TAMMANY BEATEN BUT GAYNOR WINS

FUSION CANDIDATES SUCCESSFUL IN NEW YORK FOR EVERY THING BUT MAYOR.

BARNARD CAME SECOND

Hearst Brought Up the Rear—Democrats Victorious in Many Other Places.

By Associated Press. New York, Nov. 3.—With the exception of Judge Gaynor, who was elected by a majority of apparently about seventy-two thousand, the sweep of the Fusion anti-Tammany ticket was complete, in yesterday's election.

Judge Gaynor was the only democratic candidate on the city or county tickets to be successful. The victory of the Fusionists gave them thirteen out of sixteen votes on the important board of estimates. This board will control the expenditures of practically a billion dollars during its term of office.

With a few scattering boxes yet to be reported, the vote stands:—Gaynor, 246,715.
Barnard, 175,062.
Hearst, 150,560.

Judge Gaynor's election was conceded at an early hour last night, but it was seen as soon as the returns began to come in that the rest of the Tammany candidates were defeated and the celebration by the Tammany cohorts was dimmed by the fact. Hearst ran stronger than those in touch with the situation had predicted.

Complete returns give Gaynor a plurality of seventy thousand and sixteen. The board of aldermen will be composed of forty-two democrats and thirty-six fusionists. Indications are that the state assembly will have a republican majority of forty-five.

By Associated Press. Louisville, Nov. 3.—Returns early today indicate that the democrats are in possession of nearly all their ancient heritage. The next legislature will be democratic by over two thirds majority, and will therefore be able to pass over the veto of the republican governor any measure desired. With the exceptions of Lexington and Henderson, where Fusion tickets were elected, all other important municipalities elected democratic officers.

By Associated Press. Indianapolis, Nov. 3.—With the exception of Indianapolis, Ft. Wayne and Evansville the democrats are victorious in the municipal contests of the larger cities of the state.

By Associated Press. Baltimore, Nov. 3.—Returns today indicate that the amendment to the state constitution, designed to disfranchise the negro voter was defeated by from sixteen to eighteen thousand. The democrats claim the legislature.

By Associated Press. Philadelphia, Nov. 3.—The republicans elected a state treasurer, auditor-general and judge of the supreme court in yesterday's election. The reform opposition to the republicans was defeated by more than forty-three thousand.

By Associated Press. Cincinnati, Nov. 3.—The republicans elected the entire city ticket headed by Shwab for mayor. The republicans were also successful in Sandusky and Columbus.

By Associated Press. Jackson, Miss., Nov. 3.—Last night passed without any loss of life, although a dynamite bomb exploded and thousands of shots were fired, but only the walls and plaster were damaged. The democrat is apparently elected by

NORTHWESTERN ARRIVES AT MANGUM, NOON TODAY

The completion of the Wichita Falls Northwestern to Mangum was accomplished at noon today and on Friday the first passenger train will arrive at the new northern terminus. The extension was completed slightly over two days behind the appointed time, it having been hoped to reach there by the first of the month.

a small vote over Adams, the present incumbent. Other democratic candidates appear to be in the lead. It is feared that tonight will be still wilder than last night.

By Associated Press. Omaha, Neb., Nov. 3.—Election returns from over the state today make certain the majority given Bryan a year ago will be almost completely wiped out.

D. A. R. MEETS.

State Convention in Session at San Antonio.

Texas News Service Special. San Antonio, Tex., Nov. 3.—The state convention of the Daughters of the American Revolution opened here this morning for three days. The attendance is large today and other members will arrive tonight.

Mrs. John J. Stevens, the regent, of San Antonio De Bexar Chapter, made the opening address and presented Mrs. S. W. Snyder, state regent of Houston, who will preside over the convention.

IOWA PARKSTORE LOSES HEAVILY BY BURGLARY

Special to The Times.

Iowa Park, Tex., Nov. 3.—The store of Hines & Phillips was entered by burglars last night and robbed of suits and suit cases to the value of four hundred dollars. Entrance was effected through the back door, which was forced open with a railroad spike.

The loss was discovered this morning when the employees came down to open up. There is no clue to the perpetrators of the burglary, but the proprietors have offered one hundred dollars reward for their capture.

TWO ARE KILLED.

Logging Train Wrecked at Galveston With Fatal Results.

Texas News Service Special. Houston, Tex., Nov. 3.—Two men were killed and twelve injured this morning when a logging train was wrecked near Groveton, Trinity county.

The train left Groveton at 5:30 this morning carrying the workmen to camp, when it swerved and struck a switch. The tobacco and tool car were hurled from the track and overturned.

The dead:
BOHE WILSON, of Leon county.
JOHN LOTT, of Polk county.
Seriously injured:
J. Killen and Phillips.

Wilson and Lott were caught under the car when it rolled over and were crushed to death instantly.

REFORMERS HENEY AND JOHNSON ARE BEATEN

By Associated Press. Cleveland, O., Nov. 3.—With one precinct missing, early today the returns gave Tom Johnson thirty-seven thousand, five hundred and two, and Baehr forty-one thousand, two hundred and eighty-five. The entire city ticket with the exception of the city solicitor, Baker, was defeated.

By Associated Press. San Francisco, Cal., Nov. 3.—Estimates based on a count of fifty per cent of the total vote, Fickert's majority over Heney in yesterday's election will reach thirteen thousand and McCarthy, the union labor candidate for mayor, was elected by eight thousand.

YOUNG TEXAN MURDERED.

Shot and Stabbed Near Tulsa—Woman in the Case.

Texas News Service Special. Tulsa, Okla., Nov. 3.—It developed this morning at the autopsy over the body of I. E. Norman, the wealthy young farmer of Troupe, Tex., who was found dead here yesterday, that Norman was shot twice in the head and stabbed in the forehead. The officers believe he was murdered.

