Volume 13

Member of (AP)

Lamesa, Dawson County, Texas, Monday, April 12, 1943

AP and Wide World

Number 27

## "They give their lives —you lend your money"

### CITY DELIVERY DISCONTINUED

Starting with today (Monday) the Courier will be delivered to most city subscribers through the regular channels of the post office. Delivery will be maintained on the city square and a block off the square in each direction.

Where a patron lives on a regular established route of the post office carriers, a paper will be delivered by the regular post office carriers. If you live beyond the regular established post office routes your paper will have to be delivered either by rural mail carrier, by box at the local post office or general delivery.

All Courier subscribers are

urged to report their correct address when they fail to get a paper. It is thought that a better service can be maintained by using the facilities of the post office. The Courier has had considerable trouble in the past in getting papers to city subscribers due to circumstances beyond our control. Even though in some cases subscribers will not receive their paper as quickly, as in the past, it is believed that there will be a smaller number of those who miss their paper. If you do not receive your paper promptly, please bring your correct address to the Courier Office.

—BUY WAR BONDS AND STAMPS—

### Forty-One Men Reclassified By Local Draft Board

A number of Dawson County men were given new classifications at a meeting of the Selective Service Board on last Thursday night, April 8.

(Men with H after classification are over 38 and will not be called until orders from Draft Headquarters are given for men in that category.)

Men given 1-A-H classification: Joseph W. Edwards, Jesus Velasquez, Grady H. Hutchinson, James Steakley, Wesley Edmonson, George Stephenson, Travis Tarter, Daniel Ogletree, Homer St. Clair, Howard Irwin, Henry Wickson, Thomas E. Smith, Willie Thomas, Bennie Whitfield, Alfred H. Randle, Charles F. Plumlee, Johnnie Lee Taylor.

(3-C-H classifications means men that are farmers and have family and are over 38)

Eugene Sirls 3-C-H, Alby Merck 3-C-H, Vernon Corley 3-C-H, Jack Adams 3-C-H, Sydney Richardson 3-C-H, Arthur L. Edwards 3-C-H, John Thompson 3-C-H, Simon Costello, Jr. 3-C-H, Shelby Howell 3-C-H, Clarence Blackstock 2-C, Wilna D. Kidd 2-C.

Elvin Bearden 2-C, Bruce Fields 2-C, William Ogden 2-C, D. L. Adcock, Jr. 2-C, Adrian Frith 2-C, James Waldorp 2-C, Catarino Castro 2-C, Robert Greaves 2-C-H, D. H. Mayben 2-C-H, Olin Holden 2-C-H, Clarence Martin 2-C-H, Stanley Wilkes 1-A, and Marion Cloninger 1-A.

### F. G. Grawunder Dies At Lubbock Sun. Afternoon

F. G. Grawunder passed away in a Lubbock hospital on Sunday afternoon at 5:45 p. m. The body will be at the home of a son, Private Gilbert Grawunder, 1628 Seventh Street in Lubbock, until funeral services, which have been set for 10 a. m. Wednesday at the Lutheran Church in Lubbock. Burial will also be made in Lubbock Cemetery.

Mr. Grawunder made his home in Dawson County until a few months ago when he moved to Terry County.

### CHARLES T. HANES PROMOTED TO SERGEANT

Corp. Charles T. Hanes, who is an air corps mechanic, stationed at Key Field, Mississippi, has been promoted to the rank of Sergeant. He is the son of Mr. and Mrs. C. D. Hanes, O'Donnell, Rt. 2.

Mrs. Lee Stinson and son, Doug of Burbanks, California, are visiting here in the home of Mr. and Mrs. J. R. Leuenberger.

### Dawson County Has Quota Of \$519,000 To Raise By May 1

"They give their lives—you lend your money."

With this as the slogan, Dawson County citizens started Monday morning the greatest War Bond drive in the history of this nation. This county has a quota of \$519,000 to raise by the first of May.

The drive in Dawson County will be part of a campaign which will be in progress at the same time in every community, large and small, in the entire nation in the effort to reach the national goal of 13 billion dollars. It has been described by Secretary of the Treasury Morgenthau as the biggest financing undertaking in all history.

Secretary of the Treasury, Henry Morgenthau, will launch the drive officially in a New York Radio Address Monday night at 8 o'clock which will be carried over major networks. Lamesans can hear Morgenthau over station WBAP or WFAA from 8 to 8:15 p. m.

