ally melt away. TAKE WARN-
ING. The bonds are probably
where European nations
are increasing rates, interest
will not be paid in full.

TWO INCH RAIN INSURES CROPS

WHEAT NOW HAS ENOUGH
MOISTURE TO LAST
UNTIL CUTTING
STARTS

Nearly two inches of rain fell dur-
ing the week, according to the official
gauge kept by Jack Allen, bringing
joy to the hearts of the farmers in
the Panhandle and insuring the bumper
wheat crop.

The crops were badly in need of
moisture until early Thursday morn-
ing when a splendid rain fell, total-
ing 1.43 inches. The rain was gener-
al all over the entire Panhandle and
was welcomed by all.

Friday night another nice rain was
had, measuring .46 inches. Although
not so general it was just as wel-
comed, and insured a wonderful crop
for Ochiltree county and vicinity.

During the months of April and
May, 7.13 inches of rain have been
recorded in Perryton. This is an ex-
ceptionally heavy fall for this section
of the country but has not been any
more than was needed to furnish the
growing crop, for with the especi-
ally heavy stand that the wheat has
made this spring it takes considerable
moisture to fill out the grains.

With this last rain, little doubt
should be entertained as to the out-
come of the wheat crop, and many
are expecting it to make a better
average than was predicted, earlier
in the spring.

LOCAL ATTORNEY MARRIES FORMER PERRYTON TEACHER

A wedding that came as a surprise
to many was that of Walter R. Allen,
prominent attorney of Perryton and
Plemons, and Miss Estelle Slaton, a
former teacher in the Perryton public
schools. They were quietly mar-
ried at four o'clock on Thursday af-
ternoon, May 20th, at the home of
the bride's parents, Mr. and Mrs. C.
I. Slaton, in Amarillo. Mr. Allen is
a pioneer citizen of Ochiltree Coun-
ty. He came here with his parents in
the early days, and after a year or
so of school teaching took up the
practice of law. With the exception
of a few years which he spent at
Henrietta, Texas, he has made this
county his home ever since. When the
big play started in the Hutchinson
County field, he with his brother,
Jack Allen, opened a branch law of-
fice at Plemons and for the past few
months, he has been at the latter
place and Amarillo, the greater part
of the time.

Mrs. Allen has lived in Amarillo
for a number of years. She is a gradu-
ate of the West Texas Teachers
College at Canyon and is a very ac-
complished young lady. She was a
member of the faculty of the Perry-
ton schools, term of 1924-25, and it
was during that period that the rom-
ance started which culminated in
this wedding. During the bride's stay
in Perryton, she made many friends.

Immediately after the ceremony,
Mr. and Mrs. Allen left for Dallas
and other Texas points where they
will spend their honeymoon. On re-
turning to the Panhandle, they will
make their home at Plemons for the
present.

MASONIC LODGE ELECTS

The following officers were elect-
ed at the regular meeting of the
Masonic Lodge, Saturday night: Oren
Allen, W. M.; E. M. Allen, S. W.;
Fred Houston, J. W.; J. H. Scott,
Treas.; Paul Ballew, Sec. and Chas.
Callaway, Tyler. They will be instal-
led in office at the next regular meet-
ing on June 26.

Mr. and Mrs. C. C. Ragsdale, Grand
Valley, Okla., returned home Monday
from a month vacation spent in Den-
ver and Colorado Springs, Colo.

of them. You can understand how
farmers, scattered over these wide
plains, feel as they read the grain
market report, believing that men
who never saw a wheat field or ran a
harvesting machine fix the prices of
wheat, and usually put it up after
the farmer has sold his wheat.

THE SEASON OF EXPLORATION

By A. B. CHAPIN

BIG REVIVAL AT- TRACTS CROWDS

MUCH INTEREST BEING MANI-
FESTED IN THE STIRRING
SERMONS OF REV.
STRONG

One of the largest crowds ever
seen at the Methodist Church was
present last Sunday evening, every
available seat being filled. Much in-
terest was shown in the service and
a number of the young people sur-
rendered themselves for life service.

While the revival has not, as yet,
taken on great proportions, the work
being done is deep and thorough.
Brother Strong is bringing to us, some
powerful gospel messages. He, by no
means, handles sin with gloves on,
but shows it to us in all its hideous-
ness and ugliness.

As always, in a revival, the devil
is hard at work, trying to lay every
trap to ensnare people away from
God's house, but our God is much
stronger than he, and can help us
win the victory over all opposition.

We trust that every one, who nam-
es the name of Christ, will be busy
doing all they can for his glory the
next few days while the revival lasts.
It will continue through Sunday
night. Come, one and all, let us go
to the help of the Lord, against
the mighty.

BUYS PARTNER'S INTER- EST IN MEAT MARKET

Messrs. George Rupprecht and Jno.
H. Lovett closed a deal the fore part
of this week whereby Mr. Rupprecht
acquired the interest of Mr. Lovett
in the City Meat Market. During the
short time that these gentlemen have
operated this business, they have built
up a splendid business. They have
made many friends by their prompt
and courteous service.

Mr. Rupprecht is a meat cutter
and groceryman of many years ex-
perience and he will continue to con-
duct the business along the same
general lines. Mr. Ray Kutch will re-
main with the firm. Mr. Lovett will
devote his time to other business in-
terests.

The new lumber shed, being built
by the White House Lumber Com-
pany, is nearly completed. When fin-
ished it will have a capacity of about
250,000 feet of lumber, and is to be
filled this fall.

NEW OIL BLOCK FOR OCHILTREE

STRICKLER BLOCK WELL TO
BE READY TO SPUD
WITHIN TEN
DAYS

A new block has been completed
this week in the southeastern part of
Ochiltree county including the lands
of R. E. Womble and Frank Hamil-
ton. As yet no decision has been made
regarding a test well, but it is ex-
pected that work on one will begin
very soon, meaning one more test in
Ochiltree county.

The machinery is nearly all instal-
led at the well on the Strickler block,
section 579, and they expect to have
the well spudded in within the next
ten days. Their contract calls for a
well started by June 20.

Lack of machinery is still holding
up work at the Boren well, but it is
expected very soon and they will
probably spud in shortly after the
Strickler well.

MEMORIAL DAY SERVICE SUNDAY AT OCHILTREE

A beautiful Memorial Day service
was held Sunday afternoon at 3 o'clock
at the Ochiltree cemetery in honor of
the heroes of our nation who fought
to win and preserve freedom and
democracy.

Very appropriate talks were given
by both R. T. Correll and J. M. Bull.
Music was furnished by the Perry-
ton Municipal band under the leader-
ship of Geo. L. Hyde. The talks, the
music, the prayers, were very touch-
ing and many brushed away a tear
that could not be held back, as they
were reminded of the great debt that
is owed to the men and boys who
have died in their countries cause.

The largest crowd gathered for
the occasion that has ever taken part
in such exercises at Perryton. There
seemed to be a spirit present that
has here-to-fore been lacking which
added much to the beauty of the ser-
vices.

JENNIE REHARD INJURED

Little Jennie Rehard, daughter of
Mr. and L. W. Rehard fell from a
swing Saturday evening dislocating
her shoulder and fracturing the
shoulder blade. She is getting along
as nicely as could be expected.

Typewriter ribbons at Herald Office.

RAGAN ELECTED TRACK CAPTAIN

GLENN RAGAN AT HEAD OF
CANYON TRACK TEAM
FOR COMING
YEAR

Glenn W. Ragan, the diminutive
half miler of the West Texas State
Teachers College track team, has been
unanimously elected as captain to
lead the track team for the coming
year. The election came as no sur-
prise to anyone and is a tribute to
the great achievements of Ragan
during the past season, in which he
participated in five meets and set
up four new records. Ragan was a
former member of the Perryton High
School track team and has been run-
ning for the last four years. During
those four years he has always trained
consistently and has fully just-
ified the confidence of his coaches.

Coach Burton of the West Texas
State Teachers College says that
Ragan is the best half miler that
has ever run under the colors of the
teachers college, and he intends to
point him toward the Olympic Games
in Amsterdam in 1928. Ragan has the
qualities of a real leader and the
ability to inspire his teammates by
his own performances. In the first
meet of the season, a dual meet be-
tween the West Texas State Teach-
ers College and Texas Tech., Ragan
ran the half mile in two minutes and
two and two fifths seconds, beating
the technological runner by twenty-
five yards. Later in the Great Plains
Intercollegiate Meet at Canyon, he
ran the half mile in two minutes
and two seconds flat, again winning
over his opponent by a good margin.
In the dual meet with the New Mexi-
co Military Institute, Ragan again
ran the race in two minutes two
and three-fifths seconds, winning by
a half lap. Ragan established a new T.
I. A. A. record when he broke the
old record which had stood since 1915,
by running the distance in two min-
utes one and two fifths seconds.

Coach Burton feels that Ragan will
run the half mile in less than two
minutes during the season of 1927,
and will equal the Olympic time dur-
ing the spring of 1928.

FIVE YEARS AGO

ITEMS FROM OCHILTREE COUN-
TY HERALD FILE
OF JUNE 3, 1921

The Perryton Chamber of Com-
merce was reorganized at a mass
meeting of citizens, held at the court
house, with Judge Geo. M. Perry
acting as temporary chairman, L. S.
Hobbs was elected president and
David D. Shanks, secretary and treas-
urer.

H. Mallett, one of the pioneer busi-
ness men, and former manager of a
general merchandise store in Ochil-
tree died in California.

Plans were being formed to wel-
come the delegates of the fourth an-
nual convention of the D-C-D high
way when they arrived in Perryton,
the following Monday.

