## CRANK SHOOTS EX-PRES. ROOSEVELT Col. Makes More Than Hours Speech In spite of Wound Is Resting Well

Milwaukee, Wis., Oct. 14.—Colonel Theodore Roosevelt was shot in the breast by an assassin as he entered an automobile in front of the Hotel Kilpatrick to start for an auditorium where he was to speak tonight. He insisted on going to the hall, there quieted the crowd that heard he had been shot, spoke from 8:20 until 9:45 o'clock, though apparently weak, and then was taken to an emergency hospital.

The bullet struck a roll of manuscript of his speech delivered tonight and this probably saved his life. After an hour's questioning the assassin gave his name as John Schrenk of 370 East Tenth street, New York. From notes found in the prisoner's clothes it is evident he is demented on the subject of Colonel Roosevelt running for a third term.

Members of the colonel's party seized the man and held him until policeman came up. A mob surged around the prisoner. The man, who is small of stature, admitting firing the shot and said that "any man looking for a third term ought to be shot."

In notes found in the man's pockets at the police station were statements that the assailant had been visited in a dream by the spirit of William McKinley who had said, indicating Colonel Roosevelt, "This is my murderer; avenge my death."

Milwaukee, Oct. 14.—The positive statement that Colonel Roosevelt was not injured seriously was made by Dr. Frederick A. Stratton of Milwaukee, one of the physicians who examined the colonel. Dr. Stretton said that there was no cause for alarm as to the colonel's condition.

"The wound was a superficial one," said Dr. Stratton. "The bullet is imbedded in the muscular tissues. All that we did at the hospital was to put on an antiseptic dressing.

"You may say Colonel Roosevelt is not in a dangerous condition. If the bullet had reached his lungs it would have been evident, and he would have coughing spells."

### SATURDAY, OCT

### Our Cotton Crop.

The totals last Wednesday night indicates that there has been 1504 bales of cotton gined up to this time in Wellington, 1200 up to the same time last year. Each of the three gins are averaging 45 bales per day at present.

With the market hovering closely around eleven cents, the amount already paid for cotton figuring on the basis of 500 lb. bales will approximate \$82,720. This years output will probably attain 7000 bales, which if the price continues stationary will be worth \$385,000. This condition compared with the smaller crop and inferior prices of last year's crop, all of which sold for around nine cents and brought but \$247,000.

Of the \$385,000 paid to cotton farmers this year they will expend, say \$100,000 for picking and ginning aside from a small amount for seeding and cultivation. Now the wages paid for pickers and other labor last year were very close to this year's wages and following out these deductions we find that the farmers will retain for their cotton crop this year something near \$700,000 as against only something near \$147,000 for last year or more than five times as much.

## INDICATIONS THAT R. R. MAY EXTEND

### May Be Extended to a Connection at Dalhart With E., O. & Western.

Austin, Texas, Oct. 14.—It is learned on good authority that the Enid, Ochiltree and Western Railroad which has just passed out of a receivership, is to be extended and becomes a part of the Missouri, Kansas & Texas system. Its purchaser at the receiver's sale was Charles Hamilton of Waco, who for many years has been vice president and general manager of the Texas Central. The latter road is owned and operated by the Missouri, Kansas & Texas. The Enid, Ochiltree & Western is graded from Dalhart to Dumas, forty miles and fourteen miles of track have been laid. The Wichita Falls & Northwestern, which is also a Missouri, Kansas & Texas property, runs to Wellington, Texas, and is headed in the direction of Dumas.

The Enid, Ochiltree and Western and the Wichita Falls & Northwestern are to be connected by filling in the intervening gap of about 120 miles. In addition to filling in this gap and giving a through line between points in Oklahoma and Texas and the western points of the Panhandle region, a branch line of the Enid, Ochiltree and Western will be constructed from Dumas northeast to Ochiltree, through the wheat-growing belt of Moore, Hansford, Hutchison and Ochiltree counties, seventy-two miles.—Wichita Times.

### Holiness Church Announcements

**Womans Missionary Notes.**

If it could be demonstrated that America's greatest problems are fundamentally moral questions and our wisest statesmen have said that they are—then it must be conceded that an unselfish agency which annually spends millions of dollars for the development of great moral ideas, and enlists thousands of workers to apply them to human life, is worthy of the respect and support of the nation.

