Co-Captains For New Football Season

Ralph Lindsey, No. 21, senior fullback, and Glenn Hunter, No. 60, senior guard, will be co-captains Friday night when Colorado High Wolves open their season here against Coahoma.

C-City, Coahoma in Grid Opener Friday

Coach Truman Nix's Colorado High Wolves trot on to their home turf Friday in the favorite's role as they open their 1967 football season against District 5-A Coahoma.

The Wolves, tabbed as probably a bride's maid in the tough District 5-A title race, are expected to triumph over the Howard County school, once the state's pride in its Class A football.

KICKOFF TIME will be 8 p.m. and it will be the first twilight football game under the new daylight savings clock.

A couple of senior co-captains, fullback Ralph Lindsey and guard Glenn Hunter, will head up the Colorado High team which has only seven lettermen returning from the 1966 campaign.

COACH BERNIE HAGINS' Coahoma team will have 14 lettermen, including six experienced backs, who are expected to move the Bulldogs into second place in District 5-A this season.

The Wolves have flashed potency in scrimmages with Lake View and Eldorado, but definitely lack depth. And they are handicapped by injuries. Letterman linebacker Macca Findley out for the season with a reinjured knee, senior halfback Benny Lamb favoring a slight shoulder separation and expected to see only light duty, and sophomore tackle Charles Morton, impressive in workouts, out for an indefinite period with

a reinjured knee.

HERE IS THE offensive line-up expected for duty call Friday for the Wolves: Dual Centers — Jere Graves, senior, 202, and Johnny Matthews, junior, 195. Guard — Glenn Hunter, senior, 150. Tackles — Sam Parham, senior, 180, and Leslie Ellis, junior, 205. Ends — Kerry Campbell, senior, 170, and Kenny Key, junior, 160. Quarterback — Randy Parker, junior, 180. Halfbacks — Dan Steakley, junior, 165, and Arthur Molina, senior, 125. Fullback — Ralph Lindsey, senior, 168.

FOR DEFENSE, the starting eleven, will probably have three changes — See Opener Page 6

Fun Day Event Set Sunday At Arena

Another free play-day is set Sunday afternoon at Western Riding Club Arena just west of Colorado City on Highway 80 business route.

The fun will start at 2:30 p.m. for all ages, according to Mrs. Dolores Wood, club secretary, with no admission charge.

Anybody who wants to ride will be welcomed, she said, and there will be barrel racing, pole bending, flag races, soda pop races and other events.

Lot of Rattlesnake

Bob Lindley displays the 5-foot 5-inch rattlesnake he killed Labor Day morning while walking in a pasture of his father-in-law, W.H. Boney, 12 miles southwest of Colorado City. Lindley, who was with his father, R. P. Lindley, said the 8-pound-plus snake was coiled in the sun.

Communities' Ballots

Going Out Friday For ASC Election

Ballots will be mailed Friday for the Mitchell County's annual election of Agricultural Stabilization & Conservation community committees.

Three communities within the ASC operation will elect representatives and alternates in the election which concludes Sept. 22.

All ballots must be postmarked or returned to the ASCS County Office in Colorado City by Sept. 22 and

the voting will be tabulated publicly at 8:30 a.m. Sept. 25.

Here are a list of nominees for the three areas of the county:

Community A — J. B. Axtrey, Douglas J. Barber, Roy L. Howell, Rex T. McKenney, T. C. Moore, A. Preston Morris, Jose Reyes, Linden Solomon, Jerry Webb.

Community B — Warren Anderson, B. D. Green, Everett W. Haggerton, A. K.

McCarley Jr., Manuel Munoz, D. M. Pieper, Morgan Rose, Curtis Shaw, W. A. Taylor, O. B. Trulock Jr., **Community C** — Travis S. Branch, Lee Roy Cornutt, T. L. (Lester) Finley, Alfred Hackfeld, Roscoe Hudgins, J. M. Munoz, Travis P. Turner, C. N. Stubblefield and John T. (Thomas) Vest.

Each community will elect three regular members

committee.

Each community chairman, vice chairman and third regular member will serve as delegates to the county convention when farmers will elect its ASC County Committee, county chairman and vice chairman.

Mitchell County's convention will be Sept. 27 at 9 a.m. in the ASCS office, two days after tabulation of community election ballots, according to Curtis E. Latimer, county chairman.

Alternate Committeemen will also serve as alternate delegates to the convention.

The County Committee supervises the ASCS County Office and is responsible for administering the price support, acreage diversion, agricultural conservation and other programs in the county.

Community committees assist the county committee and are particularly responsible for keeping their neighbors informed about the programs.

Generally, a farm owner, tenant, or sharecropper may vote in the community committee election if he is eligible to take part in one or more of the programs administered by the ASC Committee. Eligibility to vote, or to hold office as a committeeman is not restricted by reason of race, color, creed, or national origin.

Qualifications of persons eligible to hold office as committeemen include eligibility to vote in the election and being a local resident. It is also desirable that nominees be currently active farmers or ranchers who are qualified for community committee work and who will be representative of the various sections and types of agriculture in the community, Latimer said.

Late Cotton Crop Looking For Sun

More rain fell Wednesday, but continuation of cool cloudy weather was beginning to hurt Mitchell County's late cotton crop. Showers Saturday through Monday poured more

than 1.5 inches of rain over most of the county.

Here in Colorado City, the official measurement on Courthouse lawn was .55 Saturday, .03 Sunday and .97 Monday, followed-by a

trace Tuesday and a light shower Wednesday afternoon.

"But every day without sunshine now is costing the cotton farmer," reported County Agent Bobby Lemons.