The Perryton Camping Grounds
were completed and made ready for
the tourist visitors.

The city attorney, R. T. Correll and
the attorney general ruled that the
street improvement bonds election was
not legal because of an error in the
election notice.

FORD COUPE TURNS OVER INJURING TWO

A tire blow-out caused the Ford
coupe of C. C. Ragsdale, Grand Val-
ley, to turn over near Tomlin's store,
northeast of Perryton, last Wednes-
day when Mr. Ragsdale and son Al-
bert, and Amos Peery, son of Mr.
and Mrs. H. R. Peery were on their
way to town, injuring Mr. Ragsdale,
and Albert.

The right hand of Mr. Ragsdale
was badly cut and Albert's head was
severely bruised when the car turned
turtel, Amos Peery escaped serious
injury in the accident. The car
was badly smashed.

...cities compete for business.
...you are cheating yourself
...not use every effort to make
...a busier city.

TANG LINIMENT
Rubs Pain Right Out!

THAT every effort that ingenuity can suggest should be made to keep your city several jumps ahead of its competitors.

THAT the best rivalry between cities should be that of good roads.

THAT good roads are not an expense but an investment that pays dividends.

THAT the most expensive thing a city can support is poor roads.

THAT a community without a good roads program is like a ship without a rudder.

THAT better business for the business farmer and the city business man always follows good roads.

THE CITY THAT HAS THE BEST ROADS LEADING INTO IT

West Point Athletic Stars Graduate

Graduation will rob the U. S. Military Academy at West Point of five star athletes. The Academy's loss will be the Army's gain, as they will receive commissions as 2nd Lieutenants. (L to R) Harry Baker of Chester, Pa., football. Prentice Yoemans, of Syracuse, N. Y., lacrosse. John Kosma, Passaic, N. J., basketball. R. P. Rooder of Ft. Monroe, Va., baseball. F. F. Scheiffler of Alpena, Mich., hockey.

EXPERIMENT STATION INSTITUTES MARKETING RESEARCH

Mr. George L. Crawford assumed his new duties on February 1, as Marketing Research Specialist in the Division of Farm and Ranch Economics, Texas Agricultural Experiment Station. Among the first investigations which Mr. Crawford will make will be in connection with the extensive fruit and vegetable crops of South Texas. Detailed studies will be made of the kind, the quantity and the date of maturity of the more important fruits and vegetables being produced, as well as the prevailing system of marketing this produce, taking into account each agency dealing with it from the time it leaves the hands of the producer until it reaches the consumer; the object being to locate any defects and to possibly devise improvements in the methods of distribution and marketing. Similar studies with other important Texas crops will be undertaken from time to time in response to the general demand for improvement in marketing farm products.

Mr. Crawford seems to be unusually well fitted to undertake this work. He was raised on the farm,

graduated at the Oklahoma A. & M. College in 1915 and even before his graduation he had spent more than a year in Western Canada traveling and working on Provincial Governmental Demonstration Farms. In 1916 he served as Head of the Agricultural Department of the Murray District Agricultural School at Tishomingo, Oklahoma and was later superintendent of a Milk Distribution Plant at Abilene, Texas, which position he resigned to accept work as County Agent at Spur, Texas. After three years on the Spur assignment he spent one year in the Demonstration Service in New Mexico. Returning to Texas he was County Agent of Williamson County in 1921 and 1922. For the past three years he has been District Agent of District No. 9 lying in Central North Texas.

These unusual opportunities for contact with farmers and farm marketing problems from Canada to the Gulf give Mr. Crawford a practical viewpoint and they account in some measure for the intensive studies which he later made, looking toward improvements in marketing conditions.

Several years ago Mr. Crawford began a special study of the Distribution of Dairy Products under a co-operative project between the Texas Agricultural Experiment Station, the Extension Service and the National Farm Bureau Association. In this study it was found in effect, that the cost of production of dairy products in Texas is high because of the number of low producing dairy cows and hence other states with low production costs can enter and compete in Texas markets.

More recently, Mr. Crawford has been making a special study of marketing problems with particular emphasis on the methods involved. In assembling and analyzing data, studying under Dr. F. A. Buechel Head of the Department of Economics, A. & M. College. His particular fitness, therefore, for engaging in these marketing researches has been enhanced by unusual practical experience and a high character of technical training.

Discussing the work to be done by Mr. Crawford, Dr. B. Youngblood, Director of the Station, said: "We have long desired to engage in a comprehensive study of marketing problems, but it is only since the passage of the Purnell Act that we have been able to expend our economic studies to include this work. We are pleased to be able to find a man of Mr. Crawford's attainments and familiarity with the practical phases of farm problems, to place in charge of these investigations. With the return of Mr. L. P. Gabbard to the head of the Division of Economics today, we are now in a position to pursue our economic studies with capable forces, and with the prospect that as other phases of the subject demand attention, support will be forthcoming to enlarge our activities accordingly."

Trade among Friends

No matter what some folks say to the contrary, there certainly is a lot of sentiment in business. Friendship, for instance, makes more satisfactory sales than all the cleverness and argument in the world.

You like to trade at a certain store—not because its counters are arranged in a scientific way, but because the folks who serve you are always friendly and helpful.

Just that very thing—FRIENDLY SERVICE—is the power that draws people together into communities like this, where everybody can enjoy the many benefits of neighborly cooperation.

And FRIENDLY SERVICE is the sentimental reason why you find it very much to your advantage to trade with our advertisers—to buy where you feel at home, where your friends will see that you are well satisfied.

ALFALFA ITEMS

George Jackson went to Shattuck last Sunday to bring home his mother and sister who have been there for several weeks.

Mrs. H. T. Eubanks of Glazier visited several days with her daughter, Mrs. C. C. Freeman.

Charles Jackson, W. E. Merydith and son, Coy, J. H. Callham, Mr. and Mrs. J. R. Tipps, Frank Collins, Mr. and Mrs. Carl Freeman and Mr. and Mrs. R. H. Moore were all in Canadian last Tuesday.

R. L. Drake visited his daughter, Mrs. Chas. Jackson, last Saturday. Robert Henry Moore visited the lower school last Tuesday.

J. H. Callham and Carl Freeman made a trip to Nebraska last week. They returned Saturday evening.

Mrs. Chas. Jackson and children; Mrs. George Jackson and children; Mrs. Carl Freeman and children and Mrs. Eubanks attended the Memorial exercises at the Ochiltree cemetery last Sunday afternoon.

R. H. Moore and Misses Pearl and Faye Branham made a trip to the north part of Lipscomb County last Saturday where the Misses Branham succeeded in securing a position together in a two teacher school.

The mother and sister of Mrs. J. R. Tipps arrived last Tuesday from Pittsburg, Pennsylvania for an extended visit in the Tipps home.

Chas. Jackson is helping in the excavation of the pit for the oil well. Albert Brock has the mumps.

Lee Price and Ollie Fanning have gone to Oklahoma for a few days visit with home folks.

Theo. Jackson of Wichita was in the community a few days last week attending to business connected with the oil leases and while here visited in the homes of W. E. Merydith and Chas. Jackson.

Deck Luther of Canadian is papering Davy Wright's house this week.

Wiley Wright was looking after business interests in this community for several days last week.

Mrs. Chas. Jackson is boarding the men who are working on the pit for the oil test well.

SUPT. W. B. IRVIN TO PUBLISH BOOK

Prof. W. B. Irvin, superintendent of the Independent School District, has been honored by the Texas State Educational commission, by being selected by them to make a study of the state boards of education in all of the states of the Union, giving the functions of each, the strong and weak points, and to publish the findings in book form. As a conclusion of his study he is to draw up an ideal state board of education, which, it is planned, will be adopted by the Texas State Education commission.

Professor and Mrs. Irvin left Saturday for Big Spring for a weeks visit with Mrs. Irvin's sister. From there they will go to Abilene, where Professor Irvin will attend the summer graduate school at Simmons University from which he will receive his Masters degree at the close of the summer session.

While at Abilene he will begin the investigating work, which will occupy the greater part of his spare time for the next two years. The work, when completed, will make a valuable contribution to educational circles in the entire United States. Professor Irvin is doing a wonderful piece of pioneering work along educational lines in starting on this task, for no such investigation has ever been made before and will undoubtedly cause many changes in state educational boards not only in Texas, but in the other states as well, when they are shown the weak points existing in their system, and see the stronger points of other states.

Mrs. G. A. Swayzee, Booker, visited with her parents, Mr. and Mrs. J. N. Cumble last Friday.

Donn Manning left last Tuesday for Kansas City, Mo., where he will take a position with the Hobart-O'Brien Insurance Agency. Donn has been working for the past year, since he graduated from the Perryton High School, at the Peoples Supply Co. He is a fine young man and his many friends in Perryton wish him much success in his new work.

The Misses Nora Richardson and Alwayne Connely of Perryton, attended the play, "The Whole Town's Talking," staged by the senior class Wednesday night. —Spearman Reporter.

Mr. and Mrs. S. F. Hanson, made a trip to Perryton Saturday returning later in the evening. —Follett Times.

The Roedo Big Kid overalls wear the longest. Rifenberg's Store. 13-2tc

IMPROVE AMERICAN THEATRE INTERIOR

A nice improvement has been made in the interior of the American Theatre by the manager, Thos. Thompson, during the past few weeks.

The old chairs have been removed and 250 fine opera chairs have been installed. The theatre has also been equipped with a large exhaust fan, insuring good ventilation during the summer months.

