Stonewall, Okla., Bank Cleaned Out By Daring Trio

CASHIER OF INSTITUTION IS KIDNAPED

Official Forced to Go With Robbers In Automobile

VAULT EMPTIED

Cash In Bank Totaled Between $1500 And $2000

ADA, Okla., April 18. (AP)—Three men descended upon the First National Bank at Stonewall, Okla., 18 miles southwest of here late today, looted the safe and bore away the cashier, Roy Whitlock, unobserved by scores of persons in the streets.

The robbery was not detected until Ben Baas, a telephone operator who worked above the bank, went downstairs, after he had seen Whitlock driven away, apparently much excited, in a motor car, and found the bank empty and the vault open. He notified passersby and the sheriff, who formed a posse and set out in pursuit of the robbers' car.

Nearly two hours later, a car containing four men and similar to the one which the robbers drove was reported to have passed through Francis in the northwest corner of Pontotoc county. Officers in neighboring counties have been notified and have patrolled the roads.

Bank officials said that not more than $1500 or $2000 in cash was in the bank today.

'Slayer' Names Aides In Hall-Mills Murder

Citizen of Mexico Confesses Slaying New Jersey Preacher and Woman for $5000; Held in El Reno

EL RENO, Okla., April 18.—The Hall-Mills case of New Jersey that won a respite from publicity after the acquittal of Mrs. Hall and her brothers, "Willie" and Henry Stevens, moved into the limelight again today with the signed confession of Elwin F. Allen, adventurer and former Oklahoma and Connecticut convict, that he killed the Rev. Edward Wheeler Hall and Mrs. Eleanor Mills near Brunswick, N. J., Sept. 14, 1922.

He named two accomplices, an Elizabeth, N. J., dentist and a woman, police said. The names were withheld pending communication with New Jersey officers.

Allen's confession stated he had committed the two slayings for an Elizabeth dentist, a relative of Mrs. Mills, for "$5,000 and a car."

Tired of Burden

Allen said the dentist paid him the first $1,000 of the alleged murder fee in Perth Amboy, N. J., after the dentist had pointed the marked couple out to Allen in Newark.

The dentist, according to Allen, wanted the two killed "because they had disgraced the family."

Allen said he "tired of the burden," and decided to "confess" after accepting religion.

The mysterious slaying of Dr. Hall and his choir singer sweetheart, Mrs. Mills, resulted in the indictment of Mrs. Hall and her two brothers. They were found not guilty December 3, 1926, and the murder remained one of the great unsolved mysteries in crime history.

Allen's Story

The story of the slaying as Allen related it was:

The dentist and Allen had become acquainted when the latter was a trusty in the Connecticut reformatory Meriden, where he was serving a sentence for mail robbery.

They met for a second time in the fall of 1921 at Elizabeth, N. J., when the murder offer was made. The dentist pointed out the Rev. Hall and Mrs. Mills to him on the streets of Newark, N. J.

Allen, armed with a 32.20 rifle and a .38 calibre revolver, followed his victims several weeks later on a highway from Newark toward Elizabeth, and headed them off near the latter city.

He forced them from their motor car, searched them and then had Mrs. Mills drive them to a lane known as Plum Lane. Again he forced the minister and Mrs. Mills to leave the car, and informed them "they had disgraced two good families and that I was going to kill them."

Left Bodies

He then shot Hall four times, killing him. Mrs. Mills screamed and he shot her twice.

Placing the bodies in the car, he drove back down the lane and left the bodies alongside the path.

Allen said he then went to South Newark where the dentist paid him the balance of the cash promised. He had been given $1,000 previously as a guaranty.

The whereabouts of Allen after this point in the story was clouded, the confessed murderer saying he spent the time intervening between the killing and his Oklahoma prison term in hiding. Officers said he had served a prison term in the state penitentiary at McAlester, Okla.

His efforts to hide carried him from the United States in to Mexico and then back to this country. He had been held here 30 days on a murder charge.

Allen said he was born December 6, 1899 in Old Mexico. His parents died while he was an infant, he said.

BLAST CAUSES FIRE AT BURK

Noble Refinery Damaged By Blaze

BURKBURNETT, April 18—An explosion in the separator of the Noble Oil and Gas company cracking plant at 9:30 o'clock Wednesday night resulted in the destruction of the separator, damage to one of the vapor towers and damage to still number one estimated at $5000 to $10,000. The plant is located one mile from town near the highway leading to Wichita Falls. Charles F. Noble of Tulsa is the principal owner.

Jobe M. Dunn, fireman, suffered an injury to his eye when a hose slipped.

A flash in the separator caused the huge 10,000 gallon tank to go up with a roar that was heard for several miles. The burning oil sprayed the first still and other nearby machinery, causing a blaze which lit up the countryside. The loss is covered by insurance.

Burkburnett's fire department, under Chief J. J. Blackstone, rushed out of the city to the plant, and the foamite oil fire fighting unit of the Tidal Western Oil company plant nearby, also came to the aid of the Noble plant.

John Manning, general superintendent of Noble, said that the foamite was largely responsible for saving the entire plant. W. J. Martin, plant superintendent, said that many of the line connections were damaged and that the full extent could not be determined until daylight.

As soon as the blast awakened residents of the town, the fire department at the plant went into action as did the fire departments from Burkburnett and from the Tidal Western. The blaze was under control in a short time, and by midnight the firemen were preparing to go home.

Dramatic Career of Notorious Gang Leader Due to End Today in Hanging

BENTON, Ill., April 18. (AP)—Charley Birger, gang leader, who jeered at prospects of death on the gallows made two attempts to end his life in the county jail here in the past few days, John W. Smith, deputy United States marshal, told The Associated Press here tonight.

BENTON, Ill., April 18. (US)—The gallows trap will crash in the jail yard here tomorrow morning at 10 o'clock, sending Charley Birger to his death for the murder of Joe Adams, mayor of West City.

Birger is resigned, in his fashion. But he hates to die. It will be, though, a rather dramatic ending, to a rather colorful career.

Birger, a Jew from New York's east side came to Little Egypt during the reign of terror back six or seven years ago, shortly after the Herrin mine riots.

Then came prohibition. He engaged in the rum running business, for his own profit and the entertainment of the miners. But he was not alone. The Sheldon brothers also entered the gang racket.

There was warfare, as bitter as any ever engaged in by rival gangsters. Bombs, armored cars, machine guns, airplanes, every implement of modern warfare was used by each side in its effort to eradicate the other.

A new sheriff was elected. He was fearless, and he captured Birger. He was tried and convicted on the testimony of the two men who did the killing.

IRISH FLIER WILL RETURN TO BLEAK ISLE

Fitzmaurice Spikes All Rumors He Will Sail For Ireland

FLY TO NEW YORK

Original Plan of Trio Will Be Carried Out, He Says

STE. AGNES, Que., April 18. (US)—Major James Fitzmaurice, Irish member of the German-Irish crew which flew the German monoplane Bremen from Dublin to Greenly Island, Quebec, arrived here this afternoon in the Canadian plane piloted by Duke Schiller and immediately announced he would fly back to Greenly Island as soon as possible.

"We are determined to repair the good ship Bremen and fly it to New York," the Irish air force commandant declared, smilingly disposing of rumors that he would go to New York ahead of his German comrades.

Leave This Week

Schiller and Fitzmaurice flew here today from Clarke City, Que., a settlement to the east where they were held up yesterday by bad weather.

If weather conditions are favorable, the Bremen will be ready to leave Greenly Island before the end of the week, Fitzmaurice said. Th determining factor will be the speed with which repair parts, including a new propeller, landing gear and tools, as well as a supply of benzol, can be transported to Greenly Island. Repairs will not be as difficult as previous reports have indicated, Fitzmaurice said.

Fraulein Herta Junkers, daughter of the head of the Junkers firm which built the Bremen, came here this afternoon to meet Fitzmaurice and plan with him the difficult problem of getting the necessary supplies to the Bremen.

Declines Invitation

How the 800-mile gap between Ste. Agnes and Greenly Island will be bridged has not been definitely decided. The Transcontinental Airways of Canada has offered the use of its planes, including Schiller's, all of which are equipped to land on snow and ice. There is also a possibility that the Junkers plane F-13, sister ship of the Bremen, may carry succor to the Germans. Captain Herman Koehl and Baron Von Huenefeld, who are waiting at Greenely Island until they get supplies and tools to repair their crippled ship.

Major Fitzmaurice received an invitation this afternoon from Prime Minister MacKenzie King, asking him to remain in Canada a few days longer as guest of the Dominion. The Irish flier indicated he would have to decline regretfully, as his chief purpose is to rejoin his companions as quickly as possible after arranging for the transportation of the necessary fuel and repair parts.

Youth Stays With First Story After Being Charged With Murder

J. W. Moores Accused of Slaying Storekeeper in Complaint Filed Tuesday; Red Headed Man Freed

Preliminary hearing in the case of J. W. Moores, Beaumont youth Wednesday charged with murder in connection with the slaying of Theodore Zimmerman, Lee street storekeeper, here last Friday night, probably will be held before the end of the week before Justice of the Peace R. V. Gwinn, where the charges were filed.

Since his arrest here Saturday morning Moores has consistently denied any knowledge of the shooting, and has at the same time, refused to divulge the whereabouts of shoes he was wearing Friday night.

Found Barefooted

When arrested Moores was barefooted and his clothes were blood-stained. The blood on his clothes and bruises about the face and body were explained by the youth as having been received when he and a companion were forced to drive two negroes to the edge of town. The two boys, Moores' statement continued, after being beaten with a lead pipe by the two negroes, sought shelter for the night in a nearby hay rick. The next morning Moores called a taxi which carried him to a Wichita Falls residence where he was preparing to change clothes when arrested by Sheriff W. G. Bralley.

A red-haired youth, taken by Sheriff Bralley Tuesday night was declared by Moores to have been his companion the night the murder occurred. The youth, vehemently denying acquaintance with Moores, was released. Wednesday morning, however, he was picked up again for investigation by the district attorney.

Authorities Wednesday night continued gathering evidence in the case.

This is second of three questions flung at Cone Johnson, torch bearer for the "Constitutional Democrats," who will speak at the court house Thursday night in the interest of defeating the nomination for the presidency of Governor Al Smith of New York.

Answers Asked

Mr. Johnson is asked to answer this and two other questions pertaining to the instruction or non-instruction of delegates to the state Democratic convention when he speaks here tonight, by Joe B. Hatchett, chairman of the Wichita County Democratic club.

The open letter to Mr. Johnson containing the three questions which he is challenged to answer Thursday night, follows:

Hon. Cone Johnson,
Wichita Falls, Texas,
Dear Sir:

As your speeches in the present campaign have been reported you have not thus far challenged the fitness or personal character of Governor Alfred E. Smith of New York as the party's nominee for the presidency. The one objection you appear to be emphasizing is that not being a prohibitionist, Governor Smith if elected president, would make no sincere effort to enforce the Volstead act.

Three Questions

In the light of the attitude you so assume towards the candidacy of Governor Smith, you are re-

DINNER HELD AFTER NOTED LEASE MADE

Star Witness Gives Names Of Navy Admirals In Game

DENBY TESTIFIES

"War-Scare" Story Held Irrelevant to Trial Of Sinclair

WASHINGTON, April 18. (US)—A narrative of how a group of U. S. navy admirals joined with Harry F. Sinclair in a poker dinner at the Willard hotel a few hours after immensely valuable naval oil contracts had been granted to Sinclair companies enlivened the Teapot Dome conspiracy trial today.

The alleged poker playing admirals, as identified by Admiral J. K. Robison, star defense witness, included Admiral Luther E. Gregory, chief of naval civil engineers; Admiral Julian Latimer, navy judge advocate general at the time, and Robison.

