VOL. 5, No. 123 | SNYDER, TEXAS, TUESDAY, SEPTEMBER 21, 1954 | TWELVE PAGES—PRICE 5c

WATER INJECTION BEGINS

First injection of water for pressure maintenance in the unitized Scurry County oil fields was started today by SACROC Unit 2, operated by Magnolia Petroleum Co. Operators of the Magnolia injection pump station are shown above turning the valves to let water start flowing to the injection wells in the field. From front to back are: Walter Suttle, Jr., George Shook, Don Hearne, and George M. McCune. Hearne is supervisor of the station. The two large engines in the foreground have a pumping capacity of 422 gallons of water per minute at 2,200 pounds per inch pressure, while the two in the rear have a 560-gallon-per-minute capacity at 1,750pounds pressure. City Budget Approved At Public Hearing

Unanimous adoption of the city budget for 1954-55 by the city council last night was made when no one appeared at the public budget hearing.

The hearing is required by the city charter.

Beginning Oct. 1 the city will be operating under its second full budget year under conditions similar to last year.

Tax valuations in Snyder showed a slight increase for the coming budget year, but the $1.50 per $100 valuation tax rate remains the same.

Valuations in Snyder now total a record $11,600,000.

Of each $1.50 collected from ad valorem taxes, $1.042 will be for the general fund budgeted items and 45.8 cents will go to the interest and sinking fund for the retirement of the city's bonded tax debts.

Valuations in Snyder last year totaled $11,207,000. The increase in the total assessed valuation has resulted from new construction and the annexation of small areas during the past year.

This year, as last year, the water and sewer utility fund will show a slight increase. Obligations of the fund to the Colorado River Municipal Water District will increase as well as payments to developers for their investments in water and sewer lines laid in the developed areas.

Payments to the water district will total $104,044, and revenue bond requirements plus developer repayments will total $58,115. The water district requirements, bonds, and developer payments will total 53 per cent of the appropriations of the water and sewer fund.

In his budget message B. J. Shelley, city manager, said, "It may be a necessity that the city again revise the water and sewer extension policy to developers as it is placing an increasing burden on the water and sewer fund."

In connection with the budget hearing, the city council passed two ordinances. First of the ordinances was to adopt the budget, and the second was to set the tax rate at the $1.50 per $100 valuation used last year. Both were passed on first reading.

Europeans Ponder Rival Plans For West Germany

REAL CORN

It may be corny, but it's true. Ginger, Herb Rau's pet cat, is crazy about corn and perches on Herb's shoulder to nibble at it while Herb is trying to gnaw off a few kernels for himself. She may like corn, but she doesn't wear a blissful, happy look like cornlover Rau. Herb is a Miami, Fla., newspaper columnist by trade.

Hard Bargaining Session Develops

LONDON (AP)—Hard bargaining shaped up today over rival British and French plans for rearming West Germany.

Ministers conferred anew over old problems of Western defense that must be taken up again at a nine-power conference in London Sept. 28.

And something of the conflict to attend that session—in which French Premier Pierre Mendes-France is to call for British commitments that Britain has refused in the past—was pictured in the editorial comment of Europe's newspapers, left, right and center.

Prime Minister Churchill's government was warned by the independent, pro-Empire London Daily Express not to "take the easy way, the way of acquiescence in French wishes, the way of smoothing down French fears at Britain's expense."

On the other side of the fence, the liberal News Chronicle declared "the British government must recognize that the time to make our utmost contribution has arrived and that no contribution can now be effective unless positive commitments are made."

France's Western allies were taking a long, cautious look at the plan outlined by Mendes-France yesterday in a speech before the European Consultative Assembly at Strasbourg.

As a substitute for the six-nation unified army of the European Defence Community treaty which his National Assembly killed Aug. 30, he wants to tie West Germany in a tight continental alliance with Britain that would limit the fighting forces of all member states and control their arms production.

Under both Mendes-France's proposals and the British plan put forward previously by Foreign Secretary Anthony Eden, the basis for rearming German troops would be the Brussels treaty of 1948. That treaty was originally drawn up by Britain, France, Belgim, the Netherlands and Luxembourg for defense against any new German aggression. The idea now is to admit both West Germany and Italy —which would get all the EDC partners together again—and revamp the rules. Instead of the unified army envisaged under the EDC, members of the pact would rush their national armies to defense of any other partner attacked.

But there are big differences, chiefly:

1. Mendes-France would control the size of all armies and arms production through the enlarged Brussels group. Eden would give supervisory powers to the 14-nation North Atlantic organization and speed West Germany's entry into NATO.

2. The French plan for all partners to accept control of their armies and arms industries runs in the face of past British arguments that worldwide empire commitments made it impossible for Britain to join the EDC and thus accept some outside control.

The council of the Brussels treaty met in London today to consider technical problems involved in admitting West Germany and Italy.

Prime Minister Churchill's cabinet convened in its regular weekly session with Mendes-France's plan and the nine-power conference—to be attended by representatives of the United States and Canada as well as the seven European powers directly concerned—among its topics.

In Rome, Premier Mario Scelba's revised Cabinet discussed the nine-power conference "in the light of the new Mendes-France proposal." A communique announced a report by Scelba on international developments was approved by the Cabinet and the government's political line is unchanged.

In Washington, the United States formally accepted Britain's invitation to attend the London conference. A State Department spokesman said Mendes-France's plan was being studied, but there would be no immediate comment.

Mendes-France left Strasbourg by train for a short rest in Central France before tackling the long negotiations that must follow.

Harriman Has Edge In Race

By The Associated Press

The campaign for control of Congress was temporarily eclipsed today by a contest between Averell Harriman and Rep. Franklin D. Roosevelt Jr. for the Democratic nomination for governor of New York.

The edge appeared to lie with Harriman, former foreign aid director and unsuccessful candidate for the Democratic presidential nomination in 1952. But Roosevelt predicted he would win in "a very close contest."

Balloting at the party's convention in New York City comes tonight.

New York Republicans, convening at Syracuse, were prepared to give their gubernatorial nomination to U.S. Sen. Irving M. Ives, Gov. Thomas E. Dewey's choice to succeed him. Dewey plans to return to private life.

Harriman had the backing of Tammy Hall and other influential party leaders as Ives' November opponent. Roosevelt, however, claimed "surprising" support from New York City to augment upstate strength.

In the Democratic primary in Rhode Island yesterday, the state ticket headed by Sen. Theodore Francis Green, 86, and Gov. Dennis J. Roberts had no opposition for renomination. The state GOP primary is scheduled Sept. 29.

Far to the west, President Eisenhower arranged to confer during the day with Chairman Leonard W. Hall of the Republican National Committee, and two of Hall's aides, in advance of a speaking trip to the West Coast later this week.

WEATHER

NORTH CENTRAL and WEST TEXAS: Fair this afternoon, tonight and Wednesday; cooler this afternoon and tonight.

EAST TEXAS: Partly cloudy and cooler this afternoon; scattered thundershowers in extreme south portion. Fair tonight and Wednesday; cooler tonight. Fresh shifting winds on coast becoming northerly this afternoon.

SOUTH CENTRAL TEXAS: Partly cloudy, scattered thundershowers this afternoon and in south portion tonight and Wednesday. Cooler north and central portions tonight. Fresh shifting winds on the coast becoming northerly tonight.

Red China Question May Delay Session

By A. I. GOLDBERG

UNITED NATIONS, N.Y. (AP)—A new fight over anticipated demands to seat Red China threatened today to delay — at least briefly — organization of the ninth United Nations General Assembly.

Russia, India and some other Asian countries were expected to launch the new struggle to replace the Chinese Nationalists with Peiping representatives shortly after the session's formal opening this afternoon.

U.S. Secretary of State Dulles was on hand to lead the campaign for keeping up the bars against the Chinese Reds. The United States, backed by Britain, planned to ask the Assembly to shelve the question until the end of the year. The same strategy was used last year to keep Peiping out.

Both the Americans and the British were confident of a clear winning majority. To strengthen their case, U.S. Delegate Henry Cabot Lodge Jr. in a weekend statement charged the Chinese Communists with 39 attacks in the past four years on ships or planes of Britain, Panama, Denmark, Norway, France, Portugal and the United States.

With the seating contest out of the way, organization of the Assembly for business promised to be smooth sailing.

Withdrawal of Thailand's Prince Wan Waithayakon from the Assembly presidency race yesterday left the field clear for Eelco van Kleffens, Netherlands minister to Portugal and the only other announced candidate for the post.

There was possibility that a contest of sorts would develop for the chairmanship of the Assembly's budget committee. The Polish delegation announced last night that its permanent delegate, Henryk Birecki, would be a candidate for the presidency of the fiscal group. This is the committee which will debate whether $189,000 in damages should be paid to 11 former American U.N. employes who were fired for refusing to testify concerning alleged Communist connections.

Otherwise the next major clash was expected later this week in the steering committee, where Britain promised strenous opposition to putting Greece's claim to Cyprus on the agenda for Assembly debate.

Once election of officers is out of the way, Dulles is expected to open the fortnight of policy speeches from delegation leaders with an exposition of U.S. policy Thursday. Delegates looked for him to comment at length on President Eisenhower's plan to set up a peace pool of atomic power, despite Soviet objection to it.

The expiring eighth Assembly, in recess since last December, was closed out with brief formality yesterday by its president, Mrs. Vijaya Lakshmi Pandit. Sister of India's Prime Minister Nehru, she was the first woman elected to head a U.N. Assembly.

Wearing an amethyst colored sari, she rushed the final ceremony through in less than five minutes. She told the delegates she would hold off her review of the eighth Assembly's work until she took the chair today, to serve until election of her successor.

School Rolls Hit New High

Enrollment in Snyder schools has reached an all-time high and passed the anticipated 3,300 total.

Figures compiled this morning showed the total to be 3,302. The total enrollment had been expected to reach at least 3,300 by the end of September. Enrollment during the opening days of the school term was already above that of past year, with 3,266 students reported at the end of the first week. Enrollment on September 11, 1953, was 2,955.

By schools, the enrollment is 737 at the high school, 487 at the junior high, 369 at Central Primary, 382 at East Elementary, 553 at West Elementary, 300 at Central Elementary, 403 at North Elementary, and 69 at the Abraham Lincoln school.

Deep Wildcats Scheduled In Gaines, Nolan

New deep wildcats have been slated for immediate drilling in Gaines and Nolan Counties.

British-American Oil Producing Co. is to drill the Nolan County wildcat as the No. 1 O. F. Lindsey. Drillsite is 660 feet from south and east lines of section 85-X-T&P. That is about 12 miles south and west of Roscoe. Projected depth is 6,500 feet for a test of the Ellenburger.

A test of the Devonian at 12,800 feet is to be made in Southeast Gaines County at Mid-Continent Petroleum Co. of Midland No. 1 Parmer County School Land. Location is 800 feet from north and 660 feet from east lines of labor 11, league 317, Parmer County school land survey. That is about 17 miles southeast of Seminole.

SCURRY COUNTY

Stanolind Oil & Gas Co. has completed a new producer for the Cogdell field of North Scurry County at its No. 3-B D. M. Gibson.

The well pumped 24 hours on the final test to make 176.89 barrels of 38.8-gravity oil plus 13.77 barrels of acid residue. There was also a small flow of gas, which was not measured.

The project was drilled to 7,207 feet, then plugged back to 7,187 feet for production in the Canyon reef lime. Completion was made through perforations.

West of Snyder and in the Kelley-Snyder field area, General Crude and McFarland No. 1-288 J. N. Brumley is drilling in lime and shale below 5,285 feet. Superior Oil No. 1-537 W. F. Mathis is drilling in shale below 7,280 feet.

FAILURES REPORTED

A. V. Jones and Sons No. 1 Rains, a Fisher County wildcat four miles northeast of Rotan, has been plugged and abandoned on total depth of 4,108 feet in lime and shale.

This project was started to drill to 7,000 feet. It was in section 280, H&TC survey.

Maner Graham of Midland has quit his No. 1 Van Horn one and one-half miles north of Westbrook. It was drilled to 3,158 feet, and had very slight shows in the San Andres lime.

The No. 1 Van Horn was one

See OIL, Page 2

Oil Men Plan Essay Contest

A $1,000 essay contest for high school seniors in West Texas has been announced by the Oil Industry Information Committee.

The contest will be held in conjunction with Oil Progress Week Oct. 10-16. Plans are now in progress by the Chamber of Commerce oil and gas committee for several events to be held here in observance of the week, including a barbecue and free oil show.

Essay contestants will write on "The Oil Industry's Role in the American Way of Life." Prize money for the area contest is being contributed by the Permian Basin Oil Show and will be distributed in three scholarship awards of $500, $300, and $200 upon the winners' enrollment at accredited two or four-year colleges.

In addition to area prizes, local awards of five $25 federal savings bonds will be made for outstanding essays submitted by students of the Snyder school. Jim Kincaid, Scurry OIIC chairman, said these awards are being provided by the Diamond M Foundation.

The essays are to be from 350 to 750 words long. No names will appear on the papers, Kincaid said, explaining that this is done to insure impartial judging. Sept. 30 is contest deadline. The top 10 essays will be submitted after preliminary grading by the school to the local OIIC committee, which will score the papers and submit the best ones to the area contest. There will be three essays from this high school in the area finals, in accordance with the OIIC rules governing high schools with between 500 and 1,000 enrollment.

SNYDER SAFETY RECORD HIKED

Traffic safety measures taken during 1952 raised Snyder's rating from 302nd place in 1952 to 34th place in 1953 in a group of 458 cities of the same population through out the nation, J. Ross Kemp, traffic safety officer for the Abilene district of the Texas Highway Patrol, said last night.

Kemp gave an analysis of traffic and traffic safety measures taken by Snyder during last year at a safety meeting in the district courtroom at 7:45 o'clock last night.

The meeting was attended by the city council, members of the Snyder police department, county sheriff's department, school and civic club representatives. Malven K. Stevenson, mayor, presided and introduced Kemp.

"Snyder made great strides in improving its traffic conditions during last year, and many other improvements are being made this year," Kemp said.

The analysis of traffic safety here for 1953 showed that there were no fatalities during the year from traffic accidents, seven persons were injured in 1953 compared to 17 in 1952. There was one traffic death in Snyder in 1952, and one in 1951.

The analysis showed that consideration should be given to expansion of off-street parking facilities. About 120 spaces per 1,000 registered vehicles are needed to make Snyder's off-street parking equal the other cities in the group.

"Use of one way streets should also be investigated," Kemp said.

An additional 5.8 miles of city streets should be marked with center lines, and crosswalks at 71 intersections should be marked.

