Community Survey

Planning Begins For New Library

The Library Planning Committee took the first step toward building a new combined school/county library by publishing a community survey in this week's issue of The Wellington Leader requesting input from everyone in the community on what features they wish the new library to contain.

The survey appears on page 8 of this issue.

The form should be clipped from the paper, completed and returned to the Committee Chairman, Kirby Campbell, at 1st Wellington Agency or mailed to Kirby Campbell, P.O. Box 552, Wellington, TX 79095. The deadline for receiving the surveys is 5 p.m. Tuesday, July 23. The suggestions will be considered and discussed at a meeting of the committee that evening.

The committee held its initial meeting Tuesday, July 9. All seven members of the committee were present: Kirby Campbell, Dr. Lawrence Ward, Betsy Lemons, Jamie Johnson, Vance Hunt, Henry Sullivan and Zook Thomas.

The committee will meet once every two weeks during the initial planning stages of the new building.

Among the items discussed at the first committee meeting were:

1) visiting other combined libraries to gather ideas on facilities and management.

2) Texas Education Agency requirements for school libraries and State of Texas library system requirements for public libraries.

3) possible sites for the new building.

4) uses to which the community might put the building.

5) publication of a community survey of needs related to a library.

6) facilities which might be included in a library in addition to storage for books, such as a small auditorium suitable for showing films or recitals, rooms for music or art lessons, a display room for traveling exhibits or art shows, or a basement that might be used as a storm shelter for school children.

7) computer access to information networks across the country.

The committee also discussed a research paper written on combined school/public libraries.

Artist, Bank Join to Benefit Hospital

Through the joint effort of a western artist living in Dallas and The City State Bank of Wellington people of Collingsworth County have a unique opportunity for a limited time to participate in support of Collingsworth General Hospital.

Lewis Holiman has made available through the cooperation of Collingsworth General Hospital Auxiliary 5 original mixed-media paintings, plus signed prints of another one of the paintings. One fourth of the sale price of the originals is the purchasers tax deductible donation to the Auxiliary. One third of the sale price of signed prints is your donation to the Auxiliary, Holiman said. It is an opportunity to own a quality piece of western art and help your community upgrade hospital facilities at the same time, said Dollie Mae Wilson, Auxiliary president.

"The City State Bank of Wellington is pleased and honored to be a part of this effort which will give pleasure to the people of the surrounding area and financial help to our hospital, which is so vital to our communikty," said Richard Fourmentin, president of the bank.

Holiman is the husband of a former Wellington girl, Patti Hughs, daughter of Mr. and Mrs. Buster Hughs.

Ingram Resigns From JP Office

A special meeting of the Commissioners Court has been called to appoint a Justice of the Peace for Precinct 1, to succeed Judge James M. Ingram, who is resigning.

The commissioners will meet at 9 a.m. Friday, July 19, in the commissioners court room, according to a public notice issued.

Ingram presented his resignation to the commissioners on Thursday, July 11, in a letter that said:

"I am at this time notifying you that I am resigning as Justice of the Peace of Collingsworth County effective July 26, 1985.

"I am requesting an audit of all dockets."

He did not indicate his future plans and could not be reached Wednesday morning, July 17.

The meeting in which Ingram's successor will be considered is an open meeting, and anyone who is interested in the appointment should be present. Anyone who is interested in being considered for appointment, but cannot attend should contact the office of the county judge.

City Seeks New Liability Insurance Coverage

Liability insurance carried by the City of Wellington is being cancelled, and the city must find another carrier for this portion of its insurance program, City Manager Glen Taylor told the city countil at its regular meeting Monday night, July 15.

This is a general move among companies writing liability insurance for municipalities and is attributed directly to the growing numbers of multo-million dollar damage suits filed against city police departments.

Even though Wellington has no police department and its law enforcement is contracted to the county, its liability insurance was cancelled.

The Texas Municipal League has a liability insurance program available to member cities, and the Wellington council Monday night voted its approval for Taylor to make applicaton for TML coverage. Paperwork has been completed and the application mailed to TML at its office in Austin.

As its other major piece of business, the city council began work with mayor Ralph Owens and City Manager Taylor on the 1985-86 FY budget.

Taylor presented in brief form an end of year financial statement. (June 30, 1985).

