

Senate Vote Against HST Falls Short

WASHINGTON (AP) — President Truman, under heavy Senate fire and facing a House move to impeach him, stuck to his guns today in the fight with Congress over his seizure of the steel plants.

A powerful Senate drive to force him to cancel the seizure order fell just short of the two-thirds majority vote it required yesterday. But its Republican backers led by Sen. Knowland of California redoubled their cries of "dictator" and cast about for other devices.

Actually 47 senators, 11 of them Democrats, voted against it. Not a Republican voted "No". A switch of four votes would have provided the two-thirds margin needed to suspend Senate rules and permit action on Knowland's proposal to forbid the use of any federal funds in the seizure.

The Senate Banking Committee ordered a new investigation into government handling of the steel dispute which many of its members have denounced vigorously.

But the group quit talking about reprisals that might demolish the whole wide structure of wage and price controls, although it called a month's delay in the writing of a bill to continue them past the June 30 expiration date.

Highly placed committee members, including vigorous critics of the program, told a reporter they now expect the controls will be continued without much change, but probably only until next March instead of the two-year extension the President had requested.

Meanwhile, Truman's boss of the seized steel plants, Secretary of Commerce Sawyer, was reported about to take his first official move to hand the CIO steelworkers a new contract, a disputed pay boost. Employers refused to grant the raise without government permission to increase steel prices \$12 a ton.

The Senate Labor Committee, whose past actions have had a strong pro-administration flavor, called Philip Murray, CIO President and head of the steelworkers union, to air the workers' side of the story at a public hearing today.

The White House planned to release during the day findings of the Mobilization Advisory Committee, composed of representatives of industry, labor, agriculture and the public.

Sources which declined to be named told reporters this group, after a 25-minute meeting with Truman, voted yesterday that (1) the Wage Stabilization Board acted within fixed policy in recommending a 17 1/2 cents an hour increase for the steelworkers; (2) the industry now should publicly justify its demands for any price increase in excess of \$3 a ton; and (3) condemn critics who accused the WSA's public members of having shown bias.

The latter point was described as a unanimous finding, but industry representatives reportedly voted against the first one, and won support of some farm representatives in opposing the second.

In the House, some Republican leaders indicated privately they are not too happy over the move to impeach the President, launched by Rep. Hale (R-Me) without consulting them.

Ex-Resident Dies At Crystal City

Harvey Earl Covington, 57, former Big Spring resident and employee of Corden, died at Crystal City Friday.

He is survived by his wife and mother, Mrs. Carl Johnson, both of Carlsburg Springs, seven brothers including R. B. of Big Spring and two sisters.

Funeral services were held Sunday at Carlsburg Springs.

Dallas Detective Wounded During Narcotics Raid

DALLAS, April 23 (AP)—A detective was shot twice today as he crawled through a window into a West Dallas tavern during a narcotics raid.

Detective Harvey W. Totten was not critically wounded. One bullet struck him in the hand, another pierced his cheek, ranged through his mouth and emerged from his neck.

A five-time ex-convict, Floyd Leslie Bentley, 30, was arrested by another detective and two deputy

Damaged By Convict Riot

A state trooper looks over the laundry which was totally destroyed by a one-day general riot at the Southern Michigan prison in Jackson, Mich. Several other prison buildings were also ransacked and set ablaze. (AP Wirephoto).

FOR STATE'S 70 DELEGATES

Ike's Pennsylvania Margin May Reach 700,000 Votes

PHILADELPHIA (AP) — Gen. Dwight D. Eisenhower's whopping popularity poll victory in the Pennsylvania primary prompted demands by his backers today for a lion's share of the state's 70 GOP presidential nominating votes.

But backers of Sen. Robert A. Taft of Ohio, the general's chief opponent for the Republican nomination, called the results "meaningless" so far as the division of convention votes is concerned.

Eisenhower, completing his duties as NATO military commander before returning to the United States, banded out what may be on the final count a 700,000-vote victory over Taft in the popularity race. Former Gov. Harold E. Stassen of Minnesota, on the ballot with Eisenhower, trailed in third place in the primary election yesterday.

It was a one-sided contest from the start since Taft kept his name off the ballot and urged his backers not to write it in. He said the results wouldn't affect the delegate lineup.

However, in head-on contests for eight delegate places from the Pittsburgh area, a slate of Eisenhower candidates led for six of eight places and the Taft slate was ahead for only two.

Of 52 other delegates elected by districts yesterday and 10 chosen at-large previously, Associated Press polls showed that 17 lean toward Eisenhower, 16 are favorable to Taft, 19 are uncommitted, and 10 races are not yet settled.

In the Democratic balloting, Sen. Estes Kefauver, the Tennessee coonskin-cap campaigner continued his practice of walking off with popularity contests.

But his preference primary victory over President Truman, who says he isn't running again, gave Kefauver no guarantees on any of the delegates on the 70-vote group which will go to Chicago publicly uncommitted. Many had signed pledges they will support the popular choice, but the pledges are not binding.

Eisenhower's sweep was impressive in the Republican popularity contest despite Taft's avowed efforts not to become involved as a candidate.

Returns from 8,127 of the state's 8,421 precincts showed: Eisenhower 825,922; Taft, 166,451; Stassen 117,596.

In the Democratic contest, where there was no name on the ballot and all votes were write-ins, Kefauver got 81,442 votes and Truman 21,338 from 7,839 of the 8,421 precincts.

Eisenhower was third on write-ins, with 17,712 votes. He was

Reds Dodging Main Issue, UN Truce Leaders Charge

By ROBERT B. TUCKMAN

MUNSAN (AP)—Allied truce negotiators accused the Communists today of dodging the main issue blocking arrangements for enforcing a Korean armistice.

The Communists replied there would be "no progress at all" unless the United Nations Command changed its attitude.

The exchange ended a 19-minute session of staff officers at Panmunjom. No progress was made toward settling truce supervision disputes—Communist nomination of Russia as a neutral inspector and

Allied insistence the Reds be barred from repairing military airfields.

It appeared more and more that the truce supervision negotiators were waiting outcome of secret talks on prisoner exchange. The prisoner session lasted two hours. There was no report of what happened.

During negotiations, Allied artillery shells burst in a brief but heavy barrage near the Panmunjom neutral zone. The concussion shook the wooden floors of the conference tents.

Col. Don O. Darrow opened the meeting by telling the Communists the U.N. Command had proposed solutions for the two remaining problems "and we now await action on your part."

North Korean Col. Chang Chum San replied Russia met the qualifications of a neutral. He said the airfield debate would be ended if both sides "adhere to the agreements" not to bring additional military equipment, including aircraft, into Korea during an armistice.

"I find," Darrow said, "that your side still evades the main (airfield) issue before us. You have merely repeated arguments which do not pertain to the argument."

"To be frank," Chang retorted, "I believe that there will be no progress at all unless your side changes your attitude not to resolve issues confronting us."

On that note they recessed until 11 a.m. Thursday (9 p.m. Wednesday EST.)

Flood Threats In East Texas

By The Associated Press

The Weather Bureau said Wednesday the highest flood waters in three years are building up on several East and Northeast Texas rivers.

Flood warnings advising livestock owners and oil and gas companies to prepare to evacuate lowlands were issued by the Weather Bureau. Population centers were not believed greatly endangered.

The warnings covered these rivers: the Sabine, the Red River, and three Red River tributaries, the Cypress River in East Texas, the Sulphur River in Northeast Texas and the Little River in Southwest Arkansas and Northwest Louisiana.

Cities along these river basins are almost all on higher ground or protected by levees. But the spreading waters could cause considerable damage to lowland farmers, and also to oil and gas facilities.

The Sabine already was above flood stage today at Mineola and Gladewater in East Texas. At Mineola the stage Wednesday morning was 16.41 compared with a flood stage of 14. An 18.6 foot crest was expected Saturday.

Gladewater's stage Wednesday was 26.54, just above flood stage of 26. The Weather Bureau said a 35-foot crest would reach Gladewater by May 1.

Korean Casualties Now Up To 107,666

WASHINGTON, April 23 (AP)—Announced U. S. battle casualties in Korea reached 107,666 today, an increase of 295 since last week.

Those killed in action now total 16,898, an increase of 50; wounded 78,236, an increase of 249; missing 12,532, a decrease of 4.

Total battle deaths number 18,558 with 9,851 men currently missing. Battle deaths include those killed in action, 1,763 fatally wounded and 197 dead, originally reported missing.

Straw Hats Go For Free

In a prelude to "Straw Hat Day," which falls on Friday, 11 Big Spring merchants will give away the spring chapeaus at the ball game tonight.

The event is being held a day early because the Braves will not be here Thursday or Friday evenings.

Each of the cooperating merchants is donating a hat which will be given to some male patron at the game this evening.

Convicts Checked In Daring Try At Prison's Arsenal

Jersey Prison Mutiny Ends In Surrender

RAHWAY, N. J. (AP)—Rebellious convicts at Rahway State Prison Farm surrendered meekly to authorities late yesterday, ending a five-day mutiny.

The 231 rebels, who had been barricaded in a dormitory wing for almost 115 hours, gave up after freeing eight guards they held as hostages.

Unshaven and haggard, the convicts shuffled slowly in pairs out of the building from which they earlier had shouted defiance to prison authorities.

Just prior to their surrender, the rebels pulled down crudely lettered bedsheet signs which hung outside the dormitory windows, and burned them.

In a statement from Trenton after the convicts gave up to authorities, the New Jersey State Department of Institutions and Agencies said:

"The settlement includes the same agreement stipulated by the department yesterday, namely a survey of parole procedures and a promise there would be no corporal punishment visited on inmates who laterly barricaded themselves."

These were the convicts' two major demands.

As the mutineers filed from the debilitated building, they were frisked by guards, taken for physical checkups and then sent to a prison drill hall to spend the night.

F. Lovell Bixby, deputy institutions commissioner, said:

"I'm damned glad to be out of there," said one of the hostage guards as he left the barricaded second floor of the wing.

Another guard said, "They treated us pretty well."

Earlier in the day, Gov. Alfred E. Driscoll announced he will appoint a committee to investigate the state's prison system.

Voting On Change In Milk Minimum

DALLAS, April 23 (AP)—Amendments to increase the minimum price of milk guaranteed to producers under a federal milk marketing agreement were being voted on today by about 2,550 North Texas milk producers.

Byford W. Bain, Federal Marketing Administrator, said they have until 11:59 p.m. tonight to get their mail ballots postmarked.

FLOOD DESTRUCTION SPREADS Kansas City Builds Levees Higher, Just To Be Safe

By LARRY HALL

KANSAS CITY (AP)—Flood workers built their levees higher at Kansas City today, spurred by the Missouri River's fresh destruction upstream and a continued pattern of rain.

They said the extra height wouldn't be needed, but they wanted to have it—just in case.

Both the nation's longest rivers spread destruction in record floods for miles along their length.

The mighty Mississippi flung its weight at towns along the Iowa border. Crests were expected there today a little higher than last year's records.

And along the wild Missouri, the flood brought almost hourly crises. So far, the Red Cross estimated, 26,538 families or about 105,000 persons have been forced to flee their homes in the two major floods.

The extra protection being built on top of levees at Kansas City is the same kind of wooden "flash-boarding" used to save Omaha, Neb., and Council Bluffs, Ia., last week.

There was nothing in sight, however, to indicate another disaster like the one that hit Kansas City, Kan., and Kansas City, Mo., last July, causing huge industrial district losses.

But with the treacherous Missouri you never know.

Army Engineers boosted their estimates of damage to \$54,000,000 from \$40 million in Southeastern Nebraska to the mouth above St. Louis.

Cancer Fund Drive Set Up

A campaign for funds to support will be conducted here before the end of the month, Matt Harrington, local campaign chairman, announced this morning.

Harrington said a group of workers will meet late this week, probably Friday, for a kick-off breakfast.

Howard County's quota in the Cancer Society's drive this year has been set at \$2,600. Harrington said workers hope to subscribe the quota within a few days after they begin solicitation.

Enter Demand For Bargaining Talks

JACKSON, Mich., April 23 (AP)—Heavily-armed state police smashed a plot of riot-torn Southern Michigan Prison's mutineers to break into the prison arsenal today.

The barricaded felons, using the lives of 10 prison guard hostages as a bargaining weapon, meantime demanded that Gov. G. Mennen Williams enter peace negotiations.

State police upset a plot of the mutineers to smash into a tunnel leading from their fortress cell block 15 to the prison administration building.

The administration building contains the prison's big arsenal.

The convicts were reported to have ripped off a metal cover over a tunnel entrance within block 15. A sound of banging and clattering gave them away and a score of rifle-carrying state police and guards rushed in to the tunnel to nip the escape attempt.

Negotiations resumed after a midnight peace bid to the hold-out convicts from Warden Julian N. Friable.

There were signs that prison heads were willing to go along with some of the mutineers' demands.

Subsequently, came the demand for Gov. Williams' participation.

Earl Ward, insurrection leader, made the demand in a telephone talk from besieged block 15 to Deputy Warden George Bacon. Ward demanded the governor's signature to any agreement.

The hold-up convicts accused the prison system of "brutality" and demanded reforms in a number of phases of prison administration.

"The demands are not unreasonable," Friable conceded, "but there are no grounds for some."

Friable tried to conciliate him in an attempt to save the lives of 10 prison guards held as hostages.

The convicts say they will put the hostages to death if police rush their stronghold. A force of 800 state police and guards are concentrated at the prison.

Rioting Monday caused two million dollars damage to the "big house." One convict was killed and at least nine were injured. State police had to fire volleys to get equipment into the prison yards to put out fires set by the convicts.

Before the worst of the rioting

Quake In Korea

SEOUL, Thursday, April 24 (AP)—A sharp earthquake lasting 36 seconds hit this war-torn capital of South Korea today, shaking buildings and rattling windows.

Lubbock Nursery of Lubbock was apparent low bidder on tarring proposals for the Big Spring Air Base, based on bids opened in Fort Worth Tuesday afternoon.

Col. Delbert B. Freeman, in charge of the Fort Worth district for the Corps of Engineers, said that the bid was \$16,637. This is more than \$10,000 under the government's estimate of \$26,750. It is even more under the second lowest of the seven bids opened. The second lowest was \$34,212.

No contract has been let yet to West Texas Builders of Lubbock, apparent low bidder on the construction of a psychological training building for squadron headquarters, and an operations building at the Big Spring Air Base. The firm's bid was \$260,516, which was beyond the 25 per cent leeway given the Corps in letting contracts in relation to government estimates. The estimate for this work had been \$214,925. The contract might be awarded on a breakdown basis, but this is problematical.

Ex-Tax Official Had Big Income 'Not Explained'

WASHINGTON, April 23 (AP)—Treasury agents testified today that former Internal Revenue Commissioner Joseph D. Nunan Jr. received \$161,609 between 1945 and 1950 which he either did not report on his income tax returns or could not explain.

They said more than \$90,000 of this amount was received by Nunan during the three-year period between March 1, 1944, and Jun 30, 1947, when he was the government's top tax collector.

Andres Soldana, an Internal Revenue agent, testified he had looked into Nunan's financial affairs and was unable to obtain an explanation of \$97,328.72 in cash which the Nunans handled during the years 1945-1950.

Nunan is now an attorney with offices in New York and Washington.

He was under subpoena to take the witness chair himself today at hearings by a House Ways and Means Committee on alleged tax irregularities.

He failed to appear, but sent word he was ill.

Roundup Quells Rioting

Michigan State Police Commissioner Don Leonard points to an open cell door and orders a prisoner to enter as police herded inmates behind bars following a general riot at Southern Michigan Prison, Jackson, Mich. Convicts who started the rioting are still holding out in cell block Number 15, where they have barricaded themselves. (AP Wirephoto).

Dallas Gambler Badly Wounded At His Estate

DALLAS, April 23 (U-P)—Ivy Howard Miller, 50, Dallas gambler, was shot and critically wounded at his estate north of Dallas yesterday and remained in a critical condition today.

