HAVE YOU ever seen Eastland looking greener? The good rains have brought welcome relief and helped fill stock tanks and raise lake levels.

- - -

WE CAN remember to thank James Rutherford, president of First State Bank, Rising Star, for the rains. Scouts report that a couple of Sundays ago (when the rains began) he went to Sunday School at one church and attended worship at another - - and it started raining. A friend asked why he didn't make it to a third church on Sunday night, and James guessed that that might cause a flood.

- - -

HANK SIMS, one of everybody's favorite people, will be announcing the opening here soon of a brand new service for Eastlanders, and it'll be a welcome addition downtown.

- - -

MRS. MURRAY KIMMEY, local GOP official, went right to the top last week: she placed a call to the White House and talked with the Mrs. Ford's secretary, and even came out with the First Lady's Texas itinerary when the wire services hadn't been able to get it.

- - -

WELCOME CHECK reported by the Eastland Teenage League President Norman Owen, received from former Eastlander James Smith, now of Bedford, and longtime operator of the Men's Store here. Guesses are that James read the appeal here for donations to help put new lights at the Firemen's Field. Others are invited to join in the much - needed effort to re - light the park.

- - -

IT'S COMFORTING to know others make mistakes too Dept.: recent news release from Bell Telephone announcing that Mrs. Clint (Bea) Bray was retiring after a number of years as a most capable telephone operator, failed to mention that she was actually retiring as a most efficient and appreciated service representative.

- - -

GOOD FOLKS out at Bethel Baptist Church will be celebrating their 20th anniversary in special services on Sunday, May 23. Understand Former Pastor Jim Flemming will be preaching and there's a good number of special events planned.

- - -

SCHOOL SUPT. Ray Pruitt reports that Saturday, May 1, is the deadline for transferring students between the districts.

YOU'RE GOING to be on TV! Your presidential delegate vote in the May 1 Primary in Eastland County will be forwarded by us, as a correspondent for the Texas Election Bureau, directly to the New York headquarters of the News Election Service which feeds NBC, CBS, ABC, AP and UPI "early" tallies, from which those unbelievable fantastic (and occasionally inaccurate) projections are made.

Don't Forget To Reset Those Clocks

This year you have two alternatives. You can either set your clock up one hour before you go to bed Saturday night, or you can get up at 2 a.m. Sunday morning and set your clock up one hour, then go back to sleep.

The logical alternative is to set the clock before you retire Saturday night, that way you won't feel like you've lost your hour of sleep.

Which ever way you decide to handle this matter, just be sure and do it. It would be embarrassing to be late everywhere you went Sunday.

"Get out and vote!"

That's the plea from the Eastland Rotary Club as members join in a concentrated effort to encourage qualified voters to exercise their right to go to the polls on Saturday, May 1, to vote.

It's a unique election in that for the first time (and perhaps the last) Texas voters will be marking ballots in a presidential preference vote which will be a key state in the national presidential selection process.

Chairman for the Rotary's worthwhile project is Pat Miller and his committee includes Doyle Maxwell and Saul Pullman.

Other details of the project are being considered and will be announced. The club may establish a telephone number and a "ride to the polls" project to assist those who need rides.

Jaycee Carnival Proceeds Go To Diabetic Camp

They may not get to make speeches, but they each may take public baths, when the four candidates for sheriff serving their term on the Jaycee Carnival Dunking Board Saturday beginning at 1 p.m. on the football field parking lot.

Jaycee President Charles Hill reports that all proceeds from the carnival will go to the Camp Sweeney Diabetic Camp, and that the local club is planning to send a local youngster to the camp this summer.

A Jaycee Slave Sale will be held at 3 p.m. Saturday at the carnival with proceeds from this project to help defray the cost of fireworks for the now - being - planned July 4th celebration.

Commission Re-Organized With Swearing In Of 2

The Eastland City Commission is taking a concentrated study look at a proposed electrical code, mapping plans for a summer recreation program and exploring ideas for getting some paving done and bad water lines replaced.

The Commission was re - organized after two commissioners were sworn in at the regular monthly meeting Monday evening at City Hall.

Incumbent Charles Marshall and Mrs. Dan (Nancy) Childress, Eastland's first woman commissioner, were sworn in. Re - elected chairman was H.V. O'Brien and Mr. Marshall was elected chairman pro - tem. Commissioner Dale Bakker was elected treasurer and Mrs. Childress, assistant treasurer.

