Highway Bonds Are Voted Down For Second Time

Addition Of Aviation Course In Tech Re-Considered

T. A. T. Officials Offer Planes For Air Instruction

Hardin and Evans Confer With Dr. Horn and Local Officials Regarding New Work In College

Airport Discussed

Company Contemplates Establishment of Air Line To Territory From Fort Worth; Action Likely

Not only will Lubbock more than likely secure a modern municipal airport within the near future, but there is all likelihood that a complete course in all phases of aviation will be a reality, in connection with other courses offered at the Texas Technological college, such training advantages not now being available at any point in the country, outside of the United States Army training schools.

As to the airport, the chamber of Commerce airport committee was instructed to immediately secure options on a number of suitable sites adjacent to the city, following a meeting held Saturday morning by the directors of the board of city development. Mayor H. D. Woods and the city commissioners, the city manager, the airport committee, representatives of the press, Dr. Paul W. Horn, president of Tech with Tom Hardin, vice president and general manager of the Texas Air Transport, Inc., and Silliman Evans, vice president of the company.

Establish Air Routes

Hardin and Evans were here for the purpose of establishing air routes for passenger, mail, express and freight service covering every important city in Texas and connecting with interstate air lines that circle the nation. The Texas Air Transport is an amply-financed company and is not asking for any bonuses, all they require being that the towns they contemplate establishing on their routes, must have adequate airport facilities. This includes not only a field, but hangars, oil and gas service, shop service and all else that goes to make up the modern port for ships of the air.

Hardin gave the men present much detailed information as to the requirements of various grades of airports, all of these being graded by the United States Department of

Tech Offers Short Course To Farmers

Two-Day Session In Farm Study to Be Given Here On January 29-30; Plan As Annual Event

Farmers of the South Plains, and of all of West Texas, are evidencing increasing interest in the First Annual Farmers' Short Course to be held at Texas Technological College for the two days of January 29 and 30, as this the first course of its kind ever to be held here under the auspices of the Tech college. It is also the first of what is hoped will become an annual event, perhaps semi-annual, as the years come and go.

The Lubbock Chamber of Commerce, which had been planning to bring the International Harvester

Post To Floydada Route Designated

(Special To The Avalanche-Journal)

RALLS, Jan. 12.—Information received today from state highway authorities is that the road from Post to Floydada via Ralls was designated yesterday by the state highway commission as a state highway.

This is one of the principal roads in Crosby county and plans are now under way to call an election for paving same through the county. This designation will connect Highway No. 7. at Post with Highway No. 53 at Ralls and the Lee Highway at Floydada.

ORDER 4-CENT DUTY

Mexico To Use Gasoline As Means for Better Roads

MEXICO CITY, Jan. 12. (AP)—The director general of customs today notified all customs offices that the duty on imported gasoline has been increased four cent (Mexican) per litre. The proceeds will be used for road construction.

Man Kills 3,692 Crows In 2 Shots

VINITA, Okla., January 12 (AP) Harve Dennis, nas bagged 3,692 crows in two shots.

Dennis, with two neighbors, bought 300 pounds of dynamite and planted half of it under a tree on which the crows roosted. The first shot netted 1,492 crows. A few days later they got 2,200. Dennis collected five cents bounty for the left wing of each crow.

Lubbock Clings To Sixth In Building Permits In Texas

City Sets Pace With Leading Centers of State; Past Week Finds Active Permit Issuance

(By Associated Press)

DALLAS, Jan. 12.—Starting in where it left off in 1928, Houston forged ahead in value of building permits issued during the past week and now ranks well ahead of the principal cities of the state for the first two weeks of the new year, Dallas was second for the past week, with San Antonio third.

Figures for nine leading cities of the state follow: Houston, $498,350, $806,160; Dallas, $256,848, $588,096; San Antonio, $187,724, $447,198; Fort Worth, $120,602, $313,398; Corpus Christi, $65,800, $134,000; Lubbock, $54,900, $110,200; Beaumont, $41,523, $46,448; San Angelo, $25,280, $30,430 and Waco $16,800, $38,000.

Week's Permit Total Is $54,900

Three building permits issued Saturday, totalling $8,050, were responsible for the past week's record reaching $54,900, which brings the month's and the year's total to $110,200. Every indication points to this January exceeding

Many To Attend Secretaries Meet

Indications are that practically every town on the South Plains will be represented at the semi-annual meeting of the South Plains Commercial Executive's association, in this city next Tuesday. The association includes all the secretaries, officers and boards of directors, of chambers of commerce throughout the South Plains and, with the program announced, one or more representatives from every town and city on the plains that possesses a chamber fo commerce, will be present.

Chief feature of the program is perhaps the address of H. W. Stanley, of El Paso, one of the outstanding chamber of commerce speakers in the entire country, on the subject of "The Influence of the Chamber of Commerce Upon American Business Life."

The public is invited to attend any of the sessions of the meeting, which will start at 9:00 a. m. and continue until 5 p. m., with a uinchеon at noon at the Hotel Lubbock. The sessions will be held in the chamber of commerce rooms at the city hall.

ENROLLMENT CLIMBS

Tech Registration Total Is Five Short of 2,000

The total enrollment of students in Texas Technological college stood at 1995 yesterday afternoon, according to figures given out by the registrar's office yesterday. An increase of approximately 15 students resulted from the registration during the week.

Officials expressed confidence that the enrollment would reach the 2,000 student mark before the end of this week.

ATTEMPT ENDURANCE

Jensen and Burgin Plan To Make Record Flight

CURTISS FIELD, N. Y., Jan 12. (AP)—Martin Jensen and Emil Burgin next week are to make a try-try-again attempt to establish a new solo endurance flight record and bring back the world non-refueling endurance crown to America.

First Jensen, Dole race Hawaiian flier, will go up until he or the plane gives out. Then, as soon as the ship is overhauled, Burgin will go up to see if he can do better. When he is through, if a new world's record has not been achieved, both men will go aloft together in a final attempt.

Norris' Church Is Burned; Probe Of Blaze Being Made

Fire Destroys First Baptist Church Early Saturday Morning; Pastor Was In Austin At Time

Two Inquiries On

Flames of Undetermined Origin Take $300,000 Structure; Church Burned Once Before In 1912

(By Associated Press)

FORT WORTH, Jan. 12.—Investigation into the fire that destroyed the First Baptist church building and its four story Sunday school annex early today was being made along two lines this afternoon. The district attorney was conducing one inquiry, while the other was being made by Fire Marshal Ligon.

The Rev. J. Frank Norris, pastor of the church, in Austin at the time of the fire, was in conference with the district attorney's office.

Order Chemical Analysis

Earlier in the day the district attorney ordered a chemical analysis of the contents of a tub found in the Sunday school annex. Several tubs, one said to have contained gasoline and water, and a five gallon jug of gasoline also found in the school building were in possession of the district attorney.

Ranger Captain Tom Hickman was assisting in the inquiry.

Fred Holland, building custodian, said that there were tubs in the church building but that all of them were used for floor oil. He said he knew of no gasoline on the church premises.

Tears Come To His Eyes

When Mr. Norris returned from Austin this afternoon smoke still was rising from the buildings. Tears came into the pastor's eyes as he walked the square block around the structures which had been built under his pastorship.

"The worst loss is the demoralizing of the forces," Rev. Norris said. "But we will start building back now."

In less than 10 minutes after his arrival, the pastor ordered gas stoves placed in a huge tabernacle in the suburbs. He said that canvas will be placed around the tabernacle and that services will be held there tomorrow.

Loss is $300,000

Loss is estimated at about $300,000. The main building was gutted.

Methodists Plan Removal of School

DALLAS, Jan. 12. (AP)—Removal of Southwestern University from Georgetown to Dallas and its consolidation with Southern Methodist University has been indicated as the probable outcome of the formation of the Texas Methodist Educational Commission on correlation of schools, the News will say tomorrow. The commission will begin activity this week with a visit to the state by H. Warren Brown of Nashville, Tenn., member of the General Education Board of the Methodist Episcopal church, South.

Communicated With Dead

AMARILLO, Jan. 12— (AP) —A statement that he communicated almost daily with relatives long dead was responsible largely for J. J. Kewen, 71, being sentenced to a state institution here today A physician testified he considered belief in the power to communicate with the dead evidence of insanity.

T. A. T. Ship Makes Hop To Ft. Worth In Record Time

Indian Scalps Arizona Teacher

Partly scalped by an Apache Indian, Miss Theresa Reed, 22, teacher in the government school at San Carlos Reservation, Arizona, is recovering in a hospital at Globe. Miss Reed, whose home is in Humboldt, Iowa, was attacked by the Apache while returning from a trading post. The assailant is believed to have been the father of one of her pupils. It was the first scalping in the west in many years.

City And Santa Fe Sign Subway Paper

Final Action For Construction of Underpasses In Lubbock Completed; To Start Work Soon.

Final agreement has been reached between the City of Lubbock and the Santa Fe railway company, covering all details of the plans and specifications for constructing the subway on east Broadway, it was announced Saturday by Mayor H. D. Woods.

With the signing and approval of these plans by the mayor and city commissioners, an order has been entered to advertise for bids on building the underpass, bids to be returnable on February 4.

Finances Provided For

Finances for the city's part in building the underpass at the Santa Fe railroad tracks, and similar construction at the intersection of the railroad and Avenue H, were provided in the $350,000 city bond issue voted on September 24, 1928.

Test holes are now being dug at the Avenue H location, for the purpose of providing means of making estimates of construction and excavation cost at that point. While the Broadway subway will be under construction, all east bound traffic will be routed over the Ave H. route.

Local Newspaperman Takes Air Trip To Ft. Worth

EDITOR'S NOTE—This is the first time in South Plains history that a newspaper has sent a representative to "cover" a news event by airplane.

BY CHARLES A. GUY
Avalanche-Journal Staff

FORT WORTH, Jan. 12—From Lubbock to Fort Worth in two hours and 58 minutes and still not speeding.

That record impossible and unknown a few years ago, was hung up today by Pilot Tom Hardin, vice president and general manager of the Texas Air Transport company, and his two passengers, Silliman Evans, vice president in charge of public relations for the same concern, and the writer, flying in a seven passenger Stinson - Detroiter monoplane.

Leaving Lubbock's temporary airport at 11:47 Saturday morning, the smoothly running plane performed without a bobble and at 2:45 p. m. it settled easily to the lap of the earth at the Fort Worth Airport. What a thrill over the 300 flying miles.

Fly at Low Altitude

At an altitude always in the neighborhood of 1,000 to 1,500 feet, low for the average cross country hop but necessitated by an atmospheric condition which aviators call a low ceiling, Pilot Hardin set the plane's nose first to the southeast and then on a direct line to Fort Worth as a wonder panorama of the great empire we call West Texas slipped by.

First the fertile farm lands, then the canyons and badlands of parts of Crosby, and Dickens counties, the cattle country, more farm lands and then the rich oil belt seemingly glided beneath the plane, which although the ship was travelling at an average speed of 110 miles per hour, seemed gently swaying while suspended in space. The constant roar of the 225 horse-power Wright Whirlwind motor and an occasional abrupt drop caused by "bumpy" air, were the only occurrances to bring to the fliers' attention that they were really hurtling through space.

Air Views of Towns Caught

Almost immediately after the flight began, air views of Lubbock, Idalo, Slaton, Lorenzo and Ralls, in the distance faded into hurried glimpses of Post City, and Justice-

Flu Death Total Is 26,000 People

WASHINGTON, Jan. 12. (AP)—Public health officials today estimated approximately 26,000 persons died from influenza and pneumonia in the United States during the seven weeks preceding January 5.

"Any doubt as to the reality of the current influenza epidemic", a statement said, "is promptly dispelled by an examination of the mortality statistics."

The heaviest mortality, the statement noted, was in mountain states There was a possiblity, it said, that the peak of mortality may now have been reached in South Atlantic and some of the central states.

Plan Amendment Repeal

BOSTON, Jan. 12. (AP)—The state senate was petitiond to memorialize congress to take steps for repeal of the 18th amendment in a bill filed with that body today on the petition of Charles S. Rackemann of Milton.

Aged Blind Man Robbed Of $20

ST. LOUIS, Jan. 12. (AP)—Albert Kendall, 75, was robbed today of his state pension for the blind. Two men, according to Kendall, came to the rear door of his home. and after one had threatened him, with a pistol and the other had placed a rope around his neck, forced him to surrender the $20 he just had received from the blind pension fund.

G. T. Scales Dies Here Saturday; To Hold Burial Today

Prominent Local Business Man Succumbs After Operation; Funeral Services At 3 o'Clock Today

George T. Scales, 51, prominent Lubbock business man, 806 Avenue L, died in a local sanitarium at 5:30 o'clock yesterday morning following an operation for appendicitis several days ago.

Although he had been a resident of Lubbock for only about three years, Mr. Scales was well known among local business circles. He was owner and manager of the Lyric and Rex theatres and manager of the People's Ice Company.

Funeral services will be held at the First Methodist church of which he was a member at 3 o'clock this afternoon with Rev. H. L. Munger pastor of the church officiating. Until that time the body will be held in state at the Bynum Brothers Funeral Chapel.

Mr. Scales is survived by his widow and two daughters Mary Louise 13 and Ethel Jean, 11; four brothers: W. T. Scales of Kemp, Okla.; J. D. Scales, Lubbock; J. P. Scales, Hartwell, Ga.; W. D. Scales, Ballinger, and one sister, Mrs. Maggie Murray, of Atlanta, Ga.

Active pallbearers at the service this afternoon will be Floyd Bowen, Walter Posey, Clyde Elkins, A. L. Holt, Cliff Lindsey and Roy Steed. Burial will be in the Lubbock Cemetery.

Newspapers Make Offers On Flights

DENVER, Jan. 12.—(AP)—The Denver Post announced tonight an offer of a $50,000 cash prize to the crew making the first non-stop airplane flight around the world as nearly as possible along the lines of the fortieth parallel of north latitude.

Denver is located on this parallel and the Post stipulates that the plane must start in Denver and land here.

This offer, the Post announces, shall remain good until January 1, 1931 and is open to the aviators of the entire world.

The Post also announced an offer of $25,000 to any person who will communicate by any means with any planet.

WICHITA, Kan., Jan. 12.—(AP)—Max M. Levand, publisher of the Wichita Beacon, tonight said he would guarantee $10,000 to form the basis of a fund for a non-stop flight around the world by Colonel Arthur C. Goebel, noted Pacific and trans-continental flier.

The flight must be made in a Wichita-built airplane, Mr. Levand stipulated.

HUNT FOR ROBBERS

Posses Scan Rugged Area Around Trinidad

TRINIDAD, Colo., Jan. 12. (AP)—Posses tonight searched the rugged country near here for three payroll bandits whose loot in a mail robbery today was estimated at $20,000.

EAKER'S MOTHER ILL

Flier To Leave In Plane For San Angelo Today

SAN DIEGO, Calif., Jan. 12. (AP)—Captain Ira Eaker, member of the group of army fliers that took the monoplane Question Mark on its record breaking trip a few days ago, received word tonight that his mother was very ill at her home near San Angelo, Texas. Captain Eaker plans to leave in a pursuit plane for his home early tomorrow.

FAVORS SPECIAL SESSION

WASHINGTON, Jan. 12. (AP)—President-elect Hoover after conferences with Republican congressional leaders, believes a special session of congress should be called about April 15.

Issue Is Defeated Despite Majority In Favor; Vote In Slaton Goes Heavy Against Program; Plan 3rd Election

Count Is 1641 and 1527 Against with Twenty-One Boxes Reported; Slaton Goes 736 Against; 14 For

Lubbock Votes For

Leaders of Campaign Plan To Make Third Fight For Paved Roads; Workers Not Demoralized.

An overwhelming landslide of opposing votes in the four boxes at Slaton sent Lubbock county's second road bond election in sixty days down to defeat Saturday despite a heavy vote in favor of the issue from the city of Lubbock.

Tabulation of votes from 21 boxes out of 31 in the county, as received by the Avalanche-Journal up to midnight last night showed that while the election for $1,000,000 to provide hard surfaced highways received a majority of votes in favor of the issue, the required two-thirds margin was lacking.

21 Boxes Report

The count for 21 boxes was as follows: For the bonds, 1641; against the bonds, 1527.

In Lubbock the vote was: For the bonds, 1445, against, 330 or a majority of nearly five to one.

This compared with a total vote of 1572 for and 2086 against the first road bond issue, on which a vote was made on December 1. This election would have provided $2,004,000, for a system of highways including lateral roads.

In the present election the provision for surfacing lateral roads was deleted and paving of main highways only was provided.

Short Campaign Held

Vote on the issue climaxed a short, whirlwind campaign in favor of the bonds conducted during the latter part of the week. Committee were busy yesterday in canvassing the county for a favorable vote on the bonds.

Defeated, but not whipped, those who were for the project of a system of paved highways for Lubbock county, Saturday night began planning for the calling of a third election.

Many Lubbock citizens expressed

Here, There And Everywhere With Associated Press

Plane To Visit Texas

SAN DIEGO, Calif., Jan. 12.—(AP)—The record breaking army endurance plane Question Mark probably will remain at Rockwell field here until Monday before taking off for Dallas, Texas, en route to Washington, according to reports from army operations office.

Soldiers Wounded

MANAGUA, Nic., Jan. 12—(AP)—Four members of the Guardia Nacional have been wounded in a clash with bandits near San Juan re Helpaneca. Several bandits are believed to have been killed.

Texas Professor Dies

AUSTIN, Jan. 12—(AP)—Hal C. Weaver, chairman of the mechanical engineering school at the University of Texas, and for 20 years a member of the faculty, died here today.

Outlet Increased

AUSTIN, Jan. 12—(AP)— The authorized outlet of the Yates pool was increased from 72,500 barrels a day to 100,000 barrels by the state railroad commission today. Proration was extended for six months from the first of the year.

Dirigible Visits Tampa

TAMPA, Fla., Jan. 12—(AP)— The dirigible Los Angeles passed over Tampa at 10:30 p. m. tonight sailing from the west and circling the city for several minutes. It passed to the southwest after a flight over the business section at an altitude of a few hundred feet.

Consider Vast Project

WASHINGTON, Jan. 12—(AP)—A ten million dollar item for expansion of Inland Waterways Corporation will be considered by the house next week.

Oil Land Sold

SAN ANGELO, Jan. 12. (AP)—The Simms Oil company has purchased the Red Bank Oil company's 140 acres in the northwest corner of section 24, block 194, G. C. and S. F. Railway company survey, in Pecos county for a reported consideration of $307,500 cash, it was learned tonight.

Plan Water Measure

ABILENE, Jan. 12. (AP)—A bill that would give owners of 10,000 acres or less of land the privilege of impounding water for irrigation, domestic consumption or for watering livestock without necessity of obtaining a permit from the state board of water engineers will be introduced Monday by Senator Oliver Cunningham of Abilene, he announced heer tonight.

Find Gasoline Tank

OLSO, Norway, Jan. 12. (AP)— A gasoline tank resembling that on the airplane in which Roald Amundsen and five companions disappeared into the north last June has been reported found by a fisherman in a remote part of the Lofoten Islands, off northwestern Norway.

Plane On Way to Canal

MONTGOMERY, Ala., Jan. 12. (AP)—The Fokker tri-motored monoplane en rcute from Wright Field, Dayton, Ohio, to France Field Panama, in command of Major Paul Block, landed here at 3:55 o'clock. The flight will be resumed tomorrow, weather conditions permitting.

Tunnel Is Opened

SEATTLE, Wash., Jan. 12. (AP) — The ceremony broadcast by radio the Great Northern Railway's new eight mile tunnel through the Cascade mountains was opened to traffic tonight. The bore, the longest in America and the fifth longest in the world, burrowing under the mountain from Scenic, Wash., to Berne, Wash., cuts, two hours from east and west railroad schedules.

Turkeys Do Pay

DALLAS, Jan. 12. (AP)—J. M. Martin of Dallas, breeder of fine turkeys, and Jess Alford, Paris, automobile salesman, struck a unique bargain at the All The World Turkey Show here today.

Martin turned six turkeys over to Alford and drove home in a new sedan.

Bond Issue Passes

VAN HORN, Jan. 12. (AP)—Culberson county today voted a $75,000 bond issue for road improvement.

Total of Ginnings Climbs Past Week

Cotton Yield Increased In County to 32,401 Bales; Lubbock Still Leads; 90 Per Cent of Crop Is In

The ginnings total for the week just past climbed to the new high mark of 32,402 bales, harvesting and ginning being aided by a week of clear, crisp weather.

Estimates made by men who are keeping in touch with the cotton production of the county continue to forecast a probable yield of between 35,000 and 40,000 bales. Last year's total production was just short of 50,000 bales.

The city of Lubbock maintained

The Weather

WEST TEXAS: Generally fair, with colder in the Panhandle Sunday; much colder in north portion Sunday night; Monday, probably fair, colder in southeast portion. Local temperatures: Maximum, 61; minimum, 30.

Man's Skeleton Uncovered Near Buffalo Springs Inspires Search By Tech Paleontology Students

Crumbling with age and decay, the partly petrified skeleton of some unknown person, unseen by human eyes for perhaps half a century, was uncovered the past week near Buffalo Springs, 12 miles southeast of Lubbock, where once was found the stomping ground of hostile Indian tribes and later the camp of pioneer picturesque buffalo hunters.

With the head far back beneath a large rock at the edge of the caprock, only a small part of the moulding bones protruded enough to lead to the discovery of the entire skeleton. As if someone had crawled back into the cave-like formation to escape some impending danger, the remains lay with the feet toward the opening. Perhaps some Indian sought this place to avoid the stampede of a buffalo herd; or perhaps some buffalo hunter crawled into this obscure hiding place in an effort to escape death at the hands of marauding, scalping Indians, or perhaps, still, to avoid a wintry blizzard. Some pioneer Texan might have chosen this place in which to die, hid from the eyes of the world. Many wild conjectures might be made of the circumstances causing this man to die in this rock-walled grave.

May Be Indian Bones

Climbing the caprock in a draw just this side of the Buffalo Springs club, E. R. Galbraith and I. J. Kemp, both having explored numerous times among the rocks and caves of that section, suddenly came upon the bones, almost entirely hidden by dirt and rock. They began digging and uncovered the whole skeleton. It was impossible for one unfamiliar with paleontology to determine whether or not the bones were those of an Indian. No trophies as are usually found in Indian graves could be found in the vicinity of the bones.

Many arrow heads, pottery, and other relics of the days when the Indians inhabited these Plains have been found near Buffalo Springs. One Indian grave dug up there several years ago offered up a large amount of unusual pottery, which was given to the University of Texas.

Hunters Camped In '70's

It was back in the '70's that a buffalo hunters' camp was maintained at the present location of Buffalo Springs. Old timers of Lubbock can remember when the camp was finally disbanded in about 1880.

The skeleton found last week gave indication of an aged man,

See SKELETON, Page

'Growing Pains' Bring Need For City Planning Here

Civic Problems Must Be Solved By People Here

Expert On Municipal Planning To Make Address At Session Of Commersial Executives Tuesday

When you have every room in the house full of folks, and there's more folks coming for a visit, you know you are facing a problem.

What to do with them? Where can you put them? There's no other place for them to stay. They must eat and sleep, same as the rest of us.

This is the identical problem that is about to face the city of Lubbock. It has been a problem, more or less, for the past few years, but it is to long.

There is need for planning, and Lubbock's progressive city officials, Chamber of Commerce, Board of City Development, business men and all who are looking somewhat to the problem of handling the folks who are coming to be with us, are now deeply concerned with how to take care of the newcomers.

Problem Is Acute.

To gather a better idea of the acuteness of Lubbock's problem of city planning, at the present rate of growth obtaining, it is well for us to consider the rapidity in which expansion has been accumulated since the year 1890.

Only 39 years ago—in 1890—the whole of Lubbock county boasted of a population of just 3 folks. Ten 3years later, in 1900, there were 293 people in this county. In another 10 years, 1910, we see the increase has grown to 3,624.

Then, in 1920, Lubbock county's population was 11,096, just about half of today's population of the city of Lubbock. In the past eight years, the growth has been phenomenal, as we all know, and the estimated population of the entire county is 35,150, of which 20,000 reside in Lubbock.

As the city's inhabitants increased, our problem has been to take care of the every day needs of folks. First of all came water, electric lights, sanitary sewer system, paved streets, and similar utilities.

Today, these utilities are established. The problem is to look ahead and see what will be necessary for us to do in keeping pace with the march of expansion. We will need to plan for park systems, for direction of streets, for railroad crossings, for any number of big problems that can be met ahead of time much easier than later.

Expert To Be Here.

Next Tuesday, citizens of this city will have opportunity of listening to E. A. Wood, of Dallas, city planning engineer, who will speak to the meeting of the South Plains Commercial Executives association on the subject of "Practical City Planning." Perhaps some of Mr. Wood's remarks will be timely now, so we are quoting a few of them:

"There is a very practical side to city planning that is frequently overlooked because it is inexpensive and costs no more than a sustained effort over a period of years. This side is the regulatory phase and is enforced by means of a city plan commission and a series of city ordinances.

"First, it is necessary for municipalities to create city plan commissions. This should be done for many reasons. City commission are too busy to give time and thought to city planning. It is an art that calls for concentrated thinking and long hours of study. It involves not only the complex life of the city but of the contiguous territory as well, and the group entrusted with the preparation of a real city plan should not be burdened with other affairs.

Must Make Chart.

"The duty of the planning commission shall be to make a master plan for the physical development of the city, including any area outside of its boundaries which may relate to the comprehensive planning of the city. Such plan, with the accompanying maps, plats, charts, and descriptive matter shall show the planning commission's recommendations for the development of said territory, including, among other things, the general location, character and extent of streets, alleys, ways, viaducts, bridges, railroads, terminals, parks, parkways, playgrounds, aviation fields, athletic fields, school grounds, fire station sites, or any other public grounds or public improvements, and the removal, relocation, widening, or extension of such public work then existing.

"The plan shall be made with the general purpose of guiding and accomplishing a coordinated, adjusted and harmonious development of the city and its environs which will, in accordance with present and future needs, best promote health, safety, morals, order, convenience, prosperity and general welfare, as well as efficiency and economy in the process of development; including, among other things, adequate provision for traffic, the promotion of safety from fire and other dangers, adequate provision for light and air, the promotion of the healthful and convenient distribution of population, the promotion of good civic design and arrangement, wise and efficient expenditure of public funds, and the adequate provision of public utilities and other public requirements."

A group of electrical apprentices has been sent by the Theatrical Brotherhood of Electricians to the David J. Rankin, Jr. school of Mechanical Trades, St. Louis, for special instruction.

Not until the end of the 16th century did the cult of the pillar saints completely disappear from the earth.

Looking Into Real Estate Purchase

A Series of Articles Dealing With The Problems Surrounding Home-Owning

The quality of the atmosphere above a piece of real estate in the future may bring the smoke stacks of industry to barren towns and make great cities of them, says Louis B. Beardslee of Chicago, in the weekly bulletin issued by the National Association of Real Estate Boards.

A quarter of a century from now American industry may consider the ease with which aeroplanes can leave factory roofs and carry products to the markets of the world and, consequently, count the number of air pockets nestled above a given site, says Mr. Beardslee, who as an authority on this subject, was formerly chairman of the industrial property division of the real estate association. Yesterday industry located with little regard for transportation facilities which put the cotton mills in New England, although the raw material and principle markets for cotton are in the South; and today industry must have the most economical transportation possible if it is to survive.

The influence of industrial property values flows through all real estate values and affects the price of stores, apartment sites and homes and it is therefore, interesting to the layman to know something of how industrial values are brough about.

What makes a manufacturer locate his cranes and derricks and ovens on a particular site and thereby render profit to the owner of the land and to the owners of adjoining lands for many miles?

"Among the things that industry must have today to be successful, there are three outstanding fundamentals—transportation, or railroad facilities, accessibility, and labor," says Mr. Beardslee. "And land that can offer these things has high value but so important are each of these factors that the absecne of any one of them in an industrial location will usually ruin an enterprise. In the human body the heart and brain and lungs each are indispensable organs, but the individual deprived of any one of these organs certainly dies. Transportation, accessibility and labor are the heart, and brain and lungs of successful industrial location and the industry deprived of any one of these elements is ruined at the beginning.

How Good Are Essentials.

"It is the degree in which each of these fundamentals is present in an area in which an industrial site is located that influence the value of that site. In other words, many industrial sites in a city may have transportation facilities, which means railroad facilities for the delivery of raw materials or distribution of finished products or both; but some sites or perhaps one site may have better transportation facilities than other sites.

"The reason for the importance of all these fundamentals in creating industrial property values lies in the importance of overhead in modern business. Every expense connected with the manufacture of any product increases the overhead, adds to the cost of delivery to the consumer, and cuts down on the profits of its makers. And with the sharp competition that now exists in almost every industry, manufacturers must keep down costs or be undersold.

"And the cost of distribution of a product is becoming more and more a determining cause of success or failure of industry.

"If a site is inaccessible to railroads and a manufacturer locating on it must pay trucking charges to have his raw materials hauled from the freight station to his plant and the finished product hauled back for distribution, then these costs show up in the fost of his finished product. It is easy to see why a site directly on a railroad or with switch track facilities to a railroad has a higher value than an inaccessible property.

"It is well to point out here that all property fronting on a railroad is not necessarily switch track property. It is not always possible from an engineering standpoint to serve a site with a switchtrack even though it is close to a railroad.

"In an eastern city a manufacturer of canned goods has a warehouse from which he distributes his products to his dealers. His products are packed on the western coast and brought across the continent at a cost of forty cents per hundred pounds. But the warehouse in the eastern city is not accessible to the terminal where these goods are unloaded and it costs this manufacturer twenty-two cents per hundred pounds to haul these products by truck across the town to the warehouse and back again to the freight station for delivery when sold—over half the cost to haul them across the continent. This manufacturer could well afford to pay two or three times the value of the present site of his warehouse for a location directly on the railroad line bringing in his goods so they could be stored and sent to dealers without trucking charges. And a location on that railroad would be worth to that manufacturer two or three times the value of the site that must be reached by truck.

Freight Costs Add to Overhead.

"It is the high freight costs that have made industrial locations valuable that are strategically located in reference to raw materials and mrakets, so that the combined costs of producing and distributing to the consumer are as low as possible.

"Fifty years ago freight rates were low and transportation, therefore, was not so important in the location of industry. In some parts of our country water power was once a great influence in the location of industry but today the transportation of electrical energy permits the location of plants away from water power. Fifty years ago men built factories and mills in their home towns because they did not like the idea of locating afar afield. Today town where he grew up, hard many a manufacturer leaves the though it may be, and builds his factory a thousand miles away if that is the place where he can manufacture with the lowest overhead.

"The second important factor that enters into the value of industrial property today is accessibility. Properties from which a product can be economically and advantageously distributed by automobile truck have high value. Such properties must front on, or have easy access to, paved streets or paved arterial highways.

"Labor is the third factor that makes for high inustrial property values. The owner of a site in a locality that has both railroad facilities and accessibility and cannot furnish labor will find the presence of the other two elements of comparatively little value. In this connection it is well to point out that the presence of parks, amusements, and generally desirable living conditions in a city have much to do with attracting labor; and by bringing in the third essential, consequently add to industrial property values.

"And many other things such as municipal facilities, the fuel supply and general business conditions in a locality influence the value of industrial property. The layman might regard a piece of property located on a railroad and believe it to be a suitable site for a giant factory. But it isn't if the city has not put in a sewer. It might be used for a lumber yard but not for a plant requiring water.

New Competition For Industries.

"An intense competition exists between American towns and cities for the privilege of housing industry. Communities no longer wait for a manufacturer to come and look them over, but obscure hamlets send silver tongued salesmen to the highways and byways to seek out industry and persuade it to erect its smoke stacks here and there, north and south, and east and west. Villages, towns and cities want industry to make them great. They want industry's payroll to tuck away in their banks and to swell the coffers of their stores and shops. They want to see railroads, laden with articles produced on their land, return for heavier and heavier loads which will bring profit to the city as well as industry's stockholders.

"Bring the right industry to a town and you bring it prosperity. You bring in a permanent payroll and you raise the value of every little bungalow in it. But bring the wrong industry, and you cause not only great loss and sometimes ruin to the manufacturer but you decrease property values in the unfortunate city in which such an error is made.

"For quite aside from the three fundamentals described above, there are other reasons, that space does not permit to list, that make one industry prosper on a location where another industry would collapse. Even after it has been established that the three fundamental factors exist in a given site, other elements having to do with the myriad operations, processes, and methods that differ in the manufacture of various products, makes one site better than another for industrial use.

"An industry located on the wrong site of in the wrong town in time, collapses or abandons the incorrect location and goes elsewhere. With it goes its labor, the homes provided for its workingmen are deserted, its factor is vacant. When this happens, real estate values suffer.

"If you live in a town where civic oragnizations go out into the world and search for industries to bring back home to boom the town, be sure that your town has industrial possibilities and that the right industry come there.

"If you have land that you think has inudstrial merit examine its qualities carefully. Remember the things that make for industrial values. You may hear giant wheels hum on it some day. It may be the one best place in the world to manufacture carpet tacks."

BOUNCING TUMBLERS

LONDON, Jan. 12. — Professor E. C. Baly of Liverpool university has perfected a new process for the manufacture of non-breakable glass. It is called plass. The professor says that it was first invented by Dr. Pollock of Austria and that he has improved it to a point where it can now be moulded into shape. Plass will not break and cannot be cut with a glass cutter, but it will admit ultra-violet rays of sunlight.

AIR KEEPS EGGS

LONDON, Jan. 12.—A new way has been devised for importing eggs to England from Australia and South Africa. The expense of freezing the eggs in transit is eliminated by a ventilation process which keeps air currents passing through the holds where the eggs are stored.

AIRCRAFT SAVES MONEY

LONDON, Jan. 12.—England is saving about $90,000,000 a year since substituting aircraft for infantry at Iraq. Five R. A. F. squadrons, costing less than $10,000,000, have replaced 33 battalions of infantry costing $100,000,000 a year.

Year Starts Well With Big Volume Of Realty Deals

Total of Deals Made In First Ten Days of 1929 Near $350,000 Mark; Biggest Deal for $47,000

Indicating a tremendous volume of real estate business in Lubbock since the first of the year, figures compiled from the official records of the county clerk's office reveal that real estate transfers during the first ten days of this month totalled almost $350,000.

The exact total of the warranty deeds issued during that period stands at the $338,537 mark and includes 111 different deeds. Although this high total contains few out-of the more than a hundred being standing real estate deals, only one above the $20,000, it shows that an unusual amount of business is being transacted here.

A number of local realtors interviewed yesterday by a representative of the Avalanche-Journal reported an intensive activity in business at the present time and advanced prdictions that this activiy would continue for at least several months. Many large deals are expected within the near future.

The largest warranty deed issued recently was one of $47,000 from W. D. Nevels to W. P. Martin, involving the sale of about 600 acres of land in Lubbock and Lynn counties. Other outstanding real estate transfers this year include: $19,200 from O. E. Sears to T. H. Sears; $12,200 from E. M. Ragland to Ben Clark; $10,400 from M. C. Overton to C. C. Webb; and $10,400 from M. C. Overton to J. A. Howell.

Following is a list of the warranty deeds issued during the past week:

A. W. Jackson to W. W. Ray WD 1-5-29, $200, and 1-2 interest in lots 22, 24, 23, blk 63, Overton.

M. C. Overton et ux to C. C. Webb et ux WD 12-18-28. $10,400; W 1-2 of W 1-2 sec. 15, blk. E.

M. C. Overton et ux to J. A. Howell WD 12-18-28 $10,400; E 1-2 of W 1-2 sec. 15, blk. E.

O. E. Sears to T. H. Sears WD, 9-25-28, $19,200; sec. 7, blk. X.

L. S. Harkey et ux to J. P. Middleton WD 12-15-28, $600; lots 3, 4, 5, 6, blk. 42 McCr. 2nd.

R. C. Hopping to W. L. Ellwood Trustees Deed, 1-1-29, $500; lot 6 and E 1-2 7, blk. 5, Ellwood.

W. D. Nevels to W. P. Martin WDWD 11-19-28, $47,000; sec. 13, blk. 20 and N. 30 ac of E. 600 ac of sur. 20 blk. 20. Lubbock and Lynn counties.

E. C. Priest et al to W. E. Kirley WD 1-5-29, $3,650; 100 ac out of sec. 13, blk. Js.

American State Bank to B. E. Rushing AJ $433.83.

W. S. Moss to J. P. Middleton WD 10-22-28, $10; lot 18, blk 105, O. T. Lub.

D. L. Baker to Bonnie Bess Sayer WD 1-8-29, $4,550; lot 23, blk. 18, Ellwood.

J. F. Perry et ux to C. D. Shamburger Lbr. Co., WD, 1-8-29, $828; lot 8, blk. 35, Overton.

Layton L. Adams to Murrel Von Rosenberg WD, 12-31-28, $1,000; und 1-2 int in lots 12 and 13 blk. 137, O. T. Lub.

Dessie Adams to L. L. Adams WD 12-31-28, $1,000; S 50 ft. lots 1 and 2, blk. 45, Overton.

Mrs. Lillie Bowles to E. B. Merrill et ux WD 12-10-28, $100; und 1-2 int. in same tract as above.

A. B. Lewis to D. L. Parker WD, 12-20-28, $4,500; lot 23, blk. 18, Ellwood.

J. H. Farrar et ux to V. G. Turman WD, 12-21-28, $3,500; lot 21 and W. 10 ft. 22, blk. 53, McCr. 2nd.

P. & N. T. Ry Co. to Laura Stewart, Deed, 12-8-23, $100; lot 5, blk. 132, East Park.

R. D. Fenn et ux to W. D. Fenn WD, 5-3-27, $1,100; blk. 37, Suburban Homes.

W. L. Ellwood to R. W. Byrd WD, 6-1-27, $9,600; SW 1-2 sec. 44, blk. AK.

John Dalrymple to R. D. Moxley WD, 1-9-29, $10; W. 65 ft. of lots 1 and 2, blk. 14, Overton.

John Dalrymple to R. D. Moxley WD, 1-9-29, $10; 1-2 und int. in lots 3 and 4, blk. 118, O. T. Lub.

Temple Trust Co. to John Dalrymple et ux Rel., 9-27-27; W 65 ft. lots 1 and 2, blk. 14, Overton.

S. J. McFarland et ux to Harry Meyers WD, 1-8-29, $6,000; lot 10, blk. 1 Wesley Square.

Jas. H. Goodman to Walter H. Vaughn WD 1-5-29, $600; lot 1, blk. 35, Highland Hts.

J. H. Pettit et ux to W. A. Harral WD, 12-12-16, $175.

J. A. Rix to Mrs. W. S. Masoner WD 12-24-28, $300; lot 11, blk. 67, Highland Hts.

C. E. Howard et ux to Mrs. M. S. Gunn WD, 1-9-29, $800; lot 1, blk. 58, Overton.

C. E. Howard et ux to M. S. Gunn WD, 1-9129, $700; lot 2, blk. 58, Overton.

Herman Schulz to C. A. Shehorn WD, 12-29-28, $5,825; NE 1-4 sur. 39, blk. C2.

C. C. Lane et ux to R. C. Lamble WD, 10-11-28, $5,600; lots 11 and 12, blk. 135, O. T. Lub.; lots 3, 7 and 8, blk. 1, Lane Resubd. of blk. 4, McCr. 2nd.; lots 7, 8, 12, blk. 2, Lane Resubd. of blk. 4, McCr. 2nd.

E. M. Ragland et ux to Ben Clark WD 11-28-28, $12,200; SE 1-4 sec. 113, blk. 20.

T. W. Sawyer et ux to John Felix Palmer WD 12-24-28, $550; lot 16, blk. 2, Webb Add.

A. J. Campbell et ux to L. C. Ellis WD 12-19-28, $1,300; lot 24, blk. 71, Highland Hts.

Thomas Cox to W. R. Box White WD 1-10-29, $1,000; lots 9 and 10, blk. 96, O. T. Lub.

U. O. Colson Co. vs. Lee A. Rogers AJ $56.25.

B. F. Hodges to B. R. Middleton WD 1-1-29, $1,600; lots 11 and 12, blk. 26, O. T. Lub.

L. R. Gregory et ux to S. S. Forrest WD 3-22-28, $1,280; lot 3 and S 1-2 2, blk. 45 O. T. Slaton.

J. O. Young et ux to S. S. Forrest WD, 3-19-28, $1,347; lot 3 and N 1-2 4, blk. 101, O. T. Slaton.

Sam C. Arnett et al to Homer W. Starr WD, 1-7-29, $400; lot 12 Arnett & Benson Subd.

WEEKLY CALENDAR

MONDAY, Jan. 14:
Dallas Club, 7:30, room 208.
Spur club, 7:30, room 214.
Simmons-Tech Debate, 8 o'clock, room E. 208.
Girl's Glee Club, room 310, 4 o'clock.
Band Rehearsal, 1. 208.
TUESDAY, Jan. 15:
Boy's Glee Club, room 310, 4 o'clock.
Dramatic Club, room 202, 7:30.
Pre-Med Club, room 305.
WEDNESDAY, Jan. 16:
Girl's Glee Club, room 310, 4 o'clock.
Hall County Club, room 209, 7:30.
Press Club, room 214, 7:30.
Agriculture Club, room A, 109, 7:30.
Central Texas Club, room 310, 7:30.
Fencing Club, room 209, 7 o'clock.
Sophomore Class meeting, room 302, 7:30.
THURSDAY, Jan. 17:
Girl's Glee Club, room 310, 4 o'clock.
Senior Class meeting, room 220, 7:30.
FRIDAY, Jan. 18:
Faculty Club, Gym. 8 o'clock.
Fencing Club, room 209, 7:30.
H. E. Club party.
SATURDAY, Jan. 19:
All-College Mixer, Gym.

PROFESSOR WRITES HISTORY

Dr. S. S. McKay, of the History Department, is writing the history of three brigadier-generals of South Carolina for the Dictionary of American Biography. Dr. McKay formerly taught history in the University of South Carolina. The book for which he is writing the biographies is sponsored by Dr. Allan Johmson, of Yale University and has been in preparation by the leading scientists and historians of America for a number of years. When completed the dictionary will compare with the National Biography of England, and serve the same purpose for America that it does for England.

Dr. McKay is also editor of a book, "The Making of the Texas Constitution," published in 1924 and since has been working on the debates held in the Convention of 1875, which will be published in manuscript form by the University of Texas and will be of valuable aid to lawyers. An interesting item in connection with this work is that Registrar Dohoney's father was a Senator from North Texas during the time that the debates were held The publication will be made authentic by foot notes and is to contain about 600 pages.

FIRST DEBATE TOMORROW

The first debate of the season will be given tomorrow evening when Simmons University debates Tech on the question: Resolved, That a substitute for jury system should be adopted; with Simmons debating the affirmative.

Tech will be represented by Hal Lary, a sophomore from Clovis, is one of the debaters and Wayne Castleberry, of Eastland, is the other. Lary is a forensic letter man, and won the oratorical scholarship last year. He is a pre-law student and was one of the debaters against Cambridge last year.

The debate is to be held in the auditorium of the Engineering building at 8 o'clock. Admission will be twenty-five cents or by Student Activity tickets.

The total value of crops grown in 1927 on irrigated land furnished with water from the works of the Bureau of Reclamation was $133,207,210 an increase of $23,087,550 compared with 1926.

Technical coursese will be given in all secondary schools of Chile, under a recent presidential decree for standardizing secondary schools and for their adaptation to the needs of diferent sections of the country.

QUEEN MARY ILL

LONDON, Jan. 12. (AP)—Physicians attending King George had another royal patient to care for today—Queen Mary. The queen was reported to be suffering from catarrh in common with thousands of her subjects. She did not take her usual drive yesterday but her condition was understood not to be serious.

Borken china, collected over a period of 20 years, forms the material of a wonderful grotto, five feet high, in a cottage garden at Feltham, Middlesex, England.

Cat's Insurance

This Persian kitten, Swami, is worth $25,000, at least that is the sum for which his mistress, Miss Helen Wehrle, has insured him. This photo was taken as kitty and his mistress sailed for Europe.

NEAR POSTOFFICE

Unless the Regulator has a RED WHEEL it is NOT a LORAIN.

A NEW New Process Gas Range for Your NEW Home or Apartment!

DON'T move the old, black stove! You'll want a brand new white-enameled New Process Gas Range with Lorain Self-regulating Oven for that beautiful home or cozy, little apartment.

You'll want more time to "play house" than ever before. The little RED WHEEL of the New Process Oven automatically regulates the heat for perfect baking or Whole Meal Oven cooking for one to five hours (as the case may be) without your once looking.

LORAIN OVEN HEAT REGULATOR

A New Process white-enameled Gas Range with *gray-enamel trim* adds beauty to *any* kitchen. Straight of line—smooth of surface—graceful legs. Rounded feet protect linoleum.

Your choice of five oven-sizes on right or left hand side of Range. Door-linings raised, make doors fit tight. Whirling-flame top-burners give intense heat with the tiniest jet of blue flame. Saves gas—keeps utensils free from smoke.

Burial Rites of 5,000 Years Ago Are Revealed As Ancient Graves Found

(By Associated Press)

PHILADELPHIA, Jan. 12.—An ancient cemetery in Ur of the Chaldees has given up to the joint expedition of the University of Pennsylvania museum and British Museum additional information concerning the burial rites of Sumerian royalty 5,000 years ago.

Many objects of gold and silver, of priceless archeological value, also have been found.

