Postal Receipts Show Increase Of 21 Per Cent Over Last Year

Postal receipts for the second quarter of 1949 showed a substantial 21 per cent increase over the same period a year ago, reports Ralph Sargent, postmaster. Receipts for April, May and June, 1949, were $9,945.06, while a year ago, receipts were $8,465.27.

Receipts for the first six months of the year show $17,- 110.15, compared with $16,164.88 for the same period a year ago. At this rate, Perryton is rapidly approaching the status of a first class office. To qualify for first class status, a post office must have $40,000 in receipts. Postmaster Sargent estimated that Perryton will have $37,000 in receipts this year, an increase of $5,000 over last year.

Postal receipts include stamps, parcel post, box rent, second and third class mail. When the volume of money orders, savings bonds, and postal savings accounts is added, the total volume of business reaches a much greater total.

The money order business during the second quarter of 1949 was $4,- 066.66, compared with $66,- 066.66 a year ago.

Despite all this increase in business, however, the post office is still doing business in the same old stand. The quarters are cramped, and becoming more so all the time. However, the movement to secure a post office building has died down since last fall, and prospects for moving are dim for the local office.

Revival and Bible School Scheduled At McMillen

A one-week Vacation Bible School and revival meeting will be held at the McMillen school, beginning on July 17, it has been announced.

The revival will be conducted by Rev. Ray Stevens, pastor of the First Baptist church in Spearman.

Miss Anita Sibley of Beaumont, Texas, and Fay Huff of Brady, Tex., will conduct the School.

If It Won't Run, Burn It Up, Say Traveling Trio

What was first thought to be a stolen automobile case turned out to be a simple case of tem per Friday when highway patrolmen Jack Shields and Bob Loving were called to investigate a burning automobile ten miles south of Perryton on U. S. Highway 83.

When the patrolmen arrived at the scene of the burning car, the three occupants were gone, but the officers succeeded in apprehending them at the Canadian bridge with a motorist with whom they had hitchhiked a ride.

Investigation disclosed that one of the party had papers establishing ownership of the car.

Angered because the ancient machine refused to function, the trio finally broke out all the car's windows and set fire to the vehicle.

Raymond E. Villandry of Massachusetts was charged here Saturday morning with burning a vehicle on a public highway, and the other two members of the aprty, Richard H. Smith of Houston and Junior O. Singer of

Another Reminder of Herald Closing Dates

Patrons of the office supply and job printing departments of the Herald are again reminded that the Herald plant will be closed from Thursday to Monday, July 7-11, while the entire force takes a vacation trip to Red River, N. M. The Herald has been put in the mails Wednesday night, and the entire force will leave early Thursday morning for the mountains. The Herald office will open again at 8 o'clock Monday morning.

Lion Installation Held Wednesday

Installation of the new officers of the Perryton Lions Club was held in the Perryton Hotel Harvester Room Wednesday night, with Ralph Randel of Panhandle, International Lion Counselor, as installing officer.

This was Ladies' Night, with a special program arranged.

New Lion officers are Jerome Woods, president; Miles Edwards, first vice president; Bob Schuster, second vice president; Elliott Lee third vice president; Sam Hergert, secretary - treasurer; Jim Anderson, Tail Twister; W. H. Lance, Lion Tamer; K. A.

Fourteen Miles Of State Highway 70 In County to be Paved This Summer

Follett Youth Is Injured In Auto Wreck

Richard Laubhan, 16, son of Mr. and Mrs. Jonah Laubhan of Follett, was in the Sanford Hospital here Tuesday receiving treatment for minor injuries suffered early Tuesday morning when his 1948 Chevrolet sedan overturned on a highway bridge four miles west of Booker after crashing into the bridge guard rail.

He was the only occupant of the car when the accident occurred. He had attended a dance at Darrouzett, and was driving to Perryton. His uncle, John Laubhan, Plymouth dealer at Follett, was driving behind him when the accident occurred and

BIRDS SOLVE HOUSING SHORTAGE—C. E. Haar found this well-made bird's nest in a stalk of wheat on his farm about 7 miles northwest of Perryton just as the combines were going through the field. Haar says that he's never seen anything like it in the years that he's been farming wheat. The nest is 3 inches across and 2½ inches deep. There are four light blue eggs, with darker blue streaks in them. So far, no one has identified the type of bird that built the nest, although it seems to be some species of lark. The nest, with the eggs, is on display at the Herald office and any one who can identify the eggs and the type of bird is invited to come in and give an opinion.

Deadline for Construction Bids July 19

The part of state highway 70 which lies in Ochiltree county will be paved this summer. The State Highway Department is advertising this week for sealed bids for construction of the 14.308 miles of flexible base and double asphalt paving on the new highway.

This pavement will extend from the 6-mile junction with U. S. 83 south of Perryton to a point 20.4 miles south, near the Roberts-Ochiltree county line.

Bids will be received at the State Highway Department headquarters in Austin until 9 a. m., July 19.

Plans and specifications are available at the office of L. K. Cantrell of Canadian, resident engineer, or at the main office in Austin.

All of the preliminary work on this section of the new state highway has been completed for months. The road has been widened, straightened, with new culverts installed. A new concrete bridge has been completed across Wolf Creek.

While the prospects for building a bridge across the Canadian river and paving highway 70 through Roberts and Gray counties to Pampa are still in the planning stage, completion of the paved highway in Ochiltree county will afford an excellent farm-to-market road in the years to come.

Night Baseball Game Is Set Saturday Nite

If the new lights at the local baseball park are ready to go, there will be a baseball game Saturday night, manager Hank Richardson has announced.

Richardson stated that he was trying to line up a game with Guymon, and if that failed, he would secure another suitable opponent for the Saturday night game.

C. E. Whippo of the Community Public Service said Wednesday that every effort will be made to have the lights connected and tested by Friday night.

The Late Wheat Is Better

Westar Wheat Outyields Other Varieties On Six Test Plots

Westar seed wheat which has been grown on the J. H. Kershaw farm for the past six years outyielded five other varieties in the test plots sowed last fall on the Kershaw farm, six miles north of Perryton. The test plots were harvested Monday afternoon.

While the "home grown" Westar seed produced the top yield, the pure Westar seed furnished by the Texas-Oklahoma Wheat Improvement Assn. was only sixth in the yield standings.

Each plot contained .37 acre, and was plowed, sowed and harvested at the same time. The seed was sown on summer fallowed land.

Kershaw stated that the test may have been of some disadvantage to the early varieties, since these varieties should have been harvested a week or more ago.

The tests were made by Kershaw in cooperation with county agent Hood Wills and the T-O Wheat Improvement Assn.

The wheat was cut Monday afternoon by Lonnie McGarraugh and was weighed at the Twichell Equity elevator. The combine was carefully emptied after each test strip was combined.

The tests carried out what has been true throughout the area this year—that the later varieties did better than the early ones. Early Triumph, which outyielded the other varieties last year in similar tests, was last this year. Wichita was fourth this year, second in 1948.

Pawnee wheat was second in the yield test, and the results were somewhat of a surprise, since the standing Pawnee wheat did not look as good as several of the other varieties.

The Kershaw Westar weighed out 935 pounds, followed by Pawnee with 900; Comanche, 811; Wichita, 808; Tenmarq, 802; Westar, 780; and Early Triumph, 647.

Figured out on a bushel per acre yield, the following results were shown:

Kershaw Wester	42.1
Pawnee	40.6
Comanche	36.4
Wichita	36.2
Tenmarq	35.9
Westar	35.1
Early Triumph	28.9

These plots were part of a 30-acre piece of summer fallowed ground planted to Westar. This wheat averaged 35 bushels per acre, stated Kershaw.

The experiment has been watched with considerable interest by farmers in the area, and several spectators were present at the wheat cutting Monday afternoon.

Full House at Jail This Week

Law violations skyrocketed in Perryton last week as charges in nineteen cases for minor law infractions were filed Wednesday and Thursday alone. Nine persons were lodged in the local jail Friday night taxing the facilities which have accommodations for only eight.

Offenses included traffic violations, drunkness, drinking, in public places, and vagrancy. Transients accounted for the the most of the minor infractions according to local officers.

Charged Saturday morning were Richard H. Smith of Houston, breaking glass on a public highway; Junior O. Singer, breaking glass on a public highway; Raymond E. Villandry, burning a vehicle on a public highway; George Herd of

Besides the digester tank the system will include a sludge drying bed, gas burner house, and pump house. Members of the construction crew shown l to r are John Portell, Henry Hubbard, Homer Nelson, foreman, and in the foreground Bill Clark.

Cutting Tests Show Fertilized Wheat Land Gives Better Yield

Wheat from four fertilized test plots was harvested Monday afternoon at the J. H. Kershaw farm six miles north of Perryton. These tests were made by Kershaw and county agent Hood Wills as an experiment to determine what value, if any, fertilizer is in this area.

Results showed that the more the ground was fertilized, the more wheat it made. This may not be true in a year when there is not good moisture in the fall to soak the fertilizer into the ground, Wills stated.

Each plot contained 1.5 acres. On plot number one there were 75 pounds of ammonium nitrate drilled in with a wheat drill; on plot No. 2, 95 lbs., plot No. 3, 125 lbs., and plot No. 4, 140 lbs.

This land had extremely heavy straw last year, and for the past several years. Kershaw and Wills thought that since it takes a lot of nitrogen from the soil for bacteria to rot the straw, a test adding nitrogen would be interesting regarding the yield.

The first plot, the one with 75 pounds of ammonium nitrate, yielded 25 bushels per acre. The second one, with 95 pounds, yielded just a fraction more than 25 bushels per acre. The third plot, with 125 pounds, made 27.5 bushels, and the fourth, with 140 pounds, made 30.6 bushels per acre.

Kershaw stated that he could tell no difference in the appearance of the wheat in these fertilized plots until just before harvest. Then he could notice that the fertilized wheat had a richer color, and ranker growth, and looked like better wheat. As the wheat matured, it became more evident, as the fertilized wheat straw was more pellow and the plants looked healthier.

"It so happened that right after the fertilizer was applied last September, we had a nice rain that soaked it into the ground," Kershaw stated. "If we had had a dry year, the fertilized plots probably wouldn't have made any more wheat, if as much, as the unfertilized wheat."

The wheat planted in the same field, but unfertilized, averaged 22 bushels per acre this year. It was all Westar varety.

The wheat was cut by Lonnie McGarraugh and was weighed and tested at the Twichell Equity elevator. The first two plots tested 58 and the last two tested

See No. 3, Page 6

Wheat Harvest Estimated At 7 Million Bu.

Harvest of the 1949 wheat crop estimated at nearly 7 million bushels, is virtually complete in the Perryton area, with very little harvesting still to be done. The truck lines at the elevators have thinned down and the custom combine crews have moved on north to other harvest areas.

Estimated yield for the county, based on an average of estimates from elevator men and the county agent's office is placed at approximately 19 bushels per acre. Using this figure, the county's wheat acreage of 360,- 000 produced 6,750,000 bushels.

At the local Equity elevator 1,050,000 bushels had been received Tuesday, and the Ellis Grain Co. had received 225,000 bushels. Aldon Bell, Equity manager, said approximately 3,- 500,000 bushels had been received this season by all Equity elevators.

The Equity had 4½ million bushels of storage in local elevators and terminals at the beginning of harvest, and all of this will be filled after the final clean-up, according to Bell.

Wheat is being moved out slowly because of the few boxcars available for shipping.

The Equity has purchased no wheat at the current prices, according to Bell. This should be a strong factor in forcing the

Perryton Closes Up For July 4 Holiday

Even though July 4 was not one of the holidays set this year by the retail merchants committee of the Chamber of Commerce, Perryton was closed "tight as a jug" Monday with the majority of firms taking off for the Independence Day holiday. A check made during the day revealed that only five drug stores, two cafes, and four service stations were open on July 4. Everything else was closed.

Officers Check 300 Vehicles for Drivers License

More than three hundred vehicles were checked for drivers liscenses here Thursday by Jack Shields and Bob Loving of the local State Highway Patrol office and members of the city police force and the sheriff's office.

Six cases were filed in connection with the check. Patrolman Shields said Saturday that despite repeated warning, many new residents who came here from out of state had failed to secure Texas driver's licenses. He said that his department expects to continue a vigorous program to see that all drivers have current Texas liscenses.

He added that a check last

Polio Strikes Man Denton Here Monday

Jan M. Denton, Texas Company employee here, was taken to the polio clinic in Plainview by ambulance early Tuesday morning after an examination by Dr. Roy Sanford of the Sanford Hospital, who diagnosed the case as polio.

Denton had just returned to Perryton late Monday night from a week's vacation which he had spent with his parents, Mr. and Mrs. D. M. Denton of Brownsboro.

The patient reported that he had not felt well for four or five days, and that during his visit home he had suffered from headache and sharp pains in the legs, back and neck.

He exposed no one in Perryton, Dr. Sanford said.

Sanford added that the incubation period for the disease is from seven to ten days, and that unofficially the patient had been stricken while on his two weeks vacation during which he visited across the border in Mexico.

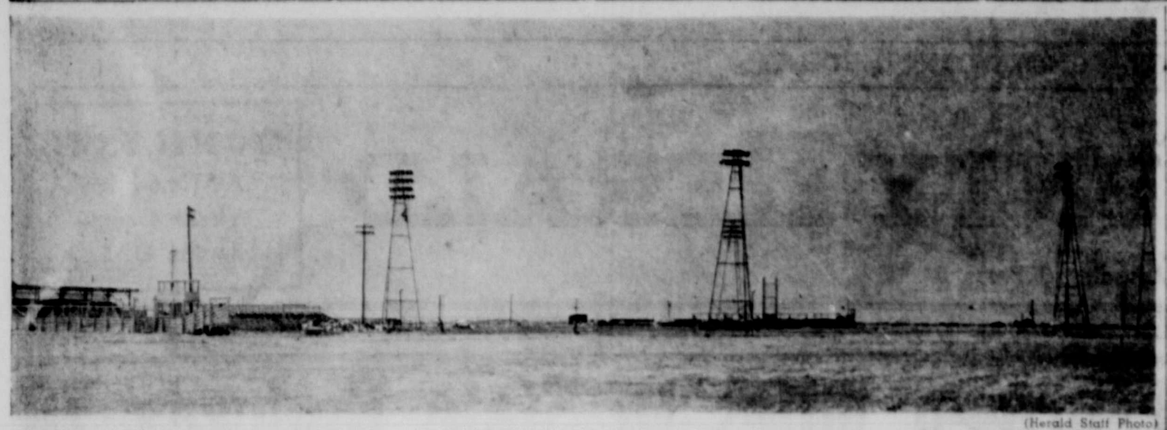

Dr. Sanford described the patient's symptoms as "right out of the book" for polio. The patient showed no paralysis at first, but within two hours paralysis of the legs and abdominal muscles had begun. This case is possibly the bulbar type of polio which strikes suddenly and often affects breathing and other vital functions, according to a report from

(AP Wirephoto)

Mr. and Mrs. Pud Jackson and daughter, Lora Lee Busch and Dent Lenderman were in Canadian Saturday night and Monday night attending the rodeo. Pud and Dent were entered as contestants.

