Man Drowns In Sulphur Friday

James Hammonds, 35, of Hurst, and his 12-year-old son, had gone to Sulphur to fish, and according to the boy his father had gone into the water and pulled out a large catfish from a tree, which was in the water. After tying the fish to a bush on the bank, Hammonds went back into the water to get another one he had felt in the tree. The boy became frightened when his father failed to come up and walked to the highway to call for help.

Buster Case, L. L. Reed and Roger Simmons, all of Talco, were stopped at Meadows Curve and told there had been a drowning in Sulphur and they needed some help.

According to Reed, the three went to the scene and after the boy had pointed out the vicinity of the accident to them, they followed the tracks of Hammonds and the boy to the place where a shirt and the fish were on the bank.

Reed, Case and Simmons found the body wedged in the base of a large tree standing in the water. The body was removed from the water by the men and a few minutes later, taken from the scene by members of the Mt. Pleasant Fire Department, who had put the emergency boat in the river.

According to relatives of the dead man, Hammonds was visiting with relatives in Commerce when he left on the fishing trip.

Hammonds was carried to Mt. Pleasant by the Mt. Pleasant Emergency Unit after Justice of the Peace Gene Gilpin had held an inquest, death being attributed to accidental drowning.

Funeral service in Commerce, Sunday at 2 p. m., was held at Jones Funeral Home, an interment made in Rosemond Cemetery there.

Besides his wife, the former Melba Williams, and two children, Gary, 12, and Pamela, 11, Mr. Hammonds leaves his parents, Mr. and Mrs. M. Z. Hammonds of Cumby; also six sisters and brothers.

Austin. — Railroad Commission authorized Texas oil industry to produce an additional 2,268,000 barrels of oil during the last two weeks of June in view of curtailed supplies from the unsettled Middle East.

Commission increased the June allowable from 33.3 per cent to 35.9 per cent, retroactive June 1. This figure will permit maximum oil production of 3,112,191 barrels daily compared to current 2,992,236 barrels. Commission postponed setting an allowable for July, but another moderate increase is almost certain.

State officials, conscious of the Legislature's special tax session looming next year, see a possible revenue windfall which could reduce the new tax need) from the crisis-caused oil production jump.

With an increase from 10 to 13 days a month in production, there is no telling at this point how much the ultimate increase will be. Before the emergency situation, the oil production tax income for the coming year had been estimated at nearly \$140,000,000. These factors figure in the magnitude of future allowable increases:

● Kuwait, Saudi Arabia, Iraq and Algeria have banned oil shipments to U. S. and Britain. Libya's production has been halted by a strike.

● Arabs want to nationalize their oil fields or call in Spain and France to develop their petroleum industry, replacing the U. S. and Britain.

● Suez Canal may remain blocked for several months. Thus any oil shipments would have to round the Cape of Good Hope. Trip would be longer and more expensive.

Interstate Oil Compact adopted a resolution calling for a 12.2 per cent limit on the ratio of imported oil to domestic stocks east of the Rocky Mountains. Experts say present situation demonstrates need for better government attitude toward domestic production and industry development.

DRIVERS POINTS — Auto drivers may have forgotten, but they will be reminded of "points" starting August 1.

That's when the new insurance plan adopted last July by the State Board of Insurance begins to show on insurance rates. Drivers will pay 15 per cent more for insurance if they have one point charged against them, 35 per cent for two points, 60 per cent for three points and 90 per cent for four points.

Points are assessed for accidents or traffic law violations which came after August 1, 1966, when the plan was adopted. Penalties will apply when auto insurance policies are bought or renewed after August 1, this year.

A driver who is assessed points can "work them off." Only points assessed after August 1, 1966, will count. But after three years of being charged more, the points drop off the driver's record, for rate purposes.

Board believes this will lower the basic rates, thus will reward

Mrs. Mathis Dies In California

14-YEAR-OLDS Can Drive —

Fourteen-year-olds who complete driver education before August 28 still can get a license good until its regular expiration date.

Homer Garrison Jr., Director of Texas Department of Public Safety, issued the interpretation following numerous calls about new licensing law amendments.

New law which goes into effect in late August would raise the minimum age for licensing drivers with behind-the-wheel instruction to 16, except in unusual cases. Garrison said, however, he did not interpret the new law as denying "the privilege of driving" to 15-year-olds who already have qualified under existing regulations.

COURTS SPEAK — U. S. Supreme Court has agreed to hear arguments October 2 on whether the one-man-one-vote standard it applied to congressional and legislative districts also fits county commissioners precincts in Midland.

State Supreme Court found no error in lower court opinions dismissing the case of a woman who sued Galveston County for \$20,000 after finding glass in scrambled eggs served her at the county's Memorial Hospital.

A certificate-holding student pilot does not meet standard insurance policy definitions of a duly-licensed aircraft operator whose passengers remain insured while in flight, State Supreme Court concluded in a Gillespie County case.

ATTORNEY GEN. RULES — Gulfward state boundary is a line three marine leagues from coast, and in those waters Texas is empowered to control and regulate fishing, Atty. Gen. Crawford Martin has ruled.

In other recent opinions, Martin concluded that:

● In counties where the office of ex-officio county school superintendent has been abolished, a county judge serving in superintendent's role continues to be paid for the extra job until the end of the current term of office. Thereafter, he must perform those duties without pay.

● State can make lease and rental contracts for up to four years, contingent on availability of funds appropriated by the legislature.

● When a married couple creates a valid joint tenancy agreement with a third party, including right of survivorship, inheritance tax is applicable on passing of the couple's interest.

MANPOWER — Texas Employment Commission reports that during April the civilian labor force in Texas continued to expand with an increase of 37,000, boosting the total to 4,204,300 at mid-month.

Non-farm employment reached 3,784,400, a record for April; and agricultural employment rose 16,800 — to 307,400.

There were 110,000 unemployed in mid-April, 4,000 less than were unemployed in mid-March. This put unemployment at 2.6 per cent of the total labor force.