A stage, and dressing rooms have been built. The stage is outfitted with three drop curtains, wings, footlights, and other necessary improvements, making it possible to put on vaudeville performances and road shows.

Clarence Neufeld is home from Hillsboro, Kans., where he has been attending college for the past year.

"I never did see the wheat look so nice as it does now", commented Chief of Police G. P. Wellman this week, and Mr. Wellman has been in southwest Kansas for a good many years. He recently made a drive through the country from Perryton, Texas, to Dodge City and says with the exception of a small strip between Sublette and Montezuma the crop gives promise of a splendid yield all the way. —Liberal News.

Full line of motor and tractor lubricating oils, made by the Advance Runley Thrasher Company, for all makes of tractors, cars, and trucks. Panhandle Lumber Co. 17-tfc

Dr. Blank, who has been receiving treatment in Epworth hospital for the past week, returned to his home in Perryton, Texas, Sunday. —Liberal News.

I will hold art classes in oil painting, designing, water color, enameling, and free hand drawing on Monday and Thursday afternoons from 1 to 4 o'clock at the Perryton school building. I will also paint hats and dresses. See or phone Frankie Walters, Gray, Okla. 18-tfc

Mrs. David D. Shanks and son, David, Jr., left last Saturday for Abilene, Texas where they will visit in the homes of Mrs. Shanks' parents and Mr. Shanks' mother for the next month.

Mrs. Marion Manwarren and daughter, Elaine, are visiting Mrs. Manwarren's sister, Mrs. George Swayzee, at Booker, this week.

Top Ragan, superintendent of the light and power, Canadian, was in Perryton Sunday visiting his family and relatives.

C. G. TALIAFERRO

The death of C. G. Taliaferro, Medicine Lodge, Kans., father of Taliaferro, Tuesday morning, the passing of another of the maining Civil War veterans.

The end was not unexpected. Mr. Taliaferro has been in poor health for some time and he passed the eighty year mark. He is well known in Perryton. He spent several winters here. Will Taliaferro, living in Abilene, is the brother of Mr. Taliaferro. Funeral services for Mr. Taliaferro are being held today, Tuesday, at the Medicine Lodge, Kans.

R. P. Duff and Miss Wanda Davis both of Boyd were in Perryton May 19 at the bride's home. M. B. Kober of Beaver—Beaver Herald-Democrat.

THE SPIRIT OF THE WEST

The spirit of the west is not a faint whisper of the imagination. It is clearly and strongly expressed in the tones of all western life.

The East, with its myriad of promoters of progress, has earned its right to a complacent attitude of satisfaction with what it has accomplished. It has done wonders. No one denies that, it has had wonderful opportunities to do wonders. It has had wonderful support, in numbers and strategically, to farther its gains.

In the West, however, progress is never complacent. It is inclined to be boastful—advertising itself to the world as it moves forward.

In the West progress never rests on its laurels. It was set in motion by an individual here and there who pioneered far back from even the lonely mountain and prairie trails and when the East had given freely of the most hardy of its blood to augment the numbers of the West, this progress became a thing unusual even in a land of unusual things.

Progress in the West may slow

down, but it never stops. Drouths, floods, panics—they are annoyances, they are hindrance, but never complete barriers. It is not long before unquenchable nerve and faith has found a way under through or over—then the spirit of the West is away and gone again, laying a trail of progress to the tune of that blatant but cheerful and inspiring melody, "You tell the world."—Dalhart Texan.

Full line of motor and tractor lubricating oils, made by the Advance Rumley Thrasher Company, for all makes of tractors, cars, and trucks. Panhandle Lumber Co. 17-tfe

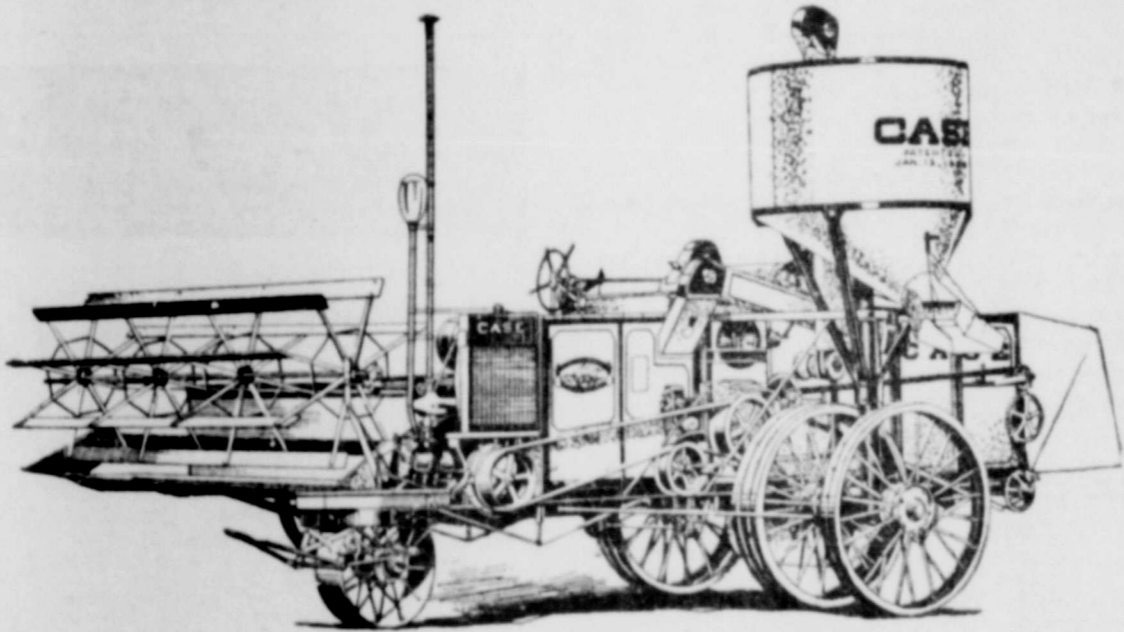

J. W. Richardson and daughters, Virgie and Elizabeth, returned Tuesday from a few days visit at Amarillo.

Misses Nora Richardson, Myrtle Rogers, and Ruth Puckett were Sunday dinner guests of Misses Mary and Louise Garrett.

B. L. Barnes of Wawaka was shopping here last Monday.

Boyer, Boyd, is hauling Abstracts, by "Those Who Know the public records." Shanks & Klapp for a new granary.

Are You Ready For Harvest?

Harvest is only two or three weeks, off! The Panhandle is covered with beautiful wheat, that will average twenty-five bushels to the acre, much of it making thirty and forty. Are you ready for the harvest? Are you equipped to take care of this bumper crop? The Case Combine is a great labor-saving device. It cuts a swath 16 feet wide, at two to three miles per hour, threshes and delivers the grain cleaned and ready for market, at the rate of 40 to 50 acres per day. The entire mechanism is operated by a special 20 h.p. Case engine. A Case 18-32 tractor or one of similar power will handle the outfit in the field. AND IT TAKES ONLY THREE MEN TO OPERATE!

The machine is supported on three large wheels and a smaller front wheel, giving it great stability. The header is easily controlled and is adjustable from 4 to 30 inches from the ground. A 24x42 inch thresher separates and thoroughly cleans the grain under all conditions and delivers it to the front end of the shoe sieve, whether the machine is going up or down any ordinary grade. The steel construction throughout, insures great rigidity and durability.

It is the cheapest known method of harvesting and threshing. It saves time, labor, grain, and money. Come in and see us before it is too late. We are still able to make deliveries, but you will have to hurry.

Only Two Weeks Until Harvest
And We Can Still Deliver Case Combines!

THERE'S DANGER IN PLAYING WITH WIRES

The Mexia News the other day published the following item for boys who fly kites near electric transmission lines:

Manager Don S. Caldwell calls attention to the dangers of entangling kites from live wires. His word is timely, for just as he says and just as every father and mother and every boy knows, kite flying time is here.

A few weeks ago a little lad, out on a farm three miles from a little Texas town, had his kite to get caught on a high powered electric wire. He secured a wire or some good conductor and in untangling so severely burned his arm that he lost its use entirely.

Such accidents could become common here, unless precautions are taken early; unless the boys who thus lose their toys are aware of the menace and danger of trying to free them from the wires.

Better it is for a boy to finger a buzz saw than to fool with a kite across a never ending streak of lightning racing through a wire.

My Son's Suit--

Why I will buy it at Hurn Dry Goods Store

by a Mother

"First, because I want quality—and I've learned from past experience that I always can be sure of getting it at Hurn's. It's GUARANTEED. Their materials are always of the finest grade—perfectly woven, flawless in every respect, designed to withstand long and hard usage.

"Then the styles are excellent. Not only do they please me, but they please sonny as well. Every mother knows that's a BIG point. Cut along all the newest lines, they are perfectly styled to the last detail. He is sure to find just the style "all the other fellows" are wearing—and the style that is most suitable for him.

"And price—well, I've never been able to figure out just how that store can offer such wonderful suits at so low a price! They are always far below what one expects to pay for such smart suits—and much lower than they could get for them. Naturally, that point appeals to my good shopping sense. I get quality, style, and low price—what more does one want!"

Follow this mother's example. Let us outfit your boy with everything he needs—shirts, caps, hats, shoes, etc.—at the lowest prices in town.