Government Scores.

The government scored a number of important victories in its conduct of the trial today as defense witnesses followed each other in rather quick succession.

Prosecutor Owen J. Roberts dealt the defense its most serious blow of the trial shortly before recess when Justice Jennings Bailey agreed with the government that Edwin Denby, secretary of the navy at the time the Teapot lease was signed, could not give the testimony which Sinclair lawyers sought.

Mr. Denby left the stand after answering a few perfunctory questions.

The defense had relied on Denby as one of their mainstays in establishing the alibi upon which they plan to ask the jury for a favorable verdict.

"War-Scare" Ruled Out.

As a result of today's rulings and the expeditious manner in which Justice Jennings Bailey, the stern Tennessee mountaineer, handled the proceedings, defense counsel tonight announced they expect to close their case within the next forty-eight hours.

The judge practically eliminated another phase of the defense alibi. The "yellow peril" war-scare, on which Sinclair counsel have been relying as a trump card. A limited amount of rather vague testimony on the subject was admitted in evidence, however.

Five character witnesses, four of whom were shown to be closely identified with Sinclair in business dealings, declared the defendant had a "good" reputation for honesty and fair dealing."

With respect to the so-called "war scare" of 1922, which Robison claims was an impelling motive why he urged the immediate leasing of Teapot Dome, the witness was asked:

"Was there any particular matter that you then had in mind that you conveyed to Secretary Fall in connection with the war plans as related to the national defense?"

Matter of State.

"Yes, sir. I explained this to Secretary Fall. That there was a grave weakness in our national defense and that it would be fatal, in the event of certain combinations against us that were possible, and that we felt we had to prepare against in order to make the safety of the country secure."

Justice Bailey then invited counsel to the bench, saying:

"What good purpose would be served by showing what power this was? It seems to me to be a matter of state policy, and unless it is imperative it should not be done."

Tigers at Scotland Park Zoo Kill Bobcats in Battle in Cages

Two bob-cats were killed by tigers at the municipal zoo at Scotland park Wednesday, when visitors, probably children, lifted the trap door between the cages of the animals. The battle between the stronger tigers and the weaker bobcats was not witnessed, and the bodies of the slain cats were not discovered until late Wednesday, A. W. King, park commissioner, said.

Several complaints of children tasing the animals by poking sticks through the wire cages have been reported to the park department. Unless visitors refrain from such practices that have caused damage to the zoo, it will be necessary to limit the visiting hours at the cages by the use of guards, Mr. King warned.

Death from "unknown causes" has also claimed the gila monster at the zoo, it was learned Wednesday. Dr. R. H. Graham, Lions club president and leader in the work of building up the zoo, said Wednesday the body of the gila monster would be stuffed and used to start a natural museum. The Lions club will be glad to accept gifts to the museum, Dr. Graham said.

Stay With Wife Even if Jealous, Is Wise Dorothy Dix's Advice

Is There Any Remedy for an Unreasonable, Jealous Wife?—The Foolish Young Man Who Repeats His Sweetheart's Confidences to His Mother—Should A Woman Who Is Not in Good Health Marry?

Dear Miss Dix—My wife and I are a middle-aged couple with grown children. I am a business man engaged in selling women's apparel. My head saleslady is a married woman. She is a fine woman in every way and our families have been friends for many years, but recently my wife has conceived the idea that I think more of this woman than I do of her, and that she is trying to get me away from her. There is not a word of truth in this. Neither the woman nor I have the slightest interest in each other except a business one, but my wife torments me with her jealousy until she makes my life a burden to me. She demands that I dismiss this woman, who is practically a necessity to my business. I am so miserable and desperate that I have thought of selling out my business and going to the country to live, but what would be the use? She would be jealous of the very cows!

—RUDOLPR.

Answer—I think you would be very foolish to give up either your business of your good saleswoman, because no matter where you went or what you did or whom you employed your wife would be just as jealous. You might have toothless hags for manikins and she would still suspect them of trying to vamp you and believe that you were falling for their senile wiles.

Jealousy is the most difficult passion in the world to combat because it is a form of insanity, born in a diseased and perverted imagination. It feeds and fattens on delusions. It needs nothing tangible to go on. You cannot reason with it. You cannot convince it of its mistake. You cannot avoid rousing it, no matter how discret your conduct. And that is the hopelessness of dealing with it, because a jealous husband or wife sees everything through his or her green spectacles.

Jealousy is always an insult because it is a proof of lack of faith. The jealous husband or wife or lover has no trust in your honor or integrity. He or she believes that you are capable of turning traitor and betraying him or her at any minute.

There can be no happiness in any marriage in which there is not faith. Husbands and wives are bound to trust each other because neither one can stand perpetual watch over the other. Every man is brought constantly in contact with women. Every woman sees dozens of men every day of her life. Both husbands and wives have innumerable opportunities to indulge in flirtations, and it depends upon each one's individual honor whether he or she goes straight or crooked. In the end they have to be trusted to do right.

And this is what makes jealousy such a futile thing, because the wife who torments herself imagining that her husband is having affairs with every woman he sees, and the man who fills his heart with dark suspicions of his wife having flirtations with every man she encounters, torture themselves in vain. They borrow trouble for nothing, because they cannot possibly lock their wives and husbands up in closets away from all human contact, and at the last they are compelled to trust to their love and fidelity.

I wish I could give you better comfort than this, but there is no cure for jealousy. It is a disease for which no remedy has ever been found.

—DOROTHY DIX.

Dear Dorothy Dix—What do you think of a man who tells his mother everything that his fiancee says and does—all the little intimate details of our courtship? Of course, I say things to him that I never intend for other ears, and you can imagine my embarrassment when his mother repeats them to me. Now I admire him for his devotion to his mother and I love her, but do you think he is right in telling her such personal matters? —IRIS.

Answer: I should think that you would feel like batting him over the head with the first thing that was handy, for of all the blundering stupidities of which even a man can be capable nothing can exceed this.

Certainly your young man has not even a kindergarten knowledge of women if he doesn't know that the things a girl tells the man she loves are the most sacred revelations of her soul—things that she could not say to her own mother, and that she certainly doesn't expect him to repeat to his mother. Also that it vulgarizes their relationship in her eyes for him to discuss its every detail with his mother.

When a man and woman are engaged, or when they are married, it is a breach of honor and faith for them to blab each other's secrets to their families. Lovers and husbands and wives should feel that what they say to each other will go no farther. They shouldn't have to preface every remark with "don't tell." Their confidences should be inviolate.

A lot of unhappiness in married life comes from the husband and wife running to their families with their every problem and relating all the details of every argument and disagreement. Mother says so and so. "oMther thinks you go to too many bridge parties." "Mother thinks you don't need a new hat." "Mother thinks you peel your potatoes too thick." "Mother thinks you smoke too many cigars." "Mother thinks it was awful you went to that stag dinner and left me alone," has broken up many a home.

So you will be wise if you break your sweetheart of his habit of confiding too much in mother before you marry him. It bodes no good to a wife for her husband to sprint to mother with everything that his wife says and does.

—DOROTHY DIX.

Dear Dorothy Dix—Do you think a woman who is not in good health should marry? Do you think that if two people love each other that the fact that the wife's health was bad would keep them from being happy? Would the wife's health have any effect on their children?

—A CONSTANT READER.

Answer: Whether a woman who is in bad health should marry or not depends on a great many different things—on the nature of her disease, on how much money she or the man has, on the temperament and disposition of the man, on the man's ambitions, career, etc.

Generally speaking, I do not think that a woman who is in poor health should marry, because she is not fit to undertake the duties and responsibilities of matrimony, because not many men have a love strong enough to endure the strain put upon it by a sickly wife and because an invalid wife is always a handicap to her husband.

But, of course, there are exceptions to this rule. Sometimes a woman who has a frail body has a strong and beautiful spirit that atones for her physical disabilities. Sometimes a delicate wife's helplessness appeals to all the tenderness that is in a man's nature and makes her dearer to him than any strong and healthy wife could be. Sometimes love works a miracle and heals the sickly woman.

But certainly it is a risky thing for a woman who is in bad health to marry, especially if she is poor and marries a poor man. For no matter how much the man loves her it is hard to see all that he makes go for doctors' bills and sanatorium bills and drug bills. Nor is it a cheerful thing to come home at night to a wife who is lying on a couch and who has not been able even to clean the house or get the dinner.

And it is only in novels that invalids are lovely and cheerful and sweet and amiable. In real life they are nearly always peevish and fretful and neurotic.

And certainly the mother's health affects the children.

No woman has the right to have children unless she can give them sound and healthy bodies and has the strength to take care of them and give them the proper attention.

—DOROTHY DIX.

Dear Miss Dix—I have a friend who is crippled. She is radiantly healthy otherwise, but will never be able to walk without crutches. She is college-bred, extremely attractive, a clever artist and pianist. A young man wishes to marry her, but, while my friend loves this man, she is afraid that in marrying him she will be placing a serious handicap on him. May I have your opinion of this matter?

A FRIEND.

Answer: I do not see why she should. If she were an invalid who could not manage a house and who would have to have perpetual doctor's bills, it would be a handicap to teh young man to marry her, but as she is well and strong, there is no reason why she should not make him a helpful wife.

Many women marry men who are cripples and find the mere fact that they have had to overcome physical drawbacks has strengthened and sweetened their characters and made them the most desirable of husbands and doubtless her affliction has had the same effect upon the character of this girl.

Anyway, if I were a man I would much rather marry a girl who is crippled in the legs than in the brain

DOROTHY DIX.

Dear Dorothy Dix—I have been married for a year, but have only lived with my husband six weeks on account of my mother's intense hatred for him, which is utterly unjustifiable, as he has never done her a single wrong. My husband and I love each other dearly, but I live with my mother. The time has now come when he says that I must make my choice between them. what is the right thing for me to do? NITA.

Answer: Go to your husband. That is your bounden duty. When you got married you took a solemn oath at the altar to leave father and mother and forsake all others to cleave unto him until death. You can't break that promise for no better reason than that your mother doesn't like your husband.

Your mother is a foolish and a wicked woman to try to separate you from your husband because she doesn't happen to like him. If you stay with her, you will eat your heart out for the man you love, and you will probably wreck his life also, because you will put him in an untenable position, that of a man who loves a woman too weak to have the courage of her own affections, and assert her right to live with her husband.

Blighting two lives is too high a price to pay for a spiteful old woman's grudge.

DOROTHY DIX.

MODISH MITZI — MARIE FINDS HER KNIGHT IN MODERN DRESS — By Jay V. Jay

The Goofer sent Marie a box of candy. "Wasn't it too sweet of him?" she purrs. Mitzi notices that while Marie has given her the box she has slipped out the card and does not offer to show it to her. The dear Goofer, he can be depended upon to do thoughtful things! Mitzi and Marie have just returned from a shopping tour. Mitzi acquired in the course of the afternoon the two-piece printed silk in apple blossom design. They discovered this bow frock for Marie with its diagonal lines and bow on the shoulder. It has the smartness of an older style but the charm of being suitably youthful.

In the privacy of her own boudoir, Marie slipped out the card the Goofer had written her. It had no sentiment upon it but that, she decided, showed clearly that they understood eath other. He would take that for granted. Marie turns her shoulder so that you may see that her negligee has a V pointed back.

The box of chocolates were a sign, a pledge, thinks Marie. She knows of the Goofer's undying devotion to Mitzi. He has evidently sensed her loyalty to Mitzi too. The Goofer has taken the shape of a knight in armor (or is it amour?) he is Lancelot, Galahad, Gawain and Marie, well, she is his willing slave.

Young Wichita Falls

Photo by Nossett.

