Governor O'Daniel Announces He's Candidate For United States Senate

Radio Audience Hears Decision Monday Night

Gangway, folks, "Pappy" is headed for Washington with the "Golden Rule," and a scheme for more pensions.

In the greatest radio hook-up Texas has ever had, Gov. W. Lee (Pappy) O'Daniel told the old "dads and children Monday night" he had the Texas legislature under control and had decided that he could do more good for them in Washington in the capacity of United States senator. In fact, the governor stated, the legislators had at long last seen the light and had enacted into law such measures as he had recommended. Then, to show that they were "not mad at anybody" these fine fellows had unanimously passed a resolution asking him to run for U. S. senator. If this was not a case of the lion taking up with the lamb, then biscuits ain't sinkers.

Minus the usual hill-billy music, O'Daniel talked for 30 minutes, reviewing his accomplishments during the past two years and stated that he "would be derelict in his duty" if he did not run. He declared that through his efforts he had stopped the "adulterous" practice in Texas, and that he would make that his "active in Washington" — that more pensions for the old

"Yes, friends," O'Daniel said, if you want a United States senator who has had some successful experience in friendly co-operation and successful experience in getting the job done, and knows his place and tries to fill, then support me."

He told the home folks that he had hard work and would ever-lingly fight for the rights of the common people. He also stated that he could make money on anything else, but would be glad to accept the salary of a senator, plus incidental expenses, in order to straighten out the national situation.

SANTA FE CARLOADINGS INCREASE OVER LAST YEAR

The Santa Fe Railway System carloadings for the week ending May 17, 1941, were 22,694 compared with 18,647 for the same week in 1940. Received from connections were 1,376 compared with 1,012 for the same week in 1940. The total cars moved were 30,070 compared with 24,259 for the same week in 1940. The Santa Fe handled a total of 28,485 cars during the preceding week of this year.

Two Bailey County Boys Are Enlisted

Robert Le Gore of Muleshoe and Carl Truman Coffman of the Baileyboro community have been called for selective service to fill Bailey county's quota for the May 22 call. They will go to Fort Bliss, El Paso, for induction into the army.

Under a new ruling, every registrant must have his registration certificate in his personal possession at all times, and upon receipt of a registrant to have such registration certificate in his personal possession or to exhibit it upon demand of these regulations and, in addition, shall be prima facie evidence of his failure to register. There had been a total of 700 registrants mailed to residents of Bailey county up until Monday noon, according to Ross Smith, secretary of the local Selective Service board, which has its office in the courthouse. A total of 100 questionnaires a day are being mailed, Smith said. There is a list of 916 to be sent questionnaires, and it is expected that all have received them by this date.

Rainfall Nears Record For May Checkup Shows

A few more days like the past four and hip boots and motor boats will be as much in demand here as they are in East Texas. Since last Sunday morning, the government station has recorded a total of 1.95 inches of rain. With the ground already soaked, water is beginning to stand in fields, lakes, and along the highway barrow ditches.

In some sections south of Muleshoe, crops which had been planted were washed out with last Saturday afternoon's heavy rain. From Needmore north, and in the Longview community, the rain was particularly heavy. Several areas reported from three to five inches fell over a period of three or four hours. North and east of Muleshoe, the precipitation was estimated at from three to four inches since Saturday night. However, there are few reports of crop damage to the north and east in the Muleshoe territory.

Rainfall for May is nearing the record mark, with a total for this month of 5.39 inches. The highest for May since records have been kept is 5.66 inches in 1936.

Congratulations To

Mr. and Mrs. Lacy Reed of Muleshoe, on the birth of a daughter, weighing six pounds and 14 ounces, Sunday, May 18, at 7:15 p. m., at a local clinic. Both the mother and daughter are doing fine.

Mr. and Mrs. G. B. Baker of Muleshoe, on the birth of a son, weighing seven pounds and nine ounces, Wednesday, May 14, at a local clinic.

Dr. Doyle Jackson Of Tech Delivers Principal Address At Muleshoe High School Graduation Exercises

One of the largest graduating classes in the history of the Muleshoe schools received diplomas Friday evening after an appropriate program, getting to send them on toward designating a education.

The address to the seniors by Dr. Doyle Jackson of Tech, was a pleasing departure from the usual talks "dished out" to high school graduates. Dr. Jackson talked "down to earth" facts instead of the usual "conquer the world" type of canned advice. Topic of his discussion was "High School Graduates and American Defense."

In this, Dr. Jackson warned them that they would never conquer the world; that very likely none of them would ever be president and furthermore, he doubted very much if one of them would ever be governor. He told them that good citizenship should be their guide, and to do the job out for them well, no matter what it was. And above all, if they cared for the respect of people about them, they must be respectful toward others.

"In days to come," Dr. Jackson said, "you may be fortunate enough to be elected president of the Lions Club, or the Rotary Club. But don't think that this is not an honor. If you are elected to such a place, accept it, for it is proof that you have the respect of citizens of your town."

Dr. Jackson warned the graduates of the dangers which confronted the nation, and that it was expected of them to roll up their sleeves and aid in the preservation of our country. "For," said the speaker, "if our system is wiped out in this struggle for freedom, you will go on an 80-hour week instead of 40."

Wickard Calls Farm Vote May 31

Declaring safe management of the country's large wheat supplies an important defense measure, Secretary of Agriculture Claude R. Wickard (above) has proclaimed a marketing quota for wheat and has announced May 31 as the date of a referendum at which wheat farmers will mark ballots such as the one shown to determine whether quo-

tas shall continue in effect on the big 1941 crop. Marketing quotas are provided by the AAA farm program, and enable farmers to safely store their surplus for use as needed, Wickard said. According to current estimates, U. S. farmers will have enough wheat on hand after harvest this year to supply the nation's expected needs for nearly two years.

Our Want Ads Get Results.

Work Begins On East West Road In South Lamb Co.

Work on construction of an east-west highway across the southern section of Lamb county got underway May 7.

First unit of the new development will be a nine-mile stretch running east from the Bailey county line. Initial work of setting back fences and poles along the right-of-way is underway, and caliche base will be laid in preparation for asphalt topping.

The highway, when completed, will reach from the Hale county line on the east to the Bailey county line on the west, running through Littlefield.

A road bond district, comprising the southern quarter of Lamb county, was formed last fall and bonds voted for construction of the highway.

Hot topping of a three-mile gap in Highway 51, immediately north of Littlefield is nearing completion.

In the meantime, at Amherst, where Lamb county road district No. 3 was recently formed, a bond election held May 8 was carried by an overwhelming 5 to 1 majority.

Vote on the bond issue, which will provide funds for paving 15.5 miles of lateral roads in Lamb county, was 170 for to 37 against.

Approximately 35,000 dry holes have been drilled at cost of over one billion dollars by Texas oilmen in their search for additional oil reserves.

Nearly 40,000 Texas oil wells have had to be abandoned because of unfavorable producing or economic conditions.

More than 45,000,000 acres of Texas land are now under lease to Texas petroleum producers for oil and gas production or exploration.

Nova Pearl Russell, daughter of Mr. and Mrs. Sam Russell of the Fairview community, was admitted to a Muleshoe clinic Monday morning for medical treatment.

Loyalty Revival Meeting To Begin At The Baptist Church In Muleshoe Sunday, May 25, Continue 2 Weeks

Public Invited To Hear Preaching By Rev. C. J. McCarty

Rev. F. B. Hamilton, pastor of the First Baptist church, announced Monday that revival services would start next Sunday, May 25.

Rev. C. J. McCarty, pastor of the Culinary Baptist church, Lubbock, will do the preaching, with Euel Porter, educational director of the First Baptist church of Bryan, Tex., in charge of the song service.

There will be two services daily, beginning at 10 a. m., and at 8:15 p. m. This is to be a church loyalty revival and all members are especially urged to attend both services each day. However, Reverend Hamilton extends a cordial invitation to members of all denominations to be present as much as possible, and assist in the spiritual work for the town and community.

"The church is still the backbone of society," Reverend Hamilton said, "and deserves the support of every person in the community and especially every Christian."

Although Reverend McCarty has never been in a meeting here before, he is well known throughout the South Plains as a minister of the Gospel with a message well worth listening to.

Euel Porter needs no introduction to the people of Muleshoe. He has been in a number of meetings here and his singing is an inspiration to all who hear him.

All citizens are urged to help make this one of the most successful meetings ever held in Muleshoe.

Attorney E. A. Bills of Littlefield attended Bailey County District court in Muleshoe Monday.

To Hold Revival

REV. C. J. MCCARTY

Mayor R. L. Brown Attends Annual WTCC Convention

R. L. Brown, who is one of the directors of the West Texas Chamber of Commerce, returned Sunday night from Mineral Wells where the organization has been holding its annual convention.

National defense was the theme of the 1941 session, which was attended by men of the army and navy, as well as all other walks of life.

Dean J. Thomas Davis of John Tarleton college was elected president for the coming year, and George Jones of Marfa, vice president. The financial report showed the organization clear of debt and with a cash balance of \$26,914.

Bill Dotson, West Camp Is Named Bailey County's Outstanding 4-H Club Boy; Record Is Impressive

Bill Dotson, one of Bailey county's 250 4-H club boys, has been chosen by club leaders of the county as the outstanding 4-H Club member for 1940. Bill, who lives on a 320-acre farm in the West Camp community is 17 years old and has started his second year of club activities this spring.

Enrolling in the spring of 1935, in about the first 4-H Club to be started in Bailey county along with a handful of other boys, Bill has seen club activities grow to a 1941 enrollment of 70 percent or more of the eligible boys within the county. This hard working 4-H clubber has made the most of his opportunities by carrying four different kinds of projects most of the six years of his club career, and all of them were well adapted to the balanced farming program followed by his father, C. E. Dotson, as well as numerous other stock farmers of the West Camp community.

Young Bill Dotson at the age of 11 started his club career in the spring of 1935 with one dairy cow, one spotted Poland China gilt, two whiteface steer calves and 20 acres of crop land. His father sold him the gilt for \$2 and Bill borrowed the money to buy the two calves and the Jersey cow which was used for nursing purposes, and he also rented the 20 acres of land from his father to grow feed for his livestock projects. He bought his calves at \$35 per head from Johnnie McMurtry of this county. With this well balanced start, Bill started his club career that has lasted up until this date and has assisted greatly in paying his way through school.

Bill has bought two beef calves each year since the beginning, the other livestock projects made normal increases, a part of which was used on the farm while some was sold, and he still has his 20 acres of crop land. Altogether, Bill has sold \$500 worth of crops, \$1,062.80 for beef calves, \$1,040 from his swine herd, and \$345 from his dairy herd. He used most of his cows as nurses for his beef calves. The gross income from his six years of club work amounted to \$3,257.30, plus \$32.50 premium money won at county and district shows, or a total of \$3,289.80 less an expense of \$1,150, netting \$2,139.80.