CITATION BY PUBLICATION

THE STATE OF TEXAS.
COUNTY OF OCHILTREE.
TO THE CITY MARSHAL OF THE
CITY OF PERRYTON, TEXAS:
GREETING:

YOU ARE hereby commanded to unsumons J. J. Brown, by making publication of this citation once each week for three successive weeks previous to the return day hereof, in the Ochiltree County Herald, a newspaper published in Ochiltree County, Texas, to appear at the regular meeting of the City Council of the City of Perryton, Texas, to be holden in the office of the City Clerk in the City of Perryton, Ochiltree County, Texas, on the 22nd day of June, A. D. 1926.

And show cause why the City of Perryton should not order the construction of a paved side-walk twelve feet wide to be constructed of Cement along Main Street and on the West side of Lots No. 1 and 2 in Block No. 16 as shown by plat recorded in the County Clerks office in Ochiltree County, Texas, and beginning at the South line of Lot No. 1 and 2 Block No. 16 thence north with the west line of said Lots No. 1 and 2 about Fifty Eight Feet, to connect with the Street crossing at the North-West corner of said Block No. 16. And why certificates of indebtedness should not be issued against the said J. J. Brown, for the costs of such construction, and fixing a lien on the above described property to secure the payment of said certificates with interest at the rate of six per cent per annum from date until paid.

Herein fail not but have before said council on the said 22nd day of June, 1926, this writ, with your return thereon showing how you have executed the same.

Given under my hand and seal of said City on this the 25th day of May, A. D. 1926.

(SEAL) ABE GREEN,
City Clerk

NOTICE TO CANDIDATES AND MEMBERS OF DEMOCRATIC COUNTY EXECUTIVE COMMITTEE

Any person desiring his name to appear on the official ballot for the general primary as a candidate for any County or Precinct office shall file with the county chairman, not later than Saturday, June 19th, a written request for his name to be printed on such official ballot. Blanks for this purpose may be obtained from the undersigned.

Members of Democratic Executive County Committee will meet at court house in Perryton on Monday, June 21st at 2:30 p. m. for the purpose of determining amount of expense for holding the general primary and the amount that will be assessed against each candidate, appointing election judges and clerks, determining order of names on ballot and transacting any other business that may properly come before the committee.

Assessment made by Executive Committee against each candidate must be paid to County Chairman on or before Monday, June 28th.

Complete copies of the Election Laws of Texas are now available for each Precinct Chairman and they are requested to call at County Chairman's office and get same.

VAN W. STEWART,
Chairman, Democratic Executive Committee, Ochiltree County, Tex.

CATTLE BUSINESS NOW

In his recent address to the Texas Cattle Raisers' Association Secretary Jardine pointed out many facts interesting to men in the cattle business. January, 1920 there were 68,800,000 cattle in the United States; January, 1926 the total number had decreased by 9,000,000 head. The decrease in beef-producing cows had been 2,500,000. The increase in cows kept for milk was 900,000. There has been a marked shift from steers to breeding stock, and a marked increase of milk cows in the beef-producing states. The number of steers now is about 30 per cent smaller than in 1920. The apparent consumption of beef and veal has increased from 45.19 pounds per capita in 1920 to 48.7 pounds per capita in 1925. This increased beef appetite accounts for over a million animals per year. The cattle country is sold down on steers, and the trend is toward the younger, lighter weight and higher quality animals. The odds are now in favor of the cattle raiser, but he must show careful, conservative management. The old days of the range have passed, and with them have gone the old, easy-going, speculative scheme of things. Today is a day of higher-priced land, heavy fixed charges and strong competition. Judging by cycles of the past the next five years argue well for the cattle business, and the prudent cattleman who build up a high grade herd, cuts unit costs and operates on a plane of efficiency will find the opportunity of a generation ahead of him.—Southland Farmer.

On Tuesday night the music pupils of Misses Grace and Carmen Brewer gave their recital and each exemplified the wonderful progress made in the study of music and skill acquired in performance on the piano and violin under the able tutorage of these two highly talented ladies.—Friona, Texas Star.

Mrs. Effie Kettell, who has just recently closed a very successful school term at Fairview, is visiting in the home of her niece, Mrs. Van W. Stewart.

Mr. and Mrs. R. H. Moore and son, Robert, of the Wolf Creek country, were among the many people shopping here last Tuesday.

Ray Wilkinson was up from his place southeast of town, last Tuesday, trading and looking after business affairs.

Mr. and Mrs. C. A. Hoover of the Huntoon neighborhood were trading here last Tuesday.

Gives Message to Youth

In a recent interview Dr. Charles W. Elliot, 92 year old President Emeritus of Harvard University, said:—"If I had the opportunity to say a final word to all the young people in America it would be: Don't think too much about yourself. When all you can think about is yourself you are in a bad way."

AN URGENT CASE

Among the humorous letters received at Washington during the late war, was the following:

"Mr. Headquarters,
"U. S. Armory,
"Dear Mr. Headquarters:

"My husband was induced into the service long months ago and I ain't received no pay from him sence he was gone. Please send me my elopement as I have a four months' old baby and he is my only support and I kneed it every day to buy food and keep us enclosed. I am a poor woman and all I have is at the front. Both sides of my parents are very old and I can't suspect anything from them as my mother has been in bed thirteen years with one doctor and she won't take another. My husband is in charge of a pitoon. Do I get anymore than I am going to get. Please send me a letter and tell me if my husband made application for a wife and child and please send me a wife form to make out. I have already written to Mr. Wilson and get no answer and if I don't hear from you I will write Uncle Sam about you and him."

"Very truly,

"Mrs. PAUL QUINN.

"P. S.—My husband says he sets in the Y.M.C.A. every nite with the piano playing in his uniform. I think you can find his there."—Postal Supervisor.

L. R. Conner, manager of the Farnsworth Equity, was looking after business affairs here last Tuesday.

CAREFUL CROSSING CAMPAIGN

According to E. C. Carver, agent for the Santa Fe at Perryton, the railroads of the country will repeat their Careful Crossing Campaign again this year, from June 1 to September 30.

The railroads carry on this campaign jointly every year in an effort to reduce the number of grade crossing accidents. Last years toll over the United States amounted to 2,206 killed in such accidents and 6,555 injured.

During the campaign, large posters are displayed at grade crossing and around railroad property. The press is glad to give free publicity to such an admirable campaign, and many other means are taken to let the motorist know of the work being done. Yet, accidents still go on and will go on during the campaign. There will always be reckless drivers who do not seem to care for their own lives or the lives of others, who will take chances even in the face of approaching danger. But if such a campaign will cause the more saner of us to pause and reason with our better judgement, if it is the means of preventing only a very few accidents, then it has not been conducted in vain.

Heed the grade crossing warnings when driving across the right-of-ways, even though you know there is no train due. Make your slogan be, "I stop for every railroad crossing."

INVESTIGATION PROVES SAFETY OF OIL STOVES

At this time of the year more oil stoves are coming into use, and the fact that any fire—even a wood fire—is "safe" only so long as it is handled with reasonable care. It is common knowledge that kerosene is not explosive, one hears idle talk of "oil explosions." Obviously, an oil stove will not explode, but any fire requires certain precautions. Every one knows that if a stove will not explode, there is a tendency toward carelessness in handling it. Especial care should be exercised by the owner of a stove that requires a second and a half gallon of fuel for priming. It is self-evident that gasoline, an explosive liquid, requires more precautions than a non-explosive fuel such as kerosene. It is to be guarded against

is the accidental placing of explosive priming fuel in the reservoir of a stove that is designed for the use of kerosene. This danger is eliminated of course, with the use of an oil stove with a wick burner which needs no priming.

Investigation by a large manufacturer of oil stoves concerning fires in various parts of the country which were erroneously attributed to explosions of oil stoves disclosed the fact that in none of them were oil stoves to blame. It was found either that there had been no explosion, or that the accidents were due to carelessness, such as the pouring of oil or gasoline on a wood or coal fire, or the result of using gasoline in a stove designed for kerosene.

There is no reason why a stove using a non-explosive liquid fuel should not be as free of danger as a wood or coal stove.

So much for safety. How about convenience? Will an oil cook stove perform as well as a wood, coal or gas stove?

An interesting and convincing test recently made by six of the foremost cooking authorities of the country,

each cooking and baking the favorite dishes of her section of the country, employing every possible method of cooking—broiling, frying and baking. After exhaustive tests, they were enthusiastic about the performance of the oil cook stoves which they used, declaring that they fulfilled every cooking requirement.

There seems to be no excuse for the use of any stove less convenient than an oil stove. Why work in a stifling hot summer kitchen when it can easily be kept comfortable?

SUMMER DAYS

The fields of grain are turning gold and the swimming pools seem very cold.

Oh how the boys and girls hate to go to school, but after all it is the best rule.

Think of the folks that are driving the mules, while others are preparing not to be fools.

The man who is a big success, has worked his brain to a great excess.

If it is hard to acquire and takes much toil, the getting is worth a well of oil, but if it is easy and takes no

thought, just go on and do not stop. A hint to the wise is always sufficient, go on to SHAWNEE COMMERCIAL COLLEGE and become efficient.

The Byrne System will get you through, it saves half the time and cost for you.

Young Men, young women, hear the voice and you can soon own a Rolls Royce.

Don't wait too long, for the summer days are rolling on. Come to see us at Shawnee.

Shawnee Commercial College, 203 E. Main, Shawnee, Oklahoma.

Woodward Commercial College, Tenth & Main, Woodward, Oklahoma. L. E. Jarrell, President 18-1tc

Frank Teague returned home last Tuesday from a several weeks visit in the home of Mr. and Mrs. Allen M. Wilbanks, Jr. and family at Amarillo. He was accompanied home by his cousin, Jack Wilbanks, who will visit his many friends here for the next few weeks.