Frank Wall and Audley Baird are held in connection with the case. Leona Baird, whom Norman courted, a sister of Audley Baird and J. M. Farley are under close surveillance. The woman lived at Farley's home. No money or valuables were found on Norman's body. The motive of the murder is a mystery.

BIG CONTRACT FOR WICHITA CONCERN

FOUNDRY AND MACHINE COMPANY LANDS IRON AND BRASS WORK FOR DENVER.

ENLARGING THEIR PLANT

Started a Year Ago With Two Hands. Will Soon Employ About Forty.

Work is well under way at the plant of the Wichita Foundry and Machine Company on the extension of that company's work and the recent improvements there have been quite extensive. A forty-foot addition to the foundry has been constructed and four moulders installed. An office building has also been erected for the plant's office force.

The company recently secured contracts from the Fort Worth and Denver for all the iron and brass work of that road and this will run the total of its business up above the hundred thousand dollar mark annually. By the end of a few weeks, it will be employing forty men. Another contract was secured today for the manufacture of crude oil burners. The plant is now employing twenty-eight men but will increase this number to forty at an early date.

When this plant was established here, the Chamber of Commerce gave a bonus of \$1000 for it. It started with two employees, a man and a boy. Today its business is growing too fast for its equipment and it has justified the support given it, several times over.

GEOGRAPHIC SOCIETY GIVES MEDAL TO PEARY

By Associated Press. Washington, D. C., Nov. 3.—Commander Peary was today voted a gold medal by the National Geographical Society for having reached the north pole. The board of managers of the society at the meeting today accepted unanimously the report of the subcommittee of scientists who examined the explorer's records, and found them corroborative. They claim that he reached the pole.

Going After Physicians at Waco, Texas News Service Special. Waco, Tex., Nov. 3.—Quite a stir was created among the physicians today when County Attorney Pat Neff issued instructions for holding experts examinations to learn if the medical laws are enforced here. It is alleged that a number of physicians are practicing without license. Neff declares there will be a general clean-up.

MILLER IS GIVEN DEATH SENTENCE

IS CONVICTED AT CLARENDON OF FREIGHT CAR MURDER OF LAST MARCH.

HAS KILLED THREE MEN

Murdered Floyd Autrey and Another Man, Unknown, on Tracks Near Estelline.

Texas News Service Special. Clarendon, Tex., Nov. 3.—The last chapter, but one, of the C. R. Miller murder case was enacted this morning in the district court, when the defendant was found guilty of the murder of Floyd Autrey and sentenced to death.

The jury was out fifteen hours, returning the above verdict and sentence was immediately passed upon the murderer.

Miller was charged with the murder of Floyd Autrey and an unknown man last March in a freight car on the Fort Worth and Denver, near Estelline. Miller was recently convicted at Memphis of the murder of an unidentified man, and received a life sentence in that case. He pleaded guilty in open court at both trials, the question of what punishment to assess keeping the jury out so long as it was.

The Miller case is still familiar to Wichitans, the finding of the two bodies being well remembered here. Miller resided in this city for a short while early in the year, but did not get into any trouble while in this city.

TOO MANY FARMS ARE POSTED FOR HUNTERS

Hunting in this section is fraught with difficulties this year on account of the large number of farms that are posted and those who go in search of doves and quail are finding hunting ground rather scarce. Most of the farms where good game abounds are posted and the owners threaten prosecutions to those who invade them.

A party of Wichitans who went to Byers recently in search of game entered a farm that was not posted and spent several hours in the field. Upon their arrival at the railroad station they were met by the strong arm of the law in the person of the constable, with warrants for their arrest. Two of the party were ladies and all were compelled to give bond for their appearance there. Those who are fortunate enough to have friends on the farms are proving the best hunters.

ANOTHER INDICTMENT.

Hunt County Grand Jury Bags Twenty for Mob Participation.

Texas News Service Special. Greenville, Tex., Nov. 3.—Burrell Moser was arrested this morning on a grand jury indictment charging him with participation in the mob here recently, which took the three negroes suspected of assaulting Mrs. Will Lloyd from the jail for the purpose of lynching them. The grand jury indicted twenty-two, and twelve have been arrested.

DISCUSSING PELLAGRA.

National Conference is Being Well Attended.

By Associated Press. Columbia, S. C., Nov. 3.—Experts from this and other countries are assembled here today in attendance upon the National Pellagra Conference, which will continue its session probably three days. The federal government was represented by officers from the public health and marine hospital service and the army.

BIRMINGHAM HOST OF THE PRESIDENT TODAY

By Associated Press. Birmingham, Ala., Nov. 3.—President Taft and his party arrived here at 5 o'clock last evening and after being welcomed by the reception committee, retired early.

He took breakfast this morning at the country club, and at 11 o'clock headed the parade. As the presidential party passed the Paul Haynes school, several hundred school children sang "Dixie" and the "Star Spangled Banner."

The president reviewed the parade from a stand in front of the southern club. This afternoon at 2 o'clock he delivered an address in Capitol Park, before a concourse that ran well into the thousands. He paid a beautiful tribute to Alabama and her people and was enthusiastically received.

Birmingham is the president's only stop in Alabama and he will leave at 4:10 this afternoon for Macon, Ga., beginning the last part of his trip toward Washington.

Oil Near Austin.

Austin, Tex., Nov. 3.—A valuable oil flow was brought in at a depth of a hundred and fifty feet by P. Thompson on his farm near Springdale, five miles north of Austin today, and it has caused a rush for leases of adjacent lands. John W. Hornsby, land and tax commissioner for the Kirby Oil Company, and R. E. Brooks of Beaumont, and others have leased one thousand acres there.

