Floyd Bale Count Exceeds 44,000

With Floyd county gins running night and day and if good weather prevails the cotton harvest could be 99% over in another week.

According to a gin by gin count of bales weighed across the scales this past Monday, a total of 44,780 bales were counted by Bob Hambright of the Texas Employment Commission in Floydada.

It seems that the north and central parts of the county are making a good turnout, but reports from the hailed out south end of the county are of a very poor cotton harvest.

Around 40,000 bales were harvested last year and the Lubbock forecast for Floyd county this year is around 75,000 bales from 77,000 acres.

Dear Citizens of Floydada,

This letter printed in The Hesperian is the only way I can hope to contact the wonderful people who offered and gave blood on Sunday night, November 23, 1969, the night of my accident.

It is a good feeling to know I live in a country where the milk of human kindness is the richest. You came through for me when the chips were down.

Thank you each and every one for your help and concern.

Sincerely,
Leonard (Buck) Johnson

Moderate Increase In The Placement Of Farm Workers

A moderate increase in the placement of farm workers occurred in October amid the seasonal decline in most other activities reported by local offices of the Texas Employment Commission.

"The increase in farm placements over the September total was caused by a pickup in vegetable cultivation activity, and by the early citrus fruit harvesting in the Lower Rio Grande Valley," said R. L. Coffman, TEC Administrator. Commission offices filled almost 3,000 more farm job openings, a monthly increase that might have been even larger, except for early rains that delayed cotton harvesting activity in West Texas.

Most other activity in TEC offices was down slightly from September, a situation regarded as normal and seasonal. A shorter work month also played a role in this decline. Non-farm job openings in October, at 50,039, were down 6,727 from September. Non-farm job placements in October were at 38,219, down 3,604 from the preceding month.

SUPPORT THE "TOYS FOR TOTS" CAMPAIGN

MERCHANT OF THE WEEK... your Maytag and Philco dealer and appliance repairman, Everett Collier. His business features the latest in Maytag and Philco appliances, large or small. He services what he sells and also repairs other small appliances. Collier has had the Maytag dealership in Floydada since the first automatic washer went on display in 1946. His establishment then was on the west side of the court house where he said every place stayed open late on Saturday night, their busiest day. Floydada has changed and progressed a lot since those days, Collier stated. He lived in Lockney when he and his wife were married. Collier was one of the first agents when the Old Age Assistance was born in 1936. He worked eight years at that job in Littlefield, Plainview and Floydada. He also was employed three years for Harvest Queen Mills and for two years at the bank in Floydada as teller. He and Mrs Collier built their present home in Floydada in 1940. They are parents of three daughters and 12 grandchildren. (Staff Photo)

I REMEMBER, I REMEMBER.....

The First Jail House

The first Floyd County jail house was built 10 years before my time here, but I do remember it, and two things in connection with it still are etched on my mind. One of these is that J. L. Van Hook, one-time county treasurer and his family once lived in the jail, the other that I stood and watched through the jail bars a family friend, who had lost his mind, go through the motions of "hanging" the president as he babbled some of the poison currently emanating from the pen of Leon Trotsky in the periodical National Ripsaw. The "president" was a stick about 10 inches long, a stout cord the hangman's rope.

Watched through the Bars

My poor friend was labeled a lunatic by a jury and he was being confined in the jail until he could be transported to an "insane asylum." It was a disgrace in those days to have an unbalanced mind.

Continuing for the moment the digression from telling about the first jail house, I will add that my friend died (and I think it was before they ever found a place for him in the state institution). Dr. R. A. Childers told me he was sure my friend's troubled mind arose from physical irritation of an old sore, over-work, lack of attention to the injury, and sub-standard diet. People had no mercy on themselves in those days, trying to provide for their families and "get ahead." Having a tough time of it didn't mean anything. Nobody hereabout could remember when a person didn't have a "tough time."

Court's First Meeting

After their election May 28, 1890, the officers of the newly launched county began to make it's history. They had been declared elected by the Commissioners' Court of Crosby County, which canvassed the election results, set the new officials' bonds and "swore them in."

