Announce Six Million Dollar Aviation Consolidation

Gigantic Company To Operate Lines Throughout West

Universal Air Lines And Western Air Express Gain Control of Fokker Corporation of America.

Conduct Schools

A. P. Barrett, Fort Worth Man Purchases Texas Air Transport Company; To Expand Service.

(By Associated Press)

CHICAGO, Oct. 31.—Negotiations for a \$6,000,000 consolidation of nine aviation companies operating air lines, factories and scheduling throughout the middle-west were completed today with the announcement that the Universal Air Lines and Western Air Express had acquired control of the Fokker Corporation of America.

The combined company, to be named the Universal Aviation corporation, will operate routes between Cleveland, Chicago, and the Twin Cities, between Chicago, St. Louis, Kansas City and Omaha and between Detroit, Minneapolis and Fargo. Other lines are projected from St. Louis to Tulsa and Dallas and from Dallas to Columbus.

Work With Bus Lines. Louis H. Piper, Minneapolis, will lead the new concern with Frank Robertson, head of the Robertson Aircraft corporation, directing the St. Louis office. Working agreements for joint ticket sales have been made with the American Express company, the Greyhound bus lines and the New York Central and similar plans will be proposed to the Soo line and the Canadian Pacific railways.

The consolidated companies include the Universal Air Lines 47.5-

Group Named To Consider Parking

Walter A. Myrick Jr. Is Chairman of Committee To Work On New Plan; Changes May Result.

Walter A. Myrick Jr. was elected chairman of the Retail Merchants association's committee, recently appointed by the board of directors of the organization to work on suggestions for relieving downtown parking conditions, at a meeting of the committee Wednesday morning.

This committee is composed of J. A. Hodges, George Moore, Albert Pennington, Jack Parsons, E. L. Green and Mr. Myrick, at a meeting yesterday J. D. Hassell, president, acting as temporary chairman to start with.

A thorough study of all parking problems in the business district will be made by this group, and it is thought that several meetings will be necessary before all evidence for and against any suggested changes can be heard. The body will then make recommendations to the city commission as to its findings.

Youth Suicides; Follows Father

KERRVILLE, Oct. 31.—(AP)—Shooting in the head with a shotgun, Theo Paukratz, 20, committed suicide at his cabin near here as had his father and grandfather before him, a coroner's verdict held today. Paukratz apparently had been dead several days when motorists went to his house where he lived alone, after gasoline. A shotgun, held by his butt in a vise, was pointed at his head.

THOMAS JAMES DIES

LOS ANGELES, Oct. 31.—Thomas F. James, nationally known mining engineer and geologist and writer on scientific subjects, died here today at the age of 70 years.

Dead Cat Brings Suit of \$10,000

DALLAS, Oct. 31.—(AP)—Declaring the defendant sent her a dead cat by a messenger who said he had brought some flowers, and that when she opened the box she became unconscious, a Dallas woman today filed suit for \$10,000 against a dog and cat doctor.

When her house cat became ill, the woman, said she sent it to the defendant's hospital for treatment. The doctor killed the cat with her permission, but when the doctor returned it to her, after pussy had been dead a month, the allegation said, it was too much, and she was seriously damaged.

Cooking School Surpasses Past Housewives Say

Hundreds of Women Return For Third Day; Yeast and Breads Are Mrs. Dougan's Lecture Topics.

Declaring that this year's exposition in surpassing other free cooking schools conducted by the Avalanche-Journal, housewives of Lubbock continue to fill the auditorium of the Uptown Dance Palace each afternoon to hear Mrs. Myra O'Giver Dougan lecture.

Yesterday was the third day in this year's school and was devoted to the making of quick and yeast breads. Today's lecture will be devoted to cake making.

Among the hundreds of women who came into the hall yesterday

The cooking school program will begin at 5 o'clock this afternoon in the Uptown Dance Palace rather than at 1:30 o'clock. This change was made by Mrs. Dougan and those in attendance in order that more women might be included in today's lesson, which will be on cakes.

were those who had been in the school on Monday and Tuesday afternoons and who had been taking their recipes home to make the dishes for their families.

These women were unanimous in

See COOKING SCHOOL, Page 12.

Slight Quake Is Felt At El Paso

EL PASO, Oct. 31.—El Continental, Spanish language newspaper reports that a slight earthquake was felt at 9:15 p. m. Mountain time tonight from Jimenez, Chihuahua to Juarez and El Paso. The tremor was of about 20 seconds duration and it was reported that at Santa Rosalia, Chihuahua, several houses collapsed.

One Hundred and Ninety-Five Violate City Laws; Pay \$2,519 In October

Charges of Intoxication Top List of Violations; 35 Are Fined for Disturbing Peace While Motorists Totalling \$3 Aid In Contributions

"Bon Ami," again said J. T. Inman, police desk sergeant, as he exhibited an unscratched record book Wednesday. This was the second day during the past few weeks in which no fines were assessed at the police station.

The month of October's records of fines paid by city law violators, however, was available. It shows a total of \$2,519 collected from 195 law breakers.

Drunk Men Numerous. Don't tell anybody, but topping the violators in point of numbers and money paid to the city for their fines, there were 65 charged with being intoxicated. These shelled out a total of \$1,005 for their experiences. Fines this assessed were \$15 to \$75 of the lot, \$25 to four of them, and \$50 to one.

Next in volume of violations were 56 drivers of automobiles. Two motorists ran over a fire hose, 23 forgot to remember

Squad of Planes From Fort Worth To Visit Lubbock

Pathfinder Plane Arrives In City This Afternoon To Complete Preparations for Landing.

Here November 9

Local Temporary Airport Is In Fair Shape for Visit of Planes; Sponsored By Ft. Worth C. of C.

The pathfinder airplane, sent out by the Fort Worth Chamber of Commerce to learn and mark the trail of the big aerocade of 15 or more planes that are to fly from that city to many West Texas points, will arrive in Lubbock this afternoon at four o'clock, it was learned Wednesday.

The aerocade will arrive here at 10:30 o'clock on the morning of November 9, there being about 40 representative business men of Fort Worth in the personnel of the flying party. At that time a program is to be had including several speeches by local and visiting men concerning phases of airport and other aviation problems confronting the western part of Texas.

Land At Temporary Port. This afternoon, when the pathfinder, a Texas-Pacific Coal and Oil ship, according to a telegram received here yesterday from Fort Worth, it will land at the temporary airport, two miles north of town.

George Benson, chairman of the Chamber of Commerce airport committee, stated Wednesday that the field has been cleared of many obstructions, about 40 or 50 acres of it grubbed, and that this morning early the South Plains Pipe Line company will drag that section of the field through which their pipe line runs.

"The field is in very good shape," Mr. Benson declared, "and we will mark it off Thursday morning in

See PLANE VISIT, Page 12.

October Building Totals \$174,550

October's volume of building, \$174,550, was just a little more than half the total for September and \$4,500 less than that of the same month last year, the city building inspector's records revealed Wednesday.

This year's total, to date, however, which is \$2,327,169, is more than twice as much as the entire 12 months of 1927. October a year ago showed a total in building permits of \$179,000.

For the month of October, 1928, a total of 45 permits were issued, of which five were for repairs, remodelings and additions, while 33 residence permits were responsible for the greater portion of the volume, only one store building having been recorded.

One Hundred and Ninety-Five Violate City Laws; Pay \$2,519 In October

Charges of Intoxication Top List of Violations; 35 Are Fined for Disturbing Peace While Motorists Totalling \$3 Aid In Contributions

traffic light signals, nine didn't see the stop signals, nine parked their cars doubly where they should not have done so, and 19 others used entirely too much gas at 12 instances.

35 Disturb Peace. Disturbing the peace was responsible for 35 fines being assessed and paid, 16 gamblers lost in games of hide and seek with the policemen, one who was "sweating" at one of these games paid off the same as the guilty ones, a theater owner paid four fines for opening his theater on four different Sundays, eight were fined for fighting, four for trespassing and one for interfering with an officer.

Outside of this, cotton pickers continued to pour into the city until the rains stopped them; business resumed its daily routine of problems as usual, and politics boiled, unusually.

Boy Gangster 'Squeals' to Police Youthful Pal Charged With Murder

Slaton Officers Confiscate Still And Much Liquor

Logan Rogers Held In Connection With Escape Of Brother-In-Law; 70 Gallons Taken.

Between 60 and 70 gallons of whiskey, contained in quite a number of one-gallon glass jars and kegs, together with a complete still, were confiscated and one man arrested at Slaton shortly after midnight Tuesday, D. C. Hoffman, constable, and Sam Selmon, deputy constable, made the raid, which was within two blocks of the public square.

Deputy Selmon stated in Lubbock Wednesday afternoon that he and Hoffman had arrested a man, named Logan Rogers, and put him in the Slaton jail about one a. m. Wednesday, and that the prisoner escaped at about 6 o'clock. From an inmate at the jail they said they learned that Rogers called to a small boy who was passing, during the night, and asked him to go tell Rogers' brother-in-law, Carter Shaw, that he was in jail.

The officers, believing that Shaw furnished Rogers with a hackshaw so he could make his escape, arrested Shaw at 9 a. m. and brought him to Lubbock, along with the confiscated whiskey and paraphernalia. Charges of helping to assist a prisoner to escape were said to have been filed against Shaw, who was placed in the county jail here, at 1:30, yesterday afternoon.

MAY BE RECORD HOP 12-Passenger Plane Makes 177 Mile Average Speed

LOS ANGELES, Oct. 31.—(AP)—What local authorities believe to be a record for a commercial air transport, was made today by a 12-passenger plane of the Western Air Express when it averaged 177 miles an hour on a flight from Oakland to Los Angeles, a distance of 385 miles.

The airplane, carrying its full quota of passengers, two pilots and one express, left Oakland at 8:40 a. m. and arrived here two hours and six minutes later.

PHILADELPHIA, Oct. 31.—(AP)—Four robbers armed with sawed-off shotguns held up the office of the Gulf Refining Company, 31st Street and Gray's Ferry Avenue, today and snatched with a payroll of \$10,000.

WASHINGTON, Oct. 31.—(AP)—A prediction of Republican victory was made today by Herbert Hoover in his final conference with Washington newspaper men.

"We shall win this election without any question of doubt if the people who believe with us will go to the polls," he said.

PHILADELPHIA, Oct. 31.—(AP)—Four robbers armed with sawed-off shotguns held up the office of the Gulf Refining Company, 31st Street and Gray's Ferry Avenue, today and snatched with a payroll of \$10,000.

WASHINGTON, Oct. 31.—(AP)—The proposed Federal building to be erected on the accepted site will cost \$140,000. Against this sum Congress appropriated \$50,000 last session for acquisition of a site and commencement of work on the building.

(Exclusive Central Press Dispatch to The Avalanche)

NASHUA, N. H., Oct. 31.—Adam Goodvitch broke the immutable law of the gang. He squealed. So he was shot, paying with his life for violation of gang law. Frank Rokas and John Misking were arrested and locked up, Rokas charged with the killing.

Just another outbreak of a Chicago gang war? Another rum running feud? Nothing of the kind. Just three Nashua children involved in one of the strangest killings the state has ever seen.

Goodvitch, the victim, was 12 years old. Rokas, accused of the actual killing, was the veteran of the gang. He is 17, and is said to have made a confession to police. Misking is 10. Rokas faces a life term for first degree murder, being saved from the possibility of execution by his age, and Misking may get an indeterminate term.

How long the activities of the Chicago gang had been carried is unknown. But there were stories that one or more of the boys had been seen with huge rolls of bills, as they came under suspicion. Finally a hardware store was broken into, and much valuable goods stolen. Police went to the grade school attended by the three boys, and had them brought to the police station for questioning.

Goodvitch was inclined to answer police questions, while the other would say nothing. Misking repeatedly nudged Goodvitch in an effort to make him hold his tongue. But the police got enough out of the lad, and found the cleverly concealed hole where the loot had been stored. The boys were released with instructions to come back the next morning to have their cases disposed of, with the warning that they would probably be sent to the state industrial school.

The next morning the three youngsters met at school, but left the school together. Police say Frank and John were still "sore" at Adam for "squealing," and took him to the place where they had hidden revolvers. Adam never came back alive.

In a juvenile attempt to build up an alibi, Frank and John tried to place the loot in the industrial school, saying they knew they were to be sent there, and wanted to be early on the job, according to police. The body was found a few hours after they reached the school.

West Gets More Wintry Weather

DENVER, Oct. 31.—(AP)—Heard by falling mercury and a rising wind, intermittent rain squalls early this afternoon turned to snow to night, paralyzing air mail service and threatening rail and highway traffic.

OMAHA, Neb., Oct. 31.—(AP)—One of the worst early season blizzards on record in western Nebraska was moving eastward over the state tonight with indications that it would reach Omaha tomorrow morning. From four to six inches of snow has fallen over Nebraska's panhandle, and fear was expressed for stock on the open ranges.

OKLAHOMA CITY, Oct. 31.—(AP)—Sweeping out of Canada and the Rocky mountains, wintry weather is forecast for Oklahoma tomorrow with rain and snow.

Hoover Predicts Republican Win

WASHINGTON, Oct. 31.—(AP)—A prediction of Republican victory was made today by Herbert Hoover in his final conference with Washington newspaper men.

"We shall win this election without any question of doubt if the people who believe with us will go to the polls," he said.

Government Picks Site For Federal Building In City

Southeast Portion of Court House Square Accepted By Government for Place For New Postoffice.

Fund Is Available

Sargent Must Approve Title After Which Construction May Start; Site Is Sold For \$1

(By Associated Press)

WASHINGTON, Oct. 31.—A free site for the location of a Federal building at Lubbock, Texas, has been donated the government by the county in which the city is located, and was accepted today by Assistant Secretary Carl Schuman of the treasury. The block of land, 170 feet by 210 feet in dimension, is located on the Central Square in Lubbock, and title will pass to the government for a consideration of \$1.

Attorney General Sargent has been asked to approve the title and when that is done the present appraisement of \$100,000 for the construction will be immediately available.

The courthouse site was selected over two other bids. One was from the City of Lubbock near the city hall for \$1, and the other by individual owners on Texas Avenue at a cost of \$2,000.

Postmaster John L. Vaughan said yesterday that the acceptance report was undoubtedly authentic. He expects to receive official notification of the action within the next few days.

The proposed Federal building to be erected on the accepted site will cost \$140,000. Against this sum Congress appropriated \$50,000 last session for acquisition of a site and commencement of work on the building.

Railroads to Use Electric Service

NEW YORK, Oct. 31.—(AP)—Electrification of the entire Pennsylvania train service, freight and passenger, between Wilmington, Del. and New York, has been authorized by the directors, President W. W. Atterbury, announced today. The cost will be approximately \$100,000,000 with the work scheduled for completion in seven or eight years.

