Tax Payment Bill Senate Debate Topic

Holbrook Leads Opposition To Split Annual Plan

AMENDMENT APPROVED

Sulphur Production Tax of \$1.50 Ton Sought Through Bill

AUSTIN, Jan. 22 (AP)—The semi-annual tax payment bill was passed by the senate today. Prior to its passage an amendment making semi-annual collection of county taxes optional with the county commissioners was tacked on to it. State taxes remained uniform, the semi-annual plan to be applied in all counties.

AUSTIN, Jan. 22 (AP)—Consideration of the merits of the bill to permit semi-annual payment of taxes was started in the senate today while the house battled back and forth concerning employment of a legal advisor to aid members in drafting proposed legislation.

Senator Holbrook, Galveston, led the opposition to the split tax plan, saying that counties already had set in motion the complicated tax collecting machinery. An amendment by Holbrook to give the counties option in placing the split tax plan in operation was passed. The option would give the commissioners' courts the right to determine if the plan should be employed in their respective counties. As it pertained to county taxes only, the bill providing for split payment of all state taxes. Several members attacked the constitutionality of the amendment.

A hard fight over the bill was anticipated. It was introduced by Ben G. Oneal of Wichita Falls and provided that taxpayers paying one-half their taxes before January 31 would not be penalized if the other half was paid by June 30. It proposed the same plan for 1931 taxes.

General Rules Both houses continued operation under general parliamentary rules when the senate refused to concur.

HOME TOWN TALK

BY BEDDY

We know of several men and their wives who expect to attend the Will Rogers benefit performance in Abilene Tuesday. But they have not reserved their tickets. If they neglect buying them until they reach Abilene Howard county will receive no benefit.

You fellows stop by one of the 16 places in town where reservations may be made, or see Shine Phillips, Miss Nell Hatch or the writer personally, and make your reservations before Friday evening, please.

"Change your mind instead of your mates." Wednesday afternoon we slipped into the Chalm School at the Settles for a few minutes. Sort of embarrassed us to be in such a large crowd of women. But, any way, we heard our delightful friend, Miss Nancy Earle, deliver one of the finest addresses we've ever heard from a man or a woman.

She advised her women friends to change their own attitudes toward life, including their husbands, instead of resorting to the courts for permanent relief through divorce—or by just separating, and letting it go at that.

Now, don't get it in your heads we're on the verge of delving into the causes and effects of marital harmony and strife. Our experience, somehow, does not qualify us as an authority. If pre-marital matters were under discussion, we might snap into threes and voluminous statements.

Miss Earle said something pretty sound, though. She told her fair friends they ought to change their attitudes toward life, if they were not enjoying life, nor possessing any ambition or desire to make their own lives and those of their mates and children more profitable and joyful.

Of course, we imagine that if you came right down to the foundation...

Three Martin County Stills Are Captured

6,000 Gallons of Mash, 30 of Liquor Are Taken

Three stills, over 6,000 gallons of mash, 30 gallons of corn whiskey, and six arrests.

That is the record made by Sheriff Milt Yater of Martin county and his deputies this week.

Starting early Monday morning, Sheriff Yater and his force, assisted by Sheriff Jess Slaughter of Howard county, and Midland county officers, confiscated a still on a ranch 20 miles north of Midland in Martin county. One negro was arrested, and 4,000 gallons of mash seized.

Returning Tuesday night, Sheriff Yater and his deputies found two stills on the same ranch. One of them was running; the other was in the process of erection. The apparatus was confiscated, 2,000 gallons of mash seized, and four arrests made by the officers. Two of the men, it is said, were arrested near the site of the stills.

Day Of Fasting Lubbock Charity Campaign Plan

LUBBOCK, Jan. 22 (AP)—Voluntarily offered aid to the poor of the city, citizens of Lubbock will observe a day of fasting Friday and indications were today that the plan will bring in several thousand dollars for charity.

The affair is purely voluntary, no drive or effort to obtain pledges being made. The idea was suggested by Dr. John C. Granbery of Texas Technological College and is being sponsored by the ministerial association, civic service clubs and women's organizations.

The response has been spontaneous and it was indicated that the plan would be generally observed. So far as is known here the plan is the first city wide fast day in the nation. Money received is to be spent by the United Charities in its work in Lubbock. None will be spent only for food. Boxes are being placed in banks, downtown stores, and in churches for receiving funds.

BOND MARKET

NEW YORK, Jan. 22 (AP)—The stock market developed increasing strength and activity today, although total sales were only about 1,700,000 shares. Such wide movers as Auburn and International Business Machines gained 5 points, while U. S. Steel, Republic Steel preferred, Woolworth, Procter & Gamble, Case, Loews, Eastman, Chesapeake Corp., and Lackawanna gained 2 to 3. Allied Chemical lost part of an extreme gain of nearly 4. The closing tone was strong.

RAIL RATE HEARING

GALVESTON, Texas, Jan. 22 (AP)—With J. E. Johansen of St. Louis, their chief witness, being heard, southwestern carriers resumed their opposition today to revision of rates in this territory as sought by interior shippers at a joint federal and state railway commission hearing. Len A. Smith, state railway commissioner, attended the hearing.

Bell No. 1 Well Flowing

Creamery Sued By Dairymen On Milk Agreement

Alleging breach of verbal contract, W. D. Coffee and A. F. Moore, dairymen, have filed suit for \$5,961.60 damages against the Snowwhite Creameries, in district court. The plaintiffs alleged that on July 1, they entered into a verbal agreement with T. W. Long, manager of the Snowwhite Creameries, to supply the creamery with 100 gallons of sweet milk daily, at a rate of eighty-five cents per pound of butterfat. They alleged the milk was delivered daily from July 1 to Dec. 29, inclusive. It is alleged in the petition that the agreement was for 12 months duration. On Dec. 24, it is alleged in the petition, the plaintiffs received a letter signed by Mr. Long, in which it was stated arrangements had been made to obtain milk from other sources, inasmuch as it is understood you will be interested in a cooperative creamery.

The plaintiffs alleged that delivery of 100 gallons of sweet milk was made the morning of Dec. 29, and that it was refused by creamery officials. The dairymen alleged that the 100 gallons of sweet milk they sold daily averaged 40 pounds of butterfat, which at eighty-five cents, brought them an income of \$34 a day.

Since Dec. 29, they allege, they have been interested in retail milk trade, and that their sales have averaged \$8.80 a day. A profit of \$1.00 a day is realized when expenses are deducted.

They contend had the contract been fulfilled they would have sold milk 184 additional days to the creamery, for a total of \$6,256. In asking for \$6,961.60 damages, they asked \$294.40, using an average of \$1.60 net profit a day from their retail sales.

Wounded Negro Called To Hearing On Woman's Death

ARDMORE, Okla., Jan. 22 (AP)—A wounded negro was to be carried into county court here this afternoon to tell what he knows about the shooting of Mrs. A. J. Hardy while on a hunting trip with her husband November 12.

Hardy, former county judge and county attorney, faces a preliminary hearing on a charge of murder filed by Marvin Shilling, county attorney, in connection with the death of Mrs. Hardy.

The negro is Mitch Ligon, 38, who is suffering from a wound in the shoulder from a pistol said to have been fired by a brother-in-law, A. E. Alexander, in a quarrel over an insurance policy. Officers said this had no connection with the Hardy case.

Although refusing to reveal the nature of Ligon's expected testimony officers have described him as the state's most important witness.

Faint echoes of the Clara Smith-Jake Hamon case of 1920-21 were heard when it was learned that J. B. Champion and H. H. Brown are among counsel for Hardy. They were attorneys for Mrs. Smith, acquitted of slaying Hamon, former Republican national committeeman.

The case will be heard before County Judge Charles N. Champion, nephew of J. B. Champion. Attorney Champion said the defense is ready to go to trial in the case now if necessary, but will introduce testimony at the preliminary hearing today to "enough to justify bail for our client."

"However," Champion said, "if gaining this end would urge us to reveal enough of our case to weaken it we would permit Judge Early to remain in jail until trial time."

Hardy has refused to issue a statement since arrested Monday. Mrs. Hardy died of gun shot wounds. At the time Hardy reported to county officers that a dog had tripped the hammer of a shot gun in the automobile in which he and Mrs. Hardy were preparing to return from a hunting trip. The accidental discharge, he said, killed her.

TWO ESCAPE JAIL

BARTLESVILLE, Okla., Jan. 22 (AP)—Two men escaped from the Washington county jail here early today after overpowering the jailer, Pat Hiatt. The men were Ed Bryan, facing charges of chicken stealing and jailbreaking in connection with a previous escape and Joe Cephus Gray, facing charges of forgery.

AGED MAN INJURED

HOUSTON, Jan. 22 (AP)—H. P. Herth, 84, was near death here today after being struck by an interurban here. Infirmity attendants said the aged man's skull and both wrists were fractured. Mr. Herth was en route to work as salesman.

Lewis and Slagle Operation Successful After Nitro Shot

NEAR COUNTY LINE

California and Magnolia Hold North and West Offsets

Slagle and Lewis' No. 1 Bell, located one quarter of a mile from the Howard-Mitchell county line, is flowing 200 barrels of crude a day, it was learned here today.

The new producer, is located 330 feet from the northwest corner of the southeast quarter of section 12, block 30, township 1 south.