The joke is evidently on the reader, judging from the reaction on the little lady of the photo. The young person in question is Miss Iva Zoe Cannedy who finds many things to smile about.

First she is the only child of Mr. and Mrs. Roy Cannedy of 2209 Yale street, and second she has a car to ride in which is about all that she cares a great deal about except her daily food.

Maybe it is a car she spies coming her way, that makes her laugh, instead of the joke first mentioned.

LINDA -:- A Love Mystery of Collegiate Life

By Virginia Swain.

ON THE STAIRS.

"It has been learned that the professor either rode away on his large bicycle, or his assailant—if there was one—made his escape on it. The Prine house has been thoroughly searched without revealing the cycle, and there is no barn or garage."

Linda read the paper at lunch in the hotel dining room. She came out into the lobby with a troubled face, and took the elevator back to her room.

It was nearly 4 o'clock when she reappeared in the lobby, wrapped in her squirrel coat and shod for snowdrifts.

The clerk looked appreciatively at her shadowed eyes and proud lips as she neared the desk, room key in hand. The clerk was young, and was just realizing for the first time that wicked women may be ravishingly beautiful. He had his twinges.

As she dropped the key into his hand, he blushed and turned aside. "Here's a telegram for you, miss." He took care not to look into her eyes.

But he need not have been afraid. The interview was cut short by the voice of the doorman, announcing that Linda's taxi was outside. She thrust the telegram, unopened, into her purse and hurried out.

She hastened across the sidewalk, burying her face in her fur collar, so that she did not see the curious glances of townsmen and student loungers in the doorway of the Battenfield drug store.

The snow had begun to fall again when Linda's taxi reached Faculty Row and the gray sky seemed to lean moment by moment closer to the earth.

The driver leaned back, with one hand still on the wheel, to ask, "Where shall I stop, miss?"

Linda turned and looked out the back window of the cab. In the distance she could see the black blot made by another motor car. It was still so far away that she could not tell what kind of a vehicle it was.

She opened the door hastily and jumped out into the road. "Here," she said to the driver, pressing some bills into his hand. "You go back now and come to this spot again at 5 o'clock. You're to wait here until I come. Hurry now!"

The man nodded and started the car. Linda waited only till he had turned around and started off. As he pulled into high gear she cast a glance over her shoulder and started to walk rapidly down the road toward the open country. The other car had disappeared from sight, probably in some small hollow. She might reach her destination without being seen by any curious passer by.

There it lay before her, at the foot of the hill, the gray old building, with white pillars shimmering, in the growing dusk. But Linda did not stop to look at it. It seemed wiser to trudge ahead, force one's way through the high snowdrift that clogged the gateway and hurry up the white-carpeted drive toward the house. If there had been any prints in the snow the new flakes had already obliterated them with the help of a wind that raked the ground as if with actual teeth.

The front door was locked, but there was a great open gash in the left hand sidelight pane. Muffling her face in her furs, Linda thrust one shoulder through the hole and cautiously drew her whole body past the jagged points of glass that edged it.

She stood within the hall. It was bitter cold here, and almost dark. The great skylight that topped the well of the stairs was weighted down and screened with snow. Linda pulled a flashlight out of her pocket and walked toward the stairs. There was the jagged carved pineapple she had seen on her last visit—a wooden fruit that might kill a man as easily as any blackjack.

She walked past it with averted eyes. These stairs were the object of her visit. She held the little flashlight steadily in front of her and began to ascend. One by one, Linda opened the doors of the first balcony. They gave on to a small den, a linen closet and a bay-windowed nook evidently intended for a conservatory.

She closed these doors again and went on to the next balcony. These three doors belonged to three damp, moldy bedrooms. In one of them, near the door, was a little heap of empty gin bottles and the skeleton of a cat or dog.

Linda came back to the balcony and stood peering down. The hall was almost blotted out of sight, save where two faint gray streaks against the dark showed the reflection from the narrow sidelights of the front door. Overhead, there were two more tiers of blank doors, and the muddy gray of the snow-covered skylight. The gloom above was lighter than the gloom below.

The girl on the balcony stood listening. The old house seemed to be breathing, in a throbbing silence. For a second, she thought she heard a sound somewhere below in the back region of the house. She thought of rats—cellar rats, sewer rats, wharf rats, all the ravenous and loathsome rats of history and legend.

A current of air from some unseen door or window soughed through the old house, and the shreds of paper hanging from the walls lifted and fell again as they had done once before within her memory, and hung motionless, as before, in the stable air.

Linda drew herself away from the railing and forced herself to turn toward the next flight of stairs, which had grown perceptibly darker during the moments of her watch by the rail. At the first step, she stopped. The flashlight fell out of her inert hands.

She could see the front door. A burly shoulder in a red mackinaw came through the broken sidelight, splintering its jagged fringe of glass in a shrill rain on the floor.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

WORKING WOMEN SELDOM LOSE A DAY'S PAY NOW

Strengthened by Lydia E. Pinkham's Vegetable Compound

MRS. R. C. HAZLETT
Station G., R. No. 2, Columbus, Ohio

Eastwood, Ohio.—"I first took Lydia E. Pinkham's Vegetable Compound for a weak, nervous, run-down condition, seven years ago, after my baby was born. Some of the girls in the factory where I worked when I was able, advised me to take it. I got one bottle and that helped me so much that I took one after another until I had taken nine in all. But now I just get a bottle when I begin to feel badly, for I must say the medicine sure helped me and I am able to work every day. I will answer any questions anyone asks me, for I think your medicines are fine."—Mrs. R. C. Hazlett, Station G., R. No. 2, Columbus, Ohio.

Recommends the Compound

Los Angeles, Cal.—"I took Lydia E. Pinkham's Vegetable Compound because I was working in a factory and I was always on my feet, being the supervisor there. This caused my health to fail and I really was run-down very badly as I had no appetite at all and could not eat enough. I am taking the Vegetable Compound and also the Pills for Constipation. I have recommended them for several years and am safe in saying that probably 25 women have been helped through taking my advice. I am glad for you to use these facts as a testimonial."—Mrs. E. A. MARIE THERESA saw this afternoon the first straw hat of the season worn by a member of the masculine persuasion. The man was walking down Eighth street, toward Lamar avenue. Now that makes the item authentic, so other men who have been awaiting this hour for the past few weeks, need not feel any undue reluctance in stepping forth in seasonable headdress.

THE business houses of the city are, as usual, showing due courtesy to conventions held in this city. The Chamber of Commerce is going to entertain 250 delegates to the 13th district convention of Texas P.-T. A. at the Womans' Forum, for luncheon Thursday. The Peoples' Ice company has donated program booklets to the convention while the Perkins-Timberlake company was host to the delegation of state and district officers and county chairmen of the organization at dinner at the Wichita club, Wednesday evening. The Williams-Dwyer company, agents for the Aetna Fire Insurance company, donated 250 or more pads to be used for convention notes.

THE report comes to me from a distant city where an elderly couple committed suicide because life is progressing so rapidly along mechanical lines that life had lost its spice and accustomed tunefulness, I am reminded by this incident: An elderly lady visiting at her daughter's home was heard walking the floor at 3 o'clock in the morning, and when asked how come, said "Between that chime clock and that Frigidaire, I haven't slept a wink all night!" These modern inconveniences.

A WOMAN with millions married a man earning a $25 clerk's salary. After 15 years she is divorcing him, not on account of unfaithfulness, but because he is a poor business man. Talk is to the effect that the courts may make her support him in the style in which she has accustomed him. Still modern day literature is filled with allusions to the heartlessness of man.

MONEY IN MOHAIR

One pool of Texas mohair clip of 400,000 pounds was sold for $300,000 to Boston buyers. The clip represented the mohair gathered by Uvalde dealers. There is money in mohair. There is money in wool. Just now the sheepmen and the goatmen of Texas are on easy street.

LET HIM JUMP

According to the publicity agent of the Love-Hicks political combination Thomas B. Love, later along, may have let his conscience be his guide and enter the race as a candidate for governor against Moody. All that the former boss demands is that he shall hold the office of state senator, be given the nomination for lieutenant governor, name the delegates to the Houston convention, make the platform, name the standard bearer and let his conscience be his guide on election day, if the nominee fails to appeal to his conscience. Now the pond is deep, the water is fine, there are no strings on the former boss if he cares for a bout with Moody. Let him jump in.

HISTORY

Former Speaker Lee Satterwhite lives away out in the West. He is ranching now. He did not appear in the city of Dallas during the political pow wows, the Atticus Webb Anti-Saloon league convention or in the other pictures made of the gladiators and near gladiators. Former Representative T. K. Irwin of Dallas, did not push his face into the picture or pictures. It will be recalled that Irwin was a candidate for speaker against Satterwhite when the man from the West won. Irwin had the backing of Chairman Buckner, Constitutional Democrat Purl and the Love block of Dallas politicians. With three exceptions, all the representatives from West Texas backed Satterwhite and Democratic lawmakers from other sections of the state completed the job. They made Satterwhite speaker. They smashed the Dallas program. This may be ancient history, but it is real history. Dallas is the home of political marplots who are ever hatching programs or inventing schemes for their own self advancement more than for the success of the Democratic party at the polls of the nation.

DINNER STORIES

Virtuosity

The standards of childhood are (perhaps fortunately) not those of maturity.

Mary, whose father is an excellent pianist, had returned from her first day at a small school. "Mummie," she announced, "teacher is clever. She can look round at us and play the piano with one hand."

ABE MARTIN

Nobuddy kin talk as soft an' gentle as a dentist with his back turned huntin' among his drills for th' most ferocious one he kin find. "It's wonderful how some fellers ever git so rich when ther so easy t' tap," says Tell Binkley, who has allus maintained that Hardin' could have been elected for $9 or $10.

One-Minute Sermon

And he looked up and saw the rich men casting their gifts into the treasury.

And he saw also a certain poor widow casting in thither two mites.

And he said, of a truth I say unto you, that this poor widow hath cast in more than they all:

For all these have of their abundance cast in unto the offerings of God: but she of her penury hath cast in all the living that she had.—St. Luke, xxi, 1-4.

New Departure of Oklahoma Democrats

CHARLES N. HASKELL was the first governor of Oklahoma. He is a citizen of three states—Oklahoma, New York and Ohio. He has strong Smith leanings. He is back in the political picture. He was the temporary and permanent chairman of the state convention to send delegates to the national convention at Houston. He was the choice of a coalition of the state administration forces led by Governor Henry S. Johnston, the Smith forces and the Reed forces. This is the story as told by a writer of the Associated Press and carried on Associated Press wires:

"Oklahoma will send an uninstructed delegation bound by the unit rule to the Democratic national convention, named in the late hours of the state convention here yesterday after the combined state administration, Al Smith and Reed forces gained control, Smith and Reed factions were claiming today a divided strength for Houston. The so-called Oklahoma-Klan dry forces failed to obtain representation among the 38 delegates chosen, who are to cast Oklahoma's 20 votes at Houston. The convention resolved in favor of farm relief plans, declared prohibition was settled by the Eighteenth amendment and pledging its enforcement, indorse the administration of Governor Henry S. Johnston and made a demand for the return of honesty in public affairs."

Thus for the first time the face of former United States Senator Robert L. Owen is out of the picture. Scott Ferris was reelected national committeeman. He was the choice of the Smith-Reed delegates. Mrs. A. B. McDougal was reelected national committeewoman by the same coalition.

Governor Johnston is a pro. His friends joined hands with the Smith and Reed delegates in favor of the resolution which declared prohibition was settled by the Eighteenth amendment, called for enforcement of pro laws and let it go at that.

Former United States Senator Thomas P. Gore is one of the delegates at large. He is a blind man. He was a notable senator. A native of Mississippi, he came to Texas years ago and was a leader of the Populist party.