Miller's 33-year old son, Ivy Howard (Peck) Miller Jr., was taken into custody by sheriff's deputies. He said, "I have nothing to say."

Miller was reputedly a gambling operator in Dallas during World War II and a one-time associate of Nevada Gambler Benny Binion, under indictment in Dallas for operation of policy games.

The elder Miller had little to say about the shooting. He told Sheriff Bill Decker, "All I know is that I heard a sound in the next room and the next thing I know is that I'm shot."

He made news 12 years ago when he shot and killed Sam Murray, 34-year-old ex-convict and gambler, in a downtown Dallas doorway. Charged with murder and indicted, the case was dismissed on a motion by former District Attorney Andrew Patton on Patton's last day in office.

The motion said evidence was "insufficient to support prosecution."

Young Miller was free on a \$1,300 federal district court bond on a marijuana possession charge at the time of the shooting.

Predict Truman Decision On Pact Leader By Thursday

NEW YORK (U-P)—A European NATO official predicts President Truman will make his choice today or tomorrow from among three American generals—Alfred Gruenther, Matthew B. Ridgway and Omar N. Bradley—for an NATO commander to succeed Gen. Eisenhower.

Gruenther is Eisenhower's chief of staff; Ridgway is U.N. commander for Korea, and Bradley is chairman of the U. S. Joint Chiefs of Staff.

The high official, who is kept informed of major NATO actions, would not allow publication of his name in connection with his forecast. He said the choice of a new commander will be completed by the NATO Council in Paris next week.

AGAINST JOHNSON

Stevenson May Run For Senate In '54

By The Associated Press
Repeal of the Coke Stevenson-Lyndon Johnson feud—the showdown two years ago—overshadowed all other political developments in Texas today.

Stevenson said he intended to run against Sen. Johnson in 1954.

Meanwhile, Atty-Gen. Price Daniel moved a day nearer the U. S. Senate seat to be vacated by Tom Connally with no announced opposition. But a chance remained that he might get an opponent soon.

Former governor Stevenson said, "If I feel as good as I do now, I intend to get into the (1954) race. And I believe I can run that fellow a race." He was speaking of Lyndon B. Johnson who eked out a slender 87-vote victory over Stevenson in 1948 when block-voting Duval County gave him a tremendous, one-sided majority.

Former Representative Martin Dies, in a self-imposed deadline setting ten days ago, said he would make his intentions for 1952 known "within the next ten days." He said he would run for either senator or congressman-at-large.

Today, however, it appeared Dies might run again for his old seat in the House which he relinquished without a campaign in 1944 to Rep. J. M. Combs of Beaumont. Combs said yesterday he would not be a candidate for re-election and Dies said he was "seriously considering" making the race for the second district seat.

Stevenson told a Dallas News-

porter he turned down urgings of friends to run for congressman-at-large. They wanted him to run for a warm-up race for the 1954 Senate campaign.

Others, besides Dies, who said they might run for Combs' seat included mayor Joe Runnels Jr., Orange; former state Rep. DeWitt Kinard, Port Arthur; former state Sen. Roy Cousins Jr., San Augustine County; state Rep. Bill Daniel, Liberty; and former Rep. Jack Brooks, Mayor Otho Plummer, and Hotelman Walter Casey, all of Beaumont.

In other political developments: J. Gov. Adlai Stevenson, mentioned as a possible Democratic presidential nominee despite his avowed intention of running only for reelection as governor of Illinois, spoke in Dallas.

Stevenson rebuked "those ambitious men in search of votes" who describe the Korean conflict as "Truman's war" or a "useless" war. But he said that we must "end the arms race before it puts an end to us."

Get Your Car Ready for Summer with '66 Service'!

Your car needs special attention before hot weather sets in, especially at all the points listed above. Drive in today for complete "66 Service".

Your Phillips 66 Dealer has the knowledge and fine quality products needed to put your car in trim for summer. He'll use reliable Phillips 66 Gear Oils and Greases. Czech Trade Is Badly Hit As Retaliation For Oatis Imprisonment Taking Effect

By EDWARD E. BOMAR

WASHINGTON (AP)—One year ago today Communist Czechoslovakia threw William N. Oatis into jail.

The Associated Press correspondent's name has become a symbol of free world opposition to Communist fear and oppression. He is still behind bars as a convicted "spy," but it is beginning to cost his Red captors some two million dollars a month in American trade to keep him there.

Commerce Department reports show the economic squeeze which the United States imposed in retaliation for Oatis' arrest has reduced the volume of Czech sales in this country by probably 90 per cent and is getting lighter.

The squeeze started last October. The Czechs had been selling an average of more than two million dollars a month worth of their products in this country. The Commerce Department said that in January, the latest month for which figures are complete, Czech imports totaled only \$205,622. Included were goods kept in bond for re-export. This contrasted with \$3,327,638 worth of shipments for the same month a year earlier.

American exports to Czechoslovakia—controlled by the tight U. S. have almost vanished.

Communist secret agents seized Oatis last April 23 as he was putting away his car for the night in his Prague garage.

State Department officials said today they are still pressing for his release. The evidence that the near-boycott is pinching the Czechs

painfully, plus other developments, has led to hope for a break in the case.

The Prague regime has hinted it might consider freeing Oatis—now 38—although at a price the State Department has firmly ruled out. Some authorities believe the Communists have decided they have nothing more to gain, in propaganda or any other ways, by holding him longer. A possible straw in the wind is the recent release of two American soldiers long held in Czechoslovakia.

The lanky former Marine, Ind. reporter was told that with "good behavior" the 10-year sentence imposed on him July 4 would be halved. That was after the Communist-style trial staged inside grim Pankrác Prison in Prague. The charges were that as a reporter he engaged in hostile activities against the Communist state and spread secret and malicious information. Three Czech employees of the bureau Oatis headed were given sentences at the same time ranging from 16 to 20 years.

The United States government has labeled the charges as trumped up and said Oatis was only doing his job of reporting the news.

There is no information on this side of the Iron Curtain as to just how Oatis is faring. No American has been allowed to talk with him since his arrest.

The Czech government announced that he had been brought into court again last month to testify at the trial of 12 "agents of the U. S. espionage service." The

Prague radio broadcast his recorded testimony.

The retaliatory trade squeeze on Czechoslovakia began to show results last fall after a slow start. The Treasury announced Oct. 3 that since the Communists months earlier had drastically reduced the staff of the American Embassy at Prague, the remaining American

consular officers were too few and too busy to make out the routine invoices of shipments to this country.

Lacking these documents, most Czech goods arriving in the U. S. are subject to extra customs assessments of 100 per cent of their value. That has tended to price Czech goods out of the American market and thus serves as a partial embargo. In October, imports from Czechoslovakia, which had been running at an average over two million a month, were valued at \$1,148,574. Included were a portion later re-exported. In November the receipts sank to \$570,005, in December to \$561,426 and in January to \$205,622.

For the entire year imports from Czechoslovakia were valued at \$22,394,292, off about four million dollars from previous years. Seantime U. S. exports to Czechoslovakia were \$990 in October, \$4,051 in November, \$16,701 in December and \$10,001 in January. The 1951 total was \$1,050,126.

Two Construction Companies Are Sold

HOUSTON, April 23 (AP)—Two large construction firms were brought yesterday by William A. Smith, head of a construction company bearing his name.

No sale price was announced on either of the purchases which involved Russ, Mitchell, Inc., and Bishop Construction Co. Both firms were purchased from Mrs. John Bishop, president of the two companies.

Final Govt. Witness Heard In Ex-Ag Official's Trial

ALEXANDRIA, Va. April 23 (AP)—Jack Cowart former secretary was the final government witness yesterday at the trial of the former Agriculture Department official charged with improperly accepting a \$1,374 fee.

Miss Irene J. Chapin testified she received a check for that amount from Charles D. Bridgman of Brownsville, Tex., on Aug. 15, 1950. She said that in accordance with an agreement with Cowart she deposited it to her own account and gave Cowart her check. Miss Chapin was suspended when Secretary of Agriculture Brannan fired Cowart last August.

Bridgman, testified that he forwarded the check to an "I. J. Chapin" on behalf of Capitol Prefabricators, Inc., which he headed at the time.

At the time, Bridgman had just secured a \$13,743 payment from the Agriculture Department because of a disputed freight claim.

The prosecution contends Cowart arranged a 10 per cent fee for "expediting" the claim. Cowart, 46, was then assistant to the Agriculture Department's

production and marketing administrator.

He is accused of violating a law which prohibits government employees from accepting compensation for services in any case in which the government is interested.

Californian Dies In Auto Accident

JUNCTION, April 23 (AP)—Mrs. Ruth Draine May, 48, of San Gabriel, Calif., was killed yesterday when the car in which she was riding skidded on wet pavement and overturned three miles east of here.

Her husband, Ole May, driver and only other occupant, was taken to Kerrville Hospital with injuries.

Anniversary Of Offensive Is Quiet Day

By GEORGE A. MCARTHUR
SEUL—Light patrol contacts and probes rumbled across the Korean battlefield today as Allied soldiers solemnly observed the first anniversary of a massive Red offensive.

The Communists showed little willingness to repeat the punch they threw last April 22-23.

An Eighth Army staff officer

were reported.

Allied warplanes continued saturation raids on the battered Red supply lines Wednesday. The U. S. Fifth Air Force said Communist MIGs offered no opposition.

U. S. F-86 Sabre jets returning from uneventful patrol sweeps in Northwest Korea helped fighter-bombers shoot up Red supply points.

B-26 light bombers and B-29 Superforts pounded Communist rail and road targets Tuesday night.

Navy headquarters in Tokyo said Allied warships and carrier-based planes Tuesday gave North Korea's East Coast its worst pounding in months.

Red shore batteries opened up on the battleship Iowa, flagship of the U. S. Seventh Fleet. The Navy said there were 17 splashes near the big battleship, but no hits and no damage.

The Navy said carrier pilots silenced the Red guns.

Big Spring Man In POW Picture

Texasans get together anywhere—including the Prisoner of War camp somewhere in North Korea. Among those in the group is a Big Spring man, Cpl. Lee Merworth, brother to Mrs. Jean Van Kirk, and nephew of Mrs. Robert Pearson and Johnny Merworth of Big Spring. Mrs. Van Kirk last week received a letter dated Feb. 28, 1952 in which Cpl. Merworth said he was getting along well and that a letter she had written after he was listed as a prisoner was the first he had seen in 14 months. In the picture taken by Frank Noel, AP photographer who is a prisoner, are, front row, Cpl. Rufus Douglas, Pfc. Billie W. Jones, Pfc. James R. Wells, and Pfc. Billy Campbell; rear, Pfc. Gene L. Roberts (who Cpl. Merworth said was the son of Mrs. Lee Roy Roberts, Leakey, and husband of Mrs. Ed Parker, 808 N. 9th, Lamesa), Cpl. Paul C. Smith, Pfc. Jose Sanchez, Cpl. Merworth and Pfc. Billy J. Smith.

BOSSSES HONORED

Awards Presented At DO Banquet

Presentation of a host of awards earned at state Vocational Industrial Club meet in Fort Worth recently highlighted the Bosses banquet of the Diversified Occupations class Tuesday evening in the high school banquet.

More than a score of DO students had their employers as their guests for the affair. Members of the school board also were special guests for the occasion.

W. C. Blankenship, superintendent, paid tribute to the bosses for making the DO program possible because its operation depends upon training stations.

"We can help supply the book knowledge and an ability to organize their skill," he said, "but for the vital quality of experience, you alone can make that possible. We deeply appreciate your cooperation in this school program to help train better young people."

Invocation for the affair was given by Roy D. Worley, high school principal. Presiding over the banquet was J. L. Claxton, president of the VClub. He introduced Mona Lou Walker and Bobbie Adams, who sang several numbers, accompanied by Maren Tinkham. Beverly Hampton White expressed DO appreciation to bosses.

Achievements of the year were reviewed by Leonard Hartley, the

club vice president. Among the highlights he gave was the combined on-the-job earning figure of \$23,000 for the DO students this year. Joe Pickle, who spoke on "Industry and the Schools," said that industry needed young people who could use their hands and heads, but who also used their hearts in human understanding.

Joe B. Neely, coordinator, noted that the Big Spring club had won more awards than any other in the state. He handed them to Charles Fox, Billie Mosser, Billy Sundry, Calvin Jones, Leonard Hartley, J. L. Claxton, Jimmy Stewart, Billy Cook, W. D. O'Donnell, Jean Anderson, Charles Howell, Charles Bonner and Kenneth Bryant.

WHAT WOULD YOU HAVE DONE

MANILA, April 23 (UP)—Zosimo Candelaria was arrested on the complaint of Flaviano Tuberville that he killed a snake in a restaurant at Calamba.

MAY END UP WITH 90

Ike Gains Most Of New York's Votes

ALBANY, N. Y. (UP)—Gen. Dwight D. Eisenhower's supporters beat down most of yesterday's primary opposition and apparently assured him of at least 85 or 90 of New York's 96 Republican National Convention votes.

Friends of the general won eight of the 11 GOP contests, although several of the winners are not definitely committed to his cause.

Avowed backers of Sen. Robert A. Taft won three.

The balloting was sparse, as expected, and shed little light on the leanings of the voting masses of the nation's largest state.

New York delegates will go to the Chicago convention of both major parties unpledged and uncommitted.

The primary appeared to be another victory for Gov. Dewey, who strongly backed Eisenhower. Dewey, however, seemed to have lost his effort to deliver a solid pro-Eisenhower delegate block to Chicago.

Most of New York's 94 Demo-

cratic convention votes will go to W. Averell Harriman, federal Mutual Security administrator, a "favorite-son" candidate. Harriman was endorsed by 45 of the state's 62 Democratic county chairmen last week and yesterday announced he would actively seek the nomination.

Sen. Estes Kefauver also has the promise of some support. Bronx Democratic leader Edward J. Flynn turned back two challenges in his stronghold. The two insurgent groups had declared for Kefauver, but failed to loosen the organization's grip.

Festival Called Off Due To Race Mixing

GALVESTON, April 23 (UP)—An art and musical festival has been cancelled here after a delegation objected to the mixing of races.

White and Negro students were to have participated in the three-day affair scheduled to begin next Sunday.

Dr. W. L. Glenn, school board president, said the meeting was cancelled to bring the situation into focus and get views of the majority. A similar event was held last year.

AF Flier Gets Sentence For 'Malingering'

HATTIESBURG, Miss. (AP)—The case of Capt. Carl Izard of Magnolia, convicted by a court martial of malingering, will be appealed, says his defense attorney, State Sen. Stanton Hall of Hattiesburg.

Izard was sentenced to dismissal under dishonorable conditions, forfeiture of pay and allowances and to three months imprisonment.

Announcement of the verdict and sentence came from Secretary of Air Finletter at a special news conference at Washington.

Izard, who was assistant county agent of Pike County, Miss., at the time of his recall to active duty, could not be reached at Keesler Field for comment.

His wife, a high school teacher, said her husband did not actually refuse to fly, but requested to be grounded when he "developed a nervous condition and lost weight."

Mrs. Izard, who lives at Columbia, Miss., said her husband offered to serve his country "at any time, in any place, in any capacity if they just wouldn't make him fly."

Mrs. Izard said a Keesler Field surgeon advised Capt. Izard to ask relief from flying "before he became dangerous to himself and others in the air."

Ike Awarded Medal

Atomic Fireball Takes Form

A moment after the nuclear explosion at the Nevada Atom Test Site, this huge ball of fire formed in the sky more than 3,000 feet above the floor of the Nevada desert on the AEC's proving ground. White streamers rising skyward are caused by rockets fired almost simultaneously. (AP Wirephoto).

TELL OF HOLLOWNESS IN CLOUD

Troops Learn To Keep Mouth Shut While Looking At Bomb

By HOWARD W. BLAKESLEE

Associated Press Staff Writer

ATOM BOMB SITE, Nev. (AP)—

For the first time men have lived, unhurt, who stood under and looked up into the flaming, hollow heart of the cloud that rushes upward from an A-bomb.