Retiring Commissioner W.H. (Bill) Hoffmann was presented an engraved plaque and the commission expressed its appreciation for his service to the city. He was later asked to continue to serve as liason between the City and the County Radio Dispatch board, a function he has been serving. Commissioner Mike Siebert made the recommendation and the appointment was unanimous.

Truman Brown appeared before the commission and requested irrigation water from Lake Eastland. He was given approval, subject to action by the Texas Water Rights Commission, for 30 acre feet a year at $8 per foot on a five - year contract.

Electrician Denver Stagner appeared asking that the city consider adopting the National Electrical Code, or a modification thereof, in the interest of public safety in Eastland. The Commissioners asked a number of questions and assured Mr. Stagner that the matter would be given in - depth study and that a report would be made at the May meeting.

Permission was granted to install street lights at either end of College Street where the new houses are located near the Elementary School.

A request for an electrical right - of - way easement to serve an oil company at Ringling Lake was taken under advisement, as was a new utilities commission regulation regarding recording of contacts with utility representatives.

Commissioner Dale Bakker brought forward a proposal for a summer recreation program and he and Commissioner Charles Marshall, who operated such a program here several years, were asked to study the proposal and report back with recommendations.

Commissioner Bakker also reported on his continuing effort to do street paving and curbing and water line replacement reporting that estimates are that best contracted total paving cost would run about $17 per running foot, including curb and gutter, and with some 80 streets under consideration it's guessed that total cost could be some $800,000.

A proposal for small assessments to sewer, garbage and water fees might bring in some $35,000 a year, so commissioners are continuing to explore various possibilities, wondering if the citizens of Eastland want to consider a bond issue of this magnitude, or continue on a pay - as - you - go basis.

No action was taken, but various alternatives were discussed and citizens will be surveyed to learn the general attitude to these improvement projects.

City Manager Lewis Tiner reported that Engineer Billy Jacobs is working on specifications for the city's sub - division ordinance.

Consideration of a request for deeper angle parking was taken under advisement as was a program for systematic city equipment maintenance programs.

Spring Clean-Up

Eastland Civic and Garden Club announces that the annual spring clean up will be April 19 through May 1st.

City Manager, Lewis Tiner has scheduled trucks to pick up additional loads during this time. Anything to be hauled away should be placed by garbage cans.

Thoughts For Today

By Bobby Boudreaux

Did you ever put something in the wrong place and wonder where it was? Of course you have. We all have. Sometimes when the thing shows up, we ask the silly question, "How did it get there?" We know the answer. It got there because we put it there.

Similar reasoning can apply, in a way, to religion. People put God in the wrong place. It may sound peculiar, but we can put God in the right place. It can even be said we can put God in His place, if we want to. And this is said without smart - alecky semantics.

We know God is in Heaven. But he is elsewhere too. Instead of placing Him in that uncharted area "way up there", why don't we put Him where we can find Him all the time? We go to HIS house of worship on Sunday and then return to OUR home. Why not bring Him along home with us? When we put Him in our home, where most of us need Him most, we always know where He is. . . .

Republican Women's Club Holds Meet

The Eastland County Republican Women's Club met Tuesday noon at the home of Mrs. H.J. Bulgerin.

The meeting's main event climaxed the club's Bicentennial Project launched in September of 1975 - - an essay contest open to all high school students of the county. The essay title being: "Which Revolutionary Era Hero Would I Like to Be, and Why".

The final judging was completed by the Ranger Jr. College English Department led by Mrs. James P. Morris. The Committee found the paper **Patrick Henry** by Vicki McCormack to be the first winner. Vicki is a junior student of Mrs. Lois Marshall in Eastland High School and though not present at the luncheon, will be seen in these pages Sunday with her winning essay.

Tammi Huffmyer, a student of Mrs. Christine Reich, Cisco High School, wrote **James Madison** for second place.

Honorable mention was won by Eastland student Janet Frost for her **Dolly Madison**.

Kenneth Hawari, pictured here, was present at the luncheon and represented Cisco High School in his fine essay **Thomas Jefferson**.

Members and guests attending were from Cisco: Mrs. Christine Reich, Kenneth Hawari, Tammi Huffmyer; from Ranger: Mrs. James Morris, Mrs. P.M. Kuykendall, Mrs. Saunders Gregg, Mrs. J.J. Allen, Mrs. Ven O. White, Mrs. Trent Hellman; from Olden: Mrs. Lula Crone and Miss Clara B. Simer; and from Eastland: Mrs. Lois Marshall, Mrs. Troy Ray, Janet Frost, Mary Timmons, Esther Wadley, Virginia Kimmey, Virginia Russell and Loretta Bulgerin.