LIVE WIRE IS FATAL

MeAllen Youth Is Killed In Installing Fixtures

EDINBURGH, Oct. 31.—(AP)—Coming in contact with a live wire while installing plumbing fixtures under the name, Lawrence F. Smykal, 26, of MeAllen, was instantly killed today at Pinar, near here.

Rainy Spell Is Beneficial To Crops But Puts Roads In Bad Condition

Bus Schedules Delayed In All Directions; Reports From Area Given General Fall; Cotton Will Be Much Benefited By Dampness and Cold

Coming immediately on the heels of Monday's rain, the down-pour of Tuesday and Wednesday has completely stopped activities of cotton pickers, besides making many roads in the South Plains practically impassable.

West farmers have been greatly helped by the rains, as in many localities they were very badly needed, and the damage done to the cotton crop is not considered as much consequence. The color of the grade of feed stuff, that remaining in the fields uncut or shocked, has been damaged, according to Don L. Jones, of the state experiment station. He said he did not think the feed crop was otherwise damaged, and stated that the open cotton grade, that near the ground, is also damaged to some extent.

Bus Line's Schedules Broken. All bus lines were delayed by muddy roads, some scheduled trips were made from Biggsfield to Lubbock, but to be cancelled. Two trips

Last Opening Of Opera Is Given

CHICAGO, Oct. 31.—(AP)—The time stained auditorium, associated for third of a century with Chicago's musical accomplishments, tonight resounded for the last time to the thunderous applause of an opening night at the opera.

In the theater that next year will be displaced by a huge skyscraper in Wacker drive as the new home of opera, the Chicago civic opera company opened the season by presenting "Garmen."

The boxes were a glittering display of costly jewels and stumping gowns blossomed there amid on the main floor as well.

Dr. Hunt Makes Scathing Attack Against Smith

McMurry College President Speaks to Crowd In Rally For Hoover Here Last Night; Says Much

Declaring that "the political lawyers who are on the stump speaking for Governor Alfred E. Smith, are defending a patron of the bootleggers," and that a lot of Catholics are not going to stand for a dirty, drunken bum, like Al Smith," Rev. Dr. J. W. Hunt, of Abilene, president of McMurry college, spoke for two hours before a gathering of about 200 Lubbock citizens in the county courthouse here Wednesday night.

Dr. Hunt's speech was mostly occupied with scathing remarks about Governor Smith, Tammany Hall, Senator Robinson, Senator Sheppard and the "political lawyers." He touched upon religious bigotry and intolerance, the Catholic church prohibition and finished with stating that Herbert Hoover, "is the greatest philanthropist of all time, a world citizen" in reviewing Hoover's record from boyhood, the minister said that the republican nominee for president, "is a real American, a Christian gentleman, son of a village blacksmith, his mother a Quaker preacher," and closed with the statement that "only two great

Giant Dirigible Completes Flight In 68 Hours Time

Thousands Gather In Home Town to Watch Landing Of First Trans-oceanic Commercial Voyage.

Flies 4,300 Miles

Rain Falls To Halt Crowds As Ship Waits Nearly Three Hours to Land On German Soil.

(By Associated Press)

FRIEDRICHSHAFEN, Nov. 1.—The Graf Zeppelin landed at 7:06 a. m., today mid-European time (1:06 a. m. E. S. T.).

(By Associated Press) FRIEDRICHSHAFEN, Nov. 1.—(Thursday)—The Graf Zeppelin arrived over her home port at 4:50 a. m. mid-European time (10:50 p. m. Eastern Standard Time), just 68 hours and 56 minutes from the start of her flight.

She had completed the first round trip commercial air crossing over the Atlantic. The distance from Lakehurst, New Jersey, which she left at 1:54 a. m. Eastern Standard Time on Monday, was estimated at 4,003 miles.

People Gather In Town. With the approach of the dirigible the population of the town, swelled many times its normal size, was aroused by volleys of saluting shots. The people rushed pell mell to the airbase where the crews of the Zeppelin works were already assembled at the hangar.

The airship, however, did not go directly to the field but cruised about over the town. It was raining but there was no wind. The ship

Torchlight Parade Is Smith Welcome

Candidate Rides Over 12 Miles of Highway Illuminated by Torches To Newark Address.

(By Associated Press) NEWARK, N. J., Oct. 31.—Welcomed to New Jersey by a torch light parade, Governor Alfred E. Smith, tonight, in the same hall, where his rival for the presidency spoke earlier in the campaign, accused the republican party of attempting to fool the American people on farm relief, labor, tariff, prohibition and a number of other issues.

Has Long March. On crossing the Hudson river from his home state of New York, the democratic nominee passed over more than 12 miles of highways in Jersey City and Newark between lines of people who illuminated his pathway with red and white flames.

The Governor was welcomed to 113th regimental armory of the New Jersey national guard with shouts, cheering, the tossing of papers and the shrieks of horns.

THIS HAS HAPPENED
JERRY RAY decides that love is a delusion and makes up her mind to marry for money.

But their camp is wrecked the first evening when an airplane crashes into it, injuring Jerry.

Now go on with the story
CHAPTER IV
It was the novelty of the noise she heard...

Let's get something to eat," she said, reaching for her shoes and stockings.

"You'll have a tough time if you're always so overcome with his ribs glory that you can't eat in his presence," Myrtle teased her.

"Well, anyway, I'm glad you made it with him," Myrtle broke in on her thoughts.

Jerry stood still and looked at her unsmilingly.

"That's the trouble with most girls like us," she said quietly.

When Edgar Poe lost his Lenore
His grief was hard to take,
But should I lose my good Tom Moore
I know my heart would break.

money is the villain in the piece
And it's a sure thing you'll never interest a man by showing him you think he's better than you are.

Jerry said nothing more and in a few minutes they were trying out the new oil stove and finding it satisfactory.

Myrtle noticed that Jerry frequently cast her eyes in the direction of the highway and assumed that she was thinking of Alister.

An hour passed. She told Myrtle that her head was aching and her friend suggested a swim.

Jerry seemed reluctant to leave the house, but she gave in after a little coaxing because she did not want Myrtle to guess what was on her mind.

Jerry stood still and looked at her unsmilingly.

"That's the trouble with most girls like us," she said quietly.

"I wouldn't want to marry Alister Carstairs without knowing him better," she said sharply.

Jerry flushed darkly.

not recognize any of the occupants
"Let's go up and get acquainted," Myrtle said, swimming for shore.

By three o'clock Jerry was really pale and tired. The men had gone, though the plane remained.

He came in a black roadster with yellow leather upholstery and much gleaming nickel.

She nodded without looking at him. He jerked his head around to sight the road ahead, then turned back to her.

Jerry let him look with her eyes straight ahead. She wondered at herself.

Jerry flushed darkly.

"I wouldn't want to marry Alister Carstairs without knowing him better," she said sharply.

Jerry flushed darkly.

Jerry flushed darkly.

opened to her head.
Alister was satisfying himself that she was as pretty as he had thought last night.

"Well, I'm going up and get dressed," Myrtle announced firmly after a while.

He came in a black roadster with yellow leather upholstery and much gleaming nickel.

She nodded without looking at him. He jerked his head around to sight the road ahead, then turned back to her.

Jerry let him look with her eyes straight ahead. She wondered at herself.

Jerry flushed darkly.

New York 1905, sales 250. New Orleans 1896, sales 5,074. Dallas 1915, sales none to arrive 11,218. Houston 1890, sales 188, to arrive 3,629. Galveston 1895, sales 187, to arrive 2,200.

SUMMARY
Liverpool was slightly better than due and together with continued rains and reports of frost in some localities caused the American markets to open up eight to 11 points on the New York Exchange and 13 to 16 points on the New Orleans exchange. Weakness soon developed and a decline of around 30 points was suffered before much opposition was met. Shorts covering caused a rally during the last hour of trading but evening up and liquidations sent prices down a few points at the close. It was a perfect trading market. Norman Mayer & Co. wired, "Weather outlook very unfavorable but holiday here tomorrow checks bullish sentiment. Advise buying on setbacks."

Killing frosts were reported at Morrilton, and Blytheville, Ark.

WEATHER
The map showed scattered showers across the cotton belt. The Weather Bureau reported a tropical storm in northwest portion of the Caribbean sea. At noon the eastern cotton belt was mostly fair, the central belt ranged from clear to cloudy and the western belt ranged from clear to cloudy with rain at some points in the northwest.

APPOINT PROBE HEAD
Philadelphia Man To Lead School Investigation

WASHINGTON, Oct. 31. (AP)—Dr. Edwin C. Broome, superintendent of schools at Philadelphia, today was appointed chairman of a committee of ten of the national education association to investigate the use in schools of publicity materials supplied by propaganda agencies and organizations.

SESSION IS POSTPONED
AUSTIN, Oct. 31. (AP)—The supreme court's regular weekly session will be held tomorrow instead of today on account of absence of Justice T. B. Greenwood and William Pierson, from the city.

WEEKLY CROP AND WEATHER REVIEW
Washington, D. C., Oct. 31.—Until the closing days of the week fair weather was the rule over the cotton belt which was generally favorable for picking and ginning. The entire period had good harvest weather over the eastern belt but rains near the close of the week interrupted picking and ginning in the northwest. This week however, is well along in all sections. Some cotton in northwestern Texas was blown out by high winds, and some local harm to staple is reported by rains of last week in the central northern portions of the belt. Light frosts in some northern sections did little or no damage to the cotton crop.

Liverpool cabled: "Hedge selling in cotton market and Manchester. Continental and Bombay liquids-

How to Achieve Beauty

BEAUTY BUILDS A HOUSE Plans and Specifications. It certainly does sound technical. In fact, now that I have actually found my title, I am distressed by its very magnitude. For I must admit that like the great majority of my sex the slight of a blue print turns me pale!

SHOWER TEACHER Women in Gleamers Class Honor Mrs. Ballenger

Women in the First Baptist Gleamers class were guests in the home of Mrs. Hubert L. Allen, 2122 17th street, Tuesday afternoon in a regular social meeting of the group. A shower of gifts was presented to the teacher, Mrs. C. M. Ballenger, to indicate the love of the class members for her.

HOSTS AT BRIDGE Mr. and Mrs. Hurd Jones Entertain Friends

Mr. and Mrs. Hurd B. Jones were charming hosts Tuesday evening to a group of friends in their home at 1516 Avenue M. Bridge was played. High score prizes went to Mrs. Rose McWhorter and Amos Howard and consolation prizes went to Mrs. Carl Roberts and Frank Winn.

MEET NEXT MONTH Junior High Parent Teacher Meeting Postponed

A meeting of the Junior High school P. T. A. scheduled for this afternoon, has been postponed until the first Thursday in December because of the Avalanche-Journal free cooking school, the president Mrs. C. Y. Partain, announced yesterday afternoon.

BRIDGE CLUB MEETS Mrs. Louis Howard Hostess Tuesday Afternoon

Triangle club members were guests of Mrs. Louis H. Howard Tuesday afternoon at a party given in Mrs. Ragdale's tea room. A delicious salad and pie collation was served at the bridge games in which Mrs. Fred Standefer and Mrs. Harold H. Griffith made club and visitors high scores.

The Woman's Day

By Alene Sumner

The bravery and confidence of the women left behind was stressed in all reports of the sailing of the Graf Zeppelin for America. We were told of white-haired and smiling Mrs. Eckener whose husband commanded the craft and whose son was an engineer.

ALL BUNK! As a woman I dare wager any treasure that there are many more reports, their version of what a wife and mother should be like at such a moment. This tradition of woman's ability and willingness to wait, and her lack of misery while so doing, is a male-created myth designed to make men more comfortable while out about their own affairs without the worry of grieving women at home.

NIGHT WORK The evil of women working at night is pointed out by the Women's Bureau of the U. S. Labor Department which advocates legislation forbidding the employment of women at night in any state.

YOUR CHILDREN

Which is worse, not to give a child the things he should have or to give him things he should not have? Both are perhaps equally bad. One causes malnutrition and disease. A few don'ts in the case of wrong feeding, like the sober second thought, are always essential and seldom wrong.

Don't give him any pastry such as pie or cake, made with butter or other shortening. Butter change its composition when cooked, especially when added to sugar. A little plain sponge cake, without butter, or cookies without butter won't hurt him, however, after he is 18 months old.

Color... flaming... beautiful to make your salads more appealing

Mrs. Dougan tells you all about it at the Cooking School

There is something new in salads and Mrs. Dougan tells you about it at the cooking school this week. Mrs. Dougan will show you how to employ Gebhardt's Eagle Chili Powder in the decoration of salads and how this unusual condiment gives that finishing touch of color so desired.

Be certain to get a copy of "Salads Alluring and New," by Alice Bradley—a beautiful booklet in full color devoted entirely to the art of salad making and decoration.

DANCE IS GIVEN Mrs. Logan Entertains With Halloween Affair

Mrs. H. E. Logan, assisted by Mrs. V. E. McCoy, gave a Halloween dance at her home, 1505 Avenue O, having the following as guests: Messrs. and Mesdames Guy Graham Will White, J. S. Collins, A. L. Brown, Frank Heath, H. A. Lattimore, V. E. McCoy, Misses Ruth and Yveta Flemmons, Mary Duval, Mary Dillard and Messrs. Ed Duke, Hill and Brunson.

HALLOWEEN PARTY Mrs. McKinley Entertains For Two Children

Mrs. G. B. McKinley entertained on Tuesday evening from 7 until 8:30 o'clock with a Halloween party for her children. Grace and Lewis, at the McKinley home, 1933 8th street. With the house in Halloween decorations, games for the season were played and refreshments were served to Lanelle Allen, Julius May, Laura Maude and Carl Horne, Earl Maxine, Zula Pearl and Ralph Block, John Robertson, Archie Brock, C. W. R. Lee and Archie Chiam and Neil McKinley.

FINAL REHEARSAL Methodist Women Practice Pageant Tonight

The final and dress rehearsal for the pageant, "Methodist Womanhood," is to be conducted this evening at the First Methodist church at 7:30 o'clock. Mrs. T. A. White, director, has announced.

POSTPONE PARTY Sunday School Class Party Will Not Be Held

A party which was announced for this evening in the home of Mr. and Mrs. Sam T. Davis for members of Mrs. E. W. Camp's Sunday school class has been postponed because of the death of Mrs. W. A. Whating. It was announced last evening.

HOUSTON—Because he was dying of old age and the wonders of veterinary science could not save him, "Old Milla," a mule which spent the 30 best years of his life in the service of this city, has been shot to death.

Hoover Will Carry Texas

The conspiracy to deliver Dry Democrats to Tammany Hall and the Liquor Interests has failed in Texas. Prohibition Democrats will vote as they want to vote. They will not be led astray by false issues injected into this campaign designed to hide and obscure this the paramount issue.

Below we have set out the testimony of the candidates and their supporters. Consider it well and you will vote for Herbert Hoover to keep this nation dry. Added to this, we want you to consider the statements of

HERBERT HOOVER DRY Wants It to Succeed

AL SMITH WET Would Destroy It

1-HERBERT HOOVER

"I do not favor the repeal of the Eighteenth Amendment, stand for the efficient enforcement of the laws enacted thereunder." (Speech of Acceptance.)