Tommie Hutson, Forgan, Okla., was in Perryton over the week-end.

JOHNSON MOTOR CO.

LINCOLN—FORD—FORDSON

TO THE PUBLIC

I wish to thank the people of Perryton and vicinity for the splendid patronage that has been bestowed upon the City Meat Market during the time that I have been interested in the business. Mr. George Rupprecht is now the sole owner of the shop. All those knowing themselves to be indebted to the firm of Rupprecht & Lovett will please call and settle same.

JNO. H. LOVETT

S. S. Mallett of the southwest part of the county was trading here last Tuesday.

SIGNAL HILL WANTS SANTA FE EXTENSION

Signal Hill, the new town in north Hutchinson county, is asking the Santa Fe to extend the Perryton branch on from Spearman to Signal Hill, a distance of approximately twenty-five miles. Should this extension be granted it will probably mean the linking of the branch out from Spearman and the branch north from Panhandle.

This would mean a considerable saving to grain shippers in Perryton, enabling them to make an interstate shipment on export wheat, saving from 7c to 10c per bushel, this making the Perryton market better, and meaning much to the farmers and shippers in this community.

C. E. Forbes, the local Buick dealer, sold a Standard Four Door Sedan to Carl Ellis on Tuesday of this week. This sale makes five new jobs that Mr. Forbes has delivered during the past month and he says that from all indications this season will be a record breaker for Buick sales in Ochiltree County.

Sam Ballard, Gray, Okla., is building a granary.

ALFALFA ITEMS

(Too Late For Last Week)
A crowd met Saturday at the old Wolf Creek Baptist church on the Hamker place to tear down the building which will be erected again further up the creek, where it can be used by both communities. It will probably be located at Valley Park or on the east side of the Mrs. B. J. Jackson section. The Baptist people have kindly given up all claim to the building and turned it over to the people for a Union church. Although a very good crowd was out to help in the work, yet not as many as should have been there were present, for

this is something that should interest everyone, it being the only church building for miles around. The men and boys worked faithfully and succeeded in getting the building all down except the taking up of the floor, and most of the lumber is stacked. The women served a sumptuous dinner to the workers. Those from this community who helped were the Moore family, Mrs. Freeman and sons, Coy Merydith, Davy Wright, Mr. and Mrs. Morris Merydith, O.E. Brock, and Lawrence Dale. Mrs. McClanahan and children who have been living in Perryton during the school term have moved back to the ranch for the summer.

Mrs. Mattie Branham and daughter Faye, attended the high school commencement exercises at Perryton. Tom Branham was one of the graduating class and won the boy's scholarship by his excellent work during the year.

Mr. and Mrs. Carl Freeman and daughter Geraldine went to Higgins Thursday. Geraldine remained there for a visit with friends.

Lem Cooley was married at Shattuck, Okla., on May 16. He and his bride are staying at George Jackson's where they have work for the summer.

Mrs. Frank Cox and daughter Annabelle, who have been living in Perryton while Annabelle was in school, have returned home for the summer.

Mr. and George Jackson and children went to Shattuck, Okla., Wednesday, to visit Mr. Jackson's sister and mother. They returned Thursday. Rev. E. G. Pennington, S. R. George, and R. C. Johnson spent all day Friday fishing on the Moore place. The fish stories they told on their return to town have not yet been made public.

O. E. Brock and Lawrence Dale attended the commencement exercises in Perryton.

Several truck loads of material have been hauled out for the oil well test to be drilled on the Moore section.

The families in the west side of the district, with a number of their friends and some people from town, had a picnic on the Ellzey place Sunday.

Mr. and Mrs. J. H. Callihan were called to Perryton, Friday evening, by the death of the small child of Mr. and Mrs. Hollandshead.

Carl Freeman was in Amarillo for several days on business.

Mr. and Mrs. R. H. Moore and R. H. Junior, went to Shattuck, Okla., last Tuesday. Mrs. Moore went to consult Dr. Newman.

Mr. and Mrs. J. R. Tipps, and O. E. Brock went to Canadian Wednesday. Wm. Rose, and Shirley Weineth were callers in the Moore home Sunday morning.

Tom and Fred Branham are home from school for the summer.

Miss Millie Merydith is quite ill.

BURNS FATAL WHEN CLOTHING CATCHES FIRE

A tragic accident occurred at the home of George E. Treat 14 miles south and 4 1/2 miles east of Liberal Friday evening when Mrs. Treat's clothing caught fire from an oil stove and she received burns which resulted in her death early Saturday morning. Mrs. Treat was in the house alone at the time and just what caused the accident is not known. One of the children had filled the tank only a short time before. The stove was an old one and it was sometimes necessary to work with the valve so the oil would feed and it is thought that in reaching over the stove Mrs. Treat's dress caught fire.

She rushed out into the yard and threw herself on the ground in an effort to smother out the flames. Her cries were heard by the husband and children who had gone to the barn to do the milking and the husband and older boy rushed to her aid, taking her to a large tank nearby where the flames were extinguished. However her body was so badly burned that she lived but a few hours.

Mrs. Treat was fifty years of age. She is survived by her husband and five children, two of whom are married, the other three being at home. Funeral services were conducted at the Independence church Monday afternoon at 3:00 o'clock by Rev. Smith, who is conducting meetings at Turpin, Oklahoma, and interment was made in the Independence cemetery.

Mr. Treat and children have the sympathy of the entire community in their sorrow.—Liberal News.

BAND MEN FAILED TO COME

A meeting of the North Panhandle band men scheduled to take place at Spearman last Sunday, failed to materialize on account of the director in charge, G. H. Hyde of Perryton, failing to appear. Mr. Hyde had received word from the Dalhart and Stratford boys that they would not be here, and so called the meeting off.

They were greatly disappointed at not meeting other band men here, and also at the prospect of there being no north plains band at the W.T. C. of C. meeting at Amarillo next month. But this one thing is certain: Perryton and Spearman alone cannot afford to send a band to the meet. Dalhart, Stratford, Texhoma, Dumas and Plemons must help or there will be no band. The Spearman and Perryton boys are ready to do their part. Three rehearsals have been held, the music has been bought and these bands are working on it, but the two combined would not make large enough band for this big undertaking and the expense would be too great for only two towns to bear. Without the west end takes more interest in the movement, the north plains will not have a band at the meeting is the verdict of Director Hyde of Perryton, and the Reporter believes he is absolutely right.—Spearman Reporter.

MAN INTERESTED IN OIL ACTIVITY DIES

Dr. E. J. Greenfield, 50, retired dentist of Wichita, Kans., who with Cecil Harberson, also of Wichita, have leased the Hoover and Tandy ranch lands in Roberts and Ochiltree counties, died at his home last Wednesday.

Dr. Greenfield is known to many persons in this vicinity. Material for the derrick which Greenfield and Harberson purchased to make the first test on their lease is now in Canadian. It is understood the death of Dr. Greenfield will not prevent the test from being made. He was in Canadian about two weeks ago.—Canadian Record.

Misses LaVaughn Beardsley and Frankie Waters and Billie Beardsley visited friends and relatives at Forgan, Oklahoma last Sunday.

Miss LaVaughn Beardsley has accepted a position with the Peoples Supply Co., where she will be pleased to render service to her many friends.

Mr. and Mrs. W. P. Stallings of the Huntoon neighborhood were trading here last Tuesday.

In the Kitchen with 6 Famous Cooks

Expert Pacific Coast Cooks Give Choice Recipes for Unusual Desserts

(Editor's Note: This is one of a series of cooking articles contributed to this paper by six famous cooks.)

There never was a woman who kept house who didn't want her cooking to have an individual touch. And the making of desserts offers plenty of opportunity for expressing this individuality.

Recipes for several delicious desserts are given in this article by Mrs. Belle DeGraf, San Francisco, home economics counselor, and Mrs. Kate Brew Vaughn, domestic science director, Los Angeles.

Santa Clara Dumplings

"For a quickly made dessert, I recommend, Santa Clara Apricot Dumplings," says Mrs. DeGraf. "It takes less than half an hour to prepare them."

Here is Mrs. DeGraf's recipe:
1 cup sifted flour
2 teaspoons baking powder
1/2 teaspoon salt
3 tablespoons shortening
1/2 cup milk
1 cup strained, stewed apricots

Sift dry ingredients together. Rub in shortening, then gradually add milk, mixing with a flat knife. Turn on to a slightly floured board. Roll out in rectangular shape about 4 inches wide and 8 inches long. Cover top of dough with apricot puree, then roll up like a jelly roll. Cut off slices an inch thick and place cut side down in greased baking dish. Bake in a hot oven about 15 minutes. Serve with lemon sauce.

Make the lemon sauce by mixing 1/2 cup brown sugar, 1/2 cup white sugar, 1 tablespoon flour, juice and grated rind of one lemon, and 1 tablespoon butter. Bring to boil, and cook for five minutes. Dumplings and sauce should be served hot.

With Oranges

Another interesting fruit dessert for which Mrs. DeGraf provides the recipe is Orange Custard Pudding.

1 cup sifted bread crumbs
1/2 cup milk
1 cup orange rind
2 eggs separated
1/2 cup sugar

Add the grated rind of 1 orange to the juice. Use soft bread crumbs. Sift through a coarse strainer. Add milk and orange juice. Beat eggs separately. Add sugar to yolks and then add to the custard. Mix well, then fold in stiffly beaten egg whites. Pour in pudding dish. Set dish in a pan of hot water and bake until firm in center about 25 minutes in a moderate oven, 350 degrees Fahrenheit.