BOB CARROLL, second from right, tells bulldozer operator, "shove it that way", as one of Eastland's original wooden downtown buildings bites the dust, making way for progress. The building, over the years, had housed a saloon, domino parlor, real estate office, Chiropractor's office, and other businesses. Site was being cleared to make way for new facilities of Olney Savings & Loan, due to be operational by January 1, 1977. (James Dabney photo)

National Association Of Retired Federal Employees Convention To Be Held

The Texas branch of the National Association of Retired Federal Employees will hold the 1976 State Convention in San Antonio April 25-28 with President Vernon Bell, Lubbock, concluding an exciting two year term of office in the history of the organization. Great advancement has been made in the recruitment of new members as many new chapters have been organized. A close contact with Legislature officials, on the State and National level, has resulted in the correction of many inadequacies for widows of early Federal retirees and in health benefits for all.

The Hilton Palacio del Rio Hotel will serve as headquarters for the Sunday 1 p.m. registration and 2 p.m. committee meetings. The Monday 8 a.m. registration, with 10 a.m. opening of the Convention, will be at the San Antonio Convention Center. The keynote address will be by John F. McClelland, National President. The Sunday evening informal reception for State Federal officers will be held in the Hotel Ballroom with refreshments and entertainment. The Monday evening Mexican Fiesta, with Maxican food, Mariachi Band and Folkloris, and the Tuesday evening Banquet will be in the River Room and Lagoon Courtyard of the Convention Center. The Convention Wednesday business session concludes at noon with the election of officers and the memorial service.

Big Country CB Club Meets

Big Country CB Club met April 19. Eighteen members and two visitors were present. A motion was made and carried to have our air rifle shoot at City Park the 4th of July in conjunction with the Jaycees. Prizes will be given for the best shot.

Motion was made and carried to have a garage sale at the fire station June 19. Anyone wishing to donate items to this sale, please contact the following phone numbers after 5:00 p.m.: 629 - 2526, 629 - 2133, or 629 - 1152. Please don't leave donations at fire station.

All money from items sold will go to the advancement of the Club. We celebrated our one year birthday the 5th of April. We want to thank the people and the news media for their cooperation. We stand ready at any time to assist anyone.

Pioneer Club Continues Programs On Role Of The Early Pioneer Woman

The programs for the Bicentennial year continue the role of the early pioneer woman with the first program of 1976 brought by Mrs. J.H. Lee on the religion of the pioneers.

She noted their religion came from the Bible which was always at hand along with the rifle and the axe. The earliest settlers were able to carry the barest necessities, so the Bible might be their only book. The religious training of the children began at home - - at the mother's knee, and the well being of the family depended to a great degree on the mother.

After a region became settled, circuit riding preachers traveled from one settlement to another. Mrs. Clyde Garrett told of her father being one of these. Attention was called to the song "Faith of Our Fathers" and the members were reminded to renew their dedication and consecrstion to that faith - - our government being built on the belief in God.

Many early settlers came to America to be able to enjoy religious freedom. This did not to them mean freedom from religion, as true freedom is only in Christ - - freedom from sin, but freedom to worship as they believed right.

The 23rd Psalm was quoted in unison. Mrs. Bassett showed a plaque made by her granddaughter with a recipe for washing clothes containing the original spelling and phrasing.

The meeting in the home of Mrs. G.L. Wingate in February consisted of a covered dish luncheon, preceded by a prayer by the chaplain, Mrs. Garrett. All present enjoyed a bountiful feast, after which Mrs. Wingate, president, presided for a short business meeting. The club decided to give a donation to the Eastland Memorial Library in memory of Mrs. Edith Wood, a former member. Her daughters, Melba Mayfield and Nelda Wright, gave a beautiful tribute to their mother - - how she created a perfect environment by her faith. A poem written by Mrs. Wood's granddaughter was read. This was followed by reminiscences by members whose ancestors settled this area, and it was told of it being illegal in 1875 to bring a sleigh further went than Fort Worth.

Members attending were: Laverne Wingate, hostess; Sallie Garrett, Iona Sikes, Mary Logan, Lorine Crawford, Nora Wilkinson, Winnie Bassett, and Pauline Lee.