He moved to Oklahoma before statehood and became a leader of the Democratic party. He was defeated for reelection to the Senate by Scott Ferris. Governor Johnston declared himself to be the titular leader of the Democrats of Oklahoma. He made the fight. He turned the faces of the former bosses or would-be bosses to the wall.

Now an uninstructed delegation goes to Houston. Prohibition is declared a settled fact. Harmony is demanded all along the line in Oklahoma. "Farm relief and a return of honesty in public affairs are made the paramount issues of the campaign."

There are thousands of former Texans in Oklahoma and many of the prominent leaders of the Democratic party of the state have been taken from their ranks.

Charles N. Haskell built telephone companies in Texas and Oklahoma years ago. This was long before statehood came to Oklahoma and Haskell became its first governor.

Oklahoma delegates were hog-tied at San Francisco. They were hog-tied at Madison Square Garden.

They are not hog-tied this year. They go uninstructed and they are pledged to farm relief, a return of honesty in public affairs and a determination to place the party of Jefferson in control of the federal government.

Reckless Sons of Serious Fathers

"BOYS will be boys." James M. Cox Jr., son of a distinguished Ohio Democratic leader and publisher, was arrested by New York police, charged with assault and leaving the scene of an automobile accident.

All charges against young Cox were dismissed.

David M. Barkley, 22-year-old son of Senator Barkley of Kentucky, was in police court for a hearing on charge of reckless driving and failing to show a driver's permit after a crash of automobiles.

His father, the serious senator, appeared and made bond for the youngster. Wild head liners of the hour will be the serious citizens of tomorrow. "Boys will be boys."

Drunken Motorists

JUDGE M. L. DUNHAM, of Grand Rapids, Mich., looks at things in a way we like.

Announcing the other day that motorists brought before him for driving while intoxicated would be sent to jail for long terms, he declared:

"The drunken driver is almost as great a menace as the bank robber. Hereafter these drivers, when proven guilty, will go from this court to jail for the maximum term."

We think the judge is absolutely right. Any man who is in the slightest degree under the influence of liquor has no place behind a steering wheel. Nor has he any sympathy coming if trying to drive while in that condition, he gets arrested and jailed.

ATTAINING THAT FOR WHICH WE ARE WORTHY

We do violence both to experience and reason when we expect to attain that for which we are not worthy. To make oneself fit for better things is the purpose of education and religion—and education in its higher sense and religion in its truest meaning are not disassociated. Both bring the development of the individual through a process of overcoming evil with good, error with truth, weakness with strength, until he gradually grows into the stature of the perfect man.

There is no clash between reputable science and revealed religion. The devout scientist stands uncovered at the proofs of God's wisdom and laws, working for the benefit of His vast creation, and sees the varied manifestations of His being, as Pope expresses it, as

"but parts of one stupendous whole
Whose body Nature is, and God the soul."

MADE TO ORDER, AND A PERFECT FIT

The naming of Senator Simeon D. Fess, of Yellow Springs, Ohio, as keynoter of the republican convention at Kansas City insures a keynote speech of the proper kind. Senator Fess, it will be recalled, spent considerable time predicting the renomination of President Coolidge, even after the president had stated he did not choose, so greatly does he admire him; and not even a White House rebuff could cool his ardor. Therefore, he is fully capable of eulogizing the administration in a way to bring pride to the hearts and cheers to the throats of the convention, no matter how hot the weather in Kansas City.

Health and Diet Advice
By DR. FRANK McCOY
Author of "The Fast Way to Health"

Questions in regard to health and diet will be answered by Dr. McCoy, who can be addressed in care of this paper.

Banishing Noises in the Ears

It is surprising to see how many questions come into my office daily from correspondents asking for an explanation of ear noises, and hoping that I can send them information which will bring about relief from this distressing symptom.

Patients suffering from this trouble have sought in vain for help from ear specialists, although whatever help received through treatments has been at best only temporary. This is, of course, because the real cause can not be removed through any kind of treatment except by changing the habits of living, which have been responsible for the disorder.

The immediate irritation which produces the throbbing noise is due to either high blood pressure in the blood vessels of the inner ear, or to an accumulation of catarrhal mucus around the delicate vibratory apparatus which is the instrument for receiving sound waves from the outside of the ear.

In every case which has come under my observation there has been no difficulty in bringing about a complete and permanent cure. This can be effected merely by dietetic treatment which must be applied by the patient to himself.

Whether the derangement is caused by blood pressure, or by mucus pressure, the patient actually has something which is producing sound from the inside of the ear instead of from the outside. It is much the same as if you strike your telephone bell with a hammer instead of only being disturbed when someone wants to talk to you on the phone, and rings in the usual way.

If the ringing continues in your inner ear, of course you can not sleep and will consequently become very nervous, but it is folly to continue to allow the "bell" to ring when you can stop the cause within a few days.

In every case a fast from all food for a few days will remove the trouble temporarily, as the blood pressure will be reduced if it is too high, or the catarrh will quickly diminish if the cause lies in an excess of mucus around the tympanic bones.

It is doubtless interesting to have the blood pressure taken before the fast in order to find whether or not high blood pressure exists. If the systolic pressure is not over 140 millimeters, you can be sure that the difficulty is produced from chronic catarrh. In either case the fasting and diet treatment will bring about a rapid change, with quick relief from the annoying throbbing. A fruit fast should be continued for a week or 10 days, and the diet to be followed after the fasting must be free from an excess of carbohydrates.

If the trouble is purely catarrhal, all fats and oils must be avoided for a considerable period of time. Milk should not be used at all, and only small amounts of cream and butter. A blood stream which has been full of catarrh for years will need a rest from all forms of carbohydrates and hydro-carbons, and only after several months of living on this restricted diet can one expect to be able to return to a well balanced diet without experiencing a slow return of the catarrhal tendencies.

The blood must be literally starved of these mucus forming foods for as long as a year or more before the catarrhal inclination will disappear altogether.

One who has proneness toward high blood pressure or toward catarrh has a serious problem on his hands which can not be solved by ministrations of any physician, no matter how skilled in his science of treatment. The fault lies only in the patient's dietetic habits, and the cure rests with his power of will in using only the right foods in the right way!

Questions and Answers

Question—L. J. G. writes: "Have gone through much sickness and disease and nothing but your way of dieting has ever helped me, but I still have a tired feeling, no matter how long I sleep. What makes me have a constant craving for sweets?"

Answer—Try taking more of the systematic exercises and see if you can not build up your strength so that your sleep will do you more good. No matter how much you diet, nothing you can do will take the place of physical exercise, and it is surprising how you can gain in strength through increasing your exercise when it would probably seem to you that more rest is necessary. Your craving for sweets is a craving for stimulants and will be overcome as soon as you regain your normal strength.

Question—High School writes: "I am troubled with hairs on my face, but can not afford the electric needle as you suggest. I pull the hairs out every day, but they keep coming back. I am only 18, and am so ashamed of my condition. Can you help me?"

Answer—The electric needle is the only sure means of killing superfluous hair, but you will be able to somewhat discourage the growth of these hairs if you will use one of the rosin and bee's wax preparations now on the market. This comes in a cake, and the warmed wax is put on the face wherever there is hair. As soon as it cools, the wax plaster is jerked off, bringing the hairs with it, making a much better job of it than you can do with the tweezers. You will need to use this preparation only about once a week to keep down the growth, during which time it will gradually become less.

The Day Book of a New Yorker

Exclusive Central Press Dispatch to The Record News

GRANT'S TOMB.

NEW YORK, April 18.—Among travelers there is a tradition that if you sit in front of the Cafe de la Paix, in Paris, long enough you will see every one in the world you know. But Times Square, N. Y., is more truly the crossroads of the world.

P. G. Berdeshevsky, engineer and cosmopolite, who was born in Russia, educated in France and the United States, has supervised engineering work in Egypt, South America and Europe and traveled all over, tells me that he encounters more of his acquaintances from around the world in Times Square than in any other international gathering place. The Strand, Unter den Linden, Place l' Opera, Shepheard's in Cairo, the Bund in Hong Kong, the Malecon in Havana, are comparatively unimportant crossroads.

Pavements around the Times tower are a favorite refuge of lonely visitors from the hinterland and abroad. They hope to meet some one from home. The news stand at the north end of the building deals in newspapers from small and large places all over the United States. A shop in the basement sells newspapers and magazines from all foreign countries.

The triangle also is a popular "meet-you-there" place for New Yorkers. When a Manhattan husband phones his wife and tells her to join him "downtown" and go to a show, she knows she is supposed to meet him at the Times Square Liggett's. The lobby always is crowded with waiting persons, and a floorman is necessary to prevent blocking of passageways.

Because Times Square is the crossroads of the world, there are detectives watchfully waiting there day and night. It is a haystack in which it is easy to find needles. A crook who does a "job" in another city and heads east is likely to call at the out-of-town news stand on the Square to see what papers back there are saying about it. An absconding banker becomes anxious for news of his deserted family, and goes to the stand for a paper. Or a runaway daughter is curious to know if her folks think she has been kidnaped or murdered. By patrolling the square detectives are able to pick up scores of persons sought by police of other cities.

Marion Gosnell, the writer, is here from Andover, Ohio, telling a story about Clarence Darrow's early days as a lawyer in Andover. In one of his first cases he, a raw youth, was pitted against one of the most dignified members of the bar, and took delight in annoying his opponent during the progress of the arguments. Finally the older man, losing his temper, bawled out to the jury: "Gentlemen, there is a donkey in this room."

Darrow responded: "Yes, gentlemen, I just heard his voice."

The length of pre-opening lines at the de luxe Broadway picture houses on a week-day morning is an indicator of the extent of unemployment in New York. They are long now. Most of the persons in line are men. They spend the early morning hours hunting for work; then, not wanting to go home to the family to report failure, and desirous of forgetting their troubles, they crowd into the luxurious photoplay cathedrals, sitting through several shows. Managers haven't found a way to get them out after one performance.

DRIFTING SAND

Have you stood on the street in a windy day,
Where the wind's eddy-currents frolic and play?
Have you seen the street dust swirl and boil,
Seen the endless writhings, and struggles, and toil?

That is life—just an endless struggle to gain
An Eternal Bliss on Elysia's plain;
How strong are the winds that eternally play—
That always struggle to turn us away!

Away from the path that we know is the right,
And into the channels to Eternal Night!
Just winds, to lure us from predestined way;
May the winds turn to calms each forthcoming day!

THE STORY THUS FAR

When the strangled body of Margaret Odell, known to Broadday as the "Canary," was found in her apartment, New York found itself confronted with one of the most baffling murders in its history. Vance, student of psychology and of crime, is taken to the apartment by Markham. The rooms are violently disordered. The medical examiner gives it as his opinion that the murder was committed about 11:30 the night preceding.

CHAPTER V

"I guess that's all, doc," Heath decided. "I'll get the body to the mortuary right away. Let's have the post-mortem as soon as you can."

"You'll get a report in the morning." And despite his apparent eagerness to be off, Doctor Doremus stepped into the bedroom and shook hands with Heath and Markham and Inspector Moran before he hurried out.

Heath followed him to the door, and I heard him direct the officer outside to telephone the department of public welfare to send an ambulance at once for the girl's body.

"Such detachment!" Vance said to Markham. "Here you are stewing most distressingly over the passing of one damsel fair and frail, and that blithe medicus is worrying only over a sluggish liver brought on by early rising."

"What has he to be upset over?" complained Markham. "The newspapers are not riding him with spurs. . . . And by the way, what was the point of your questions about the torn dress?"

Vance lazily inspected the tip of his cigaret.