Mrs. Max Wood, a law student at S. M. U. was here over the fourth visiting her husband, Dr. Max Wood, and other relatives. She returned to Dallas Tuesday morning.

Mrs. Gene Brillhart and the twins have left the hospital and are living for a short time with her mother, Mrs. O. O. Cox.

Monday evening dinner guests of Dr. and Mrs. Manse Wood and Pat were Dr. and Mrs. Max Wood and Mrs. May Griffith.

Mr. and Mrs. R. B. Yoakley and Dr. and Mrs. Reese Nowlin went fishing at Monument lake in Colorado over the week-end.

Ada Beth Jordan, Tucson, Arizona, is visiting Mr. and Mrs. E. D. Kelley and Camilla for three weeks.

Mr. and Mrs. E. H. Hoots were in Wichita, Kansas over the weekend and brought back their children who have been visiting their grandparents.

Mr. and Mrs. Oris Bruner, Amarillo, were in Perryton Saturday and left Sunday with their daughters, Yvonne and Barbara who have been visiting with their aunt, Mrs. F. L. Garrett and the twins, Co'Lene and O'Lene Yates.

Mr. and Mrs. Charles Price, Harry Price, Chicago, and Miss Amanda Price, Vienna, Illinois are visiting in Perryton with Mr. and Mrs. Harold Malone and family.

Visiting the latter part of the week in the Harold Malone home were Mr. and Mrs. Don Malone and son, Jimmy Don, of Chillicothe, Missouri.

Sunday dinner guests in the Charles Taylor home were Dr. and Mrs. O. W. Boyer and Bernie, Wichita, Kansas; Mrs. Olive Boyer, Wichita, Mrs. D. C. Boyer and grandson, Jon, Oklahoma City, and Mr. and Mrs. Max Boyer.

Miss Kay LeMaster has been a guest for the past several days in the home of her cousin, Janice Miller.

Mr. and Mrs. Claude Allen recently returned from Eva, Oklahoma where they visited her brother, Marvin Reeves.

Mr. and Mrs. Roy Philitepis of Spring Valley, Ill., Paul Walker of Austin and Miss Mary Guilfoile of Aurora, Ill., spent last week in the home of Mr. and Mrs. H. J. Boisdorf.

Mr. and Mrs. L. M. Davis of Borger visited Sunday afternoon in the homes of Mrs. Edna Myers and Mrs. F. C. Spencer.

TEXANS IN WASHINGTON

By TEX EASLEY

(AP) Special Washington Service

WASHINGTON—June— (AP) — Speaker Sam Rayburn, Bonham's veteran congressman, frequently is described as the most powerful man in the government except for the President.

As Speaker of the House, he has a lot of control over what Legislation should be considered by the various committees and the House itself.

An he's one of the busiest men in Washington. There are few minutes he can call his own. From the moment he arrives at his office in the Capitol each morning he has a crowded schedule. Men whom the average caller would have to wait to see sit daily in Rayburn's reception room awaiting their turn with him.

His okay on important matters usually is sought before they are brought before a congressional committee or to the House floor.

Every congressman with visiting constituents likes to introduce his friends to the Speaker, and they are continually stopping him in the Capitol corridors for this purpose. Whenever a large party from this or that state holds a breakfast or luncheon in the House restaurant, the sponsoring congressman knows it will boost his prestige with the back-home voters if he can get the Speaker "to drop in" for a moment to say hello.

Just before the House convenes each day, Rayburn holds a news conference in his private room just off the floor. He answers questions about the day's program, and what's likely to come up tomorrow and next week.

In between all these "run of the mill" confabs, he has conferences at the White House with President Truman and calls from Cabinet membes wanting to discuss matters affecting their departments.

And, besides presiding over the House, Rayburn is called on regularly to address public gatherings. Last week end he went to Alabama for a celebration commemorating the 15th anniversary of the first delivery of electric power from the TVA to a city. The week before he was on the program celebrating the 200th anniversary of Washington and Lee College in Virginia.

In addition to his legislative powers the Speaker is the real leader of the majority party in the House.

No such power rests with the Vice President of the United States, who serves as the "president" of the Senate, for he has been elected by the people of the nation and not by the senators. The speaker is chosen by the House from its membership. The case of Vice President Barkley, however, is an exception to the rule. He was for a long time the democratic senators' choice for "majority leader," and consequently because of his close friendship with many of the members of that body and the respect they have for him, is able to wield more power than any recent vice president.

Arrests Increase Complaints Decrease

NEW YORK—(AP)— The New York Police Department report for 1948 listed 315 cases of murder and manslaughter for the year, of which 269 were "disposed of."

All in all, the report showed a 4 per cent increase in arrests despite decreases of 13 per cent in felony complaints, 9 per cent in misdemeanor complaints and 5 per cent in juvenile delinquency cases.

There were 2,847 cases of felonious assault, 2,733 burglaries and 5,121 grand larceny cases. More than half were disposed of.

Judge and Mrs. Jack Allen and Bill Allen returned Sunday night from Ft. Worth where they attended a meeting of the State Bar Association.

Mr. and Mrs. H. B. Thompson, Dallas, and Mr. and Mrs. W. B. LaMaster were dinner guests in the Giltner LaMaster home Friday evening.

Jeff Hutchinson Dies in Louisiana

Chas. J. "Jeff" Hutchinson, 55, an early day county agent of Ochiltree county, died of a heart attack at his home in Baton Rouge, La., Thursday, June 30. He was buried the following afternoon.

Survivors are the widow, Mrs. Cora Thomas Hutchinson, and three sons, Arless, Kay and Don. Mrs. Hutchinson is a sister of J. R. Thomas of Perryton. Mr. and Mrs. Thomas and Mr. and Mrs. K. K. Thomas, Amarillo, attended the last rites.

Mr. Hutchinson, a World War I officer, served as County Agent in Ochiltree county about 1924-25. He later farmed north of Perryton until 1929 when he went to Baton Rouge to accept a position on the staff of Louisiana State University. At the time of his death he was State Engineer for LSU.

Lipstick Prevents Fire

LUCIEN, Okla.—(AP)—A. D. Schanaithman found a new use for lipstick — and prevented a train fire.

While on the station platform here, he saw fire shooting from the journal box on one of the wheels of a freight train.

He quickly took his girl friend's lipstick, picked up a piece of cardboard and scrawled "fire." Engineer Otto Brammer and Conductor Dan Wright saw the warning sign and stopped the train in time.

Mr. and Mrs. G. K. Rupprecht and George Allen had as their guests for an ice cream supper Sunday evening, Billy Fay Redenius and Jerry Wayne, Mildred Benjegerdes, Beaver, Mr. and Mrs. Danny Ellis, Len Lowe and Peggy Thomas.

Socialist-Style Boy Scouts

WARSAW — (AP) — Polish Boy Scouts now are being educated in the Socialist way.

Their whole organization has been converted into an "active subsidiary" of the Communist-controlled Polish Youth association.

Both Polish Boy Scouts and Girl Guides organizations have withdrawn from the World Scouts Association because of its alleged reactionary and hostile attitude toward Poland.

Denmark Eases Soap Rationing

COPENHAGEN — (AP) — The latest restriction to be lifted in Denmark is the rationing of shaving soap. It is officially predicted that soap rationing will be lifted entirely during the summer.

Kenneth LaMaster was home for the week end from Lubbock where he is attending summer school at Texas Tech.

Leon Mitchell and his parents left Saturday for Arkansas to visit relatives.

CARD OF THANKS

Many thanks to everyone who helped out during my stay at the Perryton Hospital, for your visits, cards, letters, flowers and prayers. Also many thanks to the doctors, nurses and hospital staff for your help and kindness shown me. May God ever bless each one.

Respectfully,
Arthur Gray.

Contractors' Notice of Texas Highway Construction

Sealed proposals for constructing 14.308 miles of Flexible Base & Double Asph. Surf. Treat. from 20.4 mi. South of Perryton to Jct. US 83, 6 mi. South of Perryton on Highway No. St. 70, covered by S 1212 (1), in Ochiltree County, will be received at the Highway Department, Austin, until 9:00 a. m., July 19, 1949, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with provisions of said House Bills, the Highway Commission has ascertained the wage rates prevailing in the locality in which this work is to be done. Contractor shall pay not less than the prevailing wages shown in the proposal for each craft or type of "Laborer," "Workman," or "Mechanic" employed on the project.

Legal holiday work shall be paid for at the regular prevailing rates.

Plans and specifications are available at the office of L. K. Morrell Resident Engineer, Ochiltree, Texas, and Texas Highway Department, Austin. Usual rights reserved.

MOST WANTED ITEM FOR HOME USE

Are you keeping in step with this progressive world? You aren't if you're content with the "Old School" method of sharpening pencils with a knife. Sharpen up — buy an Apsco Midget, with deeply milled undercut cutters for long life. Mighty practical as a gift item too. Your thoughtfulness will be long remembered—if you give an Apsco, famous for over 40 years in the pencil sharpener field.

$1.50

Some Birds Like Traveling Nests

CHICAGO — (AP) — You'll never find some birds tied down to a humdrum life in an old tree. They prefer traveling nests.

Austin L. Rand, curator of birds at the Chicago Natural History Museum, reports:

"Three swallows nest on ferryboats that ply between Ogdensburg, N. Y., and Prescott, Ontario, across the St. Lawrence river, where it is more than a mile wide. The nests are tucked into suitable openings on the ferries, and the frequent trips back and forth and the docking at different piers do not seem to disturb the birds. They gather their nesting material of feathers and straws and leaves from either shore, and when the young are being fed, insects may be gathered on the Canadian or U. S. shore, depending on where the ferryboat is docked.'

So much for the wave riding international set. There are others who like to gad on land. Rand says:

"Barn swallows have been noted nesting on railway trains that run across the two-mile portage between Atlin Lake and Carcross on Lake Marsh (in Yukon Territory). In the summer the train makes the trip almost daily, and for many years a pair, or succession of pairs, has made its nest and raised its young in one of the open baggage cars. Members of the train crew have taken an interest in the birds and put up a cigar box for a safe place for their nest. Here the family seems to prosper, undisturbed by people, baggage and clatter of the train.'

Betty Buchanan, daughter of Mr. and Mrs. Irvin Buchanan, was home for the weekend from Baylor University where she is attending summer school.

CARD OF THAHNKS

We want to thank our many friends for the flowers they sent when our "Darling Baby" passed away. We want to thank the Perryton Hospital staff for the care they gave our son.

Sincerely,

Venom of the Black Widow Spider is 15 times as potent as that of the rattlesnake.

WHERE HEROES ARE NOW

DWIGHT D. EISENHOWER —now is president of Columbia U.

(AP) Newsfeatures

Four years ago the Germans surrendered and World War II came to its official end in Europe. Much has happened since then to the scores of U. S. heroes that Americans toasted on that day. Here is what has become of some of our leading men in arms.

AUDIE MURPHY, most decorated service man, married Movie Star Wanda Hendrix, became a movie star himself.

GEN. JIMMY DOOLITTLE—is an oil company vice president.

DON GENTILE, air ace, took to civvies but stayed in service.

GEN. CARL SPAATZ, then Air Force chief, now is retired.

More Righties

CINCINNATI—(AP)—A study of the players used by the Cincinnati Reds since 1876 indicates that about 70 per cent of baseball players bat right-handed. Of 734 former Redlegs, 495 hit righthanded, 210 lefthanded and 29 swung from both sides of the plate. An even greater number, more than 81 per cent, threw righthanded.

It's Locke vs. Entire Pro Field

by Frank Ecke

(AP) Newsfeature Sports Editor

NEW YORK—Whoever is responsible for getting Bobby Locke to leave South Africa must be a disliked person among professional golfers.

This spring marked Locke's third trip to America to join up with the play-for-pay golfers. Each time the story has been the same. Locke and his rusty 25-year-old putter have been so successful that the American pros mutter when you mention the man in knickers, white shoes and white cap.

In the recent unique Goodall Round-Robin tournament his attire included the once popular button-down-the-front long sleeve sweater. With the top three buttons unfastened, a few in the middle buttoned and those at the bottom open, Locke looked like anything but a fashion plate.

One day coming up to the ninth hole, one side of the sweater hung perilously loose over his left shoulder. It looked as though it might bother the smooth rhythm of his swing. But Locke chipped from 150 feet out to within one foot of the pin and dropped his putt for a birdie 4.

Locke might look like something just off the boat in his odd attire but his dress is just one of the things that makes him different from the American pros.

He has made a runaway of many tournaments. In his most recent victory at New Rochelle's sporty Wykagyl course, he had a 33-point edge on the field. He was so far ahead of the 15 top American pros that some people lost interest in the event before the final round. The result was a foregone conclusion.

It's happened before. In the 1948 Chicago Victory Open he shot 266, beating par by 18 strokes. During six months in 1947 he won $24,372.50, capturing six tournaments and finishing second in three others.

Locke is so consistent with his chipper and putter that rival pros just shake their heads. American pros seem to play the ball around the hole while Locke plays his shots in the hole.

Our pros have tried about every method to pierce Locke's seemingly cold armor. They have given him the "cold shoulder" treatment. They have praised him, and they have needled him. Nothing disturbs him.

When Locke was introduced at the first tee during the Goodall's fourth round, the announcer informed the gallery that Locke was "plus 43 and nine points ahead of Herman Barron".

"He won't be after this round" chimed in Jimmy Demaret with a smile. Locke then addressed his ball and sent it on a straight line down the fairway.

Demaret, popular even in his crazy-quilt costumes, has been one of Locke's constant needlers the past three years. Jimmy has a way of doing it with a smile. But this time Demaret's apparent attempt to ruffle round-faced Robert backfired. Locke came back with a 68 and Demaret a 75 to lose 21 points on the round.

NEW LAW DEAN—W. Page Keeton (above has been appointed Dean of the University of Texas Law School, effective September 15. Keeton, University of Texas alumnus and former assistant dean of the university's law school is now Dean of the Oklahoma University School of Law.

Test Shows How Anemia Drug Works

BUFFALO, N. Y.—(AP)—A new test shows how and why certain drugs work against pernicious anemia in humans.

