Secrecy Surrounds Plans For New Plains Railway

Two Marines Killed When Plane Falls In Nicaragua

Craft Hit Flying Buzzard, Breaking Wing Strut, Belief

Captain and Sergeant Jumped to Death From Height Of 250 Feet As Plane Was In Collapse.

PARACHUTES USELESS AT SUCH AN ALTITUDE

Pair Were On Test Flight Near Ocotul. Scene Of Recent Marine Clashes With Bandits.

(By The Associated Press) MANAGUA, Nic. March 8.—Captain William C. Byrd, pilot, and Sergeant Rudolph A. Frankforter, observer, were killed this afternoon when an American observation plane crashed at Esteli, forty miles to the northwest of Managua.

Captain Byrd's home was Orono, N. Y. He was a member of the 1st Marine Division, and was on duty at Esteli, where he was on a test flight. It is believed that the plane was hit by a flying buzzard, which broke a strut supporting the right wing, causing it to collapse, when about to land on the Esteli field.

The plane began to turn over and the aviators jumped from a height of about 250 feet, their parachutes being useless at that altitude. The plane was considered recent, having been recently overhauled.

Canadian Flier Dies In Wreck

CURTIS PERLIN, N. Y., March 8 (AP)—John Mulvihill, a Canadian, a former member of the Royal Flying Corps who later became a commercial aviator, was killed today when his plane fell 600 feet in a nose dive as he was preparing to land.

Haldeman, Stinson In Endurance Try

"All's Well" Says Note That Pair Drop Overboard After 14 Hours In Air; Texas Plan Tries for Record.

(By The Associated Press) DETROIT, March 8.—At 11 o'clock tonight, more than 14-1/2 hours after the takeoff, the monoplane piloted by Eddie Stinson and George Haldeman, in their endurance record attempt, was cruising smoothly over the field near here. An "all is well" note was dropped by the fliers. Weather reports indicated a slight snowstorm tomorrow morning.

Late this afternoon the plane was brought within 100 feet of the airfield and a gasoline tank dropped overboard containing a message written by Stinson.

Wacoan Has Close Escape In Takeoff

WACO, March 8 (AP)—Tip Schier gambled with death and won tonight when he took his over-loaded plane, Miss Na-Pro, into the air from a muddy field, clearing a row of telephone wires by inches in his endeavor to break the world's endurance record for 50 horsepower airplanes.

Schier made his first attempt to take off shortly after eight o'clock. Motor trouble caused the pilot to return.

Schier made the dangerous takeoff with 100 gallons of gas, nine gallons of oil and 75 pounds of extra equipment. He plans to stay in the air for 50 hours, which will more than double the present record for 50 horsepower planes.

SINCLAIR MEETS FALL

Co-Defendants In Oil Quiz Meet At El Paso

EL PASO, March 8 (AP)—Harry F. Sinclair, oil magnate, greeted his friend and co-defendant in the Teapot Dome oil lease trial, Albert B. Fall, former secretary of the interior, at the latter's home here this afternoon.

Two Children Die, 15 Hurt As Train Smashes Into Bus

Eight of Injured Were In Serious Condition; Auto Was Carrying Children to Home From School.

(By The Associated Press) CHARLES CITY, Ia., March 8.—Two children were killed and fifteen others were injured this evening when a speeding Rock Island passenger train crashed into a school bus bearing 17 children home from a country school about 12 miles southwest of here.

The dead: Roger Schuffert, 10, and Harrison May, 12. Eight of the injured were seriously hurt and were taken to a Waterloo hospital on the train. Seven others were treated by physicians and were taken home. Four of the children escaped with minor bruises. The train, 40 minutes late, was speeding to make up time when the accident happened.

PRISONER WAITS

Jury Deadlocked, Put Up For Night

Charles Burke, charged in the north district court with violation of the prohibition act, will have to wait until this morning to find out what disposal the jury made of his fate.

The case was given to the jury at about 6:30 p. m. yesterday but they failed to reach an agreement until late last night, and then Judge Clark Mulligan could not be reached.

So Deputy Sheriff Cap Moore put the jurymen to bed until this morning when court will open again.

AUTHORIZE AIR CONTRACTS

WASHINGTON, March 8 (AP)—President Coolidge signed a bill today authorizing the postmaster general to enter into contracts for the transportation of mail by air to foreign countries and insular possessions of the United States for periods of not more than ten years.

Movie Censor Resolution Not Placed Before City Commission Yesterday

But Plan Has Not Been Dropped and Will Probably Be Brought Up Later; P. T. A. Leader Says; Committee To Work Out Resolution Has Been Appointed

Although the plan of providing a local board of censors for moving pictures was not presented yesterday afternoon as originally announced, when members of the City Commission gathered in official session, the idea has not been dropped and will probably be introduced at a later date, Mrs. E. W. Camp, president of the Parent-Teacher council, the organization backing it, said last night.

According to Mrs. Camp's statement, as given the Morning Avalanche, the resolution calling for the censors was not presented to the commission yesterday because ladies of the Parent-Teacher council had been too busy working in preparation for a play, "The Sweet Family," which was presented by the organization at the high school auditorium last night. Mrs. Camp said that a committee from the P.

\$12,000 Saved For City Yesterday In Issuing New Bonds

City Commissioners' Quality As Financiers; Improvement to Parks Voted At Session.

SLIGHT RAISE VOTED IN SOME WATER RATES

Finishing of Park Baseball Ground and Tennis Court Within Next Two Weeks Assured Yesterday.

Whether members of Lubbock's city commission are financiers or not may be left up to the individual to decide, but a sum of more than \$12,000 was saved by that body Thursday, when it voted approximately \$200,000 in old warrants and accepted in their stead new bonds.

It will take from three to six months to complete the transaction, but will mean a great saving to the city.

While most of the business transacted was of a routine nature some very important decisions were made. The mayor and all the commissioners were present and entered into their work with a determination to complete a lot of unfinished business.

To Improve Park Scene

The first thing to be considered after the minutes had been read and approved and the expense account allowed, was the proposed improvements for the city park in the north part of the city. A drawing was submitted by the park committee and after a short discussion the committee was instructed to employ an expert to begin immediately with the work. Several hundred dollars worth of trees will be planted within the next few days. Owing to the lateness of the season all tree planting will not be done this year, though the swimming pool will be enlarged and resurfaced and all drive-ways completed.

See CITY COMMISSION, Page 6

LAMESA COTTON MEET

Session Will Take Place On March 16

AUSTIN, March 8 (AP)—Bounds of a regulated zone to be formed of seven additional West Texas counties newly platted were determined by a hearing the post will hold March 16 in Lamesa, agricultural community. George B. Terrell, said Thursday.

Meanwhile Governor Moody announced he will issue the necessary proclamations when that information reaches him.

After that step, Terrell said, two, or possibly three, seed sterilization plants will be set up in the territory affected.

The commission recommended semi-quarantine Wednesday after a two-day executive session. Altogether, 14 counties are troubled, but seven of them had been for years.

TECH GIRLS DANCE

Freshman Folk Dances Make Up Program

Approximately 150 members of freshmen girls' physical training classes at Texas Tech, led by their instructor, Miss Johnny Gilman, presented a series of folk dances at the college gymnasium last night, as their term examination in the course.

Several hundred spectators, including members of the Sophomore classes, were present.

FLIGHT POSTPONED

Trip to India Will Be Test For America Hop

LONDON, March 8 (AP)—A 4,000 mile flight to India as a preliminary test for an attempt to make the first flight from Europe to America in May or June is being planned by Captain Walter Hinchcliffe, noted British aviator.

Reports that the captain was about to start immediately on a flight from England to the United States, with the Honorable E. H. Mackay, titled British baronet as a passenger, brought denials both from Captain Hinchcliffe and Miss Mackay.

REFORESTATION ASKED

Appropriation Sought In Congress Measure

WASHINGTON, March 8 (AP)—Appropriations for government reforestation of denuded lands looking to adequate supplies of timber and other forest products are asked in a bill introduced today by Senator McFarley, Republican, Oregon.

HUNGER BROUGHT FORGIVEN

AUSTIN, March 8 (AP)—Jack Currier, 35, in examining writ on a charge charged Tuesday night his guilt and said poverty and his wife's hunger drove him.

PAIR KILLED BY TRAIN

ROCKFORD, Ill., March 8 (AP)—Mr. and Mrs. David Sharr, each 32 years old, of Debat, Wis., were killed tonight when their auto was struck by a Chicago and North-western passenger train.

Father Who Drowned Two Sons

Because he feared there was not much chance of their success in life, George Allen Chisholm, World War veteran and father of three sons, induced two of his boys, George, 9, and Edgar, 7, to walk off a plank into the Indians Harbor ship canal, where they were drowned. Chisholm is shown above (right) telling the story to Chief of Police James W. Reagan of East Chicago, Ind. Below is Mrs. Helen Lawrence, housekeeper for Chisholm, with Bobby, 5, third son of the veteran.

Democratic Committee Stepped Past Its Authority In Prescribing That Members Sign Pledge for Nominees

STEWART ACCEPTS

Warrant Charges Violation Of Law

CHICAGO, March 8 (AP)—Colonel Robert Stewart, chairman of the board of the Standard Oil company, of Indiana, today accepted service on a warrant charging him with violating section 102 of the criminal code for refusing to answer certain questions of the senate Teapot Dome investigating committee.

He supplied bond of \$5,000 for his appearance in the District of Columbia court at its next session.

MISSING CREW/FOUND

Ten Found by German Steamer

GALVESTON, March 8 (AP)—Ten seamen comprising the crew of the Galveston fishing schooner Fortuna were picked up at sea by the German steamship Kiel, bound for Guatemala, according to a telegram received today by the Gulf Fisheries company from Secretary of State Kellogg.

The schooner, which had sailed from here February 1, had been out thirty-seven days and grave fears were being felt here for the safety of the vessel and crew. No further details as to the rescue of the fishermen were contained in the message.

SENTENCE COMMUTED

Moody Shows Leniency To Convicted Man

AUSTIN, March 8 (AP)—Governor Moody late Thursday commuted the death sentence a jury assessed Amatacin Vargas in Bexar county for the killing of Louise Garcia.

The trial judge earnestly recommended clemency, declaring in a letter to the pardon board: "I am convinced that Vargas is innocent."

Vargas was sentenced to enter the chair on March 12.

AUTO WRECK FATAL

One Killed, One Hurt In Smash

EAGLE PASS, March 8 (AP)—While on their way here to attend a meeting of the Winter Garden Chamber of Commerce, John Van Nieuwenhuysse, Carrio Springs druggist, was killed and Arthur Whitehead, former mayor of the same town, was seriously injured when their automobile overturned, a blowup caused the accident.

Olton Committee Confers With Rail Men Behind Locked Doors Following Trip Over Route of Proposed Line

Baby Sails Alone

18 Months Infant Off For Germany

NEW YORK, March 8 (AP)—An 18-month-old baby sailed alone for Germany today, and there is one less mouth to feed in the family while her unemployed father looks for a job.

