Attack On Dag Creates Crisis

U. N. Break Threatened

By MAX HARRELSON

UNITED NATIONS, N. Y. (AP)—The United Nations faced a major crisis today as a result of a shocking Soviet attack on Secretary General Dag Hammarskjöld and his Congo peace mission.

A wide-open break was threatened virtually on the eve of the Soviet Premier Nikita Khrushchev's appearance here.

The Western powers, led by the United States, prepared to rally to Hammarskjöld's support in another round of Security Council meetings beginning this morning on the chaotic Congo situation.

The Soviet attack more bitter than any ever made by a big power against a U.N. secretary general, came Wednesday night from Deputy Foreign Minister Valeriy A. Zorin, newly arrived from Moscow.

It reflected the intensity of the Soviet interest in the outcome of the power struggle in the new African country.

Zorin's blistering 74-minute speech against Hammarskjöld was delivered after the Security Council failed to grant a Soviet bloc demand that a delegation representing leftist Congo Premier Patrice Lumumba take part in the debate. Only the Soviet Union, Poland and Ceylon voted for a motion to seat Lumumba's delegation, while the other eight council members abstained.

No action was taken on the admission of a rival delegation representing Congo President Joseph Kasavubu.

Zorin accused Hammarskjöld of being a tool of Western imperialism, of conspiring with the NATO powers to undermine Lumumba and of trying to reimpose colonialism under the blue and white banners of the United Nations.

Chief U. S. Delegate James J. Wadsworth, in a statement outside the council, called the Soviet accusations "arrogant and hypocritical." He planned to throw his full support behind Hammarskjöld during today's debate.

He and other council members also were working on a resolution which in effect would be an endorsement of the secretary general's Congo program.

Obviously perturbed, Hammarskjöld himself took the floor briefly and answered some of the detailed charges leveled at him by Zorin. His voice rising in anger, he said his record was fully known by the council and he was going to "stand on it."

He said he would leave it to the African nations to decide whether he was acting properly.

Ambassador Mengi Slim, of Tunisia, only African nation on the council, praised Hammarskjöld's "devotion to duty and impartiality." He called for continuation of U.N. efforts to keep the Congo from becoming a cold war arena.

By the Associated Press

Hammarskjöld roared his force toward the Congo, early Thursday and all indications were that his disastrous winds would not strike Texas.

The New Orleans Weather Bureau issued a 4 a.m. advisory which said hurricane warnings were out from Grand Isle, La., east to St. Marks, Fla., for gale and hurricane force winds and heavy rain.

It is 25 miles from the rural bridge where Coors' abandoned truck was found last Feb. 9. He had left his mountain home that morning enroute to work at the Adolph Coors Co. plant at Golden.

Agents and sheriff's officers are continuing the search for the skull and other bones they said are required for identification.

A pathologist has said the bones already found are those of an adult male about six feet tall.

A truck driver, on a target shooting, Edward Green, 30, of Englewood, found the clothing last Sunday.

He said he first found the shoes about four feet apart, then a wadded pair of pants.

Early Thursday temperatures ranged from 60 at Dulhart up to the mid 80s at El Paso, Abilene and Childress.

Dulhart had a thunderstorm Wednesday night—the only city to report rainfall Wednesday.

He told a news conference the army was taking over rule in the strife-torn young African republic until a final solution is reached in the decades-long power struggle between Kasavubu and Premier Patrice Lumumba.

Mobutu is out of harm's way, the body-wiping his bullets over as he said once before when he was arrested on Kasavubu's orders.

In the fast-changing situation, steel-helmeted U.N. soldiers dispersed troops of Congolese in European quarters. U.N. Ghana troops waited behind machine guns.

Mobutu, 30, was named army chief of state on Wednesday by Kasavubu. He had told newsmen that the embassies of the Soviet Union and her satellites were being shut down and the Red diplomats expelled.

He told a news conference the army was taking over rule in the strife-torn young African republic until a final solution is reached in the decades-long power struggle between Kasavubu and Premier Patrice Lumumba.

Capsule Of Satellite Is Found On Sea

VANDENBERG AIR FORCE BASE, Calif. (AP)—An Air Force spotted the missing capsule of the Discoverer XV satellite.

The capsule had been all but given up for lost when a JC-4 plane found it bobbing in the sea near Christmas Island. Beeping and flashing, it was about 1,000 miles southwest of the recovery area north of Hawaii where it should have landed.

The Air Force said an amphibious plane will land as soon as there is enough light.

"The sea condition is favorable for a landing to pick up the capsule," an official added.

It would be the third straight time the United States has sent a capsule into orbit and recovered it.

The capsule of Discoverer XIV was plucked from the air Aug. 19 as it parachuted into the recovery area near the Hawaiian Islands.

Discoverer XIII's capsule slipped past air-catch planes but was pulled from the ocean.

Discoverer XV had popped loose from its rocket carrier on schedule on the satellite's 17th trip over the Arctic Wednesday afternoon.

But as it parachuted seaward it missed the recovery area where flying boxcars circled, trailing snaring devices.

A radar station at Kaena Point, Oahu, made a fleeting track of the capsule plunging toward the sea.

Discoverer XV was launched Tuesday at Vandenberg Air Force Base into a nearly perfect polar orbit. It carried nothing but instruments, some of them being tested for use in later reconnaissance satellites.

Humble's nominations filed for the month of October total 419,015 barrels per day of which 52 percent will be purchased from others.

E. L. Wilson, spokesman for a group of Dallas independents, told the commission:

"We are not as worried about the situation now as we have been in the past."

"We appreciate what the commission has done to straighten out the industry's mess. It seems that production now is about the right amount of oil to meet market demand."

"We are getting along pretty good now, and would like to recommend continuation of the eight day pattern."

Wilson was the only spokesman for the independent oil operators.

The number of producing days has been held at eight for six straight months, including today's offer.

By GARTH JONES

SAN ANTONIO (AP)—Two Air Force pilots, grinning and happy, today completed a record-breaking 30-day simulated flight to the moon and back.

Capt. William D. Habuettez of Ingleside, Tex., and 1st Lt. John W. Hargreaves Jr., of Castle Air Force Base, Calif., stepped from the 8 by 12 foot pressurized steel tank at 6:30 a.m.

Habuettez, 36, and Hargreaves, 39, were locked in the space cabin, singular at the School of Aviation Medicine here Aug. 15.

"I feel fine, just a little wobbly in the knees," said Habuettez. "I'm okay, except maybe I lost 15 pounds," said Hargreaves.

Both said the first things they noted upon leaving the cabin was the bright lights in the room and the lightness in their heads caused by the loss of weight.

Habuettez said he did not experience headaches as previous space cabin test pilots have reported.

Both were light blue-green hospital pajamas that had been their uniform throughout the test.

Habuettez said he thought they felt as good as they did because they kept regular sleeping hours and did exercises every day.

AIRLINER BURNS AFTER CRASH WHILE LANDING—Firemen attempt to put out fire that broke out after this airliner flipped on its back during landing at La Guardia Airport, New York. The plane, an American Airlines Electra turboprop, flipped over after hitting a dike at end of the landing runway. Several passengers on the plane, arriving from Boston, were hospitalized. (AP Wirephoto)

Howling Storm Is Weakening

MOBILE, Ala. (AP)—Hurricane Ethel's howling winds died to 30 miles per hour today as the Gulf of Mexico storm moved in, land toward the Alabama and Mississippi coasts.

The Weather Bureau's 10 a.m. (CST) advisory placed the hurricane about 25 miles south of Pascagoula, Miss., just west of the Alabama state line, moving north at 12 miles per hour.

The advisory said that the eye of the hurricane would move in, land toward the Alabama and Mississippi coasts.

The quickly-formed hurricane plowed across the Gulf Wednesday night with winds estimated at 150 miles per hour.