(The city has purchased and put to use this year a new street marking machine which will provide the necessary markings.)

A good school safety program here helped raise Snyder's ranking.

Kemp commended the actions of Dr. C. L. Yarbrough, superintendent of schools, as being "The one man responsible for Snyder school's good safety program which is one of the best in the nation."

Cool Weather Heading South

By The Associated Press

A cool front plowed on southward in Texas Tuesday after taking the edge from the waning summer's head.

At dawn the front had reached a line running from Lufkin in East Texas, north of San Antonio, and on into the Davis Mountains of West Texas.

Behind, temperatures had dropped as much as 15 degrees as accompanying thundershowers — decorated by brilliant lightning and cloud displays—gave drought-hit farmers more hope.

Corsicana had a high of 100 Monday. About 1 a.m. Tuesday lightning and thunder came in and .60 of an inch of rain fell.

High wind that accompanied the rain at Sherman bent television aerials and blew down trees across some of the main streets. Traffic lights were knocked out at places. The temperature had reached 100 degrees but cooled to 67.

The winds reached up to 47 miles per hour by the time they struck Dallas about 11:30 p.m. Wind-driven rain fell in torrents in some parts of the city—measuring as much as .80 in Urbandale—and temperatures dropped from 90 to 74 in 30 minutes.

Temperatures started rising again a few hours after its passage. The Weather Bureau, however, said temperatures Tuesday would be 5 to 10 degrees under Monday's high marks.

The thermometer marks Monday were blistering, even with Fall just two days away (Thursday). They included: 105 at Presidio and Wink, 103 at Wichita Falls, 102 at Mineral Wells, 101 at Cotulla, San Angelo, Dallas, Midland and Abilene.

For Dallas it was the 50th day of the summer in which the temperature had risen to 100 degrees or more.

Monday's low maximum—90 degrees—was recorded at Dalhart, after the front had passed, and at Galveston, where Gulf breezes added to the comfort.

For Wednesday, the last day of summer, weather observers expected more high temperatures.

Tidelands Lease Bids Are Asked For Nov. 9

WASHINGTON (AP)—Bids will be opened here Nov. 9 for oil and gas leases on 106,028.7 acres of Texas tidelands in the outer Continental Shelf.

Secretary of Interior McKay said a minimum bonus bid of $15 an acre will be required. They are divided into 38 tracts. The areas offered are based on nominations by interested parties.

A bid opening Oct. 13 had been announced earlier for oil and gas leasing of 748,000 acres and for sulphur leasing of 523,000 acres in the outer continental shelf off Louisiana.

The Texas and Louisiana offerings are the first offshore lands put up for federal leasing under a law passed by Congress last year.

Verdict On McCarthy May Be Ready Monday

WASHINGTON (AP)—Senators investigating censure charges against Sen. McCarthy (R-Wis) said today they hope to hand down their "verdict" Monday.

What the special six-man committee may report to the Senate remained a tightly guarded secret.

Sen. Ervin (D-NC), a committee member, said in an interview he now expects the report to be made public Monday, instead of on Thursday of this week as the committee had planned tentatively. Another member, who declined to be quoted by name, confirmed the new target date.

Ervin said a report that early ought to bring the Senate back into session to consider it on Oct. 1 "or very soon thereafter."

Dusty Norther Hits

A dusty wind blew a cool front into Snyder early this morning. The temperature dropped to only 65 degrees, however, and had risen to 68 degrees by 7:30 this morning. Yesterday's maximum temperature, near that of the preceding days, was 99 degrees, Mrs. D. P. Strayhorn, weather observer, said.

Allred Claims Board Employe Is Linked To Insurance Case

By DAVE CHEAVENS

AUSTIN (AP)— Renne Allred Jr. said today that one factor back of the insurance commission's attempt to fire him was his determination to name a board employe in a suit charging fraud.

Allred made the charge in a letter to the board, a copy of which was released to The Associated Press.

The commission has ordered Allred discharged as attorney for its liquidator and as counsel for many firms now in receivership. Allred countercharges that only the court who named the receivers could fire him.

Allred's letter said he had twice delayed filing the suit "against all parties who had any connection with the fraud perpetrated upon innocent creditors and policyholders of Texas Mutual" at the request of two members of the board to keep the suit from becoming "embroiled in politics."

Allred said the first delay was until after July 24, and the second until after Aug. 28.

Those were the dates of the first and second Democratic primaries. Conduct of the insurance commission was one issue in the gubernatorial campaign. Defeated candidate Ralph Yarborough charged that the commission, named by Gov. Allan Shivers, had been lax in enforcing the insurance laws.

Allred's letter also replied to a charge by the board that he had not been cooperative.

He said that as long ago as March of this year he had called the board's attention to evidence "of grossly over-valued mortgages concerning a company that your examiner had found insolvent as of June 30, 1953."

"This company is still doing business at the same old stand," Allred said.

The board's action against Allred was expected to bring a court test of whether its liquidating division takes orders from the commission or the courts.

Claims of creditors and policyholders against the defunct Texas Mutual have been estimated at around a million dollars.

Leslie and Paul Lowry of Beaumont and D. H. O'Fiel of Beaumont have been indicted on perjury counts by a Travis County grand jury in connection with organization of a Texas Mutual subsidiary.

The grand jury inquiry and other spotlighting of insurance affairs had followed a blistering opinion by Justice R. G. Hughes of the Third Court of Civil Appeals who had charged there had been "gross if not criminal" laxness in insurance law enforcement.

The commission has replied several times that it was doing the best it could with inadequate laws, which it says it wants changed, and with inadequate personnel.

The indictments against Texas Mutual's organizers were brought late in May. The cases have not been brought to trial.

Allred's letter to the board today said that the life casualty insurance commissioners had been informed on June 20 that a suit alleging conspiracy to defraud innocent creditors and policyholders would include an employe of the board who worked for the board when Texas Mutual was organized.

Allred said that the life and casualty commissioners each attempted to dissuade him from bringing the suit. Garland A. Smith is life insurance commissioner and Byron J. Saunders casualty commissioner. Smith is a former secretary of Shivers.

It was on June 30, Allred said, that he informed them he would not file the suit until after July 24.

Chairman Garland A. Smith and commission members J. Byron Saunders and Mark Wentz issued a joint statement saying Allred's refusal to give up his post "laid a predicate for one of the issues to be determined in the future by court action."

Allred had indicated that it would take a court order to oust him.

He challenged his dismissal on the ground the board has no authority to fire him. He claims that authority lies only in the district courts which name receivers for insurance firms being liquidated.

Emmett Shelton of Austin has been named by the board as Allred's successor.

Insurance receivership cases have been in the spotlight in recent months.

Race Dispute Keeps Two Schools Closed

By BILL LOFTUS

MILFORD, Del. (AP)—This community's two public schools were closed again today in the face of telephoned threats of violence if Negro children were allowed to attend classes in the white high school.

Dr. Raymond C. Cobbs, superintendent of the Milford schools, had announced earlier that the schools would open as usual at 9 a.m. today after being closed yesterday.

However, Dr. Cobbs issued a statement shortly after 8 a.m. this morning in which he said the schools will be closed until further notice "in the interest of the safety of all the children."

The statement said:

"Members of the board of education since making an earlier announcement have received numerous calls threatening violence in case any Negro children attend school. In the interest of the safety of all the children the board hereby serves notice that the schools are closed until further notice."

A detail of five policemen arrived at the school along with several of the schools' teachers. The teachers entered the building, while the policemen spread around the building to keep watch.

Dr. Cobbs declined to elaborate on his statement as tension mounted in this quiet southeastern Delaware community. The situation developed yesterday when the Milford school board closed the schools after learning of a protest march planned by anti-segregationists.

Although the school board, composed of three businessmen and a housewife, had called for resumption of classes today, they left unanswered the question of when 11 Negro pupils would be allowed to take up their high school studies.

Board president Dean Kimmell said that in addition to the telephone calls, a delegation of citizens opposed to integration came to his home at about midnight last night and told him that some of their number had "gotten out of hand and there might be violence."

Kimmel said the school board members were not threatened at any time, but that the delegation indicated violence might take place if Negro pupils tried to enter the school.

The Rev. Randolph H. Fisher, president of the Sussex county branch of the National Assn. for the Advancement of Colored People and the spokesman for the 11 Negro pupils at last night's emergency board meeting, said today he would have no comment.

Dr. Cobbs said 14,000 persons live in the school district which includes several nearby communities. Approximately 3,500 of these are Negro. There are 687 pupils registered at the high school for this term, including the 11 Negro pupils.

Praying Chaplains Parachute Safely

By HERBERT D. WILHOIT

NEWHALL, Calif. (AP)—Praying as they parachuted in shirtsleeves, 15 chaplains landed safely minutes before their disabled Air Force C46 plane crashed and burned yesterday. The three crewmen also bailed out successfully.

"You can be sure there was plenty of praying going on," said the Rev. Lertis R. Ellett of Lawndale, Calif., Church of Christ, who is an Air Force reserve colonel.

"This was an occasion when, doubly, we were practicing what we preach; namely, prayer," said the Rev. Neville E. Carlson of Fillmore, Calif.

"The Lord was with us in many ways, even to the fact that the fire in one engine was on the right side of the plane and the door through which we jumped was on the left," said the Rev. Bertil Von Norman of the West Hollywood Presbyterian Church.

The group of Civil Air Patrol chaplains from Southern California left Burbank at 3:03 p.m. (PDT) in the C46, bound for a regional CAP chaplains' conference at Sacramento scheduled for last night and today.

The plane crew included the pilot, Capt. Thomas E. Willson, North Highland, Calif.; Lt. Earl W. Meredith Jr., Sacramento, and Sgt. Lloyd Plew, Globe, Ariz., all stationed at McClelland AFB, Sacramento.

The chaplains and crew were wearing back parachutes and had been briefed before take-off but none of the ministers had ever jumped before.

Minutes after the departure, smoke began trailing from the C46. Vibration was felt in the ship, then the right engine caught fire.

As Lt. Meredith and Sgt. Plew carried the pilot's instructions to the chaplains to bail out at about 3,000 feet, the right engine fell away. Mr. Von Norman, a CAP major, was credited by his colleagues with calm heroism as he helped the chaplains adjust their 'chutes and shepherded them out the door. He was the last chaplain to bail out. The crew followed, with Capt. Willson the last to jump when the ship was probably no more than 1,000 feet up just west of the Los Angeles Police Rehabilitation Farm for Alcoholics at nearby Saugus.

The plane crashed and burned on the farm, only 75 feet from where the nearest inmates were working.

A half dozen of the chaplains suffered cuts or bruises, wrenched legs or shoulders but none was seriously hurt.

Python Pete Still At Large

FORT WORTH (AP)—Police and zoo men were getting a lot of bum steers, but no snakes, today in their search for the missing python, Pete.

Several persons said they had seen the big 150-pound, 18-foot reptile, but none of the leads panned out.

Park officials thought they might have a "hot" tip last night when Mr. and Mrs. Bucky Terry reported they saw a large snake on the bank of the Trinity River.

But when the park employees reached the scene—no snake.

Pete, a native of the Bangkok area of Thailand, came to Forest Park Zoo here about four years ago and most of the time was a nice, law-abiding snake until he went AWOL. He was missed Saturday and apparently had forced open a small door and climbed a 6-foot fence in making his escape.

Since that time, snake stories have been growing and Pete's owner, Harry Jackson, is afraid Pete will either starve or die of a cold in case of a turn to fall weather. However, zoo curator Lawrence Curtis said Pete was fed three weeks ago and the Weather Bureau reported the temperature around 100 degrees in the Dallas-Fort Worth area yesterday.

Volunteers who have showed up to help hunt Pete increased after Amon Carter, Fort Worth publisher, and Amon Carter Jr. posted a $500 reward for the python's safe return.

Curtis said Pete would attack a person only if hungry or if somebody started the fight.

But said one of the volunteers, growing a bit reluctant:

"How do I know how hungry a snake gets in three weeks, and how does he know whether I'm gonna attack him?"

Hogs and deer often kill snakes by trampling them.

STILL COUNTING

Mr. and Mrs. Deibel of Mt. Pleasant, Mich., watch as the pile of money grows. An accounting firm of Mt. Pleasant keeps up the count of the nickels, dimes, quarters and even folding money which keep rolling in to the basement of the Mt. Pleasant municipal building. Ronald Nettell, of the accounting firm, is in the left foreground. Some 75,000 letters, a result of a television appeal to viewers to send a nickel to Mrs. Deibel, are responsible for this huge stack of mail.

Crusader Wins Council Post In Phenix City

By REX THOMAS

PHENIX CITY, Ala. (AP) — A young physician rode into office here yesterday in a City Commission election hailed by anti-vice crusaders as a roaring protest from the people against racketeer rule in Phenix City.

Dr. Clyde M. Knowles Jr., who had the support of the racket-busting Russell Betterment Assn., was elected to the three-man Commission with a majority of almost 2 to 1 over the combined vote of four opponents.

Armed National Guard troops stood watch at each voting place throughout the day and escorted election officials to City Hall where the ballot boxes were turned in after the polls closed.

Gov. Gordon Persons ordered the guardsmen to police the voting places to prevent a recurrence of past elections which repeatedly brought complaints of wholesale ballot frauds.

Complete but unofficial returns gave Dr. Knowles 2,000 votes against a total of 1,250 for the other candidates.

Runnerup was Judge John Freeman of the Russell County Inferior Court, who polled 941 votes. Grover F. Harden was third with 153, followed by Tom Corley with 123 and W. H. Marlowe with 33.

The winner succeeds veteran Commissioner A. L. Gullat, who declined to seek re-election after 22 years in office. The other two commissioners, Mayor Elmer Reese and Dr. Seth Floyd, weren't up for election this year.

Dr. Knowles is chief of staff at the city-owned Cobb Memorial Hospital.

The 32-year-old physician is a Korean War veteran.

He was the first doctor to examine the body of slain vice foe A.L. Patterson, whose assassination June 18 brought on the cleanup in Phenix City that led to the young physician's election.

While the voters were choosing a new commissioner, a vice-hunting Grand Jury returned to work after a two-week recess and resumed its inquiry into alleged widespread vote frauds in another election—the Democratic primary last May 4.

Bond Set In Second Case

Bond was set at $250 this morning for Talmadge Owen, 25, of Tyler, for whom a plea of innocent was entered by an attorney, Fred Auforth, concerning the second of two recent charges of swindling by worthless check.

The second charge was filed against Owen when he was released from jail at Tyler on bond set here at $500 in the first case. His release was obtained while a deputy sheriff from here was en route to Tyler to return him. He was being held in jail at noon today in lieu of a second bond.