Details of the drive here were completed last Friday night at a mass meeting held in the District Court Room. Chairmen have been named in each precinct in the county, and a card index bearing every citizen's name in the county have been prepared, workers in precinct will endeavor to see each person in the county, urging all to purchase all the bonds they can, so that Dawson County can meet their quota.

Mrs. M. C. Lindsey, who is chairman of the ladies committee for the county, has named a group of Lamesa women workers to help with the drive, these women will be ready to help in any way with the bond drive, Mrs. Lindsey said.

The women workers are: Mesdames E. J. Yates, W. K. Crawley, Matt McCall, T. A. Kellam, Carl Rountree, S. L. Forrest, C. A. White, Stansell Clement, Annie Crow, Gus White, Gordon McGuire, Jr., and A. G. Barnard.

A group of young girls are being organized for the Minute Maids and will assist in selling with bonds and stamps.

Today, Monday, for the fighting men they back on 30 fronts around the world, thousands of volunteer workers on the home front will go into action from coast to coast.

The immensity of their task is this:

The Treasury seeks to raise in war bond subscriptions in about three weeks almost as much as Americans have bought since the first campaign was launched in 1941.

The second war loan drive, beginning Monday, is to borrow \$13,000,000,000 from the American people.

Funds are sought to finance a war which we wage with increasing vigor against one-time aggressors who now surround themselves with fortifications.

We are attacking—and our war operations are costing us now about \$6,000,000,000 per month. Thus the goal of the second war loan drive will finance American operations against the Axis for less than three months.

### Foods For School Program To Be Stopped April 30

The Dawson County War Price and Rationing Board gives the following information on the "Food for School" program:

"We are advised that the FDA's "Food for Schools" program will stop as of April 30, 1943, and that any foods which the schools expect to get under this program for the remainder of the present school session, which closes around the end of May, will have to be procured on or before April 30.

Under the provisions of Regulation 5, these schools can apply and obtain their certificates for the next allotment period any time after the 15th of April. This should enable them to procure their final allotment before FDA's Program closes.

### \$2,500 In Bonds And Stamps Sold At Stunt Program

A large crowd attended the Student Council Stunt Night Program at the Lamesa High School Gym last Friday night, and a total of \$2,500.10 in war bonds and stamps were sold, of this amount \$391, was in stamps.

The program was given by students in both the white and colored school with the price of admission being the purchase of war stamps or bonds of any denomination.

Miss Ramah Eager of Stamford is visiting here with her father, L. E. Eager.

Cpl. Kermit Jordan left Friday for Camp Young, California, after spending a week here visiting with his wife, and parents, Mr. and Mrs. S. J. Jordan.

Citizens are urged by the Treasury to buy extra war bonds through nearly two million outlets across the Nation.

### Meat Price Must Be Cut If Point Values Lowered

Beginning today, butchers may not reduce point values of rationed meats and fats without at the same time lowering money prices, the Office of Price Administration announced today.

Before a retailer lowers the point value of a rationed item, a new amendment to the rationing regulations provides he must lower the price of the item at least 25 per cent below its established ceiling price. If he lowers the point value more than 25 per cent, the selling price must be reduced below the ceiling in proportion. In no case, however, is the retailer required to reduce the money price more than 50 per cent below the ceiling.

Retailers must post the ceiling and reduced money price along with the reduced point value.

Today's action was taken to put a brake on retailers who during the early stages of the new meats and fats rationing program have tended to abuse the point lowering device provided in the regulations. Retailers acting in good faith will not suffer, OPA believes, since it is normal practice to cut prices when items must be moved quickly to prevent spoilage.

### Local Girls To Report To WAACs

Five Lamesa girls who have recently joined the Womens Army Auxiliary Corps have received their calls to report.

Jewel Gaines, Blanche Daniels, Lavelle Gable and Mrs. C. L. Johnson received their orders to report to Lubbock on April 16 and will go from there to a camp in Arkansas. Louise Turnbow has been ordered to report on April 13 to Camp Ruston, Louisiana.

Key West was the first native source of sponges in America.