This happened to soldiers and officers close to the giant explosion yesterday at Yucca Flat.

It also happened to five congressmen who went into trenches with the troops. They are W.S. Cole (R-N.Y.), Olen Teague (D-Tex.), Melvin Price (D-Ill.), Chet Hollifield (D-Calif.) and Carl Hinshaw (R-Calif.).

What they saw and learned is the first chapter in a new atomic chart for survival.

This bomb was greater than anything in Japan or Bikini, and just over or under the most powerful we have fled in the United States. That particular bomb's identity is secret.

The fire cloud followed the fireball, and swelled to miles in diameter, with red flames and yellow gases swirling in whirling bigger than Niagara Falls.

The cloud drifted over the heads of some officers.

"We looked right up inside," said one. "It was hollow, but you could not see daylight through the hole. It was like an umbrella and whirling crosswise like a smoke ring. The inner dome was ribbed with dark and light colors, the dark ones

probably nitrogen dioxide."

The desert under the bomb was moist from rains Saturday and Sunday. The flash of heat lasting three seconds—baked this area white, with alkali giving the color.

For more than two miles in all directions the bomb started fires in Joshua trees—a cactus about 10 feet high. There was the smell of scorched brush all around. One temporary first aid shack burned to the ground. The blast that followed the heat flash blew out most of the fires.

The troops—closer than anyone has approached except in Japan—knelt in trenches, two to several in each. They faced the bomb, with heads bowed just below the top of the dirt.

They joked, and they jumped up and laughed after the terrific flash of light and heat had passed. But their trenches felt hot for those three seconds.

Then they learned the first lesson—keep your mouth shut. Nearly all were standing still in trenches, looking up, mouths open when the blast drove a wave of dust into their faces.

Every man would have been a burn casualty except for the shadow of the trenches.

A tank was placed almost at the edge of "ground zero," directly under the bomb. The hatch was left open to see what would have happened to men inside. They would have been killed by heat.

Planes on the ground far away had twisted tails or spot burns.

Costly Andector Oil Field Blaze Is Extinguished

ODESSA, April 23 (AP)—A costly oil well fire which had been burning since Saturday in the Andector Field was snuffed out yesterday with live steam.

The well, which burned five workers when it first flared at 2 a. m. Saturday, was on a Shell Oil Co. lease. Officials of McQueen and Clevenger drilling contractors of Odessa said the fire caused an estimated \$200,000 loss. The location is about 25 miles northwest of Odessa.

The derrick had been toppled over the burning well. A caterpillar and dragline were used to pull away the derrick, 4100 feet of drill pipe, and the rig. Employees of the drilling contractors said the hole was then blown out with steam.

To Seek Re-Election

AUSTIN, April 23 (AP)—Texas Supreme Court Associate Justice John H. Sharp will seek re-election.

A veteran of 23 years service with the court, Judge Sharp said yesterday he would run on his record of service performed.

Most weapons were not seriously damaged.

The radioactivity in the ground directly under the blast was so low that attacking troops could have marched in immediately and stayed for 30 hours. One reason was the great altitude of this explosion, 3,500 feet.

The bomb plane missed its target by 200 feet, from 30,000 feet altitude. For atomic weapons that is pickle-barrel accuracy.

The troops—closer than anyone has approached except in Japan—knelt in trenches, two to several in each. They faced the bomb, with heads bowed just below the top of the dirt.

They joked, and they jumped up and laughed after the terrific flash of light and heat had passed. But their trenches felt hot for those three seconds.

Then they learned the first lesson—keep your mouth shut. Nearly all were standing still in trenches, looking up, mouths open when the blast drove a wave of dust into their faces.

Every man would have been a burn casualty except for the shadow of the trenches.

A tank was placed almost at the edge of "ground zero," directly under the bomb. The hatch was left open to see what would have happened to men inside. They would have been killed by heat.

Planes on the ground far away had twisted tails or spot burns.

Look who's crowding "the low-priced three"

THE price of a car has a lot to do with the number of folks who can afford to own it.

So the leaders in sales—for almost a generation—have been three cars whose bid for popularity has included a potent price appeal.

But who do you think is right on their heels? Who has led the field, outside "the low-priced three"—ever since 1938?

Well, sir, the name is Buick.

You get more pounds of real automobile when you buy the Buick pictured here.

You get more power. You get "big-car feel."

You get an honest-to-goodness Million Dollar Ride.

You get, in other words, an all-round money's worth of great engineering that makes any Buick—SPECIAL, SUPER or ROADMASTER—a standout buy in its field.

That's not just our say-so. It's what car buyers have said with their hard-earned dollars, year after year.

We think you ought to find out for yourself what these other folks have discovered.

We think you ought to find out why so many Buick buyers are trading in one of the so-called "low-priced three."

We think you ought to compare the size, compare the performance, compare the price, because we know what you'll find out:

If you can afford a new car, you can afford a Buick.

Why not find out for yourself what's behind this popularity?

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other series. Optional at extra cost on ROADMASTER only.

ONLY BUICK PROVIDES THEM ALL

ONLY BUICK PROVIDES THEM ALL

DYNAFLOW DRIVE—great boon to easier driving, proved on more than a million Buicks

FIREBALL 8-ENGINE—of valve-in-head design, makes high compression count for more

NEW WIDE-BAND BRAKES—for smoother, more positive control

MILLION DOLLAR RIDE—with 4-wheel coil springing and road-steady torque-tube

TOP-CAPACITY TRUNKS—more luggage room than ever in most models

NEW TWO-TONE INTERIORS—in most models, grace Buick's body by Fisher

SWEEPSPAR STYLING—adds gleaming smartness to all models

Plus These, Too, On ROADMASTER: AIRPOWER CARBURETION—with highest horsepower in Buick history. MORE MILES PER GALLON. POWER STEERING—greatly eases parking and turning, without losing that firm feel.

SILENCE—so complete you can speak in whispers under way.

Sure is true for '52

When better automobiles are built

BUICK

will build them

Rains Cause Some Damage As Three Rivers Near Flood Stage

By The Associated Press

Heavy rains fell again Wednesday in the Lufkin and Orange areas of extreme East Texas but elsewhere they let up. Some farmers along the Gulf Coast complained "to much rain."

Orange streets were flooded and traffic slowed by a heavy overnight rain which totaled 3.41 inches by 8 a. m. Lufkin's 24-hour total up to 6:30 a. m. was 3.05 inches.

Heavy rains around Spring, Tex., on the coast damaged potato crops. Some farmers feared corn also may be hurt by heavy rains. Rice farmers complained it was too wet to work in the fields.

The new forecasts said the only rain expected in Texas through tomorrow were widely scattered thundershowers in West Texas late tomorrow.

The rain area that had brought relief to dusty, drought-weary farmers had drenched farmlands with crop-saving water, destroyed an earthen retaining wall near Sweetwater's new \$2,500,000 dam, and sent some streams spreading out of their banks. Three rivers, the Sabine, Leon, and Brazos, threatened to hit flood stage.

The Weather Bureau's experimental long-range forecast indicated more heavy rains in the next five-day period, most of it Friday and Saturday.

Lake Waco was brimming full for the first time in more than a

year. Lake Whitney, near Hillsboro, was up 10 feet over its level of a few days ago. A Sabine River crest was due to strike at Mineola Friday.

An eight-foot rise on the Llano River, the Lower Colorado River Authority said, gave that stream its heaviest flow in three years. The Colorado measured seven feet at Ballinger Tuesday. North Concho River was high at San Angelo but no measurement was reported.

At Temple, residents heard warnings the Leon River would reach a crest sometime Thursday. Flood conditions were feared, but Temple's city reservoir had more water than at any time in the last two years.

The usually placid Lampasas River overflowed farm roads between Belton and the community of Little River. The sometimes treacherous Little River was out of its banks in places.

Everywhere the rains fell, jubilant farmers and soil conservation men said it was a Godsend, a real multi-million dollar jackpot from the heavens.

Breaking of the earthen dam at Sweetwater was not regarded as major damage, but the break interrupted work on the big dam designed for Sweetwater's municipal water supply.

Navarro County had some annoying events connected with the rains. Parts of the Corsicana business district were without power when backed up water on the roof of a theater shorted out a primary power line.

High water at Frost, also in Navarro County, cut off the city gas supply for a time Tuesday.

Heavy rains along the border were a relief for stock raisers who had been spending a great amount

of money for imported feed. Val Verde County Agent Herman Jenkins said ranchers in the county were spending \$20,000 daily bringing in feed for livestock that would normally be grass-fed.

Rainfall totals for the 24 hours ending at 6:30 a. m. included Lufkin 3.05 inches, Beaumont 2.57, Houston 2.14, College Station 2, Corpus Christi 1.94, Palacios 1.52, Galveston 1.17, Waco 1.16, Fort Worth 1.14, Palestine 1.08, Tyler 1.03, Austin 83, Victoria 84, Corsicana 82, Texarkana 72, Dallas 69, Junction 50.

Sleepless Nights?

Because of Acid Stomach?

Take 2 TUMS Before Retiring

Do you lie awake counting sheep at night? They feel "all in" next morning? If your stomach is churning up too much acid—that's what's almost sure to happen. Try eating 1 or 2 Tums before you go to bed. See if you don't fall asleep more quickly—feel fresher when you awaken. Always keep Tums on hand to banish acid indigestion... heartburn... gas... fullness. Millions of Americans do. Get a roll today.

Royal Neighbors District Meeting Slated Thursday

Mrs. Maude Marlow of Abilene, district deputy, will be the principal speaker when the district meeting of Royal Neighbors convenes here Thursday morning.

Coffee will be served and registration will be held from 9:30 to 10:30 in the WOW Hall. Visitors are expected from Odessa, Wink, Monahan, Midland and Abilene.

Mrs. Fannie Sue Broughton, district president, will preside at a business meeting at 11 a. m., and the site of the next semi-annual meeting in October will be selected.

School Principals Announce Garden City Honor Roll

GARDEN CITY, (Sp1)—Roscoe Newell, principal of the Garden City High School, has announced the honor roll.

It includes Shirley McLaughlin and Darja Ricker, senior; Larry Calverley and Bryant Harris, junior; Jan Burns, Theora Calverley and Connie Scudday, sophomore; Bertie Mae Robinson, freshman; John Edmondson, Don Davison, Eugene Davel, Shirley McNew and Latrelle Venable, eighth grade; Marcelene Gill and Deanna Marie Watkins, seventh.

Mary Willis Circle Luncheon Honors Members' Birthdays

Members of the Mary Willis Circle of the First Baptist Church met in the home of Mrs. H. H. Squires Monday for a luncheon honoring all members who have had a birthday since January 1.

Those feted were Mrs. W. B. Buchanan, Mrs. Joe Tuckness, Mrs. R. D. Ulrey and Mrs. Squires.

The Lord's Prayer was repeated in unison as the invocation and Mrs. Theo Andrews gave as the devotional, "Home."

Mrs. Tuckness presented a short study on the mission book.

Attending were nine regular members, two new members, Mrs. E. P. Tewell and Mrs. Maude Haynes, and four guests, Mrs. Ulrey, Mrs. J. E. Farmer, Robert Clay and Elizabeth Tewell.

Ray Thomases Feted At Housewarming Tuesday Evening

Mr. and Mrs. Ray Thomas, 805 Rosemont, were honored Tuesday evening at a housewarming in their home.

Hostesses were Mrs. Duane Williams and Mrs. Robert Mahee.

Attending were Dr. and Mrs. Garland Lang, Mrs. Sonny Fuller, Mrs. F. C. Tibbs, Mrs. D. C. Pyle, Mr. and Mrs. Wayne Johnston, Mrs. Harold Berry, Betty Smith, Norma Jones, Mr. and Mrs. George Thomas, Mrs. Johnny Hill, Dr. and Mrs. Clyde Thomas Jr., Rose Nell Parks and Weidon Tibbs.

Joy Parrish To Wed Jack Wright Friday

Mr. and Mrs. G. C. Glenn, 511 Bell, are announcing the approaching marriage of their daughter, Joy Parrish, to Jack Wright, son of C. L. Rogers, Wagon Wheel Ctr.

The ceremony will be read April 25 by the Rev. J. W. Arnett at his home.

DESIGNING WOMAN

Use Designing Skill To Make Furniture Belong

By ELIZABETH HILLIER

Not all bedrooms have long stretches of wall left over after beds are placed, but that's not reason enough for scattering storage furniture about or leaving it out. Mrs. C. J. K. says the only room in her new apartment for storage is a window wall. "There are two windows," she writes, "with strips of wall between them and at both ends that are about as wide as the windows. There are four chests, two medium size ones and two end chests with a small drawers, all units that fit close together, but take up a lot of room."

Ollie Lou Jarnigan Is Feted At Shower By SS Classes

COLORADO CITY—(Sp1)—The Westbrook Baptist Church was the scene of a recent shower honoring Ollie Lou Jarnigan, daughter of Mr. and Mrs. Melvin Jarnigan of Westbrook. The shower was given by the Dependable and Dorcas Sunday School classes.

Rev. J. Barber, aunt of the bride-to-be, welcomed guests and escorted them to the register. Marie Parrish presided at the registry table.

Double Six Club Elects New Officers

New officers were elected when the Double Six "42" Club met Tuesday evening in the home of Mr. and Mrs. John E. Brown, 702 Tulsa Rd.

Hosts were Mr. and Mrs. Floyd Smart.

Milton Kirby was elected president of the group and other new officers include Milton Brown, vice president; Mrs. John E. Brown, secretary and Mrs. Milton Kirby, treasurer.

Mrs. Charles Brown and Floyd Smart won high score at "42" and Mrs. John E. Brown and Charles Neefe won low.

Attending were 10 members including two new members, Mr. and Mrs. Bob Wren, and two guests, Mr. and Mrs. Charles Neefe.

The next meeting will be May 8 in the Charles Brown home.

Three Give Study At Hillcrest Meet

The seventh chapter of "Women of Destiny" was discussed by Mrs. J. T. Grantham, Mrs. Virgil James and Mrs. Troy Harrell when the Hillcrest WMS met Tuesday afternoon at the church.

Plans for buying material needed for a young people's organization was also discussed.

Mrs. Grantham led the invocation and the benediction was given by Mrs. Harrell.

Brazil Nuts Crack Easily If Boiled

Come the rains and Brazil nuts are gathered along the Amazon River tributaries that finger deep into Brazilian jungles. By June the harvest is canoe-bound down the river to ocean liners, at least a 5,000-mile trek to the United States.

The Brazil nut shell cracks easily if boiled three minutes in water.

All Tabasco Comes From Louisiana

Tabasco is a breed of pepper plant originating under the fiery sun in the State of Tabasco, Mexico. All supplies grown for America's spicy food sauce come from Avery Island, Louisiana.

Duncans Have Guests

Mr. and Mrs. D. C. Duncan have as their guests Mrs. Felix Sitomawski and daughter, Dolores, of Milwaukee, Wis., and their son, Pat Duncan, who has just completed naval training at Great Lakes, Ill.

Butcher's Block

Excellent for pounding and cleaving meats, poultry or vegetables is a butcher's block brought down to kitchen size. Heavy durable maple block on sturdy legs it is 11 inches square, 2 inches thick.

Table Setting

An attractive table setting, gray mats, a cloth precisely ironed, a bowl of jonquils, creates a mood for meal enjoyment.

Hyperions To Sponsor Party, Tea

About 100 tickets have already been sold for the game party and informal tea which will be given by the 1930 Hyperion Club Thursday at the home of Mrs. J. Y. Robb, 606 Matthews, beginning at 2 p. m.

Proceeds from the affair will go to the clubhouse fund.

Club members are urging all women to attend a special invitation is being extended to newcomers to the city.

Cabasta, bridge and other games will be arranged for, but in addition there will be a "conversation room" for those coming as tea guests.

A number of local merchants have assisted in providing merchandise awards, club members said, and there will be drawings for these at intervals during the afternoon.