Mr. and Mrs. August Latteier put their daughter, Felicitas, on the liner Dresden for a trip to Stuttgart, where she will stay with a grandmother while the parents attempt to recoup the family fortunes.

The voyage will last ten days, during which time the baby will live on a special diet in charge of a stewardess and sleep in quarters arranged for her.

Proposed Air Mail Line Through West Texas Is Endorsed

Tulsa, Oklahoma City and Abilene to San Angelo Is Route As Proposed In Meeting Yesterday.

(By The Associated Press) Tulsa, Okla., March 8.—A proposed 422 mile air route from Bartlesville, Okla., to San Angelo, Texas, by the way of Tulsa, Oklahoma City, Wichita Falls and Abilene, was endorsed at a meeting here today of approximately thirty representatives from cities along the proposed route.

The delegation was inclined to give the details of the matter careful consideration in order that the venture, once started, will be a success. It was voted that each city represented should appoint a committee of two to meet jointly with representatives from the other cities to make a survey of details of financing, possible demand for the service and other questions that should be taken up before the new line is started.

The proposal is that individuals in cities on the line are to form a \$100,000 corporation to operate the airway which touches important oil cities.

Team Workers Cheered As Further Success Meets Efforts Thursday; Final Report Next Tuesday

Workers in the Boy Scout campaign for funds with which to carry on work during 1928 of the South Plains Boy Scout council were cheered yesterday, when reports showed that almost \$4000 of the funds sought had been subscribed.

Reports of teams were made at the Kiwanis club luncheon yesterday noon at the Hotel Lubbock, pledged and by last night, leaders At this time \$4,223.50 had been estimated the \$5000 mark had been passed, although no more reports were made.

George P. Kuykendall, chairman of the drive, declared that no slack would take place in efforts of workers until the \$7000 quota had been attained or passed.

Final Report Tuesday.

A final report on the scout campaign will be made by team work-

Week of Prayer
Services To End

Mrs. C. L. Fowler is elected Second Vice-President of Baptist W. M. S.; Mrs. Sam Henry leader.

Week-of-prayer services are to be concluded at the First Baptist church this afternoon when women of the W. M. S. gather between 3 and 4 o'clock with Mrs. Sam A. Henry leading the study lesson.

Following yesterday's service, Mrs. C. L. Fowler was elected second vice-president of the W. M. S., succeeding Mrs. G. W. Scott who resigned Monday.

Mrs. J. E. Alexander led yesterday's lesson on "The Island, the Canal" and was assisted by Mesdames W. D. Haney, F. B. Malone and M. R. Duncan. Miss Frances Shull sang as a solo "Whispering a Prayer" and sentence prayers for different phases of W. M. S. work were said by Mesdames G. T. Bryant, W. A. Stahl, W. M. Lawrence, G. W. Scott and T. M. Nowlin.

TO VISIT 3 CLUBS

County Agent Meets With Six Demonstration Clubs

After visiting three home demonstration clubs of the county yesterday, Miss Louise Beard, agent, expects to visit three more today, conducting lessons. She is to meet with the County Line girls' club and with the Hardy women's and girls' clubs today.

Wall coverings and draperies were discussed yesterday at women's club meetings in Union and in New Home and a sewing lesson was conducted when the Woodrow girls' club met. Seven women were at the Union meeting, 24 girls attended the Woodrow meeting and 15 women, including five new members, attended the New Home meeting.

S. BALLARD TO WED

Bride-Elect Is Miss Oral Chance, Paris

Scott Ballard, of this city, is to be married in Paris this evening to Miss Oral Chance, a teacher in the Paris schools. Mr. Ballard expects to return to Lubbock next week and his bride expects to remain in Paris until the close of the school term.

Mr. Ballard came to Lubbock about five years ago from Waco and is connected with Bowens Drug store. His parents reside in Waco.

DANCE WEDNESDAY

Four Couples Entertain the Dancing Club

About thirty couples attended a dance at the Country Club Wednesday evening. Mr. and Mrs. Ross A. McWhorter, Mr. and Mrs. Jo Dick, Mr. and Mrs. Harry Feltz, Mr. and Mrs. O. E. Sears and Mr. and Mrs. Henry McLarty entertained dancing club members on this occasion.

Tech Turodors furnished music. Punch was served.

Today In Society

Mrs. F. K. Mitchell, 2023 9th St., will entertain the Friday Needle club at 3 o'clock.

Mrs. H. W. Stanton and Mrs. W. O. Murray will entertain the Fellowship club at 3 o'clock in the afternoon at the Murray home.

Mesdames J. E. Garrison, F. H. Sawyer and Norton Baker are entertaining at bridge at 3 o'clock in the afternoon at 1402 Main street.

The Merry Mix-Up club is meeting in the evening with Mr. and Mrs. T. W. Jackson, 2212 17th St.

—THE—
WOMAN'S DAY
By Allene Sumner

Martyrized Edith Cavell faced her firing squad without flinching. That's what the British have always said and that's what the British stick to in their new movie called "Dawn," which deals with the life of Edith Cavell. But the German ambassador to the court of St. James protests. This heroic picture of Edith Cavell's meeting with death is "not accurate," he says. He produces records showing that the nurse actually fainted and had to be shot by an officer kneeling at her side. This criticism has made the British furious.

HOPE SHE DID!

Personally, I rather prefer the picture of the terror-stricken, fainting woman to the heroic one of tradition, which always smacked too much of the theatre to be convincing. Can't we be merciful enough to grant a woman bravery and courage and yet let her faint at her actual shooting? It makes her more warmly akin to the rest of us to grant her a little human weakness.

SHE KNOWS BETTER

It's just something terrible the way American women won't let a "head sculptor" from Paris who knows his curls do her hair. This from M. Antoine, lately returned home to Paris after doing a very lucrative business in the states for some months.

"The American woman will not trust her hairdresser," means the monsieur. "She pays for a specialist and she will not let him work. She works on a curl here and a swirl there, and the effect is all wrong."

The monsieur isn't the first gentleman from abroad to come up against the American woman's insistence that she knows what she wants and gets it. "The girls" are egotistic creatures that the monsieur may be used to dealing with.

And the more one sees of what a Parisian barber does to one when let alone, the more one applauds her common sense. I could tell you a tale of something I looked like when I emerged from a beauty shop in Paris one day. There was no mirror before and I let the "specialist" alone. Ye gods!

Be careful of your letters girls!

PLAY BRIDGE

Mmes. Terry and Phipps Are Club Hostesses

Mrs. O. A. Terry and Mrs. J. A. Phipps graciously entertained 1928 Bridge club members Wednesday afternoon at the home of the former hostess west of Lubbock. There were a number of guests in addition to club members and a salad course was passed at the close of games. Colors of green and white were used in decorations and appointments.

Members attending were Mesdames Louis Kittrell, Joe Nislar, M. C. Butler, R. E. Nabors, F. L. Lindsey, G. P. Jackson, Jewel Davis, Volney Hill. Guests were Mesdames M. S. Phipps, Robert Carroll, of Mansfield, Edward J. Wall, of Chicago, Ill., John Porter, J. L. Holt, Jack Green, O. W. Langlotz, of Dallas, and W. B. Harrell.

Mrs. Nabors scored high among club members and Mrs. Holt made guests' high count. In a general cut Mrs. Nislar was low.

HOSTS AT DANCE

Club Entertains At Jenkins Home Wednesday Eve

Boys in the Stag Dancing club, a newly formed society, entertained with a dance at the J. H. Jenkins home, 2301 14th street, Wednesday evening. Guests were Misses Myrtle Burroughs, Ada Ruth May, Marjorie Alworth, Melba Mae Tatum, Frances Ford, Virginia Bacon, Mae Tom Simmons. Hosts were Murray Ballester, Homer Maxey, J. D. Jenkins, LeRoy Vaughan, Harmon Jenkins, Robert Maxey, Jimmie Whiteside, W. B. Rushing.

During the evening Mrs. Jenkins served punch, chicken, sandwiches and cheese snaps. The dance room was decorated in the club colors of black and white.

BRIDGE HOSTESS

Mrs. W. J. Miller Hostess To Bluebonnet Club

Bluebonnet club members and several guests were entertained at bridge Wednesday afternoon by Mrs. William J. Miller, 2409 26th street. Those who played were Mesdames S. C. Arnett, W. H. Meador, J. S. Johnson, W. H. Blodgett, W. B. Price, J. H. Murdock, R. J. Russell, C. L. Tave, W. R. Wagborne, M. E. Farris, J. H. Hankins, W. O. Stevens, W. M. Young, W. B. Gates and W. M. Craig.

Mrs. Miller served a salad course at the close of games in which Mrs. Arnett made the club high score and Mrs. Wagborne made visitors' high count. Easter decorations were used.

Not only because they might make nice courtroom exhibits, A and B, but because learning to read handwriting is so much the vogue these days that HE may read yours, and because handwriting experts now say it's perfectly simple to tell from writing just what one's emotions are towards the receiver of the letter.

Moral: Use a typewriter! Though modern science can probably tell even then what your emotions are—all depends on how hard or soft you hit certain letters, I suppose.

To Skim Atlantic

NEA London Bureau Miss M. B. Carstairs, pride of England's motor boat racers, plans to skim across the Atlantic from Ireland to the United States in 90 hours in a 78-foot hydroplane now under construction at the Isle of Wight.

Beauty!

How and Why

STRAIGHT LINES FOR OVAL FACES

The oval type of face differs from the square form in that cheek lines instead of being parallel and straight are curved, diverging outward with the jaw and chin lines curved also. It differs from the tapering type, in that the cheek lines of the last named type converge, instead of diverging. Everything about the oval face suggests curves, so care must be taken in arranging the hair (which is the only feature we may control) to see that it falls away from the face in angles or is brushed back in as straight a line as possible, so as to counteract the facial circles. Make-up should be applied with the idea of breaking up the curved lines. Also, the neck-band should be square or angular—and never, under any circumstances, round.

Another thing worth remembering is that a mode of dressing the hair which has the effect of bringing it rather high on the head, is a good style for the person whose face is of the oval type. The woman whose face is invariably of pleasant and wholesome disposition and this is generally plainly written on her countenance for all to see.

Rouse, applied to the oval face, should be deep on the inner side of the cheeks, and should not be allowed to extend past an imaginary central line. Put on in this way, the circle of the cheek is sharply broken, giving a fine, artistic effect.

(Copyright 1928, NEA Service, Inc.)

STUDY GROUP MEETS

Mrs. Camp Leads Lesson On Adolescent Activities

Mrs. E. W. Camp led the lesson Wednesday afternoon when the A. A. U. W. Adolescent study group met with Mrs. Clyde F. Elkins, 1310 Avenue Q. She was assisted by Mesdames A. H. Leidigh, J. E. Griggs and E. L. Reed in presenting a lesson on social and recreational activities of modern youth.

At the close of the lesson there was a social hour and Mrs. Elkins, served tea and cake to Mesdames Leidigh, Griggs, Reed, Camp, J. H. Jenkins, Solon Clements, M. H. Duncan, Clarence Mast, C. J. Henson, William Dingus and J. R. B. Cooper.

