New Life

is given by using BROWN'S IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. BROWN'S IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th, 1881:

> *Gentlemen:* I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for BROWN'S IRON BITTERS, and *insist* on having it. Don't be imposed on with something recommended as "*just as good.*" The genuine is made only by the Brown Chemical Co. Baltimore, Md.

in advance of regular trade channels, we show cut of it, and will mail a sample gross to any address on receipt of $2.

Carries as much Ink as any Fountain Pen.

Writes as easy as a quill.

Action similar to gold pen.

THIS PEN FITS ANY HOLDER.

Our whole line of Pens will be sold by the trade. Price Lists furnished to dealers on application.

W. W, Corcoran, the Washington millionaire is to bring the remains of John Howard Payne, author of "Home Sweet Home," to this country. Steps have been taken for their removal from Tunis to Washington where they will be buried in the prettiest part of Oak Hill Cemetary.

JAS. GORDON BENNETT of the New York *Herald* is to build an Atlantic cable to Europe. He has already subscribed $1,000,000 towards the scheme and promises another million. The new cable is to be worked in the interest of the Baltimore & Ohio telegraph system.

PHILADELPHIA, November 8.—In the United States District Court today Joseph R. Black. who was recently convicted of complicity in the Star-route conspiracies, was sentenced by Judge Butler to pay the costs of prosecution and a fine of $600.

Sergeant Mason's Case.

The United States Judges have refused to grant a writ of habeas corpus in Sergeant Mason's case–the man who attempted to shoot Garfield's assassin. He still languishes in prison, but we do not believe that he is accommodated with two rooms and fed on such splendid fare, in such quantities, as were allowed to the wretch Guiteau.

The Condition of the Cotton Crop.

WASHINGTON, November 10.—The Department of Agriculture reports exceptionably fine weather during the past month for maturing and harvesting cotton, and returns the estimated yield of the acreage of each State as follows: Virginia, pounds of lint to the acre, 183; North Carolina, 180 Florida, 117; Alabama, 150; Mississippi, 190; Lousisiana, 235; Texas, 140; Arkansas, 233; Tennessee, 170; These figures suppose the continuance of average weather for the six weeks of the harvest season yet remaining.

Great Country, Dacotah.

"Yes sir," resumed the Dacotah man, as the crowd of agriculturists seated them selves around a little table, "Yes sir, we do things on a rather sizable scale. I've seen a man on one of our big farms start out in the spring and plow a straight furrow until fall. Then turn aroud and harvest it back."

"Carry his grub with him?" Asked a Brooklyn farmer who raises cabbages on the outskirts.

"They follow him with a steam hotel and have relays of men to change plows for him. We have some big farms up there gentlemen. A friend of mine owened one on which he had given a mortgage, and I pledge you my word, the mortgage was due on one end before they could get it recorded at the other. You see it was laid off in counties."

There was a murmer of astonishment. and the Dacotah man continued

"I got a letter from a man who lives in my orchard, just before I left home, and it had been three weeks getting to my dwelling though it traveled day and night."

"Distances are pretty wide up there, ain't they?" inquired an amazed agriculturist.

"Reasonably" replied the Dacotah man. "And the worst of it is, it breaks up whole families so. Two years ago I saw a whole family prostrated with grief. Women yelling, children howling and dogs barking. One of my men had his camp truck packed on seven mule teams and he was going around bidding everybody good-by."

"Where was he going" asked a Gravesend man.

"He was going half way across the farm to feed the pigs," replied the Dacotah man.

"Did he ever get back to his family?"

"It isn't time for him yet," replied the Dacotah gentleman. "Up there we send young married couples to milk the cows, and the children bring home the milk."

Advantage of Knowing how to Swim.

