COLORADO CITY LORAINE WESTBROOK

Answer line...

Q. Why do the citizens of Colorado City have to pay for maintenance of county roads when most people in town never use these roads?

A. Well, obviously, like it or not, the residents of Colorado City are also residents of Mitchell County and therefore must accept their share of the county expenditures. County residents on the other hand, do not necessarily pay City taxes, but vice versa, they might ask the same question, why the County helped with the paving needs at the Colorado City Cemetery, the old airport, Ruddick Park, and part of 17th Street in recent years. No matter where the expenses came from they are beneficial and available to all.

Cleanup completed of train derailment in Mitchell County

Union Pacific Railway crews completed their cleanup operations Tuesday at the site of the train derailment and acid spill in Mitchell County, at the Itan siding just west of Westbrook.

The mishap occurred about 1:45 a.m. Sunday. Jan. 25. Alex Tice, public relations director for the company in Omaha told *The Record* that from investigations, apparently a broken wheel on one of the cars caused the last three cars to derail. One of the damaged rails speared and punctured a tank car filled with spent sulphuric acid. Westbrook Fire Department was called to the scene of the accident, as well as the Coahoma Department, but no fire or fume danger resulted.

Even though the derailment happened on a track siding, the train traffic was held up for about five hours.

Railway repair crews vacuumed out the remaining acid from the tank and Tice said they had dug and removed approximately 400,000 cubic yards of dirt where the spill occurred. The cleanup operation, removal of the damaged cars and repairs were completed Tuesday.

Two arrests release sealed indictments

Two of the sealed indictments handed down by the Mitchell County Grand Jury last week were released Tuesday with the arrest of two local men by the Sheriff's Office.

Billy George Dering, 17, W/M was arrested February 23 in Snyder and returned here by Sheriff Wendell Bryant to face an indictment on a charge of forgery. His bond was set at $3,000 by District Judge Weldon Kirk and he is being held in County Jail.

Also on Feb. 23, John Edward Green, 30, B/M, was served with a third indictment, on a charge of retaliation. Judge Kirk set his bond at $7,500, and along with two other indictments for assault, he remains in County Jail under a total of $12,000 bond.

For 1987 cotton deficiency

Farmers get $3.9 million

The final checks for the 1987 cotton deficiency payments were distributed to Mitchell County producers this week, Don Steward of the U.S. ASCS office has reported.

More than $3.9 million in payment were made to the local producers. Payment was made with generic certificates which have an expiration date, Steward warned. So farmers should be prompt in cashing the certificates.

When the application deadline passed last week and additional 51 landowners signed up to place over 7,000 acres in the Conservation Reserve Program. As of Friday, the local ASCS office did not know how many of the CRP application bids would be accepted. In previous signup periods 113 landowners had placed 23,567 acres in the 10-year reserve program at about $40 per acre annually.

In the meantime, signing up continues for the annual cotton, feed grain and wheat program which will continue through April 16. Producers are asked to call the ASCS to make appointments for signing up for the program.

Also there has been some changes in the ACR program establishing new rules on hay and grazing on set-aside land, which participants should be aware of.

Jury awards no damage in traffic accident trial

The Mitchell County jury found no negligence and made no award in the civil damage suit trial in 32nd District here early last week.

Robert Joe Myers, a former resident of Colorado City, was seeking damages from Karen Rose, also of Colorado City, as result of a traffic accident at Marshall and Dallas Streets here which occurred April 9, 1986.

The jury was selected Monday morning and the trial got underway Monday afternoon, but presiding Judge Weldon Kirk recessed the trial until Wednesday afternoon.

When the trial reconvened, testimony was completed promptly and turned over to the jury. The jury deliberated about an hour before declaring no apparent negligence on Mrs. Rose's part and gave no award. The jury did indicate that there may have been negligence on the part of another vehicle involved in the accident, but that is being heard in another case.

Attorney Frank Conard of Sweetwater represented Myers and Roger Glandon of Abilene represented the defendant.

No filings yet for May elections

A week after the opening of the filing period, still no candidates had filed for City, School, and Hospital District elected positions scheduled to be filled in the May 7 elections.

Three 2-year councilman seats are open on the City Council, two 3-year trustee posts on the school board, and three 2-year terms on the Board of Directors of Mitchell County Hospital District.

The filing deadline will be 5 p.m. Wednesday, March 23.

Bubonic plague spreads thru West Texas area

Bubonic plague incidence continues to spread in West Texas.

State health official reported Thursday that dead rodents taken from the Alpine and Big Bend region in Brewster County showed evidence of the plague.

Bubonic plague in small rodents have been confirmed in Midland and Mitchell County as well, with large scale rodent deaths found in Borden, Crane, Dawson, Ector, Glasscock, Howard, Pecos and Upton counties. Joe Neely, programs director with the Texas Department of Health office in Midland said attention is now being turned to Coke and Sterling counties, where dead rodents are being checked for evidence of the plague.