Mrs. Hitt Gives Devotional At Circle Meeting

Mrs. C. O. Hitt gave the devotional using as her text, Matthew 28 when the Mary Hatch Circle of the First Baptist Church met Monday in the home of Mrs. Riley Foster.

Mrs. H. B. Reagan led the opening prayer.

Others on the program included Mrs. W. F. Taylor and Mrs. W. R. Douglas.

The next meeting will be with Mrs. Reagan.

Attending were 13 members and two guests, Mrs. Arlene Bradford and Mrs. Dorothy Long.

MENU FOR TOMORROW

FAMILY DINNER
Grilled Hamburgers
Broccoli with Easy Cheese Sauce
Baked Potatoes
Toasted Buns
Beverage

(Recipe for Starred Dish Follows)
BROCCOLI WITH EASY CHEESE SAUCE

Ingredients: 1/2 pound processed cheese, 1-3 cup fresh or evaporated milk, paprika, hot cooked drained broccoli.

Method: Dice cheese and put in top of double boiler; melt over hot water. Stir in milk. Spoon over broccoli and sprinkle with paprika. Makes about 2 cups sauce, enough for 4 to 6 servings of broccoli.

Rebekahs Honor Team At Meeting

Members of the drill team were honored at the meeting Tuesday evening of the Big Spring Rebekah Lodge in the IOOF Hall.

The team was escorted to their posts by their brother Qdd Fellows.

"Sweethearts of 284" was sung to the team by Julia Hewitt, Frankie Tucker and Beulah Hayworth. They were accompanied by Hattie Bolland.

Velma Mitchell, drill captain, presented the trophy won at the West Texas Association meeting in Midland to the local lodge.

During the meeting plans were made to have a candidate rally in the near future.

Thirty-nine attended.

Inexpensive Kitchen Desk Is Handy Aid

Most women don't have to be sold on the advantages of having an office in their kitchen so all the household bookkeeping can be centered in one spot. They know all too well the frustration of searching high and low for the grocery receipts or the laundry bills and then carrying them all into the living room to make out the monthly checks.

But to most women a kitchen desk usually means a custom-built kitchen or an extensive remodeling job.

Jerry Madison, consumer consultant of a fountain pen company, points out, however, that with a little ingenuity any home can have a kitchen office at little or no expense.

Simply take a section of counter space that is seldom used, she says, add a stool, extension telephone, and a wall lamp and you are all set. For the desk equipment, it's well to choose durable items that can stand heavy wear.

Make your own bill files out of cloth-covered looseleaf notebooks with alphabetical file pockets inside. Sturdy book-ends will keep them in place and make your desk look more business-like.

For the desk pen, the consultant suggests one of the inexpensive reservoir models that holds a year's supply of ink and can be fastened to the counter with glue or screws. If you don't want to fasten it down, this model has the additional safeguard of being leak-proof if accidentally overturned.

A bulletin board on the wall behind the counter is another space saver that will help to keep your desk neat and orderly.

Each housewife will have her own special needs for her kitchen office, but with this basic setup she can achieve the well-integrated look of the most expensive built-in.

Nylon Jacket

By CAROL CURTIS

Sheer, cool, easy to launder, handsomely designed and easy to make! All you need is 7 ounces of 3-ply nylon fingering yarn for size 12 (sizes 14 and 16 are also given in the pattern) in mid-summer, white, pale pink, blue, violet, lime green, raspberry red or any color which suits your preference. Short-sleeved sweater is finished along edges with a charming "cluster stitch" trim. Use pearl, gold, silver or pastel lacy buttons to complete the pretty effect.

Send 25 cents for Crochet Instructions for the Short-Sleeved Nylon Jacket (Pattern No. 338) sizes 12, 14, 16 included, details of all stitches. YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS

Big Spring Herald
Box 229, Madison Square Station
New York 10, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

Pan-American Week Is Observed At Spoudazio Meeting

Pan-American Week was observed when the Spoudazio For met Tuesday evening in the home of Mrs. Ray Clark, 1506-B Wood.

Each club member gave a report on a Pan-American country currently in the news.

The Howard County Junior College scholarship to be awarded by the club to a high school senior girl was discussed.

Plans for the club's program theme for the next year was discussed and a program committee appointed.

Refreshments were served to eight.

Elbow 4-H Club Hears Mrs. Toland

Mrs. Eugenia Toland, county home demonstration agent, gave a cookie demonstration when the Elbow 4-H Club met recently at the school.

Mrs. Toland gave some cookie recipes to the girls and announced the date of the next 4-H Club party. Nine attended.

Attending Funeral

Mrs. R. E. Lloyd is in Baird to attend the funeral services of her nephew, Henry Lambert, who died suddenly at his home in Farmington, N. M. Sunday. Mrs. Errol Haley will also attend the services.

FHA Girls And Sponsors To Attend State Conference

A group of junior and senior high school home economics students will be in Dallas Thursday, Friday and Saturday to attend a leadership training conference.

Those attending from Big Spring are Anna Belle Lane, Virginia Hatch and Mrs. Roberta Wiley, sponsor, of junior high; and Arlene Mitchell, Mary Ellen Hayes and Edna McGregor, sponsor, of senior high.

Miss Mitchell is recording secretary of Area II, Future Homemakers of America, and as such will attend the state nominating committee meeting Thursday to present the Area II nominee, Patricia Fowler, of the Jayton chapter for state office.

The conference is being sponsored by the Texas Education Agency, Division of Vocational Instruction Services, Home and Family Life Education Service.

More than 2,000 Future Homemakers will attend the affair and the program theme is "Today's Youth, Tomorrow's Hope."

The meeting will begin with a recreation program Thursday evening at the Baker and Adolphus Hotels. With group games and entertainment, students from North Texas State College, Denton, and from Southern Methodist University will stress "Leadership Through Play," the theme for the evening.

General sessions will be held in the State Fair of Texas auditorium. The conference will close Saturday with a meeting of the House of Delegates. At that time, new officers will be installed and the program for the year adopted. Honorary memberships and state degrees of achievement will also be presented.

Magic Program To Be Given Monday At Garden City

GARDEN CITY, (Sp1)—A magic program will be presented by Bob Clark, coordinator of the Odessa athletic program and ex-student of Sul Ross State College Monday at 8 p. m. in the Garden City School Auditorium.

The program is being sponsored by the junior class with proceeds going to help finance the junior-senior banquet.

Mrs. Bess Utterback and Mrs. Ruth Jones of San Angelo are visiting in the home of Mr. and Mrs. C. N. Waldron, 303 Johnson Street.

with patented OIL Creme base

Price Controls Released From Raw Wool By US

WASHINGTON, April 23 (U-P)—The government took price controls off raw wool and 15 other commodities selling substantially below ceiling prices yesterday.

The Office of Price Stabilization also said it will decide soon whether to lift ceilings on raw cotton, textiles and apparel. OPS warned, however, that controls will be reimposed if prices rise sharply. It also fixed exact points at which the ceilings would go back automatically.

The suspensions are effective April 26 after which businesses will not be required to keep government records on the 16 commodities.

OPS Director Ellis Arnall told the Senate Banking Committee that his office feels the market is currently established for the commodities.

Another OPS official said that while the possibility of removing controls on raw cotton is being studied, raw cotton prices apparently are too near the ceiling of 45.76 a pound to permit suspension in the near future.

Trading in wool futures was suspended from control, along with raw wool and related fibers. Mohair is not affected at this time.

Frances Weeg Enters Rodeo

Frances Weeg, daughter of Mr. and Mrs. Frank Weeg, has been selected to represent Big Spring at the World Championship Rodeo to be presented in the Mustang Bowl at Sweetwater today through Saturday.

Miss Weeg will contest in the girls' four-leaf clover race which is being sponsored by the Sweetwater Jayceettes. She is a member of the All-Girls Rodeo Association and attends many of the professional events.

Louis Brooks, rancher and former rodeo star is president of the Sweetwater organization. The rodeo is being produced by the Gene Autry-Everett Colborn Lightning C Ranch of Dublin. All performances will be at night.

Casey Tibbs of Fort Pierre, South Dakota, has notified Brooks that he will participate in the show. Tibbs was 1951's champion all-around cowboy.

Sand Caves In On Man, Proves Fatal

CALVERT, April 23 (U-P)—Ed Gilbert, 48, was killed yesterday when four feet of sand caved in on him as he dug a water well near here.

The body of Gilbert, a resident of Gause, Tex., was recovered four and one-half hours after the accident which occurred about 1 p. m.

A nephew who was helping Gilbert hand dig the well, ran for help when the cave-in occurred. He was A. W. Gilbert, about 30, who said he heard weak cries after he returned to the site.

"They didn't last very long," the younger Gilbert said.

4-H, FFA Clubbers Are Granted Awards

More than 300 members of the FFA, 4-H and their guests gathered at the Purchaser's Banquet in the ballroom of the Settles Hotel last night heard Bill Wright of Fort Worth, field man for the American Hereford Association and guest speaker, describe the great and growing need for more ranch managers, herdsmen and cowmen to take care of the increased production of better livestock through better production methods.

Wright spoke in the place of Roy Largent of Merkel, president of the American Hereford Association, who was unable to be present.

World War II demonstrated to the world that people do better on a high protein diet, Wright said, and science has established the fact that a high protein diet is better for the older people. He pointed out that the livestock growers face a tremendous task in providing this diet for America's growing population, not to mention this country's foreign commitments.

The problem can be solved, the speaker commented, only through better methods of livestock production, because the American people have reached the point where they demand not just meat, but meat with quality. One of the best things about 4-H and FFA activity, he said, is the manner in which it fits the boys and girls into this picture—by making them quality conscious. He complimented the purebred breeders who are supplying the bulls for the commercial herds.

It was at this point that he called attention to the fact that there is a present demand for ranch managers and herdsmen with 4-H and FFA training, and he predicted this demand will increase with the years.

The speaker said that last night's meeting demonstrated clearly to him that the business and professional people of Big Spring and all Howard County have confidence in the boys and girls and are giving them deserved co-operation.

Darrell Robinson, president of the Howard County 4-H Club, and vice president of the Coahoma FFA Chapter, presided as master of ceremonies and delivered the address of welcome.

The invocation was given by County Agent Durward Lewter, and responses to the welcome address were made by Ray Rhodes, president of the Junior Chamber of Commerce, which sponsors the annual fat stock show and sale, and by R. L. Beale, vice president of the Big Spring Chamber of Commerce.

Barbara Lewter entertained with piano solos during the dinner.

Nathan Awards were presented by Les Kornfeld to Nat McMinn, Weldon Appleton, Carlos Ramirez, Charles Williams, John Damron, Calvin Daniels, Jerry Iden, Rodney Brooks, Mack Robinson, James Caudle, Donald Denton and Ann White.

Jenkins, vocational agriculture teacher at Coahoma, presented awards to members of his FFA Chapter. Certificates of merit in mutton production went to Johnny

Wilson, Johnny Bob Turner, Tommy Birkhead, Lynwood Watts, Henry Hicks, Jimmy Neill, Jimmy Spears, Skeet Williams, Weldon Appleton, Billy Jenkins, Richard Gilmore, Sam Armstrong, Jack Owens, and Tommy Wyrick.

A certificate of merit in mutton production and beef went to Nat McMinn, and certificates in mutton and capon production went to Jimmy Burkholder, Grady Barr, Jack Morrison and David Hodnett.

Certificates of merit in capon production were awarded Douglas Warren, Carl Kennedy and Jackie Shedy; in mutton production to Bob Garrett and Norman Spears, and in mutton and beef production to Dudley Arnett.

The Coahoma dairy farming award went to Bill Wilson; the public speaking award to Darrell Robinson, and the soil and water management award to Dudley Arnett.

Truett Vines, vocational agriculture teacher in the Big Spring High School said that chapter's awards will be presented at the annual father and son banquet which will be held soon, and Bobby Althart, vocational agriculture teacher at Knott, said that awards will be made at the end of the school year.

The chapter's Star Farmer award went to Nat McMinn, as being the outstanding member of the Coahoma chapter in the field of agricultural accomplishment and progress.

The 4-H awards were presented by County Judge Walter Grice as Lewter called the winners to the stage. They were:

Tractor maintenance: Sonny Choate, Bennie Joe Blissard, Weldon Appleton, Donald Denton, Edgar Allen Phillips, Doyle Lamb, Elvon DeVaney, Darrell Robinson, James Caudle, Robert Merworth and Jesse Overton.

Dairy: James Caudle and Woody Caffey.

Sheep and wool: Jesse McCormick.

Poultry: Kenneth Scott and Carl Wayne Thurman.

Leadership: Jimmy White.

Gold Star: Benny Joe Blissard.

Soil Conservation (A): Billy Fryar.

Soil Conservation (B): Ronnie Davidson.

Public speaking: Darrell Robinson.

Marine Recruiter Here Thursdays

T-Sgt. Wesley Ward, in charge of the San Angelo Marine Corps Recruiting district, announced today that he will be in Big Spring every Thursday, commencing tomorrow.

Sgt. Ward will be at the Post-office, Room 17 in the basement.

The Marine Corps is undergoing a large expansion program and offers varied opportunity for young men between the ages of 17-29. This expansion program, explained Sgt. Ward, means more rates and more opportunities for schools where young men can learn a valuable trade.

The Marine Corps also has announced the need for several thousand commissioned officers. Men with college degrees or who will have them in the near future are invited to talk to Sgt. Ward and find out about the need for second lieutenants in the Marines.

The Marine Corps also expects to have their Women Marines up to strength by July of this year. There are vacancies both in the enlisted and commissioned ranks for eligible young women.

SOME PEOPLE CAN TALK TOO MUCH

HONOLULU, April 23 (U-P)—Mrs. Selkichi Aoki of Hilo rushed to her phone when she saw smoke pouring out of her kitchen.

The party line was busy.

"It's an emergency," she pleaded.

But she said the other parties refused to break off their conversation.

Mrs. Aoki's four-bedroom home was destroyed before she could notify firemen yesterday.

MATS Squadron Is Stationed In Germany

FRANKFURT, Germany (U-P)—The vanguard—three men—of the first full U. S. Military Air Transport Service squadron on the continent is now stationed at Rhine-Main Air Base near here.

Ex-Tax Collector's Trial Is Continued Until October Term

ABILENE, April 23 (U-P)—Judge T. Whitfield Davidson has continued until the October term of court here the trial of Horace Walker, Dallas resident charged in four counts of using the mails to defraud.

Continuance was granted yesterday.

day. Walker, former special tax collector for Eastland County, faces trial in Breckenridge Monday on the second of seven state charges of embezzlement.

He was acquitted of the first charge in Breckenridge last fall. State charges against Walker claim he embezzled state and county funds while a tax collector from 1947 to 1950. Federal counts were made because he filed reports of collections by mail.

Why the right power is so important to truck buyers

When a truck engine is too small for the job, you'll pay in poor performance and high upkeep. When it's too big, you'll waste money on operating costs.

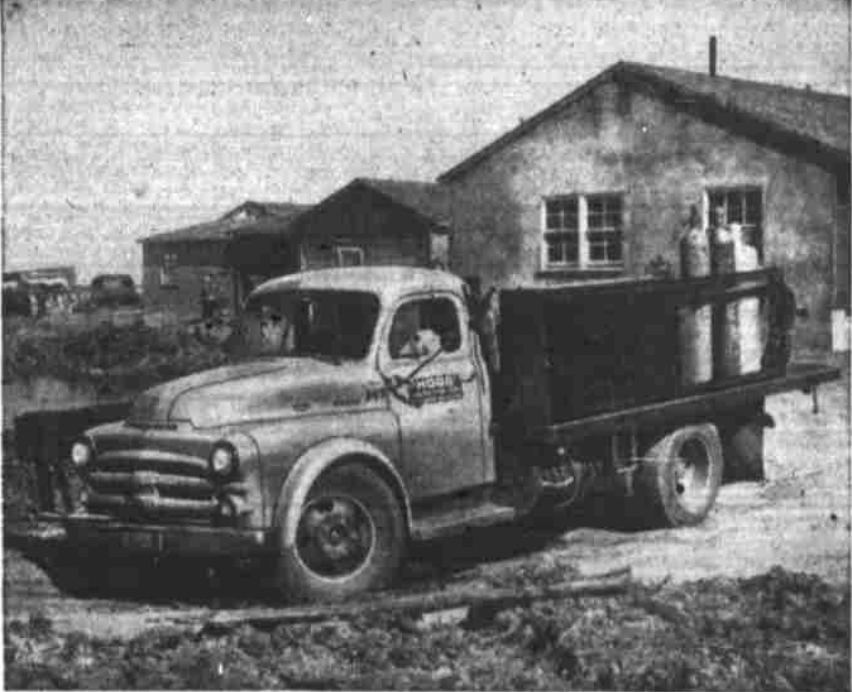

To be sure of the right power on every job, Dodge builds eight great truck engines. There's one "Job-Rated" to fit your work.