The Sydney Morning *Herald* of August 25th says: "We learn from a correspondent that, a short time ago, Mrs. A. D. McArthur Campbell, formerly a resident of Coonambell, distinguished herself by a deed of admirable bravery. Mrs. Campbell was a passenger in a steamer from Hongkok to one of the northern ports of Queensland, and one day a little boy about four years of age, to whom the lady was much attached. fell over board, the accident occuring through a sudden lurch of the vessel. With the exception of Mrs. Campbell and the man at the wheel, all the passengers and crew were at dinner. Without waiting for a life buoy or divesting herself of any clothing, and simply saying to the man at the wheel "Don't tell the child's mother," Mrs. Campbell plunged into the water, swam to the boy, and held him up till both were rescued, the steamer having been promptly stopped and a boat lowered. Neither the lady nor the boy was much the worse for the immersion."

Hurricanes and Waterspouts on Lake Tahoe.

Lake Tahoe, Nev., is famous for squalls, waterspouts, and hurricanes. At Tahoe City a remarkable display was recently observed. The attention of a fishing party at the outer end of a long pier was attracted by a loud roaring, and looking across the lake toward Glenbrook saw a hurricane approaching with a long wave of water swell, fifteen feet high in advance.

Knowing that this would sweep the whole line of the pier, all present beat a rapid retreat to the shore. When at a safe distance the party turned to gaze upon the incoming wall of water. While thus employed they were startled by a tremendous roaring to the northward, and a moment after a cyclone from that direction struck the lake. This sent before it a huge wave which had soon attained the hight of that coming from the southward. In a few minutes the two waves came together. When they struck a column of water and spray was sent into the air to the height of 100 feet. The collision of the two waves was followed by a report that sounded like a heavy clap of thunder. A moment after this grand shock of the waters five or six huge water-spouts made their appearance, all within an area of three or four miles, and carried great columns of water and spray to the height of several hundreds of feet. These circled to and fro over the lake for some ten or fifteen minutes, and then one after the other subsided, and for a time thereafter there was almost a dead calm. Waterspouts are very frequently seen on the lake at this season. This is owing to the peculiar situation of the lake, under the crest of the main ridge of the Sierra Nevada range of mountains. When a fierce gale from the west crosses the ridge it plunges down the great canons, and thus are brought to bear on the lake conflicting currents of air. When a hurricane is blowing from the west immense volumns of air appear to be dammed up and compressed behimd the ridge of the Sierras, which at times escape and come over and down the gorges in tremendous puffs. No navigator of the ocean, remarks the Virginia (Nev.) *Enterprise*, sees half as many waterspouts in a three years voyage as are seen by persons residing at Lake Tahoe in a single season.—*Scientific American.*

The War on Saloons.

The professional politicians are very busy trying to make the impression that the temperance agitation is a sort of local affair, or at most, the hobby of a few fanatic ministers and silly women. But when any one tries to make this impression, he either does not know what he is talking about, or he means to tell a falshood. The truth is, that the temperance question is coming up all over the civilized world, and while all good citizens know that the fight against alchohol is to be a long and terrible one, they are preparing in all lands for the suppression of the accursed liquor traffic. In Ireland and Wales prohibition prevails on Sunday and Cornwall and Yorkshire are coming to the same position. Mr. Gladstone is committed to local option, and the prohibition movement is already begun in Germany. Even Paris has moved far enough to close liquor shops two hours earlier than usual. Russia and Austria move for the transfer of the sale of liquor into the hands of responsible parties. There is no issue before the country to-day that can compare for a moment in importance with the temperance issue. Something must be done to suppress intemperance, particularly in our large cities, or all is lost. The liquor interests are a unit, and have taken refuge in a party. The temperance people must do the same. The situation is of the greatest moment. Not only the Sabbath, but all moral restraints are going down before the tide of intemperance. A single evening's observation in any one of our large cities will convince anyone of this truth. Something must be done, and done speedily. The enemy comes in like a flood. Many of our leading politicians in both great parties have already yielded to the saloons Primaries are controled by liquor dealers; parties are intimidated; legislation is purchased, and rum rules in the halls of Congress.

> "Night forever over the Scaffold
> Wrong forever on the throne;
> But that Scaffold sways the future,
> And behind the dim unknown,
> Standeth God within the Shadow,
> Keeping watch above his own."