Auforth told the court today that he was only representing Owen for an attorney at Tyler, whom Owen had employed, and would only act on the other attorney's decisions.

Owen and Auforth agreed that the defendant would redeem nine checks given here for a total of $85 which have been given to the county attorney with complaints.

The county attorney, Wayland Holt, declined to recommend dismissal of either case in event of redemption of the checks.

Fuchs Rites Are Set Tomorrow At Ellinger

Funeral services for Victor H. Fuchs, 20, employe of Holder Construction Co. here for the past two years, will be held at 3 o'clock tomorrow afternoon at Ellinger, Tex. Burial will be in a cemetery at Columbus, Tex.

Fuchs was killed in a traffic accident near Del Norte, Colo., and Kenneth M. Lynch, Olney, Tex., was injured when their car rolled 102 feet off the side of a mountain road near Del Norte Saturday.

Lynch, diver of the car, was hospitalized at St. Joseph's Hospital in Del Norte, but was said to have been released today.

Fuchs is survived by his parents Mr. and Mrs. John Fuchs, Fayetteville, Tex., and a brother, Elton Fuchs, also an employe of Holder Construction Co. here.

The accident victims were returning from a fishing trip when the accident occurred.

Amarillo Lady Lost 25 Pounds With Barcentrate

"I weighed 173 pounds when I commenced taking Barcentrate" writes Mrs. S. Grant Troxell, 3103 Tyler Street, Amarillo, Texas. "I lost 25 pounds. I lost as much as 1½ pounds a day taking Barcentrate."

Barcentrate is the original grapefruit juice recipe for taking off ugly fat. If the very first bottle doesn't show you the way to reduce, return the empty bottle for your money back. At all Texas druggists.

Noel Says He And Batchelor PlannedEscape

SAN ANTONIO (AP) —Associated Press photographer Frank Noel today testified that he and Cpl. Claude Batchelor made plans to escape from the North Korean prison camp where they were held by the communists.

Noel was called by the defense at the trial of Batchelor before an Army court-martial at Fort Sam Houston on charges of aiding the enemy while he was a POW.

Noel was captured on the Korean front and was a prisoner almost three years. He was in the same camp where Batchelor, 22, from Kermit, Tex., was held 38 months.

Noel said he had made three attempts to escape but was unsuccessful.

About February or March, 1953, he said he talked with Batchelor about a fourth attempt to escape.

A member of the court asked Noel whether it was a joint escape plan. Noel replied that Batchelor agreed to go along.

He said they decided to make their attempt about the first of August, 1953, when the rains of the monsoon season would give a protective cover. He said he and Batchelor were going to try to get to the China Sea but they needed a map. Batchelor got the map, Noel said.

Noel said as far as he knew Batchelor never informed on him.

He said about the middle of July, 1953, the prisoners knew definitely that the prisoner exchange was coming off, so he and Batchelor did not try their escape.

A former medical officer in the Netherlands East Indies Army testified that prosecution witnesses against Batchelor probably suffered from "bamboo fence complex."

OIL

Continued from Page 1

and one-half miles east of production in the shallow Westbrook field.

KENT COUNTY

Chapman & McFarlin Producing Co. No. 2-B D. M. Cogdell, Jr., Cogdell-San Andres field test in South Kent County, has reported a potential of 22.90 barrels of oil with no water.

The potential test covered a 24-hour period with the well on the pump. Gravity of the oil was 39.1 degrees. Production was from open hole from 1,515-535 feet which had been treated with 3,000 gallons of acid.

Sunray Oil Corp. No. 1 Reed, Northwest Kent County wildcat, is drilling in lime below 7,346 feet.

Hancock Oil No. 1 W. A. Mays, four miles north and slightly east of the Cogdell field in South Kent County, is drilling lime and shale below 2,586 feet.

DRILLING REPORT

Southern Minerals and Herring No. 1 Sedberry, Stonewall County wildcat, is at total depth of 6,594 feet in Ellenburger dolomite and waiting on orders. The project has run electric logs to that depth, and reported no shows in drilling.

Lester & Duffield and Plymouth Oil No. 1 L. D. Rimmer, Northeast Fisher County wildcat, has been ordered plugged and abandoned at total depth of 6,702 feet in dry Cambrian sand.

General Crude No. 1 Diedrich Wolff, Jr., 10 miles east and north of Hamlin, has drilled and cored to total depth of 5,496 feet in sandy lime and is circulating for samples. There were some slight shows of gas in a core at 5,422-432 feet. Also in Fisher County, Allison & Prestridge No. 1 Ohlenbusch is drilling in chert and lime below 6,851 feet. J. J. Lynn No. 1 Martin is drilling in shale and lime below 2,985 feet. Trans-Tex No. 1 Ubben is drilling in shale and lime below 4,164 feet.

DAWSON LOCATION

Seaboard Oil and associates have filed application to drill the No. 1 H. B. Weir in the Spraberry Deep-West Pennsylvanian field of Southeast Dawson County.

It is to be 660 feet from south and east lines of section 34-34-t5n-T&P, 12½ miles southeast of Lamesa, and is to drill to 8,500 feet. The location is one location northeast of Seaboard No. 1 Vaughn, a Pennsylvanian discovery.

HOSPITAL NOTES

The following admissions and dismissals at the two Snyder hospitals are only those whose names have been released by the hospitals.

BATTENFIELD-JONES

Admissions: Mrs. H. E. Fowler, Snyder; T. O. Keen, Snyder.

Dismissals: Mrs. Raymond Kirkland, 1003 Twenty-third Street; Patsy, Linda and Cecil Reavis, 1800 Avenue T; Mrs. C. L. Banks, 1001 Twenty-sixth Street; Rachael Rodriquez, Snyder.

COGDELL MEMORIAL

Admissions: J. W. Stubblefield, Clairemont road.

Dismissals: R. L. Deere, Sr., Snyder; Mrs. Edwin Kearns, Snyder; Mrs. E. R. Morris and baby daughter, 417 Thirty-third Street.

Sgt. Smith Is Named Temporary Recruiter

M-Sgt. W. W. Smith will be the Air Force recruiter covering the Snyder area for several days, the recruiting service said today.

Smith will work here in the absence of the regular recruiter, T-Sgt. C. G. Deakins.

The schedule calls for Smith to be in the courthouse from 10 o'clock in the morning to 2 o'clock in the afternoon each Monday.

FALSE TEETH
That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

November Draft Quota To Be Reduced By 60

AUSTIN (AP)—Texas' draft quota for November is 1,062 men, 60 less than for October, state selective service director Paul L. Wakefield announced today.

The call for induction is limited to men 20 or older except where younger men are needed to fulfill the quota.

A total of 2,565 men also are scheduled for combined physical and mental examinations in November. The number called for examinations in October is 2,630.

Local board quotas for the November calls will be mailed by state headquarters the last week of this month.

A total of 70,113 Texans were inducted during the Korean war, and 14,570 have been indicted since signing of the truce in Korea, through August.

Local Delegates Going To Kiwanis Convention

Two Snyder Kiwanians will attend the 1954 convention of the Texas-Oklahoma Kiwanis District, according to H. A. Johnson, Jr., president of the local club.

The two delegates will be Bill Brown and Ford Kenner. The convention will be held in Dallas Oct. 3-5.

J. A. Raney, vice-president of Kiwanis International and Indianapolis school official, will be main speaker during the meeting. A total of 231 clubs will be represented.

These Girl Scout volunteer workers are paying close attention as Margaret McAdams, executive director of the West Texas Council, explains the meaning of the insignia shown on the chart. From left to right are Mrs. M. A. Calloway, Mrs. W. D. Birdwell, Miss McAdams and Mrs. D. L. Baxter. (Lee Watson photograph)

SOCIETY SCRIBBLINGS

New Girl Scout Workers Receive Special Training

By ANITA HALL

The Girl Scout Little House was well filled Monday morning with women who are interested in assisting in the activities of Girl Scouts here.

MARGARET McADAMS, professional worker for Girl Scouts of the West Texas Council, held a training session for new leaders, co-leaders and committee members who organized troops last week in Snyder. Ten new troops have been organized this year to bring the total number of troops here to 32.

Miss McAdams has been working with the national organization for five years. Except for training sessions in New York and Denver, she has spent the rest of the time working out of the headquarters office in Abilene for the West Texas Council. The council consists of 13 counties in this area. Much of her time is spent traveling from town to town holding training sessions.

In these two-day sessions she instructs new leaders and co-leaders in the overall aims of the whole Girl Scout organization. She discusses and explains the eleven program fields studied by scouts during the year. These fields are Arts and Crafts, Literature and Dramatics, Music and Dancing, Community Life, International Friendship, Nature, Out-of-Doors, Sports and Games, Agriculture, Health and Safety and Homemaking. She gives the new leaders a formula for holding a troop meeting and advises them on the best methods of keeping the interest of their troop members.

There were thirty - three new scout workers at the Monday session. This is the largest turn-out of new workers that Snyder has had; but, unfortunately, there still will be a lot of girls in the second and third grades who can not be girl scouts due to a lack of troop leaders. Anyone who is interested in helping with Girl Scouts is urged to contact Mrs. J. E. CRAVEN, phone 3-3910.

Those who came for training Monday were Mrs. W. D. BIRDWELL, Mrs. RAY FARRELL, Mrs. J. C. JACKSON, Mrs. J. H. MIXON, Mrs W. E. STEWART, Mrs H. W. SUFFIELD, Mrs. FRED TAYLOR, Mrs O. W. SMITH, Mrs E H. WILLIAMSON, Mrs M. A. CALLOWAY, Mrs. D. J. SMITH, Mrs. DOYLE BUCHANAN, Mrs. HOUSTON BUCHANAN, Mrs. PAUL REEVES, Mrs. CLYDE REYNOLDS, Jr, Mrs JACK DUPREE, Mrs CHARLES N. SNYDER, Mrs. BILL ZIMMERMAN, Mrs. DONALD BAXTER, Mrs. F. L. CUNNINGHAM, Mrs. W. J. PITTS, Mrs. FELIX GLISSON, Mrs. GRADY TRIBBLE, Mrs. A. L. CAREY, Mrs. RICHARD L. BRICE, Mrs. D. H. CHRISTIAN, CLYDE L. BYRD, Mrs. M. C. FOWLER, Mrs .ROBERT MURRAY, Mrs. FRED MURPHREE, Mrs GENE MARKHAM and Mrs RAY MARTIN.

There will be an investiture of new leaders and co-leaders Friday at Boothe Oaks, Sweetwater. The workers will repeat the Girl Scout laws and promises of both scouts and brownie scouts. Leaders will be invested from Sweetwater, Colorado City, Roby, Rotan, Roscoe, Silver and Snyder in the Friday ceremony.

PERSONALS

Katherine Northcutt, 2707 Avenue W, and Thelma Leslie, 2711 Avenue W, took Mrs. A. C. Leslie to Ardmore, Okla., last week end.

Mack Mauldin of San Marcos was a week-end guest of Wayne Pevey, 2110 Twenty-sixth Street.

Myrle Wayne Neal spent the week end at home with her parents, Mr. and Mrs. Ralph Neal, 701 Twenty-fourth Street. Miss Neal attends Howard Payne College in Brownwood.

Reagan White, a student at Texas Tech, spent the week end at home with his parents, Mr. and Mrs. R. D. White, Snyder Gasoline Plant.

Mr. and Mrs. Carl Foree, 108 Milburn, spent the week end in Fort Worth on business.

Mr .and Mrs. M. C. Herod, 808 Twenty-fifth Street, are spending the month in Ruidoso where they are building a cabin.

Mr. and Mrs. Donely Stephenson and children, Rady and Gary, of Abilene visited over the week end in the home of Dr. and Mrs. John Hamblen, 2103 Thirty - seventh Street.

Cpl. A. A. Behringer, the son of Mr. and Mrs. Adolph Behringer, 1401 Avenue M, has recently been stationed at Chamalieres, France, with the army engineers. He spent fourteen months in Germany prior to this assignment.

Pfc. Eugene Graham, the son of Mr. and Mrs. A. F. Graham, 2401 Avenue I, is stationed at Baumholder, Germany, where he has been for the past ten months as a member of the army signal corps.

Sunday guests in the home of Mr. and Mrs. Adolph Behringer, 1401 Avenue M, were Mr. and Mrs. A. B. Whitwood of Lamesa, Mrs. A. A. Behringer, Jr., of Midland, and Mr. and Mrs. Bert Sellers and daughter, Brenda, of Polar.

Mrs. Howard Pierce and Mrs. Bill Nix of Rankin were week-end guests in the home of Mrs. J. E. Miller and family, 3605 Avenue V.

Sidney Johnson and Jim Sealy entered the rodeo in Henrietta last week end.

Mr and Mrs G .M. Patton, Mrs. H. A. Scott and Mrs. Sudie Jones were guests of Mr. and Mrs. Ellen West in Nocona over the weekend.

WOMEN'S CALENDAR

TUESDAY

Couples' Duplicate Club, 7:45 p. m., Country Club.

Alpha Study Club, 3 p.m., with Miss Neoma Strayhorn, 2111 Thirtieth Street.

WEDNESDAY

WSCS, First Methodist Church, business meeting, 10:00 a.m., fellowship hall.

THURSDAY

Garden Club, first meeting of year, 9:30 a.m., the Village.

OES Study club, 7:30 p.m., Mrs. Prentis E. Smith, 3718 Austin.

Chez Les Amies Bridge Club, 12:30 p.m., Country Club, Mrs. Lyle Galbraith.

FRIDAY

Ladies' Day, 9:45 a.m., Country Club.

Margie Smith Named Editor Of Yearbook

Margie Smith has been named editor of the 1954-55 Snyder High School annual, the Tiger's Lair.

Assistant editor for the publication will be Suzanne Houston. Other staff members and the sections they will handle are Mickey Gillean and Marsha Fisher, features; Sandra Scott, faculty and administration; Junior McCormick, business manager; Clare Smith, Harriet Redwine and Elwyn Weathers, photographers; Judy Rohr, Carmen Carey and Gerry Lynn Hughes, class editors; Judy Miller and Miss Hughes, personalities; Linda Norcross, art editor; Bernie Hagins, Stephen Blair and Jimmy Bennett, sports editors, and Ann Fish and Joyce Blakely, organizations.

Katherine Northcutt is faculty sponsor for the annual.

Enough water is stored behind Shasta Dam to provide every person in the United States with 9,000 gallons.

Four Civic Music Concerts Set; Membership Increases

The membership drive of the Civic Music Association is over and the returns are complete. The goal of "a thousand or more for fifty-four" was not reached but this years' membership exceeds that of last year, according to Art Nicholas, co-chairman of the drive.