"The plague is endemic to the region," Neely said, "it's always in West Texas. Occasionally it spreads and causes rodent die-off."

Health officials do not expect the plague to spread into the cities, although a few people have called the health department complaining of the severe flu-like symptoms that mark the plague's appearance in humans.

"We advise them to see their physician immediately," he said. Those most likely to be exposed to the plague are people who hunt or work in bushy, wooded areas.

The disease, carried by fleas and ticks and usually transmitted to rodents such as rats or mice, is easily treated in humans. "Modern antibodies will knock it out right quick," Neely said, "but they sure won't do anything for the flu."

"The problem comes in with the tough guys that want to tough out a case of the flu," he said. "They're not aware they've been exposed and then they don't seek medical attention."

Since the first report of rodent deaths in October by a hunter in Glasscock County, health official have stressed regular flea powdering of pets as a way to prevent the plague's spread.

DEPUTY CLERK RETIRES—Anita (Mrs. Porter) Richardson (center) was honored at a reception at the Courthouse on her last day of work Friday, retiring after serving 10 years as Deputy County Clerk. Shown gathered around the refreshment table (l to r) are co-workers Emma Hopper, Lodena Blassingame, County Clerk Joan Beach and other well-wishers in the background.

FROM THE SCRIPTURES— "Like a man who seizes a passing dog by the ears, is he who meddles in another's quarrel." Proverbs 26:17

* * *

Had a visit with Richard Caldwell, Colorado City Animal Control Officer, as result of the Answer line question about loose dogs and the Bubonic Plague outbreak. You know, it takes all kinds of people to make the world go around, but his job is one few people could handle. He asked me to go along on his next vicious dog call, I firmly declined the invitation.

Gene Dow

There's a lot more to the job nowadays than "dog-catching," they have to go to special school to get certified in all types of animal control—dogs, cats, rats, skunks and other varmints; exterminating chemicals, legalities, etc. Not only is the job dangerous from the animal standpoint but also from irate owners that are often confronted.

Caldwell said that at the certification school they teach you that there are three things that a man will get most upset over: (1) Messing with his kids; (2) Messing with his dog; and (3) Messing with his wife—in that order.

After discussing the bubonic plague outbreak in the county with him, I've decided that rather than using underarm deodorant, I'll use flea powder for a while!

For a one-man force, Caldwell, really does a pretty good job for Colorado City.

At the Noon Lions Club luncheon last week, Lion Sweetheart Margaret Baum really whipped out with some swinging piano music. Afterward, when she sat at the table, she received numerous compliments, then Joe Freeman ask her if she knew "Walking in the Black Forest". "Well, sing a few bars for me," she replied. George Womack, sitting across the table, and always ready with quick humor, said "It goes like this ... stomp, stomp, stomp", as he pounded his feet on the floor. Margaret got the tune.

One traffic mishap reported

Only one traffic mishap was investigated by the City Police the past week.

Last Sunday at 6 p.m. a 1985 Pontiac sedan, driven by Juanita Felan Garcia of Loraine was headed west on Marshall St. and turned left into the path of an oncoming 1982 Dodge Pickup driven by Jamie Plumlee Greenlee of Colorado City. The two vehicles collided in the 800 block of Marshall.

Pilot of drug plane arrested

A man believed to have piloted the aircraft confiscated in Borden County and suspected of hauling over 1,200 pounds of marijuana from Mexico was arrested in Austin Tuesday, according the the police there.

Larry Gene Baugh, 42, of West Lake Hills, was identified as the pilot of the plane that was followed by U. S. Customs Service agents to a ranch landing strip in Borden County. The officials had observed the large load of marijuana being unloaded near Possum Kingdom Lake.

The twin-engine KingAir and a pickup truck containing the plane's seats, were ceased at the Borden County site. Local officers were called in to search for the pilot and possibily another person, who fled on foot after the aircraft landed.

Two other Austin area men, believed involved, were arrested in the Possum Kingdom Lake area.

CAMPAIGN HERE—Out-of-town candidates here Thursday for the Senior Citizens 'Meet the Candidates' luncheon were (l to r), Monte Hasie of Lubbock, Republican candidate for District State Education Board; Rob Junell, Democrat and Burt Terrill, Republican, candidates for State Representative, both of San Angelo.

COMMISSIONER
Mary Scott Nabers

TEXAS BUSINESS TODAY

Dear Commissioner Nabers: I want to register a complaint about the TEC's continued use of the so called "telephone hearing". Frankly, I feel this is a violation of due process. I have requested several times to have an in-person hearing and my requests have been ignored. TEC used to do in-person hearings so what is going on with the telephone stuff?

—M.D.
Rockwall

Dear M.D.: Money is the problem! Texas is a big state and it is extremely expensive to have referees travel to remote locations to hold in-person hearings. Telephone hearings admittedly have their disadvantages, but they represent a much more efficient use of tax dollars.

