THE JUNCTION EAGLE

Volume 45 | Junction, Kimble County, Texas, Thursday, July 19, 1928 | Number 14

CHAMBER OF COMMERCE MAKES GOOD-WILL TRIP

Yesterday afternoon the Kimble County Chamber of Commerce together with the Chamber of Commerce Band, took off from the court house lawn for a "Good Will" trip to London, where they mixed and mingled with the people of London until about ten o'clock last night. The band boys were the center of attraction and did their stuff in an artistic and enthusiastic manner.

At seven thirty o'clock the Chamber of Commerce boys congregated at the Community Hall, where a delicious supper of barbecue, bread, pickles, iced tea, coffee and a variety of tasty cakes were served, after which the band began to play and furnished excellent music until about ten o'clock, interspersed with a short, but nifty, program.

Judge Baker made an able address on the "Community Interests that Exists Between the Towns of London and Junction." He emphasized the fact that our relations were so intimate that it behooves each of these towns, which are situated in Kimble County to give the heartiest of co-operation to the other. There was a good crowd out to this little entertainment and we are of the opinion that they, as well as we, heartily enjoyed the Chamber of Commerce visit. A friendlier people we never saw; a better time we have never had, and we want to extend to the London Chamber of Commerce an invitation to be with us at any and all of our regular metting nights.

The following are the members who participated in the London entertainment: Messrs. Mayor E. Houekamp, W. P. Riley, E. R. Borden, Joe Fritz, Turk Kindrick, Judge J. B. Randolph, Judge Weaver H. Baker, H. O. Denman, I. W. Myers, Rev. G. W. Crabb, Sam Snyder, Walter Tinsley, Kittrell Durst, R. R. King, Dee Gibbs, Frank Patterson, P. Joseph, John Munn, A. G. Farmer, S. B. Kindrick, Alex Wahl, Guy Wynne, Julius Hunger, Bub Taylor, Earl Glossbrenner, Fayette Hodges, R. M. Smith and S. F. Good of Houston, and J. B. Stevenson, also Mesdames Alex Wahl, Frank Patterson and Earl Glossbrenner.

HOUSE GUEST HONORED

Hill Terrace Ranch was the setting for a delightful bridge party Wednesday afternoon when Mrs. Guy E. Wynne honored her house guest, Mrs. C. H. Gough, of Waco, and Mrs. H. G. Hubert.

Roses, daisies and zinnias made a rainbow of color through the reception suite and repeated their summery hues in tallies, favors, and refreshments. Seven tables of players participated in the game, which resulted in Mrs. Dorothy Westmoreland winning high score among the guests and receiving a white and gold porcelain tea caddy. A pretty apron was awarded Mrs. Carl Wolf for making high score for the Merry Wives Club and the cut favor, four hand-done handkerchiefs went to Mrs. Tom Cutland. The hostess presented her honorees with silk hose.

The game was followed by a two course collation. Mrs. Wynne was assisted by her daughter, Miss Eloise Hardeman and her two guests, Misses Eldon Clair and Dorothy Gough, of Waco.

CHAMBER OF COMMERCE ORGANIZED AT LONDON

We understand that the town of London has just organized a local Chamber of Commerce. The following officers were elected for the ensuing year: George Pearl, president; Edgar Furr, vice-president; Marvin Hunter, Jr., secretary, and J. W. Furr, treasurer. Directors: Bill Amaon, E. F. Amaon, J. R. Smith, O. H. Pearl and Howard Horn.

HUDSPETH'S MANAGER VISITS JUNCTION

Robert L. Holliday and Judge Adrian Pool of El Paso were in Junction last Thursday on a tour of 38 counties in the 16th Congressional District in behalf of Claude B. Hudspeth, candidate for re-election to Congress.

Mr. Holliday, who is campaign manager for Hudspeth, reports that the congressman is in much better shape than he was a year ago. He stated that this trip is for the purpose of assuring the people of his appreciation of their support during his past illness.

Mr. Holliday states that the doctors have advised Congressman Hudspeth to conserve his strength until fall. Though this seems hard to do as he is active and wants to be on the job. He will tour the district this fall, and will endeavor to learn just what the people want him to look after next term.

Judge Pool is a highway enthusiast and was looking over the "Old Spanish Trail."

JUNCTION SCHOOL NOW HAS 19½ CREDITS

According to Professor Cowles of the Junction schools, the impression prevails that this school is not affiliated with the University, and to abuse the minds of those who are under that impression, he gives this information. Just recently attained credit of one unit in fourth year English, and one in chemistry, making a total of 19½ College credits.

Professor Cowles states that in a number of instances, it has been necessary to inform the same people two or three different times relative to this and he thought probably by giving it publicity through the Eagle, would obviate any further question in the matter.

PICNIC SUPPER

Mr. and Mrs. V. B. Hardeman entertained some twenty-five friends Friday evening with a picnic supper at the V-H resort. The affair was a pleasant reunion of several families who have spent the past three summers with the Hardemans.

A chicken supper, spread under the big pecan trees on the bank of the river, was followed by a merry and informal hour of song and story, and brought to a rousing close when the youthful college members of the gathering, with Miss Cleo Seagrist of Houston as pep leader, gave fifteen lusty cheers for the Hardemans. The guests included Mr. and Mrs. D. B. Lacy, Miss Idadell and Earnest Lacy, Mr. and Mrs. Ralph Moore and Miss Mary Lou Moore and Miss Cleo Seagrist of Houston; Mr. and Mrs. James Garrison, Jack Garrison, Mr. and Mrs. Miller Stewart and little daughter, of Galveston; Mrs. Allie Yount and Miss Mary Nash, of Kauffman; Louis Nash, of San Angelo; Mrs. Conley and Miss Shela Conley, of Terrell; Mrs. M. E. Rogers and Harvey Rogers, of Austin, and Mr and Mrs. Charles Henderson and Mr. and Mrs. Conde Hardeman.

NOTICE

Kimble County C. of C. Meets next Tuesday Night, July 24.

