# Historical Pageant To Be Staged

## Box Supper Held On Site Sunday

An old fashioned box supper Sunday evening gave picnickers a preview glimpse of the setting for "Giants of the Great Plateau," an historic pageant to be presented here July 30-31.

Approximately 55 persons attending elected Mrs. George Redinger president of Olton's Historic Preservation Society. Vice-President is Dale Cary. Mrs. Gene Trotter was named secretary-publicity chairman.

All Oltonites are members of the Society which was organized to preserve the city's early day history. It is the sponsoring organization of the historic pageant.

Board of directors for the Society include Lois Brimhall, Lauis Hair, Ken Burgess, Larry Garvin, Betty Koontz, Bub Holt, I.B. Holt, Bettye Givens, Delmer Givens, Mardema Ogletree, Eva Graham, Quenette Collins, Basil Sherman, Dennis Givens, Wendell Potts, Bill Dickenson, Renee Givens, Helen Bohner, Walter Struve, Margaret Burrus, Eldon Franks, DeVern Mandrell, Dona Kelley, Lily May Silcott, Gayle Allcorn, Sue Cannon and Steve Spain.

PLACED HIGH ON THE HILL overlooking Running Water Draw, headwaters of the Brazos River, this sign tells passers-by of the upcoming historic pageant. Try-outs for the pageant, written by Bettye Givens, will be held Monday evening at 8 p.m. in the high school auditorium.

## Actors Sought; Try Outs Monday

Try-outs for "Giants of the Great Plateau" will be held at 8 p.m. Monday, May 31 in the high school auditorium according to Marilyn Miller, pageant director.

Set at the turn of the century, the pageant unfolds the history of this area through the reminiscences of early residents and their descendants. The two-day production is scheduled for July 30-31.

"There's a part for just about everyone who's interested," Mrs. Miller says, "from six years up."

Script is by Bettye Givens. Music composition is by Ron Lange of El Paso and Ken Lange of the University of Hawaii.

Music will be directed by Steve Garms, Enid Givens and Mary Cary with choreography by Suzanne Aker of Lubbock.

The pageant will be held in the Prairie Theatre, six miles north of the city on the DeVern Mandrell farm, on the sloping banks of the Head Waters of the Brazos River.

## 'Computerized Farming' Is Topic Of Seminar

Area farmers Dolan Fennel of Earth and Don Clayton of Springlake recently attended an innovative "farming by computer" seminar in Dallas called "Pro-Ag." Accompanying them were IH dealers Billy Davis of Wood-Jordan-Davis and Calvin Wood of Wood-Jordan Incorporated of Earth.

Developed by International Harvester, this computerized management analysis system for farmers brings together the resources of manufacturer, dealer, farmer, university and computer to assist in critical decision-making processes.

"Pro-Ag" works by allowing the farmer to use his own records and a computer to formulate a profitable farm plan based on various situations that may arise in the course of crop production. Such situations include land preparation, cultivating, and harvesting.

The farmer simply takes his records, writes them into a special workbook which includes data for his state gathered from land-grant ag university resources, and plugs this information into the computer. In what would require years of manual preparation, the computer prints answers in ten minutes.

Furthermore, once the "model" is set, the farmer begins feeding in alternate plans. He can ask "Should I shift more land from corn to soybeans? Buy a bigger combine? Put on an extra man?"

The ultimate objective is to show the farmer end results, just as if he had farmed through a year based on his plan, acreage and machinery. And that means helping to find a better, more profitable way to farm.

Qualified dealers, such as Davis and Wood, go through the computer training session and computer workshop to be able to work with the farmer in the future. Also, the IH dealers are the contact for farmers wanting to get into "Pro-Ag."

Davis is enthusiastic about the computer seminars and says "they are designed to make better managers out of farmers and not for me to sell equipment." He would welcome interested farmers to stop by and visit about the management system.