G. H. ATTERS HOSTS

Entertain Hi-Lo Society On Wednesday Evening

Dr. and Mrs. G. H. Ater, 2407 20th street, entertained the Hi-Lo Bridge Club Wednesday evening at their home with four tables of bridge. Those enjoying this occasion were Mr. and Mrs. E. Y. Freeland, Dr. and Mrs. W. A. Jackson, Dr. and Mrs. M. W. Young, Dr. and Mrs. D. D. Cross, Mr. and Mrs. E. L. Dohoney, Mr. and Mrs. H. S. Riggs, Mr. and Mrs. W. J. Miller, E. F. Conday and Jerome McCarthy.

High club scores were made by Mr. Freeland and Mrs. Jackson and visitors high scores were made by Mrs. Miller and Mr. Dohoney.

PARTIES FOR CLUB

To Honor New Members Sans Souci Society

New members of the Sans Souci club will be honored twice this week-end. Mrs. Charles A. Guy is to entertain at bridge this afternoon at 2424 19th Street and the club is to attend a luncheon at Hotel Lubbock tomorrow noon.

HONORING GUEST

Mr. and Mrs. Langlotz Are Visiting J. L. Holts

Mr. and Mrs. O. W. Langlotz, of Dallas, are visiting Mr. and Mrs. J. L. Holt, 1918 Avenue N. Mrs. Holt is entertaining at bridge this afternoon complimentary to her guest.

PATTY RE-ELECTED

Will Again Head Floydada School District

FLOYDADA, March 8.—W. E. Patty, superintendent of the Floydada independent school district, was re-elected to that position for a term of two years at a meeting of the board of directors held here this week, according to C. R. Heustein, president of the board. Mr. Patty is serving his first year in Floydada but is one of the best known educators in West Texas having been with the Plainview schools for a number of years before accepting the 1925-26 term with the Falls school.

P-T. A. Presidents
Give Comedy Here

"The Sweet Family" Makes Hit With Large Crowd When Presented at High School Auditorium

A large crowd roared out applause to the presentation by the Parent-Teachers' association presidents of a burlesque musical comedy, "The Sweet Family" at the high school auditorium last night. Proceeds from the affair will apply to a fund for entertaining the district P-T. A. convention.

Seven of the women in this program are presidents of associations in the city, the eighth, Mrs. E. M. Smith, is past president of the council and eighth district chairman of the county extension work.

Mrs. T. A. White, president of the Hunt school P-T. A., directed the

comedy and took the role of Mrs. Sweet. Others in the play were cast as sisters, daughters of Mrs. Sweet. They were Mrs. Smith, Mrs. E. W. Camp, senior high school club; Mrs. F. O. Bennett, Dupre P-T. A.; Mrs. G. T. Scales, Carter P-T. A.; Mrs. A. E. Davies, Sanders P-T. A.; Mrs. O. Y. Partain, Junior high P-T. A.; Mrs. R. T. Campbell, Central.

The program was simple travesty, costuming of characters and presentation of numbers being extremely ridiculous. Mrs. Bennett, who played the role of the youngest daughter, a giggling, artless girl, was exceptionally good in her part.

Mr. and Mrs. Deay Campbell are visiting Mr. Campbell's sisters in Dalhart for a few days.

County Agent D. F. Eaton visited Brownfield yesterday.

Scott Ballard is spending a few days in Paris.

Lubbock Meets Cisco in State Finals This Afternoon

Winner of Game To Be Pitted vs. Forest High Five

First Game Starts At 4 o'clock This Afternoon: Much Interest Locally In Team's Welfare.

Today at 4 o'clock in Austin, the capital city of Texas and the scene of the annual Texas Intercollegiate basketball tournament, the Lubbock high school Westerners will meet with the Cisco "Big Dam" Lobos in their first game. Should the Morgans survive the Cisco fray then they will meet with the Forest Avenue high school quintet of Dallas at 10 o'clock tonight.

The Westerners made the journey to Austin in automobiles and arrived in Austin early last evening. Coach Morgan told the Avalanche before he left with his nine battling Westerners that the probable starting lineup for the first game would be Moody and Kelsey forwards; R. A. Gastheberry, center; Ater and Dowell, guards.

Local followers of the Westerners anxiously await the news of the results of the game and several of them have wired telegrams expressing encouragement to the team.

AUSTIN, March 8 (AP).—Fourteen high school basketball teams which have emerged victorious in the season's entry list of 1400 schools, will begin their fight Friday for the state championship of the Texas university intercollegiate league.

The title tournament will open at 9:15 o'clock Friday morning with a match between San Sabo and El Paso, winners of bi-district honors in their respective sections. R. Henderson, league director, announced.

Temple and Forest Avenue high school of Dallas drew byes and will not have to play in the preliminaries.

At 10:15 Wichita Falls is scheduled to meet McKinney and at 11:15 Athens, winner of the state title last year, is pitted against Beaumont. The Corpus Christi-Yankee game is scheduled for 2 p. m. Austin-Brackensridge high of San Antonio for 3 p. m., and Cisco-Lubbock for 4 p. m. Most of the teams and their coaches had arrived Thursday.

ATHLETICS BEATEN

Baltimore Takes Measure of Mack's Team

PORT MYERS, Fla., March 8 (AP).—The Philadelphia Athletics suffered a 4 to 4 defeat at the hands of the Baltimore Internationals today.

Creation of better conditions in their line of work and elevating the standard of their craft in this particular section were two objectives announced by the South Plains Blacksmiths' association, which yesterday held a meeting here with more than 100 representatives present.

A round-table discussion of problems of the newly-organized association was held and plans for the future were discussed. According to D. N. Lacerwell, local man, little of public interest developed during the session.

Membership in the association, which was organized on January 3 with 22 members, was increased to almost the 100 mark yesterday.

Representatives here came from as far south as Lamesa to as far north as Plainview, from as far east as Crosbyton to as far west as Brownsville, and there were several representatives from the Sweetwater and Abson country.

PERMITS DROP
Fall Under Average Needed For First Quarter

Building permits here yesterday fell short of the amount necessary as a daily average if the quarter's total is to reach the half-million mark. Two permits, totaling \$1,500 were issued yesterday, but a daily average of nearly \$5,000 is necessary to reach the half-million mark before the month is finished.

R. A. Coker was granted permit to build a frame structure on block 24, lot 13 of Perkins addition at a cost of \$450. W. A. Myrick was given permit to repair the wall and roof of a one-story brick building on block 118, lots 18 and 19 of the original townsite at a cost of \$1,500.

MRS. SMELLEY BURIED
Funeral Services Are Held Yesterday Afternoon

Funeral services for Mrs. A. W. Smelley, 38 years of age, wife of a farmer on the Lindsay place near Hurwood, were held yesterday afternoon with interment at Meadow Lake, and Powell undertakers of Lubbock in charge.

News Notes From Texas League Training Camps

FREDERICKSBURG, March 8 (AP).—Pete Arzatti, diminutive catcher who worried Manager Gibson by failing to report at the Bear spring training camp here, wired today that he had been ill at his home at Douglas, Ariz., but that he would be with the team in a few days.

Frank Watt, star pitcher two years ago, who had trouble with his arm last year, was forced to leave camp today in search of medical attention that would put his arm back in shape. It is not certain whether he will attempt to rejoin the team this season.

Jake Freeze Shows Up At Waco Camp

WACO, March 8 (AP).—The appearance of Jake Freeze, pitcher, and Jimmy Proley, catcher, brought the total in Waco's training camp to 24. Freeze is a pitcher and Proley is a catcher who worked out with the Cubs while late last season.

Spudder Roster Boosted By Pair

WICHITA FALLS, March 8 (AP).—Lyman Lamb, outfielder and Buddy Lewis, utility infielder, of the 1927 champions, reported at Spudder training camp here Thursday. Johnnie Jones, rookie pitcher from Sarasota of the Florida State League, was another new arrival.

Steer Yarnigans Hold Team To Tie

DALLAS, March 8 (AP).—The Steer Yarnigans, flattened 7 to 3 by the regulars Tuesday, rebounded in their second meeting Thursday and held the veterans to a 3 to 3 tie. Five hits bunched off Tiny Owens in the second inning for three tallies accounted for the Rooks' success.

Batting Practice Order For Buffs

HOUSTON, March 8 (AP).—Batting practice and much of it, was the order of the day here Thursday in the Buff training camp. Fred Baker, young outfielder, who showed great advantage last season for the Mission club of the Texas Valley League, showed conspicuously good form at the plate.

Frank Barnes, southpaw, and O. J. Clements, right hand flinger, were among those out for their first workout. Barnes last season was with Syracuse, while Clements is a former Texas University star.

Atz Puts Two Squads Through

PORT WORTH, March 8 (AP).—Two squads of Cats were given a strenuous workout today under the watchful eyes of Skipper Jake Atz. Andrew Harrington, infielder from Mount View, Calif., and Ralph Shinnors of the Coast League, appeared today.

Three Hurlers Report To Camp

BEAUMONT, March 8 (AP).—Elmer Hanson, Ad Holzhauser and Clarence Williams, pitchers, reported to the "Experts" camp today leaving Buzz Phillips, pitcher, and Henry Wingfield, catcher, the only battermen yet to turn up.

Manager Robertson put his men through a good workout this morning although the field was heavy from yesterday's rain. The weather thus far has not been the best and Robby is pulling for lots of sun.

Fans Will Learn Tonight Fate Of Lubbock Baseball

Committee Which Queried Local Business Men On Project Will Report At Meeting.

Lubbock's baseball decision will be given tonight at 7:30 o'clock when the committee appointed at the Tuesday night meeting of local fans, makes its final report. The committee, composed of S. D. Hunt, Frank Jones, R. O. Shelton, F. G. Sheppard, Dick White and Boyd Aycock, have been working daily since Tuesday laying before the local business men the proposition with the end in view of securing at least five men to take over the local franchise and operate it as a private business.

Several local enthusiasts have considered the proposition but have not definitely decided on the matter, however, the question will be answered this evening with the report from the committee. Should the franchise holders be secured and passed upon by the local fans, Lubbock will formally enter the West Texas league and will be represented in the loop session set for Sunday at Brownwood, where the final organization will be finished and schedule of games made.

On the other hand if the committee does not secure the franchise holders, then Lubbock will be without organized baseball for the summer.

Atz Puts Two Squads Through

PORT WORTH, March 8 (AP).—Two squads of Cats were given a strenuous workout today under the watchful eyes of Skipper Jake Atz. Andrew Harrington, infielder from Mount View, Calif., and Ralph Shinnors of the Coast League, appeared today.

The sun peeped out from beneath the clouds for the first time this week and the Cats caught the spirit of the weather, late afternoon finding them loath to quit.

Three Hurlers Report To Camp

BEAUMONT, March 8 (AP).—Elmer Hanson, Ad Holzhauser and Clarence Williams, pitchers, reported to the "Experts" camp today leaving Buzz Phillips, pitcher, and Henry Wingfield, catcher, the only battermen yet to turn up.