The test promises to aid in better treatment of the disease. It is reported by Dr. Oliver P. Jones, assistant dean of the University of Buffalo Medical School, and Adolph Smith of the department of anatomy.

Anemia is due to the body's failure to make enough red blood cells in its bone marrow factory. The cells that form there don't divide and grow in the normal way. The failure comes from lack of a chemical usually supplied by the liver.

Drugs like liver extract, folic acid, and the new vitamin B-12 usually overcome the trouble. Just how they do their work hasn't been clear. It's hard to get at the bone marrow in humans to see what is happening. So Dr. Jones turned to primitive blood cells in unborn rats, when these emryos are only 11 days old. These blood cells had formed before the embryo livers had developed or started to work. The rat cells at this tme resemble the cells in the bone marrow of humans with pernicious anemia.

By feeding anti-anemia drugs to the mother rats, he can see what effect the drug has on the blood cells themselves. The test also can show whether there is anything in a new drug that would work against anemia.

There are almost as many different sorts of beetles as there are all other insects combined.

BIRD HUNTING—by camera can be rewarding, says Irving Desfor, AP camera editor. You can get fresh air, exercise, maybe a shot like these loggerhead shrikes.

Perryton Takes Spearman 9-4, In NPAA League Game

Punching across 4 runs in the first inning, Perryton eased to a 9-4 win over Spearman at the local park Sunday to chalk up their fourth NPAA league winn.

Williams sttarted on the mound for Perryton and pitched three innings. He weakened in the third, after holding Spearman hitless the first two, and the visitors drove in three runs in that inning.

He was replaced by Milton Deason, who pitched the next three innings, giving up 3 hits, and one run.

Wayne Gyger worked the final three innings, giving up one hit and no runs while striking out three men.

At the plate, Perryton was paced by Dudley Hargrove, who hit 4 for 5, and Bob Gibson, who got 3 for 4. Extra base blows were made by Hart and Riley, who hit doubles, and Hargrove, who hit a triple and a double.

THE NEW Maytag

Dutch Oven Gas Range

Cooks superbly by usual methods, or automatically, while you're away.

As a conventional range, it's the very last word in modern efficiency, cooking speed, convenience and gas economy. See, for example, its heat-focusing Spiral-Flame burners.

And its automatic oven-control gives you new kitchen-freedom—extra leisure—besides the mouth-melting deliciousness of famous Dutch Oven cooking. Put a whole meal in the extra-large oven, set the control, and forget it till serving time. Gas turns off automatically at the specified time, and cooking continues on *retained* heat.

You'll especially like the way the super-insulated oven keeps your kitchen cool . . . the ease of cleaning, with the top and burner bowls all one piece of stain-resisting porcelain enamel . . . the *new kind* of Sizzle-Serve Broiler . . . and the Dutch Cooker Well, which cooks a whole meal with only a tiny flame burning two-thirds of the time.

Remember, only the Maytag Dutch Oven Gas Range automatically turns off the gas and keeps right on cooking. Be sure to see this range of tomorrow!

See it today at

PLAINVIEW HARDWARE COMPANY

CROSSING-UP— Bob McCoy of Atlanta has been playing expert golf for two decades with a cross-hand grip. Bob grips the club with his right hand at the top of the shaft and the left hand below. No dub, McCoy won the city championship in 1940 and played on Atlanta's national public links team in 1939 and 1940. He also holds the nine-hole record at Piedmont Club with a 28 over the par 34 course.

Batting Averages

Dudley Hargrove, by hitting 4 for 5 against Spearman, went to the top of club batting averages for Perryton this week, leading the regulars with a .405 average. Bob Gibson, who got 3 for 4 against Spearman, is pressing for the lead with a .392 average.

Milton Deason, last week's leader, and Wayne Gyger are tied for third with a .384 average.

Eight players are now hitting .300 or more, compared with five .300 hitters last week.

PLANS LAW CAREER— Cage star George Mikan hopes he can handle his bar exams as well as he does a basketball. The six-foot-nine star of the Minneapolis Lakers will take his law examination in October.

A. E. Devers, Vancouver, Washington, who has been here for a few days visiting with relatives and friends, left the fore part of this week for a visit in Kansas and Arkansas. He will return to the Perryton area before going home to the west coast. Mr. Devers was a resident of the eastern part of Ochiltree county for almost 40 years. He represented his district on the Commissioners' Court for a number of terms. He retains his land interests here and also owns a ranch near Clayton, N. M.

Mr. and Mrs. Bob Goff and son, Robbie, of Midland spent the week-end with his parents, Mr. and Mrs. Al Goff. They left for New Mexico Tuesday morning and will return in about a week for a longer visit in Perryton. Robbie is staying with his grandparents while his parents are away.

Mr. and Mrs. Irvin Hergert were dinner guests Sunday night at the Henry Richardson home.

Weather has been very hot some days. July 4 was a nice day. Some light showers fell Tuesday.

Almost all farmers have finished cutting wheat and are busy chiseling or plowing.

Mr. and Mrs. Elmer Husted, Mrs. Lucy Boston of near Beaver, Mrs. Boston's nephew, Marvin Sword and her great nephew, Billy Nichols of Cortez, Colorado, were guests in the Hayden home Sunday. Mrs. Boston and nephews also called on some other neighbors.

Mr. and Mrs. John Winter and Glen Schollenbarger took Mrs. Lizzie Giles to her home at Weatherford, Oklahoma Saturday. Mrs. Giles had been helping her sister, Mrs. Winter, during harvest.

Mrs. Pearl Wade of the Veteran's Administration Hospital, Temple, Texas was in Perryton over the week end visiting with friends and looking after the wheat harvest on her land near Huntoon. She was accompanied by her daughter, Ruth; Betty Lou Buchanan and Jack Parker, students at Baylor College, Waco, Texas. Calvin Reed, Port Arthur, came in with them to visit in the Parker home.

Jack Parker, a student at Baylor, and his room-mate, Calvin Reed were visiting over the week end with Jack's parents, Mr. and Mrs. George Parker.

Prairie Grave Now Railroad Memorial

CHICAGO (AP)—Each Memorial Day—since 1888—a train has come to an unscheduled stop on the lonely prairie near Elrod, S. Dakota, and while passengers waited and wondered members of the train crew have visited a tiny grave along the right of way.

There, a moment of silence is observed, a few brief prayers said, and flowers are laid on the grave. The trainmen return to their train and the trip is resumed.

When curious passengers ask about the stop, they learn the story of how a railroad man's sympathetic understanding of a small boy's fascination for railroading led to a friendship that has been memoralized for 61 years even though both the railroad man and the small boy have died.

The man's name was William F. Chambers, better known as "Big Bill" Chambers, and the small boy is known only as "The Little Fellow". Back in 1888 Big Bill was a brakeman on the train hauling track ballast for repair work under way in the area. "The Little Fellow" was the 12-year-old son of the couple who had charge of the kitchen and mess cars for the construction gang.

Each day when Bill's train pulled into the railroad camp, the boy ran to meet him and Chambers would spend hours telling him tales of the big cities and of railroading. Then, in August, the boy became seriously ill and died. He was buried along the right of way and Bill promised the boy's parents he would take care of the grave until they could return and remove the body. They never returned but Chambers kept his promise even when he became freight conductor and later passenger conductor. Section crews helped him by keeping the grass and weeds away from the spot. Some one put up a boulder to mark the grave.

Eventually Bill reached retirement age yet still visited the grave regularly on Memorial Day as long as he was able. Others took up the task for him and continued the practice even after his death in 1939. Vice J. Ford, conductor, married Bill Chambers' daughter. Every memorial Day Ford has taken Chambers' place although he, too, is now retired. The flowers are sent by his wife and Mrs. Lydia Benson, another daughter of Bill Chambers, both of whom reside at Redfield, South Dakota. Together with the train crews these people have kept alive the friendship of "Big Bill" and "The Little Fellow".

For 61 years the Chicago and North Western's Train 106 has stopped on the prairie near Elrod, South Dakota, as it will again this year. Passengers have waited and wondered. They have heard the story and seen the ceremony. Not once has a protest been heard.

In England during the Middle Ages, all men between 16 and 60 years old were required by law to practice archery.

the Tire That

OUTCLEAN

No tractor tire can pull unless it cleans. Firestone Super Balloons OUTpull because they OUTclean. The full-traction tread bars flare outward like the moldboard of a plow and channel the soil out as the tire rotates and flexes. There are no trash-catching "bar-stubs."

OUTPULL

The real test of a tractor tire is how it pulls when the going is tough. You can depend on Firestones to OUTpull because their traction bars are built higher for a deeper bite, longer for a bigger bite, Triple Braced for a stronger bite, and connected at the center for a full traction bite — all-the-way-across-the-tread.

Firestone

LOW PRESSURE ★

SUPER BALLOON TRACTOR TIRES

OUTLAST

Firestone Super Balloons OUTlast because their Triple-Braced bars cannot wobble and wear, cannot punch their way through the cord body like unbraced bars. The higher, longer, stronger bars of the Super-Balloon ride smoother, last longer. It's easy to see why Super Balloons continue to give full traction tread life long after other tires have worn smooth.

THE ONLY TIRE MADE THAT TAKES A FULL-TRACTION BITE ALL THE WAY ACROSS THE TREAD

800 Veterans In County Eligible for Insurance Refunds

Approximately 800 veterans in Ochiltree county will be eligible to receive dividends on National Service Life Insurance policies, payment for which has been authorized in Washington.

A total of $2,800,000,000 will be paid to approximately 16 million ex-service men and women of World War II. This would average about $175 for each veteran, but individual calculations have not been completed.

County service officer Tom Davis has requested veterans not to call at his office for forms or any other information about the refunds until a later date. Payments will not start until after January 1, 1950, and the application blanks will not be distributed until late August or September, he stated.

Every veteran in World War II who had a National Service Life Insurance policy and kept it in force three months will be eligible for dividends. Where policy-holders have died, beneficiaries will receive the payments.

MARINE OIL RIGS — The oil industry is taking hold in a big way in Louisiana—and the oil is coming from under water. Due to late methods of drilling in marshes and off the coast, the oil industry is becoming big business in the bayou state.

Perryton Nat'l Bank Doubles Capital Stock

The capital stock of the Perryton National Bank has been increased from $25,000 to $50,000, effective June 30, thereby strengthening the capital structure of the institution.

Surplus is now $35,000.

The bank became a one hundred per cent home owned institution two years ago this month when the C. E. Woods family purchased the stock of the W. W. Chandler family of Wichita. Officers of the bank are W. B. LaMaster, president; A. P. Spicer, vice president; C. E. Woods, executive vice president; J. B. Woods, cashier.

Tremble Will Fill Pulpit Sunday at Christian Church

Al Tremble will fill the pulpit at the First Christian Church Sunday in the absence of a pastor since the resignation of the Rev. Charles Boatman. There will be no evening church services, but young people's meeting will be held as usual.

On Sunday, July 17, the new pastor the Rev. McKinney formerly of Winfield, Kansas will make his first appearance in the local pulpit.

Sales and service are maintained on the line of ranges, refrigerators, washing machines and other electrical appliances.

21-Gun Salute Cut Down In Israel

TEL AVIV—(AP)—The Argentine embassy in the United States forwarded to Israel a request for information on how many gun salutes are fired here for Israeli President Weizman.

Actually the new state hasn't had time yet to work out a lot of these matters. But it proctocol department set to work, drew up a code, and replied: "Twenty-one guns, as other states do for their presidents."

But the note added, confidentially, that in fact so far they've only been firing five guns—because of the war and munitions supply and all that. (And whether it's five or 21, it is the first time military censorship has passed the fact that Israel has that many guns.)

Since 1840 every President of the United States elected in a year ending in zero, except the year 1900, has died in office.

A LITTLE FELLOW—The little colt shown above with its owner and mama stands only 17¼ inches high and weighs about 18 pounds. The mother is Messie Britches, five-lear-old registered toy Shetland that stands 29 inches high and has won many top money prizes in Texas and California as the smallest horse in shows. J. H. Flannery, Jr. (right) of Tyler, Texas, looks today from the Bosque country side, saw the colt he thought it was a spotted sheppard dog. (AP) Photo)

Ten Constitutional Amendments Submitted to Texans; Tentative Date Set for November 4

Texas voters will vote on at least ten, possibly more, constitutional amendments this fall. The Legislature set a record this year in offering amendments to the voters, the ten amendments being one more than the nine voted upon last year.

Original date for the constitutional amendment election was September 24, but this date has been changd, with November 4 now as the tentative date. The ten amendments ran in the Herald June 24, but were pulled out last week by order of the Secretary of State, while the election date is being determined.

The law requires that the amendments be published a minimum of four consecutive publications starting at least 90 days before the election.

At least two constitutional amendments have been declared dead in the past without a vote of the people because publication had not started by 90 days before the election.

No newspapers are published in Borden, Glasscock, Hartley, Jeff Davis, Kenedy, Loving, and McMullen counties, with one just started in Read which can not qualify as it must have been in publication for at least 12 months.

These publication precautions are being taken this year largely because of the court fight over the controversial college building amendment last summer, finally upheld by the Supreme Court.

Probably the most controversial amendment will be the one abolishing the poll tax. If the poll tax is done away with, as the federal government wants, some sort of registration law will be passed by the state legislature, with a registration fee to be prescribed.

In brief form, the ten amendments now to be submitted are:

1. Repealing the provision making the payment of a poll tax a qualification of an elector; requiring the Legislature to pass a general registration law for voters.

2. Making women eligible to serve on juries. They are now barred from jury service under the law.

3. Authorizing the Legislature to provide for the creation of rural fire prevention districts. Taxes and bonds would be used to obtain and operate fire equipment.

4. Increasing pay of legislators to $3,600 per annum plus 10 cent per mile to and from sessions; and providing for annual sessions, always to start on the second Tuesday of January.

5. Authorizing the Legislature to provide for the establishment of city-county health units; and authorizing counties and cities to provide a tax of not to exceed 20 cents on the $100 valuation of taxable property to finance the program.

6. To authorize the Legislature to give counties above 75,000 population the power to accord civil service to their officers and employees at option.

7. Empowering a district judge in a district of two or more counties to enter orders returnable in any of his counties without having to go into the county to do it.

8. Waiving trial by jury in lunacy trials, either by the person under inquiry, his counsel or a relative.

9. Vesting the Legislature with power to authorize the creation of hospital districts in the several counties to levy taxes for hospital purposes.

10. Empowering the Legislature to authorize a state-wide retirement system at the option of counties for their officers and employees.

No. 5 Continued from Front Page

the clinic at Plainview. It will be twenty-four to forty-eight hours before the seriousness of the case can be fully determined according to physicians at the Clinic in Plainview.

