## The SDN COLUMN

Jim Erwin related one of the most unusual "weather stories" I've heard Tuesday night at the school board meeting.

While preparing to make a report to the board on the school testing program, Erwin noted that he had encountered some difficulties in getting himself ready to attend the meeting. A country squire of sorts, Erwin had the misfortune of being without water for some three days at his residence because of frozen pipes. The idea of a bath appealed to him late Tuesday as he prepared to go to the board meeting. So, he decided to prevail upon neighbors, the J. Merrill Kaysers, who had water at their house.

But, when he reached the Kayser residence, there was nobody home. Feeling neighborly, Erwin decided to go ahead and avail himself of the Kayser bath facilities. Just as he finished his bath, the Kayser telephone rang. Instinctively, Erwin answered it.

It was J. Merrill Kayser calling his own house hunting Erwin. Kayser had a horse with a foot caught in a cattle guard and he wanted Erwin to help him free the animal. Naturally, Erwin obliged.

"I don't know whether the bath did me any good or not," Erwin concluded.

The Snyder High School basketball team likely will continue playing its home games in the Scurry County Coliseum. This was indicated during informal discussion at the board meeting Tuesday night. Supt. Bill J. Hood said the turnout for the Levelland game last Friday night was gratifying and that the response appeared to justify more games in the coliseum rather than the high school gymnasium. The "take" at the Levelland game amounted to over $800. Doug Flynn, school business manager, said that a gate of $350 was considered good at the high school gym.

Plans were made earlier to play games of last week and this week in the coliseum on a sort of experimental basis. The school needs about 100 "extra" paid admissions for each game in the coliseum to pay the rental fee for the huge county arena.

Brownfield will be the Tigers' opponent in this Friday night's attraction at the coliseum.

—WACIL McNAIR

## Today In History

Today is Thursday, Jan. 11, the 11th day of 1968. There are 355 days left in the year.

Today's highlight in history:

On this date in 1943, during World War II, the United States and Britain relinquished extra-territorial rights in China.

On this date:

In 1757, the first secretary of the U. S. Treasury, Alexander Hamilton, was born on Nevis Island in the West Indies.

In 1785, the Continental Congress convened in New York.

In 1788, colonists for Ohio set out from Hartford, Conn.

In 1861, Alabama seceded from the Union.

In 1942, Japan invaded the Dutch East Indies.

In 1964, the U. S. government released a report describing cigarette smoking as a definite health hazard.

Ten years ago — A group of the nation's leading atomic reactor experts advised Congress that the Eisenhower administration's program for atomic-power development was inadequate.

Five years ago — 31 independent African nations assured the United Nations they supported U. N. efforts to unify the Congo.

ICICLE CLIFF ON MOHAWK TRAIL — A sub-zero wave in New England created wall of icicles being inspected by Francis Peters of North Adams, Mass., on face of rocks on Hairpin Turn on the Mohawk Trail crossing the Hoosac Range of the Berkshire Mountains. (AP Wirephoto)

## Heavy Snows Cover Rockies

BY THE ASSOCIATED PRESS

A siege of bitter cold weather hung onto the Northeast today while a paralyzing ice storm glazed parts of the Southeast and heavy snows belted the Central Rockies.

Deaths from the five-day onslaught of severe weather mounted to 76. Traffic accidents on ice- and snow-coated roads, exposure, fires due to faulty heating systems and heart attacks brought on by snow shoveling were among causes for the toll.

A four-engine transport plane believed carrying a U.S. Marine instruction team was feared down in the western snowstorm in northern Nevada. The pilot, flying on instruments in the blinding storm, had reported by radio that his engines were icing.

The mercury fell to 28 below zero at Massena, in upstate New York, before dawn. Glens Falls, N.Y., registered -27 and Albany -24.

The subzero chill also hung onto most of New England.

A second night of snow, sleet and freezing rain brought activity in much of North Carolina to a virtual standstill. The highway patrol urged motorists to use roads only in emergencies. Schools that had reopened closed early Wednesday afternoon as did numerous businesses.

Tree limbs weighted down by a growing accumulation of ice crashed down on power lines, blacking out portions of Raleigh.

In the West, meanwhile, a full-blown blizzard raked Southern and Eastern Idaho and adjacent sections of Utah. Temperatures tumbled well below zero behind the storm in Montana.

## State Due More Cold

BY THE ASSOCIATED PRESS

Another cold front headed toward Texas today and it appeared most of the state is going to stay damp and chilly.

Misting rain or fog and low clouds overhung much of the state's central and eastern sections in early morning, maintaining the pattern of recent days.

The new mass of cold air packed a promise of possible light snow by the time it reached the upper Texas Panhandle early Friday. Scattered showers or occasional rain were expected in all other sections except the southwest tonight and Friday.

While temperatures were expected to drop again, forecasts did not indicate severe chilling would accompany the latest front.

Readings near daylight ranged down to 25 degrees at Dalhart and 29 at Lubbock. Wichita Falls' 32-degree mark was cold enough to freeze a mixture of drizzle and fog.

Marks in other parts of the state were in the 30s and 40s, running up to 48 at Brownsville in the extreme south.

Top temperatures Wednesday afternoon covered a range from 34 degrees at Abilene and Mineral Wells up to 62 at Alpine and 63 at Presidio in Far West Texas.

### Meningitis Fatal To Dallas Lad

DALLAS (AP) — Paul Hopkins, 3, died this morning of infectious meningitis.

The boy, the son of Mr. and Mrs. Hugh Hopkins, had been taken to the hospital because it was believed he had a bad cold.

A brother, Jonathan, 2, was critically ill with the highly contagious disease.

### Rusk, Brown Meet To Air Problems

WASHINGTON (AP)—Secretary of State Dean Rusk and British Foreign Secretary George Brown met today to discuss problems ranging from the Vietnam war to the actions taken by both countries to defend their currencies.

The two foreign policy chiefs were scheduled to talk for three hours before Brown leaves for London.

## Rep. Rosson To Seek New Term In Texas Legislature

Renal B. Rosson announced that he would be a candidate for re-election to the office of State Representative.

The 71st Legislative District under the recent redistricting act is now composed of Borden, Crosby, Fisher, Garza, Haskell, Kent, King, Scurry and Stonewall Counties.

Rosson said he considered it a privilege and an honor to serve as representative of the district, and that he is fully cognizant of the duties and responsibilities of the office. He is presently chairman of the Judiciary Committee in the House of Representatives and a member of the Texas Civil Judicial Council.

"It has been my intent and purpose at all times to lend my support and efforts to such measures that will insure good, sound economical state government, keeping in mind the best interests of the district at all times, as well as the state as a whole," he said.

Rosson is married and resides with his wife, Dorothy, and son, Kyle, at 2510 Thirty - first Street in Snyder.

He is a former District Attorney of the 132nd Judicial District of Texas and has been actively engaged in the practice of law since graduation from the University of Texas Law School in June of 1949. He is also engaged in livestock and farming operations.

"If the people of the district favor me with re-election, I will try to support such matters that will result in good and sound state government," he concluded.

RENAL B. ROSSON

CONTROL CENTER — Emergency operations in the event of a disaster — man-made or natural — would be planned and directed from the emergency operations center in the basement of the public safety building. Here, Clark Titus (left) and Cliff B. Green, instructors from A&M, show how they can plot the path of atomic fallout within seconds.

CIVIL DEFENSE TRAINING

## 'Bomb Drop' Ends Course

What would happen if an atom bomb dropped near Snyder?

A group of local men perhaps will get a chance to answer that question — at least from a civil defense standpoint — when a simulated attack will be carried out here the night of Jan. 18.

It will climax a training program in emergency operations currently being conducted by the Texas A&M University Division of Extension at EOC (Emergency Operations Center) in the public safety building for local civil defense workers. Instructors are Clark Titus and Cliff B. Green of College Station.

Actually, the training is deisgned to better prepare local personnel for any emergency, according to the instructors. However since an atomic attack would be the worst possible disaster, the local personnel are being trained to cope with it.

"If they know what to do in the event of an atomic attack then they can handle any emergency," declared Titus.

The training began Wednesday and is designed to prepare local personnel for the simulated exercise set for Jan. 18. "Each man will familiarize himself with his duties and will know exactly what to do during the simulated attack," said Green.

The instructors pointed out that communications are kept at a minimum. Most information is relayed through the use of code figures or words.

For instance, plotters of atomic fallout use figures to describe the altitude of the blast, the wind direction and the time it takes for the fallout to reach affected areas.

Persons who would direct and coordinate emergency operations in the event of a disaster are the ones participating in the exercise. It will be done quietly, probably without the knowledge of most of the public.

Participants include:

Executive group — Sterling Taylor, county judge; M. L.

# US, Viets Report Three Big Battles

By ROBERT D. OHMAN
Associated Press Writer

SAIGON (AP) — U.S. and South Vietnamese soldiers clashed with Viet Cong and North Vietnamese in a chain of battles Wednesday that stretched from the northern provinces to the Mekong Delta.

Three major engagements were reported.

—U.S. infantrymen, landing from river assault boats on the slippery banks of a Mekong Delta canal, ran headon into a veteran Viet Cong battalion and killed at least 47 guerrillas in a 10-hour fight that ended early today. American losses were 18 killed and 50 wounded.

— Viet Cong infantrymen charged from behind a mortar barrage and struck hard at the hilltop bivouac of a South Vietnamese battalion, in Binh Dinh Province 270 miles above Saigon, killing 14 soldiers and 10 ammunition bearers and wounding 30 soldiers. A government spokesman said 23 guerrillas were killed and two were captured.

U.S. air cavalrymen, fighting under the banner of the Americal Divsion, reported killing 28 North Vietnamese regulars and said 14 of their own men were wounded in a four-hour fight in the Que Son Valley 370 miles northeast of Saigon. Only three of the wounded Americans had to be evacuated.

The continuing intense fighting that erupted after the New Year's truce and the aggressive tactics of the Communist forces were reflected in the U.S. Command's weekly report of casualties.

An American spokesman confirmed the South Vietnamese Command's report the day before that 2,868 of the enemy were killed last week, a record for the war. Allied losses were about average: 184 Americans killed and 1,132 wounded; 263 South Vietnamese killed, 657 wounded and 83 missing, 19 soldiers of other allied forces killed and 36 wounded.

In the Mekong Delta battle Wednesday, a company of the U.S. 9th Infantry Division's Riverine force 4landed from their armored landing craft and found themselves in the middle of the crack 261st Viet Cong Battalion.

While the 150 infantrymen held off more than three times as many of the enemy, the 9th Division rushed reinforcements in by helicopter.

Gunboats, helicopter gunships, fighter-bombers and artillery hammered the Viet Cong positions in the canal-laced rice paddies 54 miles southwest of Saigon. Shortly after midnight the enemy battalion broke contact and slipped away.

The U.S. infantrymen found 26 enemy bodies and then in a sweep beyond the battlefield today found 21 more bodies in new graves.

In the attack on the South Vietnamese battalion in Binh Dinh Province, enemy gunners lashed the government troops with mortars and rockets. Then the Communist infantrymen attacked.

## Arraignment For Spock

BOSTON (AP)—Arraignment of Dr. Benjamin Spock, Yale Chaplain William Sloane Coffin Jr. and three others indicted for counseling draft evaders has been scheduled Jan. 29 in U.S. District Court.

The five were indicted last week on conspiracy charges which the Justice Department said included a meeting last Oct. 16 at the Arlington Street church where resisters allegedly burned draft cards at a protest ceremony.

Indicted with Spock and the chaplain were Michael Ferber, 23, Boston, a Harvard University graduate student; Mitchell Goodman, 44, an author of New York City and Temple, Maine; and Marcus Raskin, 33, Washington, D.C., codirector of the Institute for Policy Studies.