—*Chicago Advance.*

ARBITRATION INSTEAD OF WAR—An important Convention meets this year at Brussels in Belgium. It assembles in obedience to a call of the "international Arbitration and Peace Association," which has its office at 38 Parliament Street, London, but which has members in every civilized man that walks the earth.

Among the English members of the Association we notice the names of Sir John Lubbock and about one hundred other liberal members of Parliament, several widely known professors in the universities, many men of prominence in the philanthropy of the time, some of the solid business men of England, to say nothing of such show names as the Earl of Derby, the Duke of Westminister, the Earl of Shaftsbury and several others with mystic titles before them and still more mystic letters after them.

The list of French members embraces almost every man in France who has won high eminence in any of the liberal arts and professions, besides a great number of senators and deputies. Germany and Italy are well represented, and Russia contributes three professors and a prince to the Association.

The American members number thirty-four at present, among whom are Nathan Appleton, of Boston, Col. T. W. Higginson, of Cambridge, David Dudley Field, of New York, Senator Mitchel, of Pennsylvania.

One in ten in Europe is a soldiers, supported in wearisome and demoralizing idleness by the toil of the rest. One woman in every ten in Europe works in the fields; digs, hoes, ditches, ploughs, sweeps the streets, carries refuse on her back, strikes with the sledgehammer, draws heavy loads. About five millions of men are under arms, and about five millions of women are doing the work of those men in shop and field.

The object of the Association is to get those soldiers dismised and sent home, and those women released from the toil which uncivilizes them it aims to substitute arbitration for war, and thus render armies and navies useless. It proposes to deliver industrial Europe from the weight of taxation which has become well-nigh insupportable, making life one long, desparing struggle for the barest means of prolonging life.

Is there one human being among our readers who does not wish success to the Brussels Conference? We think not.—*Youths Companion.*

A Texas Steer's Exploits.

A Texan steer, tame-looking but described by the police as savage, escaped yesterday morning from a slaughter house at the foot of East Forty-sixth street. He had just been landed with other steers. Policeman Devery, of Captain Mount's squad, was at forty-sixth street and First Avenue when the steer broke loose. He was alone and did not care to face the animal, which was followed by a large crowd of men and boys and a young man on horseback who was provided with a long rope with which he hoped to lasso the animal. The man on horseback threw his rope with some degree of dexterity, but the end of the rope in all cases fell short of the steers horns. Near First avenue the horseman's rope caught William Johnson by the legs and threw him down. The rope was again thrown and the end landed on the steer's haunches causing him to give a spring forward and upset a peanut stand and the old woman who was sitting by it.

Policeman Devery followed the steer two blocks and discharged his revolver at him without effect. He then gave up the chase and hurried to the station–house, where he reported that a wild Texan steer was loose in the precinct. Catain Mount turned out his reserves and marched them toward the point from which the steer started. The steer was then not to be seen, and a policeman who was on post in the lower part of the precinct having reported that the steer had passed beyond Captain Mounts jurisdiction without doing any harm the reserves were ordered back to the station-house.

After reaching Second avenue the steer turned southwards and ran to Thirty-fourth street followed by a crowd, and a good deal of pistol practice was indulged in. At Thirty-fourth street the steer changed his course. He ran across to First avenue and headed southwards, knocking down a woman on the way. There were several hundred persons in pursuit of the steer and there was much commotion along the avenue. The young horseman made several attempts to lasso him, but in vain. The driver of a licensed vender's wagon was thrown from his seat but not seriously injured. At Twenty-third street the Steer turned towards the river and then another attempt was made to lasso him. The result was that a great many children were frightened and a wagon which happened to be passing was upset. The driver was slightly injured. The steer ran through Twenty–third street to Avenue A and back again to First avenue causing a great deal of commotion along the route. The steer continued down town. In Fourth street, between Avenues B and C, he was brought to his knees by a shot fired by a citizen, and a butcher who was in pursuit cut his throat. The carcass was claimed and taken to a slaughter-house on the East River at Forty-sixth street.—*N. Y. World.*

The Clarendon News

November 24, 1882.