Nicholas said the membership total had gone over the 800 mark, a gain of about 100 over last year. Some persons who were members last year, but who were out of town during the campaign, will still be permitted to renew their memberships. In addition some memberships will be accepted from newcomers.

The season membership cards, which will be used by members to gain admission to the concerts, will be mailed out about one week prior to the first concert. Also to be mailed is the complete schedule for the season, as well as schedules of Civic Music programs for this season in neighboring towns.

Four concerts have been selected following the preferences of the members' talent ballots.

Alexandra Danilova, the internationally renowned ballerina, starring in dances she has made memorable, including the sparkling "Mlle. Fifi," and a suite from "The Nutcracker," will appear here on October, 19.

In January, a group of artists known as "I Musici" will present the concert. This is the premiere American tour of "The Musicians", a group of twelve solo performers on the violin, viola, viola d'amore, cello, double-bass and piano. Their performances of 17th and 18th century Italian music have electrified and delighted Western Europe.

The third concert of the year will be presented in February by Carl Palangi, bass-baritone. He is an attractive young American artist who has appeared with the San Francisco Symphony under Monteux, on TV with Werner Janssen, and in opera and recital.

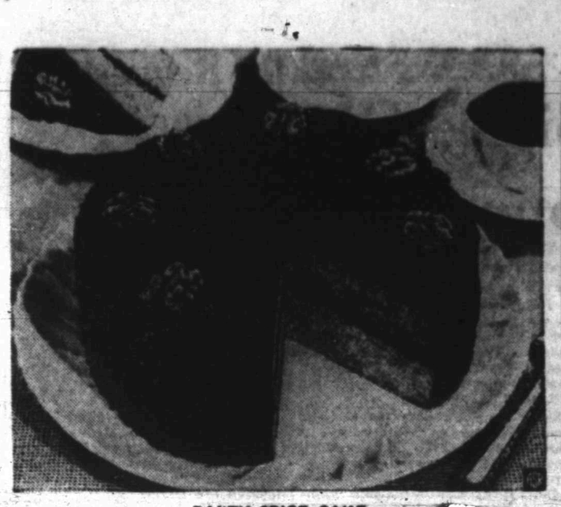

The final program of the year will be presented in March by the American Piano Trio. These artists are brilliant virtuosi on three Steinway grand-pianos with a versatile repertory ranging from Bach to the blues. The trio consists of Stephen Kovacs, Esther Fernandez and Annette Corot who will be on their third tour following two seasons of sold-out bookings from coast-to-coast.

Dove-Fry Is Held

Dr. and Mrs. John Hamblen, 2103 Thirty-seventh Street, were hosts for a dove-fry Sunday night at their home .

Guests were Mr. and Mrs. Donely Stephenson of Abilene, Mr. and Mrs. Coke Williams and children and Mr. and Mrs. Jesse Mayo and son.

A larger proportion of people at age 50 get cancer than at any other age.

PARTY SPICE CAKE
. . . with zippy Mocha frosting

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

The dessert that always earns a star is a delicious home baked cake, and this Party Spice Cake with Zippy Mocha Frosting is bound to make a hit with everyone in the family.

PARTY SPICE CAKE

3 cups sifted cake flour
2½ teaspoons baking powder
¾ teaspoon salt
2 teaspoons ground cinnamon
¼ teaspoon ground cloves
1 teaspoon ground nutmeg
½ cup shortening
1½ cups sugar
2 unbeaten eggs
1 cup liquefied nonfat dry milk

Sift together flour, baking powder, salt, cinnamon, cloves and nutmeg. Cream shortening. Gradually add sugar; cream until light and fluffy. Add unbeaten eggs, one at a time, beating thoroughly after each addition. Alternately add dry ingredients and liquefied nonfat dry milk beginning and ending with flour mixture. Mix only enough after each addition to blend thoroughly. Pour batter into two 9-inch layer pans (greased, waxed-paper-lined and greased again). Bake in a moderate oven (375 degrees) about 20 to 25 minutes, or until top springs back when lightly touched with finger. Allow to cool in pans five minutes. Turn out onto cake racks. When cooled, frost with Zippy Mocha Frosting.

ZIPPY MOCHA FROSTING

3½-4 cups sifted confectioners' sugar
½ teaspoon ground cinnamon
⅛ teaspoon ground cloves
⅛ teaspoon ground nutmeg
3 tablespoons cocoa
2 teaspoons instant coffee
⅓ cup butter
4-5 tablespoons liquefied nonfat dry milk

Sift together confectioners' sugar, cinnamon, cloves, nutmeg, cocoa and instant coffee. Cream butter until light and fluffy. Gradually beat in half of the sugar-spice mixture; blend well. Gradually stir in liquefied nonfat dry milk; mix until smooth and well blended. Add remaining sugar - spice mixture. Beat until fluffy.

Tech Prof. To Speak At AAUW Dinner

Women who plan to attend the American Association of University Women dinner meeting September 30 are asked to make reservations by Thursday afternoon, Mrs. E. A. Brooks, publicity chairman, said.

Members of the organization may bring guests to the dinner. Reservations are to be made by contacting Mrs. Ben Thorpe or Mrs. J. O. Broaddus. Tickets will be $1.50 per person.

Dr. W. H. Melching, an instructor in the psychology department at Texas Tech, will be guest speaker. His topic is to be "Mental Hygiene for Women."

The next total eclipse of the sun will be June 20, 1955 and will be visible over southeastern Asia and the Philippines.

"... and all I did was put in THE *RIGHT* BULBS!"

See how much more pleasant your kitchen is when you improve lighting. You'll see the difference, and so will your friends. Annoying shadows disappear . . . your kitchen becomes a more pleasant place in which to work.

The first step is a good overhead light. Reddy Kilowatt recommends a minimum of 150 watts in your ceiling fixture . . . either a 150-watt or a 200-watt bulb. Also, a 60- or 75-watt bulb over each working area will lighten your kitchen tasks even more. You'll find useful tips to help you improve the lighting in every room of your home in our new free booklet, "See Your Home in a New Light."

There's A Copy For YOU...

For helpful, easy-to-follow lighting recipes that will make seeing easier and every room in your home more attractive, phone, write, or come by our office for this free booklet, "See Your Home in a New Light."

Seasonal Signs Of Upturn Appearing

By SAM DAWSON

NEW YORK (AP)—Business hopefully feels its pulse today and thinks it feels a quickening.

The seasonal signs of upturn are beginning to appear, even if some of them are still a little pale around the gills.

If you're an optimist, but don't look for any runaway boom, you can count these blessings and promises:

Fresh losses of jobs have shrunk noticeably since Labor Day. Employment hasn't perked up much, but there are fewer new recruits to the ranks of the unemployed.

The auto industry will furnish a flurry of layoffs in upcoming weeks as factories retool for new models. But the Detroit story is brightened by the promise of spirited activity in the closing weeks of the year.

Steel mills report some increase in new orders. They are far from swamped by the volume. But it's a gain, welcome after a long dull summer. And steel executives say they can sight better days ahead, just as soon as the auto companies get going on their new models and start chewing up their steel supplies.

Bank loans to business have finally registered an increase—to the relief not only of bankers but of those economists who regard the volume of business borrowing as a sign of its health.

The gain is tardy in coming and is feeble compared with the usual demand of business for credit at this time of year. But last week food processors, dealers in commodities and textile firms began borrowing more in anticipation of good fall and winter business.

Other industries are also beginning to go to the banks for loans. They need the credit to carry supplies and to finance production of the goods which consumers are expected to buy between now and Christmas.

Back-to-school buying has been good this month, the stores report.

Furniture sales are improving at retail—as row on row of new homes go up around the country. The National Retail Furniture Assn. is predicting that furniture manufacturers will be getting a good volume of re-orders for the rest of this year.

Stock market traders count their blessings, too. September has a dour reputation for breaks in stock prices. But the market slid through the first two weeks after Labor Day with timorous gains and finally managed to edge above the year's high it established in August.

Train Plows Into Truck

MATTOON, Ill., (AP)—One person was killed and 28 others were injured yesterday when a New York Central streamliner plowed into a truck at a crossing and went off the tracks.

The NYC's diesel-powered Southwestern Limited, bound for New York with an estimated 95 passengers, struck the truck and the second unit of its diesel engine was derailed. Nine cars following it careened from the tracks and came to a screeching, rending halt 200 yards beyond the crossing. The last two cars remained on the rails.

Rescue crews attributed the relatively small number of injuries to the fact that the derailed cars did not splinter.

Killed in the collision was Cary Bryant, 24, of Mattoon, driver of the truck laden with gravel.

The train was speeding eastward after a scheduled stop at Mattoon when it hit the truck at 11:42 a.m. (CST).

Only three injured remained in the hospital overnight.

Rogers, Autry Seek To Recover Old Films

WASHINGTON (AP)—Cowboy actors Roy Rogers and Gene Autry have asked the Supreme Court to break out its legal lasso and snag 138 of their old movies from the nation's television screens.

The range riders contend contracts they made with Republic Pictures Corp. restrict telecasting of the films for commercial advertising purposes.

An injunction against television use of the movies was denied Rogers and Autry by the U.S. Appeals Court in San Francisco. But the actors are carrying the case higher and will learn early this fall whether the Supreme Court will hear them.

Director's Son First To Get Lost At Fair

NASHVILLE, Tenn. (AP) — The "lost children" booth at the Tennessee State Fair opened yesterday under the watchful eye of Police Inspector O. T. Boner.

The first customer: A red-faced Inspector Boner who reported his son missing. Seems young Tommy wandered off while father was supervising the erection of the booth.

Discovered 20 minutes later at the midway, 6-year-old Tommy explained to officers, "daddy got lost."

Ike Requests Russians To Join Prayers

DENVER (AP) — President Eisenhower appealed today to the people of Russia and other Iron Curtain countries to join Americans tomorrow in a day of prayer for world peace as "the true cure" for war-breeding tensions.

In a message beamed to the Soviet Union and its satellites over the powerful radio facilities of the Voice of America, the President said:

"May the world be ringed with an act of faith so strong as to annihilate the cruel, artificial barriers erected by little men between the people who seek peace on earth through the Divine Spirit."

Voice of America transmitters began broadcasting Eisenhower's appeal worldwide at 6 a.m., EST, today—with special emphasis on reaching people of the Iron Curtain countries.

The National Day of Prayer for Peace being observed in the United States tomorrow was provided for in a resolution passed by Congress and approved by the President. Eisenhower himself will attend chapel services at Lowry Air Force Base here tomorrow morning to pray for peace.

Here is the text of the President's new plea directed particularly to the people of the Iron Curtain nations:

"In common with religious people everywhere, we in America know that the true cure for the tensions that threaten and too often produce war lies not in guns and bombs but in the spirits and minds of men. We are firm in the belief that faith is the mightiest force that man has at his command.

"On September 22nd we are therefore observing, with an act of faith, a National Day of Prayer. Throughout the United States of America, whatever our ancestry, whatever our religious affiliation, we shall offer simultaneously to the Almighty our personal prayers the devotion, wisdom and stamina to work unceasingly for a just and lasting peace for all mankind.

"I most earnestly hope that men and women, boys and girls all over the world will join with us that day in that act of faith. May the many millions of people shut away from contact and communion with peoples of the free world join their prayers with ours.

"May the world be ringed with an act of faith so strong as to annihilate the cruel, artificial barriers erected by little men between the peoples who seek peace on earth through the Divine Spirit."

Japanese Movies To Show Kamikaze Corps

TOKYO (AP) — Japanese movie makers are hard at work on films based on the kamikaze or suicide attack corps of World War II, the Japan News said today.

Two films based on Japan's role in the war are nearing completion and a third is ready for production.

South Korea Chief Requests More Arms

SEOUL (AP)—The chief of South Korea's armed forces today appealed to the United States for more arms to "keep the Communists from sweeping over Asia and then turning on America."

Gen. Lee Heung Keun, chairman of the ROK Joint Chiefs of Staff, issued a statement asking the United States to "increase and equip our defense forces before withdrawing the strength that would leave us helpless before the enemy."

South Korean officials have been protesting for weeks the scheduled withdrawal of four U.S. divisions and some air units from Korea.

The island of Cyprus was first leased to Great Britain in 1878 by Turkey and was annexed to Great Britain during World War I.

Ambassadress Reports

THE HAGUE, Netherlands (AP)—The world's first Moslem ambassadress, Begum Liaquat Ali Khan of Pakistan, presented her credentials to Queen Juliana today.

The begum, widow of an assassinated former prime minister, arrived at the palace in a gilded state coach preceded by four pages on horseback and followed by a second coach carrying the begum's retinue.

Of all the low-priced cars—

FORD IS FIRST

WITH WHAT YOU WANT MOST

V-8 POWER

—for smoothest, most responsive "Go"

Ford is the only car in the low-price field to offer V-8 power today! And Ford's 130-h.p. Y-block, low-friction design gives you sensationally smooth, responsive "Go" in all driving ranges, wrings *all* the power from every drop of gas.

BALL-JOINT SUSPENSION

—greatest chassis advance in 20 years

Ford alone among the low-priced cars has Ball-Joint Front Suspension. All riding and handling is consistently easier, and that "new car feel" lasts far longer. Lubrication points (points of wear) are reduced from 16 to only 4.

TREND-SETTING STYLE

—it sets a pattern for the industry

Only Ford in the low-price field has smooth-lined, clean-cut styling that will stay right in style for years to come. And every Ford has upholstery which is color-blended with interior trim and exterior body color of your choice.

WIDE CHOICE

—the widest in the industry

You may choose from 3 great lines . . . 28 beautiful models. This wide selection includes the world's favorite convertible . . . and the greatest line of station wagons in the industry. You have your choice of either V-8 or Six power.

ALL THE POWER ASSISTS

—choose just the ones you want

Ford offers the most advanced power assists in its field . . . the kind you'd usually expect only in higher-priced cars. There's Power Steering, Power Brakes, Power Windows (both front and rear) and a 4-Way Power Front Seat.

HIGHEST RESALE VALUE

—used car prices prove it

Analysis of used car prices shows that Ford returns a higher proportion of its original cost at resale than any other car in the low-price field. It's another big reason why it pays to own and drive Ford . . . *America's best buy!*

COME IN...LEARN ALL THE REASONS WHY FORD IS FIRST! F.O.B.

Oklahoma Will Get Good Game Out Of Frogs, Martin Says

FORT WORTH (AP)—The youngest football squad in Texas Christian's history plays Oklahoma, the nation's No. 1 team, Saturday, but Coach Abe Martin says, "We'll give them a pretty good afternoon."