The Commissioners Court of Floyd County evidently considered that if they collected their county's records from Clarendon, Emma and Jacksboro, they had better have a safe place to store them. Likewise, if they were to enforce the laws they had better have a place to confine the violators.

So one of their first orders appearing on the minutes was one purchasing a "No. 4 Safe and a pair of jail cells" from Diebold Safe & Lock Co., Canton, O. The caption on the record page indicates this was done at Floyd City, Texas, June 12, 1890.

The Commissioners Court was composed of Arthur B. Duncan, County Judge, C. F. Ramsey, Commissioner of Precinct No. 1, T.B. Michael, Commissioner of Precinct No. 2, W. R. Vandiver, Commissioner of Precinct No. 3, and B. P. Merrell Commissioner of Precinct No. 4. Duncan, Ramsey and Michael were comparatively young fellows, B.P. Merrill was a Confederate veteran, W. R. Vandiver I do not know about.

The safe and jail cells were bought from T. L. Lyons, Houston, Texas, general agent of Diebold Safe, and though the court had no place to put the safe nor the jail cells they had confidence the could work something and they did. But it was not easy.

I'll tell you about it some time.

Boys Ranch Suit Fund Under Way

To make Christmas a memorable event for the nearly 350 boys at Cal Farley's Boys Ranch, the Boys Ranch Christmas Suit Fund is underway.

For many boys of the Ranch, a new suit for Christmas will be the first they have ever owned, and a long-cherished gift. The boys are allowed to select their own suits from Amarillo merchants who sell them at a special $25.00 rate. The new suits will replace worn ones that were outgrown months ago.

Ranch president Virgil Patterson stated, "These suits mean so much to the boys. They are more than just ordinary gifts because it is a demonstration of the faith and interest that so many people have in them."

Contributions to the Boys Rancy Christmas Suit Fund may be mailed to the Boys Rancy office, P. O. Box 1890, Amarillo, Texas, 79105, or taken to the office at 600 West 11th Street, Amarillo.

GSPA MEMBERSHIP CAMPAIGN IS LAUNCHED

Grain Sorghum Producers Association has launched its 1970 membership campaign. Statements for dues have been mailed to farmers throughout this grain sorghum producing area.

A. W. Anthony, Jr., Friona farmer and GSPA president, pointed out that, "GSPA dues are not to be mistaken with the collection of the five cents per ton assessments, at the elevators for the research and promotion work to be carried on by the Texas Grain Sorghum Producers Board."

All the Lesiglative Work of GSPA has to be carried on with dues paid to the association. The dues for 1970 have been set at $10 per member in the area of Texas that farmers are paying the five cents per ton to Texas Grain Sorghum Producers Board.

In areas outside the 29 county referendum area, dues will continue to be based upon two pounds per 1,000 pounds of production. The $10 membership dues plus the assessment will average the same, for a million pound producer, as the regular two pounds per 1,000 pounds production.

"We feel the grain sorghum farmers must be represented when Congress, farm organizations, U.S. Department of Agriculture, and others are writing laws that affect our future. This is our purpose," Anthony added. Of immediate importance are issues such as: (1) extension of feed grain program (GSPA is working for an extension with income improvements), (2) limitation of payments (GSPA is opposing limitations at any level), (3) and any legislation or government policies effecting our producers in labor problems, cost-price squeeze, export restrictions, etc.

Statements have been mailed along with the November issue of GSPA's newsletter. A return envelope is enclosed for use in mailing dues to GSPA headquarters at 1212 14th Street, Lubbock, Texas.

MRS. HUGH O. PEEK JR.

Double Ring Vows Exchanged By Miss Stewart , Hugh Peek

Double ring wedding vows were exchanged Saturday, November 29, between Miss Jo Anne Stewart and Hugh O. Peek Jr. The ceremony was performed at 6:30 p.m. in the First Baptist Church by Rev. Floyd C. Bradley.

The bride is the daughter of Mr. and Mrs. L. B. Stewart Jr., and the bridegroom is the son of Mr. and Mrs. Hugh O. Peek Sr. Both families reside in Floydada.

The wedding scene was formed by a tall palm of commodore foliage in a brass stand high in the pulpit flanked by brass stands holding arrangepom pon mums. A brass seven branch candelabra holding crystal hurricane lights and a profile kneeling bench completed the scene. Bridal aisles were marked with moss green satin ribbon bows and commodore foliage.

