## Precinct 4 voters go to polls

Voters in Precinct Four will go to the polls Saturday, July 9th to vote on the local option election concerning the legalization of the sale of alcoholic beverages for off-premise consumption in the precinct.

The precinct boundary begins on the Scurry County line, nine miles from the Nolan County line, goes in a west-northwest line 16 miles, south 7½ miles, then west of the Nolan County line and covers the entire Loraine area.

At least 20 absentee votes have been turned in at the Mitchell County Courthouse, according to personnel in the County Clerk's office.

The election will be held from 7 a.m. until 7 p.m. in the Lions Club building in Loraine. Mrs. Royce Beights will be the election judge and Opal Blair will serve as alternate.

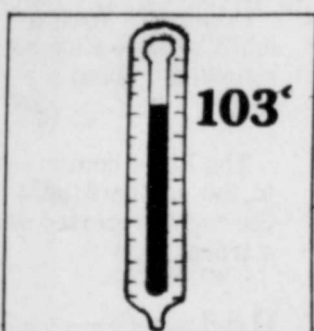

A petition calling for the election was turned

into the County Clerk's office May 24 with the required 10 valid signatures. On June 7, a petition was turned into the clerk's office with 191 valid signatures,

well above the required number of 144 signatures or 35 percent of the registered voters in the precinct.

The Mitchell County Commissioners' Court met June 13 and set the election date for July 9.

## Cool front brings much needed rain

A cool front pushed its way through Mitchell County Monday night bringing much needed showers and cool air.

Mitchell County experienced the hottest day of the year Monday, July 4th as the mercury hit the 103 degree mark in downtown Colorado

City. Temperatures in Westbrook and Loraine also soared over 100 degrees Monday.

Rainfall varied throughout the county Monday night and Tuesday morning. The community of Carr, north of See RAIN, Page 2

## Large crowd enjoys 21st Annual Fly-in

Several hundred people gathered at the 21st annual Fourth of July Fly-In Monday at the Northwest Jetstrip Airport, located northwest of Colorado City.

Fifty-nine privately owned airplanes were on hand for the festivities, which started off at 7 a.m. with a hot breakfast of scrambled eggs, bacon, toast and coffee.

Coordinator J. O. Dockrey said that approximately 800 people took advantage of the early morning breakfast, served until 10 a.m. which was provided for pilots and their passengers and sold to the general public for \$3 a plate.

"The fly-in was definitely a success. We had a record that was hard to beat with the aircraft attendance and good weather," stated Dock-

rey. Planes as far away as Dallas, Wichita Falls, Austin and Eastern New Mexico zoomed in to the fly-in.

Shortly after 7 a.m., a Lockheed C130 Hercules from Dyess Air Force Base in Abilene landed on the main airstrip. Crew personnel held guided tours through the plane until 3 p.m.

## Fireworks brighten Colorado City skies

What goes "pop," lights up your life, and puts smiles on the faces of kids? Fireworks, of course. And that is just what was happening Sunday night in Colorado City.

According to fire department officials, approximately 5,000 people came to Wolf Stadium July 3 to enjoy the fireworks show sponsored by the Chamber of Commerce and the Colorado City Volunteer Fire Department.

The unexpected large turnout filled the home side of the stadium, lined the fences and filled the parking lots.

## Alignment to be considered

The Texas Parks and Wildlife Commission will consider establishing a three-zone mourning dove hunting alignment for the state when it convenes in Austin on July 28.

If adopted, the three-zone system would replace the two-zone setup which has been in effect since 1946.

Ron George, dove pro-

gram leader for the Parks and Wildlife Department, said the three-zone proposal is designed to provide better hunting opportunities when doves are available and reduce the number of immature doves in the hunter's bag.

Details of the proposal have been published in the Texas Register, and

interested persons may direct comments to Ron George, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744, prior to July 28.

Under the proposed system, the state would be divided into a Panhandle Zone, consisting roughly of the Panhandle-South Plains, the Northern Trans-Pecos and portions of North and Northwest Texas; a Central Zone covering most of East and Central Texas; and a Rio Grande Zone encompassing all the Rio Grande Valley, South Texas and the Southern Trans-Pecos.