During the fiscal year which ended June 30, the city received in general fund revenues $290,421.63 (less transfers) and Water and Sewer fund revenues of $563,850.74, for a total revenues of $854,272.37. It had budgeted $808,750.00 at the begining of the year.

General fund expenses totaled $598,392.32 and Water and Sewer fund expenses of $187,501.91 (less transfers) for a total of $785,894.23. The city had budgeted $720,059.00.

The city paid $53,250 in bank notes, $7,837.50 on the sanitation truck lease purchase, and capital fund expenditures of $19,035.34.

There were additional expenses of $80,122.84.

This gave the city a net loss of $11,744.70.

In other business, the city approved a permit for Eddie Davis to put a mobile home at 1105 Ft. Worth St. and approved the sale of two lots to Ernest Andrews of Childress. These were acquired by the city at a delinquent tax sale.

Present at the meeting were Mayor Ralph Owens, Councilmen Willie Gragson, Lyndon Crelia and Milburn Derryberry, City Manager Taylor and City Secretary Nell McKinney.

Councilmen absent were Gary Brewer and Sam McGill.

Carnival to Play Here July 23-27

A carnival operated by ATT Amusements will be in Wellington from Tuesday, July 23 through Saturday, July 27, under sponsorship of the Collingsworth Chamber of Commerce.

The carnival will be at the Satellite Center grounds, at Marian Airpark on the Dodson Highway, said Margaret Vines, chamber secretary.

The carnival is due to unload in Wellington Monday, but there will not be a performance until Tuesday evening. All performances will begin at dusk.

A variety of carnival rides will be offered. The Satellite Center will have its annual food booth.

ATT amusements is playing at the Childress Old Settlers celebration in Childress this week and last week the carnival was at Altus.

This is the first time in approximately 15 years that ATT has visited Wellington.

Mrs. Vines explained that the chamber is sponsoring this carnival to raise money for the annual Collingsworth County Fair in September.

Approximately $1,000 will be needed to help finance fair activities. With ATT appearing in Wellington at this time, there will not be a carnival at the Fair.

LIBRARY ---continued from page 1

The paper said that Kansas City has been operating combined libraries since 1873. In 1979 there were 131 combined libraries. The paper discussed combined libraries which were successful and those which were unsuccessful.

Successful programs included the following items, the paper indicated:

1) separate area was set aside in the library exclusively for adult use.

2) much community involvement in and commitment to the decision to have a combined school/public library.

3) citizens and all boards involved participated in planning of the program.

4) a single board representing all the groups was established and assumed responsibility for governing the library.

5) a head librarian with required expertise and commitment to the concept was selected.

6) a location advantageous to both school and public libraries was chosen.

7) a formal written agreement was adopted between the parties involved which carefully defined the duties of each party.

8) professional library personnel and others planned with the architect throughout the development and construction of the facility.

9) a continuing effort was made to get people to consider the combined program as an integrated whole rather than as separate school and public library programs operating in the same facility.

Karen Goforth, Gary Higgins Wed in Amarillo Church June 29

Miss Karen Frances Goforth of Amarillo and Gary Patrick Higgins also of Amarillo, were united in marriage in a double ring ceremony at Coulter Road Baptist Church in Amarillo Saturday, June 29 at five o'clock in the afteroon. The Reverend Travis LaDuke officiated.

Parents of the bride are Mr. and Mrs. Bob Goforth of Wellington. The bridegroom is the son of Mr. and Mrs. J.W. Higgins of Amarillo.

Candles were lighted by Lisa Harrison and Jennifer Harrison, both of Amarillo and nieces of the bridegroom.

The bride wore a wedding gown copied from a turn-of-the-century gown now displayed in a museum in Los Angeles. The high neckline was of peau d'ange lace and pearls on ivory lace.

The skirt featured tucks in various sizes and flounces of lace on satapeau, accented with narrow ivory satin bows and long streamers hanging to the hemline. Her headpiece featured floor length satin streamers with tiny satin flowers instead of the traditional veil. She carried a fan of reembroidered lace and pearls, with ivory and light apricot flowers and ivory satin streamers of floor length.

Kim Martin of Childress, sister of the bride, was the matron of honor and wore an apricot floor-length taffeta dress featuring tucked sleeves, off the shoulder neckline and embroidered bodice.

Mindy Martin of Childress, niece of the bride, was the flower girl. She also wore an apricot off the shoulder floor length dress. Cody Martin of Childress, the bride's nephew, was ring bearer.