## DISCUSSION OF PAVING

**AG BUILDING JUNE 1 8 P.M.**

# Sounding Board

**Have your say. Call 285-2631 and tell us what's on your mind. No names asked.**

**This is my gripe:**

**I think that there should be a Child Day Care Center here in Olton like the one in Abernathy for the benefit of the working Mother. I think that there are many Mothers here in Olton that want and need to work but don't have a sitter. Besides if there were a Child Day Care Center, there would be less people on welfare because the wife would get to work and that would mean more money for the household. We never have the things we really need in Olton.**

**Thanks for reading my gripe.**

**As to a gripe--mine is people that move around during the band's performance. It's really easy to spot parents with children in the band because they are sitting there being attentive!**

**Keep up the good work, Band!**

"Many small make a great."

# On Memorial Day

BY REX BOYLES

They gave up their homes and their jobs in order to save ours. They gave up their children, their parents, and their gentle mates in order to protect ours. They gave up their peace, their security, and their pursuit of happiness in order to insure ours. They gave up even their own lives in order to sustain ours.

What shall we give in return? On this day of memorial, how shall we honor such sacrifice? How can we pay just tribute to those who cherished our liberties, our loves, our lives above even them ownselves? What suitable token have we, can we offer?

A single "thank you" would be blasphemous. But is a day of remembering enough? Can one day of memory answer to such years of sacrifice? Never! The unselfish experience of that multitude of men and women demands more, demands more than a moment, more than a day, more than a memory. That experience, that sacrifice demands, as it was itself, a commitment, a commitment to this nation, a commitment a cause, a commitment to our God.

Those men and women for whom we keep this day committed themselves to keep this nation alive. If we are to honor them truly, we must commit ourselves to that same cause. How do we do that? We commit ourselves unto God. By committing ourselves unto God we commit ourselves to this nation for it is God that establishes nations. (Daniel 2:21). It is God that blesses a nation that chooses Him for their Lord (Psalms 33:12). Are we willing to make that commitment? It will call for righteous behavior, for "righteousness exalts a nation". (Proverbs 14:34). Are we willing to commit ourselves to their cause of defending this nation? Are we willing to commit ourselves to honest dealings, sincere convictions, and unbiased judgments? Are we willing to make such a commitment in honor of them? Are we willing to make such a commitment to self-control, decency, and holiness? Are we willing to make a commitment?

That multitude of unselfish men and women gave up the songs of their children, the strength of their parents, and the smiles of their mates. What will we give up in order to protect their memory, to save their cause? What will we give up in order to insure that they died not in vain? Will we give up our back-biting, our prejudice, our selfish lusts? Will we give up our bickering, our cheating, and our hypocrisy?

Are we willing to make a commitment? It is Memorial Day. Let's remember they did....Rex

WHO'LL MAKE IT NINE?" - Old fashioned box suppers were auctioned Sunday evening at a picnic north of the city overlooking the site of the historic pageant to be presented this summer. The pageant tells the history of Olton and portrays some of this area's first settlers. In conjunction with the pageant, The Enterprise will publish its special bicentennial souvenir edition with histories of Olton pioneer families. All early day families will be included if information can be gathered. If you want your family included, write down facts of interest and bring information to the Enterprise. We will help you make it "newspaper ready." Stories and pictures are needed as soon as possible.**

Spider Mite

# CONTROL OF RED SPIDER MITES & BAGWORMS

**Contrary to popular thinking, Red Spiders are not insects because they have eight legs and are known as mites. This has been the main reason that most gardeners have been unsuccess ful in spraying for Red Spiders with normal insecticides such as Malthion and Diazinon.**

**A miticide, is effective in the control of the red spider mite. The active ingredient in miticides is "kelthane"**

**The conifer family are most likely to be affected and become brown and dusty-looking because blowing sand adheres to the foliage of infected plants covered by the "excretions" of the red spiders busy eating and digesting the sap of the plant. Because this build-up of dust is hard to penetrate with the force of an ordinary hose-on sprayer, it is always best to spray the foliage with a high pressure nozzle.**

●●●

**Bagworms are one of the most destructive pests in the Olton area and the South Plains. They can completely devour the foliage of a tree in a relatively short while and leave the tree eiher either dead or in a weakened condition going into the winter season without proper food storage. They can migrate from tree to tree simply by crawling when the distance is short but in many cases, they attach themselves to the feet of birds and let them transport them great distances.**

Bagworm

**Since bagworms hatch out the same time every year just like clockwork, make plans on spraying your trees the first ten days in June for best results. The longer you wait in the season to spray, the harder it is to kill them.**

●●●

**If you have an insect problem we can sell you the proper chemical for your sprayer or we offer custom spraying.**

Cabbage is so rich in vitamins and minerals that it has been called man's best friend in the vegetable kingdom.