If approved, the Panhandle Zone mourning dove season would open Sept. 1. The Central

Zone would open on the first Saturday in September (Sept. 3 this year), and the Rio Grande Zone would open the first Saturday after Sept. 16 (Sept. 17 this year).

The new system would establish a season of 45 consecutive days with a 15-bird daily bag limit for the Panhandle Zone; a 70-day split season for the Central Zone consisting of a 60-day fall season and a 10-day winter season beginning the first Saturday after Jan. 1 (Jan. 7 in 1984) and a 12-bird daily limit; a 70-day split season would be established in the Rio Grande Zone with an aggregate 12-bird daily bag to include no more than two white-winged doves. In an area designated as the Special Four-Day White winged Dove Area, the four-day whitewing season would be Sept. 3-4 and 10-11, 1983, during which the daily bag limit would be 10 white-winged doves and 12 mourning doves. Shooting hours in this area during the whitewing season would be noon to sunset; shooting hours for the rest of the seasons and zones would be 30 minutes before sunrise to sunset.

As in the past, all persons who hunt white-winged doves would be required to have a White-winged Dove Stamp in their possession in addition to a valid hunting license. George pointed out that persons exempted from having to purchase a hunting license because of their age or any other reason still must possess a white-winged dove stamp to hunt white-winged doves.

The retention of one fully-feathered wing would be required in the Rio Grande Zone and the Special White-winged Dove Area at all times. This requirement simplifies identification of dressed birds in areas where both mourning doves and whitewings occur. This would not be required in either the Central or Panhandle Zones, George said.

**SPECTACULAR DISPLAY**--Several thousand people enjoyed the fireworks display sponsored by the Colorado City Chamber of Commerce and the Colorado City Volunteer Fire Department.

**GOOD FOOD**--Two hundred sixty-nine people were served at the barbeque after the parade Saturday. The barbeque was sponsored by the 4-H Rifle Club.

acrobats" took over to entertain the crowd. Bill Wicks and Sam Holloman, both of Big Spring, took turns performing loops, upside down flying rollovers, nose dives and many more flying feats.

But skydivers canceled their jumps after one attempt because of gusty winds.

One of the most unusual and unique planes at the event was a "backwards plane" or homebuilt Vari-EZE owned by Seth E. Hancock of Austin.

The plane had the propeller in the rear and wings that turned up on the ends. Hancock said that the 660 pound plane is one of the aircraft to fly, for people who know how to operate it.

Highlighting the fly-in was the area plane rides which was offered by local pilots Dockrey, Woody Crabtree and Mac Morris. Passengers were flown over Colorado City and Colorado City Lakes during the 10-15 minutes rides.

Several pilots and plane owners received awards at the fly-in which is sponsored annually by the Mitchell County Fly-In Association.

Kristi Cobb, 16, of Plains was recognized as the youngest pilot, while the oldest pilot went to Kristi's grandfather Paul Cobb 68, also of Plains. The person traveling the longest distance to the event was Ralph Pearson of Dallas.

Receiving awards for the oldest airplane was Fritz Mair with his 1939 Fairchild, and Bill and Luann Greenhaw of Abilene was recognized for the most unusual plane, a Gullwing Stinson.

### Public Notice

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR SOUTHWESTERN BELL MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

Jellies, jams, and more are easy to make at home and add to family meals. They provide a way to use fruit best for canning. The smallest fruit, such as cherries, and those with irregular shapes, such as these plums, are much alike. Apples that are preserved with sugar and are jelled to prevent them from becoming too soft.

Jelly is made from fruit juice and is firm enough to hold its shape when sliced. Jams are made from crushed or ground fruit and tend to be less firm than jelly. They serve as well as large pieces of thick syrup, often jelly-like. They are made of the rind of fruits, citrus fruits, and other fruit pulp. Jelly is made from sugar until it has a uniform consistency. It is enough to spread when cooled. It contains less sugar than other jellies. It is a choice for fruit while still a bit of sweet meals.

Not all fruit properties are making a jelled product. The commercial need not depend on jelling quality. Fruit for success. Jellies make taste your family, friends will love.