The Kimble County Chamber of Commerce will have its regular monthly meeting at the court house next Tuesday night, July 24th, 1928. There will be a good program and several matters of importance will come before this meeting. Everybody come and bring someone else. It is your C. of C. and your interests that will be benefitted, so do not fail to come. We will have a big surprise in the way of something delicious and appetizing to appease your palate.

Mr. and Mrs. W. T. Russell of San Antonio are spending the week here visiting relatives. Miss Margaret Diehl, also of San Antonio, accompanied them.

NEW FIRM FORMED AND BUSINESS CONSOLIDATED

Last week a deal was consumated whereby Howard Blackburn and Cecil Craven formed a partnership and purchased the radio business of Riley, Holekamp & Denman.

Cecil has been conducting a business of Columbia and Brunswick phonographs and records in connection with the Variety Store, and has built up quite a nice patronage in these lines.

Howard has heretofore dealt in automobiles, purchasing comparatively new cars that met with some disaster, repairnig and reselling, and has done a good business in this line.

These young men will continue to conduct the Radio business in connection with the phonographs, and will also handle the Icyball refrigerator, as well as some other novelties. They have rented the Riley, Holekamp & Denman building next to the postoffice.

These are two of Junction's most popular and efficient young men and we predict a bright future for them in the business world.

LAWN PARTY

Last Thursday evening the members of the Methodist church at Copperas gave a lawn party at the ranch home of Mr and Mrs. S. P. Bennett.

The pretty lawn presented a gala scene with orange colored electric lights strung between the trees while the arched gateway was wrapped with orange and white crepe paper.

As the guests entered they were measured and assessed a penny an inch. About $57.00 was realized. This money will be applied on the piano fund for the Copperas church.

Bountiful servings of ice cream and cake were served during the evening. The members of the Junction band played and also sang for the entertainment.

PARTY

Thursday evening Mrs. A. L. Mudge complimented her house guest, Miss Betty Butland of San Antonio, with a surprise birthday party.

Following a series of bridge games, the honoree was presented with a big basket tied with pink tulle and filled with numous packages. The latter, when opened proved to be useful and pretty gifts, with the exception of some joke packages.

Dancing was enjoyed during the remainder of the evening.

Ice cream with pink and white cake was served to about thirty-six guests.

GIRL SCOUTS

The members of the local girl scouts troop met with Miss Jewel Riley Wednesday afternoon.

Mrs. W. P. Riley is the capable commander of this group of girls.

After the meeting a social hour was enjoyed and at the close of the afternoon iced watermelon was served.

Mr. J. T. Hull came in Thursday from a few weeks' visit to his old home in Pennsylvania. He stated that while the north and east are very much for Al Smith, Hoover's strength in other sections will more than offset it.

Mr. H. C. Randle and daughter, Miss Eula, of Duncan, Arizona, and Mrs. M. D. Wilson of San Angelo, were here visiting their brother, T. T. Randle, and family, and sister, Mrs. T. A. Brooks, and family. They left Monday for their homes.

Mr. and Mrs. J. T. McCants and sons, Donald Malcolm and Robert, of Houston arrived Saturday for a seven weeks' stay at Price's Camp. Mr. McCants is cursor of Rice Institute, also the teacher of business administration.

NEGROES APPREHENDED FOR AUTOMOBILE THEFT

A portion of our colored population was apprehended in Kerrville, Texas, late Sunday night through the agency of Sheriff Gibbs, after they had stolen a car from H. I. Taylor. The car was missed toward midnight and they made a report to Mr. Gibbs who immediately got busy on the case, and had the negroes arrested in Kerrville where they are now in jail.

In the old days there was a sign on the county line which advised members of the colored race to turn back, and in the event the undesirable class of negroes of the kind who stole this car, is not gotten rid of, the sign is likely to be repainted and set by the side of the road for the information of any of the colored race who are not law abiding. There are many places of business who need their services and those who behave themselves will not be molested, but we can not afford to have the kind who do not pay their debts and are not particular whose property they appropriate.

PICTURES AT THE TEXAN

The Texan has some exceptionally good shows for the coming week, as they have had the past week.

The program for the coming week will be as follows:

Tonight and tomorrow night, Pola Negri in "Women on Trail;" Saturday matinee and night, Richard Dix in "Sporting Goods;" Monday and Tuesday nights, Greta Garbo in "The Divine Woman;" Wednesday night, Laura LaPlante in "Thanks for the Buggy Ride." The patronage for the past week has been a little above the average, and manager Lockley is greatly encouraged by the slight increase.

Last Friday and Saturday the Texan entertained some 20 orphan children who were camped on the Tom Strickland place on South Llano. The children were from the Juliette Fowler Orphan Home of Dallas, which is under the control of the Christian Church of the State.

Mr. Lockley states that the little fellows were very much pleased and so expressed themselves in no uncertain terms, and when asked, said they certainly wanted to return to Junction next year for their outing.

BUILD ROADS

Governor Hammill of Iowa, seeking renomination as a Republican, made his chief bid for support as an advocate of a bond issue of $100,000,000 for building new and improving old roads. He won over three opponents.

The Democrats of Indiana, meeting in convention to adopt a platform and nominate a state ticket, promised a rapid increase in miles of paved highways.

"If politics is to reflect one of the wishes closest to the heart of the average man," said a national leader recently, "parties will give more attention to better facilities for automobile travel."

Governor Hammill was not committing himself to waste, neither were the Democrats

Both parties realize that quick transportation aids business and better social contacts.

No sufficient excuse exists for traffic arteries that sicken travelers because of dust in dry weather, or that are made impassable by mud in rainy periods.

Wisdom must not be discarded in spending available funds. But neither should the sums supplied for roads be niggardly No type of public improvement at present promises larger dividends.—Collier's, July 21st.

Mrs. Nora Calhoun of San Antonio, who has been visiting her mother, Mrs. J. M. Tomberlin, Sr., made a trip to Austin Friday via San Antonio, returning to Junction Monday.