Out of the six years of club work, Bill has made by far more winnings than any other boy in the county. Out of six years, he placed first at the Muleshoe Fat Stock Show five times, and second the other year. His most important winning was to place as champion junior at the Lubbock Fat Stock show and reserve champion of the entire show for 1941. He sold this calf at 21c per pound to the Lubbock National Bank. This calf was bred by Joe Ainsworth of Milensand, N. M., a very prominent cattle breeder of that area.

This year Bill has two more calves started, one of which is a full brother to the Ainsworth calf that was reserve champion of the 1941 show and another fine prospect from the same herd. County Agent S. T. Logan of Bailey county, who has supervised the last two years of feeding work for Bill, states that it takes a few boys like Bill in every county to keep up interest and enthusiasm in club boys, club leaders and county agents, as well as to set marks for other boys to shoot at.

Construction Of New Show House To Begin June 10

Construction work will start June 10 on a new theatre building for Muleshoe, to be located on Main Street, adjoining the B. & M. Cafe. When completed the new structure will represent an outlay of \$32,000 and will house some of the most modern equipment to be found. This announcement was made Monday afternoon by Walter Moeller, manager of the Palace Theatre here.

"There will not be a show house in Texas, or anywhere for that matter, with better machines and fixtures," Walter stated. Plans and specifications have been completed, and contracts have been let for most of the fixtures and equipment.

Built of brick and tile, the structure will be 35 by 132 feet, with an additional space of 15 by 60 feet to be rented for business purposes.

With the population of Muleshoe and its trade territory showing a rapid increase, the time is at hand for a theatre as good as can be found in any city, and Mr. Moeller guarantees that the motion picture fans of this area will have it.

The old Palace Theatre has served Muleshoe since the days of the "silent" films, having been modernized from time to time. Opened back in the 20's by I. N. Brooks, the Palace was, for many months, a two-night-a-week show house, showing "Grand An." Six hundred "Grand An." was purpose as a place of entertainment and was well patronized.

It was only after being taken over by Mr. and Mrs. C. F. Moeller in the early 30's that the Palace was modernized.

There is probably no other town in the country with more movie fans than Muleshoe, in proportion to size, and these fans soon will have all there is to be desired in this line.

The equipment to be installed in the new theatre includes Simplex E-7 machines, with Simplex 4-Star sound; Peerless Magnare, which instantly jumps and a Walter beaded screen. This new sound like so much "Greek" to the average citizen, but to movie people it means the best in motion picture theatre equipment.

Six hundred "Grand An." was purpose as a place of entertainment and was well patronized. It was only after being taken over by Mr. and Mrs. C. F. Moeller in the early 30's that the Palace was modernized. There is probably no other town in the country with more movie fans than Muleshoe, in proportion to size, and these fans soon will have all there is to be desired in this line. The equipment to be installed in the new theatre includes Simplex E-7 machines, with Simplex 4-Star sound; Peerless Magnare, which instantly jumps and a Walter beaded screen. This new sound like so much "Greek" to the average citizen, but to movie people it means the best in motion picture theatre equipment.

The name of the new theatre will be announced within the next few weeks, Mr. Moeller stated, as there are several being considered.

Opening date of the new theatre will be about September 1, with the showing of one of the most popular releases of the year.

The Palace will continue to be operated, showing second-run pictures, according to present plans. However, more complete announcements will be made at a later date.

RELATIVE OF ROBISONS DIES IN OKLAHOMA

Mr. and Mrs. S. L. Robison of Muleshoe, and the former's parents, Mr. and Mrs. O. N. Robison of Littlefield, returned May 11 from Oklahoma City, where they attended funeral services for O. N. Robison's brother, R. A. Robison, 54.

Mr. Robison died suddenly as the result of a heart attack May 9. He was found dead in his bed in a room at an Oklahoma City hotel where he was a guest.

Besides his brother of Littlefield, who is a former Muleshoe resident, Mr. Robison is survived by his wife, six children, and five sisters.

Information Regarding Vegetable Crops For AAA Has Been Received By Bailey County Farm Agent

Recent instructions from the Department of Agriculture on the growing of certain vegetable crops vital to defense has been received by S. T. Logan, county agent. There have been some questions by farmers in this county as to whether or not such vegetable crops could be grown under rules of the AAA. For the benefit of farmers in this territory we list the new order in regard to food crops:

"This is with further reference to our telegram of April 17, in regard to the need for increasing production of certain vegetable crops under the national defense program.

"In accordance with our telegram, the acreage of tomatoes, corn, peas and snap beans will not cause deductions with respect to the vegetable or total soil-de-

pleting allotment for the farm if such crops are grown for processing.

"The following amendments will be made to bulletins and state handbooks within a few days:

1. Amend the definition of commercial vegetables so as to exclude the acreage of tomatoes, corn, peas and snap beans grown for processing.

2. Amend the definition of soil-depleting acreage to exclude tomatoes, corn, peas and snap beans grown for processing.

Signed, B. F. Vance, Administrative officer.

Two Bailey County Students Receive Honors At Tech

Two Bailey county students were honored by the Texas Tech recognition service recently. Helen Brinker, daughter of Mr. and Mrs. D. P. Brinker of Baileyboro, for maintaining an "A" average, and Twila Farrell, daughter of Mr. and Mrs. C. R. Farrell, Muleshoe, for being selected a member of the Forum for 1941-42.

We Women Watch History

We are a peace-loving people, and we hoped, when the tumult and the shouting of the World War died down, that the nations of the earth were ready to live together as friends. We hoped it so strongly and believed in it so sincerely that we insisted on getting rid of the plants and factories that had been used to provide our arms and munitions in '17 and '18. Wartime machinery was smashed under gigantic hammers and sold for scrap metal. The making of smokeless powder declined to a tiny fraction of previous output, and the industries involved turned to the making of goods and products for normal consumption.

We women played an important role in the peace movement. Remember? We realized, probably more keenly than men, the bitterness of war, and we dreamed of a great dream of well being and abundance. Why shouldn't these things be ours, we asked, with the greatest industrial system in the world devoting itself exclusively to the production of peacetime products?

We worked out many of the elements of that dream here in America, too, before the period of world unrest which saw European dictatorships grow daily more powerful as they fattened on economic unrest in their own states. And one fateful week last Spring, Americans—men and women alike—were brought face to face with the realization that the way of life we cherish was menaced.

American industry was called upon to forge the weapons that would make our freedom strong. At first it was on the basis of "business as usual," plus defense. Then, as events continued to unfold ominously, industry was called upon to apply "speed and more speed" to production for defense.

The defense accomplishments of industry to date will go down in the annals of history as living evidence of the potentialities of a free people. It is not the way that American men and women

Mrs. Onnie Schmitz Entertains H. D. Club Tuesday

The Baileyboro Home Demonstration Club met with Mrs. Onnie Schmitz Tuesday afternoon, May 13.

The program was on "Harboring a View."

Mrs. R. R. Klutts was introduced as a new member.

Plans were made for a social to entertain the husbands Saturday night, June 14.

A recreational school will be held at Muleshoe May 23.

Mrs. Roy Pugh, council delegate, gave a report.

Refreshments of punch and cookies were served to the following members and 4-H Club girls: Mesdames Dana Arnold, Lonnie Preston, Jessie Barnett, Clara Coffman, Janie Morrow, A. E. Newton, Roy Pugh, Klutts, and the hostess.

Mary Arnold, Jo Neil Bass, Melba Lois Newton and Eloise Fern Preston.

The next meeting will be with Mrs. Coffman Tuesday, May 27.

would wish to prove the value of their free institutions. But it is striking proof that they cherish those institutions above all else, and that we in this country are enterprising enough and intelligent enough to find the means to see that they shall survive today's storms.

American women will remember this march of events as time moves ahead. They know that there will be trying times and sacrifices ahead for all of us. But they know too, that we are going through these present efforts so that we can have a future which will be worthy of all the endeavors and all the strivings that the history of the last few decades has imprinted on the scroll of American history.

Boy Scouts Will Open New Camp At Post May 25-25

POST, Tex. — Cubs and their dads will inaugurate the summer camping season at Camp Post, three miles southwest of this town, here this weekend of May 24 and 25, when 150 Dads and Cubs are expected to register for an overnight encampment.

Dads will bring their sons at the rate of \$1 per person, including Saturday supper, Sunday breakfast and dinner. A full program is scheduled, according to Dr. C. C. Schmidt, Lubbock Cub commissioner.

Sunday the executive board of the council will meet at 5 p. m. for a barbecue at Camp Post, with Marshall Mason as host to the men and their wives. Camp staff for the summer periods which start June 1, will meet also.

On June 1, Sunday, the first group of troops will register for a seven-day period, ending June 7. The defense accomplishments of industry to date will go down in the annals of history as living evidence of the potentialities of a free people. It is not the way that American men and women

Second period will be June 8 to 14, for Southern district troops. Third period is June 15 to 21 for Central and Northeastern districts. June 23 to 28 are dates for the negro camp.

The camp staff is filling out well. Paul Eubanks, Matador, and Dr. Schmidt will direct the camps. Harold Holmes, Abilene, will act as waterfront safety director, while others are also named. The fee is \$5 and \$6 per Scout, the first fee charged when the troop brings its tentage. Scouts must have a physical examination, and are re-checked at camp.

Improvements this year include new wash racks, a trading post, better water system, better shelters for the troops and outdoor fire places.

Other camping periods this summer for the South Plains council are July 6 to 16 at Camp New Mexico in the Sacramento Mountains and Phyllis in northern New Mexico, July 20 to 30.

A cadet kissed a girl and murmured: "I must be the second happiest person in the world."

Goodland News

Mrs. Lester Lancaster was hostess to the Ladies Diversity club Wednesday afternoon. The club voted to buy a pair of batiste pajamas for LaVon Stegall, who has been ill. Also preparations were started to render a Father's Day program and gift to the oldest father with the most children, present at the party. Refreshments of devil's food cake and kool-aid were served to the following: Mesdames: Nughally, Galt, M. D. Gaddy, Everett, Pete Taretton, Louis Ponder, Shelton, Morris Gant and Miss Faye Gant. Worth Matheny was a business visitor at Haskell and Munday last week.

Mr. Nunnally has been on the sick list the last week.

Mrs. Sallie Shuman and Mrs. C. W. Johnson, and two sons of Lubbock, came out Friday and stayed over until Sunday with Mrs. T. G. Gaddy. They returned home with Mr. Johnson Sunday afternoon.