Guests were Melba Mayfield of Arlington, Nelda Wright of Fort Worth, and Elizabeth Rowe of Cisco.

The Club met March 25, in the home of Mrs. Nora Wilkinson for the regular monthly covered dish luncheon. After Mrs. Crawford offered a prayer of thanks giving, all present were seated at a large table laden with food.

The business session was presided over by Mrs. Wingate. Mrs. Wilkinson, secretary, read the minutes of the previous meetings. A birthday card was signed by all present to be sent to Josie Nix, who has been absent this year because of illness. "Happy Birthday" was sung to Mrs. Fannie O'Brien, the only member present with a March birthday.

Roll call was answered with a Bible verse. After a humorous reading was given, the members joined hands and sang the club's closing song "Blest Be the Tie".

Members present were: Nora Wilkinson, Laverne Wingate, Lorine Crawford, Arie Herring, Fannie O'Brien, Fannie Lockheart, Mary Logan, Margaret Tow and Pauline Lee.

The next meeting will be Thursday, April 22, in the home of Mrs. J.H. Lee. All members are urged to attend.

E.A. Connel Named President Of Brady Bank

E.A. Connel has been named President of The Commercial National Bank of Brady, where he has been Senior Vice President since August, 1975. Connel was among a group of Brady and Eastland investors who recently purchased 100 percent of the outstanding stock in The Commercial National Bank of Brady from U.S. Bancshares, Inc., a holding company of Brownwood, Texas, the sale being consummated on April 1, 1976.

Connel previously served as Vice President of the Eastland National Bank from 1972 to 1975 and was associated for over nine years with the People's State Bank in Clyde. He attended Cisco Junior College and graduated from the Southwestern Graduate School of Banking at S.M.U., Dallas, in August, 1975. Connel is active in real estate investments and land development. He is currently a member of the City Council of the City of Brady.

Jerry Matthews, president of Eastland County CB Club, is shown with the hand - made plaque which the club presented to him recently on its first birthday in appreciation of his service to the club as president. T Bob Mercer of Olden made the plaque. Ladies of the club made a pretty cake decorated with a CB.

Lone Star Says Country Limping In Energy Policy

Our country is "limping toward a national energy policy" a Lone Star Gas Co. official said in Eastland this week as he outlined the problems of natural gas supplies, cost and future hopes.

Speaking for members of the Lions Club, Jim Hines of the company's Community Service Dept., was introduced by District Manager Wilbur Simmel, program chairman.

President Ray Pryor presided and announced a nominating committee of Homer Smith, Darwin Miller and James Wright.

Ray Pruitt will be program chairman next week and he will have Mike Collins who will explain the May 1 Primary balloting particularly as it applies to delegate selection for the party conventions.

Mr. Hines emphasized the impact of the recent oil embargo and Environmental Protection Agency regulations and other factors on the volume and costs of natural gas.

"There's plenty of gas in Texas", he said, "But the people in the East face serious shortages in the future."

In response to a question as to whether Texas might be subsidizing the East in its fuel needs, Mr. Hines indicated that it might be possible and that it could, depending on what congress does, get even worse.

One thing that is happening, he said, is that industry is moving to the Southwest where abundant fuel is available.

Lone Star, he said, is operating on some 1600 gas contracts, 18 percent of which have rate adjustment clauses, so the weighted cost of gas is rising.

Certain Inalienable Rights Thursday Afternoon Club Study

Mrs. Arthur Murrell led the program of the Thursday Afternoon Club on Thursday, April 15, at 3:00 in the Women's Club. The quotation in the yearbook "Sweet Land of Liberty, Of Thee I Sing" provided the heart of the program as Mrs. Murrell discussed our rights as given in the Declaration of Independence and in our Constitution.

Mrs. H.L. Hassell, President, presided over the business session and then Mrs. Murrell called on Mrs. Pat Crawford to review our four freedoms: freedom of speech, freedom of press, of assembly and of religion. Mrs. Crawford made a strong plea for each and every one to vote and also stressed spiritual strength as the backbone of our nation.

Mrs. Murrell called on Mrs. James Horton to discuss two rights as brought out in the fourth and fifth amendments and Mrs. Horton defined these rights as the right of people to be secure against invasion of privacy and freedom from search and seizure as the fourth, and that no person should be deprived of equal protection under the law as the fifth.

Mrs. J.F. Francis spoke on the plight of the Big Thicket, but stated that appropriation has now been made to take care of this area.

