Challenge Minds Of Texas Baptists Theme Of Stewardship Briefing

Brownwood—Rev. J. W. Chapman of Cross Plains, Texas, was a part of 152 Baptist stewardship leaders representing all areas of the state convention at an annual two day Stewardship Briefing Conference held at Howard Payne College, Brownwood, during the first part of this week.

The Conference which made plans to emphasize stewardship in each of Texas' 3,411 convention Baptist Churches were told by Pastor Ed Laux from McGregor, that "There are just as many Southern Baptist in the United States as there are actual card carrying members of the Communist Party which controls 34 per cent of the world's population."

Rev. J. Woodrow Fuller, acting Executive Secretary for Texas Baptists, presided over the Conference and told participants, "It takes big plans to challenge the magic of the minds of people. Biblical stewardship is not giving a sum of money, but it is stimulating spiritual responsibility."

During the Conference, a new stewardship song, "Something Wonderful Happens To You, When You

Give God His Due

written by Rev. R. Elmer Dunham was introduced and a new movie on stewardship was previewed. Dr. Merrill Moore, Director of Promotions for the Southern Baptist Convention, told the conference "Southern Baptists last year had total incomes of over 9 billion dollars and their gifts for all denomination activities was 248 million dollars. A tithe from Baptist incomes would have resulted in 9 hundred million dollars being given to church and missionary work." After an exchange of promotion plans, the sessions were climaxed by an address by Dr. H. Guy Moore, pastor of Fort Worth's Broadway Baptist Church, who told the stewardship leaders "Texas Baptists are great because we don't waste time arguing whether a man eats with a knife or fork, we spend our time getting the job done." Dr. Moore, who recently returned from a missionary tour of the Near and Middle East, concluded his address by saying, "We must not give ourselves to cheap and tawdry things when there are millions around the world hungry for Christ."

O. B. Edmondson and Jack Lacy, Jr., advisors of the local chapter of the FFA Chapter, members of the chapter and area sweetheart are in Fort Worth attending the State FFA convention held in that city, July 22-23-24.

Edwin Franke will act as delegate from the local chapter.

The following chapter members will receive the Lone Star Farmer Degrees July 23 at the Lone Star Farmer Banquet held in the General Exhibit Building, Will Rogers Memorial Coliseum at 7 p. m.: Edwin Franke, Jim Cade, Joe Garrett, Elzie Wilson and Gene Bush.

Oilbelt Tool Company Opens New Store Here

In a display advertisement in this edition of the Review, W. T. (Bill) Jones, owner of the Oilbelt Tool Co., announces that his new oil field supply store is now in operation here in the new Huckaby building located on South Main Street, next door to the Village Inn.

According to Jones, Lawrence (Sleepy) Powell, long-time employee of the firm in Coleman, will be manager of the local store.

Mr. Powell stated that at the present time he is commuting from Coleman, but that he and his wife are anxious to find housing here, so that they can move here and take an active part in community activities.

He stated that the new supply store here is well stocked and ready to serve the oil field operators in this area with everything needed to drill, service and produce their wells.

The firm is distributor for the well-known Baroid line of drilling mud and oil well cement, he said. A cordial invitation is extended to everyone to visit the new store.

W. A. (Red) Huckaby, owner of the new building housing this firm, stated this week that offices for the oil firm of Adams & Harding, of Dallas, will be ready for occupancy next week.

Work is now rapidly nearing completion on the second story of the building, he said, and office space upstairs should be ready for use shortly.

Roping Club Proposed For Cross Plains Area

The Review has been requested to announce that a meeting will be held at the high school building next Saturday night, at 8:30, for the purpose of organizing a roping club in Cross Plains.

Everyone interested in an organization of this type, is urged to present, it was stated.

N. L. Dillard and Jim Cade stated that these clubs were becoming popular throughout the state, and that it was felt that there were enough interested persons here to organize a good club.

BAYOU PHILOSOPHER WILLING TO TAKE ON JOB OF FINDING OUT WHY PEOPLE TIRED

EDITOR'S NOTE: The Bayou Philosopher on his Johnson grass farm on the Bayou has been affected by the summer heat, his letter this week implies.

Dear editor:

With the world in the shape it is, with unsolved problems stretching out from here to Korea and back again, the drought, inflation, Russia, etc., it's odd how some people find time to spend energy and money on some minor problems, but I was reading in a newspaper last night which I picked up in the bank in town that mornin and will sign a note for if required to where a group of scientists up in New York have been conductin lengthy studies into the problem of why people get tired while workin.