A new location on the farm will be made immediately. The well was shot at 2,900 foot level with 480 quarts.

The California Oil Co., and the Magnolia Petroleum Co., have offsets on the north and west, respectively, of the well.

The well is situated one mile southwest of the Sinclair producer which was good for 250 barrels, and one mile west of the California pool, located in "Aitch" county.

Several Big Spring persons have royalty holdings in the vicinity of the producer.

Quinn Rites Set Friday

Publisher To Be Buried In Indiana Near Old Home

LUBBOCK, Jan. 22 (AP)—Following services here Friday afternoon at two thirty, the body of L. Herbert Quinn, Lubbock publisher who was found dead Tuesday from cold and exhaustion after wandering for thirty miles Sunday night in the ranch sandhills seventy five miles southwest of here, will be sent to Terre Haute, Indiana for burial. His father, L. H. Quinn, Sr., resides there.

Miss Vera Francis Bagot, fiancée of Mr. Quinn, arrived here today for the services from her home in Anderson, Indiana.

The entire business section of Lubbock will be closed for the services which will be held at the First Presbyterian Church with Dr. Jack M. Lewis in charge.

Six Bandits Rob Passengers On Train Of \$6,000

BELLEFONTAINE, O., Jan. 22 (AP)—Working with quiet but grim precision, six bandits routed sleeping Florida-bound passengers from their berths as a Big Four train neared here early today, shot one man and made away with cash and jewelry estimated at \$6,000.

Evidently timing the holdup well in advance, the gunmen, all masked, invaded the next to the last Pullman of the No. 9 train, en route from Detroit to Cincinnati. One man who shouted in alarm was shot and critically wounded and the remaining six passengers were marshaled in the drawing room with the porter and a brakeman.

One robber stood guard while the rest went through the car, snatching money and valuables. As the train slowed down for Bellefontaine, they leaped from the rear car and disappeared into the darkness. The time between their lay and the arrival of the train was sufficient for them to make good their escape.

The man shot was Edwin K. Nelson of Tampa, Fla. He shouted when aroused and was ordered to "keep quiet." He shouted again and was shot, the bullet piercing his right arm and chest. He was in a serious condition with a punctured lung.

Mrs. E. G. Batharian, Detroit, the sole woman passenger, said she lost \$3,000 in diamonds and cash. She was forced to join the subdued group huddled in the drawing room. While the robbers leisurely went through the car, Brakeman Morris came through and immediately joined the prisoners.

The robbery occupied about an hour while the train proceeded from Carey, about 45 miles north of here, to Bellefontaine. They disturbed no other car. Railroad detectives thought the robbers probably climbed aboard while halt was made at Carey for coal.

Fess Discusses Hoover Attitude Toward Report

WASHINGTON, Jan. 22 (AP)—Emphasis was made today by Senator Fess, republican, Ohio, to the point that President Hoover is objecting to the Wickersham commission's substitute 18th amendment had not closed the door to all revision proposals.

Party leaders looked significantly at this statement of Senator Fess, who is chairman of the republican national committee and an adviser of Mr. Hoover's. He was at the White House yesterday.

The Ohioan, one of the staunch supporters of national prohibition himself, would not say that Mr. Hoover favored any other revision or had any other idea for modification in mind.

"I just simply say," explained Fess, "that Mr. Hoover did not close the door to any revision when he rejected this substitute amendment because it would throw prohibition forever into politics."

The law enforcement commission said in its conclusions: "All the commission agree that if the amendment is revised it should be made to read substantially as follows:

"Section 1. The congress shall have power to regulate or to prohibit the manufacture, traffic in or transportation of intoxicating liquors within, the importation thereof into and the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes."

Senator Fess stipulated he had no idea whatever that Mr. Hoover has any modification or revision plan in mind.

"I believe the president has an open mind," explained the Ohioan. "He wants to do what is right. He doesn't want to say that he is keeping the door open for I do not want to put him in the position of considering any revision or modification of prohibition."

"All I do say and can say is that Mr. Hoover in his message has simply rejected this particular plan of the commission for the obvious reason that it would place prohibition into politics forever."

"It would make prohibition the everlasting paramount issue."

WASHINGTON, Jan. 22 (AP)—Immediate legalization of 3 percent beer was urged in the house today by Representative William E. Hull, republican, Illinois.

A resolution also was introduced by Representative Celler, democrat, New York, to carry out the Wickersham commission's recommendation for removal of restrictions on doctor's prescriptions of liquor.

Hull told the house "for the first time in the history of this country, if not in the history of the world, crime has become a paying institution. The unenforceable prohibition law is responsible for a most vicious development in American community life and if it is allowed to continue, we will be under the combined domination of the bandit, the burglar, the bootlegger, the narcotic vendor and the racketeer."

Plans Made For Railroads To Meet Truck Schedules

WASHINGTON, Jan. 22 (AP)—A tentative move toward assisting southwestern railroads to meet motor truck competition in the traffic on cotton to Texas ports was made today by the interstate commerce commission.

A petition of the carriers to make new schedules from all southwestern points to the Texas seaports which will match the charges made by the truck hauls was allowed to go to hearing, and a proceeding settling general rates on cotton in the territory which the commission decided last summer was reopened.

The object of the order, the commission said, was to "permit southwestern carriers to establish and maintain reduced rates on cotton from southwestern points of origin to Texas ports of reduced rates to meet competition of motor trucks."

The reopening of the entire cotton rate schedules in the territory in the matter is necessary because any changes allowed to the Texas ports will reflect themselves in the competitive traffic to New Orleans and Mobile. During the last few months the rise of the truck competition in cotton haulage has become a matter seriously disturbing to the management of the southwestern carriers.

OPPOSES PUGILISM

OKLAHOMA CITY, Jan. 22 (AP)—Gov. W. H. Murray objects to "legalizing pugilism." He said today in announcing his intention to veto today a bill introduced in the house in the house for a boxing commission. A bill introduced in the house if the bill reaches his desk.

Red Cross Radio Program Tonight Includes Hoover

WASHINGTON, Jan. 22 (AP)—President Hoover, as president of the American Red Cross, today accepted an invitation to participate in the special drought relief program arranged by the Red Cross and the National Broadcasting Company to be broadcast tonight from 8 to 9 o'clock (CST).

The president will speak from the White House. The entire program is to be devoted to the drive of the Red Cross to raise \$10,000,000 to relieve suffering in the drought stricken areas.

Other speakers will include former President Coolidge and Alfred E. Smith.

Soviet Russia Is War Unrenewed Says Secretary

MOSCOW, Jan. 22 (AP)—Soviet Russia is threatened with the greatest war in history, commissar of war Voroshilov said in an address today to the congress of communist youths.

The Soviet Union, he declared, must organize the masses not only for the purpose of "defending the country against inevitable intervention but for victory over the country which first draws the sword against us."

Three million young communists are in the congress of youths, he said, and 200,000 of them are in the army. He urged the entire membership to begin intensive training for defense of the state.

"Our country," said he, "is a socialist island surrounded by capitalist enemies. These are difficult times and we must not forget the external factors all about us. The danger of attack is constantly growing and it is obvious that the international bourgeoisie are preparing to march against us."

He quoted the German General Ludendorff, "the danger of war once again is inevitable everywhere," and asserted that capitalism, in the grip of an economic crisis, "blames the Soviet Union for all its misfortunes and is preparing for war against us."

"The coming war," he said, "will be a factory for the annihilation of men and in such a factory men must not only be willing to die but must be qualified to handle the complicated machinery of war. We must face the attack with a trained army."

He indicated that preparations for defense already were under way with the declaration, "in case of war all light and heavy industry will be mobilized."

R. E. Lee Birthday Holiday Sought

AUSTIN, Jan. 2 (AP)—The birthday of General Robert E. Lee, leader of the Confederate armies in the war between the states, would be made a legal holiday in Texas under a bill introduced in the house today. The date is January 19. The bill was offered by Representative McCombs of Dallas.

643,354 Daily Output Aim Of Committeemen

Van Pool Allotment Raised To 35,000 Barrels Per Day

PENN LEADS GROUP

West Texas Would Be Cut Less Than 1,000 Barrels

AUSTIN, Jan. 22 (AP)—The central committee on oil proration today recommended that the state's allowable production be reduced from 680,238 barrels to 643,354 barrels daily.

Recommendation was made, however, that the allotment of the Van field be increased from 27,500 to 30,000 barrels February 1 and to 35,000 barrels March 1. The railroad commission also was asked to hold a hearing to fix a figure for the new field in Rusk and Gregg counties, which was not included in the general recommendation.

The recommendation of the committee headed by R. R. Penn, Dallas independent oil operator and consisting of representatives of both the independents and the major companies, was as follows:

Recommendation Panhandle district, production as of January 17, 57,400 barrels; allowable recommended, 40,000; North Texas, present production, 60,350; recommendation, 57,245; West Central Texas, production, 33,500; recommendation, 24,000; West Texas production, 246,550; recommendation, 245,927; East Central Texas production, 43,150; recommendation, 43,735; Southwest Texas, production, 77,647; Gulf coast production, 163,000; recommendation, 155,000.