JUNCTION PRODUCT RETURNS AFTER 24 YEARS

Last Sunday afternoon there came into Junction one of her products in the person of Floyd C. Patterson, of Enfield, North Carolina. He was accompanied by his wife and two sons, Eugene and Edwin, and they are now enjoying the hospitality of Floyd's parents, Mr. and Mrs. N. C. Patterson.

Mr. Floyd Patterson left Junction some 24 years ago and this is his first visit here in that time, and naturally notes many changes in Junction and Kimble County.

The party left Enfield, N. C., in a New Ford and the speedometer registered 1,900 miles when he reached Junction. Mr. Patterson states that on an average, Texas has as good or better roads than any through which he passed.

He is delighted with the showing of progressiveness in Junction and is more than pleased to spend his vacation in Kimble County on the Llanos.

Since going to Enfield, Mr. Patterson has been engaged in the banking business.

TO SERVE DINNER ON ELECTION DAY

The Fidelis Class, assisted by the W. M. U., of the Baptist Church will serve a chicken dinner in Mr. N. C. Patterson's store buiiding on election day. July 28, 1928. An appetizing menu has been planned and it is hoped that a large number of hungry voters and their families will be served.

The dinner is to be given to help the Fidelis Clas make the balance of the five hundred dollars which it has pledged to the building fund for the new church.

Sandwiches, cakes, pies, ice tea, etc., will be served during the afternoon and evening so that people coming to town to hear the election returns will have a chance to sample some of the good eats and help a good cause.

Mrs. A. P. McLemore of Abilene with her three daughters, Mrs. Max Bentley and Mrs. J. Caro Russell of Abilene and Mrs. Richard Maxwell of San Angelo, with their husbands and three grandchildren, Alice and Josephine Bentley and Virginia Maxwell have been spending their vacation here. Mr. and Mrs. Maxwell and daughter are at Price's Camp, the balance of the party are at the Fritz Hotel. Mr. and Mrs. Bentley leave this week for San Antonio, Corpus Christi and the Rio Grande Valley. The balance of the party will remain for a week longer.

Cooked rice has a good many uses besides being served for dinner in place of potato or as a breakfast cerial. Put it in soups; combine it with baked and stewed dishes; use it in waffles, spoon bread, muffins, cookies, and even in sponge cake; use it in salads; make it in desserts, such as farmers' pudding or custard rice pudding, or rice with stewed fruits or preserves.

Elder Jas. T. White, Christian Evangelist of Lometa, Texas, will spenk in the Schreiner Park each evening at 8:30. Everyone is invited to attend these services, and the pupit is always open to anyone to reply to or ask question. Due courtesy to all truth seekers.

Will C. Easterling, ("Kuzn Bill"), veteran newspaper man, was in the city Monday to visit his old friend, R. S. Price. He was accompanied by his brother-in-law, Ed Dodson, another veteran, and until recently publisher of the Alpine Industrial News.

Mrs. Horace B. Rees and son, Horace, Jr., of Big Lake and Mrs. Driscoll and son, Claude Thomas, of Sonora are the guests of their mother, Mrs. M. E. Holland.

HEALTH DEPARTMENT FINDS WATER PURE

Mr. E. G. Eggert, Sanitary Engineer, representing the State Department of Health recently visited Junction for the purpose of making a sanitary survey of the water situation, and has written the local Water Company and the City Council, making several recommendatoins and reports definitely the purity of our water. The portion of the letter dealing with the analysis of the present water supply reads as follows:

"It is noted from the report that the present water supply is directly from the Llano river, pumped into the distribution system through a 235,000 gallon standpipe, and receives chlorine disinfection into the suction pipe applied with a W. & T. Apparatus, installed about a year ago. We are glad to advise that laboratory analyses on the several specimens of water collected during this visit shows no contamination."

Due to a great many rumors which have been current relative to the purity of our water supply, we are very glad to have this report as it should allay any fears that our water is impure. We are informed that specimens from which these analyses were made were taken from the river and various hydrants throughout the distribution system of the local water company.

ANNOUNCING CANDIDACY OF COL. BILL EASTERWOOD

The following letter was received by the Eagle, which we are more than willing to give publicity. The letter follows and is self-explanatory:

Junction Eagle,
Junction Texas.
Gentlemen:

I am a candidate for a state office that does not pay a ten cent piece per year and still it is an office that I would be proud to have.

I am a candidate for State Commander of the American Legion and I am willing to devote my time and money to hold this office for one year.

If your paper will help me in this race, I will pay your post and city a personal visit in my airplane sometime during the year of 1929.

Every one knows what the American Legion stands for and it will help any community, town, city or state and will make our state a better place in which to live.

If you will be kind enough to publish this letter, I assure you that it certainly will be appreciated by the writer.

With best wishes, I am
Sincerely yours,
Col. W. E. (Bill) Easterwood, Jr.

THE DUST NUISANCE

The sprinklers used during the celebration to lay the dust on the streets of Ozona just served to sharpen the appetites of Ozona people for more of this improvement. Sprinkling the streets during the celebration was a great help in preventing the fogging of dust on crowded streets.

We don't know where these sprinklers came from nor how much it would cost to get them or some others like them and sprinkle the streets of Ozona regularly, but we do believes it would be worth the price. Oiling the streets to lay the dust would be even less expensive and if a good binding could be secured would be more satisfactory. A few dollars for a piece of pipe with small holes drilled in it, connected to a 50-gallon oil barrel and a few barrels of waste oil accumulating in garages from crankcase drainings, all loaded on the back of a Ford truck and piloted over the streets would turn the trick.—Ozona Stockman.

No comment necessary.

Mr. and Mrs. W. C. Coleman of Mason spent the week-end with Mr. and Mrs. W. B. May.

MORE LIGHT ON LOCAL PUBLIC WATER SUPPLY

Austin, Texas
July 16, 1928

Mr. J. A. Heyman,
Mayor Pro Tem, and City Council,
Junction, Texas.

Subject: Public Water Supply.