In reporting resumption of work by the joint expedition, C. Leonard Woolley, director, in a letter made public tonight, said the new discoveries included gold daggers, a cylinder seal inscribed "Mes-Kalam-Dug the King," a painted clay not belonging to a pre-historic civilization, a copper head believed to be from a statute of a god, gold head dresses, rings, beads and silver vessels. The copper head was said to have been the first object of its kind found in Ur.

The objects were uncovered in the cemetery where the expedition in 1927 and 1928 discovered several royal graves, including the Tomb of Queen Shub-Ad, and where work has begun again about two months ago at the opening of the seventh season of excavations in Mesopotamia.

Mr. Woolley reported that grave robbers, House builders and layers of drains had "played havoc" with the upper levels of the cemetery, but that it had been possible to observe as never before the vertical relations between successive strata.

Found "Death Pit"

"At the bottom," Woolley said, "we found, not the tomb chamber of the king, which must lie under the soil not yet excavated, but the death pit inseparable from it. In this open part of the shaft measuring less than twenty by ten feet there were crowded the bodies of 39 women and one man lying in more or less ordered rows.

"There were in a subterranian chamber six bodies, of which four were men servants or soldiers, and the fifth a serving maid, while the sixth body was that of the woman in whose honor the tomb had been built.

"The bodies in the tomb had been covered with some sort of a wooden canopy and lay on a brick floor above a terra cotto drain. The outer court of the tomb has yet to be dug. We know only that outside the stone blocking of the door there were set clay pots of food and the carcass of a sheep. Whether there were other human sacrifices it is impossible to say, but at least we have the servants in the tomb, and, in the filling-in of the shaft, tier above tier of food vessels and meat offerings and human skeletons.

"Other rich graves have been unearthed. One, which might be called the grave of the baby princess, contained the body of an infant and with it a gold head dress which was almost a replica in miniature of that worn by Queen Shub-Ad."

Aviation Work

(Continued From Page 1)

burg, to the south, and Spur and Dickens City to the north.

Over the badlands of parts of Crosby and Garza counties buzzards lazily flapped along hundreds of feet below the plane, pigmy stock grazed and occasional ranch houses appeared as children's toys to them.

Flying roughly, the silvery head waters of the Brazos which meanders aimlessly across the country side, a view from the rear of the cabin soon disclosed a smoky haze which was Sweetwater, forty miles to the west of the east bound ship. At one o'clock we passed Rotan and at 1:20 Anson, approximately half way, glided by.

Towns Slip Rapidly By

Twenty minutes later Albany was left behind and two hours after taking off the trio looked ahead at Breckenridge. Strawn, with its coal mine, was soon ivsible to the south as the derrick studded oil country fell behind. Then to the north sat Mineral Wells, its new hotel rising high above the city but only a play house from the air. "Inspiration Point," made famous by picture post cards, and the highest ground in the city, looked like a knoll against the rest of the country as at 2:21 the smoke and buildings of Fort Worth, fifty miles to the eastward, came into view.

Over Weatherford, across Lake Worth, with a graceful swing, the plane, similar to those which will soon play daily between Lubbock and oFrt Worth on the Texas Air Transport company's air lanes, landed at oFrt Worth.

Air Lends Inspiration

West Texas and the Plains region, inspiring from the ground, are even more inspiring from the air. The square, neatly plowed farm lands, the caprock, the wrinkled acres marred by canyons, blend together in a fusion of colors which suggest at once a monster rainbow. The whole picture, embracing in one unit almost every type of country to be seen, appears as a playground of children, the badlands typifying the spite work of older boys as they have played havoc with the smooth squares laid out by the younger kiddies at play.

No one can appreciate West Texas in its vastness, in its great productiveness in all lines, and in its future until he views it from the air. It's a picture nor artist can paint, an economic empire no captain of industry can visualize.

The trip from Lubbock by plane to oFrt Worth is more comfortable, more pleasant, vastly more interesting and judging from today's hop, just as safe compared to other means of travel.

Makes Record Flight

ABILENE, Jan. 12. (AP)—A record flight to Fort Worth and return by Louis E. Derryberry, chief pilot of West Texas Air Transport, inc., for meningitis serum tonight appeared to have given Mrs. C. C. Powell, of Kenton, Wash., a chance for her life.

Derryberry flew the approximately 300 miles in three hours and nine minutes.

Bonds Election

(Continued From Page 1)

a desire to create an independent road district, leaving the city of Slaton out of it, the feeling being quite widespread that it will never be possible for Slatonites to support a county-wide road-paving program. Slaton's failure to give the first bond issue sufficient support to pass it, and then that city's contention that because of the failure of the first project to carry, the opposition to the second bond issue on the grounds that Lubbock county did not vote county roads for Slaton, therefore Slaton was not going to vote paved roads for Lubbock county, leaves no hope for cooperation on a county-wide basis.

Evidence of the Slatonites well-organized machine to defeat Saturday's election, was pointed to be some observers in the comparison of votes cast there at both bond elections. On December 1, a total of 443 votes were recorded in the four Slaton boxes. Of these there were 273 for the bonds and 170 against, lacking the necessary two-thirds to carry. In this election there ware 750 ballots counted, of which 736 were against the bonds and only 14 for them. This big vote is considered about the full voting strength of the city of Slaton, there having been only 775 ballots cast there in the general election of last November 6.

Queried regarding the fate of the issue, a prominent Slaton citizen last night said.

"We want some paved roads, too, as well as Lubbock."

Another said. "We understand that Lubbock got all the paved roads and Slaton didn't get any."

Still another sidetracked the question by explaining:

"There was a misunderstanding down here."

Heaviest vote for the bonds was in Ward 1 of the city of Lubbock where there were 720 for and only 129 against; and in Ward 4 where there were 400 votes for and 72 against.

Shallowater gave the bonds a heavy majority, fifty to eight.

At Foster the vote was tied at five-all.

Monroe went for the bonds, 26 to 13.

Heavy votes against the issue were polled at Canyon, where it was 72 to 6; at Acuff where it was 51 to 2; at Slide where it was 17 to 0; at Idalou where it was 111 to 59; at McClung where it was 61 to 1; at Union where it was 33 to 0; and at Posey where it was 38 to 15.

Much credit is due the leaders of the whirlwind finish of this campaign in the city of Lubbock for the fine showing made here, Of those, C. E. Maedgen and J. J. Clements were leaders among the men, while Mrs. J. H. Hankins, who directed the efforts of 40 or more women, who used the telephones Friday and Saturday, accomplished some of the most effective work. There were several score business men and civic leaders locally who worked untiringly for the proposition, and disappointment was evidently very sharp, because of the heavy vote in Slaton defeating the project.

HOW THEY VOTED

	For	Against
Lubbock, No. 1.	720	129
Lubbock, No. 2.	99	68
Lubbock, No. 3.	62	40
Lubbock, No. 4	400	72

Posey	15	38
Totals	1641	1527

Air Trip

(Continued from page 1)

Commerce. His remarks opened the eyes of those present not as to the future possibilities of aviation commercially, but as to what is already here and now being done.

During the discussion of possibilities of establishing a flying school in connection with Texas Technological college, it was brought out that all foundation courses and ground work could be offered by the college, and the Texas Air Transport to furnish instruction in actual flying.

Flying Work Discouraged

Recently government men, while on an inspection trip to Tech stated that the school was fairly well equipped to give thorough instruction in all ground work necessary for teaching aviation, and that with a few additions, it would be completely equipped. The proposition of teaching aviation was discouraged, however, because of the expense involved in furnishing airships to teach the practical part of flying. With the T. A. T. furnishing these ships, this obstacle would be overcome.

George E. Benson, chairman of the airport committee, and Charles A. Guy, editor of the Lubbock Journal, with perhaps George P. Kuykendall, if the latter can go, were appointed to go to Fort Worth to attend a two-day school in aviation being conducted by the Texas Air Transport. These Lubbock representatives are to learn all they can about aviation, airports, air problems, etc., for the benefit of Lubbock as a coming airport.

It is probable that, after the airport committee selects a field, financing of the port will be done through a municipal bond election to be held some time in the spring. Tom P. Duggan was added to the membership of the airport committee.

A Lotta Fun

. . . the jolly professional fancy skaters have at St. Moritz when all the rich people of Europe gather in the Alps for the winter sports season. In the picture below are shown three of the best and most popular fancy skaters at the celebrated resort. Howard Nicholson (left) and Paul Krackow are holding the pretty Hilda Ruckert in a reverse position as they finish one of their stunts.

Short Course

(Continued from Page 1.)

Company's Farmers' Short Course here this year, cancelled this because of Tech's and have entered into cooperation with the college to make this event an outstanding one for the farmers of West Texas.

Luncheon To Be Given

On the first day of the Short Course, all visitors to this city will be the guests of the Chamber of Commerce at a luncheon. The program for the two days is given in detail below, the sessions beginning at 9:30 on the morning of Tuesday, January 29, and closing on the afternoon of the second day, all sessions to be held at Texas Technological college:

Tuesday, January 29

General Meeting:

9:30 Registration—Auditorium of Engineering building.

10:00 Address of welcome—President P. W. Horn, Texas Technological College.

Men's Meeting—H. J. Bower, Department of Agronomy, Texas Technological college, chairman.

10:30 See Selection and Breeding.—D. F. Eaton, agricultural agent, Lubbock county.

11:15 The Winter Wheat Program and Seed Improvement—J. D. Tinsley, agricultural agent, Santa Fe railway company, Amarillo.

General Meeting:

1:00 Soil and Soil Moisture Conservation—R. E. Dickson, Superintendent of Agricultural Experiment Station, Spur, Texas.

2:15 Possibilities of Cooperation on the South Plains—Dr. J. O. Ellsworth, head of Department of Agricultural Economics and Farm Management, Texas Technological College.

Discussion—J. D. Coughlan, director of Field Service, Texas Farm Bureau Cotton association, Dallas.

Wednesday, January 30

Men's Meeting:

9:00 Stock Judging Pavilion. Selection and Breeding of Farm Animals—W. L. Stangel, R. C. Mowery and F. G. Harbaugh, Department of Animal Husbandry, Texas Technological College.

1:00 The Development of Dairying and Dairy Herd Improvement—F. G. Louthan, Hale Center.

1:30 Value of Testing in Dairy Herd Improvement and Possibilities of Testing by Mail—R. B. Davis, Agricultural Agent, Brownfield.

2:00 Dairy Products that can be Produced on the Farms in the South Plains—K. M. Renner, head of the Department of Dairy Manufactures, Texas Technological College.

2:30 Dairy Cattle—W. L. Stangel, head of Department of Animal Husbandry, Texas Technological College.

Women's Meetings will be held in Home Economics Building; Dean Margaret Weeks, chairman.

Ginnings

(Continued from Page 1)

the lead with slightly more than 7,300 bales. Slaton ranked second with 7,100 bales, the six gins in the city of Slaton and the three in nearby communities reporting an increase for the week of more than 200 bales. It is estimated that by far the greater amount of the cotton in that vicinity is gathered.

Idalou Has 4700

The four gins at Idalou reported right at 4,700 bales. The lone gin at Acuff reported 2,100 bales. Two gins at Shallowater reported 1,780 bales. The two at Monroe reported over 2,000 bales. Canyon reported 875 bales. Wolffarth reported 1,270 bales. Sstacado had ginned 1,154 bales and Becton 438 bales. New Hope, County Line and Woodrow, unavailable over telephone, were estimated.

Cotton is about 85 or 90 per cent gathered a concensus of reports from Avalanche-Journal correspondents yesterday indicated.

Skeleton

(Continued From Page 1)

many of the teeth showing signs of being missing at the time of his death. The bones are to be given to the Geology Department of Tech College and will be placed in a museum being started in the newly completed Science Building of the college.

Students To Make Search

A class of geology students, headed by Dr. M. A. Stainbrook, professor of the geology department and expert in paleontology, will go to the canyon today where the skeleton was found, to make a search for other signs of the early life in this section. Officials of the geology department report that they are glad to get any kinds of fossil or pre-historic life for the museum.

The ones who found the skeleton advance the theory that it is possible that the man might have been killed and pushed back into the rock wedge to avert suspicion from the killers.

The college exploring party today may uncover other interesting evidence. Otherwise the facts connected with the death may always remain an unsolved mystery.

Norris Church

(Continued from Page 1)

The interior of the Sunday school annex was in ruins.

The church auditorium had a seating capacity of 4,500; the church plant, including business departments, gymnasium, etc., had an approximate value of $1,000,000.

The original First Baptist church, standing several blocks from the structure burned today, was destroyed by fire Jan. 11, 1912. This fire was the first in a series of events which resulted in the indictment of the pastor, Norris, for arson and perjury. He was acquitted after sensational trials.

Dr. Norris has been the storm center of the Baptist church in Texas for many years, partly because of his vigorous efforts at general reform and partly as a result of his radical fundamentalist views.

Dr. Norris came even more prominently into view two years ago when he shot and killed D. E. Chipps, wealthy lumberman, in the study of the First Baptist church. He was indicted and tried for murder, but was acquitted when he pleaded self-defense.

Dr. Norris has charged repeatedly from the pulpit that threats have been made against his life and the church establishment.

Building

(Continued From Page One)

the record of last January's, as there are several jobs coming up within the next week or so that will boost this month's total beyond the mark of $234,955 reached the same month of 1928. Saturday's permits are listed below:

George Smallwood, 1505 Avenue X, one-room addition to residence, $800, W. A. Morris, contractor.

J. F. Tom, 1615 Sixteenth street, six-room brick veneer residence, $4,000.

Charles F. O'Neall, 1916 Nineteenth street, five-room brick and tile residence, $3,250.

JONES PIONEER DIES

Mrs. Huie, 98, Claimed By Death Friday in Anson

ABILENE, Jan. 12. (AP)—Funeral services were held at Anson, Jones county today for that county's oldest resident, Mrs. Rebecca Jane Huie, 98, who died yesterday.

Mrs. Huie is survived by 24 grand children and 54 great-great-grandchildren.

Farm Bureau Holds Meeting Saturday; Report Is Given

Between 75 and 100 Farmers Gather In Monthly Meeting; Judge Gough Speaks

Between 75 and 100 members of the Lubbock County Farm Bureau were present at the regular monthly meeting of that organization, held Saturday at the courthouse, at which the yearly report of N. H. Payne, field representative for this district was made and an interesting program held.

In Mr. Payne's report it was stated that 102 contracts were signed in the district during the past season, the membership being 1,500. The organization is operating six gins in the district and the delivery of cotton to the bureau, up to January 9, totalled 7,000 bales.

During the past year, Mr. Payne has held 68 meetings in the district, which includes the counties of Lubbock, Hockley, Terry and Cochran, attendance at these meetings totalling 12,000. He called on 400 group leaders and 300 prospects, signing up 102 prospects, travelling a grand total of 24,000 miles during the year.

Burroughs In Charge

James Burroughs was in charge of the meeting, one of the other features of which was an address on Boys' and Girls' club work, by Prof. Carroll Thompson, formerly county agent for Lubbock county. Dr. J. O. Ellsworth, of the Texas Technological college faculty, made a short talk and announced the Farmers' Short Course to be held at the college on January 29 and 30.

Judge L. Gough, formerly president of the Texas Wheat Growers' association spoke on different phases of grain and cotton exchanges as affecting the farmers, and I. J. Thornton spoke briefly thanking the Farm Bureau for their cooperating in 4-H club work during the past year.

Mrs. Douglas Pounds will be in charge of the next regular monthly meeting program, it was announced.

Rape Complaint Is Filed On Prisoner

A warrant was issued by the county here Saturday for the arrest of Tom Pettit, on a charge of statutory rape of a 14-year-old girl, the mother of the girl swearing out the complaint.

The crime is alleged to have been committed about 10 months ago, in this city, where the girl then resided, Pettit being said to have been a married man residing in the same neighborhood with the girl. He is now being held in the Scurry county jail on a charge of violating the prohibition laws, according to County Attorney Vaughn Wilson.

EARTHQUAKE FELT

Tremor Is Recorded On Seismograph

NEW ORLEANS, Jan. 12.—(AP)—An earthquake of severe intensity was recorded early tonight on the seismograph of Loyola University here. The quake was said by Father O. L. Abeel to have centered approximately 5,000 miles south of New Orleans.

The first tremor was recorded at 6:15 P. M. The secondary waves started ten minutes later and the severest intensity was reached at 6:42. The tremors ended at 9:10 o'clock.

CARNES TRIAL IS SET

Former Baptist Treasurer to Be Tried February 14

ATLANTA, Jan. 12.—(AP)—Solicitor General Boykin announced today that Clinton S. Carnes, former treasurer of the Southern Baptist home mission board, would be tried Feb. 12 on charges of embezzling funds of the board.

Carnes disappeared several months ago, and an audit of his books was followed by announcement that he was short nearly a million dollars. He was located in Winnipeg, Canada, and brought back to Atlanta where he since has been in jail.

POLICE CHIEF RESIGNS

Angelo Officer Quits After Pro Law Charge

SAN ANGELO, Jan. 12. (AP)—Carroll Bates, San Angelo chief of police, arrested Thursday by federal agents on a charge of conspiracy to violate the national prohibition act, resigned today.

"I deem it best, both for the city officials and myself, as well as the public in general, to hand in my resignation pending the outcome of the present investigation," Chief Bates said.

P. K. McIntosh has been appointed acting chief.

COLD SPELL SPREADS

Second Blast Hits Rocky Mountain Territory

CHICAGO, Jan. 12. (AP)—Near zero and sub-zero temperatures overspreading the middlewest today were augmented by the remnants of a second cold blast from the Rocky Mountain regions with prospects for lower temperatures tonight.

In Chicago, although the mercury descended to only one above zero when five below was predicted, one death was attributed to the cold and there were many cases of frozen feet, hands and ears. About 500 homeless men were housed in police stations last night and police were prepared to care for a greater number tonight.

New Spring Coats Arrive--

Fresh, new garments with all the smartness and attractiveness of a new season's creations now are on display. These garments have been arriving for two weeks now and have been held until this time because of our Sale. They are now on display for your approval.

They feature fine imported fabrics in new tan and pastel shades—sport types—dress types—general utility garments. You'll like them decidedly for they are quite different from former showings.

New Nelly Don House Dresses On Display

Smart new creations in Nelly Don House Dresses are now ready. These garments are decidedly desirable at this season for spring is just ahead with the many demands for just this class garment. Price levels this season are most attractive for entirely desirable garments are featured as low as $1.19, while others are shown in great variety at ---------- $2.95

New In the Shoe Section

Spring is blooming fourth in the Shoe section, for we place on display for the first time tomorrow a selection of fine Elco pumps in entirely new patterns. You'll remember the fineness of these fine shoes—you'll want to see them. They are priced, $13.50 and $14.50.

Hemphill-Wells Co.

Chief Lemond Warns Against Abuse of Traffic Regulations When Fire Trucks And Ambulances Are Answering Calls

Warning, for the benefit of the welfare of everybody, was issued Saturday in a statement of Chief of Police John Lemond, relative to strict enforcement of traffic regulations in this city during times when fire trucks or ambulances are making runs. The awful tragedy of Neuell Bryan, assistant fire chief, giving his life here last week, when he guided his fire truck into the curb to keep from running into an automobile loaded with women and children, brings home the hard fact that the public in general owes more cooperation to safety measures than it has been giving.

"The law says that citizens must not run their automobiles within a block of a fire," Chief Lemond stated Saturday.

Don't Follow Trucks

"Don't follow the fire trucks, when they start to a fire. The city's traffic cops have strict orders to catch every driver of an automobile they possibly can, who sets in to follow the trucks. And no favorites will be known."

The chief explained further that as soon the fire siren is heard, pull your car to the curb, or as near to it as you can get, and stop your automobile, until the fire trucks are clear by a wise and safe distance, as well as time. The same holds true of the ambulance siren, both these instances covered by city traffic regulations.

Danger Is Great

"Just suppose that it had been your wife and children in that automobile the other night, and that the fire truck, instead of being driven deliberately into the curb by Neuell Bryan, had come on straight ahead," declared Chief Lemond, "and you can see the danger of failing to get out of the way when fire trucks are coming."

There is a fine to be assessed against all motorists who are caught by the motor cops, which ranges anywhere from $5 to $200.

TAX LINE CONTINUES

Auto Registration Goes On In County; Totals 5,555

The lines continue to stand in waiting to pay the necessary money to secure 1929 automobile licenses, a total of 5,555 having been issued in Lubbock county, up to Saturday afternoon, according to records of the county tax collector's office. In addition to these there were 554 licenses issued to date for trucks.

C. G. Priest, deputy county tax collector in charge of the Slaton sub-station, announced Saturday that more than 400 licenses had been issued there, with a continual line standing for service.

FIVE MEN HELD

ANNISTON, Ala., Jan. 12. (AP)—Five men were held in jail here tonight charged with arson after an investigation of the burning of the farm home of Albert Calhoun, in which eight persons died Dec. 29.

Move Against Left Turn Rule Started

Movement against the traffic regulation forbidding left hand turns under the traffic lights along Broadway, especially the one at the intersection of Texas avenue and Broadway, has been started by the business men along the west side of the courthouse square and along the north side of Broadway west of Texas avenue.

Although it has not yet assumed definite proportions, this movement is expected to culminate with the circulation of a petition early this week, several business men having intimated that the petition was to be drawn up.

It is claimed by the business men of this section that traffic is necessarily hindered from reaching their establishments because of the present regulations.

"There are more traffic regulations in Lubbock than in the largest cities," one business man put it, "and we feel that the comparatively light traffic of Lubbock does not justify such rigid rules."

When the proposed ordinance is circulated and signed it will be presented to the city commission.

MEACHAM IS SUED

FORT WORTH, Jan. 12. (AP)—Suit for $4,000, alleged due as a fee from H. C. Meacham, former mayor, for serving as special prosecutors in the murder trial of Rev. J. Frank Norris in Austin, was filed by the law firm of McLean, Scott and Sayres in the district court today.

Wildcats Come Back To Trample Matador Cagers, 46-27

Texas Christian University Eleven To Meet Matadors Here Next Season

Arrangements Completed by Coach Freeland For Game With Horned Frogs On Tech Field On October 26th

Contest With Southwestern Conference Eleven Will Give Section Opportunity To Prove Financial Status

Coach E. Y. Freeland completed late yesterday arrangements with athletic authorities at Texas Christian University for a football game to be played in Lubbock October 26 between Tech Matadors and the Horned Frogs of the Southwestern conference institution. The Tech athletic head has been in communication with Fort Worth officials for the past several weeks, but not until a signed contract was returned yesterday was the contest assured.

The Horned Frogs will be the second Southwest conference to appear in Lubbock, Coach Dana X. Bible and his Texas Aggies played before a crowd estimated at 7,500 at Tech field during the 1927 season. School authorities here secured the game with the Christians with the belief that the Purple will draw the largest crowd ever assembled in the college stadium.

Freeland Pleased

Coach Freeland as well as other members of the Tech athletic council expressed themselves as being highly pleased in bringing the Fort Worth aggregation to Lubbock.

"Games with members of the Southwest conference will not only build up the football following of Tech, but will give this city an opportunity to show beyond a doubt that Lubbock can support a conference team," Coach Freeland said. "Our confidence in Lubbock and the South Plains caused us to match this game with T. C. U. and it will be up to the fans to prove that we were not mistaken."

L. C. Wright, athletic manager of the Fort Worth institution, writes "We hope that we can help you in building up athletics there in Tech by our appearance there."

Members of the Tech athletic council who met with officials of the Southwestern conference in Dallas last December brought word back that the question of whether or not Lubbock football fans would turn out in large enough numbers to insure the financial success of membership in the conference for Tech was the only thing that is keeping the college here out of the loop.

The Nut Cracker

By Joe Williams

Joe Williams

Gus Sonnenberg, the new wrestling champion, won his title by butting Strangler Lewis out of the ring. At last we have a wrestler who uses his head.

* * *

Gus might even be called a big butter and yegg man.

* * *

Sonnenberg is a former Dartmouth football player. That makes O'Goofty wonder just a little if intercollegiate football has been given its fair share of notice as a branch of disorderly conduct.

* * *

Sonnenberg has won many of his matches by throwing his victims high into the air and letting 'em fall as they may—a stock market theory.

* * *

There's one drawback about butting wrestlres, however. Occasionally one of them misses. Promoters have been put to great expense in repairing the walls.

Charging that the A. A. U. idea is that "there should be a sport governing body that will have supreme control over all the different sports," Major Griffith present the resolution.

Steers Nose Out Baylor Five, 22-19

Game Featured by Floor Work of Bob Kiersky And Brilliant Goal Shooting of Aubrey Smith

(By Associated Press)

WACO, Jan. 12. —The confident Texas University basketball team nosed out the Baylor Bears 22 to 19 here tonight.

The game featured the floor work of Bob Kiersky, sophomore star, and brilliant goal shooting of Aubrey Smith, high point man.

To add to the thrills of the occasion, early in the second half with Baylor leading 11 to 10, Rees of Texas batted the ball in the wrong basket to give the Bruins a lead of 13 to 10. The half had closed with Texas leading 10 to 9, a foul goal being tossed after the shot had been fired to give Texas that one point lead.

Late in the game Texas got a 5-point lead but with a minute and a half to go, Baylor whittled it down to one point. Texas got another goal and with a three point margin played for time the last minute, Baylor missing a goal just as the final shot was fired. Brock played a splendid game for Texas but his shooting was not up to standard.

The lineup:

TEXAS	F.G.	F.T.	Pts.
Looney f	0	0	0
Cheatham f	0	0	0
Brock f	3	1	7
Rees f	1	1	3
Camp f	2	0	4
Rose c	0	5	5
Wray g	1	1	3
Taylor g	0	0	0
Totals	7	8	22

BAYLOR	F.G.	F.T.	Pts.
Smith f	4	4	12
Kiersky f	0	0	0
Wilson f	2	0	4
Barksdale c	1	0	2
Witcher g	0	1	1
Guice g	0	0	0
Totals	7	5	19

Officials: Boggess and Myers.

Officials Reach Agreement On Go Set for Feb. 27

Sharkey's Manager Signs Contract Assuring Fight At Miami Beach With W. L. (Young) Stribling

(By Associated Press)

BOSTON, Jan. 12.—After haggling for three hours today, Johnny Buckley, manager of Jack Sharkey, and William F. Carney, vice-president of Madisan Square Garden, signed a contract which guaranteed the Boston heavyweight $100,000 for boxing Young Stribling of Atlanta, at Miami Beach, Florida, February 27.

The contract certified that the referee would be an official acceptable to both Sharkey and Stribling and that his identity would be disclosed by Jack Dempsey seven days before the bout.

Sharkey was not present during the negotiations.

Both Dempsey and Carey said Stribling already had accepted their terms, 20 per cent of the gate less the Taxes. Both predicted the receipts would exceed $500,000.

Once during the haggling, Buckley suddenly changed from a boxing manager to a promoter. He asked Dempsey if he would meet Sharkey for $400,000 and when the former champion refused, made it a half million. Dempsey, however, took it as a joke, although Buckley said Sharkey would be willing to fight for 25 percent and give one-fifth of his share to Rickard's widow.

Ft. Worth Roster Increased By 3

FORT WORTH, Jan. 12. (AP)—Acquisition of three new players has been announced by the Fort Worth basketball club. They are: Jim Bryan, outfielder; Fay Pierce, shortstop, and John Alloway, catcher.

Bryan and Pierce were on the Fort Smith team of the Western Association last year, while Alloway is a product of the Pacific Coast and Arizona State leagues.

WILL SUPPORT HEAD

Federation to Support Its President On Stand

WASHINGTON, Jan. 12—(AP) The National Amateur Athletic Federation voted today to support Major John L. Griffith, its executive vice president, in his opposition to the governing of all amateur sports by the Amateur Athletic Union.

The largest bronze statue in the world is the winged statue of Victory, near Turin, England, 60 feet in height.

Good Looks, Too

Here's Prince Henry Oana, Hawaii's first gift to professional baseball. He's 18 years old, six feet tall and weighs 198 pounds. He pitches, catches and plays the infield and has been signed by the San Francisco Pacific Coast League Club. He was also a star sprinter, basketball and football player at Honolulu.

Matadors to Risk Veteran Material For Track Season

Preliminary Training Will Start Within Week For Distance Candidates; Have Stiff Schedule

Although Coach Victor Payne, Matador basketball and track mentor, has his hands full developing a basketball machine out of a group of green cage candidates, the competition of a heavy track and field schedule has caused the college cinder director to check up on the material on hand to get some idea of the outlook for the coming season.

Facing stiff opposition and plenty of it, Coach Payne will likely depend upon the twelve veterans from past years to furnish the backbone of the 1929 track and field team. Headed by Captain-elect Vaughn Corley and the 1928 captain, J. H. Tadlock, the Matador thinly-clads will start individual work within the next week, but cannoto start official training until the basketball season has been completed.

Edmonds Will Be Missed

The passing of Roy Edmonds leaves the Matador track team without a sure point winner in the weight events. Edmonds held the state record in the shot put when in high school and continued to heave the missive consistently after entering Tech. Bruce Reed, Ameral Payne, and Leon Fisher are the experienced weight pushers who are expected to carry on for Tech this season.

In the various other track and field events, Coach Payne will have his letter men divided. J. H. Tadlock will run the hurdles and enter the jump events, Corley is a quarter miler who is a cog in the relay team as well as a sturdy 440 man. James Dallas, Charley Wooldridge, Leon Fisher, Elmer Moore, are other veteran 440 runners who are expected to compete in this event and the mile relay

Levi Walker and Dick Davis are expected out to enter the pole vault while Vernon Neal is a half miler who runs the two laps creditably. Others who may be expected to win points for the Tech cinder team are Ameral Payne, weights, hurdles and jumps and Bruce Reed, shot put.

CONTINUE RACING

Tiajuana Jockey Club Will Go On With Races

SAN DIEGO, Calif., Jan. 12—(AP)—The race meeting of the Tijuana Jockey Club, across the Mexican border from here, will continue. Racing will be held tomorrow.

Representatives of the Thoroughbred Horsemens' association and directors of the Tijuana Jockey Club came to an agreement on differences over the feed problem for horses late today at a conference which followed the regular program of eight events.

Jockey club officials agreet to the demand of horsemen that they be allowed to purchase feed at any point they pleased.

TWENTY-ONE LICENSES ISSUED

Twenty-one Licenses have been issued in Lubbock county this year up to late Saturday afternoon, records in the county clerk's office reveal.

Two marriage licenses were issued Saturday, to John Wheat and Miss Verdie Goin, and to Earl Slone and Miss Clara Irvin.

Doctors have a much higher mortality rate than either lawyers or clergymen.

Dempsey Turns Promoter to Carry Out Plans of Rickard for Fight Between Sharkey And Stribling

Ex-Heavyweight Champion Leaves for Florida To Complete Arrangements For Miami Bout

(Special To The Journal)

NEW YORK, Jan. 12—Jack Dempsey returned to New York from Boston tonight just in time to board a train for Miami Beach, Fla., where the former heavyweight champion of the world will make arrangements for the Jack Sharkey-Young Stribling bout there February 27.

In Boston Dempsey left William F. Carey, vice president and treasurer of Madison Square Garden corporation to straighten out business matters in connection with the Boston garden.

"Give me a break, boys," Dempsey called to newspapermen, "I'm a promoter now."

Revealing that his connection with the garden was for this one fight only, Dempsey said he was interested only in carrying out Tex Rickard's plans as he knew them and of being of every possible assistance in protecting the interests of Mrs. Rickardand her baby.

Sharkey, Dempsey said, was signed for two bouts under the Garden's promotion. Stribling, he understood, signed under similar conditions Dempsey said he believed Tom Heeney and Paulino Uzcudun would battle under a like agreement and that the winners of these two bouts would meet in a final elimination match some time after June. It was for this latter bout that the Garden offered each of the principals a second fight.

Dempsey said that in his opinion the winner of the Sharkey-Stribling fight would be the outstanding heavyweight in the country, at least for the time being.

Lubbock High To Meet Athens Five

State High School Champs In 1927 Will Play Westerners Here Jan. 19; May Meet Quanah Friday

Arrangements have been completed by Coach Del Morgan for a game in the college gymnasium next Saturday night with the Athens Hornets, high school champions of Texas in 1927 and runners-up last season. The Lubbock high school coach has been in communication with the Athens High school authorities for the past week and yesterday was notified by Coach Jimmy Kitts that the Hornets would be here on that date.

Coach Kitts is looking forward to another championship team for his cagers and is making a tour of West Texas to get his basket loopers in condition for the title games which are to follow.

Coach Morgan hopes to have the Quanah High school basketball team here on the night preceeding the game with the Athens five. Coach Bradford has expressed his desire to meet the local high school cagers in Lubbock at an early date and the contest will likely be staged next Friday night.

Canyon High school will be seen in action on the local court during the latter part of the month. Two games will be played here on the 25 and 26 of this month and the Westerners go to Canyon for return games on February 8 and 9.

Up to date the Westerners have split even on their early season practice games. Crosbyton and Ropesville have gone down before Coach Morgan's basketeers while Ralls and Monroe carried off their games with the local basketballers.

Armour Favored To Win Tourney

Washington Golfer Improves Lead Over Field In $1,000 Open Tournament At Los Angeles

(By Associated Press)

RIVIERA COUNTRY CLUB, West Los Angeles, Jan. 12.—To a man who faced world war battle, and carries scars of that conflict, a hazard strewn course means nothing.

Tommy Armour, who fought with a Scottish regiment, is the man. The tall Scot, now from Washington, D. C., tonight had so licked the well-bunkered course of the Riviera Country Club that little doubt remained as to who would be the next Los Angeles open golfing champion.

With superb wood shooting, Armour today lengthened to six strokes his lead over the field of six score professionals and amateurs in the tournament. His 68 for yesterday's 18 hole round was relegated to the background today when he clubbed his way past sand traps, and over hazards to a 67, four strokes under par.

His aggregate of 135 was so far ahead of the field that it was considered doubtful that he would be headed in the final 36 hole drive tomorrow.

A 21-year old came in for a share of the day's honors when Bob Stupple, Chicago, carved another par breaking trail. He was two strokes under par with a yon which with his 72 of yesterday gave him an aggregate of 141, and second place at the end of 36 holes.

The defending titlist, MacDonald Smith, seasoned Scot, stood tonight in third place with 142.

George Von Elm, Detroit amateur and Frank Walsh, Appleton, Wis. pro, deadlocked at 144, nine strokes behind Armour.

The veteran Al Watrous, Detroit, followed this pair with 145, then came Leo Diegel, Aguas Caliente Club of Mexico, and Horton Smith, Joplin, Mo., each with 146.

Hagen Improves

Walter Hagen played "all over the course", but turned in a better card than he did yesterday. The "Haig" with 77-74—151. was deadlocked with Al Espinosa, Chicagoan, with 74-77, and Thomas H. Cotton of London, England, 75-76.

Monroe Quintet Whips Floydada

Coach Floyd Blankenship's Monroe High schcol basketball team continued its winning ways last night by swamping the Floyada quintet 35 to 10 in a fast exhibition of the winter sport.

With Galey and Letsinger showing the way, the Monroe five held the upper hand throughout the contest and walked off with the game handily. Setting a terrific clip at the outset, the winners completely rushed the Floydada basketeers off their feet, scoring almost at will. Monroe was leading 19 to 3 at the half.

Galey led in scoring with 12 points and his team-mate, Letsinger, shared honors with him with 9. Nelson, Floydada center, led the losers in scoring wih 10 points.

Denton Teachers Trounce Baptists

DENTON, Texas, Jan. 12—(AP)—North Texas Teachers College swept its two-game basketball series with Oklahoma Baptist University by winning tonight's tilt, 22 to 16. Coummings scored 16 points for the Denton quintet.

At one time in the second half the winners, protecting their lead, kept the ball out of play nine minutes.

Ralls Basketeers Beat Turkey Five

(Special To The Avalanche-Journal)

RALLS, Jan. 12—Ralls Jackrabbits trounced the Turkey High basketeers 47 to 18 here tonight to sweep a two game series with the visiting team, using two teams with equal effectiveness.

Walker, Ralls forward, carried off high point honors of the contest with 13 points to his credit while Colvin of Turkey came next with 11 points.

The Jackrabbits grabbed the lead in the beginning of the game and set the pace from there on.

Coach Froggie Lovvorn announced today that Ralls will meet Athens High school here on Jan. 19 and 22. Estelline comes here for two games Jan. 24 and 25.

There remain approximately ated public lands in the United States, exclusive of the Territory of Alaska.

Warner Mizzell Offered Job In Movies But May Refuse It

By NEA Service.

ATLANTA, Ga., Jan. 12.—Not many young men turn down an offer to go in the movies, especially when a nice fat contract is offered, but Warner Mizell, Georgia Tech halfback, may be one of them.

Mizell had a successful screen test made out in Hollywood on the recent trip there to play for Georgia Tech against California and was offered a contract by one of the big companies. They sought to have him stop school to go to work at once.

But Mizell was undecided. He has another year of football at Georgia Tech. Besides—

"I don't know whether I'd like being in the movies" he says, "because I don't see where I am cut out for it. I might be happier in some other kind of work. You know, the movies offer sort of an abnormal life.

"I have time to think it over and I want to see what my parents say before I decide to do anything."

Leads Missouri

Justin M. Roach, of Kansas City, is leading the cage team of the University of Missouri, having been recently chosen captain. He has been a regular guard for two years.

LOUISIANA FIVE WINS

ALEXANDRIA, La., Jan. 12. (AP)—Rallying in the closing minutes the Louisiana College Wildcats ran up a score of 44 to 25 against the College of Marshall, Texas, Tigers here tonight, after three quarters of the contest had been close.

Track Outlook At Lubbock High Not So Rosy For 1929

Coach Lowry Facing Season With Scant Track And Field Material; Only Two Letter Men Back

Track Coach E. J. (Pinkey) Lowrey has anything but a bed of roses facing him for the coming track season. The track and field mentor for Lubbock High can hardly predict a undefeated season from the present outlook.

With a scant array of material around which to build a track, Lowrey can only hope that new cinder stars and husky field performers will pop up from out of nowhere to bolster up what now looks like a rather slim prospect.

Two letter men from last years squad will be back to lead the 1929 team. These are John Crawford, miler, and Charley Wilson, who runs the high hurdles.

Six members of last year's squad will be back this season to carry on for the Gold and Black. From this group as well as from new material expected out when training is begun next month, Coach Lowrey hopes to develop point winners.

Pole Vaulters Strong

Three pole vaulters are back from last season—Bob Pressley, John Green and Kittrell. H. C. Garrard distance man, is also expected to add power to the Westerner team. Greer Frizzell, weights; Lyle Hargrave, low hurdles and Edd Pangburn, middle distance, are the other squad members likely to come through this year. Earnest Schroeter, formerly of Wolffarth, is a likely candidate in the middle distance class.

Dash men are unusually scarce on the high school squad this season. Yancy Price, fleet lineman on the high school football team, may develop into a point winner for Lowrey.

Candidates in the distance class on the high school team will report sometime within the next two weeks, Coach Lowrey announced, but regular training for the whole squad will not begin until the latter part of February.

Mrs. Ama Johnson Buried Saturday

Mrs. Ama E. Johnson, 74, died at the North Side Tourist Camp early yesterday following a lingering illness.

Funeral services were held at the tourist camp at 3:30 o'clock yesterday afternoon with the Rev. S. H. Edwin, pastor of the Nazarene church, officiating. Burial followed in the Carlisle Cemetery under the direction of Bynum Brothers.

Mrs. Johnson had been in Lubbock for the past three weeks. She is survived by four sons: J. G. and Lee Johnson, of Lomita, Cal.; John Johnson, of McRoy, Ark.; and Will Johnson, of Kenedy, Ala.

UMPIRE SIGNS

NEW YORK, Jan. 12—(AP)—William J. Klem, National League umpire for 22 years, today signed a contract for his 23rd season, reconsidering a decision to retire.

LONE FINE PAID

One lone fine was recorded as having been paid in city court Saturday, the offense having been the making a left turn where such a turn is not to be made, and the amount of money stipulated being $3.

It is estimated that the close of 1929 will see more than 1700 airports in operation throughout the country.

Mustangs Trample Frogs In Opener

Fast Breaking Offense Is Factor In First Conference Win for S. M. U. Five; Frogs Lose Third

(By Associated Press)

FORT WORTH, Jan. 12.—A fast breaking offensive, combined with the sharp-shooting of Captain Brown, carried the S. M. U. Mustangs through to a 34-25 basketball victory over T. C. U. tonight on the Horned Frog court. There was but little to choose between the teams, and a spurt in the middle of the second half gave the Mustangs their margin of victory.

It was the first conference win of the season for the Dallas five and the third consecutive defeat for the Frogs. Each club had dropped a couple of games previously to the powerful Arkansas University Razorbacks.

The first half opened fast and furious. First one team led and then the other, with the margin never greater than 3 points. The half ended with S. M. U. enjoying a 17-16 lead.

T. C. U. jumped back into the lead at the beginning of the second half but the advantage was short-lived. Taking long passes from down the court, Johnson and Brown rang up one field goal after another, and once they gained a six point lead.

T. C. U. Official Sees No Strained Relations In Air

Chairman of Frog Athletic Committee Believes That No Unfriendly Feelings Will Result

FORT WORTH, Jan. 12—Belief that no strained relations would result from the action taken by A. & M. College in securing the services of Coach Matty Bell, Texas Christian University mentor, was expressed by Prof. E. W. MacDiarmid, chairman of the Frog athletic committee, recently. While the controversy of the "dangerous precedent" has been raging in the newspapers of the section, faculty and student body of the Purple school have been congratulating the faculty and student body of the Farmers.

A plea that the amicable relations which have always characterized the relations of the two institutions be continued was presented by Prof. MacDiarmid. The two schools have always been more than friendly in their contacts, each receiving the other's student body in turn during the grid season and a spirit of "brotherliness" has characterized such meetings.

"The switch of coaches should do nothing to interrupt this fine spirit," is the opinion of MacDiarmid, "unless the student bodies are 'asinine' nothing but a closer relation will result."

The Purple institution is in the meanwhile, "coachless." With Ed Kubale returning as head mentor to his Alma Mater, Center, and with Matty already signed to succeed Bible in Farmerland, freshman coach Dutch Meyers and his assistant, "Bear" Raymond Wolfe, are the only staff members remaining next year.

Wild birds retain their instinct for migration even though the eggs are hatched in an incubator and the birds never see others of their kind.

Nervous diseases are much more prevalent among brain workers than among other sections of the community.

There is no real style in furniture that can be labelled "King George V," according to one authority.

Manufacturers of all kinds of goods from steel gates to jewelry send their representatives to the London museums to study the exhibits and get new ideas.

Paynemen Have Off Night In Losing First Game Of Season to Abilene Five; Coons Is Star

Abilene Christian College Wildcats found the Tech basketball quintet at its worst last night and came back with a deluge of field goals to even the series with Coach Payne's basket loopers to score a 46 to 27 victory. Hitting the basket from all corners of the court and displaying superior basketball in every department of the game, the Christians trampled the visiting cagers decisely in the first defeat suffered by the crimson squad this season.

Wish Wash Coons leading the assault, the A. C. C. basketeers outpassed and outshot the Matadors from the first to the last whistle. Taking advantage of the severe attack of "butter finger" under which the Tech crew was laboring, Coach Dalton Hill's association hopefuls passed over and around the Tech defense to work the ball down to within scoring distance. When the Matador defense stiffened, the Felines fired from long range with equal success.

Forwards Off Form

The Tech forwards were undoubtedly off form. "Crip" shots which looked sure for two points bounced off the basket into the hands of a Wildcat guard and another tally for the visitors was in the making. Fisher and Hodges, the Tech scoring aces were shooting wild and were never able to get started with their offense.

Wash Coons, flashy Wildcat guard gave a sensational exhibition of goal shooting and all-around play, scoring a total of 18 points to carry off high point honors and making himself generally useful in breaking up the Tech offensive drives. He was followed in scoring by Pippins, who sank 6 field goals for a total of 12 points.

Fisher Starts Fireworks

Tech assumed a one point lead at the beginning of the game when Fisher made good a free toss, but the lead was short lived. Coons, Pippins and Purvis came into action, before the first half was half gone and grabbed a lead which was never relinquished. The visitors were leading 24 to 9 at the end of the first stanza.

The misery for Tech followers continued in the second half, but a feeble comeback furnished some consolation. Coach Payne switched his lineup repeatedly, but no combination was able to get the scoring machinery to working. Matador cagers missed almost enough free throws in the last frame to tie the score, but the old shooting eye was apparently blurred. Coons, Pippins and Purvis continued their scoring rampage, but this time were hitting the basket from long distance.

Coach Payne will invade the Wildcat stronghold in Abilene, Jan. 21 and 22 in return games. Simmons and McMurry will also be met during the five game stay in the "Athens."

The box score:

TECH	F.G.	F.T.	P.F.	Pts.
Hunter f	1	2	0	4
Hodges f	2	1	0	5
Pace f	0	1	0	1
Reeves f	0	0	0	0
Coppage f	0	0	2	0

BREAKS SWIMMING RECORD

EVANSTON, Ill., Jan. 12—(AP)—Al Schwartz, Northwestern University star, broke the national intercollegiate 100 yard free style record tonight as he and his mates defeated Purdue 41 to 19 in a dual swimming meet.

Schmart swam it in 52.9 seconds.

Rickard Had Hoped For One More Big Fight Success

Chicago Cubs Will Have Powerful Array Of Right Hand Hitters For Drive

Hornsby Figured To Furnish Punch For Wrigley Crew

McCarthy Puzzled Over The Problem of Arranging His Batting Order; Has Host Of Cence Busters

BY PAUL R. MICKELSON
Associated Press Sports Writer

CHICAGO, Jan. 12. (AP)—The old lady in the shoe has nothing on "Marse Joe" McCarthy, pilot of William Wrigley's pennant chasing Cubs.