Manager Robertson put his men through a good workout this morning although the field was heavy from yesterday's rain. The weather thus far has not been the best and Robby is pulling for lots of sun.

Over The Coffee Cups

Small Items Of Real Interest

A marriage license was issued yesterday to E. C. Hill and Miss Esther Goetz.

Mr. and Mrs. Otis Felty, 2103 Sixth street, announce the arrival of a son, Billie Weldon, who made his advent last Saturday. Both mother and son are doing nicely.

Mr. and Mrs. Joe Hess and Mrs. I. F. Holland were among the Lubbock music-lovers who attended the concert of the famous Madam Schumann-Heink in Amarillo Wednesday night. Other Lubbock people are expected to attend the John McCormick concert tonight at Amarillo.

Lubbock's "Trade Balance" in letters is two to one in favor of the city, estimates of Postmaster John L. Vaughn show. The postmaster says that approximately 50,000 pieces of mail are received for Lubbock people each day, or an average of nearly three to each person in the city.

Approximately 25,000 to 30,000 pieces of mail are dispatched through the local office daily.

The first seven days of March yielded an average of about \$20 daily to the police coffers. It was revealed yesterday when Desk Sergeant Imken showed that \$201 had been taken in by the local law enforcers.

Leading business men of Amarillo go on record with the assertion that development of agriculture in this section is dependent on the research of schools like the Tech and the West Texas State Teachers' College at Canyon.

A group of Amarillo men headed by James A. Bush, chairman of the Board of City Development agricultural committee, will visit the Tech on March 14 for a conference with officials relative to various matters concerning agriculture in this section.

Scores of acres of ground on the southern side of that wide expanse known as the Tech campus are being broken by the plow.

CARDINALS BEAT SENATORS
AVON PARK, Fla., March 8 (AP). Pitcher Fred Frankhouse scored the run which won his own ball game for the St. Louis Cardinals against the Washington Senators today, 6 to 5.

This being Lent, you'd think some of the paragraphers would give up jokes about mothers-in-law, saxophones and Congress and go to work.

Major Managers 'Goose Step' Late Players to Camp

Time Has Arrived When All Hands Are Needed Around These Baseball Training Grounds.

(By the Associated Press)
ATLANTA, March 8.—Major league baseball managers today were attempting to "goose-step" a few late veterans and tardy contract signers into camp, the conditioning season having reached the stage where all hands are needed for work.

At the Cincinnati Red's camp at Orlando, Manager Jack Hendricks planned to call upon G. J. McDermid, club president in an effort to hasten the signing of Carl Mays and Pete Donohue, pitchers.

Bob Meusel, outfielder, arrived at the St. Petersburg quarters of the New York Yankees today while Earl Combs, outfielder, and Waite Hoyt, holdout pitcher, are expected Sunday.

Simmons on Hand.
Al Simmons has reached the Philadelphia Athletics' camp at Fort Myers, while Ty Cobb is still drilling at Augusta, Ga., taking a turn around the field after the New York Giants retire.

Five of the ten clubs training in Florida went through exhibition games today, the others continuing routine drills for coming games.

Not golf, but ocean swimming, worried Manager Dan Howley at the West Palm Beach camp of the St. Louis Browns. Howley ordered no more surf bathing because of the blistered backs suffered by some of his players.

Games Scheduled.
The Red Legs played a nine inning practice game today as did the Brooklyn Robins at Clearwater and the Giants at Augusta.

The Yankees play their first practice game tomorrow with Babe Ruth scheduled to hold down first base for the Yarnigans.

Preliminaries To End At Tech Today

Only Three Events of Triangular Meet Held Yesterday; Claunch Wins In Discus Throw.

Only three preliminary events of the triangular intramural meet were held yesterday afternoon on the Matador track, the discus throw, running broad jump and 220-yard dash. The schedule of preliminary events to be held today which will conclude the preliminaries of the meet, will be 220-yard low hurdles, high jump, and javelin throw.

Clauch, Engineer 127 feet and the discus, hurled the disc 127 feet and

HOPPE WINS Takes Sensational Game From James Lewis

NEW YORK, March 8 (AP).—Willie Hoppe, former balk line champion, registered a sensational three-cushion billiard performance today when he defeated James M. Lewis, of New York, former amateur champion, 50 to 5, in 15 innings, with high runs of 14 and 11.

dash in 24.4 to lead his heat. Others to qualify were Dallas, Edmonds, Aldridge, Walker, Fisher and Murray.

Americans drank 2,500,000,000 bottles of soft drinks in 1927.

McDERMOTT MANAGER Takes Hand In A. A. U. Meet

KANSAS CITY, March 8 (AP).—Coach Hugh McDermott of the all-victorious championship Oklahoma university basketball team, arrived today to take charge of the Cook's Paint team in the national A. A. U. basketball tournament starting Saturday. With McDermott came two of his aces, Victor Hoff, Missouri's leading scorer, and Captain Roy LeCrone, star all-Valley guard, who will line up with the Cooks.

Fifty-four teams had entered today and pairing was to be begun tonight or early tomorrow.

A MATTER OF TEMPTATION

"A Dallas county banker has been convicted and sentenced to 50 years in prison on a charge of murder," reports the Denison Herald, "and yet it won't be a week until some fellow will say the criminal laws never reach the rich or prominent."

Comparatively few rich or prominent persons are tried and convicted for crime because rich and prominent people as a class are not criminal. This is not an indictment of the poor as criminals. In the first place, the poor are always with us in far greater numbers than are the rich; and in the second, the man who is able to attain riches or prominence usually is an individual of such moral or mental breadth as to avoid crime, either because crime is wrong or because it is wasteful and uneconomical. Those who become rich or prominent by means of crime, of course, are not included in such a description of their class, but while thousands of men have sought riches by criminal means, mighty few have ever gotten what they sought in that manner.

Further, there are fewer wealthy criminals than poor ones because the temptation to commit crime comes more insistently to the man who is struggling with poverty. Perhaps we sometimes are unfair to the man who is brought before the bar of justice after committing a crime, because we do not know and can not understand all the influences that caused him to violate the laws of his country. The actual physical inconvenience of poverty is not as bad as the tendency of poverty to pervert a man's viewpoint and cause him to regard all who are more fortunately situated as his natural enemies. Necessity rarely if ever drives a man into a life of crime, but necessity sometimes creates a state of mind and heart that develops into a criminal impulse; and necessity knocks more often at the door of the poor than of the rich.

If we are to distinguish between the poor and the rich criminal, we ought by all odds to give our sympathy to the less fortunate of the two. A rich man, with his broader outlook on life and his wider opportunity for joy and happiness, has no excuse whatever for violating the law. He owes a little more to society, because of his larger possessions and his greater capacity for serving society, than does the man who has little or none of this world's goods and infinitely more of its hardships and temptations. Our court records show that most wealthy and prominent persons recognize this responsibility and try more or less faithfully to discharge this obligation. That is the reason comparatively few of them are found in the criminal courts as defendants.

THE YOUNG FOLKS AND THE HOME

Comradeship in the home is largely the determining factor of the kind of children that come out of it. Restraints imposed without an appeal to the reason of the child and its sense of right and wrong, do not always accomplish the purpose for which they are imposed in this day and age any more than they did in the years gone by, when those who are now criticizing the children of today were children themselves. The fact is that there is little difference in the human nature of the child of today over that of yesterday's juvenile product.

Two things are contributing to unsettled conditions with today's child. The fact that real homes are becoming fewer and that the demands of business on the part of the father and the social activities of the mother are leaving the children without that close comradeship of their parents, without which the influence exercised is met by obedience on the part of the child as a matter of duty only, if it be met at all. When the parents make a real home for their children, in which is the spirit of companionship and sociability, in which the father and mother share their lives with the youngsters in sympathy and open frankness, in which the problems of the children are measured as being real to them and entitled to consideration as such, in which the confidence of the children is earned by the parents, in which there is as much anxiety to bring pleasure into the home as there is to seek it elsewhere on the part of the parents, when this kind of a home is sought to be

made there, will be less complaint about the actions of the children.

A few less dollars, a denial of a few more social engagements and the making of a genuine home with the children happy to be there is well worth the sacrifice. The greed of the father in business to the exclusion of interest in the affairs of his children, and the anxiety of the mother to be a social success rather than a part of her children's life will bear fruit in an indifference to them and to their wishes. It is possible to have as neglected children in a palace as it is in a hovel. It simply is a difference in the kind of neglect. Both are inimical to child life. Some time the public conscience will be aroused to the duty owed the neglected child in the hovel, but only the parents can remedy the situation in the better class home.

When children of well-to-do parents are found doing those things which are a menace to society the parents should be arraigned at the bar of justice with the children and made to give an account of their stewardship as guardians of the offenders. The trouble with juvenile courts, when dealing with children of people of affairs, is that they come immediately in contact with the parent who believes that the payment of money will repair whatever damage is done, when the fact is that money will not compensate for the loss of conscience by their children, through their neglect.

PHENOMENAL PROSPERITY

There are conditions in the United States at the present time not consistent. We can't understand why there are from 3,000,000 to 4,000,000 unemployed here, when every industrial enterprise is expanding and prosperous. We know for sure that no such national advantages ever came to a nation as America is right now enjoying. With seven per cent of the population of the world, we have 75 per cent of the gold reserve of the world, and there are more automobiles made and sold in America today than in all the nations of the world combined. Road building is proceeding at the rate of a billion each year combining state and national expenditures, and by the end of another year that amount will be doubled. The national wealth is increasing at the rate of \$15,000,000 annually and our population of native born citizens growing faster than ever, with fewer foreign born being admitted. The banks of the country are loaded with money, and savings deposits have increased in the last few years by leaps and bounds. Millions of money will soon be spent by the government in effecting public buildings and for flood control. If all these do not make a record of progress and prosperity, then look in any other direction and you will see expanding wealth and growing fortunes. It is indicated in telephone activity, in freight and express shipments in foreign trade and commerce. While such prosperity is not consistent with unemployment, and with millions out of work and out of money, it is very likely when the public work gets well under way the ranks of idle will decrease. One thing we know for sure, and that is that American wealth is growing, that there are yet vast undeveloped resources, that no nation has ever enjoyed such progress and prosperity that this nation now enjoys. The opportunities for developing industry has never been so great. Automobile industry is still growing, aviation is only in its infancy, the development of hydro-electric power is just started. Science is just beginning to serve mankind and everything possible is here to satisfy man's ambition, for growth and development. Surely with such conditions existing it is not possible that there will long continue any unemployment in this country—it is just a short while until every man and woman able and willing to work will find plenty to do. Peace, plenty and prosperity is surely heritage of this country for many years to come, if we read the "signs of the times" correctly, and no matter who is elected president, the existing conditions will continue—they were not caused by politics and will not be altered by politics.