Penn said the demand for crude oil was around 670,000 barrels, substantially the same as during the life of the old -der, which was due to expire Saturday. He said his committee was endeavoring to keep production down to the demand level. Penn told of the success with which the states' proration program had been attended since it first began last August. He said production at that time was about 663,000 barrels whereas the minimum reported recently was only 658,100 barrels.

The committee deal particularly with the Van field, the Big Lake field and the new Rusk and Gregg county field.

"I personally anticipate the committee will recommend that production in the Van field be increased 5,000 barrels the first each month until the 50,000 barrel figure is reached," he said. "However, this order will last only until April 1 and the committee did not deem it pertinent to make any recommendations for the allowable after that date."

J. A. Elkins of Houston, attorney for the Pure Oil company, one of the chief producers in the Van pool, objected to the committee's recommendations. He stated the proposed plan was satisfactory if assurance could be had that the schedule of increases would be maintained until the 50,000 barrel figure had been reached. "We already have a surplus of that much oil," he said.

Penn asked the commission to "clamp down" on the operators in the Big Lake field, where the university of Texas has a considerable amount of oil land. He said the university was losing thousands of dollars weekly because of waste of gas in that field. He urged the production of oil in that pool be reduced to the market output and the amount of oil in storage be cut to a minimum.

Rusk-Gregg The committee chairman pointed to the danger of waste in the Rusk and Gregg county field, which is just being opened. He said he was glad to report that a committee of citizens of that vicinity already had been formed to prevent waste and

Illness Fatal Alma Rubens, Actress

LOS ANGELES, Jan. 22 (AP)—Death has ended the valiant fight of Alma Rubens to conquer narcotic addiction and make a comeback in motion pictures.

Two weeks ago Miss Rubens, a screen star of the first magnitude, lived a story more tragic than any film makers would attempt to depict. She died last night of pneumonia, but the coming of death after a 60-hour coma served to remove the darkest cloud ever to shadow the black-haired actress. She was 31 years of age.

Two weeks ago Miss Rubens was arrested in San Diego on federal charges of smuggling and possession of narcotics. She was taken ill with a cold, which developed into pneumonia, shortly after being released from jail under \$5,000 bond to await hearings and trial.

Beside her death bed in the home of Dr. Charles J. Pfeuffer, her physician, stood her mother, Mrs. Theresa Rubens, and her sister, Mrs. Hazel Large, of Madeira, Calif. The doctor also was present.

When, nearly 12 years ago, Miss Rubens played the feminine lead in Douglas Fairbanks' "The Half-Breed" she was described as Hollywood's newest Cinderella. Her starring roles in such pictures as "Humoresque," "The Valley of the Silent Men," "Gilded Butterfly," "Siberia," and "Unseeing Eyes," during the next decade established her as one of filmdoms foremost.

In January, 1929, Miss Rubens was revealed as a narcotic addict.

She dropped out of pictures and soon was confined for treatment in a state hospital. She was paroled a few months, only to be cited again for addiction and sent to another state asylum, from which she was released as cured in December of the same year.

After her first siege in the hospital Miss Rubens began a comeback. She played in her first talking picture, "Show Boat."

She appeared in a one-act play at the Writers' Club in Hollywood. A rousing ovation was tendered Miss Rubens at the close of the play, which proved to be her last public appearance, and she was hailed as "more beautiful and effective than ever."

During a trip to New York, for a rest that she hoped would prepare for her re-entrance to films, Miss Rubens broke with Ricardo Cortez, film actor, her third husband. They were married in January, 1926. She said he claimed too much credit for her cure, and forwarded divorce papers here for filing. Although the suit never went to trial, the couple remained estranged. Cortez said two hours before Miss Rubens died he had not been informed that she was seriously ill.

This Great Healing Oil Best For Pimples and Skin Troubles

Make up your mind today that you are going to give your skin a real chance to get well.

You've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of them are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.

Go to any good drugist today and get an original bottle of Moone's Emerald Oil—an 85 cent bottle lasts 2 weeks.

The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your skin troubles will be a thing of the past.

Remember that Moone's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.—adv.

That Report

OPPORTUNITY of debating over prohibition, a pastime both ants and pro have enjoyed for ten years and in which many engaged more for personal satisfaction than through sincere desire to see the problem solved one way or the other, has been increased by the Wickersham commission's report.

Senator Borah's statement, the report will soon be hidden on the shelves and the debate over "repeal or no repeal" continued as it has been conducted through the years is pretty correct.

Aside from a few who believe prohibition violates personal liberty and do not consider the latter nullified when exercising it inflicts misfortune upon others, campaign against prohibition is carried either by those who like to drink liquor or those who wish to sell it.

Return of the open saloon will never occur in the United States, although there may be some legislation allowing limited sale of light wines and beer some day.

We believe those who burn with the old-time prohibition zeal ought to consider whether the true purpose of prohibition would be promoted—that is the cause of temperance strengthened—by changing some points in the law. Blind stubbornness ought not to guide them.

The basic theory of prohibition is sound. It is right and, some day, will be subject of much less opposition than today.

Prohibition has not had a completely fair trial, chiefly because interests of some government officials would have been damaged by proper enforcement efforts.

As much honest effort was made to enforce it as is exerted for most laws the conditions would be different.

Temperance is the real goal. Perhaps this would be promoted by allowing some sort of sale of light wines and beer. Perhaps not. The problem ought to be studied on a practical basis and not from the viewpoint of those saturated with a reform complex that do not do some hard study.

OPINIONS OF OTHERS

The "Strike" Has Seen Its Day

Sherman Democrat:
WHEN William N. Doak was sworn in as secretary of labor in the cabinet of President Hoover, a man who has been a member of a trades union since his apprenticeship days as a "top-third" was called to office. He succeeds another trades union man, Mr. Davis, recently elected to the United States senate from Pennsylvania.

Mr. Doak was a trainman, having worked his way from a brakeman and conductor to head of the Railway Trainmen's union. This made him one of the executives of the Big Four, which included the Locomotive Engineers and the Firemen's union. During his years of service there was never a strike among these organizations, although they made many complaints and got many of the things they asked for.

As a rule Mr. Doak speaks for the railroad unions. He never failed to settle the differences without calling a strike.

On the subject of strikes, he is quoted as saying: "Except as a last resort in extreme cases, the strike could never be used, for it is essentially wasteful, anarchic, and the most necessarily harmful to all concerned."

The strike long ago lost favor with the public and has done more to cause labor unions to lose their popularity than any other one thing. The past ten or fifteen years the railroads, constituting one of the most vital industries in the world, in which the relations of worker and employer have presented some of the most puzzling and deep-seated problems in the history of organized labor, have offered plenty of proof of the needlessness of strikes.

Mr. Doak is following a good

man in Mr. Hoover's cabinet, but believes he is in every way qualified to hold up the work to as high a standard as Mr. Davis did.

How Is Your HEALTH?

Edited by Dr. Isgo Goldston for the New York Academy of Medicine

EPILEPSY IN HISTORY

Epilepsy is one of the diseases well known to history. Hippocrates, the father of medicine who lived 400 years before the Christian era, knew of and described epilepsy.

Hippocrates observed that the brains of persons afflicted with epilepsy were "unusually moist." It is significant that a recent promising study on the cause and control of epilepsy points to the presence of excess fluid in and about the brain as a possible immediate cause of epileptic convulsions.

Epilepsy is mentioned in many of the writings of the ancients. It is found in the New and the Old Testament, and in the holy books of many religious sects. In fact, epilepsy was considered by many as a holy disease and those suffering from it were at times treated as if they were sanctified individuals.

The Koran, (the bible of the Mohammedans) considered epilepsy an affliction which might come upon those who thrived by usury.

The hereditary character of epilepsy was appreciated by the ancients. We find the Talmud, a collection of Hebrew writings, prohibiting marriage with a woman who had come from an epileptic family. In Delphi, epilepsy in the female was valid ground for divorce.

The aura associated with epilepsy, representing a state of disturbed conscience, which precedes epileptic seizures, was also known to the ancients. According to the Talmud, the testimony of an epileptic person could not be credited as long as he was subject to seizures.

The term epilepsy, which is derived from the Greek, was not used to describe the disease until after the tenth century.

Hollywood Sights

HOLLYWOOD—The stories of newspaper life now marking another cycle in films are strikingly different from former movies.

There was a time when some producers refused to consider journalistic excursions as material for screen entertainment.

Lucien Hubbard, writer formerly of the press, recalls that he broached a newspaper yarn for filming in 1919, and it was promptly rejected.

Hubbard prevailed, however, and his "Deadline at Eleven" was one of Corinne Griffith's early vehicles.

SCOOPS—That, unless its title is misleading, was a story of some old reporter's struggle for a scoop, with a romance of course for motivation.

There were to be more of the same species—pictures playing up the so-called "thrills of the game." They were as little concerned with the portrayal of reporters as human beings as they were with the accurate painting of real newspaper life.

The executive who catalogued actual and newspapermen as equally impossible subjects has now been proved doubly wrong. Fans have always been intrigued by stories of backstage life, and the cycle of such stories which came in with the talkies continued until it killed itself off by overemphasis.

And that cycle was scarcely under way when the film version of "Gentlemen of the Press," presenting a thoroughly human portrait of a newspaper editor, launched a series of talkie newspaper yarns.

MORE REAL—In the new newspaper cycle, revived now after a temporary lull, pictures seldom resort to the old thrills-and-scoops school for their main punch.