McCarthy has so many powerful right hand hitters, among them the greatest socker in the National League, Rogers Hornsby, that he doesn't know how to arrange his batting order.

"It's got me stumped even though it does sound funny," McCarthy moans. "Just look over that list of right handed fence busters—Hornsby, Kiki Cuyler, Hack Wilson, Riggs Stephenson, Woody English, Gabby Hartnett and the rest. No foolin', it's got me guessing. How am I going to start them off."

But Wrigley merely chuckles. He can see nothing but a pennant for his Cubs in 1929, barring accidents. Rogers Hornsby, he is confident, will provide the punch to push the Cubs right up to the top at the start and keep them up there at the finish.

With Hartnett catching, Grimm at first, Hornsby at second, English at shortstop and Wilson, Cuyler and Stephenson in the outfield, and one of the best pitching staffs in the Heydler circuit, the 1929 crop of Cub rookies will have to play some class of baseball to stick with McCarthy's squad. The only possible openings are on the pitching staff and at third base.

Clyde Beck played the hot corner most of last season, but his batting was impotent and McCarthy is seeking somebody for that spot.

Two promising rookies will be tried for the position, Clarence Blair of Little Rock and Danny Taylor of Memphis. Blair hit .294 and led the Southern Association infielding last season. Taylor, who can play either third base or the outfield batted .374 in 1928 and was one of the best base runners in the south.

In addition to their staff of hurling veterans, Charlie Root, Sheriff Blake, Guy Bush, Art Nehf, Pat Malone and Carlson, several promising mound artists wil ltry out with the Cubs during the training season. Among the most promising is Mike Cvengros, who earned his third try-out with the majors by pitching great ball for Wichita Falls in 1928. Berlyn Horne, who comes from Jersey City, a second division club, with 15 victories and 17 defeats, and Clyde Day, who comes from Omaha of the Western League where he won 17 games with another mediocre club.

YOU and BASKETBALL

BY H. C. CARLSON, M. D.
University of Pittsburgh Basketball Coach

The dribble has long been a bone of contention among well-meaning groups. It is essentially an individual effort, and its indiscriminate use is bad. At the same time, however, its value is such that it had withstood all attacks and it will probably remain part of the game.

The dribble has its place, and the knowledge of when to use it is just as essential as its technique. Broadly, you can dribble when you can neither pass nor shoot.

Long dribbles are passe; for regardless of your ability, speed, change of pace, and all deception you can practice, you can rarely go far.

Some players have the bad habit of taking a bounce as soon as they receive the ball. By so doing, they deprive themselves of an offensive weapon. The thought before receiving the ball should be about getting to the point where the pass will come; then about where to pass.

Know the occasions on which to use the dribble. Realize that it is to get over territory fast and that it is the only means to the more important end of passing to a teammate.

In dribble practice, learn to stop, gaining possession of the ball and stopping with a little jump and the body inclined backwards.

Cubs Schedule 32 Games In Spring

CHICAGO, Jan. 12. (AP)—A 32 game spring training schedule in which the Detroit Tigers will be the only major league opponents was announced today by the Chicago Cubs.

On the schedule:

March 28, Cubs vs. Detroit at El Paso, Texas.

March 29, Cubs vs. Beaumont at Beaumont, Texas.

March 30, 31, Cubs vs. Kansas City at Beaumont, Texas.

April 1, Cubs vs. Beaumont at Beaumont, Texas.

April 2, 3, Cubs vs. Detroit at Beaumont, Texas.

April 4, 5, 6, 7, 8, 9, 10, Cubs vs. Houston at Houston, Texas.

Passing of Maker of Champions Recalls Brilliant Career

From that day, more than 20 years ago, when an unknown George L. Rickard matched Battling Nelson and Joe Gans, leading lightweights of their day, for a purse of $30,000 at Goldfield, Nev., until his death at Miami, Fla., Tex Rickard has dictated the championship destiny of his time. A maker of ring kings, Rickard has raised the fight game from a lowly enterprise to the realm of million dollar business. Gans, Nelson, Johnson, Jeffries, Willard, Dempsey and Tunney, are among the leading fighters this premier showman of the fight game raised to the pinnacle of fame.

Gene Sarzen Is Miami Beach Open Tourney Champ

Golfer Adds Another Title To Long String of Wins He Has Acquired At The Florida Resort

(By Associated Press)

MIAMI BEACH, Fla., Jan. 12.—Gene Sarazen in a garrison finish, climaxed by a 30-foot putt for an eagle three on the 72nd hole, today with a gross of 295 won the Miami Beach open golf tournament, adding another title to the string he has acquired in Miami and Miami Beach events. He nosed out George Christ, Davenport, Fla., and Rochester, N. Y., pro, who won second money with 287.

The 36 holes today were played over the La Gorce Course. Christ reached the 54th hole with a lead on the next nine Sarazen, flashed in front by one stroke. Christ held on determinedly and at the 16th of the last holes had gained back the stroke and was one in the lead. At the home green however, Christ was forced to take a five when he missed his putt for a tie.

Johnny Farrell, National Open champion, George Voigt, Douglaston, N. Y., amateur and Willie Klein, a Gorce pro, tied for third place, with 293 each.

Harry Hampton, Key West, who tied with Sarazen at the conclusion of yesterday's play on the Bayshore Course at 141 brought up a 294 for sixth place.

Derby Will Begin This Year May 18

LOUISVILLE, Ky., Jan. 12. (AP)—The Kentucky Derby this year will be run May 18, second Saturday of the meeting at Churchill Downs. The date selected was approved by the state racing commission here today.

Opening Saturday, May 11, the spring race meeting will continue through Saturday, June 1. Besides the derby for three year olds at one mile and a quarter, other important stakes will be decided.

Among horses looming as derby aspirants is the Three D [illegible] Farm's (Arlington, Texas) Double Heart.

A school is to be established at Tingura, Peru, for training in agriculture and the breeding and care of livestock in the Andean Mountain region.

HOOKS AND SLIDES
By Henry L. Farrell

He Ain't No Wow

All this talk about George Godfrey being such a wow of a fighter is going to make another Harry Wills out of him. That is, all the chatter is going to get the customers to thinking that he is a great fighter and the uncrowned champion.

Wills became a very rich man. Smart old boxing men knew he couldn't fight a lick, but the public that that even Dempsey was afraid of him. The result was that Harry, with the mantle of the persecuted around him, was able to fight bums that no other fighter in the country could get away with.

When the chance finally came for Wills he was plastered and then the customers decided that he never was a fighter. The history of the Godfrey case probably will be written in the same fashion.

* * *

Just a Big Fella

Personally we don't believe that Godfrey is even a good fighter. Size is the only asset he has and beef and bulk don't make a man a champion. He's old and slow and he is too long on his career to learn to be a fighter if he didn't know how way back when he was Dempsey's sparring partner.

Godfrey is a nice fellow and Jimmy Dougherty, his manager, is a prince. I hope they make a lot of money. But I am not going to be any part of a ballyhoo that sets him up as a martyr.

There are lots of heavyweights who won't fight Godfrey. There are a lot of light heavyweights who won't fight Tommy Loughran and there are a lot of heavyweights who won't fight Loughran, but Loughran isn't posing as a martyr.

"If Godfrey is so terrible, name someone who can beat him," you might ask.

"Well, we'd like to see Godfrey beat that K .O. Christner fellow and Christner certainly is not a great fighter.

* * *

Figure This Out

Supposing what would have happened if Knute Hansen had gone through with his plans and had fought Godfrey. The match was made and Hansen took on a warm up match with Christner and was knocked out.

If Hansen had gone right into the Godfrey match it is quite likely that he would have been knocked out and then there would have been a tumult that he was the champion because it hadn't been so sey had said that Hansen was the greatest of the heavyweight contenders.

Even though Christner, who through his punches like Jim Duncan used to swing the discus, did knock out Hansen it is not so certain that Godfrey would have done the same thing under the same circumstances.

Godfrey is a timid fighter and he would not have had the lack of respect for Hansen that Christner did.

And at the same time Hansen would have been more careful and alert against Godfrey than he was against Christner.

LANGFORD TO COAST

CLEVELAND, O., Jan. 12. (AP)—Elton M. "Sam" Langford, Texan, center fielder for the Cleveland Indians last year, has been turned over to the San Francisco Seals in part payment for Earl Averill, the coast slugger, it was learned today.

Hammond Elected Bear President

San Antonio Stockholders Name Hammond to Succeed Harry Ables, Who Resigned

SAN ANTONIO, Jan. 12. (AP)—H. H. Hammond is the new president of the San Antonio Bears of the Texas Baseball League, succeeding Harry Ables, who resigned several weeks ago.

Hammond was elected today in the annual meeting of the stockholders who selected directors, who in turn, elected officers for 1929.

Named directors: Dr. J. H. Burleson, H. H. Hammond, J. F. Armstrong, J. L. Yarbrough, C. T. Abbey.

The directors elected these officers: Hammond, president and treasurer; Dr. J. H. Burleson, vice-president; J. L. Yarbrough, secretary, and Tom E. Conner, jr., assistant secretary and business manager.

Conner was placed in active charge of the club.

Music has a prominent place in student activities at Girard College, Philadelphia.

Jack Dempsey Was Promoter's Main Hope to Give Public Another Scrap That Would Draw Million Dollar Gate

Rickard's Place Can Never Be Filled, Says Farrell; Was Preparing for The Day of Retirement

BY HENRY L. FARRELL
NEA Service Sports Editor

Tex Rickard will be replaced at Madison Square Garden but his place will never be filled. The Garden will go on and the business of prize fighting will continue because it is the way of nature that some men's work must go on after them.

In spite of all his denials Rickard was preparing for the day of his retirement. He had organized such a staff of capable assistants that for almost two years he had ignored all the minor details of management and concerned himself only with "thinking up things" as he calle his passion for dreaming.

Rickard didn't concern himself with the routine attending the weekly boxing matches in the Garden. He didn't make the matches and sometimes he didn't even sign the checks which paid the fighters. Several years ago he was almost fed up to the quitting point with boxing.

"I'm getting sick of the fight business," he said. "Them fellers think I depend on them. The Garden don't depend on boxing and I am seriously thinking of throwing out regular weekly fighting next winter. Hockey is going so big we can make more money out of it than boxing. Maybe I'll show them fellers. They'll wake up if I tell 'em I'm only going to put on about three or four matches during the winter."

Because he allowed so much of the routine work to be carried out by his subordinates, the Garden corporation may not have to go out of the building to find a man to succeed to the general management. One of the subordinates probably will be moved up. But the Garden board and its 600 millionaires will not get a name to take Rickard's place and their business depends a great deal upon a big name. There isn't a man in the country big enough to furnish a name that will not make him missed. There probably are men prominent in the sporting world such as "Big Bill" Edwards, John Ringling or George M. Cohan, whose name would not be lost in the Garden building but there's no other name that would look right on the ticket ed admission to a world's heavyweight championship extravagan a.

Those million, two million and three million dollar fights were Tex Rickard himself. No other man can do a better job. He made the business by doing things that everyone told him coundn't be done and conditions, over which he had no control, finally became such that it seemed even Rickard couldn't do them.

After he had taken a fall in the promotion of the Tunney-Heeney fight, Rickard told me he though "them big days are over."

"You got to give them a fight and they know these fellers don't fight," he said. "I guess it's over if Dempsey won't work any more. I can't do nothin' with him any more. When he was in there they always knew they were goig to see a fight and some action and you counln't get a place big enough to seat 'em."

Rickard had the dream of one more tremendous heavyweight championship spectacle. It was a matter of personal pride with him. His dream was to get Dempsey in

Brownfield News

By MRS. W. H. DALLAS

SPIEGEL-KING

Reverend Shepherd of Tahoka officiated in a ceremony Monday afternoon, Dec. 31, uniting in marriage Miss Queenelle Spiegel of Chicago, Ill., and Mr. Ransom King of Big Spring, Texas. The bride, a most beautiful and charming lady, is a sister of Mrs. Arthur Sawyer, of Brownfield ,and has been a member of her sister's home for several months and has many friends who wish for her life's greatest gift,—happiness. Mr. King is a son of Mr. and Mrs. John A. King, who holds a responsible position in Big Spring, Texas. The couple left Brownfield, Sunday afternoon, Jan. 6, for their home at Big Spring, where they will go immediately to housekeeping in an apartment provided by the groom some time ago.

Miss Nell Lowry, of Bronte, and Miss Marie Brown, of Abilene and Coy Abbott of Riverside, California, were guests through the Christmas and New Year season of Mr. and Mrs. Jim Moore and Miss Viola Brown.

Mrs. L. A. Townsen has been a guest of relatives at Lampasas during the holidays. She will return to Brownfield shortly.

Mr. and Mrs. F. A. Turner of Snyder, Oklahoma, visited in the home of Mr. and Mrs. E. Brown recently.

Miss Bebe Auburg with Miss Bernice Lane were Lubbock guests recently.

Mr. and Mrs. H. Thompson, of Fort Worth visited Mr. Thompson's parents during the holidays.

MISS BROWNFIELD HONORED AT LOVELY PARTY

Miss Frances and Ray Brownfield complimented their guest Miss Martha D. Brownfield on Saturday evening with a lovely party and Miss Martha D. with her father and sister of El Paso, were guests during the season of the Brownfield home, and it was a pleasure to honor her at this jolly bunco party. Enjoying this delightful occasion were the honoree, Mary Handley Endersen, Martha McClish, Viola Cotton, Kathleen Hardin, Marion Hill, Pauline Hunter, Lenore Brownfield, Jane Brownfield, Frankie Pickles, Frances Brownfield and Alma Brown, Lee Brownfield, Murphy May, Sawyer Graham, Vernon Bell, Donald King, R. L. Lewis, James Cotton.

MISS THOMPSON ENTERTAINS ON HER BIRTHDAY

Celebrating her fourteenth birthday, Miss Nettie Thompson entertained a number of friends on Monday evening. Various indoor games were played and the charming hostess served fruit cake, cream and chocolate, after which the crowd attended a matinee at the Rialto. Among those present were Misses Mary Handley Endersen, Kathrine Holgate, Mary Boney, Lataine Eiche Ruth Hensen, Roselle Goodpasture, Frances Carpenter, Bernice Carpenter, Johny Corning, Lucille Burnett, Viola Cotton, Lenore Brownfield; Barney Holgate, Grady Goodpasture, Adolphus Goodpasture, Don King, R. L. Lewis, Gilliam Graham, Otis Longbrake, Sawyer Graham, Emory Longbrake, Spencer Kendrick, J. W. McPherson, Clifford White and M. E. Thompson.

Mrs. J. T. Auburg had for guests recently, her sister, Mrs. E. E. Smith and daughters of Crane, Texas.

Recent Brownfield visitors were Mr. and Mrs. Guthrie Cook and children, of San Angelo. Mr. and Mrs. Cook were former residents of Brownfield and have many friends who welcome them back to our town.

Mr. and Mrs. Jack Toone, of Wichita Falls, have returned to their home after a pleasant vacation in the home of their parents, Supt. and Mrs. W. B. Toone.

Mr. and Mrs. L. Pounds had for their holiday guests, their daughter, Mrs. E. B. McBurnett, of Crowell, Texas, and Mr. McBurnett; also another daughter, Mrs. N. Myatt, Mr. Myatt and children, of Slaton.

MISS PATTERSON HOSTESS TO J. U. CLUB THURSDAY

The J. U. club was charmingly entertained by Miss Ida Patterson on Thursday night at the home of Mrs. A. M. McBurnett. This was one of the most delightful of the New Year parties. Scoring high, in the bridge game, Miss Bessie Baldwin received a pretty motto as trophy. The hostess served most gracefully, a delicious plate of sandwiches, olives, stuffed dates and hot tea to her guests who were Misses Mildred Woodhead, Miss Eunice Banks, Miss Bess Baldwin, Miss Marie Bell, Miss Grace Hulse, Miss Lucille Flache, Miss Fay Martin, Miss Larue Sawyer, Miss Martin and Miss McBurnett. Violet McBurnett received pretty pin cushion for cutting high.

Miss Olga Fitzgerald is ill this week with the "flu" as is Mrs. Dyce and Mrs. Holmes of the teaching force at the grade school.

Mrs. Ivy Savage has been out of Grade 2 this week on account of illness.

Mr. and Mrs. Uyless D. Sawyer and little daughter, Merle, of Cross Roads, New Mexico, visited here recently. Mrs. Sawyer went to Snyder for a stay of several weeks, where she will have treatment under a specialist. Their daughter, Fern Sawyer, returned to school here Monday.

Grandmother Daugherty, beloved mother of Mrs. A. M. Brownfield, Mrs. W. G. Hardin and Mrs. Redford Smith, passed away Tuesday a. m. ,after several days of illness. Everyone who knew Grandma Daugherty loved and admired her for her truly Christian characteristics. Further words will be given in the next issue of Brownfield items.

Mrs. H. G. Lees and little son Herby, jr., and little daughter, Mary Jean, of Big Spring, will arrive Friday for a short visit in the home of her parents, Mr. and Mrs. W. H. Dallas.

Uyless Graham has returned to New Mexico Military Institute to resume his studies. This is Mr. Graham's second year in this school of learning at Roswell, N. M.

P.-T. A. MEET JANUARY 15

The Parent-Teachers association will have a program at the school auditorium, Tuesday night, January 15. A cordial welcome is extended to all interested. The program, as arranged by the vice-president, Mrs. Flem McSpadden, is as follows: Song, by audience; address, selected, Supt. W. B. Toone; violin-piano selections, Miss Bess Baldwin and Mrs. Dallas. A ladies quartet, composed of the voices of Mesdames McGowan, E. V. May, J. L. Cruce and H. R. Winston will sing. The room attendance, as usual, will be counted and prize awarded the room having the largest number of parents present. The president, Mrs. L. J. Dunn, will have a message at this time. Again the P. T. A. urges a large attendance.

MAIDS AND MATRONS' CLUB HEAR ADDRESS

The Maids and Matrons club, a small representation of this study club, absent on account of illness, met in the English room of Brownfield high school, on Tuesday afternoon at 4 o'clock. Prof. Don Murphy of Texas Tech, gave a most interesting review and discussion, concluding the French novel, "Renee Mauperin" being read by the club. "The Way of All Flesh", by Samuel Butler, English novelist, will be the subject of the next address. A business meeting will be held soon of the Maids and Matrons, when officers of this organization will be elected.

L. Brock and daughter, Miss Edna Brock, are in Fisher county, being called there on account of the serious illness of his aged mother.

CROSBYTON NEWS

By MRS. V. M. CURR

HAVE FAMILY REUNION

Mr. and Mrs. H. H. Biggerstaff of the East Plains enjoyed a family reunion on Christmas day. This was the first time all of the children had been together in five years. Those coming from a distance were: Mr. and Mrs. M. Biggerstaff and sons of Anadorka, Okla., Mr. and Mrs. R. Biggerstaff and daughters and Herman Biggerstaff of Kirkland, Texas; Mr. and Mrs. M. P. McCain and children of Littlefield, Texas; and Mrs. G. T. Mannix and children of Crosbyton. The turkey dinner was greatly enjoyed by all present.

Mrs. E. W. Suggs was hostess to the 1923 Literary Club Thursday afternoon at her home on third street. A Federated News report was rendered. Among the subjects discussed were, "The department of education and literature," led by Mrs. W. F. Ezell.

Mrs. E. W. Suggs discussed the County Federation program.

Mrs. W. C. Baker will be club hostess January 17th.

The Glad Hand Sunday School class met with their teacher, Mrs. J. F. Garber, and Elizabeth, for business and social. The Hundredth Psalm was read by Uatsene Suggs. Mrs. Garber led in opening prayer. The business was attended to after which the social hour came.

A delightful contest in throwing peanuts into large baskets, Geneva Work winning. Dainty refreshments of cake and cherry nut salad was served to the following members: Patsene Suggs, Francis McDermett, Hazel McPherson, Geneva Work, Skeet McDaniel and hostess, Mrs. Garber and Elizabeth and Hazel Boyd.

NEWLY ELECTED TAX ASSESSOR MOVES TO CROSBYTON

Geo. E. Mayes, newly elected tax assessor and his family have moved from Lorenzo to Crosbyton, where they will make their home. They are making their home in West Crosbyton in one of the B. W. Ellison houses.

Elder Y. W. West and family returned the latter part of the week from an extended trip into South Texas. They were at Austin, San Antonio, and other points in that part of the country. Brother West was holding appointments in that part of the country.

J. H. Crofford and son of Gilliland, Knox county, were last week looking after his farming interests. Mr. Crofford owns a farm south of town and is well pleased with his purchase.

FATHER DIED

A message came Wednesday morning from H. C. Brazier stating that Mr. King, father of Mrs. Brazier, died Tuesday afternoon at four o'clock. The Brazier Drug Store here was closed from three to five o'clock Thursday during the hour of the funeral services held at Pilot Point.

Mr. King has been ill for several weeks at the home of the family in Fort Worth. Mr. and Mrs. Brazier left here Tuesday morning for Fort Worth and was at the bedside of the aged man when he passed away.

WINS KNOT-TIEING CONTEST

In the Boy Scouts knot tying contest among members of the Boy Scouts the following awards were made:

First, Bryan Karr; second, Archie Karr; third, Wilson Johnson; fourth, Crockett Smith; fifth, Buster McDaniel.

Other entries which received honorable mention were: H. M. Reed, Arlis Coward, August Lieske, Woodrow Wilson, Jack Lucado and Victor Nixon.

GOOD RAINS FALL OVER THE COUNTY

One of the best winter rains for several years fell here Tuesday night, ranging from one half to an inch.

The rain fell slow and soaked into the ground, giving a splendid season. This rain coming at this time will be of unestimable benefit to growing wheat, and will be sufficient to keep the wheat going for some time to come. There is considerable acreage sown to wheat this year.

Farmers are very optimistic over the rain and say that it will put the ground in good condition for cultivation. The rain was general over the county.

REV. E. P. BUIE AND FAMILY LEAVE CROSBYTON

Rev. E. P. Buie, pastor of the local Presbyterian church, preached his farewell sermon Sunday, and left here yesterday with his family for Abilene, where he will take charge of the Hadera Valley. Brother Buie goes to take the work of a community preacher.

Brother Buie and family have been in Crosbyton for some four years and during that time has been pastor of the Presbyterian church. He has been active not only with his church matters, but he has taken an active and leading part in the Boy Scout movement, having been local Scoutmaster for two years and was county chairman of the Red Cross chapter.

MOTHER OF W. C. BAKER DIES MONDAY

Mrs. S. J. Baker, mother of W. C. Baker died Monday morning at five o'clock at the home of her son, John Baker, of Littlefield.

Funeral services were held Wednesday morning at the Rix Furniture Parlors of Lubbock, conducted by Rev. C. E. Dix, pastor of the First Baptist church of Crosbyton, and interment was made Wednesday in the Snyder cemetery by the side of her husband who preceded her in death several years ago.

Mrs. Baker was 88 years old at the time of her death. She is survived by five sons: W. C. Baker of Crosbyton; T. F. Baker of Little Rock, Ark.; John Baker, of Littlefield; E. A. Baker, of Denver, Colo.; J. E. Baker, of Mission.

PERSONALS

Mrs. R. C. Ellis of Lorenzo was the guest last week of her sister, Mrs. W. F. Ezell.

E. M. Aycock's mother died last Thursday at the home in Aspermont. Mr. Aycock was at her bedside when she died.

E. M. Perkins, president of the First National bank, went to Fort Worth Monday to attend a directors meeting of the Continental National bank of that city. He went to Dallas before returning home to visit his sons.

Mr. and Mrs. H. E. Sherwood, and daughters Helen and Janet, of Childress, are at the bedside of the bedside of the baby son of Mr. and Mrs. Olen Littlefield, who has been seriously ill the past week.

Ed Haynes left here Tuesday morning in answer to a message stating that his father had died at the home there late Monday night.

Mrs. O. E. Meadows and children have moved back to Crosbyton and will make their home here. She will build a home on lots just north of the First Baptist church, work to be started soon.

Mr. and Mrs. E. H. Hendricks, Levene Snodgrass, Mrs. Demmie Blassemgame, Miss Flora Hendricks and Mr. and Mrs. J. B. Miller spent Mr. and Mrs. Marvin Sanders of Fort Worth were guests at the Smith home Monday. Mr. Sanders has extensive land holdings in Crosby county which he visits every year.

Charles Emde is in Breckenridge and Desdemonia on business this week.

C. R. Houston of Floydada was in Crosbyton Monday on business.

Judge and Mrs. Green Harrison who have made their home in Crosbyton the past six years during his service as county attorney, moved back last Friday back to their old home in Ralls.

Ferne Fralin, daughter of Mr. and Mrs. Arlie Fralin, has been ill from the flu since the holidays.

The two year old child of Mrs. Cleo Hawkins died at the home of its grandmother at Lorenzo Friday from heart trouble. Interment was made in the Crosbyton cemetery Saturday.

J. P. Hackley has purchased the R. S. M. Carter place on College Avenue just west of Judge Buck's place and will remodel the house, build a garage and otherwise improve the property.

Stephen L. Struve, of Olton, spent the week-end here with relatives.

Carl Perry, from Guyman, Oklahoma, visited relatives here for several days.

W. H. Brown, of Lubbock, was here on business Wednesday. He is a representative for the Direct Mattress factory out of Lubbock.

Mr. and Mrs. W. A. Richter and daughters, were visitors in Lubbock Wednesday evening.

Raymond Donnell is visiting relatives at Sudan.

Mrs. Ed Hardin has as her guest her brother, J. H. Osborne, from Mission, Texas.

J. N. Hicks, of Goldthwaite, Texas, was here Wednesday on business.

Mr. and Mrs. Reuben Huey and son, of Dimmitt, were here visiting relatives Thursday.

Mrs. Ola Legg, of Plainview, passed through here Thursday evening on her way to Lubbock to visit relatives.

Howard Pearson, of Lubbock, representative for W. O. Wooten Co., was here on business Thursday.

Rev. J. F. Michael, pastor of the Methodist church, returned the first of the week from Memphis, Tennessee, where he had been attending the south-wide mission conference of the Methodist Church, South.

A free municipal school of beekeeping has been established in Buenos Aires, Argentina.

Plane Crash Toll Placed At Eight

Three Of Those Injured As Large Fokker Falls In Pennsylvania Succumb To Their Wounds

MIDDLETOWN, Pa., Jan. 12. (AP)—The toll of the army airplane crash at Royalton, near here, yesterday was raised to eight today when Sergeant Patrick Conroy, of New York City died in the Polyclinic hospital at Harrisburg.

Conroy had been the sole survivor of the crash in which one officer and six enlisted men were killed. He was brought to the hospital in a critical condition with a fractured skull and did not regain consciousness.

His death removed the main hope of the war department investigation of the cause of the tragedy.

Captain F. F. Christine, acting commandant of the airport, announced the Fokker plane C-2, a sister ship of the famous Question Mark and the machine in which Commander Richard E. Byrd made been in perfect condition when it left the field here on its fatal flight.

Part of the wreckage was hacked to bits to permit the removal of the body of Lieut. Henry R. Angell, of Birmingham, Alabama.

MATCH THIS

LONDON, Jan. 12.—England is going into the match-making business. Preparations are being made for installing an American invention which takes a log of green timber and turns it into matches, packed in boxes ready for the trade, in a period of one hour.

News Events And Personal Mention About People In Neighboring South Plains Cities

Brownfield News

By MRS. W. H. DALLAS

SPIEGEL-KING

Reverend Shepherd of Tahoka officiated in a ceremony Monday afternoon, Dec. 31, uniting in marriage Miss Queenelle Spiegel of Chicago, Ill., and Mr. Ransom King of Big Spring, Texas. The bride, a most beautiful and charming lady, is a sister of Mrs. Arthur Sawyer, of Brownfield ,and has been a member of her sister's home for several months and has many friends who wish for her life's greatest gift,—happiness. Mr. King is a son of Mr. and Mrs. John A. King, who holds a responsible position in Big Spring, Texas. The couple left Brownfield, Sunday afternoon, Jan. 6, for their home at Big Spring, where they will go immediately to housekeeping in an apartment provided by the groom some time ago.

Miss Nell Lowry, of Bronte, and Miss Marie Brown, of Abilene and Coy Abbott of Riverside, California, were guests through the Christmas and New Year season of Mr. and Mrs. Jim Moore and Miss Viola Brown.

Mrs. L. A. Townsen has been a guest of relatives at Lampasas during the holidays. She will return to Brownfield shortly.

Mr. and Mrs. F. A. Turner of Snyder, Oklahoma, visited in the home of Mr. and Mrs. E. Brown recently.

Miss Bebe Auburg with Miss Bernice Lane were Lubbock guests recently.

Mr. and Mrs. H. Thompson, of Fort Worth visited Mr. Thompson's parents during the holidays.

MISS BROWNFIELD HONORED AT LOVELY PARTY

Miss Frances and Ray Brownfield complimented their guest Miss Martha D. Brownfield on Saturday evening with a lovely party and Miss Martha D. with her father and sister of El Paso, were guests during the season of the Brownfield home, and it was a pleasure to honor her at this jolly bunco party. Enjoying this delightful occasion were the honoree, Mary Handley Endersen, Martha McClish, Viola Cotton, Kathleen Hardin, Marion Hill, Pauline Hunter, Lenore Brownfield, Jane Brownfield, Frankie Pickles, Frances Brownfield and Alma Brown, Lee Brownfield, Murphy May, Sawyer Graham, Vernon Bell, Donald King, R. L. Lewis, James Cotton.

MISS THOMPSON ENTERTAINS ON HER BIRTHDAY

Celebrating her fourteenth birthday, Miss Nettie Thompson entertained a number of friends on Monday evening. Various indoor games were played and the charming hostess served fruit cake, cream and chocolate, after which the crowd attended a matinee at the Rialto. Among those present were Misses Mary Handley Endersen, Kathrine Holgate, Mary Boney, Lataine Eiche Ruth Hensen, Roselle Goodpasture, Frances Carpenter, Bernice Carpenter, Johny Corning, Lucille Burnett, Viola Cotton, Lenore Brownfield; Barney Holgate, Grady Goodpasture, Adolphus Goodpasture, Don King, R. L. Lewis, Gilliam Graham, Otis Longbrake, Sawyer Graham, Emory Lonebrake, Spencer Kendrick, J. W. McPherson, Clifford White and M. E. Thompson.

Mrs. J. T. Auburg had for guests recently, her sister, Mrs. E. E. Smith and daughters of Crane, Texas.

Recent Brownfield visitors were Mr. and Mrs. Guthrie Cook and children, of San Angelo. Mr. and Mrs. Cook were former residents of Brownfield and have many friends who welcome them back to our town.

Mr. and Mrs. Jack Toone, of Wichita Falls, have returned to their home after a pleasant vacation in the home of their parents, Supt. and Mrs. W. B. Toone.

Mr. and Mrs. L. Pounds had for their holiday guests, their daughter, Mrs. E. B. McBurnett, of Crowell, Texas, and Mr. McBurnett; also another daughter, Mrs. N. Myatt, Mr. Myatt and children, of Slaton.

MISS PATTERSON HOSTESS TO J. U. CLUB THURSDAY

The J. U. club was charmingly entertained by Miss Ida Patterson on Thursday night at the home of Mrs. A. M. McBurnett. This was one of the most delightful of the New Year parties. Scoring high, in the bridge game, Miss Bessie Baldwin received a pretty motto as trophy. The hostess served most gracefully, a delicious plate of sandwiches, olives, stuffed dates and hot tea to her guests who were Misses Mildred Woodhead, Miss Eunice Banks, Miss Bess Baldwin, Miss Marie Bell, Miss Grace Hulse, Miss Lucille Flache, Miss Fay Martin, Miss Larue Sawyer, Miss Martin and Miss McBurnett. Violet McBurnett received pretty pin cushion for cutting high.

Miss Olga Fitzgerald is ill this week with the "flu" as is Mrs. Dyce and Mrs. Holmes of the teaching force at the grade school.

Mrs. Ivy Savage has been out of Grade 2 this week on account of illness.

Mr. and Mrs. Uyless D. Sawyer and little daughter, Merle, of Cross Roads, New Mexico, visited here recently. Mrs. Sawyer went to Snyder for a stay of several weeks, where she will have treatment under a specialist. Their daughter, Fern Sawyer, returned to school here Monday.

Grandmother Daugherty, beloved mother of Mrs. A. M. Brownfield, Mrs. W. G. Hardin and Mrs. Redford Smith, passed away Tuesday a. m. after several days of illness. Everyone who knew Grandma Daugherty loved and admired her for her truly Christian characteristics. Further words will be given in the next issue of Brownfield items.

Mrs. H. G. Lees and little son Herby, jr., and little daughter, Mary Jean, of Big Spring, will arrive Friday for a short visit in the home of her parents, Mr. and Mrs. W. H. Dallas.

Uyless Graham has returned to New Mexico Military Institute to resume his studies. This is Mr. Graham's second year in this school of learning at Roswell, N. M.

P.-T. A. MEET JANUARY 15

The Parent-Teachers association will have a program at the school auditorium, Tuesday night, January 15. A cordial welcome is extended to all interested. The program, as arranged by the vice-president, Mrs. Flem McSpadden, is as follows: Song, by audience; address, selected, Supt. W. B. Toone; violin-piano selections, Miss Bess Baldwin and Mrs. Dallas. A ladies quartet, composed of the voices of Mesdames McGowan, E. V. May, J. L. Cruce and H. R. Winston will sing. The room attendance, as usual, will be counted and prize awarded the room having the largest number of parents present. The president, Mrs. L. J. Dunn, will have a message at this time. Again the P. T. A. urges a large attendance.

MAIDS AND MATRONS' CLUB HEAR ADDRESS

The Maids and Matrons club, a small representation of this study club, absent on account of illness, met in the English room of Brownfield high school, on Tuesday afternoon at 4 o'clock. Prof. Don Murphy of Texas Tech, gave a most interesting review and discussion, concluding the French novel, "Renee Mauperin" being read by the club. "The Way of All Flesh", by Samuel Butler, English novelist, will be the subject of the next address. A business meeting will be held soon of the Maids and Matrons, when officers of this organization will be elected.

L. Brock and daughter, Miss Edna Brock, are in Fisher county, being called there on account of the serious illness of his aged mother.

RALLS NEWS

BY MRS. ROY MOSES

CELEBRATES BIRTHDAY WITH THEATER PARTY

Little Miss Frances Cooper, daughter of Mr. and Mrs. Ray Cooper, celebrated her eleventh birthday last Saturday afternoon with a theater party the Crystal theater.

After the matinee the guests were invited to her home where games were enjoyed and refreshments of cookies and punch was served to the following: Pauline Travis, Ruth and Bobby Haney, Laynette and Johnnie Birdwell, Mary Florence Taylor, Bettie Marie and Virginia Richards, Marcella Marie and Gene Ware and Elvira Drumheller.

VISITS ART EXHIBIT

Among the Ralls people who visited the art exhibit that is being held in Lubbock were Mesdames Herburt, and Jno. Birdwell and Misses Laynette Birdwell, Mary Florence Taylor and Aline McElroy

ROTARY CLUB

The Ralls Rotary club had a very entertaining program when they met Friday at the Ralls Inn for their weekly luncheon.

Judge L. A. Wicks had charge of the program. Mrs. Robertson sang a very pretty number and Miss Fannye McWhorter gave two clever readings. A number of Crosbyton members were guests.

CHAMBER OF COMMERCE TO HOLD OPEN MEETING

A meeting of the Ralls Chamber of Commerce to which the public has been invited is to be held Thursday evening, January 17, at the municipal auditorium. Among the out of town speakers for the occasion will be A. B. Davis of Lubbock.

The present president will give a review of the work done and things accomplished during the year. New officers will be elected at the meeting.

PERSONALS

Mrs. Trice of Waco is here visiting her sister Mrs. Ben Cole.

Mrs. Ed Hargrave returned to her home in Dallas the first of the week. She has been a guest in the home of her son, M. G. Hargrave, and family.

Raymond Goeth left Sunday morning for Amarillo where he will attend business college.

BOOST MUSIC CHARM

EAST ORANGE, N. J., Jan. 12. Proponents of a scheme to make instruction in music compulsory for county schools say it will reduce crime in the younger generation. "If you teach a boy to blow a saxaphone," they say, "he will never blow a safe."

It takes about fifteen months to season the wood used in making matches by the ordinary process.

HONORS MRS. ALLBRIGHT

Mrs. F. G. Sadler was hostess to two tables of bridge, honoring Mrs. Kirk Allbright, who left Friday for Roby, to make her home.

In the drawing of the score cards the honoree found a bottle of perfume attached to her card. The following intimate friends presented the honoree with a beautiful pair of silk hose: Mrs. Otha Key, Mrs. T. Wade Potter, Mrs. Irwin Miller, Mrs. C. C. Clements, Mrs. J. W. Porcher and Mrs. Edward Whicker.

Refreshments of fruit cake and pineapple whip were served.

DINNER DANCE

Thursday evening Mr. and Mrs. Irwin Miller entertained with a dinner dance, honoring Mr. and Mrs. Kirk Allbright.

The menu consisted of fried chicken, cream gravy, macaroni and cheese, green beans, rolls, peach salad and fried apple pie with whipped cream.

The invited guests were Messrs. and Mesdames Everett Whicker, Otha Key, C. C. Clements, T. Wade Potter, Kirk Allbright and Mill Harris.

BIRTHDAY PARTY

Tuesday afternoon Tyle Seale entertained his friends with a party honoring his fifth birthday.

After numerous games were played, the children were ushered into the dining room where five blue candles in pink holders burned on the birthday cake.

Refreshments of fruit salad with whipped cream and cake were served to twenty guests.

ROTARY CLUB MEETING

The Littlefield Rotary club met Thursday at the Presbyterian church, with 18 members present.

An informal program was given, after which the meeting was turned over to a round table discussion. Matters pertaining to the club were discussed. President R. E. McCaskill read a communication from Dr. Rue Parcells, district governor, of Amarillo, advising that he would visit the Littlefield club on May 17 at the regular meeting.

TWENTY ACE BRIDGE CLUB

The 20-Ace Bridge club met Saturday evening with Mr. and Mrs. C. L. Harless.

Mrs. Clyde Hilburn made high score for the women and received a bridge set. Dick Johnson made high score for the men and received a brush set.

Refreshments of nut pie and coffee were served to the members.

MISSIONARY SOCIETY

The ladies of the Missionary Society of the Methodist church, met Monday afternoon with Mrs. B. L. Cogdill.

After the regular business meeting Rev. Geo. Turrentine installed the officers for the coming year.

Refreshments consisting of sandwiches, patties and hot chocolate were served to the following members: Mesdames E. G. Courtney, G. S. Glenn, Lokey, J. W. Keithley, Van Clark, E. S. Williams, A. G. Hemphill, Geo. Turrentine, Carl Arnold and B. L. Cogdill.

OLD BRIDGE CLUB

Mrs. C. L. Harless entertained the members for her club and other guests Friday afternoon.

Refreshments of pie and coffee were served to the following: Mesdames F. G. Sadler, E. S. Rowe, Pat Boone, Jno Arnett, W. G. Street, J. C. Tuttle and C. L. Harless. Guests were Mesdames M. M. Brittain, C. E. Ellis, S. J. Farquhar, Kilpatrick, J. W. Porcher, R. T. Badger, Otha Key and Sidney Hopping.

PERSONALS

A. R. Hendricks of Lubbock, was here Tuesday on business.

An Important Announcement

HODGES BROTHERS
Will Sell For
CASH ONLY
Except Cream Separators, Wall Paper, Paint, and Farm Implements

This decision comes after careful deliberation and a thorough investigation of the best possible means of selling high quality merchandise at the lowest possible price.

We find that an unnecessary expense is acquired in our former method of sales and by eliminating these costs it will make it possible for us to sell even cheaper than we have here-to-fore, yet operate on the same high standards on which this establishment has been founded—Quality, Price, Honesty!

We wish to thank the many customers who have had accounts with us in the past. We hope that it will be our pleasure to continue pleasant associations on the new plan and assure everyone of you that you will find new low prices with Hodges Brothers' usual courtesy and square dealings.

Lorenzo News

MRS. R. L. BOWMAN
Staff Correspondent

The Catchings Entertain

Mr. and Mrs. J. F. Catching entertained with two tables of bridge on Friday evening, January 4, and in the games Miss Alva McLaury and Mr. Joe Schuler were winners of high score. At the close of the evening Mrs. Catching served a plate offering combination salad, ribbon sandwiches, date-nut pie topped with cream and coffee. Those playing were Misses Illene Wampler and Alva McLaury, Mrs. R. L. Bowman, Mrs. Catching, Messrs Clifford Rhodes, Joe Schuler, R. L. Bowman and Catching.

McLaury-Schuler

A wedding of more than usual interest because of the popularity of the participants, was solemnized on Saturday evening, January 5, at the home of the bride's sister, Mrs. E. S. Smith, when Miss Alva McLaury became the bride of Mr. Joe Schuler. It was a quiet wedding with only a few members of the immediate families present and Rev. R. S. Watkins, pastor of the Methodist church, officiated, using the ring ceremony. Following the ceremony the happy couple left for Fort Worth, the home of the bride's parents, Mr. and Mrs. A. E. McLaury. Mrs. Schuler has spent part of each year in the home of her sister, where she was visiting at the time of her marriage, for the past few years, and has a host of friends in Lorenzo, who knew and loved her for her charming personality. Mr. Schuler, who is connected with the Lorenzo Hardware company, is a young man of sterling worth and is well liked by friends and acquaintances. Others present to witness the culmination of this happy romance were Mrs. Charles Schuler, the groom's mother, his brother and wife, Mr. and Mrs. Ted Schuler of Petersburg, Cecil McLaury of Lubbock the bride's brother, and T. A. Easter and Miss Gladys Smtih. After a short honeymoon trip Mr. and Mrs. Schuler will be at home in the Woodward residence in east Lorenzo, formerly occupied by the Carroll Wilsons.

P. T. A. Meeting

The regular monthly meeting of the Lorenzo Parent-Teacher Association, which meets on the second Wednesday of each month, was well attended this week, considering how the community is affected by sickness. No program was undertaken but a well rounded-out business session was conducted. The new scenery an curtain for the stage had been installed in the auditorium and was displayed to all present and the bills was approved for enlarging the stage in front, the expense on the scenery and for the Association's space on the curtain, all of which amounted to about $100. Mrs. Ewell Smith was placed at the head of a committee to get up a play to raise funds to finish paying for the Giant Strides on the play ground of the grades building. The committee to buy fifty trees for the campus, headed by Mrs. J. L. Suits, reported 12 trees had already been donated and expressed an assurance that no trouble in getting the rest of the number was anticipated. The meeting was presided over by the president, Mrs. W. W. Anderson, and the secretary,treasurer, Miss Ethel Wells, gave a report on finances.

Woman's Study Club Elects New Officers

Mesdames Irl Robertson and Roy Terrell entertained The Woman's Study Club Friday afternoon at the home of Mrs. Terrell in northwest Lorenzo. On account of the influenza epidemic one of the smallest attendances of the year was recorded, only 11 of the 29 members being present.

In accordance with the policy of all state federated clubs, which is to elect new officers the first meeting in each January preceding the election of district officers at the District meetings, this was the meeting to elect new officers. Mrs. R. L. Durham, a charter member of the club at its organization in 1922, was elected president to head the club for the next two years. The following corps of under-officers was elected to support her: Vice president, Mrs. Dewey Sullivan; recording secretary and treasurer, Mrs. J. L. Sutis; corresponding secretary, Mrs. R. L. Bowman; parliamentarian, Mrs. E. S. Smith; press reporter, Mrs. Ewell Smith.

Dr. J. C. Granbery, of the Tech faculty, director of the year's course on "Social Problems" lectured on "The Family, Marriage and Divorce and The Youth Movement." His lecture was intensely interesting on account of its much discussed present day popularity. Mrs. Roy Terrell contributed a splendid paper to the program on "The Problem of the American Home," another much mooted subject of the present day.

Delicious refreshments of pie and coffee were passed to Mesdames Roy R. Abell, R. L. Bowman, T. T. Easter, J. T. Howell, R. C. iKrksey, H. F. Pearson, Irl Robertson, J. L. Suits, Dewey Sullivan, C. R. Westerman, Dr. and Mrs. Granbery of Lubbock and Mrs. Terrell.

Music and Expression Recital

The music and expression pupils of Miss Pearl Laird and Mrs. Wanona Powers will be heard in recital at the high school auditorium Saturday evening, January 12 at 7:30 o'clock. A splendid program is anticipated. Miss Laird teaches violin and Mrs. Powers teaches piano and expression.

Bridge-Luncheon

Mrs. Ewell Smith entertained on Wednesday with a small but perfectly appointed bridge luncheon in her cozy little home on north Harrison Avenue. Her guests arrived at 10 o'clock in the morning, enjoying several games before being served a delectable luncheon of chicken fricasee, cranberry jelly, creamed peas in potato nests, combination salad, candied yams, sweet peach pickle, hot rolls, coffee, heavenly hash and fruit cake. The afternoon was passed in playing bridge until time to attend P. T. A. Mesdames R. Jones Goode, J. L. Suits, Dewey Sullivan and R. L. Bowman were Mrs. Smith's guests for this enjoyable all-day affair.

Miss Nancy Hale has returned from a month's visit with her friend, Miss Mary Blankenship, at Salina, Kansas.

Mrs. J. O. Easter went to Crosbyton on business Monday.