The five have opposed U.S. participation in the Vietnam war and publicly condemned drafting of men to fight there.

## Population Boom A Major Threat

By LEWIS GULICK
Associated Press Writer

WASHINGTON (AP) — Secretary of State Dean Rusk says the future's overriding problem will be to ease the pressures of a growing world population before they threaten to touch off nuclear war.

And a prime achievement of the Johnson-Kennedy administrations he has served, Rusk said Wednesday is that "we have added seven years to the time in which the nuclear bomb has not been dropped in anger."

In an interview with The Associated Press, Rusk set a general time limit of up to a generation for meeting population demands before they get out of hand and a 5 to 10-year estimate for international agreement to curb the atomic weapons spread.

"The increase in the number of people who inhabit the globe increases the demands for opportunities for decent lives—food, shelter, health, education, employment," he said.

They are the problem of a growing human family in a stingy universe," added Rusk. This population problem rivals the nuclear problem and I think we have a limited amount of time to deal with both of them . . ."

"I'd say 20 to 30 years from now the problem would become acute, extremely dangerous, unless it has been solved then," said Rusk.

The danger of a nuclear catastrophe appeared dominant in Rusk's mind as he reviewed his tenure as secretary of state. Only a half dozen men in U.S. history have held the No. 1 foreign affairs job as long.

# Pleas Are Entered In Liquor Cases

Charges of illegal sale of intoxicating beverages have been filed against seven Snyder residents as a result of work done by undercover agents of the Liquor Control board, assisted by City Police and Sheriff's officers.

Charged were Delta Johnson, A. W. Wallace, Bobby Garcia, Melzar Jay Johnson, Freddie Ray James, Floyd Wellington (two counts), and Lorene Kellum.

All pleaded innocent to the charges in County Court yesterday and were released on $500 bond each. Purchase of the illegal beverages was made over the weekend at three different places in the City.

In other action, Alvin R. Rogers pleaded no contest to a charge of driving while intoxicated for an offense that occurred Oct. 2, 1967. He received a $50 fine plus 30 days in jail and court costs. Arrest was made by the Highway Patrol.

Pete Alaniz pleaded guilty to a charge of aggravated assault on an officer. The offense occurred Jan. 9, and he received a 30-day jail term plus court costs.

C. J. Harris pleaded guilty to driving while his licenses was suspended. He was handed a $25 fine plus court costs.

## *Fire Does More Than Thaw Pipes*

NORWAY, Maine (AP) — An effort to thaw frozen water pipes caused a fire that leveled two homes and damaged a third Wednesday, authorities said. Ten persons were made homeless in eight-below-zero weather.

Roy Bennett had been trying to thaw kitchen water pipes with a torch, officials said, when the fire broke out.

## Dies Of Gunshot

CORPUS CHRISTI (AP) — Clade D. Davis Jr., 44, died of an accidental gunshot wound about the time his pickup truck hit a power pole Tuesday. Justice of the Peace Peter Dunne ruled Wednesday. He said Davis apparently was rearranging two rifles in the truck and one discharged.

# BOMB

(Continued from Page 1)

Broman, mayor; George Patterson, city manager; and, Gary Stevens, information director.

Disaster Analysis Group — Bobby Goodwin, radiological defense officer and plotter; David McIntosh, damage assessment.

Operations Group — Karl Mayhorn, group chief; Alfred Kohl, fire; Louie Vaughn, medical - health - welfare; Stephen Clark, police; Keith Collier, sheriff; Doug Fowler, public works - transportation; and, Bill Schiebel, shelter; Juanita Farren, message controller.

All of these persons will work in the operations room — the control center for rescue work, fire fighting, police control, decontamination, etc.

Other personnel in the simulations room provide a direct link with field workers. They relay and carry out decisions made in the operations room. Included are Sue Goodwin, simulations supervisor; Frank Taylor, external agencies; Wayne Jones, fire; Odis Glasscock, medical - health - welfare; Gene Kirk, police; George Lee, public works - transportation; Preston Wilson, radiological defense; and, Gene Merrifield, shelter.

In addition, there will be others plotters and messagers. The instructors provide contamination detection teams.

The operations center is as well - organized as the combat operations center on a ship. A huge map of several West Texas counties appears on one wall. Plotters could chart the path of atomic fallout on it within seconds after receiving the information from the weather bureau or from the Department of Public Safety.

Instructors Green and Titus said a blast from a 1-megaton bomb (small) 10 miles from Snyder would set fires where there were dry weeds and other "easily - combustible" items. It also would knock out many windows.

"Our biggest immediate problem would be from flying debris," they said. "--Later, the big problem would be fallout."

Both men emphasized that the attack planned for Jan. 18 is only a simulated one. Of course, the real thing could happen anytime.

"We're not expecting an attack, but we want every community in the state to be ready for one in the event it should happen," they said.

After leaving Snyder, they will go to Baytown to conduct similar classes and exercises.

## Attack Fatal To University President

CORPUS CHRISTI (AP) — Dr. Joseph C. Clapp Jr., 51, president of the University of Corpus Christi, died of an apparent heart attack Wednesday night.

He was stricken about 10:45 p.m. while working with a friend, Wayne Pinson, to build a sailboat at the college maintenance building.

# Direct Tax On Travel Discussed

WASHINGTON (AP) — A direct tax on travel abroad—a possibility under discussion within the government—is unprecedented in American history.

Even during World War I and World War II, no tourist tax of the type now being considered was imposed on U.S. citizens, say government officials.

As of now, the travel part of the administration's program to reduce by $3 billion the U.S. balance of payments deficit is confined to a request by President Johnson for Americans to defer for two years unnecessary travel outside the Western Hemisphere.

Secretary of the Treasury Henry H. Fowler plans to get together with key members of Congress soon after it reconvenes next Monday to work out a possible tax to discourage travel abroad.

A head tax or a tax on the number of days a person remains abroad are considered major possibilities.

But Congress will have the last word and the outcome at this point is uncertain.

One government source who declined to be quoted by name predicted a tourist tax will never pass Congress. "It isn't going to stop people who spend the most money," the source said.

# Loan Funds Available

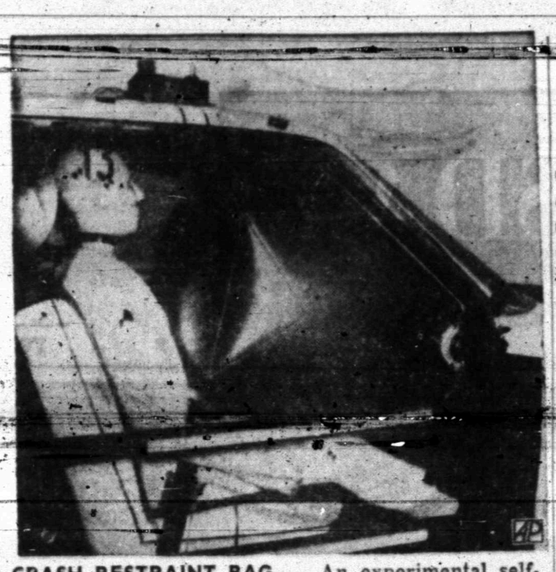
AUSTIN (AP) — Loan applications for planning area-wide sewage treatment facilities will be considered beginning March 1, says Hugh Yantis, executive director of the Texas Water Quality Board.

The legislature appropriated $2 million last year for such planning. No application will be processed before March 1, 1968, Yantis said in a statement Wednesday, but all applications filed before that date will be considered before later applications are taken up.

If the $2 million is not enough to cover all applications, Yantis said, a priority system will be used to determine which applications will be funded.

Among the factors used in the priority system will be a "need" rating already determined by the board, Yantis said.

The areas judged to have an "A" rating in respect to need are: San Antonio; Port Arthur-Beaumont-Orange; Galveston - Texas City; Houston; Brownsville - Harlingen - San Benito, and Fort Worth - Dallas.



CRASH RESTRAINT BAG — An experimental self-inflating restraint system for cars is shown here in fully inflated condition. Plastic bag is designed, say Ford Motor Co. engineers, to inflate to full size within 40 thousandths of a second on signal from an impact sensor. A dummy here demonstrates how passenger would be restrained. (AP Wirephoto)

## Fire Is Put Out In Pickup Truck

City Firemen extinguished a fire in a 1967 Model Chevrolet pickup at Cogdell Drive and the Big Spring Highway at 1:45 p. m. Wednesday.

They said W. W. Newby, driver of the vehicle, told them he was driving down the road when flame and smoke suddenly began billowing from under the hood.

The fire burned the wiring, melted the battery and caused considerable damage.

## Glue-Sniffing Girls Suffer Brain Damage

JACKSON, Miss. (AP) — Two attractive Jackson sisters, aged 15 and 17, were committed to Columbia State Training School Wednesday by state judges who said they suffered minor brain damage from sniffing glue.

County Judge Carl Guernsey sentenced the girls, whose case came to official attention when the older one was hospitalized after a "glue-sniffing party." Hospital spokesmen said the younger girl's brain damage was permanent.

Identities were not made public.

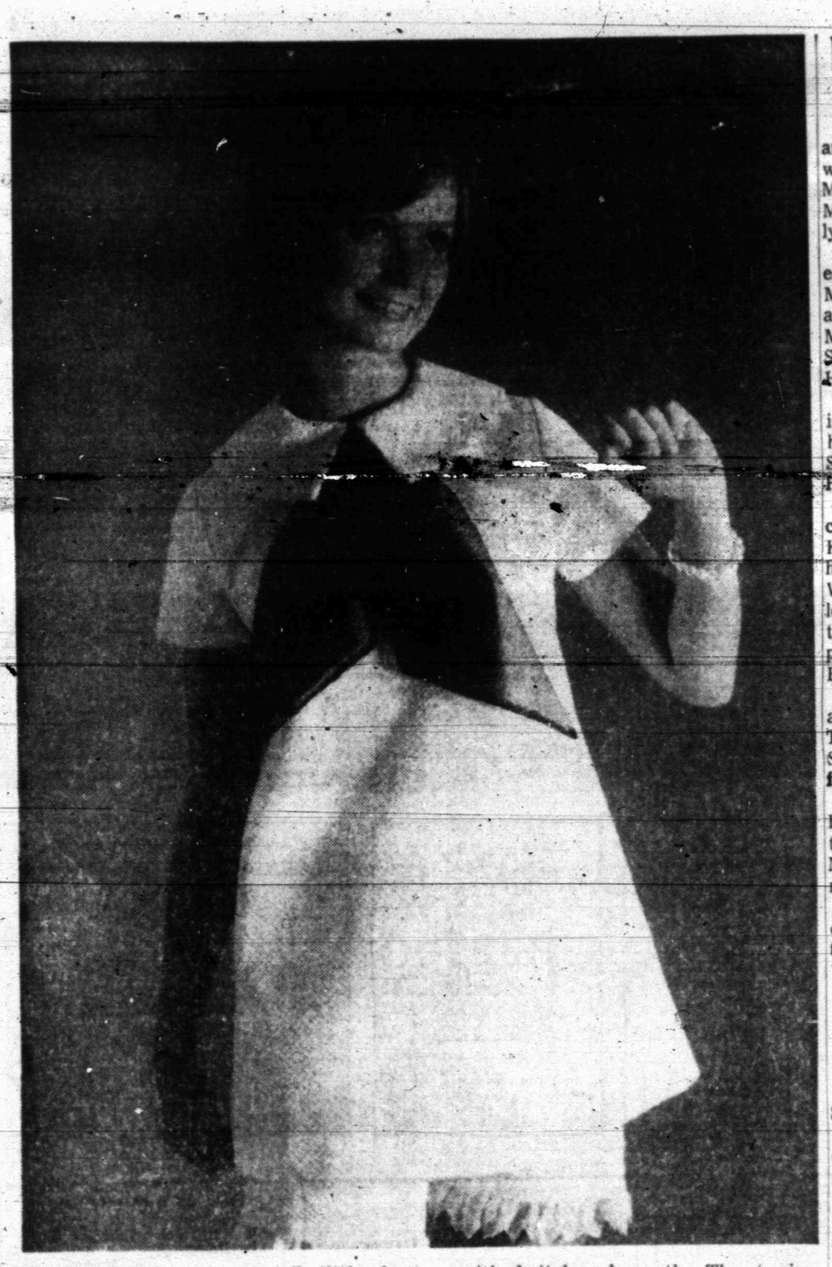
"WHERE EVERY CUSTOMER IS IMPORTANT"



**FOR PARTIES,** "Party-Pants", little dresses with britches beneath. The tunic, with choir boy collar and bow, tops little lace trimmed pants. In white bull's eye pique of Kodel and cotton.