In fact, you get a truck that's "Job-Rated" in every way. Every load-moving unit is factory-engineered to meet the most severe operating conditions. And every load-carrying unit is factory-engineered to provide the strength and capacity needed.

We'll gladly tell you all the facts about Dodge "Job-Rated" trucks.

Records show low upkeep. For dependability and low repair costs, rugged Dodge truck engines have 4-ring pistons with chrome-plated top ring and heat-resisting exhaust valve seat inserts.

"When power is needed, Dodge trucks have it!"

...says C. R. SHEARMAN, Hood Construction Co., Lynwood, Calif.

"We've been big Dodge users for many years, because our business demands trucks that are dependable, economical and rugged. "We do most of our driving over rough ground, a lot of it in the mud. The trucks work with crews who are laying pipe in the field. This kind of hauling calls for plenty of power to carry equipment to the men. "And when power is needed, Dodge trucks have it! They seem to be able to pull anything."

See us today for the best buy in low-cost transportation...

A Bible Thought For Today—

We still are. Our citizenship is in heaven. This is just our seasonal home. "They were strangers and pilgrims on the earth." — Heb. 11:13.

Be A Top Citizen By Tackling Clean Up Job Now And Thoroughly

This is the week when the clean up problem is attacked as a community one. Before the week is out, the City of Big Spring will have started its traditional spring free trash pick-up service. The task is so great that obviously the trucks cannot be doubling back to gather trash laid on the property line by tardy townspeople. So, we add our appeal to those already made to get at the clean up job promptly. The sooner it is done, the more certain it is of being done. Winds of a rather disagreeable spring have shifted trash and debris everywhere. Residents who ordinarily are fastidious housekeepers may find that refuse has collected against their fences and that they have acquired somebody else's trash. Because the windy season may not be altogether over, it is doubly important

that we do as thorough a job as is humanly possible. If we can get it gathered up and hauled away, there will be that much less dirt and cause hazards and perhaps contribute to insanitation as well as unsightliness. Mayor G. W. Dabney has pointed out that flies can carry polio virus. Hence, the cleaning of premises to deprive them of breeding places is a sound step. We know definitely that flies are the carriers of other ailments, and that trash and heaps furnishing harborage for rats make it possible for these creatures to transport fleas and ticks which are disease carriers. So clean up now; clean up thoroughly. And let's keep our city that way throughout the summer.

Status Of State Flower Clouded By The Subcarnosus Vs. Texensis

What heresy is this? Texas doesn't have an official state flower? We suppose every school child knows that the bluebonnet is the official flower of the Lone Star State. Well, the "Bluebonnet Song" is the official state song, all right, but that doesn't make the bluebonnet the official state flower. So says Dr. Cornelia Smith, head of the biology department of Baylor University. She says the Legislature blundered in 1901 when it attempted to immortalize the bluebonnet. It is her contention that the flower described in the act of the Legislature is not the same that is known as the bluebonnet, being allimmer in the stem and less pointed in the leaf than the true bluebonnet. Mrs. Smith contends the flower described by the lawmakers is the Subcarnosus instead of the Texensis. This point was first raised several years ago by Mrs. J. S. Dunlap, a Dallas clubwoman, who tried to get the name changed to lupinus. The dictionary, bless its heart, defines a bluebonnet as "either of two lupines with

blue flowers, one species of which (Lupinus subcarnosus) is the State Flower of Texas." But the dictionary, drat it, does not say what the other lupine (literally, wolf) happens to be. Texensis, we presume, in which case the Legislature indeed blundered. By any name, Latin or otherwise, the bluebonnet is a glorious weed, and it will go on being the state flower of Texas whether the Legislature more clearly defines it or not. The Texas Almanac apparently recognizes this floral schism in these words: "The state flower of Texas is the bluebonnet, also called buffalo clover, wolf flower, 'el conejo' (the rabbit). Scientifically, it is Lupinus texensis. Lupinus subcarnosus is closely related and is accepted also as the state flower in those parts of the state where it grows." As we get it the Legislature 51 years ago zipped with Lupinus subcarnosus when it should have zipped with Lupinus texensis.

Merry-Go-Round—Drew Pearson

Next Six Months May See World Winning The Permanent Peace

(ED. NOTE—Drew Pearson's continuing columns on Eisenhower's work in Europe and the Soviet drive to undercut European defense today takes the form of a letter to Mrs. George L. Arnold of Los Angeles.)

Paris, France
April 21, 1952

Dear Daughter:

I have been sitting in my hotel room looking down at the park next to the Champs Elysees, watching French children play and thinking of the many times when I have been in Paris before. The children are swinging on swings, riding on a merry-go-round, roller-skating, or sitting on bored and dejected donkeys which walk the length of the park and back for 10 francs per promenade. It reminds me of the time when you and Tyler were very small and we visited Paris. And it also reminds me of other trips when I was a lot younger, and more optimistic about the peace of the world. The first time I came to Paris was after a great war had been fought which we thought was to free the world, when Woodrow Wilson's vibrant doctrine still rang in people's ears and they were convinced that peace could be with us permanently.

The next time I came to Paris was in 1927, en route to the Geneva Naval Conference which was to carry out the disarmament goals of that peace. Your mother was with me when I returned. But at Geneva, Bethlehem Steel, Newport News Ship and other shipbuilding companies had hired a lobbyist to upset the treaty—because they wanted to build warships. And because the French, Italians and Japanese were also not enthusiastic, he succeeded.

The next year I came back to Paris with Frank B. Kellogg, who, as secretary of state, had negotiated a treaty to outlaw war. I watched the ceremony of the signing of the Kellogg-Briand Pact and got a great thrill—as did much of the world—over the idea that at long last it was now illegal to make war.

My next trip to Paris was during the London Naval Conference in 1930—an attempt by a most high-minded secretary of state, Henry Stimson, to curtail the weapons of war. But he was not even able to persuade his isolationist chief in the White House—Herbert Hoover—that we should

consult with other nations in case war threatened. That conference was a tragic failure. And with that failure it seemed to me the world started downhill again—toward war. War does not start easily or quickly. The seeds are planted long in advance. They do not sprout suddenly—as when Hitler invaded Poland in 1939. They had been planted perhaps eight or nine years before that invasion. And by the next time I came to Paris they had definitely begun to sprout.

That was Christmas of 1936. You were with me then. But you didn't know, any more than the children playing in the park below my hotel window today know, that the seeds of war were already planted. A sure and certain sign that they were planted had come in March 1936, when Hitler's troops marched into the Ruhr and Rhineland. With that vital source of iron and steel, Hitler had the tools of war in his hands, and it was only a matter of time before hostilities started.

Actually the seeds of war had sprouted well before this. They had been nurtured in the soil of depression, bank failures, unemployment, hopelessness. The seeds were really planted when American investors stopped buying European bonds, thereby ending the American subsidy which kept Europe prosperous under Harding and Coolidge and which—though paid in a different form through the Marshall Plan—also has kept Europe prosperous under Truman.

When people lose hope they turn to war. And the great depression from 1932 to 1939 had made Europe lose hope.

It seems that most of my trips to Paris have been connected somehow or other with milestones on the road to or from peace. My next trip was for the Paris Peace Conference in 1946, when Americans generally had great hope for peace—though Europe was skeptical. That was when Jimmie Byrnes gradually saw hope fade—dashed on the rock of Russian recalcitrance. That was also when Europe again began to lose hope.

And when I visited Paris one year later with the Friendship Train, Europe was starving, ships were tied up by mutinous stevedores, railroads were on strike, communism was on the march, and I have never seen Paris so woeful and discouraged.

The Marshall Plan came after that and, despite some of its faults, it wrought miracles. Its drive in the right direction is being continued by Eisenhower and the North Atlantic Pact. As a result, there is a note of hope today in Paris.

But, underneath that hope, there is danger. Eisenhower's departure is one danger. Inflation and soaring prices are another. Resentment against America for forcing rearmament is another. Reversing the disarmament policies of Frank Kellogg and Henry L. Stimson, we now tell Europe their only hope is to rearm. Naturally, people don't take this reversal happily—especially when it means higher taxes and higher prices.

Your Father.

Telephone Census

MONTREAL (U.P.)—Statistics released here show Canada is third in the world telephone census with a total of 2,911,900 instruments. The United States leads with 43,000,000 telephones and the United Kingdom has 5,433,000.

"Talk About Trouble Getting Men For Government Jobs!"

World Today—James Marlow

Ike Is Pinning His Hopes On People Liking Him, Not Answering Questions

WASHINGTON (U.P.)—There's probably nothing so galling as the lecture treatment, which is what Eisenhower has been giving the Taft people.

He hasn't much hair left, and they may be able to muss it before this is over, but they haven't been able to do it yet.

Not even with the 21 questions which they've now produced and to which they "demand" an answer from the general. He's ignored them.

Asked if he thought the general might answer, one of his closest advisers here laughed: "Why should he?"

This must make sense to the general's advisers since he's been doing pretty well by keeping his mouth shut.

While everyone knows he's an internationalist in foreign affairs, few have any idea of where he stands on the multitude of current domestic problems.

Nevertheless, he's rolled up big votes in several states, which might indicate that in troubled times silence brings its own reward.

It might also mean a lot of people like and trust him without knowing exactly what his domestic

thinking is, and no matter what it is.

The general will be placing all his hope for the nomination on exactly that point if he remains quiet until the Republican convention in July.

It will be ironic if he succeeds that way over Sen. Taft, who has been doing just the opposite for years: Talking on every subject.

These times are so troubled that many people have almost violent opinions on a host of subjects. The man who steps up and speaks his piece, like Taft, may make friends but is bound to make enemies, as Taft has done.

The general has been able to avoid this unpleasant fate in the midst of his quietness.

But he wouldn't avoid it long if he attempted to answer the 21 questions the Taftites threw at him.

The first one is a dilly for Eisenhower to answer: "Do you approve of the firing of Gen. MacArthur?"

There are some other beauts in the list. For instance: "Are you for an increase or reduction in social security benefits?"

If he says he's for an increase he may win friends among old people but make enemies of those opposed to paying higher taxes

so old people can get higher benefits. If he says he's for lower benefits, he gets the old people on his neck.

He may be able to continue right up to convention time—and get the nomination—without saying more than he's said so far.

But once the convention ends and he has to start to campaign, it's unlikely that he will, or can, keep quiet on the big problems and sore points at home.

This Day In Texas

By CURTIS BISHOP

Incorporated on this day in 1873 was Cuero, once the scene of Texas' bloodiest feud and now famous for its biennial "Turkey Trot."

Founded by Gustave Scheicher, the town took its name from the creek which runs through it, Arroyo del Cuero, or Creek of the Rawhide. Cattle often became hopelessly mired in the boggy banks of the stream and were killed chiefly for their hides which at that time were more valuable than their carcasses.

In the vicinity of Cuero occurred the long-drawn-out and bitter Taylor-Sutton feud. It began in 1889 with the killing of Buck Taylor, of a prominent ranching family, and a relative. Most of the citizens of the county took sides, and shootings and hangings became the order of the day. One courageous judge, H. Clay Pleasants, once faced armed groups from both sides with a shotgun and ordered them to go home. His bluff succeeded that time, but the fighting soon broke out again. Ranger Captain Lee Hall finally brought the whole bloody business to an end when he interrupted a Christmas-wedding celebration to arrest about forty of the Sutton clan.

In the widely publicized Turkey Trot, thousands of turkeys lead a big parade down the main street of Cuero. Most of the birds parade directly to the pens of large packing plants, where they are killed, dressed and shipped all over the country.

It's No Surprise, But Kennon Named Louisiana Governor

NEW ORLEANS (U.P.)—Robert F. Kennon of Minden is Louisiana's new governor—to no one's surprise.

The Democratic nominee swamped his Republican opponent, Harrison Bagwell, the first GOP candidate in 12 years in yesterday's general election. C. E. Bagwell, state senator from Ruston and the Democratic choice for lieutenant governor, also was elected without trouble.

The two top state posts and 11 seats in the Legislature from New Orleans were the only spots where the GOP entered opposition to the Democrats in this traditional one-party state.

The Democratic nominees for these legislative posts, five in the Senate and six in the House, didn't have any trouble being elected, either.

Kennon's inauguration is scheduled for May 13.

No state-wide tabulation of the voting was recorded but the count in Orleans parish was representative. Kennon got 44,508 to Bagwell's 2,184.

Around The Rim—The Herald Staff

Everyone Must Lend A Hand In Clean-Up In Northwest Of City

Several months ago after I had something to say in this column about conditions in the northwest quarter of the city, there was considerable reaction. There were some second-handed threats from some quarters; there were some few who seemed to have misunderstood; there were many more who agreed and wrote warm letters of commendation. None were more earnest and sincere than those from the solid citizens of Latin-American extraction.

What has been happening over in that part of the city is indicative, I think, that conditions have certainly not improved. In fact, there is every reason to believe that they have worsened. A number of months ago a wild band repeatedly "shot up" that section. Only recently a dozen suspects were hauled into jail on marijuana possession and sale charges. There have been numerous complaints of robbery and of beatings. There have been shooting scrapes.

The cumulative effect of these seem to at last be raising some of the public to concern about the situation. It is to be hoped that this will continue, for too often counter incident such as the marijuana raids can lead us to believe everything is all right. This is not so, even in the case of marijuana sales. Those raids simply knocked the foam off the brick trade.

Authorities believe that at least indirectly the merciless beating of a Latin-American citizen Saturday night was attributable to marijuana. To administer such a beating, even a hoodlum would probably have to be hopped up on something.

We hope that the heat and pressure can be applied until some of these situations which shock the sensibilities of all good people can be cleaned up. We hope also that no one will believe that these are the only problems which confront our Latin-American neighbors.

A lot of folks are frightened by the

thought of federal housing aid. Maybe it's not the best answer. But something needs to be done about housing in the northwest quarter of the city—something needs to be done desperately. If the job can be done privately and independently, so much the better. But it ought to be one way or another.

Reasonably good progress has been made in sanitation, but a tremendous job remains to challenge the devotion and ingenuity of our best minds in whitening this problem half way down to oak size.

Similarly, we have begun to tackle the education problem through public schools, the basic preparatory and regular programs at HCJC. But the opportunity here is great, for to produce best results, it must be attempted on a far broader base.

While education is probably basic in tackling the economic situation, employers in general need to recognize ability and talent among our Latin-American people and reward it equitably with that of other citizens. More employers need to discount the idea that man power is hopelessly short until they exhaust the possibilities of developing good staff members among these people.

Churches have a wonderful chance to demonstrate—right here at home—their faith in Christian doctrines and fellowship. We have no quarrel with foreign missions, but there is hardly a field anywhere which would yield so much results for so little invested as the northwest quarter of Big Spring. If churches can save their social and religious consciences with a few Christmas baskets, then they are dead.

Finally, cooperative effort among the people of the Latin-American quarter and those of the rest of the city can achieve much. One of the best ways to get understanding as well as results is to work together. And it's time to work.