Mr. and Mrs. Britton Dillard of Lubbock were guests Sunday, for the first time since their marriage at Christmas, in the home of his parents, Mr. and Mrs. J. A. Dillard.

T. K. Wilson, of Hereford, has opened a produce house in the building first door west of the city secretary's office. Mr. Wilson comes to Lorenzo from a six years' residence in Hereford where he engaged in the insurance business.

Little Patsy Fagala, daughter of Supt. and Mrs. O. W. Fagala, was brought home this week from the Lubbock Sanitarium where she had been carried last week for treatment. Little Patsy was suffering from troubles that were the aftermath of flue, but at present is some improved.

Mr. and Mrs. Bailey Guess and daughter, Ruth, of Idalou, visited Grandpa Cartwright last Sunday. Mr. Cartwright is still seriously sick at the home of his daughter, Mrs. W. A. Wiley.

W. W. Anderson, manager of the Lorenzo Hardware company, attended a banquet at Hotel Lubbock Friday at noon given for International Harvester dealers in this section of the Plains.

Miss Muriel Linkenhoger was a last week end visitor in the home of her sister, Mrs. Newton Baker at Plainview.

Prof. J. M. Rankin of Ralls was a visitor Monday in the home of his sister, Mr. R. G. O'Gear.

Mr. and Mrs. L. N. Stevens were at Rochester, Texas, last Sunday visiting the sick father of Mrs. Stevens. They returned home Tuesday.

Mr. and Mrs. W. Carroll Wilson, accompanied by Mrs. Wilson's brother, George Lee Pebbles of Fort Worth, left Lorenzo Wednesday for Thorndale, Texas, where they will make their future home, in hopes that it will prove beneficial to Mr. Wilson's health.

Mrs. Ewell Smith and daughter Arline were Ralls visitors Thursday.

Mr. and Mrs. J. R. Goode, Mr and Mrs. M. D. Temple and daughters, Sallie and Jane, and Mrs. P. N. Stockton and son, Carey Paul, were down from Plainview Tuesday visiting at the home of their son and brother, R. Jones Goode.

Mr. and Mrs. R. L. Bwma and son, Terrell, were Lubbock visitors Thursday.

Mrs. S. C. Carlton was called to Graham last Friday to attend the funeral of her father-in-law, Mr. Carlton, who died suddenly in that city. The funeral was held Saturday and Mrs. Carlton returned to Lorenzo Sunday.

Mrs. Jack Agee has been elected by the school board to fill the vacancy caused by the resignation of Mrs. W. Carroll Wilson, and Miss Inez Cherry was elected an extra teacher to take care of the increased enrollment in the grades since Christmas.

A. B. Calhoun and family have all been sick for the last week. Others sick are Mrs. F. L. Terrell and Mrs. Aubrey Ashley.

Mrs. E. S. Smith and Mrs. R. Jones Goode carried Mrs. Smith's new car to Crosbyton Thursday to have it registered.

WHAT? NO BUSINESS!

PARIS, Jan. 12. — The smallest restaurant in the world is operated by a man who refuses to increase his business. It is the Petit Restaurant in the Rue Hippolyte Ledas. Although there is an ever increasing demand for more service, the owner insists on serving only one table which seats a maximum of five diners.

WINNIPEG, Jan. 12.—The longest grain train on record arrived here recently from Regina, Saskatchewan. It consisted of 135 cars of wheat, and was more than a mile in length.

Wichita Falls Fire Chief McClure Testifies

PROMINENT WICHITA FALLS OFFICIAL SAYS THAT AFTER TAKING ORGATONE HE FEELS JUST FINE

Nearly everybody in Wichita Falls especially business and professional people, is either personally acquainted with or has heard of Chief T. L. McClure, who for the past 15 years has been fire chief of Wichita Falls and whose office is at the central fire station. Mr. McClure is among the many well known and influential people who have been benefited by Orgatone, the medicine that is accomplishing such remarkable results in this city and vicinity.

In discussing his case with the Orgatone representative a few days ago, Chief McClure said:

"For the past three or four years I have been suffering from a very stubborn case of indigestion. Nothing I would eat agreed with me and most of the time I was afraid to eat for when I did I just suffered agony afterwards. My trouble was pronounced fermentative dyspepsia and it certainly caused great annoyance and much suffering to me. Sometimes I would make up my mind to eat a hearty meal but, my! how I suffered from it. I would have a full feeling under my ribs and pressure against my heart and get all bloated up and simply feel miserable. This I am told was due to the accumulation of gas caused by the food I ate laying in my stomach undigested. I could get no relief except for a short while at a time and I was afraid that sometimes an attack would prove serious.

"I was influenced by the high endorsements of Orgatone to give it a trial and also one of the boys at the station recommended it very highly and I will say that the results have been very satisfactory. I have only taken one bottle so far but I can eat a hearty meal and feel good afterwards. I am feeling better in every way and don't have any more fear of eating what I want. I don't suffer from the gas at all now and haven't had an attack of my old trouble since taking my first few doses of Orgatone. I can recommend Orgatone for the good it has already done me and it is the only medicine that has ever given me any relief that was at all permanent. People who have any trouble will do well to give it a trial. I attribute my present good health to Orgatone and have recommended it to several people on account of what it has done for me."

Genuine Orgatone is not a so-called secret or patent remedy but a new scientific treatment containing no alcohol or other false stimulating drugs and is sold in Lubbock exclusively by the Bowen's Drug Store, under the personal direction of a special Orgatone representative who is meeting the public daily. Out of town customers are being supplied promptly by mail upon receipt of price one bottle $1.25 or six bottles for $5.25. adv.

The little son of Mr. and Mrs. Decon Henry has relapsed with flu and is reported real sick.

Mrs. J. N. McReynolds has returned home from Sweetwater where she has been the past week at the bedside of her son. Clifford who was quite ill. He is improving nicely now.

Tax Payments At Normal Gait Now, Collectors Aver

Great Bulk of Property Owners Have Not Paid Taxes for Year; Penalty Applies After Feb. 1

With taxpaying time in full swing the line of citizens which must wend itself toward the various tax collectors' offices before February 1 or pay a penalty of ten per cent, is gradually becoming longer and in a greater ruhs.

According to tax assessors and collectors, the payment of taxes this year is about normal, with only a small per cent paid up to the present time and with only more than two more weeks before the taxes are delinguint.

Many persons paid their taxes late in last year from October on through December, but the most of them waited until the last minute, and the rush is now becoming more acute and is expected to continue throughout the remainder of this month.

Rendition of property for taxation in 1929 has been good with a sizeable rendered tax roll already completed, according to A. B. Ellis, new Lubbock county tax assessor who assumed the duties of office January 1. Mr. Ellis is now preparing renditions for the non-residents of Lubbock county, and an attempt is being made to have the non-resident property owners to send in their renditions in the future.

Early Rendition Urged

"As soon as you have paid your taxes come on up to the tax assessors office and render your property for the next year, and it will save both time and trouble for the property owner and the county officials," Mr. Ellis urges. "Property not rendered is necessarily marked 'unknown', making it extremely difficult to find when tax paying time comes," he explained.

According to I. F. Holland, who retired as Lubbock county tax collector on January 1, a total of 1,-331 poll taxes had been paid up until that time. This number marks the approximate number of property taxes paid up until that time, Mr. Holland is still busy clearing up all of the work of his administration of office. He virtually completed it yesterday, expecting to be through tomorrow.

Payments On Average

County Tax Collector, A. J. Clark, states that the payment of county and state taxes this year is about on an average with previous years. He requests that the public be reminded that the ten per cent penalty will be tacked on to all taxes not paid by the end of this month.

"The Lubbock Independent school district is badly in need of money at this time and unless a large amount of the school taxes is paid before the first of next month it will be necessary to borrow money with which to run the school," A. C. Jackson, city school tax collector reports.

BANDITS IN HAUL

Get $76,375 In Jewels And Furs Included

CHICAGO, Jan. 12 (AP) — Two bandits robbed six occupants of a taxicab of $76.375 in jewels and furs today, ordered their victims out of the cab, and escaped.

Dr. Frank E. Pierce and Mrs. Pierce; Mr. and Mrs. Luther S. Hammond, resident sof Chicago's Gold Coast, and Mr. and Mrs. C. H. Murphy, Detroit, were the victims.

BOOZE INDICTMENTS

KANSAS CITY, Jan. 12. (AP)—Twenty-five secret indictments were returned late today by the Jackson county grand jury in its investigation of bootlegging.

New Officers Of Slaton Post Are Placed In Charge

Dan W. Liles Installed As New Commander; Lubbock Legionnaires Are In Attendance At Ceremony

(Special To The Avalanche-Journal)

SLATON, Jan. 11—The Luther Powers Post of the American Legion met Friday night and installed officers for the ensing, the officers being:

Dan W. Liles, post commander; P. G. Meading, senior vice commander; Dr. E. C. Foster, chaplain; Harry C. Burrus, adjutant; Herny Jarman, finance officer; James S. Bates, sergeant at arms; R. W. Collier, jr., historian. The naw commander upon taking the chair appointed the various committees of the post to perform during the year.

The following members of the Allen Brothers Post of Lubbock were in attendance: K. M. Renner, H. D. Stanley, O. L. Evans, Dr. Bidwell, H. Parnell, C. Lincoln, J. A. Swindell, L. M. Lanham, Tom Carter and Charles Whitacre. Mr. Whitacre, post commander of Lubbock Post, administered the installation obligation to the incoming officers.

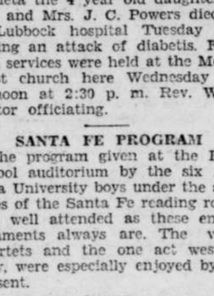

Sing Wartime Melodies

After completion of installation of officers a musical program was rendered by the string band of the Slaton Post including group singing of mar-time melodies followed by a spread specially prepared for the occasion consisting of sandwiches of various kinds with coffee and a follow-up of smokes for the afterdinner speaches which brought to memory the days spent in the uniform.

A special invitation was given the members of the Slaton Post to attend the next regular meeting of the Lubbock Post at which time Guy L. Gibbs, executive committeeman of the eighteenth district of Plainview will be a guest. Fifteen members signified that they would be in attendance.

WOMEN BOOST PLANES

LONDON, Jan. 12.—Women are doing more than men to popularize air travel. In six months recently more than 27,446 passengers crossed the channel by airplanes—a majority of them women—whereas the total number of passengers in 1927 was only 25,865.

The Next Day Is Never So Good As The Day Before!

Suppose unexpected illness or serious accident should visit you today; Have you surplus funds to meet the Doctor's and Hospital bills? Or, would money be a source of constant worry to you or to your family during convalescing?

All too few men make provisions for such unexpected emergencies while they enjoy good health and good earnings. A sensible plan is to have sufficient cash readily available to meet these emergencies as they arrive. We have such a plan and it will help you to build a cash surplus for use in time of need.

The plan is simply this—Open a SAVINGS ACCOUNT, and make deposits regularly on a definite schedule. Even though the deposits be moderate, their regularity will quickly build a substantial fund, ample to meet the requirements of an expensive surgical operation or hospital accomodations.

Compound interest is a force which will build a bigger sum than you can earn.

Open your savings account today — One Dollar will do the trick — And watch it grow.

See barrels on display in our window.

Scattered Oil Development Covers Plains Section

Activities Still Centered Around Hobbs Test Well

Starting Of Well In Lynn County And Reports Of Accelerated Play In New Mexico Feature

Oil activity in this portion of the state, while still centered principally in the eastern New Mexico section, nevertheless has spurs of drilling and leasing scattered throughout a wide radius.

There is every reason to believe that the coming year will see widespread drilling and leasing activity. Chances of the Santa Fe's rail extension southwest from Seagraves to the Lea county field are bright. This would afford an outlet for oil, should it be discovered in large quantities and it gives an incentive for development of the field. A pipe line is to be constructed in the near future out of Lea county and this, too, will boost marketing facilities for whatever potentialities the field possesses.

Scurry, Nolan and Jones counties figured prominently in oil news of the week, two producers—both nearing the 1,000 barrel mark—being brought in in the Jones county area during the week.

Million for Leases

From Scurry county, of which Snyder is the county seat, came the report that a million dollars in oil leases had been paid during the past year. Almost all of that county and part of Borden county have been checkerboarded by major producing companies.

Most of the scattered test wells in this immediate vicinity have been shut down during the holidays and drilling has not yet been resumed.

Thirty-Five Wells In Lea County N. M.

In Lea county, thirty-five wells are either drilling or have been completed and plans call or more than twice that number of wells during the year.

The Mid-West No. 1 at Hobbs is producing 2,000 barrels daily, according to reports presumably official. It remains by far the best well in the area. Location has been made and equipment is on the ground for the Mid-West No. 2 well, located 600 feet east of the No. 1.

200 Feet Depth Is Reached In Lynn

A depth of 200 feet has been reached in a test well being drilled in Lynn county, 30 miles south of here, by Dr. H. F. Miller of Slaton and others here.

A shallow find is expected, but a deep test will be made if necessary, officers of the company have announced.

Shell Keeping Up With Legal Phases

The Shell Petroleum company, subsidiary of the Royal Dutch Shell Petroleum company, has established offices in the Myrick building here. Four individuals work out of this office. A member of the Shell staff said yesterday that the work at this time would be principally to clear up legal matters in connection with recent leasing and royalties.

A close touch on such oil activity as may develop will be maintained, however.

Drilling Suspended On Ellwood Test

Drilling has been suspended on the test being sunk on the Ellwood property, west of town. Little definite information on this well was available yesterday.

Boles Ranch Test Down 3950 Feet

The Boles No. 1 test on the Boles ranch, six miles southeast of town, has reached a depth of approximately 3950 feet and drilling is temporarily suspended there.

Test Well Started In Yoakum County

Drilling has started on the Tanihill No. 1 by the Weekly Oil Company, the well being located in the center of the N. E. quarter of Section 791, Block D, Yoakum County. A depth of 4500 feet has been announced in the plans.

Pure Oil Test Down 2000 Feet In Gaines

More than 200 feet has been reached by the Pure Oil Company's No. 1 test in the N. E. one-half section of Block 10, Gaines county, 12 miles southeast of Seagraves. A hard lime and shale formation was encountered.

Drilling Suspended On Terry Test Well

Drilling has been suspended temporarily on the Kingsland Oil and Potash No. 1 in Terry county, near Brownfield. A hard grey lime foundation has been encountered.

When certain rivers in South Africa dry up in the summer a curious kind of fish, called mudfish, make themselves little nests in the mud and wait there until the river is full of water again.

Oil News Notes

(By Associated Press)

DALLAS, Jan. 12.—The Shell Producing company has brought in its No. 5 William Smith in the Joe Bruner field near Luling. The well, intended as an Edward lime drill, was allowed to flow when it reached 2,226 eet in the Buda lime.

Unloading of 70 cars of pipe for an oil line north of Kerrville has started. The pipe will go into the Texas Pipe Line company's 500 mile line from McCamey to Port Arthur.

Rapid progress is reported being made in construction work on the highway leading to the Cedar creek oil field in Bastrop county, Texas. Steel for the building of a bridge over the creek has been delivered.

OKLAHOMA CITY, Jan. 12. (AP)—Registering a gain of 4,543 barrels over yesterday's output, the greater Seminole field today guaged 283,285 barrels. The guage yesterday showed a loss of 3,504 barrels, while 7,428 barrels had been added to the total production during Monday, Tuesday and Wednesday.

An extension of the Chickasha gas field eastward with the probability of increased play was seen today as a result of the 40,000,000 foot gasser drilled in by John B. Nichols in 36—5 N 8 W. The well was producing from the Ramsey sand and is believed to have opened a new area east of the present pool to comparative assurance of production.

TULSA, Jan. 12. (AP)—North and west of Pawhuska in the Osage, the Peters Petroleum Corporation, and Producers and Refiners Corporation have a huge oil producer, flowing wild with an estimated output of 250 barrels per hour, or approximately 6,000 barrels daily from the Burgess sand.

Amerada Petroleum Corporation has a producer flowing, 1,375 barrels daily from the Misener sand in the Maud pool, greater Seminole field. Misener sand was drilled from 4,077 to 4,092 feet, and the well put 1,050 barrels into the tanks the first eighteen hours.

Leases Soaring In Hobbs Section As New Wells Appear

Location Made And Drilling Equipment On Site For Midwest No. 2. Just East Of Discovery Well

BY RAY B. McCORKLE
Special Correspondent)

HOBBS, N. M., Jan. 12—With major operators from all sections of America coming to Hobbs, and with leases and royalties soaring in price, it seems that it is now only a matter of time when this city will be in the heart of the world's next great oil producing area.

The Midwest No. 1 test, one mile south of this city is making better than 2,000 barrels of oil daily, and should the well be put on the pump this amount would be materially increased. The well is 4,200 feet in depth and has a lime formation more than 120 feet in thickness. Just what the well will eventually make can not be said, though experienced oil men say that the well has the ear marks of a gusher.

Storage Limited

Storage facilities are limited at this time, but once the pipe line is completed the well will be shot and it will likely make from 5,000 to 10,000 barrels, operators say.

Location has been made and equipment is on the ground for the Midwest No. 2. This well is located 600 feet east of the No. 1.

Ohio Plans Two Tests

The Ohio Oil company is erecting rigs for two tests, both of them being near the discovery well. The Bordeaux No. 1 Jenny Hughes, three miles south of the discovery well is drilling at 4,012 feeet with considerable oil in the hole.

It appears that Lea county will be given a thorough test for oil during the coming months. Eight major companies are interested in this field, and locations have been made for a number of tests. There are approximately 35 wells either drilling are completed in this county, and locations for almost twice that number have been made. The Hobbs well, located in the central east portion of the county is by far the best well in the county.

HONORED AT PARTY

Mrs. Ethridge Eagan Given Surprise Shower

Mrs. Ethridge Eagan, recent bride, was surprise honoree at a party given in her home yesterday, afternoon. Miss Alyne Odom was hostess and forty-two was played at tables decorated in bride's colors The favors were roses holding miniature brides. Refreshments of brick ice cream and bride's cake with plate favors of rose buds were served. At the close of the games the honoree was presented with a load of gifts brought in by Darlene Jone. The little girl was dressed as a cupid and the doll buggy which she wheeled in was decorated in pink.

Guests were Misses Lola Thompson, Dorothy Rylander, Mildred Harris, Georgia Lee Drake, Murvel Rankin, Johnnie Bass Richards, Helen Coon, Ruth Culwell, Alyne Huston, Evelyn Clark, Mildred Hinds, Florence Lawson, Nina Mae Odom, Stell and Caludia Lee Lercer, Corene Ratliff, Evelyn Sowell, Ola May, Mrs. R .C. Pace, and Mrs. H. W. Richardson.

Rumor Major Oil Companies To Put Tests In Scurry

Snyder Bustles With Geologists And Representatives Of Large Production Companies.

SNYDER, Jan. 12.—With the payment of more than a million dollars for oil leases in Scurry county during 1928, with annual rental of fifty cents an acre 1929 has opened up wider than at any time in the county's history with an influx of lease representatives who are taking every available acre in sight at $2.50. But the demand for any amount of acreage has increased and several tracts that have not before been wanted have been leased during the past week.

Rumor Test

The Southern Crude Oil company, considered one of the biggest producing companies in the country have come in for considerable acreage north of Snyder and there is a rumor a test well will be placed at an early date.

Unofficially, men in the employ of the Magnolia company have stated that they are to put a test well within the county very soon. They are among the largest holders of leases of any of the major companies. Authentic sources have failed to confirm the statement, however.

Hill Brothers of Fort Worth, who are known to be among the wealthy independent operators have come in for a large acreage northeast of town and their attempts to buy royalty of the same acreage indicates there is a possibility of a new test in that direction.

The Landreth Petroleum Corporation who have plugged a dry hole at 4300 feet, southwest of here, are considering drilling another well in the same locality, but have announced nothing officially.

All local hotels have been swamped with oil men and the building of the new $150,000 hotel here will be one of the greatest boons for the oil fraternity that Snyder could announce. The Worth Building & Investment Company of Fort Worth have secrued options on two lots fronting 240 feet on the Dal Paso Cavern Highway for the erection of a new and modern four story hotel of 56 rooms with all conveniences.

Daily Markets

FORT WORTH, Jan. 12—(AP)—The Fort Worth cattle, calf and sheep market today was a nominal affair in every sense of the word. No sheep listed in the day's receipts and only 150 cattle and 25 calves on hand. Practically all of the cattle on direct billing to local packer.

The few odd packages of cows sold steady with yesterday's market and included animals that sold at $4.00 to $8.25; heifers at $7.50 to $11.00 and calves at $6.25 to $10.50. The supply was so light in the cattle division that very few of the buyers came to the yards this morning.

Trade in the hog division began early and values steady to strong, best rail butchers up to $9.10 and the truck top at $8.70. Good to choice rail butchers, 200 to 400 pounds sold at $8.25 to $9.10, bulk of the 175-250 pound hogs cleared at $8.30 to $8.65; packing sows at $7.50 to $8.00 and fat pigs at $6.00 to $7.75.

KANSAS CITY LIVESTOCK

KANSAS CITY, Jan. 12.—(AP)—(U. S. D. A.)—Fat lambs met a broad demand early in the week and sharp advances of 50@75c were scored at most markets; at the close, however, some weakness developed and part of the upturn was erased; choice fed offerings reached $17.25 at the high time in Chicago, but on the close, the best passed at around $16.50, while at the river markets comparable kinds $16@16.15; matured uprices shared in the price advances aggregating supplies for the week totaled 287,850; against 205,030 last week and 274,828 a year ago.

Receipts of hogs at the 11 markets totaled 722,500 for the week an increase of 85,500 over last week and 55,300 more than a year ago. In spite of the increase receipts the market had a healthy undertone and final prices are strong to 25c higher over last week's close; the week's extreme top reached $9.35.

Trade in fed steers was very uneven; choice grades were scarce and some of the lighter weight steers and heifers closed strong to 25c higher; short feds predominated at most markets and are 25@50c lower; she stock finished the week steady to 25c lower; choice yearling steers brought $17.25 and best heavies went at $16.50 at Chicago; stockers and feeders sold active at 25c higher rates; choice 800 fleshy feeders sold up to $12.60 at Omaha, and white face stock calves reached $13.75 at Kansas City. Total arrivals were 191,550 against 165,487 last week and 227,306 a year ago.

NEW ORLEANS COTTON

NEW ORLEANS, Jan. 12—(AP)—The cotton market was firmer today due to several bearish influences and prices at onetime during the session showed gains of nearly $1 a bale. There was some week-end realizing and liquidating in final trading and March contracts traded down from 19.60 to 19.54 and closed at the latter figure compared with 19.42, yesterday's closing figure. The general market closed very steady at net advances of 11 to 13 points.

Liverpool cables were surprisingly steady at the start here and were reflected in an opening advance of 8 to 9 points in local prices. There was a continued demand after the start and active positions extended the initial gain to 15 points over the previous close. The early firmness was further stimulated by reports from two eastern spot centers that inquiries were the best of the season coming from mills and merchants.

Week-end covering caused some recessions but offerings immediately were absorbed and prices traded to new highs for the day at 19.60 for March and 19.62 for May or 17 to 18 points above yesterday's close.

The improvement was not fully maintained due to some week-end liquidation and evening up and January closed at 19.48 and May 19.56 or 11 to 13 points net up.

Receipts, 25,662; for year, 7,476,967; last year, 6,387,203. Exports 25,510; for year 5,071,223; last year, 4,095,219. Stock on shipboard, 137,269; last year 154,637; spot sales, 19,971; last year, 12,682.

NEW YORK COTTON

NEW YORK, Jan. 12.(AP)—The cotton market was higher today on covering combined with trade and commission house buying on more favorable reports in the southern spot situation and relatively steady Liverpool cables. After selling up to 20.24 or 20 points net higher for March contracts, prices reacted under realizing with March selling off to 20.14 and closing at that figure. The general market closed steady at net advances of 9 to 12 points.

The market opened steady at an advance of 12 to 15 points on the higher cables, and soon showed net gains of 15 to 20 points on the more active positions on reports of a steadier spot basis and better spot demand in the south. There was also comment on the steady showing of Liverpool. January sold up to 20.16 and July to 19.87, making new high ground for the present movement, and a recovery of about 60 to 64 points from the low level on Monday. The advance then was checked by week-end realizing, while there appeared to be a little southern selling, but these offerings were absorbed on reactions of some 8 or 10 points from the best, and the market was reported steady in the late trading.

A number of reports reached here indicated a steadier spot situation, and these advices were considered chiefly responsible for the better tone of the market. The amount of cotton on shipboard awaiting clearance at the end of the week was estimated at 170,000 bales against 131,000 last year and 213,000 two years ago.

NEW YORK STOCKS

NEW YORK, Jan. 12. (AP)—There was a widespread disposition to take profits, pending a clearing of the credit atmosphere, on the stock market today, and the majority of issues closed from fractions to nearly 9 points lower.

There were no news developments of a character to precipitate selling, but bulls appeared to become discouraged with the persistent heaviness of the market, and withdrew their support. The further stiffening of call money yesterday after increasing easiness earlier in the week tended to cast a gloom in speculative circles.

The pleasing industrial developments of the month so far seem to have been largely discounted last month. This is particularly evident in the case of the unexpectedly large increase in U. S. Steel's unfilled orders. While the issue forged ahead for a day after the announcement, it easily turned heavy today and closed about 2 points off.

An American bureau of metal statistics reported a moderate gain in copper stocks during December, but stocks are still comparatively low, and higher prices are predicted. Scrap steel prices were advanced at Cincinnati, and the Atchison Topeka and Santa Fe announced another large equipment order.

Wright Aero was the colorful performer of the day's short session selling off 3 points at one time, up a maximum of 13, and closing with a gain of 10. Otis Elevator mounted more than 8 to a new peak.

Pullman went ahead about 4 points in buying influenced by the impression that the regular $1.50 quarterly dividend on the old stock was on the new stock, which pays but $1 quarterly.

With U. S. Steel, the steel was largely heavy, Bethlehem Crucible and Ludlum losing part of yesterday's gain. Vanadium, however, stepped up nearly 2 points. Merchandising shares were soft, Macy and Co. losing more than 4 points Radio fluctuated over a 9-point range and closed down more than 3

Foreign exchanges were easy, with the demand rate for sterling down to $4.84 9-16. This revived talk of resumption of the gold movement from London to New York, with the movement from London to Berlin apparently halted with the lowering of the Reichsbanks rediscount rate.

CHICAGO GRAIN

CHICAGO, Jan. 12—(AP) —Grain prices went up with a rush today, buying on a big scale developing on after reports came that a special session of congress is assured. The news was generall construed to mean that ocmprehensive quick farm relief legislation has been brought to a practical focus. As a net result, corn soared to about 8 1-2 cents a bushel over prices current last week, with wheat up more than 8 cents, and all deliveries of corn and oats surpassing every top price record heretofore this season.

Corn closed 1 7-8 to 2 1-2 cents over yesterday's finish. Latest quotations for wheat were unsettled at 1 7-8 to 2 1-8 cents net gain while oats were 1-4 cent to 5-8 cent advanced and provisions showing 7 to 30 cents upturn.

Dawson County Agent Gives Resume Of Climatic, Soil, Crop Conditions In That Portion Of The South Plains

Peculiarities Which Make That Section Fine Farming Region Recited In Paper by W. W. Evans

(Special To The Avalanche-Journal)

LAMESA, Jan. 12.—In making a study of agriculture and livestock conditions in Dawson county, County Agent W. W. Evans makes pertinent observations as given in his statement below. Evans was educated in the public schools of Parker county and Weatherford College and in the A. and M. College of both Oklahoma and Texas.

He has been connected with the A. and M. colleges of Oklahoma as livestock superintendent and while in this capacity operated extension trains all over that country. In 1914 he was selected by the Katy Railway company as agricultural agent and when this country entered the World War Evans was appointed by the Secretary of Agriculture for special work in the southern states. He has served as county agent at Sulphur Springs, seven years, as secretary of the Chamber of Commerce at Paris and was appointed county agent of Dawson county in 1928.

Evans has the following to say of this section: "A vast domain of 'new hope' lies east of the Rocky Mountains and west of the Cap Rock of the high plains. Mindful of the evil and experience of impoverished lands and the distress of the one crop method experienced elsewhere there is a silent but expressive manifestation that here in this land of 'New Hope' and 'New Faith' it shall not re-occur.

Evans further says concerning Dawson count:

"Fringed on the east by a rugged line of rock, broken by canyons forming the very headwaters of the Colorado river, occupying a vast plain four hundred feet above the valleys is Dawson county, Texas. The rim-rock is a hard composite line, also granite and flint mossed with age, interspersed shells and fossils of a marine period. Below the rim-rock is a mixture of heavy clays; in the valleys a mixture of loam from the drift soils of the high plains. The high plains extend westward to the cap-rock overlooking the Pecos River Valley and beyond this to the Rocky Mountains. The soils of Dawson county is a deep sandy loam, red, chocolate or black in color, drifted in by the wind and water from the higher altitudes during the centuries past forming a loamy mass of soil-ingredients that is perfect in balance of plant food. Ideally adapted for the production of livestock of quality and for the production of grain forage and other crops. This mixture of soil changes little from natural causes, due to the fact that it is held in position by the rim-rock which is gradually higher than the terrain behind this barrier. Here and there are recessions through the rim which form canyons affording drainage. But the main source of drainage is by absorption as the loamy soils are deep and drink up the rain waters and in a phenominal manner hold them in reserve for growing crops. Sheet water of good quality is found in abundance in all parts of Dawson county at a uniform depth averaging ninety feet and still other stratas of good water is found at greater depths. The elevation is three thousand feet. This elevation is insurance against excessive hot winds and harmful humidity. The average rainfall is twenty-two inches per annum.

The summers are cool and the winters are mild and dry. The soil is uniformly fertile and deep. Topography is uniformly smooth, with long wavy slopes dotted with basins into which water collects until the soil within a short time absorbs it; then the basins bring forth wonderful crops of grass or other crops. The climatilogical department of the United States government has found that the rainfall, the heat and frost, the wind and other elements are more or less uniform over a period of years in keeping with the seasons, the soil and the lay of the land. Farming is a new enterprise in this section and available information has made it possible after years of trial to apply scientific information to this vocation with profit and success. Farming is different here than elsewhere in Texas and perhaps in no other section is more regard given to planting with reference to rainfall and date of harvest with reference to the known frost dates. Farmers have demonstrated the value of this observance and the experiment stations have proven it. Crops may be planted thirty to sixty days earlier but the dates proven most advantageous are April fifteenth to June first, and the pravailing date is measured from May 15. Farmers are generally successful here because they are more studious of the factors that control production.

"In Dawson county it is an exception to the rule to find a farmer who does not only produce his feed and food at home but has a quantity to sell. More and more it is becoming the practice to market the surplus grain through good livestock. In this way the grain and forage is converted into milk and butterfat, poultry, eggs, pork or beef and better prices are obtained than is the case where the grain is sold in carload lots. It is also an exception to the rule to find a farm not well supplied with canned products of both fruits and vegetables. Most every farm has large bins or stocks of grain and forage.

"Farmers are apparently more mindful of the practice of soil improvement, although the soil is new and productive much attention is being given to terracing and contouring the rows. The reasons for terracing in this level or rolling country is not altogether for the same reason it may be done at other sections of the country but more for the reason of inducting the rain water into the soil hence terraces are run on the level or given very little slope and incidently washing or flooding is pernented contouring is practiced farmers have found that by laying the rows on gentle curves following the level land with each row that water is controlled by each row and equally absorbed by the soil and stored in the soil for future crop use. Contouring the rows serve still a further usefullness as the curve rows protects young, growing plants from the long, straight sweep if the rows are straight. Friable soil are easily blown, they are also the best soils and on contoured rows the sweep of the wind is over them rather than along an unobstructed path.

More than 3000 women last year attended the free schools for working women conducted in Buenos Aires by the Patriotic League of Argentina.

Cotton Decline Maintained For Week Just Past

Price Of March Contracts Touches 19.60 At Beginning Of Week, And Then Steadies Slightly

(By Associated Press)

NEW YORK, Jan. 12.—The declining tendency which developed in cotton after the turn of the year continued until the price of March contracts touched 19.60 at the beginning of the week.

At this level, a decline of 60 points from the closing quotation of the old year and 123 points from the high price of last November, the market was steadied by trade buying and covering. There were indications that trade demand, presumably to fix prices on open cotton, was increasing on a scale down from the 20 cent level, and this inspired considerable covering.

The market rallied in consequence and probably was influenced toward the end of the week by belief that unfavorable features in the September statistics had been discounted with an expansion of business likely to follow the lull of the holiday season.

NOTICE OF FIRST MEETING OF CREDITORS IN THE DISTRICT COURT OF THE UNITED STATES FOR THE NORTHERN DISTRICT OF TEXAS. IN BANKRUPTCY, LUBBOCK, TEXAS.
IN THE MATTER OF NORMAN EBBRIDGE SMALLIN, Bankrupt, No. 9, IN BANBRUPTCY.
OFFICE OF REFEREE
Lubbock, Texas, January 12, 1929.
To the Creditors of Norman Ebbridge Smallin, of Petersburg, of the County of Hale, and District aforesaid, a Bankrupt.
Notice is hereby given that on the 11th day of January, A. D. 1929, the said Norman Ebbridge Smallin was duly adjudged bankrupt, and that the first meeting of his creditors will be held at my office, 314-18 Ellis building, in the City of Lubbock, Lubbock County, Texas, on the 23rd day of January, A. D. 1929, at 10:00 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

37. AUTOMOBILES

YOU CANNOT MATCH THESE CARS FOR VALUE

When all is said and done, purchasers are primarily interested in unused mileage. In each of these cars we offer you many unused miles at low cost. You can get more unused mileage for the dollar in a high grade used car than you can in a new one selling under a thousand dollars. These cars can be bought on small down payment. May we show you one of these.

1925 ESSEX COACH

Good tires and paint. We have reconditioned the motor and have placed the complete car in A-1 shape. Many miles of unused transportation at an exceptionally low price. 1929 license paid.

STUDEBAKER ROADSTER

With winter top, giving you the advantages of both and open and closed car. This car is in good shape and will make you a serviceable car for many miles.

1925 DODGE TOURING

You cannot beat this for a sturdy serviceable car. The motor has been reconditioned in our shop. Good tires, top and finish.

1926 CHRYSLER COACH

There are thousands of miles of driving pleasure left in this car. A-1 mechanical shape. Tires good. 4 wheel brakes. Priced to sell quickly. Easy terms.

Road Bonds Issue Carries In Crosby

(Special To The Avalanche-Journal)

CROSBYTON, Jan. 12 — Road Precinct No. 2 Crosby county was successful today in carrying a bond election to hard-surface Highway No. 53 from the city of Crosbyton to the Dickens county line.

This precinct includes the city of Crosbyton and has a record of never having a bond election defeated, Crosbyton going 432 to 55 for the bonds with a slightly smaller majority in the rural boxes.

The Crosby county good roads association of which W. M. Romane is president was responsible for a strenuous campaign carried on in behalf of the bond issue. A north and south highway through the county has recently been completed also being built by bond issue.

Accidents Claim 85 During Week

(Special To The Avalanche-Journal)

AUSTIN, Jan. 13—The Texas Council of Safety furnishes the following summary of accidents, their character and result for the week December 24-31:

	Injured	Killed
Automobile	312	41
Railway train	51	4
Interurban car	0	0
Street car	15	1
Airplane	0	3
Other vehicles	9	0
Falls	17	9
Burns	19	8
Drowning	0	3
Firearms	15	5
Explosives	22	3
Other causes	16	8
Total	476	85

Of the above 25 were injured and 10 killed in home accidents and 2 injured and 5 killed in industrial accidents.

Water containing magnesium and calcium salts does not swell gelatin as much as soft water does.

PLEAS BANKRUPTCY

Petersburg Man Files Petition In Court Here

Another petition for bankruptcy was filed in the United States District court here Saturday, according to Mrs. Olive Fluke, clerk. The petition is that of N. E. Smallin, owner of the Smallin Drug store, of Petersburg.

Liabilities listed in the petition total $9,287.25, while the assets are stated as $8,662.50.

The cost of firing a triple-turrent salve in the case of the seafighter H. M. S. Nelson is about $3500.

LEGAL NOTICE

NOTICE TO BOND BUYERS

Bids or proposals will be received by the City Commission of the City of Lubbock, Texas, at City Hall, 1.30 p. m. on the 24th day of January, 1929, for the purchase and handling of a bond issue voted on the 24th day of September, 1928, in the amount of $350,000 bearing interest at the rate of 5 percent per annum—interest payable semi-annually—bonds maturing serially over a period of not to exceed forty years from their date. Issues as follows:

$225,000 for the purpose of constructing street improvements,

$40,000 for the purpose of constructing water works extensions, and

$85,000 for the purpose of constructing sewer extensions.

This the 20th day of December, 1928.

H. D. WOODS, Mayor.

Attest:
W. H. Rogers, City Secretary.

COUNTY DEPOSITORY BID

I, Robt. H. Bean, County Judge, of Lubbock County, Texas, pursuant to Art. 2544, Revised Civil Statutes of Texas, 1925, and an order of the Commissioners' Court of Lubbock County, Texas, made and entered at the Jan. 1st, term, A. D. 1929, hereby give notice to any Banking corporation, association or individual banker in Lubbock county, Texas, that may desire to be selected as the depository of the funds of Lubbock County, Texas, that the Commissioners' Court of Lubbock County, Texas, will receive sealed proposals from said banking corporations, associations, and individual bankers, to become the depository of Lubbock County, Texas.

Said proposals will be received on the Second Monday in February, A. D. 1929, the same being the 11th day of said month, by the Commissioners' Court of Lubbock County, Texas, at which place, and on which date the selection of such depository will be made.

Said proposals should state the rate of interest offered on the funds of the County for the term between the date of such bid and the next regular time for the selection of a depository.

Said bids shall be accompanied by a certified check for not less than one-half of one per cent. of the County revenue of the preceeding year as a guarantee of the good faith of the bidder, and that if his bid is accepted, he will enter into the bond required by law.

All bids should be addressed in sealed envelopes, marked "Depository bids," to Amos H. Hazard, County Clerk, Lubbock County, Texas, Lubbock, Texas.

ROBERT H. BEAN,
County Judge, Lubbock County, Texas.

Free Pressing And Repair Service For One Full Year—

With every suit, overcoat or pair of trousers ordered through us we will give FREE one full year of pressing and repair service.

We are showing hundreds of domestic and imported fabrics from which you can select a suit or topcoat to be made to your measure from any style we show.

Searching the World for Perfect Logs

IN FOREST, jungle and the far lands of the world wood experts daily search out the most perfect logs to furnish the beautiful wood grains that decorate your furniture.

A GOOD log costs many thousands of dollars, travels innumerable miles to reach scientific modern machinery, which slices it into veneers of tissue thickness so that many hundred pieces of furniture may be beautifully decorated.

THUS INHERITED wood craftsmanship, plus modern machinery, makes possible beautiful designs in furniture at very small cos.

a charming place if properly furnished

What a wealth of charm there is to a distinctively furnished dining room . . . what an air of distinction it lends to each festive occasion. And here at Rix's are those dining room suites that create the atmosphere of comfort and hospitality that is so eminently desirable. They're shown in a wide variety of designs and finishes . . . in many different price ranges, as well.

8-Piece Dining Room Suite

8 Pieces—Table 45x54, Buffet 60", Arm Chair and five Side Chiars, genuine figured walnut, chairs upholstered in high grade tapestry with removable seats. A high grade suite at a low price.

Jack Dempsey

Continued from page Five

there again and he never gave up the feeling of confidence that Dempsey would fight again. After several conversations I had with him on the subject I was certain that he would retire from the business if he succeeded in getting Dempsey in another fight and putting over a big success he kept repeating that Dempsey was the only feller that ever could draw worth a dime.

Dempseys are developed only once in a generation and if a wizard such as Rickard needed a Dempsey what is there in prospect for the man who tries to take his place? There aren't any fighters now.

There has been some talk that Dempsey might be named to fill the vacancy but that would be an obvious act to get a well-known name on the door. The only man in the racket who could come any ways near approaching Rickard as a promoter is (yes laugh if you want to) Jack Kearns, but Kearns lacks one qualification that all of those millionaires would exact as an essential in an associate.

The business of boxers will be distinctly affected because Rickard was more generous than any other promoter ever was or ever will be. His board of directors called his several times foroffering exorbitant purses wtihout "black jacking" and even installed a hard-boiled assistant to set the price of the purses. The Paulinos, the Sharkeys, the Riskos and some of the others who were put in $100,000 country estates on Rickard pay checks will miss him. They certainly will never find a man to take his place.

Monday Finds 99th Court Open; Jury List Is Selected

Twelve Weeks of Proceedings Follow Court's Opening; First Week Is Non-Jury Session

The January term of the Ninety-Ninth district court will open Monday morning, the first week of the term to be a non-jury week and the term to be of 12 weeks duration, Judge Clark M. Mullican presiding.

Below will be found the complete list of persons drawn by the jury commissioners of the court at the October term, 1928, to serve as petit jurors during the second, third, fourth, fifth, sixth, eighth, ninth, tenth, eleventh and twelfth weeks, the seventh week being a non-jury week.

Petit Jurors for the 2nd week of the January Term of Court are:

J. J. Adams, Dick Adams, E. W. Agnew, J. J. Aiken, C. O. Akard, Alva Akers, O. H. Akin, Joe Baldridge, Joe Ballinger, J. O. Ballinger and L. E. Barker of Lubbock.

J. J. Allen, W. L. Barnett, J. L. Benton, W. R. Berkley, D. L. Bagby, Carl Greer, A. M. Frye, L. R. Gregory, of Slaton.

J. L. Anderson, Edw. M. Beret, J. R. Birdwell, J. H. Blake, Bill Roberts, J. R. Rush, of Idalou.

B. T. Ross, Sam Sanders, Elmer Kelsey, J. O. Jones, J. W. Donley, W. A. Isom and J. H. Lemons, of Lorenzo.

W. D. Cupps, Hurlwood; O. F. Corley, Wolfforth; Victor Blassingame, Becton; Philip Dundant, Petersburg.

Petit Jurors for the 3rd week of the January Term:

C. P. Carlock, W. D. Click, E. R. Davis, M. N. Davidson, H. L. Dickerson, J. K. East, C. D. Elliston, A. B. Farney, C. A. Gammill, C. A. Gibson, of Lubbock.

E. T. Bryant, Slaton, S. H. Burke, E. R. Burns, R. N. Cade, S. E. Coleman, J. N. Colston, C. H. Culley, J. E. Hannett, Frank Bledsoe and Roy Boyd, of Slaton.

F. E. Brasher, R. B. Danner, W. F. Forman, W. H. Kelsey, A. W. Jordon, of Idalou.

L. D. Dodson, R. D. Carvin, J. H. Woods, J F. Robinson of Abernathy.

J. Ellard and Ray Ferguson of Becton; W. M. Blair, Ropesville; Long Anderson, and G. L. Bowman of Shallowater; J. P. Tarlton, Petersburg; Villa Davis, Slide.

Petit Jurors for the 4th week of the January Term:

A. J. Bryant, H. L. Burgess, J. M. Burnham, M. B. Carr, S. O. Clark, R. L. Coker, B. C. Dickinson, Ben H. Dixon, H. B. Griffis, and J. A. Hodges, of Lubbock.

G. W. Goodiwan, J. G. Harper, Jetter Vance, T. C. Jewel, W. L. Jobe, W. E. Martin, Lon Hoffman, Alvin White, of Slaton.

J. F. Toler, W. S. Countess, J. D. Kimbell, T. B. Taylor, J. C. Newton, Guy W. McNeely, of Idalou.

L. P. Miller, E. D. McCauley, W. H. McDuffy, of Lorenzo.

N. N. Gobbel, Fritz Fuchs, and W. A. Goeth, of Abernathy.

J. H. Ashcraft, R. B. Bell, Ben Cummings, of Shallowater.

Troy Elliott, and F. L. Haggarx of Hurlwood; W. R. Reed, Wolfforth.

Petit Jurors for the 5th week of the January Term:

D. J. Gilbert, I. N. Gilliland, R. W. Graves, H. H. Griffith, T. M. Hobson, A. M. Howard, Riley F. Huie, A. L. King, C. E. Merrill and W. H. Mills, of Lubbock.

Geo. Jones, L. L. Stone, Jno. T. Homer McDonald, B. H. Cooper, Martin, T. O. Petty, W. E. Smart, Jimmie Cowart, of Slaton.

W. S. Shaw, T. L. Holt, M. D. Howard, Tom Jay, and C. E. Morehead, Rt. 1, W. O. McLarin, J. N. Moore, Lott McIlroy of Idalou.

W. H. McDuffey, F. L. Reaves, D. T. Rose, of Lorenzo; A. A. Behringer, and G. B. Hunt of Wolfforth; L. L. Peach, Hurlwood; N. O. Arnold, and J. C. Logan of Abernathy; J. W. Bernard and C. D. Appelby of Shallowater.

Petit Jurors for the 6th week of the January Term:

M. B. Hibburn, B. F. Hodges, J. W. Huff, W. C. Musgrove, L. E. Moore, E. W. Moore, C. E. Moreman, J. O. Morrison, W. G. Murray, J. A. McClevey, of Lubbock.

W. T. Driver, J. I. Drewery, A. N. Dunlap, G. A. Cooper, L. R. Cole-H. W. Jetter, of Slaton.

man, H. M. Cade, W. D. Howard, H. P. Musgroves, Grover Wiley, E. H. McGee, J. J. Mahan, J. L. Lee, and O. D. McInroe, of Idalou.

