C of C Directors Hear Mathias

Directors of the Chamber of Commerce met with Arnold Mathias, of the U.S. Chamber of Commerce, over the weekend, and discussed problems of mutal interest.

Mathias pointed out that the local Chamber of Commerce has several functions: To build a better community through civic activities, and endeavors to attract new sources of income and new job opportunities to the community.

In this its efforts are aimed at attraction of out-of-town employers, and this is a major factor of C of C activity.

Limiting factors on community development, Mathias said, are lack of capital, the need for wider markets, competition, poor merchandising, and lack of faith in the community.

It is the Chamber of Commerce's job to help solve these problems in so far as it can.

Another limiting factor, the U.S. C of C man pointed out, is poor business climate, where people contemplating a business may be scared away by too high taxes, by fuzzy thinking among the community's residents, who take the attitude that it is right and proper to stick any business all the traffic will bear in any way they can be stuck, and the attitude of the local, county and state lawmakers towards business.

One third of everyone's income now goes to various governmental agencies through taxes and other imposts, Mathias said, and he pointed out that it is becoming increasingly difficult to operate a business because of government interference, which takes many forms.

Mathias told the directors that the U.S. Chamber of Commerce is made up of 3500 local Chambers, and that its policies are those dedicated by the smaller chambers. Its main purpose, he continued, is to provide tools for these smaller organizations to use in the fields of civic, commercial, legislative and other activities that the local chambers may engage in.

In response to a query about the general state of business, Mathias said the ratio of small business failures is not much different than it was twenty years ago. He said that there were more failures, but that there were also more businesses, and that the proportion was about the same as it had always been.

He pointed out that municipalities and state governments were laboring under a heavy handicap in obtaining funds for their functions, as approximately 77 cents of each tax dollar now went to the Federal government, leaving governmental agencies at a lower level in bad shape.

Last year, he said, Texas sent $2.5 billion to the Federal tax gatherers, and in return received only $600,000,000, or one fifth the total back in the shape of Federal services or expenditures.

Answering a question about foreign aid, Mathias said that the U.S. Chamber of Commerce considered this grossly extravagant, and suggested that it ought to be trimmed down slowly.

Present from the local Chamber of Commerce were Mrs. Mary Juergens, manager, President Seth H. Steele, Jack McCready, J. D. Gray, Norvell Jackson, Charles LaBounty, George Dickey, James A. Jarboe, Miss Lola Bonner, John Ratliff, and Mayor Herman Johnson.

VFW REPORTS MERCHANTS TO DISPLAY FLAGS

Hospitality Clinic To Be Held May 25 By Chamber of Commerce

The Chamber of Commerce will sponsor a hospitality clinic and tourist host school in the Chamber of Commerce Building on Wednesday, May 25, according to Vernon Kleypas, chairman of the Merchant's Committee.

Three sessions will be held during the day. The morning session will be at 9 o'clock; the afternoon session at 2 o'clock; and the evening session at 7:30 o'clock, thus making it possible for everyone to attend that wants to, regardless of what his working hours may be.

The sessions will all deal with the same things: the impact of tourism on jobs, town, taxes and the future; the relationship of tourism to industrial development; what there is to see and do in our area; appearance, courtesy and hospitality in acting as host to our guests; and what is being done to bring more people to this region.

Owners, operators and employees of hotels, motels, resorts, restaurants, service stations, retail stores and all others interested are invited to attend, Kleypas said.

Conducting the clinic on behalf of the Chamber of Commerce will be C. S. "Tiny" Rowan, director of tourist development for the South Texas Chamber of Commerce, and Bill Henderson, tourist promotion manager, San Antonio Advertising Commission.

Juniors Honor Senior Class

Decorations used when the Junior Class and its sponsors of Aransas County High school honored the Seniors with the tradition dinner and junior prom bore out the theme of an Oriental Garden.

Cherry and umbrella trees alternated with bamboo scrolls along the walls of the Fulton School cafeteria, and a genuine ming tree added a touch of realism.

Japanese lanterns and tinklers hung from the ceiling and three Oriental murals provided a background for the orchestra.