The best man was Jeff Hromas of Amarillo. Guests were seated by Phil Marquis and Gary Blake.

Immediately after the wedding, a reception was held in the parlor of the church for family members and close friends.

The bride attended North Texas State University in Denton and West Texas State University. The groom was graduated from West Texas State University with a bachelor's degree in finance.

The community survey on this page of the newspaper this week offers the opportunity for each of us to have some input into the design and function of the new combined school/county library.

The planning committee would appreciate any thoughts or suggestions that anyone might have on the new facility.

The new facility can be more than just a place to store books. How much more is really up to us.

Now's the time for each of us to put in our two cents worth, so clip the form on this page, fill it out and give it to the planning committee before next Tuesday.

No plans are set in concrete at this time, so almost any suggestion can be considered.

Think of what the community needs and how this new facility might serve those needs, and share your ideas.

We return now to the adventures of the intrepid Carol Clouseau, this time in the role of neighborhood watchdog. In this episode Clouseau is working in the yard when a van appears in front of the house of the neighbors to the south. None of the neighbor's cars are at home. The man gets out of his van and walks to the neighbor's front door. The man enters the house. Clouseau springs into action. She calls the neighbor's house. No answer. She calls the neighbor's office. Not in. She calls the neighbor's son at work. He says he will investigate. Through the window she sees the mystery man walk out of the front door of the neighbor's house carrying their television set. She races out to get a description, memorizes the number of the license plate and is about to call the sheriff. The neighbor to the north is also out in his yard. Clouseau repeats the events to him. He asks two questions: Was the van orange? Yes. Did the man have a light build and sandy blond hair? Yes. Neighbor to the north: "That's Clydie Ingram at City TV--he's repairing their television set."

Case closed.

P.S. Clydie says to be sure to report that he's not in jail.

Rachel Campbell called the other night to say thanks for the return of her Wellington High School class ring. We were going through our box of lost and found items at The Wellington Leader a couple of weeks ago, and found, in the bottom of the box, a WHS class ring with the initials RRR. We didn't know how many years the ring had been in the box or who brought it in. We turned it over to WHS Ex-Students secretary Louise Peters and she looked up the year and the initials and called the former Rachel Rainer to see if it was hers. It was. Rachel said she had given the ring to her daughter, Jane, to wear sometime in junior high or high school and the ring had fallen off Jane's hand and bounced into the grass and was never found. So the ring is back on the right hand this week after a decade or so in the grass and the box.

First Hole-in-One on No. 7 at Country Club

The first hole-in-one ever made on No. 7 of the Wellington Country Club golf course was made by Tony Stephens Friday, July 12.

No. 7 is a 200 yard par three hole.

It was also Stephens first hole in one of his playing career.

He and his wife, Charlotte were playing with Bob and Gay McAlister in the couples scramble and watched the event.

These three, as official witnesses, signed the ball. No. 7 is located in the southeast corner of the golf course.

This was the first hole-in-one made by any player this season.

Stephens was justly proud of his achievement. "Some people play all their lives and never get a hole-in-one," he said. He began playing golf about two years ago.

As he was using a Top Flight ball, he plans to send it to the company hoping the event can be mentioned in a golfing magazine.

As for the ball. Stephens is having it mounted on a plaque and it will be placed on the living room fireplace mantle.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—The Texas Supreme Court last week took politics out of the "no pass, no play" law by declaring it constitutional, but pre-campaign activity was stepped up in the attorney general's race.

One Republican announced he would challenge Democratic incumbent AG Jim Mattox, and three other Republicans say they are lined up to follow suit.

Mattox, meanwhile, was all over the field in an aggressive display of the power of his office. Friend and foe alike concede Mattox is one of the best campaigners, bar none, in the state.

10 Most Wanted

He stepped up his war on fathers who fail to make child support payments by announcing a list of high-dollar delinquent dads.

Mattox called the regional lists the "10 Most Wanted", and asked state newspapers and television and radio stations to print or broadcast the names.

Mattox said his agency will buy advertisments if free space/time isn't provided.

Pass-Play Rule

The High Court's upholding of the no pass-no play rule will probably end the ruckus and lawsuits over the controversial new law which requires students to pass all courses or give up extracurricular activities.