Miss Marijon Wylie was organist and accompanied Miss Carol Burch of Houston, who was soloist.

Given in marriage by her father, the bride wore a formal empire style gown of white crepe fashioned with a bodice of Chantilly lace. A band of crepe accented the neckline and the Chantilly lace sleeves which came to petal points at the hands, were also cuffed with crepe.

The skirt was highlighted by an inset pleat of Chantilly lace and the train of matching lace, attached at the shoulders, swept chapel length. Her veil of silk illusion fell waist length from a crown of crepe petals encrusted with seed pearls.

The bride carried a satin covered prayer book with streamers of off-white satin ribbon and centered with a white cattalaya orchid, surrounded with white starburst pom pon mums in garlands.

Feminine attendants were Mrs. Ronny Williamson of Canyon, sister of the bride, matron of honor and Miss Susie Seaney of Claude, bridesmaid. Both were attired in formal length empire style gowns of antique gold color. They wore matching color headpieces with veils of silk illusion and carried cascade bouquets of bronze and gold pom pons trimmed in miss green maline and satin.

Charley Berry said one of the finest things about the big game at Plainview last week between Floydada and Iowa Park, was the prayer by the Presbyterian minister and he wished that Mrs. O'Hair could have been there to hear it. Berry said we should stop useing the phrase "Generation Gap." The way the Floydada fans back their home team there can't be too much of a gap.

Bertrands Are Improving From Wreck Injuries

Three Floyd County victims of a one car accident Wednesday afternoon of last week continue to improve in the Crosbyton Hospital Glen Bertrand, driver of the vehicle, sustained a neck injury; his wife, Debbie, lost four teeth and sustained a knee injury and deep lacerations about the face; and Beckie Bertrand, sister of Glen, sustained a deep scalp laceration. All suffered numerous bruises and abrasions.

Another passenger, Jeff Bertrand, brother of Glen, was thrown from the car but luckily was uninjured.

The four were enroute to Abilene for the Thanksgiving holidays and the parents, Mr. and Mrs. Neil Bertrand, were to follow later.

The mishap occurred when Bertrand lost control of his car on the rainslick highway about a mile east of Dickens, according to family members. The vehicle hit the end of a culvert when it went off the road, throwing the victims against the dash. Jeff was said to be lying in the back seat, Beckie, seated in the back and Glen and wife in the front.

The Hubert Davis' were in Paris, Tex., over the weekend and their son, Don, an employe at Campbells, was one of the ten members in the assembly line putting out that many cans. All chicken noodle. The group in the assembly line received letters of appreciation for their fete. The fastest and the most in an eight hour period for company employes.

THE nation's newspapers, in editorials last week and in Sunday editions, generally condemned the alleged Song My massacre but some reminded that Americans have killed before. "Demands for an unsparing investigation of the events at Song My are reaffirmation that humanitarian principles cannot be suspended, even in times of armed conflicts". The New York Times printed Sunday "It would be tragic for the nation's future if the reaction were otherwise. "But it is an act of self deception to pretend under the terrible impact of slain women and children that wanton violence is new, to this nation or any other... in the end the only safeguard against the excesses of war is the elimination of the causes of war."

THE Methodists had a cute poem "Monkey's Viewpoint" in their Messenger last week so thought I would pass it along for others to read.

MONKEY'S VIEWPOINT

Three monkeys sat in a coconut tree
Discussing things as they're said to be.
Said one to the others, "Now, listen, you two,
There's a certain rumor that can't be true;
That man descended from our noble race;
The very idea is a disgrace!
"No monkey ever deserted his wife,
Starved her babies and ruined her life.
And you've never known a mother monk
To leave her babies with others to bunk,
Or pass them on from one to another,
Till they scarcely know who is their mother.
"And another thing you'll never see--
A monk build a fence 'round a coconut tree
And let the coconuts go to waste,
Forbidding all other monks a taste;
Why if I'd put a fence around the tree
Starvation would force you to steal from me.
"Here's another thing a monk won't do--
Go out at night and get on a stew
Or use a gun or club or knife
To take some other monkey's life.
Yes, man descended, the ornery cuss,
But, brother, he didn't descend from us!"