FOR BETTER HOMES

Now comes the announcement that the combined lumber associations of America will inaugurate an advertising campaign to spend \$40,000,000 promoting "Better Homes in America." Of course the advertising will be for the purpose of selling more lumber, but the inevitable result will be more homes and finer homes. It looked for a time that the automobile was going to supplant the home in this country, and many are the criticisms that have been made about the families who owned an auto and did not own a home. But nothing will ever permanently supplant the home, and each generation will find more home owners in this country, and owners of better homes. The fire-side is and always will be the foundation of a nation's greatness, its character and its culture—nothing can ever take its place. The campaign of the lumber dealers to sell more lumber is not only a good business move on their part, but a great thing for the country, because in promoting the building of homes, the progress and development of the country is assured, a higher order of citizenship is assured, and the ideals and traditions of the founders of this government are being promulgated. We congratulate the lumber dealers on their determination to spend \$40,000,000 spreading the gospel of "better homes in America."

Having to listen to Heflin is another form of Capitol punishment.

OUT OUR WAY—

SO THINK WE

We think the party pledge may not have any legal obligation to it, but it certainly must have a moral obligation, and people who vote a ticket with a pledge to support the nominee should feel that they are morally obligated whether it be subject to legal recourse or not.

We think that the life of a coyote must be something awful. People are after them with dogs, guns, automobiles and airplanes, and it would seem that there is really no more rest for the cunning of the coyote.

We think the matter of immigration is something that needs to be very seriously considered. If the bars were laid down to everyone who wants to come to America, it would not be long until wages would be down to where men could not feed their families and there would be thousands on the bread lines, and much suffering. America should look after her own people before others are taken in to be responsible for.

We think those Gambleville folks will have to quit talking about West Texas and its calamities. We read a few days ago where there was a hail that covered the ground and then beat down the roofs and vegetation of all kinds was damaged. Trees were beaten up, and much other damage. West Texas is not the only place where the wind blows and the hail beats.

We think that right turns when not made right are much worse than left turns when they are made right. This paragraph is merely to fill this space, and really contains no thought worthwhile, but you might think about it a minute anyway.

OPINIONS

COTTON ACREAGE

Reduction of cotton acreage by voluntary action on the part of individual farmers is difficult, of course, but the Southern Farm Publications, the Progressive Farmer, asserts that each of the six "well-marked campaigns for the reduction of cotton acreage," conducted in past years has resulted in actual acreage reductions ranging from 7.4 per cent in 1918 to 15 per cent in 1921. With each of these reductions, the same farm paper adds, there has come about an increase of cotton prices. With the acreage reduction fixed for this year at 10 per cent, the task of persuading the cotton farmers to voluntary compliance should not be too hard. Nearly all the growers must realize by now the peril of over-production. And if their bankers and supply merchants condition credits, as the Jackson conference has proposed, upon a soundly-regulated acreage, the way to an intelligent and section-wide reduction of cotton acreage should prove comparatively easy. In the past it sometimes has been complained that planting of too large acreages to cotton was forced upon a good many farmers by their creditors, who relied upon the "money crop" as security for their advance. In the new campaign it is proposed that the credit agencies insist upon planting of "sufficient food and feed for hands and stock" and thus insure a crop diversification where needed that should automatically and wholesomely reduce the acreage devoted to cotton.—New Orleans Times-Picayune.

THIS TOOK BRAIN WORK

The automobile has introduced into American affairs curious and startling statistics. Forty-seven different prices are paid for gasoline, ranging from 10 to 25 cents a gallon. There are 140,000 gas stations dispensing in the neighborhood of

400,000,000 gallons of oil and 11,000,000,000 gallons of gasoline to nearly 24,000,000 cars. This gas represents a volume equal to 18 square miles of water three feet deep. It would require a hole in the ground twice as large to accommodate the crude oil from which this gas is manufactured. Over \$2,000,000,000 are paid annually for gas as an amount that would have paid the national debt any time between 1880 and 1900. If each motor vehicle registered in the United States on an average of 45 yards in which to operate, this 45 yards in which to operate, this 45 yards would be equal to 1,200 one-way trips to the sun. There are enough cars to cover the 375,000 miles of surfaced roads in the United States with 41 cars to the mile, giving each car approximately 45 yards in which to operate. This 45 yards would be equal to 1,200 one-way trips to the sun. There are enough cars to cover the 375,000 miles of surfaced roads in the United States with 41 cars to the mile, giving each car approximately 45 yards in which to operate. 400,000,000 gallons of oil and 11,000,000,000 gallons of gasoline to nearly 24,000,000 cars. This gas represents a volume equal to 18 square miles of water three feet deep. It would require a hole in the ground twice as large to accommodate the crude oil from which this gas is manufactured. Over \$2,000,000,000 are paid annually for gas as an amount that would have paid the national debt any time between 1880 and 1900. If each motor vehicle registered in the United States on an average of 45 yards in which to operate, this 45 yards would be equal to 1,200 one-way trips to the sun. There are enough cars to cover the 375,000 miles of surfaced roads in the United States with 41 cars to the mile, giving each car approximately 45 yards in which to operate. This 45 yards would be equal to 1,200 one-way trips to the sun.

Jackman's

Women's Wear Exclusively

Memphill-Wells Co.

**THERE IS A SATISFACTION
ABOUT WEARING A FINE
GARMENT YOU KNOW TO
BE CORRECT**

How many times has your enjoyment of some function been dampened just because you did not feel entirely comfortable in the garment you wore? Wouldn't it be better to pay just a little more for the absolutely correct thing? Many times it's all well and good to remark: "Oh, just a little cheap thing I'm wearing"—but how do you feel, as you say it? Wouldn't the assurance that you would not be called on to make this comment be worth a thousand times more than the slight difference in cost?

Stores, like garments, have a reputation. This store prides itself on the correctness of the things it sells—the fact that when a purchase is made here all cause for apology regarding the correctness of that garment is eliminated.

**FINE GARMENTS—HIGHER IN
PRICE, BUT WORTH IT**

Dresses from Nemser, Hattie Carnegie, Claire and the others are high priced dresses. We would be most happy to be able to offer them at the price levels of the ordinary kind but because of the materials, workmanship and designing, this is impossible. We do know, however, that every woman who has had such garments tells us, and will tell you, that she has received her full money's worth in the satisfactory service she has found in their wearing. Just now our showing of these finer things is complete with all the newer arrivals.

**COATS OF DISTINCTION FROM
DEL MONTE HICKEY**

Coats that you see in national style magazines—Coats that are fashioned from imported materials—that are trimmed with real furs—that are copies of imported designs—in a word Coats that represent the finest value possible to give you in a fine garment. Yes they cost a trifle more than the average—an addition that is repaid, however, in the satisfaction in wearing them.

**Yes, There Is A Satisfaction About
Wearing A Fine Garment You
Know To Be Correct**

New Railroad

(Continued from Page 1)

reaching Flag, in southeast Castro county, through which the line will run if it is constructed. No announcement concerning whether or not the flag men signed the contract was made following the session.

Opinion here was to the effect that the contract, offered by the railroad, would be signed by the local committee tonight. The line will be in operation within two years after the Interstate Commerce Commission gives its consent to its construction, the Santa Fe representatives said at a mass meeting here Monday, when 400 persons were present and the proposal was first made by the railroad.

Hale Center Is Busy. Statements emanating from the Chamber of Commerce and business men at Hale Center said that city is hand-in-glove with Lamb county in its efforts to secure the road. The railroad committee in Hale Center has been in almost constant session since the proposal was announced there early this week by Messrs. Irwin and Stewart. Lamb county people have no doubt concerning the need for the road, for the 66 miles of its pro-

posed route run through by a rapidly growing and productive section which is not now receiving rail service. Sentiment here favors the connection with Hale Center, rather than with Plainview, because the Hale Center connection will give a closer and more rapid connection with Lubbock.

Plainview Would Build Line From There West

PLAINVIEW, March 8. (Special.) Intensely interested in a proposed rail line through Lamb county into Farmer county, citizens of Plainview have been considering ways and means of diverting the eastern terminus of the route from Hale Center, as planned, to this city. Although no other statement has been made by railroad representatives other than the one which routes the line from the main line at Hale Center, through Olton, county seat of Lamb county; Flag, in the southeast corner of Castro county, to the Santa Fe main line at Parmerton in Farmer county, an effort is under way here now to run the line due west from Plainview to Olton and on into Castro and Farmer counties. The Plainview Evening Herald, through its editor, Herbert S. Hilburn, telegraphed officials in Washington today to find out if an application for the Hale Center route had been filed with the Interstate Commerce Commission, A-

Demo Pledge

(Continued from Page 1)

those who participate in the conventions are not bound to support the nominees of the national convention at Houston—unless those participants vote for those nominees at the primary election.

The electors carry the party pledge. By the resolution, the executive committee aimed to prevent "bolting" from the party ranks by those unsatisfied with the nominees before the primary elections.

Mr. Pollard said the committee was attempting to act under a law which was primarily designed to prevent negroes from voting, by giving political party executive committees power to prescribe the qualifications of party members. The law as now effective was amended by the 40th legislature to eliminate specific reference to negroes, as a result of the federal supreme court decision holding the old unconstitutional because of its discrimination, the attorney general noted.

Scouts

(Continued from Page 1)

ers next Tuesday. Another report will be made today.

The entire program of the Kiwanis club, for which L. C. Ellis was chairman, was devoted to the scout campaign.

Mr. Kuykendall made a short talk including the report of the teams. He was followed by W. P. Knox, who commended the spirit of the workers and outlined the program of the council.

Various patrols featured with songs and yells, the Cootie patrol making a hit with their "Oh, Take Back This Cootie from Me" song.

The Mustang troop was again in the lead in the drive today. J. Clements is scoutmaster while the Cootie patrol, led by A. C. Jackson, was again the highest patrol in the drive.

The club voted to continue their policy of meeting in the rural communities during the coming weeks and Acuff is their next meeting place, the luncheon to be held some time in April.

various schools, and Mrs. Smith as a district officer. Members include Mrs. E. W. Camp, president of the council, and also of the Senior high association; Mrs. T. A. White, of the George M. Hunt school group; Mrs. Frank O. Bennett of the DuPage association; Mrs. G. T. Sciles of the K. Carter group; Mrs. C. Y. Partain of the Junior high school; Mrs. R. T. Campbell of the Central Ward; and Mrs. A. E. Davies of the Sanders school.

Merchants

(Continued from Page 1)

board of the association while six of the present directors will remain on the board for another year.

A nomination committee which was appointed at the last directors' meeting have selected ten members as prospective directors. A ballot is being prepared to be passed out to the retailers tonight. This ballot will have these ten men's names listed together with five blank spaces, with instructions to vote for answer to the query said that the application had not been filed.

Lubbock C. of C. Is To Aid Olton, Hale Center. Lubbock business men and leaders in the Board of City Development expressed pleasure at the announcement of plans to build a Santa Fe branch from Hale Center to Parmerton, through Olton and Flag when questioned by The Morning Avalanche last night. The Chamber of Commerce at Hale Center and Olton will have Lubbock's complete co-operation in the venture. It was stated from B. C. D. headquarters here.

any five or to write in five names of members not in the list of nominees.

Ten Nominees

The ten nominees are Joe Baldridge, George Benson, W. W. Rice, A. G. Hunt, E. J. Parsons, H. L. Allen, J. D. Hassell, J. H. Felton, L. C. Ellis and J. C. Anderson.