The Weather Bureau warned that tides of 3 to 6 feet would occur from the Mississippi Sound to St. Marks, Fla., with tides up to 8 feet in the Mobile, Ala., area.

Mobile is about 40 miles east of Pascagoula.

A wave of cold air moving south across the United States was the reason for Ethel's weakening.

Civil Defense, Red Cross and other authorities in the 500-mile Gulf strip affected by the storm estimated that 64,000 persons left their homes for refuge in higher and safer grounds.

Meanwhile, more than 100 miles to the east, tornadoes blasted through two Florida villages in the Panama City area.

The Florida Highway Patrol said 25 houses were demolished by a twister which whirled through the little fishing village of Springfield, another tornado ripped through West Bay Power lines and trees were knocked down, but no casualties were reported.

Two persons are missing and

presumed drowned after their boat capsized near the mouth of the Mississippi River.

The center of the storm extended outward 100 miles to the northeast and 50 miles to the southwest, the Weather Bureau said.

One death was indirectly attributed to the storm. Juste Sav-

voie, 68, a retired engineer, died in New Orleans of a heart attack while securing attic windows preparing for the storm. At first there were indications the hurricane would strike New Orleans.

Authorities in the central Gulf Coast estimated that about 30,400 persons fled from the fury of the storm.

At New Orleans, Louisiana Civil Defense officials said a conservative estimate of persons in shelters and private homes in south-

east Louisiana was 31,000.

Residents of Louisiana's marshland country left without a second warning, undoubtedly recalling that Hurricane Audrey left 300 dead and missing in 1957.

The hurricane developed so quickly off the Yucatan Peninsula deep in the Gulf Wednesday that many areas were caught un-

prepared. Weather Bureau officials at Miami feared that storm preparations might have started too late and that the hurricane might cause millions of dollars of property damage and possible loss of life.

Evacuees crowded into the shelters, but the hurricane-force winds died and gusts up to 45 miles per hour swept across lands near the mouth of the Mississippi River, about 100 miles southeast of New Orleans.

The bale was produced by Curtis Brown, 13-year-old son of Mr. and Mrs. Ray Brown. It was ginned on Aug. 20.

Weldon Wiggins will serve as auctioneer for the Chinese auction, an event in which each bidder pays the figure he bids.

Tickets to the event sell for \$3 each, and each ticket pays the admission of one farmer and one businessman.

The Snyder Chamber of Commerce agriculture committee and the local Jaycees are staging the dinner as a joint venture.

The winner of the outstanding young farmer award will receive a plaque and other awards. He will be entered in state competition later this year, and is eligible to earn any other awards, including an all-expense paid trip to the national awards program.

The winner will be the Scurry County farmer between the ages of 21-35 who, in the opinion of the judges, has made the greatest progress in his agriculture career during the past year.

Such activities as soil and natural resources conversation, responsible contribution to community affairs and general success in farming are determining factors in the judging.

The Chinese auction of the season's first bale of cotton has been arranged by the Chamber of Commerce agriculture committee headed by Rex Robinson.

Double Feature

Dinner Tonight

The activity will get underway at 7:30 p.m.

The twin climaxes will involve the Outstanding Young Farmer award to be presented by Snyder Jaycees, and a "Chinese auction" of the county's first bale of 1960 cotton.

The Snyder Chamber of Commerce agriculture committee and the local Jaycees are staging the dinner as a joint venture.

The winner of the outstanding young farmer award will receive a plaque and other awards. He will be entered in state competition later this year, and is eligible to earn any other awards, including an all-expense paid trip to the national awards program.

Such activities as soil and natural resources conversation, responsible contribution to community affairs and general success in farming are determining factors in the judging.

The Chinese auction of the season's first bale of cotton has been arranged by the Chamber of Commerce agriculture committee headed by Rex Robinson.

A fund, spearheaded by Mrs. Darrell Traylor and Mrs. Joe Rhodes, was started at that time to help defray the hospital expenses and to date about \$1200 have been donated by people of Snyder, individually and as clubs.

Funeral services under the direction of Bolger Funeral Home are tentatively set for 2 o'clock Saturday afternoon.

LEOPOLDVILLE, the Congo

(AP)—A spokesman for Premier Patrice Lumumba said today Col. Joseph Mobutu was arrested on orders of the army.

The colonel announced the army was taking over power.

Mobutu, coming forward as an army strongman, announced Wednesday night that the army was "neutralizing" both Lumumba and President Joseph Kasavubu, the contestants in the Congo's own cold war for power, and that the Soviets and other Communists were being given 48 hours to get out of the country.

But Lumumba's spokesman, Serge Michel, a left-wing French expatriate, announced today that Lumumba was still in power.

The prime minister is having a "working session," he said. Col.

Mobutu is out of harm's way, the body-wiping his bullets over as he said once before when he was arrested on Kasavubu's orders.

In the fast-changing situation, steel-helmeted U.N. soldiers dispersed troops of Congolese in European quarters. U.N. Ghana troops waited behind machine guns.

Mobutu, 30, was named army chief of state on Wednesday by Kasavubu. He had told newsmen that the embassies of the Soviet Union and her satellites were being shut down and the Red diplomats expelled.

He told a news conference the army was taking over rule in the strife-torn young African republic until a final solution is reached in the decades-long power struggle between Kasavubu and Premier Patrice Lumumba.

DENIES KIDNAPING CHARGE—Mrs. James Broyles, 27, denied in Cleveland charges placed against her and her husband, 31, shown with her above, that they kidnapped their 5-year-old daughter from a foster home in Georgia at gunpoint. The child, Dorothy Ann, is at the left, and between her and her mother is another daughter, Glenda Gail, 7. (AP Wirephoto)

8-Day Crude Pattern Set For October

AUSTIN (AP)—The Texas Railroad Commission today set the October oil allowable at 2,630,376 barrels daily, a cut of 47,444 from September.

Production will be permitted for eight days. This was a continuation of the September pattern. However, the difference in calendar days for the two months accounts for the reduction in permissive flow of Texas crude in October.

Nominating for the eight days ordered were Indiana Oil Purchasing, Atlantic, Sinclair, Gulf, Phillips, Shell and Continental.

Requesting nine days were Mobil, Texaco, Cities Service and Sun.

Standard Oil Co. of Texas proposed ten producing days.

Humble, the largest Texas purchaser, made no specific recommendation as to days, but asked for 419,015 barrels per day.

Charles Shaver, attorney for Humble, told the Texas oil regulatory body: "Our stocks of crude oil have been below adequate working levels for several months and have been getting progressively lower."

Shaver added:

"In particular, we are short of Texas crude. Because of this low inventory situation and the continued short supply we have been unable in September to meet the demand for Texas crude for our own refinery requirements and we have also had to cancel commitments to our crude customers."

"The demand we have been unable to supply from Texas crude amounts to about 400,000 barrels to our refineries and about one million barrels to our customers."

"We don't think we can buy any crude on either an eight or a nine day pattern because we have no

Surprise Attack Called Red Goal

By RICHARD WESLEY.
WASHINGTON (AP)—Soviet leaders would not hesitate to launch a surprise nuclear attack on the United States if they thought this nation could be surprised with one stroke, a Soviet newspaper said today.

Capt. Nikita Khrushchev, Soviet premier, said in a speech to the Soviet parliament that the Soviet military strategy has been based on the doctrine of a surprise nuclear attack since February 1955.

Artamonov, 32, who was commander of a Soviet destroyer in the Baltic fleet, defected to the United States in June 1956 while stationed at Gdynia, Poland.

His appearance before the House Committee on Un-American Activities, however, provided the first public disclosure of his presence in this country.

The slim, bespectacled Soviet defector said he had been in the United States since shortly after he fled to the West, working with U.S. agencies he did not name.

