Athlete Named

Lorraine's Rose To Prep All-America List

Sylvester Rose, one of Lorraine High School's top athletes, has been named to the Prep All-America Football program for 1973-74.

The announcement was made by the editors of COACH & ATHLETE magazine.

Rose's selection to the Prep Honor Roll makes him eligible for judging in the Prep All-America Football National Awards--Prep 100 Squad, Super Eleven Team and Cum Laude. In co-operation with the selection committee, the National

Finalists will be announced in the March issue of COACH & ATHLETE.

Rose was nominated by high school coaches, athletic directors, college recruiters and sports writers across the nation. The basis for the nomination was career records, sportsmanship, leadership and service to team and community.

Rose is the son of Mrs. Mildred Rose of Lorraine. He is a senior at Lorraine High School and a four-year letterman in football, basketball and track.

Finnell Says

Constitutional Convention Needs To Be Recessed

Rep. Charles Finnell in a visit to Mitchell County this past weekend told the Record he believes the constitutional convention should recess later this month to give delegates to the convention time to study proposals for the new constitution.

Under the existing situation, Finnell said, delegates to the convention are busy in various committees and do not have time to study what other committees have been doing.

As a result, some "bad" parts of the constitution are going to be passed because delegates are not adequately prepared to voice objections to "bad" parts of the constitution.

In addition, a large number of the delegates are seeking reelection and need time to get into their districts to campaign, Finnell pointed out.

"This recess should last until May or mid-June, Finnell said, so that constitutional delegates will have time to read reports of other committees and have a sharing of knowledge.

After the recess, there will still be plenty of time to pass the new constitution and get it on the November ballot. It should not be on a ballot in a special election as a general election would draw the most voters, he noted.

Finnell was in Mitchell County on a campaign trip. He is seeking the post of state senator to succeed Senator Jack Hightower who is seeking election to Congress.

Finnell has one opponent in the Democratic primary, Ray Farabee, who was also campaigning in Mitchell County this past week. Farabee did not make any statements while here Monday but will be back later to discuss the issues of the campaign. The Farabee trip was made in an attempt to get acquainted with local voters.

Ellyson Files For Election

Arden J. Ellyson, a two-year resident of the Lorraine community, has filed for election to the Lorraine school board.

Ellyson, in making his announcement, said that he has the time to serve on the school board and wants to contribute something to the community which is now his home.

He is retired after 28 years of civil service work with the federal government in the Corps of Engineers in Auburn, Washington.

He was a precinct Committeeman in King County, Washington, which includes Seattle.

Ellyson said, "I want to see every individual, every citizen, get the same treatment and I think that education is the long-time answer to helping people enjoy a better, fuller life."

Ellyson also said that he has long been interested in athletics as a way for young people to build strong minds and bodies and "I would like to see more students participating in athletic activities."

Ellyson and his wife, Florence, are members of the Church of Jesus Christ of Latter Day Saints.

quainted with local voters.

Finnell stressed during his visit here the importance of the state making vocational-technical training an equal partner in the educational system. Too of-

ten, he said, vocational training is shunned in educational financing bills.

Finnell, is completing his eighth year in the state house and is a native of Holliday and a

member of a pioneer Archer County family.

He has consistently supported strong code of ethics, vocational-technical education, rights of local government, farm-to-

Chamber Hears Report Working To Get I-27 To City

The Highway Committee of the Chamber of Commerce reported that they are making plans to attend each of the meetings set by the Texas Highway Department for proposed routes for Interstate 27.

The board of directors of the Chamber met Monday night and heard the report of the Highway Committee.

The meetings will be held during mid and late March in Lubbock, Big Spring, Snyder, Abilene and San Angelo.

The I-27 hearings are part of studies required by Congress as

Heart Course At Root

An intensive training course in Coronary Care has been announced by Root Memorial Hospital.

The course is to begin March 11 and continue through April 19, according to Charles Root, hospital administrator.

Mary Lou Bell, R.N., and Jo Ann Merket, R.N., will be instructing the training sessions for all nurses in the area.

The Coronary Care Training Program developed and provided to Root Hospital by the American Heart Association, Texas Affiliate, has the RCOM Multimedia Instructional System as its basic component.

This program offers a high rate of comprehension and retention possibilities for the student because it coordinates a number of different educational techniques--each of which is able to communicate a certain portion of the teaching program, yet all together forming a total and integrated teaching system.