Thrills are present, and scoops sometimes figure, but in most of the films the newspaper men are pictured as human beings with human problems rather than as half-mad eccentrics.

George Bancroft's "Scandal Sheet" is sensitive, stuff, though overdrawn, and "The Front Page" is pure melodramatic comedy, but some serious offerings are "Fires of Youth" with Low Ayres and "The Mob" a Barthelmus vehicle.

ATLANTIC CITY—Perhaps nobody's feet will cause a run-on goldfish. At the convention of the Middle Atlantic Shoe Retailers Association, evening slippers made of goldfish skin have been described. They cost \$40 a pair.

PARIS—A ten-year-old Russian girl is a ballet star at the opera. The Russian colony calls Irene De Terberg "The Little Pavlova." She has the leading role in "Jani's Park."

Masked Longing

BY HOWARD ROCKEY A ROMANCE OF RADIO

SYNOPSIS: Aileen Gray's sudden rise to stardom in Max Klein's new musical comedy, "Sara's Christmas Stocking," had an adverse effect on several others. Jimmy Crane, whose publicity stunt made Aileen a star, fears his hopes of marrying her have been dashed by her rise to prominence. Edna Vellamy, actress, whom Aileen displaced, is suspected of writing the gossip sheet paragraph that attacks the character of Aileen and her younger sister Vivienne, model for Dwight Channing, artist. Vivienne herself resents Aileen's holding the limelight at the party Channing is giving to celebrate the success of her show. Incidentally Vivienne identifies herself to Bruce Burns, a dramatic critic, as the subject of the gossip paragraph. She attempts jokingly to buy his silence.

For a moment Aileen was stunned. Then her own admiration for the little manageress overcame the scruples that were inherent in her. A burst of applause aroused her. Vivienne and Dwight Channing were smiling their acknowledgment of what was a real ovation.

The orchestra struck up again. Aileen caught sight of Jimmy. She called to him and he hastened to her.

"You haven't danced with me once!" She chided him as they moved off over the floor. "Have you been hiding or sitting them out with some girl in the garden?"

He evaded the answer. He could not tell her he had been off sulking in the corner. Perhaps she sensed his feeling for the clasp of her hand grew tighter and she cuddled closer as she looked up at him.

Aileen, too, felt a growing restlessness. Something told her that this night was a turning point in her life. Was Jimmy slipping away from her? Was she to lose him completely? In a way, she realized that from now on she must belong to her public.

Over Jimmy's shoulder, she could see Vivienne, once more surrounded by the liveliest group in the room.

"It's all wrong!" Frank Drummond was insisting. Bruce promised we'd see the original and he hadn't produced her.

"Exactly right!" Tom Quinn did his best to articulate. "Sall a fake. I don't believe it."

"Make him prove it!" Woodward joined the ranks of the half-soused skeptics. Bruce you've got to show us. I'll admit the features—but I won't believe."

"Oh, won't you?" Vivienne blew a haze of cigarette smoke at them. Hands on her hips, she turned slowly and cast them a look of amused contempt over her bare shoulder. "Go get a tape-measure if you like!"

"No go!" Drummond rejected that. "Won't believe you unless you demonstrate."

"That's the idea," Woodward argued. "Come on. Be a sport. I dare you!"

"Is that not all right—I will!" Vivienne tossed her empty glass for one of them to catch.

"Come out!" to the fountain and I'll jump in. I've always wanted to!"

With her draperies trailing behind her, she darted across the room. In an instant the men were after her.

A hand caught at Vivienne's shoulder-knot and the film of her bodice fell over her hips like a cloud of spray. She paused, pulled off both her slippers, and laughingly hurled them at Bruce Burns as he made a dive for her. They

caught him squarely in the face. His feet slid out from under him and he sprawled in the path of Woodward and Quinn who were just behind him.

Above the shout which greeted that, Vivienne heard Aileen's cry as she came running toward her.

"Viv! You shan't! Do you hear me?" She leaped over the squirming men in her path, her arms outstretched in appeal.

For the fraction of an instant, Vivienne hesitated. She's never reach the fountain before Aileen could stop her. Oh, darn it all! Why did Aileen have to be a sportsport? Well, she wasn't going to four-flush after they had dared her!

Quick as a sprite, her hands sought both doors. With all her strength she swung them. They closed with a bang just as Aileen tripped—a and crashed into the glass.

Car Wrecked and Burned Near Here

A small car, belonging to W. M. Peterson, Knott, was wrecked and burned Wednesday night, when it collided with a truck parked on Highway Nine, one mile west of Fairview.

It is said the truck, which was loaded with groceries at the time, belongs to a Colorado firm. It was en route to Hobbs, N. M. A flat tire had forced abandonment of the machine during the night by the driver.

Making of Pipe To Be Shown In Film

The Spang, Chaffant & Co., Inc., of Pittsburgh, Pa., will sponsor an educational picture dealing with making of pipe, at the Crawford hotel, Friday night. The talking picture version of the important industry, will be shown in the ball room of the Crawford. It will start at 7:30 o'clock.

SUNSHINE MELLOWS Heat Purifies

LUCKIES are always kind to your throat

Everyone knows that sunshine mellows—that's why the "TOASTING" process includes the use of the Ultra Violet Rays. LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so "TOASTING"—that extra, secret process—removes harmful irritants that cause throat irritation and coughing.

The advice of your physician is: Keep out of doors, in the open air, breathe deeply, take plenty of exercise in the mellow sunshine, and have a periodic check-up on the health of your body.

CHAPTER 11

THE PRICE OF FOLLY

AILEEN eyed Burns suspiciously as he agreed to let her buy his silence. What would be his price?

Burns took another gulp from his highball before continuing. "I'm the very soul of fairness," he said. "All I ask is a private peep of Channing's picture of you."

"How did you know—it's like that?" She sketched a vague curve with her cigarette.

"Guessed again," he told her. Channing was coming toward them.

"I see you haven't even missed me," he said pleasantly. Burns winked at Vivienne.

"Miss Gray and I were discussing art."

"I told him about the statue," Vivienne lied with assumed coyness.

"Can't we have a look at it? If Miss Gray doesn't mind," asked Burns.

Channing did some rapid thinking. He had no doubt that Vivienne's motive was something more than delectry. Even at that, he was agreeable. He had the first porcelain copy of the little figure.

Only he must wear her privately to be quiet about the matter. He meant to let out no hint of those until the canvases were in place on the new theatre's walls.

"Bruce, console yourself with a drink while we get out the statue," Channing signed to Vivienne.

"Say, shouldn't we sort of stage this?" Burns dramatic instinct fostered an idea. "Suppose I prepare the audience for the big surprise."

"All right," Channing assented. "You're elected official barker." Channing draped a black velvet cloth over a table and posed the statue on it.

"Ladies and gentlemen!" Burns' voice was reminiscent of a circus ballyhoo. "You see before you, in the center of the arena, a large and commodious stage." Channing's model-dais had been pushed into the middle of the vacant dance floor.

There, shortly, you will see a statue so marvellously life-like that you will not believe your eyes. Everyone will have ample opportunity to witness this ravishing spectacle. Tuck with a magic wave of my riding crop, I shall produce the original—"

Then the orchestra began and everyone watched expectantly as the servants carrying the table came in.

"Oh, isn't it simply exquisite!" One of the women at Aileen's side voiced her admiration. "Just look at the features—perfect!" Observing more closely, it dawned upon Aileen that the statue was Vivienne.

Congressman And Wife Escape Flames In Home

WASHINGTON, Jan. 22 (AP)—Representative and Mrs. Bankhead of Alabama, early today were carried to safety down a ladder from their blazing home on Nineteenth Street.

Other than shock of exposure in the freezing weather, they were unharmed.

Their daughter, Miss Tallulah Bankhead, who recently returned to this country after attaining stardom on the stage in England, was in New York visiting friends.

The Bankheads were awakened before daybreak. They found the stairway shut off by smoke.

Firemen quickly set up a ladder and carried them to safety.

A 300-year-old tapestry of Mrs. Bankhead's was burned.

They had been in the house but two days, having leased it for the short session of congress.

Malakoff Bank Vault Looted

MALAKOFF, TEXAS, Jan. 22 (AP)—The First National Bank here was robbed of about \$3,000 last night, the robbery being discovered this morning.

The burglars broke into the building from the rear and used acetylen torches to burn through the vault.

Officers had no clues to the identity of the robbers. The bank had burglary insurance.

The robbery was discovered when Hobart Riddle Spencer, cashier, opened the bank today.

Ran Royal, assistant cashier, said a hurried checkup showed that between six and seven thousand dollars had been stolen.

It was the fourth attempt to rob a bank in this section within the past few months.

Two attempts had been made to loot the Larue bank and recently the Frankston bank was robbed.

Officers from Athens were on their way here to assist in the investigation.

Man Given Six Years For Robbery

CONROE, TEXAS, Jan. 22 (AP)—William Quinn, convicted of burglary in the recent robbery of the First State Bank of Montgomery, from which \$4,300 was taken, was assessed a sentence of six years in the penitentiary by a jury last night.

Quinn was the second of six persons, including one woman, to be tried here in connection with robbery of the bank, which was entered the night of Jan. 11 and the safe looted.

