Nursing Home To Build New 102 Bed Facility

Deport will have a new 102 bed nursing home by January of 1976, according to Roy and Martha Castlebury, owners of Deport Nursing Home. The $500,000 facility will be built on Highway 271 just west of Grant Park.

The home will feature a barber shop, beauty shop, therapy section, examining room and laundry room. The wagon wheel designed structure will have six residence wings and one wing that will house the kitchen and dining areas.

Each residence room will house two patients and will have a half bath. The nurse's station will be at the center of the spokes of the wagon wheel, allowing constant observation of all areas of the home.

The present Deport Nursing Home building, open since 1957 and "probably one of the oldest in this area," Castlebury says, will be shut down.

Construction should start sometime in May, Castlebury said, and added that upgrading of standards, new safety standards and the undesirability of the old structure layout have necessitated the move. Approximately 45 patients reside in the present home.

Two Charged In Kisner Burglary

The arrest of one adult and three juveniles in Bogata on Friday, May 16, by deputy sheriff Jon Latimer for possession of marijuana led to the charging of the adult, Herman Wayne Couch and another man, Jeffery Brown, with the burglary of Kisner's Grocery on May 14. Value of the goods stolen was set at $450.

Couch was arrested late Friday afternoon along with three juveniles for possession of marijuana, and was charged Tuesday with a misdemeanor for possession in Gavin Watson's County Court and with a felony for burglary in Bill McDonough's Examining Court, Precinct 1. Brown was arrested Saturday and was also charged in the burglary as a co-defendant on the felony. Both Brown and Couch made $500 bail and were released. The juveniles were released Friday night in the custody of their parents, and one of the juveniles was returned to Clarksville Saturday and then taken to Texarkana to a juvenile detention center.

Ronald Sanders of Hagansport was arrested in Bogata late Friday night by Latimer for possession of marijuana, and the charge was filed in Watson's County Court Tuesday. Sanders was charged at the same hearing with theft, a misdemeanor, in connection with receiving merchandise taken in the Kisner burglary. Sanders had not made bail by noon Tuesday and was still in Red River County jail.

Queen Entries Needed

Plans are in the making for one of the biggest rodeos ever to be staged in Bogata, according to Bill Buckman, president of the Bogata Rodeo Association. The rodeo is set for June 26, 27, and 28.

A big feature of the rodeo again this year will be the selection of a Rodeo Queen, who will be a young woman from this area who is 14 through 19 years of age. The queen contestants will compete on the basis of horsemanship, ticket sales, and appearance. She will represent Bogata at the Four States Fair in Texarkana.

This year's queen, Judy Bevins, will present the trophy to the 1976 queen. Those wanting to enter the competition are asked to complete the entry form in this week's paper and mail to Bill Buckman, president, Bogata Rodeo Association.

Cities Receive Tax Checks

Comptroller Bob Bullock issued checks totaling $19.9 million Thursday to Texas cities in the second round of monthly city sales tax payments.

The May payments were up from the $16.1 million rebated April 15 when the monthly system replaced the old quarterly rebate system with its 60 to 90-day lag time.

But, Bullock said, the big payment will come in June when city allocations are made of the quarterly returns paid by merchants since April 30. The great bulk of that money hadn't reached the Comptroller's office by the May 2 cutoff date for the May payments.

The May rebates were made from money received by the Comptroller between April 4, the cutoff for April's payments, and May 2, Bullock said.

Check put in the mail Thursday went to 700 of the 809 cities which have the one per cent sales tax. The remaining small cities fell below the $500 level at which monthly payments aren't made.

All rebates, regardless of size, will be issued in June, Bullock said.

Bogata led Talco and Deport in retail sales for the period, with $1,999.48 to be returned to Bogata by the state comptroller. The payment to Talco will be $1,130.97 and Deport will collect $1,172.80.

Oil Production Recorded In Counties

Titus County, which has had recorded production since 1936, last year produced 2,394,935 barrels of oil at the rate of 6,561 barrels per day. Production in 1974 boosted Titus County's production total through the end of the year to 169,390,427 barrels. Red River County, which has recorded production since 1951, produced 15,560 last year at a rate of 43 barrels per day to bring the total production to 482,006 barrels.

In 1974, some 31 counties produced more than 10-million barrels of crude oil, with Anderson and Kleberg counties dropping below that mark and off the list compiled last year. The top seven, all with production in excess of 51-million barrels, retain generally the same order as in 1973 with one notable exception: Yoakum County has moved into the No. 2 spot ahead of Ector County.

Gregg County, the only Texas county to produce more than two-billion barrels of oil in the history of recorded production, remains the all-time leader with a cumulative total through 1974 of almost 2.5-billion barrels.

People You Know In Business

Bell Air Conditioning Refrigeration Is Owned By Home Town Man

"Small town boy makes good" is not quite the story behind Mike Bell and his refrigeration and air conditioning business, but the old story does have some similarities to Bell's situation.

This small town boy, who is a recent graduate of Rivercrest High School, didn't go to the city to make good, but stayed in his home town of Bogata and is working hard to make a struggling young business pay off. Bell worked all through high school for his father, Durward, who is an electrician, carpenter and contractor, then went into business for himself.

Bell carries the Carrier name air conditioning line, including both central heat and air conditioning units and window units for room air conditioning.