2-HERBERT HOOVER

In his Newark speech said prohibition had contributed greatly towards the prosperity of the nation.

3-HERBERT HOOVER

In his Tennessee speech said that he did not favor the repeal of the Eighteenth Amendment "I want it to succeed."

4-WOODROW WILSON

"The Eighteenth Amendment should never be changed. The Volstead Act should never be changed." (The above was among the last written utterances of the late president. Article of Josephus Daniels in Manufacturer's Record of Aug. 23, 1928.)

5-EVANGELINE BOOTH

"Applications for relief in our slum settlements have been reduced fifty per cent since prohibition. The families in the districts we visit are better fed, better clothed and better housed." (Saturday Evening Post, January 28, 1928.)

6-DR. GEORGE W. TRUETT

"The election of Governor Smith would be a National and International tragedy." (Home and State, November, 1928.)

7-CONE JOHNSON

"National prohibition can not exist at the same time with local prohibition under the 'doctrine of States' rights and local self-government. This would destroy the Eighteenth Amendment." (Houston Post-Dispatch, October 18, 1928.)

8-CHARLES A. LINDBERGH

The following message was sent by Col. Lindbergh to Herbert Hoover, October 3rd: "I have recently flown to St. Louis to register. The more I see of this campaign the more strongly I feel that your election is of supreme importance to the country. Your qualities of a man and what you stand for regardless of party make me feel that the problems which will come before our country during the next four years will be best solved under your leadership." (Mobile Register, A. P. Item.)

Statements made by Governor Dan Moody in his Harmony Speech, April 7, 1928, as reported in the Dallas News of April 8th.

There are but two subjects on the public mind of Texas at this time, the candidacy of Al Smith and prohibition. His candidacy, as expounded by his chief supporters, is based upon the fact that he is opposed to prohibition and upon the theory that his opposition to prohibition will carry certain votes in the north and east which would otherwise go Republican.

A dry platform and a candidate opposed to such a platform is an incongruity that no party of self-respect can offer to the people and hope to maintain the respect of the people.

Hoover Leads in Texas!

The Literary Digest of November 3, 1928, showed that Hoover will carry Texas. Hoover's vote in Texas, according to the Digest poll, was 52,864 and Smith's 38,626. It was also shown that 55 Democrats out of every 100 in Texas are going to vote for Hoover.

We call upon all Hoover supporters to assist financially in this campaign. Mail all checks to Carr P. Collins, Treasurer, care Southland Hotel, Dallas, Texas. We want to run more advertising.

Anti-Smith Democrats of Texas ALVIN MOODY, President

Call at or write Anti-Smith headquarters, Southland Hotel, Dallas, Texas, for sample ballot, which shows a Democrat how to vote for Hoover.

Matadors Leave Today For Clash With Daniel Baker

Tech Freshmen Meet Clarendon Bulldogs In First Game Here Monday

Bull Fighters In Prime Condition For Tilt Friday

Gridders Wind Up Training On Wednesday Afternoon With Light Workout; 29 To Make Trip.

The Matadors put the finishing touches on their training Wednesday afternoon and will leave at 11:45 today for Brownwood where they will meet the Daniel Baker Bull Bulldogs Friday. Coaches Freehand and Payne are taking twenty-nine members of the squad to the clash with the T. J. A. eleven.

Only a light workout was on the program for the gridsters in their final session yesterday afternoon with the squad in excellent physical condition for the fray Friday. The coaches spent most of the afternoon on sign drill and further preparation for the Hill Billy attack.

With Clarence Hodges back in the lineup, the Matadors will be much stronger than they were last week against the Horned Frogs. Hodges performance as a line buster is expected to add a great deal of ginger to the Matador offense. He will alternate with Woodbridge and Hill at the fullback position.

Reports from Brownwood indicate that the Hill Billys are primed to give the Tech eleven a hard battle when they meet Friday. A 13 to 7 defeat at the hands of Tech last year has instilled a stubborn determination within the Hill Billy camp to avenge this stinging defeat.

Those who will leave today for the game are: Coaches E. Y. Freehand, and Victor Payne, Elmer Archibald, Orville Brothers, Red Carpenter, Glenn Coppage, Vaughn Corley, Chubby Devitt, Jack Durham, Clarence Hodges, Sid Knowles, Duke Lassiter, Jess Lockhart, Bill McWilliams, Paul Marz, Ameral Payne, Bruce Reed, Red Smith, Tubby Viles, Toughy Vermlion, Dennis Vinsant, Levi Walker, Ransom Walker, J. D. Waller, Charlie Woodridge, Westy Westerfelt, Jake Anderson, Volney Hill, Henry Hempel, and J. E. Tadlock.

The Matadors will arrive in Brownwood at 8 o'clock tonight.

Slaton Tigers To Finish Schedule

Although Defeated by Post Antelopes, Tigers Will Play Five More Games In District Race.

SLATON, Oct. 31. (Special)—Although defeated by the Post Antelopes, 19 to 0, here last Friday, the Slaton High Tigers will finish their season's football schedule as arranged at the beginning, according to C. L. Stone, superintendent of Slaton schools. Chances for winning a district title this year have vanished for the Tigers, unless Post is later downed by some other team.

The schedule calls for these other titles: Lockney at Slaton, November 7; Lamesa at Lamesa, November 12; Paducah at Slaton, November 16; Brownfield at Brownfield, November 21, and Floydada at Floydada, November 22.

The Slaton eleven has won district championships several times in the past three or four years, and last year took bi-district victory over the Canyon Eagles after beating the Floydada whirlwinds for the title of District 2. This year, however, the team is composed mostly of material only two letter men being on the squad. There are no heavyweights on the team, and most of the members are comparatively light in weight.

Longhorns Train In Track Shorts For Mustang Tilt

AUSTIN, Oct. 31. (Special)—Texas university football players, training for "crucial" game here Saturday with Southern Methodist university, practiced today in track suits. Rainy weather made full uniform training impracticable. The Longhorns took advantage of the relief from heavy work to improve their speed, of which they will need plenty to withstand the swift running and passing Mustangs from Dallas.

Defense against the superior brand of passing employed by E. M. U. is still not developed sufficiently to satisfy Coach Clyde Littlefield, and much of the remaining two days of practice will be devoted to improvement of this department.

Yale May Play In West During 1931

CHICAGO, Oct. 31. (Special)—Yale may come west for a football game with the University of Chicago in 1931. Amos Alonso Stagg, director of athletics at Chicago, today said he would accept the contest, if offered, but that he has had no correspondence or negotiations with Yale athletic authorities. The report was started in New Haven today, but Yale authorities withheld comment.

Strolling Down Sports Lane

With Allan Carney, Avalanche Sports Editor

A host of Amarillo boosters, together with the high school band and pep squad, will descend on Lubbock Saturday morning for the battle that afternoon between the Sandies and Westerners. Reports from the Panhandle metropolis indicate that more than 500 will board the special early Saturday morning. The Amarillo delegation is coming with but one thought in mind, and that is to crush Lubbock High.

We haven't seen the famous Sandstorm aggregation in action this season, but we do feel prepared to state that neither Amarillo nor any other high school team can crush the Westerners. The Sandies may win. The hope is all in their favor. But the fighting spirit of the boys who have been toiling daily under the tutelage of Henry Franks and Del Morgan is not to be downed. Win or lose, they will be in there fighting every minute of the game until the last gun sounds.

The outcome of the game Saturday is certain to determine whether or not Amarillo is to represent district 1 in the interscholastic race this year. The Westerners have been ceded the best chance to stop the stampeding Sandstorm eleven, and for this reason the contest will be watched with much interest.

While the Western-Sandstorm battle is being waged on the Tech gridiron Saturday, two other conference games will be in progress. The Plainview Bulldogs, already counted out of the running after decisive defeats at the hands of Amarillo and Vernon, will invade Wichita Falls to meet Bud McCallum's Coyotes. The Electra Tigers and the Vernon Lions tangle at Vernon.

While the Lions emerged from their tilt with the Wichita Coyotes with the big end of a 12 to 7 score, it is by no means considered certain that the Lions can walk away with a victory over the Fighting Tigers who outplayed Wichita two weeks ago. Coach Sandstrom's eleven is one capable of dealing misery to any high school aggregation.

In assessing total of 197 points in two conference games, the Sandies appear on the surface to be off for another district championship. With Lubbock and Vernon the only other undefeated teams left to stop the march of Coach Smith's powerful aggregation, another title for the Sandies seems almost certain—if it were not for a number of salient facts to be considered in the game here Saturday. The Westerners are in a fighting mood and the Sandies will have to show more power than at any other time this year if they succeed in overcoming the local gridiron warriors.

Amarillo piled up that impressive score on two teams which are generally considered the weakest in the district. Amarillo has played every game this season at home. Amarillo meets the Westerners in Lubbock. Amarillo will be facing one of the fightingest teams that ever went forth to battle. That's what we say it will be a toss-up. What do you say?

Aerial Circus Is Promised At Game

AUSTIN, Oct. 31. (Special)—An aerial circus unmatched in southwest gridiron history loomed today as the piece de resistance for football followers who will witness S. M. U. and Texas in their annual gridiron dispute here Saturday.

Reports of dark-horse ball carriers and new styles of attack accepted belief around the Mustang campus today that the unerring accuracy of Redman Hume and Sammy Reed in hurling passes was the hope that the Ponies held for a victory. Texas flashed an overhead drive in its game earlier in the season here with Vanderbilt.

King, Beuler and others who wear the Orange would be acceptable members among the best of the leather-tossing fraternity. Rhoades and Rose are proficient in plucking the pigskin from the air.

SPUDS GET RECRITS

WICHITA FALLS, Oct. 31. (Special)—President J. Alvin Gardner of the Wichita Falls Spudders of the Texas League today announced acquisition of two southern pitchers, a shortstop and a catcher by draft from minor leagues. The pitchers are Fred Staley from the New York-Pennsylvania League and Edwin Ellis from the Southwestern League. George Spitzer, a shortstop, comes from the South Atlantic League, and Jack Crouch, backstop, from the Joplin club in the Western Association.

Bears Hold Edge On Horned Frogs In Contests Won

Football Relation Between Baylor and T. C. U. Dates Back to 1904; Teams Have Played 24 Games.

FORT WORTH, Oct. 31.—When the Baylor Bear invade Fort Worth next Saturday for a game with the Texas Christian University Horned Frogs, the fray will be a continuation of a long line of such conflicts. Years ago, when the two schools were located in Waco, the gridiron rivalry began, and throughout the years the teams have battled nearly equally.

Since 1904 the teams have played 24 games, three games a season have occurred in 1904, 1907, 1908 and two games between the clubs in 1910. Of these 24 contests, the Bears have been victorious in 11 while the Frogs have won 9. Four games ended in ties and for seven years no games were played. The school met every year excepting 1905, 1906 and 1913, up to 1921. From 1921 until 1925 there was no game between them.

The modern era of competition began in 1925, with both teams members of the Southwestern Conference. The game that year was played at the State Fair in Dallas. The score that year was 7-7 and the game was played in a sea of mud. The next year the rain again poured down during the contest, and the score was again 7-7.

Frogs Win Last Year The next year, with the consent of both schools, it was agreed that the game should be played on one or the other's home field. Baylor was the host last year under this plan. The Frogs earned a 14-0 decision over the Bears in a hard-fought game on the Cotton Palace gridiron.

This year's tilt with both clubs high up in the conference standing, a merry contest is expected. Both mentors are waging a fierce battle for the underdog position, but sports writers over the state are ranking them about equal. One year ago the Frogs from Rockwall, Tex., defeated the Bears by a score of 14-0. The Frogs, as yet undefeated, are one of the outstanding teams in the section. The S. M. U. Mustangs continue to lead the loop in scores. The Frogs, with only 9 points having been scored against them, still showing the way for defensive clubs. Austin Griffith, smashing sophomore fullback, and Harry Ackers, veteran half, continue to hold places among the high scorers of the section. Bad weather was preventing the Frogs from working early in the week, but Bell is swinging his whip again in preparation for the Bears. The entire Baylor student body will follow their team to Fort Worth.

To Dedicate Game To Boys' Parents

Fathers and Mothers Will Be Honored at Big The Spring-Sweetwater Game, Nov. 6; To Run Special.

BIG SPRING, Oct. 31. (Special)—The football game to be played on the Big Spring gridiron Friday, November 6, between Big Spring and Sweetwater will be dedicated to the fathers and mothers of the boys playing on the team. Special seats are being arranged for the parents. The new high school band and pep squad will meet the special train from Sweetwater arriving in Big Spring at 2:30 p. m. This promises to be the best game of the season, and the Steers are being put to still practice by Coach Stevens. Big Spring business houses will close between 3 and 5 for the game.

AGGIES DETERMINED

Texas A. & M. Working Hard for North Texas Tilt

COLLEGE STATION, Oct. 31. (Special)—Virtually eliminated from the Southwest conference football race by a pair of defeats, yet determined to stage a garrison finish, Texas Aggie gridsters worked hard and hard here today for the North Texas Teachers contest Saturday and approaching tilt with S. M. U. Rice and Texas.

Head Coach D. X. Bible has reduced his squad to 29 men and has been bearing down in an effort to put punch in the Farmers' play. New plays have been rehearsed since Monday against freshmen teams. Despite the battering which the heavy Arkansas forward wall gave the Aggies, the team is in good shape for coming games, Bible declared.

Seek Grid Prestige

Here are three stars of the Syracuse football eleven who may give that institution some of the football prestige that was hers a few years back when Chick Meahan, present New York University coach, was in charge. Hal Baysinger, captain and quarterback, is one of the slickest open field runners in the east and also happens to be a very accurate passer. Sam Sebo, the young man who earns his way through college by minding a child at night near the campus, is a hard-running halfback. Joe Novak is a sophomore guard, weighing 197 pounds, who is playing regularly.

Plan Special To Bulldog Contest

SAN ANGELO, Oct. 31.—Plans for a special train from San Angelo to Ranger next Saturday when the Bobcats tackle the Bulldogs in the Oil Belt District, were started here Tuesday when Gulf, Colorado and Santa Fe officials offered a special round trip fare of \$3.32. Pep squads and band members were assisting E. E. Lowrie in offering tickets to the fans here. The train will leave San Angelo at 7 o'clock in the morning going to Sweetwater by way of Coleman and arrive at Ranger over the T. & P. at 2 o'clock just before the game. The return voyage will start from Ranger at 6 in the evening, arriving back in San Angelo early Sunday morning.

Wildcats Expect Stiff Grid Battle

LEVELLAND, Oct. 31.—Two varieties of Wildcats will tangle up here Friday afternoon when the Levelland Wildcats meet the Littlefield Wildcats. The former have not lost a football game this season, while the latter have lost but one. Coach Henry Lewis of Levelland expects the game to be one of the hardest fought tilts of the current season.