Monday, Dec. 1

Hello, Wendell:

I was both surprised and pleased to know that you thought of me at the same time you thought of the Whirlwinds. I did not get your paper until Saturday after the game had been played and could make no response before game time.

No, I have not forgotten the 'Winds and the happy years I spent following them. My younger son, Bert, now goes to Plainview High and I now go to some of the games with him. I did sneak off and see five of the Floydada games this year and enjoyed every one, though I did not go to the sidelines and make the usual noise for fear of drawing a penalty against the team.

To me the Iowa Park game appeared to be the best game I saw the 'Winds play... even though it was a loss. The hitting was hard and the effort and spirit was great. I was proud of the team and of the coaches, and did not leave until after the final whistle. The only thing that made me a wee bit ashamed was the number of people leaving the west stands during the fourth quarter. I sincerely hope they were from somewhere other than Floydada. I do think such fine coaches and players deserve 48 minutes of support for such a great performance.

I still haven't broken myself from the habit of checking the classification of the players on the roster and was very pleased to see the number of returning lettermen the Whirlwinds will have in '70. They will be getting stronger with each passing season as long as you have a good solid program going in junior high on through the high school teams.

Please pardon the longhand as I have an arm in a cast and do even worse with a typewriter than I used to.

Yours truly,
Kenneth Rimmer

Mr. Tooley,

Lately all the news is about the murders the American G.I.'s are supposed to be committing.

The news people throughout the world are ready and willing to print the dirt about OUT boys in service. They never tell about the hell these boys are going through every day.

Those poor, innocent people are the same poor, innocent people who plant the mines and kill our American boys from ambush.

Our boys either come back in a long gray box or on crutches, if he's lucky enough to use crutches.

Ask the parents of the 18 or 20 year old boy that came back in the long gray box about the innocent people.

Ask the young widow that has only an American flag to remind her how and where her husband died.

Visit any army hospital, look around at the very young men, see the amputees, the blind, and those who are mentally reduced to a child again.

You will come out wishing you had a little of their faith and hope.

After you have visited a hospital tell us about the innocent people who planted the mines that maimed or killed American boys, not some other country's young men, but ours.

There are American service men all over the world, be proud of them, they won't let you down, let's don't ever let them down, after all we helped send them there.

We are one of the lucky families, Thanksgiving has never had a more wonderful meaning than this year.

Thank you,
Sincerely,
Mrs. Robert L. Copelin

Dear Editor:

Late today the House and Senate approved the Agriculture appropriation bill. The limitation on farm payments was eliminated from the legislation. This is a matter of great interest to the farming community.

I would have sent the attached message by wire except that I understand you go to press today and it could not reach you prior to your deadling. Nevertheless, I thought I would send it along by airmail

Best wishes to all.

Sincerely,
/s/ George Mahon

November 19, 1969

The battle over farm payment limitations for the 1970 crop is over for this year. The House and Senate approved the final conference agreement on the Agriculture appropriation bill today without payment limitations.

Many House Members who favor payment limitations agreed to support the final version of the Appropriation bill and postpone the fight to enact payment limitations until the bill providing for the new farm program is presented to the House next year by the Committee on Agriculture.

I am highly pleased over today's victory, but wish to warn of the serious difficulties which continue to lie ahead with respect to the enactment next year of a new farm program.

Congressman George Mahon

Choices In Cotton Referendum To Be Made

Basic program choices will be made by cotton producers voting in the December 1-5 mail referendum on upland cotton marketing quotas, said James E. Winter, Manager of the Crosby County Agricultural Stabilization and Conservation Service, in a news release dated Nov. 24.

A "yes" vote by two-thirds or more of the producers voting in the national referendum means:

Marketing quotas will be in effect for the 1970 crop. Producers who plant within their farm allotment will be eligible for a price-support loan of 20.25 cents a pound (for Middling 1-inch cotton at average location) on cotton they produce. They also will be eligible for a price-support payment within the domestic allotment which is 65 percent of the total farm allotment.