The cotton crop — much of it planted late because of lack of moisture from last fall through the spring — needs sunshine to mature and gain maximum grade and yield.

So far this year, the official rain measurement in Colorado City is 8.45 inches. All but 1.95 inches of this moisture has come in June, July, August and first five days of September.

June, so far, is the wettest month with 2.67 inches of moisture, followed by July with 1.59 and September, already with 1.55.

Last year when the 12-month rainfall was 22.60, June recorded 3.02 in comparison to this June's 2.67.

ENTRANCE PLANS FOR GAME FANS

Holders of season tickets will be admitted at all four gates Friday at Colorado High-Coahoma High football game.

This will provide convenience for season ticket owners wherever their cars are parked, according to Wallace Price, high school principal.

Local purchasers of single game tickets will be admitted at the southwest gate only — north of the new off

street parking area south of Wolf Stadium.

Out of town visitors can obtain tickets and enter the stadium at either the northeast or southeast gate.

Those with passes — including, bands and other special student organizations — will enter at the northwest gate.

Season ticket holders, since they do not have to purchase tickets at the stadium, will be admitted at any of the four gates convenient to them.

Contract for Highway Job

A contract for 9,327 miles over-lay paving on Interstate Highway 20 in Mitchell County has been awarded to a Denton firm, it was announced in Austin this week by the State Highway Commission.

Jagoe - Public Company submitted the low bid of \$475,694.00 on the project.

The Asphalt concrete paving from Howard County line to Farm to Market Road 670 in Westbrook is expected to take 150 working days according to J. C. Roberts District Highway Engineer at Abilene.

B. R. Wilkinson, resident Engineer at Colorado City, will be in active charge of the project while it is under construction.

Another Mitchell County project has been approved in the expenditure of \$1,640,000 for highway safety and betterment and improvements of state highways and farm to market roads during 1968 in District 8, which includes this area. The Mitchell project will be for 15 miles on State Highway 208 in Colorado City

One Day Freedom For Defendant In DWI

\$35 court costs.

His 15 day jail sentence was probated for one year, depending upon good behavior in accordance with the stipulations of probation.

Tuesday police were notified of a drunk driving a car in front of Col-Tex Refinery at 4:10 p.m.

At 4:30 p.m. officers arrested a suspect in a car at corner of 10th St. and Hickory.

The suspect was Harris. Wednesday Harris was still in Mitchell County jail in lieu of \$750 bond with a

new charge of misdemeanor

DWI facing him and County Attorney Frank Ginzler filing an application for revoking the probation on Harris's 15-day jail sentence Tuesday.

Also pleading guilty to DWI here this week was Charles Hornberger of Midland.

He was arrested Aug. 30 by Patrolman Hertenberger and pleaded guilty in County Court to the offense Friday.

Hornberger had a 30-day jail sentence probated for six months after being fined \$50 and \$25 court costs.

6 Local Points For '68 Cotton Program

A national production of 12.8 million bales, at the very most, could be expected under the kind of 1968 cotton program recommended in Lubbock this week at the USDA hearing.

More than likely less than 12 million would actually be raised according to information gained at the meeting.

The majority of growers speaking at the meeting advocated leaving the program as it is and simply lifting the penalties now levied on skip-row planting patterns

to get increased production needed to service cotton's markets in 1968-69 season.

"But there is another side to the coin" said Charles Stenholm, executive vice president of the Rolling Plains Cotton Growers, "That far too often we farmers fail to look at — that side that deals with the future, not just next year."

The market off-take for 1968-69 is now expected to total about 14.2 million bales including 8.4 million bales in domestic channels and 4.8 million for export uses. Car-

ryover stocks, now expected to be a normal level of about 7 million bales by the start of the next marketing year, will contain no significant cushion in the more desirable qualities.

These and other factors mean next year's crop must be adequate to meet domestic and export demands in various quality ranges or cotton will lose markets to foreign growth or to synthetic fibers, according to many reliable sources. And market loss by such default may be gone forever.

This is the key policy area where cotton differs in large measure from such commodities as wheat and feed grains.

"Export markets are the real key to the future of a healthy cotton industry, especially here in the Rolling Plains" said Stenholm. "70% of the cotton we grow ends up in export markets."

From 1956 to 1960 U.S. exports averaged 6 million bales per year. From 1961 to 1966 U.S. exports averaged 4.3 million bales. Had we maintained our exports at

the 1956-60 rate we would have never built a surplus of cotton that caused our current dilemma.

"Now" continued Stenholm, "We have the real opportunity to regain our share of the world market but we find that the tight supply of longer staples and resulting higher prices are already causing foreign producers to boost their acreage."

"With better yields than last year, foreign production may go up a million bales, even, though wider price dif-

ferentials among qualities may result in short staples comprising a greater proportion of the exports of American cotton during the next season."

"I hope that our farmers will stop for a moment and examine the past, present and future of cotton," said Stenholm, "before arriving at any conclusions regarding the 1968 program. Many of our farmers apparently have grown to like planting 65% of their allotment in cotton. They've indicated they want to continue doing

this while getting full federal payments and temporary price rises that could be expected when government policies create shortages."

"But what kind of future are we building for cotton when we spend a dollar a bale for building U.S. markets we clamor for a six million bale export of cotton so that we may regain world markets and then say we do not want to raise the cotton to sell in 1968?"

Our price problem is a short term problem but decisions made now can effect

us greatly in the future."

To achieve a sound healthy future for the cotton industry, RPCG testified in Lubbock that adequate supplies of all qualities of cotton must be maintained in 1968. However, if farmers' interests are kept foremost in mind, any changes in the cotton program for 1968 must be made using restraint, good judgment and fair-mindedness.

