday from Chevrolet

Elegant Impala 4-Door Sport Sedan—one of 16 spanking new Chevrolets you can choose from.

THE SUPERLATIVE '60 CHEVY

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that's new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside—the relaxing roominess, tasteful trim, hushed elegance of its new Body by Fisher, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, it's got all the thrifty virtues that make it unmistakably a Chevrolet—with new economy of operation, new dependability new longer life. Here, then, we're confident both you and your budget will joyously agree, is the

nearest to perfection a low-priced car ever came!

Here's the car that introduces a whole new decade of design—with so much that's new and different the others can only hope to come close.

It's the superlative '60 Chevrolet—with new space inside, new spirit under the hood, new splendor in every clean-etched line.

Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, the solidly built new Body by Fisher surrounds you with finely tailored fabrics and spacious elegance. There's room to sprawl in, room to sit tall in—generously provided by Chevy's sofa-wide seats and extra margin of hat space. And there's even more leg room for the man in the middle—thanks to the way Chevrolet engineers have shaved down the transmission tunnel.

Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. Adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of isolating road shock and noise.

Quiet, quick-responding power is provided by a choice of two standard engines—Chevy's famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while delivering greater engine torque at normal speeds. There's also a choice of five other V8's and five transmissions, to assure the exact power combination to satisfy the itch in your driving foot. Chevy's accent on comfort and convenience even extends back to its easier-to-load luggage compartment. You'll also find a convenient new parking brake that automatically returns to normal height after application, a new clutch linkage that filters out engine impulses more effectively than ever and new two-toning motif available on all 16 fresh-minted models.

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes . . . and that's to drop in on your dealer and drive one!

Disarmament To Get Priority At Session

By TOM HOGE

UNITED NATIONS, NY. (AP)—Disarmament is slated for priority when the U.N. Assembly's main Political Committee gets down to business. A storm is blowing up over which arms proposal will get top billing.

At least two groups with rival plans are reported maneuvering to head the list when the five disarmament items come up for debate in the 82-nation committee. The committee starts work sometime next week.

The Soviets reportedly are making a strong bid to head the agenda with Premier Nikita Khrushchev's proposal for total disarmament within four years.

They are running into opposition from a large segment of the Asian-African block, which wants priority for Morocco's demand that France cancel plans for testing an atomic bomb in the Sahara desert.

Also on the committee's agenda are an Irish appeal to restrict nuclear weapons to the nations that now have them—Britain, the United States and the Soviet Union; an Indian call for a permanent ban on all nuclear tests and Secretary General Dag Hammarskjold's report on the current international efforts at disarmament.

Britain also has broached a three-stage disarmament plan that will go before the 10-nation East-West committee slated to start arms talks in Geneva early next year. The British have not asked that their proposal be put on the Assembly agenda. They are understood to feel it should be part of the general disarmament report rather than a separate topic.

As a result of Khrushchev's personal appearance before the Assembly, the Soviet total-disarmament plan is getting the most attention so far. It calls on all states to disband their armies and scrap their arms over a four-year period so that no one in the world would have any means of waging war.

Observers feel sure the plan will get a thorough examination before the U.N., but predict it is in for some rough going.

Group Showers For Girls Are Opposed

HILLSIDE, N.J. (AP)—Hillside High School has run into trouble with parents who object to group showers for girl students.

The school's new gymnasium has only four showers—not enough to give strict privacy for all the many girls taking physical education.

Some 75 parents protested the group showers at a Board of Education meeting Wednesday night.

The Rev. J. Emmet Knox, a Roman Catholic priest at the meeting, said that "While cleanliness is next to godliness, if it means sacrificing morality, we should give up cleanliness. Gang showering is contrary to the endeavor to encourage virtue and modesty."

Arnaz Forfeits Bail

LOS ANGELES (AP) — Television actor-produced Desi Arnaz forfeited $21 bail on a drunk charge. He failed to show up to answer the charge in Municipal Court Wednesday. He was arrested Sept. 19. Two plainclothesmen said he was staggering along a Hollywood street.

Strike Sends Idle Worker Rolls Upward

PITTSBURGH, Pa. (AP) — Unemployment continued to inch upward today as the longest nationwide strike in the history of the steel industry rolled on despite government prodding and growing shortages among customers.

In addition to the half - million striking United Steelworkers members on the rolls of workers idled by the 79-day-old strike moved close to the 200,000 mark.

A large percentage of the layoffs occurred in the transportation and mining industries. Fabricating firms, once bolstered by big reserves, also are beginning to cut back on production and hand out layoff slips.

The Labor Department, in its fourth semimonthly survey of the strike impact, said last week that cutbacks in production and employment are expected to increase sharply by the middle of this month.

The auto industry has begun laying off workers who ordinarily would be busy with new car model production.

General Motors Central Foundry Division at Saginaw, Mich., cut production from five to four days late last month and the GM plant at Trenton, N.J., began laying off 2,700 employes. Both developments were laid to the steel shortages.

Pennsylvania and West Virginia, where much of the coking coal is mined for the steel industry, reported nearly 100,000 idled in the backwash of the strike.

In Ohio, another big steel producing state, Donald P. Smith, Cleveland area director for state employment service, reported about 8,200 have been furloughed in his area.

New School Case Looms

SAN ANTONIO (AP)—Legal action was threatened Wednesday night over alleged slighting remarks made about Latin-American students by Lacoste High School teachers.

A protest meeting was held at Lacoste, 25 miles southeast of here.

Pete Tijerina of San Antonio, civil rights committee chairman of the League of United Latin American Citizens, said "We would like to straighten this thing out peacefully, but will take legal action if necessary."

Blanche Hernandez, one of 25 students who walked out of the school Friday, said at the meeting that Manuel Balderrama playfully pushed an Anglo-American student in the school corridor.

The girl said a mathematics teacher then made what she called insulting remarks about Latin-American students.

Miss Hernandez said Supt. A. D. Blue made similar remarks.

Blue refused to discuss the incident.

Nearly all the striking students have returned to school.

Expecting No. 6

HOLLYWOOD (AP) — Actress Jeanne Crain expects her sixth child next January. She and her husband, airplane parts manufacturer Paul Brinkman, have two daughters and three sons.

Missile Center Is Invaded By Foxes

By JACK STILLMAN

HUNTSVILLE, Ala. (AP)—The Army Ordnance Missile Command says the three little foxes at Redstone Arsenal have absolutely nothing to do with any space experiment.