What's new on the market?

THE PRODUCT: Windows and gliding doors featuring the use of extruded rigid vinyl over a core of preservative - treated wood.

THE manufacturer's claim: That these windows and doors provide a permanent shield against the elements, eliminating the need for painting or other protective treatment. . . that they will not rust, corrode or pit. . . that the windows, with a special insulating glass, result in lower heating and air conditioning cost.

That window - cleaning is cut in half by a reduction in the amount of glass surface that must be cleaned. . . that the windows are available as stock units in casement, awning and fixed-sash styles in 30 basic unit sizes. . . and that the gliding doors come in three widths with either left or right hand door openings.

• • •

THE PRODUCT: An all-in-one measuring tool.

THE manufacturer's claim: That this tool can be used for scribing circles, planning angled cuts, checking squareness, making parallel lines, determining the correct sizes of nails, screws and dowels and any kind of job that ordinarily would require a compass, protractor, combination square, gauge, etc.

That it is especially useful when finishing an attic, recreation room or basement, with emphasis on easy placement of studs 16 inches on center.

• • •

THE PRODUCT: A liquid polish that puts a glow on wood, metal, leather, marble, ceramics, brass, chrome, glass and plastics.

THE manufacturer's claim: That this polish spreads easily, dries quickly and removes smudges, grime, grease, mildew and finger marks. . . that it is nonflammable, will not cake or mat and that it is especially excellent for putting a polish on surfaces that have just been finished, since it adds to the life of the finish.

• • •

THE PRODUCT: A new epoxsy adhesive for the repair of marble, granite or any other stone.

THE manufacturer's claim: That this adhesive, which consists of a base and a hardener packaged in flexible tubes, hardens at roo temperatures and sets relatively slowly, thus permitting readjustment of broken pieces. . . and that, in addition to its adhesive quality, when used with natural stone, it also provides high strength bonds to aluminum, ferrous metals, wood glass, most hard plastics, leather and many other products.

• • •

QUESTION: I have been toying for some time with the idea of using a textured paint on my young boy's room. Frankly, the walls are pretty well banged up, and I have been told that textured paint will cover the mars without too much preparation of the walls.

Is this so? And can you tell me what I should know about applying textured paint?

ANSWER: Textured paint is very much like regular paint, being available in either latex or alkyd. The principal difference is that it has more body to it and so does not flow very freely. It is this heaviness that makes it excellent for creating special effects. There are literally dozens of ways to make your own patterns with textured paints.

Some painters merely swirl the brush as they apply the paint. Others brush on the paint, then dab at the surface with the tips of the bristles. Or you can apply the paint with a brush, then dab at it with a sponge, a scrub brush or almost anything else that will produce a kind of rough finish. Let your imagination go. No matter what the result, the observer feels that it was intended to be that way.

I might be a good idea to practice with the paint a little to get the hang of creating some unusual design. But don't try to be too artistic or the fun of painting this way will be lost. The idea is to be kind of carefree about the whole thing, since you want the walls to look different.

Yes, textured paint will cover mars, but you still must be sure to wipe off all dust, dirt and grime before painting. Also, during your test period, experiment for different effects with a roller as well as a brush.

## *Designer's Hems Feature New Built-In Compromise*

By JAN SPRAIN WILSON
AP Fashion Writer

NEW YORK (AP) — Even as the word flashed around the world that the queen of England's couturier Hardy Amies has dropped the hemline modestly below the knees, Oscar de la Renta has hemlines with a built-in compromise.

Actually, his first few costumes shown Wednesday compromised more than the matter of where the skirt edge shall rest, but also the dilemma of should ladies wear the pants or the skirts? Or should fashion abandon the hard chic of Frenchman Andre Courreges for marshmallow softness?

Not all, but the first of the pretty manikins who opened the press preview at the American Designer shows strode into public eye in white boots just short of the knees and red- and white-belted top-seamed costumes just long of the knees. However, in seconds the misses had zipped themselves out of their old-looking new look of the postwar years to stand bare kneed in miniculottes. Equally as compromised was the boot with its entire foot chopped off at the instep, making it part sandal.

In the spring collections is an overabundance of ruffles and lace, an abundance of patriotism, and such a goodly supply of ostrich feathers that there surely must be a shortage of ostriches these days.

Now that body-hugging styles are in even though the body may not be in shape for hugging, Warner's slimwear gave a show to reveal some inside secrets. Among these is a body suit, a second skin of lightweight, elasticized fibers which grab hold of the situation from the bosom straight down to the toes.

## Mrs. Wallace Due Radiation Theraphy

HOUSTON (AP) — Gov. Lurleen Wallace of Alabama was to receive another radiation therapy treatment at a hospital today and later attend a political rally for her husband, former Gov. George Wallace.

Wallace is a potential third party candidate for President.

A spokesman for the governor said the Wallaces were to attend Thursday night the opening of the Houston headquarters for the American Party, created last October to support Wallace's presidential campaign.

## Knapp News

By MRS. VERNON TODD

Mr. and Mrs. N. D. Neyman and sons of Eunice, N. M. were weekend visitors of Mr. and Mrs. O. C. Tipping and Mr. and Mrs. Mickey Sterling and family.

Mrs. San Skien of Gail visited from Friday to Sunday with Mrs. Ben Weathers. Mrs. Skien and Mrs. Weathers visited with Mr. Skien and Mrs. Harley Smith at the Baptist Memorial Hospital, San Angelo, Saturday.

Mrs. Ellie Ohlendorf of Austin is visiting Mrs. Frieda Murphy, also Mr. and Mrs. Jim Sorrells and Mr. and Mrs. Olen Horn this week.

A fellowship was held after church Sunday night at the Knapp community center honoring Bro. and Mrs. Charles Whitlock and sons. The Whitlocks are moving to Lueders this week to take up duties as pastor of the Lueders First Baptist Church.

Mr. and Mrs. Paul Gordon and Steve visited his mother at Tulsa, Okla. over the weekend. She returned home with them for a visit.

Mrs. Brent Murphy is in Baltimore, Maryland this week to be with her sister and family, Mr. and Mrs. Andy Prince and new son.

Mr. and Mrs. Otis Boyd and children are moving this week to Snyder.

## Fire Auxiliary Hears Program On Iceland

The Ladies Auxiliary of the Snyder Fire Department met at Central Fire Station Thursday for their regular monthly meeting.

A discussion was held on having a contest for the school students during Fire Prevention Week. Trudie Woods pointed out that as much talent as pupils have, we should take advantage of it. Rules for this contest will be secured from Austin.

Mrs. Jimmie (Nina) Johns presented the program on Iceland. She gave some very interesting facts such as the average winter temperature of 37 degrees, which is one degree higher than the average winter temperature of New York. Also, Icelanders call each other by their first name insted of their last. Names in the telephone book are listed this way. She showed some slides with her talk.

Leona Benetiz and Lois Engler served refreshments.

## University Opens Poison Control Center

AUSTIN (AP) — Doctors in Texas, Arkansas, Louisiana and Oklahoma now can get advice on how to treat poison cases, the state Health Department says.

A regional Poisor Control Center, sponsored by the Public Health Service, has been established at the University of Texas Medical Branch in Galveston, the department announced Wednesday.

Doctors may get information on the toxicity of various products. A recommended treatment will be offered in each case.

The center is the first of its kind in the nation, the department said.

To keep pancakes hot while making several batches of them place the baked griddle cakes one layer deep in a shallow pan in a very low oven.

# Viet War Apt To Dampen US' Spirit Of Big Brother

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — The North Vietnamese and the Viet Cong have good reason to kick themselves for dawdling. At the same time Ho Chi Minh, the chief dawdler, may have done communism one of its greatest favors.

The dawdling was in failing to try to take over South Vietnam faster. The favor was in making Americans, after their experience in this war, perhaps a little more reluctant to get into another one like it.

It's impossible at this time to draw a sharp distinction, if any, between the Viet Cong and Communist North Vietnam. It can be assumed, until history proves otherwise, that Ho Chi Minh's North Vietnamese were the directing force and chief helper in men and supplies for the Viet Cong.

When the Viet Cong, in the late 1950s, began their guerrilla war to overthrow President Ngo Dinh Diem's government of South Vietnam, they operated on a small scale compared with the forces in the field now.

The shadow of the United States, which had been backing Diem since 1954, lay across the country. But it was hardly a frightening shadow then. It had been helping Diem but there was no certainty this country would get into war for him.

Even by 1960, the United States had only 785 men there, not as a fighting force but as assistants, consultants and trainers. The Viet Cong increased in numbers and success as the years passed.

By the end of 1964 this country had 18,000 men in Vietnam but by then the Saigon government was in danger. Diem had proved no match by himself for the Viet Cong which had the country throttled.

Yet, although in all the years since 1954 the United States had stayed out of the fighting, it was something the Viet Cong and North Vietnam had to think about. What would the Americans do if the Viet Cong were on the verge of taking over the country?

Recent history was not a perfect guide. In the years after World War II the United States had helped Chiang Kai-shek and his nationalists on mainland China but stood aside when the Chinese Communists crushed him finally and took over the mainland.

But the United States had done exactly the opposite when, after withdrawing from South Korea, the North Korean Reds invaded it in 1950. Immediately the United States plunged back in and was involved for years in a war that drove the North Koreans back to where they had started.

So the Viet Cong and North Vietnam would only guess what this country might do if South Vietnam were near total seizure by the Reds. Apparently they assumed the United States would not get involved. It was a wrong guess.

They proceeded slowly instead of using their utmost effort to take over South Vietnam fast before the United States, which had been building up its forces on a tiny scale, could make up its mind about intervening.

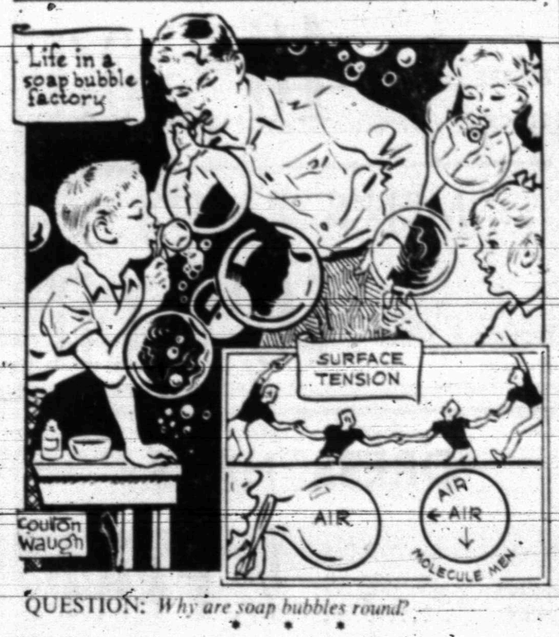
Once the Communists had taken control, this country might very well have decided it was too late to move in.