Dear Mr. Heyman:

We are glad to acknowledge receipt of your favor of July 10th advising that our Sanitary Engineer, Mr. E. G. Eggert, was able to be of assistance during his visit to your city as of July 9th in connection with reported complaints of the local public water supply. It pleases us also to know that satisfactory adjustments were completed for improvements by the Llano River Irrigation & Milling Company, through Mr. C. W. Atchison, secretary-treasurer, and owners of the local water supply, which includes the following:

(1) Regular daily tests for determining proper dosage of chlorine for disinfecting water. (A quantity of standard solution ortho-tolidine for making this test is being forwarded with instructions from this Department).

(2) Recording weights of chlorine used by placing cylinder on scale.

(3) Recording and forwarding daily plant operations on monthly report forms furnished by this Department.

(4) Immediate provision for coagulation, sedimentation, and clarification of present supply from Llano River, or temporary installation of infiltration well as discussed while on the grounds. (Water from infiltration well located adjoining present pumping plant would intercept spring flow before reaching river, and, in addition to being reasonably clear of turbidity, it is reported to contain less hardness).

(5) Consideration for a permanent improvement program to include complete purification works, if the river water is to be used, to consist of (a) aeration, (b) coagulation, (c) sedimentation, (d) filtration, and (e) chlorination; or, if spring supply can be used, to include ample quantity and chlorine disinfection.

(6) Thorough flushing, cleaning and disinfection of all distribution pipes, dead ends, and standpipe at regular semi-monthly intervals during the summer season.

(7) Replacing defective pipe in distribution system to minimize reported sediment accumulation.

It is noted from the report that the present water supply is directly from the Llano river, pumped into the distribution system through a 235,000 gallon standpipe, and receives chlorine disinfection into the suction line applied with W. & T. Apparatus, installed about a year ago. We are glad to advise that laboratory analysis on the several specimens of water collected during this visit shows no contamination.

We also appreciate assurances from the owners that all the mentioned items will be given prompt attention and especially provision for a clearer water and effective chlorine dosage to be completed within fifteen days from the date of this visit.

Thanking you for the privilege of being permitted to be of service and assuring you of our desire to co-operate in every way possible, I am,

Very truly your,
J .C. Anderson,
State Health Officer.

July 16, 1928

Llano River Irrigation & Milling Company,
Junction, Texas.

Attention: Mr. C. W. Atchison, Secretary-Treasurer.

Subject: Punblic Water Supply, Junction.

Dear Mr. Atchison:

The attached copy of our letter to the City Council of Junction confirms the report of understanding during the recent visit of our representative with you. We are appreciative of the courtesies and kindnesses extended our Mr. Eggert while in Junction and are especially glad to know of your splendid assurance of co-operation. Just as soon as you have completed your plans on these improvements, we would be glad to have a copy for our files on the basis of the attached outline for preparation and submision of plans and specifications. We will also be glad to have our representative revisit Junction to be of such additional assistance as he can.

Thanking you again for your assurance of co-operation, I am,

Very truly yours,
J. C. Anderson, M. D.,
State Health Officer.

ANNUAL SHEEP AND ANGORA GOAT SALE

By J. M. Jones, Chief, Division of Range Animal Husbandry, Texas Agri. Exp. Sta.)

Attention of farmers and stockmen interested in the purchase of outstanding registered rams, ewes, Angora bucks or does is called to the Eleventh Annual Sale to be held under the auspices of the Sheep and Goat Raisers' Association of Texas at San Angelo July 24 to 26.

One of the outstanding features of this sale is that all sheep and Angora goats to be offered for sale through the auction ring will have been carefully passed upon by a sifting committee comprised of practical sheep experts fully qualified to detect all body unsoundnesses.

The services of the sifting committee protect the inexperienced sheep or Angora buyer in that all sheep and goats designated as stud animals will have been carefully passed upon by this committee and all unworthy animals debarred from the sale.

Sheep and Angora goat breeders who are in the market for either stud or range rams or bucks are urged to be on hand at the San Angelo Sale July 24 to 26. The offering of sheep and Angora goats at this sale are expected to approximate 1500 head. Out of state sheep and Angora goat breeders, including such nationally known figures as Frank Bullard of California, Wilford Day and W. C. Pendleton of Parowan, Utah, all breeders of Rambouillet sheep, and Thomas and Son of Kentucky, breeders of high class goats, will have consignments to t...s sale.

Mr. T. A. Kincaid of Ozona, Texas, is president of the Association, and Mr. D. T. Jones of San Angelo, Texas, is secretary-treasurer of the Sales Committee.

Melons on ice; fine home grown ones. Get one from Borden Ice Co.

ABOUT YOUR HEALTH

(By John Joseph Gaines, M. D.)

Mind Over Matter

In these days, when everybody seems to have "colon trouble," a short talk on the subject above-named, appears to me very timely. I want you, not only to read, but to heed this, for it may concern you in particular.

Any form of profound emotion, as anger, fright, grief, and such like, exert a most decided effect on the colon, or large intestine. I have noticed that, heavy brain workers are almost always troubled with that bane of healthy bodies—constipation. Any excess of effort on the part of the brain, subtracts from the necessary nerve-forces of the involuntary system, and to the detriment in health of the individual concerned. And, I am sure that those placid natures among men and women—those who take life temperately—who are not impulsive, irritable or quarrelsome, invariably have the best-working elementary canals; I could mention many cases in proof.

I know of one man who cured his constipation—a severe form—by studiously avoiding his habit of fault-finding, and, his was one of the most perfect cures I have witnessed. For years he had been a persistent "grouch." He could not argue on any question, without insulting his opponent by his own anger. He said he became "so mean that his family could hardly live with him." His physician told him the clogged bowel was the cause of his nerve trouble; a capable nerologist told him—and proved it— that his habit of growling produced the constipation! He simply quit being mean, and got well.

Here is something, then, worth thinking about—worth trying, since the trial involves no expense in time or money. If you are overworking the mental energy in any direction, stop, it, and work temperately: and as for foolish mental outbreaks, stop them anyway. We know that mental emotion affects the bowel profoundly. Now see if you can go about it intelligently—and cure yourself.