Wildcats Expect Stiff Grid Battle

The entire Levelland squad is in splendid physical condition and Coach Lewis expects to send his full power against the invading Wildcats. Lewis is sending his charges through strenuous daily workouts, adding new plays and perfecting the old ones. Special attention is being given to defensive play.

An effort is being made to have all local stores close their doors for the game, according to L. T. Green, superintendent of schools.

Rickard Believes Jack Will Return To Fighting Game

Promoter Feels Sure That Old Manassa Mauler Is Willing To Take On Winner of Winter Campaign.

RY EDWARD J. NEIL, Associated Press Sports Writer NEW YORK, Oct. 31.—Add Tex Rickard to the growing list of those who believe that Jack Dempsey, once the king of the heavyweights, again aspires to his old throne. The master of Madison Square Garden, who accepted Dempsey's retirement after his second defeat by Gene Tunney as final and had steadily maintained since that the old Manassa Mauler had fought for the last time, floundered himself today in Miami Beach, Fla., where he is spending a short vacation, to tell the Associated Press he feels sure Dempsey will box again.

The rumor that Dempsey will return to the ring has a good foundation despite his present shyness in regard to future bouts. Rickard said in his telegram. "He really wants to return to the ring. When a good young man comes along in the winter campaign, you will find Jack ready to practice through the ropes again. He will be a big card, too. I am sure the ex-champ will again don the gloves."

Although the comeback campaign of Luis Angel Firpo, shaggy-haired Argentine who lost the greatest of modern ring battles to Dempsey in 1923, already has reached the stage where he is negotiating for a bout with Jack Renault and Roberto Roberti in Buenos Aires, Tex still is not sure that the South American's intentions are serious.

"Firpo will have to come back to the United States to prove with some real fights that he is an available contender before he can be taken seriously," Rickard wired. He made mention of the fact that young Stribling, Atlanta heavyweight, continues to show that he is one of the strongest contenders for the heavyweight crown.

Hardest fought tilts of the current season. The entire Levelland squad is in splendid physical condition and Coach Lewis expects to send his full power against the invading Wildcats. Lewis is sending his charges through strenuous daily workouts, adding new plays and perfecting the old ones. Special attention is being given to defensive play.

Wildcats Expect Stiff Grid Battle

An effort is being made to have all local stores close their doors for the game, according to L. T. Green, superintendent of schools.

The Nut Cracker

By Joe Williams

The Muldoon-Tunney trophy, to be awarded the new heavyweight champion, it is said, will cost \$10,000. O'Goofy is looking over our shoulder as we write this and he says, "When you put down that it is said you certainly wrote a mouthful."

As a matter of fact the noble sport has been falling off a bit lately. Madison Square Garden has lost a couple of hundred thou, "it is said," and the 600 millionaires are alleged to be creating their foreheads.

A headline says "Proper Castigates Princeton Eleven." O'Goofy says he isn't quite sure what that means, but thinks it's something about "pouring it on 'em."

They're starting up the wrestling season. The boys have in and in doors even if it is to see a wrestling match.

Joe Dundee is writer champ and Sammy Mandell lightweight champion. Both of 'em were stopped in the second round of their fights recently, but they're still champions. The idea seems to be merely entertainment.

Vim And Vigor Is Obvious in Owls

HOUSTON, Oct. 31. (Special)—Despite the fact several of the most valuable players likely will not be able to start because of the injuries the Rice Owl football squad is going about its practice session with a vim and vigor that augur well for the team's showing here Saturday against Southwestern.

It will take a well knit defense for the Owls to turn back the Southwestern Buccaneers Saturday. In Janick, Young and Blackburn the Corsairs have ball toters of outstanding merit. Janick is said to be one of the most capable ball carriers in Texas.

More than 80,000,000 pounds of rayon will be produced in Italy this year.

First Year Team Boasts Promising Football Eleven

Bulldogs Have Reputation As Aggressive Team; Frank Stocking Has Impressive Club This Year.

Coaches Grady Higginbotham and Rhodes Ingerton's freshman football eleven will play their first game of the season on the Tech gridiron Monday afternoon when they meet the Clarendon College Bulldogs. With six weeks of strenuous training behind them, the first year gridsters have rounded into a promising football aggregation and should be able to put on a nice exhibition in their first game.

First Year Team Boasts Promising Football Eleven

Bulldogs Have Reputation As Aggressive Team; Frank Stocking Has Impressive Club This Year.

Coaches Grady Higginbotham and Rhodes Ingerton's freshman football eleven will play their first game of the season on the Tech gridiron Monday afternoon when they meet the Clarendon College Bulldogs. With six weeks of strenuous training behind them, the first year gridsters have rounded into a promising football aggregation and should be able to put on a nice exhibition in their first game.

In scrimmages with the varsity regulars, the Frosh have made an impressive showing, with plenty of power in the line and a number of footed backs. Several members of the Freshman team have displayed marked ability in training and will undoubtedly make valuable Matadors in 1929.

The record of the Clarendon college football eleven shows that the Bulldogs have always had a fighting aggregation of pigskin warriors, who give the opposition plenty to worry over. COACH FRANK STOCKING is coaching the Junior college team this year and has made an impressive showing with his charges thus far.

Originally scheduled for Friday, the game was changed to Monday because of the condition of the roads between Clarendon and Lubbock. Although the season's schedule for the Freshmen has not been completed, two additional games have been arranged. The first year Matadors meet the New Mexico Military Institute in Roswell, on November 17 and will entertain the Canyon Yearlings here on the 24th.

Texas Teams Get Players By Draft

AUBURN, N. Y., Oct. 31. (Special)—Eighteen minor league players will advance a step by the draft route this year, according to the announcement made here today by J. H. Fawell, secretary of the National Association of Professional Baseball Leagues. The selections include: By Wichita Falls, Texas: Fred Sletely, from Jacksonville, Fla.; Edwin Ellis, from Greenville, S. C.; George Spitzer, from Joplin, Mo.; Jack Crouch. By Waco, Texas: Tom Cordeau, Texas; Anthony Pietruski, from Chambersburg, Pa.; Tom Blake.

No other Texas teams appeared in the list.

John Kirby Urges Loyalty to Party

Texas Democratic Finance Head Pleads for Restoration of Party Service in Coming Election.

(By Associated Press)

HOUSTON, Oct. 31.—Resoration of "virtue and efficiency of the public service," agricultural relief, white supremacy and religious freedom are the principal issues before the Texas electorate, John Henry Kirby, chairman of the Texas Democratic Finance Committee asserted

in a statement here today. "The Democrats of Texas have always believed in the principles of freedom, economy, justice and honesty, taught by our party," the statement said. "These things are of chief concern to the enlightened patriot, therefore we have made the restoration of virtue and efficiency of the public service, an issue."

Dishonesty Destroys. "Dishonesty will destroy the individual or the government that continues to practice it. "Another vital issue is one that is economic. I believe that Texas is tremendously concerned in the election of the Democratic nominee because the Democratic party will press for a hopeful solution of the agricultural problem. That will affect the welfare of all our people by

making possible a more equitable distribution of the nation's prosperity. "For these reasons, and because they stand for White supremacy and religious freedom, both threatened if our enemies win, the state will remain loyal to the Democratic party."

TULSA.—A Texas town, was the only oil center to display a town exhibit this year at the International Petroleum Exposition here.

BIG SPRING.—A school of instruction is being conducted from the Big Spring landing field by Loye Mitchell, licensed pilot.

The new broadcasting station at Nagoya, Japan, will cost nearly \$3,000,000.

Branded Diavolo Coals

—positively last longer!

DON'T BUY WATER!

MOISTURE in coal is a total loss. Some coals run as high as 25% moisture. This requires much of the heat value to evaporate the water. That means loss.

DIABOLO Coals are LOW in moisture, averaging about 2%. They fire quickly, burn long and hot. You don't buy water when you use DIABOLO Coals. That means gain.

Many thousands of homes all over the West use DIABOLO Coals year after year.

No matter what your heating requirements, DIABOLO Coals meet them more satisfactorily. The paint brand on DIABOLO Walsen, Canon and Giant Domestic Lump is your safeguard. LOOK FOR IT!

FROM 22 Colorado mines, 6 districts; heavy cooking to non-cooking. A kind and clean—for every use. Clean, hot, store well. You will need less DIABOLO for more heat. Thus they SAVE.

For Heat, Health, Comfort and Economy—Use DIABOLO Coals

Last of Theatre Play Cast To Be Selected Tonight

Mrs. B. C. Dickinson and Grady Moore have leading roles in "Captain Applejack."

The remaining characters for "Captain Applejack," the second Little Theatre play of the season, are to be selected in rehearsal this evening.

All leading characters in the play which is described as an Arabian Nights adventure, have been selected and rehearsals have been conducted this week.

Grady Moore has the leading role, that of Captain Applejack, and Mrs. B. C. Dickinson has the leading feminine part, that of a Russian dancer, while Mary Gene Owen plays the part of Poppy, Captain Applejack's ward.

Lawrence Gelin is cast as an oriental seer with Mrs. G. E. McCreary playing the part of his wife, G. J. Atchison, who has the role of a spy, and E. L. Langston, who is complete the cast that has been selected.

This is a strong cast and the presentation of this play should be an unusual success, Mrs. White said yesterday. The fantastic costumes, the element of mystery in the plot will contribute to the appeal of this play, she thinks.

Paris' latest dance is the Twist. China is rounding up all spectators.

Mary Pickford, America's sweetheart, wears clothes designed especially for her by the famous couturiers of Paris. At her home in California, Pickford, she posed recently in a number of her latest creations.

A swimming pool or beach ensemble is pictured left. The pajamas are made of orchid crepe de chine. The coats is black printed crepe in a design of pink roses and green leaves, which the umbrella is of the same material, also the ingenious bag, which is a combination of bag and pneumatic pillow. Designed by Jean Patou.

On the cornice walk in front of her home, Miss Pickford poses in a clever little frock of black crepe de chine with a pleated frill, center. Four graduating French bow knots start low on the frill and finish in small knots at the neck. The dress has narrow white collar and cuffs, and with it she wears a handsome fox fur and tiny felt hat.

On the golf links or for afternoon sports our Mary wears this very simple but smart close fitting little costume consisting of a beige kasha skirt and beige sweater embroidered in ruby red and gold thread. The two last described suits are by Jenny.

SCHOOL HAS PARTY

Room of Miss Pearl Davis Entertains

A Halloween party was given at Southwest Ward school yesterday afternoon in the room of Miss Pearl Davis for those in the room of P. B. McMathis. Contests, games, the serving of a paupers lunch, stunts, a punch board guessing contest and a Halloween picture show with Odell Rollins telling the story of the pictures, were among the diversions enjoyed. The school

Paul Whiteman To Play in Amarillo

AMARILLO, Oct. 31.—(Special).—Paul Whiteman and his famous orchestra of 32 pieces will appear in the Amarillo auditorium on Nov. 7, in two performances, matinee and night under the auspices of Emil F. Myers of the Amarillo College of Music.

Whiteman is a pioneer in the field of "Jazz" and it is said that the members of his orchestra are specialists who draw the highest fee for their services of any orchestra players in the world. They have given over 600 concerts in the United States, Canada, Great Britain, France, Germany, Holland and Belgium in the last three years.

The announcement that Paul Whiteman, himself, with his famous orchestra, will give one of his sensational concert entertainments in the Panhandle, is one of the features of the musical season, for no artist on the concert platform today draws such a wide public as this famous leader, whose phonograph record, radio, movie, theatrical and concert appearances have made his name known to millions throughout the world.

BEAUMONT.—The city of Beaumont has been sued for \$6,548.25 damages by T. T. Gorman, dairyman, because of condemnation and slaughter of 15 dairy cows declared to be tubercular.

Children had prepared the picture display. Prizes for costumes went to Eva May and Wayland Early. Several parents and about thirty children attended, most of them in costume, and the parents brought refreshments which were served.

Stone Mountain Title Test Made

United Daughters of Confederacy Will Bring Suit On Memorial Site; Resolution Adopted.

(By Associated Press)

ATLANTA, Ga., Oct. 31.—Atlanta Chapter, United Daughters of the Confederacy, has decided to bring suit to obtain title to property on which Stone Mountain Memorial is being carved.

In a resolution adopted yesterday, the chapter said that suit should establish their claim to the property, inasmuch as Sam H. Venable who originally deeded 96 to Stone Mountain Confederate Memorial association conditionally, had given the Atlanta chapter title by reversion.

The resolution asserted that the association had forfeited title because of its failure to complete the memorial within 12 years from the date of its deed.

BROWNWOOD.—A large attendance of farmers, bankers, and business men is anticipated at a pecan institute to be held here November 15-16.

Experts Discuss Cotton Problems

Texas Men Meet At College Station In Conference Over Situation; One-Variety Plan Favored.

(By Associated Press) COLLEGE STATION, Oct. 31.—Problems of the Texas cotton and feasible means of solution were discussed at the fall meeting of the Texas cotton committee here today.

Support One Variety The committee also pledged support to the one variety cotton community plan, to the effect that farmers who have good staple cotton to sell may also have sufficient volume to attract a competitive market and insure adequate premiums.

Whatley To Be Buried Today

Services Set For 3 Today At First Presbyterian; Dr. Gordon to Officiate; Classes Dismissed.

The funeral services for Mrs. W. A. Whatley, 38, wife of Prof. Whatley of the Spanish department of the Tech faculty, who died suddenly Tuesday from an attack of appendicitis, will be held at the First Presbyterian church this afternoon at 3 o'clock.

Classes Dismissed All Spanish classes at the college yesterday and today are suspended and all other classes will be turned out today at 3 o'clock with the exception of certain laboratories from which students may be excused who wish to attend the funeral.

Burial will be in the Lubbock cemetery under the direction of Rex Morticians.

Pittsburgh Has Liquor Ring, Is Officer's Charge

More Than 400 Saloons, Clubs, Confectioneries And Joints Alleged In Illegal Operation.

(By Associated Press) PITTSBURGH, Oct. 31.—Specific allegations in the government's claim that a gigantic liquor ring involving public officials exists here were made today by John D. Meyer, United States attorney in filing bills of particulars to indictments returned last June by a federal grand jury.

Police Had Control On the South Side, Meyer said Francis Kirley, ward chairman, and John J. McArdle, police inspector, determined whether saloons were to be closed or permitted to operate.