He said he lives now in New York City, at an undisclosed address, without guards or any form of protection from Communist retaliation.

Despite premier Nikita Khrushchev's repeated pronouncements favoring disarmament, Artamonov said, the Soviet doctrine of surprise attack has been official since February 1955. He said it was spelled out in a Soviet military publication available only to high-ranking officials.

He said he had not himself seen any directives ordering preparations for such a surprise assault on this nation.

But he added: "I know of general broad statements which tended to prepare the Soviet of force corps for the possibility of being ordered to make a surprise attack."

He said "no senior Soviet of force believes that the United States would attack first."

Under questioning, Artamonov confirmed Western suspicions that the Soviet fishing trawlers frequently seen near U. S. waters are spying, not fishing. He said the vessels always are operated and manned by agents of Soviet naval intelligence.

Pair Nabbed In Effort To Defraud Bank

NEW YORK (AP)—The FBI Wednesday night arrested a New York broker here and a man in Rosenberg, Tex., allegedly involved in an attempt to defraud California Bank of America of \$30 million.

The broker, asserted the mastermind of the plot, was identified as Walter J. Samit, 37, an Austrian citizen self-employed in the export-import business in New York.

Identified as Samit's accomplice was James Reddy Crowe, 47, an American oil worker who had been employed in Brazil.

The FBI said Crowe's arrest was made by agents of the bureau's Houston office.

Samit was scheduled to be arraigned today before a U.S. commissioner on charges of using communications facilities with the intent to defraud.

The FBI said a similar charge has been filed against Crowe.

The FBI charged the two men, conspired to swindle the bank with the use of unauthorized international cables between the Bank of America's international branch here and the Banco do Brazil of Rio de Janeiro.

The scheme would have caused the transfer of \$30 million to the Brazilian bank for the account of Crowe, the FBI said.

If convicted, each man could be imprisoned for five years and fined \$10,000.

Couple To Face Charge

BAY MINETTE, Ala. (AP)—An ex-funeral home director and his wife have been indicted in the alleged rape of a 16-year-old girl who was babysitting for them.

Prosecutor James Hendrix said Douglas Walker, 40, and his wife Elizabeth, were released from the county jail under bonds of \$5,000 after their indictment Wednesday.

Both are charged with rape. Hendrix said they are accused of "administering some form of drink to the girl, which rendered her defenseless." He said Walker accused of raping the girl, who was not identified, while she was helpless.

After the alleged attack at the Walker's home in Foley, Ala., the night of Aug. 27, the girl returned home and notified police.

Walker directed a mortuary in Foley until two weeks ago.

Hecklers To Greet Krush

NEW YORK (AP)—The dock workers plan to heckle Soviet Premier Nikita Khrushchev when he sails into New York harbor Monday.

Thomas W. Gleason, general organizer of the International Longshoremen's Association, said his union is hiring an excursion boat to go down the bay to meet Khrushchev here for the United Nations meeting.

The Baltika will dock at pier 73, East River and 25th Street, 17 blocks south of the U. N.

When the Baltika is in earshot, Gleason said, the dockers will give out with catcalls and boos. The boat will be decorated with anti-Communist placards and banners.

And a hand aboard the boat will play "God Bless America" — fortissimo.

Drilling Crew Safe After Quitting Rig

PORT ARTHUR, Tex. (AP)—Thirty-one men are safe today after abandoning an oil drilling rig off the Louisiana shore and nearby being captured twice by high seas en route to port.

The abandoned rig is 50 miles south of the Eugene Island light house. The area is on the fringe of hurricane Ehel. Crew members said the sea was running 15 feet high.

The workers are employees of Reading and Bates Drilling Co. of Houston and Lake Charles. They landed here at 6:30 a. m.

Pair Nabbed In Effort To Defraud Bank

NEW YORK (AP)—The FBI Wednesday night arrested a New York broker here and a man in Rosenberg, Tex., allegedly involved in an attempt to defraud California Bank of America of \$30 million.

The broker, asserted the mastermind of the plot, was identified as Walter J. Samit, 37, an Austrian citizen self-employed in the export-import business in New York.

Identified as Samit's accomplice was James Reddy Crowe, 47, an American oil worker who had been employed in Brazil.

The FBI said Crowe's arrest was made by agents of the bureau's Houston office.

Samit was scheduled to be arraigned today before a U.S. commissioner on charges of using communications facilities with the intent to defraud.

The FBI said a similar charge has been filed against Crowe.

The FBI charged the two men, conspired to swindle the bank with the use of unauthorized international cables between the Bank of America's international branch here and the Banco do Brazil of Rio de Janeiro.

The scheme would have caused the transfer of \$30 million to the Brazilian bank for the account of Crowe, the FBI said.

If convicted, each man could be imprisoned for five years and fined \$10,000.

Couple To Face Charge

BAY MINETTE, Ala. (AP)—An ex-funeral home director and his wife have been indicted in the alleged rape of a 16-year-old girl who was babysitting for them.

Prosecutor James Hendrix said Douglas Walker, 40, and his wife Elizabeth, were released from the county jail under bonds of \$5,000 after their indictment Wednesday.

Both are charged with rape. Hendrix said they are accused of "administering some form of drink to the girl, which rendered her defenseless." He said Walker accused of raping the girl, who was not identified, while she was helpless.

After the alleged attack at the Walker's home in Foley, Ala., the night of Aug. 27, the girl returned home and notified police.

Walker directed a mortuary in Foley until two weeks ago.

Hecklers To Greet Krush

NEW YORK (AP)—The dock workers plan to heckle Soviet Premier Nikita Khrushchev when he sails into New York harbor Monday.

Thomas W. Gleason, general organizer of the International Longshoremen's Association, said his union is hiring an excursion boat to go down the bay to meet Khrushchev here for the United Nations meeting.

The Baltika will dock at pier 73, East River and 25th Street, 17 blocks south of the U. N.

When the Baltika is in earshot, Gleason said, the dockers will give out with catcalls and boos. The boat will be decorated with anti-Communist placards and banners.

And a hand aboard the boat will play "God Bless America" — fortissimo.

Drilling Crew Safe After Quitting Rig

PORT ARTHUR, Tex. (AP)—Thirty-one men are safe today after abandoning an oil drilling rig off the Louisiana shore and nearby being captured twice by high seas en route to port.

The abandoned rig is 50 miles south of the Eugene Island light house. The area is on the fringe of hurricane Ehel. Crew members said the sea was running 15 feet high.

The workers are employees of Reading and Bates Drilling Co. of Houston and Lake Charles. They landed here at 6:30 a. m.

Airliner Hits Hangar; One Of Crew Dead

By MARSHALL COMERER.
DALLAS (AP)—A huge airplane severed out of control, hit Love Field Wednesday and smashed into a hangar, killing one of seven men aboard.

A steel girder protruding from the building sliced through the nose of the plane as far back as the cockpit.

The four-engine Braniff International Airways DC7 burst into flames as it tore into the three-story hangar. The flames were quickly extinguished and no one in the building was hurt.

Elmer R. Tiffany, 41, a Braniff inspector who had worked for the company 20 years, died shortly after arriving at a hospital. The other men suffered injuries, none critical.

It took rescue workers nearly two hours to free five of the men. The plane, undergoing maintenance, was being taxied to a ramp to test engines when it swerved sharply and hit the building.

Observers said one engine might have run wild, or the brakes of the plane might have failed.

"There was one big whoosh, glass flew everywhere and everything burst up," said R. W. Brackett, 39, a line mechanic who was in the hangar.

James E. Jordan, 38, of Irving, Tex., was the only one aboard who escaped from the plane under his own power.

Jordan said he sensed something was wrong when the engines revved up.

"I got up and tried to get to the cockpit, but I was pinned be-

Lodge Cites U. S. Power

WASHINGTON (AP)—Henry Cabot Lodge said Wednesday night America "is the greatest power on earth" and will use its strength "to build a peaceful world."