Farms with allotments of 10 acres or less or farms with projected production (allotment times projected yield) of 3,600 pounds or less may receive a payment of 11.95 cents a pound on the projected yield of 35 percent of the farm allotment. They also will receive the price-support payment on the domestic allotment and will be eligible for pri loans.

Growers who cho participate in the port program may share of the export reage reserve and export only, witho ment assistance or quota penalties. Ap export acreage must or before Decembe at the County A

A "no" vote by one-third of the pro ing in the national on upland cotton means:

No marketing q penalties will apply upland cotton crop support payments Price-support loan cent of parity will to producers who d their allotment as determining eligi price-support loan be no export mar reserve.

Winter said cott will receive their age allotment pri ferendum period.

FLOYD PHILOSOPHER

Gets Into Foreign Affairs This Week

Editor's note: The Floyd Philosopher on hi Johnson grass farm gets into foreign affairs this week, with what luck it's hard to say.

Dear editar:

A man said to me the other day, "You've written to The Hesperian about nearly everything else, why don't you give us your views on the Viet Nam war?"

I have thought this over and will say that just as soon as I find something out about the Viet-Nam war, I'll report it.

The trouble with most leaders, regardless of what party they belong to, is that they know too much geography. If it had been left up to me we'd never have had a war in Viet Nam as I didn't know the place existed.

Of course the best place to hold a war is on the moon, on account of when you got through you couldn't tell there'd been one as the place is in pretty bad shape to start with.

Now what this man wanted me to say is how we can end the thing in Viet Nam, but he has come to the wrong source. I don't even know how it got started.

Some authorities say we can't win and can't afford to lose, although surely some income tax lawyer could find a loop hole in that.

In regard to not winning, other authorities say it would be a colossal blow to our world prestige if we pulled out without some sort of a satisfactory victory or settlement, but I have thought this over and have figured maybe we and the world both could pull through. I mean, we whipped England twice and she recovered face pretty fast. France got whipped in World War II, Japan likewise, Germany too, Spain in the Spanish-American War, even the South in the Civil War, but all of them are still around.

As for me, I'd hate to count the times I've lost in the fight between me and this Johnson grass farm.

You reckon the U.S. will eventually have to find out that a crop failure is not always disastrous?

Anyway, whatever thoughts I've expressed here, I want you to know I don't have too much confidence in them, which I suppose puts me almost in the class with the experts.

Yours faithfully,
J. A.

Rural Electrics
BRING THE 50 YARD LINE TO THE NORTH 40

Rural electrification brought a new way of life to rural Texas and television is a dramatic part of that change. Last year the member-owners of the 100 rural electric systems in the U.S. spent a quarter of a billion ($248,000,000) for television sets.

Projected in the areas served by the electric cooperatives of Texas this figure comes to a handsome $22 million for TV sets alone. By the time you add electric ranges, refrigerators, freezers, etc., the Texas figure swells to $135 million and the national total reaches more than a billion and a half dollars annually. This almost unbelievable market for appliances and equipment means more jobs, more payrolls, more customers and a healthier economy. The Lighthouse Electric Cooperative is Helping Texas and the Nation Grow.

CAPROCK FROM PAGE 1

we're glad you're recovering, and we'll help you any way we can."

I'LL BE THE first to admit that I don't know much about football, I'm certainly no coach. However, I was just a little disappointed to see that the Whirlwind quarterback was not chosen on the all district 3AA team. We have a quarterback who is experienced with almost three years first string duties... he has a 17-3 record the past two years, plus he led the Whirlwinds to bi-district championship.

When we met the quarterback who was chosen (from Olton) our quarterback led his team to victory over the opposing quarterback and statistic-wise led his team over Olton in both passing and rushing.

There's no doubt in my mind that the sophomore quarterback from Olton has a very promising future, he played a good season this year, but I think a comparison of 17-3 vs 7-3 should have been considered.

I WAS AMUSED when Clay Henry introduced his brother as speaker at Rotary yesterday. Clay said, "he's younger than I, but he's been over more miles than I have."

Derrell, Clay's brother, gave us a good review of what's happening in banking... through the steps of offering the customer better convenience, service, trust departments, data processing and bank credit cards.