The story of the three little foxes began Wednesday night, when Mrs. Carolyn Harper, a secretary, left the AOMC headquarters building about 8 p.m.

Mrs. Harper had been working overtime. She was tired. She was tired. She thought that her eyes were playing tricks.

But between Mrs. Harper and her automobile, there was a fox. No doubt about it. She ran back to the building and told the guard, Tracy Bishop, a man of sound reasoning. Bishop strolled over to the parking lot. To his amazement, there was not one fox, but two.

"Enough of this," said Bishop. He called the MPs.

Now if anybody at Redstone Arsenal is of sound reasoning, its Lt. John Parker of the 201st Military Police Company.

He hurried to the scene.

Peeking at him from behind a car was a little gray fox. Here, surely, was a situation not covered in the training manual.

So, Parker waved his arms and made like a commando, and the little fox skittered.

But then there was another one. Parker made like an angry Marine this time, and that little fox, too, moved off to sit beside its friend and watch the proceedings.

Parker had decided that he had done all that was expected of him when another little gray fox peeked out at him. This time the lieutenant put added authority in his voice and screamed like a Redstone missile guard. That did it.

All three foxes made strategic withdrawals, then sat down and watched from nearby.

Parker gave up. When he left the three little foxes were still nosing about the parking lot.

The missile command headquarters building is in the middle of Redstone's 40,000-acre reservation.

Patent Suit On Bits Filed

HOUSTON (AP)—Hughes Tool Co. is suing Reed Roller Bit Co., alleging four separate rock bit patent infringements.

The firms are two of the world's largest oil tool manufacturers. Both were pioneers in the development and manufacture of oil drilling tools.

Robert F. Campbell, a Hughes attorney, said his firm has spent millions of dollars developing new rock bit designs to increase penetration rates and footage drilled per bit.

"It was the infringement of patents issued as a result of this research that formed the basis for the suit," Campbell said. A Reed spokesman denied any infringement.

The suit, filed before Federal Judge Joe Ingraham, seeks to enjoin Reed from making certain rock bits and seeks to recover damages. No specific amount of money was named. John F. Maher, president of Reed, said the suit" involves millions of dollars."

Hughes alleges infringement of patents received "for an invention in a well drill; for an invention in prevention of mud cutting in earth boring drills; for an invention in a roller cutter for earth drills; and for an invention in a well drill."

Collins Is Horse For Longhorns

AUSTIN, Tex. (AP)—Jack Collins, a tall 190-pounder who runs like the wind and hasn't been on a losing team in two years, is causing more excitement than any University of Texas football player in many a day.

Already he has Texas fans comparing him with such Longhorn greats as Jack Crain, Bohn Hilliard and Bob Layne. Football fans across the country will get a chance to see for themselves Saturday when Collins and the Longhorns take on California in the nationally televised game.

Collins sped 86 yards against Maryland last week and that was just eight yards behind the longest run in Southwest Conference history, set by Hilliard 25 years ago.

He first attracted attention when he kicked the ball 79 yards against Nebraska in the opening game of the season.

But not just those two plays have made Collins the fair-haired boy among the Longhorns. In two games he has rolled up 123 yards rushing for an average of 9.5 per run, averaged 46 yards kicking, passed twice and completed both, caught two passes, intercepted one and scored 12 points.

Collins wasn't unheralded.

The son of a three-sport athlete at Texas, he was an all-state player at Highland Park of Dallas where his team went through 13 consecutive games without a loss or tie. He played on the winning side in two all-star games, on the Texas freshman team which won its five games, and now he has made it 22 straight by playing in two varsity triumphs.

A Test Of Skill

ANNAPOLIS, Md. (AP) — The Workshop for the Blind, which runs a concession in the basement of the state office building here, got tired of replacing soft drink bottles in racks. A sign over the empty cartons now reads: "Test your skill. Place round bottle in square hole."

The only living Ohioan with his name on an historical town marker in the state is John W. Bricker, former governor and U. S. Senator.

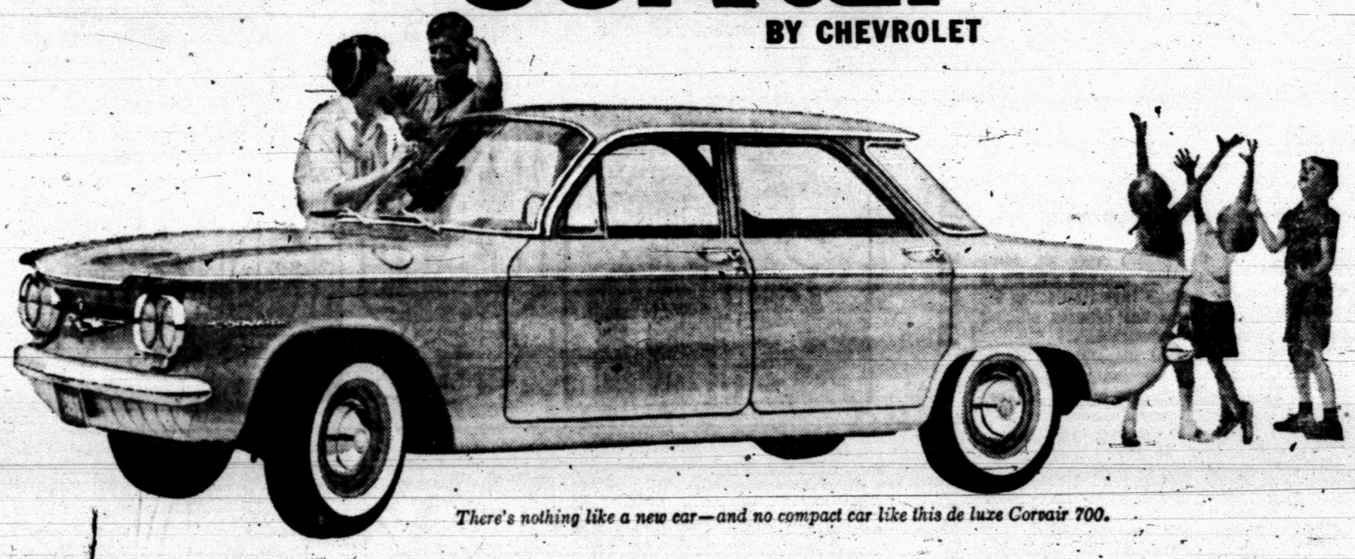

Lincoln Tests Dunbar

Lincoln High hits the road Friday for a game against Dunbar of Lubbock. Kickoff time is 8 o'clock.