Because of high unemployment in recent years and the resulting increase in claims, telephone hearings are relied upon more and more to manage the extremely heavy appeals work load. It would be optimal to provide an in-person hearing to everyone who wants one. Unfortunately, this is no longer possible.

All Notices of Hearing provide instructions concerning the submission of documents prior to a telephone hearing. Except in unusual circumstances, there is no evidence which could be presented in an in-person hearing that cannot be presented at a telephone hearing.

A SALUTE TO....

Our Civic Clubs

They are known as social groups, meeting regularly for noon luncheons and evening dinner programs. Their members are from all facets of our community and while they get together to rub elbows and have a good time, the real action always has something going for the good of the cause.

The club generally have overall goals such as Lions' sight program, the Rotarians' college scholarships and the Shriners' crippled children hospitals, joining with sister clubs across the country to reach such aims.

A trip around our community reveals a host of other projects local civic groups have had a hand toward making improvements.

Ball parks, city parks, schools, recreation sites and the like have all benefited from the good works of our civic clubs. When a need comes to their attention, they pitch in with money, materials and labor to make sure what is needed gets installed.

The groups also see to it that our community is included in their national programs. When an individual is qualified to be a recipient of their life betterment services, they spring up to espouse such a request.

We appreciate the work our civic clubs have accomplished.

Bits and pieces...

My family and I have enjoyed watching the winter Olympics on television, particularly the ice skating events.

I think anyone who can skate from one length of the rink to the other without falling down deserves a perfect score.

I only tried ice skating a few times - back in my high school days when I would accompany a church group to Abilene where there was an ice skating rink.

I would usually spend more time sitting on the ice than skating on it. The thrill of victory was when I was slowly able to make my way around the rink (holding onto the rail with one hand) without falling down.

I finally decided what I dislike most about diets. It's the word itself, d-i-e-t. Notice what the first three letters spell?

Die is what is I feel like I'm doing every time I try to curb my eating. Of course, the other side of the coin is that you can expect to die sooner if you don't take off that excess weight.

To me, it's a morbid subject, however you look at it.

Elsewhere on this page, you will find a couple of letters from some seventh grade students at Colorado Middle School. The letters stem from a class project about concerns for their home town and what they think can make our town a better place in which to live.

Letters to the editor are always welcomed and we were particularly pleased to read what the group of seventh graders have to say about our town and the improvements they would like to see made.

The letters are well written and to the point and are a credit to the students as well as to their English teacher, Katherine Walla.

When I was a seventh grader, writing a letter for any reason, much less to be published in a newspaper, would have caused me more stress than I would like to think about.

Basketball season is in full swing for our local youngsters with start of the annual Opti-Ms. Club youth basketball program. The program allows students through the sixth grade to get a taste of organized basketball.

It's amazing that these boys and girls can learn about the rules of basketball and how far along they can come in just a few years. What's really fun is to watch the little ones get out on the court and give it their best shot.

What would Colorado City do without the Opti-Ms. Club members and the volunteer coaches who donate a lot of time and energy to the program?

People I'd blast if I were less graceful:

Bryant Gumble and Jane Pauley: You two spend more time promoting the appearance of an upcoming guest on the "Today Show" than you do talking to him. Don't think I don't know what you're up to, either. You think if you keep teasing us, we'll stay tuned for all the commercials you're going to throw at us. Then, when somebody like, say, Ralph Sampson, finally gets on, you ask him two questions and interrupt him when he starts to answer the second one.

You say, "I hate to cut you off like this (no you don't, you do it all the time) but we're all out of time." The hosts on the other two morning shows are so bad, I don't even watch them. You are the print-media equivalent of a shopper - all advertising and no meat. You don't even give Willard Scott enough time to read all the 100-year-old birthdays. I'll bet when you're a hundred, they'll read your name and show a Polaroid picture of you on the tube, because that's different, isn't it? Ho yes, that's mighty different!

Don't think I'm above reaching down and turning off my TV set, either. Just keep it up and see if I won't reach for the button. I'm serious. I'll push the little sucker.

The Presidential Candidates: You guys will say anything to get our votes. Pat Robertson and Jack Kemp keep arguing over who should be the standard bearer for "traditional Judao-Christian family values." I guess that means the other guys are trying to appeal to "the non-traditional, anti-Christian forces against nuclear families." Nobody's going to raise taxes, but all of you are going to repair grave illnesses that threaten to destroy this country unless you - and you alone - are elected in the most important political contest of our lifetimes. Show us some courage. Wear a normal tie, Paul Simon. Wear a bow-tie, George Bush.

People who ask about the weather: I'm not talking about people who make their living by observing the weather. I'm talking about people who can't ever think of anything else to say. It's evidence of a lack of concern. It means you don't care enough about me to find something else to say. If we were trapped on a lost island, all you'd say is, "It looks like another scorcher today," Or: "Guess we better batten down the hatches, she's a coming a norther."