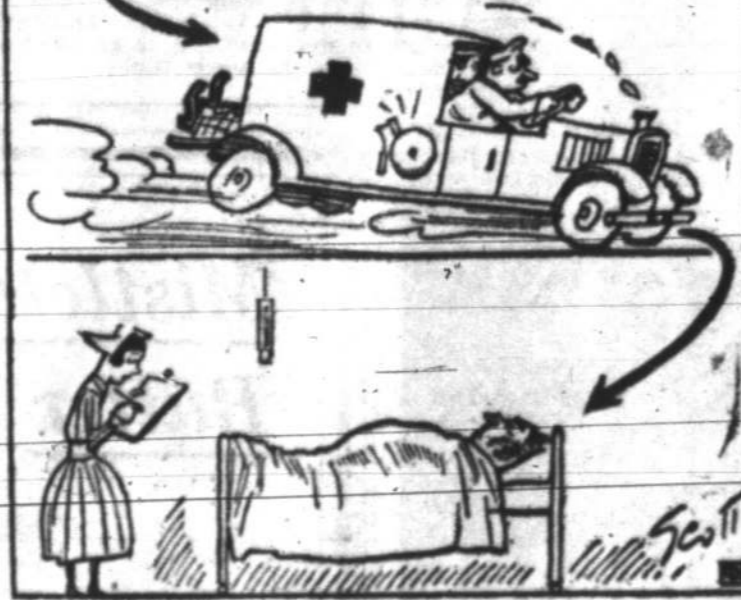

WORKMEN LAID OFF Ninety-Seven Men Turned From Orient Shops

WICHITA, Kas., Oct. 31. (AP)—Ninety-seven men, nearly one-fourth the employees of the Kansas City, Mexico & Orient shops here will be laid off after today, the general offices announced today.

Cheap—But Often Fatal Is Bargain Boose That's Guzzled in New York

BY ALEXANDER HERMAN (Staff Writer for Central Press and The Avalanche.)

Raskob Charges Republicans In Literature Work

Democratic Finance Chairman Alleges Party Is Responsible for Distribution of Anti-Catholic Stuff.

(By Associated Press) NEW YORK, Oct. 31.—John J. Raskob, Democratic national chairman, today made public a letter he had sent to Dr. Hubert Work, Republican national chairman, and Herbert, enclosing documents which he said showed direct connection between Republican campaign officials and the distribution of pamphlets attacking Governor Smith on the grounds of his religion.

Many of the articles associated with the Republican party and the Republican National Committee, the letter said, "have been engaged in the despicable practice of inciting religious bigotry through promoting the preparation and circulation of scurrilous literature and false and misleading statements about the Catholic religion, because it happens to be the faith of Alfred E. Smith."

Other enclosures in the letter to Work were photostatic copies of what were described as affidavits from Bernice Smalley of Wichita, Kan., and others.

These documents stated that the makers had received through the mails campaign pamphlets bearing the names of Republican officials, in envelopes which also contained anti-Catholic and anti-Tammany "red hot" stuff.

"I call upon you to produce a copy of the enclosure," Mr. Raskob wrote. "Will you deny that this enclosure is one of the most vicious anti-Catholic articles that ever has been printed for publication?"

Another result of the Philadelphia clean-up, which had an effect on the local market, was the temptation to export back to the source of alcohol, which had been sold to the better speakeasies.

Mostly Police The classy Philadelphians, who want their stuff as well as their New York brothers, seemed ready to pay higher prices. Some of the better stuff was shipped back. This has "business-grade" supplies here.

Chief Medical Examiner Norris says that most of the liquor vendible in the city is poisonous. "An ounce of 'stink' sold in the cheaper joints, has the effect on the heart," he says, "equal to that of a whole bottle of hard liquor that has been properly aged in wood."

With the prohibition lid being drawn tighter, it is predicted that eventually bootleggers "will be dropping down all over the city, instead of just along the waterfront."

Prohibitionists an anti can both read into this support for their own views. Whatever the attitude, the outcome is painful.

APPOINT PROBE HEAD Philadelphia Man To Lead School Investigation

WASHINGTON, Oct. 31. (AP)—Dr. Edwin C. Broome, superintendent of schools at Philadelphia, today was appointed chairman of a committee of ten of the national education association to investigate the use in schools of publicly materials supplied by propaganda agencies and organizations.

Countess to Wed Vivian Cornelius

LONDON, Oct. 31. (AP)—The Countess of Northesk, formerly Jessica Brown, American dancer, is to be married to Vivian Cornelius, son of Percy Cornelius of Windesham, Surrey. The Countess recently divorced Lord Northesk on grounds of misconduct.

Telling of her future plans the Countess said today: "We shall be married in London before the new year, and after our honeymoon in Switzerland or Egypt shall reside here."

"I have known Mr. Cornelius for about two years. He is a very great friend of Lord Northesk; in fact we are all three great friends."

Lady Northesk reiterated her determination never again to appear on the stage.

Firmly built roads and a central building more than 100 feet square have been unearthed at the Roman camp at Osar, Wales.

It Must Have Been Some Night

Hallow'en in Lubbock Provided Plenty of Fun For All Concerned; City Had Hallowed Evening

(Editor's Note: Al M. Hill, member of the Avalanche staff, was assigned a feature story on the doings of the Lubbock kiddies and grown-ups during the hallow'en hours of last night. Here is what he handed over the desk.)

The morning after the night before—this morning, thank you—follows Hallow'en.

Evening of frolicsome, ferocious-looking, fearful-appearing, feigned, feline, ferences, ferment-ed, fetters, fertile, ferule, festal, festooned, fetching, fetichism, fettered, fetulistic, feverish, fiances, fiascoes, fibbing, fissional, fiddling, figeting, fiery, figurative, filching, fill-greed, filling, financial, finery,

Try and find it. There is a soothing something called consolation. In the old days it used to be worse. We, in civilized America, are approaching the day when we will understand that Hallow'en means "a hallowed evening."

Famed Violinist To Appear Here

Featuring a number on the Tech artists' course, Eddy Brown international famed violinist, and members of his string quartet, will be in Lubbock on the night of Wednesday, November 7.

The program will be given in the gymnasium of the college.

Big Reception Is Planned For Sousa and His Band

When Lieutenant Commander John Philip Sousa appears here on November 15 with his band, the students of the college plan to greet him and his musicians with a royal reception, officials of the college said yesterday.

The famed bandmaster is appearing here under the auspices of the college authorities. His concert will be given in the Tech gymnasium. He is to give concerts in various other cities of West Texas, also.

MOODY ORDERS ELECTION AUSTIN, Oct. 31. Parade of New Brown Derbies Greet Senator Robinson In His Address In Evansville, Indiana; All Are Merry

Democratic Vice-Presidential Candidate Describes Party's Stand On Immigration.

By RAYMOND Z. HENLE, Associated Press Staff Writer. EVANSVILLE, Ind., Oct. 31.—A brigade of more than a hundred young democrats got out brand new brown derbies tonight to greet Senator Robinson in his address to the Evansville auditorium to hear him describe the democratic stand on immigration.

The derbies had just arrived this morning, having been imported by a wealthy young democrat who distributed them with a free hand. A holiday spirit generally prevailed in the demonstration arranged for Senator Robinson, as local party workers had called upon large numbers of Smith-Robinson supporters to see how they would make the visit of the democratic vice-presidential nominee a gala occasion.

Senator Robinson entered into the spirit of the merrymaking as he came to the front of the stage, wearing a brown derby and a suit of the same color. He greeted the cheering throngs with a speech in which he declared that the only question at issue was whether the United States should treat all countries fairly or continue "the discrimination" of the present system.

Neither Herbert Hoover nor Governor Smith proposes to let down the immigration bars, Senator Robinson said.

Demo Plan Is Lower
He held that under the democratic plan, the number of immigrants to be admitted was actually slightly under that of the republicans' plan.

"The whole question at issue," said Senator Robinson, "revolves around the point as to whether it is sound policy to treat all foreign countries, permitted to have quotas, without discrimination."

"Governor Smith believes that they should be, whereas Mr. Hoover advocates continuing the discriminatory features of the present laws."

The senator's speech here was the first of five he will give in Indiana. Tomorrow he will make speeches at Logansport and Fort Wayne and rear platform addresses at Huntington and Wabash.

The first air mail plane in the new service between Amsterdam, Holland and the Dutch East Indies carried more than 600 pounds of letters.

Has 'Good Cause' Demo Head Evokes Club's Charter

OKLAHOMA CITY, Oct. 31.—Because he was informed the Harper county unit of the Oklahoma League of Young Democrats was prepared to insert an advertisement endorsing Herbert Hoover for president in a Buffalo newspaper, James F. Rollins, state president today revoked its charter.

The advertisement was to appear in this week's issue of the paper, Rollins said.

The constitution of the league gives the state president authority to withdraw the charter of any chapter "for good cause shown" Rollins explained.

"If support of the republican presidential nominee is not 'good cause,' then I don't know what would constitute 'good cause,'" Rollins said.

While unemployment in Great Britain is growing its August exports of manufactured goods were \$12,500,000 greater than a year ago.

His football team being a man short on his wedding day, Sam Knowles, of Selby, England, postponed his honeymoon and scored the winning goal.

Rotarians Judged By Judging Team

Tech Stock Judging Team Is Feature of Rotary Luncheon Program; Club Will Furnish Cars To Visitors.

Featuring the regular weekly luncheon program, members of the Tech stock judging team who will leave soon for a contest with the cream of judges from all over the world, in Chicago, held a practice judging session with members of the Lubbock Rotary club yesterday, throwing the luncheon into a riot of fun. "Classes" of Rotarians were used by the boys as they gave their opinions to the amusement of the principals as much as the club members.

The judges, Vaughn Corley, Curtis Grimes and John Barroughs, judged the class from the standpoint. Dean J. M. Gordon, W. H. point of football material, meat and Meador, J. A. Raley and Hubert L. Allen were the principals used in the judging.

Mewery Tells Of Trips
Following the judging, Prof. Ray Mowery told of his plans to send the boys to the International Livestock Judging show which will be held in Chicago. The team, which made an enviable record last year, will compete in contests at Wichita and Kansas City also.

Following the reading of a letter from District Governor Dr. R. P. Parcells, of Amarillo, the club voted to furnish transportation for the

Talking Device Is English Invention

Sound Is Recorded And Reproduction Immediately Afterwards In Full Volume and Clarity.

LONDON, Oct. 31.—The Daily Express said today that a device had been invented which recorded sound and reproduced it immediately in full volume and with clarity and accuracy.

A short test speech spoken into an ordinary microphone yesterday came back with startling distinctness one minute after it was finished. It was recorded on a few inches of magnetized wire. No wax chemicals or other fixing materials were needed.

The device can be attached to a telephone and the entire conversation reheard immediately after it is finished. The paper said the device was the simplest, cheapest, and most practical system of sound reproduction ever invented. It is a development of an invention known to experimenters for 30 years.

CUBA HOLDS ELECTION

Only One Entry For Place To Be Voted Upon

HAVANA, Oct. 31.—Presidential elections will take place in Cuba tomorrow with but one entry, President Gerardo Machado who, as coalition candidate of the three major parties, seeks re-election for a term of six years. A quiet election is indicated.

RAYMONDVILLE—Onion farmers of Wilcox county have prepared to replant a crop which did not come up to a good stand because of heavy rains which formed a top crust over the soil.

Whereabouts Of Rogers Family Is Sought By Police

Anyone knowing the whereabouts of Mr. and Mrs. Floyd Rogers, and four brothers and sisters of Mrs. Rogers, are asked to telephone to the Lubbock police station.

D. J. Fincher, father of Mrs. Rogers and the four children, informed local police Wednesday that when he and they were on their way to the farm of a man by the name of Collins, about eight miles from Olton, a few days ago, they became separated at Snyder and he has not found them since. Fincher drove his car on to Collins' farm, but, finding them not there, came to Lubbock to institute a search for them.

T. J. Inmon, desk sergeant, announced that the police department here has telephoned the police at Tahoka, Levelland, Littlefield, Lamesa and Olton, in an effort to locate the Rogers family.

Senate Chamber To Be Used For Talk

State Board of Control Issues Order for Use Of Room for Political Rally For Democratic Ticket.

AUSTIN, Oct. 31.—Acting on request of Lieut. Gov. Barry Miller, the state board of control today authorized use of the state senate chamber by Cullen F. Thomas of Dallas, prominent prohibitionist, Friday night for a speech in behalf of the national democratic ticket.

The board some weeks ago refused to allow the Rev. Dr. John Roach Straton, New York minister, crusading against Governor Al Smith, for president, to use the hall.

Members of the board explained that Mr. Miller's request was considered sufficient grounds for a departure from the general rule against use of the chamber for political rallies.

Hot Biscuits for Breakfast—

an easier and better way

Strange, isn't it, that when Mother announces "Hot biscuits for breakfast," everyone hops out of bed without any urging?

Just try this time-saving scheme and we'll wager your family will have hot biscuits for breakfast often.

Whenever you make biscuits for the evening meal, mix up enough extra dough for the following-morning. Have your biscuits all cut out, put them in the pan and keep them overnight where it's cold. All you have to do the next morning is to heat your oven and bake them.

Try this tested recipe for biscuits given below. Made with Crisco they are light, tender, fluffy and snowy-white.

Muffin Recipe for "Rolled" Biscuits

2 cups bread flour 1/4 cup milk or water (for "drop" biscuits) powder or 1/4 cup milk or water (for "rolled" biscuits)

4 teaspoons baking powder or 4 tablespoons Crisco

Sift dry ingredients together 3 times. Work Crisco in with fork. Add liquid gradually.

Form dough into shape, roll 1/2 inch thick, cut. For round-shaped biscuits, cut squares, then diagonally in half. Brush top of biscuits with melted Crisco or milk.

Bake in hot oven (450° F.) 15 to 20 minutes. Makes about 12 biscuits.

To use buttermilk or sour milk beat in 1/4 teaspoon soda for each cup of milk. (If milk is very thick, use a little more milk.) Use same amount of baking powder and follow method for either "drop" or "rolled" biscuits.

You taste your milk— NOW—taste your shortening!
You test your eggs—

Crisco's sweet flavor will delight you!

Hose Should Match Skin, Not the Costume

By LUCY CLAIRE
Fashion Expert for Central Press
and The Avalanche

Shoes and hose are too frequently chosen as an after thought to the costume, when really they should be chosen as the foundation of several costumes, unless you are one of those fortunates who can afford a different pair of shoes for every frock and coat. Silk hose for all occasions, except perhaps golf, and kid shoes for all purposes, are the slogan of the best dressed women. That is not where we have so much difficulty as in choosing the correct shades in hose and shoes to harmonize with the costume.

Today, as everyone knows, hose never match the frock. They are all in some shade of beige except the sunburn, brown and gunmetal. Shoes may match the costume, but in most cases they do not. Shoe and hose colors are more or less staple as to color, and much depends upon the tone or shade chosen. In choosing hosiery there are just two rules to follow. Match the color of your skin in direct contrast to the foundation color of your costume, or choose a beige or gray that carries an overcast of the foundation color. Thus one of the many shades of sunburn may be worn with almost any color, brownish beige with the browns and grayish beige with the grays.