Denton lives in an apartment back of the LaRue Norris residence at 302 S. Amherst Street. He was alone in the apartment, and during the night Mr. Norris heard him scream and called Dr. Sanford. The patient was taken to Plainview by ambulance at 2 p. m. after examination here.

Denton came to Perryton last year as recorder for one of the Texas Company geophysics crews. He was graduated from Texas A. & M. in 1946 and worked for the Texas Company in Louisiana for a short time before coming to Perryton.

He is a graduate electrical engineer and was a lineman on the 1945 Texas A. & M. football team. A second lieutenant in the organized reserve corps of the Army, Denton was a company commander during his cadet days at A. & M.

During this year the Sanford Hospital has diagnosed two other polio cases from this area although neither of the patients were from Perryton. In one of these cases the patient was not sent to the clinic, and the other is scheduled to be released this week, having made a satisfactory recovery.

Dr. Sanford said that despite the fact that conditions for polio are favorable because of the large amount of rainfall and the abundant insect life, fewer cases have been admitted this year than last year when six cases were recorded for the year.

No. 3 Continued from Front Page

59.

Kershaw emphasized that the yields would probably have been slightly better had they been cut at the proper time instead of a week late. However, since this was just an experiment, the regular wheat crop came first on the cutting schedule, understandably.

Several farmers in this area have made fertilizer experiments with wheat, some using legumes as a combination fertilizing and pasturing experiments. The results of the fertilizer experiments have attracted wide attention from wheat growers.

Four School Districts Must Affiliate Soon

The county school board was scheduled to meet Wednesday afternoon to work out the details of consolidating the four dormant school districts in Ochiltree county with an active district. As the Herald went to press before the meeting was over, no details concerning the transfers have been learned.

County school superintendent Dave Shanks and superintendent Gilbert Mize of the Perryton schools attended the meeting in Amarillo a week ago to have the Gilmer-Aiken school laws explained. Senate bill 116 provides for the consolidation of all dormant districts with active ones. A "dormant" district is one which has not maintained a school for any two successive years subsequent to the 1946-47 school term.

McMillen, Cedar Bluff, Ridge and Alfalfa district fall under this classification.

Under the terms of the new law, the authority to consolidate the districts rests solely with the county school board, and consolidation must be done within 30 days after the bill became law, on June 7.

Members of the county school board are L. R. Conner, president; Virgil Olmstead, J. H. Kershaw and J. H. Calliham.

TEXAS POLL

as Wins Over Fort Worth exans' Living Preference

By Joe Belden
ector, The Texas Poll
N, Texas—The long-
rivalry between Fort
nd Dallas is illustrated
necdote they tell about
Carter, well-known pub-
the Fort Worth Star-

, so the story goes, was
irplane over Dallas. He
down and saw the giant
ed horse on the Magnolia
Turning to a compan-
exclaimed: "Everybody
Dallas is a one-horse
can's see why they have
ise it."

must be a slight exag-

In a statewide survey
ed by The Texas Poll,
ople said they would ra-
e in Dallas than Fort
And not a single one mentioned anything about a horse.

Mind you this was an accurate poll. It included correct proportions of men and women of all walks of life, rich and poor, of all ages, farm and city folks, whites and Negroes, living in all parts of Texas.

Seven out of every ten adults questioned took one side or the other, with the result coming out about four to three in favor of Dallas. Eighteen per cent would express no opinion. Seven per cent said both places were about the same. And five per cent libeled both cities by saying neither was fit to live in.

This was the question:

"As between Dallas and Fort Worth, which do you think is the better place to live?"

Dallas	42%
Fort Worth	28%
Both same	7%
Neither good	5%
No opinion	18%
	100%

Now you shouldn't jump to the conclusion, after looking at the above figures, that most people are getting ready to move to Dallas and Fort Worth.

The fact is most Texans say the place where they are now living is the best in the whole wide state. This is disclosed from their answers to the following questions:

"Of all the towns and cities in Texas, which ONE do you think is the best to live in?

"Which would you say is next best?"

	Best	Next Best
Named own community	59%	12%
Named larger community	27%	43%
Named some other place	8%	22%
No opinion	6%	23%
	100%	100%

Even though most people tell you their town or community is the best, the figures above also indicate great appeal of the big cities.

Note that seven out of every ten persons named a community larger than their own as "the best" or "next best" place to live. It looks like if there's any moving to be done, it's going to be from the smaller to the bigger towns.

Mr. and Mrs. Harold Hudson were in Amarillo and Dumas Sunday visiting his parents, Mr. and Mrs. H. O. Hudson and other relatives.

Certain insects attain far greater speed than even the fastest birds.

REMINDER OF TEXAS CITY DISASTER—The wreckage of the battered and partly submerged hulk of the SS Wilson B. Kearne, one of the three ships that sank during the Texas City disaster in Apr. 1947, is pulled from the Texas City harbor slip. The New Orleans, La., Coal and Bisso Towboat Co is clearing the harbor under the Direction of the U. S. Corps of Engineers at the cost of $230,000. The work is to be completed in 240 days. (AP Photo)

Europe's Soap Supply Called Good

OSLO—(AP)—Dr. Eric Mann, former professor in a Los Angeles university and an expert on European affairs, declares: Soap is one of the items which are plentiful here. No soap should be sent as gift from the United States. Send something else," he says, "but no soap."

Dr. Mann is in Oslo to discuss the establishment of university courses for Americans in the Oslo University. He has been conducting a one-man soap-for-children campaign for the last few years in the United States which has supplied 650,000 lbs. of soap to needy institutions all over Europe.

"France, Sweden, Luxembourg, Belgium, Holland—almost all European countries have now all the soap they need—mostly through home production," the doctor says. "Certainly Americans shall continue to help where help is needed. Therefore let us send linen, bed sheets, pillow cases. There is, for instance, not one single incubator in Oslo. Maybe some Americans will get one for the Rikshospitalet, Barneavdelingen Oslo."

Dr. Mann sayse the recovery in Norway after the war is marked, but still incomplete as Norway "has suffered unbelievably at the hands of the German invaders who has destroyed a large part of Norway's national wealth."

Weekly Swing of Southwest Farm Markets

(USDA)—Although some southwest farm products brought higher prices this week than last, the majority sold at unchanged to sharply lower levels, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Fed steers and heifers brought strong to 50 cents higher prices at Texas markets and steady to strong rates at Oklahoma City and Denver. Cows lost 50 cents to $1.50 or more at most markets, but sold fully 50 cents higher at Forth Worth and steady to 50 cents lower at San Antonio. Calves and vealers sold mostly $2 lower at Denver, 50-cents to $1 lower at Oklahoma City, and $1 to $1.50 down at Houston.

Calves held steady at San Antonio and gained up to 50 cents at Fort Worth.

Dressed beef, veal and mutton sold unchanged to $1 lower for the week at Chicago. Pork ranged from $1 to $5 lower. Lambs varied from $1 higher to $2 lower.

All classes of livestock arrived in moderately greater numbers this week than last at both southwest and midwest markets. More cattle came to midwest markets than a year ago, but all markets received far less sheep than last year.

White corn advanced 7 to 12 cents a bushel for the week, barley 2 to 3, and wheat one. Oats lost 5 cents a bushel, yellow corn one-half cent, and milo 10 cents a hundred pounds. Wheat closed Friday at $2.07½ to $2.15½ in Texas.

Six geese are required to provide a pound of goose feathers.

Chicago, with 34 railroads operating out of the city, is generally considered to be the the world's greatest railway center.

Steers Land Star

(AP) Newsfeatures

BAYTOWN, Tex. — Big Tom Stolhandske, Baytown High School's mightly full back, has picked his college.

Stolhandske, called "the Big Swede", was one of the most widely sought schoolboy athletes in Texas. Fourteen major colleges offered him a scholarship. Coaches camped on his doorstep. One out-of-state scout called Tom at 2:30 a. m. and two days later was at the Stolhandske home before breakfast.

On another occasion, one head coach and assistants were at the Stolhandske home. One of them made a freezer of ice cream. As it was finished, another scout from a rival school walked in. So the first group served him ice cream, too, but with glances as cold as the dessert.

Now Stolhandske has picked the University of Texas where he will play football and basketball.

Miss Dorothy Bruce and Miss Wilma Spearman, both of Spearman, were visiting and shopping in Perryton Thursday.

Christian Science

S. Colgate
Corner S. W. 7th Ave. and

"Sacrament" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 10.

The Golden Text is: "Thou, when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly' (Matthew 6:6).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let the words of my mouth, and the mediation of my heart, be acceptable in thy sight, O Lord, my strength, and my redeemer' (Psalms 19:14).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures' by Mary Baker Eddy: "The baptism of Spirit, washing the body of all the impurities of flesh, signifies that the pure in heart see God and are approaching spiritual Life and its demonstration" (page 241).

Gin Less Fussy Than Champagne

NEW YORK—(AP)—Mrs. Mary J. Davison recently celebrated her 101st birthday, discouraging too much fuss over her. She turned down champaign but did go for a Tom Collins to mark the occasion.

HEALTH FOR ALL

Infantile Paralysis

Parents have reason to dread infantile paralysis, or poliomyelitis. Besides the possibility of death, they fear that the child who gets "polio" might be permanently crippled. Some also feel helpless against the disease because there is still no preventive or cure for it and the exact method of its transmission is still not known.

But we do know that prompt treatment under medical advice may prevent even temporary crippling, or decrease the seriousness of permanent crippling, which is sometimes a complication of polio. If the disease causes temporary paralysis, it is still often possible to avoid permanent cippling through one of the newer methods of treatment.

The disease's popular name, "infantile paralysis," can be misleading. Although many cases—approximately 60%—reported are in children under ten years, polio can attack people at any age. Besides, paralysis occurs in only a fraction of the total number of cases, and about 80% of polio cases reported recover without any permanent crippling effects.

Polio is caused by a virus — a disease-producing organism so tiny that it cannot be seen through an ordinary microscope. Paralysis can occur when the virus injures or destroys certain nerve cells which control muscular action.

The disease may occur at any time of the year, but it strikes most frequently in summer. Polio "outbreaks," or epidemics, usually reach their peak in late August or early September.

Early symptoms of polio include headache, slight fever, upset stomach, or those symptoms commonly associated with a cold. At the slightest suspicion of polio, the doctor should be called at once. While waiting for the doctor, the sick person should should be put in a room by himself and be kept as quiet and as comfortable as possible.

While we still have a lot to learn about polio, there are certain precautions that can and should be taken against [illegible] ease, particularly when [illegible] an outbreak in the [illegible]

Children should be [illegible] of crowds at this time, [illegible] from anyone who [illegible] have even the slightest [illegible] —it is believed that [illegible] virus is spread from [illegible] person. It is wise to [illegible] ical strain, fatigue or [illegible] these seem to make [illegible] nerable to the disease. [illegible] also advise postponing [illegible] and adenoid operations [illegible] a polio epidemic as a [illegible] precaution.

Parents are wise to [illegible] information on polio. [illegible] be obtained from their [illegible] doctor, their local chapter [illegible] National Foundation for [illegible] tile Paralysis, or the nation[illegible] fice of the Foundation, [illegible] Broadway, New York 5,

TIME TO CLEAN UP—Blake Smith (left) and Wiley Discukes introduce a humorous note into the serious campaign Wichita Falls, Tex., is waging against polio. They wore these sign costumes last week as they called on storekeepers to remind them of the city's clean-up campaign. (AP) Photo)

be represented.

At Austin Texas, E. B. "Red" Gober, who used to play third base in the Pacific Coast League and compete with Willie Hoppe in billiards is sharpening up to try for his fifth championship here. He's 63 years old and a par shooter.

J. O. Dudley(Floydada, Texas, 59 years old and the Southwest Skeet champion, has had some hot rounds and will be ready.

Harry Althaus, 52, of Fort Bayard, New Mexico, will be shooting at all the bigwigs this time. He missed the title flight in 1948, then riddled par in every first flight match.

Roy "Snake" Allen, great nothing-ball pitcher of the Texas League 20 years ago, now a radio-television technician in Oklahoma City, has won the tournament once, been runner-up three times and medalist three times. He's 58 years old.

W. G. "Bill' White, who used to catch baseball for the New York Giants, now 54 years old, is polishing his strokes at Lamesa, Texas. He's a title flight regular.

Salem Curtis, Denver cattleman, who plays in cowboy boots with special golf cleats installed, has a new fancy pair, ready for the fairways of the Amarillo Country Club.

The grandpop of them all, Elmer Winn, 85 years old of Plainview, Texas, is playing nearly every day, scoring in the low 40's for nine holes. He's willing to match strokes with any golfer in the world over 80 years old.

Two familiar faces will be missind here July 26-30, directors have learned. Harrison Smith of Oklahoma City, and S. W. Creekmore, one of the most legendary quarterbacks in University of Arkansas football history, will be playing in England with the United States Golf team against a British Squad.

Mr. and Mrs. Danny Ellis were visiting parents, other friends and relatives over the week end. They returned to Ft. Worth Monday night.

Mr. and Mrs. J. R. Thomas returned Sunday evening from Baton Rouge, Louisiana where they attended the funeral of Mr. Thomas' brother-in-law.

Cochran, deceased, Emiline Day, Emiline Cochran, Emiline Forster, J. F. Cochrane, Eventha Day, Van Dyke White, their heirs and their heirs, and the legal representatives of all of them.

A brief statement of the nature of this suit is as follows, to wit:

Trespass to try title for the title and possession of the mineral estate in and under the East Half of the South Half of the Vanda-Hoya Survey, also known as the Vonder-Hoyo Survey, and as the Anton V. Hoya Survey, in Ochiltree County, Texas, Abstract No. 463, Certificate No. 30/237, Patent No. 345, Volume 21, dated November 2, 1875, and containing 276-¾ acres, more or less, and for damages as is more fully shown by Plaintiffs' Petition on file in this suit. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Perryton, Texas, this the 25th day of June, 1949.

SUE RAGAN
Clerk, District Court,

About These Signboards

The more we see of the four billboards along the highways entering Perryton, and which are supposed to be of great advertising value, the more we think local merchants made a donation to the company in Lubbock which put them up.

There is some question whether these billboards actually advertise Perryton in any manner.

If Perryton is to have a welcome sign to motorists, the best one would undoubtedly be a sign with only five or six words necessary to tell motorists traveling 50 or 60 miles an hour that "Perryton Welcomes You."

Since we have long ago outgrown the horse and buggy days, when the traveler could devote a lot of time to reading the lettering on a billboard, it seems to us that the fewer words on the board, the better. Oil companies, etc., carry out this idea in their advertising.