Geo. C. Yardley, J. W. Boyd and J. F. Proctor of Lorenzo.

E. B. Atkins and J. R. Barron of Abernathy; H. Anderson and W. A. Austin of Shallowater; J. W. Kennedy and C. G. Kulms, of Wolfforth;C. B. Birdwell, Hurlwood; H. H. Ingram, Becton; Larence Ellison, Petersburg.

Petit Jurors for the 8th week of the January Term:

L. H. Hungate, T. C. Ivey, S. W. Jarvis, D. N. Lacewell, R. N. Lambert, H. L. Griffin, Homer Grant, M. S. Gunn, H. E. Helber, Clyde McCrummen, J. E. Murfee and J. B. Morriset of Lubbock.

Jack Smith, D. V. Fondy, C. V. Young, Sam McDonald, W. D. Harris, T. L. Harrison, T. D. Johnson, and W. H. Jones of Slaton.

H. B. Stewart, W. C. Musgroves, M. Patterson, L. E. Teel and L. M. Phillops of Idalou.

Utall Sanders, J. B. Meadoe, L. P. Miller and C. E. Key of Lorenzo.

T. B. Monroe, F. M. Johnson, Frank Parrish of Wolfforth; F. P. Johnson, Hurlwood; J. D. Adkisson, and E. D. Prather of Abernathy; B. J. Arnold, Shallowater.

Petit Jurors for the 9th week of the January Term:

Ward Crim, R. L. Cox, O. H. Cline, W. F. Cole, J. C. Deckelman, J. C. Dean, A. O. Dunlop, W. E. Earnest, C. M. Eoff, W. M. Fulbright of Lubbock.

T. E. Amos, T. L. Barnes, G. W. Bounds, M. I. Bourland, J. J. Debusk, B. G. Dickerson, J. B. Lowrie, D. G. Jones, of Slaton.

T. B. Jones, S. E. Kelley, A. C. Lane, Jim Lawson, W. R. Sowder, and J. T. Lee of Idalou.

W. B. Williams, E. V. Sharp and R. B. Thomas of Lorenzo.

T. G. Kuykendall, H. B. Marrett and R. D. Lindsey of Wolfforth.

A. T. Qualls, Hurlwood; N. N. Gobbel, Abernathy.

Petit Jurors for the 10th week of the January term:

Mike Barrier, C. W. Bartlett, C. T. Boyd, Rhea Bradley, E. Lee Brown, E. D. Champlin, A. L. Carter, Geo. L. DeShazo, M. F. Driver, B. Sherrod, Will Fletcher, C. C. Forbes, of Lubbock.

T. J. Ervin, W. H. Harrison, C. V. Head, Jess Garland, Homer Kelley, Henry Riger, Bob Meyers, H. W. Ragsdale of Slaton.

F. B. Petty, J. R. Perkins, S. A. Peet, Geo. Young, T. M. Randle, O. W. McInroe of Idalou.

Earl Parrick, Eugene Payne and Geo. Whiting of Becton.

L. E. Miller, Ropesville; W. D. Srader, and Milton Gartin, Petersburg; J. S. Walters, Slide; Chas. Williams, Posey; Will Hare, and W. E. Reeves, Lorenzo.

Petit jurors for the 11th week of the January term:

D. F. Eads, E. P. Earhart, Jr., R. L. Fletcher, A. C. Fortenberry, C. T. Etter, J. H. Eubanks, W. J. Garrett, Harold Gelin, A. M. Hallmark, and R. L. Hastings of Lubbock.

L. E. Farris, C. C. Thornton, Fred W. B. Hestand, C. B. Herndon, W. Stephens, G. L. Sledge, F. L. Hodge, B. Jones of Slaton.

R. L. Wall, A. H. Turner, W. T. Pruitt, E. A. Wood of Idalou.

L. D. Philips and V. W. Reaves of Lorenzo; J. E. Glass and Carl Patterson of Petersburg; Robert Meaker, Posey; H. F. Smith and T. A. Anderson of Ropesville; E. L. Pitts and R. A. Powell of Becton; H. W. Blair, J. R. Blackwell, H. K. Arnett, I. M. Cruse and Clyde Alexander, of Shallowater.

Petit Jurors for the 12th week of the January term:

Buy L. McAfee, C. M. Mitchell, S. A. Henry, Stockton Henry, S. M. Hufstedler, T. M. Lemon, E. L. Meredith, A. D. Montgomery, W. T. Moreland, Gus Kallas, J. M. Keen, and E. H. Karr of Lubbock.

T. M. Hearn, E. Henderson, R. L. Henry, B. B. Jones, L. E. Jones, S. H. Johnson, C. B. Jones, and Steve R. L. Baty, R. M. O'Neal, Fred Austin of Slaton.

Page, W. M. Waldrop and J. F. Stephens of Wolfforth.

Rel Powell, Hurlwood; Joe Bowman, P. H. Hool and N. E. Anderson of Shallowater.

G. R. Baker, J. C. Jackson, J. S. Scroggins, and J. F. Sealey of Abernathy.

J. H. Weston, J. B. Kernell, W. H. Killian of Idalou.

According to the International Congress of Chefs, an egg is "new laid", for ten to tewlve days: it is "fresh" until it is 21 days old; then it becomes a "cooking egg."

The irrigable area in 1927 of the projects built by the government was 1,956,910 acres, an increase of 112,360 over that of 1926.

A gold medal will be awarded by the Government of Cuba to each primary teacher whose record shows 25 successive years of acceptable service in public schools of the country.

Dr. White To Hold Baylor Drive Meet

Dr. W. R. White, pastor of the First Baptist church here, left yesterday for Waco where he will conduct the annual Baylor University revival meeting. Dr. White will preach twice daily to the 1500 students of Baylor, the revival being an annual feature of religious work in that university.

Dr. W. T. Connor, from the Southwestern Baptist Theological Seminary at Fort Worth, one of the foremost denominational leaders in the country, will preach at both services today, and will conduct the Downtown Bible class in the morning.

Better School Facilities Here Are Vital Duncan Says

IN WEST TEXAS

News Tidbits From Many Places

Conditions Good

SAN SABA, Jan. 12.—San Saba county has at this time the best moisture condition since 1919 at this season. Prospects for the coming crop season are excellent.

Cattle and livestock of all kinds are in good condition. Winter range is fine. Grain crops are making a rapid growth.

Receipts Lower

FORT WORTH, Jan. 12.—During 1928, 885,902 vattle and 325,217 calves were received at Fort Worth, according to the report of the Fort Worth Stockyards company announced yesterday. These figures compare with 956,135 cattle and 330,305 calves in 1927.

Good Will Flight

EL PASO, Jan. 12—A good will flight to Odessa and surrounding territory is being planned by the El Paso Chamber of Commerce for January 16, 17 and 18, according to announcement today by D. A. Bandeen, general manager. The plane, a tri-motored Ford airliner of Scenic Airways, Inc., will carry ten representatives of El Paso jobbers and manufacturers on the tour.

Seek Four Courts

BIG SPRING, Jan. 12.—Howard county will probably have four terms of district court according to word received from Clyde E. Thomas and Curtis G. Condra who are in Austin to present the Howard county court relief bill. It is impossible to handle the docket during the three term session as now prevails.

P. T. Program Starts

SLATON, Jan. 12.—A physical education program for all students of Slaton high school has been started, directed by Paul W. Wright, high school athletics head. Men teachers supervise boy students women teachers direct the training for girls at regular times three days each week, according to C. L. Sone, superintendent of Slaton schools. He says the plan is working admirably.

Prospects Good

LAMESA, Jan. 12.—A most excellent season as result of recent rains, is realized in Dawson county and the lower South Plains. Farmers are optimistic over the agricultural prospects here and are proceeding with land preparation for the coming crop. It is thought, with the fine underground season now, that less rains will be required for 1929 than fell here in 1928.

Agents Work Hard

BIG SPRING, Jan. 12.—Howard county now has full fledged county and home demonstration agents. J. V. Bush, county agent and Mrs. Louise Allgood have taken charge of their respective duties and with the aid of the commissioners court, C. T. Watson, manager of the Chamber of Commerce and County superintendent Cantrell are becoming acquainted with their new territory. Four rural schools a day are being visited by County Agent Bush and County Superintendent Cantrell

Living Room Contest

SPUR, Jan. 12.—The living room contest under the direction of the county demonstration agent, is now in progress. Fifteen homes are represented in the contest, which will close in April. Particular pains have been taken to score correctly the living hooms of these homes, and at the close of the contest another check up and scoring will be made. The winners in the county will compete in a district contest, and later in the State contest at A. and M. college.

Road Essay Contest

BRADY, Jan. 12 (AP).—Fifty dollars in gold has been offered by Harry F. Scwenker, publisher of the Brady Standard, in prizes for the best essays on "Why Should McCullough County Join the Progressive Counties in Texas in Building Paved Roads?"

Rancher Retires

MASON, Jan. 12—J. W. White, well known West Texas cattle raiser, has leased his 30,000 acre Mill creek ranch in Mason county to his three sons, and has retired from active life.

The sons, T. J., W. W. and J. W. White, jr., purchased the father's livestock, consisting of cattle, sheep, goats and hogs.

SPUR, Jan. 12.—Several enterprising citizens of Spur are taking advantage of the opportunity offered by the agricultural agent of the West Texas Chamber of Commerce in securing for West Texas some valuable paper shell pecans.

The West Texas Chamber of Commerce is making every effort to enlist every individual in West Texas to appreciate the full benefit that may be derived from a full cooperation tbetween the citizens of Texas and her agricultural colleges and other schools that have as their ultimate aim the training of citizens for service.

Lubbock Showed Increase In Every Line Of Progress During 1928

Congestion Found In All Parts Of Lubbock Schools

Half-Day Schedule Looms In High School Unless Relief Through Better Facilities Realized

Expansion in Lubbock's public school system—the outstanding asset and drawing card of the city—through employment of additional instructors, through the provision of adequate classroom facilities and through construction of new buildings, long badly needed, is imperative to maintenance of the present high scholastic standards in the schools here, it is brought out by City Superintendent M. H. Duncan.

In the following comprehensive statement, Mr. Duncan gives a survey of the crowded conditions in the public schools, and analyzes the paramount needs locally.

"The enrollment in our public schools at the close of the first month of this school year was six hundred and eighty-five more than at the close of the first month of last school year. During last year comparatively few pupils enrolled in the schools after the beginning. This year there has been a steady increase amounting to ninety-five for the second month, ninety for the third month, and eighty for the month ending just prior to the Christmas holidays. We do not know just the number who have entered school since the holidays, but we do know that there will be a large increase in the enrollment tomorrow at the beginning of the second semester of the year.

"All the rooms in all the city schools are full with the exception of three rooms in the Sanders school and, more than likely, we that school for the new term beshall have to add a new teacher in ginning tomorrow. There are now enrolled in the Sanders school more than two hundred pupils, or more than forty pupils to the room. Some rooms have fewer than forty pupils and some have more than forty, which are too many for any teacher to handle successfully.

Half Day Schedule

"All the rooms on the west side of the railroad are full and running over. Besides, we have ten rooms in the school west of the railroad on half-day session. Another teacher will be added to the K. Carter school's primary grades tomorrow. The primary rooms in that school have more than forty children per room and another teacher will be added to make possible the right kind of work.

"However, congestion in our school system is greatest in the senior high school. The large increase in enrollment in that school has made it necessary to permit it to overflow into the junior high school building. The senior high school not only does not have a sufficient number of rooms to take care of the enrollment in that school, but the rooms it does have are not adequate to the work it is trying to do. The business rooms are entirely too small to accommodate the pupils who are in that department, to say nothing of the large number who should take that work, but can not because of the lack of facilities. The manuel training and mechanical drawing rooms can not accommodate the students who are taking that work. The home economics department is constintly being criticised by the state department of education and that department is threatening to withdraw our state and federal aid because we are not providing the necessary facilities with which to do first class work.

All Departments Crowded

"A good many of the other departments are too small to accommodate the pupils enrolled in them. The present high school building was built for a much smaller enrollment than we now have. In fact, when it was built it was thought that the entire high school grades 8 to 11, inclusive, would never amount to more than eight hundred pupils. We now have in the senior high school alone about nine hundred and fifty students. This school has a splendid standing at the present time with the state department of education and the Southern Asociation of Accredited Schools, which we have maintained against odds, but there is danger of our losing this standing if we do not provide more room in the immediate future.

"I see no way to take care of the senior high school enrollment in sight now for next year without running that school on a half-day session. Such an arrangement, of course, would be very unsatisfactory, but the school must be taken care of and I see no other way to do it until a new building can be provided. If we were to begin now the erection of a building, we could not expect to have it ready before next January 1st and we shall have to adjust ourselves the best we can, during the first part of the next school year at least, to the present building.

The junior high school is also

Tech 'Y' Is Friend To All Students

Organization Does the Work; Leaves Shouting and Boasting To Someone Else

A casual visitor on the campus of Texas Technological college may not even notice that the school has an organization of the Young Men's Christian association. Such an oversight is not unusual for the "Y" at the Tech is not a hallabaloo organization nor one that advertises its activities to the four corners of the campus.

Investigation of the work of the Tech Y. M. C. A. during the past few weeks prior to the inauguration of the annual drive for funds which started this week, revealed the fact that much good has been accomplished on the campus through their work, unknown almost entirely to the student body and faculty members. The work of the organization as it is being carried on is an altercation from the established idea of "Y" work.

The orientation of a student body of 1,800 or more to the fact that college is not a magic place where raw material is changed instantly into a shining, finished product by virtue of just going through the process is somewhat of a task and that is the big work of the "Y" work at the Tech.

No regular meetings of the organization are held as the olden college days when a group of young men gathered together and held prayer and devotional services mainly through courtesy to officials of the school. The Tech organization appears to be a democratic body among the men students of the college, no set membership being required and every fellow feeling himself a part of the work.

Eliminate "Boozing"

The work of the organization has developed a program that has eliminated much of the cheating through channels otherwise not used by a college, that of appealing to the honor of the school as well as directly to the individual students.

A program has been pushed through the men by which much of the alleged "boozing" has been eliminated and several bootleggers disposed of.

Other achievements of the group show that the conduct of students

See TECH "Y" Page 8

Statistics Tell Of Advancement Made In Lubbock

Building Permits Double; Assessed Valuations In $4,500,000 Boost During Year Just Passed

Lubbock's growth during the past year was entirely devoid of any mushroom, "boom" characteristics, but was of the steady, substantial type that tends toward permanency.

In every line of endeavor, and by every gauge used to measure the progress of the modern city, Lubbock showed progress— not "boomy" or inflated advancement but normal, steady growth such as might be expected of the hub center to this rich farming region.

Increase in city mail deliveries, in water connections, in school attendance, in light and power connections, in telephone connecsions, and in gas meters gives every indication that the recent city directory estimate of a population of 21,500 here was well founded.

Postoffice receipts showed a flat ten per cent increase over the total for 1927, despite substantial decreases effected by congress in postal tariffs; bank resources jumped a half million dollars; bank deposits soared $700,000 to a new high level above the five million mark; building permits doubled, totalling over three million and stamping this city —somewhere around twentieth in population—as seventh in construction for the year; assessed valuations of the city showed a four million dollar increase; five hundred more homes were connected to the telephone system; population advanced several thousand, by estimate; real estate transfers increased six hundred over last year.

Tax Rate Decreased

While all of this expansion and progress was under way and while varied municipal improvements were being effected the tax rate showed a big decrease, declining from $3.97 the hundred dollars valuation to $3.49 for next year.

Competent observers in the city are of the opinion that the progress so evident in 1928 will be even exceeded by 1929.

A hundred families each year are attracted to Lubbock as a permanent residence because of the educational facilities it affords. Thousands of other students come here to attend the public schools and the Tech college although keeping permanent residence elsewhere.

Postal Income

Postoffice income for the past six year shas told forcibly the growth here. In 1920 only $32,243 was taken in at the local office; in 1924 the figure had grown to $58,684; in 1925 it was $77,182; in 1925 it had swelled to $81,090 and last year it was $90,932. This year the goal of $100,000 was reached with a final total of $100,414.

Along with increase in population and expanded business volume has come a big boost in financial resources of the city's three banks. Total resources in 1924 were $3,557,136; in 1927 they were $5,155,327 and this year they are $5,674,456.

Deposits during the period have grown with similar rapidity and consistency. In 1913 total deposits were only $364,911. In 1917 they topped the million mark for the first time with a total of $1,679,965. In 1920 the two million mark was passed with a total of $2,423,707 being on deposit at one time. The years of 1921 and 1922 were somewhat lean and the total dropped back around $1,500,000. In 1924 they totalled $3,200,000; in 1925 $4,081,421; in 1926 $3,421,673; in 1927 $4,618,638; and this year the goal of five million was reached with a total on deposit of $5,153,610.

Valuations Show Boost

Probably the greatest indication of increased growth here is to be found in the vast boost in assessed valuation for the year. Most of this is accountable to new homes, new industries and new business houses. The following table shows how the valuation has increased:

Assessed valuation,	1920,	$ 3,597,980
Assessed valuation,	1924,	8,777,918
Assessed valuation,	1925,	10,440,000
Assessed valuation,	1926,	13,457,695
Assessed valuation,	1927,	14,617,636
Assessed valuation,	1928,	19,153,230

During the past seven years approximately $10,000,000 for public improvements has been spent in Lubbock, apportioned as follows, figures for 1928 beign at this time available:

Constructed in 1920	$ 110,000
Constructed in 1924	2,353,000
Constructed in 1925	3,181,298
Constructed in 1926	2,675,788
Constructed in 1927	1,015,039

The number of telephone users in the city is now 3,043 compared with 2,660 for last year and 2,515 for the preceding year. In 1925 there were only 1,547 telephone connections in the city; in 1920 only 670.

Gas connections are now 3,166, Water connections total 3,860 in the city. Light connections total 4,664.

Woman In Cabinet

WASHINGTON — Presumably the reference is to efforts to have Mr. Hoover select a woman for his cabinet. The directors of the General Federation of Women's club have resolved that no woman should be appointed to a position of federal trust just because she is a woman.

ONLY A FEW MORE DAYS.....

Congress Of PTA Has Legislative Plans For Texas

Four Objectives For Child Welfare Are Supported By Society Of Parents And Teachers

The Texas Congress of Mothers and Parent-Teacher Associations has adopted four major objectives for its 1929 legislative program, according to Mrs. Noyes Darling Smith, state president of the organization. These objectives are: a physical education bill; adequate appropriation for the bureau of child hygiene; the county superintendents' bill; and lowering the school age to include the six year old child.

Mrs. Smith stated that these measures have been thoroughly discussed when the resolutions endorsing them were adopted by the convention body, at the state convention at Amarillo and through the official publication, The Texas Parent-Teacher, and that further information is available to those interested from the executive secretary, Mrs. Stephen Chamness, Capitol Station, Austin. "The resolutions endorsing these matters have been sent to the 2000 units that make up the Texas Congress in each one of which is a legislative committee that stands ready to bend every effort in support of these bills," said Mrs. Smith.

Fight Not Anticipated.

"We do not anticipate a fight," Mrs. Smith continued, "for we can not conceive of any one informed on these questions who would oppose the proposed legislation.

"The importance of physical education is well known to every thinking person. Thirty-eight or forty states have compulsory physical education laws and compulsory physical education legislation is pending in every state. At the meeting of the last Texas legislature a bill was introduced. The same will be brought up again at this meeting and it is our business as mothers and teachers to see that it passes without further delay.

"As for the appropriation for the bureau of child hygiene," Mrs. Smith continued, "We believe the benefits to the mothers and babies of Texas under the provisions of the maternity and infancy act, popularly known as the Sheppard-Towner Act, have been sufficiently important as to call for the continuance of the work in no lessened degree under the guidance of the Bureau of Child Hygiene of the state department of health." Mrs. Smith explained:

Must Have Funds.

"In order to carry on the work as it has been during the past seven years, there must be no cut in the appropriations for the bureau of child hygiene. Since federal aid to the states may no longer be available after June 30, 1929, to accomplish the work as now carried on and to allow all proper development of the bureau of child hygiene, it will be necessary for the 41st legislature to assume the entire appropriation of a minimum of $77,901.04. Our one-half of which under the present fifty-fifty basis is derived from the federal government, a condition which has caused the only serious opposition to the measure, and an opposition based upon the assumption of the interference by the federal government in the affairs of individual citizens and an infringement upon the Jefferson principle of state rights."

As for other legislation, Mrs. Smith explained, that there were many proposed measures with which the members of the Congress were in hearty sympathy, but that only such measures as had had the endorsement of the convention body as a whole could be sponsored by the state legislative committee or by the Texas congress as a whole.

Two Hundred At I. O. O. F. Service

Approximately 200 persons attended the annual public installation of officers of the I. O. O. F. at the Odd Fellows' hall on 13th St. Friday night.

E. E. Henson was installed as Noble Grand, succeeding B. O. Lockhart in that capacity. Other new officers installed include, E. H. Whitworth, vice grand; A. C. Davis secretary; and Ira Stewart, treasurer.

Following the installation of officers a short program was given and refreshments serverd. A number of visitors from Slaton, Littlefield, and Abernathy attended the meeting.

BUSINESS CLUB MEETS

Mrs. J. J. Smelser Hostess To Club On Friday

Mrs. J. J. Smelser, 1626 14th street, was hostess Friday evening to Business and Professional Club women in a business and social meeting of the local organization. Most of the meeting was devoted to a discussion of the Federation of Business Women's clubs which met in Amarillo yesterday.

Those who were at the party Friday night were Mesdames Thomas, J. W. Baze, E. B. Holland, S. D. Buchanan, Mollie D. Abernathy, C. L. Hale, Miss Ruth McCormick, Miss Mattie Randolph, Miss Marguerite Whipp and Berwin Thomas.

Refreshments of salad, sandwiches, cake and tea were served. Mrs. Thomas was hostess with Mrs. Smelser.

Miss Audry Stoker of Muleshoe was the week end guest of her mother, Mrs. Hattie Stoker, 2002 Tenth street.

Tulle Frock

BY MME LISBETH

The holiday season sees many debutantes launched on their social careers. New frocks are the very necessary accompaniments of the new dignity of being "out."

This pretty little frock, so becomingly worn by Mary Brian, of the films, meets every requirement of the debutante. White tulle is treated in the new flat manner and scattered with silver sequin stars.

The natural waistline is used, enhancing the youthfulness of the gown.

Rev. W. Jennings Host to Officials Board of Church

S. J. McFarland Elected As President of Officials On Board Christian Church Here

Rev. Walter P. Jennings, pastor of the First Christian church, was host to elders and deacons in that church Friday evening with a banquet in his home, 1016 17th street. S. J. McFarland was elected president and J. E. Hartley as vice-president, C. C. Crenshaw, secretary Alfred scott asistant secretary and A. C. Jackson, treasurer.

The church elders are Dr. W. N. Lemmon, John R. McGee, S. J. McFarland, J. F. Matthews, R. A. Mills, R. M. Walker and J .D. Quick.

Deacons are A. C. Jackson, O. A. Terry, T. Teal, D. N. Leaverton, Clyde Ragland, Ralph Bedford, George P. Kuykendall, Forest Rupe, Harold H. Griffith, John B. Rountree, Alfred Scott, J. E. Hartley, Joe Nislar, Charles F. O'Neall, Dr. J. G. Porter, Fred Rea, J. A. Hodges, Charles Collier, N. L. Benson, J. O. Jones, L. N. Squyres, G. C. Barrier, J. B. Rhodes, Leo Edwards, Tom Garrard, J. H. McKinney, C. C. Crenshaw, W. T. Milam, Paul Barrier, Ernest Lowery, Jewell Davis, E. L. Robertson, B. J. Edwards, W. C. Wood, O. A. Goodart, Clyde Elkins, H. J. Lowery, J. C. M. Barnes, Dr. S. S. McKay and W. R. Blake.

PARTY FOR DAUGHTER

Jimmie Hamilton Is Given Party On Friday

Mrs. James E. Hamilton, 1701 Avenue Q, entertained Friday evening with a party for her daughter Jimmie, on her twelfth birthday. After a number of games had been played, refreshments were served to the guests by Mrs. Hamilton, Jimmie and Betty Hamilton.

Guests included Ethel Murray, Mary Geniece Hardberger, Nancy Ruth Leaverton, Betty Richardson, Elizabeth Prince, Charlotte Ratliff, Billy Dykes, Duke Moreman, Charles Maedgen, Morrison Arnett, Marian Denman, Padgett Maddox, William Camp.

ANNIVERSARY DINNER

Mr. and Mrs. O. R. Copeland Hosts On Friday

Celebrating their twenty-second wedding anniversary, Mr. and Mrs. O. R. Copeland were hosts Friday evening with a four-course dinner at their home, 1610 Avenue K.

Guests from Ropesville were Mr. and Mrs. Ross Dickinson, Mr. and Mrs. Paul Sams and Mr. and Mrs. J. M. Smythe and daughter, Billy Nell. Lubbock guests were Mr. and Mrs G. M. Cosby and daughters, Margaret Dean and Mary, and Jack and W. N. Copeland.

Campfire Work In Lubbock Enlists Many School Girls

Three Groups Now Meeting Regularly And Carrying On Programs In City Of Lubbock

Thirty-eight girls in the Lubbock public schools are actively engaged in Camp Fire activities along with their school work and are now mapping out programs for the year 1929.

While numbers of groups have been organized here during the last few years only three are now meeting regularly and carrying on their programs, according to Mrs. George Field, president of the guardian's association. During Christmas these girls joined with other individuals and organizations in charity work through the year.

Entire programs for the year will not be available for several weeks as suggestions are now being received, according to guardians of the three groups: the Katima, Okalona and Anakiwaki.

Climax In Summer Camp.

A climax in the activities will probably be reached in the summer encampment if another one is conducted this year. The girls spent a week in Palo Duro canyon last summer in the most successful camp that has been had.

J. W. Gamel is president of the Camp Fire council of the city and this organization cooperates with guardians in promoting the work among young girls here.

Eight girls compose the Anakiwaki group and each one has an office in the organization. In an educational program this group is visiting various business houses in the city such as packing plants, manufacturing houses and wholesale companies in order to learn of the businesses. Mrs. Mike Barrier is guardian of the group and goes with the girls on their trips.

Program For Spring.

This spring the girls are to plant flowers, to work on health and thrift programs, work for higher Camp Fire ranks and do some sewing. Easter carols are to be sung and a charity program started Christmas is to be continued.

During the holiday season a basket of food was taken to an elderly woman for Christmas and a scrap book and other articles were made and taken to a sick little girl.

Officers Elected.

There was a recent election of officers and the following places were designated:

President, Virginia Milam, vice-president, Maurice Hunter; treasurer, Kathleen James; secretary, Irene James; song leader, Beatrice Mills; artist, Pauline Phillips; sergeant-at-arms, Ruthana Jackson; program maker, Mary Wilson.

Okalona Camp Fire girls are supplying a needy family in Lubbock with two quarts of milk daily and candy sales are conducted monthly in order to provide the necessary funds.

Mrs. George Field is guardian of thsi group which meets regularly on Wednesday afternoons and the girls are planning to expand their present charity program.

Regular Program Prescribed

In addition to this there are the regularly precribed activities and socialities of Camp Fire which are participated in by the eighteen little girls.

Making up this troop are Lois Adair, Julia Blackwell, Ellen K. Clapp, Martha Dean Cosby, Eleanor Crenshaw, Ann Dohoney, Billy Bob Jones, Katherine Klett, Ruth Elaine Lewis, Madelin Neves, Birdie Fay Partain, Josephine Powell, Betty Richardson, Charlotte Ratliff, Elizabeth Spencer, Evelyn Saulding, Mary Thomas and Ruth Wagner.

Miss Amy Brock, a student in the high school, is guardian for the Katima Camp Fire group, which has always been one of the most active in the city.

Needlework To Be Stressed

Needlework will be stressed among girls in this group during 1929 and activities are being planned for observing National Camp Fire week in March, according to Miss Brock.

Girls in this unit of Camp Fire are Mozelle Cobb, Mary Bynum Cobb, Dorris Mullins, Verle Pyeatt, Leta Robertson, Inez Law, Alyne Law, Sylvia Stroup, Georgia Barkham, Renolda Douthit, Mattie Cameron Williams and Flossie Adkisson.

The Katima group has outlined an ambitious program for the year. The club room at 504 Avenue R is to be furnished after which time will be devoted to sewing and dress making. The second series in the program is to concern diet and the care of the home after which there will be a program on the care of yards and each member of the group is to experiment with the cultivation of some flower.

Swimming and camping will follow during the summer.

A play is now being written by some member of the organization and this is to be produced.

The Toykajo Camp Fire group, which has Mrs. H. A. Lattimore for a guardian, also meets regularly. The group members are concentrating on the outlined program for Camp Fire girls this year with few other activities and in the regular program arts and crafts will be given spcial emphasis.

Those who are members of this organization are Louisa Adkisson, Alice Rachel Jones, Cleo King, Elizabeth Connor, Nina Bess Sprawles, Rosa Lee Blackburn, Lou Allie Owens, Julia Bell Moses, Lillian McClain, Lorene Gable.

Paul Barrier, who spent last week visiting the Barrier Brothers stores over the South Plains, has returned to Lubbock.

Lowell S. Turner, woh has been headquartering in Lubbock has moved to Amarillo.

Fashion Provides Chic Costume for Winter Sports

BY JULIA BLANSHARD
NEA Service Writer

NEW YORK, Jan. 12—When Milady skates on thin ice these frigid days, when she skiis and when she toboggans, the smartest of sports togs are none too good for her.

New York's latest displays show that winter sports costumes just naturally have gone chic.

No woman of taste wears a makeshift costume for her winter exercise any more than she would concoct a bathing costume out of left-overs for summer.

Each Sport Its Costume

Moreover, each winter sport has its own costume. And the right people never wear a skating costume when skiing or vice versa!

Since Parisian and New York couturiers have put their master minds on garbing the winter girl, cold weather sports togs are excitingly jaunty, colorful, masterfully tailored and practical.

Skating suits still have a ladylike preference for skirts. Kilts, I might better say, for no skating skirt with self-respect comes quite to the knee-cap. Many are plaid and most of them are pleated. The culotte, or divided skirt, is the most popular. Next comes the little circular skirt over matching knickers.

Russian Blouse Seen

Skating jackets seem to prefer the Russian blouse theme, many of them buttoning warmly clear up the neck, belted with tight hipline peplums. Bright red always has been a favorite skating color. It is seen in combination with black, navy, and white. It is quite neat to have one's heavy sweater, beret or stocking cap, scarf and mittens match. Russian designs in loud colors against white are excellent. And the skater must mind her little sports socks this winter, for no authentic costume is without them.

Since skiing has gone social and the best families have adopted it, perhaps the most striking sports wear for winter is seen gliding down the icy tracks at Quebec or Lake Placid.

Skiing costumes have snitched at least one idea from practically every other known sports outfit. This suit faintly recalls an aviation outfit, than one employs riding judphurs, still another bears resemblance to the hunter's togs. Golf and tennis kerchiefs are almost ubiquitous.

Breeches and knickers rival judphurs for popularity as the most correct style. It doesn't make any difference which wins. But one's cap and jacket must bear some relation to the cut of one's trousers.

Black and White Favored

Black and white costumes are stunning and newer this year than color. Green always looks striking against the snowy background. Warm browns with touches of orange or scarlet are very good. Plaids and stripes vie with plain colors.

Among the striking costumes shown at a recent exhibition were the following: a skating costume of navy woolen knickers and white woolen tunic opening down the left side of the back, collared and cuffed in whit astrakan, and belted with blue leather; a skating costume of scarlet kasha culotte, high necked sweater of loud black design in beige and scarlet, with stocking cap, mittens and socks matching; a tobogganing outfit with knickers, cap, kerchief and mittens of bright red plaid, and the lumberjack green leather.

Three skiing costumes from Bernard and Cie illustrate admirably the diversity of themes employed this year.

A heavy navy blue cheviot suit of knickers and pullover jacket has its sports kerchief of blue and yellow tricot attached to it so no cold can creep in. A blue beret and gloves and woolen hose of beige mixed with blue complete it. The gloves are decorated with pompoms of blue.

The Hunting Motif

Reminiscent of a hunter's suit is a dark green gaberdine suit with belted jacket, long trousers, visor cap with ear flaps that let down, long gauntlets of green leather and a vivid scarf of jersey in autumn tones.

A third suit combines judphurs with an aviator's helmet and leather jacket. The helmet and jacket are Patou blue leather and the judphurs yellow gabardine. The scarf, gloves and socks are of yellow wool stripe dwith blue.

Dashing and beautifully tailored are the winter togs Paris sponsors. Three suits from Bernard and Cie (left to right) show navy blue cheviot used conservatively with blue and yellow for the scarf, mittens and socks. Suggestive of a hunter's outfit is a skiing ensemble of dark green gaberdine, finished with a wide jersey scarf in bright colors. Yellow gabardine unites with blue leather to fashion a nifty ensemble that borrows both from the riding suit and the aviator's costume.

Dashing and beautifully tailored are the winter togs Paris sponsors. Three suits from Bernard and Cie (left to right) show navy blue cheviot used conservatively with blue and yellow for the scarf, mittens and socks. Suggestive of a hunter's outfit is a skiing ensemble of dark green gaberdine, finished with a wide jersey scarf in bright colors. Yellow gabardine unites with blue leather to fashion a nifty ensemble that borrows both from the riding suit and the aviator's costume.

Officers Elected At Party for S. S. Class Friday Eve

Miss Virginia McLean Is Hostess to Class On Friday Evening; Officers are Elected

The First Presbyterian Sunday school class taught by Seth T. Cummings attended a social Friday evening as guests of Miss Virginia McLean at 1720 13th street. Officers were elected at this meeting and Miss Mary Meador succeeded Ray Mowery as president.

After a nenjoyable evening of diversions, fruit salad pie and coffee were served. Miss Dorothy Leavel sang a solo and Miss Eunice Cox read during the evening.

Class members and guests attending were Misses Louise McKee, Bernice Phipps, Mary Meador, Margaret, Stone, Hortense and Gertrude Wayland, Mabry Edens, Eunice Cox, Blanche Bean, Dorothy Leavel, Bess Wilson, Lorelle Wallace, Virginia McLean, Mary McAnulty, Mrs. Josephine Ballenger, Miss Hadena Hester, Messrs. Cummings, Mowery, F. L. McRimmon, Rev. Jack Lewis, Rev. W. K. Johnson, R. W. Rees, Jack and Charles Keesee.

CELEBRATES BIRTHDAY

Mary Elizabeth Barrier Has Party On Saturday

Mary Elizabeth, 9 year old daughter of Mr. and Mrs. G. C. Barrier, celebrated her birthday yesterday afternoon with a party at her home, 1924 15th street. Her mother and sister, Miss Annie Lou Barrier, assisted with the entertainment and in serving refreshments.

Numerous games were played during the afternoon and the birthday cake was cut and served with jello and whipped cream and candies.

The heart theme of Valentine was used in all appointments for the affair.

Guests included Dorothy Duncan, Mollie Davis, Loyette Lindsey, Jane Wilson, Mary Jarrott, Nannie Margaret Overton, Betty Alice Gordon, Olivia Barrier, Larue Barrier, Virginia Lee Barr, Virginia Milam, Beatrice Mills, Roleta Izard, Louella Benson, Madelle Hitt, Shirley Parsons, Elizabeth Ann Price, Jane Sears, Pauline Barrier, Maxine Hensley and Elva Laura Hall.

Fellowship Club Meets Friday In Sawyer Home

Mesdames Sawyer and John Dalrymple Entertain On Friday Afternoon With Forty-Two Party

Mesdames T. W. Sawyer and John Dalrymple entertained Fellowship members with a five-table forty-two party on Friday afternoon in the home of the former hostess, 2324 Broadway.

The New Year theme was used in favors and other appointments for the party.

Guests included Mesdames E. W. Camp, Sam T. Davis, W. L. Baugh, J. F. Hankins, Cecil Horne, C. S. Middleton, J. B. Maxey, H. W. Stanton, George Smallwood, T. R. Prideaux, W. C. Rylander, Paul Jones, J. D. Peters, R. M. Chitwood, W. H. McFarland, J. E. Garrison, R. D. Moxley, Sam Henry, J. H. Pressley, R. S. Rodgers.

A salad course was served.

TEACHER ELECTED

Nineteenth Street Church Class In Meeting

Mrs. W. A. Todd has been elected teacher of the Nineteenth Street Baptist T. E. L. class and Miss Copp has been elected secretary.

A meeting of the class was held Thursday with Mrs. W. A. Terrell at 1910 Avenue N. Rerfreshments were served to 12 women at the close of the meeting.

Mr. and Mrs. K. L. Riggs, and daughter, Marilyn, are spending the week-end in Lamesa.

L. P. Lawrecene and son and daughter, Charles and Geraldine, attended the annual banquet of the Amarillo Paper banquet last evening in Amarillo. Their home is at 2313 10th street this city.

Election of Officers Claims Interest Of Club Women; Few Social Affairs Given Here; Women Assist Exhibit

Mrs. J. L. Quillen, Christmas Bride, Feted At Affairs

Mrs. R. L. Douglas Hostess Yesterday With Luncheon Honoring Mrs. Quillen; Gifts Received

Mrs. J. Lee Quillen, who was Miss Ruth Dunn before her marriage during the Christmas holidays, has been the honor guest at several of the prettiest affairs that have been given lately.

The last of these was a llunchеon and miscellaneous shower yesterday afternoon given by Mrs. Richard L. Douglas in her home at 2123 16th street.

The bridal theme was evident in simple table decorations and the bride's colors in pastel shades were used. Each table was centered with a bride and place cards were in the same motif.

Three Course Luncheon

A three course luncheon was served and at the last a silver tray piled with gifts was brought to the bride. A solo was sung by Miss Nell Parmley, accompanied at the piano by Miss Mary Dunn.

Covers were laid for Mrs. Quillen, Misses Mildred Street, Mary Meador, Erika Peters, Tyler Lee Knight, Mary Dunn, Nell Parmley, Ruth Budd, Hazel Armstrong, Gertrude Daniel, Mabry Edens, Bethany Swearingen of Jackson, Miss., Bernice Phipps, Virginia Conley, Frances Conley, Mayme Alexander, Alma Spikes, Grace Moore, Ruth Horn and Sue Bryan.

Mrs. Quillen was honor guest on last Friday afternoon when her sister, Miss Mary Dunn, was hostess with a musical tea at Hotel Lubbock and on Thursday evening Mr. and Mrs. Quillen were honor guests at a Country club affair given by Mr. and Mrs. C. L. Quillen.

Mrs. R. L. Douglas Elected Head Of City Music Club

Music of Russia Program Topic Yesterday When Music Club Meets With Mrs. J. A. Rix

Mrs. Richard L. Douglas was elected president of the Lubbock Music club yesterday afternoon in an annual business session, changes were voted in the cnstitution and other business of the organization was discussed. This meeting was followed by a program on "Music of Russia" with Mrs. L. J. Von Tungeln as leader.

The society met with Mrs. Jed A. Rix at 1008 Broadway and Mrs. R. D. Moxley, president of the club, presided. Mrs. Moxley's term of office will not expire until May and Mrs. Douglas will assume her office in September with the fall opening of the club.

Change Constitution

The most important change voted in the constitution yesterday was a ruffing that a member will be automatically dropped from the rolls following three unexcused absences from meetings. Failure to respond to roll call will be considered a tardy.

Items of musical interest were given yesterday afternoon with the roll call and selections given during the afternoon were typical Russian music.

"Song of the Volga Boatman" was played as a Victrola selection and Mrs. J. B. Edwards gave an explanation and interpretation of the selection. Two other such numbers, "Andante Cantabile" by Tschaikowsky and "Scheherazade" by Rimsky-Korakov were given by Mrs. Von Tungeln.

Other Numbers

Miss Margaret Stone, violinist played Rubenstein's "Malody in F" and Mrs. George N. Atkinson sang "Ye Who Have Yearned Alone" by Tschaikowsky. Mrs. Claxton Draper played "Alt Weln" by Godowsky and Mrs. Rix played "Prelude in C Sharp Minor" by Rachmaninov.

Mrs. R. F. Cook introduced the program with a talk on the influence of folk-lore on Russian music.

Mrs. Will Tucker was elected treasurer of the organization.

A musical tea was planned for February 15 at the Country club for members of this club and their guests and four hostesses were appointed to receive visitors at the Tech art exhibit on Wednesday. These are Mrs. Marlin Smith, Mrs. Sam Lightfoot, Mrs. R. L. Douglas and Mrs. S. E. Cone.

LINDY CLUB MEETS

Mrs. J. H. Murdough Hostess to Needle Society

Lindy Needle club members were guests of Mrs. J. H. Murdough in regular meeting and, after a pleasant afternoon had been spent in needlework, refreshments were served to Mesdames W. L. Stangel, W. G. McMillan, Allen T. Stewart, Homer Pharr, S. B. Haynes, W. H. Abbitt, A. Lesosky, H. D. Woods, H. E. Blocker, George L. Stevens, D. D. Cross.

Church Organizations Are Choosing Officers For the Year; Brides Are Given Parties

Few social affairs are being given in Lubbock at this time because there is so much illness among people here. Although most of the social and study clubs are continuing their regular sessions, some of them have disbanded until February.

The election of new officers is the principal interest in most of the organizations. Athenaeum and Sorosis study clubs had annual business meetings on Tuesday afternoon and elected officers for another year and the New Era and Twentieth Century clubs announced that officers would be elected at the meetings on January 22.

Others Name Officers

Sunday school classes, social clubs and other organiaztions are having sessions and naming officers for 1929. London club members elected Mrs. Victor Payne president Wednesday afternoon in a business session and on the same day the 1916 Needle society elected Mrs. James H. Kimmell president in an all-day meeting with Mrs. W. W. Royalty.

Aside from the affairs for Mrs. J. Lee Quillen, there have few inhonor parties. Mrs. Leaverton, who married a short time before Christmas and who was the former Miss Lucille Payne, was honor guest Thursday afternoon at a party given by Mrs. Joe Nislar and Mrs. Volney Hill in the home of the first hostess.

Students in the First Presbyterian church attended a program party on Tuesday evening at the Country club and Baptist students were entertained on Thursday evening at the church.

Few affairs have been announced for next week here.

Exhibit Continues

An exhibit of paintings and etchings by Southern Artists which is being shown at the Technological college is drawing some interest and committees from the Federated clubs, the parent-teacher associations and other organizations are remaining at the exhibit to welcome visitors. Several organizations are planning to visit the exhibit together.

The pictures were sent here by the Southern States Art league and will be exhibited for about ten days.

HAS NEW CLASS

Kindergarten Classes Are To Meet of Mornings

Miss Elsie Connor, kindergarten teacher at the George M. Hunt school, is to begin teaching a first grade class tomorrow at the K. Carter school, it was announced yesterday. Miss Connor's kindergarten class will continue at the Hunt school of mornings and the Carter school class will be in the afternoon.

POSTPONE MEETINGS

Pre-School CircleA . A. U. W. Will Not Meet Now

Since there is so much illness in the city, meetings of the American Association of University Women Pre-School study group have been indefinitely postponed, according to an announcement made yesterday. This circle was scheduled to meet Friday afternoon but the meeting was not held.

Mrs. F. B. Birdsong of Plainview is spending the week-end with Miss Oma Wright.

Mrs. Walter Water sand daughter, Miss Trudye Waters, of near Shreveport, La., are spending some time in Lubbock with their son and brother, W. Lee Waters. Miss Trudye Waters has been ill, but is improving.

The Morning Avalanche
Menu for the Day

BREAKFAST — Stewed prunes, cereal, cream, codfish balls with tomato sauce, rye toast, milk, coffee.

LUNCHEON—Baked cheese shredded cabbage and pineapple salad, bran bread and butter sandwiches, fruit cookies, milk, tea.

DINNER—Ham baked in milk, French fried sweet potatoes, buttered onions, head lettuce with Russian dressing, peach Bavarian cream, milk, coffee.

Fruit Cookies

Ten cups flour, 1 teaspoon salt, 4 cups brown sugar, 2 teaspoons cloves, 2 teaspoons cinnamon, 1 lemon, 1-2 pound shredded candied orange peel, 1-4 pound shredded citron, 1 pound blanched and shredded almonds, 1 cup butter, 1 cup lard, 1-2 cup cream, 2 1-2 teaspoons soda, 4 tablespoons hot water, 2 eggs.

Mix flour, salt, sugar, spices, grated rind of lemon, fruit and nuts. Melt butter and lard, add cream, soda dissolved in hot water, and eggs well beaten. Add to first mixture and mix thoroughly, using hands if necessary. Make into rolls two or three inches in diameter and let stand on ice over night. When ready to bake, cut in thin slices an dbake in a hot oven. Place on an oiled and floured pan to bake.

The cookies need not all be baked at the same time as the dough will keep several days.

Katima Camp Fire Group Elects New Officers At Meet

Program Is Given Friday at Meeting With Assistant Guardian, Inez Law, And Officers Named

New officers were elected by the Katima Camp Fire group Friday evening in a meeting with the assistant guardian, Inez Law. Flossie Adkisson was named president. Other officers are the following:

Vice-president, Renolds Douthit; secretary-treasurer, Mozelle Cobb; reporter, Doris Mullins. The program committee is composed of Renolda Douthit, Doris Mullins and Georgia Barkham and the social committee is composed of Mattie Cameron Williams and Alyne Law.

Sandwiches, candies and cocoa were served during the evening and a program was given consisting of a vocal duet by Inez Law and Flossie Adkisson and a vocal solo by Doris Law. Georgia Barkham played a piano solo.