Such is the American Home Mission enterprise as represented in the various Mission Boards of our country, and it is one of the biggest, broadest, bravest movement in the United States because it stands for the physical, social, economic, intellectual and religious emancipation of all

the people.

October is to be observed as a special time for organizing Mission Study classes, and we note that the foreign book of study is China's New Day for the adults and the young China Hunter for the children. The special work of the young people of the foreign department is a girls school at Rio Brazil. We long to see all our young people enlisted in the great work of freeing the Nations by giving them the word of God and christian education. So long have they wondered in heathern darkness with no ray of hope to cheer or bless them in their lives of servitude and persecution. We need earnest interested workers—the needs are so great, but can be met if only each one who professes to love God will give a tithe of their time

**County Exhibit at State Fair.**

Dallas, Texas, Oct.—Twenty-seven counties are exhibiting products raised within their borders at the Dallas Fair, this season involving an expense of over \$18,000. Among the most prominent displays and ones eliciting much admiration and approval are Montague, Hunt, Denton, Comanche, Wichita, Brown, Hall, Hale, Donley, Van Zant, Andrews, Wilbarger and McCullough. Although Hunt county has been conceded first

prize for general exhibit many visitors, this pointing closely contested by Montague, Wichita and Denton, all of which are offering excellent specimens of farm ducts for inspection.

**Sneed Appeal Up.**

Austin, Oct. 15.—The Sneed case reached the court of criminal appeals today. The record, covering 263 pages was filed by W. P. McLean, Jr. The appellant, Sneed, is appealing from the decision of Judge J. N. Brown of Amarillo denying bail. It is not expected that the argument will be concluded in less than two days.

It was announced today that Judge William F. Ramsey of Austin, late candidate for Gov., has been retained by the defense. The cost of preparing the appeal exclusive of attorneys' fees, was over \$1,900.

and means to send their blessed gospel into the lives of hungering nations.

The third quarter of the Missionary year closed September 30th, and the report of the North West Texas Conference has just gone in to the General Treasurer of Nashville revealing the fact that the women composing this conference have not been idle. During the three months by their united efforts they have contributed \$2,439.96 to home needs and enterprises, and at the same time have raised for the various lines of work they are financing at home and in foreign lands the sum of \$1,036.11. We only regret that time and space does not permit us to tell you about the many, many needs that are being met by these brave unselfish women. We will mention the work in one state only. The work of the Missionary Council for the Orientals in California where they sustain a Korean Mission in San Francisco being the only religious and social center for the Koreans of that place. And that they appreciate the opportunity afforded is evidenced by the fact that in winter months every service is thronged—in summer ninety per cent of those in town attend the Sunday services. It is said that twenty-five per cent of the Koreans of San Francisco are christians, which is the largest proportion of any foreign people on the Pacific coast. There are only about fifteen hundred Koreans in the United States and of the one thousand in California six hundred are in touch with our work. We also have a Japanese Mission and Sunday School in Oakland and a Mission Sunday School, night school, primary school and kindergarten at Alameda, Calif. Four of the young men of the Oakland Mission are freshmen in the State University at Berkeley another a sophomore and still another expects to graduate from the Oakland High School next May and to enter the University in August. To conserve the influence of these men is an object worthy of the greatest effort.

It is especially encouraging to the children in their work to know that it is said to be a fact that the Sunday school includes every Japanese child in the city of Alameda that is old enough to attend, because the Alameda Mission has been blessed by receiving from the children of Southern Methodism a greatly needed two story building. Tuesday of this week, Oct. 15 was indeed a red letter day in the history of the Mission when Bishop R. G. Waterhouse dedicated in the upper story of this building the first Oriental Chapel ever erected by our denomination in the Western Hemisphere.

**Moving Pictures Do Good.**

It appears that the moving picture shows are putting the saloon on the "bum" in Pennsylvania. In one county where there had been 1500 saloons, the failing off in taking out licenses caused an investigation, and it was ago discovered that only 30 per cent of the 1600 saloons had made any money the preceding year, the "Movies" being given as the cause. It was stated that the working man took their families to the shows instead of lining up at the saloon bar, and nearly every community in the county had from one to fifteen and twenty "Movies," depending on the population. Chicago also is experiencing a similar upheaval in the saloon business, due to the hundreds of moving picture shows in that city. If moving picture shows make for the temperance cause, they should have all the support, moral and otherwise, that can be extended to them.—Ex.