# Marian's Memos

By Marian Morris

Jellies, jams, preserves, and marmalades are easy to make at home and add variety to family meals. Most of them provide a good way to use fruit not at its best for canning or freezing, the largest or smallest fruits and berries, and those that are irregular shaped. Basically these products are much alike. All are fruit that are preserved with sugar and usually all are jelled to some extent.

Jelly is made from fruit juice and is clear and firm enough to hold its shape when turned out of the container. Jams are made from crushed or ground fruit and tends to hold its shape but generally is less firm than jelly. Preserves are whole fruits or large pieces of fruit in thick syrup, often slightly jellied. Marmalades are jelly-like preserves made of the pulp and rind of fruits, especially citrus fruits. Fruit butters are made from the fruit pulp cooked with sugar until the mixture has a uniform, thick consistency that is soft enough to spread easily when cooled. Butters contain less sugar than other jellied fruit products and are a good choice for cutting calories while still enjoying a bit of sweetness to meals.

Not all fruits have the properties needed for making satisfactory jelled products, but with the commercial pectins now on the market, you need not depend on the jelling quality of the fruit for successful results. Jellies not only make taste treats for your family, but your friends will love them as gifts.

### STRAWBERRY PRESERVES

2 quarts ripe strawberries, washed and stemmed

1 lemon  
1 package (1-3/4 ounce) powdered pectin  
1/4 cup water  
6-1/2 cups sugar

Prepare home canning jars and lids according to manufacturer's instructions. Place whole, stemmed strawberries in a large saucepot. Cut up lemon, remove seeds and finely chop or grind in a food processor or blender. Add the ground lemon, pectin and water to the strawberries and stir gently. Bring to a full, rolling boil over high heat, stirring gently. Add the sugar and return to a full, rolling boil. Boil hard 1 minute, stirring frequently. Remove from heat and stir gently for 3 minutes to distribute fruit. Carefully ladle into hot jars, leaving 1/4 inch head space. Adjust caps. Process 15 minutes in a boiling water bath canner. Yield: about five 12 ounce jars.

If you would like more information about making jellies, jams, preserves, and marmalades, call or write me for copies of MP-279, "How to Make Jellies, Jams, Preserves, Marmalades and Butters."

**Larry Dearen**

So far Larry Dearen has been a very successful person. He was a tri-sport letterman in high school, he received his Bachelor's Degree from Texas Tech University, and his six years of coaching has helped coach many championship teams.

And now for the last two years he has been selected to take a graduate tour program to different countries.

Dearen, a Colorado City native and the son of Mrs. Virginia Dearen has just recently come back from a 16 day tour of Sweden and Russia. It was the second such trip of this kind for Dearen.

Last summer 10 American coaches, teachers and researchers were chosen to take this Graduate Study Tour Program hosted by Concordia Loyola University in Montreal.

Members of this elite group were interviewed very closely before they were chosen. The purpose of the tour is to let the group go to other countries' training facilities to learn, compare and exchange different training ideas with parties from other countries.

In the summer of '82 Dearen went to Canada, England and France. This summer he was among 50 Americans to be selected to tour Sweden and Russia.

Dearen graduated from Colorado High School in 1972. At CHS he lettered in football, basketball and track. After graduation, he attended Texas Tech where he majored in physical education and obtained his degree in 1976, and is currently working on his Master's Degree.

During his short coaching career in which he coached two-and-a-half years at Motley County and four years at Kress, he has been very successful. In football, he has coached on four championship football

teams. In track, he has won five district championships, two regional championships and one second place finish in State. He has also compiled an 80-30 record in basketball. In addition to that, Dearen has been selected as a Texas All-Star Track Coach and has received numerous national achievement awards.

So it is little doubt that Concordia Loyola University was impressed by the Colorado City native's credentials.

During this summer's tour, Larry said that most of the 16 days were spent in Russia. "We only spent a couple of days in Sweden, and that was to learn about the cultural and government systems there," he explained. Larry said that the Swedes are similar to Americans in that their standards of living are very high.

The majority of the tour was spent in Moscow in the Central Institute of Sports where all the top athletes and coaches in the Soviet Union go to work and train. "It is considered the elite school for sports people," added Larry.