58,760 head of beef cattle have been shipped from the Dodge City stock yards since July 1st.

The Texas Wesleyan College at Fort Worth is reported in good condition and enroute to entire success.

The shooting affray which occured at Henrietta about two weeks ago between two prominent lawyers of that place is one of the saddest items that it has been our lot to record. The following taken from the *Wichita Herald* sufficently describes the affair:

"The intelligence of the killing of R. M. Donley on Wednesday last at Henrietta, by C. M. Burgess, reached here late at night, and was not generaly known until next morning. Nothing that occured in this section in years past has produced so profound an impression on every one. Both men were well known in this country as prominent attorneys. It is hard to learn what was the cause of this fearful tragedy, but from the best information we have been able to obtain the circumstance at the time were as follows: Mr. Donley was sitting in front of the National hotel reading a paper. Mr. Burgess came up in front of Axard &Franklin's store and took up an axe handle and was speaking to some one of the quality of the wood. It is reported that Mr. Donley got up from his sent and started into the store, and as he passed in Mr. Burgess struck him or struck at him. In the scuffle that ensued Mr. Donley got the axe handle away from Burgess and struck him whereupon Burgess stepped back and drew his pistol and fired at Donley. Three shots were fired and Donley died almost instantly. Mr. Donley was burried Thursday afternoon and his remains were followed to the cemetery by a large crowd of people. He leaves a wife and four chilren to mourn his untimely loss. Mr. Donley was a good lawyer and a faithful attorney to his clients, and he leaves quite a number of his clients who are deprived of his services in pending litigation.

The World's Cotton Centennial Exposition.

To be Held Under the Auspices of the National Cotton Planters Association of America, in 1884

Among the resolutions adopted at the Little Rock Convention of National Cotton Planters Association, was one to hold in 1884 a grand Exposition under the auspices of that body It is to be called the World's Cotton Centennial Exposition, and will be to the whole country the event of the decade, and, so far as cotton interests are concerned, the event of the century. Never before in the history of of the South was a movement more enthusiastically inaugurated. The idea was hailed with universal approbation at its announcement, and not a single doubter of the feasibility of this colossal enterprise has been found among the numerous planters and manufacturers with whom we have since discussed it. Even at this early day a number of manufacturers have signified their eagerness to be among its exhibitors, and letters of inquiry concerning it have already been received. Although cotton will form the chief exhibit, yet it is proposed to make its scope universal, so as to include not only everything appertaining to cotton culture and manufacture, but whatever improved implements may be necessary for the most approved methods of diversified farming—in fact all inventions, devices and fabrics that may possibly prove of interest to the people of the South or promote their general industries.

THE OLD, OLD STORY.—For years the people of this country have struggled to solve the puzzleing question as to who struck Billy Patterson, but they were not long in finding out the efficacy of Swayne's Ointment for itching piles. This goes to show what old mother necessity will do. Thousands had suffered unbearable itching, scratching and soreness from piles, but a final determination to find a cure put them on the right track, and to-day those self-same peopie rejoice in a renewel of health through Swayne's Ointment.

Railroad Purchase.

THE GULF, COLORADO & SANTA FE GOBBLES THE FORT WORTH & DENVER RAILROAD.

A rumor is currant in the railroad circles here, and it is generally credited, that the Gulf, Colorado & Santa Fe road has purchased the Fort Worth & Denver road, which is built and in operation from Fort Worth, initial point, to Wichita Falls, a distance of 116 miles. It is said that the line will be pushed on to the Canadian river, in Oldham county, at a point where it will intersect the Denver & New Orleans road, which has been built some 200 miles southeast of Denver City. This will give the Gulf, Colorado & Santa Fe road the drain of an immense country. The purchase price is not known.—*Dallas Herald.*

Washington Letter.

Washington, D.C. Nov 14th 1882.