"Consider," he said. "The lady was evidently taken by surprise; for, had there been a struggle beforehand, she would not have been strangled from behind while sitting down. Therefore, her gown and corsage were undoubtedly intact at the time she was seized. But—despite the conclusion of your dashing Paracelsus—the damage to her toilet was not of a nature that could have been self-inflicted in her struggle for air. If she had felt the constriction of the gown across her breast, she would have snatched the bodice itself by putting her fingers inside the band. But, if you noticed, her bodice was intact; the only thing that had been torn was the deep lace flounce on the outside; and it had been torn, or rather ripped, by a strong lateral pull; whereas, in the circumstances, any wrench on her part would have been downward or outward."

Inspector Moran was listening intently, but Heath seemed restless and impatient; apparently he regarded the torn gown as irrevalent to the simple main issue.

"Moreover," Vance went on, "there is the corsage. If she herself had torn it off while being strangled, it would doubtless have fallen to the floor; for, remember, she offered considerable resistance. Her body was twisted sidewise; her knee was drawn up, and one slipper had been kicked off.

"Now, no bunch of silken posies is going to remain in a lady's lap during such a commotion. Even when ladies sit still, their gloves and hand bags and handkerchiefs and programs and serviettes are forever sliding off of their laps on to the floor, don't y' know."

"But if your argument's correct," protested Markham, "then the tearing of the lace and the snatching off of the corsage could have been done only after she was dead. And I can't see any object in such senseless vandalism."

"Neither can I," sighed Vance. "It's all devilish queer."

Heath looked at him sharply. "That's the second time you've said that. But there's nothing what you'd call queer about this mess. It is a straight-away case." He spoke with an overtone of insistence, like a man arguing against his own insecurity of opinion. "The dress might've been torn almost any time," he went on stubbornly. "And the flower might've got caught in the lace of her skirt so it couldn't roll off."

"And how would you explain the jewel-case, Sergeant?" asked Vance.

"Well, the fellow might've tried the poker, and then, finding it wouldn't work, used his jimmy."

"If he had the efficient jimmy," countered Vance, "why did he go to the trouble of bringing the silly poker from the living room?"

The sergeant shook his head perplexedly.

"You never can tell why some of these crooks act the way they do."

"Tut, tut!" Vance chided him. "There should be no such word as 'never' in the bright lexicon of detecting."

Heath regarded him sharply. "Was there anything else that struck you as queer?" His subtle doubts were welling up again.

"Well, there's the lamp on the table in the other room."

We were standing near the archway between the two rooms, and Heath turned quickly and looked blankly at the fallen lamp.

"I don't see anything queer about that."

"It has been upset—eh, what?" suggested Vance.

"What if it has?" Heath was frankly puzzled. "Damn near everything in this apartment has been knocked crooked."

"Ah! But there's a reason for most of the other things having been disturbed—like the drawers and pigeonholes and closets and vases. They all indicate a search; they're consistent with a raid for loot. But that lamp, now, d' ye see, doesn't fit into the picture. It's a false note. It was standing on the opposite end of the table to where the murder was committed, at least five feet away; and it couldn't possibly have been knocked over in the struggle. . . . No, it won't do. It's got no business being upset, any more than that pretty mirror over the gate-legged table has any business being broken. That's why it's queer."

"What about those chairs and the little table?" asked Heath, pointing to two small gilded chairs which had been overturned, and a fragile tip-table that lay on its side near the piano.

"Oh, they fit into the ensemble," returned Vance. "They're all light pieces of furniture which could easily have been knocked over or thrown aside, by the hasty gentleman who rifled these rooms."

"The lamp might have been knocked over in the same way," argued Heath.

Vance shook his head. "Not tenable, Sergeant. It has a solid bronze base, and isn't at all top-heavy; and being set well back on the table, it wasn't in any one's way. . . . That lamp was upset deliberately."

The sergeant was silent for a while. Experience had taught him not to underestimate Vance's observations; and, I must confess, as I looked at the lamp lying on its side on the end of the library table, well removed from any of the other disordered objects in the room, Vance's argument seemed to possess considerable force. I tried hard to fit it into a hasty reconstruction of the crime, but was utterly unable to do so.

"Anything else that don't seem to fit into the picture?" Heath at length asked.

Vance pointed with his cigaret toward the clothes-closet in the living room. This closet was alongside of the foyer, in the corner near the Boule cabinet, directly opposite to the end of the davenport.

"You might let your mind dally a moment with the condition of that clothes-press," suggested Vance carelessly. "You will note that, though the door's ajar, the contents have not been touched. And it's about the only area in the apartment that hasn't been disturbed."

Heath walked over and looked into the closet.

"Well, anyway, I'll admit that's queer," he finally conceded.

Vance had followed him indolently, and stood gazing over his shoulder.

"And my word!" he exclaimed suddenly. "The key's on the inside of the lock. Fancy that, now! One can't lock a closet door with the key on the inside—can one, sergeant?"

"The key may not mean anything," Heath observed hopefully. "Maybe the door was never locked. Anyhow, we'll find out about that pretty soon. I'm holding the maid outside, and I'm going to have her on the carpet as soon as the captain finishes his job here."

He turned to Dubbs, who, having completed his search for fingerprints in the bedroom, was now inspecting the piano.

"Any luck yet?"

The captain shook his head.

"Gloves," he answered succinctly.

"Same here," supplemented Bellamy gruffly, on his knees before the escritoire.

Vance, with a sardonic smile, turned and walked to the window, where he stood looking out and smoking placidly, as if his entire interest in the case had evaporated.

At this moment the door from the main hall opened, and a short thin little man, with gray hair and a scraggly gray beard, stepped inside and stood blinking against the vivid sunlight.

"Good morning, Professor," Heath greeted the newcomer. "Glad to see you. I've got something nifty, right in your line."

Business girls who let menstrual periods interfere with duty have not learned of Midol. This remarkable preparation neither hinders nor hastens the natural process of menstruation, but it does stop the pain.

Midol is not a narcotic. It is just as safe as it is direct and certain. It is only common sense to use it. You have probably tried other things for menstrual pains, but so had the many thousands of women who today bless Midol. It brings complete ease in five to seven minutes. Or prevents pain even starting, if taken in time. Every drug-store has the trim little aluminum case of Midol to tuck in your purse, for fifty cents!—Adv.

Favorite Jokes of Famous People

As Told by Them to

FRANK ERNEST NICHOLSON

By DOLORES COSTELLO

Dolores Costello entered the movies when both she and the industry were infants, but Dolores somehow didn't seem to click.

After growing a little more she got a job as artist's model. Finally James Montgomery Flagg hired her to pose for magazine illustrations. Flagg said she was a perfect model type, so George White signed her to play in his "Scandals."

That made it easy for Dolores to get back into the movies. John Barrymore played opposite her in her first comeback, and Dolores has been paying a comfortable income tax ever since.

Miss Costello is dainty and dimpled, has blue eyes and dark blond hair; looks better in a speed wagon than in a cafe, and not nearly so expensive. She is always glad to see you, but invariably gets your name wrong. Wears snappy little hats which cover one eye, and flesh-colored hose which entirely cover both knees. Is said to be the daughter of Maurice Costello.

Her favorite story is this:

"An old gentleman, seeing two boys engaged in a desperate street fight, stopped them and inquired as to the cause of their encounter.

"'He said he'd punch my sister's nose, sir, and I'm not going to stand for him saying a thing like that!' said the first aggressor.

"'Certainly not, my boy,' said the old gentleman.

"'Well, 'e dared me to say it!' whimpered the other combatant.

"The old gentleman seemed bewildered. Presently he took a closer look at the first boy and exclaimed:

"'Why, I know you; your name is Tommy Wilde, and you haven't got a sister!'

"'I know I haven't,' replied Tommy. 'I was fighting for the principle of the thing'."

CHAMPIONS TROUNCE SPORTS AND ADVANCE TO SECOND PLACE

10-2 DECISION TO STEENGRAFE

Spuds Hit Hard and Play Errorless Ball

SHREVEPORT, La., April 18.—The Wichita Falls Spudders played like real champions today. Superb pitching by Milt Steengrafe, hard clouting and fast and errorless support enabled the Texans to take an easy 10-to-2 victory from the Sports.

By winning while San Antonio and Fort Worth were losing the Spudders advanced from fourth to second place, one game behind the pace-setting Houston Buffaloes.

The champions maced 13 hits off Karpp and Estrada, including five extra-base knocks, with Joe Cobb leading the attack with four blows. Rabbit Benton emerged from his temporary batting slump to club a triple and a double. Lyman Lamb continued his direful batting with a double and a single and George Stanton hammered a brace of two-base knocks.

Steengrafe in Form

While his comrades were batting hard and disporting themselves in a highly creditable manner afield, Milt Steengrafe went along in an excellent display of work on the hill. He held the Sports to six scattered hits and breezed along to win as he pleased. Only in the fifth inning when the Sports bunched three hits did Steengrafe show unsteadiness.

Messrs. Benton and Turgeon scintillated around second base, Fitzgerald glittered in center fielding and Swenson also shone brightly in the fielding of the visitors.

They play the final game of the series here tomorrow and then the Spudders are at Dallas Friday and Saturday, returning home Sunday with Fort Worth as the foe.

The details of the run-getting today follow:

Third Inning

Wichita Falls: Stanton doubled to left. J. Cobb flied to left. Steengrafe singled to center, scoring Stanton. Benton doubled to center, sending Steengrafe to third. Turgeon singled to center, scoring Steengrafe and sending Benton to third. Fitzgerald lined to right and Benton was doubled at the plate, right to catcher. Two runs, four hits, no errors.

Fourth Inning

Wichita Falls: Lamb flied to left. Jenkins walked. Swenson hit to the box and both runners were safe when Karpp's throw pulled Kilduff off the bag at second. Jenkins took third on a wild pitch. Stanton walked, filling the bases. J. Cobb singled to center, scoring Jenkins and Swenson and sending Stanton to third. J. Cobb was out at second, center to third to second. Steengrafe fanned. Two runs, one hit, one error.

Fifth Inning

Shreveport: Whelan dropped a double into short center. Bloxsom's roller to first went for a hit when Stanton fell in fielding the ball, Whelan taking third. Tobin doubled to right, scoring Whelan and sending Bloxsom to third. Karpp grounded out, Turgeon to Stanton, Bloxsom scoring and Tobin taking third. Swenson threw out Cox, with with no advance. Kilduff flied to Fitzgerald. Two runs, three hits, no errors.

Sixth Inning

Wichita Falls: Lamb doubled against the left field fence. Jenkins popped to short. Swenson rolled out, short to first, Lamb taking third. Stanton doubled against the left field fence, scoring Lamb. J. Cobb singled to left, scoring Stanton. Steengrafe reached first when Cox in right muffed his high fly, J. Cobb taking third. Benton tripled off the right field fence, scoring J. Cobb and Steengrafe. Turgeon bounded out, short to first. Four runs, four hits, one error.

Seventh Inning

Wichita Falls: Fitzgerald lined out to right. Lamb singled to center. Jenkins popped to short. Swenson singled to right, sending Lamb to third, and took second on the throw in. Stanton was purposely walked, filling the bases. J. Cobb singled to left, scoring Lamb and Swenson and sending Stanton to second. Steengrafe fouled out to first. Two runs, three hits, no errors.

BEAUMONT, April 18. (AP)—Ad Holzhauser was in form today and the Exporters took the second straight from San Antonio, 9 to 9. Although somewhat wild the big right-hander allowed only six scattered hits, one of which was a homer by Manager Gibson in the second with none on.