Usin highly scientific instruments and complicated charts and figures, they've been goin into factories and checkin on workers, tryin to find out why they get tired. At last report, they were still workin on the problem and ain't ready yet to come out with the answer.

I don't want to interfere with anybody else's racket, but I will be glad to conduct such a scientific survey out here on my Johnson grass farm for a much smaller fee than those scientists are chargin. Furthermore, it won't require any expensive layout for a laboratory, equipment, or scientific measurin devices.

I already got all the equipment necessary out here, consistin of a tractor and an un-plowed field, not to mention a hoe, plenty of weeds in the garden, an axe, saggin fences, saggin gates, unpatched roof, stuck windows, rickety steps, etc.

All I ask to be furnished is somebody to examine while he works. I'll figure out a system where he can swing by me on the front porch in his rounds of work every hour, and will guarantee to come up with the correct answer.

The reason I know I will come up with the right answer is that I already know it. I know why people get tired while they're workin. I ain't gonna come right out and lay the facts bare yet, but after years of testin myself I believe I have figured out the answer.

And after I get the facts established, I will then back off and let science figure out a deeper problem, which is why, once you get tired of workin, you stay that way. I don't want science to remedy this feelin, I've had it for years and find it agrees with me. All I want science to do is to establish a reasonably acceptable theory of why a man is entitled to stay tired if he wants to. It'd be a handy thing to hand to people on a written sheet of paper when they come up and kick you on the foot while you're restin under a shade tree in the summer time.

with some communities reporting more. Falling slow over a long period of time, the precipitation soaked into the ground with little or no run-off.

Crops, grasses and weeds are growing at a rapid rate and with little more moisture in August, it is thought that local farmers will make a bumper crop of peanuts, castor beans and cotton.

Ranchers in this area had a full supply of stock water, received earlier and the recent rains are bringing grasses back to bare pastures. All in all, prospects are better than they have been for years and everyone is wearing a smile here these days.

Rainfall Recorded.

According to records kept here for the U. S. Weather Bureau by S. F. (Fos) Bond, the following amounts were recorded:

July 1250
July 1515
July 17	1.17
July 1817
July 2065
July 21	Trace
Total	2.57

Along with brighter crop outlooks, the rains brought cooler temperatures to this section of the state and eased the water shortages in a number of cities and hamlets.

Band Members Asked To Pick Up Uniforms

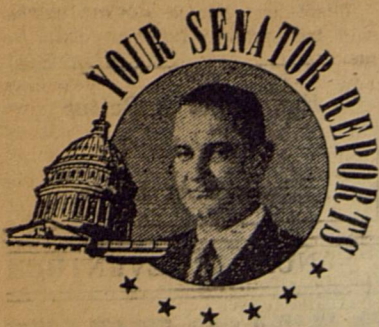

Band Director Bill King has asked that all regular members of the Buffalo Band come to the band hall between the hours of 8:00 to 11:00 A. M. on Monday, July 27, Tuesday, July 28 or Wednesday, July 29 and pick up their uniforms for the next school term.

It is very necessary that members get their uniforms as those uniforms are needed and for those who did not have a uniform or had one that did not fit, they must be measured so that the order may be sent in immediately.

Mrs. Gwynn Elliott and son returned home Sunday after visiting last week with Mr. and Mrs. Bill Russell and children of Waco.

Yours faithfully,
J. A.

FLYING VISIT: At President Eisenhower's invitation, I accompanied his party on a one-day trip to Amarillo for the conference on assistance to cattlemen and farmers hard hit by the terrible drought.

I like to be in Texas, but this was no pleasure trip. The Presidential plane flew low as we reached the drought-stricken area. Multiplied thousands of acres of land below us were bare of vegetation. It was a depressing sight—one that would impress anybody with the sore need for immediate and adequate assistance to the people depending on this land.

AID—NOT ENOUGH: We passed, and the President signed, the bill making emergency loans and feed and seed supplies available to the farmers and cattlemen in the drought area.

I voted for the bill, of course. In fact, I co-sponsored it. The assistance it authorizes will help—but not enough.

The drought has made the cattlemen's situation worse. But they would be in trouble anyway, because of low cattle prices and high feed prices.

Mention of price supports for cattle was vigorously applauded at the Amarillo meeting, where some 3,000 farmers and cattlemen gathered to give their ideas about what should be done.