Pineapple, Too

Hawaiian Pineapple Pudding is a simple dessert which is very pretty.

Mrs. DeGraf makes it with one cup rice, 1 cup grated pineapple, 3 cups whipped cream, and 1/2 cup powdered sugar.

Wash rice well. Add 2 cups of cold water. Cover closely and set over a low flame, cooking for about 20 minutes, or until all the water is absorbed. When cooked, remove from fire, sprinkle with salt, replace cover and let stand five minutes. Turn into a bowl and set aside to cool. Just before luncheon is served add remaining ingredients. Pile in sherbet cups and serve.

With Any Fruit

Strawberry Meringues! Doesn't it sound like a most palatable dessert? Mrs. Vaughn has a simple recipe for it.

1 egg whites
1 cup sugar
1/2 teaspoon vinegar
1 teaspoon vanilla

Beat egg whites stiff. Add the vinegar to the egg whites and beat. Add sugar gradually, beating it with wire whip. Drop the mixture in spoonfuls on oiled paper placed on baking sheet and bake in a slow oven. When finished cut the meringues through the center and fill with drained strawberries. Serve topped with whipped cream.

Other fruits may be used in season instead of the strawberries. This makes a dainty dish to serve at parties, too.

An Unusual Pie

Mrs. Vaughn's fig pie is an unusual change from the ordinary pie. Here are the ingredients:

1 1/2 cups boiling water
1 tablespoon cornstarch
1 tablespoon flour
1/2 cup sugar
Juice of two lemons
Grated rind of one lemon
1/2 cup finely chopped figs
2 eggs

Sift dry ingredients into top of double boiler. Pour boiling water on them, stirring constantly. Cook for 15 minutes. Beat eggs slightly, and with figs add to cooked mixture. Let cook 3 minutes. Remove from fire and add lemon juice and rind. Turn into plate lined with pastry, wet edge. Make lattice of pastry strips across top. Bake 40 minutes at 350 degrees. Serves 6.

Everyone likes a change of cooking. These "different" desserts will please the most particular.

You'll be interested in the special cooking article on this page next week.

Saves "Guesswork" Baking
A device that registers the degree of heat in the oven is now on the market. It takes the "guesswork" out of baking and roasting. It is easily fitted to almost any glass oven door.

John Warkentin of near Gray was trading here last Saturday.

The Johnson Motor Company received two car loads of Cleaners and two cars of Ford Trucks this week.

Judge E. C. Gray of Higgins, Texas was a business visitor in this city on Tuesday of this week.

Mr. and Mrs. W. C. Barber of the Peoples Supply Co. were Canadian visitors the fore part of this week.

Mr. and Mrs. G. W. Lott of Sun City, Kansas came in Tuesday to spend the summer on their ranch in the south part of the county.

Mr. and Mrs. Sam Hergert of Perryton, Texas, were in the city Sunday visiting with friends and relatives. — Liberal News.

Lucile Gray, Long Leaf, La., has accepted a position as stenographer between the offices of R. T. Correll and Coffee Brothers.

Mr. and Mrs. Will Tenney of Perryton, Texas and Mrs. Frank Fleck and children of Balco were in Beaver Sunday visiting their parents.

Mr. and Mrs. E. P. Tenney.—Beaver (Okla.) Herald-Democrat.

Mr. and Mrs. M. R. Coffee and children and Miss Lola Belle Barbour visited in the home of Mrs. Coffee's mother, Mrs. J. J. Long, at Mobeetie last Saturday and Sunday.

H. Norrie, Oklahoma City, Okla., manager of the tractor department of the Oklahoma City branch of the Ford Motor Company was at the Johnson Motor Company last Thursday, on business.

LEFT to right: Mrs. Sarah Tyson Rorer, Miss Rosa Michaelis, Mrs. Belle DeGraf, Mrs. Kate B. Vaughn, Miss Lucy G. Allen, and Miss Margaret Allen Hall.

"If men did the cooking they would insist on a good stove"

Where is the woman who does not agree with Mrs. Rorer's statement? Yet why will so many women put up with an inefficient stove day after day?

MRS. RORER, famous Philadelphia cooking expert, and five other famous cooks who recently conducted a practical test of the Perfection Stove, agree that good cooking results depend to a great extent on a good stove. They agree, too, after critical, exhaustive cooking tests that the Perfection is a mighty good stove. Their comments on the Perfection's performance will give you some idea of what men would demand, and what experts do demand of a stove.

Easy operation. "I like equipment which is easy to work with," said Mrs. Belle DeGraf, San Francisco, home economics counselor. "And the Perfection certainly is. It lights at the touch of a match. And the heat is regulated by a simple turn of the wick."

Adaptable, too. "The Perfection proved its adaptability to me," commented Mrs. Kate B. Vaughn, Los Angeles, home economics director, "by performing many cooking operations at the same time—frying, baking, boiling, and broiling."

Ample heat supply. "And," said Miss Rosa Michaelis, famous New Orleans specialist, "there is no lessening of heat, regardless of how many burners are lighted. Each is an independent unit."

Dependable flames. "That's true," remarked Miss Lucy G. Allen, of the Boston School of Cookery. "And the flames stay just as you set them. They do not creep."

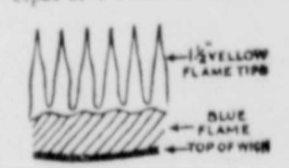

And clean. "There's no soot or odor, either, when you cook on the Perfection," added Mrs. Rorer. "The efficient long chimneys burn the oil completely before the heat reaches the utensils."

Safe and economical. "All these points recommend the Perfection," said Miss Margaret A. Hall, Battle Creek College of Home Economics. "And, in addition, it is safe and economical in operation. What more could anyone ask of a stove?"

In other words, the Perfection meets the high standards of the six critical cooks. It will meet yours, too. See the 1926 Perfections at any dealer's. All sizes from a one-burner model at \$7.25 to a five-burner range at \$130.00. Every woman who cooks deserves a good stove.

PERFECTION STOVE COMPANY
Kansas City Branch—1200 Union Avenue

Singer sewing machines, both in electric and foot power. Rifenberg's Store. 18-2tc

W. H. Curry went to Balke Sunday to attend the picnic at the Balke school.

R. H. Daley and family drove to Buffalo, Oklahoma for Decoration Day. Both of Mr. Daley's parents are buried in the cemetery at that place.

Mrs. W. E. Tandy returned last Sunday from Fort Worth, where she has been for the past month receiving medical attention.

J. L. Pryor and family left Monday in their car for a few days visit with friends in Oklahoma City. Mr. Pryor will attend a meeting of insurance men while there.

SWAT THE FLY

"The fly is a serious health menace to every family that harbors it" stated Dr. H. O. Sappington, state health officer, who urges citizens of the state to use every means possible in exterminating this filthy, disease carrying insect.

"The finding of sanitary science have conclusively proven that the fly is an enemy to mankind. A creature of filth, he crawls from one loathsome object to another, covering his hairy legs with disease germs which if given an opportunity, he transfers to exposed food on table or sideboard, and the baby's face, hands and milk bottle.

"Some of the diseases, the germs of which he most commonly spreads, are typhoid fever, dysentery, enteritis, and infantile diarrhea. Being a prolific breeder, one fly can propagate millions of the species during a single season. Start your fly extermination campaign early in order to keep breeding at a minimum.

"The principal efforts to control this dangerous insect must be made at the source of supply—its breeding place. Absolute cleanliness and the removal or destruction of anything in which flies may breed are essential. The favorite breeding place of flies is horse or other animal excreta, but if this is not available, they will lay their eggs on a great variety of decaying vegetable and animal materials. Barnyards, chicken yards, etc., should be cleaned and disinfected often. Garbage and waste that cannot be burned or buried should be kept in tightly covered garbage cans until removed from premises. Open-back closets are a serious health menace and should be replaced with pit privies.

"Dwelling houses should be screened with 16-mesh wire, and all screens should fit tightly and be kept in a state of good repair. Swat every fly that makes his appearance on the inside of a screened home, and where necessary resort to the use of fly traps and fly paper. Literature on fly extermination will be sent on request to your state board of health, Austin."

Full line of motor and tractor lubricating oils, made by the Advance Rumley Thrasher Company, for all makes of tractors, cars, and trucks. Panhandle Lumber Co. 17-1tc

About Your Health

Things You Should Know

by John Joseph Gaines, M. D.

HEADACHES

Many people suffer with headaches, indeed few escape this distressing symptom.

The cause of headaches may be indicated with tolerable accuracy by the location of the pain in the head. For instance, if the top of the head is the site of pain, the trouble is with over-wrought nerves in either sex. If the patient is a woman, the ovaries may be suspected as the cause, which ovarian sedatives are likely to relieve. The futility of "headache tablets" is plainly apparent. The cause must be removed.

Headaches between the eyes—at the top of the nasal bone—are generally due to disease of the nasal passage, attention to which will produce relief and cure. Headaches over the brows, called "frontal" are in the main due to the stomach, where our efforts should be directed. If the pain is above the frontal region, at the margin of the scalp above the forehead, attend to constipation.

Basal headaches may be due to defective eyesight or glasses; they may also be due to kidney disease; or to a rheumatic condition; or to working in an un-natural position for long periods. Massage and physical culture movements, and better still, exercise in the open may wear away such attacks, plainly due to fatigue, unless other causes are apparent. Finally, headaches beneath the eyebrows are attributed to disease of the eye itself. The oculist should be consulted. Remember lastly, that headache tablets are often dangerous, especially so when chosen at random without the advice of a capable physician. Headaches should not be ignored or passed off lightly. They may announce something serious.