PROCEEDINGS OF HIGHER COURTS AT AUSTIN TODAY

Texas News Service Special. Austin, Tex., Nov. 3.—The court of criminal appeals today affirmed the cases of E. L. Barber County; Wilson vs. Smith, and Pearl Goode, McLennan County.

Reversed and remanded, R. W. Harman et al from Brown County.

Motions set up for November 7th, Cabera Kluso Warren, Francis and Emory, Smith, Alonzo Cleveland, Tom Green County.

Applications refused, American Freehold Land Mortgage Co., of London, vs. Brown, McLennan County.

Motions for rehearing overruled, El Paso Electric Railway vs. Adkins, El Paso.

Motions for rehearing dismissed, Katy vs. Gray, and Katy vs. Williams, Grayson County, reset by agreement, for November 17th; Beaumont Traction Co. vs. Texarkana and Fort Smith Railway, from Jefferson County.

VALUABLE CARGO.

Composed of Cotton, Copper and Coin; Worth \$1,745,000.00.

Texas News Service Special. Galveston, Tex., Nov. 3.—The British Steamer Rovaniemi cleared for Liverpool this afternoon with the most valuable cargo shipped from here this season. It consists of twenty-two thousand bales of cotton, five hundred tons of copper, five hundred tons of cotton seed meal and forty-two thousand, eight hundred bushels of corn. The cargo is valued at one million, seven hundred and forty-five thousand dollars.

There is work for a want ad.—when there's urgent need to raise some money, and the lots must be sold.

Y. M. C. A. IS NOW GETTING ORGANIZED

WORK OF ENROLLING MEMBERS STARTED TODAY AND MANY AGREE TO JOIN.

WILL SOON BE STARTED

Believed That Organization Will Be In Regular Operation By First of Next Year.

The organization of the Young Men's Christian Association is now getting under way and a committee started out today to enroll members. Already quite a few have been secured as members and there is little doubt that the organization will receive hearty support. Those desiring to become members are required to sign the constitution and agree to pay the dues of \$5 per year.

Any young man of good moral character may become a member upon the payment of the annual fee, but active membership is limited to male members in good standing on evangelical churches, who are eighteen years of age. The management of the Association is to be vested in a board of fifteen directors, five of whom are to be elected each year. Not more than five can belong to the same religious denomination. A number of committees, in charge of every feature of the Association's work, will be appointed. A general secretary will have general charge of the Association's work.

It is believed that the Association will be completely organized by the first of the year and it is hoped to have the gymnasium completed and all other arrangements made by that time. From the interest being manifested the success of the organization may be accepted as a foregone conclusion.

The object of the Association, according to the constitution, "is to develop the spiritual, mental, social and physical condition of young men."

CONE JOHNSON AMUSED.

Denies That Prohibition Cause is to Be Sacrificed to Defeat Bailey.

Texas News Service Special. Tyler, Tex., Nov. 3.—The sensation-stirring carried in a few Texas morning papers say there is a conspiracy among Bailey's opponents to sacrifice the state-wide prohibition issue and elect Colquitt governor for the ultimate purpose of defeating Bailey by turning the pros against him, was strongly denied by Cone Johnson, prohibitionist and candidate for governor, today. Johnson declares the report is absurd and added: "The move is an invention of the whiskey ring to confuse the people and postpone the day of its destruction."

Manley Case on Trial.

Texas News Service Special. Dallas, Tex., Nov. 3.—The counsel for Sergeant J. D. Manley, the Dallas militiaman charged with killing Louis Reichenstein on the occasion of Taft's visit here, created a surprise this morning at the preliminary trial, by announcing that the defense would offer no testimony. The announcement followed the story of the killing by the state's witnesses, Justice of the Peace Corley ordered him to be held without bail. It is expected the grand jury will report soon.

Shooting at McAlester.

Texas News Service Special. McAlester, Okla., Nov. 3.—John Jay, a butcher, was shot and seriously wounded late last night by Deputy Sheriff Haynes, when Haynes attempted to arrest him without a warrant. Today it is believed Jay will recover. The officer charges Jay with being involved in cattle thefts. Two other arrests may follow.

HUSBAND MISTOOK WIFE FOR BURGLAR—SHOT HER

Texas News Service Special. Ardmore, Okla., Nov. 3.—Mrs. Fred Dawson is in a precarious condition this morning as a result of a bullet wound received last night, when her husband mistook her for a burglar and shot her as she entered the window of their home. She had been spending the evening with a neighbor and not knowing her husband was at home, attempted to enter the house through the window. One bullet was fired, striking her over the heart.

HOME INDUSTRY CONTEST THIRD PRIZE ARTICLE

Below is reproduced the third prize article in the "Home Industry" contest of the Merchants Association. It is written by Mrs. Alice Brown Yeager. Wichita Falls is quite up-to-date. No better city is in the state; And her facilities are the best Of any place, be it north or west. Of this great state of the single star Whose reputation has traveled far.

Wichita Falls has merchants who know

How to buy goods and how to let go At prices that save their patron's "dough."

Their margins are lowest of the low. Everything is fresh and clean and new. And large assortments waiting for you. You may go and look up their shelves After they have told the tale themselves.

And shop worn goods you will never find;

Their clerks are capable and most kind They bring no last year's goods to the town.

From penny cakes to silken gown.

But best of all when you're in a tight. And there's not a cent of cash in sight.

When you need shoes, or a sack of flour, You can get them both within the hour;

For Wichita merchants credit you. Be your wants many or be they few.

Now what about goods ordered by mail? Sometimes they are fresh—more often stale.

You send for a suit, and wait and wait, Until you fear 'twill be out of date.

Then when it comes you haven't a smile. For it is away behind the style.