The subject next to the late eletion, most interesting to Washington just now is the Garfield monument fair. It is certain that a very large number of visitors will be attracted to the city by it. The amount which it is estimated it will bring to the monument fund is between $30.000 and $40.000. Ten thousand dollars have already been subscribed, and there will no doubt be sufficient money to erect a very handsome monument The carpenters are at work on the Capital putting it in readiness for the fair. The rotunda will be draped and decorated, and hung with rare paintings which have been loaned to the fair committee. The old House of Representatives hall, now used as a statuary hall, will, for the occasion of the fair be filled with pretty booths and pavilions, the latter filled with pretty girls masquerading as saleswomen and getting enormous prices for the various articles donated for sale.

It is thought that positive action on the tariff internal revenue, and civil service questions cannot be evaded by the 48th Congress. The demand of the country for legislation has become peremtory. We are collecting $200,000,000 more annually than is required to run the government. In other words we are draining the country of this enormous sum and like the unfaithful steward concealing it in a napkin in the vaults of the Treasury.

***"Many silly people despise the precious, not understanding it." But no one despises Kidney-Wort after having given it a trial. Those who have used it agree that it is by far the best medicine known. Its action is prompt, thorough and lasting. Don't take pills, and other mercurials that poison the system, but by using Kidney-Wort restore the natural action of all the organs.

HAVE YOU HEARD OF ALLEN MACCOLLIN?—Read what he says; "I have been a great sufierer for fifteen years with Itching piles. I tried the prescriptions of our leading physicians as well as numerous Professors of the University with but little benefit. As a last resort they recommended an operation, which I declined, as I had a great horror of the knife. Suffice it to say Swayne's Ointment has proved a plesant and effective cure and I cheerfully say to others afflicted with this distressing complaint to try this great Remedy at once. Instead of restless nights refreshing sleep is now the rule, and all desire for scratching has ceased to exist.

Phil., Pa., May 8th. Allen MacCollin.

The Oil City Derrick rises to make a few remarks, the truthfulness of which nobody will question, as follows: "When an editor makes a mistake in his paper all the world sees it, and calls him a liar. When a private citizen makes a mistake nobody knows it except a few friends, and they come around and ask the editor to keep it out of the paper. When the private citizen dies, the editor is asked to write of all his good qualities and leave out the bad. When the editor dies, the private citizen says, 'Now that old liar will get his deserts.'"

Composed of the best known tonics, iron, and cinchona, with well known aromatics, is Brown's Iron Bitters. It cures Indigestion, and all kindred troubles.

Dr. Jaques' German Worm Cake stand unrivaled as a worm medicine Give them a trial. Sold by all Druggists.

THE New Orleans Times-Democrat is advocting the organization of a Southern Press Association in the ground that the Association Press news which is made up from Northern and Western papers does not suffice for Southern journals.

An old nurse says: Dr. Ackers English Remedy is *best* for coughs croup or diptheria. At druggists.

HOME NEWS

Mr. Kowalski is steadily improving.

Go to R. B. Briggs aud get your washing done.

Dave Maxwell returned from Dodge City Saturday Evening.

Bob Hamilton is acting barber during the absence of Osborn.

Sam. and Albert Dyer left for Grande Vista Tuesday noon.

There will be a social good time in Clarendon, on Thanksgiving.

Jim Willie who has been stopping in town, took leave on Monday.

About an inch of the "beautiful snow" fell on Saturday morning.

A. R. Carhart got a stand on the antelope and killed two at one shot.

Mrs. Cooper is on the sick list. A slight attack of pneumonia is the ailment.

Beasly pulled in from Mobeetie Monday night, heavily loaded with freight.

Mrs. Allan has organized a music class. Several parties in town are taking lessons.

A good many ranchmen from the neighboring ranches enlivened our Streets this week.

On account of bad roads the Mobeetie stage was delayed several hours Monday night.

This has been a busy week for Clarendon. The White House is filled to its utmost capacity.

New goods at the Drug Store, Prof. Combs will be glad to show you anything in the drug line.

Chadwick is happy, he has recovered his long lost mules. They were found over in the Nation.