The answer to inflation, Derrell said, is price fixing and wage fixing, and he doesn't think the American people are ready to accept this. He ended his talk by suggesting that more people show an interest in American economics through better legislation and instead of saying "why don't they"... say, "let us".

"A Christmas Parade" is our recipe booklet for this year. In addition to the excellent recipes, there are hints for holiday decorating and gift suggestions. Come by and get your copy early.

As you prepare your holiday bird, remember the dehydrated celery flakes that are now on the market. They are quick and just right for the dressing.

* * * * *

Fondue pots are the current "in" thing. Pots are placed near an assorted snack tray to prepare your own appetizer, or in the middle of the dining table to cook the main course or dessert.

Try this Snappy Cheese Fondue for snacks or as an appetizer:

1 10-oz. can cream of mushroom soup
10 oz. sharp Cheddar cheese, coarsely grated
1 teaspoon prepared mustard
1/8 teaspoon red pepper sauce

Pour mushroom soup into Fondue pot or an electric frypan and heat at 225 degrees until hot. Add coarsely grated cheese. Reduce heat to 210 degrees. Stir occasionally until cheese melts and forms a smooth, rich dip. Add prepared mustard and red pepper sauce for a zesty flavor. Serve with crisp crackers, breadsticks or cubes of French bread.

P.S. Electric fondue pots are brand new and a great idea for Christmas gifts.

What else is new in housewares?

Schick has a new Nail Dryer on the market which gives almost instantaneous drying. It comes in pretty mod colors especially appealing to teenagers.

Also new from Schick are the electric hair curlers with mist. The moisture with controlled heat makes hair soft rather than brittle and adds body for a long lasting curl.

Either of these would put a sparkle in your favorite girl's eyes.

* * * * *

An electric clothes dryer can save many steps, much time and energy for you during the busy Holiday season and all the rest of the year. Now is the perfect time to get yours. We can expect mostly bad weather for the next several months ahead, but the weather is always just right for drying in your automatic dryer.

Another good reason to buy now is the special 300 Free promotion by the electric utility companies. Your local utility will pay you $15.00 for purchasing a new electric dryer anytime until December 24. With an electric dryer, it costs about 5¢ a load to dry your clothes so $15.00 is like getting 300 loads dried free!

Rotarians To Hear Sgt. Speak On Vietnam

FORT SILL, Okla. – Sgt. 1. C. Carroll V. Dewees, who has spent two out of the last three years in Vietnam, will speak before the Floydada Rotary Club at 12 noon on Wednesday, December 10, concerning his experiences with artillery units in Vietnam

From October 1966 to September 1967, and again from August 1968 to July 1969, Sgt. Dewees lived in a world of mountains and swamps and jungles and night firefights and incoming rockets and outgoing artillery rounds.

Now assigned to Ft. Sill's U. S. Army Training Center, Field Artillery, he talks about that world before audiences in Oklahoma, Arkansas and Texas as an Army national speaker on Vietnam.

Sgt. Dewees was a chief of firing battery with the 2nd Battalion, 35th Artillery in the steamy, hot southern area between Saigon and Tay Ninh during his first tour of duty in Vietnam. During his second tour he was a chief of firing battery with the 3rd Battalion, 82nd Artillery, 196th Infantry Brigade in the mountainous region in the northern part of the country near Chu Lai and Da Nang.

"Despite the war," he says, "Vietnam is a beautiful country. But its people still have a long way to go.

"The South Vietnamese are making progress. You do see signs of them pulling out of the mess in which they are embroiled. Their troops are better now and are taking over more of the fighting, and their people show signs of wanting a better way of life."

Most of his time in Vietnam was spent in remote parts of the country. "I wouldn't get near a village or a town for months at a time," he says.

His artillery batteries fired 105mm and 155mm howitzers in support of infantry operations. "Sometimes we'd average 4,500 rounds in a 24-hour period for three [illegible] at a time," he [illegible]

Senator Hightower Wants To Abolish Common Law Marriages

Senator Jack Hightower announced Saturday that he will introduce legislation at the next session of the Texas Legislature to abolish common law marriages in this state. Senator Hightower said: "Although Texas has recognized common law marriages for 130 years the reasons for such recognition have long ceased to exist. In the early days of the frontier preachers and judges were hard to find, therefore common law marriages were a fact of life."