There are many shades of sunburn, because all women do not burn alike. Some turn a deep tan, while others burn a pinkish tone. In the evening, under the electric lights, a coat of powder and a little rouge, the sunburn is toned down to almost a delicate flesh. Hose should be chosen accordingly. But the girl who has not burned at all during the summer, should not make the mistake of trying to match her complexion in light colored flesh hose for daytime wear. She can wear the deeper sunburn in harmony with her skin. Sir Sox's neglect notwithstanding.

Brown, Black Staple Colors
The staples in kid shoes for fall and winter are brown and black, and we might almost include navy blue, so popular has it become for wear with the blue costume. This shade in blue kid is in vogue in and odd as it may seem. It comes in and with practically all shades of blue. Acajou and green are the foremost of the high style colors in shoes, and should be worn only with their own family colors, the deep burgundies, the bottle and vesper greens. Beige shoes in the darker shades are still in vogue, but would natu-

ally fall under the classification of brown.

As the costume silhouette hugs the hips, so the shoes. But the fashions are cut a little higher as the collar, and the gored step-in models are much in vogue. This slightly higher cut obviates all bulging of flesh at the instep, as was too frequently the case in the lower cut pump. The lines are slim and narrow, though the vamps are no longer. It's all in the cut of the shoe, as shown in the sketch.

The two black kid shoes of the pump and step-in type at the top are illustrated in a way to show the new importance of the top and collar. Both are of the simple tailored

type in design, suitable for walking. At the lower left is illustrated an afternoon shoe of acajou kid, trimmed with acajou dyed lizard and melon kid. At the right center is shown a morning Oxford of navy blue kid, made trimmed, and in the right corner is an evening model of metal brocade, with an unusual strap of gold and silver fastened

Washington State Tackle Twins

Outstanding in early games of Washington State college are the Cougars plant twin tackle, Harry Speidel, left, and Meg Dressel. Both weigh 190 pounds, stand six feet two inches, are expert at breaking through and nailing enemy backs in their tracks and usually arrive together to dump the safety man receiving a punt. The two men, both seniors, are the speediest linemen the Cougars have.

Cooking School

(Continued From Page 1)

their praise of the school, expressing particular joy in the fact that so many of the dishes are only new and savory combinations of staple foods.

Any One Can Cook. "Almost any woman can be a good cook if she has plenty of money to buy materials with, but I like Mrs. Dougan's demonstrations because they combine ordinary good stuffs," almost every one asked explained.

Because there is so much to include in a cake-making program, Mrs. Dougan is starting her lecture this afternoon at 2 o'clock instead of 2:30. She made this change yesterday afternoon after a vote had been taken among those in the school.

This expert begins her talks promptly and continues through the afternoon with the preparation and baking of dishes, which are displayed for the inspection of those attending. She intersperses the giving of actual recipes with many helpful hints in home making and short cuts in the preparation of foods.

Yeast Demonstrated. The making of a yeast dough which may be made up and kept in the ice box until it is ready to be used and the making of a quick bread—dough were demonstrated yesterday. Mrs. Dougan made some cinnamon rolls, demonstrated the making of hot cross buns, parker house rolls, tea rings and many other fancy breads in this school. The first part of her lecture was devoted to the making of ice box cookies, the dough of which can be made and kept in the ice box until one is ready for the cakes.

With her yeast and quick bread dough as bases, she demonstrated the making of numerous loaves and cakes giving suggestions about serving them.

In spite of the weather on the first three afternoons of this week, there has been a large gathering of women to hear Mrs. Dougan and their interest in the school is indicated by the eagerness with which they follow her teachings.

Meats on Friday. Friday's lecture will be devoted to the cooking of meats.

"I find that these lessons contain many things that are valuable to me at home," Mrs. C. Y. Partain said yesterday afternoon when she called to postpone a parent teacher meeting because of the cooking school. "Some of the cooking and breads that were demonstrated today will be used in preparing school lunches for my children," she continued. Mrs. Partain is president of the junior high school P. T. A.

Mrs. F. A. Kleinwachter, whose husband is a member of the Technological college faculty and who has recently moved to Lubbock from Minnesota, is attending the school daily to get new culinary ideas and is learning of her first Mexican dishes.

School is Praised. "I suppose you couldn't buy a fat of chili proper in all of Minnesota and I do not know how my family is going to like Mrs. Kleinwachter's chili meat," a musical dish that was made Tuesday served to be particularly delicious and I am going to prepare some," she said yesterday.

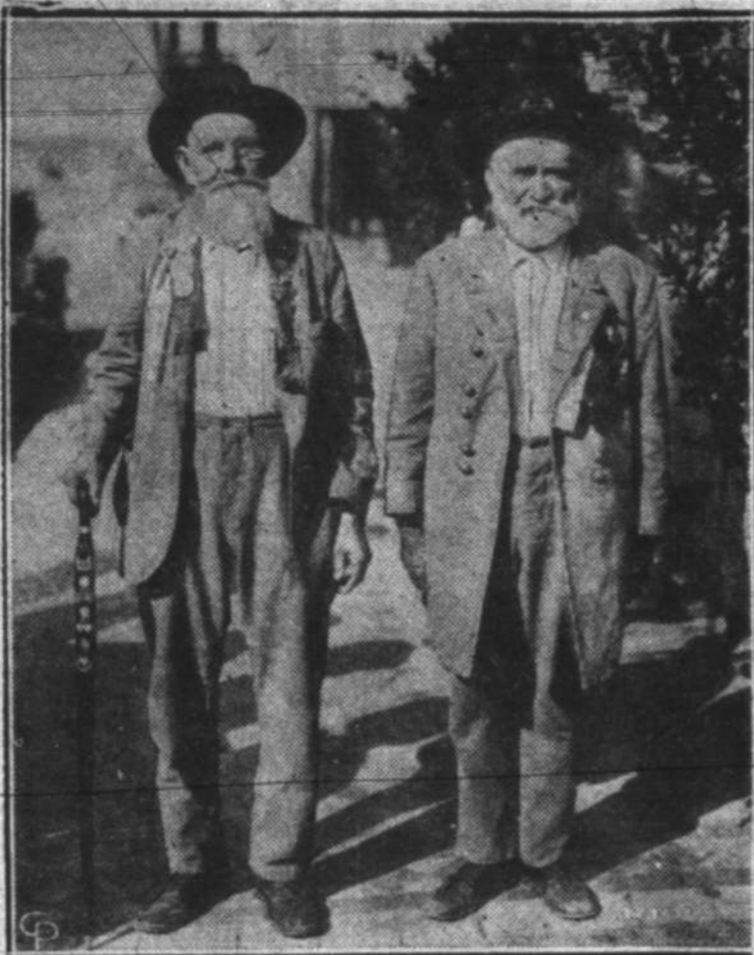

Mrs. Kleinwachter said she had attended numbers of cooking schools and the north but had found none better than this one. "I like particularly the practicability of the foods that are prepared," she said. "I think the school is splendid," evening when she was approached concerning the school. "I have tried several of the recipes and I find them appetizing and I like Mrs. Dougan's personality very much," she added.

Women Tell Neighbors. One woman at the school yesterday was telling her neighbors about her success with a stuffed turnip dish that was demonstrated on Tuesday, saying that it was the most delicious way of preparing turnips that she had ever found.

"We had a cooking school dinner today and are planning to cook these other dishes," Mrs. H. W. Sims and daughters related as they entered the school yesterday laden with pencils and note books.

Mrs. R. D. Moxley has found Mrs. Dougan pleasing in her appearance before the class and is grateful particularly for the new ideas in

These Two Have 301 Descendants

These two United Confederate Veterans attending the convention at Baton Rouge, La., have 301 descendants between them. Joseph Whitman, left, of Beauregard Parish, La., has 13 children, 102 grandchildren and 74 great-grandchildren. William Dark, right, of Winnie Parish, La., is the father of 22, grandfather of 70 and great-grandfather of 20. Whitman is 87, Dark, 80.

cooking ordinary foods, she said yesterday. "I like her combinations because she does not use expensive foods," she added. Mrs. Clinton Moore and Mrs. T. B. Bowles, who have been attending the school together daily, are trying the recipes in the home. Mrs. Bowles found the scalloped oyster dish delicious yesterday.

Attendance prizes are awarded daily in the school, these going yesterday to Mrs. J. D. Warren, Mrs. Clara M. Adams, Mrs. Lem Cheser, Mrs. H. W. Cherry, Mrs. V. C. Vermillion, Mrs. Guion Gregg, Mrs. Roy Brown, Mrs. A. W. Tilley, Miss Flora Sims, Miss Elitabel Tilley, Mrs. Don Simpson, Mrs. J. A. Grisham, Mrs. John Edinson, Mrs. Sam Hardwick, Mrs. L. R. Rumpy, Mrs. H. C. Gaither, Mrs. R. C. Holton, Mrs. M. R. Saunders, Mrs. O. R. Copeland, Mrs. O. K. Peters, Mrs. W. B. Sides, Mrs. F. O. Bennett, Mrs. T. R. Bowles, Mrs. J. A. Gunn, Mrs. J. M. Teague, Julie Logan of Graham, Mrs. H. J. Crawford, Mrs. E. L. Banks, Mrs. J. P. Nelson, Miss Minnie Adams, Jessie Foster, Mrs. A. L. Stovall, Miss A. K. Priddy, Mrs. H. L. Willford, Mrs. W. H. Trice, Mrs. Loyd L. Lucy.

Rainy Spell

(Continued From Page 1)

fore the weather clears but the expected freeze did not arrive and if it is delayed until around the middle of November, several thousand more bales of cotton will be raised as the stalks have numbers of half-grown bolls upon them which were produced after worms ceased their activities and will mature if allowed a few days more time.

Roads Said to Be Bad

In Floyd County. FLOYDADA, Oct. 31. (Special)—One-half inch of rain fell here today bringing the total since Sunday to one and one-half inches. Weather continues cloudy and misty. All roads in bad condition.

UNABLE TO RESIST. AUSTIN, Oct. 31. (AP)—Hunting is Governor Moody's main side line and he couldn't resist the opening of the duck season.

He quietly slipped off in the early morning's gray mist today and headed for the Gulf Coast with friends. They wanted to be in the duck haunts early Thursday, ready to operate as the season opens. The governor expects to be back here about Saturday.

Zeppelin

(Continued From Page 1)

was expected to land at about 11:30 p. m. Eastern time.

Thousands Watch Landing. Not all of the thousands who had gathered to welcome the dirigible needed the salves of guns to tell them that the ship had successfully completed her voyage. Despite a rain which had been falling all night many persons had sacrificed sleep in order to make an early pilgrimage to the airfield where a huge crescent of humanity had formed as early as four a. m. local time.

Large details of police and several companies of soldiers held the crowd in check when the Graf Zeppelin suddenly dove in sight. It was flying very low and fast from the northwest with bright lights shining from its cabin windows.

Count Zeppelin was a dreamer. When he served as military observer with the federal armies during the American Civil War he was attached to the balloon section, then being tried out as an experiment. The balloons were not highly effective, but their use inspired the young German with the beginnings of his great dream—a dream of an airship that could sail through the skies with safety and efficiency.

For the rest of his life he devoted himself to this dream. At the dawn of the century he launched his first dirigible. It was a success—an amazing success, for those days. Zeppelin became famous. His very name became, in the public mind, synonymous with the word dirigible.

Today the old count is dead and gone. But his dream is just beginning to reach its full development. The mighty airship that bears his name crossed the Atlantic against adverse conditions, carrying a score of passengers in luxury and safety, with a crew of the best men in addition. The feat, naturally enough, took the world by the ears. Solid financiers are beginning to believe that the dirigible can be made to ring cash registers.

To be sure, all of this about the potency of dreams and matters is fairly old stuff. But in a world where we pride ourselves on our hard-headedness and practicality, it is worth keeping in mind. And there is one more point to it. The dreamer who makes his dream of the future is not the "idle dreamer" of tradition.

To play with a dream in the back of your mind, turning it over every now and then but letting it always remain a mere fancy, is to accomplish nothing. A real dreamer, of the type of Count Zeppelin, is necessarily one of the best men on earth. He gives himself to his dream so wholeheartedly that he can neither think of nor work at anything else. The task of making a dream come true can be defined as someone has defined genius—1 per cent inspiration and 99 per cent perspiration.

This combination—the ability to visualize something new and the energy to make it a reality—is somewhat rare. When it does occur, however, the world moves. A new concept is found, a new machine is invented to lighten the drudgery of millions, a quicker method of communication is developed, or the bonds of time and space which hold mankind in a circumscribed orbit are loosened. The trans-Atlantic airway, the Graf Zeppelin is just another case in point.

Air Merger

(Continued From Page 1)

men came out of the World War, and they were Woodrow Wilson and Herbert Hoover."

Judge John L. Ratliff, before introducing Dr. Hunt, spoke for a few minutes on how voters are to scratch the democratic ticket in the election next Tuesday, exhibiting a sample ballot so marked. He announced that beginning today, at 12:40 noon, Rev. R. P. Dunn will discuss the issues of the campaign with Lubbock citizens at the Hoover headquarters, 913 Broadway. Ratliff stated, "Dr. Hunt is fighting to save the democratic party from a foreign possession; against the tyranny of the demon rum."

Touches Segregation Question. The McMurry college president touched shortly on Hoover's alleged segregation order, saying a \$500 reward was yet unclaimed for anybody proving Hoover ever issued the order. He contends that the colored question had reacted on the democratic. "Negroes are going to do like the white people in this election," he explained, "and divide on this election. I believe the negro church crowd will vote for Hoover, and the chicken stealing, crap-shooting, bootlegging negro crowd will vote for Smith. The question is, what crowd of negroes are you going to vote with?"

The speaker declared he had no apologies to make "for lifting my voice in a moral and religious issue. If we preachers were speaking for Smith now, they would be patting us on the back. I have no apology to make to any criminal lawyer that will take any bootlegger's money and defend him."

Charges "Under Cover" Work. Claiming that Smith's nomination, and the part the Texas delegation to the national convention played in sending an unscrupled group, was carrying out the "undercover" work of Tammany Hall, he said, "Smith's nomination was secured by the dirtiest, lowest-down most underhanded piece of political skulduggery ever practiced on an unsuspecting public."

Prohibition has been made the only real issue in the campaign, Dr. Hunt claimed, by Smith himself, and scored the governor for alleged claims that he failed to support the U. S. Constitution in action taken as governor of New York. Asakob, came in for a rapping as a wet, as did Senator Shepard, of Texas, for supporting the democratic nominee. The "four to eight cocktails" Smith has been charged with drinking every day was quoted. Tammany Hall was said to be corrupt today, mention of the "sewer scandal" given.

Smith is Without Hope. "The only hope Smith has of carrying New York," said Dr. Hunt, "is to have Tammany men vote from sight to 18 times a place on De Lacy O'Hanrahan, 21.

CHICAGO, Oct. 31. (AP)—George Rochford, treasurer of the Woods Theatre, wrested a revolver away from a robber late today, chased him four blocks through crowded loop streets, executed a flying tackle, and turned his prisoner over to police.