In addition to this demonstration, Holzhauser socked a four-bagger himself in the second with one on. It was a line drive to left center. Ad all but expired in making the circuit. Messenger was clouted lustily for the five innings he worked, but Frank Watt proved a distinct improvement. Score:

SEEKS RECORD

Frank Lockhart to Try For New Automobile Speed Mark

INDIANAPOLIS, April 18. (US)—Frank Lockhart, American automobile ace, left here today for Daytona Beach, Fla., where he will make another attempt to break the world's automobile speed record.

Lockhart's nerve was not broken by his spill in his first attempt at the Daytona track.

He will use the same car as that which smashed a month ago while he was driving at a terrific speed. It is a specially built 16-cylinder Stutz. It is equipped in every particular for wind resistance, and is coiled with ice.

Champion and Medalist Defeated In Start of Women's Texas Golf

HOUSTON, April 18. (AP)—The defeat of Mrs. E. R. Lederer, Fort Worth, defending champion, and Mrs. Lucy Roe, San Antonio, medalist and the sensational comeback staged by Mrs. Katherine Bearden Standish of Houston, featured the first round of match play in the twelfth annual championship tournament of the Women's Texas Golf association at the Houston Country club Wednesday.

Both Mrs. Lederer and Mrs. Roe were defeated in extra hole matches, losing at the 19th. Mrs. Mae Whittley of Fort Worth eliminated the champion while Mrs. Whit Stafford of Waco, downed the medalist.

Mrs. Clyde Maddox of Fort Worth had Mrs. Standish 5 down through 10 holes, but the Houston muny course champion righted her game on the inbound holes and came through for a victory on the home green.

"Poker Face" Displeasing Nickname, Queen Helen Says On Way to Paris

NEW YORK, April 18. (US) — Helen Wills, the California tennis wonder, who is making a stopover here on her way to Paris, admitted today she has no thoughts of marriage this year.

Instead, as soon as the French tennis matches are over, Helen will rush back to her dear old California. She declared all this today and added:

"I wish they'd stop calling me Poker Face. It certainly isn't appropriate and I don't think I look like that, do I?"

Helen Wills, be it known, is the antithsis of the athletic girl when you meet her in person—off the tennis courts. She is shy, staeely, and beautiful. Her skin is the texture of peaches and cream and she dresses like a park avenue debutante.

There is no muscular boyishness in her appearance. She is slim, of medium height and delightfully feminine in her choice of clothes.

On May 22, Miss Wills enters the Paris championship matches when she intends to win the title formerly held by Mlle. Suzanne Lenglen. She has no desire to "barnstorm" around Europe, but shortly after playing in England and Holland, she will hurry back to the west and enter her senior year at college.

M'GRAW SIGNS JEWISH HURLER

Giants Purchase Jack Levy From Charlotte Club

NEW YORK, April 18. (UP)—Andy Cohen is not the only Jewish player with the New York Giants this season.

Jack Levy has shown John McGraw enough pitching ability to remain with the club and the Giants today completed the purchase of Levy from the Charlotte club of the Sally league. Levy won 22 and lost 12 games last season.

Cohen and Levy are roommates and Andy says Jack will make a hit with the fans before the year is over.

The box office success of Cohen, one of the most instantaneous in history of the league, undoubtedly had something to do with Levy's retention.

Pete Donohue Refuses To Accept Red Terms

CINCINNATI, Ohio, April 18 (UP) Pete Donohue, star pitcher of the Cincinnati Reds, has failed to come to terms with the club owners and is leaving for his home at Fort Worth, Texas—still a hold out.

The Reds asked Donohue to accept a salary cut and he refused. He will be suspended Friday if he has not reached an agreement concerning his 1928 contract.

DAILY DOPE

By LARRY DAILEY

STRAW HAT TIME is here. This is not an advertisement for the haberdasheries. But it is a reminder that warm days have come to stay, and that golf courses and tennis courts beckon. There are adequate facilities for the playing of both sports in Wichita Falls. Indeed, for a city of its population our town offers amazing opportunity for golf and tennis enthusiasts to engage in their favorite sports.

◇ ◇ ◇

There are two excellent golf courses, both 18 holes. In addition to Golf and Country club, a private course, there is the Municipal Golf club, one of the finest public links in the southwest, with a clubhouse of superb conveniences and appointments.

◇ ◇ ◇

SIX TENNIS COURTS, in excellent condition, are available. There are two courts at Bellevue park and two at Scotland park. There also are two courts at Municipal Golf club, available for members of that organization. The membership of the Municipal club is $25 a year, which includes the right to play on course and court and use of the clubhouse.

◇ ◇ ◇

ONE OF THE greatest golfers is to play here. Joe Kirkwood is to give an exhibition of his trick-shot wizardry and play in an 18-hole match next Thursday at Golf and Country club. Kirkwood is perhaps the greatest golf trick shot in the world. But he is more than that. The Australian ranks as one of the greatest professional golfers. His play here is an event in Wichita Falls golf.

GENE-TOM GO TO NEW YORK

Rickard Plans Title Battle Around July 26

By FRANK GETTY

NEW YORK, April 18. (UP)—A few briskly-spoken words from Tex Rickard today cleared away some of the uncertainty surrounding the proposed heavyweight championship bout between Gene Tunney and Tom Heeney.

Bronzed with his battles with Colonel Bogey on the golf links of Florida, the promoter returned to New York to plunge into the three months task of arranging for the next battle for the heavyweight title.

The fight will be held in New York City, Rickard said, thus disposing of rumors that he would take it abroad. It will be held on a Thursday in July, weather permitting—and "Rickard luck" where weather is concerned is proverbial.

Fight at Ball Park.

Either the Polo Grounds, on which Tex has an option, or Yankee stadium, the other big New York baseball park, will be the site of the battle, July 26 continues the most probable date, a Thursday when the New York Yankees will be on the road.

The question which most concerns the fight fans of the nation, however, probably is this:

What chance has Tom Heeney of winning the heavyweight championship?

Now this is Rickard's bout, and naturally he is saying nothing to disparage it. It would be unlike Tex to forecast a fizzle. There have been heavyweight championship fights which fizzled out like soggy firecrackers, but the promoter never predicted such an outcome.

Heeney Looks Good.

"Tom Heeney looks to have as good a chance of defeating Tunney as Gene did of beating Dempsey in 1926," Rickard said this afternoon. This is a most pertinent suggestion on the promoter's part. Looking back, one recalls how lightly Tunney's chances were held at this time two years ago.

Tex revealed that Tunney's desire to fight twice this year was based upon cupidity rather than concern for his physical condition.

"Here's how Tunney figured it," said the promoter. "Last year, Jack Dempsey took part in two big fights, the one with Sharkey and the one for the championship. Gene only took part in one. This year, Tunney figured that if the public is going to pay to see two fights, he might as well have a share of both of them."

Rickard said that he did not believe Tunney could be at his best on one fight a year, but that he and the champion had agreed upon that number as a maximum.

Tex Picked Foe.

"We'll sign a contract to that effect when Gene gets here later in the week," said Tex. "Gene will fight but once this year and once in 1929."

There never was any question over the selection of Tom Heeney as this year's challenger, Rickard declared.

"I picked him," he said, defiantly. "Tunney didn't have anything to do with it. Heeney had whipped Risko and was the best man available. Gene didn't care who he fought."

Rickard revealed that there has been already a tremendous demand for seats for the Tunney-Heeney fight.

"Every man I met on the golf links in Florida wanted from 20 to 100 tickets," the promoter said.

Winners in elimination contests held recently in eight surrounding counties will assemble here beginning Thursday morning to join Wichita county contestants in the fourth district meet of the University of Texas Interscholastic league. The contests, which will include both literary and field events, will last for three days.

Schools of the collegiate group which will be represented include the North Texas Agricultural school, Arlington; Wesley Junior college, Greenville; Gainesville Junior college, Gainesville; and the Wichita Falls Junior college. The meet will open Thursday morning at 9 o'clock, when entries in the tennis events will engage in preliminaries at the Junior college field.

Literary contests will begin Friday morning at 9 p. m. in the auditorium of the college, after the entries have been given final instructions in a general assembly.

Contests in extemporaneous speaking will begin that afternoon at 2 o'clock, it is announced. Harmony Club Picks Speakers

(Continued From Page One)

spectfully asked to answer the following questions in your address to the citizenship of Wichita Falls tonight:

First: Will you say that among those prohibitionists now on the stump in Texas against the nomination of Governor Smith none are to be found who habitually use intoxicating liquors containing an alcoholic content in excess of that allowed sold or manufactured under the Volstead act?

Second: Do you believe that any habitual user of intoxicating beverages can consistently oppose Governor Smith on the sole ground that he is not an advocate of prohibition?

Third: Do you contend that any president of the United States, however ardent in his opposition to liquor, can bring about any effective enforcement of the Volstead act so long as leading prohibitionists in high places of public trust exhibit their open contempt for such act by the habitual use of intoxicating beverages?

Respectfully submitted,
WICHITA COUNTY DEMOCRATIC CLUB.
By Joe B. Hatchett, chairman.

Pat Harrison Says Demos Oppose Rider

WASHINGTON, April 18. Two School Girls Disappear At Electra in Borrowed Automobile

ELECTRA, April 18.—Two girls of Electra, each about 15 years of age, disappeared Monday afternoon and all efforts to locate them has proven futile.

The two girls left the high school at noon Monday and borrowed a Ford car from Jack Beardmore, a guest of the Jefferson hotel, stating that they wished to drive out to the cemetery. A bird dog belonging to Mr. Beardmore, was in the car at the time the girls borrowed it.

Electra police reported that the girls had been seen about 5 o'clock Monday afternoon driving the car on the Rock Crossing road west of Electra. With this exception, the girls, the dog and the car have not been seen since the car was "borrowed."

No motive can be assigned to the disappearance of the girls, either by the Electra police or by the girls' parents.

Relatives of Deceased Packer Give Fortunes to Settle Armour Debts

CHICAGO, April 18. (UP)—The entire resources of the widow of J. Ogden Armour and her daughter, Mrs. Lolita Armour Mitchell, will be used to settle the debts of the late packer, estimated at $25,000,000, it was announced today.

Ten million dollars of their personal fortunes and all marketable securities will be converted into cash to defray the outstanding accounts against the Armour estate.

At the time of the packer's death, it was estimated that he owed Armour and company, approximately $18,000,000 besides an additional liability of payment of $7,000,000 worth of bonds of the Sutter Basin company he had assumed.

The widow and her daughter declare the Armour company debt will be paid in full when the securities are sold and that funds to refinance the Sutter Basin company will be made available.

At one time the Armour wealth was estimated at $120,000,000 but when he died in London last summer, his fortune had dwindled away to the point that the estate was believed to have been insolvent.

Angel declined to start from here until the matter was satisfactorily adjusted.

MAGNATE DIES

Lord Dalziel, Who Failed In America, Dies Fabulously Rich

LONDON, April 18. (US)—The death today of Lord Dalziel of Wooler removes a man who failed to make good in the United States yet died fabulously wealthy from the success of his European enterprises.

Lord Dalziel introduced taxicabs into London, but he derived the greater part of his wealth as Europe's leading Pullman car magnate. It was he who initiated in France the famous "Blue train" from Paris to the Riviera and the "Golden Arrow" from London to Paris.

Earlier in life he failed with a society and dramatic newspaper in San Francisco but later partially succeeded with the "Chicago News Letter" after fighting many libel suits.

Japanese Ace in Air Race Around World Spans American Continent

NEW BRUNSWICK, N. J., April 18. (US)—Taichiro Araki, Japanese airman, attempting to break the world's record for encircling the globe, landed at Hadley field at 4:25 p. m. today after flying from Cleveland, Ohio.

Araki was greeted by a delegation of Japanese officials and taken to New York where he will board the Aquitania at midnight for England.