CITATION BY PUBLICATION

THE STATE OF TEXAS.
To the Sheriff or any Constable of Kimble County—Greeting:

You are hereby commanded to summon Seibert Hammer, L. E. Crane, Allen M. Pratt, Josiah Cornell, F. N. Davis, J. A. Yeltman, Leonard Gaulier, Wm. M. Keeting, F. L. Welch, Barbara Zapp, S. R. Squibbs, G. A. King, Mr. and Mrs. E. Baker and J. K. Kinkaid by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 33rd Judicial District; but if there be no newspaper published in said Judical District, then in anewspaper published in the nearest District to said 33rd Judicial District, to appear at the next regular term of the District Court of Kimble County, to be holden at the Court House thereof, in Junction, on the First Monday in August, A. D. 1928, the same being the 6th day of August, A. D., 1928, then and there to answer a petition filed in said Court on the 11th day of August, A. D., 1927, in a suit, numbered on the docket of said Court No. 1023, wherein W. D. Parker is Plaintiff, and Seibert Hammer, L. E. Crane, Allen M. Pratt, Josiah Cornell, F. N. Davis, J. A. Yeltman, Leonard Gaulier, Wm. M. Keeting, F. L. Welch, Barbara Zapp, S. R. Squibbs, G. A. King, Mr. and Mrs. E. Baker and J. K. Kinkaid are Defendants, and said petition alleging that heretofore to-wit, and until the 9th day of June, 1927, plaintiff was the owner in fee simple of an undivided one-sixteenth interest in all the oil and gas and other minerals in and under or that might be produced from the following described lands situated in Kimble County, Texas, to-wit:

Abst. No. 854; Cert. No. 134; Sur. No. 134; Grantee, Hrs. of I. G. C. Bracey; 692 acres.

Abst. No. 1474; Cert. No. 3056; Sur. No. 1041; Grantee R. C. Doell; 264 acres.

Abst. No. 1474; Cert. No. 3197; Sur. No. ...; Grantee, R. C. Doell; 550 acres.

Abst. No. 1475; Cert. No. 1565; Sur. No. 25; Grantee, R. C. Doell; 640 acres, and containing 2146 acres of land, more or less.

Plaintiff further alleges that on the aforesaid date, to-wit; June 9th, 1927, the agent for one H. J. McMullen, through fraudulent statements with reference to the value, etc., secured from plaintiff herein, W. D. Parker, a mineral deed to an undivided one-sixteenth interest in the aforesaid lands and further represented to the plaintiff, W. D. Parker that said mineral deed would never be placed of record in the records of Kimble County, Texas, and believing such representations to be true the said W. D. Parker did execute a mineral deed whereby he conveyed an undivided one-sixteenth interest in all oil and gas and other minerals in and under the aforesaid lands to the said H. J. McMillan.

That thereafter, the said H. J. McMullan did cause said mineral deed to be placed upon the records of Kimble County, Texas, and is now of record in Vol. 81, page 140, of said records, and that subsequent to the filing and recording of the aforesaid mineral deed, the said H. J. McMullen did at various times execute and deliver ... instruments unto the defendants herein named, an undivided interest in and to the aforesaid mineral deed covering the lands heretofore described.

Plaintiff further alleges that the claims to the title or interest in and to said lands as set up by the defendants herein are fluctuous, simulated and inferior to the rights and claims of plaintiff in said lands, and is a cloud upon plaintiff's title to his said lands and plaintiff further asks that defendants herein be cited to appear and answer this petition and that he have judgment, that said mineral deed be cancelled, set aside and annulled; and that all the aforesaid assignments be cancelled, set aside, annulled and held for naught, and that defendants be ordered to deliver possesion of said premises to plaintiff; for writ of possession, for all damages prayed for; for cost of suit and for such other and further relief, ... and general, in law and in equity, as the plaintiff may show himself entitled to and to the court seems just and proper.

Herein Fail Not but have before said Court, at its aforesaid next regular term, this writ with your return thereno, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Junction, Texas, this the 26th day of June, A. D., 1928.

LONDON LOCALS

(Too late for last week)

Judge Weaver H. Baker passed through London today on his way to Fort Worth, Dallas and other points. Mrs. Baker was with the Judge. Mr. Baker called at our office just long enough to shake hands and pass a few words, leaving hurriedly saying that he must be about making a living. We are always glad to shake the hand of a real man.

R. B. and E. P. Furr have leased, and they are stocking the A. M. Reese ranch with cattle, and some of their recent purchases are real blooded animals.

F. Cummins and C. E. Lambert returned from San Antonio where they had gone to take Guy Cummins for medical treatment. French states that his brother stood the trip fine and doing well when he left him. He also states that the doctor held out good hopes for recovery.

Mr. and Mrs. Owen Amaon and sons, Carol and Jack, are spending a few days at the Luther Walton Camp on the river.

The newly finished business house of R. L. McKinney looks well and is a real credit to our town.

Mrs. S. H. McCaleb was visiting the home of her parents, Mr. and Mrs. E. W. Brewer on July 5th. Mrs. McCaleb said Sam was real busy these days—playing dominoes.

The London Graphic has installed a large printing press and now presents the appearance of a real newspaper plant. The people of London should support the Graphic in every way they can.

Little Miss Bonnie Ray Amberson has returned home after a visit to her grand parents, Mr. and Mrs. W. M. Dick of Utopia.

A. S. Price, O. D. Price, A. J. DeSpain, W. L. Kothmann, M. E. Sorrels, Jacob Fritz and John Fritz, Jr., have all closed an oil lease on their land. This lease contract is turning several hundred dollars loose at London. That is fine; we can use the money all right.

Money is quoted at a very high rate of interest in New York, and this is national campaign year. Be careful, boys. The presidential election never fails to bring about more or less disturbance in financial circles. No good reason for it, but it never fails to happen.

THINGS WORTH KNOWING

"Black Eyes" and "Blood Shot"

Suggestions for the care of the eyes prepared under the direction of the Surgeon General of the United States Public Health Service, furnish many useful hints:

To remove "something" from the eye, dip little pieces of flannel in hot water and apply constantly below the lower lid. If the substance is a difficult one like a bit of steel, go to an oculist.