With this in mind, RPCG made the following recommendations for 1968: See Program Page 4

Mitchell County Library Announces New Book List

New books at the Mitchell County Public Library according to Mrs. Boyd Dozier, librarian, include the following:

"Cakes and Ale and Twelve Short Stories" by W. Somerset Maugham. Thirteen stories representing the core of Maugham's genius—his devastating portraits of the Anglo-Saxon in the world of the tropics.

"Getting Acquainted with Comets" by Robert S. Richardson. The author not only discusses shooting stars, meteors, meteorites, fireballs and comets but also discusses the different telescopes

available on the amateur budget.

"One Lady, Two Cats" by Richard Lockridge. When Richard Lockridge decided he'd like to marry Hildegard Dolsen, Miss Dolsen, a long-lover, couldn't see eye-to-eye with the author's two Siamese cats. How this all turned out is told in this tender, sometimes hilarious, true story.

"Sam, Bangs, and Moonshine" by Evaline Ness, a Caldecott Award winner. Young readers whose mothers are mermaids, who own fierce lions and baby kangaroos and can talk to their

Buy Bonds where you work. He does.

Why do our servicemen buy U.S. Savings Bonds? Their reasons are the same as yours and mine: saving for the future, supporting freedom. And because they're fighting for freedom, too, maybe servicemen see the need more clearly than many of us. Buy Bonds. In more than one way, it makes you feel good.

New Freedom Shares Now, when you join the Payroll Savings Plan or the Bond-a-Month Plan, you are eligible to purchase the new type U.S. Savings Notes—Freedom Shares. Freedom Shares pay 4 1/4% when held to maturity of just 4 1/2 years (redeemable after one year); are available on a one-for-one basis with Savings Bonds. Get all the facts where you work or bank.

Fair Events Set 3 Days

Calendar of events for Mitchell County Fair '67 sets aside three days, Thursday, Friday and Saturday Sept. 21, 22 and 23.

All departments will be open to accept entries in all divisions between 8 a.m. and 11 a.m. opening day of the fair, Thursday.

Judging of all entries will be done between 1 p.m. and 5 p.m. Thursday.

Downtown parade will herald opening of the fair at 4 p.m. Thursday with Lacy Bales as parade marshal.

Exhibit halls will be open from 5 p.m. to 10 p.m. Thursday, from 10 a.m. to

10 p.m. Friday, and from 10 a.m. to 8:30 p.m. Saturday, last day of the fair.

Dink Rees is general chairman of fair planning. Rules for entering exhibits may be had for the asking at Chamber of Commerce, which annually sponsors the fair.

J. D. Hill Jr., Bobby Lemons, John Russell and A. V. Sheppard are in charge of agriculture division. Janice Miller is to direct youth division. Arts and Crafts has as directors Mrs. Robert Shamburger and Mrs. Tom Neff. Mrs. Chester Hart is chairman of the horticulture show. Mrs. Bill Jackson and Mrs. Harry Dockrey will be responsible for the always popular women's division.

Jaycees to Serve Chili Before Game

Colorado City Jaycees will serve a pre-game chili supper in Civic House Friday. The supper will be from 6 p.m. until 7:30 p.m., leaving plenty of time to reach Colorado High Stadium before the 8 p.m. kickoff of the football game against Coahoma.

Cost of the supper, advertised as all you can eat will be \$1 per adult and 75 cents per student, according to Phil Fortune, Jaycee president.

Included in the supper menu will be chili and drink. Dr. Billy Bridgford has headed up plans for the pre-game chili supper with all proceeds going to three Jaycees' Civic House fund.

Civic House, operated for years by Jaycees as a public service for the community, has been pressed by financial problems in recent months. These include a \$700 plus assessment for down town alley paving.

Jaycees are hoping the pre-game chili supper and similar events will raise funds to ease the money squeeze.

ton Grubbs, junior, 150, moving to corner back; Rusty Steakley, senior, 163, taking a defensive halfback assignment; and Mike Maines, junior, 165, at the other corner back.

While the Wolves are opening with Coahoma, a team they defeated 13-0 last September, four other District 5 AA teams also will be moving into action.

Anson, a favorite of many for the championship, will be host to Coleman High while Hamlin journeys to Rotan.

Stamford will be host to Quannah and Haskell will oppose Frederick, Okla., in Haskell.

Two months earlier — April and May — the 1966 rainfall measurement was boosted by a total of 8.86 inches. So, last year's April, May and June had 3.43 inches more of moisture than all of 1967.

September for the last four years has been a fairly moist month for Mitchell County. Already this year it has 1.55 officially recorded. Last year it had 3.21 inches and in 1965 it had 5.02 inches, preceded by 1964's 2.08 inches.

July for 1967 was wetter than usual with 1.59 inches compared with .13 in 1966, .12 in 1965, 1.18 in 1964 and 1.14 in 1963.

However, last month was a dry August with .69 inches of moisture, compared to 1966's 3.05 inches and 1965's 5.02 inches.

CONVERSATION CORNER

SEPTEMBER came in with tears raining down her face... wind in her hair... lightning in her eyes... and thunder in her usually soft voice.

Sound of September weeping outside the window never could be a sad sound to any rain-lover. Sound of her storming across the skies trailing clouds dark as a window's veil was a glad sound.

How many glad sounds do you cherish? How many others do you remember loving as a child?

Some long-ago sounds are gone now, of course... the lonesome hoot of a train at night... the twang of the sawing machine cutting logs for the fireplace... the bells, everywhere... church bells and school bells, and fire bells. Remember the little tinkling bells on the old ice cream wagon?