At the institute, each person studied specialized areas. Dearen's studies were track and field, weight lifting, basketball, sports medicine and other cultural exchanges.

The learning sessions consisted of seminars, class room lectures, watching the Russians training routines and even working out themselves. Larry said a typical day began at 4 a.m. in the morning when the sun rose. They would get up and run three-four miles and whatever other workout they preferred. Breakfast was at 9 a.m. and then classes.

An average of about four hours per day was spent in the classrooms and working with the top National Educators, coaches and sometimes government officials in the country. In the evenings, group discussions and ideas were exchanged amongst the students from all countries.

Dearen said the thing that impressed him most about the Soviet Union is their organization. "They are very well organized, more than the United States. They are organized in every area, sports, study and work." He also

added that Russia is the closest country to the US in sports.

"They put more emphasis and money on sports toward training the athletes. Sports is part of their national defense. It is a way to get them physically fit." He added that they have a program named G.T.O., and it means "Ready for Defense and Labor."

Top Russian athletes get "fringe benefits" according to Dearen. Their living is improving their training to become an "elite athlete." Once a person becomes an elite or world class athlete, then he is allowed to go tour other countries and compete. In other words, the top athletes get more freedom. During his stint in Russia, Larry says he became good friends with some of the Soviet translators and coaches.

Even though all parties were cautioned on what they said, Dearen learned from his new acquaintances that only four percent of the Soviet Union are Communists, and the rest are considered "common people." "Most of the common people are interested in the way of life of Americans, and they are interested in exchanging ideas and friendships. But others fear the United States. A

good example: they consider President Reagan and Israel to be their main enemies. They feel Reagan is the biggest threat to them since Kennedy," explained Dearen.

But all of Larry's time was not spent on the field or in the classrooms. On weekends they got a chance to do a lot of sightseeing.

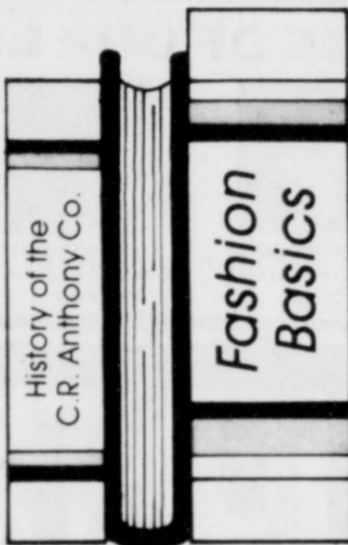

During his stay, he got a chance to visit "Zar-goski," which is a sum-

mer palace that was for the Czars of Russia, and is the second oldest m-nastery in the world. He also visited the Canadian and US Embassy and Lenin's Tomb, where Lenin's body was preserved and can be viewed. "The Soviets consider Lenin their top leader and spiritual being," he said.

Recapping his tour, Dearen says he has seen a lot of things and made numerous friends. Some

are the weight coach of the New England Patriots, the top wrestling coach in United States junior colleges and the team doctor of the Chicago Blitz, Chicago Bulls and the Chicago White Sox just to name a few.

But most of all he has learned a lot that will help him as a coach and as a person, and no doubt this will help him with his already successful career.

# Stenholm discusses P.I.K. program

By CONGRESSMAN CHARLES STENHOLM  
It's been called the salvation of American agriculture, and a boon-doggle complicated enough to stump Rube Goldberg. It's been hailed as a money-saver, and assailed as the most expensive farm program in history. It's the Payment-in-Kind (PIK) program, and it has been the focus of agricultural policy since it was first proposed last fall.

At that time, it had become clear that something had to be done about the massive crop surpluses that were keeping farmers' prices low. Not only did these surpluses perpetuate the farm recession, they also made government price support costs skyrocket: from \$4 billion in 1981 to \$12 billion in 1982 to a projected \$21 billion in 1983.