J. H. McDonough, alleged leader of the sextette, was assessed a 19-year prison sentence earlier in the day after a jury late Tuesday had assessed his punishment at 12 years on a burglary charge and he had been convicted also of felony theft and arson charges in two other cases.

He was given two years on the arson charge and five years on the felony theft charge.

Farmer Found Beaten To Death East Of El Paso

EL PASO, TEXAS, Jan. 22 (AP)—Apparently shot and beaten by robbers after a struggle, Clyde Havens, 37, was found dead yesterday at his farm home near Socorro, 20 miles east of El Paso.

The body was found by his brother, Lester Havens, of Del Rio, when he went to the house where Clyde had lived alone for several months. Everything of monetary value had been taken from the house and investigators said Havens apparently had been dead about four days.

A broken shotgun was clutched in Havens' hands, as though he

Identification Of Body Sought

BROWNSVILLE, Jan. 22 (AP)—Identification was sought today of the body of an unknown man taken from the Rio Grande between two international bridges here. He had escaped from the Matamoros, Mexico, jail four days ago.

Officials believed he had tried to swim the river. He was about six feet tall, weighed about 185 pounds, had dark hair and large features. Mexican officials said he steadfastly refused to give his name while in jail there.

Attorney Dan Moody On Job

AUSTIN, Jan. 22 (AP)—Attorney Dan Moody, forty-seventh governor, came up to the capitol today for his first legal service since returning to private life.

He was retained to represent the royalty owners of the Van pool in their effort to have the railroad commission increase the allowable oil production for that pool. The hearing was held in the capitol today.

PHYSICIAN DIES

COLDS MAY DEVELOP INTO PNEUMONIA

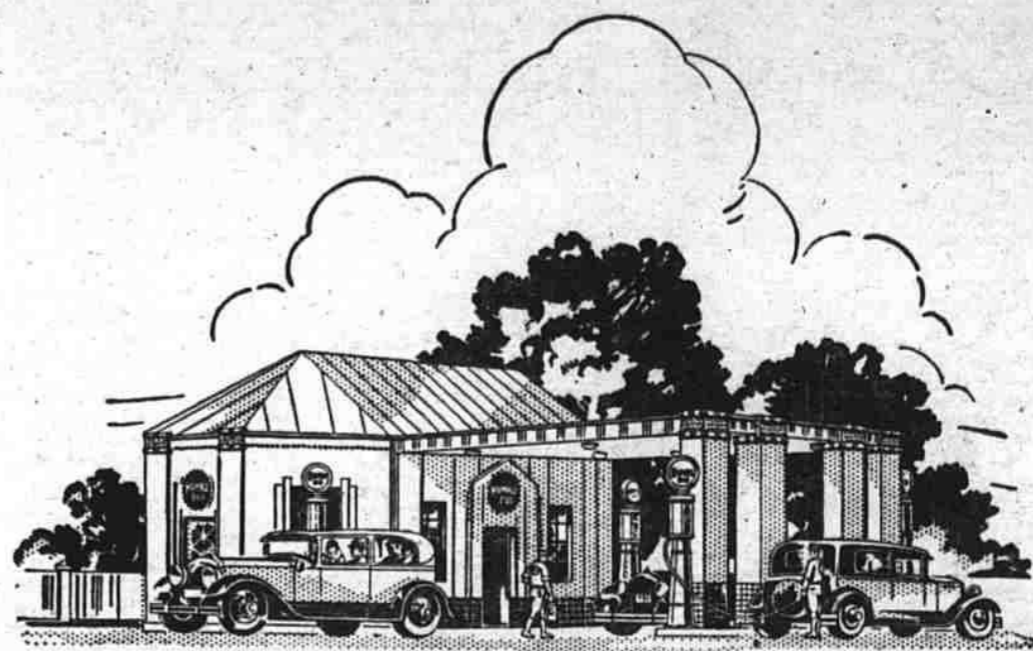

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

HUMBLE

GASOLINE & MOTOR OILS

THE SAME..... EVERYWHERE

No matter where you live, or may go, in the State of Texas—big city, small town, or rural community—you will find the same quality of Humble Products and the same courteous, helpful service and conveniences offered at Humble stations.

And there, too, you will find in the alert, uniformed service men the same qualities of integrity, honesty of purpose, and devotion to an ideal which characterize the entire Humble organization.

Every man who greets you at an Humble station is displaying in his alertness, efficiency, and hospitality the Humble spirit of service—the character and integrity that have won for Humble workers a high place in the hearts of those who value the old-fashioned virtues of honesty, loyalty, and friendliness.

Motorists who patronize Humble stations know that back of the quality of Humble Gasoline and Motor Oil—and of the hospitality and up-to-dateness of Humble service—is a definite appreciation of responsibility for dependable motor performance—and for helping everyone to get the most satisfaction and pleasure out of his car at the least cost.

You are safe when you buy at an Humble station.

Recipe For Corned Beef Canned at Mrs. Penderly Little's Demonstration

Dear Club Women and Girls:

A beef canning demonstration was given at Mrs. Penderly Little's, December 3, at which time some of the beef was corned. The product is so good I want to tell you how it was done, so you may corn some of the next beef you butcher.

For one hundred pounds of meat use the following proportions: 7 pounds salt, 2 ounces salt petre, 1-2 pounds brown sugar, 5 gallons water.

Method: Combine ingredients, let come to a boil, cool mixture, pour over meat in a stone jar. Weight down to hold under brine. Let cure for four or five weeks. If the brine becomes rosy, boil and strain, cool and pour back over meat. The meat will have a bright color in the center when it is cured. This meat may be prepared by boiling for about three hours over a slow fire.

Mrs. Chester Anderson of the Echo club has made a good record from her cows. She has milked on an average of three cows all during the year.

For her family of four she has had an abundance of milk products from these four cows, milking an average of three all through the year. She has sold the following: cottage cheese, \$821; butter, \$12; sweet milk, \$36; buttermilk, \$9.60.

The club girls are doing good work. Most of the girls have finished their pillow slips. They have been made according to directions I gave them. That is good, girls, learn to follow directions. The Moore girls were one hundred per cent in having their material for their pillow slips the day I asked them to, and made the same record in having them finished.

Sincerely yours, LOUCLLE ALLGOOD

High Leaguers Are Treated To Refreshments

The Methodist high league met yesterday afternoon after school at the home of Felton Smith.

Rebekah's Manless Wedding Draws Large Number

The Rebekahs report that a large crowd came out last night to see the wedding.

It turned out to be a manless wedding. The surprise visitors entertained the wedding party almost as much as the party entertained the visitors.

The following Rebekahs took part: Ada Ramsey, officiating minister; Mattie Demmon, bride; Oro Martin, groom; Olive Prescott, best man; Nora Gulley, maid of honor; Sallie Kinard and Lula Harper, flower girls; Mrs. Clarence Mann, ring bearer; Vera Hammond, page; Anna Thompson, father of the bride; Eula Robinson, mother of the bride; Alma Crenshaw, mother of the groom. For flowers the participants carried carrots and onions. The ring was brought in in a cabbage head.

The Rebekahs announce that they will meet with the Odd Fellows Monday night for the local celebration of the anniversary, of the birth of Thomas Wilkey, founder of Odd-fellowship in America.

Mrs. W. D. Smith, Forsan, underwent a minor operation at the Big Spring Hospital.

CHARM ITSELF COMES TO WOMEN With this thorough daintiness

Charm and daintiness—how much they mean to every woman! It is not everyone who can have regular features or a youthful figure. But everyone can have the poise and self-assurance that go with daintiness and charm.

Just get one bottle of Zonite at your drugstore. It is not expensive, but in it you will find a wealth of uses that go hand in hand with good grooming and dainty feminine charm. Beauty experts have acclaimed Zonite for its "many necessities all in one." You will find a list of them here. Full directions come with the bottle.

Zonite is an aid to beauty, but it is also more. Zonite is a remarkable germicide and antiseptic—remarkable because it combines strength with absolute safety. Besides this, there is Zonite Ointment. It is a smooth, antiseptic greasless cream, and you are sure to like it.

NANCY EARLE... famous lecturer on Charm and Health... recommends Zonite for:

- The complexion Hair and scalp Teeth and gums Mouthwash Finger nails Breath odors Cuts and scratches Bleaching skin Blisters Boils and pimples Foot odors Body deodorant Feminine hygiene

IS CHARM such a simple thing as that?

THINK of the women you consider unusually attractive and you will think of women who have freshness and animation. Invariably, brilliant smiles go with a charming personality.

Certainly then, attractive teeth are very important. And their proper care is not only an aid to all-round health, but one of the most effective aids to beauty.

You will find that Squibb Dental Cream takes wonderful, gentle care of teeth and gums. It cleans beautifully because it is an antacid dentifrice. Before you finish the first tube, your teeth become lustrous and your mouth begins to keep that healthy, fresh feeling.

And Squibb's is especially effective in protecting The Danger Line, where gums meet teeth. For Squibb's contains more than 50% Squibb Milk of Magnesia, a soothing antacid dentists have used for years.

Squibb's is safe in every respect—it contains no grit, no astringents, nothing which might injure enamel or delicate tissues.

HERE'S WHAT DENTISTS SAY!