REMEMBER the sound of hoot on sand that came with cattle drives to the freight yards?

Ever hear the night cry of the screech owl? Now there was a weird and scary sound. Not a very glad sound at all.

Ever listen to the baying of a neighbor's hunting hounds when the moon was high... hear the clanging of the dinner gong at the Harvey House down at the station?

Did you, too, love the sound of a circus parade with the shrill notes of "When You Were A Tulp" played on a callopie?

EVER listen to the wail of a hummingbird when it is a honeysuckle vine?

How did you feel about the sound made by the tree frogs and the chirp of crickets?

Did you ever hear the honk of wild geese flying south... a violin playing Souvenir at dusk... were you lucky enough to have heard the late Tommy Daves play his piano at midnight?

Ever pause just to hear the sound of the rustle of leaves in the cottonwood trees?

Ever stay still and listen to the lapping of waves as the tide came in at the Gulf of Mexico?

HOW many glad sounds do you take time to hear?

Sounds are not the same, some of them, with the coming of the screaming jet... the labor of the giant truck climbing up a hill... the chilling sounds of the siren for ambulance or fire truck... the loud explosion of shells on TV, both news and drama time... loud voices and louder combs.

Sounds are not all sweet.

But when September comes in crying, then starts singing in the rain, the sounds of earth's age-old heartbeats are beautiful — almost too beautiful to bear.

SEEN LATELY, rain or no rain, were Myrtle Womack on the downtown scene... Avalene Hallmark feasting on Mexican food... Margaret Costin, wife of Warren and mother of recent bride Sue... Ruth Latham back from a visit with son Louis at Hobbs, N.M.

Saw Jewel Tiller (Mrs. E. L.) and C. N. Stubblefield... Cute Christy Stubblefield, too... Petite Aldred Pickens, wife of Sefton, lunching out with her college son, Rusty, student in University of Texas at Arlington. The Pickens will be hosts again this weekend to their friends Dallas and Battle Farmer of Valley Mills who stopped for a little visit last weekend, enroute to Tucson, Arizona.

Greeted Mrs. W. C. Davis of the L.T.N.S. (long time no see) Department... Ross Hargrove and Murrell Blassingame together... Pretty Carol Ginzler, who'll go to North Texas at Denton, passing by. She's first daughter of Frank and Betty... Saw attractive Mrs. Tom Trewitt, new-comer from Coleman, too.

BRIEF ENCOUNTERS also brought chats with Gwen Brown, working at the Village now, who had a card from Joe Earnest mailed in Istanbul... John Bordeaux had a card too. Last leg of Joe's journeys abroad is being made with one other American, a man from Boston, and with a group of Danes, he writes.

Three new officers of the Mitchell County Ministerial Alliance dropped by. They were Weems Dykes, new president Billy Wilkinson, vice president, and C. W. McDonald, new pastor at Payne Chapel Methodist... Fred Brew-

ton of First Presbyterian was in for a minute, too.

HEAR TELL that C-City's Jas. Jarman is to supervise the collection of old drilling tools and old-time oil field equipment for a new museum to be located between Midland and Odessa.

George Abel Foundation is planning the museum as a tribute to Permian Basin history. There will be a Hall of Fame, too, Isabel Ratliff was saying.

OFF THE CUFF — Have you seen the gorgeous cockscomb in bloom in the courthouse flower beds... admired the terraced rose and flower garden in Ruddick Park lately?

Did you know Bob and Peggy Ratliff are adding to their attractive brick home on East 10th St.?

Weekend company at the Harvey Jones house included their daughter and her husband, Rev. and Mrs. Charles Carter and son Andy... And the H. L. Joneses, all of San Angelo now.

The Charles Mack Rothwells were here from Lubbock, recently, too.

Bruce and Mary Hart are on vacation, visiting Mary's sister in Colorado, Mary's home-state.

FAMILIAR FACES, various places, included Eddie Braswell... Pete Warren... Mrs. F. T. Pierce mother of Kathy, bride of Louis Schoolcraft, Viet Nam veteran... Dolores Wood in a becoming shade of blue.

Called in Tiller, mother of Johnny and wife of John, to ask about the Tiller son, Johnny's been in... completing two years at Harvey Mudd College, Clarmont, California, and after working in San Diego this summer.

Johnny will enter University of Texas at Austin with the fall term to complete his education in Texas!

New reporter for Garden Club, Mrs. Sims Palmer, came in a minute... So did Leslie Hamilton.

FRIDAY MOORE, longtime F.P. (Favorite Person) wife of Therman, mother of Cleve, and popular L.V.N. at Root Memorial, is proud — and has a perfect right to be.

Her son Cleve, Airman second class now, was outstanding honor graduate named from 200 men in his class at Keesler Air Force Base in Mississippi.

After 30 days at home he flies to Clark Air Force Base in Manila for a year. Cleve's a CHS grad and ex-student at Angelo State College.

IN ANNUAL MEETING

Land Bank Names Narrell Director

W. H. (Huse) Narrell of Lorraine was elected now director of the Federal Land Bank Association of Colorado City Thursday night.

Narrell's election came in a business session during the annual stockholders meeting in Civic House.

He was named to fill the unexpired term of the late Dave Womack.

Re-elected directors, who will serve three-year terms, are Martin Murphy of Hermleigh and George Dawson of Westbrook. Holdover directors are C. C. Thompson, Max West of Snyder and Audry Head of Snyder.

George L. Taylor of San Angelo, regional manager for Federal Land Bank As-

sociation, presented a brief history of the land bank system and showed a film in observance of the Bank's 50th anniversary.