WATER USE: Texas could bring a million more acres of land under irrigation and have an ample supply of water for our expanding industry if our potential water resources were fully used.

That fact is brought out in the appraisal of the Texas water problem made by the Bureau of Reclamation at my request. This recently issued study is attracting wide attention in Texas. The report puts forth a solidly conceived Federal-State water conservation program, with both levels of government accepting definite responsibilities and with the State maintaining rights over its own water.

This appraisal, in my opinion, is of the utmost importance to everybody in Texas. The problem with which it deals affects all of us.

STABILITY IN FRANCE? At the White House luncheon for the visiting foreign ministers from France and England, French Minister Georges Bidault told me the new French Premier, Joseph Laniel, is off to a good start. He said the Premier has been given unusual powers in an effort to bring stability to the French Government, which of late has been bobbing up and down like a cork on the Colorado River.

I hope M. Bidault is right. The free world has a large stake in a stable French Government.

MEDICAL MEN: It's a good thing when members of the medical profession and members of Congress sit down together for an interchange

of views and knowledge. So I was glad of the opportunity to visit with the president and the board chairman of the American Medical Association.

Accompanying the two gentlemen to my office were my good Texas friends, Dr. A. C. Scott, Jr. of Temple and Dr. F. J. L. Blasingame of Wharton. I have the privilege of being on the Board of the Scott and White Clinic, headed by Dr. Scott, one of Texas' great men of medicine.

I suggested to the doctors that members of the AMA all over the country meet members of the Senate and the House of Representatives while Congress is out of session. If the doctors and the congressmen sit down together for some question and answer sessions, I know the results will be worthwhile.

TEXAS PERSONALITIES: Hastings Harrison of Dallas, whose wonderful work with the National Conference of Christians and Jews is well known in Texas, was a welcome visitor.

Gavel From White House Wood: Was glad to be able to get for Mrs. J. F. Boren of Abilene, President, Sixth District, Texas Federation of Women's Clubs, a gavel made of wood taken directly from the White House. Jerry Persons, Special Assistant to the President, told me it was the very last one available.

A visitor to the office was Miss LaJon Walker of Denton, charming daughter of the Rev. Mr. and Mrs. Phillip Walker. LaJon, whose father is pastor of the First Methodist Church in Denton, is here for the summer, doing social work as a member of the American Friends Service Committee. She is a student at NTSC.

Mr. Smith Goes to Washington: State Representative Vernon "Gene" Smith of Fort Worth was in Washington last week and came by the office for a visit.

R. D. Collins of Mineral Wells and John D. McCall of Dallas were here on business for the Brazos River Authority.

Mr. and Mrs. Chester Glover and son, Benny, visited his brother, Ralph Glover, and family at Lake Victor a few days last week. They also visited relatives in Pottsville before returning home.

Rance Freeman of Three Rivers spent Thursday of last week visiting his brother, H. C. Freeman, Sr. They spent the week end at Greenville with a sister and also visited relatives in Fort Worth.

ATWELL NEWS

By Mrs. Alton Tatom

Our community has been blessed with some more good rains which we appreciate very much.

Mr. and Mrs. Ebb Rouse and girls visited in Baird and Abilene Saturday. They reported that Lonnie Dillard is very ill in an Abilene hospital.

Alton and Roy Tatom have been staying with W. M. Tatom at the Baird hospital. Mr. Tatom had major surgery on Thursday but is recovering slowly.

Mr. and Mrs. J. T. Hewes have returned home from Temple where Mr. Hewes underwent surgery.

Mr. and Mrs. Lewis Griffith and daughter spent the week end with Mr. Black. The Griffiths have been on vacation in Colorado and were on their way to their home in Fort Worth.

Mrs. Harvey McKinley and boys from Brownwood visited Mr. Black Tuesday and Wednesday and Tommie remained with Mrs. Meyers for a few days visit.

Mrs. Stoneberg and Charles and Mrs. Lela Foster and Sandra of Abilene visited friends and relatives Sunday afternoon. Sandra stayed to attend the vacation Bible school this week.

Miss Reta Tucker of San Angelo and Miss Ann Foster of Austin are the two state workers for our Bible school.

The Atwell community was saddened by the death of J. M. Jones Saturday night. Uncle "Milt" as he was known to all in our community had not lived here for several years but was an old settler of the community and will be missed. Our deepest sympathy goes to his children.