Visitors attending the meeting were Alice Rachel Jones, Lois Ford, Mattie Kate Vaughn and Doris Law. Members attending were the guardian, Amy Brock, Mattie Cameron Williams, Flossie Adkisson, Georgia Barkham, Cleta Robertson, Allene Law, Doris Mullins and Renolda Douthit.

Teacher Wins On Evolution Trial

Recurrence Of Scopes Case Avoided As Tennessee Pedagogue Wins Case On Charge Theory Taught

(By Associated Press)

JAMESTOWN, Tenn., Jan. 12.—Firecrackers touched off during a Christmas celebration at the Clerk Range county high school here started a train of events that threatened a second Scopes case, but the teacher accused of violating Tennessee's anti-evolution law, Elmore Fentry, won a victory today.

Charges of teaching the theory of evolution in violation of the state law, and of assault and battery filed against Gentry by the fathers of two boys he suspended as a result of the Christmas prank, were dismissed by the Fentress county board of education, which accepted Gentry's defense that he had not taught evolution. He admitted, however, that he had permitted an "outline of History," to be placed in the school library.

One development that may result from the case is a bill to repeal the anti-evolution law. Representative George L. Stockton, Fentress county, who came here from Nashville to "help in saving Jamestown from having a Dayton monkey trial," said he will introduce a repealer, not because he wants evolution taught, but because "the monkey bill is permitting people to make monkeys out of Tennessee."

MUST HAVE JOKE

Little Horse Play Made For House Members

AUSTIN, Jan. 12. (AP)—Humorously inclined members of the house could not resist a temptation today to train the spot light on the legislature's only republican member, Reno Eickenroht, of Seguin.

In a resolution sanctioned with boisterous approval the lone republican was made minority leader of the house and special counseller in federal land matters.

"I'm going to act in harmony with senate and house committees on federal relations," Eickenroht said.

The mastodon is not the same as the mammoth.

Stockings which are too long or too tight can do as much harm as ill-fitting shoes

YOUR CHILDREN

by Olive Roberts Barton

©1928 by NEA Service, Inc.

SMASH!

The expensive vase that Aunt Irene had given Mother for Christmas tottered and fell, shattering into a thousand pieces.

"Tommy!"

His mother grabbed her five-year-old son and shook him until his neck cracked.

Then there was the day that Tommy laid his wet boat on a chair newly upholstered in pale-blue satin damask. The boat lay there all afternoon in dry-dock, the red paint on its hull soaking deeply into the pastel loveliness beneath.

When his mother found it, her chair ruined of course, there were fireworks.

His next offense was biting a piece out of the side of a rare, exquisite glass goblet.

"Why don't you let him drink out of a cup or a mug?" asked his father when Tommy's mother, who has gone upstairs to cry off her hysterics, reappeared on the scene.

"Because," she said, "he's old enough to be a little gentleman. He must learn to take care of nice things."

Her sentiment was all right in its way—children should be taught to take care of things—but you can't go about it by filling your house with fine furniture and bric-a-brac and trusting to luck to keep them safe.

Children are children after all—impulsive, awkward, easily excited, and experimental.

We should postpone the days of grandeur until the children are old enough to be taught intelligently how to take care of things.

New Colors, Cuts and Materials Forecast By Modes At Resorts; Rose, Blue and Yellow Seen

By HENRI BENDEL
For NEA Service

NEW YORK, Jan. 12—Clothes designed for winter southern wear invariably predict the lines along which spring styles will travel.

New materials and new colors are of equal importance with new cuts. For southern models introduce every new thing that conturiers create. They are the cream of the season, in many ways.

Three new colors that promise increasing importance are a blue the color of gentian flowers, called "Degas blue," and soft pink the color of wild roses, called "Callot rose" and a new, pale yellow, "wild rice.

Yellow Prime Favorite

Since these three colors repeat themselves in every type of apparel from the bathing suit to the ball room, it is safe to predict that blue rose and yellow will vie for first place in the color race. Yellow has the greatest chance to succeed for the vogue for sunburn and for shades that go with it give it a head start.

Materials are varied and lovely in the Palm Beach clothes. Faille crepe adds its lovely, graceful texture to the varied fabrics that will fashion southern clothes. Roughish materials like the pebbly Canton crepes and tajs are good, but they are of the finest texture so that their firmness lends itself easily to the manipulations the new styles emphasize.

Necklines Decorated

There is an insistence upon collar trim, these days. The collarless necklaine is on the wane and most of the new costumes show some soft touch around the neck.

Bows are as popular a decorative touch as they have been in winter garments. There seems to be little striving for originality in the use of bows. The grace of an ordinary bow in the garment's fabric or in some contrasting lingerie material is recognized at its full value. Hand embroidered touches and even lace touches are new and good.

A Degas blue flat crepe frock has three new features that deserve mention. First, it's handtucked batiste decorations are a part of the frock. The collar is merely a fitted banding and instead of a tie and ends, the batiste is let into the frock in the form of a classic bow and shaped ends. Little cuffs are inserted, too, with the bow tie ends running up the sleeve.

Second, it features a deep V front and back bodice yoke. Third, it has a most unusual tucked belt of its material that drops, after being knotted in front, to form an original yoke for a front width of deep tucks.

A second frock, of Callot rose Canton crepe, uses little dog-eared bows of its material for decoration and fine hand-tucking in a dog-eared motif around the blouse and cuffs. It is a two-piece model. It has a little standing collar of white georgette which repeates the dog-eared motif in its tucks and its tie. A Chinese bangkok hat with a embossed band tops it, showing the wider back brim which spring features.

Graceful and exertmely feminine is a third model which shows several new spring touches. It is a wild rice yellow two-piece frock in faille crepe.

It shows the preference for the circular skirt, having both its front and back circular, with straight lines. It has an unusual V decoration in the blouse, its little lingerie collar of embroidery pointing to a V and a front panel beginning at the neck's point and widening to a V at the waist. The back of the blouse repeats, showing that spring is no longer partial to the front view. The hat is a matching yellow baku, with a grosgrain banding in a deeper shade.

PLOT DISCOVERED

Half Million Life Insurance Conspiracy

PITTSBURGH, Pa., Jan. 12. (AP)—The conviction of Fred Shada, 40, here for false pretense in the issuance of an insurance policy has disclosed a half million dollars life insurance conspiracy, Assistant District Attorney Phillips asserted tonight.

Shada was charged with having impersonated George Shada, relative, in securing a $5,000 policy from a mutual life insurance company.

Policies were obtained on uninsurable persons, it was said, through submission to examination by a person in good health substituting for the one named in the policy.

How to Achieve Beauty

BY MME. HELENA RUBINSTEIN

MME. RUBINSTEIN

"The bicycle" is an old friend to most of you. If it isn't, it should be, for it's a necessary an valuable part of your "daily dozen." Here's the simple exercise itself:

Start with your knees up to the stomach. Now raise the right leg straight up. Flex the knee and begin working first the right, then the left, in an even, rotary movement, exactly as if you were working the treads of a bicycle.

Now very, place both hands at the small of your back, bracing the muscles there, and lifting your body a little from the floor surface. Raise first the right leg and then the left, keeping the knees stiff and straight until they reach a perfectly perpendicular position. Now raise both legs together in a full swing until your toes are well above your heat, and work at it until your toes can touch the mat behind your head. Lower the legs quickly. Begin with not more than five-minute periods and gradually increase your time from day to day.

Be careful not to attempt this until you have sufficiently loosened up your back and abdominal muscles. It is very easy to strain muscles that are suddenly whipped into action after a long period of inactivity. Go about all your exercising in a sensible manner. Don't do half a dozen un-co-ordinated exercises in the hope that they will just "fit in" with your needs. Certain exercises are designed to correct certain conditions. Others are purely strengthening. Still others develop ease of movement, good posture—the ability to relax.

Relaxation exercises won't reduce your hips, nor, by the same token, will reduction exercises teach you to become easy and supple and free from those nervous tensions that cause so much actual ill health.

Decide first upon your needs. Then work out half a dozen special exercises to fill those needs. Don't neglect your general routine of simple exercises, for it is not good to specialize too much on any one part of the body. Use your own good common sense, and you will get 100 per cent value from your daily exercises.

FIND ABRASIONS

Probe Reports Youth Was Beaten To Death

MARIETTA, O., Jan. 12. (AP)—Twelve abrasions, six of them punctures, were disclosed in a post mortem examination tonight over the body of Hamilton Jett, 17, who died of double pneumonia at the State Industrial School, Fancaster, Ohio.

The post mortem was at the instigation of F. E. Myers, prosecuting attorney, who was told by the youth's mother, Mrs. Henry Jett, that her son had been beaten at the school because he did not work when he was ill.

FATHER'S REVENGE

Roadhouse Proprietor Shot And Wounded

CAMDEN, Ark., Jan. 12. (AP)—Aftermath of an alleged high school liquor roadhouse party near here last fall came today when Alex Hardin, 25, proprietor of the roadhouse, was shot and wounded by F. E. Sullivan, father of a 15 year old girl who attended the affair.

Hardin is under $1,000 bond on a charge of giving liquor to minors. His wounds are serious.

Frogs and toads destroy vast numbers of insects and worms.

Hog cholera was first found in America 95 years ago.

Weddings Feature Society On South Plains Last Week

Luncheons and Suppers Are Among Functions Given Last Week by Hostesses Of The Plains

Among the many socialities in towns of the South Plains section last week were a number of weddings. Luncheons and suppers were other featured affairs.

Mr. and Mrs. Ed Bishop, who were recently married in Floydada, were honor guests at a miscellaneous shower Monday evening in the home. Friends of the couple gathered at the A. A. Bishop home, going from there to the home of the bride and groom.

Those attending were Messrs. and Mesdames Jeff Welborn, C. H. Davis, Robert Sone, J. C. Gilliam, Misses Eddyth Walker, Pauline Keeton, Lyda Smith, Blanche Bass, Katherine Birch and Bernice Bishop, Messrs. Frank Bass, George McWhirter, H. H. Cunningham, A. J. Folley and Tom Bishop.

Husbands of members of the Floydada Bridge club were guests Wednesday evening when Mr. and Mrs. J. I. Hammonds entertained the club. Those attending were Messrs. and Mesdames W. H. Hilton, John Reagan, Ray Dickey, Luther Fry, S. W. Ross, A. A. Bishop, Leon Collins, A. B. Keim, A. N. Bratton and Mrs. Fred Brown.

Club Entertained

Mrs. J. B. Reed of Spur, entertained the 1925 Bridge club members Wednesday afternoon in her home. Club members attending were Mesdames Nellie Davis, C. L. Love, E. L. Tanner, L. H. Perry, R. E. Dickson, Oran McClure, W. D. Wilson. Other guests were Mesdames Riley Wooten, Joe Kellam, Houston Scarbrough, Edwin Ripley, Jim Edd Hall, Dickey, R. C. Forbes, Shitley Robbins and D. H. Zachry.

Among the delightful affairs given in Plainview last week was a buffet supper party on Tuesday evening given by Mr. and Mrs. Tom Carter and Mr, and Mrs. Albert Hinn, complimenting Mr. and Mrs. M. D. Temple and Mrs. Paul Stockton of Los Angeles, Calif., and Mrs. R. H. Hughes of Wichita Falls. The supper was in the Himm home.

Guests included Messrs. and Mesdames Ellis Carter, B. F. Jarvis, D. H. Collier and family, Miss Mary Hinn, Miss Molly Goode, Dr. W. B. Mayhugh and Maury Hopkins.

Wed in Plainview

Miss Josephine Wayland, daughter of Mr. and Mrs. Jo W. Wayland of Plainview, was married to Hoyt Elmo McMinn of Carlsbad, N. M., last Thursday in a simple ceremony at the bride's home. Guests at the wedding included a number of friends of the couple.

An annual luncheon for members of the Memphis 1913 Study club was given last Wednesday. There was an annual election of officers at the affair, which was at the Memphis Hotel.

LEAGUE MEETS

Methodist Senior High Body Has Pie Supper

A pie supper followed a business and council meeting of the First Methodist Senior High League Friday evening at the church. Those attending were Mr. and Mrs. Sam Leifeste, Garland Smith, Allan Dykes, Wesley Doak, George Thomas, Evelyn Doak, Marjorie Drake, Eulala Henderson, Elaine Henry, Mozelle Partain, Freddis Adkins, Loraine Caldwell, Ruth Mildred Rylander.

The Woman's Day

By Allene Sumner

Allene Sumner

We are told that there are now just about one million and a half hotel rooms in the United States; that these rooms are in about 27,000 hotels and that we have more hotels than the nation can really use. That does sound like a lot of rooms, but when one gets to wondering how many house rooms and houses there are in the country, the number seems rather pale.

But the gloom hounds will read into this warning a song of woe to the effect that we are all going to the hotel bow-wows and that what we need is the return of the old-fashioned home. By the way, there are about 27,000,000 homes!

• • •

Every once in a while some more or less professional scientist converts hens into roosters or vice versa or experiments with eggs before hatched so as to reap a crop of all hens or roosters. Then begin speculations as to the probability of controlling sex in the human world, producing males or females at will and even exchanging what's on hand for something deemed much better. Paul Hadley of New Jersey, just hatched a crop of 500 hen baby chicks, by the use of the X-ray.

One wonders what will happen when all this is quite possible in the human realm. How many women, for instance, would be men? If they could, and vice versa? Here's wagering that very few would dare try the exchange, what with all the carping to the effect that the other sex always has it the easiest.

• • •

Just why there should be a world championship talking contest at all must seem strange to many people, as such a thing opens in New York, and, at latest reports, was going rather strong, with honors about evenly divided twixt male and female. And yet why not? Why isn't a talking tournament fully as worth while as "a bunion marathon," an egg or oyster gulping contest, a flagpole sitting contest, and all the other contest ills that mortal flesh is heir to?

Certainly one can not travel about very much without being impressed by the fact that most people need some sort of conversational training. If a marathon's the answer, more power to it!

MURDOUGHS HOSTS

Mrs. Sam Hodges President Of S. S. Class

Mr. and Mrs. J. H. Murdough, 2317 18th street, were hosts to members of the First Presbyterian class taught by A. H. Leidigh Friday evening in their home. This was a regular social and business meeting of the group.

Mrs. Sam Hodges was elected president of the class at this meeting. R. T. Groves was elected vice-president and Harold Gordon was elected secretary-treasurer. There was a good attendance of members at the meeting.

FRUITS GO FREE

STOCKHOLM, Sweden, Jan. 12. (AP)—American fruits probably will be put on the Swedish free list, it was forecast today at the formal opening of the Piksdag, Swedish parliamentary body.

FACE STARVATION

SARAJEVO, Bosnia, Jugoslavia, Jan. 12. (AP)—The population of this city, where were set in motion events which culminated in the World War, are so hard put for bread that they have been forced to chop hay and straw and mix it with wheat husks to make their dough.

TRACK PAYMASTER BAN

EVANSVILLE, Ind., Jan. 12. Police tonight turned back into Indiana in their search for a be who today robbed Clarence F paymaster for a furniture com of more than $13,000. The auto bile used by the robber was f abandoned at Huntingburg, Ind.

TEXAS WARDEN ILL

HUNTSVILLE, Jan. 12. (AP)—Warden Ed F. Harrell of the state ison, ill for several days with pneumonia, was reported improved tonight.

The warden has passed the crisis in his illness it was declared.

MALONE FOUND GUILTY

MIAMI, Fla., Jan. 12. (AP)—Robert Malone, 44, was found guilty of manslaughter by a jury here tonight for the killing of William Simpson, road construction superintendent, and placed under $2,500 bond pending sentence.

(Special To The Avalanche-Journal)

AMARILLO, Jan. 12.—City commissioners will meet here Tuesday night to discuss plans for a $90,000 addition to the water plant and bids on hangar and office building at the municipal airport. Bids for the waterworks project will probably be received January 29.

The evening hour of worship is at 7:15 p. m.
The mid week prayer service is on Wednesday evening at 7:30 p. m.
If you desire to hear the old time Gospel message in the Spirit come and worship with us today.

FIRST CUMBERLAND PRESBYTERIAN CHURCH
Corner of Tenth and O
O. N. Baucom, Pastor

Sunday school starts promptly at 9:45 a. m. Room for all. Come.
Subject for 11 a. m.: "The Transformed Life."
Children's band meets 3 p. m. Miss Jessie Judd, leader.
C. E.'s meet 6:45 p. m. Young People's president, Freland Groce. Junior President and leader, Miss Marion Hudson. A good program for all.
The evening subject will be "Elimination by Substitution."
The W. M. M. Society will have charge of prayer meeting Wednesday evening.
The Ladies Missionary Society will meet in the Ladies Parlor Monday 2:30 p. m. A full attendance is hoped for and expected.
You will find a welcome to all services.

ST. JOSEPH'S CATHOLIC
Avenue O at First Street
Rev. J. H. Krukkert, Pastor

Mass at 8:30 a. m. for American worshipers, Sunday.
Mass at 10 a. m. for Mexican worshipers, Sunday.
Week day masses begin at 7 a. m.
St. Anne's Alter society meets on each first Monday.

POINCARE WINS

Repulses Attack Of Other Faction

PARIS, Jan. 12 (AP)—When the smoke cleared after the first day's battle in parliament against the present cabinet, Raymond Poincare, prime minister, was holding the fort and had most of the honors.

Though the opposition attacked steadily, it either was repulsed outright or driven back by counter-attacks led by the premier.

Early in the engagement M. Poincare made it plain that he intended to remain in power if possible and that only an adverse vote would cause him even to revamp his ministry.

City Briefs

Mr. Charles M. Waters and Miss Nell Ziegler of Elida, N. M., are in this city on a combined business and pleasure trip.

W. A. Smallwood of Levelland was a business visitor in this city Saturday.

Mr. and Mrs. Fritz Fuchs and daughter, Lillie Marie, were Abernathy shoppers in Lubbock Saturday afternoon.

Mr. and Mrs. W. A. Walker of McAdoo were business visitors in Lubbock Saturday.

Powers Brandshaw of the John Halsey drug company will spend Sunday in Amarillo.

Mr. and Mrs. Joe P. King, who were shopping and attending to business here Saturday afternoon, have returned to their home in Hurlwood.

Mr. and Mrs. Tom Brewer and little daughter, Maxine, of Abernathy, were business visitors in Lubbock Saturday.

Maxie Morris will leave today for Waco where he will join Mrs. Morris, for a brief visit and the return home.

Ollie Stevens of Post was a business visitor in Lubbock over the week end.

Mrs. T. V. McKinney, of Twentieth street, is reported ill at her home.

E. P. Ellwood of Dekalb, Ill., arrived Saturday for a visit with his brother, W. L. Ellwood, 2501 Nineteenth street.

Mr. and Mrs. A. T. Taylor of Slaton transacted business and attended to shopping here Saturday.

Mrs. Charles F. Schook and children, Charles, Rita and Shirley, of Tahoka, accompanied by Mrs. R. C. Wood, were shopping visitors here Saturday afternoon.

K. C. Butts, 1914 Ninth Street, who is ill with pneumonia, is reported much improved at this time.

Miss Bernice Jones of Eldorado is a transfer student from Texas University enrolled at Tech for the winter term.

Mrs. A. B. Swan, who is a teacher in the Tahoka schools, was in this city shopping Saturday.

Mr. and Mrs. E. M. Perry of Quannah, are expected to arrive here today for a visit with their daughter, Miss Elsie Perry, Tech freshman.

Miss Floy Loper of Corsicana has recently enrolled at Tech as a transfer student from Southern University at Memphis, Tenn. Miss Loper is at home at 2211 Main street with Mr. and Mrs. C. H. Gable.

Clarence Locke, with the U. S. department of agriculture, leaves today for Wichita Falls where he will be the guest of his uncle W. Ford Harrison and Mrs. Harrison.

Mr. and Mrs. Jim Kates of Hurlwood, were in this city on business Saturday.

Miss Lola Crowley of Post was a shopper here Saturday.

Mr. and Mrs. J. D. Henson, who have been living in Meadow, have moved to Lubbock and Mr. Henson is with the Sherrod Hardware. Before her recent marriage Mrs. Henson was Miss Effie Pecler.

Miss Gilma Littleton, bookkeeper for Maxfield Music company, has returned from Waco where she was the guest of her mother, Mrs. Emma Littleton.

Mr. and Mrs. Robert Jennings have returned to New York after visiting in the home of Mrs. Jennings' mother, Mrs. A. B. Conley, at 1611 Main street.

Mr. and Mrs. W. B. Cummings and son and daughter and Mr. and Mrs. John Allen of Dallas have returned to their homes after visiting in the home of Mrs. Cummings' mother, Mrs. Maggie Hussey.

Judge T. L. Price, district attorney of Post, was a business visitor in Lubbock Saturday.

Lois Watkins, of the John Halsey Drug company, leaves today for San Antonio where he goes on business.

Mr. and Mrs. L. H. Taylor of Lorenzo were business visitors in this city Saturday afternoon.

Mr. and Mrs. M. O. Pugh of Caldwell were transacting business here and attending to shopping Saturday.

E. W. Smallwood of Matador was looking after business interests here Saturday.

Mrs. Russell Myrick and children, Patricia, Robert and Russell, jr., are reported convalescing at their home after a several days illness.

W. W. Graves, assistant manager of the West Texas Gas company, is home from a week's business visit at Amarillo.

Mr. and Mrs. Worth Gill of Woodrow transacted business in Lubbock Saturday.

Mr. and Mrs. A. F. Hess and little daughter, Thelma, were business visitors Saturday from Caldwell.

Mrs. S. G. Bishop of Floydada is at the bedside of her sister, Mrs. G. H. Hughett, 2215 Thirteenth street.

Mrs. Ben Williams was a visitor from Post here Saturday.

George Crawford is ill at his home at 1610 Sixteenth street.

Miss Johnie Murrell, teacher at County Line, was a visitor in this city Saturday.

Mrs. J. W. Lynch, 1910 Avenue K, who is ill at her home, is slightly improved.

Carl Cook leaves Monday for Midland where he has accepted a position.

Charlie Wickersham of Shallowater was trading in Lubbock Saturday.

Miss Hazel Allred of Wichita Falls is visiting in this city.

Mrs. J. R. Murrell and Mrs. O. B. Johns and children, John Henry, Billie Joe and Murrell all of Shallowater, were shopping here Saturday.

Bob McCord of Tahoka was a business visitor Saturday.

H. D. Phillips has returned from Carlsbad, N. M., where he transacted business for the State Telephane company.

Knox Porter has returned from a three weeks visit with relatives at San Antonio.

W. E. Humphries, of the Piggly Wiggly stores, has returned from Brownfield where he attended to company business.

Mr. and Mrs. S. D. Pate were New Hope shoppers here Saturday.

C. J. Meyers, manager of Montgomery-Ward company, returned Saturday from Fort Worth where he went on business for the store.

Miss Ilone Arnett, daughter, Mr. and Mrs. H. S. Arnett, who has been the guest of Miss Edyth Dean of Lamesa is expected to return today.

Miss Annabelle Guffin of Whitharrold, is the week-end guest of her uncle and aunt, Rev. and Mrs. D. B. Doak, 1712 Broadway.

Mr. and Mrs. W. L. Mier, of the Mier Music company, attended to business Saturday at Plainview in connection with the opening of a new store in that city.

Wallace Barnard was through Lubbock yesterday en route to Plainview to visit his parents, Mr. and Mrs. H. H. Barnard. While here he was the guest of his sister, Mrs. T. Russell Bowles, and he was accompanied to Plainview by Mr. and Mrs. Bowles. Mr. Barnard has been in the navy for four years.

Nobel Paulk is spending the week-end in Amarillo.

MAIL PLANE DOWN

Night Pilot Loses Way From Waco To Austin

WACO, Jan. 12. (AP)—Airport officials here late tonight received word that the monoplane carrying mail from Waco to Austin had landed at West Point, Fayette county.

The plane left here at 5:15 p. m. Although officials refused to reveal the pilot's name it was said he was making his first night run tonight and it was thought he had lost his bearings.

Chinese are believed to be hardest working farmers—and the lowest paid.

"LIGHT"

Once more we are reminded that while the world stays, time goes on, each year making the world richer for the things it leaves behind. Progress is the keynote of this modern age.

Electricity . . . . the cornes-stone of progress . . . . has proven to be the golden opportunity. Daily more people are depending upon it for the home. Lighting, cooking and the household drudgeries are made easier and better by its use. In the days to come we will proudly look back upon the record of its accomplishments.

Thou, O king, art a king of kings: for the God of heaven hath given thee a kingdom, power, and strength, and glory.—Daniel, ii, 36, 37.

THE STRANGE IDEAS OF FOLKS

The more one studies the Bible the more real it becomes. Too many people merely read the word of God, but do not study it. The Bible is a book that cannot be read like other books, and passed over to the book shelf and forgotten. It is a log book of life, and must be constantly handy, and frequently referred to if we are to make the journey successful, and land where we all would like to when the end of the trip is at hand. There are people who have strange ideas about God according to the way we see it, and even some people who pretend to be ministers of His, will put doubtful construction on what seems to us need not be questioned at all. Christ's picture of God as a kind and loving Heavenly Father who not only provides a way of Salvation for the souls of men, but gives them from day to day the things that are necessary to sustain life, is thoroughly satisfying to the mind and heart of every Christian. There is no other way of knowing that there is a God and that he is a kind and loving father except as Jesus has pictured him for us; because it is a matter of faith, a matter of believing and accepting Jesus Christ who said that it was only through him that any man could approach the Father. A study of the fatherhood of God, therefore, is a study of the Fundamentals of the Christian religion. Jesus used homely illustrations in explaining to his diciples the love of God and his constant for doe his children. He pointed to the birds, which sow not, neither do they reap", but find from day to day ample provisions for all their needs. He called attention to the wild flowers", which toil not, neither do they reap", and yet God clothes them in all the gorgeous colors and gives them a beauty that no man cansuccessfully imitate. If God so cares for the birds and the beasts and the flowers of the earth it is reasonable to believe that he gives at least equal care to the men and women whom he has placed upon earth as the crowning glory of all his creative work. But continuing the Savior in his discourse, what man can do more for himself than God has already done? None can find food, or clothing, or any other necessary thing, except as God provides it. No man can by his own efforts increase his own stature, or that of any other man. Therefore those who believe in God do not need to worry about temporal things, the necessities of life, because they know that the Father who has created them and has placed them in a world which he created will care for them, as their needs may require; giving each day enough of difficulties to strengthen the character and enough of good to sustain the faith and courage.

God thus is pictured not only as a Father of infinite love and patience, but as a majestic King of infinite knowledge and power. Arthur Brisbane, writing a day or two ago in a discussion of the efforts of scientists to measure the speed of certain plantes as they whirl through space, said that "Of a God able to manage this collection of universes, separated from each other by a million light years, no human mind could form any conception except a trivial one." But God not only manages the universes, which man has not yet been able to identify and classify; he manages the most trivial details of the daily life of every living thing on the earth. Moreover, God acts not upon impulse, but according to his divine plan which was fixed "from the foundation of the world," so that we who are his creatures and his children merely go along from day to day, exercising our own wills in many matters and yet conforming in every minutest detail to the age old plan that the Father has developed for each one of us. A God of such power and such wisdom can not even be imagined by anyof us; but when one has once come to a realization of the all-embracing love of God as it was so carefully explained by the Lord Jesus Christ, he contemplates the majestic power of God without fear and only in a spirit of wonder, which was voiced by the Psalmist who cried, "What is man that thou are mindful of him, or the son of man that thou visitest him?"

THE OTHER FELLOW'S PLACE

It seems that there is a condition in the minds of many people that their place in life is the hardest place to fill. That their difficulties in life are far harder to overcome than that of the other man. That your neighbor has an easy time while you have to struggle along and have a hard time to get through life. This is a sad mistake that most of us make every individual has his own hills to climb. They all have their griefs and their joys, their sorrows and their seasons of happiness. They have their own financial trouble, and their own bills to meet, and their own collections to make, though it seems that so many people do not seem to realize that, and many people even seem to think that they are not in the right place in the world. They feel that there are other places in the world that they could fill to better advantage than the one they are occupying. They have an idea that the other fellow has a soft job, and that the other fellow does not have so many troubles in his work. We sometimes even get to the point that we could do better if he were living in the other fellows house, and with his advantages and his conveniences could be happy and do more for those who come asking alms. We are a restless people. We seem to think the other part of the state or other states are better, and we pull up stakes, and pull out.

There is plenty of work for us to do in the sphere we are operating. There is all around us people who are needing our help, our sympathy, and our protection, and we should have the confidence in God that will help us to lead on. Had Moses not had confidence in God, we would never have been the great leader that he was. It was his confidence that enabled him to lead the Children of Israel out of Egypt, and gave them their freedom. As long as they trusted in God, and obeyed the instructions of Moses, as he gave them from God, they were well taken care of. They we lead on, but when they became discontented, and were greedy for more of the things of life than they were getting, trouble began to show up in the camps. They were warred upon, and there was plenty of trouble for them. We should then fully realize that no matter if we do feel that we are living under great handicaps, and strain, that there are plenty of others who are also having their portion of the difficulties of life.

Let us be happy and content in doing the things that will help others, and please God, for it is our Christian duty to thus conduct our lives. Remember that the other fellow has his burdens, and has his troubles, and his cares just the same as we, or at least just as troublesome, and therefore we must by necessity be charitable one toward another.

On the Firing Line at the Nation's Capital

By KIRKE L. SIMPSON

WASHINGTON, Jan. 12.—The navy never had a four-star admiral bossing its affairs who looked and acted the old seadog more consistently than does Admiral Charles Frederick Hughes of Bath, Me., chief of naval operations.

Incidentally, desk life in Washington has failed to bend his quarterdeck complex completely to political exigency. His eye of steely, deep-sea blue, his cheeks, sun and wind enameled long ago to a permanent ruddy hue, his massive once blond but now gray tinged mustache, rolling in Viking-like proportions athwart a face invariably turned foursquare to every man or issue, all mark him for what he is, a sea-going sailor of parts, not just a desk admiral.

A Hurry Call

So it fell out that when Representative Updike got, a hurry family call home to Indianapolis—it proved to be a double call in fact, for it was twins, girl and boy—and used his naval committee membership leverage to requisition navy air transportation, there was a hitch.

Air Secretary Warner approved. The trip was planned with Commander Brown volunteering as pilot to get in needed air hours, but Admiral Hughes disapproved under regulations. Updike and the disapproval reached theair station about the same time. The station commander being more used to congressional ways than the admiral, perhaps, Updike won out and was duly flipped to Indianapolis in time for the great event.

Orders of the high admiral had been disregarded in this process. That could not happen to Admiral Hughes without a loud repercussion being heard in the land. It didn't. Commander Brown got back to find a court of inquiry order facing him. "How come?" in effect, was what the autocrat of the quarter-deck wanted to know. Orders are orders in the navy Admiral Hughes has devoted his life to, and politics are something else again.

Wound Up Happily

Secretary Wilbur finally squelched the whole business. The fact that Assistant Secretary Warner, in charge of naval aviation had approved the flight originally had some bearing. It all wound up happily enough with everybody congratulating Updike who needed it. He is one of the mighty few sitting republican members to have lost his seat to a democrat in the late voting unpleasantness.

The incident also served to disclose a peculair twist of navy regulations which probably would have licked the admiral anyhow. They authorize commandants of independent air stations to sanction flights wihtin limits without reference to higher authority. And it also appears that the naval air secretary has no power to authorize flights at all. He has to apply to the chief of operations.

Diet and Health

Medical Adviser for Central Press and The Avalanche-Journal.

'MAYO' DIET FINE IF YOU LIKE IT, BUT IS MISNAMED

By Lulu Hunt Peters, M. D.
Author of "Diet and Health" and "Diet for Children"
The So-Called Mayo Reducing Diet.

M was to go on the "Mayo" reducing diet, which she was told consists of one hard boiled egg, one medium sized tomato, and the choice of one glass of skim or buttermilk or orange juice, at each meal. This was to be taken for three days a week in succession during the first month; two days a week the second month; one day a week the third month and further as often as necessary to control the pounds. She reduced to some extent but she wants to know what is the danger of going below 1,200 calories for any period of time.

First let me say that this diet which is attributed to the Mayo Clinic did not originate there at all. I know, for I have visited the clinic and I have Dr. Charles Mayo's own denial of this, as well as their dietitian's. They have had so many inquiries about this diet that they have had to print form letters of denial.

If the patients at the Mayo Clinic need to reduce, they are put on a mixed diet—similar to the one which we recommend in the column all the time—low enough in calories so that most of the energy needs are supplied by the patient's own fat.

The tomato-egg-milk reducing diet is all right for one day a week, if you like it.

Your complaint, M., that it seemed easier to reduce at first but that you now have to go on a smaller number of calories to reduce further, is a common one. The first reduction consists of a lot of excess water the body is holding, as well as the fat. Then, it does seem that the body accustoms itself to the lowered intake of food and works more economically, so that it may be necessary to cut down a little more. It is better, however, not to cut down the consumption every day, but to have one day in the week that is very low—not more than 500 to 600 C. After that day you will find the weight will go down a pound or so.

If you have a small frame and are short, you may have to go under 1,200 calories in order to reduce one and one-half to two pounds a week.

If all of you would remember that even if you go down but one pound a week, in a year's time this amounts to 52 pounds, or if only one-half pound a week, to 26 pounds. That certainly is better than gaining, which you will do if you don't control your diet!

We have a pamphlet of reducing and gaining instructions which you may have.

* * *

"Is distilled water good for human consumption for a protracted period? Will it be improved by aerating it and if so, how can it be accomplished with home facilities? M."

Yes, distilled water is perfectly safe. In fact, it is desirable if one is living in a locality where there is any suspicion of the natural water (Boiling will also kill any stray germs.) We get the minerals we need in a balanced diet.

The water can be aerated by shaking it in a shaker, or beating it with an egg beater. It does improve the taste.

The Mischief Makers Are at It Again!

SO THINK WE

We think the scientists should make some explanation when they say that we are all children of the sun. Just why do so many people have such a wonderful taste for moonshine?

—o—

If women's clothes express their sentiments, some of them must be extremely vague.

—o—

We think that if it was not for the foreign trade we have on cotton there would not be much market for cotton. Very few American people will wear cotton clothes.

—o—

We think a hick town is a place where one cannot borrow a wash board on Monday, and full cousin to this kind of a town is where big men will act like school boys on important matters that mean the progress and development of the city.

—o—

We think the flu certainly landed on the law in Beaumont. Eight members of the police force were down with flu in one day recently.

—o—

We think it may be right that there are more men than women in Texas, but we cannot think of it being that way. It might be, however, that the women are more attractive, and people just think there are more of them.

—o—

We think when you dash around the corner of a building and you meet a gusher from the mouthpiece of some old battle axer you feel like saying, "dadgumitquitspittingonthesidewalks" or possibly worse than that.

—o—

The man who had so much trouble passing his examinations when he went to school, has a son that can easily pass any automobile on the highways.

—o—

We think that education may cost as much as it used to, but if it does it is worth twice as much, so its a pretty good thing to have after all.

—o—

We think that wonders will never cease, becaues we know of a few women who are tattling wonders, and they usually have a daughter who can talk a ring around the mother, so the wonders will never cease.

—o—

We think there are a great many ways that the farmers will have to have relief. We heard of one farmer driving forty miles to hear a speec habout farm relief, and when he got to town there was no parking space, and by the time he found a place to leave his car and walk two miles to the place of the meeting, the speaker had told all he knew about it, and the meeting was closing.

—o—

We think the Bell County Dairy association possibly did not have much trouble in getting enough people on the program in the annual banquet of that organization. They used solo singers as contestants in the cow calling exhibition. Most of them would no doubt make a hit at a meeting of that kind.

—o—

We think Herbert Hoover if he is to be real up-to-date he will have to have an antique organization, and we are fearful that he will have plenty of trouble finding that sort of timber.

—o—

We think if the farmers could stand off their bills as long as the farm relief bill has been stood off it would not be so hard or him to wait for its passage.

—o—

We think there is one good thing about the fellow who is always throwing bouquets at themselves. They never have to say excuse our dust.

—o—

We think that the reason so few people practice what they preach is because they get out of practice.

—o—

We think the woman who does not have a servant is much easier at mind than the one who does. She can at least feel that everything in the house is fairly safe.

—o—

We think rabbits and colored folks are possibly more alike than any other two animals. They both have a rabbit foot.

The Way Of The World

BY GROVE PATTERSON

CARRIE NATION

Dispatches tell about a Kansas City woman who smashed a saloon. She was a wife and mother and believed she had good reason. Reminds the writer of the old days of Carrie Nation. Few remember this pleasant voiced, little old lady who used to smash up bars with axes in Kansas and elsewhere. The writer had a long interview with her once and found her to be kind and hopeful of a better day. She believed deeds mightier than words in bringing temperance. Were she here today she would be pleased by the eighteenth amendment but she would doubtless be doing something about the manner in which it is not enforced.

* * *

DEBS

Speaking of interviews and kindly people, there was none more kindly than Eugene Debs, several times Socialist candidate for president. Debs finally was sent to jail for making a speech, all of which furnishes a chapter in which the United States government need feel no pride. Debs had a big heart. He earnestly hoped and worked for a happier world. When he was mistaken he was mistaken he was mistaken. He was never anything else. The writer remembers a two-hour Sunday afternoon talk with him in the cheap room of a cheap hotel. And he found Debs a gentleman unafraid.

* * *

WHERE'S THE MONEY?

Farmers especially in the northwest are hardly happy. They want more relief from their financial troubles than congress will ever be able to give. Word comes now that the dairymen of Minnesota in a year produced $113,000,000 worth of butter. That's some money. Who gets al lthis money that farmers and dairymen produce? Can it be true that farmers are doing better than we have suspected, or is somebody else getting most of it? Those of us who live in towns know food is high enough to hurt.

* * *

WORKERS

A few years ago it was disclosed that the Methodist Episcopal church paid out $25,000,000 in salaries in a year, despite the fact there were only 218 churches that paid $5,000 a year or over. Today the situation as to salaries is a little improved in most denominations. The fact remains that the average clergyman is sadly underpaid for the long hours and the wear and tear on his nervous system. Comforting the sick, sitting up with the dying, burying the dead, bearing on their hearts the burdens of scores of their parishoners, and trying to find time to prepare sermons that will satisfy the self-appointed critics of the congregation is a job that can hardly be paid for in money.

PRESS COMMENT

LAW SHOULD STAND

There is much divergence in editorial opinion expressed about the recent sentencing of a woman, mother of ten children, to spend the remainder of her life in prison upon conviction for selling liquor. The conviction was the fourth based on felony charges for the woman, and the Michigan habitual criminal law makes the life sentence mandatory. It seems that many who heretofore had endorsed the habitual criminal law are of the opinion that the literal wording of the law is being followed too closely in this case. It seems too much, those opposing the sentence argue, to imprison a mother for life for merely selling liquor. It is freely declared that this is a barbarous act in one of the most highly civilized nations in the world.

It is worth mentioning that a man was given a life sentence for passing a worthless check or $150 in New York a few days ago, and little mention was made of the matter. Press associations which had sent out numerous stories over telegraph wires when the mother was sentenced, either overlooked the man's case entirely, or made but brief mention.

At first thought the mother's sentence may seem barbarous and unjustified, an adherence to technicalities not demanded by justice. However, it cannot be denied that she was an habitual crimnial, if manufacture and sale of liquor is to be accepted as a crime. Every effort had been made to impress the law of the land upon her. Court records show that her husband was in prison at the time, and she had been convicted three previous times. Under the circumstances, the offense upon which she was convicted the fourth time could not be construed otherwise than as an intentional effort to flaunt the law.

Adverse' criticism, admitting the intentional phase of the case, or ignoring it, often singles out the fact that the sentence was given for a mere liquor law violation. Which is more serious, violation of the prohibition laws, or passing a bad check? Which is the greatest menace to society? Granted that this woman never did anything more harmless to society than bootleg intoxicants, can we measure the harm that might result? If some person, drunk on her liquor, should kill a dozen people in a drunken orgy, we might better recognize the menace.

There is no justifiable reason for suspension of the habitual criminal law in this case. It is regrettable that the defandant in this instance is a woman, and a mother, but can we afford to make a mockery of the law whe na woman and mother is involved. Crime and vicious intent are not restricted to either sex, and laws must protect society.—Vernon Record.

WILL FIGHT TO LAST

LONDON, Jan. 12 (AP)—A dispatch to the Daily Herald from Southwold tonight said it was understood there on good authority that General Bramwell Booth intends to fight to the last ditch against high council efforts to depose him.

RACE AGAINST TIME FAILS

DALLAS, Jan. 12 (AP).—A 180-mile automobile race against pneumonia Tuesday proved futile today, Bettie Margaret Ater, 2, of Brownwood, dying in a hospital here.

TWO ON FLOOD BOARD

WASHINGTON, Jan. 12 (AP).—The senate commerce committee today recommended confirmation of Brigadier General Thomas P. Jackson and Major Ernest Graves to be members of the Missisippi river commission.

THIS HAS HAPPENED

ASHTORETH ASHE, a beautiful little stenographer, is having an exciting time on shipboard with an Englishman named JACK SMYTHE' who looks exactly like the Prince of Wales.

Ashtoreth is taking a cruise to the West Indies for her health. Her roommate is MONA DE MUSSET, a mysterious and beautiful lady, whom Smythe distinctly dislikes. He tells Ashtoreth that Mona is notoriously unmoral.

But Ashtoreth refuses to give up her transient friendship with the Frenchwoman, who has been particularly sweet and generous to her.

Mona goes ashore to visit friends at St. Thomas, the first island at which the ship drops anchor. And Ashtoreth is alone on board with the young Englishman. He has already warned her that he means to make love to her—and says that if she doesn't like the notion she had better go to her cabin.

Ashtoreth does not mean to accept his caresses, but to teach him a lesson. He thinks that all American girls pet, and she is determined to make him change his mind. With a good deal of bravado she accompanies him to the starlit deck.

NOW ON WITH THE STORY

CHAPTER XIX

Ashtoreth slipped her hand in Smythe's.

"Come on!" she challenged.

But all the while she was wondering exactly what she was going to happen. And just how an Englishman acts when a girl laughs at his love making. She imagined that English people were mightily dignified, and she meant to humiliate Jack Smythe for saying that all American girls petted. She'd show him!

"You're sure," he teaser, "you hadn't rather go to bed?"

"Bed!" she echoed. 'A night like this?"

He held her close against his side.

"You know," he whispered, "you're not going to slap me again. Because this time I shan't stand for it, my dear."

"No?" she retorted. "And what would you do about it?"

Suddenly it occurred to Ashtoreth that perhaps she was not doing a sporting thing. English people made such a fuss about being sporting.

Smythe had warned her that he meant to kiss her. It was, in fact, his expressed purpose.

Probably then she really oughtn't to go. No girl, she supposed, went up to the boat deck with a man, unless she meant to be kissed. Particularly on such a night.

"You know," Smythe was saying, "someone's said even an atheist half believes in a God by night. Did you ever see anything so perfect in your life? Why, the ocean's a silver sea!"

Ashtoreth sighed.

"It's heavenly," she whispered.

A moonlit mood was on her. After all, why not let Smythe kiss her? She'd be a dreadfully poor sport to let him think he might—and then get mad over it.

She glanced at him sideways. He did look extraordinarily like the Prince of Wales. Those little lines about his eyes. And his mouth.

* * *

"It's wonderful," he said, "what a night like this can do to a man. Why, I knew a misogynist once—he simply hated women. Loathed and despised them, and all that sort of thing. And he took a cruise down here through the Indies—and fell in love with every woman on the ship."

"A mysogynist," thought Ashtoreth, "must be a woman hater." It was one of those 50-cent words Sadie talked about.

"Personally," continued Smythe, "I've always thought a misogynist was a queer bird. Women were obviously made to be loved."

"But—" Ashtoreth felt curiously tongue-tied. She wanted to say something about women being meant for finer things. But she hated to sound terribly prim and old-maidish. And she couldn't think of anything at all clever.

"If all women agreed with you," she said, "there wouldn't be any really good women, woud there? I mean, if we let the men who want to, make love to us, we'd be a dreadfully tarnished lot. And we would not be what men call 'good women' at all, would we?"

They had leaned over the rail, to watch the lights of St. Thomas twinkling, like distant fireflies across the water.

"'Good'?" repeated Smythe, slipping his arm across her shoulders. "Why I suppose that depends upon your definition of good. Our wise George Bernard Shaw has something interesting to say on the subject. Goodness, says Shaw, in its popular British sense of self-denial, implies that man is vicious by nature. And that supreme goodness is supreme martyrdom.

"The idea isn't confined to us British, you know. It's also an American notion. Frenchmen haven't any such conceptions. As for the Latin races—they believe than anything that is natural is good. I think so myself. It's natural to want to kiss a pretty girl. It is also natural for a girl to like to be kissed. Therefore it is good. "It is supreme nonsense to believe that anything that is natural is wicked. Or even that self-denial is a virtue. Those are very pious notions. But they're most fearfully dull."

* * *

Ashtoreth, like most girls, believed that good things usually were stupid. And that wildly exciting things were more apt than not to be wrong. If it was, she had found, a fairly safe way to look at life.

But Smythe made her feel childish and ignorant. She wished that it was Monty's arm across her shoulder. And Monty's lips against her hair. It would be such a relief not to have to be so dreadfully highbrow.

For months and months Ashtoreth had been pretending. Ever since she had gone to work for Hollis Hart. Pretending to bookish knowledge and high ideals. And culture. And wealth. All all sorts of things.

There was that day she had tried to make Mr. Hart thing she knew all about Egyptology and Cleopatra and scarabs. Well, it hadn't gotten her far. Mr. Hart thought now that she was just as common and cheap as Sadie, most likely. . . . Then, of course, there was Sadie. She was always trying to impress Sadie. . . .