### S. S. Card Holders Are Urged To Get Status Of Account

If you do not know the status of your social security account and have not requested a statement of your account, you should do so, said Elliott W. Adams, manager of the Big Spring Social Security Board office, in a statement today. Adams pointed out that "all careful persons ask for statements of their bank accounts once each month. This is not done because of distrust or lack of confidence in the honesty and efficiency of the bank but merely because it is good business and a protection for the depositor and the bank alike. The practice of calling for bank statements is encouraged by banks. The Social Security Board encourages employees to request statements of their old-age and survivors insurance accounts at least once a year, and they have made the asking easy."

In order to secure a statement of one's social security account, a worker merely fills out a simple post card, Form OAR-7004, giving his account number, date of birth, name and address, and mails the form to the Social Security Board, Candler Building, Baltimore, Maryland. The form may be obtained from any Social Security Board office. This method of securing a statement of your social security account is very similar to that of obtaining a bank statement, where a depositor fills out a form giving the date, the exact name of the account and his signature. Any worker can merely write a letter to the address given above, showing his account number, date of birth, name and address, without using the post card, Form OAR-7004 and a statement of his social security account will be sent to him. Adams emphasized the importance of checking up on social security account at least once a year.

Delaware is known as the Diamond State.

Plant this part in late winter:

English peas—1 pt.  
Cabbage—100 plants.  
Beets—2 oz.  
Carrots—1 oz.  
Lettuce (heading) 1/4 oz.  
Mustard—1 oz.  
Spinach—1 oz.  
Onions—600 plants (2 rows)  
Irish potatoes—5 rows (40 lbs. seed will yield 400 lbs. potatoes).

---

Plant this part when danger of frost is over:

Green Beans—3 pints (3 rows)  
Lima Beans—2 pints (2 rows)  
Lettuce (leaf) 1/4 oz.  
Radish, 1/8 oz. 20 ft. Parsley, 1/8 oz. 10 ft.  
Mustard, 3 oz. 70 ft.  
Pepper—12 plants Eggplant—25 plants  
Okra—1 oz.

---

Plant rows 3 feet apart

Cucumbers—1 oz.  
Yellow Squash—1/2 oz. Fordhook—1/2 oz.  
Tomatoes—100 plants (3 rows)  
Sweet Corn—3/4 lb. (3 rows)

Plant rows 4' apart

**A SMALL CITY GARDEN - - 10x20 Ft.**

(Rows 18" Apart) (For Tomatoes, Rows 36" Apart)

10'	Onions Bermuda	Mustard Tendergreen Southern Curled	Spinach Bloomsdale Savoy	(Plant this half of the garden after frost danger is over)	Beans—Stringless Green Pod	Beans—Stringless Green Pod	Tomatoes—7 plants Pritchard, Marglobe, Rutgers or Porter	10'
	Beets Detroit Dark Red	Lettuce New York (head) Simpson (leaf)	Carrots Chantenay or Danvers H. Long					
	20'							

In the Farm and Small City Gardens only the suggested number of feet of each planting is shown, and the suggested width of rows. However it is always wise to plant those varieties of vegetables that have throughout the years shown their adaptability to our West Texas soils, sun and wind.

The following varieties have shown that they are well adapted to West Texas:

**CABBAGE** — Wakefield and Copenhagen, plants set 12 inches apart.

**BEETS** — Detroit Dark Red, thin to 3 inch spacing when plants are about 2 or 3 inches high.

**CARROTS** — Chantenay or Danvers Half Long. Be sure to spade ground to about 8 inches deep—thin.

**LETTUCE** — Black Seeded Simpson, thin to 6 inches when plants are about 2 to 3 inches high.

**MUSTARD** — Tendergreen and Southern Curled, make several small plantings.

**SPINACH**—Bloomsdale Savoy, make several small plantings.

**IRISH POTATOES** — Bliss Triumph, plant when danger of frost is over

**GREEN BEANS** — Refugee or Stringless Green Pod, make two plantings.

**LIMA BEANS** — Florida Speckled (pole type) or Henderson's Bush. Plants about 4 inches apart.

**SQUASH** — Yellow Crookneck and Fordhook. Plant 2 feet apart.

### Dawson County Fourth In Cotton Ginning In State

The final report of the number of bales of cotton ginned in Texas, by counties from the crop of 1942, was announced by the Bureau of the Census, Department of Commerce, Washington, D. C., a few days ago, and shows that Lynn county leads all other counties of the state by a very substantial margin.

Lynn county ginned 98,204 bales. Lubbock county was her closest rival with 84,400 bales.