All nurses in the area are invited to participate in these vital training sessions.

part of the 1973 Federal Aid Highway Act.

The I-27 meetings will provide citizens with the opportunity, to discuss and make recommendations regarding the feasibility, necessity and possible routing of an extension of I-27 from Lubbock southward to I-20 and I-10.

The most logical extension of the route would be through Colorado City to San Angelo, meeting I-10 near Sonora. However, Abilene is trying to get the interstate highway routed through there, already receiving an endorsement from the West Central Texas Council of Governments.

The Highway Committee of the chamber will be attending each of the meetings, making efforts to publicize the shortest, least expensive route through Colorado City.

The schedule of meetings is given below:

--Lubbock, 7 p.m. March 12, Lubbock City Hall;
--Lamesa, 7 p.m. March 14, Forrest Park Community Center;
--Snyder, 7 p.m. March 18, Scurry County Coliseum;
--Big Spring, 7 p.m. March 20, Howard County College Auditorium;
--Abilene, 7 p.m. March 22, Abilene Civic Center;
--San Angelo, 7 p.m. March 27, City Auditorium.

Members of the Highway Committee are B. B. Bridgford, Director representative; B. B. Hardee, chairman and Dave Hutchins, Paul Hunter, Leonard Morris, Gus Chesney, Caddo Matthews, Bobby Lemons and Sefton Pickens.

The board also heard a report from the Merchants committee that the committee is complete. Members are Delbert Lewis, director representative; Eli Rivera, chairman and Willie Landau, Corky Houston, George Jameson, Mac McKinnon and Drew Ballard.

The Community Development Committee is the only other committee that is complete. Members are Bill Simmons, director representative; Mary Ann Sanderson, chairman and Bob Reilly, Jody Neff, Regina Barber, Ken Sanderson, Jean Holbert, Vicki Weaver and Mac McKinnon, Director representatives

have been completed for two committees; Glenn Thomas for Finance and Membership and Rick Bautista for Mineral Resource.

To Conserve Is Smart.

One smart way to conserve is to
be more efficient with the use of
energy in your home.

That means using natural gas for those jobs it does
best—like cooking, water heating, clothes drying and
heating your home. It's the most efficient use of energy
for your fuel dollar.

The more efficient you are, the more you conserve
and the more you can save. And that's real smart.

Farm Welding Short Course To Be Offered

"A farm welding short course for adult farmers will be held March 11-14 under the sponsorship of the Lorraine High School Vocational Agriculture Department, according to Tom Harkey, Superintendent, and Ron Mayfield, teacher of vocational agriculture.

Joel R. Barton, welding specialist with the Vocational Agriculture Division of the Texas Education Agency, and the department of Agricultural Engineering at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

"Many welding short courses in various parts of the state have been taught by Barton and all have met with outstanding success," according to Hulan Harris, area supervisor of vocational agriculture, Big Spring, Texas. Arrangement for the adult education short course in welding and in other fields are made through Harris's office.

The short course at Lorraine is scheduled to begin March 11 at 7:00 p.m. in the vocational agriculture building. Other meetings in the series of Lorraine will be held March 12, 13, 14.

During the dates the short course is in progress, Barton will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to Ron Mayfield.

Farmers interested in attending the short course should write or call the superintendent of schools, Tom Harkey, or the teacher of vocational agriculture, Ron Mayfield. An entry fee of \$5.00 will be charged. Farm Welding Short Course Certificates will be presented to each enrollee who attends all the training sessions.

Barton states that the short course will be adjusted to wishes and interests of farmers enrolled but that he expects to cover such subjects as safety in welding, factors controlled by the operation in running a bead and striking an arc, types of electrodes, preparation of joints, distortion, cutting, hard-surfacing, and pipe welding.

"Short courses in welding, as well as in other areas, are now available to farmers throughout the state under a cooperative program between the Texas Education Agency and Texas A&M University," stated Bob Jaska, associate professor, Department of Agricultural Education at Texas A&M University, who coordinates the program for Texas A&M.

Specialists are available in the fields of beef cattle, farm wiring and safety, farm electric motors, farm arc welding, swine production, tractor maintenance, oxy-acetylene welding, and pasture improvement.

Band News

Ensembles from Colorado Junior High Band traveled to Odessa College Saturday, March 2nd for UIL ensemble contest.

They all worked very hard for the contest, including Mr. Newman, but the work paid off with their return of fine ratings.

The High School Band also traveled to Odessa and came back with fine ratings.