The Department of Agriculture designed and implemented PIK in a remarkably brief period. The program was not an initiative of the Congress, though many farm-state legislators welcomed PIK as "the only game in town." County ASCS workers burned the midnight oil to get the program details out and the paperwork done, and when the smoke cleared it turned out that far more farmers had decided to participate than anyone had thought likely. Producers who signed up for PIK agreed to take a large portion of

their acreage out of production so surpluses would be drawn down; in return, they would receive surplus commodities from government- and producer-held stockpiles.  
Response was heavy. The latest USDA projections estimate that U.S. cotton production could be reduced by almost a third from last year, U.S. wheat production by a fifth, and corn

prices by two-fifths. These reductions are not expected to increase consumer food prices substantially, but they offer real hope of getting farm production back into balance and so are good news for most farmers.  
But the heavy participation has caused another problem: Because the farmers who are entitled to PIK aren't necessarily the same

ones who have the surplus grain, the government has had a hard time finding enough PIK commodities to go around. It has even required some farmers to "plant for PIK," that is, harvest their current crop, take a government-guaranteed price for it, and then sell it again on the open market.  
PIK has caused some problems. After all, a

program that helps raise grain farmers' prices will also have an adverse affect on livestock raisers and dairymen in the short run. Small agricultural businesses have also suffered from heavy PIK participation. Yet the program will likely achieve at least a "breathing space" for agriculture. And while farmers catch their breath, they should begin thinking

about what comes next. Clearly, PIK is a short-term measure. Massive overproduction and equally massive taxpayer costs mean that something has to change in agricultural policy. Now is the time to begin deciding the directions for the future—to go beyond PIK and achieve a coherent and workable food and fiber policy for the rest of the 20th century and beyond.

## Plans for festival underway

Plans for the annual St. Ann's Fall Festival have begun with tentative dates set for Saturday, September 17 and Sunday, September 18.

The highlight of the festival will be the crowning of the festival queen. Any young lady who is interested in the queen contest is invited to enter.

In addition to the queen's contest, an auction will be held on Sunday September 18. Food booths, Mexican dinners, and games will be held for the public's enjoyment.

## News from Root Valley Fair Lodge

By PAM JARNAGIN

The local Wilson Wyatt VFW Post 9178 and the Sweetwater Honor Guard presented and raised the American flag over the Root Valley Fair Lodge on Monday, July 4.

The Root Valley Fair Lodge sincerely appreciated the donation of the flag and would like to thank the VFW post for doing so.

"The ceremony was very impressive and we are extremely proud of our flag," the residents remarked.

Following the celebration, we had a watermelon party which everyone thoroughly enjoyed.

Mrs. Cowan brought our July birthday cake which was made by Mrs. Herman Hoover. The cake was shaped like an American flag and was indeed a work of art.

The 4th of July overshadowed the events of the past week, and we thank God that our country is still the land of the free and the home of the brave.

# PUC announces hearing for Southwestern Bell

The Public Utility Commission of Texas has announced local hearing dates and times for receiving public comments on Southwestern Bell Telephone Company's \$1.7 billion rate request. The utility filed the request on June 24.

Comments at each of the seven local hearings will be heard by a commissioner and three PUC staff members. Staff members attending the hearings include a hearings examiner, a PUC attorney or engineer and a representative from the Consumer Affairs and Information Services section.

Local hearings are scheduled from July 6 through July 16 in Houston, Corpus Christi, Brownsville, Austin, Dallas, Lubbock and El Paso. Local city and county governments in each city and the Houston Independent School District provided assistance in scheduling and providing facilities for the hearings.

"I hope customers will take this opportunity to come out to the hearings and let us know what their opinions and concerns are about this request," says Chairman Erwin.

"Local hearings have proven to be effective in the past for getting the public's opinion and for having an effect on the case. We've set up these hearings to be accessible to as many people across the state as possible with the limited staff and time we have."

To facilitate statewide access to the commission, the PUC staff members assigned to the case will be divided among the seven hearing sites. Locations were chosen to provide access to as many ratepayers as possible.

No prior registration is needed for consumers to make statements at a local hearing. Consumers unable to attend a local hearing may submit written comments addressed to the PUC's Consumer Affairs Office at 7800 Shoal Creek Blvd., Suite 400 North; Austin, Texas 78757.

The process for reviewing the request gets underway at a prehearing conference scheduled for 10 a.m., July 8 at the commission's Austin offices. Motions for intervention in the case will be considered and a date for the hearing on the merits will be set. Commissioners must render a final decision by December 26.