Although this country now seems determined to see the war to an end, it has been a costly, bloody, drawn-out struggle, thanks to the dogged determination of Ho Chi Minh, and the end is not in sight.

This country, split over the war, has been forced into bitter soul-searching. President Johnson has not only lost some political power but has been abused more intensely than any president in this century.

This experience—the cost of the war in lives and money, the division of thinking and unhappiness at home—may make the United States a lot more reluctant to get involved in the future for the sake of a small nation in Asia or elsewhere threatened by Communist seizure.

## Junior Editors Quiz on SOAP BUBBLES



QUESTION: *Why are soap bubbles round?*

ANSWER: If you dip a pipe or bubble blower in soapy water and blow, a tiny bubble will begin to grow and get larger and larger. This effect is caused by surface tension, the pulling together of a liquid's open surface. Even clear water has this. It is the surface tension which will cause a needle to float if we lower it very carefully onto the surface of a cup of water. But in the soapy water, the molecules act more strongly to hold together. We might think of them as tiny molecule men who have linked hands to stay as close together as possible. The effect of such surface tension is to hold the surface area down to the smallest possible space. It is this which makes the soap bubble round. The air from your breath forces the water film outward but the stubborn little soap-water molecule men hold together as much as they can. A sphere is the smallest shape which can enclose the volume of air you have blown, and so you have a round bubble. Keep on blowing, and soon there will be too much for the poor little molecule men to enclose. Your beautiful bubble will burst.

# John Glenn To Debut On Television

By HAL BOYLE

NEW YORK (AP) — "I reached a low point in my life, but I've come back from it," said Col. John H. Glenn Jr.

Glenn, the first American astronaut to orbit the earth, makes his debut as a television star tonight in "Great Explorations," a new series on NBC-TV.

On the program Glenn will follow the route taken by journalist Henry Morton Stanley in his historic search for missionary David Livingston in Africa late in the last century.

Recalling his own historic orbital flight over the same territory in 1962, the colonel remarked:

"It took me 3 minutes and 20 seconds to cover the route it took Stanley 8½ months. I was traveling five miles a second. A lot of days Stanley didn't make that much a day."

No American of his generation ever received greater accolade than greeted Glenn after he piloted the Mercury Friendship 7 spacecraft on its successful three-orbit mission around the earth on Feb. 20, 1962. Honors were showered on him from all parts of the country. He received a hero's welcome wherever he went.

But personal disaster struck in 1964 when, after resigning from the Marine Corps, he announced plans to enter politics and seek election as U.S. senator from Ohio. A bathroom fall left him with an ear injury that forced him to abandon his political campaign.

"That certainly wasn't a vintage year for me," Glenn said during a recent luncheon interview. "I was out of everything for almost a year, and I guess I was lucky just to be among the living."

Added to worry over his low physical recuperation were the biggest financial troubles of his lifetime. The cancellation of his senatorial campaign left him and his backers facing thousands of dollars in unpaid bills. He could have ducked them but, characteristically, decided to shoulder them all himself.

"I was determined to pay off all my political debts, and I did," he said. "It took me a year and a half to do it, and 23½ years of my Marine Corps savings went down the drain. It wasn't a huge sum, but it seemed a big amount to me."

Today he is completely recovered, both physically and financially. He serves as a consultant on space matters for the National Aeronautics and Space Administration and is president of Royal Crown Cola International, Ltd. He has traveled in 33 countries in the last two years.

Still boyish looking at 46, Glenn weighs 178 pounds, only five more than he did when he made his orbital flights. Now as then, he runs at least two miles every day when he is at home.

"I like to keep in shape," he said. "If I don't take exercise, I feel dull and logy.

"Life is good again for me now—after that low point. I enjoy everything.

"All our debts are paid, my wife Annie's health is good, and our two kids are in school. The whole family is fine."

LARGEST HAUL YET

# Bogus Bills, Press Seized

NEW YORK (AP) — Secret Service agents have seized a printing press and a large amount of counterfeiting equipment in Ohio following their confiscation here of $4.1 million worth of phony $100 bills—the largest haul in the history of the Secret Service.

Two men have been arrested in Ohio and charged with printing the counterfeit money.

A Miami, Fla., lawyer, Joel Lee, 39, was arrested here. He allegedly was salesman and traffic manager for the ring that planned to unload $50 million in fake $10, $20 and $100 bills. Authorities say that apparently none of the phony money got into circulation.

Albert E. Whitaker, agent in charge of the Secret Service in New York, has predicted more arrests.

Secret Service agents, acting with local police, seized counterfeiting equipment in a raid late Wednesday at a vacant storeroom in Wellsville, Ohio. No arrest was made.

Police Capt. Pete Trainer said he understood that the equipment was connected with the counterfeiting operation in which the two Ohio men had been arrested. The material seized included a photocopy camera, two boxes of paper, a trunkful of paper cut to the size of U.S. currency and printing ink.

Earlier Wednesday, Asst. U.S. Atty. Robert J. Rotatori announced at Cleveland that a printing press had been seized on the back porch of the home of James Clark, 28, of Clinton, Ohio.

The press, about half the size of a small auto, could be loaded on a truck and moved to various sites but was too big to get into the house, authorities said. Clark, allegedly the printer and technician in the counterfeiting operation, was arrested Wednesday at a tool and die shop in Akron where he was employed. Clark was acquitted by a jury last year on a charge of an armed holdup of a supermarket.

The other Ohio man arrested by Secret Service agents was Louis Christian, 46, a used car dealer, who was seized at his home in Canton. In 1965, Christian was sentenced to a year in prison for conspiracy to transport stolen autos across state lines.

Clark and Christian, both charged with printing counterfeit money, were held in $75,000 bail each.

[illegible] Commissioner Max Rudin set $75,000 bail Wednesday for Lee, arrested Tuesday night at Kennedy Airport as he was on his way back to Florida, was charged with possession, sale and delivery of the $4.1 million in counterfeit money.

The bogus bills, packed in ordinary cardboard boxes, had been seized at Kennedy Airport Dec. 29.

## Killeen Soldier Is Among Casualties

WASHINGTON (AP) — Army Sgt. Robert L. Jones Jr., of Killeen, Tex., was listed by the Defense Department Wednesday among servicemen killed in action in the Vietnam War.

His widow, Queen E. Jones, lives at 806 Stetson Ave., Killeen.

BUILDUP BEGAN 2 YEARS AGO

# Army Still Short Equipment

By FRED S. HOFFMAN
AP Military Writer

WASHINGTON (AP) — U.S. Army divisions and brigades that form a strategic reserve to meet any new crisis abroad, are short nearly one-fifth of their major equipment.

This situation exists more than two years after the Defense Department began putting in heavy orders for gear and supplies to support a big military buildup for the Vietnam war.

Asked for a report on the present equipment situation in the strategic reserves, the Army replied Wednesday: "The active Army divisions and brigades currently stationed in continental United States have on hand approximately 82 per cent of their authorized . . . major end items equipment."

The Army defined a major end item as "one which in itself performs a function" such as trucks and tanks.

It estimated only about one-half of the shortages will be filled by June 30.

Beyond an across-the-board percentage the Army declined on security grounds to provide a detailed breakdown of short items.

But while the strategic reserves are short of their allotted equipment, the Army apparently has made progress in modernizing their gear.

In May 1966 the Senate preparedness subcommittee complained stateside divisions were burdened with over-age vehicles and tracked equipment which has been driven "an excessive number of miles."

The new report said fewer than 1.2 per cent of the major items on hand are less than first-line quality.

The preparedness subcommittee charged in March 1966 that the Army's divisions in the United States were not combat-ready because they were being used to train draftees and recruits. Sceretary of Defense Robert S. McNamara acknowledged this was so.

A separate Army report, furnished on request to The Associated Press, showed this problem has been overcome. The Army said no basic trainees remain in the ranks of its divisions and brigades in the United States.

Furthermore, virtually all those units are at 100 per cent strength, with many of their men Vietnam combat veterans, the Army said.

Only two divisions, one a mechanized infantry division and one an armored division, are below full strength and these, sources said, range between 95 per cent and 100 per cent, of full manpower.

There are four Army divisions in the strategic reserves.

They are the 1st Armored Division and 2nd Armored Division, both at Ft. Hood, Texas; the 5th Mechanized Division at Ft. Carson, Colo.; and the 82nd Airborne Division at Ft. Bragg, N.C.

A new division, the 6th Infantry, is beginning to take shape at Ft. Campbell, Ky. It will probably not be combat-ready until late this year.

When the United States decided to take the big plunge in Vietnam in the summer of 1965 the Army's strategic reserve was made up of eight divisions plus two brigades.

Also forming an important part of the strategic reserves are two Marine divisions, the 2nd based at Camp Lejeune, N.C., and the 5th at Camp Pendleton, Calif.

About one-third of the 5th Marine Division is in Vietnam. Roughly the same slice of the 2nd Marine Division is afloat on normal rotation duty in the Mediterranean and Caribbean or stationed at the U.S. Naval Base at Guantanamo Bay, Cuba.

Sources said both Marine divisions have some minor manpower gaps but are in pretty good shape so far as equipment is concerned.

### *Judge Has Heart For Heart Patient*

REDWOOD CITY, Calif. (AP) — The judge had a heart Wednesday for Mike Kasperak, the heart transplant patient.

Kasperak, who received his new heart Saturday night, was cited for making an illegal U-turn Dec. 30 by California Highway Patrolman Harry Emmerick.

On the recommendation of Emmerick's superiors, as a gesture of good will toward the man fighting for his life at Stanford University Medical Center Municipal Judge Frank J. Comaich dropped the charge.

# Pipers Go Out Front With OT Win At Dallas

BY THE ASSOCIATED PRESS

The Pittsburgh Pipers made the most of the three-point field goal while the Minnesota Muskies were having trouble getting even the conventional two points and now there is a new leader in the American Basketball Association's Eastern Division.

Pittsburgh, which had trailed Minnesota by percentage points, took a one-game lead by edging Dallas 123-120 in overtime Wednesday night as the Muskies lost to Indianapolis 105-79.

The Pipers, winning for the 17th time in 18 games, fell behind by four points in the overtime but then cashed in on three three-point baskets and went on to win. Regulation play had ended in 110-110 tie.

Connie Hawkins scored 26 and Charlie Williams 24 for Pittsburgh. John Beasley poured 34 and Player-Coach Cliff Hagan 29 for Dallas.

Minnesota scored only 25 points in the first half, a league low, and made only 27 of 108 field goal attempts in being trounced by Indiana.

Bob Netolicky led Indiana with 28 points and Roger Brown added 27. Gary Keller topped the Muskies with 24.

In the only other ABA action, Houston nipped Anaheim 122-120 in overtime and Denver topped Kentucky 99-83.

Willie Somerset hit a 12-foot jump shot in the final second of the extra period for Houston's victory. Somerset stole the ball and passed to Hal Hale, who scored with 18 seconds left, sending the game into overtime at 111-111.

Somerset led all scorers with 28 points. Warren Davis and Larry Bunce got 24 each for Anaheim.

Denver, with Lonnie Wright, safety for the Denver Broncos of the American Football League making his ABA debut outscored Kentucky 30-18 in the fourth quarter for its victory.

Wayne Hightower and Larry Jones each scored 22 for Denver. Wright got two.

In National Basketball Association play Wednesday night, Boston trounced Seattle 123-110, St. Louis upended Philadelphia 134-122, Cincinnati clobbered Baltimore 133-117, New York topped Los Angeles 115-101 and San Diego nipped Detroit 122-118.