Instead of that, we have four signs packed with advertisements surrounding the words "Perryton," and "Wheatheart of the Nation." The result is a maze of lettering of odd sizes and colors which makes it difficult for a motorist to get much sense out of the sign.

A selling point for the signs was the fluorescent material which makes them readable at night. However, our signs can't be read very well at night, unless the motorist stops his car and turns the headlights straight at the signboard.

Besides that, weeds have grown up around the bottom of the boards, two of them are about to fall over, and they are more of an eyesore than an attraction for our city.

We're sure that signs could have been built and placed which would do the job far better—at a fraction of the cost.

The fellow on highway 117 between Spearman and Stinnett had the best idea about these sign's usefulness last winter. He built an extension fence along the end of it and had a good windbreak for his cattle. That's the only practical use we know for them.

Babson Discusses Security vs Opportunities

ROGER W. BABSON, Editor-in-Chief

Babson Park, Mass., July 1 — Whether we maintain a healthy, competitive Free Economy or drift toward a Great White Fatherly State will not be decided in Washington. It is being decided at the crossroads of your town and mine—today! Hence, this is my July fourth message.

America and Opportunity

The business of freedom of enterprise is your business and mine. Every so often, I hear an industrial bigwig tell our youth that there are no longer the frontiers there were in his day. The success—and fortunes—they say, are things of the past. This I do not believe, but too many of our youth do. For example, a college junior was given the opportunity to learn a whale of a lot about merchandising during his three-month summer vacation selling on commission for a nationally reputable concern. He was guaranteed one hundred dollars per month, plus transportation, room and board. His reaction: "I better join the 52-20 Club. I could get $80 a month from that and live at home with my folks, and I wouldn't have to do anything."

Chaps like these, both industrialists and students, are to be found at the crossroads in your town and mine. I am concerned about them because, if their intentions are good, their preparation for economic life in our competitive free economy is faulty.

Our Kids and Our Economy

I was severely jolted the other day when an associate of mine spoke before a young people's assembly. He tried to find a point of departure so the youngsters would know what he was talking about. He asked how many remembered the last business depression. Not a hand was raised. He asked how many could tell him what happened in 1937,—no one! For them life began with Pearl Harbor. They Know not for what July fourth, is celebrated.

Here, then, are kids who grew up under a war economy. Every thing has been assured them. The generation before grew up under N. Y. A. and C. C. C., and then escaped into the arms of the armed forces. Has our youth lost touch with the things that made America great? Our Government should not over-emphasize "Security" for the individual. Instead, opportunity should be promised. From what I hear of the other sode of the ocean, those who seek Security usually wake up within the "Security" of a heavy iron curtain! It takes ihmmmeasurably more sweat, toil, tears, courage, and character to remain free than to become a slave.

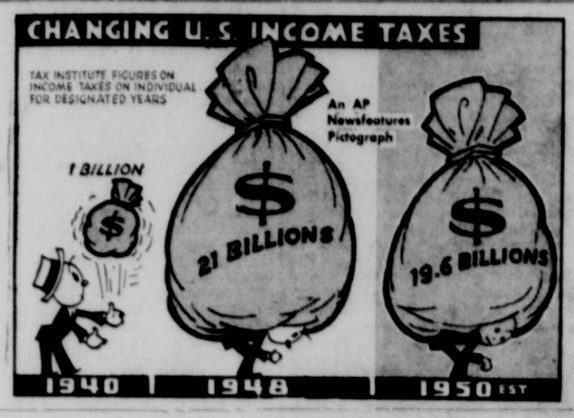

Education for Freedom

Labor circles, left wing groups and the like, are all telling their story. Whom do industrialists groom to speak for management at conventions, high schools, on the radio, at the Parent-Teachers Association? These are golden opportunities to educate at the grass roots. The busy businessman has too long muffed this chance to educate for opportunities. Hence, several huge corporations I know have recently set up new Public Relations Departments to try to recoup their positions in this last eleventh hour.

When I graduated from College there was but one automobile for every 950 people in the United States. Today, every five people have an automobile. Then, no families had radios. Today, 95 per cent of all American families have radios! This was made possible not by promising Security but by promising opportunity. America became great by an ever-present awareness of our spiritual and moral heritage. July fourth, celebrates the spiritual belief in the individual and a realization that each of us has not only rights but also has responsibilities.

Higher Taxes Not Needed

All President Truman needs to balance the Federal Budget is to assure more freedom and less security—to youth, wage-workers and employers. Then initiative will return, employment will increase, stock markets will rise and once again the Federal Government will have a surplus without any tax increases.

There Is a Time To Cut Hay

DAVIS, Calif.—(AP)—The best time for cutting vetch and oats for hay has been determined by Professor B. A. Madson and L. G. Jones on the Davis campus of the University of California.

Vetch is best for hay when cut in full bloom Oats makes good hay if cut when the grain is in the soft-dough stage.

Wolf Creek Philosopher

Farming Progress Is Matter of Opinion

(Ed. note: The Wolf Creek Philosopher seems to be about normal this week, the following letter reveals.)

Dear editar:

I was out here the other day watchin things grow and listenin to the drone of tractors runnin on my neighbors farms and wonderin if my cork was goin under from the pull of a fish big enough to be worth the effort of yankin up on the pole, ain't no use exertin yourself unnecessarily in this kind of weather, and I got to thinkin what my neighbor, the energetic one, had to say yesterday about farm machinery.

"What will they bring out next," he said, still admirin and covetin a new one-way he had seen in town that mornin which had self sharpenin discs and roller bearings and a gadget to make it turn corners easy, like he had never seen a fancy one-way before which he probably hasn't, livin farther out in the sticks than I do and bein a lot tighter with his money although probably not so lazy as he told me one time.

"First they had a walkin plow, and I can remember when they brought out the one-row ridin plow and I thought a man with one of them really had somethin," he went on. "Then they brought out the two-row ridin cultivator, then tractors to pull a 10-ft. one-way, and chisels and puddlers and combines instead of headers and thrashers. It's got to where harvest don't take no time any more, and the land is usually plowed by the time the combines pull out of the field."

He walked off in sort of a dream, like he though manufacturers was devotin their lives to makin farmin a snap.

Now understand I pride myself on being progressive, ain't never yet stood in the way of anybody to work harder, ain't never envied my neighbors flashy car or 18 months time-payments, but my suspicions is that most folks are kiddin themselves about progress.

The way I look at it is, if you're workin from sun-up to sun-down with a one-row cultivator workin a gardin or plowin around a section with the biggest one-way in the country, you're still workin from sun-up to sun-down. There may be some folks who can get some satisfactiou out of goin around a field plowin a wide swath, but to me there ain't no difference between that and goin up one row and down another. One may be producin more stuff than the other but both is equally tired when they climb off the seat at sundown, unless they turn on the lights and go all night like some of my more industrious and inconsiderate neighbors who can't realize that some folks like to sleep at night, and if the botton falls out of the price, which ain't un-heard-of in farmin, one ain't much ahead of the other.

Now if you need a bigger tractor and plow to get through quicker and go fishin, it might be different, but everybody I know with big plowin outfits has to work more land to justify the added expense and wind up puttin in the same hours as the one-row farmer.

Most folks, includin those in town, have lots of conveniences and contraptions, but in the final analysis the total amount of work necessary to make a livin and pay for the contraptions ain't been reduced very much by gadgets. An these new so-called time-savin gadgets around the house ain't savin much time, or else why is everybody I know rushin around all the time and don't have time for meditatin or hardly anything else actually useful.

For a year in and year out proposition, to get the maximum out of every day, I like my system better—just let things slide.

Yours faithfully,
J. A.

COMMUNITY PUBLIC SERVICE COMPANY

IT MEANS:

...ary Pay With 'Extras'

Clarke Beach

...GTON—All these "ex-... the officers of the ...ices get in addition ...ular pay are bother-... members of Congress. ...islators made a great ...m during debate in ... of Representatives ... military pay raise bill ...back to committee.

...n is that the "extras" ...ubstantial and a flat statement of officers' relatively low basic pay does not tell the whole story. On the other hand, the value of the "extras" can be easily over-rated.

Give a Marine majors commission to a husky figment of your imagination. Make him 38, with 10 years in the service. Station him in Washington where he supports a wife and two children.

"My base pay is $3,795 a year —$316.25 a month," he willingly replies when you ask him, since government pay is no secret. "I get $5,811 a year, when you include my allowances for quarters and subsistence. That's $105 a month for rent and $63 a month to buy food for the family."

"What about your extras?"

"The big item there is medical care. I get that and all my dental work free. The family gets medical care from the service, but no dental work. The regulations say dependents get both medical and dental care if available, but I've never seen a post where dental care was available for wives and children. As a matter of fact, about half the officers I know in Washington call in a private physician when anyone in the family is ill. They have to pay for that, of course."

"Don't you save a lot of money buying at commissaries and post exchanges?"

"Well, I pick up a few knick-knacks at the Post Exchange when I get in the neighborhood, but it's out of the way for me. The wife almost never gets over to the commissary. She finds that chain stores are just about as cheap, and it takes her nearly an hour to drive to it. People have big notions about the value of PX's and commissaries to military men. Here's the real dope . . ."

The major produced a table which the National Defence Establishment recently submitted to the House Armed Services Committee. It listed the total sales in commissaries (food stores) and post exchanges (general stores) for the calendar year 1948. It showed that in commissaries the prices were 12.4 percent cheaper than in comparable stores in the community and that in post exchanges the prices were 15 per cent cheaper.

The average military man spent $399.61 during the year in Post Exchanges and commissaries, mostly overseas. His average saving was 14.4 per cent, or $57.56 under what he would have had to pay if he had dealt in civilian stores.

"Your income tax is pretty low, isn't it?"

"Yes, I get a break there. I didn't have to pay any tax at all during the war after figuring my exemptions and deductions. This year I figure I'll pay $168.66. I'm taxed only on base pay."

"What about your retirement benefits?"

"Good. If I make colonel by the time I retire, in another 20 years, I'll get $412 a month. But when I die, of course there'll be nothing for my wife. I have to carry life insurance to provide something for her."

"Well, what about the rest of the 'extras'?"

"There isn't any more as far as I konw."

"What about government automobiles?"

"I never climb into a government car except on official business. Only four officers in Washington are assigned cars for their private use—the four chiefs of staff. If you're on a past out in the boondocks, you sometimes get away with using a little free government transportation, but most posts are pretty strict about it."

"Wouldn't you save money on rent if you were assigned to quarters on a Marine Base?"

"Sure would. But do you know how many quarters there are for Marine Officers in Washington? Six. And 657 Marine Officers are stationed here. There are 947 quarters for offfcers altogether in the area, and there are 13,947 officers here, counting all four services."

EVEN THE MAYOR PAYS—Mrs. John J. McGraw, wife of the late manager of the Giants, sells the first ticket to the all-amputee veterans baseball game to New York's mayor, William F. O'Dwyer, as President Howard J. Kelly of the National Amputation Foundation looks on.

Housing Projects Change New York

NEW YORK—(AP)— Within a few years it is expected that one out of every 25 residents of New York City will be living in a housing project.

The new apartment projects, besides changing the face of Manhattan by removing many of the old tenements, also is upsetting an old pattern whereby neighborhoods were dominated by people of similar national backgrounds.

Long Campaign

EAST LANSING, Mich. —(AP)— Baseball at Michigan State has been a continuous sports since 1883, with the exception of 1944, when intercollegiate athletics were discontinued due to the war.

2 Bureaucratic Snakes

BENTONG, Malaya — (AP) — Snakes have been found in a government office.

Three were killed in 10 days in the Bentong district office. Two were cobras, each seven and a half feet long.

If all the insects in Africa were weighed together they would outweigh all the animals in Africa.

Salt Deficiency May Cause Heat Cramps, Fainting

AUSTIN, Texas—A deficiency of salt in the human system can cause serious consequences, and for this reason Dr. Geo. W. Cox, State Health Officer advises every person whose work is such that it causes excessive perspiration to add a pinch of ordinary table salt to each drink of water taken during the day.

Farmers, mechanics, carpenters, construction men and all others whose work causes them to sweat profusely are in danger of having their body salt content seriously depleted, and as a result may suffer from heat champs or heat fag. Salt is a prominent constituent of sweat, and when the thermomenter hits the high register, the human body may lose as much as 40 to 50 grams of salt during a single day.

In many industrial plants, workmen are furnished with and urged to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Many find this a pleasant way of taking extra salt, but others prefer to add the needed amonunt of extra salt to their food and drink.

"Take your extra salt in any manner that is agreeable to you", says Dr. Cox, "but take it". Heat cramps are very painful and exhausting. They are characterized by cramps in the abdominal region, headache, and in severe cases there may be nausea and vomiting. Body salt losses occur without the knowledge of the individual until a deficiency exists; then the abdominal muscles begin to cramp."

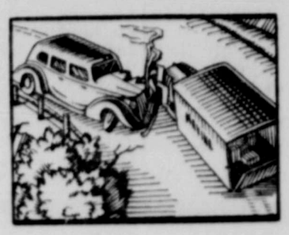

According to the State Health Officer, it is a wise precaution to keep the body supplied with salt, and thus avoid much possible suffering and loss of time from heat cramps.

Thailand To Make Own Gunny Sacks

BANKOK—(AP)—Thailand will begin furnishing gunny sacks for her basic rice industry under a $750,000 program approved by the Cabinet Council for establishment of a factory here. Thailand now imports about 15,000,000 gunny sacks annually, mostly from India.

Third base is the "hot corner" of baseball.

Progressive Texans Make Farm Living Reach New Heights

By Robert E. Ford
Associated Press Staff

COLLEGE STATION, Tex. — (AP)—It took 19 farm people to support one city dweller in 1787.

Today, 19 farm people support themselves, 56 other Americans and 10 persons abroad.

It just goes to show how far farming methods have improved say Texas A. & M. college's extension in a recently published booklet. The handsome, illustrated publication is called "The New Agriculture."

"There is no practical limit to what American agriculture can produce," says the booklet.

But as important as is this boost in production, the extension service claims, are two other gains.

1. Farm families now can live as well as city dwellers.

2. Farm people have gained selfconfidence. They have grown in stature in our society.

The agricultural service credits the progressiveness of Texas farmers—willingness to learn—for the improvements.

The booklet has division on mechanization, living conditions poultry, livestock, eating, the war against insects, harvesting, conservation, family life, and "the new confidence." The facts are illustrated by relating incidents from the lives of Texas farmers and ranchers and their families.

"The welfare of farm families no longer depends entirely upon their thrift, how long and how had they work, nor upon such things as the virgin fertility of their soil, climatic conditions and markets," says the extension service.