Taylor was introduced by Newby H. Pratt, local association manager.

Refreshments were served to 178 members and guests. Door prizes were given away.

E. J. Richardson Jr., assistant manager for the local association, operates an office in Snyder.

McCarley's Funeral Held At Andrews

Funeral services for Madison Grady (Jack) McCarley, age 79, were held in First Methodist Church, Andrews, Thursday afternoon. He died Wednesday in Permian General Hospital after suffering a heart attack at his home a few minutes earlier.

Mr. McCarley was born August 19, 1888 in Gasden, Ala. He moved to Andrews from Colorado City in January, 1924. He was a retired farmer and a member of Masonic Lodge for over 50 years. He was married to the former Ora Smith, daughter of the late Mr. and Mrs. D. P. Smith.

Survivors include his wife; three sons, Rex and Smith of Andrews, and Jax of Midland; a daughter, Mrs. Uden Thompson of Andrews; two brothers, A. L. of Andrews and Tom of Bell, Calif and a sister, Mrs. Jenny Watson of Lubbock.

He was uncle of A. K. McCarley Jr. and of Mrs. W. A. Bell of Westbrook.

Holiday Good Deed —

If you happened to pass by the Jaycees highway rest stop here Labor Day, you couldn't but be impressed by the number of travelers accepting Jaycee hospitality.

Sure, only a portion of the huge number of holiday travelers stopped for a relaxing visit and free refreshments. But the number was impressive and we will never know just how many accidents this project helped prevent.

Here is another example of our young citizens working extra without fanfare for our community and our well-being. This time, as in so many occasions, it was when a lot of us were taking it easy in a restful mood at home or at the lake.

The right answer...

Proper light at the study table

Proper light for home study makes learning easier, helps prevent eyestrain, leads to better grades. You can make sure you have the right answer to your child's home study needs if you choose a study lamp that provides plenty of good light. The lamp should be tall enough to spread light evenly over the work area and properly shaded to conceal the light source from the eyes. A diffusing bowl is recommended to soften the light and prevent glare. See your dealer soon for a study light that's right.

Wolves Over Power Eldorado

Colorado High Wolves showed promise for the 1967 season by demonstrating that they can play a balanced game in Friday night's scrimmage with the Eldorado Eagles.

The Wolves combined passing with their ground game to place themselves three touchdowns on top. Although Colorado City rushed for

impressive yardage in their August 22 scrimmage with Lake View, they possessed no aerial threat, to speak of.

But Friday night Junior quarterback Randy Parker connected three passes for a total of 118 yards and one touchdown. The big play of the evening was an 80 yard pass-run from Parker to halfback Dan Steakley.

Parker produced another long play on his own, scampering 50 yard for a TD with a roll out around left end. Ralph Lindsey made the other Wolf touchdown, receiving the pitch out around left end and covering the 12 yards to the goal.

Added to the Wolves' 118 aerial yards are approximately 220 yards rushing.

Eldorado was unable to reach the Wolves' goal, and trailed considerably in yardage. The Eagles captured 99 yards rushing and 25 in the air. They completed 3 passes out of 6. C. City covered all four Eagle fumbles, while Eldorado pulled down one of the Wolves' pass attempts.

Head Coach Truman Nix commented that he definitely thought the team's pass offense had improved, but was dissatisfied with sever-

al other things. "I was disappointed with their fire and go," said Nix of the Wolves' attitude. "But we think that might be because they're thinking too much about Coahoma."

The coach mentioned pass defense and the offensive line as areas that need some work this week. He commented that play execution was better and that the B-team "looked real good." Nix had praise for Jim Ty Maddox and Johnny Matthews defensively, and Kerry Campbell for aggressive offense blocking.

Ray Moran, head coach of the Eagles commented after the scrimmage that C. City had "a real tough ball club."

The Wolves got their first chance to prove it when they met Coahoma here at 8:00 p.m. Friday.

Rev. C. W. McDonald

McDonald New Pastor Payne CME

Payne Chapel CME Church heard their new pastor, Rev. C. W. McDonald, preach for the first time, Sunday.

The preacher, 27, is moving here from Dallas where he was pastor of the Christian Methodist Episcopal Church. For the past four years he was pastor of Bullock Chapel CME in Dallas. He is unmarried.

Son of Rev. and Mrs. Charles McDonald, he completed elementary and secondary school in Dallas, attended Bishop College, then received his B.A. degree from Texas College in Tyler in 1963.

In 63-64 he did graduate study at the Interdenominational Seminary Atlanta, Ga., where he completed 28 hours toward his BD degree. He has also studied at North Texas University, Denton, toward his master's of education and was employed by the Dallas Independent School District as substitute teacher.

McDonald has been in the ministry for nine years. He is now member of Northwest Texas Conference. He serves alumni of Texas College as chaplain, has been serving as chaplain for the Dallas chapter, and is a Master Mason, member of Pride of Dallas 135, F & EM.

Answers For Taxpayers Concerning Federal Tax Matters

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q — I just purchased two tickets to a charity ball. Won't this cost be deductible for me?

A — The cost of the tickets will be deductible to the extent they exceed the value of the food and entertainment you receive. The sponsors of the event should be able to tell you what the deductible amount will be.

Q — I want to get rid of some of my old records. Are there any I should keep for tax purposes?

A — Records should be kept as long as they are material to your tax obligations. Generally speaking, keep copies of your tax returns and related records for at least three years after due date for filing the return. Some records, such as property acquisitions, capital improvements and the like, should be kept for a much longer period.

Q — Are any of the expenses connected with duty on a reserve unit deductible?