Lubbock county led the state in 1941 with 85,321 bales and Lynn county was second with 65,958. Lubbock county has led the state several times during the past few years, with Lynn county taking either second place or standing near the top.

Lynn county's lead over Lubbock county this past year was 13,804 bales. Nueces county on the Gulf coast was third in the state, but South Plains counties, Dawson and Hockley, took fourth and fifth places respectively. Of the ten leading counties in the state, six of them were West Texas counties, Jones county holding sixth place and El Paso county tenth.

Ellis and Williamson counties, which used to take it time about winning first place in the state, had to be content with sixth and ninth places respectively, each being surpassed by the four South Plains counties mentioned above.

In addition to bumper cotton crops, these South Plains counties also produced immense feed crops the past years, as they have done in many years of the past. Lynn county's feed crop probably surpassed all previous records.

We give below the cotton ginnings in thirty of the leading cotton counties of the state for 1942 and 1941 respectively. It will be noted that of these thirty counties, seventeen of them are West Texas counties.

County	1942	1941
Lynn	98,204	65,958
Lubbock	84,400	85,321
Nueces	75,701	57,924
Dawson	69,651	55,672
Hockley	67,556	41,860
Ellis	57,021	47,791
San Patricio	55,436	35,990
Jones	53,244	61,149
Williamson	52,518	34,284
El Paso	51,078	52,933
Hall	49,382	47,705
Haskell	48,211	47,741
Collin	47,430	41,077
Wilbarger	46,607	34,623
Terry	43,084	29,233
Fannin	41,558	32,659
Navarro	41,086	31,798
Hill	41,056	34,631
Knox	40,085	37,842
Hunt	39,764	34,392
Lamb	38,416	49,328
Hidalgo	38,018	22,327
Bailey	36,836	17,617
Crosby	35,186	50,443
McLennan	35,160	30,788
Runnels	24,845	46,501
Grayson	32,081	28,350
Cottle	31,192	29,751
Collingsworth	31,176	23,761
Kaufman	30,034	24,831

Continual cannon fire has been heard 100 miles from the scene of the firing.

Enough oil was supplied by the 1942 cotton crop to furnish every person in the United States with 10 pounds of food fat.

Sun spots are dark, cloud-like regions from 500 to 50,000 miles in diameter which last from a day to a week.

### Farmers Urged To Plant More Feed Grains

Texas farmers were asked this week to plan for maximum production of all feed grain crops during 1943.

Citing increases in cattle, sheep, hogs and chickens throughout the state for 1943, B. F. Vance, chairman, Texas USDA War Board, declared this week that it would take maximum production of all grain crops to see them through this year and provide a backlog of feed for 1944.

According to state statistics, producers had a total of 7,518,000 head of cattle on hand Jan. 1, 1943, compared to 7,444,000 head at the same time in 1942 while the ten year average from 1932-41 indicates only 7,272,000 head.

He pointed out that on Jan. 1,

1943, Texas producers had a total of 10,677,000 sheep compared to 10,552,000 on Jan. 1, 1943. From 1932-41 producers stocked only 8,462,000 head.

Indicating the increase in hogs, the chairman explained that this year's total was approximately 2,655,000 head compared to 2,042,000 last year and that the average during the past 10 years was 1,836,000 head. The biggest increase for Texas shows in production of chickens, according to statistics. Last year, a total of 31,681,000 chickens were shown while the tabulation of Jan. 1, 1943, indicates a total of 36,975,000 head. During the last 10 years, the average was 25,624,000.

"We now have 812,000 more cattle, hogs and sheep and over five million more chickens than we had during 1942 and for these reasons we are going to need enormous amounts of feed grains this year," he said.

**DIANE FRAZIER HONORED ON 4TH BIRTHDAY**

Diane Frazier celebrated her 4th birthday Thursday, when her mother, Mrs. S. Z. Frazier entertained with a birthday party from 3:30 until 5, at their home.

During the afternoon outdoor games and contests were enjoyed. For favor, miniature rabbits, chickens and pinwheels were given the guests, which aided in carrying out the Easter motif.