The trip was exciting, but tense from all the concentration on the contest, but on the way back we stopped at a park and had a picnic with the High School Band and really had a blast.

The ensemble ratings are as follows: Superior, II Excellent, III Good, IV poor. Our ensembles received the following ratings: Clarinet Quartet—John Alvarez, Sharon Coldey, Beverly Fuller and Susan Mengig-I; Clarinet Quartet—Beverly Fuller, Renee Jones, Susan Mengig and Paula Thompson-III; Flute Quartet—Greg Hardegree, Mari Alice Houston, Leah Johnson, and Theresa McClure-II; Sax Quartet—Lynn Britton, Julie Neff, Robie Rhea and Tracy Shaw-III; Brass Choir—Deborah Bowen, Gene Carter, Randy Erwin, Stephen Kimmel, Joey Landersos, Ronnie Parham Rodney Taylor-III; Brass Choir—Mark Brooks, George Hardegree, Felix Lujan, Scooter McGaha, Randy Prince, Bobby Rivera, and Anita Rivera-III; Cornet Quartet—Truman Alberts, Lisa Bobo, Brad Turner, Joey Wright-III; Percussion Septet—Wayne Blackard, Don Dulin, Craig Helm, Joe Rivera, Jeff Trulock, Jerry Vann-L.

All Junior High Ensembles played class III music from a specified list given by the UIL. Congratulations to all of those students participating in the ensembles.

Tennis Team

The CJH tennis team is really on the ball this year. They are working out twice and sometimes three times a week. The beginners are going through the process of learning the game of tennis while other last year players are practicing on serves, back hands and other shots.

Some members of the CJH team that traveled to Snyder Friday, March 1st to get some experience from some Snyder Junior High players were Karen Thomas, Charlotte Goodlett, Dawn Leonard, Sherri Williams and Hobie Bolin.

CJH is really proud of this years team and we want to wish them "Good Luck" the rest of the season. The team is coached by Ken Burnam.

The players played four matches each during the two-day tournament. The Wolves team delayed the presentation of the team trophies, as they played the role of giant-killer, said tennis coach Ken Burnam.

The doubles team of Chop Love and Craig Carter, both freshmen, helped Snyder win the tournament in the last match of

Track Team Results At Winters

The Wolves track team will be going to Robert Lee for track and field competition Saturday, a change from the scheduled Vernon Relays.

The track boys earned 43 points in the Blizzard Relays last Saturday in Winters, placing 7th in the 10-team field.

Mitch Greenlee ran 2nd in the high hurdles; Ed Warren, 5th and Andy Chalker, 6th in the intermediate hurdles.

Arnold Parker was 3rd in the discus throw.

The 440 yard dash 3rd place finisher was Drex Grisham.

In the mile run, Charles Leonard placed 2nd.

The 440-yard relay team of Drex Grisham, Tony Sorenson, Manuel Arrellano and Ed Warren came in 6th in the relay competition.

the day. Big Spring did not receive the needed points when Carter and Love defeated the Big Spring doubles team in a close finals match.

Most of the team members added to the team point total while playing close matches, added Burnam. They failed to develop enough depth to defeat the top two district contenders, Brownfield and Sweetwater, he said.

The young Wolves got two wins in the singles division against Brownfield but lost in team points. The outstanding play of the tournament was in the match between Craig Carter and Brownfield's number one player and Carter won the match. Tony Love also posted a strong win over his opponent.

Sweetwater came to Colorado City and left as the team winner but they lost an important match when Tony Love defeated their number one player.

Leslie Greenlee split sets with their opponent but did not finish the match because of the time element.

Jackie Palmer and Leslie Greenlee did not get to play their doubles match but will play it at a later date, said Burnam.

Tony Love fought his way through tough opponents to win fifth place and added to the team total.

David Brownfield and his doubles partner Terry Stander came away with several victories during the two-day tournament.

The Junior High team went to Snyder for a practice match Tuesday and Snyder will return the match March 12.

The high school team will enter another two-day tournament at Sweetwater Friday and Saturday.

Your Credit Record Open For Inspection

"Your record at the credit bureau is open for your inspection any time you want to know what is in your file," Mrs. S. A. Pickens, Manager of the Credit Bureau of Colorado City said today in response to President Nixon's weekend message on the "Right to Privacy."

According to John L. Spafford, president of Associated Credit Bureaus, Inc., the problem with the publicity given to the issue of privacy and computers is the "broad brush" approach and over-generalization by the media and government officials to this complex issue.