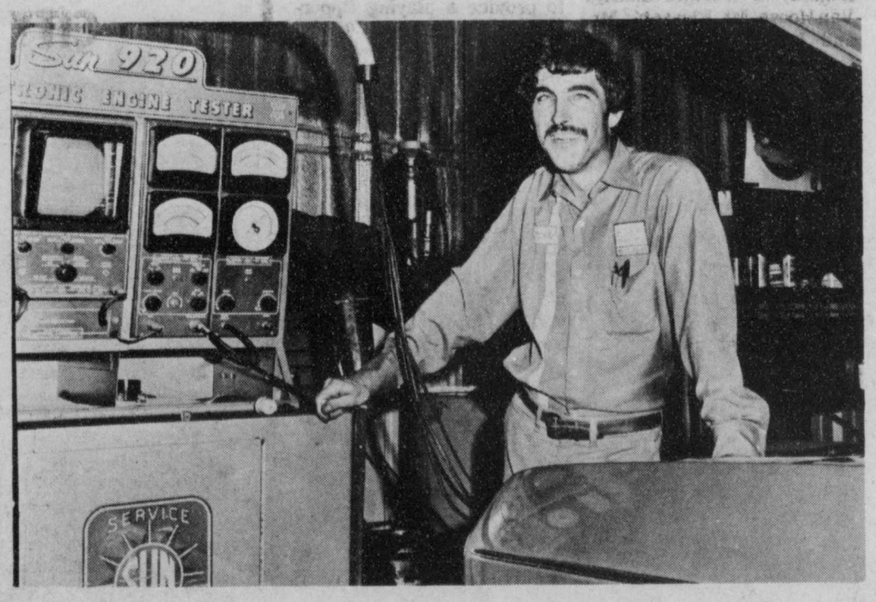

He also services refrigerated coolers for grocery stores and meat markets as well as home refrigerators.

In addition to refrigeration, heating and air conditioning, for residences and businesses, Bell also does residential and commercial wiring.

Recently Bell won the contract for air conditioning the American Legion Hall in Deport, furnishing a four ton Carrier unit, the duct work, plumbing and wiring for a turn key price.

Want quality products like you can get in the city and service that you can only get in a small town? Call Mike Bell at 632-5321, and let him give you a free estimate on the air conditioning or wiring you need. You will be happy with both the product and the service.

COOL LEGIONS—Mike Bell, air conditioning and refrigeration contractor of Bogata, installed this four ton Carrier unit at the Deport American Legion Post last week. Bell contracts for any air conditioning job, large or small, and also sells window units by Carrier for room air conditioning. (Staff Photo).

SERVICE—Mike Boulware is the service manager of Harvey-Duren Motors in Clarksville, and although he is an expert on the repair of Pontiacs, the department also repairs all makes and models of automobiles. BankAmericard and Master Charge are honored for service and parts work. (Staff Photo).

BOGATA GAS AND APPLIANCE—All this new furniture can now be found at Bogata Gas and Appliance, which is now in the furniture business too. The selection features furniture for every room in your house with famous brand names. Carl and Maggie Williams are the owners, and Audrey Gillis is the receptionist. The store, located on Highway 271, is open after hours by appointment by calling 632-5934. (Staff Photo).

AT HOME

If you're an average homemaker, your feet carry you about 10 miles a day and take 1,500 tons of jolts. An active child takes 30,000 steps a day, a distance equal to twelve miles. Most healthy people are comfortable in a house when the temperature is 68 degrees. About seventy percent of all homemakers suffer eye defects.

PUBLIC NOTICE

There apparently is some misunderstanding in regard to a Deputy Sheriff for the Bogata area, and we think it advisable to explain the situation once again.

The Commissioners' Court sets all salaries in the County, and it recently voted to set a salary for a Deputy Sheriff at $5,700 per year, effective May 1, 1975. This is the same salary being paid the Deputy now living in Detroit. The salary was set at this figure at the request of the Sheriff.

The Sheriff hires and fires all Sheriff's deputies and assigns their duties and locations. The Commissioners' Court has no control over this whatever. It is a criminal violation, punishable by a fine, for any member of the Commissioners' Court to suggest to the Sheriff who he will hire, how long he will employ a Deputy, or when or if he will fire any Deputy.

The Sheriff will continue to employ, or he will fire, the Bogata Deputy Sheriff and replace him, if he desires, with any other person he chooses. He can assign him to Bogata, Rosalie, Kiomatia, Bryarly, Lydia, or any other place in Red River County. All of this he can and will do without asking the Court or advising the Court except for payroll and bond purposes.

So far as is known, no member of the Court has ever, or ever will, suggest to the Sheriff who he will employ as a Deputy, or for how long, or where he will place them.

Any statement contrary to the above is not correct.

When You Buy...

Check Your E.E.R!

When buying air conditioning for your home . . . it's important to check the Energy Efficiency Ratio. The information needed to figure the E.E.R. is on a metal plate which is attached to every air conditioning unit. Simply divide the BTU's by the watts. The recommended E.E.R. for an air conditioner is 7.0 or more. A low efficiency unit has an E.E.R. of about 5 or 6. It will probably cost a little more to buy the more efficient air conditioner . . . but in the long run it will save you money, as it operates more efficiently. You can help keep it operating efficiently by cleaning filters and having it serviced regularly.