**Restlessness.**

Wheeler County Texan: A few months ago there were considerable press comments regarding the spirit of restlessness that seemed to pervade the country. We prophesied at the time that bumper crops would in a large measure eliminate this feeling. And we now contend that to a certain extent the prophesy has come true. For when people have something to keep them busy they are usually contented. But back of this there is probably a greater reason why the restless spirit has been subdued. Look back four, eight or twelve years ago, in fact any Presidential year within your memory, and see if this same spirit was not manifest until after the election. Why, then, has it subsided so early this year? It is due in a great measure to the fact that the masses have the utmost confidence in Woodrow Wilson, the man who will in all probability be our next President.

Yes of course. But there is some restlessness that won't rest. There are thousands of men hunting easier jobs, other thousands hunting jobs with more pay, still other thousands trying to avoid jobs, and yet more thousands who are trying to make the few remaining thousands dissatisfied. Never in the history of this country was the average wage as high as now, never were there more chances for an energetic man to get work than at present, and never were there so many embittered agitators at large. The reason is that within a decade the American people have changed their standard of living. The poorest family now considers itself entitled to what are called the modern conveniences. The era of ease is upon us and workers are demanding less labor and more pay. The backwoodsmen, even, is not now willing for his wife to go a year with only one... and his child to go

Do you know if your title is good? Did the man from whom you bought the home that shelters your wife and babies give you an abstract so that you could see if he had a right to sell that home to you? every movement for progress that the state has made during the past quarter of a century, and whatever the evils of our government may be, publicity is the cure. The movement for good roads would have died in its infancy had it not been for the press of the state.

"A few years ago when it looked as if the entire state would be eventually planted continuously in cotton, the press began to teach diversification, until now nearly every farmer is a diversifier.

"Until the press took up the campaign for civic improvement, but little had been done in Texas to improve conditions in cities.

"The Commercial Secretaries owe their success to the co-operation of the press."

Continuing his discussion of the press, Mr. Mayes said: "Do you realize, gentlemen, that in newspaper offices in every section of this nation, Texas papers in their respective classes are regarded as the highest type of American journalism? And when

that is said it means the highest type of journalism in the world, for the American press leads the world."

Mr. Mayes is editor of the Brownwood Bulletin, and former president of the National Editorial Association, and his editorials are more widely quoted throughout the press of the state than those of any other paper.

Hon. B. B. Cain.

Dallas, Texas, October—Mr. B. B. Cain, President of the Texas Commercial Secretaries and Business Men's Association, has recommended the organization of a Farm Life Commission to study agricultural problems. Mr. Cain, in connection with Mr. Peter Radford, President of the Farmers' Union, has made a searching investigation into the agricultural needs of the state. In discussing this subject before the annual meeting of the Commercial Secretaries Association, at Houston recently, Mr. Cain said in part:

"A sale of any commodity at less than cost of production is an economic waste and almost approaches a crime. After studying the subject I am firmly convinced that any permanently successful plan for the raising and marketing of farm products is practically impossible without strong organization.

"I am so deeply impressed with the importance of aiding the producer that I present for your consideration as the special feature of our work for the coming year, the creation of a Farm Life Bureau, whose duty it shall be to co-operate with the Farmers' Union if possible, and make a thorough study of farm life and farm problems with the single purpose of making the business of farming, fruit growing and truck raising more remunerative and the environment of that class of citizens more attractive."

The Commercial Secretaries

will organize the commission at an early meeting of the executive committee.

J. L. Johnson of Collingsworth county, Texas, has found that in recent years the great farm crops of that section of the Panhandle are as important as they were in McLean county, Ill., where he formerly and for many years followed farming. "It beats the world how a fellow will become wrapped up in his own little neighborhood," Mr. Johnson said. "When I went to Texas from Illinois, I just supposed I never would see fine wheat and corn growing and that I never would again see anything to compare with a clover field. We do not raise clover in Texas, but we raise alfalfa, which beats it, also corn, and small grain."—Drovers Telegram.