The Republican party's candidate for vice president said this country will stand up to the Communist threat. He added that communism "is not the only force for change in this planet."

"America is still the primary symbol and force for human progress," Lodge, former ambassador to the United Nations, said. "We are going to advance, using the strengths and talents which God gave us, to build a peaceful world." Our strength, he said, will be used "to build a world in which freedom is secure."

Lodge addressed some 1,150 persons at a \$100-a-plate dinner for Republican Samuel W. Wiler, opposing Illinois Sen. Paul H. Douglas in the November election.

Bedloe's (now Liberty) Island was selected as the site for the Statue of Liberty by Gen. William T. Sherman.

Says Clerks Likely Took Some Notes

WASHINGTON (AP)—The Defense Department said today some handwritten briefing notes available to the two American code-clerks who defected to the Soviet Union are missing.

J. Vincent Burke Jr., Defense Department general counsel, gave that testimony as the first witness in a House Armed Services subcommittee investigation of the defection of the clerks, Rerion F. Mitchell and William H. Martin.

The two clerks defected in July via Mexico and Cuba and turned up in Moscow in early September with a denunciation of their own country.

Burke told the committee, meeting in closed session, that there is no evidence at this point that Martin and Mitchell were part of an espionage ring or that they had an accomplice or accomplices here or elsewhere.

The subcommittee is investigating the circumstances of the run-out of the pair, as well as the adequacy of the security clearance systems of the various security agencies.

Burke's statement, released to newsmen, made these two other points:

"In the case of Mitchell and Martin, they can cause no damage to the security of our own communications. They can, however, assist the Soviets in their efforts to render secure Soviet communications activities."

"So far as can be determined, no documents are missing. However, it is possible that copies of documents could have been made by them, although there is no evidence that which would indicate such to be the case."

LBj Speaks In Arizona

PHOENIX, Ariz. (AP)—Sen. Lyndon Johnson took his campaign for Arizona's four electoral votes to Tucson today after blasting the Republicans as "the party of do-nothingism."

Speaking at a rally in Phoenix Wednesday night, the Democratic vice presidential candidate said the Republican party has "laid conservatism without serving liberalism or contributing to American progress."

He told a wildly cheering, partisan crowd of about 2,000 that every conservative American owes it to his conscience to examine the record of the Republican administration.

In an earlier talk before the Phoenix Press Club, the Texas senator accused the Republicans of switching signals in calling for new federal reclamation projects.

In reply to questions, Johnson predicted the Republicans "would not carry a single Southern state and said his running mate, Sen. John F. Kennedy, had improved his position in Texas on his recent swing through the state."

And in a talk before the Jewish men's club of Temple Beth Israel, Johnson pleaded against inter-lance.

Faces Charges In 'Plastic Bag' Death

TAMPA, Fla. (AP)—A department store mail clerk faces first degree murder charges after being indicted for the "plastic bag" killing of a sleeping Negro man, James L. Webb, 21, was indicted Wednesday in the slaying of Jewell LeVain, 33.

Police said Webb signed a confession but gave no explanation of his actions. LeVain was killed Aug. 13 while sleeping in the seat of his car. His hands had been tied to his waist and a plastic bag taped around his neck.

The U. S. \$100,000 bill, which is used only in transactions between the Federal Reserve System and the Treasury Department, carries the portrait of Woodrow Wilson.

KEEPING UP WITH THE JONESES READING HABITS is getting to be the thing with the AAUW in Snyder with their "swap a book and a dollar for another book" idea. Each member brings a book she is through with and on "book auction" day, such as will be conducted Saturday morning in the fellowship hall of the First Methodist

Church in conjunction with the tea for Scurry County women teachers, and trades it and a dollar for one she would like to read. Getting ready for Saturday here are from left, Mrs. Glen Holladay, Mrs. L. C. Winters, Mrs. Joe Glass, Mrs. Forrest Beavers, Mrs. Vela Bell, and Mrs. Travis Rhoades.

Soviet Shapelies Need U. S. Uplift

By JOY MILLER
AP Women's Editor

NEW YORK — An erect little lady of 72 thinks Russian women stand in need of uplift, American style.

Furthermore, she has every intention of taking it to them in a most substantial form—in bras and girdles.

"A woman is a woman wherever she lives," explains Mrs. Ida Rosenthal, "and if she looks better, maybe that would establish a foundation for firming up relations between our countries."

The Iron Curtain holds no terrors for Mrs. R., as she's known in the foundation garment market. In the 38 years since she founded her own bra company, she's spread her wares around the world to 115 countries, including Malaysia, Kuwait, Morocco, Zanzibar.

"I'll have to deal with Russia's commerce department on the trade agreements," she says, "and if I don't make headway when I'm there this fall, I'll go back next spring."

She'll be the first in the field to go into Russia.

"The foundation garment industry of the U. S. & R. is still in its early stages," she says, "but I foresee a period of great development. Russian women are taking a greater interest in their appearance—and a good figure is pretty basic."

She isn't advancing this as an argument for quota-conscious commissars, but Mrs. Rosenthal points out that foundation garments took a strong hold when women replaced men in factories during

World War I. Girded girls didn't get as tired, had greater efficiency. Mrs. R. was running a dress shop in 1922 and designing clothes for her business. Tight bodies were in style then, and women, she discovered, were hardly symmetrical creatures.

Deciding dresses would look better with uplift type bras, she and her husband started designing the underpinnings. Pretty soon the dress business was abandoned in favor of the firmer foundation.

Today Mrs. R. is chairman of the board of her company (Maidenform).

Looking back over the nearly four decades, does she think there is too much emphasis on the bottom these days?

Mrs. Rosenthal's blue eyes crinkle. "Let's face it," she says, "we are women. But I don't see why emphasis on bottoms should interfere with emphasis on brains. If women need help in making their bodies look a little better, I see nothing wrong with it. And that goes for Russian women too."

South Korea Picks U. N. Ambassador

SEOUL, South Korea (AP) — Premier John M. Chang's government today appointed Dr. Changning Liem, longtime professor of political science in American schools, as South Korea's new ambassador to the United Nations.

Liem, 60, succeeds Ambassador Ben C. Limb who resigned after the April revolution against President Syngman Rhee. Liem did graduate work in Princeton University, was assistant professor of political science at Pennsylvania College for Women in Pittsburgh, now Chatham College and moved to Muskingum College in Ohio this year as professor of politics.

Train Overturns
JAKARTA, Indonesia (AP) — Four passengers were killed and several injured in an overturned train in North Sumatra, reports from Medan said today.

The first residents of the White House in November, 1800, were President and Mrs. John Adams.

Ancient Chinese astronomers thought sunspots were flying birds on the sun.

AAUW Tea Will Honor Teachers

The Snyder branch of the American Association of University Women is hosting a "get acquainted" coffee honoring the women teachers of Scurry County Saturday, Sept. 17, at 9:30 a.m. in the fellowship hall of the First Methodist Church. Guest speaker will be Dr. Jane Rushing of Lubbock, a former Scurry County teacher.

Dr. Rushing taught journalism and English at Ira and in Snyder. In 1932 she enrolled in Texas Tech receiving a fellowship in the journalism department. She received her Ph. D. degree in 1937 having written her dissertation, "The House as a Symbol in the Work of Certain New England Romantics."

She taught two years as an instructor at the University of Tennessee and one semester as visiting assistant professor at Tech. The AAUW members will also have a "book exchange" hour among members at the coffee with each member to bring a book and pay one dollar for a book to take home.

Music for the affair will be presented by three Snyder teachers.

Auxiliary's Needs Cited For B&PW

Mrs. W. R. Everett, president of the Women's Auxiliary at Cogdell Memorial Hospital, spoke to 19 members of the B&PW Club on the needs of the auxiliary at a meeting of the club this week.