Sandwiches, cake and punch were served to the following guests: the honoree, Pamela Price, John V. Price, John Lee Bryant, Laverne Womack, Carlton Womack, Darlene Sprawls, Betty and Linda Lou Jones, Darlene Mayfield, Phyllis Ann and Donald Emory, David Read, Beverly Russell, Bobby Brown, Marlynn and Dennis Lamphere, Donna Jo Alexander, Ronald Kutch, Sue Lott, Nelson Cayton, Tommie and Katie Koger, Will Ann Morton, Carl Bowen Cox, Wood Hart, Billie Measer, Phyllis George, and Deon Parks.

**DOROTHY N. BERRY ELECTED TO BETA GAMMA SIGMA**

Miss Dorothy Nell Berry, daughter of Mr. and Mrs. L. Berry, a junior at the University of Texas, Austin, was among 28 students to be elected to membership in Beta Gamma Sigma, honorary fraternity for business administration students.

Beta Gamma Sigma ranks as the "Phi Beta Kappa" of business administration students, and only a small percentage of the junior and senior class are admitted each year. This year's election included four juniors, 23 seniors, and one graduate student.

**MISS LOIS McBRIDE MAKES HONOR ROLL AT A. C. C.**

Miss Lois McBride, daughter of Mr. and Mrs. O. C. McBride is listed on the honor roll at Abilene Christian College for the first six weeks of the second semester. This honor roll is compiled by the registrar and is composed of students who are in the upper ten per cent of the class in one of more courses.

**MRS. ROSS BOARDMAN HOSTESS TO 42 CLUB THURSDAY**

Members of the Thursday 42 club were entertained Thursday afternoon with Mrs. Ross Boardman as hostess.

Games of 42 were enjoyed during the afternoon after which a refreshment plate of sandwiches and coffee was served.

Guests attending were Mesdames, Dee Hull, A. G. Waugh, Gus White, M. E. Boren, Frank Barkhurst, Lee Billingsley, Ross Gibson, Irvin Wright, Bill White, Walter Barfoot, Ray Williams, and Clyde Privett.

**MARY LOU MURRAY ELECTED TO TAU DELTA ALPHA**

Brandishing an assortment of weapons—hammers, saws, chisels, a stathoscope, and long knives—seven University of Texas co-eds took the campus by storm recently.

They haunted the walk in front of the Texas Union, looking for "volunteer victims". Fortunately it all turned out to be an initiation stunt for the seven girls recently elected as members of Tau Delta Alpha, honorary fraternity for women taking pre-medical work.

The assignment to the pledges, including Mary Lou Murray, of Lamesa, had been to perform two successful "operations," but in their enthusiasm, the initiates overshot their quota and "operated" on many frenzied patients during the morning.

On the serious side of the picture, the seven were chosen for membership in Tau Delta Alpha because of unusually high scholastic ratings.

Mr. and Mrs. T. A. Painter, Mr. and Mrs. Amos Painter and Mrs. Arthur Billingsley left Monday for Phoenix, Arizona, where they will visit with relatives and friends.

**MARY P. BEARDEN INITIATED INTO CSO CLUB AT A. C. C.**

Mary Pearl Bearden, daughter of Mr. and Mrs. O. R. Bearden of Lamesa, last week was initiated into the Campus Service Organization, service club of Abilene Christian College, after service a six weeks period as a scullion. The Achieve CSO membership a girl must be classified at least as a sophomore and outstanding in one of nine recognized fields in the realm of art, science or leadership. Miss Bearden was chosen for her work in the field of home economics.

Ralph Sleator, who teaches a battle firing course, shows Martha how to handle a tommygun.

**Price Of Feed Wheat Announced**

Feed wheat in Texas from the 100,000,000 - bushel appropriation made by Congress several days ago will be \$1.04 in Texas during April, the state AAA office announced this week.

Operating under the same principles as last year's program in which 125,000,000 bushels of Government-owned wheat were released for feeding purposes, the new appropriation now is available and should help materially to ease feed shortages developing in many parts of the nation. The last of the 125,000,000 bushel allocation, of which Texas received 2,800,000 bushels, was sold the early part of March.

To provide equitable distribution of the wheat, feeders, feed mixers, and dealers are limited as to the amount they can have on hand during a specific period.

Livestock producers, dairymen, poultrymen and other feeders, who

purchase wheat through dealers, direct from Commodity Credit Corporation, or through county AAA committees, must state the quantity of feed wheat on hand and their estimated monthly requirements. Orders will be accepted for a quantity which together with the quantity on hand will not exceed a three month's supply.