However bad you have paid for it. So you put it on to wear a bit;

Right then and there it begins to rip. And when you accidentally trip. You tear your clothes for they are shoddy.

And are not fit for anybody.

You mend them but they won't hold stitches. (Which thing looks bad on any "britches.")

So buy your clothes in old Wichita. Where they "make good" when you find a flaw.

See what you're buying and paying for; Then purchases you'll not abhor.

Spend your money in Wichita Falls; She is fixed all right to answer calls For everything, both little and big. So don't send off and act like a pig.

A pig, you know, takes all kinds of slop. And he never knows enough to stop.

There is not one bit of use to roam When you wish to furnish your new home;

For Wichita Falls can surely compete With the best houses on the best street

Of any city in Dixie's land. Where the state of Texas leads the band.

SO SPEND YOUR MONEY AT HOME TODAY. THAT IS THE GOOD OLD WICHITA WAY.

—Alice Brown Yeager.

Mater-Walker Sell a Remedy for Catarrh on That Liberal Basis.

Breathe Hyomel over the germ-ridden, membrane, and it will kill the germs, and cure catarrh.

There is no other way—you must get where the germs are before you can destroy them.

And when catarrh germs have disappeared, other things will happen; there will be no more hawking not even in the morning; that offensive breath will disappear; there will be no more obnoxious mucus, or coughing or sneezing, or huskiness of voice, or difficulty in breathing. All these disagreeable accessories of the demon catarrh will disappear, and as they go the glow of health will return, and all the strength and energy that was formerly used in combating the throats of catarrh, will bring back your vitality and ambition, will make a new, healthy, happy being of you in a few weeks.

Mater-Walker Drug Co. will sell you a complete Hyomel outfit for \$1.00. This includes a fine inhaler, a bottle of Hyomel (pronounced High-o-me), and instructions for use. Sold by leading druggists everywhere. Extra bottles 50 cents. And bear in mind, money back if Hyomel doesn't cure.

MANY NEW CONCERNS.

Texas Seems to be Advancing Along Commercial Lines.

Austin Texas, Nov. 3.—Texas is making rapid strides commercially as well as in other fields of industrial endeavor is evidenced by the remarkable large number of corporations that have been chartered during the past two years or so, and the most important of all is that these new corporations are required under the new law to be genuine and bona fide concerns. Under the new incorporation law it is next to impossible to float or promote a wildcat concern in Texas. A glance at the records in the state department discloses that during the past two years, or since the new corporation act which requires that 50 per cent of the capital stock is to be paid in and the entire amount subscribed, has been in effect, there has been 3720 new charters filed or domestic corporations. A conservative average of the capital stock of these concerns is \$25,000, which brings the total capital stock of the above number of concerns to be \$93,000,000. Another provision of this new corporation law is that the filing fee has been doubled and this has served to more than triple the receipts of the state department. Soon after the passage of this new law and before it became effective, there was a rush of concerns to get charters and the records of the department show that for the period of six months before the new law went into effect there were 1113 charters filed. During the administration of Governor Campbell there has been a total of 3833 new corporations that have been chartered. This does not include for the same period 246 permits taken out by foreign concerns. These figures do not include over 1000 amendments to charters of corporations increasing their capital stock and otherwise extending their field of operation.

The purpose of these new corporations have been varied. While possibly the greater mercantile pursuits, there have been a large number whose mission is to buy and sell real estate, conduct oil companies, land and cattle companies. There have also been a large number of companies chartered. During the past year, however, there has been a regular deluge of automobile sales companies. Practically every town of any pretensions whatever, has at least one or two automobile companies. Many concerns have been organized to promote townships, while the number of new state banks that have been organized is also remarkable. Like the automobile companies, any town that is a town of any size, can boast of having at least one state bank.

PAUL JONES' PROMISE.

Our Great Naval Hero and the Duchess of Chartres.

The Duchess of Chartres was an enthusiast in the cause of American liberty and a warm friend of its great naval champion, Paul Jones, whom she nicknamed the "Outfitted Knight of the Sea." The duchess was a royal princess and a very great lady, and Captain Jones was a sailor, self educated and the son of a Scotch gardener, but in the exchange of gifts and compliments which, according to the custom of the day in France attended their friendship, he was not to be outshone.

At a luncheon which she gave just before he sailed from France in the Ranger on that famous cruise of his which carried the war to the very shore of Britain it was the good fortune of Paul Jones to share in a conversation touching a French naval engagement in which the grandfather of the duchess had borne a conspicuous part and to defend and explain his maneuvers on that occasion, showing a knowledge of every ship and every captain engaged and winning on the spot the ardent personal adherence of Mme. de Chartres.

At the close of the feast she presented him a valuable watch which had been her grandfather's. Taken by surprise, the American captain nevertheless accepted it with a grace that charmed the courtly company, promising that in return, if fortune favored him, he would some day "lay an English frigate at her feet."

It was a daring boast, but in A. G. Buell's biography of Paul Jones it is related how he kept it. Within two years occurred the marvelous victory of the Bonhomme Richard over the Serapis, concerning which the victor wrote the duchess a letter, ending, "The enemy surrendered at thirty-five minutes past 10 p. m. by your watch, which I consult only to fix the moment of victory."

That was a phrase to delight a society that revelled in pretty phrases, and the duchess was amply satisfied. When Paul Jones reached Paris she gave a grand banquet in his honor. Just before it ended he reminded her of her gift and his promise. A servant was sent to his room and returned with a long leather case, which the duchess took amid the exclamations and eager curiosity of the company.