Mrs. Joseph Perkins told of four paragraphs in the Yearbook of the Texas Historical Society referring to early Eastland settlers, particularly Captain William Eastland and C.U. Connellee.

A public notice of interest to all members of the General Federation of Women's Clubs was displayed on a table and Mrs. Hassell pointed out that it was an invitation to take part in a public ceremony at 4:00 p.m. in Independence Hall, Philadelphia, Pennsylvania, on the fourth of July, 1976, at which time the original moulds of the Official Bicentennial Plates will be publicly destroyed, thereby creating a limited edition of these Commemorative Plates.

Hostesses Mmes. Tommy Warford and C.B. Frost, assisted by Mmes. L.E. Corbell and H.L. Hassell, served cake and punch from a beautifully decorated table to the following members: Mmes. H.L. Hassell, E.G. Rice, E.R. Townsend, D.L. Childress, Jimmy Harkrider, J.F. Francis, L.E. Corbell, Jay Staggs, Chas. Terrell, Joseph Perkins, James Horton, Arthur Murrell, T.M. Collie, J.O. Earnest, Pat Crawford, and C.L. Bigby, Reporter.

Prominent in the Archives material is the Tindall geneology, and sheet music of the period including "Will You Come to the Bower", "Sam Houston", and others.

Leftover Easter Eggs No Problem

COLLEGE STATION - - Leftover colored Easter eggs won't present any problem to an imaginative cook, Marilyn Haggard, foods and nutrition specialist, says.

She's with the Texas Agricultural Extension Service, the Texas A&M University System.

"To spark the homemaker's creativity, the following quick egg sauce adds variety and nutrition to cooked vegetables.

"Add chopped ham or poultry to the sauce, pour over toast, poorboy rolls or biscuits for a quick, easy and inexpensive evening meal," the specialist said.

QUICK EGG SAUCE

1 10½ oz. can cream of celery soup, undiluted
2 hard cooked eggs, finely chopped
2 Tbsp. green pepper, finely chopped
¼ cup milk
⅛ tsp. pepper.

Combine all ingredients. Heat to simmering. The recipe yields two cups sauce for about six servings at about 70 calories per serving.

April City Sales Tax Rebates Received

Comptroller Bob Bullock mailed checks totaling $11.9 million to 516 cities and towns Thursday, April 15, as payment for their April city sales tax rebates.

Bullock said he has remitted $87.4 million to the 845 municipalities collecting the one - cent sales tax so far this year, compared to $80.4 million remitted during the same period last year.

"Both city and state sales tax collections are growing far faster than inflation alone," the Comptroller said.

He noted that 1975 city sales tax collections totaled $263.9 million, nearly 10 percent more than the $240.8 million collected in 1974; and state sales tax collections in 1975 totaled $1.266 billion, 12.5 percent more than the $1.126 billion collected in 1974.

Bullock attributed the increases mainly to increased consumer spending and improved collection procedures by the Comptroller's Office.

"Because tax collections are running so high, I've been able to project that state government can easily get by another two years without a tax increase," he said. "And with careful planning, we might be able to avoid new taxes for years to come."

City Sales and Use Tax allocation summary through period ending April 2, 1976. The net payment paid is as follows: Cisco $4,323.78; DeLeon $939.89; Eastland $3,657.48; and Ranger $2,294.90.

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN—Comptroller Bob Bullock now figures the 1977 legislature will inherit a $737 million cash surplus when it convenes next January.

Legislators, according to Bullock's latest projection, will have $2.6 billion more to spend during the next biennium than the $8.4 billion available for 1976-77. That is a jump of 31 per cent.

Bullock credited increased consumer spending that boomed sales and motor vehicle taxes, improved tax enforcement and continued increases in oil and gas prices.

The comptroller advised setting some of the surplus aside for a rainy day, tight budgets and careful planning to avoid new taxes for "years to come."

Gov. Dolph Briscoe promptly recommended that $1 billion should be socked away in a rainy day fund or capital reserve account.

Briscoe said the reserve fund would "insure a fiscally-sound state government for the foreseeable future within the existing tax structure."

House Speaker Bill Clayton went the governor one better, and suggested the second $1 billion be rebated to Texas taxpayers through tax reductions. Clayton said $600 million added revenue would take care of necessary inflationary increases.

Wiretaps Urged

Gov. Briscoe will ask legislators to authorize court-ordered and supervised wiretapping to help police organized crime.

Briscoe said the war on crime will be the No. 1 priority item in his legislative program in 1977.