Local feed mixers and dealers, who also are being asked to itemize monthly requirements, cannot have more than a two month's supply, including the quantity on hand. Orders for large mixed feed manufacturers, distributors and county AAA committees will be limited to a two month's supply, which includes the quantity on hand unsold when orders are placed.

Feed wheat may be ordered direct from CCC, Kansas City, or purchased through county committees in counties in which Government-owned wheat is located at bin sites. Under the latter procedure, committee may sell direct from county stock without contacting CCC.

Under the 1942 program, the price

**SHOE RATIONING HITS WAX MODELS**

McPHERSON, Kas. (AP) — A McPherson merchant has a corps of wax models for his display windows. He doesn't deal in shoes. Before shoe rationing, he borrowed shoes from a shoe merchant. Now he's tried to buy shoes but couldn't get any No. 17 coupons for wax blondes.

He's appealed the case but meanwhile, says he, it's an outrage that his mannequins have to stand around in their bare tootsies.

Miss Commie Zell Barnes spent the week end at Austin visiting with relatives and friends.

The diameter of the earth from pole to pole is about 27 miles less than that at the equator.

of feed wheat was based on 85 per cent of parity price for corn while the new allocation will be sold at 100 per cent of parity price for corn.

**Uses Your Old Wire**

**Electric Fencer**

High cost and scarcity of wire is no problem... with PARMAK you can triple your fence with wire on hand. Produce more with less time, labor, cost.

**COUNTY AGRICULTURAL AGENT**  
**TEXAS A. & M. COLLEGE EXTENSION SERVICE**

An early cleaning up of the orchard will be one of the most practical methods of controlling insects that damage fruit, states B. J. Baskin, County Agent.

Paul Gregg, Assistant Entomologist of the Extension Service of the Texas A. and M. College, states that (1) scraping of all loose bark on trees and burning the scrapings; (2) removing all pieces of wood, bark and prunings from the orch-

ard and the burning of this wood; and (3) the careful checking of all limbs for Tent Caterpillar masses, removing of these by hand and burning will take care of most codling moth and tent caterpillar troubles during the year.

Tomatoes with the proper care are one of our best vegetables, says B. J. Baskin, County Agent.

Jimmie Rosborough, Horticulturist of the Texas A. and M. College Extension Service, says that our success in tomato growing depends largely on the strength and vigor of the tomato plants we use. Plant good, strong and vigorous plants.

Apply about a shovelful of well-rotted barnyard manure where each tomato plant is to grow. Work this into the soil. In sandy soils add about a TEACUPFUL of a 4-10-7 or a 3-8-7 fertilizer, and work into the soil. In setting the plants be sure to pack the soil firmly around the roots, and water so that the soil will settle around each root. Then pull some loose soil up in a cone-shaped mound around each stem to support the plant, states Mr. Rosborough.

If there is any danger of cutworm trouble, further states Mr. Rosborough, wrap each tomato plant with paper. This paper wrapping should extend about 2 inches deep in the soil, and also extend about one inch above the ground.

To be sure that the young tomatoes get off to a good start water them every evening for about the first week.

That good "Old Dawson County" custom is again in operation. Lots of farmers in the county have been moving in and putting up the land of their neighbors who are ill. This is an old Texas custom, but no other county does it so graciously or on such a grand scale as do the Dawson County farmers.

Much of our calf trouble can be corrected, states B. J. Baskin, County Agent, by following good management practices.

Lack of Vitamin A in the feed for both the cow and the calf makes a young calf susceptible to many things. Feed the cow plenty of good bright green alfalfa if there is no wheat pasture available.

According to G. G. Gibson, Assistant Dairyman of the Texas A. and M. College Extension Service, there are four things all dairymen can do. These are: (1) let the calf have the cows milk for the first four days; (2) do not overfeed the calf with either milk or grain feeds; (3) use only clean, sterile pails to feed the calves; and (4) feed fresh sweet milk at a temperature of 98 degrees.

Once grain feeding is started the grain should be fed whole, but if you are grinding the feed be sure to grind it very coarse. Feed Vitamin A if no green pasture is available (use either alfalfa hay or about

## Gaines Officers Arrest Ex-convict At Cedar Lake

An ex-convict negro who had been threatening people of Cedar Lake with a shot gun was arrested by a sheriff's posse Sunday night after he had taken refuge in his house where he held four negro children and three negro women as protection. Officer did not shoot for fear of harming the children and women and at the end of an hour the negro was persuaded to surrender.