—JOE PICKLE

Notes On A Cruise

Eisenhower Runs Well Ahead Of Sen. Kefauver In A Trial Heat

(One of a series of reports on political sentiment throughout the nation today.)
By GEORGE GALLUP
Director, American Institute of Public Opinion

PRINCETON, N. J.—Gen. Dwight D. Eisenhower on the Republican ticket runs well ahead of Sen. Estes Kefauver on the Democratic ticket in the latest "trial heat" race conducted by the Institute, largely because of the General's great popularity with Independent voters.

With Democrats, Kefauver is the winner by a comfortable margin. With Republicans, Ike comes out far ahead.

It is the Independents or "in-betweeners" who throw the overall balance in favor of Eisenhower by picking him over Kefauver by about 6-to-3.

Sen. Kefauver has hung up an impressive record in the Democratic primaries, winning every one he has entered.

To see how he would fare when matched against General Eisenhower, interviewers for the Institute put the following question to a balanced sample of voters in all walks of life from Maine to California:

"If Eisenhower is the Republican candidate and Kefauver the Democratic candidate, which party would you like to see win the election—the Democratic party or the Republican party?"

Eisenhower 60%
Kefauver 30
Undecided 10

A similar trial heat reported a month ago showed Eisenhower polling 57 per cent to Kefauver's 32 per cent.

A trial heat matching Kefauver against Sen. Robert A. Taft showed Kefauver ahead, with 49 per cent to Taft's 40 per cent and 11 per cent undecided, as reported Friday.

Each person in today's survey also was asked whether he classifies himself politically as a Republican, a Democrat or an Independent.

The General's great strength with Inde-

pendents is shown by the following sentiment among voters who classify themselves in that category:

INDEPENDENT VOTERS
Eisenhower 63%
Kefauver 23
Undecided 14

Among persons who consider themselves Republicans, the General's margin is overwhelming, as follows:

REPUBLICANS ONLY
Eisenhower 87%
Kefauver 8
Undecided 5

With Democrats, on the other hand, Kefauver outpicks General Ike as follows:

DEMOCRATS ONLY
Kefauver 55%
Eisenhower 35
Undecided 10

A recent survey by the Institute shows that on the basis of a turnout of 55 million voters, 21 1/2 million classify themselves today as Democrats, 18 1/2 million as Republicans and 15 million as Independents.

The Independents, in short, hold the balance of power.

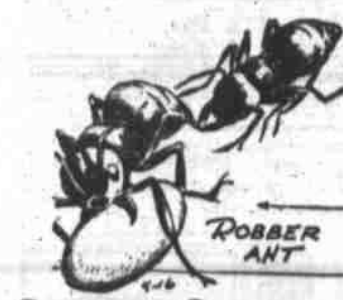

Some of General Eisenhower's current popularity undoubtedly is due to the fact that he has remained aloof from the sharp controversies of partisan politics.

Whether his popularity will remain at the same high level if he returns to this country in the near future and begins expressing his views on such controversial topics as labor legislation, government spending and foreign policy in Asia, remains to be seen.

Italy Strike Loss

ROME (U.P.)—Italian workers lost \$12,800,000 in wages in strikes during the 18 months ending in June, 1951, according to the latest published reports.

Uncle Ray's Corner

Capture Cocoons And Keep Slaves

Ants, in general, may give the human race a good example. They work hard to bring in food for their colony. They keep their nests clean, and give excellent care to their young. The workers show a friendly feeling toward one another, and seem always willing to share the food. Ant queens differ from bee queens; several ant queens may live at peace in a single nest.

That is the general picture, but certain kinds of ants would be bad examples for us. They rob, kidnap and make slaves. Let us take, for example, the red amazon ants. They have the name of a South American river, but are natives of Europe, North America and Japan. Their name was given to them long ago, because they were supposed to be like the Amazons, a mythical group of warlike women.

Red amazon ants make raids on nests of

other ants. Here is an account of one of their raids:

"At 4 o'clock in the afternoon, an army of red amazons left its home colony. There were several hundred soldiers, each with sharp-edged, pinching jaws. The jaws closed with a sidewise motion, much like the action of a pair of ice tongs. The body of each ant was about half an inch long.

"The army crawled across one corner of a corn field, and, about 20 minutes later, reached a colony of black ants. Down into the nest of the black ants rushed the amazons!

"In a few minutes, red ants began to come out of the nest, each carrying a cocoon. The object of the raid had been to steal the cocoons of the blacks! Homeward marched the amazons. When they reached their nest, they left the cocoons there."

Hundreds of other raids have been watched. In some cases, photographs have been made of the fighting, and of red ants marching away with cocoons.

The cocoons are kept until they turn into black ants. The black ants become slaves. The slaves gather food for their masters, and feed them. The ice tongs jaws of red amazons are poorly fitted for getting food in the usual way of ants.

For NATURE section of your scrapbook.

Tomorrow: Ant Farmers.

ANPA Urges Prexy's Powers Be Made Plain

NEW YORK (U)—A plea that Congress make "plain and explicit by law" the President's powers to seize private property was voiced today by the head of the American Newspaper Publishers Association.

Charles F. McCahill, ANPA president and general manager of the Cleveland News, cited in a prepared address the recent seizure of the steel industry and President Truman's remarks on the possibility of taking over news media.

McCahill welcomed delegates to the 66th annual convention of ANPA, which met in its first general session today. The convention, part of Newspaper Week, opened yesterday with limited meetings. McCahill in his opening address said the publishers should "give every attention" to the questions in the steel conflict "of the rights of private owners, the rights of the public interest, and the rights claimed by the federal government."

"In response to a question at his press conference only last Thursday," McCahill continued, "the President of the United States stated that depending upon circumstances at the time the President would determine whether or not it was necessary to take over the newspapers and the radio stations."

"This incident does make plain that it is the responsibility of every American citizen to make sure that the powers of the President x x x with respect to seizure are made plain and explicit by law."

Hoppe's Recipe: Keep Enthusiasm

NEW YORK (U)—Willie Hoppe, silver-haired cue master, gave out today the recipe which he says is responsible for bringing him 48 world billiard championships in 47 years—the longest reign in sports.

"I never once lost my enthusiasm," said the 64-year-old king of the green velvet tables, who plans to retire this year. "I never quit training. I have always hated to lose, always had a burning desire to win."

Hoppe won his first championship at the age of 9—at 18.1 balk-line billiards—and his last in March of this year when he beat the world's finest for the three-cushion title in San Francisco.

"During that time I have seen countless champions come and go," the billiard wizard said after an exhibition match with Japan's veteran Kinry Matsuyama. "I have seen some bloom and go quickly, others last for years."

Guilty As Charged

Walter Wanger, right, movie producer, was found guilty in Santa Monica, Calif., of assault with a deadly weapon and sentenced to four months in the county jail. He listens intently as Jerry Giesler, his attorney, pleads for clemency. Wanger, husband of actress Joan Bennett, shot and wounded Jennings Lang, his wife's agent, in Hollywood, Dec. 13. (AP Wirephoto).

Arabian Territory Is Occupied By British

LONDON (U)—Britain announced today that her troops have occupied the tiny Arabian territory of Lahej, between British Aden and Yemen, after Lahej's one-eyed sultan fled to Yemen.

The British said the recent deaths of two of the sultan's cousins—whom he had exiled—caused uneasy stirrings among the population. News reports added that the ruler also had been having trouble over some of his 42 wives. Lahej is part of the Aden protectorate which surrounds the British colony at Aden, an important Arabian peninsula bunkering port on the shipping route to the Far East. Britain controls the protectorate through the native sultans.

Communication With Ecuador Capital Out; Could Mean Upheaval

GUAYAQUIL, Ecuador (U)—All communication with Quito, capital of Ecuador, ceased last night and three hours later efforts to reach the capital still were without success. Quito radio stations also could not be heard here.

It was speculated that the blackout could have been due to a power failure or to a political upheaval. With presidential elections scheduled for June, political conditions have been more tense than usual recently.

Violence Breaks Out In South African Constitutional Dispute

CAPETOWN, South Africa (U)—A nation-wide campaign by the United party against Prime Minister Daniel Malan's bill to keep South Africa's courts from blocking his white supremacy program began last night with the violent breakup of one protest meeting.

Besides the protest campaign, opposition leader J. G. N. Strauss reportedly plans a technical test in Parliament to determine whether the bill was legally introduced and companion court action against the legislation.

First violence in the bitter dispute came at Alberton in Transvaal province. The United party's meeting was broken up in disorder by Nationalist followers of Malan. They threw rocks and eggs, started fights in the meeting hall, set fire to United party banners, and tried to turn over a car. No casualties were reported, however.

Protest meetings in other parts of South Africa were heckled but were not assaulted.

The series of meetings began only a few hours after Malan's bill was laid before Parliament. It would hamstring the supreme court by setting up a high parliamentary court to rule on constitutional issues. Malan's party holds a majority in Parliament which probably would be reflected in the makeup of the new tribunal.

The bill was Malan's answer to the Appeal Court, the nation's highest, which last month declared unconstitutional a law to restrict the voting rights of 50,000 coloreds (persons of mixed blood) in Cape Province.

The West German Supreme Court last night threw out her contention she had been convicted twice of the same crime. Hans Richter, president of the court, said the convictions were for different offenses.

A U.S. court's life sentence, later reduced to four years, was assessed for crimes against Allied prisoners, he said. The German life sentence, which stands, was for crimes against Germans and Austrians.

MERCURY BEATS ALL COMERS IN MOBILGAS ECONOMY RUN

3 WINS IN 3 YEARS!

Lincoln Again Best in Class— Runs Second in Sweepstakes

Mercury, the car that challenged them all, has done it again... won the grand Sweepstakes prize in this "world series" for automobiles.

And this isn't the first time! Just look at Mercury's three-year-in-a-row record: three out of three times winner in its price class; two out of three times Sweepstakes winner against all cars in every class! Look at Lincoln, too. Lincoln won Class G first prize, and provided Mercury's closest competition for top Sweepstakes honors.

The Mobilgas Economy Run is open to all cars of every make. Every car is a stock car, selected at random by the A.A.A. To assure an equal chance for all, regardless of size and weight, ton-miles-per-gallon performance* determines the winner.

A 1952 Mercury Monterey Special Custom Sedan with optional overdrive swept the field with 59,718 ton-miles-per-gallon, averaging 25.4093 miles per gallon. And the engine that did it is Mercury's famous V-8. The Lincoln Capri Sedan with Hydra-Matic transmission won its class prize with 58,908 ton-miles-per-gallon, averaging 23.3562 miles per gallon.

That's something to think about when you buy a new car. Mercury, which for months has been challenging the industry to match it, has now proved its superiority for economy.

Right now, in our showroom, is a 1952 Mercury similar to the one that won this official, impartial test. Why not stop around and give it a try? No obligation, of course.

*Ton-miles-per-gallon equals the car weight (with passengers), multiplied by miles traveled, divided by gallons of gasoline used.

MERCURY—AGAIN PROVED "AMERICA'S NO. 1 ECONOMY CAR"

Invisible Film Proves Deadly To Many Insects

After years of squirting and swatting, it now develops that the best way to control insects is to use a brush.

At any rate millions of Americans have been reading about the brush-on way to fight insect pests, such as that in the April issue of Readers Digest.

This story explains how the new miracle ingredient, chloradane, effectively rids homes, restaurants and other buildings of those pests, roaches and ants.

Johnston's No-Roach utilizes chloradane in a simple, easy-to-use form. The colorless coating effectively kills roaches, ants, waterbugs and silverfish—moreover, it stays effective for months. Using it is simplicity itself. All you have to do is brush this colorless, odorless and stainless liquid on kitchen cabinets, baseboards, near the stove and icebox, across window and door sills, etc.

Insects that walk across the invisible coating slowly become paralyzed and die. Even months later, crossing the film will bring death to any "strangers" or "stragglers" among the insect population. Johnston's No-Roach will kill ants that crawl in from the outside.

The product contains no DDT, no sodium fluoride, and no phosphorus.

In Big Spring, the product is sold at Collins Bros., Cunningham and Phillips Drugs, Big Spring Hardware, Furr's, Safeway Food Stores.

Last Word

The Olivetti printing calculator is the last word for the auditor and accountant, according to Gene Thomas, head of Thomas Typewriter & Office Supply Company, 107 Main. It is about the handiest machine anyone can have to get a quick answer in automatic division and multiplication. Thomas urged those in need of an adding machine to see the Olivetti first.

Olivetti Is Handy Tool For Auditors

Work of auditors, accountants and bookkeepers is simplified in those offices where Olivetti Printing Calculators have been installed.

The Olivetti machine automatically adds, subtracts, divides and multiplies with a minimum of effort and a maximum saving of time. It also supplies an automatic credit balance and adds up to 11 columns.

The Olivetti can be seen in operation at the Thomas Typewriter and Office Supply, located at 107 Main Street. Business Telephone number of the concern, owned and operated by Gene Thomas, is 98.

Those not needing a machine giving automatic division will probably find the Precisa model, also stocked by the Thomas concern, just what they have been looking for. The Precisa, growing increasingly popular throughout the world, boasts exclusive features such as the Recall Key and Automatic Step-Over, handy when the user is multiplying figures.

Thomas Typewriter and Office Supply is also the local agent for Royal typewriters of all models and sizes. Royal machines are easier to obtain in this area than they have been in some time.

Among the more popular models in that line is the Royal Electric Typewriter, which gives the user up to 15 copies at one printing. Office supplies of all descriptions from steel desks to paper clips, are also stocked by the concern.

Tax Lien Against Munitions Maker Garsson Is Filed

NEW YORK UP—A tax lien for \$1,356.205 was filed by the government yesterday against Henry M. Garsson, wartime munitions manufacturer who served a prison sentence on war contract fraud charges.

A similar claim for unpaid taxes, amounting to \$235,848, was filed against Garsson here recently. Internal Revenue Collector Denis J. McMahon declined to discuss the case as he filed the new lien in Brooklyn Federal Court yesterday.

Last January, a tax lien for \$379,085 was filed against Murray W. Garsson, Henry's brother, in Manhattan Federal Court.

Both brothers served prison sentences for bribing Andrew J. May, then a Democratic congressman from Kentucky, to obtain influence for their munitions business.

Rites For Newsman Are Scheduled Today

WICHITA FALLS, April 23 (UP)—Funeral services were to be held here today for Jess McLarry, 50, treasurer of the Times Publishing Company.

McLarry died following a heart attack Monday night.

Burial here was to follow services at the First Methodist Church at 3 p. m.

Supplying Glass And Building Needs

Because of its complete and unusual service, Western Glass & Mirror Company, 909 Johnson, has experienced one of the most steady and solid growths of any business concern in the area. Not only are all needs for mirrors and glass, including plate and safety car glass as well as household types, stocked, but the concern also offers aluminum and steel casement windows, slab doors, and a variety of builders hardware.

Switch To Butane Easy And Practical

It is a relatively simple operation to change a tractor from gasoline to butane fuel, and this type of business is proving more popular each day among customers of the S. M. Smith Butane Co., located on the Lamesa Highway.

Tractor owners can make complete arrangements for such a change-over, simply by stopping by the S. M. Smith Butane Co. and advising the firm of the type of tractor to be changed.

Many farmers favor butane as a fuel for several reasons.

In the first place the cost of butane is substantially lower than that of gasoline, which naturally results in more economical operation of farm machinery. Then, butane makes less demand on tractor motors, which makes equipment last longer, and tractors which use butane gain some power, too.

The S. M. Smith Butane Co. furnishes butane for customers over a wide area of West Texas. The firm also services trucks, etc., which use butane as a fuel.

In addition, the firm retails nationally known appliances for butane users. At present the S. M.

Smith Butane Co. has good selection of the famous Tappan ranges. These may be inspected at any time during business hours.

Says Jail Outbursts Caused Partly By A Lack Of Finances

WASHINGTON (UP)—Federal Prison Director James V. Bennett suggests the current outbreaks of violence in state prisons were caused partly by an economic pinch on prison finances—meaning less food on the table for prisoners.

"The appropriations are frequently behind the inflationary trend as reflected in diet costs," he said.