Rev. Turner of Brownwood, preached at the Baptist Church Sunday in the absence of the pastor Bobby Bryan. Rev. Turner visited in the home of Mr. and Mrs. J. C. Brashear. There was no church Sunday evening due to the bad cloud.

Mr. and Mrs. Roy Neil Tatom spent Saturday night and Sunday at Cross Cut with Mr. and Mrs. Leroy Byrd and family.

Miss Eddie Fae Rouse is visiting her sister and family, Mrs. J. D. Goble in Abilene.

Mr. and Mrs. Tommie King and baby of Abilene visited Mr. and Mrs. Fred Morton Sunday.

It stands to reason...

Chevrolet trucks must be the best buy!

Big truck users, small truck users, all truck users buy more Chevrolet trucks than any other make. It stands to reason Chevrolet trucks must offer more of what you want.

When you stop to think about it, the best proof of outstanding value in any product is continued public preference. That's the way it is with Chevrolet trucks. They're the top selling trucks in America today . . . for the twelfth straight production year.

This is a mighty important fact to consider before you buy your next truck. You'll also want to consider that, while Chevrolet trucks give you more features you want, it's the lowest-priced truck line of all! Come in and talk it over with us.

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

HEALTH NOTES—

Austin.—You don't have to be a Mickey Mantle or a Baba Zaharius to be eligible for athlete's foot. You are qualified just by being human.

This ringworm foot infection can come to either sex at any age at any time, although it is probably more prevalent during summer months when feet are more apt to perspire.

You'll know you've got it when your feet begin itching and blistering, and when you see the soggy dead skin between the toes or on the soles. Take action then, and you can usually get rid of it in a hurry. But neglect it and you're in trouble.

Here are some suggestions from State Health Officer George W. Cox which will prevent athlete's foot or help you get rid of it if you have it now:

Dry carefully and thoroughly between your toes after bathing and as often as practical during the day. The disease is caused by a fungus which thrives on damp, perspiring feet.

Massage your feet with a mild rubbing alcohol. This will help prevent spreading the infection from one spot to another.

Dust a good fungicide powder or even an unscented talcum powder or powdered boric acid, between the toes, in stockings and shoes. If at all practical, change stockings once during the day.

Swab all cracks or soggy areas between the toes with one part iodine diluted with ten parts of alcohol.

Wear absorbent socks and put a piece of cotton on areas between the toes where cracks or soginess are evident.

Don't use remedies which have been sold for eczema. Consult your physician if the cracks and blisters and soginess do not yield to these measures.

And keep this in mind: if athlete's foot is neglected, it can spread readily beyond the feet. The lesions will go deeper and deeper, and may cause critical damage.

Mr. and Mrs. Chess W. Barr attended the Pennell Reunion held at Cisco Sunday. They visited their daughter, Mrs. Whaley Jackson and family at Sipe Springs Sunday night.

Mr. and Mrs. E. O. Adams had as their guests Thursday, Mr. and Mrs. J. D. Prescott of Yuba, Calif., Mrs. W. J. McDougald and sons of Denver, Colo., Mrs. Bill McDougald of Waco and granddaughter, Bettie of Austin.

Mrs. C. L. LaRue and children returned to their home in Sweetwater Tuesday of last week after spending several days here visiting her parents, Mr. and Mrs. W. P. Yarbrough.

Visiting in the home of Mr. and Mrs. J. H. Coats last week end were Reece Rye of Paducah, Bryan Bennett of Fort Worth, Mr. and Mrs. Garland Holley of Abilene and Fred Kelly of Lubbock.

Fort Worth—Strong point of the market Monday at Fort Worth was the demand for calves. Both stocker and feeder buyers and the packer buyers were competing strongly for the supply and the result was a strong to \$1 higher market. Both replacement and fat calves topped at \$20 to \$21 on Monday and were considered quotable over that in load lots of the proper kinds.

Cows were uneven, selling on steady to easier basis, with prices about in line with last week's close. Bulls were off \$1 per hundred.

Very small numbers of fat steers and yearlings arrived, and grain-

fed were very scarce. Some broadening inquiry is noted for suitable feeders and indications are that sizable numbers of these fleshy grassers and supplementally fed steers and yearlings will wind up in feedlots.

Sheep and lambs were fully steady with fat lambs topping at \$22 to \$23.50, and feeders drew \$12 to \$16.50 and were quotable to \$17 or better in loads and of suitable quality and weights.

