'Guesstimate' Differs With Census Figure

Population figures for Olton at the beginning of 1971 are about as divided as the smokers in the now-dead cigarette commercial "What do you want...?"

Preliminary figures released last July by the Bureau of Census credited Olton with 1730 residents. A final report by the official counters was unavailable at press time.

According to the also unofficial "guesstimate", the town can boast an additional 400 people.

The population "guesstimate" is derived from a method used by the Enterprise in prior years. Taking the number of electric, gas and water meters at the time of the 1960 census and arriving at the average number of persons per meter for each type meter, the population count would be 2130.

The 1960 federal census found Olton with an average of 2.09 persons per electric meter; 3.66 persons per gas meter and 2.84 per water connection.

As 1970 ended, there were 700 water connections; Southwestern Public Service reported 1,031 electric meters and Pioneer Gas had 614 gas meters.

Renewal Applications Mailed To Owners Of Motor Vehicles

If you own one or more of the more than seven million motor vehicles in Texas, there is some important mail coming your way early in January.

It is your registration renewal application. This is the second year of operation for the new, easy computerized registration procedure devised by the Texas Highway Department.

Last year, the system greatly reduced bothersome waits and long lines which plagued vehicle owners at county tax offices and substations in years past.

Prospects are that the system will work even better this year.

Also, it is not necessary to present last year's registration receipt of the certificate of

title. The renewal application you will receive in the mail is all you will need.

Registration begins Feb. 1 and continue through April 1. The renewal application will arrive in the mail in a slender envelope marked, "Important--This is Your License Plate Renewal Application."

The application is a three-part form with instructions printed on it. One important thing to remember is THE CARD SHOULD NOT BE TORN APART.

After the registration period begins Feb. 1, each vehicle owner can take the renewal application and the fee to his county tax office, or he can order his plates by mail.

If the owner wishes to register his vehicle by mail, he should send the entire three-part renewal application, the fee and an additional \$1 to the local county tax office as early as Jan. with the understanding that his license plates may not be mailed until Feb. 1.

The additional \$1 charge covers cost of handling and postage.

If owners are to receive

their plates by mail before the April 1 deadline, then they must send the renewal form, fee and \$1 for each vehicle to be registered to the local county tax office by March 1. This allows 30 days for delivery of the plates before the April 1 registration deadline.

If the owner decides to go to the county tax office or substation, he will find shorter waiting lines.

All he needs to take with him is the renewal application and the fee. He will then receive his new plates and part of the form as his receipt.

Another part of the form is retained by the county and the third is sent to the Motor Vehicle Division of the Texas Highway Department in Austin.

However the owner may decide to register his vehicle, by mail or in person, use of the renewal form will be more convenient and timesaving.

The current registration system is the product of much work and planning. The system began to take shape in 1967 with the installation of the first computer equipment by the Motor Vehicle Division of the Highway Department.

What have I done to deserve all of this?

When scared or frightened, although it seems,

I fade away into my dreams. Dreams are fine and sleep they make,

But when had ones come Again I wake.

What have I done to deserve all of this?

When in doubt of my thoughts, although it seems

An answer comes from my farthest dreams.

Dear Lord, I'm lonely.

Sure hope Santa was good to everybody. I got everything I wanted. (And More!) No, wait a minute, I didn't get everything I wanted, either --- I didn't get my Challenger!!! Guess I'll have to talk to the Easter Bunny a little bit more this year.

"I thought it was Thursday!" "So am I," exclaimed the third, "Let's all have a drink!"

Did everyone have nice holidays? I'll admit, it was rather difficult to start back Monday. I'm sure that a lot of you were used to staying up until all hours of the night, sleeping late, and not really doing a thing. Mondays are really bad enough without having to start back to school from the glorious life of the holidays. But just think of it this way, the earlier we get back to school, the earlier it will be until we get out.

D'Lyle W.: Tell us about that good show.

Kathy M.: What new piece of jewelry?

Cynthia: Only a couple of more days!

Terea W.: Tell us about skiing.

Marsha P.: You really did enjoy the holidays.

Jim Key: That's life, huh?

Johnny J.: You get your kicks in a rather odd way!

Paul S.: Why did you leave?

Gary G.: Kind of hard to say something about her that would be acceptable in church?

Who eloped?

Theory on money--There's no doubt you can't take it with you. I can't even seem to keep it while I'm here.

It's got to happen one day shortly after blast off: "Hello, Mission Control? This is Apollo 17, and there is this guy up here with a gun and he wants to go to Jupiter!!!"

The chemistry professor asked his class what they considered the most outstanding contribution chemistry has made to the world. The first student to answer shouted: "Blondes."

We are very sorry that we didn't have a column last week. It just seems that we get a little lazier as time goes by.

I guess that's all for now. If you have any news whatsoever, let us know. Bye for now.