I want to know how you feel. Are you sensitive about the environment? Do you care whether the Neilsen ratings are accurate or not? Can the Royals repeat? All you give me is, "If it gets any drier, we'll all blow away." Well, the only people who have ever blown away are those in a tornado - and it's never dry during a twister. Think about that for minute, hot shot.

People who complain about the way they feel all the time: I don't care if your back hurts. Mine hurts every day, so does my neck. But do you hear me complain? No way. Life's tough, so get used to it. We were never meant to feel good anyway. We're here to prove ourselves over a long and painful lifetime. And if you think you feel bad now, just wait until the afterlife when you're trying to explain to those folks up there why all you ever did was complain about your back and head. You'll beg for a little backache then, ol' buddy.

Your head wouldn't hurt so much if you'd stop thinking about yourself all the time. You oughta' join the Peace Corp, and help somebody significant. Dig a few gardens. But even then, you'd complain about yor back aching. Or that nobody appreciated what you were doing for them. Be honest, you love to complain. Hurting makes you feel good, doesn't it?

Oh, I know you better than you think fella. I may even be one of you because I'm feeling better already.

Letters to the editor

Pound

TO THE EDITOR:

With regards to the Answer Line column of *The Record* Feb. 25th which implied that 100 animals were destroyed at the animal shelter per month. The implication was **totally** in **error**.

The facts are:

1. An average of 19 animals per month have been **adopted** from the animal shelter in the 10 months that Mitchell Co. Vet Clinic has been managing it.

2. In an attempt to encourage adoptions and to help control the unwanted pet population, the Clinic offers **all** vaccinations and neuter surgeries for half the regular cost of those who adopt these animals.

3. Many unwanted animals have been cared for at the animal shelter for up to 4 months although the city pays for only 5 days of care. After that 5 days, Dr. Froneberger absorbs the cost of their care and cleanup.

4. An average of 9 animals per month are humanely destroyed and the majority of these animals are sick or vicious when brought in.

In conclusion, the results of the statement that was horrendously in error, has been painful to all persons associated with Mitchell County Veterinary Clinic. Our efforts are to improve the quality of life for all animals. We all strive to promote compassion and the humane treatment of all animals.

The Staff of Mitchell
Veterinary Clinic

Answer clarified

TO THE EDITOR: In an attempt to answer a question asked by a concerned citizen about the animal situation in "Answer Line" of the *Record* on Feb. 25, I was quoted as saying: "An average of 100 animals are disposed of each month by the pound", and this just isn't true. What I thought I said or meant to say was: "An average of 100 animals (domestic and some wild) are killed or die of disease within the city limits each month."

Dr. Froneberger and the staff of Mitchell County Veterinary Clinic have a fantastic adoption program now working and a very small percentage have to be destroyed. Dr. Froneberger has spayed, nutered, given shots and charged nothing for a sweet animal if someone would just give it a good home.

EDITOR'S Note: The *Record* regrets the misunderstanding from Animal Control Warden Rick Caldwell. The Record salutes Caldwell for the outstanding job he is doing as animal control officer for the city.

Thanks extended

TO THE EDITOR: Animal Control Officer Rick Caldwell is the most dedicated public servant that I've ever known. Before he took the job, packs of dogs were common. He also works traffic to protect your children in school zones.

Thank you, Mr. Caldwell.

EDITOR'S NOTE: Seventh grade English students of Mrs. Katherine Walla at Colorado Middle School recently discussed improvements they feel are needed in Colorado City. Their findings are contained in the following two letters to the editor.

Clean up C City

TO THE EDITOR: One day in our English class we discussed the pollution problems in Colorado City. We decided that we wanted to encourage the community to help the city clean up. It is time for Colorado City to make the best of its potential.

There are many abandoned houses in Colorado City. These houses are run down and often surrounded by weeds and trash.

As a result of their condition, they are fire hazards and dangerous threats to small children. Rats, mice and other germ carrying pests inhabit these buildings.

Some people in Colorado City do not obey "no dumping" signs. People who see these signs do not care and go ahead and dump their trash there. Uncaring citizens who dump litter do not realize the damage they are doing. Their trash becomes odorous and often poisonous to all animals. It is also an eyesore and health hazard to humans.

We have had many people dumping waste into our public water systems. The citizens want to catch fish, not trash, when they go our lakes. Anyone walking or in the water may cut their feet on broken glass or metal. Some fishermen are careless with fishing lines and hooks. These objects are dangerous to people and animals. When we dump litter in our lakes, it ruins our water supply and our public swimming areas.

Yes, we do need to clean up our city. These are just a few of the problems that need to correcting. By writing this, we hope that we are urging each citizen to do his or her part in cleaning up the city. We, us seventh graders, will try to help accomplish this goal.

Won't you please help us?