E. E. Carhart has a spanking new outfit, saddle, bridle and slicker of which he is justly proud. He can now "go to em."

DeForrest and McClelland's outfit is in town. They came in from the Quite Qua near where they have been at work building fence for Goodnight.

A general "rustling" for stoves has commenced. Every inch of available stove pipe is either bought, borrowed, lent, or "rustled."

Osborn departed Tuesday morning in company with T. W. Morrison and Dave Maxwell for Running Water where he expects to slay the buffalo.

D. W. Van Horn & Co. will close out all summer goods at cost from their stores at Fort Elliott, Mobeetie, and Clarendon —to make room for a large fall and winter stock.

A sure cure for impoverished blood pimples, and sallow complexion, is Brown's Iron Bitters. It will produce a healthy color, smooth skin, and is absolutely pure.

The bright and substantial appearance of the Fort Worth *Stock Journal*, as it comes to our Ex. table shows for itself the untiring efforts of its managers. Always full of interesting matter for Stock-growers and the public generally. It is not unfair to say that the *Journal* is the "boss" stock paper in the south west.

THE Hon. Alexander H. Stephens was violently opposed to being inaugurated Governor on Friday, deeming it to be an unlucky day.

If we could speak in tones of thunder we would use our voice to advise all people everywhere to get at once a bottle of Johnson's Anodyne Liniment. As a preventative of diphtheria, pneumonia, congestion, and all dangerous throst and lung diseases its value is priceless.

Mr. Bartlett, who has been living on the Wright farm three miles south of town, has moved his family and household effects into town He occupies a part of the Wright house.

A general turnout for a hunting expedition on Friday resulted in the capture of two fine antelope. Since then A. R. Carhart has been on the war-path and has killed not less than one a day.

A. S. Mercer, of Henrietta, and Editor of the *Shield*, on the road to Mobeetie, stopped over in Clarendon Friday night. He was trying to hire a typo for the *Panhandle* office at Mobeetie of which he is proprietor.

The new arrivals at the White House are numerous. Among the number we were pleased to meet Mr. Wm. T. Carhart, late of St Louis. He comes to see the Panhandle country and I to look up a favorable location for business.

McClelland with his surveying outfit started for Tule Canyon Tuesday noon, they expect to be gone about twenty days surveying on the Goodnight range in the vicinity of the Tule. McClelland, J. E. Thompson, J. T. Otey, and Jas. Ferguson composed the company.

H. L. Wright pulled in from Wichita Falls with eight loaded teams on Wednesday. He was loaded with wire for L. H. Carnart to be used on the range fence. Wright goes back for 10,000 pounds of corn, to be delivered about the middle of December.

Mr. J. W. Lewis of Pease River City who was in town a short time ago cotemplates making arrangements for a new line of hacks between Vernon and Clarendon, connecting directly and regularly with Witchita Falls and east

The distance to Vernon is about one hundred and twenty miles. We need a new stage line running east badly, and hope to see this or some other quickly in operation. The present stage and mail line south is out of the way in direction and badly managed on some of the route.

About one foot of snow fell on last Saturday night and covered everything over with its mantle of white. Several of our citizens wishing to take advantage of this splendid opportunity for a ride accordingly set to work and manufactured a sled. Mc' Clelland ( ) lead off in the enterprise and when the sleigh was finished all hands piled in and away they went so rapidly that only once in a while did she touch the ground, so Mac. thought, so rapidly that when we took a second look about a half hour afterwards they were making very fair progress towards the hill near Prof. Comb's house, and appearantly the occupants were very well satisfied with the way things were going. The beautiful new sled drawn by a pair of prancing steeds was indeed a spectacle long to be remembered

Upon returning to town the flushed and smiling faces of the sleigh-riders betokened that a great amount of enjoyment had been gotten out of that ride. The gentlemen are to be complimented on their enterprise in getting up on such short notice a fine means of enjoyment.