"Your royal highness perceives the impossibility of keeping my promise in kind," explained the knight of the sea, smiling. "The English frigate proved to be a forty-four on two decks, and she is now at Lorient with French colors flying. The best I can do toward keeping my word of two years ago is to place in your dainty hands the sword of the brave officer who commanded her. I have the honor to surrender to the loveliest of women the sword surrendered to me by one of the bravest of men—the sword of Captain the Hon. Richard Pearson of his Britannic majesty's late ship, the Serapis."

Fooled.

He was a doctor and was patiently waiting for his first patient. Thought he: "If the mountain will not come to Mahomet, Mahomet must go to the mountain. And as patients will not seek me out I must needs seek them out."

He strolled through the cheap market and presently saw a man buy six nice cucumbers.

"Here's a chance!" said he and followed him home.

Patience he waited for four long and lonely hours, and about midnight the front door quickly opened, and the man dashed down the steps.

He seized him by the arm and cried earnestly:

"Do you want a doctor?"
"No!" replied the man roughly.
"Want more cucumbers?"—London Answers.

The Bride's Linen Room.

If a groom elect has not provided an extra room to his house for storing his bride's linen he should build it in time, for in these days whenever a girl marries her mother closes her lips grimly, goes after pa's pocketbook and does the right thing with nine dozen towels, fifteen dozen napkins, eighty-four pairs of sheets, etc. She doesn't expect her daughter to open a boarding house, but she has proper pride and intends to do the right thing by the girl even if it breaks pa.—Arlinson Globe.

Couldn't Forget It.

"Saturday night some miscreant lugged off a whole cord of my wood, and somehow I can't forget about it!" declared Silas.

"Have you tried to forget it?" inquired his friend.

"Yes. Sunday morning I went to church hoping I could get it off my mind, and before I had been there five minutes the choir started in singing 'The Lost Chord,' so I got out!"—Judge.

Lunch and Luncheon.

"We don't have dinner in the middle of the day at our boarding house any more."

"You have lunch, I suppose?"

"No, luncheon."

"Well, that's the same thing."

"Oh, no, it isn't! Lunch is a light dinner, and luncheon is a light lunch."

WEATHER FORECAST.

For Wichita Falls and vicinity—
—Tonight and Thursday, fair.

We give it up. We have done our best to point the Denton Record and Chronicle right. We have plead with it with the love that suffereth long and is kind. It is a stubborn soul and endureth long. Our only recourse is to have the Houston Post read it out of the democratic party.

We have refrained from commenting on this Northwest Texas autumn weather for fear it would break the charm, but we can't resist it any longer. The weather is particularly enjoyable between the hours of 8 a. m. and 8 a. m.

A Panhandle woman is trying to build a railroad. In Wichita Falls we have enough progressive men to take the railroad building tasks off the ladies' hands.

If the Wichita postoffice can break the record in a rented building, what would it do in that one hundred thousand dollar structure it is going to get?

An Oklahoma man has gone insane through worrying about the North Pole controversy. The inference is that he didn't have very far to go.

Big Springs mobbed Richard's and Pringle's minstrels Monday night and having seen the show, we cannot find it in our hearts to censure.

What the democrats got in yesterday's elections was powerfully little, but it was probably every bit as much as they had anticipated.

The man who will read the "Home Industry" articles in the Times and then send his money out of town is gone beyond retribution.

Read the "Home Industry" articles which are appearing in the Times from day to day. There is a sermon in every one of them.

President Taft divided honors at Jackson, Mississippi, with a three-ring circus and the circus beat him two to one.

Allendale News Notes.

Allendale, Texas, Nov. 2.—Quita a number attended the fifth Sunday meeting of the Little Wichita Baptist Association which met here last Thursday night and continued until Sunday night. The services were well attended and were appreciated by all. The preachers in attendance were Rev's J. H. Longan, W. P. Harmonson, O. J. Harmonson, J. F. Butler, and W. H. Conwell.

Revival services are to be continued during the rest of the week, to be held by the pastor, Rev. Conwell assisted by Rev. O. J. Harmonson.

Two of Allendale's popular young people, Mr. Wilhelm and Miss Hattie Staten were married at Wichita Falls Sunday evening. Congratulations and best wishes are extended the happy couple.

School opened here yesterday with Mr. Geo. Alexander of Dundee as teacher. There was a very good attendance and more pupils will enter later.

Mrs. Barker and little son Hubert Carpenter of Wichita Falls visited Mrs. Barker's father, Mr. Whitten Saturday and Sunday.

Mr. and Mrs. Roy Jackson and baby of Oklahoma are visiting their parents here.

Ralph Sisk came home last Friday from a six months' visit to relatives in Comanche, Oklahoma.

Mr. Houston Edds left Saturday to visit his parents at Waco.

Writing By Phone.

A pentagraph of pantograph can be bought for about half a dollar. When it was first invented people who had never learned to draw hoped they would be able to draw with it as well as if they had learned. They could not and it was a disappointment. The little machine is still used in copying certain kinds of drawings.

You move a pencil over the lines of the drawings and another pencil is arranged so that it will make lines of the same kind. Handwriting can be copied fairly well in this way. The pentagraph can be used also in making drawings larger. These uses are not very important. Still the pentagraph turned out to be a very important invention. It gave the idea for the "telautography." By using the telautograph letters might be written from St. Louis to Chicago or New Orleans so that the handwriting at this end would appear on the paper at the other end of the wire.

As this is done by electricity, the writing might be sent as far as the wires would carry current enough to do the work. Or it might perhaps be done without wires. The machine is used now chiefly for short distance work. It is used in some hotels. It is said to work well in sending drawings of machinery from one part of a great machine shop to another. If the telephone had not been invented first, it might be a great money-maker. But most people, after they have had their first curiosity satisfied by seeing their own hand-writing carried to a distance would rather talk over the wires than to write over them. —Exchange.

Death of Miss Ella Huffstetter.