For a "black eye" the swelling may be reduced by applying to the closed lids every three of four minutes, little squares or circules of clean, white, absorbent cotton or linen, fourfold, which have laid on a piece of ice until thoroughly cold. The treatment should be kept up continuously for from 12 to 24 hours, until the swelling has subsided. The removal of discoloration may be hastened by applying more or less constantly below the lower lid, little pieces of flannel dipped in water as hot as can be borne.

Theatment for congested lids is better light, rest, attention to personal hygiene such as a balanced diet, daily baths, and plenty of sleep. A few drops of a solution of zinc sulphate made by dissolving one grain of zinc sulphate to an ounce of water may be dropped into the eyes as an astringent.

"Blob shot" eyes are regarded as serious, and if there is a discharge from the eye which dries on the lashes and causes the lids to stick together, a competent physician or specialist should be consulted.

Statements by eye experts give attention to the necessity for proper lenses, which can only be secured from first-class eye specialists. They recommend rigid frames such as shell rims, that do not fly out of shape upon the slightest excuse, because once fitted on the patient their form is permanent and satisfying. The old style metal frames have been discarded to a large extent because they are always breaking.

For slight wounds and burns about the eyes the Public Health Service recommends a tepid solution of boric acid as helpful. Pains produced by lime should be immediately treated by a solution of one part of vinegar and two parts of water. Slight burns by acid may be washed with lime water or water to which a little baking soda has been added—one-half teaspoonful to a glass of water.

Congestion of the eye lids caused by smoke or dust, or by excessive glare, or by canstant reading, may be frequently relieved by resting them and by a mild instringent or an antiseptic lotion. A solution of ten grains of boric acid to the ounce or a light solution of sulphate of zinc, one grain to the ounce of water, or argyrol in a five to ten per cent solution, is recommended for "pink eye" and similar troubles.

YOUR FLOWER GARDEN

(by Romaine B. Ware)

The July Garden

July is not the most beautiful month in the garden and it will take some careful planning on your part to put everything into such shape that it will suit you. The glorious riot of color in the June garden is just lately faded and it can not help but leave some blank spots. The thing to do is to study the borders and see how to remedy the defects.

In making a study of the possibilities of your borders at this season by visiting the local nurseries and noting the things that are in bloom and see how you may add them to your garden to help out at this season of the year. Make careful notes of the things you want and just where you wish to plant them and then in the fall you will know what you want to do. Blooming seasons, heights, colors are the things you will want to be on the lookout for. Color combination are a wonderful study by themselves and you will enjoy them.

Too, you should always be on the lookout for things you see in the gardens of your friends that are worthy of a place in your garden. Of course one garden can not hold everything; we would not want it to. As you advance in the art of gardening and your preferences take shape you will from time to time discard this or that from your planting, not necessarily because it is not good but because you would rather have something else in its place. I gave away 1500 glads one year because I wanted the space for something else. In the limited space of the average garden we have to be discriminating.

Tastes change in gardens just the same as in other things and as you learn you will probably find yourself becoming a sort of specialist. There will be certain kinds of flowers that you are more attracted to than others. Do not go this way too far though it is most interesting. Try to keep your garden well balanced so that you will have a good succession of bloom at all seasons. This is the way to have a good garden.

One does not usually think of the oyster as having the habit of hibernation. Yet if the temperature in the water surrounding an oyster bed falls low enough, the oysters enter a state of hibernation and cease feeding. Unlike the hibernation of terrestrial animals, which occur at certain seasons, the oyster enters into a state of hibernation when the temperature of the water falls to 41 degrees F. or below. Most nonmigratory animals hibernate in order to survive when their food supply fails, but the oyster closes its shell and becomes physiologically inactive when the temperature is low enough, regardless of its food supply.

People sometimes wonder if the rings seen at times near the sun and moon signify any change in the weather. These rings are observed only when there is a thin veil of cloud in the sky and usually—about three or four times out of five—rain or snow will occur within 24 hours. The dip, or tipping, of the moon, contrary to popular belief, has no weather significance whatever; this is simply an astronomical occurrance that can be forecast accurately hundreds of years ahead.

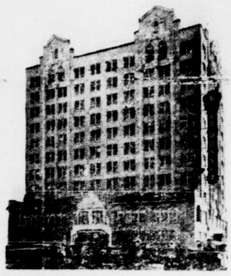

Most of the broomcorn used in America manufacture of various styles and sizes of brooms is grown in and around the western half of Oklahoma. Broomcorn is one of the latest crops to be planted for harvest in the same year. In Oklahoma best results are obtained with plantings from about June 15 to July 1.

COKE R. STEVENSON WANTS YOUR VOTE

To Every Voter in the 86th District—A Personal Message.

I haven't been able to see each one of you personally and ask you to vote for me. This District is so large it would take more time than I have had to do that. So, the next best manner of talking to you is through the printed message.

I want your vote, one and all. I want to win this race and I want you to help me win it. I realize I cannot win unless you help me. Any man's friends can do more for him than he can do for himself. My friends do not always agree with me, and I may be in the wrong many times. Sometimes I am misunderstood when I am doing my best to do the right thing. Other times I make mistakes. None of us are perfect. The best of us are wrong sometimes.

I want to say, however, in every office I have held—County Attorney or County Judge of Kimble County, in the banks or business houses, clubs, lodges and church, I have done my very best to make a good hand. It would not be becoming in me to say that my efforts have been successful. I leave you to judge of that. The record is made. All I can say will not change it. If it is good, all right; if it is bad, it can't be helped now.

The important thing now is the nomination of a Representative from this District. Representatives make laws. Laws govern the people. The Representative is your spokesman. In order to speak intelligently, he should know the interest of his people and then be willing to work for his people. My life has been spent in the boundaries of this District. I ought to know its interests. I think I can fill the bill as a Representative. If I am elected, this District will become my client. I have always stuck to my clients through thick and thin, and even my enemies admit that to be true. Therefore, I promise to stick to the District as my client. If I don't, you can turn me out at the next election. But I want you to give me a trial now, and vote and work for me on July 28th.