In their only contest of the young season, the local crew was defeated by Caryer of Amarillo, 40-0, in a game played in Amarillo.

as different as night and day!

THE REVOLUTIONARY Corvair BY CHEVROLET

There's nothing like a new car—and no compact car like this de luxe Corvair 700.

Here's the car created to conquer a new field—Chevrolet's low-priced compact Corvair.

The product of nine years of research and development, it's America's first truly compact car that retains the ride and 6-passenger comfort you're used to in a big one.

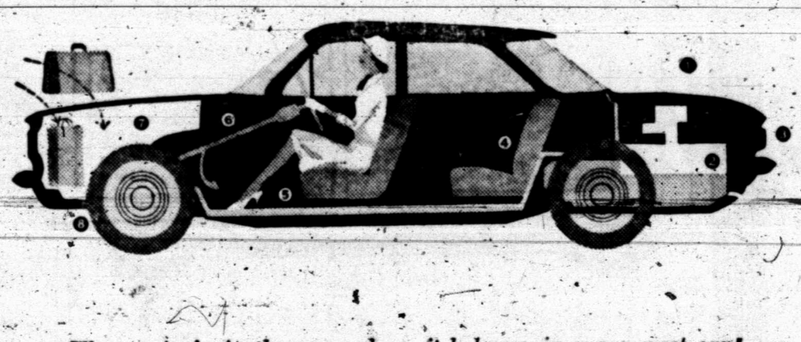

The key to this small miracle: An engine's only rear-mounted aluminum engine—a lightweight 6 that's so revolutionary it can be packaged with the transmission and drive gears as one compact unit.

With the engine in the rear, the Corvair's floor is virtually flat, front and rear, so there's plenty of foot room for everybody. Combined with Corvair's unique body-frame construction by Fisher, this provides interior spaciousness comparable to many postwar conventional-sized cars.

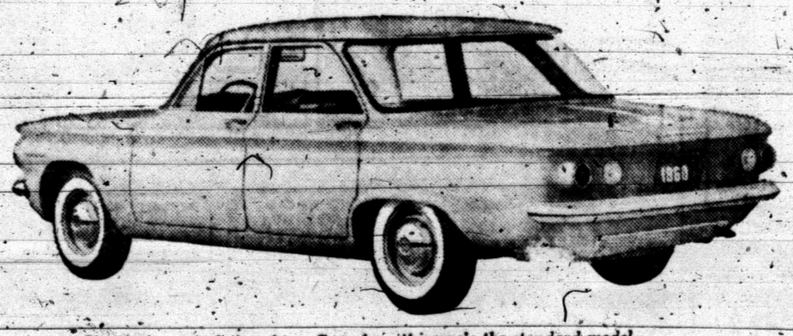

Shifting engine weight to the rear also makes for easier compact car handling and gives glued-to-the-road traction on ice, mud or snow. And with independent suspension at all 4 wheels—an advance comparable to the independent suspension of front wheels years ago—you get a poised, unruffled ride that rivals even the costliest cars.

These are all things no front-engine compact car can give you. And with them you get outstanding economy and practicality that would never have been possible if Chevrolet engineers had been content to make the Corvair merely a sawed-off version of a big car. Corvair's size—some 5 inches lower, 2½ feet shorter and 1,300 pounds lighter than conventional sedans—makes it a joy to jockey through busy streets, a pleasure to park (no need for power assists). Its revolutionary Turbo-Air 6 gets up to 30% more miles on a gallon of regular. And, because the engine's air cooled, you never have to fuss with antifreeze, you get quicker warmup (even heat for passengers comes—almost instantly—from an airplane-type heater*). Wonderfully practical, yes. But you'll find the most practical thing of all about Corvair is its remarkably low price. Your dealer's the man to see for all the short, sweet details.

America's only car with an airplane type horizontal engine!
America's only car with independent suspension at all 4 wheels!
America's only car with an air-cooled aluminum engine!

The engine's in the rear where it belongs in a compact car!

You have your choice of two Corvairs—this one's the standard model.

See your local authorized Chevrolet dealer

1 REVOLUTIONARY TURBO-AIR 6
Gets up to 30% more miles on a gallon, needs no antifreeze, provides quicker warmup with less wear on parts. It's the world's first production 6 with the ultra-smooth, space-saving power of horizontally opposed (not vertical or V-stroke) pistons.

2 ONE-PACKAGE POWER TEAM
Wraps rear engine, transmission and differential into one compact unit. Takes less room, leaves you more.

3 STYLING—PURE AND SIMPLE
Clean, uncluttered lines shape both 4-door models—the de luxe Corvair 700 and the standard Corvair. Each has its own distinctive trim, and you get more visibility area than in many full-sized cars.

4 FOLD-DOWN REAR SEAT*
Works instantly, adding to Corvair's versatility by enlarging rear-seat cargo space to 17.6 cu. ft.

5 FLAT FLOOR
Corvair is America's only compact car with a practically flat floor, the only one with the kind of relaxing room that U.S. motorists are used to.

6 UNISTRUT BODY BY FISHER
Does away with conventional frame, incorporating all structure into a rigid body-frame unit that gives you more inside room with less weight.

7 UNDER-HOOD LUGGAGE COMPARTMENT
Trunk's up front (like an elephant's) where it's convenient for groceries, shopping bags, luggage.

8 4-WHEEL INDEPENDENT SUSPENSION
There's no conventional axle—front or rear. Wheels, cushioned by coil springs, take bumps independently of each other, for smooth, road-hugging ride.

*Optional at extra cost.

OUR VIEW

Next Move Up To Court

Scurry County commissioners have a recommendation from dozens of local citizens to work toward a courthouse-jail construction project here.

Over 170 persons signed petitions which were circulated by the Chamber of Commerce civic affairs committee.

The petitions requested that commissioners make a study of the needs and estimated costs of a possible construction project to provide up-to-date and adequate courthouse and jail facilities.

This project has been "in the making" for several years, and the time which has elapsed since it was first thrust into the discussion stage has merely served to accentuate the need.

Some county offices are woefully short of space, and the county jail is a poor facility at best.

The commissioners court should interpret the petition as a green light to go ahead and develop some sort of proposal. Such public bodies usually are reluctant to take the intiative in such projects, unless they are certain that vital needs will be met and public support will be forthcoming.