Miss Ella Huffstetter died at the home of her parents about four and one-half miles southeast of Wichita Falls on Saturday night at 6:20 p. m., aged 16 years, 8 months, 13 days old. She had long been a sufferer of the dread disease, heart failure and had been at the point of death for several days. Though loving hands ministered to her every want it was to no avail. She has formerly lived in this city and at Thornberry and has many friends who will deeply regret to learn of her death. For the past two years she had been a member of the Baptist church. Brother Boone had charge of the services which were held Sunday afternoon at Riverside cemetery.

About Noah's Flood.

Professor Herbert William Magoun of Redfield College is studying Noah's flood as one of the greatest events of reliable history. In his latest chapter on it, just published, he says that it changed the whole earth, creating enormous seas where dry land was before and sinking large parts of the land. He tries to judge it by evidence that he can still find of damage done.

On this record he writes that the flood could not have been a myth. He does not undertake to say how much of Asia was covered by it or whether all the land on earth was covered. He hardly thinks so. He has no doubt that the change of which it was part was felt throughout the whole earth. It began in what are now the United States and Northern Europe with the cracking of the earth's crust as great areas of land sunk to lower levels. He thinks the earth's crust gave way upwards or downwards toward the close of what is called the great ice age in this country and Europe. The destruction of life was enormous. Whenever men then lived, those who escaped saw the world changed as it has never been changed since.

The history of a flood of this kind, late in the history of the earth, is so plainly shown in many ways, that those who study the earth are fairly agreed about its main points. Some of them might not agree with Prof. Magoun that it was Noah's flood, but they might acknowledge that he has a right to call it so. The proof he relies on began with work done not quite a hundred years ago by a Scotch stonemason, famous now as Hugh Miller, who first showed how clearly the rocks may be read. Many learned men then had ceased to believe in a deluge. Now many of them believe in several. —Exchange.

NOTED BY A TOURIST.

Some of the queer things that were observed abroad.

About half one's time in traveling abroad is spent in buying stamps. No matter how many I put on a letter I had no faith to believe that it would reach America. I found that I could send a letter with one stamp on it if I paid enough for it, also that I could get a denomination of which it would take twenty. In Cairo I put fifteen sphinxes and pyramids on the front of a letter and five on the back. As for postal cards, imagine asking for one in the Belgian language—Worldpost-vervenenig!

But it is in a Mohammedan country that an American mind needs readjustment. We woke one morning in Constantinople and found our calendar nine days ahead of theirs, our watches seven hours behind and the name of the month Ramadan. The Mohammedans seem to live up to their religion in a more definite way than we do, and we soon learned what to expect. The porter would drop one's trunk when the muezzin called to prayer. The sacredness of animal life compelled us to walk around the hundreds of lazy dogs asleep on the sidewalk. We were required to take off our shoes instead of our hats when entering a mosque. Women were not allowed to pray, because they "have no souls." Friday was the day for Sunday, and a camera was an "evil-eye" and could not be carried into any sacred place. Our artist was once charged 20 cents extra for keeping an evil eye in his room all night.

Before the journey ends the tourist has lost his identity completely. At first he is from "Kalamazoo, Mich.," then from "Michigan," later "the United States," soon the "States," and the writer was once introduced to a gentleman from Tuscany as "the lady from North America." — Dellneator Magazine.

THE KINGFISHER.

A Bird Whose Ways Are Most Difficult to Observe.

Perhaps there is nothing in nature more difficult to observe than the ways of the kingfisher. Any one may see him glancing down midstream or making his sudden arrow flight from bank to bank under the bright June sunshine, but to track him down to his secret fishing place and watch him at work is a vastly more difficult thing. You come from the gold clad meadows into the shady river path as into a cathedral aisle. The willows crowd down to the water's edge. In the green reeds a sedge bird is fretting. There is a low twittering song of nestlings all round you. And now, in the shade of the deep of the willow wood, a shrill, piping note cuts the silence, a flash of emerald passes, a kingfisher has gone by on his way to his favorite pool.

A common notion is that he sits perfectly still on some branch overhanging the water, a picture of crafty vigilance. But this is rarely if ever the case. The truth is, says a writer in the London Chronicle, that the kingfisher, like the master he is, sets about his work with an easy surety, almost a nonchalance. Peering down upon him warily through the screen of branches you would judge that the last thing in the world he was thinking about was the gliding brown water below him. He twirls round on his perch, making his vivid green and turquoise and amber plumage scintillate like a dewdrop in the one beam of sunlight that has found him out.

He preens his feathers, stretches a lazy wing now and again, looks about him with a casual eye, and then, as if it were the merest trifling detail in life, he suddenly points his two inch long fishing spear of a bill at the water beneath him, plunges and is gone.

The Withering Wind.
The name of harmattan has been given a periodical wind which blows from the interior of Africa toward the Atlantic during the three months of December, January and February. It sets in with a fog or dry haze, which sometimes conceals the sun for whole weeks together. Every plant, every bit of grass and leaf in its course is withered as though it had been seared by heat from a furnace. Often within an hour after it begins to blow green grass is dry enough to burn like paper. Even the hardened natives lose all of the skin on exposed parts during the prevalence of this withering wind.

Painful Ailment.
Though gout is generally reckoned a disease of rich men and free livers, one of the worst of sufferers from it was a well known English minister who died not long ago.
A friend once said to him, "Dr. So-and-so, what is gout like?"
The clergyman smiled sadly. "If you put your hand in a vice," he said, "and let a man press as hard as he can, that is rheumatism, and if he can be got to press a little harder, that is gout."

Why He Came Back.
"Wasn't you here a few weeks ago?" asked the woman of the house at the back door.
"Yes'm," replied the wanderer, "but I understood from a pal that you're got a new pastry cook since then!" — Yonkers Statesman.