You don't have to worry about flour getting wormy if you keep it in a plastic bag in the freezer. Flour never freezes.

## SPORTS SURPRISE

When Rocky Graziano won the World Middleweight Championship from Tony Zale in 1947 in Chicago, no official films were made of the fight.

Anyone who took home movies in 16 mm or 8 mm of that fight, or of any old fight may be able to sell them to fight film collector Jim Jacobs. His address is 9 East 40th St., New York, N.Y. 10016.

RECOVERING LOSSES

Accurate records can greatly assist the home or business owner in recovering for losses following a natural catastrophe, like a tornado. Keep a current property inventory list identifying items and indicating costs. This will substantiate claims for insurance payments and income tax deductions.

MRS. GARY DeBERRY

## Cook Of The Week

One of the recipes shared by our Cook of the Week, Mrs. Gary DeBerry, is a family recipe which has been popular for at least four generations. The "tea cakes" were made, Becky says, by her Grandmother Bearden.

"Mother made them and we grew up on them," she says. Now Becky makes the tasty little treats for her own children. She says they are good plain, frosted with chocolate-powdered sugar icing or with powdered sugar icing made fancy with food color.

Becky and Gary have three sons. Chris is 14; Craig, 12; and Cory, six.

Olton has always been home for Becky although her family lived in the Springlake community when she was very little. Gary, too, has lived all his life at Olton. The young DeBerrys are members of First Baptist Church.

Just recently, the DeBerrys have done extensive remodeling on their farm home and Becky has had little time for hobbies. Redecorating and fixing up their "new" home has been more fun than hobbies but it has also been lots of hard work.

The DeBerrys enjoy snow-mobiling as a family sport. Gary's newest interest is in a dune buggy which Becky says will probably become their summer fun source.

Plants are one of Becky's favorite interests. She admits she is "just learning" how to care for plants and, hopefully, have them thrive from her efforts.

MRS. PHILLIP ROLAND FRAZIER

## Mr. Frazier-Miss Baker Wed In Brandon Church

A candlelight ceremony May 20 in Brandon Baptist Church was the scene of the wedding of Miss Sonya Lynn Baker and Phillip Roland Frazier. The bride is daughter of Mr. and Mrs. Howard Baker of Brandon, formerly of this city, and the granddaughter of Mrs. Douglass Giles. Mr. and Mrs. Roland Frazier are parents of the groom.

The Rev. Samuel Bell of Hillsboro directed the double ring vows. A prelude of traditional nuptial selections was presented by Nancy Stubblefield of Hillsboro.

Presented at the altar by her father, the bride wore a formal length wedding gown of embroidered satin. The Empire bodice featured a scoop neckline and short, scalloped sleeves. The A-line skirt was re-embroidered and accented with rows of seed pearls. A tiered veil of English illusion fell from a daisy accented headpiece. Both the gown and headpiece were fashioned by the bride's mother.

The bridal bouquet was a cascade arrangement of yellow daisies surrounding a white orchid. For 'something old' the bride carried a handkerchief having belonged to her paternal great-grandmother. In her shoe she carried a penny minted in 1890, gift of a friend; 'borrowed' was a single strand of pearls; and she wore the traditional 'blue'.

Attending as matron of honor was Mrs. Cheryl Williams Stults, of Odessa, cousin of the bride. Ronnie Frazier served as his brother's best man. Guests were seated by Danny Baker, Tommy Davis and Gordon Newman.

For her daughter's wedding, Mrs. Baker chose a formal length gown of blue knit with matching accessories. The mother of the groom wore a gown of rose knit, with matching accessories. Both added white corsages.