Both of these requisites have been fullfilled in the case of the courthouse-jail problem. The need should be apparent to hundreds of Scurry County citizens, and the petitions represent substantial public support from the outset.

The next move is up to the commissioners court.

Ike's Trip Looms As Political Hay

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — For the Republican party, President Eisenhower's trip to Moscow next spring, probably in June, will be like pennies from heaven and bunnies in a basket.

What luck for the Republicans! What timing too! Eisenhower will be making his trip just a short time before the Democrats open their convention in Los Angeles July 11.

Usually in a presidential election year like 1960, the shenanigans of the political parties and would-be candidates dominate the news for many weeks before the Democratic and Republican conventions begin.

But it seems pretty certain the Republican Eisenhower will be the one in the headlines, not ahead of the Democratic get-together both during the preparations for the trip, the trip itself and the return.

Between now and June a summit conference seems likely that may produce results since Eisenhower and Soviet Premier Nikita S. Khrushchev seem to be "get-along" men.

If that's successful in thawing the cold war a bit, Eisenhower-Moscow parleys should be a triumph. Both he and Khrushchev will be international heroes.

And in such an event even Khrushchev himself, although he says he can't see any difference between Democrats and Republicans, should have an effect on the 1960 campaign.

The mood then will be one of not wanting to damage the newly established good will with the Soviets. It will deprive the candidates of a hackneyed, overworked posture that has been a political standby for years now. "We gotta be tough with them Russians."

After a successful summit meeting and then a triumphal tour of the Soviet Union, Eisenhower would return to a grateful America. Such gratitude can't help the Democrats but some of it may rub off on the Republicans.

The Republicans will try to identify Eisenhower successes with themselves, although this hasn't always proved successful as witness the 1956 campaign when Eisenhower won overwhelmingly but the Republicans lost control of Congress.

Nevertheless the shadow of Eisenhower returning from the Soviet Union in June 1960 should be across the Democratic convention and until it fell that the Democrats then could be grateful he is that Eisenhower isn't running again.

It's possible the Republicans will make such a mess of themselves before their convention it isn't fun and during it is the way they choose a candidate—that no even Eisenhower could do them much good.

Yet the timing of Eisenhower's trip to Moscow can be attributed to political cunning on the part of one or two Republicans at least for we see no evidence how available.

Diplomats are known to have agreed upon the original arrangements which called for Khrushchev to come here in September and Eisenhower to return the visit next November.

The short interval between the two visits wouldn't have left time for the two men to translate their exchange of good will statements into deeds, as might be possible if they had a summit meeting between visits.

Now by delaying Eisenhower's visit until next June, there is time for the two men to meet at the summit with Britain and France and bury a few hatchets before the President flies to Moscow.

Advice Offered To Vacationers

NEW YORK (AP)—Having just returned from a vacation, I now offer several bits of wisdom and sage advice for other vacationers, none of whom will pay the slightest bit of attention.

Do not take a vacation. Work is good for man. But—when you do, do not return moaning about how hard it is to go back to work afterward. No fellow worker can moan louder and longer than you.

If you go gallivanting around the countryside, leave most of your money at home. Otherwise you will always manage to spend more than you can afford.

Be sure to take the children. They will learn much—about the different types of hot dog and soda pop stands.

Never, never stay in the plush hotels and motels, or eat in fancy restaurants. It will make your wife awfully dissatisfied with life at home the rest of the year.

As a father, remain aloof from all family arguments as to where to go, what to see, routes to take, etc. Then after all the squabblers have run out of steam, do just what you intended in the first place.

By all means carry along all the clothing you possess. You won't need any of it except for what you're wearing when you start, but it will starve out the moths at home.

Try to cover about 800 miles a day if by auto. You won't have much time to relax and see the [illegible] make the gas and oil companies.

Before setting forth, order all the maps, travel folders and incidental information available. Next winter, when the snow lies deep around the old homestead, it'll be fun to learn what you saw.

Wait a minute, now, all you good travel agents, resort operators and everyone catering to the traveling public. Put away those blunderbusses. We were only kidding.

Partly, anyhow.

But what do you expect but sour grapes from a guy who has to wait a year now for another vacation?

King Ranch Case Remains Unsolved

By ED OVERHOLSER
Associated Press Staff Writer

Two trespassers, a father and a son, parted barbed wire strands and stepped into the forbidden million-acre King Ranch in hopes of bringing home a duck dinner.

The two hunters have never been seen again in the 23 years that have passed since that clear November day.

The Blanton disappearance case remains on the active list at the Department of Public Safety in Austin. The last notation in the yellowing file was a "missing person report from Cuba in 1949. Perhaps no one will ever know what happened to Luther and John Blanton.

Ranger Capt. Alfred Allee in charge of the South Texas area, theorizes the Blantons wanted to leave their unprofitable truck farm and simply staged the baffling mystery to escape their farm drudgery.

Or were the Blantons surprised while hunting murdered and their bodies dumped, perhaps in quick lime.

Texas Rangers pressed their search as far as Alaska. The Royal Canadian Mounted Police pursued tips that the Blantons had been seen in British Columbia. All clues and reports have failed to provide a solution.

On Nov. 27, 1936, the father and son picked up their 12 and 16 gauge shotguns and walked about 500 yards from their farm 20 miles north of San Perlita, 35 miles from the Mexican border.

As they had done on previous occasions, the men climbed through the fence of the King Ranch and vanished into the tangle of chaparral and mesquites.

Luther 51, and John 24, were expert hunters and knew their way around. They were respected men without known enemies.

Near evening, Mrs. Blanton recalled she heard two shots and thought her husband and son had flushed some birds. When they failed to return at dark, she began to worry.

After a sleepless night she went to Raymondville to see if they had been arrested for trespassing. She arranged for a check at the King Ranch to see if the men were there. Her efforts produced no news.

The next day a searching party was organized.

In those days, most people feared to hunt on the land because of the tough ranch riders employed to patrol the vast reaches of the cattle empire. The ones who did defied the law to take a shot at the protected game. Occasionally a hunter would be caught but his neighbors on the jury seldom returned a conviction.

Searchers organized by the Rangers, Texas highway patrolmen and local officers found few clues. Fellow farmers trampled the country and may have destroyed valuable evidence. A heavy rain also may have covered up clues.

But tracks were found around a lagoon which matched the size and types of shoes worn by the men. A shotgun shell and seven cigarette stubs were found at another place.