The Sure Way.
"How can we interest her?"
"Tell her it's a worthy cause," suggested one.
"Tell her it's getting to be a popular fad," interposed a wiser head.—Louisville Courier-Journal.

One of the luckiest things that can happen to a man is not to count on his luck.—New York Press.

A Queer Trial in Which Was Used

SHIPPING A CASE OF GOLD.

The Solution of the Difference in
Weight of the Box at Cape Nome and
at San Francisco—The Clever Move
of an Astute Young Lawyer.

One of the most interesting trials
that ever took place in any country
was that of James Stevens in the Cal-
ifornia courts for theft. The circum-
stances were as follows:

There were four prospectors in the
Klondike region when the gold fever
there was at its height, among whom
Stevens was one. They "struck it
rich," divided up and started out for
the United States. Just before leav-
ing Stevens got into a faro game and
lost everything he had. Winter was
coming on and he bade fair to starve
unless something was done for him.
So the other three decided to pay him
so much to guard their dust on the
ship and pay his way home to San
Francisco. They each had their share
of dust and nuggets accurately
weighed and then put them into a
common pile, pending, of course, their
reapportionment on reaching port.

This they placed in a strong box
which they nailed up and sealed care-
fully. It was Stevens' duty to watch
this by day and sleep by it by night
until the destination was reached.
There was exactly 200 pounds of gold
in the box, sworn to by a regular
weigher. It was worth a great deal
of money.

Well, everything went along smoothly
until San Francisco was reached, Stev-
ens seeming to appreciate what his
former partners were doing for him
and guarding his trust jealously. When
the ship came into port the box was
immediately removed, under the super-
vision of Stevens, to a place of re-
weighing, so that each could take his
share again and deduct so much for
Stevens' pay.

It was found that instead of having
200 pounds of gold as before there was
now only a fraction over 508 pounds.
The partners were loath to distrust
Stevens and had it reweighed twice,
but with the same result each time.

Reassured as they were of his guilt
and having contempt for such ingrati-
tude, they immediately swore out a
warrant for his arrest. He all the
time protested his innocence, but was
not able to account for the loss.

The poor fellow was thrown into
prison and held for trial. Not having
any money or friends, he gave up all
hope of being acquitted, as the cir-
cumstantial evidence seemed absolute-
ly against him. A young lawyer was
appointed by the court to defend him.
This young man, Thaddeus Wayne by
name, set to work on the seemingly
hopeless job with great enthusiasm,
as he had few clients anyhow and
plenty of time.

The case was soon called and all the
circumstantial evidence set forth.
Wayne did not even question a wit-
ness.

When all the testimony was in
Wayne requested the judge to allow
him to qualify Samuel L. Johnson,
teacher of physics in a high school, as
an expert witness. The judge, not see-
ing any relation of physics to the
theft, was about to refuse the young
man when a peculiar glimmer in the
latter's eye persuaded him to humor
the boy. Johnson was placed on the
stand, and the following colloquy en-
sued:

"With what does physics deal?"
"With natural phenomena, or the
changes in the state or condition of
matter."

"Does the weight of a person change
as he changes his location on the
earth?"

"Yes."

"Just how does that happen, and
how much does the weight change?"

"The weight of any body is greatest
at the poles of the earth, as they are
the nearest points to the center. It
gets less and less the farther we trav-
el toward the equator, for we go away
from the center. This effect is en-
hanced by the rotation of the earth,
bodies tending to fly off more at the
equator than near the poles. The com-
bination of these two makes a body
weigh one two-hundred-and-eighty-
ninth less at the equator than at the
poles and a proportionate amount for
distances between."

"About what fraction of its weight
would a body lose in going from Cape
Nome, Alaska, to San Francisco?"

"I should say about one in 300."

"Then gold weighing 600 pounds in
Nome could not possibly weigh over
508 pounds here, could it?"

"It could not."

It is needless to say that Stevens was
acquitted on this evidence. His former
partners were so sorry of their recent
suspicion and so eager to make amends
that they not only paid him the salary
they had promised him, but set him
up in business from their ample funds.

This fact is peculiar, but perfectly in
accord with reason. It is recognized
by the United States government. Ev-
ery time bullion is sent from Washing-
ton to the New Orleans mint a certain
amount of weight is lost in the mere
act of transit. So in order to get the
same amount of metal in each coin
compensating weights or those specia-
ly calibrated have to be used or else
special scales. If the weights are made
at Washington and sent to New Or-
leans of course they will lose in weight
and will weigh true on a pair of bal-
ances. But spring balances cannot be
used.—Lawrence Hodges in Denver
Times.

FLORAL HEIGHTS

Wake Up and Buy Some Lots In Floral Heights

Can't you see that delay means a loss to you. Don't you know that lots in Floral heights will soon be higher? Why not? They are certainly the cheapest and best located lots in and about Wichita Falls. They have the highest elevation, the purest atmosphere, the most picturesque view. They have the city water, graded streets, five cent car fare and, in fact, will soon have every modern convenience out to the bend of the car line. Wide concrete sidewalks are now being put down and several nice residences are under construction.

This is the only way the town can grow and the only way we will have street car service for several years. The Floral Heights addition is not a real estate man's proposition, but is an addition backed by over fifty of the leading citizens of Wichita County, who have the interest of Wichita Falls at heart and who are determined to make Floral Heights the swellest residence section of the city. Floral Heights is spending more money to boost Wichita Falls than all the concerns in the city put together, with the exception of the Chamber of Commerce.

Any agent in the city will be glad to give you prices and assist you in selecting your lots. Make your purchase today before the good lots are all sold. Cars leave the corner of 8th St. and Indiana Avenue every ten minutes for Floral Heights. Lots are sold on terms of one-third cash, balance in one and two years, 8 per cent interest.