He is racing with Ryukichi Matsui, westbound contestant, for prizes of 300 yen (1500) and 1000 yen offered by the newspaper Jiji Shimpo of Tokio. He hopes to complete the globe circling trip in 35 days, five days under record time.

Araki crossed the Pacific ocean by steamship, flew from Victoria to Seattle, went by train to San Francisco and then chartered an airplane for the cross-country trip.

CANYON FLOOD DANGERS TOLD

Legion Head Presses Need For Dam

WASHINGTON, April 18. (US)—Unless the United States government builds a great dam at Boulder canyon to hold back the flood waters of the Colorado river, there will be a flood catastrophe such as was suffered by the Mississippi valley.

Such was the warning served upon congress by Edward E. Spafford, national commander of the American Legion.

The legion has five times endorsed the Swing-Johnson bill, designed to protect the 75,000 people in the Imperial valley and their $100,000,000 of property from the menace of flood, and it has for four successive years seen the bill defeated in congress by the influence of the electric power trust lobby.

Commander Spafford declares that the national government has been amply forewarned of the menace which confronts the people in the Colorado river. If the flood comes, without prior effort by the national government to avert it, the government's responsibility for the resultant destruction of life and property will be morally greater than in the case of the Mississippi, Spafford declared.

Jail Door Balks; Hobo Is Released

GARY, Ind., April 18. (US)—The village of Merriville, near here, almost had a prisoner in its jail today.

He would have been its first in more than a year.

But the culprit, who really had done nothing more than ride into town on a freight, had to be turned loose because Constable Thomas Schulte couldn't open the jail door.

The weather had warped it. The constable tugged at it in vain.

"I might smash it," reflected Schulte, "but you can't lock a prisoner in a jail with a broken down door."

So he suggested that if his man really desired to be locked up it might be well to come back about June 1.

Quitaque Shooting Remains Mystery

QUITAQUE, Texas, April 18—Brisco county officers late today had advanced no clues as to the motive surrounding the death here last Saturday night of Mrs. Ethel Littlefield, 30, and S. J. King, 38. King died of self-inflicted gunshot wounds after he had opened fire with a rifle on Mrs. Littlefield, and several bystanders in a filling station operated by the woman here, according to witnesses. Three shots hit Mrs. Littlefield. No one else was injured.

Funeral services were held here Tuesday for King, with the Rev. W. M. Draper in charge. Mrs. Littlefield's body was forwarded to DeQueen, Ark., for burial.

The man was lodged in the city jail to await disposition of the authorities from three states.

WICHITANS IN SEYMOUR TRIP

Band Enlivens Visit To Neighbor City

To the military music of the Panhandle Refining company brass band, Wichita Falls business men arrived in Seymour Wednesday noon, treated the Seymour business men to luncheon at the Seymour hotel, exchanged greetings, visited the merchants during the afternoon and returned home in time for the evening meal. There were 65 in the Wichita Falls party, which left the Wichita Falls Chamber of Commerce at 9:30 o'clock.

The band tuned up as the Wichitans arrived in Seymour, and played while Seymour men were picked up at their stores and taken to the hotel where O. McDaniel, president of the Seymour Chamber of Commerce, presided.

Mayor J. A. Britain and J. A. Wheat of Seymour spoke a few words of welcome. Hubert M. Harrison, manager of the Wichita Falls Chamber of Commerce, responded. Mutual greetings were exchanged and the luncheon was cut short that the Wichitans might visit with the Seymour business men in their places of business.

Seymour men were asked to return the call in the near future and be the guests of Wichita Falls at a luncheon of the business council.

Wichita Presbytery Plans Completed

PLAINVIEW, April 18.—Final plans for the division of the Amarillo Presbytery into two units, creating the Wichita Falls Presbytery of the First Presbyterian church, were completed in the Wednesday session of the Amarillo Presbytery here today. The plan also calls for the division of the Womens' Presbyterial. The Wichita Falls Presbytery will include Cottle, King, Hardeman, Foard, Knox, Wilbarger, Baylor, and Archer counties and Wichita Falls as the center.

The plan now goes for approval to the Presbyterian General assembly which meets in Tulsa, Okla., May 24.

Discussion of the new division followed the election of the Rev. R. R. Rives of McClain as Moderator to succeed Judge J. W. Crudgington of Amarillo.

Dr. N. F. Grafton of Wichita Falls delivered the sermon at the evening hour on "The Priceless Ingredient." "A good name," Dr. Grafton said, "is rather to be desired than great riches. The priceless ingredient of every arctile in the market place is the honor and integrity of the man who made it."

The Rev. Burney Shell of Plainview, presided at the season.

Peonage Suspected In Case of Showman

Possibilities of peonage were seen by city officers following the arrest here Wednesday night of a man about 35 years old and a boy of 14.

According to the story the boy told officers, he is not related to the man, who is a worker in a show now playing in a West Texas town. The boy, according to preliminary investigation by the police, is used by the man as a drawing card in the particular show to which he is attached.

The boy told police that several days ago he had set out afoot, to visit his mother in Mineral Wells. The man who is "bossing" him, finding the boy missing, left the show for a short time, and took after the fleeing youth. The pair were picked up here for investigation on their way back to the show.

The man will be turned over to the district attorney Thursday for investigation, Night Chief of Police Jim Glenn said.

Chauncey Depew's Will Leaves Vast Fortune to Kin, Servants and Town

NEW YORK, April 18. (UP)—Chauncey M. Depew's estate, reputed to be between $5,000,000 and $15,000,000, will be distributed among his family, his relatives near and distant, his servants, his birthplace and his college.

The will of the late chairman of the New York Central railroad was filed for probate in surrogate's court today. It contained no parting advice to his heirs. It made specific bequests of more than $2,200,000, including $1,000,000 outright to Yale university.

Depew, who died early this month at the age of nearly 94, signed the document on January 26, 1928.

He placed no restrictions on the Yale gift. The village of Peekskill, N. Y., where Depew was born, received $100,000 in trust for educational and other uses.

Other requests included:

To May Palmer Depew, his wife, $350,000 in cash and one half the residuary estate in trust during her life. The $350,000 included $200,000 due her under a pre-nuptial agreement in lieu of Dower rights. On her death, the principal goes to the son, Chauncey M. Depew Jr.

Mrs. Depew also received his automobiles, jewelry, wedding presents and personal effects.

The son received $200,000 in cash, one fourth of the residuary estate, and the income on one-fourth for life, in addition to the Depew New York residence and the contents of Depew's office.

Depew's niece, Ann Paulding, received the income on $200,000 in trust, with the right to dispose of it if she sees fit. Otherwise the money goes on her death to her brother, Charles, who also received $50,000 outright.

Mrs. Kate Strang of Pelham, N. Y., Depew's only surviving sister, received the income on $150,000 for life. On her death the income goes to the three nieces—Martha Townly, Elsie L'Esperance, and May Stang.

No mention was made of Depew's famous original $100, which he placed in the Peekskill Savings bank 63 years ago and which when he asked for an accounting last September 5, had grown by compound interest to $1,100. It becomes a part of the residuary estate, obscure among later millions to be divided between the widow and son.

MURDER PROBE IS CONTINUED

Charges Filed On Youth Held in Case

(Continued From Page One.)

o'clock accosted B. F. Sullivan, 1510 Tenth street as Mr. Sullivan was going to work.

Seeks Directions

"I was robbed by two negroes," the boy told Mr. Sullivan. "I'm practically a stranger here in town and can't find my way home."

After securing directions from Mr. Sullivan for reaching an address the boy gave, he continued on his way. Description of the youth was given by Mr. Sullivan to Sheriff W. G. Bralley.

A few minutes before his encounter with Mr. Sullivan, it was revealed Wednesday, the youth stopped at a grocery store on Eleventh street and purchased a package of cigarettes, telling W. O. Watson, proprietor of the store, that he had been robbed by three white men.

"Red" in Denial

After he had made a statement to Ben P. Allred, district attorney, in which he denied ever having seen Moores prior to seeing him in jail Tuesday night, "Red" again was released. District Attorney Allred declared he did not believe "Red" was in any way connected with the case. Moores, Wednesday afternoon, admitted that he "might have been mistaken" in the identification of his companion.

Moores, who gave his home as Beaumont, said he would communicate with his father there and arrange for counsel. He was unconcerned when informed that he had been charged with murder Wednesday afternoon.

Sousa's Band May Play Here in Fall

Sousa's band may come to Wichita Falls this fall, and Paul Whiteman's jazz band has been booked for November 10, according to announcements made Wednesday by William Ward, building manager of the Wichita Falls municipal auditorium.

Paul Whiteman played here three or four years ago in the auditorium of the Wichita Falls Junior college, and his concert this fall will be the first by an organization of its kind in the new auditorium.

Paul Whiteman's orchestra is being brought to Wichita Falls by a local man, and the rental of the auditorium under this arrangement will be $175, Mr. Ward said. This is in accordance with the provisions of the new scale of prices agreed upon by the city council at its meeting Monday night.

U. S. Golf Pros Sail For England

NEW YORK, April 18. (UP)—Three of America's leading professional golfers—Walter Hagen, Tommy Armour, and Bill Mehlhorn—Sailed tonight on the Aquitania for England to compete in the British open golf championship this summer.

One of this trio hopes to bring back the title Bobby Jones won last year at St. Andrews and which Bobby will not defend.

Hagen is regarded as a likely winner of the British championship inasmuch as the tournament will be placed at Sandwich, where "The Haig" won his first British open title in 1924. The Seaside course, usually swept by high winds, is made to order for Hagen.

If Tommy Armour can maintain the form he exhibited last year at Oakmont when he captured the national open, he may be the one to come back with title.

NEW YORK COTTON

NEW YORK, April 18. (AP)—An opening advance in the cotton market today met a good deal of realizing, but it was absorbed on reactions of 18 or 20 points, and the market firmed up again in late trading. After selling off from 19.85 to 19.66, July advanced to 19.93 and closed at 19.90. The general market closed steady at net advances of 8 to 13 points.

The market opened very steady at an advance of 5 to 11 points, active months showing quick net gains of 8 to 13 points. This was attributed to covering or rebuying by recent sellers and some fresh buying promoted by a bullish view of the weekly report of the weather bureau, prospects for showers in eastern and central belt sections, and rallies from an early decline in Liverpool.

The advance to 19.99 for May and 19.68 for October met realizing or liquidation, and prices eased off during midday. The favorable showing of the day's weather details and failure of the weekly report to have a more stimulating effect on demand, seemed to encourage reactionary sentiment, while it seemed the confidence of recent buyers had been distributed to some extent by yesterday's report on boll weevil emergence.

May sold off to 19.80 and October to 19.50, net declines of 7 to 10 points, but offerings tapered off at these figures, and after holding very quiet in early afternoon prices firmed up again in late trading.

Some of the comment on the reported weevil emergence prior to April 1 was more bullish than that which accompanied the selling yesterday afternoon and covering appeared to be stimulated by private reports of sandstorms in the Southwest. The market showed considerable activity and strength, making new high prices for the day, May selling up to 20.16 and October to 19.73 in late trading. The close was 4 or 5 points from the best under realizing.

Exports today were 24,558 bales, making 6,237,079 so far this season. Port receipts 11,445. U. S. port stocks 1,545,500.

NEW ORLEANS COTTON

NEW ORLEANS, April 18. (AP)—The cotton market here today was quiet, with the exception of one brief spurt near the close, and the price trend was erratic. The general market closed steady at net gains of 5 to 13 points.

Despite unfavorable cables there was a slight gain after the start due to change in sentiment regarding the boll weevil report issued yesterday and indications of unsettled weather. Later, however, the market eased off nearly $1 a bale on liquidation by recent buyers but soon rallied on a forecast for unsettled weather.