As the search wore on, some citizens openly accused officers of laxity in their investigation on the ranch. Breaches between officials also were apparent.

Charges of illegal pistol carrying and impersonation of an officer were filed in two cases. Four others, instrumental in filing charges in the case were held in contempt of court, including one Ranger who promptly quit.

One special posse spent days and nights on the ranch but found nothing. No one apparently had seen the Blantons nor heard the shots.

Mrs. Blanton felt her husband and son had been killed. Ranger Capt. Bill McMurrey who headed the investigation in its early days subscribed to this feeling.

Indignation bristled again four months after the disappearance when two men attacked and beat Mrs. Frank Blanton, daughter-in-law of the elder Blanton, after they halted her car.

Between You And Me

By JERRY JACKSON

THE TIGERS will no doubt have their hands full tomorrow night as they pit their forces against Permian of Odessa. There should be an abundance of fireworks, too, as the Panthers are expected to run from a wide variety of offensive formations and to chunk the old oval with not so gentle regularity.

According to Coaches John Conley and Don Robbins, who offered scouting reports on the Permian bunch, the formation which will probably be run from as much or more than any other will be the double wing, normally accompanied by an unbalanced line to the right. This formation, with the halfbacks split wide toward the ends, affords no less than four prospective pass receivers downfield in no time flat, and can be murder when a team has a good quarterback in the saddle tending to the chunking chores.

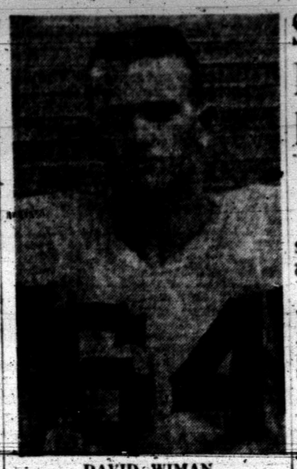

QB Crain Not Bashful Type Passer

THE MAN UNDER in this case is one Gary Crain, a quarterback with fullback measurements. This six foot lad scales a hefty 190, and likes nothing better than to sling that pineapple. In Permian's three games played to date he has cut loose on 71 attempts and connected on 30 of same, with only two of these aerials falling into enemy hands. In fact, the Panthers have racked up as many yards via the air route as they have rushing, so pss defense will be one of the prime necessities facing the Bengals. For in last week's game against Lubbock Monterey Crain sounded an ominous forewarning by taking to the air 29 times.

In contrast to their manmountain but extremely effective quarterback, Permian's fullback, Carroll Golden, scales out at only 160 pounds. As might be expected, he is not the bull-type sort of fullback, but rather a breakaway specialist who prefers to roam the wide open spaces if given the opportunity. His 5.1 yard average on 36 carries seems to point up the fact that he is doing very well with it, too. However, in goal line situations the Panthers have been hurt on occasion by his lack of poundage and consequent inability to plow his way over through a reinforced defensive line.

The Panther line will be big, but one which has had trouble moving at times. The starting offensive line will average out at well over 190 pounds to the man, thus the smaller Tigers will have to depend on their speed advantage to carry them through.

So the Tigers have their work cut out for them. It'll prove to be quite a full evening of football.

DAVID WIMAN
Larruppin' Lineman

Wiman Takes Top Honors For Week

Tiger Guard David Wiman swept Lineman of the Week honors this week on the strength of his heads-up play against Big Spring. Playing from the defensive middle guard position, he repeatedly nailed Steer ball carriers for losses, and was responsible for drawing first blood on no less than seven tackles during the course of the contest.

Offensively, Wiman held down the right guard position in the Tiger forward wall. Due to his efforts, Tiger backs were able to chalk up considerable gains through the right side of the line, as he opened up holes to good advantage.

The most notable play in which he had a hand came late in the first quarter, he being the sole Tiger to successfully analyze a Steer statue-of-liberty play, which netted them their only first down of the entire first half. On this play, Big Spring halfback R. L. Lassiter snatched the ball from quarterback Tommy Whatley and went sailing around right end for a 12-yard pickup before being bounced out of bounds by Wiman. Then a few plays later he contributed another stellar play as he broke through to spill Whatley for a four-yard loss on an attempted keeper. A very commendable showing on the part of this 157-pound junior.

Stopping Of Meredith Big Headache

By JACK CLARY
Associated Press Sports Writer

How do you stop a passer like Southern Methodist's Don Meredith?

According to Navy Coach Wayne Hardin, you don't, you just try and beat him at his own game when you have the potential.

This is the way Navy will go after SMU Saturday in Dallas. The Middies have three good points to back up their plan.

The first two are quarterbacks Joe Tranchini and Joe Maxwell, who run Navy's "32 slotbo" offense. The third is the effective use of the same plan by Georgia Tech last weekend in upsetting the Mustangs 16-14.

Tech quarterback Fred Brasleton gained only 73 yards compared to 241 by SMU, most of it by Meredith. But all of Tech's came in two scoring drives. Meredith also threw a pair of TD passes but missed both extra points.

Abilene Breckenridge Tops Slate

The last big schedule of the season comes this week in Texas schoolboy football with more than 300 games in the four classes that play to state championships.

As conference play moves in the schedule lightens. Meanwhile, there are some outstanding intersectional and inter-class games on the card. The No. 1 battle comes Friday night at Breckenridge when the Buckaroos, aiming at the state's top ranking, host Abilene.

Breckenridge, a Class AAA team, outplayed Wichita Falls, defending champion of AAAA, in a 14-14 tie, and now it must remove Abilene to declare itself supreme over the field.

Abilene has beaten Breckenridge four years in a row. Last year the Eagles whipped the Bucks, then fell to Wichita Falls, the team that had lost only to Breckenridge.

The 84 undefeated, untied teams left in the state's four top divisions face drastic trimming this week.

Sox Have Pitching Problem

By JOE MOOSHIL
Associated Press Sports Writer

CHICAGO (AP) — The Chicago White Sox won the American speed and defense but they might find themselves short on pitching in the World Series.

Early Wynn (22-10) will open today against Los Angeles and Roger Craig (11-5). But after that, White Sox Manager Al Lopez isn't sure.

He has right-hander Bob Shaw (18-6), southpaw Billy Pierce (14-15) and right-hander Dick Donovan (9-10), but the latter might not get a starting assignment.