In dozens of cases this spring, lower court judges ordered school districts to drop the prohibition on sub-par students' non-class activities.

Mattox said the ruling is a clear signal to lower courts to quit tinkering with the law, which the Legislature passed last summer when it reformed the public school system.

Student Competency

Another hotly contested reform, the pre-diploma test, is also about to get under way.

The State Board of Education is giving final approval to the test version which will be used to rate high school students before they graduate.

High school juniors who fail the exam will be required to take remedial classes, and, if they do not pass it by the end of their senior year, they cannot graduate on schedule.

Secrecy as well as controversy now surrounds the test: board members signed sworn statements pledging not to reveal the contents.

Mattox Challengers

The candidate who announced last week he would run for Mattox' job is former Williamson County District Attorney Ed Walsh. Walsh, elected last November as a Democrat, switched parties in March. He resigned from office prior to his campaign announcement after winning a conviction of alleged mass killer Henry Lee Lucas.

A state senator from the Houston-Galveston area, Buster Brown, said he will announce for the GOP slot soon. The man who lost to Mattox in '82 says he will settle "some unfinished business" by defeating Mattox this time: former state Sen. Bill Meier of Euless, also a former Democrat.

And last, but not least, is San Antonio state District Judge Roy Barrera, Jr., also due to formally announce soon. The son of former Texas Secretary of State Roy Barrera, Sr., he is also a party convert.

Barrera said Dallas developer Trammel Crow has agreed to serve as campaign chairman. Add to that his anticipated inroads into the Hispanic voting bloc, and he is a serious contender.

Texas Statistics

The good news is that Texas is ranked second-lowest in the nation of states with low taxes.

The bad news is: Texas unemployment increased to 7.2 percent, the national plateau.

Only Nevada ranked lower in a study published by the Washington-based Advisory Committee on Intergovernmental Relations.

State and local taxes from 16 common levies totaled $949.88, some 14.5 percent below the national average.

Texas scored higher than average on taxes on alcohol, tobacco and licenses. Texas was lower in drivers licenses, property tax and sales tax.

Dr. John A. Knight to Top Nazarene Position

The son of a former Wellington woman has been elected to the board of General Superintendents of the Church of the Nazarene, the highest offices which that international denomination can bestow on one of its preachers.

Dr. John A. Knight, was elected at the 21st general assembly of the church in Anaheim, Calif., June 26.

His mother is the former Beulah Bounds, wife of Dr. John L. Knight, who is also a distinguished preacher in the Church of the Nazarene and a former superintendent of the West Texas District, which includes Wellington and Dodson churches.

Her parents, R.L. and Eula Bounds, moved their family from Wellingto to Bethany, Okla. Mrs. Knight attended Wellington schools.

Relatives still living here are Mrs. Knight's cousins, Buster Bounds, Roy Bounds and Mrs. V.H. (Merle Breedlove.

The newly elected general superintendent has served as president of Bethany Nazarene College since 1976. Collingsworth students who have attended Bethany College in this period have known him.

Dr. John A. Knight also conducted a revival at the Wellington Church of the Nazarene in January 1984, and was the house guest of the Rev. and Mrs. Don Bland.

Before becoming president of the Bethany school, Dr. Knight was editor of the Herald of Holiness, served as president of Mount Vernon Nazarene College, was chairman of the division of Philosophy and Religion at Trevecca Nazarene College. He was pastor 10 years in the Tennessee District.

A graduate of Nazarene College, Dr. Knight holds an M.A. degree from Oklahoma University and the B.D. and Ph. D. from Vanderbilt University School of Divinity.

He and his wife, the former Justine Rushing, have three children, John Allan, James and Judith Anne.

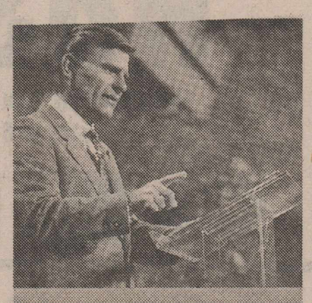

A brother of Mrs. John L. Knight, Glenn Bounds, with his wife and daughter, Sheri, of California were guests in the Buster Bounds home a few days ago.

World headquarters of the Church of the Nazarene are in Kansas City, but it is not required that the General Superintendent live in that area. The Church of the Nazarene works in most major countries of the world, and among Dr. Knight's duties will be travel worldwide. He assumed his responsibility on the board immediately upon his election.