July, after starting at 19.57, 3 points up, sold off to 19.40, then rallied to 19.65 and closed at 19.60, 13 points net higher for the day.

Liverpool was 4 to 5 points worse than due but the market here opened at an advance of 5 to 9 points. Weather prospects and an unfavorable crop summary report caused additional gains until May traded up to 19.73, July to 19.75 and October to 19.35, 10 to 11 points above yesterday's close.

The market soon eased off again on a revival of bearish feeling due to the weevil report and on liquidation by those who brought in expectation of a bullish emergence report. Before the offerings were absorbed May traded down to 19.55, July to 19.40 and October to 19.16.

Near noon the market became firmer on prospects for rain and colder weather in the belt and reached new highs in the late afternoon. May jumped to 19.80, July to 19.65 and October to 19.38. The close was 4 to 6 points under the highs, with May at 19.74, July at 19.60 and October at 19.34.

Market Comments

R. O. Harvey and company, rooms 630-37 Harvey-Snider building, received the following Wednesday on cotton and grain from their New York and Chicago correspondents:

Cotton

NEW YORK, April 18—Notwithstanding the bullish weekly report and indications for wet weather in the central belt, there seems to be less desire to follow the long side and realizing has been quite liberal. At least the action of the market would indicate that a more two sided proposition is developing, evidently based on the supposition that present prices discount the backward crop preparations due to the recent cold and wet weather. We believe that the market will meet a fair demand from trade source on the set backs but would await a liberal reaction before making further purchases.—E. A. Pierce and company.

Grain

CHICAGO, Ill., April 18.—Decidedly erratic trade. After a firm start declined with most pressure on the old crop months due to a report that 100,000 bushels had been worked to come here all rail from Minneapolis and a cargo booked at Duluth to come here for delivery purposes. On the appearance of very unfavorable weather reports from Kansas and Nebraska market started to rally and on vigorous buying carried prices through the offers. Much short wheat was covered and there was much buying to reinstate wheat sold out the past couple of days. Seaboard estimated export sales at 250,000 to 350,000 bushels Manitobas and durums. Liverpool closed 1¼ to 2 lower. Buenos Aires was unchanged at noon. Crop reports were generally bullish and told of need of moisture in many sections. Reports of decidedly unseasonable weather in the southwest continued right up to the close. The tone appears to be the strongest at any time yet and the character of the buying is of the best, and we continue to adhere to the bull side but at this level of prices caution must be observed and minor reactions taken advantage of.

Corn continued strong, influenced by the same character of buying that has been evidenced the past few days. A coterie of local floor traders continued to support the market on all weak spots. The advance brought stop loss covering by shorts. The Seaboard reported a little export business to Copenhagen, the first in a long time. Weather over the belt generally favorable, but country offerings to arrive light. Sales of hogs up to 990 was a helpful development. Corn did not advance as rapidly in the last hour as wheat but there was an undercurrent of strength in the market and with wheat so decidedly strong in tone is hardly expected that any weakness will develop in corn.

Oats—Cash No. 2 white sold at 70 cents for a new high since 1920 and the Iowa state weekly report was extremely bullish, making condition lowest since 1921 as result of recent unfavorable weather. Trade in futures here was much more active with cash interest, commission houses, and locals good buyers, while the selling was on resting orders and against privileges.

Rye—Nearby months met with good buying and advanced, but the September ran into liquidation sales and poor support. Trade moderate.—E. A. Pierce and company.

Bonds

Leading Issues on New York Market

NEW YORK, April 18. (AP)—Initial trading in the newly listed British United Kingdom 4s was the outstanding development in the bond market today. The bonds, nearly $2,000,000,000 of which are outstanding, sold readily around 90. Simultaneously, stimulated by the listing here, the price jumped to 93¾ on the London stock exchange. Other foreign issues were quiet and easy.

Further selling of United States government issues was attributed to the influence of liquidation of treasury holdings by the federal reserve system. Treasury issues were offered in rather large volume, but recessions were small.

Domestic corporation mortgages gave a little better showing than yesterday, although fractional declines were by no means rare. St. Paul adjustment 5s made up a little of their recent loss, and there was a good demand for Western Electric 5s. Fractional losses were scored, however, against the copper issues, Burlington 4s, Denver & Rio Grande 4s, and some of the New York traction liens.

Belief of Drop in Broker's Loans Today Encourages Stock Market—Liquidation Quiet

By BROADAN WALL
Universal Service Financial Expert

NEW YORK, April 18.—A quiet and orderly rally was scored by the stock market today, influenced by belief that the rediscount rate would not be changed at tomorrow afternoon's meeting of reserve bank directors. U. S. Realty climbed in rather sensational manner and Radio scored good recovery while rails and other industrials regained part of recent losses in less sensational manner. Dip in the call money rate to 4½ from the 5 per cent. Renewal enhanced bullish sentiment. Steel shares benefited only slightly from another favorable Iron Age review which told of sustained activity at most trade centers.

There was continued quiet liquidation in recent industrial favorites as the recovery progressed. Oils quieted and dipped slightly, as did the coppers. Sterling and other currencies turned easier in quiet trading. Cotton became irregular after early strength while wheat and other commodities continued their advance.

The good feeling was enhanced by belief that the reserve bank would report a drop in brokers' loans as of today's close after the meeting tomorrow. Considering the amount of liquidation indulged in by the bull leaders during the week it would be surprising if loans were not lower. However, the most important item in the statement will deal with government security holdings of the banks. From the action of the bond market it would seem that the reserve has been selling such securities in big volume since the close of last week. By so doing, in the belief of most bankers, it is hoped to produce order in the stock market. No drastic break in stock prices is desired but the money authorities do want to bring volume down to the 3,000,000 share level and stop the wild fluctuations in manipulated pool pets.

Radio was one of the first to recover as report was circulated early in the day that the first quarter's statement, to be issued next week, will show net income of about $2.70 a share. This would be at the annual rate of $10.80 a share and as the last six months usually are the best there are estimates all the way from $15 to $20 a share for the year's income. Realty benefited from brokerage advices telling of increased business of its subsidiaries. There is very little of the stock available in the street so that the bunched orders resulting from such boosting brought immediate result. American Telephone's advance was regarded as belated response to recent favorable earnings report.

Curb

Leading Issues on New York Market

NEW YORK, April 18. (AP)—Prices sagged as holdings were unloaded on the curb market today, apparently in the belief that rediscount rates are due to rise and because of increased margin requirements. A few old favorites resisted selling, which was pronounced at mid-day and there were some recoveries in the afternoon, but most of the list closed lower.

Utilities, as a group, were weak. Electric Bond and Share declined nearly 3 points and Electric Investors about 2. American Light and Traction dropped 10, but regained more than half its loss. Recent declaration of a stock dividend buoyed the American Superpower issues, although the "B" shares closed with a 1½ points net loss after both had touched new peaks. New England Telephone and Telegraph moved against the trend, advancing 7 points to a new high at 150.

Oils recovered some of the lost ground during the afternoon. Galena Signal, Crystal Oil Refining and Tidal Osage reaching new high territory. Penn Mex Fuel gained about 5 points on the day. Gulf, Humble, Vacuum and others closed as much as 2 points lower.

Grain

By THOMAS TEMPLE HOYNE
Universal Service

CHICAGO, April 18.—Wheat, after selling off about a cent early, turned about face today and climbed up to the highest close of the year, finishing right at the top, tight as a drum and strong as Hercules. The "pineapple" under the corn market threatened a coming explosion as corn worked up into new high ground and held its own after a display of treacherous weakness early.

At the end wheat was 2½ to 3¼ higher than the previous close; corn was up 2¼ to 2⅝; oats showed an advance of ⅜ to 1⅛; rye was up ½ to 2½.

Not since the days of war markets has the wheat pit roared as it did during the latter part of the session. Early in the day big traders sold out their holdings and many took the short side.

Timid smaller longs were shaken out of their wheat on a decline. Then the market began to strengthen up. Slowly it climbed back toward high prices it had previously made.

As the advance progressed late in the day its speed accelerated. During the last 15 minutes sold-out longs were scrambling to get back the wheat they had sold. They had to reach for it.

Like wheat corn, assuming that it is going to sell at a much higher price, may move but slowly until it gets into high ground to strip the shorts of all hope that it will break to let them cover. Undoubtedly as it advances it will, as wheat has done, draw an increasing outside trade that will take the market away from professionals altogether and leave them wondering, as often is the case, why they could not see what was going to happen.

In the cash market wheat was 2 lower; corn was 1 up to 1 off; oats were steady; rye was firm; barley was firm. Strength developed at the close.

WARREN BROTHERS CO.

5-Year Record.

The laying of pavements and the manufacture of bituminous paving comprises the business of the Warren Brothers Company. The concern holds patents on the "Warren Bitulithic" pavement. The company has a main plant at Cambridge, Mass., and others at Los Angeles, Oakland and Portland. Sales forces are located throughout the country. In the last year the company has secured several important contracts in Cuba, Argentine, Columbia and Spain. The Cuban contract calls for $53,000,000 worth of work.

Net income has increased almost continuously from 1919 on, although earnings per common share have declined due to increases in capitalization. Consolidated net income, after federal taxes, for the eight months ended August 31, 1927, were $915,989, which was equivalent to $7.04 a share on the common stock after taking care of the preferred.

Funded debt consists of $2,500,000. Capital stock outstanding includes $2,000,000 in 6 per cent preferred of $50 par; $500,000 in 7 per cent second preferred of $50 par, and 500,000 shares of no par common. All stocks have equal voting power. In December, 1927, the directors voted to issue 41,340 additional common shares, and stockholders of all three classes were given the right to subscribe to the additional shares at $80 a share in the ratio of one share for each four shares held.

Dividends have been paid in full on both classes of preferred stocks since 1922. Common dividends were paid at varying rates up to 1917. They were discontinued until 1922 when a quarterly rate of 75c was established. This was increased to the present rate of $1 in 1924. Extra dividends of $1 each were paid on January 1, 1927, and January 2, 1928.

As of August 31, 1927, total current assets amounted to $8,057,798; current liabilities were $5,862,329; net working capital $2,195,467, and book value of the common stock $49.92 a share.

BELTON, Texas, April 18. (INS)—City and county officers joined today in a new kind of man hunt. It all came about during the opening campaign speech yesterday afternoon of Congressman Tom Connally, who is a candidate for the United States senate. While Connally was speaking, a giant airplane appeared over the park a number of times and drowned out the speaker's voice with a medley of music and harangue about a certain brand of cigaret.

Competition of Smaller Cars Forces Early Plans

NEW YORK, April 18. (AP)—Iron Trade Review says there is such keen competition among low-priced motor cars, the quality of which has been improved to such an extent as to bring them into competition with the medium-priced cars, that makers of the latter have been forced to make plans for the new season earlier than usual. The between-series period usually means that car builders will take only such raw materials as they have on order to avoid building too many old cars to compete with the new ones.

The possibility of Sousa's band coming here this fall is an event of paramount interest. Without equal in the world's history in band work, John Philip Sousa is one of the outstanding characters of the age. His music is everywhere recognized as the best. His direction of bands is unquestioned. If such a thing as an official American march would be chosen it undoubtedly would be Sousa's "The Stars and Stripes Forever."

An outstanding man of outstanding achievements who gave his best to his country during the war, a great leader, director and composer, John Philip Sousa is a man Wichita Falls could well afford to welcome in more ways than by mere patronage at the ticket office.

Who Would Pay the Bills?

If a windstorm should damage your home? Would you be out of pocket or would your insurance company foot the bills? The cost of a windstorm policy is so small that it is "penny wise, pound foolish" to be without one.

This agency of the Hartford Fire Insurance Company will see that you are protected against windstorm losses.