The centerpiece on the speaker's table was a butterfly tree, while the other tables had pink cherry-blossom centerpieces and were laid with pink cloths.

Captured Del Mar Burglar Escapee From Gatesville

In a signed statement made late Wednesday afternoon, a Gatesville escapee, picked up by the Aransas Pass Police Department, told Sheriff Arley Shivers that he was responsible for burglarizing the Del Mar Grill Tuesday night.

Raul Moreno, 16, said that he and two other boys ran away from Gatesville School last Sunday and caught a ride to Waco, where they split up.

Raul thumbed a ride to Austin, where, he says, he entered the Ford garage and stole a 1959 Ford, after breaking into the cigarette machine and getting about $3 or $4.

Moreno drove to Beeville, getting there Tuesday morning about 8 a.m., gassed up, and then pulled off the road and went to sleep. He arrived in Aransas Pass about 7 p.m. Tuesday night, he said, in his signed statement, and later drove to Rockport and broke into the Del Mar Grill about 10:30 p.m. by getting on top of the roof and entering through a ventilator, down into the kitchen.

Moreno said that he took some beer and some lemons and drove back to Aransas Pass, where he broke into a house and cooked some eggs he found there and made some lemonade with lemons from the Del Mar. He then took some magazines and a pillow and blanket that he found, and crawled into the attic where he went to sleep.

The owner of the house discovered Moreno about noon Wednesday, when the boy left and went across the road into the brush. He was asleep there when Felix Tournbough, Aransas Pass police chief found him and took him to the police station for questioning. He made the statement to Sheriff Shivers of Aransas County and to Virgil Patterson of the Aransas Pass Police Department. He also said he had taken two blankets and a pillow from a boat in the Yacht Basin.

KEEP the CAR COMFORT and SAFETY YOU PAID FOR!

...don't neglect FRONT-END ALINEMENT

...because worn out alinement settings can take many miles off the life of your car! Vital steering and front-end parts wear twice as fast with out-of-line wheels. Tire life is shortened as much as 50%. Your car becomes unsafe, uncomfortable. Your car actually "uses up" alinement just as it consumes gas, oil and lubrication. In fact, front-end settings "wear out"—

- 3 times faster than mufflers
- 4 times faster than spark plugs
- 6 times faster than brakes
- 9 times faster than shock absorbers

NOW is the TIME to bring your car in for our PRECISION BEAR WHEEL ALINEMENT

TELEPHONE TALK

by Bob Freeman, Manager

EXTRA DIRECTORY LISTINGS PAY OFF

One night last year Mrs. Christine McDonald, Service Representative for the telephone company received an inquiry from one of the long distance operators wanting to know where a certain person could be reached.

Ordinarily Mrs. McDonald knows almost everyone in town, but this lady's name escaped her completely. When she finally was forced to admit to the operator that she did not know the called party the calling party suggested that Sheriff A. C. Shivers might know.

Sure enough after Mrs. McDonald furnished the Sheriff's number he was able to tell the operator how to reach the woman in question.

How easy it would have been to locate this party if she had only had an additional listing in the Rockport telephone directory in her daughter's number. If you or your family have any need to change or add listings you should call Mrs. McDonald in the Business Office SO 4-2269. Listings for the August 1960 directory are now being compiled.

CALL AHEAD FOR FUN

With Memorial Day weekend "just around the corner," it seems to me just about every family in Rockport is busy making holiday plans—for a backyard barbecue, a neighbor get-together or a trip out of town.

If you are planning to visit out-of-town friends or relatives, it's a good idea to call and let them know when to expect you. And if you plan to visit any of the state parks or resort areas, better call ahead for good accommodations.

Since most resorts can be reached by telephone at practically any hour, you can save money by calling on Sundays or any weekday after 6 p.m., when long distance rates are lower.

And by calling station-to-station, you can save as mush as one third more.