She made an urgent appeal for new members, especially needed when the new wing is opened. "There are so many places and ways you can help the hospital," Mrs. Everett said as she told of the many things made possible for the hospital by the auxiliary.

In the business session, a calendar for B&PW Week in October was scheduled as follows:

Monday, Oct. 3, meet at Mollie Pinkerton's home with Artie Pinnell and Florence Lettich.

Tuesday, Oct. 4, meet at Philip's 66 Cafe with Ruby Lee Brown, Mildred Sparks, and Marionette Baze.

Wednesday, Oct. 5, meet at Frances Brown's home with Laura Holladay and Dell Smith.

Thursday, Oct. 6, meet at Ethel Robert's home with Elizabeth Beavers and Ethel Sturdivant.

Friday, Oct. 7, meet at Coleman's Cafe with Frances Spencer, Lydia Rhodes, and Lil Jo Colwell.

Saturday, Oct. 8, meet at Vera Periman's home with Donnie Chorn S. Jones, and Billie Payne.

WOMEN'S CALENDAR

THURSDAY
Mrs. Daphne Grice will review the book, "Dear and Gorgeous Physiology," at Trinity Methodist Church, 7:30 p.m.

The Gamma Upsilon Chapter of ESA meets at 7:30 p.m. with Billie Springer, 2005 Avenue X, for a Hawaiian party.

SATURDAY
AAUW tea for all women teachers in Scurry County in fellowship hall of First Methodist Church with Dr. Jane Rushing of Lubbock as guest speaker, 9:30 a.m. to 11:30 a.m.

Officers Elected By Elementary 4-H Club

The Snyder Elementary School 4-H Club elected officers at its meeting Tuesday.

Glenna England was elected president, while Connie Ellington was elected vice president, Deborah Ellington secretary, Jennifer Ellington reporter, Karol England song leader, and Delta Morrow recreation leader.

Linda England called the meeting to order and led the group in the 4-H motto, pledge and prayer.

Glenna England called the roll and gave a report on the county-wide committee.

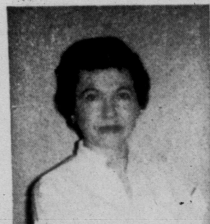

Two new members, Sharon Traugott and Susie Bunt, were received into the club.

Bulky Knit Cap In Style

AP Wirephoto
Bulky knits—made into head-hugging hats—made news at the Paris fall fashion shows. The most prominent costume group in Monsieur X's collection was hatted with his glorified version of the stocking cap. Worn with and without pom-poms, the caps matched costume trim or bulky knit overblouses or coats. Matching styles were sometimes "shower" caps and jackets had bulky knit sleeves. Some of the hats are in g-

gant ribbed stitch, including a toboggan style—cap with turned-up band. Others are in heavy cable stitch. They are high and pointed. Capes, hooded, and fit over the beehive hair style prevalent at Monsieur X's collection. One open mesh knit covers wavy stripes of leather or satin ribbon, in dotted dome shape.

Cancer Unit Sets Session

The Scurry County unit of the American Cancer Society has scheduled its first board meeting of the season for 4 p.m. Friday at the First Presbyterian Church.

Bill Shafer, field representative from Midland, will attend to aid in the organization and plans to be carried out by the various committees during the year.

Also, plans for the District 2 meeting will be discussed. The district session is set for Sept. 27 in Colorado City.

The Rev. R. Charles Spivey, chairman of the local unit, has urged all board members to attend the Friday session.

Booklets Banned
JAKARTA, Indonesia (AP) — Military authorities today banned two controversial booklets. The booklets are "The Overseas Chinese in Indonesia" by Indonesian writer Pramudya Ananta Tjoe, and "Our Democracy" by former vice president Mohammad Hatta. Hatta's book bitterly criticized President Sukarno's regime.

Nationalist China, Formosa, which ranks 10th among the world's sugar producing countries, is second to Cuba among sugar exporters.

EAGER BUT UNTESTED TEXANS—Ready for a shot at the opposition are the Lamar Junior High 7th Grade Texans above, who open here at 5 this evening against Big Spring Runnels. Front row, from left, are Larry Anderson, Ronnie White, Chuck Putman, Bill Atwood, Bob Birdwell, Whitt Boren and Phillip Kimmel. Second row sports Mike Smith, David Holt, Bill Blum, Eddie Byers, Eddie Greenfield and Kenneth Walker. In the third row are Roy Kizer, Franklin Parsons, Roy Kizer, Freddie Johnston, Kenneth Deike, Eddie Falls and Fred Wiman. Fourth row includes Roy Taylor, Jackie Bean, Tom Page, James Headstream, Joe Harrington and Tom Duke. (Photo by Jackson)

FACE FIRST TEST TONIGHT

Speed, Deception Typify Texans

By JERRY JACKSON
News Sports Editor

A policy of "hide and watch" and "wait and see" has gone into effect at Lamar Junior High—at least as far as the Seventh Grade

MAX LAING
Hide 'n' Watch

grid team is concerned. For, as is the heritage of seventh grade coaches in practically every system, the situation facing Max Laing and DuHolt is largely one of newness and indecision as the new season unfolds, with a group of boys to work with who have never been grouped together as a unit before.

The question marks should be erased for the most part this evening, though, as the young Texans spring into the competitive fire against Big Spring Runnels in a game scheduled to begin at 5 o'clock on the junior high field here.

Both Laing and Holt agree that the offense and defense of the team at this stage can only be termed "fair." On the offensive side of the fence, the team sports a pair of speed merchants in halfbacks Freddie Johnston and Larry Anderson, with Anderson—a "strapping" 80-pounder—being an extremely quick starter from his slot. He is expected to alternate with 105-pound Eddie Greenfield at one of the halfback positions. Greenfield, although not as fast as Laing or Johnston and Anderson, has the

compactness and power to pick up those extra yards when needed.

Deike At Full

At fullback will be Kenneth Deike, a power-packed 135-pounder and the team's most dependable punter. Cat-like Bobby Joe Birdwell, who tips the scales at 82 pounds, is the leading quarterback candidate, but is being pushed for the position by Whitt Boren, a 90-pounder.

Up front, Holt describes the defensive line as potentially stronger up the middle than it looks to be on the outside. The two heaviest boys on the squad—Eddie Falls (140) and Franklin Parsons (145)—will have the size and bulk to make things tough for the opposition from their offensive and defensive tackle positions. Guards Bill Blum (98), David Holt (118) and Roy Kizer (108) are showing up well at their positions during recent practices, also. Blum pulled a hip muscle recently and has been slowed down as a result to some extent, but is one of the brighter line prospects for the Texans.

Fred Wiman, a 94-pound middle linebacker, is probably the fastest defensive player to grace the team. And not only is he quick, but he is also a hard hitter when he gets there.

As it stands at present, the starting offensive lineup will shape up as follows: ends—Wiman and Roy Kizer; tackles—a tossup between Falls, Parsons, and James Headstream; guards—Blum and Holt; center—Jackie Bean; quarterback—Birdwell; halfbacks—Johnston and Greenfield; and fullback—Deike.

The defensive setup should read: ends—Johnston and Roy Kizer; tackles—Falls and Parsons; guards—Roy Kizer, Deike, or possibly Holt; linebackers—Roy Taylor, Wiman, and Blum; and halfbacks—Anderson and Birdwell.

The Texas season's schedule follows: Sept. 15—Big Spring Runnels, home 5 p.m.; Sept. 29—Colorado City, home, 6:30 p.m.; Oct. 6—Big Spring Goliad, away, 4 p.m.; Oct. 13—Sweetwater, away, 6:30 p.m.; Oct. 27—Sweetwater, home, 5 p.m.; Nov. 3—Lamesa, away, 5 p.m.; Nov. 17—Travis, home, 5 p.m.