A — The cost of your uniforms, as well as their care and maintenance, will be deductible unless you receive an allowance from the military for this purpose. Travel costs to evening reserve meetings are generally not deductible. The exception would be if you worked at your regular job the day of the meeting. Then the cost of a one-way trip from your job to the meeting would qualify for a deduction.

Q — What appeal procedures are there if you don't agree with the results of an audit?

A — There are two appeal levels within the Internal Revenue Service available to you. The first is a conference with a member of the District Conference Staff and the second is the Regional Appellate Division.

If you still do not reach agreement, you may appeal to the Tax Court of the United States. If that decision is against you, you may appeal to a United States Circuit Court of Appeals and ultimately to the Supreme Court of the United States.

Instead of going to the Tax Court, you may pay the tax and file a claim for a refund. The claim would be considered by the District Director, whose decision may be appealed within IRS. If

you reach no agreement, you may appeal to the United States District Court or the United States Court of Claims. An appeal thereafter would go, as in the other route, to a higher court.

All but a few of the tax disputes are settled in a district conference or at the Appellate level.

Q — My firm just gave me a nice promotion. Should I increase my withholding?

A — Under the graduated withholding system, the amount withheld from your pay will automatically increase unless you are already being withheld at the top rate. If that is the case you may request your employer to withhold additional amounts from your paycheck.

Another solution would be to file an estimated tax declaration if you have not done so or adjust one already filed.

Q — Can you take any deduction for furniture or clothing you give to the Salvation Army or Goodwill?

A — Yes. The fair market value of the items is considered a charitable deduction.

Q — Whose Social Security number should be used on a joint savings account, the husband's or the wife's? On accounts opened jointly with a minor, use the adult's number.

Q — I've been called in for an audit. Is there any publication I can get that will help me prepare for it?

A — Yes. Write to your district director and ask him for a copy of IRS Document No. 5022, "If Your Return Is Examined."

Q — How far can IRS go back in checking a person's tax return?

A — The basic statute of limitations is three years from the date the return was filed or the date it was due, whichever is later. In fraud cases or in failures to file there is no limitation.

Q — I've been offered a job as a summer camp counselor. Will my room and board be considered taxable income?

A — Not if the room and board are furnished on your employer's premises and for his convenience. In addition, acceptance of the lodging must be a condition of your employment.

Q — Can I deduct any of my expenses in connection with a church convention I'm going to this summer?

A — If you are attending as an official delegate you may deduct as a charitable contribution your unreimbursed travel expenses including meals and lodging. Personal expenses should not be included nor should the expenses of your family if they go with you.

Q — What's the advantage of making a gift of stock to a college or other tax exempt organization rather than giving the same amount in cash?

A — If you hold stock that has appreciated in value and donate it to a charitable organization you avoid paying tax on the increase in value. If you do this, you may deduct the value of the stock at the time of the donation rather than what it cost you at the time you acquired it.

Q — Gov. John Connally returned from his African hunting expedition undecided whether he wants to travel Texas campaign trails again.

He told reporters that he may take several weeks or even months to make up his mind whether to seek a fourth term.

Lieut. Gov. Preston Smith says he will run for governor whether Connally does or not.

State Capital Highlights Texas Spends \$505 For Each Pupil

By VERN SANFORD

Texas Press Association — The tolling of school bells some 2,598,000 students are back in Texas classrooms. Enrollment is 42,000 more than last year.

An estimated 122,000 professional people (teachers, principals, and superintendents) are required in the 1,275 school districts in Texas.

Texas State Teachers Association reported a month ago that there were only 450 applications for 1,951 vacancies.

During the coming year, Texas will be spending \$505 for each pupil. Average cost per child for 1966-67 was \$479.

With an anticipated continuing teacher shortage, TEA expects an increase in the number of teaching aides employed to do clerical and other non-teaching tasks. Nearly 5,000 of these aides are expected to be employed over the state, compared with 4,317 in 1966-67.

While enrollment continues to grow, some observers have noted that the two percent increase this year is not nearly as dramatic as the increases in prior years.

Grades one to six will enroll approximately 1,418,000 pupils and grades seven to 12 about 1,179,000.

CITY SALES TAX — A dozen Texas cities — including Austin — are rushing into special elections on the new one per cent local option sales tax which became legal on August 28.

Here's what the hurry is all about: local levies approved in elections this month will be collectable January 1. Elections after October 1 would not provide money in the till until April 1.

Thirty days' notice is necessary to call elections — either by order of City governing bodies or in response to petition by citizens.

First cities to vote on the sales tax will be Elgin and El Paso. Their elections will be held on September 27. Aransas Pass, Corpus Christi, Electra, Henrietta, Nacogdoches, Orange Grove, Texarkana and Wichita Falls will vote September 28.

Voters in Austin and Taylor will go to the polls on September 30.

CONNALLY UNDECIDED — Gov. John Connally returned from his African hunting expedition undecided whether he wants to travel Texas campaign trails again.

He told reporters that he may take several weeks or even months to make up his mind whether to seek a fourth term.

Lieut. Gov. Preston Smith says he will run for governor whether Connally does or not.

Other candidates said to be considering 1968 races are:

• Don Yarborough of Houston, a liberal who has opposed Connally twice. He may run for the gubernatorial post again next year.

• Former Sen. Franklin Spears of San Antonio, who may run for lieutenant governor.

• House Speaker Ben Barnes who is ready to announce for lieutenant governor if Connally runs again and for governor if Connally retires.

COTTON PLOW UP —

John C. White, State Agriculture Commissioner, has extended the cotton stalk plow-up deadline to September 10 in Cameron, Willacy and southern portions of Hidalgo and Starr counties.