Special guests at the wedding were her grandparents, Mrs. Lucille Baker, Hillsboro, and Mr. and Mrs. Douglass Giles.

A reception honoring the young couple was held immediately following the ceremony in Brandon Community Center. Miss Sharon Baker of Hillsboro and Mrs. Sandra Kinard of Abbott presided at the refreshment table.

Graduate of Bynum High School, the bride is presently attending Hill Junior College and is employed in a pharmacy. She has served for several years as pianist at Brandon Baptist Church.

Frazier, graduate of Hillsboro High School, and Hill Junior College, attended Texas A&M University. He is presently employed at Glen Rose. Following a short wedding trip the couple will be at home at 213 N. Pleasant, Hillsboro.

TORNADO FATALITIES

National Weather Service statistics indicate that 95 per cent of tornado-related fatalities are caused by only two per cent of all tornadoes. These killer tornadoes, called "maxi-tornadoes," are large, fast-moving funnel clouds which hug the ground with unusual persistence.

STORM DAMAGE

One of the greatest points of confusion following a major storm is whether damage has been caused by wind or water or both. No one insurance policy covers all these situations--so it's good advice to find out ahead of time to what extent and for what perils the policy provides protection.

WHAT IS A TORNADO?

A tornado is a violently rotating column of air pendant from a thunderstorm (cumulonimbus) cloud and touching the ground.

Rain and frequently hail will usually preceed the storm with the heaviest downpour immediately to the left of the tornado.

## YOU CAN BANK ON IT!

By Kenneth Burgess
Olton State Bank

The family farm could become a vanished specie if revisions in federal and state estate tax laws aren't made soon.

Outdated estate tax exemptions and an Internal Revenue Service provision which forces settlement of estate taxes within nine months after death are forcing hundreds of family farms out of existence.

Estate tax reform has become a prime issue on Capitol Hill, and a bill before Congress would raise the personal exemption to levels more realistic for today's farm valuations.

There are two basic courses a farm family can take: 1) form a corporation and distribute shares to the children ahead of time; 2) form a legal partnership which will guarantee that half of the farm belongs to the wife.

One thing a farm wife can do to help overcome estate tax problems is to document her contributions to capitalization of the farm so that she has proof that she helped operate and finance the business and was a true business partner.

Why lose what you have worked so hard to accumulate, when a little time and effort toward estate planning will save much of your investment.

*"The more you know about our business, the more we can help you!"*

## Mr., Mrs. Smith Visit Maryland

Mr. and Mrs. Tom Smith returned Tuesday from a three week tour that took them through thirteen states to the east coast.

In Arnold, Md., they spent ten days in the home of their daughter and family, Mr. and Mrs. Bob Johnson, Jolissa, Tammy, Cody and BoJan.

From that vantage point they visited Washington's home, Mount Vernon, and the U.S. Naval Academy at Annapolis. While in Annapolis on tour, it was pointed out that this capitol of the state of Maryland is the oldest capitol city in the nation.

During a tour of Washington, D.C. they visited the White House, Washington Monument and a portion of Smithsonian Institute.

En route to Maryland, the Smiths visited in Greenwood, Ark., with Mr. and Mrs. Robert Fisher, former teachers in Olton schools. In Booneville, Ark., they called upon a niece and family, Mr. and Mrs. Leslie Key.

Returning home they visited cousins, Mr. and Mrs. Harold Schier in Lebanon, N.J. and Edmund Fuchs of El Reno, Okla.

The Smiths report much rain and spring beauty in all their travels.

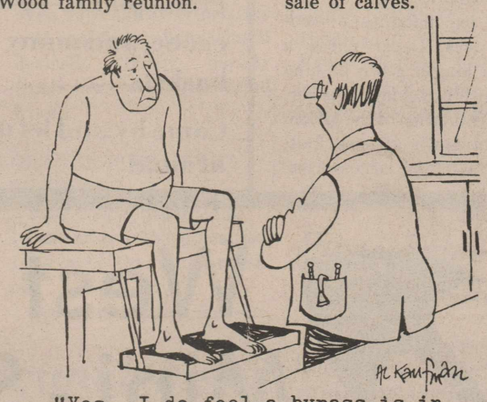

## Bud Andrew To Exhibit In Craft Show

Bud Andrew, local woodcraft artist, has been invited to participate in the Second Annual Running Water Draw Arts and Crafts Festival, Oct. 15-17, in Plainview. He will join approximately 100 other artists and craftsmen at the event. Last year's festival attracted 115 artists and over 4,500 visitors to the three-day event.