Southeast Scurry Exploration Looms As Ellenburger Strike

Humble No. 1 Davidson, southeastern Scurry exploration, appeared Wednesday to be an Ellenburger discovery. Location is about three miles southwest of the Hermleigh-Ellenburger field.

In southern Martin County, the Ellenburger top yielded only sulphur water in the Humble No. 1 Blocker. It is testing the Wolfcamp.

Phillips No. 1 Berry, northwest Glasscock exploration, was flowing gas during testing. Salt water was recovered in a test of Stanolind No. 1 Bodine in southeastern Dawson. Only acid water was being returned in latest swabbing of Stanolind No. 1-D TXL, which is four miles southeast of Big Spring.

Magnolia completed its No. 1-D Conrad in southeast Borden. Operator was coming out of the hole with tool after a test in Shell No. 1 Slaughter in Northern Martin.

Borden

Magnolia No. 1-D Conrad, 660 from the north and west lines of the south half of section 71-25, H&TC, a mile east outpost to the south extension of the Von Roeder pool, flowed 24 hours through 11-64 choke to make 147 barrels of 45.7 gravity oil. Casing pressure was 300, tubing pressure 375, the gas-oil ratio 515-1. Total depth is 6,738.

Phillips No. 1-A Dennis, C NW SE 62 Georgetown RR, drilled to 6,978.

Dawson

Cities Service No. 1 Brennan, C SW SW 78-M, EL&RR, drilled to 7,229 in lime and shale.

Cities Service No. 14 Dupree, C NW SE 67-M, EL&RR, drilled to 6,069 in lime and chert.

Seaboard No. 1 Dean, C SW SW 39-34-5n, T&P, continued cleaning out after shot.

Seaboard No. 1 Weaver, C NE NE 68-35-6n, T&P, drilled to 9,351.

Sinclair No. 1 Scott, C SE SE 101-M, EL&RR, 10 miles west of Lamson, drilled at 3,900 in lime and shale.

Stanolind No. 1 Bodine, C SE NW 43-33-4n, T&P, bottomed at 9,356, took a drillstem test 9,018-9,356 with the tool open one hour and 55 minutes. There was a strong blow which diminished at the end. There was no gas. Recovery was 7,500 feet of sulphur water. Open flow-

ing pressure was 1,875-3,900 and the shut-in pressure was 4,250.

Glasscock

Phillips No. 1 Berry, C NW NW 35-36-2n, T&P, plugged back to 10,752, was flowing gas at the rate of 92,000 cubic feet per day through perforations from 10,680-10,710.

Phillips No. 2 Woolsey, C SW NE 28-36-2n, T&P, drilled to 225.

Phillips No. 2 McDowell, C NE NE 31-34-2n, T&P, pumped 12 hours and made 13 barrels of oil and five of acid water.

Ohio No. 1 Moeller, C SE SE 10-37-5n, T&P, drilled to 7,775 in shale, preparing to core.

Sinclair No. 1 Clark, C SW SE 41-35-4n, T&P, was at 6,587 in lime and shale.

Murphy Corp. No. 1 Neeley-Bigby, 660 from the north and west lines of the southeast quarter of section 14-36-5n, T&P, elevation 2,680 will be a Driver pool location to 7,000.

Howard

Stanolind No. 1 Snyder, 660 from north and west lines of 29-30-1n, T&P, drilled at 4,028.

Stanolind No. 1-D TXL, C NE NW 23-32-1n, T&P, had swabbed three barrels of acid residue in 24 hours, and then swabbed 13 barrels of acid residue in a 13-hour period. It is plugged back to 6,620 from a total depth of 10,013.

Martin

Humble No. 1 Blocker, 660 from north and west lines of 10-37-1n, T&P, had a drillstem test at the top of the Ellenburger at 11,990-12,048. The tool was open two hours.

\$20 Paid For Champion Capon In Mitchell Show

COLORADO CITY—Thomas Stinson exhibited the grand champion capon in the Mitchell County Show Monday, and the bird weighing nine pounds was sold for \$20 on the bid of Junior Sadler who made the purchase for the VFW.

The reserve grand champion, another nine-pound bird, was shown by Robert Hargrove and went to the Colorado City Record on a \$17 bid.

Of the 75 capons entered in the

show about 50 were sold for a total in excess of \$250. The entries were judged by E. L. Tiner, area supervisor of Vocational Agriculture Area II. They were exhibited in three divisions, the lightweight of seven pounds or less; the middleweight of from seven to nine pounds, and the heavyweight of nine pounds or more.

Ribbons were given for the first 15 places in each division, with a cash award added to the first 10 places in each division. All ribbon winners in this order:

Lightweight: 1st, J. N. Treadwell, FFA; 2nd and 3rd, Freddie Harrison, 4-H; 3rd, Earnest Stanford, Westbrook FFA; 4th, 5th and 14th, Eugene Floyd, FFA; 7th, Bud McGuire, FFA; 8th, Randall Oliver, FFA; 9th, 12th and 15th, Edgar Halton, FFA; 10th, 11th and 13th, Davis Merritt, FFA.

Middleweight: 1st and 12th, Robert Hargrove, FFA; 2nd, 3rd and 11th, Henry Lobban, FFA; 4th, Elvin Stinson, FFA; 5th and 13th, Thomas Stinson, FFA; 6th and 7th, David Merritt, FFA; 8th, Randall Oliver, FFA; 9th and 10th, Freddie Harrison, 4-H; and 14th and 15th, Edgar Halton, FFA.

Heavyweight: 1st (the grand champion) Thomas Stinson, FFA; 2nd (the reserve grand champion) 5th, 7th, 10th, 12th, and 13th, Robert Hargrove, FFA; 3rd, Elvin Stinson, FFA; 4th, 6th, 8th, 9th, 14th and 15th, Henry Lobban, FFA; and 11th, J. N. Treadwell, FFA.

All entries were from Mitchell County and most of them from the Colorado City Chapter of the FFA.

H-SU Rodeo Opens In Abilene Thursday

ABILENE—April 23 (AP)—The sixth annual Hardin-Simmons University Intercollegiate rodeo opens here tomorrow with 81 entries from 18 western colleges.

The contestants will come from four states: Texas, New Mexico, Oklahoma and Wyoming.

Sul Ross will be back to defend its championship.

Six events for boys and two for girls are scheduled for five shows which start tomorrow night and run through Saturday.

Drilling Gets Going On Glasscock Co. Tract For Water

Drilling is under way on a well on the Sally Edmondson tract in Glasscock County—planned as a supplemental source of water during the summer emergency—the City Commission was informed Tuesday by City Manager H. W. Whitney.

A well that was already on the tract is being cleaned out and will be connected immediately with the water main that runs from the O'Barrr tract. A third well is to be drilled, under an agreement with Mrs. Edmondson. Pipe for collecting lines already is on hand, said Whitney.

The city attorney was instructed to draft a water restriction ordinance, so that enactment can be ordered when it becomes necessary. No limitations are in effect yet, however, and full publicity will be given when the ordinance is passed.

Commissioners were in session only briefly Tuesday. They heard an oral proposition in behalf of Fox Striplin for opening two blocks in the Brennan addition, but held that a plat will have to be submitted for consideration.

Traffic Collision

Police traffic reports showed a mishap near the Big Spring Hospital at 2:30 p.m. yesterday in which the operators were listed as John R. Follett, 2008 Nolan, driving a 1950 Plymouth, and W. W. Ogil, 10 Johnson, driving a 1949 Hudson.

According to the Activities Book last night was another quiet one for the police.

Engineering Firm Opens Office Here

Opening of a new engineering firm in Big Spring has been announced by James Tidwell and Louis J. Thompson, two of the partners.

The firm will be Benson-Thompson-Tidwell, 302 W. 12th Street.

Third member of the firm is Fred J. Benson, professor of civil engineering at Texas A. & M. College and who has a score years of engineering experience. While currently continuing his teaching, Benson is available as a regular and consulting member of the staff.

Louis Jean Thompson, son of Mr. and Mrs. Louis Thompson, is a 1949 graduate of Texas A. & M. in civil engineering. He worked for the Texas Highway Department and then took his Masters degree in 1951 before joining Lockwood & Andrews in Houston.

James Tidwell is the son of the late Mr. and Mrs. C. H. Tidwell and earned his Civil Engineering degree at Texas A. & M. in 1950. Until he opened offices here, he was with Forest & Cotton in Dallas.

The firm will specialize in structures, highways, foundations, municipal engineering and all phases of survey work.

Landlord-Tenant Conferences Are Proving Success

The landlord-tenant conference plan, a new device for clearing up misunderstandings on rental problems without recourse to official procedure, has proved highly successful in this area, according to R. H. Weaver, area rent director-attorney.

Weaver said a streamlined plan brings landlords and tenants face to face in the local office to settle their problems on the spot. In most cases when brought together they quickly agree on the facts.

The rent director said the conferences are called in cases where landlords are charged with a violation of law, principally illegal evictions and overcharge cases. Formerly such disputes were handled by separate conferences and correspondence with landlords and tenants.

The plan has the approval of rent advisory board members for this area, the rent official explained. Cases which cannot be settled at the landlord-tenant conference may go before the board for settlement. Therefore, the adoption of the plan has resulted in a saving of time for the board.

AF Tells Of Jet Being Launched From A Bomber

WASHINGTON, April 23 (AP)—The launching of an F-84 jet fighter plane from a B-36 bomber in flight has been announced by the Air Force.

It gave only that bare statement in reply to inquiries about a story in the Fort Worth Star-Telegram saying the big bombers now can carry jet fighters inside their A-bomb bays, launch them in the air and recapture them in flight.

Asked about the recapture of launched planes, the Air Force would not comment.

The Star-Telegram said the historic flight was made last Friday. The F-84 has a weight ranging up to 25,000 pounds, a maximum speed of more than 600 miles an hour, a combat radius of more than 850 miles and can carry bomb loads up to 4,000 pounds.

MARKETS

LIVESTOCK—FORT WORTH, April 22 (AP)—Cattle 150, calves 300, steady to strong; good and choice slaughter steers and yearlings \$10-12; medium and small steers and yearlings \$8-10; hogs \$10-12; good and choice slaughter calves \$10-12; medium and small calves \$8-10; sheep \$10-12; good and choice slaughter lambs \$10-12; medium and small lambs \$8-10.

Wool 1,200; shorn slaughter lambs \$24-26; latter price being paid for 80 pound lambs carrying No. 3 grade; cull to good shorn slaughter ewes \$18-20.

COTTON—NEW YORK, April 22 (AP)—New cotton prices were 21 a bale lower to 8 cents higher than the previous close. May 28.50, July 29.25 and October 30.66.

WALL STREET—NEW YORK, April 22 (AP)—Prices were a little lower at the opening today in the stock market despite a scattering of plus signs.

Fractional changes were the rule. Trading was fairly active with a number of big orders being filled.

The market ended lower yesterday with the aid and rally with oil interests leading the relief.

HAD A RIGHT TO HURRY

PHILADELPHIA, April 23 (AP)—A cab driver ran up to patrolman George Feneel and shouted that his passenger was about to have a baby.

Feneel took one look into the cab, then started his motorcycle and with siren wide open led the way to Jefferson Hospital.

It turned out the baby's birth was still a matter of hours away but Feneel was still plenty nervous.

The cab passenger was his wife.

Judge Hears Stories Of Spider Bites And Old Age

"I've been a good boy, Judge. You haven't had me up here for a year," the man who is living that other life that starts at 40, told Judge W. E. Greenless in the Corporation Court this morning, and then he went ahead to almost talk himself out of a fine.

"But," and then he almost talked himself into the spot where he originally stood, "you see I've been

in the hospital most of that time. I got bit by a spider and I've been laid up ever since."

When the testimony showed "he was due back at an out-of-town hospital for further treatment the court imposed enough of a fine to take care of the time he had spent in jail and he was sent on his way.

An old cowboy and sheep herder who told the court he was just passing through town when he was picked up at the bus station on a drunkenness charge confessed the infirmities of age. Admitting his guilt he explained that "I reckon I've just gotten too old to handle the stuff. I used to be able to handle it, but now it handles me and so I reckon I'll have to quit. Besides," he went on, "it makes a man ashamed of himself. He's even more ashamed of himself than any boy else is ashamed of him."

The old-timer received another low fine and was allowed to resume his journey.

A Negro cook who explained that he drank to keep "arthrititis out of my hands" was fined, as were two others charged with drunkenness.

A charge of not having an operator's license brought a \$25 fine to a motorist, and another one was fined \$7.50 for running a red light.

Hi-Y Groups Will Attend Meeting In Odessa Saturday

Approximately 30 members of the Junior Hi-Y and the Junior Tri-Hi-Y Clubs will take part in a district conference Saturday at Odessa.

Heading the local delegation will be Tolly Baker, program secretary of the Big Spring YMCA. Among those on the conference program are Bill Daves, advisor of the Junior Hi-Y Club here, and Grover C. Good, general Y secretary.

Parents who plan to accompany the 18 girls and 12 boys are Daves, Tom Gutn, Mrs. Excel Compton, Mrs. Lee O. Rogers, Mrs. H. W. Smith.

Five-And-Dime Store Founder Succumbs

JACKSON, Miss., April 23 (AP)—O. A. Morgan, 55, co-founder of the Morgan-Lindsey five and dime stores, died here last night.

The Morgan and Lindsey chain operates in Texas, Louisiana, Arkansas and Mississippi.

Morgan was born in Jasper County, Texas.

More Funds Needed For State Hospitals

By MAC ROY RASOR

AUSTIN, April 23 (AP)—Without more funds, state hospitals must turn back to local communities the care of any additional tuberculosis and senile patients, the State Hospital Board's two top staff men believe.

The prospect was analyzed in a written report to the board yesterday by Executive Director Larry O. Cox and Medical Director Dr. George W. Jackson.

The legislature two years ago

set up a seven-year, \$5 million dollar construction program to expand and modernize the overcrowded hospital system. About 17 million of it has been allocated so far to various projects.

That program, the Cox-Jackson report said, is at least 4 million dollars short of providing even a minimum program in which the state would have to abandon responsibility for expanding tuberculosis and senile facilities.

Expansion of those programs to projected needs would boost cost of the future construction program to \$3 million, they said. The 18 million unallocated from the seven-year program would apply toward that total.

About 25 million could be saved, they estimated, if the McCloskey Veterans Hospital at Temple and the veterans hospital at McKinney could be acquired for tuberculosis and senile patients, respectively.

Even so, additional operating funds would be required for both institutions, it was noted.

The report claimed tuberculosis could be wiped out of Texas in 10 years with proper treatment, quarantine and 3,000 more hospital beds.

Sale of surplus land at six institutions was recommended to add an estimated \$1,377,400 to available construction funds. This included 400 acres at the Kerrville State Sanatorium, 100 acres at the Texas Blind, Deaf and Orphan School, 31 acres at the Texas School for the Blind, 176 acres at the Austin State Hospital and 370 acres at the Rusk State Hospital.

The report omitted consideration of the problem of caring for the criminally insane, noting that a special committee now has that matter under study.

Injunction Hearing Over Picketing Set For Week Of May 12

PECOS, April 23 (AP)—Hearing on the permanent injunction against picketing by Western Electric union workers has been set for the week of May 12.

Federal Judge R. Ewing Thomson said the petition in bond season would be held during the normal court run at Pecos.

The Western Electric division of Communication Workers of America (CIO) filed the petition yesterday in an attempt to remove an injunction granted April 12 in Midland's 70th District Court.

Picketing of Southwestern Bell Telephone exchanges was stopped in Texas by the court order.

Gets Sentence For Violation Of Mann Act

Haskell Oron (Buck) McIntosh, 43, Weetka, Okla., was sentenced in U.S. District Court in Abilene on Tuesday to his second penitentiary term for violation of the Mann (or White Slavery) Act.

Judge T. Whitfield Davidson assessed a five-year prison sentence despite the plea of the defendant that "I didn't have anything to do with this young lady." He had been freed on parole Nov. 1950 after serving two of a three-year sentence for a Mann Act violation.