"A birth certificate or some type of satisfactory evidence of the lawful age of the applicants should be required before the issuance of a license," the Senator stated.

"Recent publicity concerning the Family Code passed by the last legislature has resulted in some misunderstanding concerning the marriage laws. Since 1840 the minimum age for marriage has been 14 for a girl and 16 for boys. The law provides that persons under this age may not marry. Under the old law it has been possible for young people above the minimum age to contract a common law marriage, with or without parental consent. The law should recognize and impose a parental responsibility for young people until they are at least 18 years of age," the Senator said.

Dear John:

Thank you so much for your thoughtful letter advising me that you find it necessary to resign your position as District Attorney of the 110th Judicial District.

Whirlwinds 11-1 Lose Regional To Iowa Park

SPORTS

Iowa Park Advances To State Competion In Lubbock

By Wendell Tooley

The Floydada Whirlwinds came to the end of the road Friday night in Plainview stadium as the strong Iowa Park Hawks took the regional championship 35-6, before a crowd of 6,000 fans.

Iowa Park will go on to play Reagan County.

Although the Whirlwinds looked impressive at times with Jack Gregory leading the passing attack, they never were able to mount a ground attack that would get the yardage needed to get on the scoreboard.

The Whirlwinds never gave up, played the game hard until the final whistle. In defeat they quietly trotted to the dressing room, coach and team overlooking the bi-district trophy presentation by Garland Lott, president of the Plainview chamber of commerce. Lott carried the trophy to the dressing room.

The Hawks scored in each of the first three quarters soaring to a 35-0 margin going into the final period before the previously unbeaten Whirlwinds took advantage of an Iowa Park fumble to notch their only marker with 4:34 left in the game.

In an awesome display of power sweeps around the ends and through the middle of the line, Iowa Park, ranked second in the state behind Lufkin Dunbar, completed only three passes of 15 tosses.

Gregory kept the 'Winds in the game with 11 completions of 25 throws.

Iowa Park scores were as follows: Steve Webb on a four-yard run in the first quarter, in the second quarter Webb again on a seven yarder and Gregg Ancell receiving a 12 yard pass from Jim Clapp. IP led 21-0 at halftime.

In the third quarter it was Jeff McDonald with two TDs on 15 and four yard runs. Jerry Pittman kicked all the extra points.

The lone Floydada touchdown came in the last quarter when Andy Selman took a pitchout from Gregory and dashed over for five yards and the TD. Try for two extra points failed.

Floydada looked like they might be able to handle the Hawks after the Hawks were leading in the last of the first quarter 7-0. Selman returned the kick-off 21 yards to the 34. Gregory hit Stan Pierce with a 28 yard pass, Selman ran for six, Pierce ran across tackle for nine more, Gregory ran for two and the ball was on the Hawk 23 yard line.

Then Iowa Park intercepted a Gregory pass.

FLOYDADA TALLIES

It was Iowa Park the rest of the game until about five minutes were left in the last quarter and Floydada managed to make its lone TD.