The governor said there is no room for argument as to whether organized crime has penetrated into Texas. The question, he said, centers on the extent of the invasion and how it can be controlled and repelled.

His legislative proposals will include bills to make organized criminal activities a felony, allow electronic surveillance in investigations of organized crime and to permit a defendant to be tried for all organized criminal activities in a single trial.

Shots Available

Older citizens in nursing homes can get flu shots starting about July 1.

The vaccine will be for swine influenza, together with the A-Victorian strain.

Regular swine influenze vaccine will be available about September 1.

Two million Texans are expected to get the shots this summer, according to Dr. Fratis Duff, director of the Texas Department of Health Resources.

Another eight million will be immunized in the fall.

Rates Set

A slight increase in property, fire and homeowners insurance rates for the coming year has approval of the State Insurance Board.

The increases on a statewide average amounts to about four per cent, according to board calculations. The adjustment was less than industry recommendations and less than those presented by the board staff at a February 18 public hearing.

The industry sought a 5.1 per cent increase and the staff 5.4 per cent.

Board Chairman Joe Christie said rates on a $35,000 brick veneer home would increase about $18 in Galveston, $16 in Houston, $12 in Austin and $21 in Lubbock.

Meanwhile, the board set July 15 at 9 a.m. as the tentative date for its public hearing on automobile insurance rates.

Dispute Put Off

A hot dispute over sale of Colorado River water for nuclear power plant cooling has been postponed until June 16.

Texas Water Rights Commission delayed a hearing on whether Lower Colorado River Authority can sell the water to Houston Power and Lighting Company for $1 million. Atty. Gen. John Hill asked for the delay. Hill opposes sale of the water to cool the South Texas Nuclear Project plant.

Courts Speak

The State Supreme Court has turned down a suit for $1.8 million against a Houston physician who allegedly did not disclose that the husband of a Mexico City women was dying of cancer and encouraged the couple to have children.

The high court agreed to review May 12 a district court injunction against the State Board of Pharmacy's enforcing limits on prescription drug advertising.

Another May 12 review was set in a former Texas Tech football player's suit against the school following a knee injury.

A three-judge federal court upheld a state requirement that voters must sign ballot stubs and deposit them in a box at paper ballot elections.

In other rulings the Supreme Court voided a Beaumont ordinance requiring liquor stores to close at 8 p.m. and overturned insurance companies' $100,000 award to the guardian of a Liberty County woman who shot her husband.

Short Snorts

Former Gov. John Connally was honored here April 19 at an appreciation dinner.

An average of only 2.58 per cent of the 3.7 million Texans covered by the state's unemployment insurance law claimed jobless benefits during the last 13 weeks, indicating an improvement in the economy according to Texas Employment Commission.

Dry weather has sapped an estimated 9.3 million bushels from 1976 wheat crop expectations, Agriculture Commissioner John C. White said.

Redfish of less than 14 inches may be lawfully possessed aboard a licensed commercial shrimp boat, Atty. Gen. John Hill concluded in a recent opinion.

Texas oil and gas wells produced 685,977,012 cubic feet of gas in January 1976—a decrease of 4.22 per cent from field runs of a year ago.

SENATOR TOM CREIGHTON

Is against collective bargaining and the right to strike for public employees.

Many Eastern states and cities, due to state laws which permit state and and city employees to bargain collectively and unions which ignore laws forbidding strikes by public employees, are nearing bankruptcy. I want to be sure that never happens in Texas.

Union garbagemen in New York City are paid $18,000 a year. Strikes frequantly stop garbage pick up and police and fire protection. Teachers in many Eastern cities have walked out in labor disputes, totally shutting down public schools for months at a time.

I don't believe that is what the citizens of Texas and the 22nd District want from their public employees. My opponent favors collective bargaining for public employees. I don't.

EVERYONE BENEFITS FROM THE HEALTHY ECONOMY IN TEXAS, including public employees. By using their right to collective bargaining and the threat of strikes, the public employees of New York have driven the nation's largest city to the edge of bankruptcy. Other cities, such as Detroit, are in nearly as much trouble.

AS LONG AS I AM IN THE TEXAS SENATE, I will be working to prevent that from ever happening here. I'll be working against greater collective bargaining rights for public employees. I'll be working to keep our right-to-work laws. And I'll be working to maintain a tax system in Texas that will continue to attract companies wishing to move here from the East—companies that don't like what is going on there any more than you and I do.