We had 33 present for Sunday school and church Sunday. Reverend Tisdale preached here that day.

Mr. and Mrs. M. D. Gaddy and family spent Sunday with friends at Earth.

The Ladies Diversity club held a called meeting at the school house Monday afternoon. It was voted to buy Mr. Nughally a gift, and details for having the community shower for Mr. and Mrs. Milsap were worked out. The next regular club meeting, May 28, will be with Mrs. Raymond Shelton.

Birthday Party Given In Honor Of Juanita Farrell

Monday night of this week, Miss Juanita Farrell was honored with a party on her birthday anniversary at the home of her parents, Mr. and Mrs. C. R. Farrell.

Entertaining guests were enjoyed by the guests. The surprise of the evening, which furnished much gaiety and excitement, was when each guest pulled a pink ribbon from beneath a birthday cake. Fortunes were tied to the ends of the ribbons.

Refreshments of white angel food cake, made pyramid style, and iced drinks were served. Pink candles topped the cake.

The honoree was the recipient of many useful gifts.

Those present were: Dick DeShazo, Bruce Horsley, R. L. Karr, Gus Pteron, Paul Gaudier, Bob McFors, Wilcox Rentrow, Emma Lee Locke, Dan Bray, Estia Lee Jordan, Gloria Weddington, and Nina Mae Starkey.

FIRE DESTROYS HOME IN GOODLAND COMMUNITY

Fire destroyed the farm home of Mr. and Mrs. Joe Milsap of the Goodland community last week. All household furniture, with the exception of a mattress and quilt, and all the family's clothing were burned.

The Milsaps had taken their baby to Lubbock for medical treatment, and the only one at home when the fire started was Mr. Anderson, who is Mrs. Milsap's father. He was in a broom house when the flames broke out. It is reported that Mr. Anderson heard an explosion just before he discovered the house was afire. It is believed the house originated from a refrigerator.

The Milsaps were driving in from Lubbock when they saw their home in flames.

5,000,000 ACRES FOR WAR GAMES

JASPER, Tex., May 20 — An estimated 5,000,000 acres of land will be leased in East Texas counties for army maneuvers starting about August 1, it was announced here today at the headquarters of Lieut. Col. R. R. Louden, president of the Eighth Corps Area rents and claims board.

The task of obtaining leases and agreements for use of acreage in Jasper, Newton, San Augustine, Orange, Sabine, Shelby, Panola, Tyler, Harrison, Angelina, Hardin, Jefferson and Nacogdoches counties has begun.

Soldiers will be stationed generally from Marshall to the Gulf of Mexico and from Zavalla on the Mexican border, to the Louisiana border.

Approximately 800,000 acres already have been signed over in Shelby, Sabine, Angelina, San Augustine, Newton and Jasper counties and there have been no refusals thus far, headquarters said.

Sabine and Angelina national forests have been leased.

There are 25 officers and enlisted men here carrying out the leasing work.

Sub-headquarters will be set up in San Augustine, Newton and Shelby counties.

NEW LIQUOR L. NOW IN EFFECT

AUSTIN, May 21 — Te.

ated today under a ne

stringent liquor prescription

invoking penalties of a \$100

\$1,000 fine or up to one year

jail for violations.

Gov. W. Lee O'Daniel's su

ture to a bill yesterday made

law, overwhelmingly approved

both branches of the legislat

effective immediately.

The statute limits the num

of prescriptions any one do

or may write to 100 in 90 days. Drug

stores can not stock more than

10 gallons of liquor at any one

time. Physicians must obtain

prescription forms from the liq

uor control board and write a

diagnosis of the patient when

prescribing liquor.

Many other provisions of the

measure generally tighten up

issuance of prescriptions and sale

of liquor under a physician's or

der.

C. A. Paxton, chief enforcement

officer of the liquor board, said

the agency was speeding machi

nery for enforcement of the law

and field agents had been

asked to request all interested

persons to observe at least the

spirit of the statute until pre

scription forms were available.

"John, I'm sure I heard a

mouse squeak."

"Well, do you want me to get

up and oil it?"

ATTENTION!

Cold Weather Is Over And Temperatures Are Going Up

This means that the winter grade oils and gear lubricants used in your car during the winter months are too thin and light for the protection of your motor transmission and differential during the hot weather ahead.

Why not drive in now and have crankcase drained, flushed and refilled with the proper grade of oil for summer driving, and don't neglect to have your transmission and differential drained and refilled with the proper gear lubricant for hot weather.

We use the nationally famous Texaco Marfak chassis and gear lubricants and can supply you with the motor oil of your choice.

Why not play safe and protect your investment by having these important items taken care of now?

The United States Maritime Service is meeting the threatened shortage of skilled merchant seamen by training youths who have had no previous seagoing experience. Young American citizens in good physical condition 18 to 23 years of age are being enrolled for a seven months' course of instruction in the duties of the deck, engineers, and steward departments. Enrollees are paid \$21.00 monthly; clothing, food, and quarters are furnished by the Government.

is training course qualifies these young men for jobs on American merchant ships. Pay starts at \$72.50 a month with food and quarters furnished. For information write to U. S. MARITIME SERVICE, WASHINGTON, D. C.

o host's little girl); ou know that it's the month?" "Cause all Daddy's e got front windows

A very dull play was talked of, and one attempted a defense by saying, "It was not hissed." "True," said another, "no one can hiss and yawn at the same time."

WANTED MORE TOMATOES

There will be a greater demand for tomatoes this year than ever before. England alone, wants 15 million cases. The capacity of the local canning plant will be increased if the acreage and yield in this territory justify it.

You still have time to increase your acreage, or plant a few acres if you had not previously planned to do so. I can save you time by furnishing your—

TOMATO PLANTS

—at a very reasonable price. I also have plenty of tomato seed. Plants and seed are the best varieties for this area.

Entire Week-end Wardrobe Made of Cotton

Cotton carries Miss Molly Stinson of Sherman from daytime to evening as she combines four garments into a week-end wardrobe of play suit, short dress, and dance frock. During Cotton Week everybody at Texas State College for Women turned out in cotton clothes, stressing them for all occasions. Miss Stinson designed and made her outfit in costume design and clothing courses at the college.

WHAT WE LEARN IN COLLEGE

Rosa Renfrow

From the colleges and universities of our nation come the culture and the refinement of the world. It may be hard for some of our onlookers to admit the fact that we, the students, have brains refinement or education; maybe they do think we are a bunch of folly renegades but were it not for the colleges and universities, the world would be filled with non-informed, undeveloped, uninterested and uneducated people. People, in general, have minds but they must be developed, they must be broadened, and where is a better place to do this than college?

In college, the student is faced with practically every type of problem; they contact every type of person and they learn how to get along with people. Maybe they don't make A's in Math, English and other degree requirements, but after all what do grades signify? Certainly grades are only a small measure of one's education and knowledge. What does one accomplish who knows only books? It is inevitably a fact that real situations are certainly not the situations we encounter in school. If book knowledge and grades are all we have when the final day of reckoning is here as far as school is concerned, what will we do? How will we hold a position? How will we know how to care for real problems and situations that arise? It is invariably true that too much emphasis is placed on grades. Good grades and a degree help one to get a job, but they have very little to do with keeping one. A straight A student, sometimes cannot adapt himself to new situations and cannot get along with people nearly so well as a C student who has a little common sense. This is quite often the fact unless the A student is an unusual one. I know A students, those who sit in my classes and make a good record—only on paper—only students have prejudices against them not necessarily because they make better grades, but because they do not mix with people. They are too involved in studying to mix and mingle with people. How can they hope to accomplish worthwhile things in life without the assistance of friends and their relationship?

To have a well-rounded, broadened education we must know people, must understand them, must know and be interested in their problems. Personally, I think one hour of sound conversation with a business man or one with experience is worth more than three hours of lecture from a teacher, who, perhaps, has never actually experienced the thing he is endeavoring to teach. First of all, one will be more interested in listening to a business man, he is real and presents real situations, then, inevitably you will remember more.

Then, if all this is true, why do we go to college? College is important and you learn much but the above comments were merely trying to illustrate the fact that grades aren't everything of importance. In college you learn appreciation. Appreciation is created for culture, beauty, art, music and the finer things of life. You learn to wear your clothes better. Think over your list of acquaintances that attend college. Take an inventory of

their appearance when you know them in high school and now. Don't you agree that they wear their clothes better and hold themselves up better now? Perhaps you think that point is relatively unimportant, but appearance is very important in getting a job and keeping it. (After all, this is the major objective of most of us). Getting the employer's attention is the first step in applying for a position. Nothing is more effective than a good personal appearance to get the attention.

Then, we learn in a small measure how to get along with people. We must contact them daily, we live with them. We learn to tolerate our feelings, our tempers, we learn to smile through problems and slurring remarks. Personality blooms, and it is a very important objective on our campus today. Again, think over your college acquaintances, follow the change in their personality and disposition. Perhaps they are better, or maybe they are not, but, in general, won't you admit that they are better? They are more broadened and adjusted.

Then, believe it or not, we learn a small bit about study, conservation of time, adaptation to routine work, and importance of schedule. Also we learn to take orders and to obey regulations as well as give them. One just can't go four or five years in college and not accomplish something.

Most students upon entering college do not have any conception of an idea as to how to study, they have no regard for time schedules or regulations but it doesn't take them long to find out that they must study some and have some system to do their work.

In this age of war and great defense, I could not forget to mention the loyalty, support and interest among college students. It is amazing how much the students read and how eager they are to learn even the most minute problem of defense. We can scarcely go into a class that the present situation is not being discussed at large or about in individual students. This point is extremely important because our American people must be educated to the world affairs if we hope to carry on.

There are hundreds of other important and significant generalities that we can get only by going to college, but the above mentioned are enough to prove the inevitable fact that it is well worth your money every year you are not one of the few students who have an A record.

Half Century Club Members Met With Mrs. A. P. Stone

Members of the Half Century club were entertained Thursday afternoon of last week at the home of Mrs. A. P. Stone.

Various games furnished entertainment and the top club members are planning to make was discussed. The remainder of the of evening was spent by guests visiting.

Those present were: Mrs. Matilda Duke, Mrs. Maude Jones, Mrs. Beulah Carles, Mrs. J. J. Williams, Mrs. H. A. Douglass, Mrs. Joel Lee, Sr., Mrs. Nell Rocky, Mrs. Clara Young and Mrs. Mary Snow Davis.

Thursday of this week, members of the club will meet at the home of Mrs. W. H. Kistler for an all-day session. A covered dish luncheon will be served at noon. All members are cordially invited to be present.