If you have friends and acquaintances who would like to know more about Wichita Falls, call at our office, 617 8th Street, for nice literature to mail them.

AMUSEMENTS

"The Great Divide."

Henry Miller, the distinguished actor-manager, will send "The Great Divide," which has won recognition as "the long awaited 'great American play'" to the Wichita Theatre to-night.

The coming of this famous drama, which has recently been presented at the Princess and Daly's theatres in New York for over 500 performances, and is now being presented at the Adelphi theatre, London to capacity has for some time been held by our play-lovers as a bright spot in the indefinite theatrical future.

"The Great Divide" has added much to the celebrity of Mr. Miller as a producing manager and brought from dramatic obscurity into permanent renown an author who will have to be reckoned with from now on in the American drama. William Vaughn Moody had already become established as this country's leading younger poet. But until Mr. Miller had produced "The Great Divide" even Mr. Moody's best friends never suspected that the brilliant young poet could write a play which would be not only the most successful of its time from a pecuniary standpoint, but which would also be declared by leading critics to "set a new mark in American drama."

New York's verdict has been that, original, dominating and fascinating as Mr. Moody's play is, the author is under an overwhelming debt to Mr. Miller for the superb and illuminating way in which he developed its artistic possibilities, and to his superb company for their remarkable portrayal of the difficult characters. "The Great Divide" could easily have been ruined by less sympathetic presentation than was given under the painstaking direction of Mr. Miller. The play is in three acts, the first two being represented as taking place in Arizona and the third in Massachusetts. In a way, the drama is a conflict between the spirit of the East and the spirit of the West. An Eastern woman weighed down by generations of traditions and conventionality, is strangely wooed and still more strangely won by a Western man unfettered by custom and ignorant of restraint of mind or action. The mating of these opposite natures provokes great storm and stress and raises many intensely interesting and highly dramatic situations. One must see this masterful exposition of

STEPHEN GHENT.
In "The Great Divide" Company.

American manhood and womanhood as portrayed in this really great play to understand adequately how the storms are weathered and the problem solved.

Grand Opera.

A great surprise and a pleasurable one to music lovers is the announcement that Grand Opera is to be given at the Wichita Theatre this month. The International Grand Opera Co. of which press criticisms everywhere has been brilliant and flattering, will come here for a two nights engagement, thus giving two of the most popular grand operas. This will be a matter of great delight to all who like good music.

SOCIETY WOMEN'S HAIR.

A Simple Remedy That Will Make It Truly Fascinating—Mater-Walker Drug Co. Guarantees It.

Nowadays every up-to-date woman has radiant hair.

What a foolish creature a woman would be if she lost the opportunity to add to her attractions.

Yet in America today there are hundreds of thousands of women with harsh, faded characterless hair who do not make any attempt to improve it.

In Paris most women have beautiful hair, and in America all women who use Parisian Sage have lustrous and luxuriant hair.

And any woman reader of the Times can have attractive and lustrous hair in a few days' time by using this great hair rejuvenator, Parisian Sage.

Mater-Walker Drug Company sell a large bottle for 50 cents and they guarantee it to banish dandruff, stop falling hair and itching scalp in two weeks or money back.

Parisian Sage is an ideal hair tonic, not sticky or greasy.

WHI Prohibition Hurt Wichita Falls?
Vernon, Texas, Oct. 25, 1909.

I have not the time to detail to you the many benefits which we have derived from local option. Briefly however, will say, crime in the city court has been reduced 90 per cent, in the justice court 75 per cent, and in the district and county courts 50 per cent. We have a clean moral town since the saloons passed out.

I have statements from every business man in town, 75 per cent of whom voted against local option the first time. These statements show an increase of their business from 50 to 350 per cent since the money which had theretofore been spent in our seven saloons was turned into the legitimate channel of trade, and every one of these business men voted for local option when the matter came up the second time. We have a \$15,000 Baptist church, let a contract for a \$30,000 Methodist church, and every other congregation in the town is comfortably and handsomely housed. Over twenty new brick buildings have been put in since the saloon and its prosperity left us.

R. W. HALL.
Marble Falls, Tex., Sept. 4, 1909.
The volume of our business shows much greater after voting whiskey out of our county, while our losses are much less. Vote whiskey out of your county if you want business to have a healthy growth.

Let Us Give You a Pointer

RIGHT NOW is the time to build that new house that you've been figuring on. We are overstocked on just the material you'll need, so are in position to quote you very favorable prices.

As a matter of fact, we have large stocks and a good assortment of lumber, sash, doors, mouldings, and building materials of all kinds. And while "quality" is our long suit, still we will not allow ourselves to be undersold. If our price is not always lower than you can get elsewhere, it is at least as low. Anyway, it will pay you to get our figures.

A Gold Mine to All

The following is an analysis of water taken from a well on my farm two miles southwest of town, on the road to Lake Wichita; was made by G. S. Fraps, Ph. D., State Chemist, at the Agricultural and Mechanical College of Texas, on Oct. 12th, 1909.

This sample of water has the following composition, expressed in grains, per U. S. Gallon:

Carbonate of Lime.....	7.53
Sulphate of Lime.....	23.23
Calcium Chloride.....	15.68
Magnesium Chloride.....	22.19
Sodium Chloride.....	125.41

This water is classed as a mineral saline water. These waters stimulate the secretion of the stomach, increase digestion and favor a more complete absorption of the food. This water should have a laxative action, taken in small doses, and a purgative action taken in larger doses, on account of the magnesium which it contains.

Yours truly,
G. S. FRAPS.

This water will be delivered to any part of the city at 10c per gallon.