Mr. and Mrs. G. T. Rogers, Gateville, arrived Sunday evening for a three weeks visit with Mr. and Mrs. C. B. Rogers. Mr. G. T. Rogers has not been in this part of the country for twenty-five years, and he says that it has made considerable change since the last time he drove out of Canadian in a wagon behind a team of mules.

Mr. and Mrs. Irvin Buchanan returned home last week from Hartley, Texas, where they recently completed a very successful school term. Mr. Buchanan entered the employ of the White House Lumber Co. on Monday of this week.

Willis Barrett, a former resident of the southeast part of Texas County, Oklahoma, visited in the home of Col. and Mrs. Ed Littleton, the fore part of last week. Mr. Barrett now resides at Okmulgee, Oklahoma.

Carl Littleton, Sulphur Springs, Oklahoma, was a guest, the fore part of last week, in the home of his brother, Col. Ed Littleton, and family of this city. Mr. Littleton is the Nash and Ajax dealer in his town.

Mr. and Mrs. Roy B. Orrill and baby, and Miss Flossie Jordan left on Wednesday of last week for Shamrock, Texas where Mrs. Orrill and Miss Jordan will visit with relatives.

Champ Corn Grower

Growing good corn is a fine art and not easy, but William Boland, a lad of seventeen has it down to perfection. He recently won a silver cup for raising the best corn in eight southern states. Hundreds of farmer boys competed.

"Holt" Combine Harvester

EVERY grain grower wants to be equipped for maximum grain profits. The time to secure this preparedness is this year—NOW. To postpone the purchase of a "Holt" Combined Harvester is only to defer the enjoyment of the advantages it offers.

REMEMBER this—wasted grain means lost profits. So long as you continue the use of inefficient equipment, you are losing grain, losing money—actually paying the price of a "Holt" Combined Harvester without having one.

REMEMBER, too, that when you purchase a "Holt", you are investing in equipment that is designed and built to give many years of service. It introduces greater efficiency and economy into your harvesting for this year, and for years to come.

We can still accept orders for these combines. All orders taken by us for either Holt or International combines, will be filled.

Alford, 9 year old son of Mrs. Jack Alford, of the Joy Company, was injured when he was jolted off a Ford truck on which he was riding and was struck by the wheel of the truck.

BURLINGTON TO PERRYTON?

The Burlington railway is proposing an extension north out of Childress for Canadian and Liberal. The plans as yet are very premature but it is thought that it will in general follow the route taken by State Highway No. 4, and in all probability pass through Perryton or slightly to the east. Such an extension would greatly benefit the Panhandle as it would connect shippers with the main line of the Rock Island at Liberal, where it developed the Santa Fe at Canadian.

V. W. Hayden came up Friday from Panhandle. Mrs. Hayden and children who had been visiting here for some time, returned home with him on Sunday.

PERFECTION DEMONSTRATION

Fred S. Williams, Kansas City, Mo. service and demonstration man for the Perfection Stove Company, conducted a demonstration at the Plainview Hardware and Furniture Company, Tuesday, assisted by Miss Grace Spencer.

According to Mr. Williams, the purpose of the demonstration was not solely to sell stoves and ovens, but to educate and instruct the people as to the correct and proper way to use the Perfection stove in order to obtain the best results. He is also doing service work for Perfection users whose stoves are not operating properly.

MRS. JOAHNN DRAGON DIES

Mrs. Joahnn Dragon, Hennessy, Okla., died Sunday at the home of one of her daughters near Booker where she has been visiting for some time. Mrs. Dragon was of European birth, born on May 24, 1850. She has four daughters near Booker, Mrs. Geo. Athinger, Mrs. Jehleckika, and two others whose names could not be learned. The body was taken to Hennessy, Okla., Monday, for burial.

Full line of motor and tractor lubricating oils, made by the Advance Rumble Thrasher Company, for all makes of tractors, cars, and trucks. Panhandle Lumber Co. 17-tfc

A. S. Brillhart, accompanied by Mr. and Mrs. W. E. McMahon and Joe Bockman of Las Cruces, New Mexico, came in on Monday of this week.

Mr. and Mrs. W. D. Fulton and family left Tuesday in their car for a two weeks visit with relatives at Ada, Oklahoma.

Gives Away Millions

S. S. Kresge, chain store owner is giving away \$23,000,000 of his great fortune, to be used for charitable purposes. The gift will be made to the Kresge Foundation which was established by the merchant in 1924.

GORDON FULLER TO GRADUATE AT CANYON

Canyon, Texas, May 29, 1926.—Perryton claims one member of the senior class of the West Texas State Teachers College in the person of Gordon Fuller, who receives his B. A. Degree with Mathematics as his major.

Mr. Fuller has been student assistant in Physics during this year, and is a member of the Lloyd Green Allen Chapter of the Texas Scholarship society. During the school year of 1926-27 he will teach Mathematics and Physics in the Canyon high school.

SUNRISE BREAKFAST PARTY

A sunrise breakfast party was held Tuesday morning at Horse shoe Bend in honor of Misses Ruth Puckett and Myrtle Rogers who are leaving soon to attend summer school.

Those present were Mrs. H. T. Cutter, Mrs. J. H. Sims, Mrs. F. L. Garrett, Misses Ruth Puckett, Myrtle Rogers, Mildred Bauman, Mary Ragan, Myrtice Glasgow, Wilma Lee McMillan and Louise Garrett. The day was spent in hiking over the beautiful grounds around their camping place.

Mr. and Mrs. F. M. McGee, Webb City, Okla., arrived last Wednesday to visit Mrs. McGee's parents, Mr. and Mrs. F. Dodson. Mr. McGee was formerly the postmaster in Perryton. He is now in the drug business at Webb City.

Mrs. A. C. Wheeler, Mineral Wells, Texas, is a guest in the home of her sister-in-law, Mrs. C. A. Wilson, of this city. Mr. and Mrs. Wheeler own a half section southeast of Perryton which they will probably improve in the near future.

Mr. and Mrs. Leon Roembach and family returned Wednesday from Wichita, Kans., where they spent the week visiting with Mr. Roembach's parents and attending the Kansas State Banker's convention.

Mr. and Mrs. John Black left Sunday for a two weeks visit with Mr. Black's parents, Mr. and Mrs. S. J. Black, at Farmington, New Mexico.

Jess Petty

Each year a new constellation of stars appear in the baseball firmament. So far, few are twinkling as brightly as Jess Petty, the big southpaw twirler of Uncle Robbie's Brooklyn Nationals. Winning the first five games he pitched, Jess yielded an average of only 1 run per game.

IT'S NOT YOUR CAR

That is if we did the overhauling on it this spring. If it is your car, better drive it right straight here and let us get busy on it.

R. A. PURSCELL

An Improved ALLIS-CHALMERS TRACTOR

THE Allis-Chalmers Tractor, designed over ten years ago, is a striking example of modern, scientific and practical engineering. So well was it worked out from every angle that the fundamental design has never been changed. It was then and is now "a tractor ahead of the times."

After watching its performance for a decade in the most rigorous work, several new improvements have been perfected and an improved Allis-Chalmers Tractor is ready for the trade. None of these changes are radical. They are

more in the nature of refinements. They make a tractor that has won an enviable reputation for long life and trouble-free service, still more durable and trustworthy.

While the Allis-Chalmers boasted of more genuine drop forgings than any other tractor of its type and size, the number of these drop forgings has been increased. Parts that developed the least tendency toward weakness over a long period of years have been strengthened. The housings have been improved, accessibility increased, simplicity enhanced.

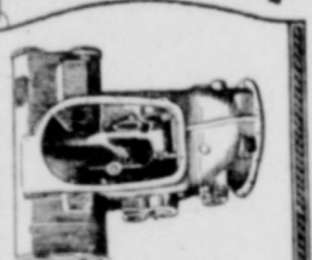

Every Inch a Power Plant

Instead of elimination and compromises wherever possible in order to allow for an attractive price, Allis-Chalmers has capitalized every opportunity to make its tractor a perfect power plant of the highest type, and in doing this, has taken advantage of its large buying power, adequate equipment and tremendous resources to produce such a tractor at a moderate price.

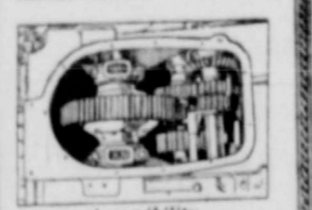

Figured on the basis of dependable horsepower per dollar of cost, the Allis-Chalmers Tractor is an outstanding achievement, a purchase unrivaled in economy. Convenient service from fifteen Factory Branches and hundreds of dealers.

Write or call us for catalog, prices and our convenient arrangement for deferred payments.

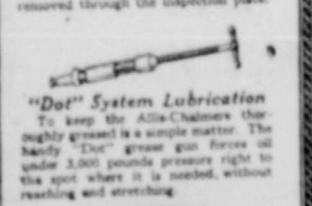

C. J. OSBORN
Perryton, Texas

"A Sturdy Backbone"
The close-packed, Master Casting design of the Allis-Chalmers makes the entire assembly as rigid as a single casting, and eliminates the twists, strains and misalignments that ordinarily shorten tractor life.

Accessibility
Large, easily removed inspection plates enable the operator to get at any working part easily, yet they are adequately protected from dust and dirt. Any transmission gear may be removed through the inspection plate.

"Dot" System Lubrication
To keep the Allis-Chalmers thoroughly greased is a simple matter. The handy "Dot" grease gun forces oil under 3,000 pounds pressure right to the spot where it is needed, without reaching and stretching.