Now that winter has about set in we find that wood is in great demand in town and brings a good price. "Our cub" accompanied by a friend started to get a load of wood from McClellan creek to keep our sanctum warm during this cold weather so as to enable our force to give to the public the news of the day and so keep our little community posted on matters of the town as well as of the doings of the outside world in which we still have an interest.

"The cub's" outfit after a trip of two day's at last hove in sight on Wednesday eve, just before the storm of rain set in, "then oh then" what a rejoicing there was in the office, for the sight of their load of wood brought visions of warmth and comfort for the winter. They reported plenty of wood from McClellan creek, and cold weather from the plains, and bade us chop some wood and build a fire.

Pure blood makes good health. Acker's Blood Elixer, endorsed by eminent physicians. At druggists

J. H. Parks been out on a surveying trip since the 14th. He is surveying on McClellan Creek, Grey County. Sam Cordell, Gus Hartman and S. P. Reed accompany him.

We respectfully call attention to the *Planters Journal* published Vicksburg, Miss., and the official organ of the Cotton Planters Association The late numbers will contain the proceedings of the convention held Little Rock. Besides being the official organ of the Asscciation contains an unusual amount of useful reading matter.

Commissioners Court convened Tuesday the 21st inst and fixed the bonds for the newly elected officers as follows: District Clerk 5000,00 County Clerk $2000,00 Justices of the Peace $1000,00, Inspector Hides and Animals $5000,00, Sheriff $5000,00, Sheriff as col State Taxes $2,500,00, Sheriff as col Co Taxes $1,500,00, Surveyor $10,000,00, Treasurer co Fund $1500,00, Treasurer School Fund $5-00,00, County Atty $2,500,00, Constables $00,00, No other business was done by ihe Court which adjourned to meet again Dec. 8th for the approving of official bonds, and any other business that may properly be brought before it.

The official count of the votes cast in this county shows the following result.

☞No woman really practices economy unless she uses the Diamond Dyes. Many dollars can be saved every year. Ask the druggist.

AMERICANS, certainly, are nothing if not enthusiastic; and this prominent point in their chracter is often made a target by some enterprising foreigner, with an idea to enhancing his financial condition,—and not seldom the attempt succeeds. No other nation received Jennie Lind so demonstratively as did ours, and never before did she make so much money. The spectral Sara Bernhardt, a good actress with a naughty record, collected from the emotional Yankees shekls numerous enough to even enable her to indulge in the luxury of a husband. Oscar Wilde, the boshy disciple of æstheticism,—a person entirely unknown to the public of his own country—languidly limped and poised before American audiences, with a greatly benificial result to his pocket and a visible softning effect on the brains of his hearers. Mrs. Langtry, an English "professional beauty" remsdeled as an actress, is the present candidate for public favor, and her prestige has served to make the advance sale of seats for the opening performance nothing short of phenomenal. Does not this effusiveness tend to give other countries a light opinion of American stability of character? *Weekly Outlook.*

PARSONS' PURGATIVE PILLS

MAKE NEW RICH BLOOD,

And will completely change the blood in the entire system in three months. Any person who will take 1 Pill each night from 1 to 12 weeks, may be restored to sound health, if such a thing be possible. For curing Female Complaints these Pills have no equal. Physicians use them in their practice. Sold everywhere, or sent by mail for eight letter-stamps. Send for circular. I. S. JOHNSON & CO., BOSTON, MASS.

DIPHTHERIA

CROUP, ASTHMA, BRONCHITIS.

JOHNSON'S ANODYNE LINIMENT will instantaneously relieve these terrible diseases, and will positively cure nine cases out of ten. Information that will save many lives sent free by mail. Don't delay a moment. Prevention is better than cure.

JOHNSON'S ANODYNE LINIMENT (*For Internal and External Use*). CURES Neuralgia, Influenza, Sore Lungs, Bleeding at the Lungs, Chronic Hoarseness, Hacking Cough, Whooping Cough, Chronic Rheumatism, Chronic Diarrhœa, Chronic Dysentery, Cholera Morbus, Kidney Troubles, Diseases of the Spine and Lame Back. Sold everywhere. Send for pamphlet to I. S. JOHNSON & Co., BOSTON, MASS.