Lopez is not worried about his game is recovering from a leg injury. Gerry Staley and Turk Lown are ready to do the relief work. But starting pitchers could be a headache.

Only Wynn was a dependable starter all season. Pierce and Donovan have been spotty.

Nevertheless Lopez must consider both men as starters. "Pierce definitely fits into the rotation," said Lopez.

Shaw or Pierce will probably hurl the second game. Pierce could be the choice so that the stubby southpaw wouldn't have to work in the Los Angeles Coliseum with its menacingly short left-field fence.

Donovan could get a shot in the Coliseum but Lopez made it clear the Sox would have to be ahead 2-0 or 2-1 before he would use him.

Aside from possible pitching problems, the Sox are ready for the Series. Catcher Sherm Lollar has recovered from a bruised hand and will start.

Outfielder Jim Landis, who along with shortstop Luis Aparicio gives the Sox one of the fastest base-running twosomes in the game, is recovering from a leg injury. [illegible] are set at every position except for right field and third base. With a left-hander pitching, Jim McAnany will be in right and Bubba Phillips at third. With a right-hander pitching, Jim Rivera would take the outfield post and Billy Goodman would be at third.

However, Lopez said he might be tempted to use McAnany and Phillips, both right-handed swingers, in Los Angeles regardless of who pitches in order to take advantage of the short left-field fence.

Colts Whip Frogs, 8-0

In a Pee Wee encounter Tuesday afternoon featuring teams from the Scurry County Boys Club, the Colts shut out the Frogs by an 8-0 score.

The lone touchdown of the contest came as a result of a nine-yard run by Murray Bowden, with fullback Jeff Jarratt running the conversion over. Jarratt, with 87 yards, and Bowden, with an additional 40, led Colt ball carriers, who gained a total of [illegible] yards rushing. Eddy Greenlee was the big gun for the Frogs, as he piled up 72 of the 86 yards with the Frogs amassed by rushing.

The Colts held the edge in the first-down department, with eight as against three for the Frogs.

Play will continue today, as the Bears take on the Hotshots in a 4:45 fracas at Central Elementary. The Bears boast an undefeated record to date.

Area 11's To See Action

Area ovalballers swing into action again Friday, with four games scheduled to be played.

Hermleigh's Cardinals travel to Roby in hopes of getting back on the win trail following a 28-0 defeat last week at the hands of Roscoe. That constituted the first loss of the season for the Cards, who had been victorious in their first two games. Three first line players for the Cards were forced to sit out the Roscoe game due to injuries, but two of them, both of whom were suffering sprained ankles, will be back in action tonight. The other, starting right guard James Vernon, is not expected to see service as a result of a collar-bone separation, reports Card Coach Bill McGuire.

In a re-scheduled contest, Ira hits the road for a game against Highland, one which had originally been set to be played at Ira. Playing sites were switched so that the Bulldogs will be able to host the Highlanders on Saturday, November 7, in a homecoming game. Ira is 2-2 thus far this season.

Gail's magic number this week is twenty-nine, as the Coyotes host Loop in a game which initiates district play for those teams. Gail has won its last 28 games in a row, four of which have been realized this season.

Hobbs will round out the area schedule as it lays out the welcome mat for McCaulley. The Hobbs crew has had a rough time of it the past three weeks, following an opening game win over Ira. They have been outscored in each of their contests, although compiling a respectable total of 76 points in the three losses.

3 Games Top Local Schedule

There will be pigskin aplenty and leather a' poppin' from 4:30 this evening on as three big games are scheduled to be unreeled at Tiger Stadium.

The first fracas will match Sweetwater against the Lamar Seventh Graders of Coaches Roy Carter and Bob O'Day, with a kickoff of 4:30. Lamar will carry an unbeaten record into the game, having previously beaten the Sweetwaterites, and also Colorado City.

The Snyder Freshman team will be seeking to straddle the win column in the second game, having dropped their first two contests to Lamesa and Big Spring Runnels. Coaches J. P. Ward and Speedy Moffett will send their delegation against Sweetwater with this thought in mind, game time being 6:30.

To top off the night's play, Snyder's "B" Team, mentored by Coaches Jim Stehley and V. V. Shearburn, will tangle with Midland at 8 o'clock. The locals sport a 1-2 won-lost record, having beaten Lamesa here, while losing to Midland and San Angelo on the road.

Royal Has Juicy 5-Year Contract

AUSTIN (AP)—Coach Darrell Royal's soaring string of football successes at the University of Texas add up today to a sparkling new 5-year contract.

His old agreement still had three years to run when he put his name Wednesday on a two-year addition.

Royal's chief comment on the arrangement was the act of putting his fountain pen to the document, but Texas officials were in a bragging mood.

"The University feels Darrell has demonstrated outstanding coaching techniques as indicated by the fine team record and his ability to control and discipline boys," said Athletic Director Ed Olle.

"We feel he has reflected and will continue to reflect credit to our institution."

Royal came to Texas from the University of Washington in 1957 when Longhorn football fortunes and morale were at one of their lowest ebbs. Discipline problems frequently arose and university officials frankly went out after a new coach who could not only win games but keep the rugged boys in hand.

Royal's Longhorns go on parade Saturday when they meet the University of California in a nationally televised feature.

Texas lays its undefeated record on the line depending on a team that showed spectacular speed and power in throttling Maryland last week 26-0 and blanking the week before 20-0.

Royal, 35, is a protege of Oklahoma's Bud Wilkinson. He gave Texas fans a taste of what they might expect in his first year as head coach, 1957. The won-lost-tied record was 6-3-1, which brought a Sugar Bowl bid.

Last year Royal added tons of popularity by directing Texas to its first victory over Oklahoma in seven years. Texas had a 7-3 season record, exceeded only by conference champion TCU.

Bums In Familiar Role Of Underdog

By CHARLES MAHER
Associated Press Sports Writer

CHICAGO (AP)—In a role as fitting as fins on fish, the Los Angeles Dodgers went into the World Series today slightly favored to lose.

But this curious club had at least one element in its favor: it's as unpredictable as a baseball dancing in Chicago's winds.

If anything distressed the Dodgers, it was their own pitching — and not somebody's picking.

Advised that a poll of sports writers covering the Series made the White Sox favorites, Dodgers Manager Wal Alston gave a suggestion of a chuckle and said: "Well, that'll hardly be anything new. We've been picked to lose all along. I saw in the paper that the odds were 6-5 against us, but I can't comment on that because the White Sox are a team I've never seen.