E. R. Squibb & Sons asked a prominent research institution to conduct an investigation among 50,000 American dentists as to proper care of teeth. Here is the summary of the replies received:

95% of the answers stated that germ acids most frequently cause tooth decay and gum irritation;

95% of the answers agreed that the most serious trouble occurs at the place where teeth and gums meet;

85% stated that the best product to prevent these acids from causing decay and irritating the gums is Milk of Magnesia.

Squibb Dental Cream is made with more than 50% Squibb Milk of Magnesia. What stronger assurance could there be that its formula is correct and that it will protect your teeth and gums?

SPORT SLANTS By Alan Gould

Consider the case of the College of Puget sound, at Tacoma, Washington.

Columnns have been spilled on the subject of commercialism and over-emphasis in football, the menace of the gate "split," the million-dollar athletic budget and the tallyho.

At the College of Puget Sound, the student manager reports that football showed a net LOSS of \$2000 whereas debating and dramatics, among other undergraduate activities, produced a profit, last year.

Had football broken even, it might be said that affairs had reached the ideal state of proportion in the collegiate organization.

Educators might, in fact, hail this as a great example. However, at the College of Puget Sound there is no enthusiasm whatever.

Nelson R. Hang, in the Tacoma News Tribune, writes: "Logger graders played to little more than empty seats in Tacoma."

Lack of color is the reason football fans did not turn out in larger numbers. With this disastrous financial season behind it, the College of Puget Sound should be more anxious than ever to do something to put football on a self-supporting basis, if not a paying basis.

"By employing a coach of personality and color," the College of Puget Sound can take the most effective step to rout Old Man Football Difficulty."

As the boys in Okla., and elsewhere have hastened to point out to us, Eddie Morgan, the Cleveland pitcher, seems more occupied with making a success of the first base job than with any ambitions to be another Cobb or Speaker in the outfield.

In fact, Eddie played only 19 games in the outfield last year, as compared with 129 at first base, where he displaced the veteran Portuguese, Lew Ford, and turned in a very neat job.

The British attitude in sport may be recommended to America, as it was by the Carnegie Foundation's report, yet it seems that John Bull at times also has few difficulties to worry about.

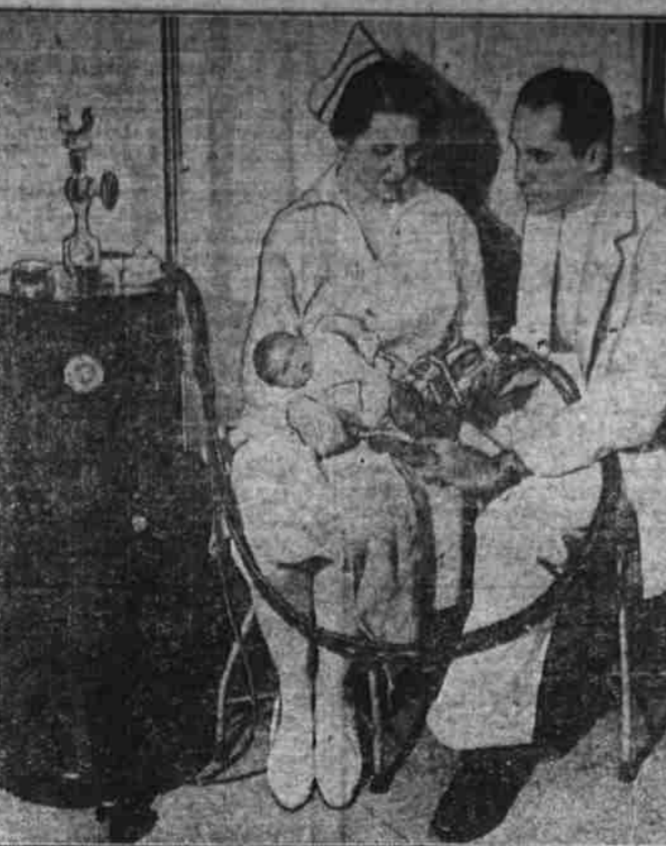

For example, the following circumstances described in a Glasgow dispatch to the London Evening Standard:

"Two well known ex-footballers were arrested today on a charge of alleged bribery.

"The men, Archibald Kyle, laborer, of Rockcliffe street, Glasgow, and Adam Miller, miner, of High Avon street, Lariball, appeared before the stipendiary magistrate.

"They were charged with having, between Boxing Day and yesterday, in May street and Bothwell road, Hamilton, and in Hope street Glasgow, corruptly offered a gift of 100 pounds to the captain of Hamilton Academical Football club, if he agreed that his club be defeated in

This new ultra violet ray device being demonstrated by Margaret Cuneo, nurse, and Dr. George A. Holland of the Beth Israel hospital at Newark, N. J., marks newborn babies for identification. Initials made by the rays are visible for 10 days.

The First League game with Leith Athletic, which is to be played in Hamilton Saturday.

"They were remanded in custody for 48 hours pending further inquiry. Kyle played for Rangers, Blackburn Lovira, Clyde, St. Mirren and Hamilton Academicals. He represented Scotland on two occasions against England. Miller played for nine seasons with Hamilton Academicals."

The St. Louis Browns have scheduled only four games with league clubs for spring training.

Two Who Fled Belton Jail Not Captured

BELTON, Texas, Jan. 22 (AP)—Two men, among six prisoners who sawed through cell bars and escaped early yesterday from the county jail here, were still at liberty today. Four were captured yesterday.

The two men still not apprehended were Clyde Lamar, under indictment for burglary, and George Harris, held on a swindling charge.

Those captured yesterday were Fred Mullins, serving a sentence for burglary; Lester Riddle, under indictment for burglary and theft; Richard Thom, alias James Hix, and John Jackson, of Temple.

Hix attempted to escape again last night but was halted by shots from Sheriff John Bingham's gun. He and six other prisoners had sawed out of their cells and crawled through the hole made in the

Piles Go Quick

Without Salves or Ointment
Thousands of Pile sufferers have learned that quick and permanent relief can only be accomplished with an internal medicine. Neither salves or ointment remove the cause.

Bad circulation of the blood in the lower bowel causes piles. The veins are flabby, the bowel walls weak—the parts almost dead. To cure Piles an internal medicine must be used to stimulate the circulation and strengthen the affected parts.

Dr. J. S. Leonhardt was the first to discover a real internal Pile remedy. He called his prescription HEM-ROID, and prescribed it for 1000 patients with the marvelous record of success in 980 cases, and then decided every Pile sufferer should be able to get HEM-ROID from their own druggist with a rigid money-back guarantee.

Dr. Leonhardt's prescription has a wonderful record of success right in this city and Collins Bros. invites every Pile sufferer to try HEM-ROID and guarantees to refund the purchase price if it does not end all Pile misery.—adv.

Bovines Win Second From Lubbock After Stubborn Battle

Westerners Stage Brilliant Fight In Effort To Stop March of Veterans In Fourth Hardwood Contest of the Year

Hutton and Hopper Roll Up Talley To Win 30 to 23

(Special To The Herald)
LUBBOCK, Jan. 21.—Once more the Big Spring high school Steers were high and mighty and for the fourth time this season the Lubbock high school Westerners fell before their onslaught, 33 to 23.

It was only after a trying battle, however, calling for all the Steers' knowledge and ability, that Bill Stevens' crew of six footers was able to win the second game of the series here tonight, sweeping the series.

Again did Tommy Hutto, lanky forward, rise to heights to take scoring honors, dropping in five from scrimmage and a pair from the foul line. David Hopper, Giant running mate of Hutto, tossed four into the basket, but was nosed out of second place in the scoring by Captain Knight of Lubbock, who was good for five field goals.

As a result of their victories yesterday Allen Hall and Arthur Thurnblad, the northern sectional champion, have a record of two triumphs and no defeats. Otto Reisel of Philadelphia, idle yesterday, has won one and lost none.

Johnny Layton of Sedalia, Mo., defending champion, who has been resting since his setback Monday night at the hands of Frank S. Scoville of Buffalo, eastern titleholder, will get back into action tonight against the crippled Charles E. Jordan of Los Angeles, western cue king. Jordan suffered from a lame shoulder for a few days and was granted an extension of time.

Reisel was scheduled to engage Dave Jacobs of St. Louis, southern champion, Hall was offered a chance at a firm hold on the lead by turning back Scoville.

Hall started slowly against Jordan last night. The coast star, making his first tournament start, was below the standard he flashed last year. Hall rallied after the 25th inning when he inserted runs of 5 and 4 and from then on never was in danger.

Thurnblad scored at the expense of Jacobs, 30 to 42 in 54 innings. Tiff Denton of Kansas City defeated Scoville by 50 to 41 in 60 innings.

Hunter announced his decision to turn pro yesterday. He said he desired to follow the path of his friend and doubles partner. Hunter will join in the exhibition being arranged by Jac Curley for Tilden's professional debut in Madison Square Garden, Feb. 18, but will not participate in the tour Tilden and Karel Kozeluh will make later. His business as a newspaper publisher keeps him close to home and his exhibitions

will be limited to week-end appearances in the east.

Yankees Obtain Twirler From New Jersey Skeets

NEW YORK, Jan. 22 (AP)—With the resumption of trading between the majors and the International League, the New York Yankees sent one pitcher to Jersey City and received another from there. Bob Walsh, son of the famous Ed Walsh, was sent to the Skeeters on option in order to give him more seasoning. John Allen, speedball artist, was brought from Jersey City yesterday. The Yankees also signed Hayden Pouts, semi-pro catcher from Ashland, Ohio, who was recommended by Pitcher Ed Wells.