Sincerely

CAMPAIGN STOP - Associate Judge Bud Arnot, left, visits with Elmer Martin and Woody Anderson of Colorado City during a campaign stop in Colorado City Friday. Arnot flies a vintage World II trainer to visit the 23-county judicial district.

Arnot brings campaign here

Judge Bud Arnot, associate justice of the 11th Court of Appeals in Eastland, flew into Colorado City Friday to meet voters and discuss campaign issues.

To help with his goal of visiting in all of the county seats in the sprawling, 23-county judicial district, Arnot is relying on his hobby - flying a vintage World War II trainer.

He usually keeps his AT-6 "Texan" in a Confederate Air Force hangar at Abilene, and commutes to Eastland by car, but he said he decided to use the plane during the campaign to try to reach as many voters as possible.

The 37-year-old Breckenridge native has just completed his first year on the appellate court bench, having been appointed in December, 1986 to succeed the retiring Associate Justice Raleigh Brown. He is running in the Democratic primary, seeking to serve the two years remaining on Brown's unexpired term. His present appointment is through Dec. 31.

Arnot said he has enjoyed his service on the appellate court and definitely plans to run for a full, six-year term in 1990. "I didn't go into it looking at the Court as a place to retire, but rather as a place to work and get the job done," he said. "It has taken a lot of hard work to prove I could do the job, but hard work is not something I've ever shied away from."

For the year 1987, Arnot participated in the disposition of 307 cases - 98 civil cases and 209 criminal cases.

Arnot attended Washington and Lee University before receiving a business degree from the University of Texas in 1972. He graduated from Baylor University Law School in 1975.

While in law school he worked as a summer intern in the Taylor County district attorney's office, the largest prosecutor's office in the 11th Judicial District.

After graduation, he joined the Abilene law firm of Wagstaff, Harrell, Alvis, Stubbeman, Seamster and Longacre and later became a partner.

In 1982, he became one of the founding partners of a new firm, Glandon, Erwin, Scarborough, Baker, Choate and Arnot.

Civic memberships include West Central Texas Oil and Gas Associates, YMCA, Hospice, Abilene Fine Arts Museum, Buffalo Gap Arts Festival, Boy Scouts, Cultural Affairs Council of the Abilene Chamber of Commerce, Board of Development for Hardin Simmons University and deacon in the First Baptist Church, Abilene.

Arnot's wife is the former Emily McDonald of Abilene. They have three children - two sons, Will, 8, Mackey, 6, and a daughter, Corrine, 8 months.

about kids who "hang around" businesses all hours of the day and night. Some of these people are involved in stealing, vandalism, drugs and alcohol. Often these people are drop-outs or do not regularly attend school.

A lack of recreation is a second problem in Colorado City. The city pool and church activities help to entertain youth, but other things are needed. Many people do not swim or attend church. The city does not have a movie theater, bowling alley, skating rink, miniature golf, arcade of YMCA. True, Sweetwater and Snyder do have these things, but transportation can be a problem. There is not a wide variety of activities for youth.

Adults often think young adults are lazy. We disagree. Most young adults would work as volunteers for local businesses and organizations. This work will increase our self confidence and prepare us for future jobs. People in Colorado City often complain because young people leave to find jobs. Please give us a reason to stay!

Sincerely,
6th Period English

Special Thanks

Dear Editor:

Thanks to many very special people, the Faculty Basketball game was a great success!

We want to say thank you to E-Z Way and Sav-M for helping us with the popcorn and candy and thank you to Jerry Hammond at C C Athletics for donating the trophies.

A special thank you goes to Jim McLean, Middle School principal, for his unflagging supporting and assistance.

A special thank you also goes to Rogene Spruell, Connie Stone, Gayla Proctor and Shelia Redwine, for the idea of the game and its successful execution. These ladies worked endlessly to pull it off and they did a great job.!

Thanks goes to all those who helped at the door and in the concession stand as well as the coaches, referees and cheerleaders--to say nothing of the players themselves and all of you who came to watch!

The result of all this enthusiasm and participation is that PTSO will be able to help two seniors get started on their future!

Good work!

Priscilla Martin

State education candidate campaigns

Lubbock businessman Monte Hasie, who has served 12 years on the board of trustees for Lubbock Independent School District, was in Colorado City Thursday campaigning in behalf of his candidate for the State School Board of Education, District 15, subject to the Republican Primary election, March 8.

He was present for the "Meet the Candidate" luncheon for the Senior Citizens at Wallace Center held that day.

Hasie, a financial consultant with Thomson McKinnon Securities Corp, served as president of the Lubbock Board for seven of his dozen years in the elected position. He also was an advisor to the State School Board for two years.

District 15 includes a broad expanse of West Texas and is bounded on the southeast by Mitchell, Scurry and Howard counties, on the southwest by Ector and Andrews counties and includes all of the South Plains and Panhandle areas.