"I will say this, though: I'm certainly now afraid of something I've never seen. And I still have confidence that this club of ours will be hard to stop. These fellas have worked like crazy all year, and I don't think they're satisfied yet."

About pitching, Alston appeared somewhat more skeptical.

"That's one thing," he admitted, "that worries me a little. Don Drysdale, you know, is not nearly as sharp as he was the first half of the season. And Sandy Koufax isn't throwing the way he was either. Of course, you never know whether they're going to bounce back and give you a real good one."

For Editors Quiz on THE SEASONS

QUESTION: Why do they call it Indian summer?

* * *

ANSWER: Often after the first cool weeks of autumn, there will be a period of summer warmth. The skies are blue, the weather is mild and there is usually a soft haze in the air. But these warm days don't last long and cold weather follows. This period, which often occurs during October or early November, is what we call Indian summer. This is the name early Americans gave to it, but no one knows exactly why. The name has now spread to England, where Indian summer is also known as St. Martin's summer or Allhollow summer.

* * *

FOR YOU TO DO: Paste this picture on a square of cardboard and color it. The skies should be blue, the clouds fleecy white, the leaves brown and the flames and the imaginary Indian red.

* * *

(Stephen T. Monson of Richmond, Calif., wins the $10 award for this question. Mail your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will make the final selection.)

Surgery Scheduled For Siamese Twins

PORTLAND, Ore. (AP) — Surgery to separate the Stubblefield Siamese twins will be performed here Tuesday.

There is a good chance the operation on the three-month-old girls will be successful, a spokesman for the University of Oregon Medical School Hospital said.

Doctors earlier said studies indicated the livers of Jeanett Kim and Denett Linn Stubblefield probably are connected. That poses the gravest part of the operation, they added.

LEGAL NOTICE

legal to run three weeks 1-8-15-59 Judy

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO: B. N. GARRETT, if he be living, and if he be dead, his unknown heirs, administrators, devisees and legal representatives, whose addresses are unknown; JAMES MONTGOMERY, if he be living, and if he be dead, his unknown heirs, administrators, devisees and legal representatives, whose addresses are unknown; MATT SMITH, if he be living, and, if he be dead, his unknown heirs, administrators devisees and legal representatives, whose addresses are unknown; E. D. HARRINGTON, if he be living, and if he be dead, his unknown heirs, administrators, devisees and legal representatives, whose addresses are unknown, and A. J. HAMNER, if he be living, and if he be dead, his unknown heirs, administrators, devisees and legal representatives, whose addresses are unknown.
Defendants, Greeting:
YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Scurry County, at the Courthouse thereof, in Snyder, Texas, by filing a written answer at or before 10 o'clock A. M. of the Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 19th day of October A. D. 1959, to Plaintiff's Petition filed in said court, on the 28th day of August, A. D. 1959, in this cause, numbered 7751 on the docket of said court, and styled DAISY E. MOORE, a widow, Plaintiff, vs. B. N. GARRETT, JAMES MONTGOMERY, MATT SMITH, E. D. HARRINGTON, and A. J. HAMNER, Defendants.
A brief statement of the nature of this suit is as follows, to-wit:
Suit in trespass to try title on the following described land:
All of Lots Numbered 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22, of the Cody Heights Land Company's Subdivision of Blocks 41 & 42 of Cody Heights Addition to the Town of Snyder, Scurry County, Texas, as is more fully shown by Plaintiff's Petition on file in this suit.
If this citation is not served within ninety day after the date of its issuance, it shall be returned unserved.
The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.
Issued and given under my hand and the seal of said court at Snyder, Texas, this the 3rd day of September, A. D. 1959.
ATTEST: (s) Eunice Weathersbee, Clerk
District Court
Scurry County, Texas.
By Deputy.

there once was a farmer
who lived in a dell;
around him were people
who worked hard & well.

there was little boy blue
who put down his horn;
he went to the field
and gathered the corn.

peter, pumpkin eater,
was part of the crew;
under his care,
fine vegetables grew.

Jack of the beanstalk
was part of the team;
down on his crop
the sun did beam.

and little bo-peep,
she trained her sheep;
together they worked
and fine harvests reaped.

at the time of the harvest
a conference was called;
it was quickly decided

Krush Takes Olive Branch Along On His Trip To China

By JOHN RODERICK

TOKYO (AP) — Nikita Khrushchev has flown into Peiping bearing the olive branch of peace toward the United States. Will Mao Tze-tung pick it up or spurn it to create more turbulence in Asia?

In two major speeches soon after arriving in Peiping for Red China's 10th anniversary celebrations, Khrushchev literally lectured Mao on the urgent need to keep the peace.

"We on our part must do all we can to exclude war as a means of settling disputed questions and settle these questions by negotiations," he told more than 5,000 bigwigs of the Communist world at a lavish reception Wednesday night in his honor.

Communists — who universally claim they alone are the champions of peace—generally do not talk this way among themselves in public.

The implication was unavoidable. Mao has created one military crisis after another since he took over the Chinese mainland in 1949.

If the Red Chinese buy Khrushchev's line and really want to dispel some of the ill will separating Washington and Peiping, they can take two concrete steps.

They can free five Americans they still hold.

They can renounce the use of force as a means of conquering the Nationalist Chinese stronghold of Formosa.

These two conditions were laid down by the United States in August 1955, when ambassadors of the two countries began talks in Geneva.

Chinese Premier Chou En-lai told the Communist elite in Peiping that he welcomed the Eisenhower - Khrushchev communique, which emphasized this theme.

It is too soon to say whether this represents an important change in Red Chinese thinking. Peiping insists Formosa is an internal affair, not an international conflict. But it could be a straw in the wind.

Fowl, Red Meats Share Attention

By The Associated Press

Various types of fowl vie with red meats for the shopper's attention this weekend.

Turkeys are popular in some sections, with prices as low as 39 cents a pound for the bigger birds.

Broilers, fryers and stewing chickens also are numerous on bargain counters, with fryer prices off 2 cents a pound over a fairly wide area. Long Island ducklings are featured in the mid-Atlantic area.

Another poultry note: The seasonal upswing in egg prices continues in one or two sections, but declines were more numerous and ran to 6 cents a dozen.

A variety of sea food items also are on tap. These include scallop, halibut steak, shrimp and flounder.

Rib roast, chuck roast, pork loin and leg of lamb will be marked down for the weekend in a few stores.