Sincerely,
Coke R. Stevenson.
(Political advertisement).

ALL GUNS TURNED ON TOM CONNALLY

(Lamar County Echo, June 29th)

All guns from the camps of senatorial candidates are being turned on Tom Connally, the brilliant Democrat from central Texas, who seems to be leading the field. No candidate wants to be in the run-off with Connally. Senator Mayfield thinks he has a chance to defeat either Owsley or Blanton in the second round, but knows his doom is sealed if he is pitted against Connally. Some very questionable methods are being used to influence voters to desert Connally, but the democrats of the State—those in all walks of life who believe in a square deal to all and special privileges to none—will not be hoodwinked by any last minute mudslinging. If the vote could be taken today, Connally would easily lead the ticket.

In 1927 the net income of the Panama Canal from tolls, taxes, licenses, fee fines, postal receipts, etc., was $15,611,094, and the net profit on business operations was $876,537.

Abstracts for your lands can be secured on short notice from E. Holekamp. 25 years in business; we know how. (adv)

CHARLES ENOCH DUNBAR

Another of our young men was called into Eternity Saturday afternoon, July 14, when "Charlie" Dunbar, as he was known by his friends, crossed the Great Divide. He had been in apparently good health until some few minutes before his demise. In the early morning, he had been engaged in rounding up and dipping goats. He came to the house and ate a hearty lunch, after which he decided to ride a horse that he had been breaking. The horse pitched considerably with him and probably caused his death, as he dismounted and led him to the pens and told his father, L. E. Dunbar, that he was in severe pain and must have immediate attention. He was rushed to the doctor, but died before any help could be rendered.

His death came as a distinct shock to his many friends, as he has always led an active life and was up to the very time of his death to be found in line of duty. Charlie was truly a western boy. He was a good horseman and a rancher as a matter of choice. Always good-natured, friendly and energetic, he was admired and respected by all who knew him.

On the field of baseball and polo, he was a good sport and exceptionally good player. The local polo club, as well as the Copperas club, will miss his cheerful and hard playing.

Charlie was one of our boys who rendered service to his country in the recent World War. It is perhaps due to the exposure and sacrifice made while in the United States army that his constitution was weakened to the extent that he became an easy victim of the trouble that caused his death. In passing we have lost a good citizen, and true friend of the west and western customs.

He was a member of Bethel Baptist church and Junction City Lodge No. 788 I. O. O. F. under whose auspices he was buried in the Junction cemetery.

NOTICE OF COUNTY CONVENTION

The Republican County Convention of Kimble County, will be held at Court House in Junction, at 5 p. m. on Saturday, August, 4th. This convention will be composed of delegates and alternates elected from each voting precinct of this county. These will be named in precinct convention to be held Saturday, July 28th in each precinct, at 4 p. m.

C. W. Atchison,
Republican County Chairman.

This Week

By Arthur Brisbane

Flour manufacturers, including Washburn-Crosby and Red Star, organized a $50,000,000 combination, largest flour milling concern in the world.

That's in the line of modern methods, big units, small overhead, powerful marketing.

This news will interest farmers and make them wish somebody could show them how to organize. The first thing, and absolutely necessary, is to organize and intensify methods of production. An old-fashioned blacksmith could not compete with a modern automobile factory.

Childish talk of "necessary competition" and prattle about keeping business from getting "too big" are out of date.

Where nations combine to monopolize world business, great American units must combine for self defense.

Possibly some one will find a way to help our farmers form such a combination. They need it.

The French settle down courageously to the drastic new money rate. Four-fifths of its value is cut from their money as a result of a war WHICH THEY WON. They face that situation bravely.

In place of paper money, meaning little to peasants and working people, the French again will see gold and silver coins in circulation.

The grosse piece, size and weight of our silver dollar, will not come back. Worth five francs before the war, it would be worth twenty-five francs now. But ten-franc silver pieces worth forty cents will be coined, and the French will feel that they are working for REAL MONEY.

Stabilizing the franc is a boon to all Europe, ending financial disorder that has lasted ten years.

It is a great achievement by Poincare, worthy successor of Thiers, Turgot, Necker, Sully, and a long list of brilliant French statesmen.

Sir James Barrie tells Rhodes' scholars not to try for "greatness." The advice was humorous, probably. Trying for greatness produces desirable mediocrity. Men "aim high to shoot low" as the illiterate colored man said when he asked Grover Cleveland to make him Librarian of Congress. He really wanted a job as porter.

A baby cries for the moon and is satisfied with a cooky. Youth reaches for greatness and is content with modest chievement and a place on the golf course.

Winfield R. Sheehan, who knows about moving pictures, says screens will be much bigger for large sized theatres now building everywhere. That will make it necessary to revise production methods.

Most important for budding genius, he says the "talking movie" will create a new army of scenario writers, knowing how to make sound effective in pictures.

In a detective story, noise of a creaking board, or a shot, might be more effective than the hero's smile.

Mr. Sheehan believes that the pictures with sound will double moving picture attendance.

In New York's brutal dancing contest—the dance to go on until all but one couple drop—the female dancers, nervously exhausted, slap their partners faces. Then the men slap the women's faces vigorously. The yahoos, called "fans," looking on, shriek with delight, as the half crazed dancers strike each other.

Such is our poor imitation of the Roman arena.

Now that talking movies have been perfected, what is to become of all the people who went to the movies just for the pleasure of reading the titles alond.

Parisian ladies are wearing live tortoises on their handbags. They should be trained to bite pickpockets!

DR. FRANK CRANE SAYS:—

You Can't Hit the High Spots All the Time

A young lady complained to me the other day that she had periods of depression. There were times when life seemed drab and uninteresting. And she couldn't see the vision nor envisage the ideal. Life was just plodding.

Well, why not? That is the human lot and we had as well accept it.