A native West Texan, Hasie attend schools in Tahoka and Lubbock and is a graduate of Texas Tech, receiving a civil engineering degree in 1959. He served as an officer in the U.S. Army artillery in 1959 and 1960.

He has been an active civic leader in Lubbock and has received numerous awards from school associations and civic organizations.

The State Board of Education will revert to an elected board in 1988 after a binding referendum to retain an appointive board failed by a wide margin in the statewide general election Nov. 3. Previously, the elected board prevailed in Texas from 1949 to 1985.

GOLDEN GLOVES boxers at Odessa last weekend were Mitchell County Boys Club fighters, front row, left to right, Bill Sadler, Angel Caballero, Greg Gaona and Shane Jones. Back row, left to right, are Marcos Caballero, Ray Longoria, Timmy Humphrey, Ray Adames and Richard Gomez. Not pictured is Vince Gaona Jr.

Boxers take Golden Gloves

Odessa's Golden Gloves Boxing Championships held last weekend were very productive for team champion Mitchell County.

The Mitchell County Boys Club boxing team entered ten fighters in the tournament and claimed victories in six of the bouts to tie Crane for the team championship.

"I guess we did ok," said coach Vince Gaona Sr. "We came home with six champions and tied for the first place team trophy. We also won the Joe Valdez Best Sportsmanship Trophy."

Action began Thursday and continued through Saturday. "We lost three fights Thursday and one Friday," said Gaona.

Saturday was a different day for the team, however, as the fighters bested six challengers.

Winning Saturday were 136 pound Richard Gomez, 115 lb. Marcos Caballero, 100 lb. Timmy Humphrey, 85 lb. Shane Jones, 80 lb. Anthony Adames and 70 pound Greg Gaona. All six were fighting in the Junior Olympic division.

Junior Olympic boxers losing Thursday were 100 lb. Ray Longoria, 65 lb. Angel Caballero and 65 lb. Bill Sadler.

Vince Gaona Jr. boxed in the Open division as a 139 pounder and lost during Friday's action.

"We want to thank City National Bank, First National Bank, Plagens Printing, the Noons Lions Club and KAUM Radio for donating expenses for the boys to go over there," said coach Gaona. "I really want to thank the team and the businesses for helping us and especially Mayor Jim Baum for getting us the help. Without them we would never have made it."

Gaona said the team's next tournament will be at Fort Stockton March 12.

NOTICE TO
ALL COMMERCIAL VEHICLE OPERATORS

You may need to register your vehicle(s) with the Railroad Commission and provide evidence of **new minimum insurance requirements.**

New Railroad Commission (RRC) rules require certain owners of commercial motor vehicles TO REGISTER owned vehicles affected by the new rules and TO PROVIDE CERTIFICATION of insurance with the RRC, NO LATER THAN APRIL 1, 1988.

VEHICLES AFFECTED

The new rules affect all motor vehicles that have a gross vehicle weight of more than 10,000 lbs. (including the weight of any attached trailer and property being hauled) that are transporting property in the furtherance of a commercial enterprise, except the exempt vehicles listed below

EXEMPT VEHICLES

1. All farm and ranch vehicles, including vehicles owned by cooperatives.
2. Vehicles owned by rural electric cooperatives and rural telephone companies.
3. Tow trucks. (These vehicles are subject to new rules being established by the Texas Department of Labor and Standards.)
4. All vehicles regulated by the Texas Alcoholic Beverage Commission.
5. All other certificated carriers previously regulated by the ICC and RRC, as they are subject to other current rules.

TO COMPLY WITH THESE NEW RRC RULES

1. You must complete an Application For Commercial Vehicle Registration Certificate (available by calling the RRC at 512-463-7088 or 800-338-8772), and submit $1.00 for each vehicle.
2. Form E must be filed on your behalf by your insurance company to show evidence of insurance and requires a $25.00 filing fee. The **minimum liability limits** required are as follows:

A. 10,000 - 48,000 lbs. – $20/40/15
B. Over 48,000 lbs. – $500,000 CSL

MARTY BROWNE(top) drives for a Westbrook layup during the Wildcats' Class A Bi-district basketball contest against Robyat Snyder Tuesday. Also pictured for Westbrook is Scooter Hines.

Lions rip Wildcats 86-49

SNYDER-The Westbrook Wildcats' second consecutive playoff appearance was short lived here Tuesday night as the Roby Lions advanced to the Area round of the Class A boys basketball playoffs with an 86-49 Bi-district victory.

Westbrook, runner-up of district 17-A and champions last season, and Roby, three-time champion of 18-A, played their contest at Snyder's Scurry County Coliseum.

The number nine ranked Lions jumped out early for a 31-12 lead after one period, led 49-19 at halftime and 70-37 after three periods.

"They made us look like we were forcing everything," said Westbrook coach Jim Hill. "We can't take anything away from them, they're a good ballclub."

"We had to play extremely well to play with them but didn't," said Hill. "I felt if we were patient we would have a chance but we let them have all those points early. We tried to run with them but you just can't."