Jack "Kid" Berg, world's junior welterweight champion, will defend his crown against Goldie Hess, freckle-faced chin pounder from California, in one attraction while in the other, Bat Battalino, ruler of the featherweights, meets Eddie Shea, Chicago Italian, in an overweight match with no title involved. Both fights are ten round affairs.

Francis Hunter Follows Tilden, Goes Pro Route

NEW YORK, Jan. 22 (AP)—The influence of Bill Tilden has led Francis T. Hunter, New Rochelle, N. Y., to join the ranks of professional tennis players.

Hunter announced his decision to turn pro yesterday. He said he desired to follow the path of his friend and doubles partner. Hunter will join in the exhibition being arranged by Jac Curley for Tilden's professional debut in Madison Square Garden, Feb. 18, but will not participate in the tour Tilden and Karel Kozeluh will make later. Sox May Trade Willie Kamm To Tribe

CHICAGO, Jan. 22 (AP)—Reports that the White Sox would trade third baseman Willie Kamm to the Cleveland Indians for first baseman Lew Fonseca, American League batting champion in 1929, grew today.

Release by the White Sox of "Bud" Clancy, regular first baseman, to Jersey City of the International League stirred up the report. The White Sox are left with no regular at the bag except possibly Johnny Watson, who alternated between first and the outfield last year.

Kamm was purchased by the White Sox from San Francisco of the Pacific Coast League in 1923 for cash and players reported to amount to \$100,000 or more. Last season he was benched, some of the time for reasons never explained. It was understood at the close of the season that he was on the market.

Two Deadlocked In Billiard Tourney

CHICAGO, Jan. 22 (AP)—Two Chicago players were deadlocked for first place today in the world's championship three-cushion billiard tournament.

As a result of their victories yesterday Allen Hall and Arthur Thurnblad, the northern sectional champion, have a record of two triumphs and no defeats. Otto Reisel of Philadelphia, idle yesterday, has won one and lost none.

Johnny Layton of Sedalia, Mo., defending champion, who has been resting since his setback Monday night at the hands of Frank S. Scoville of Buffalo, eastern titleholder, will get back into action tonight against the crippled Charles E. Jordan of Los Angeles, western cue king. Jordan suffered from a lame shoulder for a few days and was granted an extension of time.

Reisel was scheduled to engage Dave Jacobs of St. Louis, southern champion, Hall was offered a chance at a firm hold on the lead by turning back Scoville.

Hall started slowly against Jordan last night. The coast star, making his first tournament start, was below the standard he flashed last year. Hall rallied after the 25th inning when he inserted runs of 5 and 4 and from then on never was in danger.

Thurnblad scored at the expense of Jacobs, 30 to 42 in 54 innings. Tiff Denton of Kansas City defeated Scoville by 50 to 41 in 60 innings.

Hunter announced his decision to turn pro yesterday. He said he desired to follow the path of his friend and doubles partner. Hunter will join in the exhibition being arranged by Jac Curley for Tilden's professional debut in Madison Square Garden, Feb. 18, but will not participate in the tour Tilden and Karel Kozeluh will make later. His business as a newspaper publisher keeps him close to home and his exhibitions

will be limited to week-end appearances in the east.

Yankees Obtain Twirler From New Jersey Skeets

NEW YORK, Jan. 22 (AP)—With the resumption of trading between the majors and the International League, the New York Yankees sent one pitcher to Jersey City and received another from there. Bob Walsh, son of the famous Ed Walsh, was sent to the Skeeters on option in order to give him more seasoning. John Allen, speedball artist, was brought from Jersey City yesterday. The Yankees also signed Hayden Pouts, semi-pro catcher from Ashland, Ohio, who was recommended by Pitcher Ed Wells.

Jack "Kid" Berg, world's junior welterweight champion, will defend his crown against Goldie Hess, freckle-faced chin pounder from California, in one attraction while in the other, Bat Battalino, ruler of the featherweights, meets Eddie Shea, Chicago Italian, in an overweight match with no title involved. Both fights are ten round affairs.

Francis Hunter Follows Tilden, Goes Pro Route

NEW YORK, Jan. 22 (AP)—The influence of Bill Tilden has led Francis T. Hunter, New Rochelle, N. Y., to join the ranks of professional tennis players.

Berg, Battalino To Meet Hess, Eddie Shea

CHICAGO, Jan. 22 (AP)—A near capacity crowd of 18,000 spectators is expected to pay \$55,000 to watch a pair of boxing champions in action against dangerous foes at the Chicago Stadium tomorrow night.

Jack "Kid" Berg, world's junior welterweight champion, will defend his crown against Goldie Hess, freckle-faced chin pounder from California, in one attraction while in the other, Bat Battalino, ruler of the featherweights, meets Eddie Shea, Chicago Italian, in an overweight match with no title involved. "Sad Sam" Burton Moulded Good Quintet from Green Cage Aspirants

CANYON, Jan. 22.—Coach Sam Burton, who has coached the West Texas State Teachers College cage team for the past nine years, and who has probably set a national record over that period, winning 100 out of 191 games played, has probably outdone himself this year.

Without a single regular from last year's team and with a scant representation from last year's reserves, he has developed a team that at this stage of the season appears to be the strongest he has ever developed.

With the close of football this past season, Coach Burton called all basketball men out, and with the inexperienced men reporting the outlook was none too bright, and the Buff mentor was none too cheerful, the result of which caused him to be given the monicker of "Sad Sam," which seems to have stuck with most sports writers of this section.

Opening the season, "Sad Sam" and his outfit split a two game series with the Baylor Bears, they handed two drubbings to Panhandle A. & M., and Texas Mines respectively, and then journeyed to Lubbock and knocked the Matadors over for two encounters, and

they having played eight games.

A return game, in all probability, will be played here Saturday. The Cosden aggregation goes to Lomax tomorrow night for a fray with the Hornets.

The score: COSDEN— FG FT PF TP Steelman, f 6 0 0 12 Potter, f 0 0 0 0 West, f 6 1 0 13 Miller, f 0 0 0 0 Mahoney, c 4 1 2 9 Davenport, c 0 0 0 0 Wilson, g 2 0 2 4 Martin, g 0 0 0 0 Baker, g 2 1 0 5 Totals 20 3 4 43

FLUVANNA— FG FT PF TP Hill, f 2 0 0 4 Bley, f 2 1 0 5 Bishop, f 0 0 0 0 Payne, c 2 0 1 4 Wedgeworth, g 2 0 0 4 McCarter, g 0 0 0 0 Foster, g 0 0 0 0 Farquhart, g 0 0 2 12 Totals 14 1 3 29

JIMMY FOXX SCORES HIS BABY EAGLE

CANYON COACH

FORT MYERS, Fla., Jan. 22 (AP)—The golf clubs of Jimmy Foxx appear to pack the same punch often delivered by the home run bat of the Philadelphia Athletics slugger.

He just has scored the first eagle ever recorded at the 5th hole of the Fort Myers golf course. Far is four for the 371-yard hole.

After a 300-yard drive, Jimmy mangle-niblicked into the cup. His partner was Lute Harris, Chagrin Falls, Ohio, golfer and former baseball player.

HASKELL—Preliminary survey work started on highway leading west to Haskell county.

THE NEVER BUBBLES

The Lubbock Morning News crisscrossed this morning, via Prexy Anderson's enlightening column, that "Rammung Ruf" King, the rambler, may or may not be at the helm of Cisco's sports department next year. King, it will be recalled, was assistant mentor at Tyler last year. If, it probably will be recalled in some quarters, won the state championship. When Big Spring was without a coach, however, Bill Stevens' resignation, and was trying to obtain one, the name of Rammung Rufus was brought up. There were some who wanted to not write but telegraph the behemoth and ascertain his ambitions to come West. However, nothing was done about it, and so far as the department knows he was never interrogated along the line of coaching the Big Spring Steers into something of championship caliber. In fact, one fan we talked with regarding King, was doubtful. He didn't know whether King had had enough experience or not. A matter of conjecture.

We also learn that another Big Spring bubble has exploded. When the 1930 grid season was brought to a close, it looked very much as if Mike Hicks, the Roscoe rocket, would be in a Big Spring uniform this year. However, while we were thinking of the many miles that Hicks would travel with the hide under his arm next season, Sweetwater got the lad, and things are looking up in the Nolan county hamlet. He is by far the cream of the Class B loop, and probably will make many a heart ache when he steps into the Class A assignment. We understand he went to Sweetwater for additional educational facilities.

We give notice, publicly and otherwise, that from here on out will be found smoking a pipe. Although we fully realize that it is much easier to borrow cigarettes than it is a bowl full of tobacco, we feel that the additional amount we will get with a pipe the size of ours will fully make up for the shortage. Needless to mention, we'll carry no can. No not one.