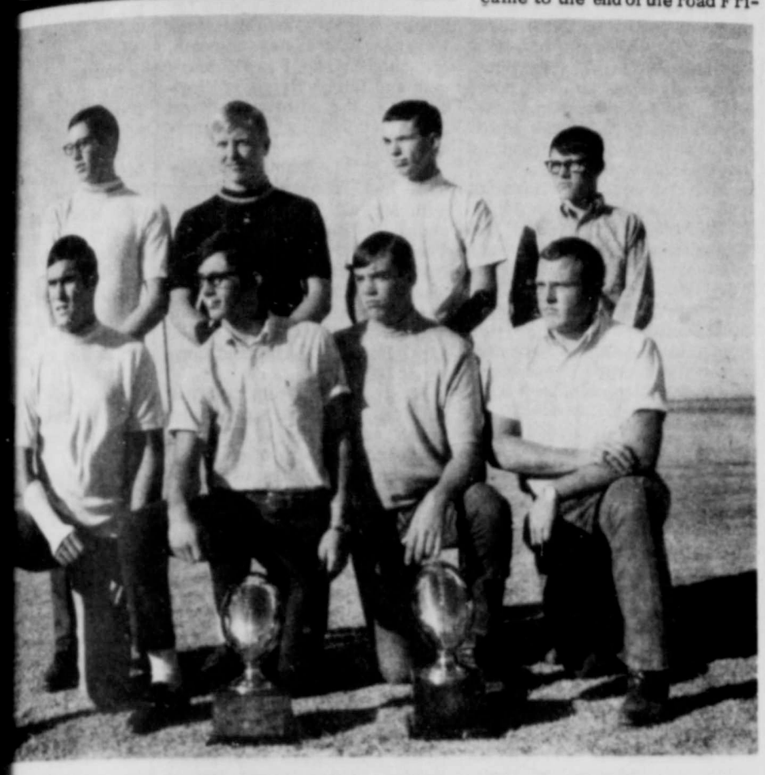

Selman scored on a five yard run after a Hawk fumble, recovered by Walter Harris.

Gregory hit Watson for an 18 yarder, Harris for seven and Stan Pierce for 17, bringing the ball down to the Hawk five yard line before Selman's TD.

Floydada almost got on the scoreboard again when Kim Rose recovered an on-sides kick following the touchdown. Gregory hit Selman with a 17 yard pass and Walter Harris with 17 and 8 yard passes, but after driving to the four, Selman was thrown for a five-yard loss on fourth down to end the effort with 1:58 left in the game.

Tribute To The Winds

Your coach is good, You're all just great.
You're tops by tar In 50 states.
So cheer up 'Winds and look ahead.
We might have lost, but we ain't dead.
There's always next year, we'll be back.
We'll put those trophies in a sack.
So relax now, 'Winds. You've done your best.
You're No. 1 above all the rest.
You have taken us farther than we have been in years.
You've worked hard, sweated blood and tears.
So stand tall now and don't look down.
You're the greatest team that can be found.

Hardys Travel With Artificial Kidney Machine

LOCKNEY — Mr. and Mrs. Cliff Hardy have discovered that the saying "You can't take it with you" doesn't always hold true. The couple recently made a trip to Wenatchee, Wash. for a visit and carried along a portion of Mrs. Hardy's artificial kidney, which was a new experience for the pair.

Elaine Hardy has been on the Chronic Home Dialysis Program since June of 1698 and three days a week she is side-by-side with her artificial kidney machine for eight hours, receiving the benefits of its blood-purifying functions.

Object Of Visit

The out-of-town trip was to visit Hardy's sister, Mrs. Wilber Adams and family, formerly of the Aiken community. The Hardys traveled in a pickup camper and were accompanied by their daughter, Robin, and Hardy's parents, Mr. and Mrs. Frank Hardy.

Weeks earlier, planning began for the trip. Through much correspondence and the aid of Mrs. Adams, a machine was made available for Mrs. Hardy to use. There was a choice of three machines in the town of Wenatchee. In order to keep from exposing each other to any possible diseases, Mrs. Hardy took the top layer of her "kill" and her necessary supplies.

Prior to leaving home, Mrs. Hardy dialized on her machine and then placed the necessary portion in the camper. The long trip was then underway at 5 p.m. Friday. Arriving at 1 a.m. Sunday the couple contacted Mr Sally Hall, whose machine they were to use during the nine-day visit. The first dialysis treatment was set up for Sunday night with other sessions on Tuesday and Thursday. "Everything went off like clockwork and the machines were so identical that it was hard to believe," Mrs. Hardy related.

The New Generation of John Deere Combines

They're coming your way! The New Generation of John Deere Combines. See the mighty new 6600 take on yesterday's capacity champion, the 105, in actual field competition. The camera films all the action . . . the stopwatch times every bushel harvested . . . you see every minute of "The Great Combine Race" at "Farming Frontiers '70." It's the year's most exciting farm program. And there's more. You'll see a dramatic new motion picture, "A Way of Life," that looks at the heart of farming through the eyes of a farm family. And you may be the lucky winner of a new 21-inch, electric-start John Deere Power Mower. Don't miss "FF-'70."