"They're a good ballclub," said Hill. "They might have a chance to win this region.

The Lions were to have played Area opponent Munday Friday.

Westbrook ended the season at 15-15 and went 5-2 in district play.

Scoring for the Wildcats Tuesday were Ramiro Fuentes 17, Clayton Cannon 13, Scooter Hines 9, Marty Browne 6, Neal Ginkinger 2 and David Botts 2.

Leading Roby were Carter Edmondson 21 and Jerry Carrion 21.

Fuentes averaged 16 points a game for Westbrook in seven district games. Other averages were Hines 12.7, Brown 11.7, Cannnon 11.6 and Ginkinger 4.3

Rebounding averages were Hines 16.7, Cannon 12.3, Fuentes 9.6, Ginkinger 3.9 and Browne 3.6.

"I felt good that we had four of five starters average in double figures," said Hill, "and that's pretty good rebounding for Scooter."

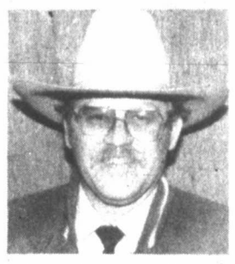

Benefit game

A benefit basketball game between the Colorado school faculty and the Seniors will be held beginning at 7:30 p.m. Tuesday in Wolf Gym.

Tickets will be $2.00 for adults and $1.00 for students. Proceeds will go toward the video camera recorder fund.

THE ULCERS OF BIG BUSINESS

Suppose Mr. Businessman, you were the overseer of 150 workers and only half of them showed up for work at all; and suppose that only one third of them showed up with any degree of regularity: then every time one of them had a headache or relatives visiting them, they took the day off. Suppose your workers only worked when they felt like it, and you always had to be nice to them and never fire them or cut off any of their benefits. To get them to work you must beg, plead and pet them on the head, tickle their chin, pat their back, or otherwise cajole them into doing the necessary work.

Just suppose your competitor was a notorious rascal (Satan) who uses such attractive things as fishing poles, boats and motors, golf clubs, soft pillows, TV programs, parties, movies, visitors and such to hurt and hinder your business. And suppose, being the biggest business in the world, you had to depend on the free-will offerings of just such workers to support it.

You may wonder why most ministers don't throw in the towel, or just plain throw up. They would if it were not for the few who are faithful and supportive of the work of Christ in the Church.

Do you have ulcers, Mr. Businessman? Brother, you ain't got nothing to worry about! If every businessman is supposed to have at least one ulcer, it is only by the grace of God that every minister isn't eaten up with them. Your minister needs your prayers, your help and your suppport.

Hendrix awarded scholarship

McMurry College has awarded 50 prospective students the newly created United Methodist Church scholarship. The program was set up for high school students who are members of United Methodist Churches. The scholarship awards the recipient full tuition for four years -- eight continuous fall and spring semesters. The scholarship may be split between 2-4 individuals if the awarding church is unable to decide on one student. The church may award one student 100% tuition, two students 50% tuition each, three students 33.3% tuition, or four students 25% tuition each.

The student from Colorado City is Lorianne Hendrix, First United Methodist Church of Colorado City.

Rich baked 66 of the 370 cakes baked and decorated during the week. Second place winner was Marci Regalado who baked 17 cakes.

Webb places 15th in symphonic band

Colorado High School senior Jody Webb placed 15th chair in the symphonic band during the Texas Music Education Association's annual convention and clinic in San Antonio Feb. 11-14.

The symphonic band was composed of 100 members and Webb, a clarinet player, placed 15th out of the top 52 players from throughout the state.

Clinician conductor for the event was Ray E. Cramer of Indiana University. Numbers played included "Lads of Whamprey" by Grainger, "Masquerade for Band" by Pershitti and "Whir and Spur" by Allen.

Webb was the only one of the 27 first band clarinet players who wasn't from a 5-A school, said band director David Sims.

The weekend concluded with a concert.

Dear Betty Crocker

Q. Do you have any hints for making a good angel food cake at 6000 feet above sea level?
Mrs. S. B., Ennis, MT

A. Unfortunately, there is no general rule that applies to recipe adjustment for high altitude use. If you are using a package mix, high altitude directions for 3500 to 6500 feet will be specified.

What's the best way to measure cream cheese?
V.B., Las Vegas, NV

A. Measure cream cheese by weight. Use a small kitchen scale. It isn't accurate to spoon into a glass measuring cup to the desired ounce level.

Q. What is the malt in a malted milk and is it high in cholesterol?
M. L., Reno, NV

A. Malt usually is processed from barley, but may be from other grains. The same kind of barley malt used in malted milk concentrate, breakfast foods, malt syrup and coffee substitute may be used to make beer. Malt has a moderate amount of fat, but is not a source of cholesterol.