# Packer Fan Makes Switch

By HAL BOCK
Associated Press Sports Writer

BOCA RATON, Fla. (AP) — Thirty-seven years of football loyalty reaches an end Sunday when Andy Banaszak, a season ticket holder in Green Bay since 1931, takes his seat in the Packer section and roots for Oakland in the Super Bowl.

"Dad didn't give up easily," laughs Pete Banaszak, the Oakland running back who is the reason for Pappa Banaszak's momentous switch "but I can understand. I was a big Packer fan too . . . once."

Pete, who replaced Clem Daniels when the Raider star broke his ankle in mid-season, grew up in Crivitz, Wis., a little town about 50 miles north of Green Bay.

Banaszak stepped right in when Daniels broke his leg and played a major role in Oakland's romp to the AFL title.

He gained 376 yards in 68 carries for a 5.5 average—one of the best in the league—and also picked up 192 more yards on 16 pass receptions.

Papa Banaszak was one of the 50,861 frigid fans who jammed into Lambeau Stadium at Green Bay on Dec. 31 to watch the Packers beat Dallas for the NFL title in 13-below zero weather.

"Yes, he was there," says Banaszak. "As soon as it ended he rushed over to my sister's house about two blocks from the stadium and watched our game on television."

What he saw might have helped convince him to root for Pete and the Raiders Sunday. Oakland demolished Houston 40-7 for the AFL crown with Banaszak rushing for 116 yards in 15 carries.

"On a whole, it was our best game," says Banaszak. "We made very few mistakes. If we can play the same way . . . execute as well . . . on Sunday, we'll do all right and dad will still be with a winner."

# Vince Peps Up Packers

By JACK HAND
Associated Press Sports Writer

FORT LAUDERALE, Fla. (AP) — The Vince Lombardi pep talk is an awesome Green Bay Packers weapon that can make a quarterback want to run through a wall.

Bart Starr spoke of the Packers' emotional approach to football before today's workout for Sunday's Super Bowl game with the Oakland Raiders at Miami's Orange Bowl.

"Coach has said things that make me think I could run through a wall in the middle of the week," said Green Bay's quarterback. "He makes you wish you could play the game today.

"Football is a very emotional game. Physically, you know you'll be ready for Sunday. But if you're not ready emotionally and mentally you can't do it on Saturday night."

"Sometimes, he will talk to the club before the first practice of the week," Starr said. "Sometimes, it will be later—whenever it comes naturally. Some people may think it is a lot of college and high school stuff but you have to be ready emotionally.

"He never has said anything out of line. When I make talks in the off season, I often quote him word for word. He has talked to us about this game both back home and since he arrived down here."

"Money is a great incentive. You'd be silly to say it wasn't with big money ($15,000 a man) at stake. But the big thing is pride and prestige in yourself and the whole league. We like to think we are representing every guard, every end, every back, every player in the National Football League. The league championship means more now than it used to. And this game is the climax of it all," he said.

# Yastrzemski Top Pro

By LARRY ELDRIDGE
Associated Press Sports Writer

WAKEFIELD, Mass. (AP) — A heavily perspiring Carl Yastrzemski had just finished one of his rugged daily workouts when he was told he had been voted Male Athlete of the Year for 1967 by an overwhelming margin in the annual Associated Press poll.

"I know what it's like to be on top and I want to stay on top," the slugging Boston Red Sox outfielder said in explaining what motivates him to keep squeezing trips to the gym into his hectic off-season schedule.

"I worked hard to get where I am, and I'm not going to get complacent now," he added.

Yastrzemski, who earned the American League's Most Valuable Player award and Triple Crown in batting while leading the underdog Red Sox to the pennant, said he wanted to say more than "just the usual things" about this latest award.

"This is really one of the outstanding honors, and I want everybody who voted for me to know how thankful I am," he said. "A lot of awards are for just one sport, like baseball, but this one is especially important where it takes in so many thousands of athletes in all sports."

The balloting by 376 sports writers and broadcasters was no contest, with Yastrzemski picking up 210 first-place votes and 879 points on a basis of three for a first-place vote, two for second and one for third.

Baltimore Colts' quarterback John Unitas, the National Football League's MVP, was a distant second with 267 points. Next in order were Jim Ryun, who broke his own world record for the mile run with a 3.51.1 clocking; pro golfer Jack Nicklaus, who set a money-winning record of $188,988; and ace halfback O.J. Simpson, who led Southern California to the national college football championship.

Yastrzemski is the third baseball player in a row to win the honor, the sixth in the last seven years, and the 15th since Pepper Martin of the St. Louis Cardinals won the first one in 1931. Frank Robinson of Baltimore, who also took the AL's Triple Crown, was the 1966 winner.

Yastrzemski led the AL in five batting departments, including a .326 average and 121 runs batted in, and tied Minnesota's Harmon Killebrew for most home runs with 44.

The 28-year-old outfielder also sparkled in the field and was at his best all season in the clutch, climaxing his tremendous year by going 7-for-8 and driving in six runs in the "must" victories over Minnesota on the last two days of the season. He kept it up in the World Series, hitting .400 with three home runs in the losing effort against the St. Louis Cardinals.

Yaz said the inspiration of being in the pennant fight was a big factor in his indivdual success.

# Louisville Sets Pace In Valley

BY THE ASSOCIATED PRESS

Louisville held off Memphis State with its press and swept to a 78-58 victory Wednesday night to remain unbeaten in four Missouri Valley Conference basketball games, all on the road.

No other conference team holds more than one away-from-home decision. Bradley is 3-1 in the league standings and Drake, Tulsa and Wichita each 2-1. Cincinnati is 1-1, St. Louis 1-3, North Texas State 0-3 and Memphis State now 0-4.

There are two games tonight—Wichita at Drake in the conference and St. Louis at Dayton in a nonconference fray.

Louisville surged from a lead of 18-13 to 33-13 in a first-half span of five and a half minutes. The closest Memphis State could come after that 16 points.

Jerry King of the Louisville Cardinals led the scoring with 21 points and teammate Butch Beard had 20. Westley Unseld finished with 16 points and 15 rebounds.

# Aces Reach Top Of Cage Deck

BY THE ASSOCIATED PRESS

The Evansville Aces, leaders in the final Associated Press small-college basketball polls in 1964 and 1965, have reached the top of the deck again.

The Aces beat Kentucky Wesleyan, 71-64 last week and thus changed places with the Panthers from Owensboro, Ky.

Evansville collected seven first-place votes and 129 points in the latest balloting by a national panel of 14 sports writers and broadcasters based on games through last Saturday.

Kentucky Wesleyan had 95 points while unbeaten Long Island University held the No. 3 position with 92.

Evansville, after outstanding seasons in 1964 and 1965, dropped to eighth in the final 1966 ratings and was not ranked in 1967.

There was some additional position shifting in the latest rankings. Indiana State, Southwest Missouri State and Trinity, Tex., each advanced one place, to fourth, fifth and sixth, respectively.

San Diego State, which lost to Cal Poly of Pomona, fell from fourth to seventh. Southwestern Louisiana remained in the No. 8 spot.

Guilford, which beat Catawba and Appalachian last week for an 11-1 record, advanced one position to ninth. Winston Salem, a 98-84 loser to Elizabeth City, slipped one place to 10th.

LIU is the only undefeated team among the first 10. The Blackbirds are 11-0 after defeating Seton Hall 53-47 in their only game last week.

The Top Ten with first-place votes in parentheses and total points on a 10-9-8-etc. basis:

| | | |
|---|---|---|
| 1. | Evansville (7) | 129 |
| 2. | Kentucky Wesleyan | 95 |
| 3. | Long Island U. (3) | 92 |
| 4. | Indiana State | 75 |
| 5. | SW Missouri St. (1) | 62 |
| 6. | Trinity, Tex. | 57 |
| 7. | San Diego State | 41 |
| 8. | SW Louisiana (1) | 40 |
| 9. | Guilford (1) | 34 |
| 10. | Winston-Salem | 18 |

# Asks Legalized Bingo In West Virginia

CHARLESTON, W.Va. (AP) — Members of the state legislature have received mailed requests to legalize bingo as West Virginia's sole gambling concession for nonprofit organizations.

The letters are signed by Walter Caldwell of Fayetteville, who says he represents a group called the West Virginia Committee for Legal Bingo.

# Bengals, Cubs Vie Here Friday

The ice has thawed and the Brownfield Cubs come to town Friday and could make things hot for Snyder's Tigers. The two teams tangle at 8 p.m. in the Scurry County Coliseum after a "B" team battle at 6:15 p.m.

The Cubs have won only two tilts this season, but appear to be improving. They thumped Sweetwater 71-59 in their latest outing. Prior to that they lost to Dunbar 53-69 and to Littlefield 37-51, also in district play.

Snyder is 3-0 in the district after putting down Lake View (104-59), Levelland (72-69) and Littlefield (85-63).

There could be another good crowd on hand Friday night in the spacious, comfortable coliseum when the Cubs challenge the Tigers.

Local junior teams return to action tonight with Travis 8th and 9th grade at Sweetwater for 6 p.m. and 7:30 p.m., tilts respectively while Lamar 8th and 9th will be at Colorado City for contests beginning at 5 p.m. and 6:30 p.m.

# Recuperating Maris Signs

ST. LOUIS (AP) — Roger Maris shrugged off the effects of Bell's Palsy, expressed desire for the baseball season to start and signed his 1968 contract with the St. Louis Cardinals.

In a novel telephone hookup between St. Louis and St. Petersburg, Fla., General Manager Bing Devine announced that Maris signed for the same salary he made last year. Estimates put Maris in the $75,000 class. Devine said the telephone news conference was an idea he picked up while serving as general manager of the New York Mets.

Maris was in Florida working out details of his new job with the beer company that co-sponsors the Cardinals' game. He and his brother have been granted an Anheuser-Busch distributorship.

The outfielder, who is the second player named by the Cardinals to sign a 1968 contract, had announced that he plans to move to Florida later in the year.

Maris, the Cardinals' top run producer in the seven-game World Series against the Boston Red Sox, said he was virtually through with the ailment that had affected the muscles on the right side of his face.

"Right now the Bell's palsy is very good and I'm feeling no effects whatever. It came along a lot faster than I had thought it would.

# SIZZLING ST. LOUIS CUTS DOWN 76ERS, CELTICS GAIN

BY THE ASSOCIATED PRESS

The Philadelphia 76ers might have thought St. Louis was hot in the first half, but the Hawks really showed them what "hot" is in the third quarter.

St. Louis was hot enough to build up a 60-48 halftime lead Wednesday night, but the Hawks really sizzled in the third period, hitting 15 of 20 field goal attempts to open up an insurmountable 103-78 lead.

The loss at Philadelphia was the 76ers second straight cut their lead in the National Basketbal Association's Eastern Division to two games over the Boston Celtics, who beat Seattle 123-110 behind the play of John Havlicek.

In other NBA games, New York topped Los Angeles 115-101 for its sixth straight victory, San Diego edged Detroit 122-118 and Cincinnati drubbed Baltimore 133-117.

Pittsburgh beat Dallas 123-120 in overtime, Houston nipped Anaheim 122-120 in overtime, Indiana trounced Minnesota 105-79 and Denver downed Kentucky 99-83 in the American Basketball Association.

St. Louis, which increased its Western Division lead to two games over idle San Francisco, was led by Len Wilkins, who scored 28 points and handed out 11 assists. Paul Silas also scored 28 for the Hawks, and Wilt Chamberlain got 32 for Philadelphia.

Havlicek came off the bench in the first period to spark one Boston spurt and then, with the scored tied 75-75, he came in again to score five points and sent the Celtics on a game breaking 13-3 flurry.

Havlicek scored 25 points, Player-Coach Bill Russell added 22 and Bailey Howell 20. Walt Hazzard paced Seattle with 24.