Hogs moved at strong to 50 cents higher prices and again topped at \$27, the year's best levels, and equalling the best price in five years here. Sows were steady at \$23 down. Pigs sold at \$22 down.

Good and choice fed steers and yearlings sold at \$18 to \$22.50, and are quotable to \$23.50 and above. Common to medium sorts sold from \$12 to \$17, with some rannihan yearlings \$9 to \$12.

Fat cows drew \$10.50 to \$14, while canners and cutters drew \$6.50 to \$10.50. Butts sold for \$8 to \$14.

Good and choice fat calves sold from \$17 to \$21, and common and medium butcher calves drew \$12 to \$16. Cull sorts sold from \$8 to \$12.

Good and choice stocker calves sold from \$16 to \$21, and plain to medium sorts sold at \$12 to \$16. Good and choice stocker steer yearlings sold from \$16.50 down. Stocker cows cashed at \$10. to \$16. Older replacement steers cashed at \$12 to \$17.50.

Good and choice fat lambs sold at \$20 to \$23.50, while cull and medium offerings sold for \$8 to \$13. Stocker and feeders drew \$10 to \$16.50. Fat yearlings sold at \$12 to \$15, and feeder yearlings sold at \$10 to \$12. Slaughter ewes \$3.50 to \$5.50, stocker ewes \$6.00-9.00. Old wethers \$6.00-9.00, yearling ewes \$13.00 down. Two-year olds \$10.00 down.

Martha Baum visited relatives in Brownwood the first of the week.

John Wagner who has been employed in Amarillo the past six weeks returned home Monday.

Mr. and Mrs. F. W. Dawkins of Fort Worth are spending their vacation with her mother and sister, Mrs. J. C. Graham and Mrs. Ruby Copeland.

Boat Safety Need Cited

Austin—The Executive Secretary of the Game and Fish Commission said recent tragedies indicate the need for greater boating safety by fishermen now that the summer fishing season is at its peak.

He was impressed by two similar tragedies on one day in widely separated parts of the state that cost four lives.

Three persons, who started out fishing and tarried to swim, perished in Lake Whitney near Hillsboro. A man died off Matagorda Peninsula trying to retrieve a boat.

The Executive Secretary said reports indicate all apparently were tricked by a common whim of the elements. No one saw the Lake Whitney tragedy but it seemed likely the trio was bathing in deep water when their boat was blown beyond their reach. The coastal fatality actually resulted when a fisherman took out after a drifting boat that had slipped its moorings.

The Executive Secretary emphasized that an unoccupied craft, riding high in the water, might be easily blown away faster than a person can swim.

Mr. and Mrs. E. Ringhoffer, Jr., and baby spent Tuesday and Wednesday of last week visiting Mr. and Mrs. Dave Smith at Dilley, Texas.

VETERANS ? BOX

Q. I'm a World War II veteran back on active duty, and my National Service Life Insurance policy is under waiver. Will I get my insurance dividends all the same?

A. No. National Service Life Insurance policies do not participate in dividends during the period when such premium waiver is in effect.

Q. Will my service at the U. S. Military Academy at West Point count toward my entitlement for Korean GI Bill training?

A. No. The time you spent as a cadet at West Point does not count toward your entitlement for training under the Korean GI Bill. The same rule applies to those who attend the U. S. Naval Academy in Annapolis and the U. S. Coast Guard Academy in New London, Connecticut.

Q. I am a disabled World War II veteran, and I've just finished Public Law 16 training. Will VA now find me a job?

A. The law does not give VA responsibility for finding employment for disabled veterans. However, if you wish VA will refer you to an appropriate State or Federal employment agency for this purpose.