"Today the degree of success is influenced a great deal by how much they know, how well they keep up with technical advances and how efficiently they apply what they know."

The booklet adds: "The trend is toward a greater dependence upon non-row crops and livestock; toward intensive development of pasture lands and increased production per man and per unit. Farm families are planning balanced farm programs adapted to market opportunities and wise land use.

"The end product is that farm families can enjoy the same standard of living as do city families. True, all farm families have not yet reached that point, but it has been done often enough to show that opportunity exists.

The report tells of 4-H club members' poise before crowds as they tell about their projects. Then adds the report, when a farmer nowadays sees a banker about a loan.

"He talks to him as one man to another, because he is not asking for money to tide his family over until the next harvest on a subsistence basis; he is asking for financial backing, and he can show how he can not only repay the loan and interest but increase his income. He has the confidence of a substantial citizen of the community; he's not asking a favor; he's talking business."

The book deals at length with the use of labor saving devices to make work and home life more pleasant. One example is the growth of rural electrification. It is called "perhaps the greatest force for the improvement of rural living."

In 1930, the report relates, only 4.6 per cent of Texas farms were electrified. By 1940 the figure had jumped to 22 per cent and by the end of 1948 to 78 per cent. If the present rate continues, 95 per cent of all farm homes in Texas will have electrification by 1951.

For the field work, the report cites the great increases in tractors and other labor saving equipment. The extension service estimates that 211,799 tractors were on Texas farms by the end of 1948.

Alongside mechanization has moved increased yields of crops through new varieties and other methods, and soil improvements and fertilizer use.

A decade of prosperity gave agriculture the income to put tractors, equipment and power to work, the report points out.

It also declares that "the greatest single influence has been the research findings of the state and federal agriculutral experiment stations and the development of the county agent system through which these finding are brought to the farms and ranches."

FAMOUS BY ACCIDENT—Festival day in Shimoda, Japan old and new Japan together—almost thunderously. It was here, 100 miles southwest of Tokyo, that Commodore Matthew Galbraith Perry's "black ships" first broke Japan's medieval seclusion in 1850. This festival commemorates Perry's landing.

don't DO that!

GRIN AND BEAR IT . . . If you complain constantly about the heat you make everyone else more conscious of it.

Idaho Mormon Town Grows

FRANKLIN, Idaho — (AP) — Franklin, Idaho's oldest community, recently observed its 89th anniversary. The town, in the extreme southeast corner of the state, was settled by Mormans. At the last census it had a population of 523.

Miss Mildred Benjegerdes, Beaver, Oklahoma, was visiting with friends in Perryton Sunday.

Begger Gets Fortune, Doesn't Know It

CAIRO—(AP)—A ragged begger who pleads for alms in the shadow of the Pyramids had a fortune in stolen jewels. But he didn't know it. Police for months had been hunting $80,000 in gems taken last summer from Mrs. Nahas Pasha, wife of the Wafdist Party leader.

Finally they caught the thieves. After holding out until the police fed them a chicken dinner, they admitted they had given many of the jewels to a begger named Bahluk. The jewels were wrapped in a package and the begge didn't know what they were, they said. He had been instructd to hide them.

After questioning, Bahluk was released. "I just never got around to looking inside that cloth," he admitted ruefully.

Italy's Auto Makers Beat Back Toward "Normal"

ROME—(AP)— Italy's automobile industry will be back to normal before the end of the year, the National Assiciation of Automobile Makers (ANFIAA) announced.

It will be possible by then to enter a car dealer's display room pay for your car and get it right away. Now it takes some six months to get a new car. The present situation is blamed mainly on 90 days of strikes and labor agitation in the main Italian industries in the first four months of this year, ANFIAA said.

Production which has slowed down 30 per cent, is now quickly speeding up and will reach normal in a few months. While all European automobile makers are producing mainly for export, the Italian industry keeps a good share of its production for the internal market. ANFIAA said in France only 46.5 per cent of cars registered last year were new, (in England the figure was 33.9 per cent) and in Italy 74.1 per cent.

Until a few weeks ago, black market on new cars flourished. A new car directly from the factory could be sold at a good profit to ready customers. Price mark ups were sometimes as high as 30 per cent over regular dealer price lists. ANFIAA took strong steps to stop the practice.

Garden Club Members Urged To Pay Dues

Mrs. Lawrence Ellzey, president of the Perryton Garden Club has just announced that the yearbooks of the club are soon to be compiled, but it is necessary, before they go to press, to have the dues of all those who wish to have their names on the roster. All old members are asked to send their name and check for $4.00 to Mrs. C. W. King, 517 S. Baylor, immediately. In answer to many inquiries as to how one may become a new member, Mrs. Ellzey stated "anyone interested in becoming a member of the Garden Club may do so by sending her dues and name to Mrs. King. Please do this as early as possible, so that this name may be included in the roster." The club has planned a very interesting program for the coming year and prospective members are urged to join.

Local Residents Celebrate Fourth

Fried chicken was the center of attraction at a picnic given at the Wolf Creek picnic grounds Monday evening in celebration of the fourth of July.

Enjoying the night's outing were Mr. and Mrs. Drew Ellis, Stacey, Carl and Linda, Mr. and Mrs. Virby Conley, Dixie and Benny, Mr. and Mrs. F. L. Gerard and Diane, Mr. and Mrs. Danny Ellis, Donald Ellis and Gale Rogers.

The children spent the evening shooting fireworks.

After the picnic, Mr. and Mrs. Danny Ellis left for their home in Ft. Worth.

Henry Swenn Is Dinner Honoree On 61st Birthday

Mr. Henry Swenn Sr., of Follett, celebrated his sixty-first birthday on July 3 with a birthday dinner.

Those present were Mr. and Mrs. George Kroft, Logan, Oklahoma; Mr. and Mrs. Fred Swenn and children, Darrouzett; Mr. and Mrs. Alex Swenn, Pampa, Texas; Mr. and Mrs. Dave Swenn, Cates-by, Oklahoma; Mr. and Mrs. Willard Herrel and boys, Follett; Mr. and Mrs. Henry Swenn Jr. and children, Follett; Mr. and Mrs. Christ Peil and son, Follett, Mr. A. J. Swenn, Follett, Mr. Ray Kelln and the hostess Mrs. Henry Swenn Sr.

His birthday cake was decorated in white and blue icing with sixty-one candles, all of which he extinguished with one blow. The whole group wished Mr. Swenn many more happy birthdays to come.

Isn't That Just Like A Woman?

By CYNTHIA LOWRY
AP Newsfeatures Writer

A lady named Mrs. Bj Kidd (yes, Bj) has written a book saying that it's all right not to worry if you're a woman who can't keep your checkbook straight and can't seem to keep within your budget.

That's the way women are, Mrs. Kidd says, and any woman who isn't casual and dreamy about her bookkeeping is either scared of her bank or has a husband keeping a sharp eye on her transactions.

Mrs. Kidd, who is a successful advertising executive in Philadelphia, has written a book called "Women Never Go Broke." She explains, in 200 pages, this whole business of men, women and money. I think her book is the greatest thing of the year because I'll never worry about a bouncing check again.

She says that one of the main differences between men and women is money. When a woman looks at a greenback she really is seeing an olive green cloche of fur felt with a coq feather, or a doctor's bill marked "paid," or Junior receiving his diploma from Yale.

When a man sees an engraving of George Washington, he's thinking about it as part of his fortune, whether it's a little one or a big one. Money is a medium of exchange to a woman—good for only what they can receive for it. Money to a man is power and position.

Mrs. Kidd isn't quite as flat about the thing as that, but that's the general idea. She points out there's bound to be quite a lot of confusion as a result, because most bankers are men, and most of the people with money to spend are women. She's even pulled together some figures about how women spend 85 per cent of the money, women own 50 per cent of corporation stock, and so on.

Most females go around all their lives feeling a little guilty because they can't figure out all the to-do about finances. They try to understand all the forms and fill out all the papers their husbands and bankers seem to think are very important.

The next thing I liked best about the book—next to the comfort and security I felt after reading it—is Mrs. Kidd's system of keeping her checkbook. I've never been able to figure out how much money I had in the bank, except to know perfectly well it was considerably less than my hit-and-run mathematics indicated. Bank statements, carefully wrapped around old checks I've forgotten about, show up through the mails every couple of months, but they just mix me up more. A couple of years ago, I stopped opening any communications from the bank and I stuff them unopened in my desk drawer. This has eliminated one cause of worry, but I still had the old fear of an inadvertantly bouncing check and facing prison or worse.

Well, Mrs. Kidd knows how to prevent that. Every time she draws a check for cents as well as dollars, she just enters a round sum in the checkbook. Like if the check is for $25.67, she enters $26.00. Or even if it's $25.01, it gets entered $26.00. It's easier to add without making mistakes, and you always have much more money than you think you have.

The only trouble with the system is that men—husbands and bankers mostly—wouldn't approve of it, but you don't have to tell. Besides, Mrs. Kidd says that men have made up all this stuff about stocks and checks because they really like to fool around with it. We women don't but she advises that every woman have some man—husband or banker—around who is pretty strict and stern. This is because you can still get into an awful lot of trouble if you ignore the man-made rules.

Mrs. O. C. Watson and children, Hope and Jack, are visiting in the homes of the children's grandparents, Mr. and Mrs. O. C. Watson, Sr., Clarendon, and Mr. and Mrs. N. M. Lawler of Goodnight, Texas. They will be gone about two weeks.

Harold Hudson Is Party Honoree

Harold Hudson was the honoree of a surprise birthday party on Monday, July 4, given by the Herald staff in the main office of the Stewart Printing Company.

A two tier birthday cake, coffee and ice cream were served to Mrs. F. L. Gerard, Mrs. Earl Laughlin, Len Lowe, Paul Loftin, Raymond Overbey, Marvin Walton, Jim Records, Jake Dunkle, Donald Payne, Mr. and Mrs. Van Stewart and the honoree.

Wades Host for Ice Cream Supper

Mr. and Mrs. Luther Wade were hosts for an ice cream supper in their home, 721 S. Colgate, Saturday evening.

Those attending were Mr. and Mrs. Woodrow Brillhart and Jo Lynn, Mr. and Mrs. Fountain Wade and Bobby, Mr. and Mrs. Haskell Holland, Mr. and Mrs. George Parker, Mr. and Mrs. Bill Parker, Mrs. Mae Belle Lawrence, Bettie and Carol Lawrence, Mr. and Mrs. Stanly Key and Jimmy, Jack Parker, Calvin Reed, Pearl and Ruth Wade.

Janie Putman and Jane Headlee Are Picnic Hostesses

Misses Janie Putman and Jane Headlee were co-hostesses for a weiner roast Tuesday evening in the Putman home, 1021 S. Colgate.

Outside games and the good food were enjoyed by Dixie Conley, Diane and Maurine Pearson, Leola Ruth Phillips, Susie McGregor, Barbara and Roy Lynn Stallings, Russ and Kim Thomas, Judy and Sue Woodward, Janice Shuster, Sue Ann Brashears, Carol Sparkman, Douglas Ferguson, Darlene Russell, Hope Watson, Norma Jean Davis, Shirley Keim, Jimmy and Norma Yocham, Karen Pritchard, Venita, Tommy and Ronnie Brown.

Darlene Thomas Is Honored With Party Saturday

Miss Darlene Thomas, daughter of Mr. and Mrs. Arthur Alf, 814 S. Fordham, celebrated her birthday Saturday afternoon with a theater party. Darlene was nine years old the first of July.

Following the movies, Mrs. Alf assisted by Mrs. Ray Weir, served cake, ice cream and cokes to the children attending. Favors of key chain pencils were presented to the guests.

Those enjoying the afternoon were Nevafay and Billy Ray Weir, Janye Todd, Sidney Slack, Mary Lee Nitschke, Carol Thomas, Barbara Powell, Dixie and Benny Conley, Stacy and Carl Wilson Ellis, Peggy and Carla Sue Blackmore, Connie and Norma Earl Fuson, Cathryn and Bessie Brillhart.

RECIPE OF THE WEEK

Cantaloupe with Cherries

Chill fruit. Peel and quarter cantaloupe. Arrange on a suitable serving tray. Garnish each piece of cantaloupe with several red cherries which have not been stemmed. Place dark green leaves around tray at intervals to make the fruit plate more colorful.

To Fry Eggs

Leave only enough grease in skillet in which ham has been cooked to keep the eggs from sticking. Heat skillet. Slip eggs into skillet and reduce heat. Cook until edges turn white, about 1 minute. Add a small amount of water—about ½ teaspoon per egg. Cover tightly and cook to desired doneness.

SUMMERTIME BREAKFAST

Cantaloupe with Cherries
Ham—Fried Eggs—Grits
Hot Biscuits—Butter
Blackberry Jam
Coffee—Milk

TIMELY TIPS

Extension Foods and Nutrition Specialists
Texas A. & M. College

1. Eat a good breakfast to start a good day—a good breakfast at 7—no let-down at 11.

2. Cantaloupe and cherries are plentiful in southwest markets now and are a real eye-opener for breakfast.

3. Eggs fried with a small amount of water in a covered skillet are "self-blindfolding".

4. Save time each morning by using a master-mix for hot breads.

Cayler Home Is Scene of T. E. L. Class Meeting

The T. E. L. class of the First Baptist Church held their social and business meeting in the home of Mrs. John Cayler with Mrs. O. E. Carter sharing hostess duties.

In the absence of Mrs. Speer, Mrs. John Blackburn acted as president.

The devotional was presented by Mrs. Harve Holdeman and the prayer was given by Mrs. I. H. Parker.

Refreshments were served to Mesdames C. C. Carter, Anna O'Buck, T. P. McClain, I. H. Parker, J. W. Cayler, J. M. Grigsby, J. D. Wade, T. M. Wright, Lydia Holdeman, J. W. Blackburn, O. E. Carter and Anna Brantley.

Mrs. A. M. Strickland was a guest.

Swimming Party And Picnic Honor Kay Le Master

Miss Kaye LeMaster, Guymon, was the honoree of a lawn party Friday night given by Mrs. Jake LeMaster. The guests were served hot dogs and Cokes, after which they went to the local pool for a swimming party.

Those present for the occasion were Kay Cayler, Doc Carter, Patsy Carter, Jigo Carter, Ronnie Witt, Billy McLanahan, Laurel Lovett, Mary Batman, Jeanne Suitor, Norman Allen, Janice Miller, Don Dietrich, J. B. Langwell, Alfred Carter, Donna Helton, Freddy Dendy, Ann Osborne, the hostess and the honoree.

Hudsons Hosts For Supper Club Friday Evening

Mr. and Mrs. Harold Hudson were hosts for their supper club Friday evening in their home, 805 S. Amherst.