Defense again was the key for New York. Leading only 81-79 after three periods, the Knicks held Los Angeles without a field goal for 3:59 and shot to a 96-83 lead.

Willis Reed poured in 30 points for New York. Archie Clark got 22 for the Lakers.

John Barnhill sank four straight layups to give San Diego a 10-point lead, 93-83, which the Rockets held.

Don Kojis topped San Diego with 30 points, and Barnhill added 22. Dave DeBusschere scored 27 and Dave Bing 25 for Detroit.

Cincinnati broke open its game in the second quarter by hitting 15 of 23 field goal attempts while holding Baltimore to four of 30.

The Royals placed eight men in double figures—Oscar Robertson topping the list with 28 points. Jack Marin led Baltimore with 24.

# Bonnies Remain Unbeaten, Tarheels Put Down State

By ED SCHUYLER JR.
Associated Press Sports Writer

Every basketball coach is happy to have an all-around player on his team, and St. Bonaventure's Larry Weise must be ecstatic over Bob Lanier.

The 6-foot-10 sophomore, the team's leading scorer and rebounder, not only scored 25 points and grabbed 15 rebounds Wednesday night, he also blocked eight shots and stole the ball six times as the unbeaten Bonnies defeated DePaul 72-67 for their 2th straight.

DePaul, behind 41-29 at halftime in the game at Olean, N.Y., closed to within five points with 13 minutes left. But then, with Lanier stealing the ball and blocking shots, the seventh-ranked Bonnies pulled away.

Lanier, who hit on 10 of 12 shots from the field, got scoring help from Billy Butler, with 20, and John Hayes, with 15. Al Zetzsche led DePaul with 23.

Third-ranked North Carolina overcame an eight-point deficit in the second half to edge North Carolina State at Raleigh, N.C., and take over first place in the Atlantic Coast Conference.

The Tar Heels, the only other members of the Associated Press Top Ten to see action, were paced by Larry Miller's 13 rebounds and 17 points as they built their ACC record to 3-0 and their over-all mark to 10-1.

Louisville threw a full court press against home team Memphis State and rolled to its fourth straight victory, a 78-58 Missouri Valley Conference triumph.

Jimmy King scored 21, Butch Beard 20 and Wes Unseld 16 for Louisville and rolled to its 4-0 in the MVC.

St. John's, N.Y., behind by eight points with five minutes remaining, tied the game at 59-59 on two foul shots with one second left in regulation time, and then went on to beat Georgetown 65-61 at Washington.

And, Denver did something it hasn't accomplished in 10 years, beating Colorado State University at Fort Collins, 65-59. It was Denver's first success at Fort Collins since February, 1957.

Other road victories saw South Carolina nip William & Mary 71-70, Marshall outlasted Morris Harvey 101-93 and St. Francis, Pa., edged Steubenville 77-73.

In home-court triumphs, Air Force smashed Doane 109-69, Maryland downed West Virginia 79-75, South Carolina drubbed Wake Forest 88-73, Davidson pounded George Washington 107-75, Wofford beat Furman 71-68, Penn State walloped Gettysburg 84-47, Notre Dame whipped Detroit 83-63, Connecticut trounced New Hampshire 96-70 and Tampa shaded Miami, Fla., 78-76.

MAO'S PURGE CONTINUES

# New Violence In Red China

By JOHN RODERICK
Associated Press Writer

TOKYO (AP) — A year and a half after the start of Mao Tse-tung's "cultural revolution" purge, a Maoist newspaper reports "hoodlum and delinquent gangs" who want capitalism have started new violence in Shanghai, Red China's largest city.

The gangs went on a rampage recently as "a last-ditch, life or death struggle waged by the enemy against us," says the Dec. 27 edition of the Liberation Daily, a translation of which became available in Tokyo today.

The newspaper also reported a split in the workers' movement in the port city of 10 million people and said "class enemies" have been uncovered throughout the educational system and in literature, art, publication and press organizations.

This suggests that the Shanghai Revolutionary Committee—formed recently with Mao's blessing—does not yet exercise complete control over the city.

The Dec. 25 issue of Liberation Daily said the anti-Mao "Workers' Red Militia," formed early in the cultural revolution purge, continues "to carry out underground activities and organized a Red militia under a different form, in order to conspire for a counterseizure of power."

The newspaper's Dec. 27 issue said: "The hoodlum and delinquent gangs are social forces with political overtones. They are out-and-out enemies of the people. What they want is capitalism; what we want is socialism . . .

"The fascist bastion of the hoodlums can be reduced to rubble only by fiercely hitting the chief culprits, the backstage planners and diehards. They must be discredited politically and their arrogance shattered."

The paper's Dec. 22 issue said the chief target of the purge, President Liu Shao-chi, was sheltering Mao's opponents in Shanghai's school system.

Liberation Daily accused Chen Pi-hsien, political commissar of the Shanghai garrison command, and Vice Mayor Tsao Ti-chiu of encouraging the break in the laborers' ranks. It described them as representatives of Liu.

The Peking correspondent of Japan's Kyodo News Service reported the newspaper Wen-Hui Pao announced Tuesday the establishment of a revolutionary people's conference—the first of its kind—in the Hwangpoo district of Shanghai.

It is regarded as one of the first steps toward a national party congress. Foreign observers believe Mao won't call a party congress until he is certain he has the votes to oust Liu from the presidency.

## Ask Soviets For Vaccine

AMARILLO (AP) — Mr. and Mrs. W. S. Brashears of Amarillo are attempting to import from a Russian source a vaccine she hopes will help her in a fight against multiple sclerosis.

After writing Soviet Premier Alexei Kosygin, they received a reply from a Russian manufacturer that the vaccine could be shipped for $38.

But Rep. Bob Price, R-Tex. from Pampa, after correspondence with the Brashears, was told by the Department of Health Education and Welfare (HEW) that the agency had no evidence that the vaccine was a definite treatment for sclerosis.

Mrs. Brashears has been suffering from the disease for eight years. She said that her physician had agreed to administer the drug if its importation were allowed and that she and her husband would sign a release of liability.

They said they would attempt to import the drug into Mexico from Russia if they could not get permission to bring it into this country.

## Bronte Mayor Named To Speaker Team

BRONTE, Tex. (AP)—Bronte Mayor Royce Lee has been named to the speakers team for the Small Town Economic Progress (STEP) program of the West Texas Chamber of Commerce by John Ben Shepperd of Odessa, STEP committee chairman.

Lee and other team members will be assigned to meetings in West Texas towns of less than 12,000 population. Each team has six members, each a specialist in some field suiting him as a consultant in helping to solve problems of the small town.

## Pre-Trial Hearing Set For Rangers

BROWNSVILLE, Tex. (AP) — A federal judge has been asked to appoint a three judge federal court to hear two civil injunction suits filed against Texas Rangers and other law enforcement officers in connection with the Starr County farm labor dispute.

U.S. Dist. Judge Reynaldo Garza said Wednesday he made the request to U.S. Judge John R. Brown of the 5th U.S. Circuit Court of Appeals at Houston to appoint the constitutional review court because one of the suits challenges the constitutionality of some Texas labor laws. An appeal of a ruling by such a court could be appealed directly to the U.S. Supreme Court.

The suits were filed last summer after the end of the stormy, arrest-filled melon harvest in Starr County by the Texas Council of Churches and the United Farm Workers Organizing Committee, AFL-CIO. The church group's suit did not mention the constitutionality of the anti-picketing law.

A pre-trial hearing for both cases has been set for 9:30 a.m. Jan. 26 in U.S. district court, Judge Garza said.

The suits allege the Rangers harrassed and unlawfully arrested union pickets and other persons and asked that the Rangers be halted from action by an injunction.

During one of the incidents involved in the suit a representative of the Texas Council of Churches, the Rev. Ed Krueger, was arrested.

An amendment to the farm labor union's suit alleges officers arrested persons for violating state picketing laws the union considers to be unconstitutional.

## Citrus Crop Is Short

WASHINGTON (AP) — Orrange and grapefruit crops this year in Texas will be down drastically from last year, the Agriculture Department said Wednesday, and most of the blame can probably be put on giant Hurricane Beulah.

The current grapefruit estimate is 2 million boxes, compared with 5.4 million last year. For oranges, the figures are 1,700,000 this year and 2,400,000 last year.

Beulah slammed into the Texas coast last September and cut a devastating swath through the semi-tropical Lower Rio Grande Valley, where virtually all of the state's citrus fruits are grown.

The hurricane's gales blew thousands of pieces of fruit from trees, and torrential rains in the wake of the storm rotted untold trees.

Jay Bogue of Weslaco, spokesman for the Texas Citrus Mutual, said estimates for citrus immediately after Beulah were 1,700,000 boxes for grapefruit and only 700,000 to 1 million for oranges.

ANTIRECESSION STRATEGY

# No Proposals From Panel

By JEAN HELLER
Associated Press Writer

WASHINGTON (AP) — Ten months after President Johnson ordered a Cabinet-level commission soon to begin work at once on an antirecession strategy for a peace-time economy its members still haven't delivered a formal proposal to the White House.

There is no report in the sense of a report for the President to act on," a Commerce Department official said in an interview. "We're working on it, though I can't say at any furious pace."

Johnson, saying an end to the Vietnam war could jeopardize the economic boom that began in early 1961, directed Chairman Gardner Ackley of the Council of Economic Advisers and other aides last January "to begin at once a major and coordinated effort" to prepare for the economics of peace.

"When that welcome day of peace arrives, we will need quick adjustments in our economic policies," Johnson said in his annual economic message to Congress last Jan. 26. "We must be prepared for those adjustments, ready to act rapidly."

The White House had no comment on the commission's work although one spokesman said he hadn't heard anything about it since March.

It was on March 5 that Johnson named these men to share with Ackley the responsibility for setting up the new economic machinery:

Secretary of the Treasury Henry H. Fowler, Secretary of Defense Robert S. McNamara, to "be prepared to advise the President at any point in time that this war should end under any circumstances," said Charles B. Warden Jr., Ackley's special assistant. "What's true on any May 1 won't necessarily be true on June 1."

"Every time we try to do it (the plan) the figures change," said Edward K. Smith, Commerce Department deputy assistant secretary for economic policy.

Most commission sources declined to discuss the progress of the antirecession plans.

Two who did talk briefly about them said the principal difficulty in planning redirection of the economy is that no one knows when the war will end, under what conditions it will end or in what state its end will find the economy.

The commission would have been a formal reports, there has been "a passing of memos" among the commission members. And he added: "We will think through the problems and be prepared to advise the President."

The temperature range in Northern Afganistan is from 17 degrees below zero to 120 degrees above zero.

# Rap Brown Takes Refuge In Cuban Mission

By BOB MONROE
Associated Press Writer

NEW YORK (AP) — Black Power militant H. Rap Brown took refuge for nearly six hours in the Cuban mission to the United Nations after he and a rookie patrolman were involved in a shoving incident outside the building.

The episode Wednesday evening escalated into something of a minor diplomatic incident. The mission sent a sharp note to U.N. Secretary General U Thant protesting police "mistreatment and abusive behavior."

Police said the patrolman involved would go into criminal court today seeking a summons charging Brown with "harassment."

Just before he left the mission at 10:45 p.m. for an undisclosed location, Brown told newsmen waiting outside that the day's events were the "action of the Gestapo police" and "instigated by Mayor Lindsay and President Johnson."

"It is an action to crush dissent," he charged. "We came in as guests and we serve notice again that if white people are going to play Nazis, black folks ain't goin' to play Jews."

The Cuban U.N. delegation said that upon instructions from its government, it "denounced to the United Nations the flagrant violation of the territorial integrity of Cuban soil by the American authorities."

The statement, signed by Jesus Jimenez, charge d'affaires of the delegation, called on Thant to intervene in the affair and denied that Brown and his aide, Robert Smith, were given asylum.