Times for local hearings are from 2 p.m. until 8 p.m., except El Paso, with a break from 4:30 p.m. until 5:30 p.m.

July 7, Corpus Christi: County Courthouse, 901 Leopard; July 8, Brownsville: County Courthouse, 964 East Harrison; July 8, Austin: PUC offices-Commissioners Hearing Room, 7800 Shoal Creek Blvd.; July 11, Dallas: City Council Chambers, 1500 Marilla; July 15, Lubbock, City Council Chambers, 916 Texas and July 16, El Paso: 1 p.m. to 5 p.m., City Council

Chambers, No. 2 Civic Center Plaza.

## 3-way tie in Freshmen League

Friday night action in Freshmen League baseball saw the Rangers throw the league race into jumble with a commanding 13-4 win over

previous league leader Dodgers.

The win throws the Freshmen League race into a three way tie between the Rangers, Yankees and Dodgers.

Victor Luera led the Rangers as he earned the win, scattering four hits through six innings of play. The Rangers hitting attack was paced by Mark Molina, Mark Russell and Mark Alvarez.

Ray Rivera took the loss for the Dodgers. Hadley Weaver hit his first homer of the year in the losing cause.

In the other Friday night contest, the Pirates edged the Indians by a count of 17-14.

The Pirates took a 10-8 lead after one inning of play and never trailed in the contest. By the end of the fourth stanza the score stood 17-14, and that's the way the game ended.

Sammy Garcia took the win for the Pirates, striking out six Indians along the way. John Cantu hit an inside-the-park home run for the Pirates, and Cruz Molina hit his third round tripper of the season.

The Indian bats were paced by Stan Bradbury, Spencer Taylor and Allan Howell. Bradbury took the loss for the Indians, while Taylor came on in relief.

In Saturday's Minor league play, the Lions defeated the Blue Sox 12-10 and the Colts downed the Mets.

This marked the final games of the year for the Minor League teams, for youth seven through nine years of age. Members of the Gold and White All-Star teams were announced

at Saturday's games. The contest will be held Saturday at 8 p.m. following the Mother's Game at 6 p.m.

Members making up the Gold All Stars are: James Franco (Cubs), Doug Conner (Steers), Justin Sullivan (Steers), David Pineda (Lions), Mark Conteras (Lions), Robert Alvarez (Lions) and Jesse Gonzales (Cubs).

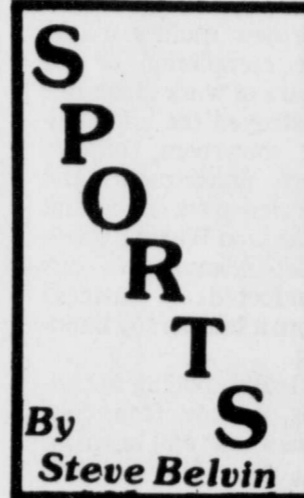

Other members of the Gold All Stars are: Chris Molina (Steers), Avan Ceballos (Steers), Gabriel Salazar (Steers), Jason Lawson (Cubs), Jason Blassingame (Cubs), Matthew Smith (Cubs), Michael Dossey (Lions) and Chris Lynch (Lions).

Coaches for the Gold All Stars are Wayne Boyd, Glen Sullivan and

John Salazar. Players selected to the White All Star squad are: Frank Briseno (Mets), Jubal Stephens (Blue Sox), Artie Rivera (Blue Sox), Justin Zamariippa (Colts), Brian Dyer (Blue Sox), Stacy Martin (Blue Sox), Mark Monroe (Mets) and Curtis Shaw (Colts).

Also selected to the White All Star squad are: Cade Proctor (Mets), Jacob Mikow (Blue Sox), Jerry Lemons (Mets), Kevin Green (Mets), Jeremiah Wood (Blue Sox), Kyle Shaw (Colts), Brant Jones (Colts) and Dylan Moore (Mets).

Coaches for the White All Stars are Tony Sparks, Bobby Lemons, Don Wood and John Dyer.