High score for the evening was made by Mrs. O. W. Dunkle and low by Mrs. Paul Loftin.

Places were laid for Messrs. and Mesdames Tom Slack, O. W. Dunkle, Gilbert Mize, Jack Todd, Paul Loftin, guests, and the host and hostess.

Hal Chases Are Hosts For Dance

Mr. and Mrs. Hal Chase were hosts Friday evening for a dance in honor of Mr. and Mrs. G. R. Sadler of Los Angeles, California, at the Wolf Creek Park Club house.

Present for the occasion were Mesdames and Messrs. Bob Schuster, Knute Dowers, Percy Austin, Elliott Lee, Johnny Luthi, Jimmy Palmer, Bruce Holmes and Delores Grigsby.

At 1:00 a. m., following the dancing, the guests were served breakfast.

Chi Rho Group Has Ice Cream Supper

Mrs. George Dietrich entertained the Chi Rho group of young people of the First Christian Church Sunday evening with ice cream and cake.

Mrs. Dietrich made the ice cream, the Chi Rho group froze it before church and the party was held following the evening service.

Three Share the Honors at Dinner

A dinner in the home of Mr. and Mrs. Debs Riley at 7:30 p. m. last Saturday marked the birthdays of Mr. and Mrs. Riley and Mrs. Floy Williams of Canadian.

Places were laid for Mr. and Mrs. Jim Anderson, Jimmy and Judy, Mrs. Edna Watson, Mrs. Williams and Nancy, Mr. and Mrs. Riley and children.

Mrs. McGibbon Is Bridge Hostess

Mrs. Glen McGibbon was hostess for the Friday club in her home, 806 S. Eton, on July 1.

High score for the afternoon was made by Mrs. Vance Apple.

Light refreshments were served to Mesdames W. C. Hernodn, Vance Apple, G. W. Acker, Max Boyer, LaRue Norris, H. C. Brillhart, and Fred Osborne.

STUDY IN CONTRAST . . . The bold black stripes in this packable crusher of milan balance the bold frames of the glasses, says designer Laddie Northridge.

Dinner Club Meets In Sanford Home

The Roy Sanford home, 21 S. W. Fifth Ave., was the scene for the Saturday meeting of their dinner-bridge club.

High score for the evening was taken by the James McGregors.

Places were laid for Mesdames and Messrs. Alton Boxwell, James McGregor, Giltner LaMaster, Clifton Bell, guests, Mr. and Mrs. James Pitts, the host and hostess.

Apple Home Scene Of Dinner Sunday

Mr. and Mrs. Vance Apple Mr. and Mrs. LaRue Norris were hosts for an informal dinner in the Apple home, 719 S. Grinnell, Sunday, July third.

Places were laid for Dr. and Mrs. C. W. Boyer and Bennie, Wichita, Kansas; Mrs. D. C. Boyer and grandson, Jon, Oklahoma City, Oklahoma; Mr. and Mrs. Max Boyer, Mr. and Mrs. Charles Taylor, Mr. and Mrs. Vance Apple and Mr. and Mrs. LaRue Norris.

Patsy Moon Is Honoree Of A Birthday Party

Miss Patsy Moon celebrated her eighth birthday, June 26, with a party given in her home, 21 N. Drake, by her mother, Mrs. W. A. Moon.

Those enjoying the evening were Jerry Ridges, Alice Faye and Bobby Kite, Faye Jean and Donald Rouse, Marion, Clara and Darrell Stroud, Gary Maxwell, Wanna and Billie Jennell Graves, Mrs. Jenny Graves, Mrs. Peggy Roberts, the hostess and the honoree.

A guest in the home of Dr. and Mrs. Manse Wood this week was his aunt, Mrs. May Griffith of Dallas.

Working in Perryton for the summer are three students from Arkansas State Teachers College at Conway, Arkansas: Pete Arnold, Dick Cotham, and Don Odom.

Perryton Visitors Dinner Honorees

Miss Janice Miller was hostess to a supper Thursday night given in honor of Misses Kaye LeMaster of Guymon, Oklahoma and Mary Batman of Kansas City, Missouri, who are visiting in Perryton.

After the meal, games and records were enjoyed by Jackie Carter, Patsy Carter, Jeanne Suitor, Jean Delano, Ann Osborne, Kay Cayler, Elaine Clack, Mary, Kaye and Janice.

Frances Norwood attended a Bruce family reunion in Alanreed Monday.

Start Paving Lipscomb to Higgins Road

DARROUZETT—Paving of 12.81 miles on Highway 213 between Lipscomb and Higgins is underway with Bell & Braden of Amarillo contractors. Paving of this road has long been sought by residents of Lipscomb and Higgins and will greatly improve communications between the two towns.

Contract price for the project according to G. A. Jenkins, Lipscomb county judge, is $231,000.

Another road project of importance to Lipscomb county residents is the reconditioning of fifteen miles of Highway 305 between Lipscomb and Darrouzett. Work on this project is scheduled to start immediately and the work will begin at a point five miles south of the "Y" where Highway 305 joins Highway 117, east of Darrouzett.

(Herald staff photo)

DARROUZETT CITY COUNCIL—Shown above are members of the Darrouzett City Council in session June 27 to discuss a new city water and sewer system. Pictured l to r are: John Ragan, Ray T. Hennigh, E. B. Burton, secretary, Melvin Beck, and Mayor M. W. Woods. Final plans for the proposed water and sewer system have not been announced by thecouncil.

FANNY IS A SUCCESS—Fanny Blankers-Koen, who won four gold medals in the 1948 Olympics, has started a wave of sports minded women athletes in her native Netherlands. Shown above is Fanny with her husband, litle Jan, 7, and Fanny, 3, admiring their mother's medals.

Radioactive Sulphur Traces Citrus Burns

VANCOUVER, Canada —(AP)— Radioactive sulfur tracers and a Gieger counter are used in the Univesity of California to learn how sulfur burns citrus fruits. This knowledge may be useful to make safe such popular insecticides as sulfur dust and lime-sulfur sprays.

The methods were reported at the annual meeting of the Pacific Division of the American Association of the Advancement of Science. The report was based on work done by Dr. F. M. Turrell and Marcella Chervenak of the College of Agriculture's Citrus Experiment Station, Riverside.

It appears that when there are not enough metals present in the peel sap to tie up the sulfate formed from the sulfur dust, the sulfate becomes sulfuric acid which is responsible for the burn.

omb County Board Meets Tues. to Effect ol Consolidation Under Gilmer-Aiken Law

G THE HEAT—Summertime heat is no problem for Doug, ...gee of the Marsalis Park Zoo, Dallas, Tex. It is a pleasure, ...hold and eat four ice cream cones at one sitting and never ... (AP photo)

LIPSCOMB—Members of the Lipscomb county board of education were scheduled to meet Tuesday to effect consolidation of dormant school districts in the county under the provisions of the Minimum Foundation School Law which became effective June 8.

Judge G. A. Jenkins, county superintendent of schools, requested that representatives of each of the common school districts in the county and each of the independent districts have representatives at the meeting. The representatives of the districts to be consolidated were to be asked to state their desires in regard to consolidation.

Members of the county board are B. C. Hurn of Higgins, E. C. Glasgow of Follett, E. B. Burton of Darrouzett, Max Blau of Booker, and Charlie Hill of Lipscomb.

Under the provisions of the new law the county board of trustees is required to consolidate by order of the board each dorman school district within the county with an adjoining district or districts. The law defines a dormant district as one in which has not operated a school for any two successive years since the school term of 1946-47.

Under this provision all Lipscomb county rural schools except the Valley Park school are subject to consoiidation. Lipscomb county common school districts are: Cope, district 13; Gillaloo, district 14; Lone Star, district 2; Locus Grove, district 19; Liberty, district 22, Plum Creek, district 24; Cotton, district 5; Willow Creek, district 8; Prairie View, district 11; and Coburn.

Lipscomb county schools will receive the maximum transportation benefit of $63 per scholastic according to Judge Jenkins. This amount will be provided by the state for each pupil living more than two miles from the school he attends. Sixty-three dollars per scholastic is paid to those counties having a scholastic population of fewer than one per square mile. Lipscomb has a scholastic population of 871 for its 900 square miles.

Payment of transportation benefits will be handled through the office of the county superintendent with all disbursements authorized by the county board of trustees.

The law also privides minimum salary schedules for teachers and supervisors as well as other provisions to promote equal facilities for all scholastics.

Lipscomb county will provide $42,300.00 in revenue as its proportionate share of the $45,000,000 school program of the state to be carried out under the provisions of the new law.

Mr. and Mrs. Herman Meadows, Sharon Kay and Ronnie Ferguson, were in Pampa over the fourth of July visiting his mother, Mrs. A. N. Meadows and his sister and her family, Mrs. Lewis Meers.

WHITNEY DAM NOW ABOUT ONE-THIRD COMPLETED—This is the day the Whitney Dam, a $42,000,000 project on the Brazon River in Central Texas, looks today from the Basque county side. The dam, started in 1947, is to be completed in 1952. The earth section in the background forms a new roadbed for Highway 22. The concrete section is more than half-way up at the highest point. The two cranes are used for pouring cement. The towering structure at the right is the concrete plant. (AP Photo)

Lipscomb Wheat Crop Is Short Of Expectation

LIPSCOMB— Fourteen bushels per acre is the estimated wheat yield in Lipscomb county where harvest of the 1949 crop is virtually complete, according to Martin Gossett, county farm agent.

The fourteen bushel yield came as a disappointment since it fell far short of pre-harvest predictions. Excessive moisture accompanied by hail in some sections of the county plus damage from rust and other plant diseases are considered responsible for the unexpected low yield.

Mr. and Mrs. Charles C. Clark, Amarillo, and Mrs. Jack Gartland, San Diego, California, were in Perryton last week visiting friends.

June Rainfall For Lipscomb Is 5.77 Inches

LIPSCOMB—Rainfall at Lipscomb for the month of June totaled 5.77 inches according to the records of R. H. Cowan, United States Weather Bureau representative at Lipscomb.

A total of 7.95 inches of rain fell in May, the record month so far this year which promises to be the wettest on record.

Guests in the home of Mr. and Mrs. M. S. McKee last week end were Mr. and Mrs. George McKee and family of Amarillo.

Mrs. J. A. Minton spent the week end at Canadian visiting in the home of Mrs. Morris Bennett.

A daughter was born to Mr. and Mrs. Gust Koch, June 27, at the Higgins Hospital.

Mr. and Mrs. Don Beard of Amarillo have been spending the harvest season at the home of Mrs. Beard's parents, Mr. and Mrs. M. R. Meredith.

Mrs. Geneva Wright has been at her farm near Booker during the harvest season. Her home is in Kansas City, Missouri.

Mr. and Mrs. Virgil Terrel of Canadian visited with relatives in Lipscomb and Follett last week.

Judge G. A. Jenkins was in Amarillo last week to confer with State Highway officials on Lipscomb county farm to market roads.

Weekend visitors in the homes of Mr. and Mrs. Max Boyer and Mr. and Mrs. Charles Taylor were Dr. and Mrs. O. W. Boyer and Bernie of Wichita, Kansas; Mrs. Olive Boyer, also of Wichita; Mrs. D. C. Boyer and grandson, Jon, Oklahoma City, Oklahoma.

Mr. and Mrs. C. A. Zirkle and grandson, Larry Don Zirkle of Erick, Oklahoma, left Friday for a trip to Colorado Spring, Colorado.

How to be popular with your secretary

Little things can make a big difference to your secretary. Take carbon paper, for example. The patented features of Webster's Micrometric make it unlike all others — and she'll love it. Its numbered scale along the edge takes the guesswork out of spacing a letter or report. And she can remove Webster's Micrometric Carbon Paper cleanly, without touching the carbon surface. It saves a lot of time and trouble.

Ask your stationer for samples, or write to F. S. Webster Co., 11 Amherst Street, Cambridge 42, Massachusetts.

BALKO News

Miss Geraldine Pugh

Follett's baseball club nosed out Balko 11-6 here Sunday afternoon in the first post-harvest game for both clubs.

Balko will play booker next Sunday on the home diamond.

Mr. and Mrs. Kenneth McGlamery and son Keith left Sunday for their home at Holbrook, Arizona after visiting his mother Mrs. Marie McGlamery and family. His sisters, Carolyn and Marolyn McGlamery, returned home with him for a short visit.

A watermelon supper was enjoyed Saturday night at the S. A. Pugh home by Mr. and Mrs. Raymond McNerlin, Faye and R. C., Mr. and Mrs. Tom Palmer and Mark, Mr. and Mrs. Bob Meisner and Miss Gayle Scott.

Miss Lucy Pearson of Balko is working in the Burk Drug Store in Perryton.

Miss Dolores Claybrook is employed at the hospital in Perryton.

Mr. and Mrs. Raymond McNerlin, R. C., Faye and Erlene Pugh went to Logan Monday to celebrate Independence Day at the home of Mrs. McNerlin's mother.

Independence Day was celebrated in the Balko community by the hum of tractors rather than the noise of fireworks as farmers hurried to get their wheat land plowed.

Van Bartel and Derrel Dean Renfrow left for Tulsa, Oklahoma Sunday. They are attending flying school there.

Garnett Lynn Mitchell was at home in Balko for the week end.

A supper of fried chicken followed by ice cream and cake was enjoyed Sunday evening on Clear Creek by Mr. and Mrs. Claude Saunders, Donna, Ouida and Cleo, Mr. and Mrs. Harold Pugh and Judy Ann, Mr. and Mrs. Clyde Pugh, Terry and Gary, Mr. and Mrs. Tom Palmer and Mark, John Chisum, Mr. and Mrs. S. A. Pugh, Geraldine and Erlene. Pictures were taken of the group during the evening by Geraldine Pugh.

Another Page With Winning Stuff

HULTZ PAGE

Brother of Yankee star Joe Page, Hultz demontsrates windup.

By ELAINE KAHN

AP Newsfeatures

SPRINGDALE, Pa.—There's another baseball brother act in the making in this Allegheny river town near Pittsburgh.

Joe Page moved up to the major leagues several years ago and became the ace relief pitcher of the New York Yankee staff. Now brothr Hultz, just 17, shows signs of following in his footsteps.

Young Hultz pitched five of the 10 league games played by Springdale High School this spring. He won three and lost two. The two he lost were three-hitters.

"He has an awful lot on the ball," declares Springdale Coach Hanio Mariotti. "He has a good change of pace, good curve and good fast ball. Also he can think as well as play baseball."

Hultz, a junior, is a lanky six-footer. He wears thick glasses but he has no difficulty finding the plate. Baseball runs in the family. His father, now deceased, pitched for the Harmarville, Pa. coal mine nine.