LAZBUDDY MAN GIVEN CHANCE TO SURVIVE

"Has" McCurdy, of the Lazbuddy community, is given a chance to survive injuries sustained Friday night, when he became entangled in a tractor-drawn planter on his father's place in the Lazbuddy community. His physician stated the first of the week that the patient was doing nicely and had a good chance to recover.

McCurdy was taken to the Clovis Memorial hospital following the accident, where he is receiving treatment. He became entangled in the machine while alone in the field and suffered severe injuries. It is said that it was some time before assistance reached him.

EASTERN STAR

The date for installation ceremonies of the Eastern Star has been changed to June 3. It had been announced for Friday, May 20, but unforeseen circumstances necessitate the change. Practice will be held Monday, June 2.

CARD OF THANKS

We wish to express our sincere thanks for the kindness and sympathy extended us during our bereavement.

Mrs. H. A. Robb and family.

Anxious Mother: What does the average college man do with his weekend?

Dean of Men: Well, madam, sometimes I think he merely hangs his hat on it.

MARTIN DIES

Martin Dies, who is chairman of the House committee investigating un-American activities, is making a vigorous campaign for the U. S. Senate. Dies is considered by many as a favorite to win, and has been in Congress for ten years. He is receiving the support of a large percent of the ex-service men of Texas, due to his fight for the expulsion from the United States of such undesirable as Harry Bridges.

Buy it in Muleshoe.

IN ARMY-NAVY HOSPITAL

Ex-sailor Clarence Goins, who is in dry dock at the Army-Navy hospital at Hot Springs, Ark., writes some of his friends that he is getting along fine and will soon be able to pick up a broom handle with his foot again, just like he used to when he was the pride of the Navy.

"Curstome opinion" of ex-army men here is that there was very little the matter with the Admiral to begin with. However, it is thought that maybe by the time he gets back home his outlook on life will be brighter after those good Army doctors work him over.

She: "Doesn't Christmas take you back to your boyhood days?"

He: "Well, dear, I must say these cigars you gave me remind me of my first smoke."

"Words Are Not Big Enough" to praise ADLERIK with me." (G. D. Calif.) Gas blowing, sour stomach, spells of constipation are quickly relieved thru ADLERIKA. Get it TODAY. WESTERN DRUG CO.

Tex. spent last week visiting her
son, M. L. Gunter. After school
closed, they left for their home
at Wheeler.

Mrs. Vernon Vinson and children
spent the weekend visiting
her mother, Mrs. J. L. Herring-
ton, in the West Camp commu-
nity.

A farewell party and shower
was given for M. L. Gunter in
the home of Mr. and Mrs. Ed
Gulley Wednesday night of last
week. For the past four years
he has been principal of the
school here. We are very sorry to
lose him, yet wish him success
in his new position.

Mrs. Bob Kennedy, and son,
Arlon, of Gran Quivera, N. M.,
visited Mr. and Mrs. W. G. Ken-
nedy, and other relatives and
friends over the weekend.

Mr. and Mrs. Walter Curd and
children of Texico, N. M., visited
her parents, Mr. and Mrs. W. V.
Humphrey, and family, last Sun-
day.

Graduation exercises were held
last Thursday night. Eight pupils
graduated from the seventh
grade. They were: Doris Jean

Progress Clubbers
Enjoy Party

Members of the Progress Home
Demonstration club were enter-
tained with a party in the home
of Mrs. W. L. Swanson Tuesday
of last week.

Mrs. Ross Goodwin's winning
side in a recent contest was en-
tertained by Mrs. Etelle Holley's
losing side.

Immediately after everyone
assembled, "refreshments" consist-
ing of cornbread muffins and
beans were served.

Numerous games were played
under the direction of Mrs. Ada
Murray and Mrs. W. G. Kennedy.
Mrs. Ed Gulley and Mrs. Ross
Goodwin received lovely showers.
Late in the afternoon ice cream
was served to all present, it being
proclaimed an improvement over
the first refreshment course.

The present were:
Misses Bessie Vinson, Elzada
McMahan, Evadna Holley, Eunice
Humphrey, and Ilyathia Swift.

Mesdames: Lula Needham, M.

Willie Culwell, and the hostess,
Mrs. W. L. Swanson.

Bang's Disease
Spreads Through
Dairy Herds Fast

Have any of your cows lost a
calf this year?
If so, have your herd tested for
Bang's disease" at once, advises
a University of Texas bacteriolo-
gist.

Although there are other causes
of abortion in cattle, explains
Dr. Norman McCullough, this is
one of the few ways in which
"Bang's disease" makes its pre-
sence known, and as the infection
spreads very quickly it is impera-
tive to detect it at once and re-
move the infected animals.

The organism is found in the
milk of the animal during the
early stages, Dr. McCullough said.
If the raw, unsterilized milk is
consumed by human beings, it
may cause undulant fever.

"People often contract this dis-
ease without knowing they have
it, thinking they are just tired or
in a run-down condition," he
pointed out.

Sixty percent of the cows in-
fected with "Bang's disease" lose
their first calf, he said. Nearly
all cows are susceptible, dairy
cattle being more susceptible than
beef cattle.

To have your herd tested for
this disease, Dr. McCullough said,
you should have blood drawn by
a veterinarian in a sterile con-
tainer. Send it to the Livestock
Sanitary Commission in Fort
Worth, which in co-operation
with the Bureau of Animal In-
dustry of the U. S. Department of
Agriculture, will test and report
on the blood of any animal sent
to them, he explained.

Relief from the ravages of bru-
cellosis — scientific name for
"Bang's disease" — is the objec-
tive of a new laboratory opened
last week at the university.

MRS. CHARLES LENUAU
ATTENDS LUBBOCK COFFEE

Announcing the engagement
and approaching marriage of her
daughter, Miss Louise Wright, to
Kenneth Pharr of Phillips, Mrs.
L. B. Wright entertained with a
coffee Sunday morning, May 18,
at the home of Mrs. F. R. Friend
in Lubbock. Receiving hours
were between 9:30 and 10:30
o'clock.

Miss Wright is known by sev-
eral in Muleshoe, having visited
here on numerous occasions with
Mrs. Charles Lenuau.
Miss Helen Brown greeted
guests at the door and Mrs.
Wright, Mrs. Charles Lenuau and
Miss Wright were in the receiving
line.

Miss Nova Lewis presided at the
guest book. Others in the house
party were Mrs. Verlon Bigham,
Mrs. George Philbrick of Perry-
ton, and Miss Leota Lightfoot.

Between 65 and 75 guests called
during the morning.

The wedding is to be read in
Lubbock at the home of Miss
Wright's parents June 5.
Mr. Pharr is a graduate of the
North Texas State Teachers col-
lege and teaches science at Phil-
lips high school, where Miss
Wright is a teacher of home econ-
omics.

LEGION QUOTAS
ARE EXCEEDED

Eighteen of the 30 American
Legion posts in the 19th congres-
sional district have passed their
1941 membership quotas accord-
ing to a report made Saturday by
Chas. Whitacre, district comman-
der.

Membership for the entire dis-
trict, he added, is nearly 19 per-
cent above its assigned quota. The
figures are, quota 1,490, and
membership, 1,630.

Undoubtedly there will be sub-
stantial additions to the totals
before the fifth division and 19th
district conventions to be held in
Lubbock June 14-15, he said. In-
dications are, he added, that
practically all posts in the dis-
trict will exceed their quotas by
that time.

Largest post in the district is
Lubbock's Allen Bros., with a quo-
ta of 250 and a paid membership
of 270. Plainview's Sam Lang-
ford's post is next, with a quota
of 120 and a membership of 127.

Other posts in the district
which have exceeded their quo-
tas are, with the quota being listed
first and the membership next:
Amherst, 20-28; Brownfield, 80-
124; Coahoma, 20-25; Colorado
City, 65-106; Crosbyton, 28-30;
Floydada, 55-56; Hale Center, 33-
41; Haskell, 30-50; Levelland, 50-
66; Littlefield, 60-65; O'Donnell,
20-21; Olton, 25-28; Sagraves,
40-50; Slaton, 45-55; Tahoka, 35-
43.

Other posts which had almost
reached their quotas when last
reports were made to the district
commander were: Lockney, 40-
54; Muleshoe, 30-26; Post, 45-39;
Rule, 30-24; Snyder, 100-92; Spur,
55-49; and Stanton, 15-12. Whit-
acre said that some of those
doubtless have passed their quo-
tas since the last report to him,
and predicted that all will do so
before the convention, at Lub-
bock.

MRS. ELMER RILEY AND
MISS VALINE LEWALYNN
HOSTESSES AT SHOWER

Friday afternoon of last week,
Mrs. Elmer Riley and Miss Valine
Lewalynn of Muleshoe entertained
at the Riley home near Enoch
with a miscellaneous shower in
honor of Mrs. T. J. Sullivan, the
former Miss Vinita Rodgers.
The honoree received many use-
ful gifts presented her by friends
who attended the shower. Many
who were unable to be present
sent gifts.

The afternoon was spent by
the guests in entertaining games
and visiting.
Refreshments including iced
punch and cookies were served by
the hostesses to the following
guests:

Mesdames: Carl Mobley, R. M.
Walker, J. W. Rodgers, Leonard
Lee, Roy Brown, Virgil Riley, Bill
Dick, Will Nicholson, Raymond
Gilbert, Marie Williford, Virginia
Ruth Williford, E. N. McCall,
Everett Brewer, T. A. Thomas,
N. O. Sullivan, R. P. McCall, Lor-
na Blanton, C. H. Vanishingh,
Elmer Riley and Miss Valine
Lewalynn.

SPUR ROUND-UP DATE
SET FOR JUNE 20-21

The citizenship of Dickens
county are becoming affected
with rodeo fever and hundreds of
them are doing horse back riding
every day, getting in condition.
The Spur Round-Up Association
will hold their show Friday and
Saturday, June 20-21. The 1941
performance will be the third
event and the program has grown
every year.

There will be two performances
daily for two days, four shows in
all. The first show each day will
start about 2 o'clock each after-
noon with a complete program,
rodeo style. Each evening an-
other show will start about
7 o'clock which will require fully
three hours to complete the pro-
gram.

R. L. Westernman, Spur cattle-
man and rodeo fan, is president
of the organization. Mr. Western-
man is being assisted by such
men as O. M. McGinty, who is
vice president of the association
and a ranchman; O. C. Arthur,
business man, who has served as
secretary the past three years
and this year will assume the ad-
ditional duties of business man-
ager; O. B. Ratliff, A. C. Hull, E.
Sturman Lee, L. E. Lee, Charles
Fox, Clyde Walthall, Tom Milam,
Ty Allen, who compose the Board
of Directors, and every business
man in Spur.