For Sale—A half section of good dark sandy land located 12 miles east of Hedley. One hundred and sixty in cultivation. Balance good grass. Small improvements. Price \$11.00 per acre. Hamilton & Depauw, Quail, Texas.

T. M. Stansell was in the city Wednesday buying a bill of lumber for the immediate erection of his new home on the beautiful and fertile section of land which he traded for some weeks ago, and which is located four miles south.

Rev. S. F. McCaffity and County Treasurer T. A. Glenn, returned last Saturday from Amarillo, where they attended a meeting of the Amarillo Presbytery. They report a fine time. Mr. Glenn also visited in Plainview.

J. W. Wallace was in the city Tuesday and while here with a bale of the fleecy staple to be ginned, called in and had his subscriptions to the Leader set up a notch or two. J. W. is like most of our splendid readers, always "on the dot."

Jas. A. Wilson the genial manager of the Shamberger Lumber Co. left Saturday for Dallas where he will attend the State Fair, after which he went to points in east Texas, where he joined his wife and children on a visit to friends and relatives.

J. A. Meaders informs us that his daughter, Miss Katie, who was badly hurt while moving to Clarendon some weeks ago, is now able to go about some on crutches, and it is thought that she will soon be all right again, all of which is good news to her many friends.

Rev. W. M. Williams, Endowment Secretary of the Texas Christian University, was here Wednesday night and delivered a splendid sermon at the Christian church. While here he also, assisted by the pastor Rev. Higgins, raised something over \$400 for the benefit of the T. C. U.

that he had not seen any crops that came up with those of this immediate section,

J. A. Wiles returned last week from a visit to his gin in Cottle county. He reports crops good and cotton coming in very fast. For many years Mr. Wiles was Wellington's only gin man, and to say that he was successful and gave the very best of service is indeed putting it mild, in fact to make sure one only has to ask his many customers. And we would not be surprised to see him reenter the gin business at some future time.

### JUDGE J. A. NABERS FOR DISTRICT JUDGE

#### Wilbarger County Man Aspires to Preside Over the Court of 46th District

Fellow citizens: I am a candidate for Judge of the 46th Judicial District. For the benefit of those who do not know me, I will trespass on your time and patience by giving some account of myself; that you may the better judge whether or not I am suitable material for that position.

I am graduate of the law de-

partment of the University of Mississippi and practiced law in Taylor county, Texas, several years before coming to Wilbarger county; two years as County Attorney of said Taylor county. I qualified as County Judge of Wilbarger county, Nov. 16, 1900, and have served as such since that time.

I have finally disposed of 337 civil cases. Of these; two have been reversed on appeal, and three new trials have been granted. I have finally disposed of 1016 criminal cases. Of these, four have been reversed on appeal, two of them however, because the law was unconstitutional. Of these State cases,

however, about half were dismissed and about half the balance were pleas of guilty. Some of the civil cases were also dismissed and there were some judgments by default. In all, I have actually tried about 500 cases, civil and criminal and have been reversed six times. Of the cases tried by me, civil and criminal, about sixty were appealed.

The moral of the above story is: I am competent. The same principles of law, pleading and practice obtain in the district as in the county court. I have had exactly the experience best calculated to fit me to perform the duties of a district judge. I need the office and you need me in the office. It's a good thing for both of us. Let us get together and make my election as near unanimous as possible.

It may be that none of the names of the candidates for District Judge will be on the ticket. If my name isn't there, please take the time and trouble to write it; J. A. Nabers: in the appropriate place; that is to say under the sentence, "For Judge of the 46th Judicial District," and on whatever ticket you vote.

Fully realizing, that there is no honor in the holding of an office; but that it is as a man may acquire himself in measuring up to the responsibilities of the duties he undertakes, I promise you if elected, the best effort I am capable of, to justify your confidence in me and so I close by commending myself to your most favorable consideration.

J. A. Nabers.

#### We Want Your Grain.

We will be in the market for your Kaffir, Maize and corn this season, and would like to see you before you sell. Will be located at the Hardin Lumber Yard, just south of the depot.

Clarence & J. M. Strong, of the Leader Grocery Co.