DUHOLT
Wait 'n' See

Gridiron Calendar Bulging At Seams

Only three Thursdays during the season will all six of Snyder's junior high teams be tied up with games, and tonight is one of them. That's right—three games here and three more on the road bulge the menu for this evening as the second week of grid activity at that particular level swings into view.

On the home front, Lamar 7th will take on the likes of Big Spring Runnels on the junior high field beginning at 5 this evening, after which Lamar 8th and Runnels lock horns at 6:30 and Travis 9th and Sweetwater tangle in the 8 o'clock nightcap. Lamar 7th will be seeing its first action of the year, while their 8th grade "big brothers" swamped Big Spring Goliad, 30-8, and Travis 9th waylaid Lamesa, 32-0, in last week's openers.

Road encounters include Lamar 8th at Runnels, 8 p.m.; Travis 8th at Sweetwater, 3:30 p.m.; and

Cats Busy Pony-Prepping

As has become the heritage of Andrews teams over the years, this season's eleven which will go up against the Snyder Tigers tomorrow night will have as its most powerful weapon a light, shifty, and speedy backfield which can run an opponent to death if given the slightest opening.

The starting backfield, led by peewee Tommy Walker, who runs from the left half slot, is made up of all seniors. They weigh out at an average of 160 pounds and are all good breakaway trotters.

Razzamatazz and spectacular-type plays are avoided by the Mustangs, who rely on a "straight vanilla" offense and a comparable type of defense. Due to the lightness of their backs, they tend to avoid the middle of the line like a plague when running plays. Instead, they run wide to a great degree, hit the tackle slots regularly, and can be counted on to mix up their offense by throwing their share of passes.

The Mustangs utilize a straight "T" formation. No flankers or wingbacks, but they do split the line on occasion. In their 14-14 game opener against Tom S. Lubbeck, they loyally passed, primarily on the roll-out. It's the type of offense geared for the option play, also, which they have

been known to use to advantage.

Bees Furnish Fodder

In preparation for tomorrow night's clash in Andrews, the Tigers romped through a hard-hitting season yesterday afternoon, with the "B" team furnishing opposition at the time. The results were inconclusive; neither positive nor negative.

A mock goal-line situation was set up, with the "B" boys running typical Mustang plays from a hypothetical five yards out, and the Tigers setting up their defenders accordingly. The Bengals rushed the passer and runner well, but on those passes which did go airborne, the linebackers and defensive halves were unable to cope with them to any great degree.

The interior line was unrelenting, however, with the Bee backs failing to make any headway at all through the middle. Slow counts pulled Tiger linemen offside on too numerous occasions, however.

Later in the workout a switch was made, with the Tiger offensive first-liners running plays against defenses as set up by the "B" team. On the whole, the Tiger offense looked better than did the defense.

The ball-line running of fullback Bob Pena was encouraging, as he consistently forced his way into the "B" secondary in the bread-and-butter series—the mid-

dle, through the guards, and off the tackles. Jesse Crawford, running alternately at quarterback with Steve Free and Eddie Phy, showed up well, as he broke away on long runs several times and was pacing his receivers and hitting on his flat passes fairly consistently.

Yale Lary of the Detroit Lions was re-elected to a second term as a State Representative in the Texas legislature just before reporting for pre-season football practice.

Penn State's football team expects big things this fall from sophomore Joe Blasenstein, a guard from West Philadelphia.

AIME Golf Meet Slated Tomorrow

Prizes and surprises are in store tomorrow on the Snyder Country Club links, as the AIME golf tournament goes through its annual afternoon of firing.

Emphasis has been put on the fact that a golfer doesn't necessarily have to be a top-flight in order to enter. In fact, being an especially adept cowpasture pinger can even be a drawback in this tournament, which offers prizes in the areas of blind honey, scratch, and handicap golfing. Competitive desire is the only prerequisite for entrance, with the exception of a \$3.50 entrance fee, that is included in that fee, however, is a real "bargain package," as it covers not only the green fees of the day, but also refreshments and a barbecue which will be held at the conclusion of the tourney.

The AIME meet—or, to those unfamiliar with the designation, specifically the Snyder section of the American Institute of Mining and Metallurgical Engineers—is open to all members, their guests, and any prospective members who would be interested in joining the organization. Golfers will begin teeing off at 1 p.m. tomorrow, and it will be a nine-hole affair. Another feature of the tourney will be a nine-hole putting contest which will be unraveled on the putting green near the clubhouse.

Mrs. Pinchot Uninhibited; Enjoyed Moments Of Glory

BY INEZ ROBB
The late Mrs. Gifford Pinchot was a colorful woman and rugged individualist: as her obituaries pointed out last week. The wife of the late governor of Pennsylvania was vivacious, confident and not one to be inhibited by rules, rank or royalty.

Wherever she went, fun and sometimes fur flew. Her last observations as a delegate to the United Nations Scientific Conference on Conservation and Utilization of Resources a decade ago, may have dazed her conferees, but it kept them on their toes and in the news.

But among all the sprightly anecdotes printed about this sprightly lady, there was no mention of one of her most spectacular feats, her brilliant performance at the garden party given at the British Embassy in 1939 for the late King George VI and Queen Elizabeth, now the Queen Mother.

If there has ever been another social function in this country that resulted in so much civil strife and commotion, I have yet to hear of it. The garden of the British Embassy holds a goodly crowd, but not one one-hundredth of the persons who felt that, thanks to official, financial, diplomatic, social or political prominence, they were entitled to attend this function. And with their sisters and their cousins and their aunts, also.

The Gifford Pinchots were on the A-1 list and above the battle, so to speak. In a way, I was, too. My editor turned over the office ticket to me and said "Go" and so I went. And never shall I forget that day, June 8, the hottest I have ever endured in Washington. The heat, humidity and massed humanity the men in boiled

shirts, striped pants and cut-aways) in the Embassy garden were almost unbearable.

To spare Their Majesties, unaccustomed to the blistering heat, a complete tour of the garden and the guests, the British Ambassador Sir Ronald Lindsay, toured one section of the garden with the King. Lady Lindsay toured the other half with the Queen.

Even so, Their Majesties could only be expected to shake hands with a few guests, not the panting multitude. Mrs. Pinchot happened to be in the section where the King and the Ambassador made their appearance, and, naturally, she was one of those chosen to be presented to His Majesty.

Scarcely had the King walked on until Mrs. Pinchot melted into the mob and executed the nearest end-run in social history. On a

day that would have felled Paavo Nurmi, she raced to the section of the garden where Her Majesty, red as a lobster under the unaccustomed Washington sun, was walking with Lady Lindsay.

Somewhere, Mrs. Pinchot infiltrated into the front lines, and within minutes had been presented to the Queen, likewise and also. She was the only person at the garden party, except specially invited guests, who could go home supreme in the knowledge that she had met both royal guests. It brightened the day for all of us sweltering reporters. We loved Mrs. Pinchot for giving us something to write about over and above the menu and the clothes.

I remember with the same warm affection Jimmy Sava, the incomparable mime and comic who died in Italy last week, after a brave struggle with a long illness. What innocent joy he brought to Broadway. And what a great gift he had for the written word, too.

He was a small, rather shy man. I once remember going to a dinner party where he faded from a knot of other guests. He was discovered 30 minutes later in the dining room, juggling the hostess's Royal Doulton service plates. He was, fortunately, a master juggler.

Royal Doulton flew in clouds through the air, with Jimmy fielding every plate with the greatest of ease, even those he let come within four inches of the floor before deftly reaching out and plucked it from disaster. The hostess had heart failure, but Jimmy and the rest of the guests had a ball.

Wants New Course For Storm Ethel

TAMPA, Fla. (AP)—State Editor Bob Hudson of the Tampa Tribune, hardly recovered from cleaning up news details of Hurricane Donna, was a bit stunned when a telegram was tossed on his desk.