Do you have a question? Write Dear Betty Crocker, Box 1113, Dept. Betty, Minneapolis, MN 55440

Tip of the Week: The edge of a knife will wear best if you use a wooden cutting board. However, use a nonabsorbent plastic board to cut raw meat, poultry and fish for food safety and cleanliness.

Q.What's the best way to store cocoa that comes in a can?
Mrs. L. McM., Chicago, IL

A. Store cocoa at room temperature for up to 24 months.

Q. What is a polyunsaturated fat and why is it recommended for a low-cholesterol diet?
P.S., Houston, TX

A. Polyunsaturated fats, commonly found in cooking oils and some soft margarines, are liquid at room temperature. These fats are made from corn, soybeans, safflowers and sunflowers. Research show that polyunsaturated fats tend to reduce blood cholesterol levels. Professional health organizations strongly recommend reducing total fat in the diet, and replacing some saturated fats with polyunsaturated fats.

Q. What are the proportions for Fines Herbes?
A.M.L., Point Pleasant, NJ

A. Make your own mixture of this seasoning from fresh or dried herbs by mixing equal parts of parsley, tarragon, chives and chervil. Add other mild herbs, if you like.

Q. Does a scrambled egg have more calories than a hard-boiled egg?
C.McF., Epsom, NH

A. If an egg is scrambled without milk in a non-stick pan without added butter or oil, it will have the same number of calories as a hard-cooked egg.

Q. What's the method for melting parrafin wax in the microwave oven?
H.H., Glendale, AZ

A. Paraffin is transparent to microwave energy and will not melt. Melt wax according to directions on paraffin package.

Do you have a question? Write Dear Betty Crocker, Box 1113, Dept. Betty, Minneapolis, MN 55440

Tip of the Week: Use fresh or frozen thawed pineapple juice to tenderize meat. The juice contains the enzyme bromelain that breaks down protein in meat.
-30-

Q. How can I prevent cheesecake from cracking on top?
F.S., East Rockaway, NY

A. Bake cheesecake at a low temperature (300 to 325 degrees) and be sure that oven maintains an accurate temperature to allow proteins in the eggs and cream cheese to coagulate slowly and evenly. Also, place cake on middle rack of oven for even heat distribution.

Q. Is it safe to microwave popcorn in a paper bag?
A.P., St. Paul, MN

A. Probably not. Most microwave oven manufacturers do not recommend popping corn in a paper bag. Either use a popper or packaged corn designed for microwave use or pop the corn conventionally.

TSTI sets evening, weekend classes

SWEETWATER - Texas State Technical Institute will be offering a wide range of evening and weekend classes on the Sweetwater campus during the spring quarter, according to the school's Department of Special Programs.

Non-credit classes on the schedule include basic welding, horseshoeing, small engine repair, beginning LOTUS, advanced LOTUS, home appliance repair, cake decorating, stained glass art, cabinet making, kiddie computing I and II, introduction to computer, basic auto body repair and bricklaying.

Two special free classes - fiction writing and ham radio operations - will also be on the night schedule.

In addition, the school will also be conducting a number of night classes which can be taken either as credit or non-credit classes. These courses include PC computer operations, payroll accounting, computerized accounting, shorthand I, accounting I, income tax accounting, keyboarding (typing) I and information processing I.

Registration for credit classes will be handled by the school's admissions office now through March 2. Students or area residents interested in non-credit classes need to contact the Department of Special Programs and can register through the mail. The registration deadline for non-credit classes is March 4.

Information and a schedule of the evening and weekend classes can be obtained by calling the TSTI Department of Special Programs at 235-8441 or 1-800-592-TSTI.

Local Higginbotham-Barlett becomes affiliate member

Higginbotham-Bartlett Co. has become an affiliate member of Hardware Wholesalers, Inc., a member-owned buying organization consisting of over 2,600 independent merchants. HWI's home office is located in Fort Wayne, Indiana. HWI serves Retail Hardware and Building Material dealers and has an annual sales volume of over 900 million dollars. David Hoover, manager of Higginbotham-Bartlett Co., said his firm will now be an outlet for more than 36,000 items in the HWI Distribution Center. Hoover said his firm will be able to offer the local market a complete selection of building materials, builders, hardware, brand-name tools, plumbing, and electrical.

Other departments include lawn and garden supplies, housewares, appliances, and sporting goods, which will be carried in stock or may be ordered from the HWI catalog.

Deliveries are made each Thursday from the Distribution Center in Waco, Texas. Special orders can be delivered during the week in which the order is placed, if the item is ordered before Saturday. There is no shipping charge for special orders delivered to the store.

John Laird had been assigned as the Area Supervisor for the local firm. His responsibilities include employee training, inventory control, management training, and product knowledge training. In addition, training meetings are conducted periodically for specialized instruction of all phases of retailing.

HWI is known in the industry as "The Friendly Ones" and Hoover believes the Mitchell County area should have a "friendly" place to shop with good service and low prices.