Hultz can hardly wait for the major league season to close. That's when Joe comes home and starts coaching him.

"Joe taught me how to hide the ball and follow through and to try to hit the mitt all the time," Hultz says. "He told me to get to bed early and kep in trim because there will be scouts around soon."

Hultz will graduate in 1950. Joe wants to go to college and Hultz thinks that may be a good idea.

"I'll take electrical engineering," he says, "but I still intend to be a major league pitcher."

Beaver County Farm Land to be Auctioned Tuesday

A quarter-section of fine Beaver county farm land will go on the auction block Tuesday, July 12, by W. H. Sallaska, Fairview, Okla.

The sale will be held at the southwest corner of the quarter, located one mile east and one-half mile south of Bryan's corner, about 14 miles north of Perryton. Sale time is 2:30 p. m.

There are no improvements on the land, but every acre is in cultivation. It made 18 bushels of wheat per acre this year.

Immediate possession will be given to the buyer, and all mineral rights go.

Onas Littleton of Perryton will be the auctioneer.

Salt Lake Rises Again

SALT LAKE CITY—(AP)— The Great Salt Lake, shallow, remnant of pre-historic Lake Bonneville, is rising slowly again. The lake has 350 miles of shoreline and is fed by many mountain rivers and creeks. After dry periods of several years, evaporation of the highly saline water occurs at a rapid rate, and the lake level falls. Scientists report it is about five feet higher than at its all-time recorded low reached in 1940. Its highest known level came in 1870.

All we know is what you tell us. Phone 67!

Russians Increase Air Services

MOSCOW—(AP)—Soviet airlines have increased their flight schedules. From now on one flight daily instead of one flight every other day will depart for Moscow for Vladivostok.

Schedules of flights to Hakutsk from Moscow have also been increased. Freight - passenger flights from Moscow to Molotov (formerly Perm) in the northern Urals and to Omsk in Central Siberia have been added to schedules. There will be regular flights to the capital of Armenia, Erevan, and the Georgian city of Kutaisi from Moscow.

In addition to serve the flood of tourists going to Black Sea and the Caucasus esorts this summer special flights have been put on from such cities as Sverdlovsk, Minsk, Kiev, Leningrad, Chelyabinsk, Novosibirsk, Irkutsk, Karaganda and Kuibyshev.

Other lines in addition are scheduled to be opened up in the near future. Many of the new lines will be served by the new model Soviet twin-engine transport plane, the 11-12 which is large and comfortable.

Parmalee Farm Sale Scheduled Monday, July 11

C. C. Parmalee, who is quitting farming, will hold a public sale of livestock, farm machinery, household goods and miscellaneous articles at his farm located three miles west and one-half south of Turpin on Monday, July 11, at 11 a. m.

Included in the sale are a number of milch cows, tractors, combines, plows, brooder houses, and all sorts of household equipment.

Lunch will be served at noon by club women.

Onas Littleton is the auctioneer and J. R. Thomas will clerk the sale.

Pvt. Hargrave Is Blood Donor

Pvt. James Hargrave of Perryton was one of a group of San Francisco Port of Embarkation Military Policemen of the Oakland Calif., Army Base Detachment who donated their blood at the Community Blood Bank to build a plasma reserve fund for child hemophilia victims.

The Army's MP's volunteered their donations after reading a newspaper article saying that 4-year-old Tommy Taylor of Concord, Calif., had exhausted his reserve supply because of frequent transfusions.

Mr. and Mrs. Glen Tindle, Kate and Joyce, returned to Stinnett after a two-week visit with Mrs. Tindle's mother, Mrs. F. C. Spencer.

Todd Cone, infant son of C. E. Cone, will stay with his grandparents, Mr. and Mrs. Henry Cone of Canyon, while the Ochiltree Herald staff vacations at Red River, N. M., this week.

White sidewall tires, as illustrated, available at extra cost.

Good Buy—all around

FRIENDS gather, look over that long bonnet and wish they had as much Fireball life as you have here.

They size up the broad windshield and narrow corner posts—and don't have to be told how these things step up "see-power."

They appraise the smart styling, the roomy interiors, the usability of luggage space—and agree you've made a buy.

But don't stop, please, with letting them look. Invite them in and introduce them to some of the special pleasures you'll know as a Buick owner.

Show them, for instance, how completely different Dynaflow Drive† is, with every mile cushioned by flowing oil and none of the rigid harshness of direct-drive cars.

Let them sample the matchless Buick ride, with all four wheels cradled on soft, coil springs and low-pressure tires made still easier-riding by extra-wide rims.

†Standard on ROADMASTER, optional at extra cost on SUPER models.

Point out how solid this Buick feels. That's what you get from husky frames, low-swung weight, and power delivered through a torque-tube instead of the rear springs.

For the truth is, this Buick's a bargain on much, much more than you can see.

It's a big buy on the solid goodness a demonstration quickly makes plain. On increasingly favorable delivery dates. On attractive price. On the kind of "deal" your Buick dealer makes.

That's why we keep saying "Better see *your* Buick dealer—and get that order in promptly!"

BUICK alone has all these features

Silk-smooth DYNAFLOW DRIVE* • FULL-VIEW VISION from enlarged glass area • SWING-EASY DOORS and easy access • "LIVING SPACE" INTERIORS with Deep-Cradle cushions • Buoyant-riding QUADRUFLEX COIL SPRINGING • Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS plus HI-POISED ENGINE MOUNTINGS Low-pressure tires on SAFETY-RIDE RIMS • Cruiser-Line VENTIPORTS • DUREX BEARINGS, main and connecting rods • BODY BY FISHER

*Standard on ROADMASTER, optional at extra cost on SUPER models.

When better automobiles are built BUICK will build them

MORE CLEARLY THAN EVER "Buick's the Buy"

BE SURE IT IS THE FISH THAT GETS

HOOKED

AND NOT YOU!

—CALL 185 FOR SERVICE—

When you start out on that fishing trip this week end be sure it isn't your car that hooks you instead of you hooking a mess of fish. If you bring your car to us we'll go over it and see that it won't catch you somewhere between here and where the big ones are biting. Complete inspection quipment gives us an opportunity to get your car in tip-top shape even before major trouble develops. So come in before you start on any trip of any long distance. It will pay you to get things fixed here at RUSSELL'S where our interests are best served by serving you efficiently, economically and correctly. Better drive the "old boat" in if you're going fishing with it . . . for sure!

Pound of Flesh

DES MOINES, Iowa— (AP) — When is it profitable to add another 50 pounds to your hog, and when is it better to ship the porker to market?

A table based on studies by the U. S. Department of Agriculture and state experiment stations shows that you can add 50 pounds to a 200-pound hog with less corn than a fatter hog.

It works like this: to fatten a hog from 200 to 250 pounds it takes 4.5 bushels of corn; to boost from 225 to 275 it takes 4.6 bushels; from 250 to 300 it takes 4.8 bushels; and from 275 to 325 it takes 4. 9 bushels.

How Animals Look In Pidgin English

NEW YORK—(AP)—Pastor Robert Salau, South Sea islander who was converted to Christianity and became a pastor of the Seventh Day Adventist Church, paid a visit to the Bronx Zoo here.

In the pidgin English he learned on his native island of Vela Lavella, he described the animals like this:

Camel — "Long fella, two backs."

Lion—"No. 1 pussy cat."

Elephant—"Big fella ears."

Hairy Orang-utan—"Long fella grass."

Mr. and Mrs. A. E. Devers, Vancouver, Washington are in Perryton visiting friends and relatives.

Scout Program Merits Home Support, Both Word and Action

By JIM LEHMAN
Herald Special Correspondent

BOOKER — When a group of eager, young boys get together there will always be fellowship and a good time, but when those boys are Scouts then the interest and spirit is increased tenfold.

There is never a time when a Boy Scout Troop and it's members don't deserve the home support necessary, both in words and action, to attain a progressive program. This effort is being made in part by parents who have encouraged their sons to attend summer Scout camp.

For the benefit of Scouts in the Adobe Walls Area Council is Camp Ki-O-Wah, located northeast of Canadian near lake Marvin. The period from June 6-11 offered a week of scouting comradeship for nine members of Booker Troop No. 57. These included Roy Lee Rodgers, Gene Keeney, Jimmie Sullivan, Jerry Hughes, Leroy and Vernor Miller, Herbert Baker, Ray Griffin, and Billy Barnes. The boys were accompanied by their scout master, Orlan Baker.

One of the high points of camp activity was the water carnival where the boys from their respective troops contested in water events. Leroy Miller won first place in backstroke, averaging sixteen strokes to forty yards. In troop ranking at the carnival Booker placed fourth and it was with admiration for their leader and the satisfaction of personal achievement that the boys returned home.

Approximately one hundred and twelve attended the camp from Booker, Borger, Higgins, Pampa, Panhandle, and Fritch.

The Booker troop is already engaged in home activities endeavoring to raise troop funds. Those who wish to have their trash hauled or are in need of clean-up campaigns on their premises are urged to contact the troop. With the coming of the Booker Celebration in August the boys intend to sell pop as they have been doing most of the baseball season.

Scoutmaster Orlan Baker stated that in the near future a court of honor will be held so that recognition may be given those Scouts who have achieved new ranks and awards. A special ceremony will be conducted for incoming Tenderfeet.

Let's all offer our whole-hearted enthusiasm and support toward our Scouts!

FLOW-TING
Adjustable-Hydraulic
TRACTOR SEAT!

Save your health with a Flow-Ting Hydraulic Tractor seat! It's like riding on deep-stacked goose feathers. Fits 95% of tractors.

Flow-Ting is the only hydraulic seat that features vertical, free-floating cushioning. No "teetering" — no "boat-rocking" sidesway. 3-second adjustment (without tools) to your weight — plus super-safe 4-point suspension.

Flow-Ting "floats" you in health-protecting comfort across rough terrain or uneven tillage by combination spring-hydraulic action. Safe, strong, long-lasting. Low in cost — easy to install. Thousands in use. Come in and try Flow-Ting. *NOW—portable, under-seat tool boxes for your FLOW-TING.*

Television Puts New Faces On Its Fans

(AP) Newsfeatures

The widespread introduction in America of a box-like object with a screen in front has created a new class of citizen—the television fan. He falls into several categories which mark him in any gathering. Here Sid Caesar, comedy star of stage and video, portrays some of the new "Television Types."

THE SSSSSHER: He won't let anybody say a word, no matter what program is on.

THE DINER: He fills his mouth by instinct, keeping eyes glued on the screen.

THE CRITIC: He'll defy any program to make him laugh.

THE MONOPOLIST: He thinks it's a crime worse than murder if you dare lay a finger on HIS receiver.

THE WRESTLING FAN: He makes himself part of act.

Dr. Clark Ellzey Has Article In 'Christian Home'

NASHVILLE, Tenn.— Dr. W. Clark Ellzey, of Stephens College, Columbia, Missouri, is author of an article in the July issure of THE CHRISTIAN HOME, a monthly magazine published especially for parents of children from infancy through the teen-age.

The Home of Tomorrow" is the title of Dr. Ellzey's article. In it he says "The 'Hope of Tomorrow' club was meeting at our house. The name was chosen from that obsolete adage, 'Children are the hope of tomorrow.' Being modern parents and therefore aware that adults in their dealing with children are the hope, or the despair of tomorrow, and having the audicity to study parents as well as children, we thought the name might not be too inappropriate.

"In order to find a way to forecast the home of tomorrow we went back and tried to see how the home of today came into being. We discussed how the application of power machinery changed the home and created a revolution in family relationships; we traced some of the effects of 'Woman's Suffrage'; we saw the move toward democracy in family life hampered by traditions which fit only the autocracy of the patriarchal family; we felt the struggle within ourselves as we endeavored to grasp the insight and skills of 'parental guidance of children', complicated by traditions and habits of 'parental authority; we recognized the risks of going off the deep end toward 'freedom of expression' or 'authoritarianism.' We saw that some families were more democratic, others more autocratic, and we discussed the significance of this difference if children from such home marry.

"We all agreed on one thing. The world we are living in is a long way from static. Things are moving so fast and so out of gear that many people are not able to adjust. We exchanged experiences in trying to live in it successfully ourselves. Then somebody suggested we might be ready to try to figure the kind of homes our children would probably live in tomorrow.

"We prophesied as anyone can in trying to forsee developments if present trends continue. We foresaw more transitory families living in the houses on wheels in which they moved. We recalled the damage to the security of children as experienced by migratory families whose roots were torn up by the war. We sensed the need for parental insight sufficient to safeguard that security by organizing it more around family relationships than physical surroundings. We felt that the father would have much more to do with the development of his children than in the past. Both parents would have more time for children and would more fully comprehend that the most important business in the world is parenthood. We agree that if world-size men and women were needed to deal with world-size problems the chief need was spiritual life capable of overcoming the world of resources within man himself. We recognized our responsibility as parents in helping our children grow to the place where they could use their intelligence without the constant domination of their emotions. We realized more clearly just how the home of tomorrow is in our hands in our homes of today. We had enough faith and courage to believe that the home of tomorrow would be a better home than the home of yesterday or today. This was based upon the belief that we were doing a better job than our parents did. That's what our parents worked for. And our children will do a still better job because we are trying so hard to help them get ready to do it."

THE CHRISTIAN HOME is published at Nashville under the editorship of Dr. Joy Bayless. Its circulation is upwards of 100,000.

Herman Meadows and Ray McWilliams left Wednesday for Ft. Worth to attend the Frigidaire Convention. They will return Saturday.

Cites Dangers of Kite - Flying

NEW YORK—(AP)—It's easier for today's kite-flying youngsters to draw electricity down a kite string than when Benjamin Franklin made his discoveries. For that reason, says Frank L. Jones, president of the Greater New York Safety Council, modern kite-flying can be far more dangerous.

Jones says that if a kite comes into contact with power lines—which were non-existent in Franklin's day—it may conduct enough electricity to cause serious accidents. He warns against using thin wire or wire-threaded cord for a kite. If wet, ordinary string or cord will also conduct electricity, he says.

Mrs. Roy Enfield is in Lefors this week visiting her mother.

Italian Theaters Subsidized

ROME—(AP)—Italy will spend 229,847,000 lire ($383,000) this year for subsidizing private theatrical companies. The amount is split in small subsidies varying from $500 to $3,000 to some 80 companies and small theaters.

Of the total amount 5,200,000 lire will be spent to support production of plays in local dialest. To encourage the companies to produce new plays by Italian authors, the Undersecretariat of State for Theaters and Tourism gave a bonus of $500 to the companies which produced 17 new plays by Italian authors during the 1948-49 season.