All parties wishing veterinary service done will please call on me soon. I will be here only a few days. And all knowing themselves indebted to me please come in and settle or make satisfactory arrangements.

R. T. Lee D. V. S.

### HON. D. E. DECKER FOR DISTRICT JUDGE

#### Seeks Election to Office He Now Holds By Appointment by Governor

Quanah, Texas.

Sept. 4, 1912.

To the voters of the 46th Judicial district:

I beg to announce my candidacy for the office of District Judge, at the coming November election. If the Democratic Executive committee of the District shall make a nomination, then my announcement is subject to their action.

I have recently been appointed to this office by the Governor to fill the unexpired term of Judge Huff, whose resignation takes effect on October first. Prior to that date I desire to make a canvass of the district. After that time I will be holding the Courts of the District, and this will necessarily prevent me making the canvass I desire.

To those who do not know me I desire to say that I was born in Texas, have lived in Hardeman county more than twenty-two years where I have practiced law. I was County Attorney of Hardeman county two years; District Attorney of this district two years; member House of Representatives four years and State Senator from this district four years. I have always endeavored to discharge with fidelity any trust bestowed upon me to the best of my ability and promise this if you elect me District Judge. As to my qualification for this important office I refer you to any lawyer of the District and especially to the people of Hardeman county where I am best known as a citizen and lawyer.

I most earnestly ask that my friends over the district interest themselves in my candidacy, to them I must look for aid, since the time is too short for a personal canvass.

D. E. Decker.

We want some good men to sell the Perfection Sanitary Steam washer. Good thing for right parties. See D. W. Jones, about it at the Keep-U-Neat Tailor Shop.

#### Money to Lend.

## Printype — OLIVER Typewriter

The Only Writing Machine in the World That Successfully TYPEWRITES PRINT — 17 Cents a Day!

The Printype Oliver Typewriter which has crowned ten years of typewriter progress into the space of months is now offered to the public for 17 Cents a Day.

Offered at the same price as an ordinary typewriter—payable in pennies!

The commanding importance of Printype is everywhere conceded.

For who does not see what it means to make the world's vast volume of typewritten matter as readable as book or magazines. The Printype Oliver Typewriter is equipped with beautiful Book Type, such as is used on the world's printing presses.

Printype is distinguished by marvelous clearness and beauty. It does away with all strain on eyesight which the old outline type imposed. Printype puts life and style and character into typewritten correspondence. It makes every letter, every numeral, every character as "plain as print."

The complete story of Printype has never been told. Here it is:

#### The Real Story of Printype

The idea from which "Printype" sprung resulted from the success of type experts in equipping a typewriter used in our offices to write "The Oliver Typewriter" in our famous trade-mark type just as the name appears on the outside of the machines and in all Oliver publicity.

The beautiful appearance and the marvelous clearness of the reproduction of our "ebony" trade-mark type disclosed the possibilities of equipping the Oliver Typewriter to write

the entire English language in shaded letters!

We worked for years on the plan and finally succeeded in producing, for exclusive use on the Oliver Typewriter, the wonderful shaded letters and numerals known to the world as "Printypes."

#### The Public's Verdict

That the public is overwhelmingly in favor of Printype is impressively shown by this fact:

Already over 75 per cent of our entire output of Oliver Typewriters are "Printypes."

The public is demanding Printype in preference to the old-style type.

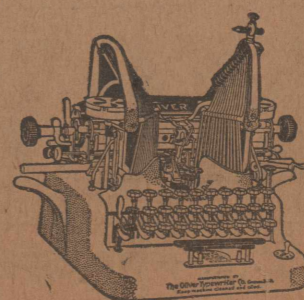

Within a year at the present rate 90 per cent of our total sales will be "Printypes."

Thus the Oliver Typewriter which first successfully introduced visible writing, is again to the fore with another revolutionary improvement—Printype, the type that prints print!

#### To Corporations

The Oliver Typewriter is used extensively by great concerns in all sections of the world. Our "17-Cents-a-Day" Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great corporations, but prefer the easy system of purchase.

The masses want the Oliver Typewriter because it stands the test of the largest corporations.