An English Veterinary Surgeon and Chemist, now traveling in this country, says that most of the Horse and Cattle Powders sold here are worthless trash. He says that Sheridan's Condition Powders are absolutely pure and immensely valuable. Nothing on earth will make hens lay like Sheridan's Condition Powders. Dose, 1 teasp'nful to 1 pint food. Sold everywhere, or sent by mail for 8 letter-stamps. I. S. JOHNSON & Co., BOSTON, MASS.

MAKE HENS LAY

Osborn brought in five deer after the snow. He reports two others killed that he did not get. This is the most successful hunting trip he has made this season.

Certain parties have been for years flooding the country with immense packs of horse and cattle powders which are utterly worthless. Dont be deceived by them. Sheridan's powders are the only kind now known in this country which are strictly pure. They are very powerful.

A terrible and disasterous fire occured at Halifax, N. S., in which it is estimated that seventy-five helpless inmates of a hospital perished in the flames.

LAUNDRY.

All who need washing done, go to R. B. Briggs. For the convenience of all those who wish, garments washed will be mended.

Stock Notes.

The latest advices from the North give an average of $3.40 for the last receipts of grass Texans.

The drive of beef is over, and buyers in our principle markets will turn their attention principally to pork buying and shipping.

The trade in blooded bulls to the West and Southwest has assumed a new phase and taken a turn of no little importance to Colorado and Kansas ranchmen who have well bred up herds and good crosses. Ranchmen are now laying great stress upon the thorough climating of their bulls; looking more to constitution and the individual, than breeding and taking fewer high priced cattle than heretofore. Many buyers give the preference to bulls raised on the plains and the demand for such are steadily increased. Messrs. Towers and Gudgell sold last week off their Colorado ranch 30 Hereford bulls to Messrs. Rachel Bro's of Texas, for their ranch on Nuces River and say they could have sold more if they had had them. —*Price Current.*

Cattle Sales.

On the 17th of last month the Canadian River Cattle Company, of which J. Coburn is president and treasurer and W. M. Hudson is superintendent, bought the turkey track brand and range owned by Snider & Word, numbering 11,000 head of cattle, for which they paid $250,000. On last Saturday the above named company make still another purchase, the same being the well known herd of T. S. Bugbee numbering about 12,500 head for which $350,000 is paid. This gives this company in all about 35,000 herd of cattle.

Western Dressed Beef in the East.

The Chicago papers are afraid that New Yorkers will allow themselves to be prejudiced against the Chicago dressed beef, which is the latest novelty in fresh food arriving in quantity here. There is no danger that such preju dices, if they exist, will lead to the rejection of any good beef. Chicago may send to New York. There are innumerable consumers who would like to see a little of that Western beef, dressed, of which they hear so much. No intelligent persons at this late day will discredit the statement that meat can be carried not only from Chicago to New York, but round the world, and delivered at the end of the journey as fresh as when started. Improvements in the refrigerating process long ago made this entirely feasible. England to-day is levying upon all her colonies as well as the United States for steady supplies of fish, flesh and fowl. Australia sends her beeves, sheep and calves in a frozen state. The Hudson Bay country makes similar shipments of salmon. From the United States England derives refrigerated prairie chickens and all kinds of game in addition to beef. There is no reason why cars cannot transport fresh meat in a good condition over long distances as ships. Only enterprise is needed to provide the facilities, and this is now done by Chicago men. They predict a revolution in the cattle trade at their end of the line. They say that before next spring the business of shipping live cattle from Chicago to this city will be a thing of the past. If so the change will be welcome. The treatment of cattle on the cars is for the most part barbarous and brutal, and the animals arriving here are not always in fit condition for killing. Humanity and sanitary reasons combine to make us hope that Chicago will be able to do all that is promised and throw into New York beef better and cheaper than that now supplied from the local shambles.—*N. Y. Journal of Commerce.*