The six directors who will serve another term are D. D. Roderick, Paul Sherrod, W. R. Pickas, Joe Nislar, L. G. Haynes, and W. E. Lowery.

Hulse's talk is to be of interest to all merchants and professional men who sell merchandise or service on credit.

City Commission

(Continued from Page 1)

should carry liability insurance for car and truck drivers employed by the city was discussed pro and con, but without motion or formal vote it was decided the matter should be passed.

People in Morningside Addition will be pleased to learn that City Engineer Red Smith has been instructed to arrange immediately for a new water line into that district. The main will run down the alley between Avenues G and H, and will be of sufficient size to care for the Port Worth and Denver South Plains railroad.

Water Rates Altered.

Water rates were discussed and certain changes in rates were made. The small consumer will get the same rates as in the past, though the larger consumer will be asked to pay a slightly higher rate. The new rates follow: charges for first 5,000 gallons, \$2; next 5,000 at 50c per thousand; next 5,000 gallons 25c per 1,000, up to 15,000 gallons 20c; from 15,000 to 40,000 gallons 18c; 40,000 to 100,000 gallons, 16c and over 100,000 gallons 15c which is to be the lowest rate in the future.

At this time some of the larger consumers are saying as low as 15c per thousand, but members of the commission feel that the city can not deliver water at this rate.

Members of the City Federation of Women's Clubs were present and petitioned the commission to remember them when the new city auditorium is constructed. Women will help put over the bond issue, they said, and in return they desire a special room in the building to be used exclusively by women in their various activities.

Three Ordinances Passed.

Three ordinances were finally passed. The first prohibits the pouring of oil into sewers and the other deals with licenses and bonds for plumbers, gas fitters and electricians. In the future a uniform bond of \$1,000 will be demanded as fitters, and an annual license from all plumbers, electricians and fee of \$20.00 will be charged.

The commission refused to accept a proposition made by the Burrus Mill and Elevator company to furnish electric current for 2c per kilowatt for a period of two years with the option of a five year extension. Current will be furnished at that rate for two years, but the commission voted against a long time contract.

The question of alley paving was discussed, and the city will pay its tenth where property owners will pay the balance. Quite a little work of this nature will be done in the near future, it is thought.

The question of paving Avenue M from 19th street to 23rd street was passed for the time. Several other questions were brought up, but as at least three members of the present commission will vacate their posts within the next 60 days, it was thought advisable to pass them until the new commission is seated.

BURY CHISHOLM BOYS

Bodies of Lads Killed By Father Viewed

INDIANA HARBOR, Ind. March 8.—Side by side, the two little sons of George Chisholm, were laid to rest today. The boys whose father confessed throwing them into a canal "because they were in the way," were given one of the largest funerals in the city's history.

Congratulations
Barrier Bros.!

It is a great tribute to your resourcefulness and to your store's worth to this community, to have reached your eleventh milestone of business life.

We are glad to publicly express our admiration for the policy of your management which has so expertly guided the growth of your business.

ANNIVERSARY
CELEBRATION

**A Crowd Attracting Event Without an Equal
As A Money-Saving Opportunity**

We wish to extend our thanks to those who attended the opening day of our 11th Anniversary Celebration. We wish to thank them for their liberal patronage, their courtesy and their patience, for with such values as we offer, it is an impossibility to serve as we ordinarily do. Additional sales people will be on hand to facilitate service, and assortments are most complete in every detail.

Never in South Plains history have values been so great on merchandise of such high character. Never have such assortments been offered, and the response the first day was tremendous! It is a savings opportunity that comes right at the beginning of the Spring season, and new, seasonable merchandise is offered at prices that you wouldn't expect to see for months and months. Come and share in the savings, for if you don't you'll miss the biggest bargain event in South Plains history.

SILKS for Spring

These Silks are of America's leading mills and possess all the charm and beauty that the foremost designers could possibly evolve.

Our stocks are more than twice as large as they ever were before. The patterns are more beautiful than ever before and we are sure these prices are the lowest we have ever been able to make.

Our experienced salesladies can be of much help to you in planning your new dresses. Do not hesitate to ask for any information about your spring sewing.

Sinclair Bonds Aided GOP Fund, Witnesses Aver

Direct Evidence That Questioned Securities Went To High Members of Party Is Given Thursday.

(By Associated Press.)
WASHINGTON, March 8.—Direct evidence was received today by the Senate Teapot Dome committee that at least some of the \$200,000 in Continental Trading Company Liberty Bonds which Harry F. Sinclair turned over to the republican national committee in 1923 were passed out to individuals for sale on the open market and the proceeds used to help extinguish the party deficit before the 1924 campaign.

James A. Patten, a Chicago grain commission merchant, who years ago started the world by obtaining a near-corner on the wheat market, testified that the late Fred W. Upham, treasurer of the republican committee at that time, gave him \$25,000 in Liberty Bonds in December, 1923, and asked him to make a contribution in an equal sum to the party to help wipe out a deficit which Upham then placed between \$600,000 and \$800,000.

Patten said he sent the national committee his check for this amount collected the bonds later and turned them over to the Jefferson Hospital in Chicago, to which he had promised a donation of \$25,000. The one time wheat king said he was "mad and indignant" at the size of the deficit, but saw the necessity of paying it off.

"I wondered why Upham gave me the bonds instead of selling them in the New York market, where the best price might be obtained," Patten said, adding that at the time he had no idea of the origin of the bonds. He furnished the committee a list of the serial numbers and a check of these against those of the Continental bonds by the secretary to Senator Walsh, committee prosecutor, showed that \$20,000 of the \$25,000 once had been in the possession of the Continental Trading Company.

Besides Patten, the committee examined five other witnesses, including William V. Hodges, of Denver, now treasurer of the republican national committee.

VOTE ON COURTHOUSE

County Seat Change Up For Third Time In Gray

PAMPA, March 8 (A. P.).—Gray county will vote March 9 for the third time as to whether the county seat shall be moved from LeFlore to its present inland location, to Pampa.

The election was made possible through a recent supreme court decision upholding an act of the last session of the Texas legislature to authorize elections for removal of county seats as often as every two years when the county seat is more than five miles from a railroad.

Similar attempts in 1912 and 1925 to move the county seat to Pampa failed in the elections.

Return of Truant Countries Sought

League Council Will Want Participation Again Of Spain and Brazil In Work Of International Body.

(By the Associated Press.)
GENEVA, Switzerland, March 8.—The return of Spain and Brazil to active participation in the work of the League of Nations will shortly be sought by the League council.

The council, upon the initiative of Francesco Jose Urrutia, of Colombia, who presided at today's session, today approved a suggestion that a resolution and letter inviting these countries to rejoin their withdrawal be sent to them.

That Spain will respond favorably to the appeal and not insist upon her resignation was the opinion generally heard in Geneva tonight, but no one would hazard a guess as to what answer Brazil would make.

Under the rules of the League two years' notice of withdrawal must be given. That of Brazil's expires in June while Spain's expires in September.

In addition to fervent appeals by the Latin-American members of the League council in favor of asking Spain and Brazil to return, Foreign Minister Stresemann of Germany

said that it was with sincere satisfaction that he heard the suggestion of Senator Urrutia.

TECH STOCK SHIPPED

Herds Entered In Ft. Worth Show

Twenty-seven head of hogs and 11 sheep from the Tech herds were sent last night to Fort Worth where they will be entered in competition at the Southwestern Exposition and Fat Stock show. J. E. Dennis is in charge of the stock. Last year stock from the Tech won a majority of leading places in the competition and they have hopes of repeating this year. Stock not entered for competition will be exhibited.

building fifty by one hundred feet in which he will install twenty thousand dollars worth of machinery. This building will be ready to occupy within the next week according to D. E. Cook, contractor, constructing at 207 Gollad street a

BANISH THAT EXTRA FAT

Do it in the easy, pleasant way, in the modern, scientific way. Not by abnormal exercise or diet, but by combining the great cause of excess fat. That way is embodied in Marmola's prescription tablets. People have used them for 29 years—millions of boxes of them. So now you can see, on every hand, the results this method brings. New beauty, new health, new vitality. If you covet those results, learn the way to get them. A book in every box of Marmola's tells you the formula, also the reasons for all it does. You will have no fear of harm. Get it today and watch the results. Learn how much it means to you in many ways. Do this for those who wish to achieve you. Just ask your druggist for a \$1 box of Marmola's.

Safety Meet For Santa Fe Is Held

Five Hundred Attend Rail Meeting At Slaton; High Record In Safety Made During Year Just Past.

SLATON, March 8.—The bi-Slaton division of the Santa Fe was held here Tuesday evening with 500 people attending, many of them from other towns on the Slaton division. A musical program and addresses besides round table discussions of matters pertaining to safety of employees and the public made up the evening's program. J. C. Barton, of Slaton, superintendent of the division, presided.

Speakers were C. L. Stone, head of the Slaton schools; A. R. Tillman, safety supervisor for the Santa Fe, Albuquerque; and Hon. Clark M. Mullican, judge of the 90th district court, Lubbock. These Slaton people were on the program, the Slaton high school band, 35 pieces, directed by E. Pogue; Mr. and Mrs. B. E. Clark, Miss Lorene McClintock, L. A. Wilson, Miss Oletha Colston and a mixed negro chorus singing negro spirituals.

Superintendent Barton announced that the Slaton division in 1927 made the highest record in safety matters achieved by all the divisions on the entire Santa Fe system. He declared strong efforts will be made to keep the distinction this year.

CANARY MURDER CASE

THE STORY THUS FAR

Margaret Odell is found strangled. Sheel's finger prints are found in the apartment, but Vance believes Sheel had been hiding in a closet while the stranger did his work. The thing that baffles police is the side door to the alley. It had been locked on the inside the night before and found that way in the morning. Mannix, Dr. Lindquist and Cleaver all lie about their whereabouts the night of the murder. Spotswoode, who had called on the girl, had rushed to her door at the sound of a scream, but had been reassured through the door that nothing was wrong. Then Sheel is found strangled, after promising to reveal the murderer. Vance then demonstrates how Sheel could have left through the side door and unlocked the bolt. He suggests to Markham that Cleaver, Mannix, and Spotswoode be invited to play poker with them and he will tell Markham who committed the murder.

CHAPTER XLVII
(Monday, September 17, 9 a. m.)

Vance and I went home after lunch, and at about four o'clock Mannix telephoned to say that he had made the necessary arrangements for the evening with Spotswoode, Mannix and Cleaver. Immediately following this confirmation Vance left the house, and did not return until nearly eight o'clock. Though I was filled with curiosity as to what had happened, he refused to enlighten me. But when at a quarter to nine, we went down-stairs to the waiting car, there was a man I did not know in the tonneau, and I at once connected him with Vance's mysterious absence.

"I've asked Mr. Allen to join us tonight," Vance vouchsafed, when he had introduced us. "You don't play poker, and we really need another hand to make the game interesting, y' know. Mr. Allen, by the way, is an old antagonist of mine."