## Bicycle rodeo to be held Saturday

A bicycle rodeo sponsored by the Wilson Wyatt VFW Post 9178, its Ladies' Auxiliary, and the Opti-Ms Club in cooperation with the Colorado City Police Department will be held on Saturday, July 16 at the Colorado High School parking lot from 9 to 10 a.m.

An obstacle course set up to test bicycle riders

skills on balance, pedaling, braking, signaling, mounting and fine control will be conducted.

Lite-A-Bike tape will be provided to the bikers for added safety.

Refreshments will be served following the testing. All area youth are encouraged to participate in the rodeo.

**WHITE ALL STARS**—Minor Leaguers making up the squad are: (front row left to right) Frank Briseno, Jubal Stephens, Artie Rivera, Justin Zamariippa, Brian Dyer, Stacy Martin, Mark Monroe and Curtis Shaw. (Back row left to right) Cade Proctor, Jacob Mikow, Jerry Lemons, Kevin Green, Jeremiah Wood, Kyle Shaw and Brant Jones. (Back row, left to right) Coaches Tony Sparks, Bobby Lemons, Don Wood and John Dyer. Not pictured is player Dylan Moore.

## Freshmen League Action

Tuesday night action in Freshmen League baseball saw the Yan-

kees remain in the race for the league crown as they downed the Pirates, and the Rangers downed the Astros.

The 'Yanks remained in a tie for second place with the Rangers, one game behind the league leading Dodgers.

The Yankees scored nine runs in the first three innings as they took a 12-8 win over the Pirates.

Hal Morren was the winning pitcher and Beau Rees relieved him in the late innings. Bobby Arocha was the losing pitcher for the Pirates. Sammy Garcia and Cruz Molina also pitched for the Pirates.

The Yankees were led by Jerry Bob Hulme who went four for four at the plate with a triple, single and two doubles, driving in four runs. LaRon Miles made some sparkling plays in center field to aid the Yankees cause.

John Cantu and Molina combined for three extra base hits to lead the Pirates.

The Rangers kept up with the Yankees as they downed the Astros by a score of 6-1.

The Rangers jumped to a 3-0 lead after one inning of play, and never trailed after that.

Mark Russell took the win for the Rangers while Mark Molina came on in relief.

Rene Silva was the losing pitcher for the Astros.

In Thursday's Freshmen League play the Yankees trounced the Astros by a score of 38-3 behind the four hit pitching of Joe Silva.

The win allowed the 'Yanks to remain in a second place tie with the Rangers. Both teams sport 9-3 records. The Dodgers lead the league with an 11-2 slate.

The Yankees hitting attack was keyed by Hal Morren who went five for six at the plate, including four doubles and driving in six runs. Beau Rees also hit his seventh home run of the season, and Danny Luera "socked" his second round tripper of the year.

Also having good games for the winners was third baseman Jerry Bob Hulme who played fine defense, and Jim Timms and Steve Timms.

### PUBLIC NOTICE

At the request of the Office of the General Counsel of the Public Utility Commission, the Commission has established Docket No. 5113 to inquire into pressing issues involving the entire telephone industry in Texas. Docket No. 5113 will deal with many issues resulting from the impending divestiture of American Telephone and Telegraph Company and Southwestern Bell Telephone Company. Some of those issues include establishing the service areas of Southwestern Bell after divestiture and assessing the impact on other telephone companies in Texas, including General Telephone Of The Southwest, of current settlement arrangements between Southwestern Bell and those companies. Additionally, Docket No. 5113 will deal with the issues arising from the Federal Communications Commission's Final Order in Docket 78-72 (the Access Charge Docket) as they impact all telephone companies, including General Telephone Company Of The Southwest. It is anticipated that Docket No. 5113 will be evidentiary in nature. RATES FOR GENERAL TELEPHONE COMPANY OF THE SOUTHWEST MAY BE DETERMINED BY THE COMMISSION IN OR AS A RESULT OF THIS PROCEEDING. Interested parties seeking further information or desiring to participate in Docket No. 5113 are advised to write to Rhonda Colbert Ryan, Secretary and Director of Hearings, Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757 or telephone the Public Utility Commission Consumer Affairs Division at (512)458-0223 or 458-0227, or (512) 458-0221 TTY for the deaf.