Apples continue to be the hot item at produce counters. Pears, limes and tokay grapes also are outstanding buys.

Yous can get good buys, too, among oranges, lemons, seedless grapes, a few State of Washington peaches, and California's quince, prickly pears and pomegranates.

Potatoes rate as an outstanding vegetable buy, although harvesting has been hampered in some areas by wet weather. Onions also are plentiful, especially the small and medium sizes. So are butternut or acorn squash and such cooking "greens" as collard and kale.

Good buys are cucumbers, brussel sprouts, eggplant, spinach, cabbage, green peppers, tomatoes and some late varieties of sweet corn.

Broccoli, cauliflower, lettuce and topped carrots are marked up a bit.

Treatment Center Sold

AUSTIN (AP)—A former venereal disease treatment center near Overton was sold Wednesday by the state to A. E. Hunt of Dallas.

He bid high, $4,200, on the property which was originally bought by the state for $20,000 with federal veneral disease control funds. No general revenue money was involved in the original purchase.

Don Cavness of the State Health Department said the property was acquired originally as a venereal disease treatment center about 1945. It was closed in 1953 and has not been in use since.

The property consists of 3.47 acres of land and an old school building. It was sold by authority of the Legislature.

Mineral rights were not involved in the sale. State sources said they believed the mineral rights are still held by an owner who deeded the surface property to a school district many years ago.

The property is near considerable oil production.

Nuel F. Mebane from Wilson Motors, 1959 Ford four door.

Man Is Sentenced In Seafood Case

PHILADELPHIA (AP)—Daniel Di Orio, president of Universal Seafood Co., was sentenced Wednesday to a month in prison and fined $2,500 in connection with the distribution of poisoned seafood which caused the death of a 3-year-old boy. He also was placed on probation for three years.

Di Orio pleaded no defense on Sept. 22 to charges of using sodium nitrate on fish with intent to mislead and defraud.

The poisoned fish set off a widespread scare during which more than 200 persons went to hospitals for treatment.

Ray Sonnenbergs Move To Big Lake

Ray Sonnenberg, field salesman for Cameron Co. here, has been promoted to manager of the firm's store in Big Lake.

The Sonnenberg's, who live at 305 Thirty-fourth Street here, are moving to Big Lake this week.

Dockworkers Out Derpite Appeals

NEW YORK (AP) — Dockworkers started walking off the job today in ports along the East and Gulf coasts, launching a strike the government had appealed against in vain.

The walkout, expected to involve more than 80,000 longshoremen from Maine to Texas, came unexpectedly after dockers in the Port of New York agreed to a management request for a 15-day contract extension.

But thousands of longshoremen refused to go along. The revolt started with a 900-member rebel local in Manhattan and erupted in ports to the south.

Shortly after the first walkouts began with the contract expiration at midnight, the president of the International Longshoremen's Assn., Capt. William V. Bradley, announced here that the union would bow to the popular will.

"We were all right in New York," he declared, "but we've got to support these other men to the hilt. We'll call everybody off the job today, in all the ports along the East Coast. There won't be any work."

The walkout developed despite an appeal by Secretary of Labor James P. Mitchell, who declared it would seriously affect the nation's welfare.

Catching the nation in the midst of a record steel shutdown, the dockers strike was expected to hinder the flow of steel entering East and Gulf ports from abroad.

Cargo ships will stand loaded at docks, unable to unload, and workers in related fields will be affected. Passenger liners will be hampered, but not halted.

What touched off the walkout in Southern ports was disagreement between dockers and shippers over retroactive provisions covering any new agreements.

Negotiators here won agreement from the New York Shipping Assn. that any gains by the union would be retroactive to the expiration date of the old contract.

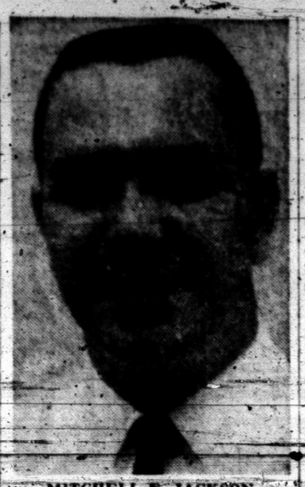

But similar agreements were not reached elsewhere.

Union spokesmen in Gulf ports refused to follow New York's lead without the retroactive agreement and called on workers in other ports to walk out in sympathy.

More negotiations had been set here for Friday, but the walkout put the bargaining schedule in doubt.

The ILA has asked for a three-year contract providing for a 50-cent-an-hour package increase, including benefits and wages. The 25,000 dockers in the Port of New York get an average of $107.76 a week. In other ports the longshoremen earn an average of $2.80 an hour.

In 2838 B.C. Chinese emperor Shen-Nung listed 300 medicinal properties of soy beans—the Oriental protein which supplanted rice.

MITCHELL F. JACKSON

Jackson To Head Kiwanis

Mitchell F. Jackson has been elected president of the Kiwanis Club of Snyder for the 1960 calendar year.

Jackson, who has served the local club as secretary for the past six years, will succeed Roy J. McCloskey as president of the club. The new president will take over his duties at the annual installation banquet, which will be held early in January.

Other 1960 officers elected at the Kiwanis Clubs weekly luncheon session Wednesday include Roy Meador, first vice president, and Bill Sheid, second vice president.

America's first practical gasoline automobile was built by the Duryea brothers in 1892 in Springfield, Mass.

Injuries Easier After 30th Year

By JOHN BARBOUR

ATLANTIC CITY, N.J. (AP)— You're more easily hurt—at work or play—once you hit the age of 30, a Los Angeles surgeon said today.

And things get worse as you grow older—not better.

One reason is that all of the minor injuries you've had over the years begin to pile up, Dr. Daniel H. Levinthal told a meeting of the American College of Surgeons.

Your reflexes are slower, and the very tissues of your body are less elastic than in your younger days.

As if that weren't enough, when you do hurt yourself, your body can no longer repair itself back to the pre-injury condition.

Of course, many persons who keep themselves in good physical condition minimize much of this, explained Levinthal, an orthopedic consultant to the Los Angeles Rams football team.

"I have been told by a good authority, one of the owners of a major baseball club, that the most valuable period in a baseball player's life, according to his statistics, are the years between 28 and 34," he said.

"I believe that the statistics in football would be moderately lower. The incidence of injuries would be greater in the older age group were it not for the fact that by training and experience the player has learned to protect himself from injury."