And Mona. Mona thought she had been to boarding school. Not that Ashtoreth had directly implied any such thing. Only Mona picked up the notion somehow, and it seemed senseless to deny it. Mona thought, too, that she had read all sorts of books. Not, of course, that Ashtoreth had ever said so.

After all, though, could a girl ever be just herself? With anyone, that is, who really counted? Wouldn't it be perfectly insane to let anyone you cared the least thing about discover how silly and stupid you really were?

In her secret heart Ashtoreth believed that her ignorance would simply appall anyone who actually knew anything. Anyone really clever. Hollis Hart, for instance. Or Jack Smythe.

It was, really, a lot easier to be kissed than to get philosophical about it. If they went on talking about abstract good and evil, Jack would learn how stupid she was. Whereas, if she simply let him kiss her, he would discover her to be altogether desirable.

He drew her from the rail into the shadows.

"There are two chairs somewheres over her," he was saying. " I had the steward place them after dinner."

He put his arms around her, and held her close.

"You know," he whispered, "you have the softest skin in the world."

Then he kissed her arms, and brushed his lips to her neck, where her hair curled in litle tendrils.

* * *

Maizie was awfully old-fashioned, Maizie always said you shouldn't give your lips to a man unless you really and truly loved him and were going to marry him. But of course Maizie didn't know anything about such kisses as these! Mothers are so innocent—the poor dears. . . . Ashtoreth melted softly in his arms.

In a moment he held her away from him.

"Damn!" he muttered. "There's somebody in that chair down there. A woman—she just coughed. Over there—behind the wireless."

Ashtoreth's heart was beating wildly, and something in her throat pulsed like a little fluttering bird.

"Oh!" she gasped, and laughed a little, breathlessly.

He steadied her, with his hands on her shoulders.

"There's no sense," he admonished indulgently, "in being take-a-chancey."

The woman in the deck chair had risen to her feet. She was all in white, and wore a white hat, like a turban. A long, gold tassel hung from her dress. And another from her turban, swaying as she walked. Nobody but Mona would have dressed like that.

She greeted them indolently. But as she drew near, Ashtoreth saw that her eyes were smoldering.

Jack Smythe lounged uncomfortably away and muttered an imprecation.

Ashtoreth put her hand on his sleeve. But Mona struck his arm away and turned upon him in uncontrollable wrath.

(To be continued)

Mona's wild triade reveals an astounding truth. Read the next chapter for the surprising facts about Jack Smythe.

"Excess Baggage"

This Is Note Left As Man Suicides

CHICAGO, Jan. 12 (AP).—A fellow who has made his living as an acrobat most of his 44 years is not much good when an automobile accident sends him to a cripple's bed for life. With his wife carrying on while the husband lies helpless at home, he becomes, as the players say, "Excess Baggage."

Elsie Levine returned home from a matinee engagement yesterday and found a note. "Dear wife", wrote Hendrick Levine, "I am absolutely no good. Please forgive——."

He had hanged himself.

Today's Poem

CROSSING THE BAR

Sunset, and evening star
And one clear call for me.
And may there be no moaning of the bar
When I put out to sea!
But such a tide as moving seems asleep,
Too full for sound or foam—
When that which came from out the boundless deep,
Turns again home!

Twilight, and evening bells,
And after that—the dark!
And may there be sadness of farewell
When I embark!
For when from out this bourne of time and place
The flood shall bear me far,
I hope to meet my Pilot, face to face—
When I have crossed the bar!

—Alfred Lord Tennyson.

Doubled Membership And Boost In Year's Budget Are Goals Of Local Scout Organization For New Year

A Series Of Scoutmaster's Training Schools To Be Held Throughout Region During The Year

With a goal of doubling the present active membership and of increasing this year's budget by several thousand dollars, the South Plains Area Council, Boy Scouts of America, enter 1929 with the brightest prospect in the history of the organization, according to Rev. L. G. H. Williams, newly elected council president.

"Although the past year has been successful in many respects we plan to surpass all past achievements in this year's program," Rev. Williams promises.

The South Plains council, including 15 counties with headquarters at Lubbock, begins the year with about 500 Scouts, Rev. Williams said, and the following officials of the organization other than the president: K. N. Clapp, district Scout commissioner; F. A. Norman, treasurer, and Warren P. Knox, Scout executive.

To Name Chairmen

Chairmen of the standing committees will be appointed by the president at a meeting of the subcommittee Tuesday. He has intimated that Clark M. Mullican would again be appointed chairman of the Boy Scout Court of Honor and W. G. McMillan as chairman of the camping committee.

A series of adult Scoutmaster training courses will be held throughout the area this year, including one at Lubbock in the spring, Rev. Williams said. It is planned to wage a campaign for new Scoutmasters through these courses and to stimulate a new interest in Scouting among business men.

Plan Financial Drive

At the Tuesday meeting it is planned to select leaders and formulate final plans for the annual Boy Scout financial drive to be launched first in Lubbock and then throughout the South Plains council. The drive will begin in Lubbock the latter part of January, and will start in other parts of the council as soon as it is completed locally. Last year's budget of $11,500 is expected by the council president to be increased to probably $14,000.

In the last annual drive of the Boy Scouts permanent membership was secured from as many as possible. These members agreed to pay a certain amount each year and will not be solicited in this year's drive. It is hoped that a sufficient number of permanent members will be secured this year to do away with all solicitations and future financial drives.

Finish Swimming Pool

Completion of the Scout swimming pool at the Post Memorial camp, where the summer encampment is held each year, has been made one of the principal objectives of the council this year.

Organization of a Scouts' Mothers association and the staging of a Scouts Mother and Son banquet during the year, in addition to the annual Father and Son banquet, are other plans on the year's program as outlined by the Rev. Williams.

"The Scouts will observe every Scout day during the year, beginning February 8 with the 19th birthday of the national organization, when a big celebration will be held" he said. "The annual field meet will be held in May and the regular summer camp in August. The camp will be bigger and better this year than ever before, as will the Father and Son banquet, the date of which will be set later."

Further plans on the program for 1929 will be completed at the subcommittee's meeting Tuesday. "With harmony throughout the council the organization is now on the threshold of the greatest and most successful era in its history," Rev. Williams said.

"Dream Island"

Detroit Man Will Build On Isle

CLEVELAND, Jan. 12 (AP).—A "dream Island" sunk in the Pacific off the California coast is the destination of a cruise headed by B. M. Bramley, paving contractor, who has bought the steam Yacht Peary from Donald B. McMillan, explorer, for the expedition.

The Island lies under twenty feet of water. Bramley says it was first revealed to him in a dream while he was in Cleveland. So vivid was his dream and so inviting was the prospect of exploration that Bramley set out in search of his island while in California.

A ship chartered and he made soundings for days without success. He gave up the idea and was about to return when persistent promptings to find his "Dream Island" caused him to charter an air plane. He found it, plainly visible from the cockpit, he said, in fifteen or twenty feet of water.

Now he means to build a breakwater about the place, pump sand from the bottom of the sea to make new land, and erect thereon a fishing and outing paradise.

"It may be fantastic," Bramley said, but investigation of stone prices for the wall about his island demonstrate his earnestness to go through with the plan anyhow.

Expansion In Columbia Radio Chain Is Phenomenal

Network Now Has Fifty Stations On Coast-Coast Line

Makes New York Talent Available To Listeners Scattered Throughout The United States

By NEA Service

NEW YORK, Jan. 12.—Phenomenal expansion of the Columbia Broadcasting company from a chain of 15 stations only 15 months ago to a network of 50 stations covering the country from gulf to gulf forms one of the romances of radio.

The extent to which the Columbia system has expanded is revealed in a booklet issued to prospective radio advertisers. Here it is noted that from a small chain confined to 15 stations in the northeast, furnishing only 10 hours of entertainment a week, the system has grown to one of 49 stations spread over the whole United States, broadcasting more than 21 hours a week and promising further expansion in this direction.

At the same time this expanded network is inaugurated, it is announced that the Columbia System has bought station WABC in New York and is preparing to build a new hightower transmitter from which the entire new net-work will operate. WABC at present is part time "key" station for the Columbia System, sharing its programs with WOR. After September, 1929, all programs will emanate from the new WABC studios and high power transmitters.

In addition the United Independent Broadcasters, which owns and operates the Columbia System, loses its identity in the change of official name to the Columbia Broadcasting System. William S. Paley, president of the United Independent Broadcasters, remains in the same capacity as head of the new Columbia System, while Major J. Andrew White, who has been managing the affairs of the old Columbia System as its president, becomes managing director of the ne woutfit.

The old network of the Columbia System remains the "basic network" of the new group. This consists of 27 stations in practically the same area which the original system covered. Here, according to the company's announcement, there is a population of 60,000,000, including a potential radio audience of 27,500,000.

Three new southern groups are to be added to this basic network. The first group includes the stations in Richmond, Norfolk and Asheville, serving a 5,000,000 population in the states of Virginia, North and South Carolina, Tennessee, Kentucky and part of West Virginia.

The second southern group takes in Nashville, Chattanooga, Birmingham and Memphis, including more than 7,000,000 inhabitants in their territory. The third group in the south is rather southwestern, as the states of Arkansas, Oklahoma and Texas are represented with stations in Hot Springs, Oklahoma City, Wichita, Dallas, Fort Worth and San Antonio. Here is another 7,000,000 population to be covered by this addition.

The fourth group to be added to the Columbia System is that of the far west and the Pacific coast. The stations in Los Angeles, San Francisco, Portland, Seattle and Spokane have already been linked to the eastern network for an hour every Sunday evening for the last three months. Now Denver and Salt Lake City are added and all will get the full time benefits planned by the new administration.

The far west area covers a potential audience of about 7,000,000 persons, says the Columbia System officials.

90 Per Cent Coverage

In addition to these groups there are the supplementary stations in Minneapolis-St. Paul, Milwaukee and New Orleans which will take the programs of the new system. These broadcasters, it is estimated, have a combined potential radio audience of about 4,000,000 listeners.

The effectiveness with which the new Columbia Broadcasting System will cover the country is brought out in the following statement in the booklet issued by it:

"In the territory blanketed by these stations, 87 per cent of the population of the United States is concentrated. Ninety per cent of all manufactured products and 79 per cent of all farm products are produced in this territory. Ninety-one per cent of the country's purchasing power is located here.

"With three exceptions, every city of 150,000 and over in the United States is covered by this network."

Schools

(Continued From Page 1)

overflowing and would be, even if the senior high school could take care of its own pupils. There should be in the junior high school building grades 6 to 8, inclusive, and the fact that we have had to push the sixth grade out of the junior high school building to Central Ward and Dupre has caused much congestion in those schools. Dupre should accommodate grades 1 to 5, inclusive, and the congestion in that school, with the four rooms on half-day session, is due to the fact that we have had to crowd into it six grades. The sixth grade now going to Dupre belongs in the junior high school and could do better work if it could be placed with its group there.

Central Ward should be used as an overflow for K. Carter and George M. Hunt schools to take care of the present congestion in those buildings. It has been the custom of school officials to put the children in the lower grades on half-day session, in case of a shortage of room, and that is what we have done. However, it must be remembered that it is not in the grade schools that we now have the most congested conditions, but in the senior and junior high schools. The crowding of the children out of those schools has caused the congestion there and the half-day sessions that are being resorted to.

Need New School

"It will not be long until we shall need a building in the southwest part of the city to take care of the children in the elementary school grades in that section. A little later, a building will be needed in the northwest part of the city to take care of the congestion in the K. Carter school. In fact, it may be best to make provision in the present bond issue for an elementary school in the Ellwood Addition. Very likely such a building will be badly needed before it can be provided.

"Lubbock's schools are her greatest asset. Their good name draws more people to this city than all the other attractions she has to offer and we can not afford to let them suffer for lack of room. We do not believe the people of Lubbock will let them suffer. All they need to know is that additional school facilities are needed. They are ready now, as they have always been, to supply every need of their schools.

"The man who says that Lubbock is not going to be a real city and the best one in West Texas needs the scales taken from his eyes. In less than ten years, it will be twice the size it now is. It has doubled in the last five or six years and probably it will double again in the next five or six years. With the thousands of acres of undeveloped land, the richest and the best in the country with a radius of one hundred and fifty miles of this place, we may expect during the next five years an unprecedented increase in population in this section, and especially in Lubbock. Other people see this and are investing their money here. Then we Hilton Hotel, to cost $700,000, is but an indication of what others think of us, and we can not afford not to think well of ourselves and to begin to provide in an adequate way for our schools and the hundreds of boys and girls from all over this section who are coming here to take advantage of the educational facilities we offer.

Map Shows Division On Columbia Chain

This map shows the territory covered by the stations of the new Columbia Broadcasting System. A basis of 125 miles radius for each station has been used in computing the coverage, except in certain specific instances where tests have shown consistent service at greater distance. Inset is photo of Major J. Andrew White, managing director of the enlarged system.

Radio Licenses Costing More

MELBOURNE, Australia, Jan. 12.—The last six months saw the number of radio licenses in Australia increase by more than 20,000, from 263,340 to 283,923.

This, with increased activity against the "license dodgers" with hidden aerials, points to a livelier interest in radio in this dominion. Victoria, with 142,334 licenses, has more such receivers than all other states combined.

This shows that there is about one license to every 20 inhabitants in Australia, which compares favorably with England where there is one license to every 17 inhabitants.

'Wild West' Talk Is Demonstrated

CHICAGO, Jan. 12 (AP).—Robert W. Limbert's lecture on "The Old West" before the Lake Forest young men's club last night ended in unexpected gunfire and the wounding of 15-year-old Francis Kelly.

"And now, gentlemen," said Limbert, an explorer, marksman and writer on the wild west, "I will illustrate how a Westerner would beat one of your city gunmen to the draw."

Young Kelly volunteered from the audience to assist. The lecturer handed him a pistol and stuck another in his own holster.

The boy shouted "Stick 'Em Up," at the same time starting to level his weapon. Limbert's right hand shot to his holster, his gun flashed, and a bullet burrowed into Kelly's knee.

Before The Microphone

Another "world's largest" comes along with Eddie Cantor, Julius Tannen and Ruth Etting inaugurating a new series of Sunday night programs for the Majestic Theater of the Air over the newly enlarged Columbia Broadcasting System. Forty-three stations from coast to coast are in this hookup. The new series will be broadcast each week for a solid year and will supplant the series in which Moran and Mack appeared as the "Two Black Crows."

• • •

Miss Sutton

That feminine touch that can be recognized in some of the programs broadcast from WBAL, Baltimore, is the product of Violetta Sutton. She has just joined the WBAL staff as continuity writer and literary supervisor, thus participating as pioneer in one of the latest professions of womankind. Miss Sutton is an experienced newspaperwoman and advertising writer.

• • •

Increasing the announcing staff of WBAL, Baltimore, has enabled the station to boast of "a new voice to announce each feature during the day." Harris E. Kirk, a Baltimorean and graduate of John Hopkins University, is the latest addition.

• • •

How the movies affect radio and vice versa is a much-discussed question, but here is a new point of conflict between the two. Talkies are hampering the work of KNX, Hollywood, by luring away the station's best vocalists almost as fast as they appear on the air.

• •

Vaudeville acts of the "three-a-day" type get no sympathy from members of the Parnassus Trio, heard through the NBC system. They appear on the air five times every day, beginning at 8:15 every morning and ending up at noon.

• • •

McConnell

Between George D. Hay, known nationally as "the solemn old judge," and the merry Ed McConnell, WSM, Nashville, ought to bring many thousands of new fans to its wave. McConnell is WSM's latest addition. He comes from Atlanta and Pensacola, and is especially known for his songs and jests among southern fans. Saturday nights both McConnell and Hay get together in a story of the trials and troubles of an old southern slave.

• • •

New series on the air:

Famous Dance Bands of the Pacific Coast, ABC network, Saturdays at 9 Pacific time.

Swiss Alpine Serenaders, WBBM, Chicago, Saturdays at 8 central time.

The Cotton Pickers, WIP, Philadelphia, Fridays at 9 eastern time.

Fireside Chats, WLW, Cincinnati, Thursdays at 4:15 eastern time.

Freshman Orchestradians, NBC System, Tuesdays at 10:30 central time.

The Story Behind the News, WBZ-WBZA, Springfield and Boston, Mass., Tuesday afternoons.

• • •

Many radio fans will remember the name of Joseph M. Barnett, for many years an announcer and later an executive of WOR, Newark. He appeared recently for the first time as a soloist with Bernard Levitow and his Bamberger's Little Symphony.

A season ticket, with coupons which entitle the holder to participation in all school activities, is sold in Longwood Commerce High School, Cleveland.

Listeners Heard Chicago Murder

CHICAGO, Jan. 12 (AP).—Murder—a Chicago gangland tragedy—was broadcast unwittingly to the nation's ears.

Station WBBM was broadcasting music of Guy Lombardo's orchestra in the Granada cafe when six shots rang out. Two leaders in the beer racket dropped dead as the last strains of "King for a Day" went on the air. A rival shot them.

Noise of the gun shots, and patrons rushing for the exits went into the microphone instead of the announcer's comment between dance numbers.

Tech "Y"

(Continued From Page 1)

delinquent in one way or another is being sponsored through the work; Bible study classes, training leaders for work with boys are carried on; organizations and programs introducing internationally famous leaders who know student problems are placed at the disposal of the students as much as possible as well as programs to meet social, religious and spiritual needs.

Problem Study Groups

Problem study groups are conducted. Vocational counsel is offer and aid is furnished on pholosophy of life. The sick students are called on; unemployed students are aided; students delinquent scholastically are tutored; friends provided at times of greatest need and funds secured so that students may stay in college.

In connection with the financial end of the organization, a freshman loan fund of $10,000 is now being developed by the "Y" which will be used from year to year by worthy students who are unable to attend school without assistance.

The people of Lubbock may not have heard about the work of the "Y" only in specific instances. They may not have ever seen Roy McCullough, the modest secretary of the organization, only when he came to a home to visit a sick student or perhaps took part in some meeting or program in the city. His work comes with the individual student, with the freshman who is "down and out" and is debating whether to continue his studies or chuck it all, with the poor student who is discouraged by circumstances and is on the threshold of leaving school due to financial or grades troubles, and with the student who needs moral support and council. As they go down the swirling college current—doing and learning new things, it is the work of the organization which reminds them not to crowd out the quiet moments, that there must be time for self-security, courage to condemn their sloth and complacency and that there must be occasional backwaters where one may catch their breath, blimpse the distance he has come and strike out more strongly.

Claude Nelson of Dallas, traveling student secretary of the organization is spending several days in Lubbock aiding the combined drive for the $7,500 quota set for the students and citizens of Lubbock. Twenty five workers are canvassing the town this week in an effort to do their part toward seeing that the moral, spiritual and religious welfare of the student body will be amply provided for during the next year.

Workers in down town campaign for combined budget of Tech Y. M. C. A. and Y. W. C. A. are: Chairman of campaign and of Y. M. C. A. finance committee, W. W. Rix; chairman of board, Y. M. C. A., Dr. W. T. Read; chairman of board, Y. W C. A., Mrs. J. N. Michie; chairman of Y. W. C. A. finance committee, Mrs. J. C. Granbery; chairman faculty campaign committee, Dean A. H. Leidigh; president Tech Y. M. C. A., Hal Lary; president Tech Y. W. C. A., Mary Hope Westbroow; chairmen student campaign committee, H. L. Hershey and Irene Conner.

Workers in down town campaign: Mayor H. D. Woods, Pres. Paul W. Horn, Dean J. M. Gordon, Dean Wm. J. Miller, F. A. Norman, Dr. J. C. Granbery, Rev. Walter P. Jennings, Coach E. Y. Freeland, Jack Parsons, Rev. Jack M. Lewis, Dr. C. C. Scmidt, Prof. C. S. Mast, Prof. C. D. Eaves, R. J. Murray, J. I. Kilpatrick, Cecil Horne, Prof. W. L. Stangel, Richard Smith, Prof. F. W. Sparks, Prof. Wm. Craig, Neil H. Wright, R. A. Mills.

East-West Trade Linked Through Radio Circuits

Long Distance Sharp-Shooting Has Targets On Both Sides Of Greatest Ocean, The Pacific

SAN FRANCISCO, Jan. 12 (AP)—Shooting radio impulses with the same speed as light, 186,000 miles a second, the big guns of the wireless are hitting targets more than 11,000 miles away.

This long distance sharp-shooting is taking place across the Pacific and is engendered by the rapid growth of commerce in countries washed by the world's greatest ocean. To meet the demands for speedy communication, radio companies are enlisting science and engineering skill of high types in their struggle for supremacy.

As quickly as one can wink an eye, North America is joined with Australia and the Far East by radio streams more consistent and regular than the rays of the sun, for they flow 24 hours in the day.

The longest regularly operated wireless circuit in the world is maintained for commercial transmission between Montreal, Canada, and Melbourne, Australia. The signals surge across North America, undeflected by thousands of other radio streams, cross the broad Pacific and are caught by the particular apparatus set for their reception. They travel 11,538 statute miles, following the curves of our rotund world in its upper atmosphere. Simultaneously traveling in the opposite direction, another stream pours as a "free energy" into Montreal from the Antipodes.

Meanwhile, also carrying the world's messages of commerce, and of the press, other radio circuits bind San Francisco to Honolulu, 2,533 miles; to Tokyo, 5,223; to Manila, 7,164; to Saigon, French Indo-China, 9,949, and to Malabar, Pava, 10,087 miles.

Move Seeking To Reduce Power Is Bitterly Fought

A Congressional Plan For Making 10,000 Watts The Maximum Will Meet With Stubborn Resistance

WASHINGTON, Jan. 12 (AP)—Representatives of the big broadcasting stations are preparing to combat the move in congress to reduce station power to maximum of 10,000 watt s.

If the efficient high power stations are supplanted by a large number of "weak local plants," rural listeners will be deprived of good programs, the big broadcasters declare. Instead of eliminating interference the situation will be worse than ever before, they cotnend.

Owners of the successful, high power stations are of necessity competent judges of the value to listeners of power in transmitting programs, they claim. F. Clifford Estey, representative of WLW, Cincinnati, which now is operating with 50,000 watts, says that station is run primarily to build good will for its owners and that no station owner is going to do anything that will have a tendency to destroy that good will.

"One must not overlook the fact that when super-stations such as WJZ, KDKA and WGY opened a storm of protest arose because of their apparent broadness, but it soon died down," he said. "A station of this type cannot be broad; it may only appear broadly tuned on obsolete receiving sets or those improperly designed and in many cases is due to an antenna connected to the receiving set that is far too long for selective operation.

"Present objectionable whistles and squeals are due to the fact that many stations do not and many cannot stay on their prescribed wave lengths because of inadequate equipment—a station with crystal control cannot get off its channel. Another important step which would help clear up the air would be for all stations to be required to use 100 per cent modulation."

WASHINGTON, Jan. 12 (AP).—Although more than 250 small broadcasting stations are crowded on six wave-lengths, comparatively few of the interference complaints sent by listeners to the federal radio commission are directed at these little stations.

Operators of the low powered stations also are apparently more satisfied with conditions under the new allocation as there is less complaint of interference by the big stations with their programs, says Capt. Guy Hill, broadcasting engineer of the commission. Some of the 50 to 100 watt stations give better programs, have more modern apparatus and keep on their frequencies more accurately than some of the 500 to 1,000 watt stations, he declared.

A few of the 100 watt stations have been heard a distance of 700 miles. While the commission put widely separated stations on the same channel in order to prevent interference, transmission of several hundred miles is likely to cause serious interference. Captain Hill said. The function of the small station is to serve a purely local audience within a radius of 10 to 20 miles, he explained.

General conditions in the broadcast band are improving steadily as station owners obtain crystals to control their frequencies and other modern apparatus, Captain Hill says. Some rough spots remain, notably at Seattle where a Los Angeles station is said to cause heterodyning, and there is cross talk interference at Minneapolis, Cleveland and New Orleans.

More than a dozen stations cited by Captain Hill for repeated deviations from their assigned frequencies have been notified that renewal of their licenses will be held in abeyance pending a hearing before the commission.

Of 17,583 pupils in institutions maintained in the United States for the education and training of the deaf, 13,134 were enrolled during the school year 1926-27.

Here IT IS!

The Most Generous Heater Offer Ever Made

for three weeks only - - an amazingly easy way to own an *Estate* HEATROLA

READ ALL THE DETAILS

Old stoves! Old stoves! Trade them in to us

for a brand-new, house-heating Gas Heatrola. We'll take yours out—make you an allowance for it. We'll install your Gas Heatrola. It takes but 45 minutes. Then laugh when the wind howls 'round the eaves. Real heating comfort, cleanliness and convenience will be yours. Your house is thoroughly warm. You are a member of the "Enjoy-It-Now" Club. You have made but a small deposit—and you have no more payments to make until next Fall. What a wonderfully liberal offer! February 2nd is the last day—and it won't be long now. Better join today.

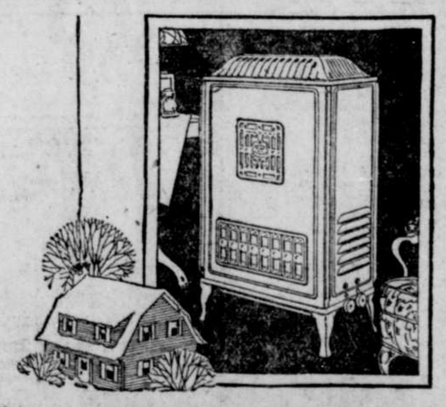

Here is our amazing offer

1 You join our "Enjoy-It-Now" Club by making a membership deposit of only $15.00, the full amount of which is applied as first payment on your Estate Gas Heatrola.

2 We take out your old stove and allow you $5.00. This allowance is applied on the purchase price of the Heatrola.

3 We install the Heatrola in your home. Within an hour's time we will have it set up complete—flooding your whole house with cozy, comfortable heat.

4 You enjoy Heatrola comfort, cleanliness and convenience without making another payment until next Fall. Then, with a substantial sum already to your credit, you can pay the balance in easy, monthly installments, suited to your convenience.

Increase Units In Chevrolet Output

DETROIT, Mich., Jan. 12.—With thousands of the new Chevrolet sixes daily being placed in the hands of owners, Chevrolet Motor company announced officially here yesterday that production for the first ten and a half months of 1928 equalled 1,200,000 units. This figure, it was said, represented an increase of 180,000 units over 1927, the best previous year.

Month after month of last year found Chevrolet shattering all former production marks. Its all time record for monthly output occurred in May, when 140,775 units were produced. May stood out in the Chevrolet calendar also because it included the greatest single day's output in the company's 16 years of history. Seven thousand and seventy five cars and trucks, completely finished, rolled off Chevrolet assembly lines May 28.

Coincident with the announcement of 1928 production figures, Chevrolet officials of the New York Automobile Show last week, were viewing with interest the continued enthusiasm that the crowds bestowed on the new sixes. Several ranking officials reiterated the statement made a few weeks ago by W. S. Knudsen, president, that 1929 production would equal at least 1,250,000 units. One of the salient tributes paid Chevrolet by visiting automobile men at the show involved the company's remarkable evolution from four cylinder to six cylinder production in the short space of a few weeks. Today all nine of Chevrolet's assembly plants are rapidly adjusting themselves to take care of peak schedules.

How Is She Hittin'?

NEA Science Editor

By ISRAEL KLEIN
Science Editor, NEA Service

When a man praises his motor for its economy of operation, especially on the basis of mileage, and another knocks the same type of motor for its utter lack of efficiency and its great cost of maintenance, ask both how they got that way.

The one, you will find, drew his conclusions last summer when everything was in the motor's favor. The other happened to notice how often he had to refill his gasoline tank of late.

One is a summer booster, the other a winter kicker.

* * *

Both take a wrong slant on the expectation of a motor's operation. They fail to consider external factors over which the engine has no control. Under certain conditions the best of engines will fail to stack up to the specifications of the manufacturer, while the worst motor may surprise its engineer.

The cause of this idiosyncracy is twofold: the weather and the driver.

* * *

Given agreeable weather and a considerate driver, and the highest efficiency can be obtained from any motor, according to its expectations. What is regarded as a poor engine may perform better at less cost than one considered better, just because the driver has operated it in accordance with the weather. The driver, in other words, knows his motor, what it requires for efficient operation and how far he can go with it to obtain peak results.

Such a driver keeps his motor always in good condition and operates it at a speed consistent with its highest efficiency. He doesn't demand of it any more than he might expect of it. And so he has an economical motor that lasts him a comparatively long time.

In poor weather, the best driver can't get the mileage and efficiency out of his motor that he got in better weather. This is true especially in winter when there's snow on the ground and the best resources of the driver are called upon if he would get the most out of his motor.

But by proper manipulation such a driver can operate his car more economically than one who has no conception of what snow and sleet and cold do to a motor.

* * *

Take driving in cold weather, with a soft heavy snow on the ground, for instance. Every time the car is to be started, we can feel the engine pulling harder than usual. The good driver knows that his wheels are slipping underneath him. The poor driver, not aware of this, will press down on the throttle harder and race his engine in order to make up for the slower start he would get under ordinary throttle control.

The better driver, on the other hand, applies the throttle evenly and directs his wheel so that the engine will do its best under the circumstances. When the wheels in back spin around and the car doesn't budge, that is when a heavy strain is put on the motor, much fuel is wasted and there is danger of burning up the tire thread in the effort.

* * *

Stopping is just as important as starting in such conditions. Let alone the danger of skidding into a neighbor, there is the probability of burning up the tires in the effort to stop a sliding machine with the wheels locked. Chains do not help much when there's soft snow or ice on the ground. They'll give a car a start and perhaps make stopping easier. But they won't do even this when the motor is speeded up quickly in an effort to make a quick getaway, or when the brakes are applied suddenly in order to stop short.

By applying engine power sanely and evenly, and acting the same way with the brakes, the highest efficiency can be obtained from the automobile under conditions of snow and ice.

We can't drive as serenely in winter as we do in summer.

More than 10,100 cows in California are known to have produced 40 pounds or more of butterfat each in one month.

Test First U. S. Rocket Auto

Experiments are now being conducted at Santa Monica, Calif., with the first rocket auto to be constructed in America. Lou Moore noted racing driver, is conducting the road tests and is shown above inspecting the rear mechanism of the unique car. Rockets discharged through the holes visible in the top picture propel the racer along the beach at Santa Monica as shown below. Moore expects to try soon for a speed record in the car.

American Motorist Is Becoming An Easier Risk, Finance Figures Say

By ISRAEL KLEIN
Science Editor, Nea Service

The American motorist, on the average, is financially more dependable than he has been in previous years.

This conclusion is made after a close study of the annual report for the year ending November 1, given out by the National Association of Finance Companies. The report, on the whole, shows a brighter outlook in the sale of automobiles despite one or two foreboding factors.

Perhaps most important of these is the trend toward more frequent repossession of both of new and of used automobiles and the consequent increase in losses to the automobile finance companies. Almost three per cent of the new automobiles for which a third of their cost was paid down had to be taken back, while more than four per cent were repossessed among those for which a fourth down payment was made.

In the case of used cars, the percentage of repossessions was 5.3 when 40 per cent of the purchase price was paid down, and almost 11 when 35 per cent was paid down. The latter was an increase of 5 per cent over last year's figure.

More Cash Purchases

In the face of these increased repossessions, however, the association figures show a more promising trend in the purchase of automobiles. Foremost is the fact that more cars were bought for cash in the last fiscal year of the association than in any preceding period.

This tendency is attributed first to the general feeling of prosperity throughtout the country and second to the fact that the finance companies have tightened up on credits among those buyers who made low down payments and required extended time for the payment of their cars.

Although such credit was harder to get, those buyers who did succeed in gaining the approval of the finance companies were able to pay less as their original payments for their cars and to get even more time to pay off the balance than has heretofore been allowed.

More Confidence In Buyers.

For example, the figures show that in 1927 only 5.2 per cent of the paper accepted was for less than one-third down payment, while in 1928 this number had gone up to 6.1 per cent. And the proportion of notes for the remainder calling for more than 12 monthly payments has gone up from 12.4 per cent in 1927 to 14.5 per cent in 1928.

Yet the confidence of the finance companies toward the American motorist is increased. This is due to the fact that more prospects have paid all cash for their cars and especially that the used car buyers have increased their cash purchases. It is proven by the increase of long-time notes after small first payments, despite the tightening of credit in this class.

Another promising factor has been the decrease in the percentage of trade-ins on new cars. This, although slight, is due to the greater number of motorists who are moving into the two-car class. In the used car field, however, the percentage of trade-ins increased slightly.

"Balloon Notes" Gone.

Most encouraging is the elimination of the "balloon note" evil. Used extensively in 1925 and 1926, this practice has declined rapidly until now it is almost wholly abolished.

In skyrocketing a note, a dealer would take any little sum as a down payment but would adjust the note to the finance companies to read "regular down payment of one-third." In order to compensate for the difference, the dealer would raise the purchase price to a fictitious sum.

As a result of this loose credit, repossession of cars sold on these "balloon notes" were very high. In 1925 the average loss per car was $220, and repossession was made in 11 cases out of every hundred. Today repossessions are not more than 4.1 per cent in the most risky class of new car purchasers, and the average loss through repossession is $56.

Oldsmobile Price Drops $50 To $70

LANSING, Mich., Jan. 12.—A price reduction including all models was announced today by Oldsmobile officials. The reductions range from $50 to $70 a car and bring the base price of the standard two-door sedan to $875, f. o. b. Lansing, Mich.

Increased business with resulting manufacturing economies has made the new lower prices possible, D. S. Eddins, vice-president and general sales manager, said when asked for a statement regarding the reduction.

"During 1928 our business increased approximately 60 per cent over the best previous record," said Mr. Eddins. "Our dealers report conditions highly favorable to still further increases in 1929."

The new low prices of the standard models are—two-door sedan, $875; coupe, $875; four-door sedan, $975; landau, $1035; sport coupe, phaeton and sport roadster, $945, all prices f. o. b. Lansing. These prices include as standard equipment four Lovejoy hydaulic shock absorbers, twin beam head lights, engine temperature thermometer and gasoline guage on dash, rear vision mirror, automatic windshield [illegible], stop light, gasoline pump and [illegible] oil filter, air cleaner, radiator shutters and adjustable front seats.

Booth Will Give His Reply Monday

Council Delivers Request On Salvation Army For His Resignation, Due To Old Age, Poor Health

(By Associated Press)

LONDON, Jan. 12—Having recommended to General Bramwell Booth that he retire as commander-in-chief of the Salvation Army, the high council today awaited his reply.

Turbulent scenes were said by today's Daily Mail to have occurred in the high council chamber at Sunbury-on-Thames when the proposal for retiring the general was under discussion.

The commander had sent a letter to the council proposing that control of the affairs of the army be put into the hands of a commission which would include Evangeline Booth, leader of the reform element.

The letter's sentimental appeal was understood to have touched most of those present. The council, however, was unable to agree to the plan and decided to offer the counter-proposal of retirement.

Of the 63 commissioners at the meeting 56 affixed their signatures to the counter-proposal recommending to the general that he retire. It was emphasized that by retirement the general would not be deprived of the honors and dignities of his office. Seven members of the council were deputized to place the matter before the general.

He Buzzes Out

Chief Liked to Play With Buzzer

CHICAGO, Jan. 12 (AP).—The reason Harry Stafford is no longer chief of police in Hinsdale, after three years at it, is that he pushed the buzzer too often.

The row of buzzer buttons on the chief's desk fascinated Stafford. He would press Button No. 1, and a lieutenant would dash in. He would push No. 2 and a captain would come a-running. By executing a Glissando movement across the buttons he could produce the entire police force.

Complaint was made to the village board that the buzzer habit became so serious that the nine policemen were kept doing a jack-in-the-box much of the time.

The village board buzzed last night and created a vacancy in the chief's chair.

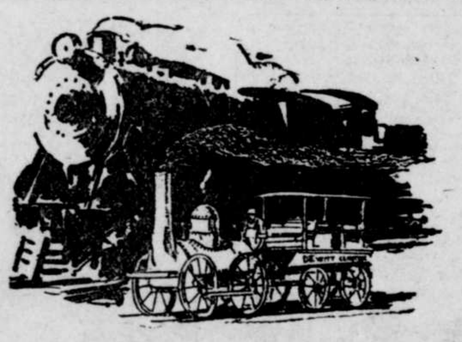

VIA TELEPHONE

KSTP, St. Paul, has a very unusual program comes over telephone wires from Minot, S. D., 800 miles away, where Jimmy Murray strums a guitar before the mouthpiece of his telephone and his popular program is carried back to the studio in St. Paul, carried through amplifiers and sent out over the air.

The first electrically driven merchant vessel to ply the Seven Seas sailed from a Florida port.

GET BYRD REGULARLY

Radio engineers at KSTP, St. Paul, busy themselves after daily program are over getting radiograms from Commander Richard Byrd, sent out by WFAT, a short-wave transmitter on board the ship "City of New York" at sea in the Antarctic.

New York Correspondent for NEA Service and The Lubbock Avalanche - Journal

NEW YORK, Jan. 12.—"Terry and Nannie are making love in the alley. Nathan Cohen says to 'Terry, 'Loafer! First your father gets my goat and now you take my Nannie?'"

Former Governor Nathan Miller was reading. The scene is Federal Judge Goddard's courtroom where Anne Nichols is suing Universal Pictures Corporation and others for pirating "Abie's Irish Rose" in the movie, "The Cohens and the Kellys." Anne is asking for $3,000,000.

Former Governor Miller was reading the scene above from "The Cohens and the Kellys" to Moses L. Malevinsky, attorney for Anne Nichols.

"Is that a counterpart, or does it bear a marked resemblance to Scene V from 'Abie's Irish Rose'?" Miller asked Malevinsky.

"It is a deriative situation from Scene V," replied Malevinsky.

"Will you please lay aside the term derivative?" Miller pleaded. "I told you I meant does it resemble any actual episode, event or happening."

"I wasn't thinking about your inhibitions," murmured Malevinsky, "forgive me, I'm a bad witness, governor."

* * *

On and on, over the whole thing again, with Attorney Malevinsky bringing in every dramatist from Aristotle down to O'Neill.

Once more:

"Does the alley scene resemble the parlor episode of 'Abie's Irish Rose'?" asked Miller.

"But the dramaturgy—" Malevinsky began.

"Now get away from your dramaturgy," Miller reminded him.

* * *

The trial has been an education. Malevinsky had things his own way at the start. He lectured in very good lyceum fashion on "unity of expression" as exemplified in Aristotle's Dialogues. The two productions involved in the suit contained the same unity of theme, action and expression, he charged.

Mr. Malevinski could even give you the technical dramaturigical term for the opening of a can of sardines.

* * *

And Judge Goddard says that if this thing doesn't get along faster pretty soon, he's going to hold a couple of night parties and let the boys talk it over.

* * *

A recent report by the New York Board of Trade reveals that the average speed of vehicles in Fifth avenue betwen 8:30 a. m. and 5:30 p. m. was 10.17 miles an hour. With the beginning of the evening rush, the average came down to 2.95 miles an hour. If you're going for a ride in the evening along Fifth avenue, take along a good novel.

THE RECORD-BREAKING NEW NASH "400"

Advanced Six "400" Sedan
$1,755.00

The NASH-BIJUR lubricating system means
Extra Thousands of Miles

EXTRA thousands of trouble-free, smooth-running miles — these are the gift of the Nash-Bijur centralized chassis lubricating system.

Every Nash "400" Advanced Six model has this system built into its chassis. You press a convenient pedal—21 vital points are instantly flushed with oil.

Steering mechanism, spring shackles, clutch bearing—all are kept thoroughly, regularly lubricated. Squeaks never develop. Rattles fail to appear.

And, even after you have driven thousands upon thousands of miles, you'll find these vital parts are *ready for thousands more*, due to the efficient and thorough lubrication they have received.

The Bijur lubricating system, the Twin-Ignition motor and "400" ease of steering are the outstanding engineering achievements of the year.

And the new Nash "400" is the ONLY car in which you will find them all!

9 Sedans $1045. to $2[illegible]. 5 Coupes, Cabriolets, Victorias $1045. to $1985. delivered.

Male Stars Predominate Local Screens This Week

Barrymore Heads List Of Leading Men Players Here

"Tempest" Is Week's Highlight; Palace Stage Band Gives "Plantation Days" Today And Monday

The men have it this week in the pictures shown in the Lubbock theatres, the bookings program released by the managements yesterday reveal. With scarcely an exception, every picture shown during the week will feature a well-known male star. Not only are they well-known, but the majority of them are the leading players of filmland, the pictures will bear out.

Heading the list, without a doubt, is none other than the perfect-acting Mr. Barrymore otherwise known as John. "Tempest," an original screen story written specially for Barrymore's acting by C. Gardner Sullivan is his latest starring vehicle and incidentally answers the plea of thousands of his admirers for a picture with a modern setting. Camilla Horn, a new foreign actress, plays opposite him in the film.

Eleven Leading Men Show.

Following Barrymore and probably holding as much attention as he comes William Boyd, Milton Sills, John Gilbert, Alan Hale, Gaston Glass, Malcomn McGregor, Nils Asther, Raymond McKee, Francis X. Bushman, Louis Wolheim and several other minor male actors.

Gilbert, Sills and Boyd carrying their acting to greater heights in roles of feature films.

Barrymore, in his picture "Tempest" which shows at the Palace, Monday, Tuesday and Wednesday, appears in a sage of Twentieth Century Russia, carrying the role of a devil-may-care subaltern whose affairs of the heart and sword lead him into the strangest adventures of the revolution which swept out Czarism, made fugitives out of grand dukes and rulers out of peasants. As a peasant officer, he loves a princess and is supported by a cast of hundreds.

John Gilbert Shines.

John Gilbert prefers roles which deal in characterization. As the young Viennese aristocrat in "The Masks of the Devil" which shows at the Palace during Thursday, Friday and Saturday, he has ample opportunity for gaining his preference much more than in the usual role, for he plays a dual personality, a wnand who is both good and evil, but who at first allows the evil to so completely master him that he very nearly loses his soul. He is a Don Juan of tomorrow among the women of today in the picture which teems in romance of the world's most romantic city. The late Theodore Roberts plays a prominent part in the film, a characterization said to equal his roles in "Grumpy" and "The Ten Commandments." This will probably be "the grand old man of the films'" last appearance on a local screen.

"The Crash" brings Milton Sills back to the Lindsey Screen after an absence of several months. The picture, a Frank L. Packard story, is showing on Thursday, Friday and Saturday. As the hard-boiled leader of a tough wrecking crew stationed in the high Sierra mountains, Sills lends a portrayal that is said to compare with the season's best. All the power, the pathos and the dramatic events that have made railroad building and operation in out of way places one of the most colorful episodes in the progress of this country is vividly depicted in the film, a touching romance of the story of how a soubrette of a struggling burlesque troupe played by Thelma Todd marries and tries to make a home for Sills, the boss of the wrecking crew. It is a stronger and more forceful Sills which appears in the picture, a role that is aptly suited for his histronic ability.

Southern Melodies Featured.

Sunday's program at the Palace finds another stage show by Jimmy Gassaway and "Happy" King's Palace Stage band. The attraction is billed as "Plantation Days" and promises to bring back those lingering lullabies so endearing to the memory of the old childhood days of the South. Several local people are to appear in specialties with the band offering a musical background. The screen feature, "Loves of an Actress" finds Nils Asther starred with Pola Negri in a story of a French peasant girl who rises from nowhere to stardom in Paris to dazzle men's minds and captivate their hearts. A colorful, fiery characterization, rich in background and personality, is Miss Negri's role in the film. A color classic and shorts finish the program. The stage show will also appear on the Monday's program at the theatre, although a different film will be shown.

That chesty individual, William Boyd, who makes you hate him one minute and admire him the next comes to the Lindsey on Monday and Tuesday in a delightfully human comedy drama, "Power' 'with Jacqueline Logan and Allan Hale. The two men, Boyd and Hale think they know all about women in the picture, a story of two sportive shieks, both wise, but they find out later that they are as pliable as putty in the some hands of a designing woman. Much of the action is laid against the background of the Pacoima dam in Southern California, the highest structure of its kind in the world which furnishes numerous thrills and laughs during the consumation of the plot.

"Stormy Waters" brings Malcomn McGregor to the Lindsey on Wednesday. Eve Southern plays with him in the film, a story of a seaport siren suggested by Jack London's story "The Yellow Handkerchief." Stirring drama of the waterfront is said to be packed into the plot of the picture.

Gaston Glass brings "My Home Town" to the Lyric for Sunday and Monday. Gladys Rockwell plays opposite him in the picture which depicts an absorbing story of a woman's love and a man's redemption in a plot which ranges in locale from a wealthy southern suburb to the slums of New York where the scion of a proud family reaches the depths of despair. Most of us who have left the home town to seek our fortunes where opportunities seem greater keep in touch with those left behind and occasionally return for a visit and enjoy a rousing welcome by old friends. The film brings it all back and awakens memories both glad and sad.

Gaston Glass at Lyric.

The Lyric offers other stars during the week ich as Francis X. Bushman and Jacqueline Logan on Friday and Saturday in "The Charge of the Gauchos" and Raymond McKee and Edna Murphy in "Oh, What a Night" on Tuesday.

The menu at the Rex consists of an array of western films including a Brave Heart picture, "Flash of the Forest" on Wednesday and Thursday.

WEDNESDAY AND THURSDAY—Brave Heart, The Wonder Dog in "Flash of the Forest" and comedy.

FRIDAY AND SATURDAY—Buddy Roosevelt in "The Cowboy Cavalier" also "Tarzan The Mighty" No. 11 and comedy.