A jury found McIntosh guilty of having transported Mrs. Jack (Gwen Lynn) Scott, 21-year-old Illinois woman, from Los Angeles, Calif., to Big Spring to engage in prostitution. Mrs. Scott testified that McIntosh and Frank Bruce Rising, "the master mind" of the deal, had used a compromising photograph to force her to abandon her husband and to accompany them to enter prostitution.

Rising, she said, arranged for her to start work as a prostitute. Lawrence Clay, now unemployed, said he was a porter at the Douglas Hotel here on Aug. 5, 1951, when Rising and another man and Mrs. Scott were registered in a room. Taking a set-up to the room, he found Rising and the woman in the nude and started to leave because of their condition, he said.

Instead, Rising asked him in and made the proposition to offer Mrs. Scott's services. McIntosh said he left the following morning and went to Odessa to be joined three days later by Rising and Mrs. Scott. Then they went to Odessa where she said she was forced into a bigamous marriage with Rising. Rising is under sentence in Federal Court at Dallas for the offense, getting five years and a \$10,000 fine.

And All She Wanted To Do Was Talk Over Political Situation

MEMPHIS, Tenn., April 23 (AP)—A striking brunette walked out of the night wearing nothing except lipstick and rouge.

She wanted to talk politics. But the befuddled service station attendants could hardly find words. Shifting nervously, they strove for nonchalance as she strolled about the brightly lit gas pumps last night.

Then came the cops, on the double, bearing a blanket.

She haughtily declined a suggestion that she direct them to her home so she could pick up some clothing on the way to jail.

"I got nothing to hide," she said coolly.

Booked as Mrs. Lucille Whitaker, 41, she was charged with disorderly conduct and indecent exposure.

PENN VOTE

(Continued From Page 1)

ahead of such Democratic candidates as Sen. Robert S. Kerr of Oklahoma, 85, Richard Russell of Georgia, 87, and W. Averell Harriman of New York, 67. He topped Gov. Adlai Stevenson of Illinois who said he "could not accept" a nomination but drew 1,651 votes, and Vice President Alben Barkley, 361, who has been silent on his plans.

Taft got 1,000 Democratic write-ins and Mrs. Eleanor Roosevelt 1,108, the latter almost entirely as a result of a sticker campaign in one Philadelphia ward.

Some of Eisenhower's backers had urged Democrats to write in the general's name on their ticket to impress Republican leaders—including Gov. John S. Fine—with the NATO commander's popularity among all the people.

This Pennsylvania popularity seemed established but its effect might be felt more widely outside, rather than within, the state. Backers were counting on the Pennsylvania vote to boost the general in what may be his last pre-convention clash with Taft, a Massachusetts primary write-in affair next Tuesday.

Edwin F. Russell, state chairman of the Citizens-for-Eisenhower, left no doubt that pressure will be brought to bear here on Gov. Fine by swing the many, uncommitted delegates who are following his leadership.

He may be helped in this by Herbert Brownell, former GOP national chairman, named yesterday to work on Pennsylvania, Illinois, Indiana and Michigan delegates in Eisenhower's behalf.

Fine apparently has the choice of joining with Sen. James Duff, an Eisenhower backer, or of stringing along with the faction headed by Mason Owlett, GOP national committeeman, and former U.S. Sen. Joseph R. Grundy.

The latter two are believed to lean toward Taft, but they have not closed the door to supporting Eisenhower if it looks like Pennsylvania's vote can be parked on the bandwagon of a convention winner.

Russell said in a statement that he expects Taft's managers to "disparage the Pennsylvania results." But he contended that "the citizens have taken charge and have given like such a thumping majority that this preferential primary will be something more than meaningless."

John D. Hamilton, Taft's Eastern campaign manager, said he regarded the Ohio senator's showing as "rather remarkable" under the circumstances.

"Eisenhower was on the ballot and his supporters campaigned for votes, while Taft told his supporters flatly not to vote for him," Hamilton commented.

Sen. Edward Martin, generally regarded as leaning toward Taft, won renomination for a second term race. He will be opposed by Democrat Guy K. Bard, a judge of the U.S. District Court in Philadelphia.

Gomez Powers Round Tripper

By The Associated Press

Rain gave six clubs in the Gulf Coast League a holiday Monday night but the two teams that played it out—Hartlingen and Texas City—staged a dogfight at Texas City to see which inherited the cellar.

Texas City did. The Hartlingen Capitols pushed across two runs in the tenth inning to win 6-6. Earlier the winners had protested the game when umpires called for resuming play after rain interfered for 30 minutes.

Brownsville at Galveston, Laredo at Lake Charles and Corpus Christi at Port Arthur were postponed. They play the same slate again tonight.

Keith Carpenter singled in the seventh Hartlingen run in the tenth, then Ted Squillante walked and Isadore Carballera got on by fielder's choice to lead the bases. Bob Fisher walked and the eighth run scored to decide the game.

Both clubs used two pitchers apiece in the 23-hit game. The Texans went ahead 6-3 in the second as Felix Gomez homered with one on in the five-run frame.

Only 147 fans watched the game.

Seeks Witnesses To Traffic Crash

Sgt. Radford C. Thomason, one of six persons injured in a traffic crash that killed two others, is asking to hear from anyone who might have witnessed the mishap.

The crash occurred near Odessa Sunday night, and Sgt. Thomason is searching for additional evidence that might be pertinent to the case. He may be reached through the Base Hospital at the Big Spring Air Force Base.

Divorce Granted In District Court

One divorce was granted and a suit for compensation was dismissed on plaintiff's motion this morning in 118th District Court.

In a hearing before Judge Charles Sullivan, Gene L. Parks was granted a divorce from Patricia Ann Parks.

A compensation suit styled by Robert W. Insurers Indemnity and Insurance Co. was dismissed with prejudice on a motion by the plaintiff.

Traffic Collision

Police traffic reports showed a mishap near the Big Spring Hospital at 2:30 p.m. yesterday in which the operators were listed as John R. Follett, 2008 Nolan, driving a 1950 Plymouth, and W. W. Ogil, 10 Johnson, driving a 1949 Hudson.

"The Best Remedy for Spring Fever Doesn't Come In A Bottle"

It came with four wheels, a smooth running engine and a bright, shiny paint job. Here is a selection of "sure cures" for your case of Spring Fever. Priced so low they'll amaze you.

1951
FORD Fordomatic 4-door sedan. Get that Spring back in your step. Step on the gas in this 10,000 mile beauty.

1950
BUICK Super 4-door sedan. Fully equipped. This car will make you feel young again. Stop mooning and start driving. See the country in the spring.

1950
CHEVROLET Fleetline 4-door sedan. Radio and heater. Never a cheaper nor nicer way to get away from your troubles. Just take a spin, away from it all.

1950
PLYMOUTH Club coupe. It's in the air, spring fever and fishing and romancing. This car will take you where you want to go.

1950
BUICK Special Sedanette. Ride with the comfort that only a BUICK can give. Glide away on that vacation trip without a worry or care.

1947
FORD 4-door sedan. A Georgia peach. Has lived in Georgia until the Air Force caught its owner. Cleanest car of the model in West Texas.

1946
PLYMOUTH 4-door sedan. Radio and heater. Take off for that mountains or coast. This one will make it.

1948
CHEVROLET 2-door sedan. A really nice car inside and out. Radio, heater and a typical spring painting. Green and brown.

SENATOR QUOTES HIM

Too Much Control
By Govt., Ike Says

By MARVIN L. ARROWSMITH
WASHINGTON (U-P)—Gen. Dwight D. Eisenhower was quoted today as saying the government's answer "to excessive control is more control" and that there has been federal "abuse of the taxing power."

Sen. Carlson of Kansas, who is supporting Eisenhower for the Republican presidential nomination, said the general recently made the statements in a letter to a friend. The senator did not name the friend in a speech prepared for delivery at a Rotary Club meeting here.

Carlson said the statements he quoted are examples showing where Eisenhower stands on domestic issues. He added that the general has made his views known "equally clear on a great number of our fundamental issues," and that opponents who say he hasn't are making "such false charges for only one reason: They see the

nomination slipping away from them and they are desperate."

Carlson said Eisenhower wrote: "Extravagance in public spending brings ever-increasing taxes—taxes which if long continued will strangle incentive, the very quality that built the nation. Meanwhile, the government debt rises. The value of our money becomes the football of politics—subjected to the political whim of the moment."

"The government penetrates more and more into our daily living; its answer to excessive control is more control. In this whole process, the abuse of the taxing power has been one of the chief weapons the government has used."

Meanwhile, Sen. Nixon of California urged Eisenhower to "repudiate unequivocally" President Truman's seizure of the steel industry. "As a candidate for the Republican nomination he should do so just as soon as he goes on inactive status June 1," Nixon told a reporter.

Nixon, who is backing Gov. Earl Warren of California for the nomination, said all aspirants for the presidency should make their position known on the controversial seizure issue, and that most of them have.

The more daring residents of the little village of Mulberry, armed with firearms and heavy sticks, went snake hunting after the disappearance was reported.

No Italy Newspapers
ROME (U-P)—All Italy was without newspapers today because of a 24-hour strike for higher pay for newsmen and printers.

11th Jet Ace

Capt. Robert J. Ove (above) of San Bernardino, Calif., became America's eleventh jet ace when he shot down two Russian-built MIGs in a battle over Korea April 21 between 50 MIGs and 28 Sabres. (AP Wirephoto).

Robert McLean
Re-Elected AP
Head At Meet

NEW YORK (U-P)—Robert McLean, president of the Philadelphia Evening Bulletin, was re-elected yesterday president of The Associated Press. He has been president since 1938.

The Board of Directors re-elected Harold A. Fitzgerald, of the Pontiac (Mich.) Daily Press, as first vice president. Clarence B. Hanson Jr. of the Birmingham (Ala.) Sunday News, was elected second vice president.

Lloyd Stratton and Robert Booth were re-elected secretary and treasurer, respectively. The Board of Directors, which organized yesterday, included four new members who were elected by AP members at their annual meeting Monday. They are John R. Reitemeyer, Hartford (Conn.) Courant; Richard W. Clarke, New York Daily News and Sunday News; W. H. Cowles, Spokane Spokesman-Review, and Nathaniel R. Howard, Cleveland News.

Members of the Executive Committee named yesterday were: McLean, Benjamin M. McKelway, Washington Sunday Star; Robert B. Choate, Boston Herald and Boston Sunday Herald; John S. Knight, Chicago Daily News; Roy A. Roberts, Kansas City Star; Paul Miller, Rochester (N.Y.) Democrat and Chronicle; and Harry F. Byrd Jr., Winchester (Va.) Evening Star.

Riding The
GRUB LINE

By Franklin Reynolds

A group of Big Spring businessmen, acting as an unofficial committee but as interested citizens, plan to ask an early conference with County Agent Durward Lester and the officers and directors of the Howard County Farm Bureau, in an effort to determine definitely whether Howard County farmers and ranchers want to participate in the West Texas Weather Improvement District's precipitation contract.

If it is indicated at this conference that the farmers and ranchers do want to join this experiment in an effort to increase rainfall, these Big Spring businessmen will undertake to help raise the balance of approximately \$4,700 which is needed to meet Howard County's quota. If it is determined by the conference that Howard County ranchers and farmers do not want to participate then these businessmen will, probably, not make any effort in that direction.

So far Howard County appears to be behind most of the other 17 counties in the district in efforts to raise the set quota. During recent weeks hardly anything has been received for the fund, and a surprisingly large amount of the more than \$3,700 that has been received has come from persons who live in Big Spring and who do not own ranch or farm land, but who are equally interested in bringing about more rainfall.

Farmers and ranchers who wish to express their feelings about the matter may do so, and should do so, by having a talk with the officers and directors of the Bureau. The officers are Cecil Leatherwood, president; Edgar Phillips, vice president; R. V. Middleton, secretary-treasurer, and C. H. DeVaney, state director of the district.

The directors are J. L. Baugh; Doris Blisard; Robert Brown; L. J. Davidson; Leroy Echols; M. M. Edwards; Shirley Fryar; J. H. Fuller; V. L. Jones; E. T. O'Daniel; Morris Patterson; Clovis Phinney; Ralph Proctor and Alvin Walker.

Postmaster Nat Shick reports that on the recent trip he and Mrs. Shick and their daughter made to, through and around the Minnesota section of the country they drove about 2,700 miles and that the windshield wipers were in operation at least 2,000 miles of the journey because of the snow and rain.

"The farmers up there are praying for dry, warm weather so they will have a chance to plant, just like we're praying for rain," Shick says.

While they were in Minnesota he says they went to see a show "Singing In The Rain." When they left the theatre and went out into the rain, Mrs. Shick told him that when she got home she would have a new song and that she would certainly enjoy it. It will be "Singing In The Sand," she said.

Farmers in Nebraska told the Big Spring postmaster that even if they could get two weeks of dry, hot weather it wouldn't be enough

THE C. R. ANTHONY CO.

BIG SPRING

to enable them to get their land ready for cultivation.

A little rain looks like a flood to West Texans right now.

When the Weather Bureau reported 21 inches a few days ago, everybody insisted the Weather Bureau was wrong and that at least from one to four inches of rain had been received.

The runoff was deceiving. The way it stood on top of the ground was deceiving.

Recent infiltration studies just across the line in New Mexico on rangeland comparable to that in this area show that it took only 23 minutes for one inch of rain to soak into ground protected with a fairly good grass cover, while only one-half of an inch of rain soaked into the ground on an over-grazed pasture in more than two hours.

Runoff cannot be avoided, and

soil moisture cannot be stored up unless there are grass or crop roots and much to help carry the water down into the soil.

A good portion of West Texas land isn't in much better shape to soak up water than a concrete sidewalk. That's why a little rain out this way right now looks like flood, and in a sense it is a flood, washing away valuable soil particles with it.

At the recent annual meeting of the Co-Operative Gln and Supply Society, Ross Hill was re-elected president; Ellis Iden, vice president; R. M. Wheeler and W. L. Wilson, directors, and Alvin S. Bates, secretary.

The annual report showed 3,396 bales ginned during the 1951-52 season, and \$25,254.32 as the amount of dividends and rebates paid back to members and patrons.

Conferees May Meet Friday
To Settle Tides Problems

WASHINGTON, April 23 (U-P)—Sen-

ate and House conferees may meet

Friday in an effort to settle dif-

ferences in the bill to give the

states ownership of submerged

coastal oil lands.

Under the Senate version of the

bill the states would get clear title

to the submerged lands three miles

from shore. The House version in

addition would give the states 37½

per cent of all revenues from oil

development out to the edge of the

continental shelf.

Declining to be quoted by name,

a congressional legislative official

said that some of the House leaders

feel confident the President will

veto the legislation. He said that

they therefore are willing to agree

to the Senate version in order to

hasten the time when the question

of over-riding a veto can be

brought to a vote.

This official expressed belief the

House could muster the necessary

two-thirds vote to over-ride a veto,

but said he had heard that Senate

supporters of state ownership

would find themselves about 9 votes

short.

Ike Still In Bed With

His Cold; Hasn't Any

Comment On Voting

PARIS, (U-P)—Gen. Dwight D. Eis-

enhower still was abed today with

a cold and throat infection and

aided said it was "impossible to

ask his comment on results of the

New York and Pennsylvania pre-

sidential primary elections.

Maj. Gen. Howard M. Snyder,

surgeon general at Eisenhower's

headquarters near here, said the

general's condition is improving

and "we hope to get him back to

his desk tomorrow."

Canned Dog Food Is

Being Fed Children

MONTREAL (U-P)—A local welfare

worker says some low-income fam-

ilies in Montreal are serving their

children canned dog food in sand-

wiches.

Nan Garvok, of the Montreal Diet

Dispensary, told of the new low-

budget practice today and said

some grocers reported their sales

of canned dog food had doubled

in recent years.

"We feel repulsed by it, although

it's perfectly harmless," Miss Gar-

vok commented.