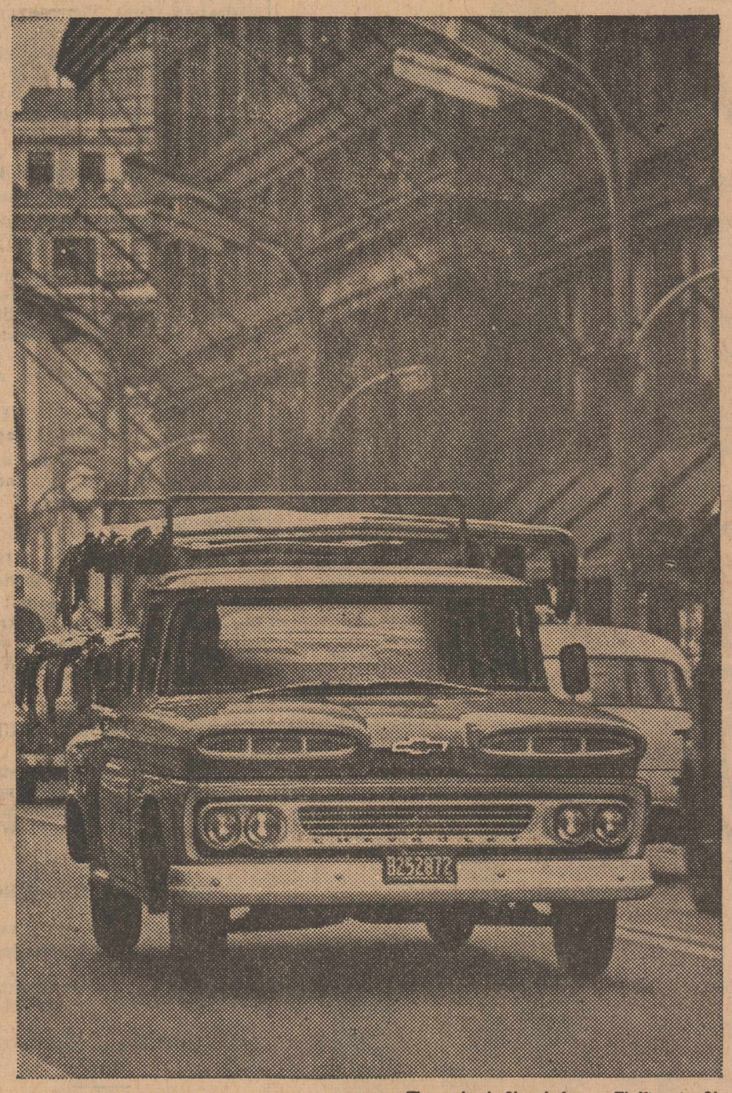

But the sooner you call, the sooner you can make the rest of your plans. Why not call this evening.

WHAT ELSE IS SO DEPENDABLE

Most folks don't realize it, but everytime you make or receive a telephone call, your phone sets a new record for dependability.

And because it does, you needn't worry about wear and tear, replacement parts or repair bills. When repairs are needed, there is no charge to you. I doubt whether there are many other things you have that are so free of trouble as your phone.

Call by number. It's twice as fast.

CHEVROLET

Chevy hums through Chicago traffic to the tune of 21 miles to the gallon!

Working for Bumper and Auto of Illinois, Inc., ten 1960 Chevrolet pickups battle Chicago traffic day after day. Each truck averages about 2,000 miles a month in this wearing stop-and-start delivery service. Mr. Harry Haller, General Manager of S & H Truck Leasing, who leases the trucks to the bumper firm, reports: "We provide full maintenance on the trucks—gas, oil and everything else—so it pays us to know just where we stand on costs. And our records show that the '60 Chevies are giving us as much as 21 miles per gallon . . . with an average of better than 17 miles per gallon. Mister, these are our kind of trucks!"

Truck owners have good things to say about all Chevy engines. And when they're not talking about Chevrolet performance and economy, they're telling you how great that new Torsion-Spring Ride is. How it soaks up road shock and vibration. Protects fragile loads. Lets you run at faster, safe speeds to get more work done in a day. Drive a torsion-spring Chevy soon. We'll rest our case on that one ride.

The engine is Chevy's famous Thriftmaster 6!