#### Meet 'Printype' You'll Like its Looks

Ask for the specimen letter and 17-Cents-a-Day Plan. Make the acquaintance of Printype, the reigning favorite of typewriterdom. Ask for a letter written on The Printype Oliver Typewriter, which will introduce you to this beautiful new type.

We will also be pleased to forward the "17-Cents-a-Day" Plan on request. Address Sales Department, OLIVER TYPEWRITER CO. Oliver Typewriter Building, Chicago.

"THE HOUSE THAT MAKES GOOD"

### Wilson Campaign Fund.

I am for Woodrow Wilson for President and want to send \$100 from Collingsworth to his campaign fund. It occurred to me that there ought to be at least 100 good Democrats who would subscribe \$1.00 each to assist in electing Wilson President. Rolla Wells, Treasurer of the Democratic Committee has asked my assistance and promised to send each contributor a souvenir campaign receipt, and I also will give you receipt and publish the names of those who assist me. I hope that all good democrats over the county will mail me

their check for \$1 or such a amount as they feel able to give. The committee is badly in need of funds for necessary expenses and this is the people's fight in which no corporation has any part.

Respectfully Solicited.  
Mrs. Lutie Templeton.

### The Parcels Post Beneficial.

One of the cheerful messages concerning the new year of 1913 is that living is going to be cheaper. And the basis for this prophecy of good will is that the parcels post, which will become operative Jan. 1, is to bring this condition about.

From Washington, where the provisions of the new act have been more closely analyzed, there comes dispatches to the effect that all sorts of farm products—fruit, vegetables, eggs, and even poultry—will be admissible to the parcels post, and this means that the farmers will be able to find a ready market for their produce and that the town people can get fresh table supplies directly from the farm at a much reduced rate, with a small cost added for a postal charge.

It is hard to reconcile ourselves to the idea of butter, eggs chicken and even Thanksgiving gobblers being shipped in such a manner, but all such produce is handled by the parcels post in other countries and, of course, our parcels post will be just as good as anybody's, if not a little better.

It may take a little time to get the people at both ends of the line to patronize it freely, but in a short time we expect to see the city house-wife call up a farmer friend early in the day and place an order for a half dozen young fryers, some vegetables and fruits fresh from the garden and orchard, some eggs and butter that never have felt cold storage, and other wholesome products, at figures the farmer could not sell at before because he had to save up his product for a week or so before he had enough to justify a trip to market and had to have something for his pains in preserving it. But that charge will be eliminated under the operations of the parcels post and the consumer will get the benefit of it.

Then, too, the ease with which the farmer can dispose of his produce will encourage him to raise more of it, as the time and expense of marketing will be reduced and the increase in supply will operate to reduce the cost to the consumer.

We expect to see, also, a great increase in the number of farmers engaging in the raising of truck, poultry and the like, following the installation of the parcels post, and it will easily be possible for them, where they live within reach of a good market to make enough off the produce they can sell, without ever leaving their place to pay their dry goods and drug bills for the year. And when they begin raising more food products for the market they will produce more for their own consumption, thus saving their own grocery

bills. In this manner all the people will have fresh, better and cheaper supplies to eat and there will be money left for the comforts of life.

It is easy to manufacture pipe dreams about the good things ahead, just as it is to recount the benefits of the good old days agone, but it is no idle thing to contemplate the good things that will come to country and city folks alike through the parcels post if it is properly utilized, and we are counting on seeing the good Yankee sense of our American people use this instrument for promoting their own welfare.

**YOU'LL** get here in buying clothes the fruit of many years of steady progress in fine clothes-making. Ready-made clothes have been brought to a stage of perfection today by the mark of such makers as -----

## Hart Schaffner & Marx

Ready-made clothes are so good now: the fabrics are so high-grade: the tailoring is so thoroughly good, mostly hand-made: the styles and models are so smart and fashionable: the fit is so easy to get right, that there is really no good sense in having clothes made to measure.

There's the economy, too---some men don't care for economy in the price of clothes---but when you can get at \$18 or \$20 or \$25 as good a garment as any tailor can make for \$30 or \$35 or \$40 what's the use of paying the difference ?

We're selling these fine clothes as easy prices: there's no way to get better goods: no matter what you pay. You can easily pay the same prices for clothes not as good.