A life, like a boat, can be steered in an infinite number of directions, but all ways are not equally good. The wise person wants to know what life is all about, which way leads to genuine fulfillment and which ways lead to the shoals of destruction.

The Church is God's appointed agency to give us guidance for life. The primary nature of that guidance is to assure us of God's good will toward us. The secondary step is to call us to love of our fellowman as God has first loved him. The two directions for fulfillment in life are trust in God and responsible love for one's fellowman. Let the Church help you direct your life in the right direction.

Panhandle Operators Must File Well Update

AUSTIN - Citing information that many wells have been completed in Panhandle oil and gas fields "in a manner which does not comply with current field rules," the Railroad Commission this week directed operators in the fields to file up-to-date completion information on their wells.

Although this includes only a small number of wells in Collingsworth, this is one of the counties affected by the action.

In a memorandum signed by the director of the Commission's Oil and Gas Division, Panhandle field operators were instructed to file amended completion reports for any oil or gas wells producing from intervals not listed on reports already filed with the Commission. Operators were given 30 days to send in the new information.

The memorandum said the well reports would be compared with those from adjacent wells. If reports for adjacent oil and gas wells indicate they may be producing from the same interval, the operators will be contacted and given a chance to prove they have not violated Commission rules. If the proof offered is not adequate, the Commission will set the matter for hearing.

If no overlap in producing interval is indicated when the Commission compares reports from adjacent wells, and there is no other indication of improper completion, no further action will be taken.

The memorandum also advised Panhandle operators that if they complete or work over an oil well so that it produces from above the gas-oil contact in the field, they may be violating Commission rules and state law. Likewise, completing or working over a gas well so that it produces from below the gas-oil contact may be a violation.

Operators were also directed to file an amended completion report within 30 days whenever workover of an existing well changes the producing interval.

PUBLIC NOTICE

General Telephone Company of the Southwest, in accordance with the Rules of the Public Utility Commission of Texas, hereby gives notice that a Private Coin Service Tariff has been filed with the Public Utility Commission of Texas.

Under the proposed tariff, Private Coin Service would be offered for use with a customer-provided, instrument-implemented coin telephone at the request of the customer. The new service is scheduled to become effective on November 16, 1985, or upon approval by the Public Utility Commission of Texas.

The matter has been assigned to Docket No. 6309.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757.

Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

GTE

NOTICE OF INTENT TO IMPLEMENT RATES

General Telephone Company of the Southwest in accordance with the Public Utility Regulatory Act and the Rules of the Public Utility Commission of Texas gives notice of its intent to implement new exchange access rates for the provision of shared tenant and tenant resale services.

These proposed rates are applicable to customers of General Telephone Company of the Southwest, excluding hotel/motel customers, who provide local exchange telephone service of General Telephone Company of the Southwest to their tenants or patrons on a resale or shared use basis. This resale or sharing arrangement is normally provided utilizing a customer-provided PABX or other similar stored control switch capable of common control processing or other features commonly associated with a PABX "Smart" switch.

These proposed rates are designed to recover costs on a usage basis for local exchange telephone service access and are identical to General Telephone's "Optional Measured Service" rates. The monthly access rate will be $28.95 per trunk line and the usage rates are as follows:

Over	Up To and Including	Band	Set Up	Full Rate Period Each Minute
0	7 miles	A	$ .025	$ .015
7	14 miles	B	.035	.021
14	21 miles	C	.050	.030
21	28 miles	D	.070	.042
28		E	.090	.054

As this is a new service offering, we are unable to determine the number of customers who may be affected. Currently, there are no known prospective customers. Until any customer utilizes this new offering, there will be no effect on the revenues of the telephone company, and in any event, the telephone company does not expect revenues to be affected by more than 2½ percent. These proposed rates, where applicable, will provide tariffed local exchange access to customers who then will provide shared or resale services to tenants.

These proposed rates have been suspended by the Public Utility Commission of Texas and will become effective as proposed or modified by order of the Commission on a date to be determined by the commission.

The proposed rate schedule is on file with the Commission for public inspection and is also available at any business office of General Telephone Company of the Southwest.

Persons who wish to intervene or otherwise participate in these proceedings should notify the commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumers Affairs Division at (512)458-0223 or (512)458-0227, or (512)458-0221 teletypewriter for the deaf.