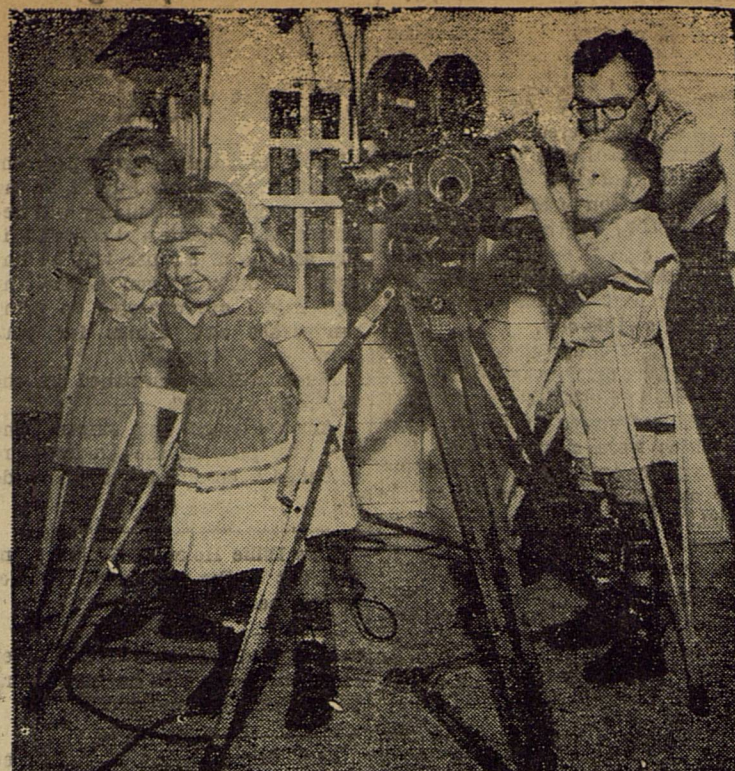

Q. What happens if a Korean veteran doesn't apply for GI term insurance within 120 days after his separation from service. Is there any chance of his getting it after that time?

A. No. Under the law you must apply and pay your first premium within 120 days after you leave the service. If you wait longer than that, your chances of getting the insurance are gone for good.

CAMERAMAN'S HELPERS?—Three tiny patients at the Texas Scottish Rite Hospital for Crippled Children offer plenty of good-natured advice to cameraman Bob Alcott shooting a motion picture at the hospital in Dallas. Looking through the viewfinder of the Jamieson Film Company employe's camera is six-year-old Donald Ray Mathews of Lamesa. Chipping in with grins and comments are "Assistant Directors" (left) Linda Kay Morehead, five, of Italy, Texas, and four-year-old Deborah Jester of Dallas. These children and other patients at the Scottish Rite Hospital supported by generous Texans participated in a newly-completed film showing life at the big institution. Washington—The Secretary of Agriculture has clarified instructions to the State PMA Director regarding livestock feed for the drought disaster areas.

The County Committees will operate under these advices, and it is left up to them to apply the rules to each individual case. To become eligible to buy feed, the purchaser must be a bona fide farmer or stockman. He must show that he does not have the finances to purchase feed at prevailing market prices, to maintain a basic foundation herd and remain in the livestock business with reasonable chances for successful operation.

The basic foundation herd is defined as consisting of cows, bulls, nursing calves, and heifers needed to replace over-age and other undesirable cattle culled from herds. Specifically, to be eligible for feed at reduced prices, a farmer or stockman must, first, have less than a thirty-day supply of feed to supplement roughage to maintain his foundation herd. The feed, however, may be fed to cattle other than those in the foundation herd, if they are to be marketed not later than September 30, 1953, and provided they are not feeders in feed lots.

Second, farmers and stockmen must not have the financial ability to remain in business and satisfactorily maintain their herds unless they can purchase feed at prices substantially below the prevailing market price.

The Secretary of Agriculture emphasizes that the purpose of the Drought Feed Program is to maintain basic foundation herds. The Secretary states that to avoid undue hardships, county committees should use reasonable discretion in carrying out their instructions.

There are going to be a lot of headaches connected with these undertakings. There were a great many in the Hay Program last fall and winter, but there will be more in this. Personally, I think the County Committees should be given very broad discretion to exercise their best judgement. No one in Washington can sit in an armchair and dispense rules applicable to every case, and they should not try.

Many of my friends have been interested in H. R. 4353, which reorganizes the Farm Credit Administration. It gives more authority in policy-making to farmers, who own the Farm Credit, and takes away the direct influence of the Department of Agriculture.

The Senate Agriculture Committee reported the Bill out favorably at the same time the House passed the measure, and I hope the Senate will likewise act in the very near future.

In my column last week, I described the inexcusable action of the House of Representatives in giving a tax holiday to the big distillers who have whiskey stored in warehouses. I am glad to report action more palatable, which has just occurred.

A measure, earlier approved by my Committee on House Administration, to provide a room in the Capitol Building where members of Congress may go for meditation and prayer, has just passed on the House Floor. It will now go to the Senate for its approval. The room

will be equipped to accommodate every faith. In Congress, there are Protestants, Catholics, and Jews, with about every type of denomination under the Protestant religion.