The prisoner gave the name of De Lacy O'Hanrahan, 21.

Light for a new ball-shaped house in Dresden, Germany, is supplied through a central court of passage way extending from the top to the bottom.

Robert Lansing, Life-long Student of Government, Figured Largely in War's History. (By Associated Press) WASHINGTON, Oct. 31.—The last of three figures that bulked large in the enunciation of American foreign policy during the critical days of the world war and the period that immediately preceded the great conflict has gone.

Having claimed Woodrow Wilson and William Jennings Bryan, death late yesterday overtook Bryan's successor as secretary of state, Robert Lansing, who held the portfolio during the entire time that America was one of the belligerent nations and resigned upon receiving a rebuke from President Wilson.

For several years Mr. Lansing had suffered from a heart ailment described by his physician as myocarditis.

Robert Lansing was a life long student of government, diplomacy and international law. Bryan's celebrated break with Wilson, arising from a disagreement as to what the official American attitude toward the tragedy of the Lusitania should be, found Mr. Lansing holding the post of counselor of the state department. With Bryan's resignation, he was promoted to the cabinet and was faced at once with the intricacies of what already was a tense international situation.

As with his predecessor, Mr. Lansing's tenure of office ended in disagreement with President Wilson. In Mr. Lansing's case the break was brought on, ostensibly, by his action in calling a meeting of the cabinet while the president was ill. A sharp exchange with his chief followed and when the documents were made public they included Mr. Lansing's resignation.

However, there are some who assert that the Lansing-Wilson disagreement antedated the cabinet meeting incident and the several occasions they were hardly in accord. In this connection, Lansing's statement in 1917 that the United States was being drawn daily nearer and nearer to the world war is mentioned and it is asserted that there were differences as to the Paris peace treaty, the League of Nations covenant and Mexican policy.

At any rate, with the cabinet meeting came the breaking point. Rumors of an alarming nature as to Mr. Wilson's condition were being given wide circulation at the time and there was gossip of congressional action to turn the executive duties over to vice president Marshall, all of which was quickly discredited.

In such an atmosphere the cabinet meeting was called. President Wilson learned of it through his secretary and was deeply perturbed. Rear Admiral Carey T. Grayson, Wilson's personal physician, was sent to the meeting to determine its purpose. Grayson was plying with questions and in response declared that Mr. Wilson was in complete possession of his faculties and was anxious to learn by what authority the meeting had been called.

OFFICIALS ARE OUSTED. Democratic Party Pledge Is Cause of Removal. RAYMONDVILLE, Oct. 31. (AP)—Their refusal to pledge themselves to support all nominees of the Democratic party today led to the removal of B. S. Wright of Raymondville, and J. D. Keene of Lyford, from the Wilcox County Democratic Executive Committee.

The vacancies will be filled immediately, L. O. Robbins, committee chairman, said.

CHICAGO, Oct. 31. (AP)—George Rochford, treasurer of the Woods Theatre, wrested a revolver away from a robber late today, chased him four blocks through crowded loop streets, executed a flying tackle, and turned his prisoner over to police.

The prisoner gave the name of De Lacy O'Hanrahan, 21.

Light for a new ball-shaped house in Dresden, Germany, is supplied through a central court of passage way extending from the top to the bottom.

Our Change in Policy

Read This Letter

Lubbock, Texas, October 29, 1928.

Dear Customer:

As the oldest Dry Goods concern in Lubbock for all these years it has been our policy to supply a demand instead of creating one. For years we have enjoyed a substantial volume from hundreds of charge accounts in Lubbock and the entire South Plains.

After November 1, we are putting our business on strictly a cash basis, thereby eliminating collectors, bookkeepers, some losses and various kinds of overhead. By placing our business on a cash basis and thereby increasing our volume and cutting out various items of overhead, we know that we can effect a substantial saving to the consumers of the entire South Plains on their Dry Goods purchases.

Your account has been more than satisfactory and we not only appreciate your charge account but the loyalty which you have demonstrated in continuing with us for so long a time.

Watch the newspapers and other means of advertising we use and we know that we will prove to you that we mean what we say in that we can save you money on Dry Goods purchases by selling for cash only.

All our business transactions have been nothing but pleasant with you and we truly hope that we can continue to do business with you and that it will be on a mutually beneficial basis.

Yours very truly, BARRIER BROTHERS INC. By Paul Barrier General Manager.

P.B.G.

Hunt Talk

(Continued From Page 1)

men came out of the World War, and they were Woodrow Wilson and Herbert Hoover."

Judge John L. Ratliff, before introducing Dr. Hunt, spoke for a few minutes on how voters are to scratch the democratic ticket in the election next Tuesday, exhibiting a sample ballot so marked. He announced that beginning today, at 12:40 noon, Rev. R. P. Dunn will discuss the issues of the campaign with Lubbock citizens at the Hoover headquarters, 913 Broadway. Ratliff stated, "Dr. Hunt is fighting to save the democratic party from a foreign possession; against the tyranny of the demon rum."

Touches Segregation Question. The McMurry college president touched shortly on Hoover's alleged segregation order, saying a \$500 reward was yet unclaimed for anybody proving Hoover ever issued the order. He contends that the colored question had reacted on the democratic.

The speaker declared he had no apologies to make "for lifting my voice in a moral and religious issue. If we preachers were speaking for Smith now, they would be patting us on the back. I have no apology to make to any criminal lawyer that will take any bootlegger's money and defend him."

Charges "Under Cover" Work. Claiming that Smith's nomination, and the part the Texas delegation to the national convention played in sending an unscrupled group, was carrying out the "undercover" work of Tammany Hall, he said, "Smith's nomination was secured by the dirtiest, lowest-down most underhanded piece of political skulduggery ever practiced on an unsuspecting public."

Prohibition has been made the only real issue in the campaign, Dr. Hunt claimed, by Smith himself, and scored the governor for alleged claims that he failed to support the U. S. Constitution in action taken as governor of New York. Asakob, came in for a rapping as a wet, as did Senator Shepard, of Texas, for supporting the democratic nominee. The "four to eight cocktails" Smith has been charged with drinking every day was quoted. Tammany Hall was said to be corrupt today, mention of the "sewer scandal" given.

Smith is Without Hope. "The only hope Smith has of carrying New York," said Dr. Hunt, "is to have Tammany men vote from sight to 18 times a place on De Lacy O'Hanrahan, 21.

George B. Terrell, Commissioner Of Agriculture, Urges Defeat of The 4 Proposed Constitutional Changes

Reasons Opposing Changes In Constitution Listed By State Officer; Says Changes Unreasonable.

(By Associated Press)
AUSTIN, Oct. 31.—All four of the proposed constitutional amendments to be submitted to voters in the general election Tuesday should be defeated, George B. Terrell, commissioner of agriculture, said today in a statement, explaining his reasons for opposing their adoption.

The Confederate pension amendment is so worded as to be misleading and indicates that additional aid would be granted to Confederate soldiers, when, as a matter of fact, it would take away all the present safeguards for the protection of the pension fund and is intended to liberate the law to permit more persons to draw pensions. This necessarily reduces the amount of old soldiers are now receiving, Terrell declared.

Should Not Be Taxed.
All churches and places of actual worship are now exempt from taxes and there is not any good reason why parsonages and other church property should not be subject to taxes, he argued. Parsonages and other church property not specifically exempted by law are nevertheless exempted in some counties and the proposed amendment merely seeks to take legal action which has been illegally taken in some places, Terrell added.

Ministers who occupy parsonages preach for a salary and they can pay taxes on the dwelling they occupy as well as other people pay taxes. "I shall favor no exemption of taxes, unless the farms and homes of all people are exempt."

Points Out Exemptions.
He said there are 18 counties of South Texas with taxable values amounting to \$312,569,788, now exempt from State taxes for the purpose of building seawalls, levees and other protective measures against storms, floods and overflows.

Besides this, all State school lands and university lands are exempt from taxes and this makes the tax burdens fall heavily upon those whose property is not exempt," the commissioner continued.

The two so-called "educational" amendments offer nothing that would improve our educational system," Terrell said.

The first purposes that school officers, including boards of institutions of higher education shall serve for a term not exceeding six years," but the provisions relating to general boards of institutions of higher education is already contained in the Constitution and they now have six-year terms," he explained.

"Negro in Woodpile."
The other part of the provision relating to governing boards for public schools, is "the negro in the woodpile," as the commissioner views it.

The language of the amendment does not convey any idea of what is intended to be done, except to make the term of officers six years," he said. "The legislature under this amendment could abolish all local school trustees and turn all school affairs of the county over to the county board of trustees appointed for a term of six years, and take the management of the public schools out of the hands of the people."

Been Trying For Years.
"Certain educational leaders have been trying to do this for a number of years, and the natural inference to be drawn from the submission of this amendment is that they now seek to do under the guise of a Constitutional amendment."

The amendment abolishing the State Board of Education, composed of the governor, the comptroller and the secretary of state, empowers the legislature to create a new board, which would probably be paid a salary and do no better than the present non-salaried board.

"If the amendment named the personnel of the board, I might have favored it, but nobody knows what the legislature might do," he concluded.

Rypp's used-car problem is serious.

ALPINE BUILDING Three New Residences For \$15,000 Are Started

ALPINE, Oct. 31. (Special)—Alpine's building program received a substantial boost this week. Work was started on three new residences in the northwest part of town, the total cost of which will run around \$15,000. These are in addition to new construction work reported last week.

Giant Shake-Up Is Planned For Quaker Cop Force

Mayor Mackey Will Likely Order Change of Entire Force to Get Rid of The Grifters.

(By Associated Press)
PHILADELPHIA, Oct. 31.—The greatest police shakeup in the history of American municipalities, so extensive that it will amount to the formation of nearly an entirely new force, is planned by Mayor Harry A. Mackey in an effort to rid the bureau of "grifters" as revealed by the grand jury investigating organized lawlessness and police corruption.

After ordering the suspension and trial by the civil service commission of three police inspectors, 18 captains and one detective, declared unfit to hold any public office" by the grand jury, the Mayor announced today that he had worked out plans for a complete reorganization of the Bureau of Police.

Dismiss Every Member
The plan contemplates dismissal of every member of the force against whom even a suspicion of dishonesty has been directed by the grand jury and dismissal or demotion of every man not exposed by the investigation, but whose record shows deficiencies of duty and inefficiency. It also includes the formation of a new ranking scale, with promotion based on efficiency rather than seniority, and the demotion of ranking officers who have failed to measure up to executive duties to the rank of patrolmen with attendant loss of pay.

Demo Chairmen Are Ousted For Party Betrayal

CORPUS CHRISTI, Oct. 31. (P)—Chairmanships of 10 of the 36 precincts in Nueces county were declared vacant by the county Democratic executive committee today, because these 10 chairmen had failed to sign a pledge agreeing to support the entire Democratic ticket.

The committee also adopted a resolution that members of the Democratic party who fail to vote for and support the Democratic ticket in the coming general election are "no longer Democrats and should not be permitted to vote in the next primary or participate in the party conventions."

Harvester Firm To Change Plan Of Common Stock

CHICAGO, Oct. 31. (P)—Directors of the International Harvester company today recommended a split-up of the \$100 par common stock into no par common on the basis of four shares of the new common for each no share of the old new held. Stockholders have been asked to hold a special meeting, December 11, to vote on proposed increase of authorized common stock to 6,000,000 shares of no par value. It is estimated some 4,410,000 new shares will be required, leaving 1,590,000 shares for the future use.

**... and what a
bargain festival
it will be!**

Last year's Harvest Sale held by Grollman, was by far the most outstanding merchandising achievement of the year... the greatest economy event in South Plains history up to that time. Thousands shared in the savings and pronounced it the greatest value-giving event they had EVER attended.

We're out to surpass that record with the 1928 Harvest Sale... we're going to make it an event that will be long remembered by those who share in the savings it will bring to them.

Mr. Grollman has just returned from the Eastern markets, and they have been combed for the finest merchandise... the best values that this or any other store on the South Plains has yet offered the buying public. Let nothing keep you away from this sensational event... come prepared to anticipate future requirements... come prepared to expect a great deal, for it is the pledge of this organization and those who direct its policies that you will not be disappointed. Ample assortments of fresh, new merchandise make it certain that you can bring your ENTIRE list of Fall and Winter merchandise requirements here during the Harvest Sale and have them filled at a tremendous saving.

**Read Every Word of This Economy Message!

SCRIPTURE: Blessed is he that considereth the poor; the Lord will deliver him in time of trouble. The Lord will preserve him, and keep him alive; and he shall be blessed upon the earth; and thou wilt not deliver him unto the will of his enemies.—Psalm, XLII, 1-2.

NEW HIGHWAY PROGRAM

General commendation of Governor Moody's plan for the development of a new highway program in advance of the meeting of the Legislature probably will be voiced by those who carefully examine the chief executive's proposals.

The governor proposes the appointment of a special committee retaining one representative of each senatorial district, to study, revamp and recommend a state highway program and finance plan, so that when the Legislature meets it will have before it a concrete proposal for improving the highway situation. It is contended that the committee as a whole will consider the whole highway problem, including the question of finance and then will ask a sub-committee to work on the details of a plan which later will be examined by the committee.

It is certain that many highway bills will be presented in the next session of the Legislature. Almost every citizen has an idea for changing the methods employed in highway construction and maintenance, and every member of both houses of the Legislature will be encouraged to propose legislation embodying the ideas of his constituency. It is certain that the gasoline tax problem will again be brought before the Legislature, and sentiment is in favor of the submission of an amendment making possible a state-wide road bond issue has been developing for some time. Confusion will be caused by the introduction of a big batch of highway bills unless there is available some kind of detailed program designed to effect whatever changes may be thought necessary in the present highway laws. Of course, whatever plan the special committee suggested by Mr. Moody will be subject to the most careful examination of the law makers and may be amended or rejected as a whole if it is not satisfactory.

Nobody contends that the system employed in the highway department is so perfect as to require no amendment, but a careful examination of the whole matter probably will reveal that comparatively few changes should be made completely to reconstruct the whole system, the probability is that as many flaws would be created as would be corrected. Millions of dollars has already been spent under the present system, and while the results have not been wholly satisfactory they have been as good as could be expected. The only changes that are needed in the highway system, it seems to us, are those which are made necessary by changing conditions. A committee representing all parts of the state, as suggested by Mr. Moody, ought to be able to catalogue such necessary changes much more clearly than the Legislature as a whole could possibly do.

CHRISTMAS

Listen men, it's less than two months now till you will have to be pining for Santa Claus, and we hope that you will all be able to remember every member of the household who will find some one who is in need, and remember them. But there is always this sad thought about Christmas, that there are so many people who will have no one to remember them, and who are really in need of the necessities of life, we would suggest that every person in Lubbock who is able to spend a few dollars extra this year for Christmas cheer will find some one who is in need, and remember them. The Red Cross or the Salvation Army can put you in touch with numbers of them, and it will be a bighearted thing and a Christian act if you will do this. There will be those who would appreciate clothes or coal, or oil for fuel, and a few groceries to stave off hunger.