The fact that Vance would, apparently without permission, bring an uninvited guest to Markham's apartment amazed me but little more than the appearance of the man himself. He was rather short, with sharp, shrewd features; and what I saw of his hair beneath his neatly tipped hat was black and sleek, like the painted hair on Japanese dolls. I noted, too, that his evening tie was enlivened by a design of tiny white forget-me-nots, and that his shirt front was adorned with diamond studs.

The contrast between him and the immaculately stylish and mediocrity correct Vance was aggressively evident. I wondered what could be the relationship between them. Obviously it was neither social nor intellectual.

Cleaver and Mannix were already on hand when we were ushered into Markham's drawing-room, and a few minutes later Spotswoode arrived. The amenities of introduction over, we were soon seated

When your Child has Croup

RUBBED on throat and chest, Vicks relieves spasmodic croup in two ways:

(1) Its medicated vapors, released by body heat, reach the air passages direct;

(2) At the same time it stimulates the skin, thus helping the inhaled vapors to ease the difficult breathing.

VICKS VAPORUB
OVER 25 MILLION JARS USED YEARLY

ing his resentment—at this being dragged into a general discussion. Vance had little to say, limiting himself to occasional remarks directed always to Markham. Allen did not once speak, but sat contemplating the others with a sort of canny amusement.

The entire conversation struck me as utterly futile. Had Markham really hoped to garner information from it, he would have been woefully disappointed. I realized, though, that he was merely endeavoring to justify himself for having taken so unusual a step and to pave the way for the game of poker which Vance had requested. When the time came to broach the subject, however, there was no difficulty about it.

It was exactly eleven o'clock when he made the suggestion. His tone was gracious and unassuming; but by couching his invitation in terms of a personal request, he practically precluded declination.

But his verbal strategy, I felt, was unnecessary. Both Cleaver and Spotswoode seemed genuinely to welcome the opportunity of dropping a distasteful discussion in favor of playing cards, and Vance and Allen, of course, concurred instantly.

Mannix alone declined. He explained that he knew the game only slightly, and disliked it; though he expressed an enthusiastic desire to watch the others. Vance urged him to reconsider, but without success, and Markham finally ordered him to arrange the table for five.

I noticed that Vance waited until Allen had taken his place, and then dropped into the chair at his right.

Cleaver took the seat at Allen's left. Spotswoode sat at Vance's right; and then came Markham. Mannix drew up his chair midway behind Markham and Cleaver.

Cleaver first named a rather moderate limit, but Spotswoode at once suggested much larger stakes. Then Vance went still higher, and as both Markham and Allen signified their agreement, his figure was accepted. The prices placed on the chips somewhat took my breath away, and even Mannix whistled softly.

That all five men at the table were excellent players became obvious before the game had progressed ten minutes. For the first time that night Vance's friend Allen seemed to have found his milieu and to be wholly at ease.

Allen won the first two hands, and Vance the third and fourth. Markham and Spotswoode passed. The decision thus reached Vance, and he opened for an unusually large amount. Allen at once laid down his hand, but Cleaver stayed.

Then Markham and Spotswoode both dropped out, leaving the entire play between Vance and Cleaver. Cleaver drew one card, and Vance who had opened drew two. Vance made a nominal wager, and Cleaver raised it substantially. Vance in turn raised Cleaver, but only for a small amount; and Cleaver again raised Vance—this time for an even larger sum than before. Vance hesitated and called him. Cleaver exposed his hand triumphantly.

"Straight flush—jack high," he announced. "Can you beat that?"

"Not on a two-card draw," said

typically changed hands represented very considerable items.

Just before one o'clock, when the fever of the game had reached a high point, I saw Vance glance quickly at Allen and pass his hand-kerchief across his forehead.

To a stranger the gesture would have appeared perfectly natural, but so familiar was I with Vance's mannerisms, I immediately recognized its artificiality. And simultaneously, I noticed that it was Allen who was shuffling the cards preparatory to dealing. Some smoke from his cigar evidently went into his eye at this moment for he blinked, and one of the cards fell to the floor. Quickly retrieving it he reshuffled the deck and placed it before Vance to cut.

The hand was a jack-pot, and there was a small fortune in chips already on the table. Cleaver Markham and Spotswoode passed. The decision thus reached Vance, and he opened for an unusually large amount. Allen at once laid down his hand, but Cleaver stayed.

Then Markham and Spotswoode both dropped out, leaving the entire play between Vance and Cleaver. Cleaver drew one card, and Vance who had opened drew two. Vance made a nominal wager, and Cleaver raised it substantially. Vance in turn raised Cleaver, but only for a small amount; and Cleaver again raised Vance—this time for an even larger sum than before. Vance hesitated and called him. Cleaver exposed his hand triumphantly.

"Straight flush—jack high," he announced. "Can you beat that?"

"Not on a two-card draw," said

Vance ruefully. He put his cards down to show his openers. He had four kings.

The Biggest Thing In Lubbock
Now Is—

BAKER'S REMOVAL SALE

The gigantic stocks of this company are now offered our friends and people of the South Plains at the—

Lowest Prices We've Ever Made!

Take into consideration that this sale is a necessity—a sale that gives us our only means of quick and positive disposal of all stocks before we vacate our present building.

Remember This, Please

While we are in this great rush in making every effort to sell all stocks quickly—we want you to know that we recognize the basic principle of our present success and the foundation upon which our business has been built—that of public confidence. And while we are in the midst of this great sale we shall not lose sight of that principle or foundation.

Our Great Plans For The Future

Continuance of our business here in our new and more modern home prevents us, in any manner, were we of a mind, to do anything now that would tend to destroy in anyway the public's confidence in our store and our merchandise.

Yes, Everything In Our Store Is On Sale At Removal Sale Prices!

BAKER FURNITURE COMPANY
"The Home That Values Built"

OPEN the P.A. package and treat yourself to a fragrance you'll never forget. Now ... put a pinch in a paper and roll. Notice how easy P.A. rolls. That's because it's crimp-cut, the logical form for home-rolled cigarettes. Light up and get that wonderful taste of wonderful tobacco. Cool and refreshing as a dip in the surf. Mellow and mild as April sun. Mild, but with a full, round body that puts pleasure into every pull. You can't beat P.A. for makin's. Beat it? Say, you can't catch up to it! Prince Albert makes a jimmy-pipe perform, too. Try P.A. both ways. That's a tip!

"Where are the papers?"

Here they are—OCBs, made in France by the celebrated Bolloré Mills, expressly for R. J. Reynolds Tobacco Co. Put some P.A. in an OCB paper. Watch it lie down and roll up into the best home-rolled smoke ever. 150 leaves, 3c, where you buy your tobacco. Ask for OCBs in the handy book.

British Officialdom Views 'Holy War' With Less Concern; Dispatches Vary

Report Arab Leader Leaving Home City for Trip To Mecca; Other Dispatches Say Turmoil With Tribes As The Aggressors Is Already Raging

(By Associated Press) LONDON, March 8.—British officialdom, with characteristic English calm, tonight viewed the "Holy War" in Arabia with less concern. But dispatches from the district near the head of the Persian gulf painted a different picture.

Official observers gave out a report that Ibn Saud, king of Hedjaz and Sultan of the Nejd, was planning a visit to Mecca. They pointed out that the Wahabites are not friendly toward the holy city of Mohammedanism and deduced that Ibn Saud was not likely to leave Riyadh his capital in the center of Arabia, if there was any immediate prospect of putting his own forces into the field.

This estimate was easily coupled with the previous analysis of Ibn Saud's character which made him out as more anxious for restoration of the yearly subsidy from the British government than for extension of his domain.

Dispatches from Basra, Iraq, showed the British there and at Kuwait, preparing for possible early raids on the frontier. Airplanes, armored cars and transport cars have been stationed outside the walls of Kuwait, ready for a dash to any threatened point, and marines and blue jackets from British man of war are patrolling the streets daily.

Unconfirmed reports have reached Basra that the western edge of the desert is already blazing with desert warfare, with several villages in Transjordan captured and looted by Wahabites. But nothing of that sort came from points nearer the scene.

UTILITIES PROBE

Senate Committee Lifts the Curtain In Operations

WASHINGTON, March 8 (AP).—Raising the curtain on its investigation into the financial structure of public utilities power companies, under the direction of the Senate Walsh resolution, the federal trade commission heard five witnesses, and locked over a mass of documentary evidence tonight, and recessed for an unannounced period.

The hearing, merely a preliminary gathering of facts which will form the basis of the main inquiry, concerned itself with the activities of the National Electric Light association, which were declared by their officers to represent the majority of public utilities companies in their class.

CROP OUTLOOK GOOD

"Never Better" Say Railroad Officials

(By The Associated Press) NEW YORK, March 8.—J. M. Kurn, president of the St. Louis-San Francisco railway, says the outlook for good crops in the territory served by the road never was brighter at this time in any year than at present. February gross revenues were lower than February 1927, but he expected net operating income almost would equal last year's figure. "Although the oil traffic was very heavy early in 1927, we are shipping at present about as much as a year ago. I think our gross business and net operating income for the first half of 1928 will be about the same as for the first six months last year."

Political Announcements

The Avalanche-Journal Politicians have been authorized to present the names of the following citizens as candidates for public office, subject to the action of the democratic party in their primary elections on Saturday, July 24, 1928:

FOR DISTRICT JUDGE
The Judicial District
Homer L. Fierce, of Lubbock.
9th Judicial District
Chas. Nordyke, of Lubbock.
Clark M. Mullican, of Lubbock.

FOR DISTRICT ATTORNEY
Durwood H. Bradley, of Lubbock.

FOR DISTRICT CLERK
Miss Flora Green, of Lubbock.

FOR COUNTY JUDGE
Robert H. Best, of Lubbock.
Dennis E. Kemp, of Slaton.
George W. Foster, of Lubbock.

FOR SHERIFF
Roscoe Parks, of Lubbock.
H. L. (Bud) Johnston, of Lubbock.
Charles A. Holcomb, of Lubbock.
Wade Hardy, of Lubbock.

FOR COUNTY ATTORNEY
Benjamin Ruess, of Lubbock.
Yashin E. Wilson, of Lubbock.

FOR COUNTY CLERK
Amos H. Howard, of Lubbock.

FOR TAX COLLECTOR
A. J. Clark, of Lubbock.

FOR COUNTY TREASURER
Mrs. Virginia Fann, of Lubbock.
Miss Anne Ford, of Lubbock.

FOR TAX ASSESSOR
B. C. (Rollie) Burns, of Lubbock.
A. B. Ellis, of Lubbock.

FOR COUNTY SCHOOL SUFF.
Chas. B. Metcalfe, of Lubbock.

FOR COUNTY COMMISSIONER
Fredrick Number 1
N. A. Payne, Route A, Precinct No. 2.
J. T. Pinkston, of Slaton, Precinct Number 3.
W. L. Brannon, of Slaton, Precinct Number 4.
W. E. Pruitt, of Slaton, Precinct Number 5.
D. N. Wheeler, of Slaton, Precinct Number 6.
George C. Cooper, of Lubbock, Precinct Number 7.
L. C. Denton, of Lubbock, Precinct Number 8.
FOR PUBLIC WEIGHTS
Fredrick Number 2
W. H. ORIN, of Slaton, Precinct Number 9.