"The Crash" Casts Sills As "He-Man"

Typical Role Brings Star Back To Local Screen; Has New Leading Lady In Thelma Todd At Lindsey

Milton Sills, one of the most popular luminaries on the screen, returns to Lubbock movie-lovers this week in "The Crash" which shows at the Lindsey for three days, starting Thursday. One of the best balanced casts of the year appears with him in the picture, which is listed among his recent starring vehicles such as "The Hawk's Nest," "Burning Daylight," "The Sea Tiger," "Framed," and "The Barker," a hundred per cent talking picture.

Thelma Todd, his newest leading lady who plays the leading feminine supporting role, claimed by many to be the most beautiful blonde in the movies, takes the part of a soubrette of a two-a-day burlesque troupe. Sills, in his best role of an out-door man, boss of a railrad wrecking crew, falls for the girl in a story which features one of the most realistic train wrecks ever screened. The plot is taken from a Frank L. Packard story which abounds in thrills and the usual Sills' action-packed acting.

MAKE FAST WORK

Police Capture Raider In Hour After Robbery

MT. CARMEL, Ill., Jan. 12 (AP)—Within one hour after he had held up the First National Bank at Allendale, Ill., ten miles north of Mt. Carmel, today and escaped with $7,000 in cash, Virgil Davis, 27,a fruit salesman of Vincennes, Ind., was captured by a posse and confessed to the holdup, police announced.

A complete photographic laboratory as part of the physical equipment in the science department is provided Bennett High School, Buffalo, N. Y.

Paragraphs On New Pictures

Movie fans of Lubbock are due an innovation with the advent of talking pictures in the city within the near future, according to information gained yesterday from the management of the Lindsey theatre. The pictures will be seen and heard as soon as necessary remodelling work can be completed in the Lindsey, making it the first theatre in the state to be built especially for sound pictures, embodying all the essentials to a theatre offering this type of entertainment such as sound proof doors, specially tested accoustics and other features. Interior decorations will establish the theatre as the finest amusement house on the South Plains.

Definite date of the opening of the "talkies" will be announced soon.

Notes on films given in this column are taken from advance press notices of coming pictures to the city.

Aileen Pringle, statuesque beauty, changes her clothes no less than six times in "The Baby Cyclone," a filmization of the George M. Cohan stage comedy. She and Lew Cody co-star in the new play.

William Powell has signed a new long-term Paramount contract for talking pictures exclusively. Powell has one of the leading roles in "Interference," a 100 per cent talking picture from this studio.

And now after all the row about "The Wind" from this section has just about died down, along comes an adaption to the screen of Dorothy Scarbrough's story synchronized with sound which is sure to create even greater comment on her portrayal of the primitive passions of the southwest. Powerful wind machines furnished the sandstorms called for in the picture. Lillian Gish has the star part in the production which is being made by Metro-Goldwyn-Mayer.

Estelle Taylor, wife of Jack Dempsey, who appeared in "Don Juan" and other screen productions, has been signed for an important part in Lon Chaney's new enthralling vehicle, "Where East is East."

May McAvoy, who had the lead in "The Lion and the Mouse," that talked-of talkie, has the starring role in "Stolen Kisses," another Vitaphone talking picture. Miss McAvoy is one of the few screen stars whose voice has been found to equal her pantomine ability.

You've probably been wondering what has become of Raymond Griffith, that funny little man with the silk hat. Well, he's to be starred in "Post Mortems," a 100 per cent talking picture, playing he part of Whispering Jimmy Smith, a bridge playing burglar.

William Boyd's newest picture is "Leatherneck" a story of the potash fields of Manchuria, now in the course of production.

The great bells in historic Notre Dame de Paris are now rung by electricity.

Ground Beautification Stressed

** *** *** *** **

Practically Every PTA In City Has Some Plan For Improving Premises In 1929

Although definite plans are pending February meetings of the Parent Teacher associations in Lubbock practically, every organization is discussing some ground beautification program for this year, according to presidents of the societies.

With the City Council announcing a sponsorship of ground improvement, associations at the various schools will probably each have a definite program, it is thought.

The Dupre ward school stressed beautification last year and shrubs, flowers and grass were planted on the grounds, making this school one of the most attractive in the city. The George M. Hunt association bought equipment for the grounds last year and maintained some beauty spots which had been started previously. The Dupre association probably will plant some trees this year, according to the president, Mrs. W. T. Milam.

Help Undernourished Child.

The Hunt school is emphasizing the feeding of undernourished children this year and Mrs. Percy Spencer is in charge. Mrs. T. A. White is president of the society.

Although nothing definite has been done yet, there probably will be some beautification of the Carter school grounds, according to the president, Mrs. W. B. Price, and Mrs. E. W. Camp, president of the high school organization, thinks that some program will be sponsored there.

Mrs. J. N. Michie is president of the City Council in which each school is represented. Since this organization will not meet until the first Tuesday in February no announcements about plans can be made at this time, she said. Several of the organizations will not meet until February when the beautification programs will be discussed.

At the time of maximum sun spots the temperature of the air above the earth is often lower by one degree.

Betty Compson Clicks With Dashing Dick Barthelmess As Leading Lady

Some movie stars like to have a different leading lady in every picture, but Richard Barthelmess has discarded that custom by selecting Betty Compson twice in a row. Betty first appeared with him in "Scarlet Seas," now she's been chosen to play opposite him in "Weary River."

"Tempest" Brings Barrymore Back In Modern Story

Russian Story Said To Be Screen Masterpiece; German Actress Makes Appearance With Luminary

"Tempest" the John Barrymore screen masterpiece that New York acclaimed during a long run at $2 prices, will bring America's most distinguished actor to the Palace theatre for three days starting Monday in a romance of Russia's revolution. Cammilla Horn and Louis Wolheim appearing in chief support of the star. The New York World thought "Tempest" the "finest, most genuine motion picture John Barrymore ever made" and "ne of the most glowing flim dramas which have come out of the west."

John Barrymore appears in his first modern story in five years in "Tempest," for the action of the picture begins in 1914 and concludes in 1919. Camilla Horn, the German actress who was brought to America by Joseph M. Schenck, appears as the Princess Tamara, beloved by Barrymore, a peasant officer. Miss Horn was the Marguerite to Emil Jannings' Mephisto in "Faust."

Makes American Debut

In "Tempest" she makes her American film debut and according to The New York Telegram, she "is a blazing baby." Louis Wolheim, of "Two Arabian Knights" fame, has a very prominent part in "Tempest," so that comedy is assured.

George Fawcett, Boris de Fas, Ullrich Haupt and Michael Visaroff likewise are prominent in the cast. Sam Taylor, director of Mary Pickford's "My Best Girl," was director of "Tempest," which is basen on C. Gardner Sullivan's adaptation of an original screen story.

The highlights of "Tempest" are scenes of passionate fury between a princess of the blood and a peasant, between royalists and revolutionists, between generals and pedlers; and love scenes so convincing that The New York Telegram calls the picture "the answer to the modern movie maiden's prayer."

WLW FINDS MAIL PILOT

Tom Hill, airmail pilot, left Indianapolis recently for Cincinnati with his regular consignment of mail. Hill aroused the anxiety of the Embry Riddle Flying Company when he failed to arrive on time, as rain was falling fast and weather conditions were not favorable. When Hill was more than three hours overdue WLW, Cincinnati, received a telegram from Indianapolis stating that Hill had landed in Sunman, Ind., on account of darkness and that everything was okeh.

HELP TO SALESMEN

The latest aid to real estate salesmen is the radio. A company has been building homes in Elyria, Ohio, advertising that the homes contain a built-in radio set. It costs no more to buy a house with a ready-to-operate radio than it does the house alone.

A two-inch bass placed in a stream will, under favorable conditions, reach 10 inches in about two years.

Saturation Point Not Reached Here, Auto Dealers Say

Varying Views On Prospects In New Year Expressed

General Tone Of Remarks From Lubbock Dealers Is Optimistic — Have Faith In The Territory

(Editor's Note: This is the scond of a series of articles on Lubbock automobile dealers and their prospects for the new year).

* * *

Genuine confidence in the business outlook for Lubbock and its surrounding trade territory is the outstanding keynote in the 1929 predictions of local automobile dealers. A belief that the South Plains is the greatest potential trade territory in the Southwest and that this section is entering upon the greatest year in its history has given the dealers for the various automobiles cause to plan greater things for 1929.

The belief expressed by some dealers that the saturation point in automobile sales had been reached has been branded by the majority of local dealers as unfounded.

Saturation Not Reached

"Certain business pessimists have been talking this saturation point since 1911, but such a condition will never be reached," said Hub Jones of the Hudson-Essex company. "The day has come when there is more than one car to the family. The family car still exists but as younger members of the family grow older, each demands a car of his own."

The volume of business handled by the Hudson-Essex dealer in 1928 increased one-third over the previous year, Mr. Jones pointed out, and unless something happens should double in the coming year. The elimination of distributing points has reduced the price of automobiles handled by this dealer at least 5 per cent. At the present time, Hudson-Essex products are shipped direct to the dealers.

Gough Is Optimistic

C. E. Gough, president of the Gough Motor Co., local distributors for the Studebaker, Pierce Arrow and Relay Trucks, speaks only in glowing terms of this "new, young, and vigorous section."

"The South Plains has the greatest future of any part of the Southwest," Mr. Gough said. "Before establishing in business here, I investigated all sections of the country, and chose this center as the fastest growing part of the country."

The Studebaker head formerly was in business in Detroit, Chicago and Dallas, moving here from Dallas last September. Mr. Gough predicts for 1929 "the biggest year in the automobile and other industries we have ever experienced."

Predict Sales Lapse

Pointing out the fact that the larger automobile concerns are seeking new fields in other countries to unload their enormous production, some few dealers in Lubbock predict a decided lapse in sales during the next few months. Believing that the saturation point in automobile sales in this country has been reached, it is pointed out that General Motors has extended its field into South America, W. C. Durant into French territory and Ford into England and Ireland. Each of these companies is selecting its own field for further business.

C. W. Price of the Caprock Motor company, DeSoto distributors, differs from the above argument on the ground that this extension of business is only a means of introducing American products to the European and South American market in line with an educational movement for the benefit of these nations.

"The American automobile industry certainly hasn't reached the saturation point," Mr. Price asserted.

Sees Best Year

"Automobiles in the $1000 class are due for the best year they ever had," the De Soto dealer said. "Continued improvement has given the middle class products all the desirable qualities claimed by the higher priced cars, and the buying public is being educated to this fact."

That the present tendency is toward the medium priced and medium size cars is stressed by L. E. Davis of the West Texas Motor Co., Hubmobile dealer here.

"The buying public is getting away from the big heavy cars," Mr. Davis said, "but at the same time owners of the light sixes are prone to expect too much of the cheaper product. In my opinion, the straight-eights are gradually pushing the high priced sixes out of the market."

Kuykendall Gives Prospects

With the business outlook now somewhat better than at this time last year, G. P. Kuykendall of the Kuykendall Chevrolet Co., is highly optimistic over the 1929 prospects for his business.

"The new Chevrolet Six has been received with enthusiasm the country over and the buying public here as in all sections have shown in the manner in which it has acclaimed this new General Motors product that an outstanding value is being offered.

"The used car problem will be a determining factor in the delivery of new cars this year," Mr. Kuykendall said, "but there will be a demand for good used cars at the right price. It will be our policy to take in used cars for what they are worth and sell them for what they are worth."

Fourth Speed Coming

L. H. Plain of the Panhandle Durant Company points out a tendency among manufacturers of large cars to add a fourth forward speed to their machines. A four speed motor not only gives the motorist more speed but cuts down the labor on the motor itself.

Featuring an improved four and six cylinder Whippet, the South Plains Motor Company seems headed for a banner year with sales on the new 1929 cars exceeding the fondest expectations of the management. The head of the Whippet-Willis Knight concern, Mr. Noble, believes that the new Whippet is the greatest value on the market today.

Sees 30 Per Cent Increase

Joe Hilton, local Chrysler and Plymouth dealer, reports a 30 per cent increase in business during 1928 over the previous year and predicts a record-breaking year in 1929.

"More than sixty-five per cent of the 1929 automobile business will be with cars under the $1000 price," Mr. Hilton stated, "and this incidently will include the Plymouth."

Glenn Howard of the Reo Motor Company is proud of the record during the past year of the concern of which he is the head. Although the Reo "Flying Cloud" is proving a popular model, the Reo Speed Wagon has been the greatest asset to the local dealer. Those who are interested in heavy transportation are finding the Speed Wagon the fastest and most economical conveyance on the market, Mr. Howard said.

The New License

VERY NICE JOB

PARIS, Jan. 8.—M. Schultz, 32, has a very nice job. He is the champion wine taster of France. He recently won a contest, against 94 others, in which it was necessary to sample many kinds of wine, tell what vintage it was, from where it came and what price it should bring. Despite Schult's occupation, he is a "dry," never touching liquor except when on his "testing" carousals.

Animals are sometimes nearsighted.

Maj. Seagrave To Try For New All Time Speed Test

Mysterious "Golden Arrow" Will Be Entered In Hope Of Making 240 Miles An Hour

WASHINGTON, D. C., Jan. 12.—Although considerable mystery still surrounds the design of the "Golden Arrow," the car in which Major H. O. D. Segraves of England hopes to regain the world's speed record, it represents the latest achievement in streamlining and is the exact antithesis of the "Sunbeam," the first car to travel over 200 miles per hour, according to Val Haresnape, secretary of the contest board of the American Automobile Association.

The A. A. A. Contest Board has reserved a sanction for the speed trial which will be held at Daytona Beach, Fla., some time in March in preparations are now underway for the event which promises to startle the world of speed.

Follows Usual Custom.

"Major Segrave is following the usual custom of keeping exact measurement figures secret until such time as it will be too late for competitors to copy them," Mr. Haresnape said. "However, he has made no secret of the general design of the car. 'Golden Arrow,' its name, describes it in general so far as its looks are concerned. It has been streamlined to the ultimate. Captain J. S. Irving, who designed the first car ever to go 200 miles an hour, the car which Major Segrave made the record of 203.79 miles an hour at Daytona Beach, March 29, 1927, is the designer of the present car.

"The design is a radical change from the huge bulk of the 1,000 horsepower, two-engined Sunbeam of 1927. Segrave has departed from the idea of brute power to drive a bulky speed car. Just as Segrave in 1927 calmly announced that he would go 200 miles an hour, so now he just as calmly announces that his car will have a theoretical speed of 240 miles an hour.

Under Construction.

"The Golden Arrow has been in process of construction in England since last June. With the exception of the engine, every part of the car has been specially designed for the part it has to play in the British attempt at the world record, which now is held by Ray Keech, who in the White Triplex, made 207.552 miles and hour.

"The power plant is a Napier aviation engine of twelve cylinders, capable of delivering 900 horsepower. This engine is no experiment. One of its type drove the British seaplane to victory in the Schneider cup race over the pick of the world last year. The engine has three banks of four cylinders each, and the body fits almost glove tight over them, causing three distinct bulges in the hood. With the single engine in the front of the car, two shafts will take the power to the rear wheels, which will be driven independently of each other. The gear ratios are: Top, 1.475 to 1, estimated speed over 240 miles an hour; second, 2.159 to 1, estimated speed, 160 miles an hour; low speed, 4.47 to 1, estimated speed 30 miles an hour. The tire size is 37 by 7. The length of the car overall will be in excess of 25 feet, and its width slightly over 6 feet, according to reports.

Wheel Streamlined.

"The wheels will have streamlining extended backward in both front and rear, but there will be no streamlining to the front of the wheels, nor will they be covered, as were Frank Lockhart's. The radiators probably will be placed along the side of the car and there has been some talk of using ice as a cooling agent for the water.

"To get its weight of 2 1-2 tons going at sufficient speed, a starting course of 4 miles has been set off at Daytona Beach, then will come a mile for the measured record, with four or five beyond to stop the car."

The chestnut blight is the most virulent and destructive disease of forest trees that has ever been recorded.

RICHARDS TRIAL SET

Forgery Case To Be Heard On February 4

DALLAS, Jan. 12 (AP) — Ben C. Richards, jr., prominent Dallas politician, and A. A. Crabb, blacksmith's helper, will go to trial together here February 4 on a charge of forgery growing out of events surrounding the killing of Orville L. Mathews, banker and election bet stakeholder, last August.

After refusing to grant a change of venue for Richards, Judge Grover C. Adams late yesterday granted a continuance at the request of defense attorneys. Crabb had not asked either a venue change or continuance, but his trial was set up that the men might be tried jointly.

When You Have Backache

There is a time-tested medicine that usually brings relief even in severe cases—
Dr. Miles' Anti-Pain Pills.

Try them whenever you are suffering from any of the following disorders. Your money back if they fail to relieve.

Headache, Backache, Neuralgia, Toothache, Monthly Pains and pains caused by Rheumatism and Neuritis.
We will be glad to send samples for 2c in stamps.

Not a *chance* conception ... but a deliberate plan ...

Chrysler's matching of slender-profile radiator with cowl bar moulding has its origin in the repetition of motif in the historic frieze of the ancient Parthenon.

Chrysler's New Style is Based on Authentic Canons of Classic Beauty

Chrysler engineering has achieved something never done before in motor car design.

It has searched out *authentic* forms of beauty which have come down the centuries unsurpassed and unchallenged and has *translated* them in terms of motor car beauty and motor car utility.

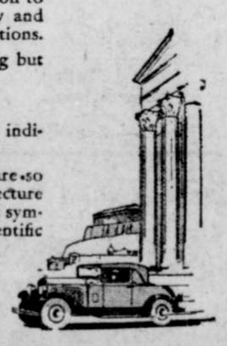

The lengths to which Chrysler designers have gone in this patient pursuit of beauty will doubtless prove a revelation to those who have probably accepted Chrysler symmetry and charm as fortunate but more or less accidental conceptions.

The Chrysler process goes far deeper than any charming but fortuitous design.

For, Chrysler has left nothing to chance.

Chrysler has not relied alone upon the inspiration of individual designers.

Chrysler in its newest products—has found that there are so many glorious precedents and inspirations in art, architecture and design, that the search for authentic and harmonious symmetry can actually be reduced to something like a scientific system in which results are certain.

New Chrysler "65"—Six body styles priced from $1040 to $1145 . . . New Chrysler "75"—Nine body styles priced from $1535 to $2345 . . . New Chrysler Imperial—Five custom styles priced from $2675 to $3475. All prices f.o.b. Detroit. (110)

IN THE SPOTLIGHT AT THE NEW YORK SHOW

THE NEW SUPERIOR # *Whippet*

WORLD'S GREATEST SEDAN VALUES!

With the new "Finger-Tip Control"

The greatest advance in driving convenience since the self-starter. A single button in the center of the steering wheel, controls all functions of starting the motor, sounding the horn and operating the lights.

WITH all its many improvements, with its greater beauty, longer wheelbase, larger body, new "Finger-Tip Control" and higher compression engine, the Superior Whippet Four Sedan is still the world's lowest-priced four-door enclosed car.

And the new Superior Whippet Six Sedan is the world's lowest-priced six-cylinder four-door enclosed car to offer the important advantages of seven-bearing crankshaft, "Finger-Tip Control," silent timing chain, full force-feed lubrication and Nelson type aluminum alloy invar-strut pistons.

Never have Fours and light Sixes been distinguished by such beauty and style as are now winning nation-wide praise for the new Superior Whippet. Its grace of line, its harmony of color, its longer bodies, its high radiator and hood, its sweeping one-piece full crown fenders, make the new Superior Whippet the style triumph of master designers.

The larger bodies give more spacious interiors, with broader seats and extra leg room. Other important factors in riding comfort are the oversize balloon tires, snubbers and longer springs both front and rear.

In performance, the new Superior Whippet is speedier, livelier and more powerful. Long service will prove its dependability and economical operation.

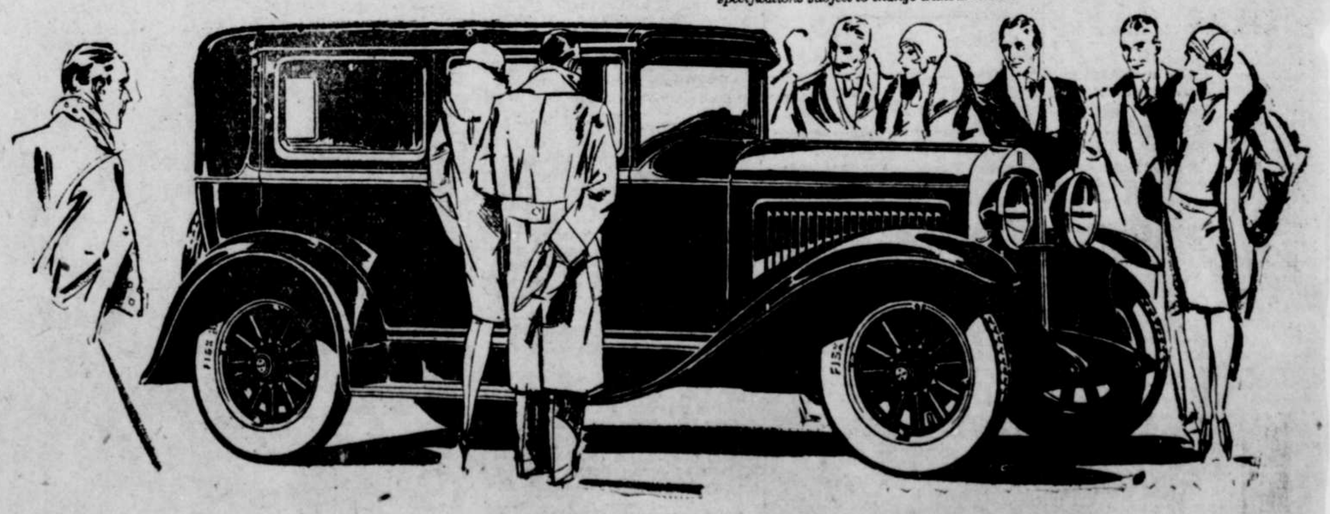

See and carefully examine the new Superior Whippets. An immediate order will aid in early delivery.

Trend Toward Six Cylinders Marked

Auto Show Patrons See The Displays Of Makers Lean Toward Smoother, Better Performance

(By Associated Press)

NEW YORK, Jan. 12.—Larger power plants, developed to meet the demand for more power and smoother operation, have been incorporated into most of the 1929 models on display at the New York and Chicago automobile shows last week.

The past year's automobile production has seen a fairly even volume of four cylinder cars manufactured as compared with sixes. But with only one very large manufacturer of four cylinder models now left in the field, the 1929 output is expected to run at least 75 per cent to sixes and eights and 25 per cent four cylinder models.

With the entry of one large manufacturer of fours into the six-cylinder field; and the movement of one of the oldest manufacturers of sixes into an exclusively eight cylinder line, many leaders in the automobile inudstry claim that the motorist will soon be provided with more power at approximately the same price he paid for the smaller engined car.

Most of the mechanical developments incorporated into the 1929 models to be displayed at the shows follow conservative lines. One manufacturer features an ignition system in which the cables have been treated to resist the breaking down effect of long exposure to the atmosphere.

Another features "finger-tip" control of the starting motor, the horn and lights. Several others have a new type of fuel pump which keeps the carburetor supplied under all conditions of speed and grade.

Chassis lubrication from a central point is rapidly becoming popular among manufacturers in the medium and low priced field.

POINCARE WINS

Repulses Attack Of Other Faction

PARIS, Jan. 12 (AP)—When the smoke cleared after the first day's battle in parliament against the present cabinet, Raymond Poincare, prime minister, was holding the fort and had most of the honors.

Though the opposition attacked steadily, it either was repulsed outright or driven back by counter-attacks led by the premier.

Early in the engagement M. Poincare made it plain that he intended to remain in power if possible and that only an adverse vote would cause him even to revamp his ministry.

A group of electrical apprentices has been sent by the Theatrical Brotherhood of Electricians to the David J. Rankin, Jr. school of Mechanical Trades, St. Louis, for special instruction.

Foreign Cars Draw Interest At New York Show

NEW YORK, Jan. 12.—For the first time in American automobile history foreign-made automobiles this year had a place at the National Automobile Show in New York. At the Grand Central Palace here overseas manufacturers have matched their products with those of American manufacturers.

The intensive world-wide motorization process which has been going on during the past decade with ever increasing momentum has swept away barriers which formerly prevented the holding of a completely international automobile show in America and this year the National Automobile Chamber of Commerce issued a special invitation to motor car manufacturers overseas to exhibit their wares at the New York exposition.

The following foreign manufacturers are displaying their cars at the New York show:

Vauxhall Motors Ltd. (General Motors controlled) of Luton, England; Daimler Motors and Austin Ltd., also of England, Renault of France and Mervedes-Benz of Berlin, Germany. These manufacturers each had two or more of their models on display ranging from the small "bug" type to a palatial Renault costing up to $22,000, depending upon the coachwork.

An interesting fact in connection with the display of the foreign makes of cars is that although General Motors has been in control of the Vauxhall organization since 1925 no Vauxhall car has ever been displayed in this country.

Several months ago a Vauxhall car was brought to America to be put under the engineers' microscope at the General Motors proving ground, but with this exception none of the American-controlled British-made cars has ever put in an appearance although the car is widely known overseas.

Recently the Vauxhall attracted attention in England in a test which it withstood by driving away under its own power, after having been rolled over a cliff in two complete somersaults.

Although the universal demand for motor transportation has had a standardizing effect upon motor car design the American motorist found many novel features in the foreign-made cars introduced here. For instance, the British-made cars are exclusively right-hand drive in their steering arrangement and virtually all of them have four-speed transmissions.

A feature which Americans undoubtedly noticed was the efficiency of the four-wheel braking systems of some of the European cars. Vauxhall, for instance, boasts a braking system that permits a dead stop in three seconds from a speed of 60 mile an hour.

One of the European automobiles on review for the first time in America is the Vauxhall 20-60 shown above. It has a wood and fabric body, but the sturdiness of this construction is proven by the test shown in lower photo by which the automobile was tumbled over an embankment without injury.

BANDITS IN HAUL

Get $76,375 In Jewels And Furs Included

CHICAGO, Jan. 12 (AP) — Two bandits robbed six occupants of a taxicab of $76,375 in jewels and furs today, ordered their victims out of the cab, and escaped.

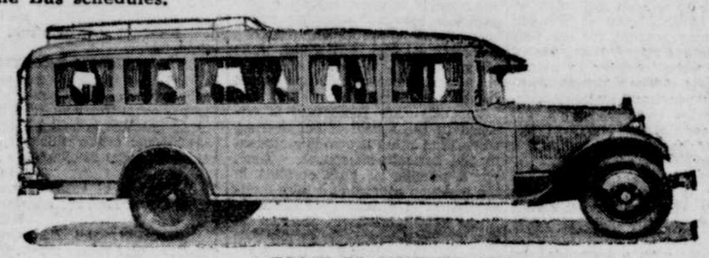

Dr. Frank E. Pierce and Mrs. Pierce; Mr. and Mrs. Luther S. Hammond, resident sof Chicago's Gold Coast, and Mr. and Mrs. C. H. Murphy, Detroit, were the victims.

Two supervisors, 44 regular teachers and an auxiliary teacher carry on the work of speech improvement in public schools of Philadelphia.

The total value of crops grown in 1927 on irrigated land furnished with water from the works of the Bureau of Reclamation was $133,207,210 an increase of $23,067,550 compared with 1926.

READ THE BUS SCHEDULES LISTED BELOW AND RIDE THE BUSSES ON YOUR NEXT TRIP

Four of the seven lines operating out of the Union Bus Terminal will make some change on Jan. 15th for the convenience of the traveling public. Tiresome lay-overs will be eliminated. Faster schedules will go into effect. Acquaint yourself now with all the Bus schedules.

LUBBOCK TO AMARILLO LINE
NORTH PLAINS COACHES—ARCH TYLER, OWNER
Note: Entire schedule below goes into effect Jan. 15th. Call agent phones 123 and 633 for schedules in effect now.
Cars leave Lubbock for Amarillo at 7:15 a. m., 11:00 a. m., 3:30 p. m. and 9:00 p. m. Convenient connections made at Amarillo for Panhandle oil fields, Oklahoma and Colorado.

LUBBOCK TO SWEETWATER LINE
SOUTH PLAINS COACHES—DICK ABBOTT, PRES.
Note: Entire schedule below goes into effect Jan. 15th with the exception of the 12:00 noon and 2:30 cars out of Lubbock which will remain the same. Call agent phones 123 and 633 for schedules in effect now.
Cars leave Lubbock for Sweetwater and connections at 7:15 a. m., 12 noon, 2:30 p. m. and 4:00 p. m. The following connections are made: At Sweetwater, for Ft. Worth on 7:15 a. m., 12 noon, 2:30 p. m. and 4:00 p. m. cars out of Lubbock; at Sweetwater for San Angelo on 7:15 a. m., 12:00 noon and 4:00 p. m. cars out of Lubbock; at Snyder for Colorado on 2:30 p. m. car out of Lubbock.

LUBBOCK TO BROWNFIELD AND ROSWELL
PIONEER MOTOR LINES—GARNETT ABBOTT, OWNER
Cars leave Lubbock for Brownfield and Roswell, N. M. at 8:40 A. M. and 5:00 P. M.; Arrive Roswell 2:00 P. M. and 10:00 P. M. Mt. Time. Cars leave Roswell 7:45 A. M. and 12 noon; Arrive Lubbock 2:30 P. M. and 6:30 P. M. Connections made at Roswell for El Paso, Phoenix and Los Angeles.

LUBBOCK TO LEVELLAND AND MORTON
PIONEER MOTOR LINES—GARNETT ABBOTT, OWNER
Car leaves for Levelland and Morton at 10:30 A. M. and for Levelland at 5:30 P. M.

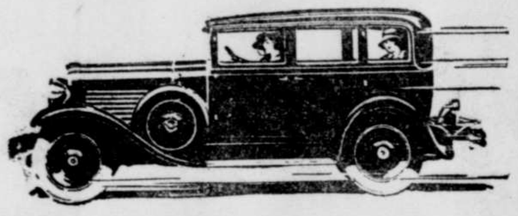

LUBBOCK TO CLOVIS
SUNSET COACHES—LOO RANDAL, OWNER
Note: The 4:00 p. m. Car Listed Below Will Leave at 4:30 p. m. Until January 15th
Cars leave Lubbock at 8:15 a. m., 12:30 p. m. and 4:00 p. m. Convenient connections made at Clovis for Roswell, El Paso and Hereford.

LUBBOCK TO LAMESA AND BIG SPRING LINE
RED STAR COACHES—BILL WATSON, OWNER
Cars leave Lubbock at 7:30 A. M., 10:30 A. M., 2:00 P. M., 5:00 P. M., 10:00 P. M. Connections at Big Spring for San Angelo, San Antonio and Austin, Midland, Odessa, Pecos, Oil Fields and El Paso, Colorado, Sweetwater.

LUBBOCK TO CROSBYTON AND STAMFORD LINE
TEXAS MOTOR WAYS, INC.—ED. C. ABBOTT, PRES.
Note: Entire Schedule below in effect Jan. 15th with exception of 12 noon car. Call agent phones 123 and 633 for schedules in effect now. Cars leave Lubbock as follows: At 7:10 a. m., 12 noon and 4:00 p. m. for Ralls, Crosbyton, Dickens, Seymour, Wichita Falls and Spur, Stamford, Breckenridge, Ft. Worth; and out of Ralls at 9:30 a. m., 2:30 p. m. and 5:00 p. m. for Floydada, Matador, Paducah, Vernon, Quanah, Altus, Snyder, Chickasha, Lawton, Oklahoma City, Tulsa, Kansas City and St. Louis. Passengers leaving Lubbock at 4:00 p. m. and Ralls at 5:00 p. m. make direct connections at Floydada with the Frisco's fast overnight train to Oklahoma City, Kansas City, St. Louis and intermediate ponts. A car leaves Lubbock for Ralls at 7:00 p. m.

'Tin Can Tourists' In Convention

Automobile Hoboes Stop Wanderings Long Enough To Hold Their Annual Pow-wow In Arcadia, Florida

(By Associated Press)

ARCADIA, Fla., Jan. 12.—Many an automotive rattle, jangle and bang precedes the cries of greeting, the renewing of friendships and comparison of highway voyages when the Tin Can Tourists of the World stop their peregrinations long enough to hold their annual convention here January 7 to 11.

The order of "tin canners," or more literally those automotive engineers who see the world from a front or back seat, and who live and love the life of the tourist camp rather than that of the more diginified hotel has held annual conventions in Florida for the past several winters.

Formation of the order came several years ago when friends in former tours and acquaintances of community camp fires in many tourist camps decided upon an annual get-together. The purpose of the conclave is to establish an annual meeting place for "tin canners."

The five days of the convention features a "get acquainted and reacquainted day," a general meeting, the election of officers and all-day barbecue.

for Economical Transportation

CHEVROLET

The Outstanding Chevrolet of Chevrolet History

-a Six in the price range of the four!

represents 4 years of Development and *over a* Million miles of Testing

Never has a new motor car come to the public more thoroughly proved in every detail than The Outstanding Chevrolet of Chevrolet History.

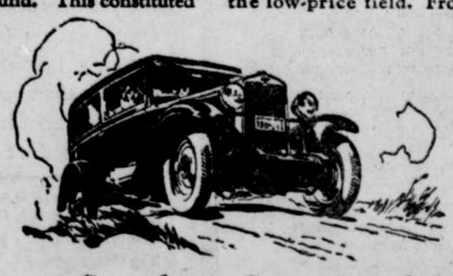

Years ago, the Chevrolet Motor Company designed and built its first experimental six-cylinder motor. This far-sighted step was taken because Chevrolet engineers knew that the six-cylinder motor is inherently the most perfectly balanced motor—the ideal power plant to meet the growing public demand for greater reserve power, faster getaway and, above all—*smooth, quiet performance.*

During the last four years, over a hundred six-cylinder motors—representing every conceivable type—were built by Chevrolet engineers and tested on the General Motors Proving Ground. This constituted one of the greatest series of tests ever conducted with any automobile. From time to time, the experimental models were torn down for inspection, redesigning and further testing—until the present motor was developed and pronounced correct.

While the new six-cylinder motor was in process of development, other Chevrolet engineers were perfecting other parts of the chassis. And another great automotive organization—the Fisher Body Corporation—was devoting its gigantic resources to the creation of the finest, sturdiest and most beautiful bodies ever offered on a low-priced automobile.

As a result, the Outstanding Chevrolet offers an order of well-balanced excellence that is extraordinary in the low-price field. From every standpoint—power, speed, smoothness, acceleration and quietness—its performance is truly amazing. Its handling ease and roadability are exceptional. Its economy of operation is so great that it delivers *better than 20 miles to the gallon of gasoline.* And its outstanding beauty, smartness and luxury are exciting widespread admiration.

You owe it to yourself to see and inspect this remarkable car. Come in today!

United States Is Leading In Tires

More Tires Are Made, Sold In This Country, Figures Compiled By Companies Indicate

(By Associated Press)

WASHINGTON, Jan. 12.—The United States is the largest producer of automobile tires as well as the largest exporter, statistics collected by the department of commerce show.

The 125 establishments in the United States manufacture rubber tires of all descriptions, but not more than 15 enter into the export trade for which seven other countries are bidding strongly.

The United States still holds the lead as the largest exporter of tires, with France, Canada, United Kingdom, Italy, Belgium, Japan and Germany ranked in order after American exports.

Although Australia has not entered the export trade actively, it has reached a point of self-sufficiency to cut down its prospects as a market for other countries.

Czechoslovakia, Austria, Hungary, Denmark, Sweden and Soviet Russia have a large domestic production and consumation of tires with a considerable foreign trade, but are not considered competitors for the eight leading export nations.

During the first nine months of 1928, the United States exported 1,924,600 automobile casings, a margin of 593,200 over its nearest competitor, France.

The Canadian industry is comprised chiefly of subsidiaries of well-known United States factories, which at present occupy third place in international trade. During the first nine months of 1928, Canada exported 1,214,100 automobile casings, slightly below the trade commanded by France.

Housework In Its Varied Forms Is Chief Vocation For College Girls Who Earn Part Of Their Own Money

Few Wasted Moments For The Tech Co-eds; Many Extra-curricula Activities Require Time

Tech girls do not care for unusual positions. At least they do not care for them if the records in Dean Mary Doak's and Cecil Horne's offices are to be considered as representative of the average college girl's idea of an unusual job. Each place held by a Tech girl must be approved by the Dean of Women, and this may account for the fact that of the one hundred and twelve girls who work in order to defray part of their college expenses nearly seventy per cent do housework. This includes cooking, caring for children, sewing, and many of the innumerable tasks which confront a housekeeper.

A few girls do stenographical work for downtown firms while others are employed by different departments of the college. One girl is assistant county librarian while several girls are engaged by the Tech library to work behind the checking counter, to bind books, and to do typing. Other positions held by college girls include those of being laboratory assistants in zoology and botany, clerking in stores, and working as cashiers and as telephone operators. Perhaps one reason that none of these jobs seems unusual is due to the fact that girls are able to hold almost any place that boys do now-a-days. Several girls are waitresses in cafeterias, while one girl is a beauty operator in the afternoon, and another alters coats for a large department store.

30 Campus Activities

There are thirty extra curricula activities to which a girl may belong and while many of these organizations are not open to them until they are upper classmen an opportunity is given early for preparation towards becoming members. Some of these organizations are sectional and town clubs, while others include debate, dramatic, home economics, social clubs, and religious organizations.

Miss Maurine Henderson is enrolled in the school of engineering, while Miss Ethel Brown is a student in the agricultural school. There are a number of girls enrolled in the pre-med courses and Miss Pauline Miller is president of the club. Agnes Prown, of Clovis, who has attended Tech since its opening is majoring in geology and Miss Margaret Williams is planning to major in mathematics.

Not Much Waste Time

Of the over 700 women students at the college with only about fifteen per cent employed one might wonder how the remaining ones spend their leisure time. College authorities, however, had this in mind when schedules were planned and the career of a college student is supposed to be spent much the same way as if she were employed seven hours a day. Girls who live in private residences live normal home lives in that they attend moving picture shows ,beauty parlors, study and visit. Dormitory girls spend their time much the same way and do much visiting from room to room. Both town girls and dormitory girls belong to the clubs which take up as much time as they will allow. Rules governing the numbers of times a week that girls may have dates are made into special privileges if certain requirements are met.

Few students are lost to the college by marriage both students in several instances continuing to hold positions as well as do their college work.

Auto Giant Grew Head Taller In 1928, C. Of C. Figures Show

By NEA Service

NEW YORK, Jan. 12.—The automobile giant grew a head taller and added considerably to its chest measurement during the past year, according to the following X-ray picture of the industry for 1928 as presented by Alfred Reeves, general manager of the National Automobile Chamber of Commerce.

PRODUCTION

Cars and trucks produced in the U. S. and Canada, 4,630,000; cars, 4,044,000; trucks, 586,000; per cent closed cars, 85; wholesale value of cars, $2,630,500,000; wholesale value of trucks, $415,320,000; average retail price of cars, $876; average retail price of trucks, $955; tire production in U. S., 78,500,000.

REGISTRATION

Motor vehicles registered in U. S., 24,750,000; motor cars, 21,630,000; trucks, 3,120,000; per cent of world's autos in U. S., 78; miles of surfaced highways in U. S., 615,000; 1928 highway expenditures, $1,500,000,000; number of persons employed in auto and allied industries, 4,110,000; taxes on motor vehicles, $785,386,000.

RETAIL FINANCING

Per cent new cars sold on time, 58; per cent new trucks sold on time, 52.

AUTO'S RELATIONS TO OTHER INDUSTRIES

Number of carloads of automobile freight shipped in 1928, 3,600,000; rubber used, 85 per cent; plate glass used, 60 per cent; copper used, 12 per cent; iron and steel used, 15 per cent; gasolin consumed, 80 per cent; gasoline consumed (gallons) 10,860,000,000; motor oil (gallons), 434,000,000; crude rubber (pounds), 814,000,000; cotton fabric used in tires (pounds) 299,500,000.

FOREIGN SALES

Number of vehicles sold outside U. S., 810,000; per cent of increase over 1927, 26; number of vehicles reported, 520.

RETAIL BUSINESS

Total car and truck dealers, 53,700; public garages, 51,600; service stations and repair shops, 95,400; supply stores, 79,100; gasoline filling stations, 317,000; gasoline pumps in use, 604,000.

Loves His Alcohol

PHILADELPHIA — Jacob Lipitz loves alcohol and loves to play with it. He so informed Judge Lewis, who ordered him to give the grand jury information about his business. He said he had handled 10,000,000 gallons of commercial alcohol in the last seven years.

FLASHES OF LIFE

* * *

As Brought Over Associated Press Wires Today

'Welcome Home,' Etc.

CORK, Irish Free State—A statute of liberty in Cork harbor welcoming Irishmen back to the homeland is suggested in a measure under consideration by the harbor board.

99 Percent Perfect

NEW YORK—A world without smoking, drinking or drudgery is foreseen by Henry Ford. His vision is outlined in his book, "My Philosophy of Industry." Machines will do all the hard work.

Rare Book Valuable

NEW YORK—First edition copy of "Tom Jones" has brought $29,000 at auction, or $21,000 more than a first edition of Fitzgerald's Rubaiyat. Fielding's novel cost the recent seller $3,000 a few years ago.

Fatty In Trouble

CULVER CITY, Calif.—Fatty Arbuckle must show the city council why his cafe should not be closed. Neighboring residents have complained that noise therefrom hampers sleep.

Fans Would Cut Chicago Radios

By NEA Service

CHICAGO, Jan. 12.—If it were left to the radio fans of Chicago, this city would have not more than ten broadcasting stations instead of the score and a half it now has.

This fact is brought out after a survey made among 1275 radio listeners among four varied classes. Most approved of only ten broadcasters in the Chicago area, while four of the ten came out on top at about equal rating. These four are KYW-KFKX, WMAQ-WQJ, WGN-WLIB and WBBM-WJBT.

WMAQ led among the executive class of listeners, WGN among professional men, KYW among union labor and radio dealers, and WBBM among clerks.

Studebaker announces a new *World Champion President Eight*

... of greater power, beauty and luxury

$1785 *at the factory*

115-horsepower motor; Double-drop frame; New, longer, lower lines; Dual carburetion; Non-shatterable windshield; Adjustable front seat; Automatic choke control; Safety steel-core steering wheel; Ball bearing spring shackles; Houdaille hydraulic shock absorbers

AT THE moment when eager eyes turn to the newest offerings of American automotive genius, Studebaker announces a surpassing achievement—a new and finer world champion President Eight! A motor car priced in a range where such performance, such luxury, such beauty of coachcraft and color, have never sold before!

In traveling 30,000 miles in 26,326 minutes the great President Eight officially demonstrated more speed and endurance than any other regular factory production car the world has ever known. The President Eight today holds *every* official speed and endurance record for fully equipped stock cars.

Today's motor car is the eight! At the recent Paris Salon de l'Automobile—at the Olympia Motor Show in London—on the boulevards and highways of America during the past twelve months, the trend of motor car demand has been unmistakably to the straight eight.

The Eight is THE Car.
This is THE Eight!

It has been Studebaker's privilege, through providing the first truly great eight of moderate cost, to be the standard-bearer of the industry in the swing toward this finer, more flexible, more suave and pliant transportation. Dramatically and sensationally, Studebaker's President Eight led the way.

But the engineering genius which created such a car could not rest idly on its laurels. Hence today, Studebaker presents a still greater President Eight—the triumphantly successful product of Studebaker's research laboratories and million-dollar Proving Ground.

This new President Eight is as near to a perfect motor car mechanically as champion-builders can make it. It is a large car—but not bulky. It is a genuinely beautiful car—a smart car—with good taste in every line and in all its appointments. It is a fast car, and enduring. Its manners and its comforts await your appraisal in Studebaker showrooms today. Come, drive a champion!

reasons why our new

Cash Price

In planning this system all merchandise prices have been put down to a SPOT CASH PRICE in line with our now famous slogan "Just One Price"—One Just Price". This is just exactly what was done. There is only ONE price placed on this merchandise, thus insuring you the satisfaction of knowing that you have paid but the one and only price of that particular article. We offer our ONE LOW PRICE in comparison to those of any other company, mail order house, or manufacturing houses.

"Just One Price - One Just Price"

Credit Terms

In planning this system, we knew that we had to be just as fair to our friends who desired to secure terms on their purchases as to the ones paying cash; therefore we decided on the just one price. We have arrangements whereby you may have all the terms you need on your purchase contract. We even allow two, three, four, and five years for final payments on this system which assures you that there will be no burden attached to purchasing furniture under this system. We install new accounts under this system from one to twenty months on a basis to determine payments. As you increase your purchases, the time limit increases as well.

System makes Credit more

Carrying Charges and Insurance

Under this system, we have arranged for the credit terms on a fair and impartial plan; a plan that you only pay for the actual time you need to liquidate your balance. Therefore, if you do not need a great length of time, you do not have to pay the same price as the person using longer periods of time.

In connection with this system, we issue an Insurance Policy covering your balance with us on the supporting head of the family, whereby should the supporting read of the family die, we would issue a receipt showing YOUR ACCOUNT PAID IN FULL. This feature is a gift to you from us. We carry all the premiums on this gift to you.

Attractive than ever!

When you consider all of the advantages there are in buying furniture here—when you consider that our enormous buying power that permits us to sell better quality for less because we buy furniture direct from the manufacturers and eliminate the jobber's profit—when you consider that our assortments are always most complete, you'll want to buy furniture here because you can do better.