"For example," Spafford said, "the statement that consumers cannot learn what is in their credit file is false. The law requires credit bureaus to disclose everything in your file and, as a matter of fact, over 1,700,000 disclosures were made by ACB members in 1973.

"The statement," Spafford said, "that credit bureaus collect and disseminate personal information about consumers' morals, characteristics and pe-

sonal habits is false. Investigative consumer reporting agencies gather that type of information for insurance companies, but your local credit bureau does not. And it is high time the media and government officials get that point straight."

Spafford said the 2,100 credit bureaus represented by ACB have been "abused by and confused with" investigative reporting ever since the privacy issue began making headlines. Credit bureaus, according to Spafford, make full disclosure of sources of information but investigative agencies are not required to disclose sources.

"Your local credit bureau is now and has been operating under a strict federal law since April, 1971 that protects consumer privacy and affords you the right to know what is in your file and to correct or place a statement in your file. If government officials are concerned with personal privacy," Spafford said, "they should turn to other alleged invaders and bring them up to the standards of the local credit bureau."

Easter Seal Letters Being Delivered

Easter Seal Appeal letters are being delivered this week in Mitchell County according to George Womack, the Easter Seal Representative of the Easter Seal Society for Crippled Children and Adults of Texas. As Representative, Womack serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as Treasurer of the Easter Seal Appeal in Mitchell County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Society also finances public education programs, provides scholarships for training of professional personnel to staff rehabilitation centers, and helps provide for national research into the causes and cures of crippling conditions.

Womack pointed out that all these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

During 1973, the Texas Easter Seal Society provided treatment and services for 20,570 children and adults who were in need of assistance. Easter Seal services are available to any disabled person who can benefit from help provided by the Easter Seal Society, and who do not qualify for any other assistance, Womack added.

The Easter Seal Campaign will continue through Easter Sunday, April 14.

ANOTHER GREAT VARIETY FROM ROGERS DELINTED COTTONSEED

Texas cotton growers from the Valley to the high plains are reporting favorably their results of planting the new QUAPAW Cotton from Rogers Delinted. Such comments as, "...the cotton strips and gins good and I am increasing my planting next year." QUAPAW cotton has a

medium size storm resistant boll and good seedling vigor with medium size seed. QUAPAW responds well to single row, skip row or narrow row spacing. It harvests well with strippers or spindle pickers. QUAPAW gins good and cleans up good with extra high quality fiber.

EXCEL HYBRID MAIZE SEEDS

Excel Brand 606 BIG-SOFT-RED GRAIN ... EXCELLENT STABILITY

EXCEL BRAND 606 is a short hybrid that produces red grain in a semi-loose head that dries rapidly. A good yielding hybrid that emerges very fast out of the ground. It may be considered tolerant to cold soil as well as having good tolerance to MDMV and smuts.

EXCEL BRAND 606 is recommended where lodging is a problem; it is a short hybrid with good drought tolerance.

Excel Brand 433 GREAT YIELDS-CHERRY-YELLOW GRAIN-DEPENDABLE

A newly released hybrid with tremendous yield potential that is adapted to a wide range of conditions makes EXCEL BRAND 433 a very dependable grain sorghum. The drought tolerance of EXCEL BRAND-433 makes it an excellent hybrid for dryland farming.

It has excellent seedling vigor, head exertion, resistance to MDMV, head smut and foliar discoloration from insecticidal sprays.

Beautiful cherry-yellow grain is produced in semi-compact heads on short, sturdy stalks.

Excel Brand Millhy 99 HYBRID PEARL MILLET-SUMMER HAY CROP-MORE GRAZING-MORE VIGOR

A hybrid pearl millet that is a rapid growing, hot weather annual used chiefly as a pasture crop, EXCEL BRAND MILLHY 99 is adapted for grazing and for hay over a wide area and has excellent disease resistance.

Because it is a hybrid, EXCEL BRAND MILLHY 99 has extra good seedling vigor. With favorable growing conditions, EXCEL BRAND MILLHY 99 recovers very quickly after grazing, and it produces a quick summer pasture of leafy, fine stemmed, no prussic acid forage crop. It grows well into the fall season, producing an abundance of forage.

EXCEL BRAND MILLHY 99 may be grazed when the plants reach 24 inches high. Do not graze back any closer than six inches. Rotational grazing and good management are the keys to an abundance of summer pasture by using hybrid pearl millet.