FARM RELIEF

New Measure Takes Place As Senate Delayed Bill

WASHINGTON, March 8 (AP).—While the house agricultural committee continued to wrestle with the farm relief bill in executive session, the month old action of the senate committee in approving an almost identical measure was formally reported today to the senate.

This proposed assistance for agriculture, the 1928 version of the widely known McNary-Haugen bill, now takes its place in the senate's long line of pending legislation. Action by the senate is not expected to materialize, however, until more progress is made in farm relief by the house, since priority is held by two major problems, Muscle Shoals and Flood Control.

Try an Avalanche-Journalman and watch the results.

Varied Selection For Band Concert

Proceeds From Affair At Tech Will Go To Band And To Local Chapter Of The American Legion.

One of the best assortments of band music ever heard in Lubbock is scheduled for tonight at the Tech gym when the college band will give its annual concert.

All sorts of selections, marches, classical and popular, will be given. Tickets for the concert are on sale by various members of the Legion and at local business houses. Proceeds from the affair will be divided between the American Legion and the Tech band.

LEAP YEAR ATTACK

Co-eds of T. C. U. To Give "Dating" Supper

FORT WORTH, March 8 (AP).—Co-eds of Texas Christian university will begin their leap year attack upon the boys of the college on March 14 when a dating supper will be given in the college cafeteria.

While there is little doubt that many individual campaigns already are under way, the supper will mark the first public demonstration and concerted effort against the boys. The dormitory girls will have the privilege and obligation of "collaring" such members of the youths as they may find and drag them to the feast.

CHILD IMPROVES

Infant Burned When Turpentine Spilled

Improvement was noted last night in the condition of little Jimmie King Jr., 14 months old son of Mr. and Mrs. Jimmie King of Lubbock. The child was severely burned Wednesday when his mother spilled a quantity of turpentine on him.

Blessed Overnight Relief For Burning Aching Feet

12 Days' Free Trial

Here's the sensible quick way to lasting foot comfort that thousands say is far better than anything they ever tried, so if your tender, burning feet are keeping you in constant misery go right to your drugist and get a tube of Joint-Ease. Rub it on tonight and tomorrow morning have feet so free from distress and burning that they'll feel fine again. Only 60 cents a tube.

FREE Send name and address for 12 day trial tube to Pope Laboratories Desk 10 Hallowell, Maine.

JURY DISCHARGED

Fail to Agree In Case Vs. W. C. Brigham

The jury which had been sitting in the case of the state vs. W. C. Brigham, charged with forgery, was discharged yesterday when forty hours of deliberation had failed to yield a verdict. The jury had been deadlocked throughout Tuesday night, Wednesday and last night.

JACKMAN'S READY

Reorganization of Ladies' Shop Concluded

Reorganization of the Ladies' Shop here by W. T. Jackman of Clovis, who recently bought an interest in it, has been completed by Mr. Jackman and he will return to his home in a few days.

The new place will be known as Jackman's, Incorporated. Establishment of the store here marks the entry of this firm into Lubbock after a decade of business over other sections of the Plains. Exclusive women's apparel is handled in the Jackman's shops, which are already located in Clovis and Amarillo.

WATCHCASE VANITIES of

Cara Nome Powder and Rouge

The last word in convenience for the handbag or purse, likewise in beauty. A real mirror, generous contents, a dainty lamb's wool puff, non-tarnishing case of chic design, a catch that holds firmly, yet easy to open at your wish.

Altogether a vanity in which you may take genuine pride!

News and Comedy

DAILY MARKETS

PORT WORTH LIVESTOCK

PORT WORTH, March 8. (P.)—The cattle market here today generally was steady. Slaughter steers sold from \$8.00 to \$11.40, bulls \$5.50 to \$8.50, yearlings \$9.00 to \$11.50 and calves \$8.00 to \$9.00.

The sheep trade also was steady. Short feeder lambs brought \$11.50 and woolled lambs \$14.65. The hog market was slow affair with values steady to 10c lower. The top price was \$2.15 with the bulk of the receipts bringing from \$1.80 to \$2.00. Sows were weak at \$6.75 to \$7.00 and pigs steady at \$6.25 to \$6.50.

WOOL

BOSTON, March 8. (P.)—A few small lots of new clip Texas mohair have been bought by both local dealers in Texas and central market dealers according to trade reports here. Prices reported range from 50c to 60c for grown hair. The extent of the business, however, is apparently limited, as growers generally are said to be inclined to withhold sales until the auction.

NEW ORLEANS COTTON

NEW ORLEANS, March 8. (P.)—Trading in today's cotton market was extremely dull and narrow, prices at one time holding the same level for two hours. Good Liverpool advices were responsible for a moderate early advance which was helped materially by the bullish showing of the International Federation of Spinners' statement on consumption of American cotton. The advance met profit-taking, however, and May contracts traded off from 18.32 to 18.20, and closed at 18.22, compared with 18.14 at Wednesday's close. The general market closed steady at net advances of 8 to 10 points.

NEW YORK COTTON

NEW YORK, March 8. (P.)—An early advance on bullish statistics was followed by partial reactions in the cotton market today. After selling up to 18.66, May closed at 18.60, the general market closing quiet and steady at net advances of 6 to 10 points. The market opened steady at advances of 1 to 2 points in response to relatively firm Liverpool cables. Trading became more active after the call and prices firmed up on private cable advices reporting that an international trade organization estimated the world's consumption of American lint cotton for the first half of this season at 8,226,000 bales, compared with 8,357,000 for the six months ended July 31, 1927, and 7,327,000 for the six months ended January 31, 1927.

These figures attracted a good deal of bullish comment, and evidently were above average expectations, some traders here contending that they pointed to a consumption of July 13 3-4 or 16 million bales for the whole season. For a time the market was rather active, prices selling up to 18.48 for March and 18.18 for October or about 12 to 14 points net higher. Demand

tapered off at these figures, however, and prices sagged later in the day under comparatively small offerings.

Closing prices showed reactions of about 4 to 6 points from the high point of the morning. Private cables reported covering and general buying on the reported bullish consumption figures in Liverpool and said there was a fair cloth demand from India, although many offers were impracticable with yarns quieter.

CHICAGO LIVESTOCK

CHICAGO, March 8. (P.)—(United States Department of Agriculture)—Cattle: 1900; fed steers and yearlings steady to strong; best fed steers 13.00; yearlings 14.50; heifer yearlings 13.25; fat cows 8.50; cutters 6.25 down to 5.50; bulls 7.50; 225; light calves to packers 13.00; 14.00.

Hogs: 42.00; dull to 10 to 15 lower; 170 to 220 pounds 8.10; 225 to 260 pounds 7.95; 270 to 320 pounds 7.75; 325 to 400 pounds 7.50; 400 to 500 pounds 7.00; packing sows 6.75; 7.25, estimated holdover 12.00.

Sheep: 11.00; better grade handy weight lambs weak to 25 cents lower; 16.50; woolled lambs 15.50; 15.75; sheep strong; fat ewes 9.00; 9.50.

CHICAGO WHEAT

CHICAGO, March 8. (P.)—Widespread rain falling over domestic winter wheat territory and dispelling dry weather complaints led to lower prices today for wheat. Farm reserve figures from Washington which came after the close were construed as bullish on corn but about as expected relative to wheat. The finish for wheat today was unsettled, 3-4c to 1-3c net lower, with corn unchanged to 3-4c up, oats 1-3c to 1-4c off, and provisions unchanged to 17 to 20c down.

COTTONSEED OIL

NEW YORK, March 8. (P.)—The cottonseed oil market was moderately active and irregular today, March holding relatively steady under further short covering. The close was unchanged on March and April, but 5 to 14 points net lower on other positions. Prime crude 8.25; prime summer yellow spot 8.60; March closed 9.60; May 9.76; July 10.03; August 10.14; September 10.21.

These figures attracted a good deal of bullish comment, and evidently were above average expectations, some traders here contending that they pointed to a consumption of July 13 3-4 or 16 million bales for the whole season. For a time the market was rather active, prices selling up to 18.48 for March and 18.18 for October or about 12 to 14 points net higher. Demand

Radio Industry Is Under Solons' Fire

Charge That Commission Is Failing to Function in Hope of Forcing Confirmation Made.

(By the Associated Press) WASHINGTON, March 8.—The American infant radio industry came under fire in the senate today both in committee and on the floor.

The Dill radio bill, which would provide for the forfeiting of patents by any concerns convicted of monopolistic operations, had its final hearing before the senate patents committee, where it has energetically been opposed by Thomas C. Robertson, commissioner of patents. During a radio interlude in the senate's free-for-all debate, Senator Robinson, Democrat, Arkansas, voiced a question whether the radio commission was failing to function as a means of forcing the senate to confirm pending nominations of the commission. That discussion began when Senator McKellar, Democrat, Tennessee, declared that "instead of looking out for the interest of the people, the radio commission misrepresents its functions and simply is trying to see how much they can turn over to the big radio companies."

"We are advised there will be no action by the commission for relief until the commissioners have been confirmed," said Senator Robinson. "Does the senator know of any reason why the commission cannot function now?"

"None whatever," Senator McKellar answered.

"Is it not a fact that one station

in New York has been given more power than all the southern stations put together?" Senator Mayfield, Democrat, Texas, asked.

"That is the fact," Senator McKellar agreed.

Sense was introduced to combat the corn borer have been found in the vicinity a year after their release, which shows their ability to resist winter conditions.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

Constipated?

Take DR. NATURE'S REMEDY—castor oil. Your cumulative engine will be cleaned properly by treating and your constipation will end with a bowel action as free and easy as nature's law. No harm, no cramping. Try it. Only 5c.

CAPTAIN MALCOLM CAMPBELL Goes 206.95 Miles per Hour and HOW?

When Captain Malcolm Campbell broke the world's automobile speed record at Daytona Beach, Florida, the other day, with his four hundred fifty horsepower Campbell Napier Blue Bird car—

He Used ETHYL GASOLINE.

When Ralph Snoddy drove "Little Spitfire" to victory last summer, for the Duke of York trophy—England's speed-boat classic—

He Used ETHYL GASOLINE.

When Lieutenant Webster won the Schneider Cup race for seaplanes at Venice last September—travelling at the greatest speed ever attained by man—281 miles per hour—

He Used ETHYL GASOLINE.

What's the answer? Simply this: Ethyl Gasoline is the one motor fuel which delivers the full power which modern motors are designed to develop. And that holds for your car as well as for the specially constructed racing models.

In this market, Conoco Ethyl Gasoline sets the standard of motor fuel performance. It gets the best from any motor—a smooth, even flow of power, quicker acceleration, greater speed on the long, hard hills, less gear shifting and no knocks.

Conoco Ethyl costs a few pennies more per week than ordinary gasoline, but it more than saves its extra cost by reducing repair bills.

Get it at the Conoco Ethyl sign.