The Spur Civic Club, which is
the business men's organization
in the town, has given its unqual-
ified support in a moral and
boosting way, and everyone is
very zealous in his activities to
make this the best annual show
the Spur Round-up Association
has ever given.

ONE BULLET EQUALS
TWO DEER

P. B. Gerhart, a mechanic of
Canadian, Texas, saved plenty of
ammunition during the last
hunting season, according to a
related report reaching the Tex-
as Game Department. Mr. Ger-
hart and Sheriff Rathbun went
hunting on December 16. Ger-
hart got out of the car at a per-
mission patch on the Hartage
Ranch near Canadian. When he

was within 100 yards of the
thicket he saw a large buck look-
ing at him. He fired. Imagine
his surprise when he reached
the buck, a seven-pointer, to see
another buck stretched out just a
few feet from the one at which
he had aimed. Gerhart had
seen only one buck, yet he had
gotten his season's legal limit
with one shot. The seven-pointer
had been shot through the neck
and the four-pointer through the
head. The hunter was using a
30-06. The bullet nearly tore
the head off the second deer it
hit.

The civilian who wasn't quite
equal to the task of distinguish-
ing officers' ranks by their insignia,
was conversing with a colonel.
Several times he called him
captain, then, as if not sure, he
asked: "You are a captain aren't
you?"

"Well," said the colonel, a little
amused, "I am not any more, al-
though I once was."
"That's too bad," consoled the
civilian. "Drink I suppose."

THAT LAY Early!

By growing and developing your
pullets properly, you can get them
into production sooner and have
them laying big eggs when egg
prices are high. Purina Chick
Growers (complete feed) or Purina
Growing Chow to be fed with your
grain is built to help get your pul-
lets to lay lots of big eggs in the
shortest possible time. See us for
the poultry feed that fits your own
particular needs.

FISH & GAME
OUT OF SEASON

Hunters and fishermen were among the first to
take advantage of Frozen Food Locker Plants.

"Bringing home the limit" no longer means the
game must be used immediately to prevent spoilage.
Since the advent of Locker Service, venison cutlets,
roast duck and fried bass can be had after the
season is over.

Fresh Frozen Foods are More Healthful — Use
the Locker System.

MULESHOE LOCKER CO.

MULESHOE, TEXAS

BAILEY COUNTY
IN
NATIONAL DEFENSE

What has Bailey County contributed toward National Defense? You will reply
by saying, "Our boys for the army." Food for health of our nation, and "Cotton
for its many uses." BUT WHAT ELSE CAN WE DO? The government is replying
by saying "We need processed tomatoes, corn, peas and snap beans." And the
defense program is not asking us to make a sacrifice from our regular crops to
grow these. The Agricultural Adjustment Administration have adjusted their regu-
lations to fit the situation. These four crops can now be grown on what is com-
monly called our government acreage or our layout land. In other words, they will
not be classed as soil-depleting in 1941 if grown for processing purposes. Think
what that means — we have our processing or canning plant. We have water and
we have a soil that will produce these crops no end. AND THAT ISN'T ALL. The
defense program plan to buy this tomato crop at a price level of \$2.75 to \$3.00 per
ton above last year. Is this a sacrifice or is this an opportunity to help national
defense as well as to increase your crop return and still comply 100 percent with
the AAA program. What do you think?

LABOR? Yes, that may be a problem, but don't you think if we can get a
little cooperation into the deal and get a goodly acreage of all these crops we can
work that out? And cooperation is what we need at these trying hours. Muleshoe
Chamber of Commerce and business men are behind you. With the help of the
Land Use Planning Committee, both farmer and Federal Agency members, the
Chamber of Commerce help and your help, we believe we can get sufficient labor
in here to handle the situation, don't you?

ARE WE GOING TO DO OUR PART? THINK IT OVER.

VARIETIES OF CROPS SUGGESTED FOR PROCESSING

CHAMBER of COMMERCE
MULESHOE, TEXAS

Local Happenings

Mr. and Mrs. Ed Wallace and Mr. and Mrs. Frances Mattison of Amarillo visited friends and attended to business in Muleshoe Saturday of last week.

Mr. and Mrs. Jess Osborn and family left last weekend for Houston to attend the State Bankers convention. After leaving Houston, they plan to visit at Galveston, Tex., and Shreveport, La., returning by Hope, Ark., where they will visit their parents. Mr. and Mrs. E. M. Osborn. They expect to return to Muleshoe the latter part of this week.

Tilton Garrison and M. E. Wentz of Brownsville were in Muleshoe Monday of this week attending to business. They are with Porter & Wentz, Inc., a large potato concern, and were seeking a location here in which to establish a market where local potato growers could sell their potato yields in wholesale lots.

Mr. and Mrs. Ansel Bynum and Miss Edith Barber visited at Lingo, N. M., Sunday with their parents, Mr. and Mrs. W. O. Barber, former Muleshoe residents.

Mr. and Mrs. Garvin Wilson of Levelland were Muleshoe visitors Monday afternoon. They were visiting a farm location in Bailey county.

Mrs. Charles Harris of Sudan visited in Muleshoe Monday afternoon with her sister, Mrs. Joe Crowley, and parents, Mr. and Mrs. Will Harper. She was formerly Miss Eva Harper.

Mrs. Bill Boothie is spending this week in Abilene visiting her mother, Mrs. O'Donnell, and other relatives.

Miss Oleta Parker, nurse at the local clinic, has been confined to that institution this week because of illness.

Mrs. Mills Barfield, son, Claude, daughter, Miss Norma Elrod, and Mrs. J. F. Wallace and Miss Frances Alexander, employees of the E. R. Hart Co., returned this week to their homes in Muleshoe after a vacation trip to San Diego, Calif., where they visited Roy Elrod of the United States Marine Corps. They also visited relatives at Los Angeles and other points in California. They were accompanied by Mrs. R. B. Boyle of Las Cruces, N. M., formerly of Muleshoe. Mrs. Boyle is a daughter of Mrs. Wallace and a sister to Mrs. Barfield.

Miss Jewell Faith spent the weekend in Lubbock visiting friends. She returned to Muleshoe the first of this week.

Mr. and Mrs. Walter Moeller returned to their home in Muleshoe last weekend from Dallas and Mineral Wells, where they spent several days visiting and attending to business.

Mr. and Mrs. Olen Roark and two children of Sudan, visited in Muleshoe Sunday in the home of his sister, Mrs. Ty Young, and family.

A marriage license was issued in Muleshoe Thursday, May 15, by Mrs. Lela Barron, deputy county clerk, to Miss Lavin Broyles, 18, and Morris McKillip, 18, both of near Muleshoe. She is the daughter of Mr. and Mrs.

Edgar Broyles, and Morris is the son of Mr. and Mrs. L. T. McKillip. Both have attended Muleshoe high school and Miss Broyles was a member of this year's graduating class.

Mr. and Mrs. M. G. Bass, and son, Raymond, visited and attended church services at Stegall Saturday night and Sunday. A communion and footwashing service was held Sunday evening at the Primitive Baptist church of that community.

Mrs. Josephine Wood, Mrs. Blanche Lancaster and Mrs. Melba Moore were guests at a special meeting of a study club in Sudan the latter part of last week.

Thomas C. Webb and Sam Thornton of Hereford, were attending to business in Muleshoe and looking over the potato crop prospects in Bailey county Monday of this week.

A marriage license was issued in Clovis, N. M., the latter part of last week to Mae Belle Reeves, 18, and William M. Norris, 21, both of Muleshoe.

Mrs. A. J. Sparks of Amarillo, visited in Muleshoe Sunday with her parents, Mr. and Mrs. H. A. Douglass, and Mr. and Mrs. Mildred Moore.

Miss Anna Lucy Bray returned to her home in Muleshoe last weekend from Thalia and other Texas points where she visited friends and relatives for several days.

Miss Avis Cooper, teacher in the Muleshoe grammar school, left last weekend for Rising Star to spend part of the summer vacation visiting homefolks and friends.

A marriage license was issued in Muleshoe Sunday, May 18, to Miss Zulema Plack, 23, and Geo. A. Richardson, 23, both of Earth.

Roger Harvey, teacher in the Longview school, attended to business in Muleshoe Saturday of last week.

Miss Dorothy Murchison, teacher in Muleshoe high school, left last weekend for Farmville, Texas, where she will visit her parents and friends.

Miss Lois Harvey, teacher in the Watson school in southern Bailey county, was a Muleshoe visitor last Saturday afternoon.

Mrs. H. A. Douglass, and son, H. A., Jr., attended the high school graduation exercises at Texico Thursday evening of last week. Two nephews and a niece of Mrs. Douglass were members of the graduating class. Accompanying Mrs. Douglass and son to Texico were Ike Bayless and Marshall Oliver.

Miss Anita Meacham, daughter of Mr. and Mrs. R. B. Meacham, was admitted to a Muleshoe clinic Wednesday morning of last week to receive medical treatment. She was dismissed Friday and her condition was reported to be improved.

Everett Wallace, principal of the Fairview school, transacted business and visited in Muleshoe Saturday afternoon of last week.

Sheriff W. E. Renfrow and J. C. Buchanan made a trip to Huntsville Thursday of last week to take two prisoners to the state penitentiary to begin serving terms.

Washington Snapshots
by JAMES PRESTON

On the basis of information from around the globe, Washington officials are firmly convinced that what happens in the United States in the next 100 days will go far toward shaping the history of the world for generations.

Much depends, of course, upon the outcome of the Balkan and African battles. Most Washington officials think that an important factor there will be whether enough American war material can reach the Mediterranean area in time.

These officials almost unanimously agree with William S. Knudsen that industry has done the "impossible" in speeding defense production. They realize too that the American production speed-up has been much faster than that in either Germany or Great Britain.

They expect that upward trend to continue as fast as humanly possible. But they are continuing to ask that more than the "impossible" be done.

New authoritative figures indicate that the "impossible" is "possible." For example in the last six months of 1940 actual money paid out by the government for defense goods totaled \$1,400,000,000. But in the first three months of 1941, the total was \$1,800,000,000.

These goods delivered to the government and paid for more than doubled in the first three months of this year. Very soon, many new plants will go into production, so officials are confident deliveries will continue their upward trend.

They consider this delivery rate remarkable in view of the fact that most of the defense material is products which were not even made a year ago, and in some cases as recently as six months ago.

In other words, buying machine guns and tanks and armored cars was not just a question of getting industries to speed up production of things they were making, but it involved developing entirely new products—and the machines to make them. Many people probably can remember a few years back when a big automobile manufacturer spent a whole year retooling in order to make some basic changes in his car. Today's defense industries didn't even have a "last year's model" to redesign.