White said 100 per cent mop-up is necessary to destroy winter hibernation quarters of the destructive pink bollworm. Bollworm used to destroy every third bale of cotton in Rio Grande Valley. Now it does only nominal damage, usually late in the season, says the Commissioner.

NEW LAWS EFFECTIVE —

Major new laws went into effect within the last week.

Among the most significant:

• "Medicaid" implementing act to provide free medical benefits to 350,000 Texans on welfare rolls;

• Minimum age for drivers increased to 16;

• Changes in the 1965 Texas Code of Criminal Procedure designed to strengthen law enforcement officers;

• New hours for Texas liquor stores — 10 a.m. to 9 p.m. except Sunday;

• Eligibility of 10,000 non-citizens for old age assistance payments — if they have lived in the U. S. 25 years or more.

PROJECTS FOR AGED —

Governor's Committee on Aging has approved for continuation special projects to benefit senior citizens in Austin, Dallas, Galveston and Houston. An outlay of \$57,058 for second-year financing was cleared. Committee also approved new projects in El Paso for \$23,816 and Wichita Falls for \$22,934.

El Paso will establish an information and referral center for senior citizen citizens.

Wichita Falls project calls for establishment of a day center for leisure time activities.

LOTS OF ROADS —

Besides hearing a request for a single designation of the bug-the-coast highway from Orange to Brownsville the Texas Highway Commission authorized a number of road projects.

Included were a 4.2 mile FM road in San Jacinto county (from Camilla northwest to FM 1514); a loop around Huntsville; a route

for US 271 from Paris to the Red River; a 12-mile FM road in Atascosa County from the McMullen County line where FM 2925 ends northwest to US 281 at Campbellton; two miles of FM 1397 in Bowie County; a one-way street pattern in Gardard; six farm to market roads to serve Sam Rayburn and Toledo Bend reservoirs in San Augustine, Nacogdoches, Angelina and Newton Counties; sections of US 281 and SH 79 in Wichita County; four miles of FM road in Polk County from US 190 southeast to FM 350; planning of US 82 through Nocona; widening of SH 327 in Sibley; and two interchanges on US 87 in Hale County.

AIR CONTROL — State

Air Control Board, armed with new powers and money has called on major cities and counties to set up local air control programs, promising help and cooperation.

San Antonio, Dallas and Houston all have city-county programs underway. First evidence of the success of such cooperative efforts came in Harris County when operators of 11 private garbage dumps were persuaded, without court action, to abandon the burning of trash and to install sanitary land-fill methods of garbage disposal.

City and state air pollution control engineers provided technical advice to the operators, and the threat of an injunction and civil penalties ranging up to \$1,000 a day under the new law was enough to convince the operators they should make the change.

SCHOOL ORDERS — Education Commissioner J. W. Edgar has upheld a Harlingen school board order closing Wilson Elementary School at Primera (Cameron County) and requiring transportation of 200 pupils to Stewart School, Harlingen, and Dishman School, Combes.

Edgar overruled transfer from the Gilmer to the Gladewater Independent School district of 45 pupils who live in what used to be East Mountain District which recently consolidated with Gilmer. Parents brought suit to block the consolidation, claiming Gilmer schools were inaccessible to their children.

Instant Credit Criticism For Banks

By WRIGHT PATMAN
Congressman, First
District of Texas

Outlawing Unsolicited Bank Credit Cards — On August 28 I introduced legislation (H.R. 12646) which would make it illegal for federally insured banks to distribute unsolicited credit cards.

Big banks are attempting to take over the whole credit industry by indiscriminately mailing credit cards to everybody in the telephone book. The banks apparently contend that the person named on the credit card is then legally liable for its use whether it is stolen, misplaced or never received.

In Chicago hoodlums and gangsters have already found a way to take advantage of the people by stealing "their" bank credit cards — which they didn't ask for in the first place. This is of vital concern to the American people and unless something is done immediately the people will again suffer from the greed of the big banks in our country. As Chairman of the House Committee on Banking and Currency, I hope to have hearings on this matter within the very near future.

A Career In The Federal Government — On September 1 the Civil Service Commission issued a new examination No. 110, which is of utmost importance to young people with a college education or equivalent experience.

CSC will accept applications now for the Federal Service Entrance Examination (FSEE) to be given on the third Saturday of the month, over a period from October 1967 through July 1968.

This examination offers many opportunities in over 50 Federal agencies and in various geographical locations, including Management Internships to recruit people with potential for special training. Over 200 kinds of positions will be filled from this examination, including a limited number overseas. Pay will range from \$5,331

to \$7,696 a year to start.

For The First Time, under the above FSEE program, it will be possible for some college students and graduates with outstanding academic records to obtain employment without taking the written test. This is a new program.

Complete details can be obtained from college placement offices or from the Civil Service Commission. Constituents may write my office for a free copy of this announcement; parents whose boys and girls are away at college may also wish to send them a copy of Announcement No. 410.

In Communist Rumania if a citizen wants to buy a car he must deposit its entire cost in the bank, which qualifies him to be placed on the waiting list where he will probably remain for at least two years before he actually gets his car.

A Veteran who has GI life insurance should make sure that the beneficiary named on the policy is still the one that he wants to receive the money. The VA says that failure to keep this up-to-date often results, in the money going contrary to the veteran's wishes and family responsibility.

Cigarettes Can Kill — The Surgeon General's 1964 Report that cigarette smoking is a definite health hazard has been confirmed and strengthened by an important new 199-page U.S. report entitled "The Health Consequences of Smoking," just issued.

A lethal connection between smoking and lung cancer is now well established and it is also thought that smoking is strongly linked to heart disease.