There was not a dissenting vote against the measure. It indicates the feeling of need on the part of many in the Congress, for a place of refuge from the hurly-burly life one leads here at the Capitol.

Highlights and Sidelights FROM Your State CAPITOL

By Vern Sanford
Texas Press Association

Austin—While Governor Allan Shivers was considering what the state could do to aid drought-beset farmers and ranchmen, he received a report saying that he can declare an emergency and get a \$5 million program going.

The report came from Attorney John Ben Sheppard who, on the governor's request, had been digging into the legal aspects of the situation.

Action is authorized, said Sheppard, by the state civil protection act of 1951.

Much could be done without calling the legislature into session, said the report, and there are other things that could be done only by legislative authority.

At least \$5 million could be raised, said the attorney general, by means of contributions from the cities, counties, and local government agencies, including water and other special districts; by using the balance in the governor's deficiency appropriation and by calling upon the public to put in \$500,000.

"It is our opinion," said the re-

port, "that you are authorized to mobilize and utilize the manifold services, equipment, and facilities of existing state agencies and political subdivisions to assist in a drought relief program."

The federal government is speeding up the job of getting money to Southwestern farmers and ranchers.

President Eisenhower asked Congress for \$15 million to finance a lending program. The Department of Agriculture already had \$16 million available for the purpose.

It was expected that local committees would be ready to pass on loans by the end of the month.

Application blanks were being sent to Farmers Home Administration offices, and in some instances where the demand for loans will be heavy, to banks and Production Credit Administration offices.

Meanwhile, the United Livestock Producers Association, with members in five states, decided to send two association officers to Washington to ask for direct federal price supports on cattle.

The representatives are S. E. (Eck)

Brown, president of the association, and O. H. Finch, Sr., a director, both of Dalhart.

Brown berated the Texas and Southwestern Cattle Raisers Association for its "inability to work for the best interests of all livestock growers, big and little alike, to relieve price conditions."

The T&SCRA is opposed to direct federal price supports on cattle.

South Texas politics and the name of George Parr, sometimes called boss of a big part of that area, came up in a Supreme Court hearing on whether District Judge C. Woodrow Laughlin of Alice should be ousted from his position.

Eleven lawyers who practice in Judge Laughlin's 79th district charged, among other things, that the judge had ordered ballot boxes and election material delivered to the sheriff of Duval County, Parr's nephew.

Clint C. Small, representing Laughlin, told the court, "Apparently those who want Judge Laughlin removed were more interested in keeping George Parr from seeing the election returns than they were in prosecuting election irregularities."

It was the view of State Senator William H. Shireman, speaking for those who want to oust Judge Laughlin, that delivery of the election material to Parr was "in itself a corrupt proposition, making it possible for Parr to know how the voters voted."

The Supreme Court will study a case involving the entire procedure of the Texas employment Commission in computing employers' taxes for unemployment compensation.

The court granted a writ of error to Todd Shipyards Corporation, which had sued for recovery on \$106,260 in unemployment taxes the corporation contended, was paid from 1948 to 1951. The rate, higher than it should have been.

Judge J. Harris Gardner in district court here ruled for the company, but his decision was reversed by the Third Civil Appeals Court in an opinion by Associate Justice Robert G. Hughes, who said that if the Todd claim were upheld, charges and rates of every other firm in the Todd category would have to be re-calculated and federal recognition of the state employment law might be withdrawn.

Despite Texas' efforts to improve its state hospitals, those institutions are still overcrowded and suffering from a shortage of doctors.

So says Dr. James A. Bethea, new executive director of the system, who had just completed an inspection tour.

At Rusk, the situation is particularly bad, the doctor said, with about 400 patients sleeping on mattresses placed on the floor because there is a lack of space for beds.

Dr. Bethea made his report to the state board for hospitals and special schools.