The Festival is co-sponsored by the Plainview Rotary Club and the Llano Estacado Museum, and is held at the Hale County Agricultural Center. All profits go to support museum activities and community projects.

CATTLEMEN SHOULD BE PESSIMISTS

A pessimistic attitude by producers could speed up recovery in the cattle industry, contends a livestock marketing specialist for the Texas Agricultural Extension Service. This would lead to heavy culling of cows, reduction of breeding herds, and early calf marketings to cut down the large numbers of cattle still on hand. Producers who reduced their herds now would benefit from higher salvage values for cows and increased income from the sale of calves.

## 'Stand-by 7' To Provide Service Here

International Harvester Dealer, Wood, Jordan and Davis, Inc., is participating in a special parts and service program to keep area farmers rolling around the clock during planting and harvesting seasons.

Called "Stand-by 7", the company-dealer program is designed to provide parts service seven days a week. Wood, Jordan and Davis, Inc. is available weekends, ready to make any part available just as fast on Saturday or Sunday as it would be on a weekday.

If Wood, Jordan and Davis, Inc. doesn't have the needed part in stock, he simply phones a special "Stand-by 7" telephone number which features three alternative stock sources. That is, the specific part may be located regionally, nationally or from the manufacturing plant producing such parts--no matter what the time or day. Whatever the source, the dealer need only call one number. Wood, Jordan and Davis, Inc. will be participating in this program through his area's final harvest season.

"The overall philosophy of this program", said Wilbur R. Stringer, Manager of IH's three-state Dallas Agricultural Equipment Region, " is that International Harvester and our dealers have a mutual obligation to our customers. We must provide them service to keep down time to a minimum."

WEATHER REPORTS

The National Weather Service reports that during 1975 there were 917 reported tornadoes across the nation resulting in the death of 59 persons. Ten of the deaths occurred in Texas where 118 tornadoes were reported.

ENERGY SAVING TIP

Don't waste hot water in your dishwasher. The average dishwasher uses 14 gallons of hot water per load. To use it economically, be sure the dishwasher is full, but not overloaded, when you turn it on.

ENERGY SAVING TIP

Save energy in your home workshop. Buy power tools with the lowest horsepower adequate for the work you normally want to do. Using more powerful tools than you really need can waste energy.

The Comanches, Part II

Attractions other than an ample supply of food and water drew the Quahadi or Antelope Comanches to the Sand Hill region.

Nature provided excellent facilities for the campsites. Strong winds often caused the shifting sands to expose large, hard-packed, basin-like areas of an acre or two. The high-rise sand dunes covered with vegetation protected the camps from winter winds. Wood for campfires was available from the nearby trees. The hard-packed basin floor was an ideal setting for camp activities. Eight known Indian campsites are in the region.

TORNADO INSURANCE

An essential part of tornado preparedness is insurance for building and possessions. Purchase insurance from a reputable company and request coverage for all types of damage. Most policies do not cover damage caused by rising or windblown water and special flood insurance needs to be obtained.

Not only did the campsites offer protection from the cold, but they also shielded the Indians from pursuing enemies. Early day buffalo hunters called some of the sites "the tunneled sand hills" as they found large man-made caverns. Following an encounter with renegade Comanches from the reservation at Fort Sill, the avenging, pursuing buffalo hunters lost them in the Sand Hills. The battle between the buffalo hunters and the Comanches was in the Blackwater Draw near present day Lubbock in 1877.

In earlier times, the Comanches found the Sand Hills to be a convenient place for both trading and raiding. Warriors could travel northwesterly along the Blackwater Draw to the New Mexico settlements or go southeasterly to the Texas frontier.

To be continued.