National Holidays On Monday — The idea of observing national holidays, such as Washington's birthday, Memorial Day, Independence Day, and Veterans Day on appropriate Mondays is gaining strength in Congress.

Senator's View Balance For Rivers

By RALPH YARBOROUGH
United States Senator

Many of our remaining free-flowing rivers, in the United States are in great danger. They are threatened by pollution. They are being broken up by dams. They are being diverted and cut up by industry. Progress is taking a heavy toll on the rivers of our nation.

That is why I am fighting to establish a National Wild and Scenic Rivers System. A bill which I co-sponsored was overwhelmingly passed by the Senate and now awaits House action. It would set up a formula for striking a balance between the healthy growth and development of our nation and the need for preserving our precious natural beauty spots.

Under the bill segments of nine rivers in our United States would be declared scenic river areas — rivers where natural beauty is still unscarred by man. In addition, 36 more rivers are named for consideration, recognized as unique and worthy of protection.

One of these rivers is the Guadalupe River in Texas, which rises from cold spring water in Kerr County and flows eastward 250 miles to San Antonio Bay, on the Gulf of Mexico. And I amended the bill on the floor of the United States Senate to include a portion of the Rio Grande which is particularly beautiful — nearly 200 miles between Langtry, in Val Verde County, and Presidio, in rugged West Texas.

This part of the Rio Grande has unparalleled natural beauty. Its lovely limestone caverns and spiraling rapids and whirlpools make a wonderful site for tourists, and for those who live nearby as well.

Under terms of the National Wild and Scenic Rivers Bill, damming and development on the nine speci-

ed rivers would be regulated by the Secretary of the Interior. In some cases the federal government will acquire waterfront property along the rivers and create parks or recreation areas.

Dams and industries already constructed or planned are not affected by this bill, but in the future damming and development will be carefully regulated. The two Texas rivers are not among those nine. Instead they are included with 34 others and are subject to a five-year moratorium on the building of new dams or development that might mar their natural beauty.

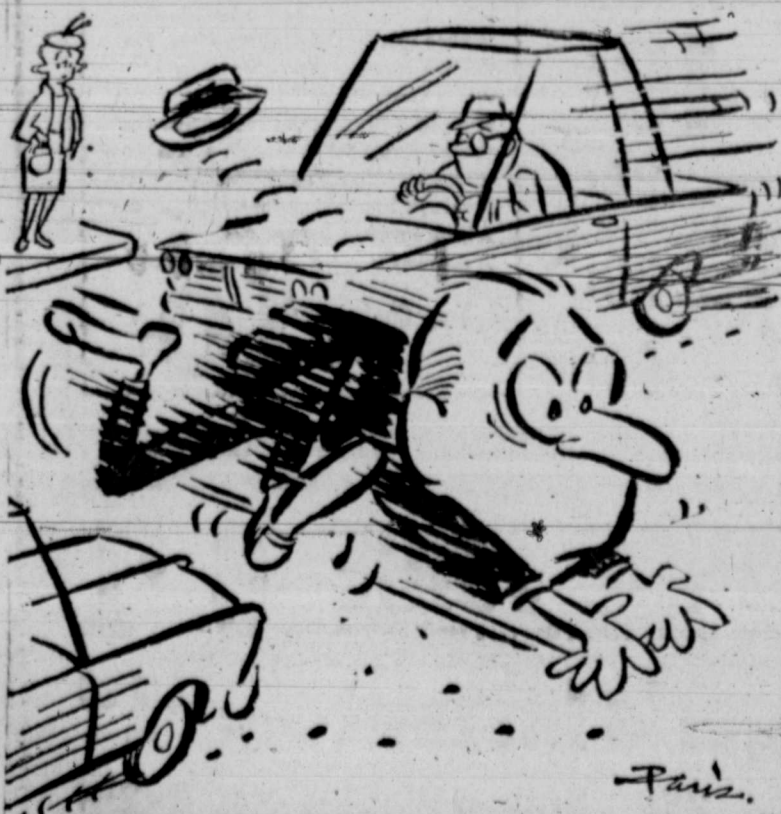

In other words, the bill will not impede legitimate progress and industrialization. Its aim is to conserve these rivers by setting them aside for Texans and Americans to enjoy.

President Johnson, in his message to the Congress on natural beauty, said the time has come to identify and preserve free-flowing stretches of our great scenic rivers before they become only memories.

It was with this in mind that I joined Senator Frank Church of Idaho and 28 other Senators in introducing the National Wild and Scenic Rivers Systems Act. Since then the Texas Explorers Club has given its endorsement. The Houston Post editorialized for it. And the Tyler Courier-Times, in an editorial August 17, called the bill "good planning on a national level" and applauded the inclusion of the Guadalupe and Rio Grande rivers.

This is a bill for the sports men of Texas, and for the conservation-minded. But it is a bill that will benefit all of us, and our children, and their children. It is vital that as we build a strong and modern United States we keep aside some of the beauty that is our heritage.

A Change In View

There's nothing like a new perspective to change your attitude toward life.

When Junior is bored, he simply stands on his head for a new slant at things. The floor flips to the ceiling, with tables and chairs hanging from it, and people walk upside-down. At least that's the way it looks to him.

It is a good idea to gain a different perspective — to step back and get a new slant on things around you. But you don't have to stand on your head to do it.

Instead identify yourself with a church. Take your family and go regularly to worship. You will find a new perspective. Genuine values will keep their importance; unimportant things will diminish.

Today's life will be happier; tomorrow's full of hope. Nothing is upside-down, but ~~amazing~~ thing claims its rightful place when you view life with the faith of a Christian.