Especially if the TCU sophomores remain ignorant.

Those sophs, playing as a unit behind a team made up of experienced men, haven't found out yet that you're not supposed to score every time you get the ball.

They probably will find it out at Norman Saturday against the Oklahoma powerhouse but at Lawrence, Kan., last week they apparently hadn't been informed—they made four touchdowns in 18 minutes and won the game over Kansas 27-6.

Directed by Charles Curtis, gangling quarterback who went to Oklahoma but changed his mind and came to Texas Christian, the sophomore team has been licking the varsity. It is called the best sophomore outfit at TCU since the days of Davey O'Brien. O'Brien quarterbacked a national championship team in 1938.

Nobody is predicting victory over the Sooners and Dutch Meyer, former TCU head coach and now athletic director, who scouted Oklahoma in its 27-13 victory over California, says Oklahoma is "one of the finest teams I ever saw and Kurt Burris at center is the best line-backer since Ki Aldrick (All-America at TCU in 1938). Buddy Leake is one of the finest backs in the country. Both are All America."

But Meyer, who hasn't seen TCU play although he knows all about the Horned Frog personnel, thinks the Frogs can complete some passes on the Sooners.

Actually, TCU never has been run out of the park by Oklahoma. The Frogs have played the Sooners five times, won twice and lost three times, but haven't met Oklahoma since 1948. The Sooners had just started growing into the national powers they are today.

TCU has a better offense this year than last and the defense is about as good. It boasts its finest running attack in many a moon. Attesting to that fact was the 284 yards rushing made by the Frogs in the conquestion of Kansas.

The young team—the all-sophomore unit—is the one with the power although the older outfit is good, too. This Curtis boy stands out with his ball-handling as the Frogs use the Split T invented by Don Faurot of Missouri—the same formation employed by Oklahoma. Jim Swink is the top runner.

Fans here are comparing Saturday's struggle with the game last year with Michigan State. The Frogs were playing the top-ranked team of the country then and weren't given as much chance as a straw hat in a cyclone. But they led Michigan State going into the final minutes and were beaten only 26-19. There is more manpower at Texas Christian this season—at least they won't "run out of gas" in the stretch against Oklahoma.

Spahn Expects Years Of Top Pitching Yet

MILWAUKEE (AP)—The first left-handed pitcher in National League history ever to win 20 games in six different seasons figures to keep right on going.

Warren Spahn, only the fourth National League hurler in modern annals to hit the 20 mark that many times, said yesterday after posting a 6-2 win over Cincinnati for the Milwaukee Braves that he thought he'd do even better next season. The triumph over the Redlegs gave Spahn a 1954 mark of 20-12.

"I feel I can win maybe 25 next year if everything goes right," he said. "I think any good pitcher ought to win 20 games a year if he's with a good ball club."

Spahn, 33 years old last April and an old man as major league pitchers go, pooh-poohed any idea that he is nearing the end of the line.

"No, I don't think I'm getting old," he said. "Why should I? I'm still throwing as good as I ever did and I'm a lot smarter than when I was a kid, too. My arm is just as good as it ever was and I still throw only standard stuff. When I get so I have to use such stuff as a knuckler and a palm ball and those things, then I'll know I've had it."

Yesterday's triumph, on his third try for his 20th victory this year, was Spahn's 165th in his 10 years of major league pitching all for the Braves.

Numexers Are Champs

ARTESIA, N.M. (AP) — Artesia's Numexers are the new champions of the Longhorn League.

Artesia grabbed the title, its first since joining the league in 1951, by clubbing Carlsbad 7-5 last night, beating the defending champion Potash Kings in the finals playoffs.

Artesia finished second during the regular season.

Quarterback Club To Have Meet Tonight

High school gridders will be introduced to members of the Quarterback Club when it meets at 7:30 o'clock tonight in the high school cafeteria.

Head coach John Conley will introduce the players and will show club members a film of the Snyder-Ysleta game, which Snyder won 26-12 at Ysleta.

Conley and assistants will also talk about this week's game with Bowie of El Paso, which will be played here Friday night.

The club will make final plans for a pep rally it will hold downtown at 5 o'clock Thursday afternoon in preparation for the coming game. High school students and the band will participate.

New members will be taken into the club, which has set its goals high this year. Last week, at the end of the first week of its membership drive, the organization had about 100 members.

Mays And Avila Hold Major Batting Leads

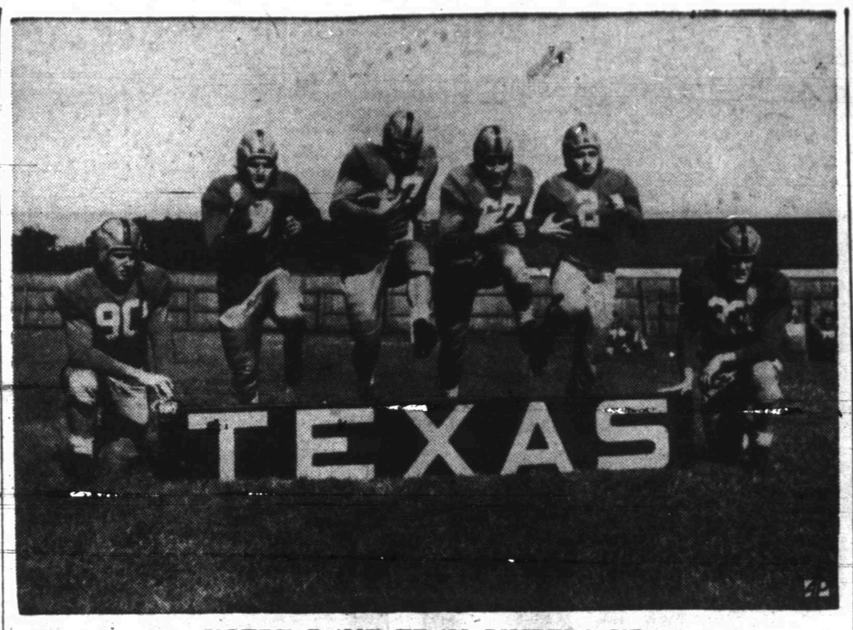

NEW YORK (AP)—Willie Mays of the New York Giants and Cleveland's Bobby Avila probably will bring league-leading batting averages into the 1954 World Series.

Mays took over the National League's top spot last night with a 3-for-5 performance against Brooklyn, giving him a .344 mark.

Meanwhile, Duke Snider of the Dodgers, the pace-setter since June 20, went hitless in three tries and dropped to .340.

Avila holds a comfortable lead over runner-up Minnie Minoso of Chicago in the American League competition. He's batting .337 to Minnie's .326.

Bill Marker, West Virginia end missed the College All-Star Football game last season because he had a date with his girl.

NOTRE DAME TEAM LIMBERS UP

Notre Dame's football team, which plays Texas Saturday under a new coach, Terry Brennan, is pictured in some unusual practice at South Bend, Ind. Co-captains Paul Matz, left, and Dan Shannon, right, hold the sign. Backs, left to right, are Don Schaefer, full; Jim Morse, left half; Nick Raich, right half, and Tom Carey, quarter.

Texas Tech Charges Talked By Southwest Conference

By HAROLD V. RATLIFF
Associated Press Sports Writer

The special meeting of the southwest conference in Dallas Sept. 12 was supposed to have confined itself to the problems of recruiting.

Rumors about some of the schools going over the line in snaring schoolboy athletes were discussed. Nothing was done but a rule was passed that the relative of a prospective athlete could not be promised a job or assistance in obtaining a job.

That was supposed to have been all that was discussed. At least, that's all that was reported from the executive meeting.

Now comes the rumor that the conference fathers also talked about Texas Tech, a school that's been trying to get into the league for 25 years. It didn't concern Tech's desire to get into the conference, however, but the question of conference members trying to proselyte athletes that already had been signed up by Texas Tech.

Coach De Witt Weaver of Tech had brought the matter to the attention of the conference schools by letters to the athletic directors. The substance of the issue was that while Tech had been honoring the Southwest Conference's letter of intent—keeping hands off of an athlete who had signed to go to a southwest conference school—it wasn't a reciprocal proposition. It seems some of the conference schools were trying to get athletes who already had agreed to go to Tech.

Tech came out quite O.K. in fact, the big West Texas school got entirely too many good athletes to suit some of the Southwest Conference folks. But Weaver apparently is in a mood to go after some of those who have signed with Southwest Conference schools unless the conference members agree to honor his contracts, too.

So, it is said, the conference faculty committee talked about an agreement with Texas Tech to ward off the impending war. Apparently nothing was done, however, since Texas Tech undoubtedly would have been informed of it had an agreement been reached. For that matter, an announcement likely would have been made by the Southwest Conference.

The Southwest Conference, which has been bragging that it is the best regulated and cleanest league of them all in recruiting of athletes, may earn another kind of reputation if something isn't done about this situation.

Harry Stuhldreher, one of Notre Dame's famous "Four Horsemen" of the 1920's, was Villanova College coach of Arthur Raimo, now assistant football coach at Yale University.

The San Jose State (Calif.) basketball squad has lost only one letterman. Last season the Spartans lost six of their first eight men to armed services and injuries.

SPORTS

Clippers Need Only One Win

WACO, Tex. (AP)—One game up on Waco in the final playoff series, Corpus Christi's Clippers go after the Big State League championship here tonight.

The Clippers need one more victory to take the pennant of the Class B league, following a 10-1 victory at Corpus Christi last night that gave them a 3-2 edge in the best-of-seven series.

Waco needs to win tonight to stay in the series and again tomorrow night to take the title.

Both sides have their aces ready for duty tonight. Jim Vitter (23-13) is scheduled for Corpus Christi, facing Don Kildoo (20-7) of the Pirates.

Dinty Moore's four-hitter set the Pirates down last night as the Clippers closed out their home season before a crowd of 3,800.

Moore struck out six, walked five, and left the bases loaded twice as he hurled the Clipper victory. A home run by relief pitcher Myron Hoffman provided Waco's only run in the seventh inning.

Walt Peterson, who drove in four runs with a triple and a single, paced the 11-hit attack on starter Ronnie Sheetz, Hoffman and Ernest Johnson, who finished for Waco.

Abilene Holds Onto Rating

DALLAS (AP)—Abilene is the top Class AAAA schoolboy football team in the state for the second straight week, according to Texas sportswriters polled by The Dallas Morning News.

The Eagles, a near-unanimous choice in the first week of the poll, lost ground slightly this week to second-place Port Arthur and third-place Baytown, which held their opening-week rankings.

Others in the top 10 include Odessa, Corpus Christi Ray, Houston Lamar, Lubbock, North Dallas, Waco and Midland, in that order.

Midland was the only addition to the list. The Indians took over 10th place, bouncing Corpus Christi Miller.

Manager Charley Grimm of the Milwaukee Braves says his feat of playing a left handed banjo is an easy choice. Just turn himself or the banjo upside down.

Five Games This Week Activate Southwest Negro Conference

By The Associated Press

The Southwest colored conference swings into action this week with five important games on tap. Only one is a conference affair—Bishop of Marshall invading Langston, Okla.—while the others are intersectional or intereonference.

The big battle of the week will be at Houston where Texas Southern University clashes with the Southern Jaguars of Baton Rouge.

Texas College will make its annual trip to Florida to play Florida A&M at Tallahassee Saturday.

Arkansas A&M journeys to Jefferson City, Mo., to tackle Lincoln.

Wiley will be the guest of Philander Smith at Little Rock Saturday night.

The national Negro champion Prairie View Panthers will not see action again until Oct. 2 when they play Bishop at Marshall. Prairie View opened the season last week with a 26-21 victory over Fort Hood.

Oklahoma Far Out In Front Of Irish

By ED CORRIGAN

NEW YORK (AP)—The University of Oklahoma, ranked right behind Notre Dame in pre-season forecasts, reigned today as the No. 1 college football team in the country pending returns from all the precincts.

Sad Bud Wilkinson's Sooners, who crushed California 27-13 in their opener, were all alone at the top of the first weekly Associated Press poll of the season. The nation's sports writers and sportscasters gave them 56 first-place votes, good for 789 points.

Notre Dame, which will get its baptism of fire under Terry Brennan against Texas Saturday, was ranked second with 613 points. The Irish were followed, in order, by Maryland, Texas, Georgia Tech, Illinois, Michigan State, UCLA, Mississippi, Baylor and Wisconsin—the latter two tied for tenth.

Georgia Tech, which was idle in the pre-season poll moved past Illinois, which hasn't played yet, on the basis of its crushing 26-6 victory over Tulane. That was the only change of any importance over the pre-season poll.

The top 10 teams with first place votes in parentheses and total points, based on 10-9-8-7-6-5-4-3-2-1 basis.

1.	Oklahoma (56)	789
2.	Notre Dame (11)	613
3.	Maryland (9)	571
4.	Texas (3)	541
5.	Georgia Tech (2)	375
6.	Illinois	273
7.	Michigan State	237
8.	UCLA (2)	232
9.	Mississippi (1)	152
10.	(tie) Baylor	142
10.	(tie) Wisconsin	142
	Second ten	
12.	Iowa	118
13.	Rice	85
14.	Texas Tech (1)	76
15.	Southern California	76
16.	Oregon	49
17.	California	44
18.	(tie) Army	43
18.	(tie) Duke	43
20.	Texas Christian	26

SETTING UP SCORE

Texas halfback Delano Womack (44) goes off his left tackle in the first quarter against Louisiana State to gain four yards to the one foot line and set up his team's first score in the game at Austin. Hitting the ball carrier is LSU center Larry Jones (55). Texas guard Kirby Miller, left, attempts to block out Louisiana guard Enos Parker (60).

Series Entries Had Training In Arizona

By BEN PHLEGAR
Associated Press Sports Writer

The Cleveland Indians and New York Giants open the World Series in the Polo Grounds a week from tomorrow and the flags in Florida probably are flying at half mast.

For the first time since baseball magnates became convinced their athletes would be better conditioned for the 154-game grind with the help of warm sun and palm trees in the early spring, Florida doesn't have a World Series entry.

The Indians and Giants shunned the orange juice circuit for the sands and sun of Arizona. With only the Chicago Cubs and Baltimore Orioles around for major league companions, the two clubs played each other often enough to know the players by heart.

On their barnstorming tour back to the majors the Giants whipped the Indians 13 times in 21 games, often by such scores as 20-14 or 13-9.

Al Lopez flatly predicted a pennant for his Indians and made good as of last Saturday. Now he's after a new all-time high in victories.

Leo Durocher said he never made predictions, then quickly added his Giants, with the return of Willie Mays, "will be a lot stronger."

"Brooklyn is the team to beat," Leo said in April.