It read: "Manager, hurricane department, Tampa Tribune, Tampa, Fla.

"Due to severity of Hurricane Donna in our section and in view of appearance of Hurricane Ethel, be advised as follows: 'If it's strictly necessary that you direct Ethel over landed areas, kindly direct her into sections not already hit. Frankly, we ain't got cleaned up from Donna as yet.'"

The telegram Wednesday was signed by W. L. Whitley, a business man in Winter Haven, Fla.

Summer Of 1960 Season To Remember

By HAL BOYLE
NEW YORK (AP)—The many seasons of our lives often go by like soldiers on parade, dressed so alike we hardly note them individually.

But now and then a season comes along that lives in your mind forever.

The summer of 1960 has been like that.

How will historians catalogue the summer of 1960?

They will mention it as a time of great political storm in almost all quarters of the world, of riots and sput trials and a summit meeting that failed.

They will write of the business boom that seemed stuck in mid-career.

They may even find reason to dwell at length on an unusual storm—a religious storm raised during the U.S. presidential campaign.

But for millions of us the various storms of this period will be less memorable than the calm we knew. For millions of us lived quietly in the very eye of each passing hurricane of this troubled summer, and will remember it kindly for the small untroubled pleasures it brought.

Here's one man's list of blessings.

Here in Manhattan the temperature never hit 90 degrees.

Many worried over the global population explosion, but in our house we still felt glad because our 7-year-old daughter grew an inch or so in height and five pounds in weight. We were sure a crowded world wouldn't begrudge her this added space.

Summer always has its casualties, but the toll in our family was small. This is the box score: Bitten by mosquitoes. Man of house, 15 times; lady of house, 12 times.

Stepped on live bee. One daughter—once.

Afflicted with poison ivy. None.

Attacked by sharks. None.

It's been such a nice summer—I hate to see it go—many people are saying. And that's what they will remember, in the years when names like Khrushchev and Castro and Lumumba fade from the mind.

Won't you, too?

Soviet Ships In Test Area

WASHINGTON (AP)—The Navy says three Soviet ships are heading for the central Pacific target area where the Soviets aim their long range missile tests. A Soviet tanker and tug also are operating in the North Atlantic.

The Navy announcement Wednesday had nothing to offer on what these ships are doing. But it set off immediate speculation that the ship movements may be connected with some new Soviet space achievement to be timed with the arrival in New York next week of Premier Nikita Khrushchev.

The ships in the Pacific, the Navy said, are the same ones used to monitor previous Soviet long-range missile tests conducted there last January and June.

The tanker and tug in the North Atlantic, the Navy said, carry radar and other electronic gear. It is possible they are merely an escort for the Baltika, which is carrying Khrushchev to New York.

Junior Editors Quiz on SUGAR

QUESTION: What is sugar cane and what is it used for?

ANSWER: Sugar is a very important food. It supplies the fuel that keeps your body running. About 60 million pounds are produced in the world each year and the people of the United States eat about one-fourth of this amount. Most of the sugar comes from sugar cane. A sugar cane field looks very much like a corn field. The cane grows from six to 15 feet high and measures from one to two inches thick. The cane has a hard outer covering and a pulpy inside. Just before flowering time, the inside of the cane is very juicy. At this time the cane is cut and the leaves are stripped off. At the sugar refinery, the cane goes through a process that extracts the juice and turns it into sugar. Most of the cane sugar is grown in Cuba and India. Puerto Rico, the Virgin Islands and the State of Louisiana are also big producers of cane sugar.

FOR YOU TO DO: If you give an opportunity to travel through the south, be on the look-out for a sugar cane field. Ask the farmer for one of the stalks and have him show you how you can strip away the outside so that you can chew the pulp to get the tasty juice.

(The \$10 award for this question goes to Mary Glogowski of Elizabeth, N. J. Mail your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will select the winner.)

Pamphlets Spur Religious Issue

By GEOFFREY GOULD
WASHINGTON (AP)—Sen. Henry M. Jackson, Democratic national chairman, says someone is flooding the mails with anti-Catholic literature in an attempt to defeat John F. Kennedy for president.

Former President Harry S. Truman also brought up the subject while taking a morning stroll Wednesday in New York. "In my home town," Truman remarked, "the Republicans are sending out all the dirty pamphlets they can find on religion."

That brought emphatic denials from the former GOP national chairman, Meade ALCORN and Ed STEINBERG, Republican chairman of Truman's own Jackson County, Mo. They said Republican organizations have no part in any hate-mail campaign.

Jackson said that as far as he knows the mail has not come from any Republican party official, but he urged newsmen to track down the source of the anti-Catholic mail.

He wouldn't say what information he has on any source, but told a news conference, "I'll give you a little clue. You might ask Dr. Peale who prepared his statement."

Dr. Norman Vincent Peale, New York minister and author of inspirational books, led a group of 150 Protestant ministers and laymen who met here a week ago and issued a statement. It said the Roman Catholic prelate, "Kennedy is a Catholic" would be under pressure from the church hierarchy to breach the wall of separation of church and state. The statement was issued as a collective one by the group, which

called itself the National Conference of Citizens for Religious Freedom.

Peale later backed off a little. He said public agitation over the religious issue would harm the nation and that therefore he would take no active part in the political campaign.

Peale was not available for comment on Jackson's statement. Nixon, President Eisenhower and other GOP leaders have disavowed and deplored any use of the religious issue in the campaign.

Truman agreed that "Nixon answered the question pretty well" and that he feels the vice president has not part in the matter. But Truman said he thought the mail campaign he said was going on in Missouri was part of a nationwide one.

He said the anti-Catholic pamphlets were "long sheets" like "the dirty sheets which they used against Al Smith in the '20s."

ALCORN called Truman's statement a "typical shoot-from-the hip falsehood" and "misdemeanor of the lowest character." The Steinbergs, the county chairman in Missouri, said, "Not only is the statement of Mr. Truman a falsehood, I have carefully issued instructions that none of our people even discuss the religious issue in the 1960 campaign. I can state flatly that the Republican organization in Jackson County has mailed no material of any kind on religion."

Jackson said so far as he knows none of the mail came from any GOP official. He said there appears to be a connection between the source and some extreme political conservatives.

Competition By SAC Ends

AUSTIN (AP)—A stream of 26 bombers and tankers landed at Bergstrom Air Force Base here this morning, concluding the closing round of the Strategic Air Command bombing competition.

The crews took off on surprise alerts Wednesday night and flew simulated bombing missions against American cities.

Crews were scored on fast reaction take-offs, radar strikes against targets, high and low level navigation legs, refueling and use of electronic countermeasures against simulated defense radar.

Final results are expected this afternoon. Awards will be given winning crews and units at a ceremony Friday morning.

In tabulations released Wednesday, a B52 crew from Altus AFB, Okla., won top honors in the bombing competition with 612 out of a possible 660 points. Its commander, Lt. Col. David Jackson, 36, piloted the simulated mission against his home town, Atlanta, Ga.

Israel became a member of the United Nations in May, 1949.

Do-It-Yourself Plan Now In East Berlin

BERLIN (AP)—Do-it-yourself work on a special Red twist to it. Apparently tired of being unable to get repairs, apartment tenants in the Liechtenberg district have banded together to establish a series of "strong points." Each will have a stock of tools and materials. Tenants will be encouraged to do the work themselves.

A POPULAR SPOT—This is a typical scene in the Boys Club shop, which is one of the more popular spots in the facility. Youngsters have an opportunity to receive instruction and actually practice the use of tools and equipment.

Study Club Continues To Give Boys Work Big Boost

Style shows and Boy's Clubs normally have entirely different spheres of interest due to their composition. No basis for association, it would seem.