Good Equipment Makes a Good Farmer Better

A Champ At 81

Major A. B. Ostrager of Seattle, Washington, is now, three seasons billiard champ. This 81 year old veteran of the Civil War realized the ambition of a lifetime when he annexed the title. The three cushion game is the most difficult of all billiard games.

G. R. WILSON ELECTED TREASURER SCHOOL BOARD

At a recent meeting of the trustees of the Perryton Independent School District, G. R. Wilson was elected treasurer to serve during the ensuing year. Mr. Wilson has been a member of the board for the past year and is one of the most efficient school workers that we have ever had.

Misses Jewell and Ruby Keith left last Saturday for Plainview, Texas where they will attend the summer school at Wayland College. Miss Jewell has been employed to teach this next term at the Flowers school and Miss Ruby has signed up for the McMillan school. Both of these young ladies are very proficient in their chosen profession.

The Eclipse Drilling Company of Tulsa has contracted as reported, to drill a test 3,200 feet deep eleven miles southwest of Liberal in the edge of Kansas on 14-23-33w, on a block of about 5,000 acres. —Guymon Tribune.

W. H. Curry, superintendent of the Balco school last year, has accepted a position as salesman for the Johnson Motor Company.

Your Sheep Deserve Attention

The farm flock of sheep give two crops each year—lamb and wool.

As time goes on, progressive farmers are placing a higher valuation on the variety of sheep they raise and the care they are given. It is generally realized that a sheep raiser secures two crops per year—the lambs and the wool. All indications point to a well sustained price for lamb and mutton due to the fact that consumption has at last overtaken production and prices being paid for wool, mutton and lambs are, even now, most inviting.

Compared with other live stock, sheep raising provides a profitable source of cash income. Early lambs can be made ready for market by June and when the wool is harvested and sold in June and July, this revenue is received at a season when most needed by the average farmer. There are many instances where farm flocks of sheep have kept farmers out of debt. In one instance, 50 ewes produced 45 lambs which when marketed averaged 56 pounds at 15c per pound or a total of \$648.75. The wool clipped from the 50 ewes averaged a trifle

over seven pounds per head and brought well over a \$100.00 or a total of almost \$500.00 from the flock of only 50 ewes.

Such a harvest, however, is not possible without a return by the owner. He must lay the foundation by securing a desirable ram and must have good basic value in the breed of sheep he is raising.

While there are more than 40,000,000 sheep in the United States, only 463,504 of these are pure bred. Annually the number of pure bred sheep increase in proportion to the total number of sheep, which is a favorable indication for a continuance of quality for years to come. The sheep owner realizes that only on quality may he build a permanently profitable business in sheep raising.

A close study of breeds most suitable in existing conditions and most advanced methods of feeding and care, always carries with it a large dividend in results obtained. Your sheep deserve good attention.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Oklahoma.

F. W. McMahon, National Advertising Manager of the Los Angeles Examiner, says:

THAT National distribution and National advertising has stabilized values—something that could not have been accomplished if it had not been for national distribution and National advertising. The man who buys an Arrow collar in New York knows that he can get the same collar in the same quality, for the same price in Los Angeles—three thousand miles away. This one accomplishment of National Advertising, if nothing else can be said about National advertising, justifies its existence.

Modes of living have been standardized by National advertising, for what man or woman moving from one city to another wants to start

getting acquainted with new merchandise and adapting himself or herself to a manner of living that is different from that enjoyed in some other city? National advertising has simplified our daily existence and our shopping problems. The housewife can now trust her ten-year-old boy to go to the store and get just what she wants, because he asks for it by name, and is instructed to accept no substitute.

The rising generation has before it a prospect of established values and qualities, which is being developed in the youngster of today through National advertising and the demand for Nationally advertised products.

Here in Los Angeles we see the value of National advertising every day. Our cosmopolitan population 1,250,000 represents every state and practically every community in the United States, and it is daily asking the retailers for the established

brands of Nationally advertised products with which they are familiar at home. And as distribution of more or less localized brands extends into the Los Angeles territory, a ready-made audience and almost a ready-made consumer demand awaits the advertiser because of the acquaintance that a certain percentage of our population has with these established brands in other markets.

National advertising has changed crackers in barrels to biscuits in boxes—uniform in quality and price and universally available.

WHERE IS THE BLIND BABY?

Laws that care for the blind in the State of Texas do not include the child from the day of blindness, though that be at birth.

A special budget should be provided for these children to give them the care, maintenance and education in kindergarten—hospitals and homes combined for them. If the mother will realize that the baby needs immediate care, she will report her blind baby, that it may have the hospital care especially, before the little body becomes twisted and deformed.

The present budget does not provide for babies and young and backward children. One family in Marfa, Texas, has four blind children, all too young to attend the State school. Where are the other children who should be in school? Report such blind children to Mrs. H. Francis Baugh, Sunshine State Organizer in Blind Work, 4928 Live Oak, Dallas.

An effort is being made by the Texas ladies to make a census of the blind babies in the State—then the next step will be to appeal to the Legislature to provide for their immediate care in any Institution within or without the State equipped for them.

Other states pay \$1.50 a day for each child so appointed, and it graduates when old enough, to the State Schools or State classes for the Blind, where it gets the higher education. Delay in sending the baby early often means its deterioration into a helpless and backward blind child.

SECOND ANNUAL ROUND-UP AT EXPERIMENT STATION

The Agricultural Experiment Station of the A. and M. College of Texas announces the Second Annual Ranchmen's Round-up to be held at the Panch Experiment Station, located in Sutton and Edwards Counties and approximately 26 miles from Sonora, on the Sonora-Rock Springs highway, on August 17 and 18.

The purpose of this meeting is to bring together the ranchmen and citizens interested in the sheep and Angora goat and cattle industries.

A brief, concise report of each project carried out at the Ranch Experiment Station will be made, giving the latest results in each case, so that ranchmen may have the benefit of the most recent knowledge in those several lines.

Texas leads all other states in the Union in the production of wool, and as well in the production of mohair. The Ranch Station is located in the heart of the wool producing region of Texas, seven counties surrounding the Sonora Station producing one-fourth of all the Angora goats produced in the United States.

The Ranch Station is studying animal diseases, particularly the diseases of sheep and goats, including the so-called "deficiency diseases", which require a full understanding if the grower expects to avoid losses from this source. Studies are also being made of insects and parasites affecting the sheep and goat industry. Other detailed studies are being made of range vegetation, the preference of animals for certain vegetation, and the carrying capacity of the range when properly stocked. Range feeding problems and problems and methods of breeding for in-

creased quantity and quality livestock products are being studied, including grades and shrinkages on wool and mohair fleeces, the results being recorded and digested, with a view of better utilizing our ranges in the production of livestock and livestock products.

Everyone, including ranchmen and business men and their families, is invited to be in attendance at this meeting. Camping facilities will be available at the Ranch Experiment Station headquarters. An interesting and instructive program is under preparation, and announcements covering the meeting fully will appear in the press from time to time between now and the date of the meeting.

It will be recalled that approximately 3,000 visitors were in attendance at the First Annual Round-up held last August. This is probably the largest gathering held thus far at a point so far removed from a railway terminus. The exceptional attendance at this First Round-up meeting emphasizes the intense interest of the citizenship of Texas in the studies of the problems in connection with the sheep and goat industry, a source of great wealth to the State of Texas.

I AM EDUCATION

I bear the torch that enlightens the world, fires the imagination of man, feeds the flame of genius. I give wings to dreams and might to hand and brain.

From out the deep shadows of the past I come, wearing the scars of struggle and the stripes of toil, but bearing in triumph the wisdom of all ages. Man, because of me, holds dominion over earth, air and sea; it is for him I leash the lightning, plumb the deep and shackle the ether.

I am the parent of progress, creator of culture, molder of destiny. Philosophy, science and art are the works of my hand. I banish ignorance, discourage vice, disarm anarchy.

Thus have I become freedom's citadel, the arm of democracy, the hope of youth, the pride of adolescence, the joy of age. Fortunate the nations and happy the homes that welcome me.

The school is my workshop; here I stir ambitions, stimulate ideals, forge the keys that open the door to opportunity. I am the source of inspiration; the aid of aspiration. I AM IRRESISTIBLE POWER—Better Schools League.

A FLY

By Mrs. C. R. Fields, Secretary Public Health Education.

The house fly as a guest
From early morn till night
Is the worst all-round pest
That any one could cite.

As the sun comes peeping up
His busy day begins
And in your coffee cup
He takes a bath and swims.

Far From Homely

Artists agree that Louise Clerc of New York is unusually beautiful. There are so many handsome girls in this world of ours that it is difficult to say what one is the perfect beauty, but Miss Clerc certainly belongs among the fairest of the fair.

ANNOUNCEMENT

I have purchased the interest that Jno. H. Lovett had in the City Meat Market and will assume the sole management of same. I wish to thank you for your past patronage and hope that you will find us deserving of it in the future.

GEO. RUPPRECHT

CITY MEAT MARKET

Perryton, - - - - - Texas

Not discouraged in the least
He flops upon the floor
And to some other beckoning feast
He sallies forth once more.

Just yesterday he reveled in
The horse dung in the street
His taste has changed a bit since then
But not his dirty feet.

It matters not to Mr. Fly
He gives us germs to eat—
He leaves his footprints on the pie
And dances o'er the meat.

When the day is over
And his spread of filth is through
At dinner, lift the dish's cover
And you'll find him in the stew.