How much Washington expects the defense program to speed up is indicated by the fact that there is some \$43,000,000,000 of money available to spend in the next two years. That means an annual expenditure rate of \$21,500,000,000. And even the expenditure for the first three months of 1941 was only at a rate of \$7,200,000,000 a year.

Speaking of strikes, the real strategy behind the recent Congressional recess has finally leaked out. The reason was not that Congress was up with its work, or that members were worn out. There are many important things yet to be done, and the legislators in any number of years have worked far beyond Easter without a vacation.

The truth is that it was feared Congress was about to boil over the defense strike situation and demand anti-strike, anti-labor legislation.

So things moved fast. The Defense Labor Mediation Board was set up in the hope that it would ease strikes. Then, to give the Board a chance to produce, Congress went home for a "cooling off" period.

The Board did get work resumed in a number of important factories, and settle some strikes. So up to that point the above strategy worked.

But there was one bad fly in the ointment. Many legislators went home during the recess. And they found that their constituents were really insistent that nothing, not even strikes, should be allowed to interfere with production.

The result is that the "cooling off" period got many solons heated up. The first big strike will find Congressional sentiment just about as near the boiling point as before.

Local Happenings

Miss Lorena Owens, who is employed in Lubbock at the Texas State Highway Department office, spent the weekend in Muleshoe visiting Miss Eunice Florence, Miss Mildred Davis and other friends. She formerly resided here where she was employed at the Farm Security Administration office.

Important New Steps Taken To Bring Additional Incomes To Farmers And New Industries

One of the most important steps ever taken in Texas to bring new income to farmers and new industries to both small towns and urban areas of this state, the formal organization of the Industrial Farm Crop Association of Texas, has just been announced by M. D. L. Van Over, president. A non-profit organization composed of leading farmers and business men of Texas, the Association will serve to promote the expansion of industrial farming crops in Texas.

Elected to serve as temporary president, M. D. L. Van Over is the outstanding scientist and authority on the industrial uses of the castor bean tree. His work has already paved the way for at least one new form of industrial farming, the prospective income from which has been estimated at approximately two billion dollars yearly. Mr. Van Over will serve as president until a successor, able to give a great deal of time to the expansion of a new industry in Texas, is found.

In announcing the formation of the new organization, Mr. Van Over said: "It is up to the farmer, especially to the farmer, that we have a farm problem. It is simply stated: The farmer is not making enough money. The prices he gets for his crops are determined by surpluses which we have because we produce too much of too few crops and because American farms are producing primarily food and clothing crops rather than chemical domestic industrial crops, and shipping these crops to the North for processing. The great need in the Southwest today is for farm crops that can be used chemically by industry, and processed here in the Southwest."

"The farmer who grows cotton, wheat or corn raises his crops for an already glutted market and can sell only a single part of each individual crop. The farmer who raises plants for use in the chemical industry is producing for an almost unlimited market and one that eventually will consume every part of his plant."

The new organization will encourage the growth of farm crops to meet the demands of the chemical industry with its ever-growing line of products of wide domestic industrial and economic usefulness. Such industrial farming, leaders of the movement point out, will mean new income for farmers and greater profits for both agriculture and industry, and will help to raise higher wages, greater employment and more national wealth.

The Industrial Farm Crop Association plans to interest farmers in the growing of industrial crops, to help the farmers grow them, and to find markets for these crops. Its principal functions will be to:

1. Seek to expand the knowledge of chemical crops by re-

Muleshoe Library News

For some time the Muleshoe library has received 50 books from the State Circulating Library, returning them and receiving another collection every three months. These books have been widely read, there being some 75 different readers of these volumes listed at the library.

Two weeks ago, as was customary, the librarians returned the 50 books and requested a like amount. Due, however, to the wide demand shown by the report sent into the state, the Muleshoe library was sent instead of the usual fifty, 101 books. These books are now available and we invite you to visit your library and look them over. They may be checked out for a two-week period and you do not have to own or purchase a library card to read them.

The above-mentioned library card may be purchased for a six-months period for 50 cents, or 75 cents for one year, and entitles the purchaser to read any book in the library. It is the policy of the library board to spend all money derived from the sale of cards only for the purchase of more books.

We urge you to leave your request for any book you would like to read with the librarian, as the purchase list is made from these requests.

Support and use your public library.

Local Happenings

Miss Lola Dunham, teacher in the Muleshoe grammar school, left last weekend for her home at Reagan, Tex., where she will spend the summer visiting her parents and friends.

Tommy Galt of Goodland, attended Bailey County District court in Muleshoe last Monday morning.

search and to finance desirable research projects.

2. Serve as a clearing house for all information on planting, cultivation, harvesting, marketing and commercial use of industrial farm crops.

3. Direct the attention of college, high school science, and industrial laboratories to beneficial industrial farm projects and to create popular support in behalf of such research.

4. Provide scholarships in Texas colleges and universities for persons doing outstanding work

in organic chemistry. 5. Promote an commercial application of research accomplishments. 6. Discourage utilization of industrial use of limited know crops for publicity profit.

7. Aid and co other agencies and efforts.

8. Discover and develop crops to supply existing needs, and develop the special use of by-products of crops.

9. Carry on an educational campaign to create more by increasing the scientific knowledge necessary to grow a produce more of nature's products.

Y'DO TELL?...I NEVER KNOW'D THAT MYSELF!

MADE-TO-ORDER!

Motor Trip Guide that even gives pointers to the natives...Yours Now FREE!

YOU get it *scot free*. No mere fistful of maps, but a metal-hinged, color-illustrated, well-written travel book—your custom-made Conoco Touraide—FREE—for your car trip this Summer.

ONLY FROM YOUR CONOCO MILEAGE MERCHANT...NOW

Today—tell him where you're heading—give him your ideas. And soon your Mileage Merchant delivers your Conoco Touraide—FREE. Just for fun, look up some familiar places first. Note the new things you learn! Yes, even "the natives" can get pointers from your Conoco Touraide.

OPTIONAL ROUTES AND SIDE-TRIPS ALL MARKED

Even the rates and facilities at camps and hotels are included in your one-piece Conoco Touraide book. Likewise full information on resorts and sports, as per your request.

YOU SIMPLY ASK! NOTHING TO PAY. NO OBLIGATION

Though your Conoco Touraide antiquates haphazard tour "helps," it's FREE. Nor does anybody pay extra for equally advanced Conoco Bronz-z gasoline and Conoco Germ Processed oil. Then how is this free Touraide service possible? Only because of greater loyalty shown by greater numbers of Conoco users. They refuse to sacrifice any of their Conoco Bronz-z mileage. And they refuse to sacrifice their engines! No "dry starts" with their engines OIL-PLATED. And an OIL-PLATED engine can stand Summer speeds. OIL-PLATING becomes bonded to inner engine surfaces...can't all quickly drain down. And speed can't whirl away all this close-joined OIL-PLATING. Hence, few stops for another quart, with the engine OIL-PLATED by Germ Processed oil... And no stops at all for roadside questions, with your Conoco Touraide—ENTIRELY FREE. Drive in today at your nearby Conoco station. Ask freely and get all the answers FREE.

Schools nty Are sed Friday

Alley county schools, Muleshoe, dismissed were Maple, Watson, Progress, Circleback, West Camp and Fairview. A few more weeks. Most of the teachers have been for next year throughout. Among them being Mrs. J. A. Lumsden at the school. The Lumsdens taught at the Muleshoe school for the past two years. re-elected to teach here but have accepted place. Lumsden will be principal. Mary re-elected to teach in the school and another the faculty is Miss Foard who taught this airview. O. E. Lumsden was principal, and Mrs. Lumsden and Miss Mary were re-elected as members of the faculty. nd Mrs. J. E. Biggs have elected at the Maple where Mr. Biggs served principal. Two others have elected to complete the faculty for the 1941-42 term. the Progress school, Missense Nordyke and Mrs. SterDonaldson were re-elected. Jewell Sparks, who taught year at Maple, was elected. mmet Brumelwood, principal, Sibyl Moorhead, teacher,

were re-elected at the Stegal school. Re-elected principal at Watson was Roger Harvey, and Miss Lois Harvey and Miss Vera Baker were other members of the faculty re-elected.

At Fairview, Everett Wallace, principal, and Miss Ruth Light, were re-elected for another year. Two more teachers are to be selected.

Walter McGuire was re-elected principal at the Longview school, and Mrs. Ida Lou Long was chosen to serve another year there.

Mrs. Walter McGuire is a new teacher, elected for the coming term. At Circleback, W. M. McConnell will serve another term as principal. Other faculty elections at this school have not been announced here.

Eunice Brown has been re-elected teacher at the West Camp school, where a new principal and teacher are yet to be elected. Teachers at the Goodland school for the 1941-42 term have not yet been named.

O. G. Dickinson was re-elected principal of the Bula school several weeks ago.

Teachers who will serve next year in other schools throughout Bailey county have not been definitely announced here.

A candidate for the police force was being examined.

"If you were by yourself in a police car and were pursued by a desperate gang of criminals in another car doing 40 miles an hour along a lonely road, what would you do?"

The candidate looked puzzled for a moment. Then he replied: "Fifty."

Presses Roll Steadily As Gov't Printing Plant Doubles Business

By JACK STINNETT
WASHINGTON — What national defense has done to the world's biggest printing business is one the record. A year ago, Uncle Sam, printer, was doing an \$18,000,000 a year business. This year he'll double it.

A year ago the Government Printing Office had around 5,500 employees. The number now is about 7,200.

In a cluster of buildings a few blocks north of the Capitol, this fabulous government enterprise is an industrial center in itself.

One Monday morning not long ago, Augustus E. Giegengack, bald, round, good-natured public printer of the United States, came down to his office to find a memo that 80 freight carloads of paper were waiting to be unloaded immediately. Mr. Giegengack didn't bat an eye. Why should he? That's only a little more than a week's supply for GPO. Sixteen at a time, the cars were rolled into the third floor tracks of GPO's great warehouse and a few hours later the first of it was rumbling through the tunnel that carries two lanes of big truck traffic underground to GPO Building No. 3—there to be swallowed by the hundreds of presses.

Going Day and Night

Off these presses, books, pamphlets, and folders roll day and night. Off them come the reports of departments, all the thousands of forms used for government records and red tape. Take, for example, penny postcards. Did you ever wonder who prints them? GPO presses print them—and at the rate of more than two billion a year.

Presses nearby spew out postal money order blanks at the rate of 300,000,000 a year and that is such a minor phase of GPO's activities that Mr. Giegengack hardly ever has to give penny post cards and money orders a thought.