He followed his own advice. He beat them opening day with Willie Mays hitting a 425 foot home run and last night in Ebbets Field, home of the Dodgers, Durocher's men clinched the pennant with a 7-1 victory.

Appropriately Willie Mays picked the occasion to take over the National League batting lead with three hits. The "Say Hay" kid, released from the Army just in time to reach training camp, is battering the ball at a 3.44 clip.

Sal "The Barber" Maglie was razor sharp as he scattered five hits. The only Brooklyn run came in the third when Maglie's control deserted him momentarily and he walked Pee Wee Reese and Duke Snider with two out. Gil Hodges followed with what started out to be a routine fly, then it sank rapidly in the murky night and fell just in front of Mays, who made a belly slide on the slick turf.

The Giants jumped off to a two run lead in the first inning on a walk to Whitey Lockman, Al Dark's single followed by a sacrifice and singles by Mays and Hank Thompson

Don Mueller's single and doubles by Thompson and Monte Irvin produced two more in the sixth and wrapped up the flag for sure

Durocher called his team a better outfit than the 1951 pennant winners who caught Brooklyn and won in a playoff after being far behind in mid-August. Walt Alston, freshman manager of the losing Dodgers, congratulated Leo and said: "There is a lot of difference between those two teams, mine and his. I only hope he can go out now and beat Cleveland."

While the Giants were clinching their flag, the Indians won their 11th straight and ran their victory total to 109, only one short of the American League record set by the 1927 Yankees

Bobby Feller pitched the Indians to a 7-4 triumph over the Chicago White Sox with the help of home runs by Larry Doby and Vic Wertz. Cleveland has five more games to play.

The battles for fourth place, and its share of the rich World Series loot, tightened in both Leagues. Cincinnati split with Milwaukee, winning 3-1 after losing 6-2, and holds a two game lead over St. Louis. The Cardinals defeated Chicago 7-2 with five runs in the 10th inning. The idle Philadelphia Phillies are less than half a percentage point behind the Cardinals.

Boston held fourth in the American League with a 5-2 triumph over the Athletics. Detroit, half a game back of the Red Sox, defeated Baltimore 4-3 and Washington, another half game behind, shaded the Yanks 3-2.

ABOVE THE BLEACHERS

By DALE WALTON

Season tickets got off to a fairly fast clip yesterday, says Forrest Beavers, who is heading up sales in his office in the courthouse.

Most of the sought-after 50-yard line seats, except those up high, were gone by yesterday afternoon.

The sales will continue until noon Friday. Friday night the Snyder Tigers will be hosting Bowie of El Paso, so reserved seats for that game will go on sale in Beavers' office that afternoon.

There are four games at home this season, all of them matching the Tigers with fairly strong opponents. Bowie is a favorite in its Class AAAA district, while Breckenridge and Plainview have both been picked as contenders for the title of this loop. Vernon, they say will be a rough one this time. It's always a rough one for Snyder. The Tigers will be trying for revenge for defeats during the last two years by that team.

NOTES

J. B. Davidson, who is handling reservations for roundtrip bus tickets to El Paso next week for the Thomas Jefferson-Snyder game, said those going must be figuring on taking their cars. Those interested in riding a chartered bus at $10.21 per ticket to the game were to contact him, and he has had no contacts . . . Charlie Boren, Snyder grid star of the 1940s, is now an assistant coach at Palestine. He formerly coached at Rosebud . . . . If you didn't see the Snyder Ysleta game, tonight's your chance to view the film on the game. All interested are invited to the meeting of the Quarterback Club.

RUSHING AND PASSING

In case you want to compare teams in this district as far as rushing and passing is concerned, here are the figures for play so far. All the results are from one game, except on Lamesa, which has played two. So far, Levelland is rushing leader of the district, followed by Breckenridge. On passing, Breck has the highest completion record, but it gained nothing on its passes. Plainview passed the most but has a completion record of only 25 per cent. Sweetwater has completed the most passes for the most yardage. Both Sweetwater and Plainview have made more yardage in the air than on the ground. The Tigers, with a 40 per cent completion record, have the highest per-pass average (30 yards) of any team in the conference.

	Rushing	Passes		Pass Yds.
Levelland	394	7	of 19	81
Breckenridge	349	2	of 2	0
Snyder	326	2	of 5	60
Lamesa	271	8	of 28	93
Big Spring	193	2	of 10	38
Plainview	107	8	of 32	118
Vernon	98	5	of 16	71
Sweetwater	84	11	of 17	149

WILD WEST SHOW

Trapped at last by police, bystanders and three automobiles, Billy the Bull is lassoed and made ready for the return trip to the Denver, Colo., Union Stockyards. The 700-pound animal escaped from the yards and was captured 16 blocks away on what normally is a quiet Denver street. Police "credited" about 300 youngsters and adults with helping in the capture.

Mitchell, Hall Are Study In Contrasts

WASHINGTON (AP) — A brisk, sharp-tongued Chicago lawyer and a big, jovial ex-judge from New York are slugging it out these days as the fight for control of the 84th Congress warms up.

Stephen Arnold Mitchell, chairman of the Democratic National Committee, and Leonard Wood Hall, his Republican counterpart, are the rival contestants. Neither is running for office himself, but either Hall or Mitchell will get a major share of the credit or blame when the voters award the decision Nov. 2.

Who are Hall and Mitchell? What do they do?

Well, above all they are full time professionals who live and breathe politics. They map — or help map — strategy. They raise funds. They supply statistics, slogans, speeches and speechmakers to the 1,047 candidates for Congress throughout the country.

They oversee their parties' national organizations, coordinate the work of the various units which specialize in appeals to this or that group of voters. They try to keep their parties unified — to woo back stragglers and iron out family fights.

One of them — in this case Hall, whose party is in power — has a voice in doling out the relatively small number of political patronage jobs that are available.

In campaign years like this one the chairmen take to the road often and issue party statements more often still. Mitchell has traveled to every state except south Carolina, and means to go there by election day. Hall has ranged from coast to coast, too.

If energy on the part of a national chairman were all it took to win an election, the Democrats could start claiming victory today.

Mitchell, 51, is on the go constantly. "I've worked for five chairmen," one of his aides says, "and I've never seen one work as much as he does. Twenty-four hours a day! I don't see how he stands it."

Hall, who'll be 54 Oct. 2, is notably energetic himself but doesn't try to equal Mitchell's pace. He usually manages to spend weekends at his home in Oyster Bay, N.Y., the Long Island community which was home to Theodore Roosevelt.

Whichever chairman winds up on the winning side, the victory will be his first on a national scale.

Hall, who took over for the Republicans only last year, has never before called signals in a general election, though he got himself elected to Congress seven times and, in 1952, managed the Eisenhower campaign train.

Mitchell took over for the Democrats right after the '52 nominating convention, and was their chairman in the campaign which saw Adlai E. Stevenson mowed down by the Eisenhower special.

The two men are on good terms personally and joined this week in a pledge to avoid dirty politics in the rugged weeks ahead.

Mainly, though, Mitchell and Hall are a study in contrasts.

Steve Mitchell, hand-picked by Stevenson for his present post, was a self-acknowledged political novice when he took it. Len Hall — often called "Judge," though his tenure as surrogate judge in his native Nassau County was only a few months — has been in politics most of his life.

Hall was picked more or less by acclamation when the GOP needed a new chairman last year. Though a member in good standing of Gov. Thomas E. Dewey's New York organization, he had the ready support of the late Sen. Robert A. Taft of Ohio and many other Republicans of the non-Dewey persuasion.

