

On The BEAM

By J. W. King, Jr.

It is strange how rumors get started. The directors of the Loraine Cooperative Association decided to sell at auction all of the equipment formerly used in the manufacture of cheese and advertised accordingly. Immediately a rumor is started that the association is being dissolved and the locker plant is to be closed.

Why such a rumor should be started we do not know. It is a rumor. The locker plant will not be closed. Just as long as the people of this community will patronize the locker plant enough to keep it operating, it will continue to operate.

The plant has a new manager now in the person of Mr. A. H. Massengill who is thoroughly versed in the care of meat. He and his family are rendering good service and we see no reason why locker plant patrons could not be increased. The locker plant income has been carrying the full expense of the organization, taxes and insurance on the cheese plant building and equipment and it has been a strain on it. With the cheese plant equipment sold and the building rented the directors hope to relieve the locker plant of the burden of carrying the expense it has been forced to carry since the cheese plant ceased operation a few years ago.

Every locker patron can help to keep the locker plant in our community by patronizing it.

Loraine Co-op. Not Quitting Business

Because the directors of the Loraine Cooperative Association decided to sell at auction all of the fixtures used in manufacturing cheese, some people came to the conclusion and started a rumor that the organization is being dissolved. That is entirely false. The directors have no intention of liquidating the business as long as it can possibly operate, according to the secretary of the organization.

The cheese plant equipment is to be sold at public auction on Friday, January 25, starting at 1:00 o'clock, because the organization no longer has any need for such equipment, and due to the fact that most of the equipment is obsolete. To carry the equipment in the building was a drain on the locker plant, the only part of the organization still functioning. Taxes and insurance had to be paid on the equipment even though it was not in operation, and too, the building it occupied has been rented to Gulf Pipeline Co. for storage and the room is needed.

Directors hope the sale of the cheese plant equipment will bring in enough money to ease the strain on the locker plant it has caused by keeping it.

There are many items farmers and ranchers of this area can use to good advantage that will be on sale Friday. Directors are looking for a big crowd.

Car Registrants To Get Official Map

Austin, January 20—Need an official Texas map? You will have an opportunity to get one when you register your car this year. The Texas Highway Department in cooperation with the County Tax Assessor-Collector is once again offering a free Official Highway Map to each registrant through a post card plan inaugurated last year.

This service on the part of the Highway Department and County Tax Assessor-Collector is intended to provide a means by which the Texas car owner can get something extra for his registration fee. These cooperating state and county agencies feel that every motorist who desires one of the colorful official maps is certainly entitled to it.

The Official Highway Travel Map not only shows the 40,000 miles of state highways but many of the Texas scenic highlights for the next vacation or week-end trip. Check-full of information, the map encourages everyone to "See Texas First."

Here is the way you may take advantage of this opportunity: Every Texas resident who registers his vehicle in the state will be offered a return addressed post card at the same time he purchases the 1952 license plates. If the car owner so desires, he may affix a two-cent stamp to the card along with his name and address and mail it to the Highway Department. In return, a free copy of the colorful Official Highway Travel Map will be dispatched to the addressee.

Nation Joined In Polio Fight

The 1952 March of Dimes campaign now being conducted here and in 16,000 communities throughout the country is aimed at equipping the nation to cope with polio on a national basis—the only way, experience has shown, that this strange epidemic disease can be fought with any degree of success.

The fact that no community—no matter how large or small—can meet a full-scale attack of infantile paralysis, is demonstrated by the experience of the first ten months of 1951 when headquarters of the National Foundation sent almost \$7,000,000 in March of Dimes funds to some 900 county chapters whose own funds had been depleted by epidemic demands.

But money, as such, is not the only factor in fighting an epidemic of polio. When infantile paralysis strikes, many other forms of help must come from the "outside," help such as nurses, physical therapists and equipment. During 1951, hundreds of trained personnel and huge quantities of equipment were dispatched to critical areas by the National Foundation.

This two-way fight by headquarters and its chapters is made possible by an even division of March of Dimes funds. Half the money raised remains with the chapter for care of local patients and in emergencies, to supplement the national epidemic aid fund. The other 50 percent goes to national headquarters for research, professional education and emergency assistance to chapters in critical areas.

"Behold, how good and how pleasant it is for brethren to dwell together in unity: It is like the precious ointment upon the head, that ran down upon the beard, even Aarons beard: that went down to the skirts of his garments. As the dew of Hermon, and as the dew that descended upon the Mountains of Zion: for there the Lord commanded the blessings even life forevermore." Psalm 133.

We also enjoyed the Mitchell County singers from 2:30 to 4:00 Sunday afternoon at the church building. Next Saturday at 7:00 P. Sam Bullock Seeks Reelection

County Judge Sam Bullock has authorized The News to make the announcement that he is a candidate for re-election to the office of County Judge of Mitchell County subject to action of the Democratic Primary in July. In his statement Judge Bullock said:

"Since I have been your County Judge, I have tried hard to please all of you who stand for law enforcement. In jury trials I have always tried to be fair to both sides. On pleas of guilty on such charges as liquor law violations, and driving while intoxicated, etc., I have set the fines high enough to discourage instead of encourage the practices.

"I believe I have the good will of all the county officers including the county commissioners in whose court we have managed so far to work in harmony.