I could go on reeling off such figures for hours. I could tell you that GPO has nearly 200 Linotype and Intertype machines, besides 100 Monotype keyboards and nearly half again as many Monotype casters. I could tell you that the public printer makes his own ink and uses about half a million pounds of it a year. But I'm sure by now you know that Uncle Sam's printing business is Big Business with capital-B's.

The Unpredictable 'Record'

One of the most interesting jobs GPO does is the daily publication (when Congress is in session) of the Congressional Record. It's interesting, because you can't tell a thing about the record. It puts GPO in the same spot as the housewife who never knows whether her spouse will eat dinner downtown or bring home from one to ten guests.

Sometimes Congress doesn't do much of anything and the Record may be hardly enough pages to bind. Sometimes, as in most of the national defense sessions, it runs to several hundred pages. But in any event GPO has to get it in the mails by 8 o'clock the following morning—and this in spite of the fact that copy is often until after midnight reaching the plant.

Since GPO moved into its new main building in February and was unable to streamline its production (work now moves from the seventh floor down—a sort of vertical assembly line) and to use the tunnel and conveyor belts to Washington's main postoffice, this business has been simplified somewhat but still it is a chore.

What Doesn't It Print?

While I was gathering these little facts and figures, it occurred to me that I would like to

know just exactly what GPO does turn out. I was sent to the superintendent of documents and what I got was a catalog of more than 3,000 pages. What I want to know now is what GPO doesn't print.

There were such things as programs of High School Parent-Teacher Associations; Training for the painting and decorating trade; Facing the Problems of Youth; the Labor Information Bulletin; Great Forest Fires of America; Planning for Farm Plumbing; Death Valley; Grand Coulee Dam; and Ferns and Flowering Plants of Isle Royale, Michigan... 3,000 pages of them.

LOCAL HAPPENINGS

E. M. Dorsey of the Longview community, was admitted to a local clinic Monday morning to receive medical attention. He was suffering from an arm ailment.

A marriage license was issued in Muleshoe Sunday, May 18, by M. G. Bass, county clerk, to Miss Annie Plack, 21, and Jas. H. Haines, 24, both of Earth.

Miss Gertrude Ford and Miss Ruth Light, teachers in the Fairview school, were Muleshoe visitors Saturday afternoon of last week.

Mr. and Mrs. Jim Cox and Mrs. Buford Butts were Lubbock visitors Friday afternoon of last week.

G. A. MEETING

Our G. A. meets next Wednesday at the annex of the Baptist church at 4 o'clock. We invite all the girls from 9 to 13 years of age to attend.—Reporter.

A census enumerator approached a lounging Negro dandy. He asked and learned the man's name, age, place of residence; then inquired, "What's your business?"

The answer came superciliously. "I own a hand laundry, I does." "Where is it located?" "Dar she comes now!"

Farmer Jones: Well, I guess my son is going to be a farmer after all when he gets through college.

Farmer Brown: What makes you think so?

Farmer Jones: Well, he's planning on taking fencing lessons at college this fall.

Visitor: "My, what a large skating rink!"

Instructor: "Yes, it has a seating capacity of 5,000."

CARDS OF THANKS ARE CHARGED FOR AT THE REGULAR AD RATES

The Journal wishes to call the attention of its readers and others to the notice which always appears at the top of the editorial page in regard to advertising. In this notice, Cards of Thanks are listed as paid advertising. This charge is made with more in mind than mere financial greed. The cold fact is, that if a charge was not made, there would never be room for anything except cards of thanks.

Thanking people is a custom much to be desired, and we are for it. But there must be rules to be guided by, as far as newspapers are concerned, so these charges are made in order to be fair to all. After all, it is a very convenient way to extend thanks, and, too, the charge is very little. It is an old newspaper custom, and not a greedy idea of our own. Please co-operate with us. Thanks.

Steel Cavalry Bounds Into Action

Speed shot at Camp Holabird, Maryland, during tests on new Light Reconnaissance and Command Cars for United States army. They carry machine gun and crew of three men at approximately 60 miles an hour. Can climb steeper hills than tanks. The Ford Motor Company, which built the ditch-jumper shown above, has an army order for 1500 of these units.

REPORTS OPTIMISTIC FOR SECTION'S CROPS

Directors of 20 associations made optimistic reports concerning crop conditions to Sterling C. Evans, president of the Houston Federal Land Bank, at a meeting in Lubbock Tuesday.

Associations are continuing to make loans and excellent crop prospects indicate better than average collections, they told President Evans.

The 20 associations represented nearly 15,000 loans. Member associations held approximately \$1,400,000 of the \$11,300,000 stock of

the Houston bank.

"The Houston Federal Land bank only owns eight pieces of property within the territory covered by these 20 associations," said V. N. Johnson, assistant president. "By a coincidence, all are in one county."

"Every one of the 20 associations is in class 1. I do not know of another area in the state where there are that many associations all in Class 1."

President Evans said the Houston bank had surplus and undivided profits of in excess of \$28,000,000. The Lubbock meeting is one of 12 in Texas.

Associations represented were as follows: Abernathy, Artesian Belt at Plainview, Brownfield, Crosbyton, Floydada, Hale Center, Jayton, Lamesa, Levelland, Littlefield, Lubbock, Matador, Post Plainview, Roby, Slaton, Snyder, Spur, Tahoka and Western at Muleshoe.

Just in Time

Gilroy, Calif.—An instant after Harry J. Locatelli drove his 12-ton truck and its load of railroad ties across the Palara river bridge, the 25-year-old span collapsed and fell into the river.

NOW'S YOUR CHANCE FOR A big deal ON THIS YEAR'S BIG FORD!

ANYBODY WITH A CAR TO TRADE will find it smart to see how much his car is worth in trade on a Ford this year!

In size, the Ford is the biggest car in passenger room in its price field. In comfort, it offers a soft and quiet ride that's new this year right down to a rigid new frame and long, soft springs.

Its hydraulic brakes are bigger than any other car's near its price.

Its engine is the only Eight in its field. Its economy was proved again this year when it was first in its class for gas mileage in the official Gilmore-Grand Canyon Economy Run.

Your Ford Dealer's certainly the man to talk trade with now!

FORD GOOD DRIVERS LEAGUE. Boys and girls, here is your opportunity to win one of 98 University Scholarships for skillful driving. For details, write Ford Good Drivers League, Dearborn, Mich., or see your Ford Dealer.

THE RECORD... Facts That Concern You

No. 29 of a Series

It's always the SORE thumb that sticks out...

Odd, isn't it—the way everybody notices the sore thumb?

It's the same way with the retailing of beer. Everybody knows about the one undesirable place...everybody seems to forget about the thousands of worthwhile retailers who operate clean, decent, law-abiding establishments.

To protect the good name of beer, we of the beer industry want the few...but noticeable... "black sheep" retailers eliminated.

That's not all. Such retailers endanger an industry that brings important economic benefits to the community. Right

here in Texas beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

This state, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from more than 100 other industries.

You can help us protect these benefits in two ways—by (1) patronizing only the law-abiding places where beer is sold and (2) by reporting any irregularities you may observe to the duly constituted authorities.

BEER...a beverage of moderation

TIRES - TUBES - BATTERIES

Speaking of Tires, Tubes and Batteries, visit the R. L. Brooks Service Station. We have one of the best lines that is made today.

We sell the famous Gates Tires. The tire that is guaranteed against any and all possible damage. WE WILL NOT BE UNDERSOLD, considering the quality.

These Gates Tires give from 20,000 to 25,000 miles of safe, carefree driving. You can buy them on your budget pay plan.

MULESHOE

TEXAS

FOR SALE MISCELLANEOUS

Here is a big idea that will—if enough people act on the hunch—convert hundreds of unwanted articles now gathering dust in Muleshoe and West Plains attics, basements, garages, storerooms, offices, stores and warehouses into thousands of dollars of ready cash.

Its possibilities are great. It is a sort of "share your own wealth" campaign — for there is scarcely a family in the whole community which has not some things for which they no longer have use that can be converted into cash, and thus transformed into all kinds of much wanted new things.

If you—and you—and you—and all of us will just take inventory of the dust covered or closet-space robbers that we no longer want and advertise them in the Muleshoe Journal Want Ads we will start a great new miscellaneous market humming—for a city the size of Muleshoe there is always someone to buy what you no longer need or want.

This idea of checking up on your articles that are no longer needed or wanted turns out to be just like finding money. The cost of advertising such things in the Muleshoe Journal Want

Ads is slight and the sales possibilities—if you remember that hundreds read these Want Ads every week... are so great as to be almost a sure thing.

Of all the classifications in The Muleshoe Journal Want Ads there is probably none that is so helpful to the public at large as those listed under "For Sale — Miscellaneous." And what greater service can be offered—especially at the low price—than one which makes it possible for you to dispose of something you no longer want but for which one of your neighbors will gladly pay cash.

Begin the inventory now! You will be surprised at what you find and when you have the money to buy something new you will have a new and friendly feeling for Muleshoe Journal Want Ads—unless, of course you are one of the hundreds who have long been reading the "For Sale — Miscellaneous" classification to a profit.

THE MULESHOE JOURNAL

Needlecraft Club Entertained By Mrs. McHorse

Mrs. Virginia McHorse entertained members of the Needlecraft club at her home in their regular session Thursday afternoon of last week.

Birthday anniversaries of two members, Mrs. Laura Bass and Mrs. Frances Robb, were observed at this meeting.

Needlework and visiting furnished entertainment, after which refreshments were served by the hostess to the following: Mrs. Lema Cook, Mrs. Laura Bass, Mrs. Myrtle Alsop, Mrs. Aileen Dyer, Mrs. Margaret Ann Swanson, Mrs. Jessie Wright, Mrs. Irene McHorse and Mrs. Pete Witte.

Following the meeting, all went to visit Mrs. Frances Robb.

Mrs. Margaret Ann Swanson will entertain members of the club Thursday afternoon of this week.

WEST CAMP 4-H GIRLS ENJOY WEINER ROAST

The West Camp 4-H Club girls enjoyed a weiner roast Friday evening at the roadside park near Muleshoe. Games were played after which weiners were roasted over a fire. The group concluded the evening's fun in time to reach home about 6:30 p. m.

Fireman: "Can I have the afternoon off to go shopping with my wife?"
Chief: "No."
Fireman: "Thanks."

Daughter: "What is alimony, Mother?"

Mother: "It's a married man's cash surrender value, dear."

ADVANCE ALLOWANCE FOR WHEAT STORAGE EXPECTED

COLLEGE STATION, May 19.—When farmers who construct new farm storage bins or substantially repair old storage structures for the 1941 crop will be able to obtain an advance storage allowance of 7c a bushel from the Commodity Credit Corporation if a loan is offered this year.