The negro was charged with assault with intent to murder, drunkenness, resisting arrest and disturbing the peace. He will probably be filed on under the federal firearms act also. Pending hearing from federal authorities he was released Tuesday under bond after he had paid two fines.

The arrest of the ex-convict who had been involved in a crap game with a number of white men, resulted in the filing of 38 charges against the white men who are all from out of the county. Also charges of operating a disorderly place were filed against a Cedar Lake beer tavern.

Sheriff Trimble stated that Cedar Lake has been a "cooling off" place for thugs all over the country and that a drive is being made to clean up the place. He said, "We don't intend to put up with the situation."

Arresting officers in Sunday's raid were Sheriff Trimble, Patrolman John Wood, Patrolman Fenis Carter, Deputy Sid Hargrove, State Ranger Johnny Sartin and Heath of Cedar Lake who was a member sheriff's posse.—Seminole Sentinel.

### EAGER SCHOLAR

COLUMBIA, Mo. (AP) — Leroy H. Durham graduated from the University of Missouri the other day and thus completed 16 3-4 years of schooling with a perfect attendance record.

Blind persons in Great Britain receive government old-age pensions at 40.

one tablespoonful of good stock grade cod liver oil per day). At two weeks of age start giving the calf good high-quality hay. Provide clean shelter, but do not overcrowd the calves. Have plenty of shade. Keep cool, clean, clear, fresh water before the calves at all times.

With our young gardens coming along, and everybody trying to beat the food shortage by raising as much food at home as possible, there is going to be much concern on the part of our Victory Gardeners in trying to control insects.

Sucking insects, mostly plant lice that feed on turnips, radishes, mustard, cabbage, etc., can be controlled by either the nicotine sulfate dust or spray, or the rotenone-sulfur mixture. Begin to use one of these treatments as soon as the plant lice make their first appearance. It is absolutely essential that the spray or dust is put on the insect. These dust and spray chemicals are known as "contact insecticides" and must come in direct contact with the insect. Cabbage worms, cucumber beetles, flea beetles, etc., may be controlled by using "Cryolite" or calcium arsenate.

Stink bugs, squash bugs, etc., may be controlled by using PYROCIDE, or the nicotine sulfate dust or spray.

Any control of the insects will be based on two things: (1) start your fight when the insects make their first appearance, and (2) continue the fight at intervals of 4 or 5 days until the insects are definitely exterminated.

J. W. Archer's gilt brought seven pigs on March 31, these pigs being the first farrowed by a Sears Gilt in Dawson County.

4-H Club Boys are watching the local papers for the announcement of the 1943 Sears Pig Club Contest. Several more Dawson County 4-H Club Boys will receive fine registered pigs this spring.

## Leaders To Help Explain Rationing

Texas' 60,000 neighborhood and community leaders serving as links in the nation's human chain of communication will be called on to help acquaint rural families of the state with the "why" and "how" of rationing, Director H. H. Williamson of the A. and M. College Extension Service has notified county extension agents.

Leaflets explaining the rationing program are being furnished the Victory leaders, through cooperation of the Office of Price Administration. The OPA recently announced that actual rationing of commercially processed fruits and vegetables will begin March 1, and retail sales of the foods to be rationed will be frozen beginning February 20.

In his letter to the state's 562 county workers, Mr. Williamson emphasized the need for helping farm families increase their home produced food supplies and spend their food coupons wisely. In spite of the limitations on the purchase of certain foods, bountiful home production and wise buying will assure well-balanced, nutritious, and protective diets, he said.

Point rationing will make living and buying more complicated to many homemakers. They will have to figure and budget to pay for products twice . . . with money and with ration stamps. However, planning meals by the week will aid in stretching both stamps and money in saving time, worry, and energy.

"Rationing is for the protection of us all. It is the only way every one can be assured his fair share of the food available," Director Williamson observed.

## Linguists Censor U.S. Soldiers Mail

(AP) Features

LONDON — They're all American soldiers and most of their letters home start "Dear Mon," but not all of them.

In this Eastern Theater of Operations of the United States Army, hundreds of good soldiers have difficulty speaking English and can write it little or not at all. They are encouraged to write in their mother tongues since the Army feels that this is just one of the fundamental rights of a democracy.