### Grand Opening slated Friday

Joe Weaver Chevrolet-Oldsmobile will celebrate its grand opening this Friday morning

The grand opening of the new facility marks the completion of 1½ years of work since fire destroyed the companies showroom, offices, part department and service area. Since that time, Joe Weaver Chevrolet-Oldsmobile has conducted business from a temporary building.

Grand opening festivities include free door prizes that will be given away Friday every hour on the hour.

Refreshments include free apple pie, hot dogs and Cokes. Everyone is invited to attend the celebration.

Joe Weaver, a lifelong resident of Mitchell County, is proud of the new facility and pleased to be a part of the growing Colorado City business community.

The new building con-

tains 10,000 square feet of floor space. The beautiful new showroom contains 1,500 square feet and a fireplace; the service area 4,900 square feet; the parts department 1,600 square feet with the remaining being office space.

Construction of the building was done by JBS Enterprises of Colorado City. Burton Standefur was the construction foreman.

"Our service department will be able to service all makes and models of automobiles," stated Joe Weaver. "We also will be able to service trucks, both large and small."

The parts department will contain a full line of parts and accessories. "We'll carry everything from a spark plug to a complete motor," Weaver said.

Joe Weaver Chevrolet-Oldsmobile will stock approximately 25 new cars and trucks at all times.

### Gailey serves as service manager

Danny Gailey is the new service manager at Joe Weaver Chevrolet-Oldsmobile.

Gailey has been in the auto repair business for 12 years.

He is a lifelong resident of Colorado City and has worked pre-

viously at Jay Adams Chevrolet-Olds.

The service department will employ 4 full-time mechanics and offer complete automobile and truck repair. Also all Chevrolet and Oldsmobile warranty work will be honored.

### Buckalew is parts manager

Jerry Buckalew, a 15 year veteran in the automobile parts business has been named parts manager at Joe Weaver Chevrolet-Oldsmobile.

Buckalew is a lifelong resident of Colorado City.

Previously he has worked at Hutchins Ford

for 11 years and the Parts House the past year.

Jerry invites all his friends and customers to come out during this big grand opening sale.

Jerry and his wife Susan, have one child, Audra, 6 years old.

## Oilfield recovery at the maximum rate

Texas Mid-Continent Oil & Gas Association reports that an 11th consecutive year of production at the maximum effective recovery rate in nearly all of Texas' oil fields kept 1982 petroleum production in the state above the 900-million barrel figure.

Avery Rush, Jr., chairman of the Dallas-based Association, says that figures compiled by its staff show the total petroleum output of 901,910,343 barrels included 871,780,379 barrels of crude oil and 30,129,964 barrels of condensate from wells in 214 of Texas' 254 counties.

Crude oil and condensate production last year was 26.8-million barrels below the 1981 figure, a drop of 2.9 percent. This compares with a 3.3-percent drop in 1981 production from the year previous, Rush said.

Rush, of Amarillo, noted that this percentage drop of less than three-percent was the smallest in the last half-dozen years. He said he was encouraged by the continuing trend of a slowing in the rate of decline.

"The fact that 1982 production stayed above the 900-million barrel mark is attributable directly to the spectacular drilling boom in Texas during the last five years. We have drilled almost 99,000 wells since 1977, with nearly 50,000 of them drilled in 1981 and 1982," Rush said.

"An economic and regulatory climate that

will encourage a continuation of this high level of drilling activity is vital to the best interests of our state and nation. As the free world's economy continues to improve, the demand for petroleum energy will increase. This need for more oil and gas is one that must be filled in significant measure by production from Texas wells," Rush added.

Also in a positive vein, 1982 production pushed the state's cumulative production total since 1866 to more than 47.5-billion barrels. However, for the 10th consecutive year, crude oil and condensate production in the nation's No. 1 energy-producing state was down after peaking at nearly 1.3-billion barrels in 1972.

Mitchell County, which has had recorded production since 1920, last year produced 6,568,751 barrels of crude oil and condensate at the rate of 17,997 barrels per day. Production in 1982 boosted Mitchell County's production total through the end of the year to 128,542,116 barrels.