The advance rental offer is expected to result in greatly increased construction of farm storage facilities in Texas, Fred Rennels, assistant state administrative officer in charge of the AAA in Texas declared.

"The large carryover of wheat and other grains and the prospects of large crops in 1941, combined with the national defense transportation requirements may result in grain storage becoming quite a problem this year," Rennels said. "Limited available elevator storage space at terminal subterminal and country points would seriously interfere with the orderly handling of the grain and could result in the loss of the 'ever-normal granary'."

The administrative officer pointed out that the advance rental plan would be in force only if a loan were offered on the 1941 crop. If marketing quotas are voted down, then no loan will be available on this year's crop.

Under the plan, the Commodity Credit Corporation has agreed, if loans are made available, to advance a storage allowance of 7c a bushel at the time the loan is made to any eligible producer who has provided additional approved farm-storage facilities for the storing of the 1941 wheat crop by the construction during 1941 of new storage space or by substantial repairs during 1941 on existing structures which are not now suitable for storage of wheat. The advance would be made only on the number of bushels which would be stored in the additional storage facilities.

New Universal Protective Plan Announced By Company

New allotments for auto production are about to be announced by the O. P. M.

While the O. P. M. may arrange for cutting automobile production by 20 percent, for those who arrange to buy those cars there will be greater advantages and values than ever before. An example of this is to be found in the new Universal Protective plan.

This great, new innovation in the Time Payment field was recently introduced by Universal Credit Company, according to an announcement today by Ernest Kanzler, president of the company.

Mr. Kanzler stated that in conformity with an established policy of constantly improving and broadening its service, Universal is now making available exclusively to the Ford market—the Universal Protective plan.

Under this new plan, in addition to its nationwide low-cost service, with broad car insurance coverage, Universal adds the outstanding features of Personal Accident Insurance, Towing and Emergency Road Service on new passenger cars. Bail Bond Certificate.

Emergency Credit Certificate. This new service is receiving outstanding dealer and salesman acceptance in the Ford field. Reports from all sections of the country, according to Mr. Kanzler, definitely show that the automobile buyer who purchases under this additional protection given him when buying a new or used passenger car for private use on the Universal Protective plan.

West Camp News

The West Camp Polyantha club met with Mrs. J. C. Cummins May 14.

The meeting was called to order by the president.

Miss Gentry made an announcement of a recreation school to be held at the Muleshoe high school May 23 at 2:30 p. m. A program on garden insect control also was announced. The meeting will be the fourth Monday of this month at Muleshoe.

Miss Gentry also wanted us to plan to send a delegate to a short course in July.

Mrs. Snider made a motion that our club make a donation toward the purchase of an oxygen tent.

Members present were: Mrs. W. L. Eoy, Susie Smith, Grace Snider, Beulah Williams, Bonnie Williams, Mrs. Shogor, Mrs. J. C. Cummins, Lillie Sanders, Mrs. Harlan, Beatrice Morgan, Mrs. Couch, Mrs. Petree, Minnie Copeland, Ethel Copeland, Mrs. White and Mrs. Smith from Oklahoma.

—Reporter.

"PLANTED" BEAVER ARE DOING WELL

AUSTIN, Texas, May 19.—Beaver planted in east Texas after being trapped in west Texas are doing well, so well, in fact, that it is possible that should the Texas Game, Fish and Oyster Commission be able to continue trapping and transplanting those busy little dam builders it may be possible to have an open season on them within five years according to a report from a game manager to the executive secretary of the Department here.

Beaver are fairly abundant in parts of West Texas, but there is not sufficient suitable habitat for them there. The Game Department and the wildlife research unit at College Station, a Game Department co-operative agency, trapped a few beaver two years ago. Last season the Game Department trapped more and plan additional activities next winter. Beaver were planted in East Texas.

Beaver build dams and thus aid other wildlife. The dams hold

ILLEGAL SEINERS ARE HARD HIT

Fishermen using illegal nets, seines and fish traps have been hard hit by the Texas Game Department wardens of late, reports reaching the executive secretary here indicate.

One group of wardens in East Texas traveled almost the entire length of a river and took out more than 100 illegal seines and traps. Another group found a trap constructed of poultry wire placed in a large bayou. It was so large that no fish were able to travel past it. Illegal catching of fish in seines, traps and nets destroy tens of thousands of which would make excellent sport for the man with a rod and reel or pole and line.

PIERETTES MEET IN HOME OF MRS. LELA BARRON

The Pierettes met in their first regular meeting May 19, at the home of Mrs. Lela Barron, with Dorothy Barron as hostess.

Officers for the year were elected as follows:

President, Katherine McNeese; vice president, Lucille Musson; recording secretary, Hazel Gilbreath; corresponding secretary, Doris Hamilton; treasurer, Mary Garth; reporter, Dorothy Barron; parliamentarian, Dorothy Barron.

The next meeting will be June 2 with Mary Garth as hostess.

Farmers Asked To Help In Defense Plans For Ever-Normal Food Supply

farm and ranch families can profit materially and also contribute to national defense by cooperating in several movements announced recently by the Department of Agriculture, says Director H. H. Williamson of the Texas A. & M. College extension service, who advises farmers to keep posted on fast-moving plans for converting ever-normal granary supplies into ever-normal food supplies.

Among the defense programs announced recently by the secretary of agriculture are: A plan for making purchases in the open market to support long-term prices of home dairy products, chickens, and eggs; a program to expand the production of tomatoes for canning; and a nation-wide drive to increase egg production this spring and summer from present laying flocks.

A 50 percent increase in production of tomatoes for canning is also sought this spring to meet demands for canned tomatoes under the lease-and-act for distribution for the American Red

back the rush of water, provide watering places for wild and domestic birds and animals and oftentimes provide places for other fur-bearers to live, as well as aiding fish life. Only one complaint has been received by the Game Department as the result of planting beaver in East Texas while many landowners who have had a few acres of land flooded have welcomed the busy little animals. The Game Department is ready to trap beaver that are unwanted by landowners, but anticipates few requests of this nature. The animals are too valuable.

Teacher (lecturing on perseverance): "He drove straight to his goal. He looked neither to the right nor to the left, but pressed forward, moved by a definite purpose. Neither friend nor foe could delay him, nor turn him from his course. All who crossed his path did so at their own peril. What would you call such a man?"

Graduate (quickly): "A truck driver."

(Scratching): "How do you get rid of these awful cooties?"

"That's easy. Take a bath in sand and rub down in alcohol. The cooties get drunk and kill each other throwing rocks."

Trade at Home.

Local Residents Attend Funeral In Clovis Sunday

Among those from Muleshoe who attended funeral services for Mrs. Elizabeth Lester Coffin, 57, at Clovis, N. M., Sunday afternoon were Mills Bartfield, Miss Cozy Burke, Wayne Wallace, Mr. and Mrs. Jim Burkhead, and son, Jimmy Dwin, Miss Elizabeth Harden, and Mr. and Mrs. G. A. Nelson, and daughter, Virginia Payne.

The deceased was a sister to R. B. Boyle of Las Cruces, N. M., former resident of Muleshoe and at one time editor of the Muleshoe Journal. Mrs. Coffin died in a Clovis hospital Saturday morning, and funeral services were conducted at Johnson Mortuary chapel.

The Rev. Clyde B. Barton, assisted by John R. Carver, officiated at the rites. Pallbearers were W. H. Vaughtner, Roy R. Smith, John D. Brown, Joe L. Craft, and W. E. Kraft. Burial was in the Clovis cemetery.

Mrs. Coffin was the wife of Fred C. Coffin, and a daughter of the late Mr. and Mrs. James W. Boyle. Born in Throckmorton, Texas, she had lived in Clovis for 26 years.

She was a charter member of the D. A. B. and the American Legion auxiliary.

Survivors are her husband, five brothers, Dr. James Boyle of Shiner, Emmitt Boyle of Kansas City, Emory Boyle of Little Rock, Ark., H. C. Boyle of Keoma, N. M., and R. B. Boyle of Las Cruces, N. M., and a sister, Mrs. Fannie Pierce of Clovis.

Information On Chain Letters Is Received Here

The chain letter idea is still flourishing, according to postal officials, and is going to get some ordinarily good folks in trouble if they are not careful. The lure of getting something for nothing is still causing people to forget their better judgment and flirt with the postal laws. The following information addressed to Postmaster: Gardner was received last week:

Office of the Solicitor, Washington, May 1, 1941

The mails in all parts of the country are being flooded at the present time with letters and postal cards relating to so-called endless chain "Hankie Club."

Cross. Additional supplies will be used for school lunch programs, relief distribution, and other assistance purposes, the director explained. To make it possible for farmers to take immediate steps to insure an increase in tomato acreage, the Federal Surplus Commodity corporation will ask canners to submit offers at once to deliver canned tomatoes after the new pack has been completed.

In considering bids, the PSC will make allowance for increases of from \$2.75 to \$3.00 per ton over 1940 contract prices to growers.

The new drive for increase in poultry products is expected to increase the nation's egg production by about six percent in the next 15 months. Director Williamson says. This means eggs produced will be increased by about ten million cases of 30 dozen eggs each.

Extension Service poultryman George P. McCarthy and H. H. Weatherly say the goal can be achieved by simple feeding beginning immediately, by filling up the nation's poultry houses to capacity with laying birds this fall, and by an increase of around 15 percent in the number of chicks raised.

That expansion of permanent new poultry housing at this time is probably not justified.

"Apron Club," "Flower Club," "Towel Club," "Hobby Club," etc., schemes.

Patrons of the various post offices depositing in the mails cards and letters relating to schemes of this nature should be warned that the sending of such matter through the mails is a violation of the postal fraud and lottery statutes. Notices are served upon persons participating in such schemes whose names come to the attention of the Post Office Department requiring them to show cause why fraud orders should not be issued against them. Such orders forbid the delivery of any mail to the persons named therein.

W. E. KELLY, Acting Solicitor

He was driving her home from the dance. It was midnight, pitch dark and the road was lonely. Suddenly the car conked out, and the young man, having looked it over to see what was the matter, turned to the girl and said: "How unfortunate. The gas tank seems to be full of water and we can't move a foot." The girl gave a sigh, and said: "Come inside—this has happened to me before. All we have to do is sit and argue for a time and the water turns right back into gas."

Street Car Conductor: This transfer has expired, madam. Madam: Well, no wonder, with the air so bad in here.

MULESHOE MARKETS

Prices for grains and produce by Muleshoe buyers are as of Wednesday of this week, and all are subject to change without notice.

Sudan	\$1.80
Kaffir	75c
Maze	75c