"Both guests were forced to go back to the Cuban mission in view of the violent aggression and the threatening action of the American police," the statement said.

The incident began when Brown, 24-year-old leader of the Student Nonviolent Coordinating Committee, and Smith left the mission about 5 p.m. Brown said he had been there for an interview.

Patrolman Richard Gleason, on routine guard duty at the mission, was warming himself in the vestibule, an accepted practice, police said. His partner, Patrolman Alfred Smith, remained outside.

Police Capt. William Lakeman said Brown, in passing, pushed Gleason who then followed the two Negroes to the street. Brown was carrying a package and Gleason asked what it contained.

"Why don't you mind your own business and go away?" Brown was quoted by Gleason as replying. Gleason said a shoving match ensued as he tried to take Brown and Smith into custody.

Instead they went back inside the mission while an armed mission guard held the door open.

Jacques Nevard, deputy police commissioner for press relations, gave a second version of the incident later saying Brown and Smith attacked the policemen without provocation as they left the mission.

After they were inside Lieson called his superiors at the 19th Precinct bringing successively another patrolman, a sergeant and finally Lakeman.

When they attempted to enter the mission the Cuban officials exercised their right of extraterritoriality and refused to admit them.

Inside, Brown called his lawyers, Stephen Hyman and Harriet Van Tassel. Lakeman held a sidewalk conference with the lawyers, checked with his superiors and then announced that Brown would be allowed to leave the mission without interference.

In the meantime two U.N. investigators went to the mission to offer that body's "good offices" and a number of Negroes came to visit Brown.

Brown, an outspoken militant who has called for "guerrilla war" by Negroes against white, is free on $10,000 bond in an indictment charging him with inciting to riot and arson last July in Cambridge, Md. While under that indictment, he is accused of violating federal law by flying from New Orleans to New York with a carbine in his possession. He has pleaded innocent to the federal charge and is free on bond from New Orleans.

# Connally Orders Extradition

AUSTIN, Tex. (AP) — Extradition orders, signed by Texas Gov. John Connally, were put in the mail Wednesday to send Dalton C. Smith back to Louisiana, where he is charged with trying to bribe a former aide to Gov. John McKeithen.

Connally signed the order on the recommendation of Texas Secretary of State John Hill, who heard Louisiana's extradition request Nov. 28.

At that hearing, Smith's lawyer said Smith's alleged $25,000 bribe offer to the aide, Aubrey Young, was just a gesture to help a friend in a financial bind.

The lawyer, Jack Gray, of Denton, Tex., argued that the alleged bribe had nothing to do with Aubrey Young's official duties as a driver-bodyguard for McKeithen.

The public bribery charges grew out of an alleged offer of $25,000 to Young to act as middleman to get Edward Grady Partin to change his testimony in the James Hoffa jury tampering trial.

Partin, a Baton Rogue, La. Teamsters union leader, was a surprise witness for the government at the 1962 Chattanooga, Tenn., trial of Hoffa. He claimed he had been offered $1 million to change his testimony.

# Four Found Asphyxiated

HARLINGEN, Tex. (AP) — Justice of the Peace Frank S. Pena said Wednesday a Harlingen barber and three members of his family died of carbon monoxide asphyxiation in their tightly-closed home.

The bodies of victims were found Wednesday afternoon. They were Juan R. "Johnny" Mendez, 33, his wife Lydia, 26, and their two children, Virginia, 4, and Angelita, 1.

Felix Mendez the father of Juan Mendez, told officers he found the bodies after going to the house to inquire about why his son did not come to work.

Pena said an unvented heater was burning at the time he and other officers entered the house. Pena said the Mendez family apparently died during the night. Some were found in bed and some on the floor near their beds.

The siren was first invented by Thomas Johann Seebeck, a German, around 1800.

# Price Of Silver Continues To Creep Upward

By JOHN CUNNIFF
AP Business Analayst

NEW YORK (AP) — Growing demand, a miners' strike, speculation and the inability to find substitutes continue to push up the price of silver. This week it sold for more than $2.10 an ounce, 91 cents higher than last May.

Among those hurt the most by this 61 per cent increase are photographic film manufacturers and, eventually, the users of their product, who must pay higher prices. Film makers are the largest industrial users of the metal, which helps make their product light sensitive.

Among the chief beneficiaries are owners of paper currency on which is printed the words "silver certificate." These bills, in $1, $5 and $10 denominations are redeemable in silver priced at only $1.293 an ounce.

As a result, currency brokers have been scouring the country for these certificates, which no longer will be redeemable in silver after June 24. Brokers this week were paying as much as $15.50 for a $10 bill.

Estimates vary, but something like $300 million of silver certificates still remain outstanding, meaning their value with premium added is about $450 million. But, if not redeemed within the next five months their value is nil.

The resulting scramble finds currency dealers opening neighborhood offices, advertising nationally, accepting bills by mail. In turn, they take the bills to the U.S. Assay Office, buy silver at $1.293 an ounce and resell it at $2.10.

This would seem to give the dealers a profit of more than 80 cents, but the 55 per cent premium reduces this to a still worthwhile nine or 10 cents profit per dollar.

The incredible series of factors that led to the state of affairs began many years ago when the government wished to assure the world that its currency was worth its weight in silver.

In 1961 the government knew that growing industrial demand for silver would cause short ages, because nature limits domestic silver production to about 45 million ounces a year. It began replacing silver certificates with Federal Reserve notes, which cannot be redeemed for metal of any kind.

As industrial demand increased, the price of silver rose from a base of about 90 cents. By mid-1963 it reached $1.293 an ounce, where it was frozen by government in order to protect coinage from being melted.

The Treasury made sure this price was not exceeded by agreeing to supply silver users from its own supplies. If the price had a tendency to rise it couldn't go far; the government made sure of that.

As Treasury stocks of silver dwindled, silverless coins were introduced in 1965. Melting was specifically forbidden. Bans on silver exports were instituted. All these measures were aimed at maintaining an adequate supply.

Last July, with mounds of silverless coins available, the Treasury abandoned its fixed price. Soon the law of supply and demand began boosting prices. Speculators and hoarders pushed it up even more.

At the same time another factor came on the scene: copper miners went on strike. Since silver is a byproduct of copper mining, silver production has been nearly halted since last summer, thus worsening the shortage.

All during this time of soaring demand and price, chemical companies and film makers have been trying to find substitutes. But in film making at least, the search has been mostly in vain.

As a result, the premiums offered on silver certificates have risen, even though erratically, from about 10 per cent early last summer to more than 50 per cent at New York this week.

# Disaster Specialists In S. Texas

By PEGGY SIMPSON

WASHINGTON (AP) — The Small Business Administration's southwest director says that more than 130 disaster relief specialists remain in South Texas helping the area recover from Hurricane Beulah.

The director, Robert E. West, received an SRA award Wednesday for extraordinary service in South Texas.

"We'll keep our people there at least three or four months," West said after accepting the award from Rep. Wright Patman, D-Tex.

"I think the South Texas area is on the way to recovery because of the way they're rebuilding. About half have started to build again, but it will be six or eight months before the area is completely back to normal."

Patman said West recognized the need to "keep people from getting special service but just represented the public interest."

SBA Administrator Robert C. Moot repsented West a $350 check that accompanied the award.

Moot praised West for his "extraordinary measures to assist the people of South Texas and for extending loans totaling over $18 million to those stricken by this disaster."

"We've interviewed 17,500 people from our different offices, handed out 10,800 applications and received 6,308 applications back," West said. "We've actually made 5,500 loans and estimate we will make 10,000 or 11,000 more . . ."

# Gulf Search Called Off

SABINE PASS, Tex. (AP) — The Coast Guard, after surveying 5,000 miles of the Gulf of Mexico, called off a search Wednesday for the crew of the motor vessel Sherry L.

The Coast Guard began the search after the captain reported he was abandoning ship about nine miles off the coast of Southwestern Louisiana.

The captain was quoted as saying he and six crew members were taking to small skiff. None of the men or the captain was identified.

Coast Guardsmen ended the search when Sheriff Claude Eggleston of Cameron Parish La. said he could find nothing to substantiate the report.

No record of a seagoing motor ship named Sherry L could be found through normal channels.

By ABIGAIL VAN BUREN

DEAR ABBY: Me and my big mouth. Now I've really done it. My little 4-year-old granddaughter asked me if the stork really dropped her down the chimney, and I laughed and said no. Then she asked me how she got here, and I simply told her that she grew from a tiny seed in her Mommy's tummy. Now what was so terrible about that?

My daughter-in-law is very angry with me because she's afraid the child will ask her how the seed got there. My son has sided with his wife and I am in the doghouse.

Abby, I cannot see putting off telling a child what he will eventually learn anyway. But what am I to do about my son and his wife? I don't like being on the outs with them, but I think they are wrong, wrong, wrong.

THOROLY MODERN GRANDMA

**DEAR MODERN: I happen to agree with you. First, try to educate your son and his wife to your way of thinking. It is far healthier for the child. Should you fail (heaven forbid) to bring them out of the Dark Ages, continue to answer all questions as honestly as possible. Time will prove you right.**

• • •

DEAR ABBY: Do you think a man who would cheat on his expense account would cheat on his wife?

CHRISTY

**DEAR CHRISTY: Only a man who can't resist nice round figures.**

• • •

DEAR ABBY: My father, who is 82, wants to remarry. This will be his fourth wife since Mother died six years ago. His lady friend is 79. She seems pleasant and intelligent enough, altho she, too, has had three divorces in the past 10 years.

Question. My brother and I are paying for Dad's support. He is still able to enjoy life and look after himself, but at times he acts a little strange. Should we give our blessings to his marriage? We want to be fair, but, oh, dear!

DILEMMA IN DAYTONA BEACH

**DEAR DILEMMA: I would not encourage anyone who "acts a little strange" to marry, especially at age 82, with a history of three divorces in six years.**

• • •

DEAR ABBY: The other evening I very nearly hit a little boy on a bicycle. I was almost on top of him before I saw him. His bicycle had no reflectors!

Please print this as a reminder to parents of youngsters who have bicycles. I am not selling "reflectors." They can buy luminous paint and "decorate" the child's bicycle so it will be seen by motorists at night.

Every time I think of how close I came to hitting that little boy, I tremble.

B. H. IN ENCINO

DISMISSALS: Georgia Matthews, Merton Noel, Abraham Lopez, Nellie Wilson, Grover Wilson, Horace Kleibrink, Hazel Casey, Jacky Grimmett, Dorothy Redden.

## Haverhill May Lose City Hall Building

HAVERHILL, Mass. (AP) — Haverhill may lose its city hall Feb. 16 if a $5,291 judgment isn't paid to a woman resident.

Deputy Sheriff James J. Shanahan tacked the formal seizure notice on a city hall bulletin board Wednesday.

Mrs. Ethel M. Acker sued the city after a fall in October, 1962, and was awarded the judgment by an Essex County Superior Court jury in December, 1965.

**WORKING ON** a nutrition project are (left to right) T. E. Mitchell Memorial Scholarship recipients: Willard L. Hall of Springer, Charles Straley of Carrizozo, and Richard A. Crider of Snyder, Tex. Dr. A. L. Neumann, (right) head of the animal science department at New Mexico State University, gives his advice to the animal science majors. (NMSU Photo)

# Snyder Student Gets Scholarship

LAS CRUCES, N. M. — Three animal science majors have been awarded the T. E. Mitchell Scholarship at New Mexico State University.

The $350 award is given to upperclassmen in animal science with a preference to New Mexico students. It is awarded in memory of Mrs. T. E. Mitchell.

Richard Crider, the son of Mrs. Lillie Hise Green of Snyder, Texas, was named to the dean's honor roll last semester. A junior at NMSU, he is married to Patsey Ferris Crider.