The Steers, after chalking up a brace of victories over the Lubbock Westerners, are back in the old home town for a day's rest. Tomorrow night and Saturday night, the battling Bovines will meet their friends, the Snyder Tigers. This department would like to see the Steers take a trip of ten days. Bill Stevens has one of the best quintets in Texas high school circles, but the only way to make anyone outside of this immediate vicinity believe it is to take the boys places. Stevens, with his cast, could start here and go east, sitting Abilene, Cisco, Eastland, Ranger, Mineral Wells, a Fort Worth club, Cleburne, Arlington, Denton, returning to catch Breckinridge and meet Abilene in a return. A tour like that would be worth more to Stevens and more to his team than winning ten tournaments. We earnestly believe that the Steers can defeat each of the schools mentioned above, with the possible exception of Denton. The veterans are good, believe it or ignore it. We don't have any idea the above swing through lower Texas can be arranged. It is merely a good suggestion. With the emphasis upon the "good."

Chapman has gone. No more will he be seen around the Lobo gridiron. It was announced yesterday that Chapman had refused an offer made by the Cisco board to remain another year, his tenth, incidentally. Chapman has plans, and we think he has already closed with a school. A few weeks ago all that remained between him and his next coaching job was a decision to be reached by the local school board. We understand he contemplated closing an agreement with a school the day after it was announced the local board had turned down his proposition. He may have; and again we may not have.

The Steer cagers are characterized by the Lubbock Sports writer, as one of the classic units in Texas. Bill Keating, the Lubbock mentor, whose Westerners have lost four straight to the Longhorns, probably agree with him along that line.

The Steers, incidentally, should get a royal reception Friday and Saturday nights. They have won their ninth straight contest, and if they should sweep through the Snyder series, will have gleaned a ven in a file. Besides, Stevens before he left for Lubbock, declared if the gate receipts warranted it, he would take the Steers to San Antonio for a tournament. San Antonio is a small town of 1,200, near San Antonio. If enough is realized off Friday and Saturday night games the Bovines will attend the tourney. There are plenty of seats at the gym, and an abundance of standing room.

Who wouldn't like to hear Will Rogers? And, who would not take advantage of a way to help some of our own county's families who at this particular time are needy because of unemployment of the heads of those families—a condition that exists in every county.

Many movements are made to form charity funds to be spent in cities. This is an opportunity to help some of the folks living outside of town. Half of the money paid for tickets by Howard county people will be disbursed in Howard County rural districts by a committee composed of rural people. The other half will help the needy of Big Spring.

Will suggested this series of benefit appearances himself. He will speak in Abilene to make it possible for people of twelve West Texas counties to help their needy friends and, at the same time, hear Will Rogers—something everyone everywhere wants to do.

the tariff bill, was revived in the senate today—republicans proposing both duties and import limitations as relief measures.

Senator Shortridge, republican, California, offered a resolution to place a duty of \$1 a barrel on crude and refined petroleum and 50 per cent ad valorem on refined products of petroleum, including gasoline, based on the American selling price rather than foreign valuation.

Senator Capper, republican, of Kansas, introduced a bill to limit imports of crude petroleum for the next three years to 16,000,000 barrels annually and to embargo imports of refined products, including all by-products and fuel oil.

Both proposals were referred to the commerce committee. Their sponsors contend the senate has the right to initiate the legislation under the commerce clause of the constitution.

The house, however, is jealous of its prerogative to initiate all revenue raising legislation and undoubtedly would contest arguments to the contrary, as it has in the past.

Six attempts to gain a duty on oil and gasoline failed when the Hawley Smoot tariff bill was pending in the senate. Senators Thomas, democrat, and Pine, republican, Oklahoma, sponsored the moves then, but in every instance the senate voted them down.

Capper said he introduced his bill as a result of conclusions reached at the recent meeting in Washington of the independent oil operators.

Proration

WASHINGTON, Jan. 22 (AP)—The 72nd judicial district would have one assistant district attorney, according to the provisions of a bill by Senator Pink L. Parrish of Lubbock.

Carl Estes, of Tyler, chairman of the East Texas committee looking after affairs of the new field, said his committee would meet in Longview next week. He promises cooperation with the railroad commission and the central committee.

Penn said two wells already had been completed in the new territory, one with a potential of from 15,000 to 20,000 barrels and the other 1,000 barrels. He said another well was due to be put on test today and that 12 or 20 wells were being drilled.

Occupation Tax
Farmer's bill also proposed an occupation tax on turpentine of 1 cent per 400 pounds; gas, 7c per 1,000 cubic feet; salt, eight cents per ton; coal, ten cents per ton; marble, 20 cents per ton; cement, 50 cents per 100 barrels.

The bill would require companies to make a report of their production each month.

Farmer and Adkins of Gilmer introduced a bill to require males only to pay poll taxes with women voters exercising the right of suffrage free.

A bill to require all motor vehicles to come to a full stop before crossing railroad grades was offered by Representative Rounds of Hubbard.

Establishment of a Texas centennial committee to make plans for the celebration of the 100th anniversary of the independence of Texas was proposed by a bill by Representative McGregor of Austin.

A deficiency appropriation of \$547,031.19 was recommended in two bills introduced by Senator Beck of De Kalb, chairman of the senate finance committee.

One bill would cover deficiencies of Texas teachers' colleges' summer schools.

An appropriation of \$2,500 was asked for the San Marcos Teachers College for a gymnasium building.

The state board of education would not have the power to revoke certificates issued to teachers prior to September, 1931, under a bill by Senator Neal of Carthage.

Another bill applying to Texas' school system, carried a provision that in independent school districts of fewer than 500 population the supervision would be the same as in common school districts. This bill was also introduced by Miss Neal.

Eleven bills, by Senator Walter C. Woodward designed to speed up civil court procedure made up the bulk of senate bills introduced.

By the provision of a bill by Senator Holbrook of Galveston, the commissioner of the general land office would give to the city of Texas City the deed to land known as the Texas City or the Government Dike. The state would re-

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."

Mrs. E. A. Solomon, New Bern, N. C. "I am 42 years old. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Collins Bros. Drugs, Cunningham and Phillips and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and if not joyfully satisfied—money back—say.

Wife Of Tulsa Architect Out On \$2,500 Bond

TULSA, Okla., Jan. 22 (CP)—Mrs. Alma Endacott, wife of Asbury Endacott, Tulsa architect, and former city commissioner, was at liberty on \$2,500 bond today after she had been charged with attempted murder for the shooting of Miss Charleis Claudell, University of Tulsa co-ed.

The condition of Miss Claudell who was accused by Mrs. Endacott of stealing the affections of her husband, remained critical. Two bullets entered her body, one penetrating the right lung and the other lodging in her left side.

The shooting occurred yesterday at the edge of the University of Tulsa campus as Miss Claudell was on her way to a class. Parking her automobile near that of Miss Claudell's, Mrs. Endacott walked toward the young woman, who was alighting from her car, drew a pistol and fired twice.

Mrs. Endacott said afterward that Miss Claudell reached for a iron jack handle in her car when she saw Mrs. Endacott approaching.

Police arrested Mrs. Endacott at the scene of the shooting. Miss Claudell was rushed to a hospital where she was unconscious for several hours. She was unable to see visitors.

"I'm sorry I shot her," Mrs. Endacott said when informed the young woman may die. "I hope she lives."

Endacott visited his wife at police headquarters and made two trips to the hospital yesterday to inquire as to Miss Claudell's condition. He refused to discuss the shooting. The Endacotts separated several months ago and he had been living at a hotel. They have three children.

MRS. UHR IN WITNESS BOX

SAN ANTONIO, Jan. 22 (CP)—Details of her married life with Daniel Uhr, for whose murder she is being tried were revealed by Mrs. Clara Uhr today when she took the witness stand.

Mrs. Uhr told of her marriage in 1901, after which she and her husband resided on a farm near San Antonio. She helped him in every way to earn a livelihood, she said even to "helping him grub stumps."

The witness testified that her husband had the "awfullest temper of any human being ever born," and that on one occasion he cursed and threatened her with a shotgun because she was unable to stack stovewood on a wagon.

ROBERT HILL TO EASTLAND

EL PASO, Texas, Jan. 22 (CP)—Robert Hill, one of Cisco's "Santa Claus" bandits, was returned today to that city in custody of W. M. Miller, chief of police, and two other officers. Hill was captured here last week by El Paso officers as he was attempting to cross the international bridge into Juarez. He is under a 99-year sentence for his part in the Cisco robbery. Of his three companions, one died of gunshot wounds, one was later lynched, and one was executed.

tion of many martial sciences the advice to women the change their own minds as the best method of healing marital illnesses might be a step in the right direction but not a long enough step, in itself.

If the good wives' minds were to be changed they'd more or less naturally have to change them themselves. It is history, we take it, that changing their minds is something next to impossible in most cases, if a man attempts to cause the changes.

We've seen a lot of cases where we wonder how in thunder a good little wife endured living with the fellow she happened to be married to. On the other hand, cases wherein a good-hearted fellow was going through torture emanating from his mate are not rare, by any means.

Heard a married woman say the other day she figured a lot of married folks didn't care for each other but kept up a united front to keep the family together. Trouble about this, sometimes, is that the Mrs. does as she pleases and the Mr. does likewise, and the things they please to do frequently would provoke divorce action if they really gave a whoop.

All this hot air we've been sprouting in this column today was jotted down at random just to try to learn whether you'd read such boloney. Don't know whether we'll learn whether you did or not, but the words will help fill the column anyway.

They do say, nowadays, you're a back number if you cling to some old-fashioned principles about marriage, as well as a lot of other things. But, we plead guilty to be-