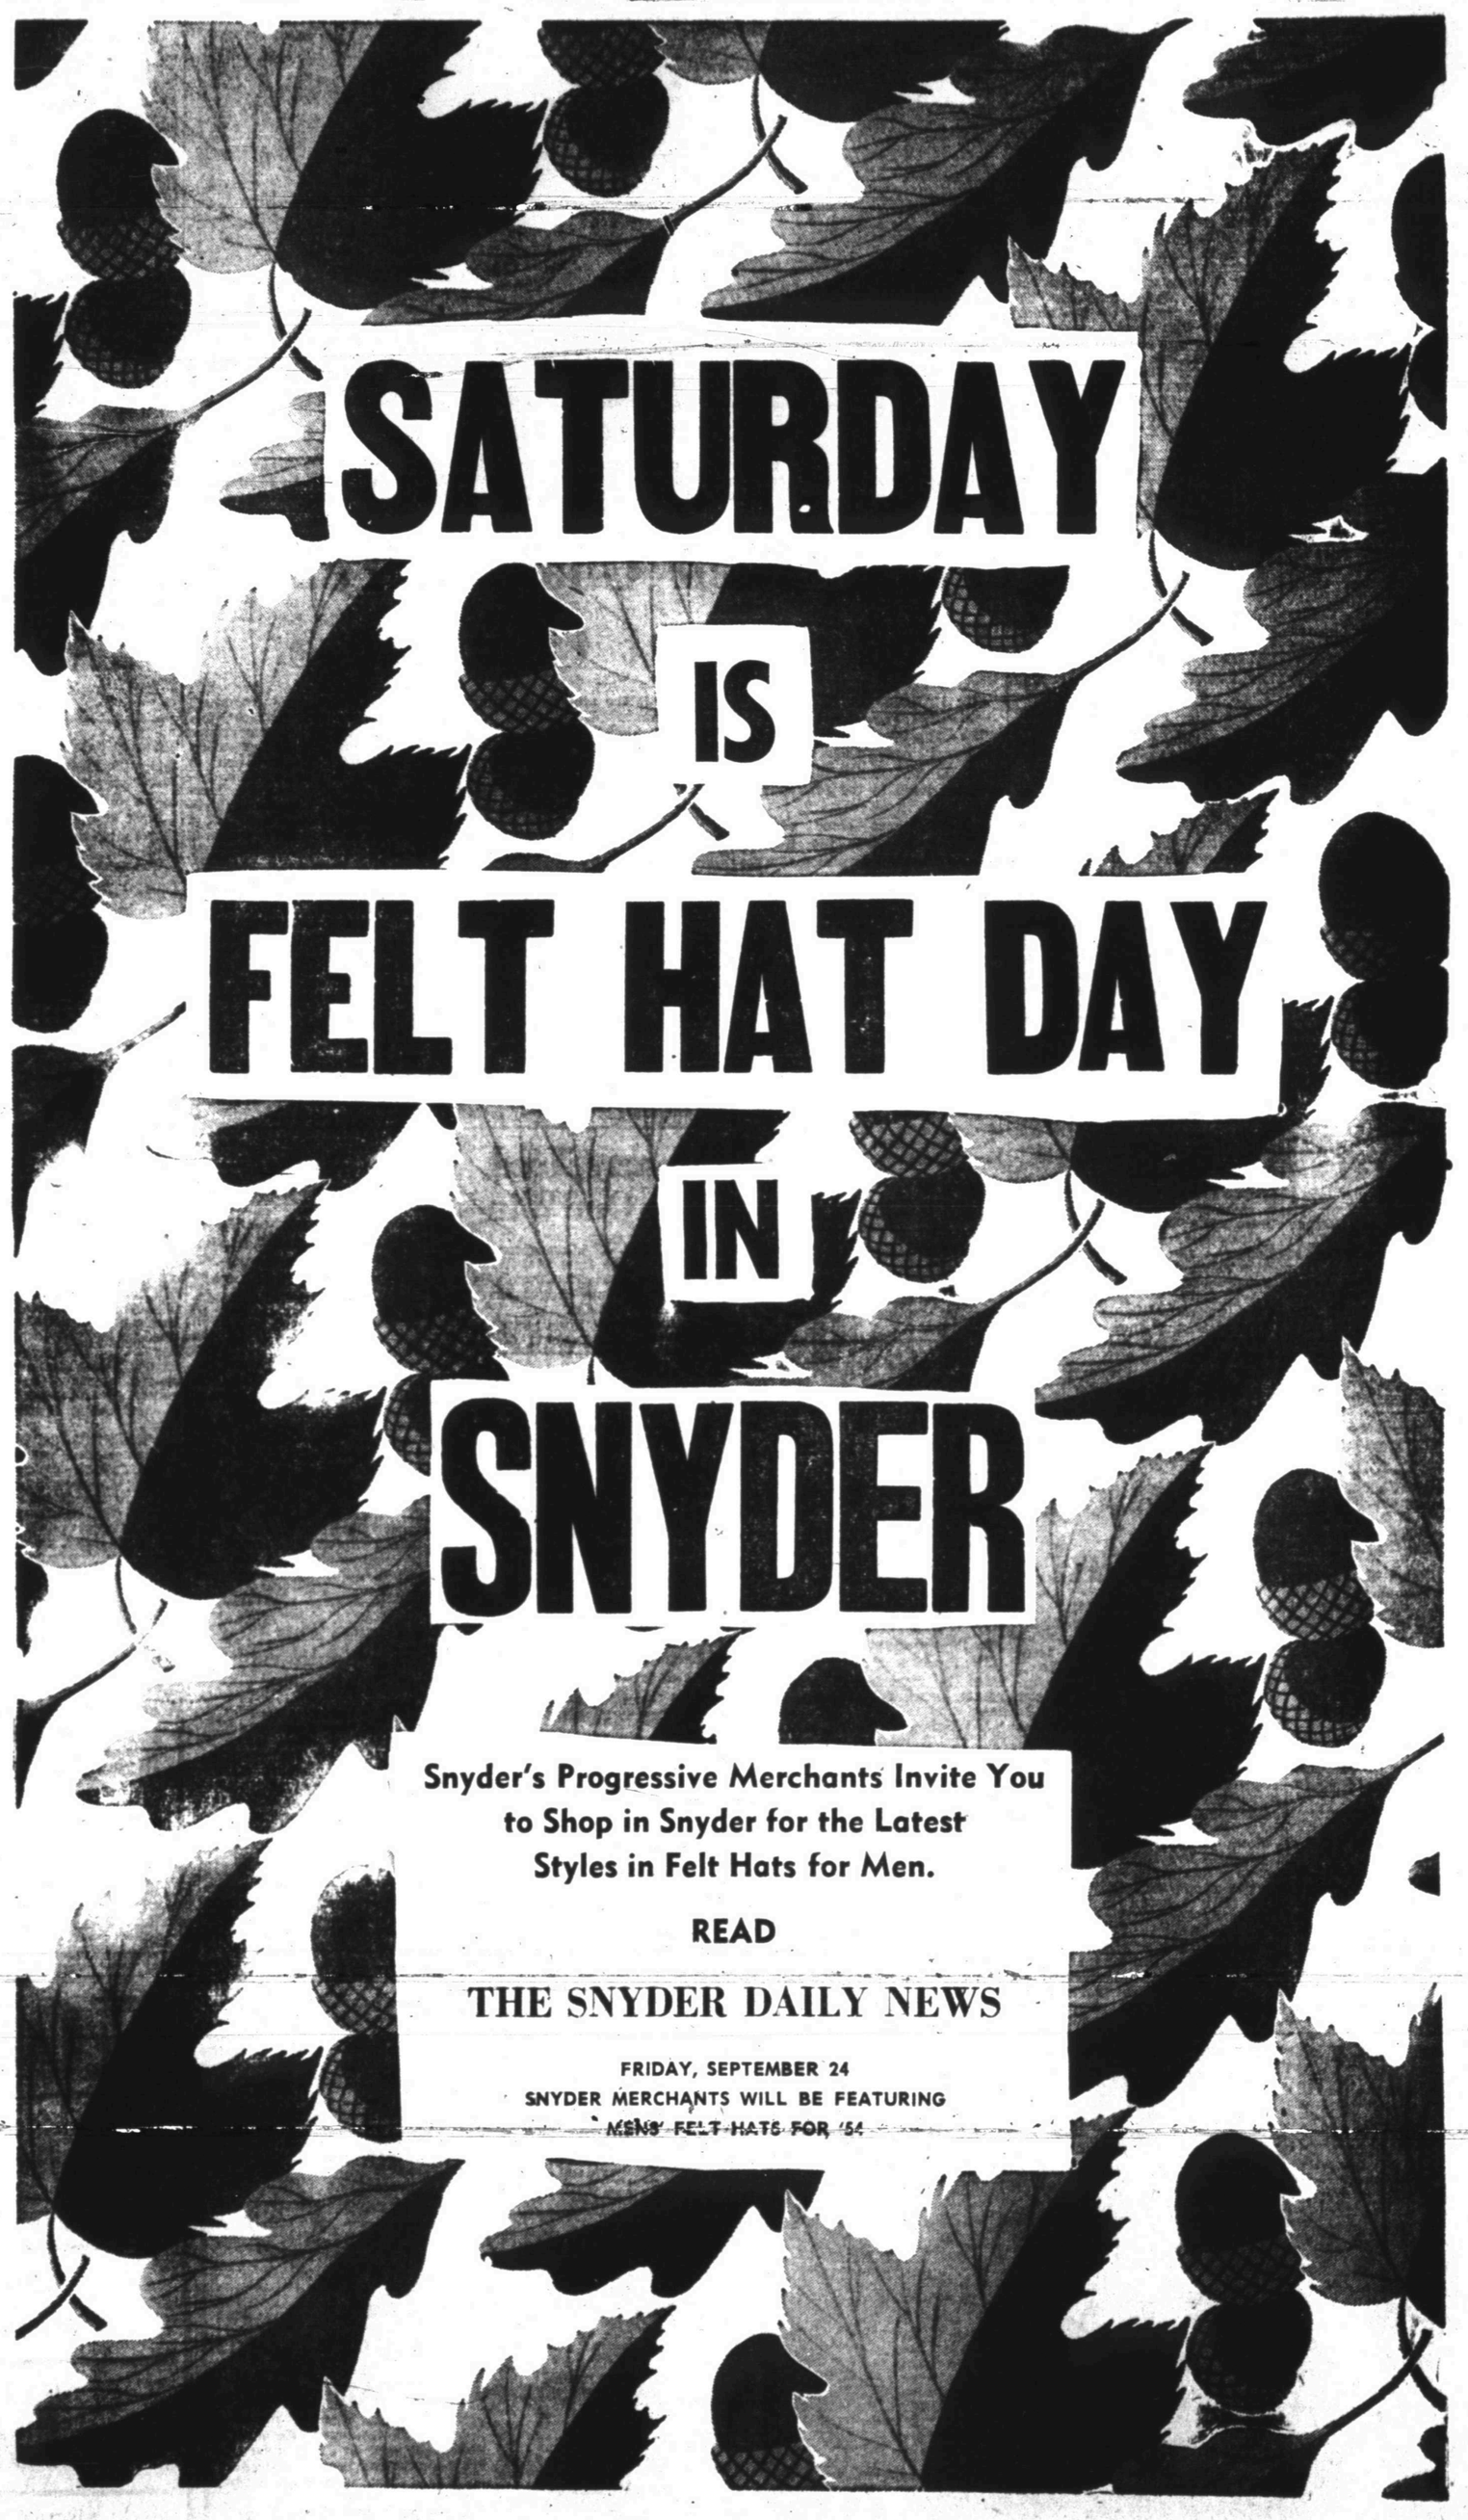

Mitchell, on the other hand, had to overcome a Johnny-come-lately reputation among many veteran Democrats. Some didn't like his close association with Stevenson. Others didn't care much for the work he had been doing — chief counsel to a House subcommittee which had been investigating the Justice Department under the Roosevelt and Truman administrations.

While Hall was learning the political ropes in Congress, Mitchell was working in the executive branch of the government. He became the State Department's chief specialist in French economic affairs before going back to Chicago and a law practice — with Republican partners, incidentally — which reportedly earned him $50,000 a year.

NAVAL AIR LIFT

Officers and enlisted men aboard the U.S. Navy submarine Seal Owl v[illegible] Vice Admiral Thomas S. Combs as he is lifted from the su[illegible]ock to a helicopter for flight to his flagship, the USS [illegible] recent Navy maneuvers off the coast of Greece. Adm. Co[illegible] commander of the U.S. Sixth Fleet.

ROAD TESTS SHOW:

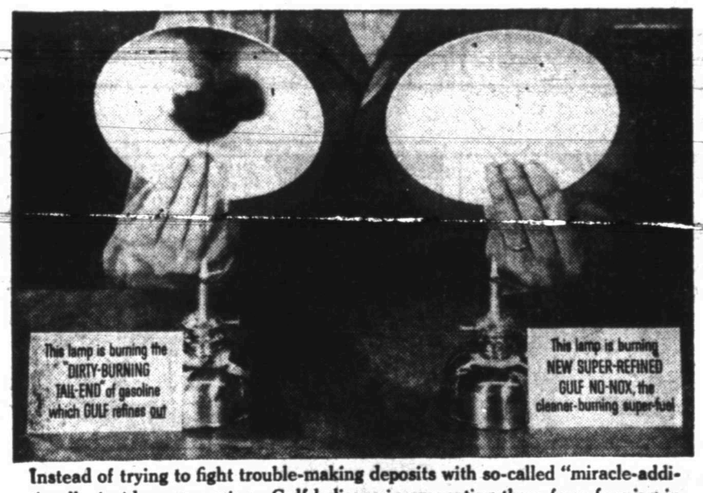

GULF'S COMPLETELY NEW AND DIFFERENT GASOLINE...

ACTUALLY MAKES CARS PERFORM BETTER THAN NEW...

AFTER 15,000 MILES!

NEW SUPER-REFINED GULF NO-NOX

HIGHER-THAN-NEW *HORSEPOWER!* BETTER-THAN-NEW ON *GASOLINE MILEAGE!* AND NOT A SINGLE TRACE OF CARBON KNOCK OR PRE-IGNITION AT ANY TIME—EVEN ON THE STEEPEST MOUNTAIN GRADES!

Instead of trying to fight trouble-making deposits with so-called "miracle-additives"—*inside your engine*—Gulf believes in preventing them from forming in the first place. That's why Gulf, in making new Super-Refined NO-NOX, refines *out* the carbon-forming, "dirty-burning tail-end"—more than a cupful in every gallon. Just look at the plates the Gulf scientist is holding in the unretouched photo above, and see what a difference Gulf super refining makes!

Now—Gulf refines out the "dirty-burning tail-end" of gasoline—the No. 1 troublemaker in high-compression engines. Result: a cleaner-burning super-fuel that gives you thousands of *extra* miles of full engine power . . . free from knock or pre-ignition.

Starting with your first tankful, this new, super-refined, super-powered fuel will give you these *immediate* and *lasting* benefits:

- **More complete engine protection** than the so-called "miracle-additive" gasolines. Why? Because Gulf refines *out* the "dirty-burning tail-end" of gasoline, the No. 1 troublemaker in high-compression engines—and then treats this new Super-Refined NO-NOX to give it *a complete range of protective properties.* It protects *every* part it touches against harmful deposits—carbon, rust, gum.
- **Extra gas mileage.** Why? Because new NO-NOX is *specially blended* for the short-trip, stop-and-go driving you do most.
- **No knock, no pre-ignition**—even in today's *super*-compression engines. Why? Because the anti-knock power of new NO-NOX has been stepped up to an all-time high.
- **Stall-proof smoothness**—no more worries about carburetor icing in chilly weather, or vapor lock on warm days. Instant *starts,* too—and fast, fuel-saving warm-up.

That's why new Super-Refined Gulf NO-NOX gives you more power-with-protection than you've ever known.

VICTIMS RE-ENACT ROBBERY

Sadie Renfro, left, Pat Maez and Yvonne Dunnaway show how a lone bank robber made them lie down behind the tellers cages at the Five Points Branch of the Bank of New Mexico in Albuquerque while he made off with $111,370. After the robbery, Mrs. Renfro told a reporter, "I was very scared. He was very polite and courteous and calm. He said, 'I'm sorry I had to do this.' "

Vishinsky Expected To Cause Usual Trouble At U. N. Meet

By JAMES MARLOW

WASHINGTON (AP)—Andrei Vishinsky can be relied on to make as much trouble as possible among the Western Allies in the United Nations General Assembly which opens its ninth regular session today in New York.

Since the Allies already are having plenty of trouble on their own, centered around the problem of rearming West Germany, anything Vishinsky accomplishes in the way of dissension will be just extra gravy for the Russians.

Vishinsky, who keeps coming back as Russia's delegate to the U.N., no doubt will try to split the United States a little further from its friends on the subject of Red China by making a pitch to get the Communist Chinese seated in the world organization and the Nationalist Chinese ousted.

The British recognize the Communists as the legitimate government of China. The United States is tied to the Nationalist Chinese on Formosa.

But, since the British will go along for postponement for a while, the United States should be able to block U.N. action on Red China this year. Sooner or later, perhaps in 1955, it must face a showdown.

Vishinsky will probably talk disarmament again, but not with a plan this country would accept. The United States may offer an extension of President Eisenhower's proposal of last year for a world pool of atomic materials for peace.

And before it's over this U.N. session may disclose how much, if any, this country's influence among its friends has declined. But meanwhile the major problem of this country and its friends will be in Europe: Germany.

After addressing the U.N., Secretary of State Dulles hopes to leave Saturday for a London conference called for next Tuesday by British Foreign Secretary Eden. Nine Western powers will discuss letting the Germans have guns again. Those attending will be the United States, Britain, France, Canada, Italy, West Germany, and the three Benelux countries—Belgium, Netherlands, and Luxembourg.

In mid-October the United States and the other nations in the North Atlantic Treaty Organization (NATO), will meet in Paris to discuss the same problem. No solution is in sight yet.

The United States and Britain wanted to see a rearmed Germany in a single European army with the French, Italians and the Benelux countries.

The Allies had agreed that once the single army was created and Germany became a part of it, Germany would regain her sovereignty, which she doesn't have now. The United States, Britain, and France, with their occupation troops in Germany, keep their thumb on the government of Chancellor Adenauer.

The French stalled for two years, dreading the thought of a rearmed Germany and fearing the Germans eventually would control a single army. Finally the French Assembly scuttled the whole idea. Western defense plans were shot to pieces. Adenauer began demanding full sovereignty.

Now Western officials are seeking a plan on which all can agree for restoring arms and sovereignty to Germany. Here are some of the main questions which reveal the Allies' dilemma:

Should Germany have full sovereignty? If she's rearmed should there be strict controls on how much rearming she does? Should there be limits on how much rearming any of the Allies can do? Will Britain and the United States make promises to France that they will never let the Germans get into a position of attacking or dominating France?

Only one thing is clear: Western defenses against Russia are weak so long as Germany is unarmed.

Jury Assesses Term In Jail, Fine Of $500

A county court jury of six men, of whom half were Negroes, assessed a one-year jail sentence and a fine of $500, plus court cost of $28.50, yesterday against Vernon Clay, Snyder Negro charged with bootlegging.

Clay, a previously convicted bootlegger, was tried on a charge that alleged he had possessed on or about April 24 large amounts of beer, wine, and whisky for purpose of sale in a prohibited area.

The sheriff, Homer Whisnand, testified the liquor in question was confiscated by him and another officer from the Clay Bros. Hotel on that date. Two other Negro men were arrested at that time but released on April 29 after signing sworn statements that the liquor belonged to Clay.

One of these men, Sammy Riggins, about 18, testified for the state that Clay had requested that Riggins allow him to keep the liquor in the apartment that he had rented to Riggins. The other man was Riggins' brother, Jesse James Riggins, about 21, who also was a state's witness.

Clay was represented by his attorney, Pat Beene, who gave notice after the verdict was returned that he would file motion for new trial and would later appeal the court's decision in the event a new trial was denied.

The defense has 10 days in which to file such motion, during which time the defendant may remain free on his present bond.

Prosecution in the case was by Wayland G. Holt, county attorney. Judge Edgar Taylor presided.

Jurors were Bill Miles, John Baker, Charles Hunter, Negroes, and Austin Higgins, J. H. Kimmel, and E. E. Hataway.

If not the first time, it was one of the first times that a Negro has served on a jury in trying a case in this county. There has been at least one prior instance in which a Negro was on a jury panel for this court, but he was not selected to serve in a trial.

24 Enrolled For Industrial Training Here

Twenty-four students are now participating in the high school's program of industrial cooperative training.

The ICT program in the school provides for students to study their various fields of interest in school, as well as taking regular academic work, and to be employed part-time here in industrial jobs.

J. C. Jackson is ICT instructor. Students are in more than 14 types of positions. Included are two nurses aids, two laboratory technicians, one florist, three carpenters, two automobile body repairmen, one dental assistant, one optician, one machinist, three auto mechanics, one dry cleaner, two landscape gardeners, one electric motor repairman, one electrician, and one plumber.

The school has appointed an advisory committee of Jackson and several other persons here to meet several times this year and to review work in the ICT program and to present any comments made by residents here concerning the program. Members of the committee other than Jackson are E. H. Williamson, J. B. Davidson, Bill Ballard, W. E. Hukill, and Dale Walton.