These letters in foreign languages are censored personally by Lieut. Col. Ferdinand A. Hirzy or his foreign language staff scattered throughout ETOUSA. Hailing from Stevens Point, Wis., Lieut. Col. Hirzy speaks six languages and his staff can handle twenty handily.

While letters in foreign tongues usually require less blue penciling than others — because men of alien background are very careful not to break security regulations — they are read very carefully from the morale standpoint.

If these men write many complaints about relations with their fellow soldiers or their allies or if they criticize lack of furloughs or late pay or health conditions, prompt investigations are made with a view to removing ground for the complaints. Officers have found they are less likely than their American comrades to grouse just for the sake of grouching.

Most of the foreign language letters read much as those in English. The men say they are getting along fine, army life isn't so bad and the rest of the things that sons write their mothers the world over, but occasionally Col. Hirzy runs into a problem. Like the case of the soldier who was determined to continue his education along with his military service and took a correspondence school course in Russian. The colony had to wade through page after page of declensions.

Axial rotation of the world increases from zero at the poles to 1,038 miles an hour at the equator.

Yachts have been used in Great Britain and Holland since the 17th century.

—BUY WAR BONDS AND STAMPS—

**HUNTING SEASON SOUGHT ON ANTELOPE**  
 HELENA, Mont. (AP) — Antelope have become so numerous in Wheatland, Carter and Powder River counties that legislative representatives from the counties have decided to ask for control measures. They say the antelope are damaging crops and the legislation they propose would permit special hunting seasons for other methods to reduce their number.

**WAAC Demands Exceeds Present Enrollment**

A West Texas woman, now a 1st Lieutenant in the Women's Army Auxiliary Corps and stationed at Fort Des Moines, wrote the following to a Lubbock WAAC Recruiting Officer:  
"Every few days new calls come from all points of the nation with new jobs for WAACs. The demand far exceeds the present enrollment. We are mighty proud of the response West Texas girls have given the call of their country and we know they will continue to heed the call until, through out united efforts, Victory is ours."

Texas as usual are in the front ranks doing the job. Governor Stevenson has urged Texas women to heed the call of our country. Texas has between 300,000 and 400,000 men in the service of Uncle Sam. Governor Stevenson said that he felt sure the women of Texas would want to back up Texas' fighting men.

The West Texas United States Army Recruiting and Induction District has been asked to furnish 584 WAACs by March 31st. Dawson County has been assigned a quota of 11 women. To date Dawson County has enrolled none of this quota.

Women desiring information concerning enrollment in the Women's Army Auxiliary Corps should contact the nearest American Legion Post or any U. S. Army Recruiting Station. Complete information may also be had by writing to the U. S. Army Recruiting Office in Lubbock.

# DON'T KID YOURSELF!

*... We Could Lose This War!*

Mister Dawson County Citizen, if you think this wars a cinch, better read your paper and listen to the radio. You'll change your mind-QUICK.

If you think we're going to march into Berlin and Tokyo just because we're RIGHT forget it! People just as right as we are, just as PATRIOTIC, just as clean and decent, have been ground to the dust under the hob-nail boots of Huns and Japs, trained and toughened for one purpose—WAR.

Choose NOW, either we give our boys the planes, tanks, guns and ships they've GOT to have to win—or we're letting them march to their defeat and our destruction.

WE'VE got to pay for them. And "We" means all of us—including YOU.

We must spend ever penny we have this month, that we do not have to use for food and clothing, this means all the citizens of DAWSON COUNTY, IF WE RAISE OUR QUOTA, which is \$519,000.00. EACH FAMILY IN DAWSON COUNTY WILL HAVE TO BUY \$350.00, we must do our part.

## HERITAGE TOO GOOD TO LOSE

Personally, we at Richardson's are going to support this bond issue to the limit of our ability for both patriotic and selfish reasons.

The good old U. S. A. has protected us in all the happiness and prosperity we have worked out for ourselves, and what a bill we owe it! What a bill, we owe to the boys from Dawson County who are making the supreme sacrifice, we can not measure their services in dollars and cents. We will not let them down.

"Do Unto Others As You Would Have Them Do Unto You," the Golden Rule set up by Richardson's business code twenty years ago when we opened our store in Lamesa, is heritage too good to lose. It's the sort of principles our boys are fighting for ... and we intend to keep it secure in our business no matter how trying times become.