But here in Snyder the Acacia Study Club—a member of the general federation of women's clubs—not only has done an enormous amount of good for the Scurry County Boys' Club, but is continuing to direct its concerted time, efforts, and money into the operation of the Club.

The latest fund-raising project

the proceeds of which will go into the improving and expanding of the wood shop facilities at the Club, involves a style show. The show will be held at the Women's Club at 10 a.m. and 8 p.m. on Tuesday, September 20. Admission prices will be \$1.25 for adults and 75 cents for students, with tickets being available at the Boys' Club up until the day of the show.

Specifically, the funds gained will be used for shop equipment, such as the purchase of additional power tools, and related items.

Over the years, the shop has been a favorite "child" of the Acacias. In addition to purchasing the PA system in 1957, they have donated proceeds from the 1958 Polaris (\$500) and in 1959 proceeds from Benefit Bridge (\$150) and a style show (\$300).

The shop program is under the direction of Bill McLaughlin, who aids the boys who use the facilities to create projects of their own choosing. Annual special events in connection with the shop program include contests of nail driving and construction of what-nots, ships and toys.

At present, the shop is equipped with the following power tools—two scroll saws, a disk sander, three drill presses, and two Dremel Moto-shops. In addition, there is a table saw and a hand saw, but those machines are operated by

the instructor only.

Hand tools of various types supplement the power tools, and there is also a paint area and necessary paint furnished to finish the projects, examples of which include shoe boxes, toy guns, model ships, airplanes, tie racks, what-nots, etc.

All supplies, such as lumber, nails, glue and such, are furnished the boys at no cost. The only cost to them is for broken jig saw blades, which run five cents each.

An extremely worthwhile operation, and one worthy of support at the upcoming style show as being staged by the Acacias.

Red Prison Visit Closely Restricted

By WILLIAM C. WALSH
Written for The Associated Press
Copyright, 1960. By The Associated Press

The day after my arrival in Shanghai, I visited my brother, Bishop James Edward Walsh, for the first time.

He was being held in Shanghai Jail, serving a 10-year sentence on charges of espionage. Mr. Li, an official of the Communist Chinese Red Cross, and Mr. Shen, an interpreter, called at my hotel and took me by car, to the walled prison.

I went in, accompanied by the Chinese Red Cross representative, and entered a room in the prison building where a white-coated guard was seated at a table. I was asked to fill out an application, in duplicate—giving my name, relationship to the prisoner, listing any articles I wanted to give him, and certain other information including my telephone number. I gave them my residence phone number at Cumberland, Md.

It was also required to turn over any articles for the prisoner. After complying with these formalities, I was taken to another room where I met the prison official who was to preside over the interview. With him was an interpreter. The guard who had taken my application also accompanied me into the room, and in the back sat a photographer.

Seated at an oblong table with the prison official and interpreter on the other side, I was then read the regulations governing visits to the prison.

Among other things, these stated that no written message could be given the prisoner, no notes, cameras or recording devices could be taken to the interview; there could be no discussion of the charges against the prisoner or his trial; that all letters and gifts were subject to approval by prison authorities, and that he could be given necessities only.

That the interview was limited to 30 minutes and would be ended instantly if improper matters were discussed.

Shortly after the regulations were read to me and I had agreed

to abide by them, my brother entered the room with a guard.

He shook hands. Some of the Maryknoll Fathers, who had met in Hong Kong who had been in China with my brother asked me particularly to remember them to him. When I started to mention their names, I was told this was improper, and that I should confine the discussion to family matters.

My brother and I then talked about various members of the family. A little later I asked him if he wished any efforts made to obtain his release from prison. I asked because some three or four years ago he had been authorized by the Chinese authorities to leave China but had refused on the grounds that he wanted to remain with the Chinese people, among whom he had worked most of his life.

The interpreter began talking to the prison official about this question, but before it was ruled out of order, my brother said:

"While no one likes to be confined, I am not unhappy here, and leave the future entirely in hands of God."

The interpreter told me the subject could not be pursued. My brother appeared to be well. He did not seem dejected, but on the contrary in good spirits. He told me that my visit was the greatest human consolation he had ever received.

He said he was in the prison's hospital section, not because of any illness but because of his age—69. He seemed somewhat thin, but then he never was very robust, and he told me he weighed 135 pounds, his customary weight.

My brother also told me he had a bed to sleep on: received three meals a day which, though plain, were sufficient; that he was allowed to exercise outside twice daily; that he had a cellmate who was apparently Chinese but who could speak English.

The only work he had to do, he said, was to clean his cell. The cell was free of insects. He had no outside books but got an occasional Chinese newspaper and certain magazines or periodicals

produced in China but printed in English.

He doesn't have his breviary or any other religious books, nor does he have a rosary. As a present representing the 50th anniversary of our graduation, the authorities of Mount St. Mary's College had provided a gold rosary for the surviving members of the class of 1910.

I asked permission to give this rosary to him, explaining it was an anniversary gift. It was turned back to me with the comment that it was not necessary for him to have it and that prisoners were allowed only necessities.

I also asked permission to give him a note from Mr. W. Wallace McKaig of Cumberland, an old family friend, which only said: "Dear James: Best wishes." This was on a card containing Mr. McKaig's name and address. He had enclosed it in an envelope addressed to Bishop Walsh.

This was returned to me with the observation that prisoners could not receive any written messages—and with the added comment that there was no Bishop Walsh in prison.

I was allowed to give my brother a box of cigars, some cookies and candy, a fountain pen, some stationery, some clothing and two pictures of my grandchildren.

He told me he was receiving the customary two Red Cross packages each month and that he had an ample supply of cigarettes. Apparently, he is allowed to smoke only three or four a day.

On my final visit I also left with the prison authorities my own prayer book, a small one, asking that it be returned to me if my brother did not receive it. I was told the book would have to be inspected, and while I tried to find out about it before I left, I was told it was still under inspection. So I don't know whether or not he got it.

At my first interview with my brother, a photographer was taking pictures. I asked the prison official whether one could be taken of my brother and me together, and this was done in the prison yard. A few days later a

Chinese Red Cross representative brought me a print of this picture and also of one taken inside.

I was allowed to visit my brother on Aug. 4, Aug. 8 and Aug. 11. After the first interview of 30 minutes, I told the Chinese Red Cross representative that I had traveled a great distance and would like to have more than half an hour with my brother.

As a result, I was allowed an hour each on my second and third meetings. I was not told in advance just how many times I could see him, but on Saturday, Aug. 6, I was told I could see him next Monday, and on Thursday, Aug. 11, I was told I could see him that afternoon. It was then indicated that this would be the last visit.

I have tried to give an accurate account of the interviews with my brother. I am not complaining about either the length or their numbers. I appreciate very much having been allowed to see him, and I am very grateful to the Red Cross Society of China for obtaining the permission for me, and to the Chinese authorities who granted them.

Shortly before the end of the last visit, we discussed the possibility of our seeing each other again.

We agreed that because of our respective ages and the distance between us, we might not see each other anymore. My brother indicated I should not attempt to make a second trip, saying the recollection of this one would carry him along for some years. I told him that if I could not get back we would not see each

other again unless he got out, and he said, "We will meet in heaven."

I was somewhat upset. I remembered from the time our picture was taken in the prison yard that I could see him from the window in the room, walking across the yard to a passageway between two buildings.

I went to the window and pulled aside the curtain but as the lower part of the window was painted, I could not see through. However, the interpreter helped me to open the window. When it was opened my brother was perhaps 10 or 12 feet from the passageway.

I called to him. He turned towards the window. We waved to each other and I said, "So long, James," and then he disappeared in the passageway.

A grove of American oak trees near Yotsuya-mitsuke, Japan, trace their origin to acorns picked up from the lawn of Mt. Vernon, George Washington's home in Virginia.