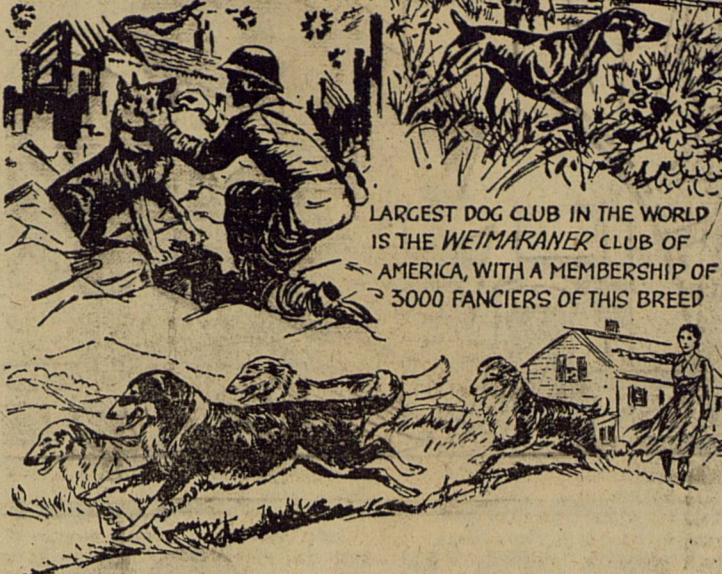

The board voted to inspect the hospital system after its next meeting in August.

The '53 Ranger show, being promoted as the biggest and best in area history, will feature seven major rodeo events—bulldogging, bareback and saddle bronc riding, calf roping, bull riding, cutting horse contests and barrel races. Rodeo contestants are offered a total of \$2,900 in prizes plus entry fees which sponsors predict will bring total awards to nearly \$6,000.

Stock for the 1953 Ranger Rodeo will be furnished by Homer Todd of Fort Smith, Ark. Frank Marlam, member of the Ranger Jaycees and former holder of the world's championship title in bull riding, will be arena director.

The four-day presentation will be formally opened with a big and colorful parade in downtown Ranger on Wednesday, July 22, at 3:00 p.m. Hundreds of visiting cowboys and contestants and many delegations of posse units and riding clubs will add

a flavor of the old west to the procession which is expected to draw thousands of spectators who'll jam down town Ranger.

Other highlight features of the big 1953 Ranger event include a Palomino horse show which has been scheduled for Wednesday, July 22. Nightly events of the Palomino exhibitors will be presented during the Wednesday and Thursday night performances of the World Championship Rodeo.

John Lindsey, dean of rodeo clowns who has starred this season in major shows across the nation, will provide plenty of hilarity during the four big nightly performances. In addition, there'll be other top specialty acts offered for entertainment or rodeo fans.

The 1953 World Championship Rodeo is approved by the Rodeo Cowboys Ass'n.

prisons — is going into the cattle business in a big way.

The system has 73,000 acres of land, unaffected by drought, in the gulf coast area.

Announcing that the system will buy 1,500 head of cattle, French said that cotton has long been the chief money crop, but there is an expected 25 per cent acreage reduction next year, and "we must look to something else."

Prison-raised cattle have fed the inmates for the past two years, Robertson said, and the new herd will be operated for revenue, not for feeding prisoners.

Texas may have three governors next month.

Governor Shivers will be out of the state while attending the national governors conference, of which he is chairman, in Seattle. Lieutenant Governor Ben Ramsey will hold the title during Shivers' absence. If Ramsey leaves Texas' borders, the job will fall to Senator Jimmie Phillips of Angleton, president pro tempore of the senate.

It has been the custom to let the president pro tempore serve as governor for a day.

Joe C. Carrington of Austin has been appointed by the governor to serve a year as chairman of the Texas Committee on Alcoholism, created by the last legislature. After the first year, committee members will select their own chairman.

The law providing jail sentences on the first offense for driving while intoxicated is valid, Attorney General John Ben Sheppard ruled. The law calls for a mandatory 10-day jail term, plus \$100 fine on conviction, but the judge has authority to put the offender on probation for six months.

D. C. Gillaspie of San Antonio is trying to overthrow the Texas drivers responsibility act.

His contention that it is unconstitutional has been denied in county court at law, the Fourth court of Civil Appeals, and the Texas Supreme Court.

Gillaspie's attorney, Ronald Smallwood, says he will carry the case to the U. S. Supreme Court. SHORT SNORTS: Arkansas' suit to nullify the law that returned the tidelands' ownership to the states is "political" in the view of Attorney General Harold R. Fatzer of Kansas, president of the National Association of Attorneys General, whose position coincided with that of Texas Attorney General John Ben Sheppard. . . . More parking space can be provided in the capitol grounds without destroying their beauty, says Senator Carlos Ashley of Llano, member of the legislative state planning committee. . . . Henry Fox, widely known as the "Circleville Philosopher" said in an Austin speech that everything about the drought is not bad — it has put people who don't have sense enough to get out of the rain on an equal basis with everybody else.