The local students in the program recently organized, with Butch Martin as president. In addition to local meetings, the students will participate in three other meetings. Two of those will be district meetings, one Oct. 2 at Merkel and one March 5 here. Included in this district are organizations in the Abilene-Big Spring-Snyder area. District officers will be elected in the October meeting, except for president and vice-president, who will be elected in a state meeting at Waco next spring. In the district meetings, competition is held in speed and skill in the students' occupations, identification in their fields, parliamentary procedure, and ways, means, and techniques of securing jobs. District winners will compete in the state meet.

47th Division To Be Retired From Service

WASHINGTON (AP)—The last of eight National Guard divisions called to the colors in the Korean emergency will be formally retired from federal service in three months.

The Army announced yesterday that it will return the name and colors of the 47th Division to Minnesota and North Dakota in December.

Deactivation of the 47th will cut Army strength to 17 combat divisions, three below the 20 in service during the Korean War.

Two Snyder Patients Treated At Gonzales

Two Snyder polio patients, Fred James Wilkinson and Glenda Fae Langley, have been admitted to Gonzales Warm Springs Foundation for Crippled Children.

Glenda Fae, five years old, is the daughter of Mr. and Mrs. Lloyd Langley, Green Hill Apartments. Fred James, two, is the son of Mr. and Mrs. Fred B. Wilkinson, Jr. Both were stricken with polio late in June and received treatment at Hendrick Memorial Hospital in Abilene.

Million A Day Spent To Build Highways

LOS ANGELES (AP)—Gov. Goodwin J. Knight says California is spending a million dollars a day for highways.

The governor spoke yesterday at a groundbreaking ceremony at the site of an overpass at Sepulveda and Sunsets Blvds.

Barbara Plans Divorce

HOLLYWOOD (AP)—Actress Barbara Rush says she will seek a divorce within a month from actor Jeffrey Hunter.

"We have been apart too much on our respective jobs," the brunette beauty said as the couple parted yesterday.

Married Dec. 1, 1950, they have one child.

Comedian Recovering

LOS ANGELES (AP)—Carl Switzer of the original "Our Gang" comedies is recuperating after an emergency appendectomy.

Switzer, who played the role of "Alfalfa" in the early films, underwent surgery Sunday night at Temple Hospital.

Butterfield Plans To Quit Writing

By SAUL PETT
(For Hal Boyle)

NEW YORK (AP)—Charley Butterfield—you know the byline as "C. E. Butterfield"—is retiring as radio-TV editor of the Associated Press.

Around here, that's a little like saying the RCA Building is going to be torn down for a parking lot. Matter of fact, most of us were happily convinced that Charley would still be writing about radio long after NBC became a faded dividend memory in the minds of David Sarnoff's descendants.

But Charley says he's tired and wants to go down to Florida and raise chickens. I don't know why. The kid doesn't deserve a rest. We were just getting him broken in.

After all, he has only been writing about radio more than 30 years. He has been radio editor only 27 years. He has done his column only 22 years.

With all that, the boy is only 52. He started young, at 14, on his family's kitchen table in Champaign, Ill. Charley built an amateur wireless station in 1906.

"In those days," he recalls, "there were no commercial stations. All I got was coded signals from the government stations. I couldn't understand the code but it was fun for me, anyway. It wasn't for the rest of the neighborhood.

"You see, I used an electrolitic rectifier to cut in on the house current, which was A. C. Every time I pressed down on the telegraphic key, it dimmed all the lights in the neighborhood. You should've heard the squawks."

In 1918, he came up to Chicago to do general bureau work for the AP. Within a few years, he was finding stories to write about radio at a time when many people still couldn't spell the word. For example he wrote about Chicago's "silent nights."

On those nights every station in town closed up so radio owners could begin whirling their dials to see how many long distance stations they could pick up. On a good, clear night you could get Los Angeles.

Charley came to New York as AP radio editor in 1927. This was at a time when radio fans were just switching from battery sets, which frequently spilled over and burned a hole in the living room rug, to receivers using house current.

In 1932, Charley made the front pages with an exclusive story. It was the first transatlantic short-wave interview on record. The man on the other end in Vatican City was Guglielmo Marconi.

Even in those days, Charley was firing questions at the experts about a fantastic bit of nonsense known as television. In that interview, Marconi told Charley television's chances were "rapidly" improving.

Charley was writing so long ago about TV the headline writers hadn't even had time to catch up with the name of the new medium. One head over a Butterfield story was: "Sight-seeing by radio."

Now he says he's going to retire in November, which just goes to show you how tough it is to hold on to help these days.

The government of Chile, headed by Pres. Gen. Carlos Ibanez, has decreed a state of siege in most of the country. The decree is a modified martial law. Action was taken "because of the danger of a movement aimed at destroying our democratic way of life."

Nationalists Grant Asylum To Sailors

TAIPEH, Formoa (AP) — Eleven Polish crewmen from the seized freighter President Gottwald have been granted political asylum by Nationalist China, the Foreign Office announced today.

The 5,058-ton freighter was picked up by Nationalist warships while en route to Red China May 13. Poland claims ownership of the Gottwald. The Nationalists contend it is owned by the Sino-Polish Navigation Co., a Chinese concern.

Strip Tease Shows Fading Out In Japan

TOKYO (AP)—The number of strip-tease shows, a postwar fad in Tokyo, has shrunk from 14 to 8, a survey showed today. Sponsors immediately canceled plans for a new luxury theater.

Observers attributed the decline in popularity to the Japanese dancers' tendency to accentuate the strip instead of the tease.

Truck Line Is Closed During Labor Dispute

BIRMINGHAM, Ala (AP)—John B. (Jack) Cole, president of the American Trucking Assn., today kept the major freight line he built from one truck back in 1933 shut down because of a stubborn labor dispute.

Cole and the AFL Teamsters Union are deadlocked over his proposal that his drivers agree to elimination of pay they now receive during breakdowns and layovers.

Cole said his company is in financial difficulties and this action would help the line get back on its feet. The proposal was turned down by the union.

"Non-productive pay," said Cole, accounts for between 20 and 25 per cent of the Jack Cole Co's $200,000 monthly payroll.

The union drivers offered to lend the company 20 per cent of their pay for the next six months. Cole rejected the offer because "we didn't need to borrow money, we needed to make it."

"As far as I'm concerned I'm not going to operate unless I can make money," the company president declared.

He said drivers were being paid off as fast as they presented their trip orders and other claims.

M. R. Sherman, business agent of Teamsters Local 612, had said yesterday that about 50 per cent of the drivers hadn't received their pay. He said some of them were looking for jobs with other firms.

Cole halted operations of his line Thursday.

The Jack Cole Co., which its president said grossed about six million dollars a year, began operations in 1933 with one truck, and with a small garage for headquarters It was incorporated the next year.

The line has about 400 drivers and 500 pieces of equipment. Cole operates in 20 states and has terminals in New York, Philadelphia, Akron, Cleveland, Detroit, Cincinnati, Indianapolis and Chicago.

Woman Drifts 40 Hours With Husband's Body

TOLEDO, Ohio (AP)—For 40 hours after her husband died, Mrs. Iva B. Soncrant was alone with his body on rough Lake Erie in their disabled outboard motor boat.

"I prayed and I cried....only the thought of my three sons kept me battling when the odds against me seemed so large," she said yesterday after fishermen found her 4½ miles offshore and rescued her.

Mrs. Soncrant said she and her husband, Joseph, 57, of Toledo, went fishing Saturday. The boat's motor stalled and Soncrant collapsed while trying to start it.

She said she did not realize Soncrant was dead for two hours. For 40 hours she tried unsuccessfully to attract passing boats with screams and a piece of her skirt used as a flag.

She had to keep bailing water from waves out of her boat to keep it from foundering.

"One of my sons is only 20, and I though he needed me now that his father is gone," she said, "so I kept praying and pumping. . . ."

Honest Nose Count Of Cattle To Be Sought

WASHINGTON (AP) — The government is going to try to get an accurate nose-count of the nation's cattle during the census of agriculture which starts next month.

Announcing this over the weekend, the Census Bureau said it plans to ask farmers how many cattle and calves of all kinds they have, how many of them are milk cows, and approximately how much milk and butter they produce.

The 1950 census of agriculture estimated the nation's cattle population at 76,700,000.

'Clocks' Operating In Living Things Studied By Scientists

By Alton L. Blakeslee
Associated Press Science Writer

WOODS HOLE, Mass. (AP)—Mysterious "clocks" operating in living things are a challenge to some of the scientists at the Marine Biological Laboratory here.

Certain humans can "set mental clocks" to waken at a certain time of morning. How do their clocks work?

Many kinds of living things behave as though regulated by inner or biological clocks ticking off time with amazing accuracy.

Take fiddler crabs, the inch-long ones named because of their fiddle - holding shape. They are being studied by Dr. Frank A. Brown Jr., Northwestern University, who spends his summers here.

At dawn or just before they turn dark in color, the better to run on dark beaches where they live. At night they turn pearly - gray in color. Is it just a response to sunlight or lack of it?

No, Dr. Brown finds, for if the crabs are kept in a photographic dark room, under a steady amount of light and temperature, they will still change color at dawn and dusk, telling time as well as a man-made clock.

The crabs respond to tides, too, turning darkest at low tide. Even in the closed room they will change color according to actual high and low tides on the beaches where they once lived. They are perfect tide charts.

Fiddler crabs from two different beaches, where the times of high or low tides are different, will obey the tide chart for their own beaches, though living far from home.

They show a 24-hour change for the sun cycle, a 12½-hour change for the tide cycle. In tide, they are obeying a moon or lunar cycle, for the moon is a main controller of earthly tides.

Is their biological clock something which is built-in, running at constant speed according to metabolism or the speed of their life cycles? Or is it governed by physical forces connected with the earth's rotation, perhaps by some force which man doesn't yet know can affect living things?

Dr. Brown subjected the crabs to different degrees of temperature. An astonishing thing happened if he chilled them down to near freezing for six hours, then warmed them up again. The chilling stopped their clocks for six hours. When they were warmed up again, they began following the same cycles of regular change—but now they were nearly six hours slow!

That makes it look as though their clocks are built inside. But that's by no means the full strange story.

Not long ago one of Dr. Brown's assistants flew to San Francisco with a batch of crabs, and put them in a room there with constant light and temperature. Another batch was packed up the same way for travel, but kept here and placed in the same kind of room. Those flown to the West Coast became three hours late in time—and in all physical forces connected with the earth's rotation—compared with those remaining here.

On the first day, the crabs on both coasts changed colors at exactly the same time according to dawn and dusk, and tidal changes here.

The next day, the crabs in San Francisco slipped a half hour behind their East Coast "cousins."

But this was only temporary. During the next seven days while they stayed in California, they continued to get dark or light almost simultaneously with the crabs in Woods Hole.

They didn't adjust their "clocks" to the West Coast, and while they stayed in California, they kept on signalling the time of low tide on their native beach on Cape Cod.

This proved they could still measure the 12½-hour tide cycle and 24-hour sun cycle accurately even though they had been flown to the West Coast and had, by flying, changed by three hours in sunlight time — the same gain your watch would show if you flew from East to West.

In the long run their clocks may be influenced by outside forces, Dr. Brown believes. He is devising experiments to learn the possible influence of slight barometic changes, differences in gravitation, even differences in cosmic ray radiation, to which all living things are exposed.

Oysters show a similar kind of rhythm, opening their shells the most at high tide. New Haven oysters shipped to Evanston, Ill., opened most for a couple of weeks at the time of high tide in the New Haven area. Later they slipped out of the New Haven tidal time, and became influenced by Evanston lunar time.

Some kind of harmonics or vibrations definitely seem to affect these biological clocks, Dr. Brown believes. Earthworms, salamanders, fruit flies, and even potatoes give evidence of having biological clocks. The lowly potato, for example, shows daily and lunar rhythms of oxygen consumption. When kept under steady temperature and light, they show, on the average, a high peak of oxygen consumption at 6 a.m. and 3 p.m. in the daily cycle.

Breeding cycles dictated by the moon or other influence are vital for preservation of numerous forms of marine animals, whose males release their sperm and females release their eggs into the water. Unless great numbers of them do this at the same time — as they do —there would be little chance that sperm and egg would meet to start new life.

Rhythms and cycles are observed in many kinds of human behavior, even in economic cycles. Mental patients are reported to show swings of improvement or worsening with phases of the moon. Is it really the moon affecting them? Do the rhythms in human behavior have any connection with biological clocks of some kind? If so, how do they operate, how are they controlled?

The studies of clocks in crabs and other animals can lead to answers.

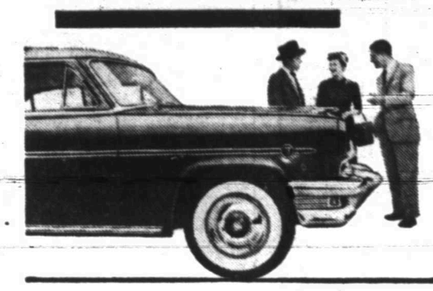

Could the answers show man how to gain new controls over his own life, perhaps by developing powers which he once had or is only dimly aware of? That is speculation, which must await more scientific findings about biological clocks.

DEFENDS STEWARDSHIP

Mrs. Anna Thompson Dodge chats with her attorney, Leo Butzel, in the living room of her son's Grosse Pointe, Mich., mansion just before she began defense of her stewardship of the 57 million dollar fortune left by her auto pioneer husband, Horace Dodge, Sr. The hearing was moved to the home of Horace Dodge, Jr., in deference to her age, 81, and frailty.

WHEN IS A "DEAL" A REAL DOLLAR-SAVER?

"Only when the new car you buy has lasting value. Mercury's 1954 sales records let us give you a real bargain deal on the car that consistently tops its field in resale value!"

Before you make the "best deal in town," take a good long look at the car you're dealing for. A deal is a good one only when you get a good trade-in allowance toward a car that really delivers top value for your money—not only when you buy, but while you drive and when you trade.

We can give you a top trade-in allowance, because official figures show that Mercury dealers are selling more new cars *per dealer* than our competitors. With higher volume, we can take a lower profit *per car*. We can take an honest profit that lets us stay in business, and still match most any other offer you're likely to get.

When a car is "hot," there must be good reasons for it. With Mercury, it's not just a matter of styling—although Mercury's style leadership is one good reason for its popularity. With a brand-new overhead valve V-8 engine developing 161 horsepower, Mercury outperforms other cars in its price class. And Mercury is famous for lower operating and maintenance costs.

The big demand for Mercurys includes *used* Mercurys, as well as new ones. And that's where you get the big plus of extra value when you buy a Mercury. Authoritative market reports on used car values show that Mercury returns more of your original investment when you sell or trade—more than any other car in its field. That's why a deal for a Mercury is a *real* dollar-saver. When you're ready to "deal"—talk to us.

YOU CAN'T MATCH IT FOR THE MONEY—