What a happy thing it would be this year to pick out somebody you know or ordinarily will not have a happy Christmas—somebody whose life is not all "roses and sunshine"—somebody whose story has been written with the pen of disappointment and despairing difficulties; somebody whose soul has been pinched and his heart choked by the circumstances of fate, over which he or she had no control, but who remains firm in the conviction that there is a Santa Claus, even though Santa disappeared out of his or her life in childhood forever.

"Can you tell me if I have a violent palpitation of the heart as soon as I begin to perspire during my sun bath? I have been taking my sun bath for one-half hour every morning for six months, and this palpitation has always been the same. I feel all right after I come inside and lie down for a while."—Mrs. M.

Are you taking your sun baths on the advice of your physician, Mrs. M., and does he know your symptoms? Sun baths and the artificial sunlight through the ultra violet ray lamps are so very helpful and even curative in many conditions that their use in a cancer of the hand, if it is not taken in time, the cancer cells may break off and be carried by the lymph stream and produce cancer in the lymph glands under the arm and elsewhere.

Dangers of Ultra Violet Ray Treatments. "Can you tell me if I have a violent palpitation of the heart as soon as I begin to perspire during my sun bath? I have been taking my sun bath for one-half hour every morning for six months, and this palpitation has always been the same. I feel all right after I come inside and lie down for a while."—Mrs. M.

On the Firing Line at the Nation's Capital

PRESIDENTIAL FRACAS THREE-CORNERED ONE

BY CHARLES P. STEWART

WASHINGTON, Oct. 31.—Theoretically this is not what Secretary of State Kellogg (with his diplomatic vocabulary) might call a "multilateral" presidential campaign. True, there are several tickets in the field.

However, none of the "maverick" presidential tickets (to borrow the word maverick, in its political sense, from Congressman Berger, the Milwaukee Socialist) is a "maverick" ticket must do that to count.

If Senator Norris had accepted the Progressive presidential nomination, then this would have been a triangular presidential fight. The senator could not have been elected to be sure, but his candidacy might easily have settled the hash of one or the other of the two major candidates.

But Senator Norris did not accept. Some people thought he refused because he knew he would be beaten. That was not it at all. He wanted his hands entirely free to work for the Progressive senators who are up for re-election this year.

Back as far as a few months before President Harding died and throughout the Coolidge administration the Progressives have held the balance of power in the senate.

It was not enough of an advantage to enable them to have their own way, but it was enough to enable them to the legislation up tight—unless, indeed, the conservative republicans and the conservative democrats joined forces, which occasionally they have done.

It gave the progressives control of the legislative brakes, at any rate, even if they could not bring the machinery to a full stop.

Whichever major presidential candidate may win, the progressives will still hold quite a strong string on the administration if they can manage to hang onto their senate balance of power on into the next White House term.

"Uncle George" Norris deemed this far more important than a mere gesture at the chief magistracy, which he knew was all it could be. Thus, in a way, Senator Norris may be regarded as having made the present campaign three-cornered after all—not as to the presidency, but decidedly so, viewed in its "ensemble."

Who are the progressives? Well, Senator Norris is campaigning for Senator Frazier, Howell, Johnson and LaFollette, republicans; Dill and Wheeler, democrats; Shipstead, farmer-laborite. Norris being progressive leader, these seven count for sure.

Other dead certainties, not now up for re-election, are Senator Blaine, Brookhart, Norris himself, and Nye, republicans; Tom Walsh, democrat.

Senator Capper, Couzens and McMaster, republicans, and Barkley and Thomas, democrats, all hold-overs, are at least non-progressive. The railroad brotherhood's organ, Labor, lists 12 more members of the senate who either is seeking senate re-election or who asks election for the first time—though it seems to me some of them are doubtful, on the progressive roll.

All told—29. Of Senator Borah counts, 30—though I think he will be in questionable progressive standing after this campaign. But a good many of them are still electioneering. They may not all win.

Diet and Health

By LULU HUNT PETERS, M. D. Medical Adviser for Central Press and The Avalanche-Journal.

A Wholesome Fear Of Cancer Will Cause Hygienic Living! "The Thing I Fear"

"MRS. S.—We all should have a good, wholesome fear of cancer, and by a good, wholesome fear I mean one that will cause us to live as hygienically as we know how, avoid chronic irritations, and as the appearance of any abnormal lump any place on the body that does not heal up in a reasonable length of time, or any unusual discharges, have them investigated.

If you have a fear that causes you to have these things attended to, then you can stop having the fear of cancer. It is extremely rare that cancer comes on one in sufficient time so that the condition can be remedied.

I know that many times Job's lament, "The thing I fear has come upon me," is interpreted to mean that the fear will bring on the thing that is feared. This isn't true, any more than a fear of a splinter will bring on a splinter. (Nor is it true that the lack of fear will prevent a cancer or any other organic disease from appearing, any more—I'll use the same simile—than the lack of fear will prevent one from getting a splinter occasionally.) It is true that fear and worry will undermine the health so that certain disorders may have a better chance for a foothold, but it is only in this way that they do act.

By a metastatic tumor is meant a tumor that arises from tumor cells that are broken off from another tumor somewhere in the body. For instance, in a cancer of the hand, if it is not taken in time, the cancer cells may break off and be carried by the lymph stream and produce cancer in the lymph glands under the arm and elsewhere.

Dangers of Ultra Violet Ray Treatments. "Can you tell me if I have a violent palpitation of the heart as soon as I begin to perspire during my sun bath? Kid Stuff

SO THINK WE

We think the Golden Sandstorms from Amarillo will probably not be able to function properly since the rain, and the Westerners will no doubt take them to a trimming when they meet here Saturday.

We think this old thing of blue Monday is probably mostly imagination. In Lubbock it will be first Monday, and it is always a big day for the Lubbock merchants and a big bargain event for those who come here to trade in getting a first time—though it seems to me some of them are doubtful, on the progressive roll.

We think some of the local weather forecasters who are willing to risk their reputation on the weather, will be real heroes in this city if their prophecy that there is going to be open weather for several weeks after the few rainy days, comes true.

We think now that the building site has been selected for the new federal building that the government should have no time in getting started on the building, and rush it to completion. They will probably want to wait however till they see who the county goes for in the presidential election, but that won't be long now for the campaign is going to wind up with a great slinging contest if this rain continues as it has been for the past few days.

We think we just about guessed it. We said that Jack Dempsey would come back in the ring when Tommy retired, and he is just about on the verge of this very thing, and Jack then too, before some one grows up is liable to knock over a row of big States and back home with the United States and back home with the United States and back home with the United States.

We think old Zep is setting a good record, and the successful flight of this giant ship to the United States and back home with the United States and back home with the United States.

We think when there is as much money involved in a proposition as there is in the publication of proposed amendments that there certainly should be great care exercised in carrying them out. We notice that some counties failed to be included in the list of those having newspapers in which to publish the list and as to whether the amendments will be legal if they carry. However, it is the duty of every voter to go ahead and cast their votes, for or against them, and let the legality of it take care of itself.

We think the time is fast approaching for Thanksgiving time and the people of this section certainly have much to be thankful for. We hope there will be arrangements made for thanksgiving services in all of the churches or at least in union services where the people from all denominations can gather and have a service of this kind. We owe it to the Maker of the universe for His goodness to us during the past year.

We think no one should ever attempt to drive a car or truck on the highways at night without lights, yet we see many cars running along the streets of Lubbock without the sign of a light back or front. This is liable to result in the injury or death of a number of people most any time, for accidents happen when they are not expected. Naturally if they were expected there would be greater care exercised.

We think the mere fact that Lindy has come out for Hoover is no indication that for the republican nomination that several million votes will Lindy probably know less about political economics than most any other man in the nation. Lindy is a flier, and probably knew very little about politics. For of the business, we imagine that he has not studied the situation, and came out merely with his personal preference.

We think there are many ways of economizing, and we not that one housewife has found that old shaving brushes are excellent for dusting off piano records, but be careful ladies do not make a mistake and get the best one that hubby has and use it for that purpose. You

The Way Of The World

BY GROVE PATTERSON

A war secret, closely guarded during the great conflict, is common property now. It comes to public attention with the announcement that Dr. Edward G. Acheson, its originator, is giving science \$25,000 as a prize fund.

The secret entered in the process of enabling American guns to shoot 20 per cent farther by spreading Acheson graphite over the inner surface. This graphite was softened marvelously in an electric furnace.

Isn't it queer how matter-of-fact a war secret can seem 10 years after the war?

Woman Leads

Discerning persons admire the one who creates, the one who gives the world something new. In the field of artistic photography a woman is one of the principal creative characters. Best proof of this is that the National Art club, of New York, revised its constitution to admit Henrietta Hudson, the first photographer ever welcomed into that exclusive organization.

Working in the comfort of her home at Bolton Landing, on Lake George, N. Y., without the facilities of an elaborate studio, Henrietta Hudson produces masterpieces of photographic art. Her work is well known in exhibition in Vienna, London and Paris, as well as in New York.

Color Pictures

Perhaps the greatest of Henrietta Hudson's achievements is the invention of direct-color printing of photographs. The accomplishments of this modern woman, including her unequalled landscapes, show the club-friend woman that she, too, can really do something worthwhile. Work is the method.

Air Speers

Worshiping aviators amuse themselves by shooting coyotes from the air. The aviators cruise over the prairie, sight their prey, swoop down and fire. It's great sport, if you don't crash.

Black Eyes

A Columbia university professor establishes himself as the friend of small boys with an urge to battle their schoolmates. The professor has developed an electrical machine, which he told the American College of Physical Therapy will remove "black eyes." He says static electricity forces the tiny blood clots, which compose the "black eyes," to dissolve. Professional pugilists should be eager to get this professor a permanent place in the hall of fame.

PUBLIC OPINION

Editor, The Avalanche:

Have read many articles signed "A. M. Daniel" or "Baker Lane" in our papers. To date I have been unable to obtain either of their addresses from city directory or phone books. The theory has been advanced that possibly these writers are members of Tammany hall, assisting our little Tammany in the campaign here. If these writers are not members of Tammany I would be glad to have their addresses and will apologize for any reflection they consider has been cast on them by the assumption that they are Tammanites.

"Mr. Baker Lane" states that the constitution of the United States provides for religious freedom and that everyone be allowed to worship God according to the dictates of his own conscience. I thoroughly agree with "Mr. Lane," but he did not go far enough. The constitution also grants every citizen the right to vote according to his convictions.

Answering "Mr. Lane" on charges of intolerance, will say that I believe in being tolerant to the fullest extent. I would not even, by my vote, place any man in the embarrassing position of pledging himself to support and defend the constitution when he cannot conscientiously do so, without conflicting with his religious creed.

I want to say, in conclusion, that I believe that you will agree with me when I say that I truly believe in being tolerant to the fullest extent and am convinced that the majority of Protestants are also tolerant. Without taking any chances I believe that you will agree with me when I say that I truly believe in being tolerant to the fullest extent and am convinced that the majority of Protestants are also tolerant.

Yours very truly, S. S. PRICHARD, Lubbock, Texas.

Team To Compete In World Contest

Tech will be represented in the International Livestock Judging contest at Chicago on December 1st according to a report coming from the school of agriculture. The team is to consist of six agricultural students, one of whom will be an alternate, and will be accompanied by Ray Lowery, coach and associate professor of animal husbandry. The team will be taken from the seven following contestants: John Burroughs, Vaughn Corley, Bernard Carmichael, Curtis Orimes, J. A. Jackson, Paul Marr, and R. C. Tom. Five of these seven were judges in a contest at Ft. Worth last year.

The names of the members of the team will be announced on November 15th. Other contestants that they will participate in include one held at the Kansas National Livestock Show at Wichita, Kansas, on November 15, and another at the Royal Livestock Show in Kansas City on November 17.

Officers Elected In Engineering Club

The Architectural Society of the college has elected the following officers for the year at a recent meeting: President, June Hewitt; vice-president, Lloyd Russell; secretary-treasurer, Edna Houghston, and faculty sponsor, Prof. F. A. Klein-schmidt. The purpose of this organization is to further interest in the study of architecture among the student body. Membership is restricted to students who take free-hand drawing. Meetings are held in the auditorium of the Engineering building, and the next meeting is to be November 8 at 7:30 o'clock.

Increase Is Noted In Use of Library Material

According to reports from the library, there is quite an increase shown in the use of library material. Records for one day last week show that the book circulation in the library was 218. Book circulation outside the library was 48. Several new copies of histories and English books have been received recently, and many books have been placed on reserve. Probably a still greater increase

Who's Who in Timely Views

HEREDITY DECLARED A DOMINATING FACTOR IN CANCER BY DR. CHARLES H. MAYO Surgeon.

(Dr. Mayo was born at Rochester, Minn., in 1861. He studied at various universities in the United States and spent several years studying in Europe. Dr. Mayo began practice in Rochester in 1888 as surgeon and soon became head of the staff at the Mayo clinic. He was greatly instrumental in establishing the Mayo foundation for medical and educational research at Rochester, in affiliation with the University of Minnesota. Dr. Mayo is recognized as one of the country's leading surgeons.)

Heredity is tremendously influential in the causes of death. We find that 65 per cent of all humans die of diseases which killed a strain of their ancestors. But conversely, we can tell, by a study of man's ancestors, what he will die of—again with 65 per cent accuracy. By breeding plants and animals we can positively lower or raise resistance to disease. Interest may, some day, in the growth of our civilization, lead to the scientific

breeding of humans, and then we shall be able to wither away the specter of cancer. Beware of cancer "cures" and carry that message out to all you meet. I have read of not less than 2,000 "cures" for cancer, and I can count on the fingers of one hand those which are of any value whatever. Quacks and charlatans are preying upon thousands of unfortunate cancer sufferers. They charge them \$200—that is the regular quick fee—before they get going, and then they are steadily being drawn into the stages where surgery, radium and the X-ray, our accepted cures, can never help them.

The cancer death rate is rising. Perhaps much of that is due to the fact that we are succeeding in controlling other diseases. Many who formerly fell victims of typhoid, diphtheria and countless other diseases now more or less under control are dying of a slower disease cancer, which comes in middle and late age. Cancer publicity has saved many lives. It has sent the victims of this disease to seek medical advice and attention before it became too late to save them.

Cancer publicity has saved many lives. It has sent the victims of this disease to seek medical advice and attention before it became too late to save them.

Heredity is tremendously influential in the causes of death. We find that 65 per cent of all humans die of diseases which killed a strain of their ancestors. But conversely, we can tell, by a study of man's ancestors, what he will die of—again with 65 per cent accuracy. By breeding plants and animals we can positively lower or raise resistance to disease. Interest may, some day, in the growth of our civilization, lead to the scientific

breeding