"I am grateful for your confidence in me in the past and solicit your vote and influence for another term."

Sam Coker, 29 year old Jaycee President, was presented with an award as Colorado City's outstanding young man in 1951, at a banquet in the elementary school building Thursday night.

The annual award is made to young men of 35 or under who have been successful in their own business and managed to contribute to the welfare of their community.

Coker is commercial salesman for the Texas Electric Company, is married and has three children. A veteran of World War 2, Coker is a graduate of Colorado High School, and attended Riverside Junior College in California.

Wise car owners don't wait till spring to correct winter car troubles! They know cold weather can play hob with a car engine and cause lasting damage unless "minor" troubles are fixed promptly!

Questions and Answers

Q. About a year ago, I interrupted GI Bill training to return to military service. Because of my service, I wasn't able to be in training on the July 25, 1951, cut-off date. After I'm released, will I be permitted to continue my training and, if so, is there any deadline for picking it up again?

A. Under VA regulations, you will be allowed to resume your GI Bill training within a reasonable period after your discharge. VA will determine what this "reasonable period" is for each veteran.

Q. I served in the WAC during World War 2 and got married shortly after the end of the war. Sometime in the Spring I expect to have a baby. Could I enter a VA hospital as a maternity patient?

A. No. Women veterans may not be furnished hospitalization by VA for childbirth.

Q. I am a Korean veteran, and I am receiving VA compensation for a service-connected disability. In addition, I have a heart condition, which is non-service-connected and which makes me uninsurable. Am I eligible for the special GI insurance for dis-

abled veterans in spite of my heart condition?

A. No. You would be barred from this special insurance for disabled veterans because of your non-service-connected disability which makes you uninsurable. But you might be eligible for another type of special non-convertible GI term insurance available to veterans with the necessary service after Korea. You must apply, and pay your first premium, within 12 days of your release from active duty.

How To Get Most Out Of Poor Hegari

Lubbock, January 21—How to get the most out of a relative poor field of hegarai was demonstrated by the animal husbandry department recently at Texas Tech in a lamb-feeding experiment.

The experiment, involving 113 acres of dry-land hegarai and 19 head of Rambouillet lambs, was conducted by the department with the aid of Claude Asch, Bronte graduate student. Asch will use the data collected to his master's thesis.

Each acre of hegarai and supplemental feed produced 19 pounds of lamb, when sold at market price would bring \$54.60. If the hegarai had been cut and sold, it would have brought an estimated \$30 an acre.

Seventeen head of lambs grazed, and were fed a supplemental formula, on each acre. The for-

Do you have Series E Defense Bonds coming due this year?

Here's a money-earning opportunity for you!

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

ARE YOU one of those patriotic citizens who began buying—and holding—U. S. Series E Bonds ten years ago? Now your government is going to reward your faith with a chance for your bonds to earn extra money—over and above what you'd expected!

According to the bill passed by Congress last spring, it is now possible for your U. S. Series E Bonds to continue earning for ten years longer than was originally planned. For example, a Series E Bond which cost you \$18.75 in 1942 will pay you \$25 in 1952. But if you hold that bond ten extra years, until 1962, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash you're much better off to hold your bonds. Cash is too easily spent on nonessential things. And if you lose or accidentally destroy it, you're out that much money. But when you have cash in Defense Bonds, you're more apt to hold on to it. And if your bonds are lost or destroyed, the Treasury will replace them for you at no cost.

The cash you have in bond savings is safe and solid; and it's steadily growing toward a sum big enough to buy a dream—something really worth while—a home, a business, a retirement fund, an education for your children.

So if you have bonds coming due, take advantage of this new offer—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more U. S. Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2 1/2% per year. For full details, ask at any Federal Reserve Bank or Branch.

Look how your maturing bonds go on earning under the new law! (This table shows \$25, \$50, and \$100 bonds as examples of how ALL Series E Bonds grow.)

mula, costing about \$2 for each acre of hegarai consumed, consisted of 44 pounds of cottonseed hulls, 27 pounds of cottonseed meal, eight pounds each of salt and limestone.

Harvesting the hegarai acreage with livestock brought the department \$22 more per acre than it would have realized if it had harvested the grain commercially.

CAN NOT A PERSON BE SAVED OUT OF THE CHURCH

I have heard people say, "It is Christ and not the Church that saves." This statement is quite true, but those who make it fail to realize that the CHURCH IS WHAT CHRIST SAVES. From Ephesians 5:23, we learn that Christ is the "Saviour of the body," which, according to Ephesians 1:22, is the Church. Then obviously if the church is what Christ saves, one must be in the Church if he would enjoy salvation. Moreover, from Acts 2:47, we learn that "the Lord added to the church daily such as should be saved." Therefore it would be impossible to find a saved person outside of the church, because when they are saved God automatically adds them to it. When a person complies with the terms of entrance into the New Testament Church his sins are forgiven (Acts 2:38; Romans 6:17, 18) and he is added to the Church.

Why try to be saved in some man-made denomination? Why hope to be saved outside of any church? Why not obey the gospel and let God add you to the New Testament Church which Jesus purchased with his own blood, which he built upon the rock, and against which the gates of hell could not prevail?