Willard Hall, the son of Mr. and Mrs. Robert Hall of Springer, received a state farmer degree, a Sunshine District Farmer Degree, and the Greatest Aggie award at Springer High School. At NMSU he is a member of the livestock and wool judging teams and Alpha Zeta, honorary fraternity for agricultural men. He is an Agriculture and Home Economics Council representative from Block and Bridle and treasurer of the Aggie Rodeo Association.

Charles Straley will be graduating in January from NMSU, but he plans to continue studies in graduate school. In 1965-66 he received the Animal Science Scholarship Award for the highest grade point average of a junior in animal science. The son of Mrs. June Straley of Carrizozo, Straley is a member of Alpha Zeta.

## *Little Lisa Ann Beat The Odds*

SALEM, Mass. (AP) — Doctors sad the odds were 100,000 to one against her, but little Lisa Ann Chiango beat them to leave Salem Hospital weighing 5 pounds, 5 ounces.

When Lisa was born last Sept. 20 she weighed one pound, 12 ounces—and then lost nine ounces.

The baby was kept in an incubator at the hospital until she weighed enough to go home Wednesday to her parents, Mr. and Mrs. Augustine Chiango of Byfield.

## Fire Fatal To Two

FORT WORTH (AP) — James B. Kirby, 54, died of burns Wednesday night, the second victim of a fire in his suburban Lake Worth home early Monday. His wife Ruth, 47, died Tuesday. An overturned electric heater was blamed for the fire.

## Merchants Asked To Trade In Pesos

DEMING, N.M. (AP) — Deming merchants are being asked to accept Mexican pesos in payment for goods and services as well as American dollars.

Merchants in this southwest New Mexico city near the border hope for more Mexican business after a highway from the border into the Mexican state of Chihuahua is completed.

"Your businessmen need to learn," Mexican businessman Alberto Duran told a Deming group, "that the peso is just as strong as the American dollar."

An Egyptian temple at Thebes took 2,000 years to build.

# Grapefruit Farms Revise Losses

WESLACO, Tex. (AP)—Lower Rio Grande Valley citrus growers did not lose as much of their grapefruit crop to Hurricane Beulah as first estimated, a spokesman for Texas Citrus Mutual said Wednesday.

Jay Bogue said the latest Agriculture Department estimate of Texas' grapefruit production for the current crop is 2 million boxes, compared to the estimate of 1.7 million boxes made three weeks after the hurricane. The current crop is down from last year's crop of 5.4 million boxes.

Bogue said the latest revision of estimated grapefruit production is the third made since the September storm. The first was Oct. 7, 1967, and was 1.7 million and the second was Dec. 1, and estimated 1.8 million boxes, Bogue said.

Two reasons were given by Bogue for the revisions. One, he said, was that "we just had more fruit on the trees than could be seen right away." The second, Bogue said was that since some of the fruit was blown off the nutrients fed to the remaining fruit by the tree resulted in larger fruit.

Estimates of early Valley oranges were also revised from 700,000 boxes to 1 million and valencia production was revised up to 700,000 from the earlier estimate of 600,000, according to Bogue.

St. Nicholas was a 4th Century bishop of Myra in Turkey.

## *Calls Indicated Something Amiss*

WASHINGTON (AP) — A travel agent in a suburban Bethesda, Md., felt something was amiss when he began getting calls about the impending birth of a baby, a person's rising temperature and a doctor he'd never heard of.

Dave Bond checked with the telephone company and discovered he'd been given a number formerly used by Bethesda Naval Hospital. The company allocated another number to the travel agency.

## Bunny Norwood To Move To Calgary

WICHITA FALLS (AP)—D. C. (Bunny) Norwood, a well-known North Texas oil operator and drilling contractor, will move from Wichita Falls to Calgary, Alberta, Canada, where he will be president of the newly-organized Sonor Drilling Ltd.

Norwood was the Republican nominee for Congress from the 13th Congressional District in 1965. He was defeated by the incumbent, Rep. Graham Purcell.

MIDLAND PROBLEMS AIRED

# Variety On CRMWD Agenda

Two items with an area flavor were injected into the meeting of Colorado River Municipal Water District directors in Big Spring Wednesday.

The district gave assurances to a delegation from Midland that it would work to solve mutual problems not a part of the water sales contract between Midland and the district. At the same time directors authorized an official communication to the City of San Angelo advising of the district's willingness to make a supplemental source of supply of water available to San Angelo at the Robert Lee lake should San Angelo be interested.

Besides establishing the water rates to member cities for 1968, the district also firmed a contract with Roland L. Scherer, Weatherford, in the amount of $465,058 for construction of 17 oil well mounds ranging from 10 to 60 feet high in the new lake basin in Coke County.

The transfer of $566,133 from the net revenue fund, as of Dec. 31, 1967 into indentured funds was approved. O. H. Ivie, general manager, said that this would put the (bond) reserve fund near its maximum of $2,500,000 and the contingency fund near its maximum of $400,000.

Bids were authorized for three projects. The largest will be the diversion works and side storage on the Colorado River in northwest Mitchell County. Ivie said that if state water development board approval of the plans is granted soon, a letting can be around March 1. Bids will be taken also on gate valves for the new main supply line, and for construction of a water treatment plant to supply water to Humble Oil and Refining Company for its Coke County IAB field.

In establishing rates to member cities for 1968, the board applied $150,000 of oil company repressuring revenues in order to hold the rates at approximately the previous year's level.

Ivie told the board that work would start on the 36-in. supply line from Big Spring to the Martin County pump station around March 1. The first section will be on the west end and United Concrete Pipe Company will supply pipe to Panhandle Construction Company for this portion. Gifford - Hill will furnish pipe for the east section.

The district is willing to provide 15,000,000 gallons of surface storage on the line at the point of Midland's take off from the main supply line. This would be of benefit to the district from an operational point of view in later years as well as a help to Midland, said John L. Taylor, chairman of a committee which had studied an inquiry by Midland. Mayor Pro Tem Joe Ward of Midland also asked about the status of water contract payments in event Midland did not have its filtration plant in operation by Jan. 1, 1970, the starting date for the contract. Taylor said the bonds which the district sold to finance the Robert Lee Lake and pipelines was predicated in part upon the Midland contract and the district could not waive this obligation, but the district would consider waiving its pumping charges for undelivered water until the plant was operational. Marvin Nichols, Fort Worth, of Freese, Nichols and Endress, said that every effort was being made to complete the plant prior to the delivery date.

Midland officials also said that the Midland Country Club faced an emergency situation in view of loss of storage and promised to obtain more specific information on requirements. District officials said they would try to help out on the emergency but through the City of Midland.

BEST DRESSED — Mrs. Wyatt Cooper, above, the former Gloria Vanderbilt, was awarded first place on list of "best dressed" women for 1967 named by publicist Eleanor Lambert. (AP Wirephoto)

## Snyderites Due Degrees

Two Snyder students are among some 120 scheduled to receive engineering degrees Jan. 27 at the University of Texas.

James Franklin Feather Jr., 3112 Fortieth, is a candidate for the bachelor of science degree in aerospace engineering, and James Dorn Walker, 3003 Forty - second Street, is a candidate for the bachelor of science degree in electrical engineering. The UT College of Engineering plans a pre-graduation convocation and reception for its fall semester degree candidates in Geology Building 100.

## Naval Mishap Fatal

PEARL HARBOR (AP) — The Pearl Harbor naval shipyard has recorded its first fatal industrial accident since 1958. The Navy said an electrician, Thomas Medeiros III, 30, was electrocuted while working on a switchbox below deck of the U.S. Navy survey ship Maury Jan 9.

# Teaching Nuns May Be Absent

LOS ANGELES (AP) — Teaching nuns who wear modern dress in defiance of bishops' orders say they may refuse to return to their classrooms next fall unless they can abandon other regulations they call out of date.

Sister Anita Casper has written a letter to the parents of students in 38 parochial schools in the Los Angeles archdiocese, saying the nuns had been asked to quit, James Francis Cardinal McIntyre denied Wednesday that they have been dismissed.

Sister Anita said her order's modern ideas follow in spirit a directive Pope Paul VI issued after the Second Vatican Council.

"The holy father urged all religious communities to examine and renew their way of life and to engage in wide-ranging experimentation to achieve their renewal," she wrote to 7,500 parents this week.

A source close to the order said that if differences with Cardinal McIntyre aren't settled by Jan. 30, nuns of the Sisters of Mary order in the Los Angeles archdiocese may not return to teach next fall.

Cardinal McIntyre responded Wednesday with a statement saying, "the archdiocese has not dismissed the sisters." He said the archdiocese has asked the order to decide promptly how many of the nuns want to continue teaching in the parochial schools as nuns.

"The question of uniform dress is an obvious but minor [illegible] with Catholic leaders.

"More central to the discussion are regulations for a fixed time for rising and retiring, fixed hours for prescribed prayers, a highly centralized mode of local house government. This mode of living may have suited former times but it is a hindrance to present demands of apostolic life in schools or hospitals."

Small clay tablets uncovered at Nuzi, Iraq, indicate that installment buying goes back to [illegible]

## All-Region Choir Sets Performance

Twelve Snyder students will perform in the All Region VI High School Choir on Saturday night at Big Spring.

The Texas Music Educators Association's All - Region Choir will present its performance at 8 p.m. Saturday in the Big Spring High School Auditorium.

Music from several periods of history will be presented, representing various styles of composition. Two guest choirs from Region VI will perform three pieces each. The guest choirs are from Brownfield and Monahans.

Director of the all - region choir is Louis H. Diercks, for many years director of Ohio State University Symphonic Choir and large University Chorus, and currently professor of voice at Eastern New Mexico University. He is recognized as one of the country's foremost figures in college choral work.

In February of 1960, Diercks began a seven - month choral research project which took him to several European countries. In 1964 he received international Kiwanis Distinguished Service Award from the Downtown Kiwanis Chapter. He has been elected to the advisory council of the American Choral Directors Association for 1967-68.

The public is invited to attend the vocal music performance at Big Spring. There will be no admission charge.

## Rio Grande Life Merger Is In Effect

Merger of Rio Grande National Life Insurance Company of Dallas and Kentucky Central Life Insurance Company is now in effect, Mrs. Fred D. Crossland, district manager, has announced.

Rio Grande has maintained a district office since 1938 in Big Spring. There are five agents on the staff, including Vondell King of Snyder, who services Snyder, Colorado City, Ira, Union, Dunn and Hermleigh areas.

As a result of the consolidation, Kentucky Central will begin the new year with life insurance in force in excess of $1.4 billion and assets of $160 million. Total annual income of the combined companies in 1968 is expected to top $50 million. Rio Grande assets aggregated $40 million and life insurance in force approximated $300 million, earnings 14 million.

The merger will place Kentucky Central among the 15 largest weekly - premium life insurers in the nation. Regional headquarters will continue in the 18-story Rio Grande office building in Dallas.

During the past week, seminars concerning the new company have been conducted for the area staff.

Under terms of the merger, Rio Grande stockholders will receive 14½ shares of Class A non-voting common stock of Kentucky Central for each share of Rio Grande.

## Texas A&M Candidates

Degree candidates for mid - term graduation at Texas A&M University include two students from Snyder, announced Registrar H. L. Heaton.

Billy W. Gleastine, 2807 Avenue Q, is a candidate for the bachelor of science degree in wildlife science, while Jerry R. Stewart, 402 Thirty - fourth Street, is a candidate for the bachelor of science degree in industrial distribution.

Heaton said 482 students have filed for baccalaureate degrees and 335 for advanced degrees; including 96 Ph. D. candidates. The commencement exercises are set for Jan. 20.