We are fortunate if we get the vision once in a while, if occasionally we stand on the mountain top, bathed in the sunlight, and look out over the future. Most of the time we have to travel through the valley of the shadow.

In most North temperate climates rain is intermingled with sunshine and, as the poet expresed it, "Into each life some rain must fall."

Most of our course is to be made by dead reckoning. We cannot have the vision of the stars always, and life is mostly composed of future steps taken by faith in the dark. We are fortunate if once in a while the clouds sweep away and we can glimpse the goal.

Life is rhythm. It has its ups and downs and the best thing we can do is to say in the language of the old negro hymn, "I'm sometimes up and sometimes down, but still my soul is heavenly bound."

These moments of darkness, these uninteresting stretches of our life are our real test. Then is shown our staying quality and our ability to pursue a goal by faith and not by sight.

We cannot have the glory and the ecstasy every moment. We could not stand it. No man can live in a state of perpetual intoxication. He must get his feet down to the ground once in a while and just plug along.

We have the comfort of knowing that nothing lasts forever and if our mood is depressed after a while it will pass away.

You cannot hit the high spots all the time.

Converts begin their religious life usually in a blaze of enthusiasm. They are keyed up to a high pitch and undergo an emotional ecstasy.

It is afterward that the test comes. They are required to take up the affairs of daily life which are perhaps humdrum and uninteresting. They crave emotion, but emotion is an occasional experience and not permanent. In their daily life there must be steady application of the truths they have learned in those rare moments of ecstasy, so many of them backslide.

In quitting a bad habit very often we make a vow or sign a pledge in a moment of enthusiasm which is very hard to keep in the succeeding moments of drabness.

The best moral quality is the quality of stick-to-it-ive-ness, the quality of handing on and doing right when there are no drums beating nor horns blowing.

So in the marriage relation, we begin in a burst of love and violent affection what must be kept up through days of perhaps uninteresting detail.

So the Bible tells us that it is the overcomers who shall be given the reward.

The only mystery about some mystery novels is how they ever came to be published.

CONSIDER THESE THINGS

In considering beekeeping as a sideline, it must be fully understood that it is not for every person, nor for all conditions, nor for every locality. One must consider first of all, his own inclinations. By this is meant not merely whether stings are painful to him; they are unwelcome generally to all, but aversion to them may be overcome, if the expression may be excused, by practice in being stung. One gets used to it. Beyond this, and more important, he must have a certain love of nature, a goodly amount of persistence and be able to give some little attention to detail. Above all, he must be one that keeps his general farming operations up-to-date; the man who is always one or two days behind in his work can hardly expect to succeed, for in certain emergencies, as for instance when a swarm emerges, all other farming operations must be dropped and the bees given immediate attention.—R. R. Reppert, in The Progressive Farmer.

4th ANNUAL RANCHMEN'S ROUNDUP, AUGUST 14-15

A program has been sent out by the Texas Agricultural Experiment Station announcing the Fouth Annual Ranchmen's Roundup which will be held at the Ranch Experiment Station near Sonora, Texas, August 14 and 15, 1928. Subjects of interest to the live stock industry and particularly sheep and goat raising will be discussed during both days of the session. A special program of interest to ranch women is also scheduled, and a judging contest for boys will be held. Barbecue will be served free each day and numerous recreational features are provided for. The program will be under the general supervision of W. H. Dameron, Sup't. of the Station, who states that he expects the attendance to exceed three thousand this year. The highways are in excellent condition and camping facilities at the Station are ample for all who may come. Those attending former sessions of the roundup have expressed themselves as having had a most enjoyable as well as a most profitable experience.

Inasmuch as more than 75% of the area of the state of Texas is devoted principally to grazing, this annual roundup of those interested in livestock production is of interest to a large number of people. Texas exceeds all states in the number of sheep sheared and the amount of wool produced and is far in the lead in mohair production, producing more than eleven million pounds annually as against 685,000 pounds for the next nearest competitor. Texas is also far in the lead in beef cattle production.

The fly's mouth and tongue are covered with fine hairs. Consequently some of the filth in which they mess clings to them. And the microscope discloss these tiny drops of unspeakable uncleanliness alive with bacteria-disease germs.

A fly may infect anything it touches. Milk, food, baby's eyes, open wounds are favorite sources of infection.

But with FLY-TOX a house can be kept free of flies and similar insects. FLY-TOX is fragrant, stainless. FLY-TOX is harmless to humans but sure death to flies, mosquitoes and similar disease carrying insects.

TO HOLDERS OF
Third Liberty Loan Bonds

The Treasury offers a new 3½ per cent. 12-15 year Treasury bond in exchange for Third Liberty Loan Bonds.

The new bonds will bear interest from July 15, 1928. Interest on Third Liberty Loan Bonds surrendered for exchange will be paid in full to September 15, 1928.

Holders should consult their banks at once for further details of this offering.

Third Liberty Loan Bonds mature on September 15, 1928, and will cease to bear interest on that date.

HINTS FOR THE HOME

(by Nancy Hart)

When you go a-visiting on your vacation, keep in mind these simple suggestinos for the parting gift to your hostess: (They will save you much time and speculation when it comes to shopping).

A set of pretty boudoir boxes for her dresser drawers; a pair of spun glass swans in colored glass for salt and pepper holders; a quaint old print or mezzotint to brighten some dull spot on the wall; one of the new standing mirrors in photograph size for the occasional table; a luncheon set in colored damask; a pair of quilted pillow tops in shades of the hostess' room.

Packed attractively, with a well-chosen greeting card enclosed, any one of these gifts will express your appreciation of the visit in a most acceptable way. And none is expensive.

A Delicious Ice-Box Cake

Soak a tablespoon of gelatin in ¼ cup cold water and dissolve in ½ cup boiling water. Let stand until it thickens. Beat with rotary beater until frothy. Stir together 2 tablespoons lemon juice and 1 1-3 cups sweetened condensed milk, and add 1½ cups crushed strawberries. Fold this mixture into beaten gelatin; return to ice box until it begins to set. Line mold with split lady-fingers; fill with strawberry mixture; set on ice for several hours. Turn out in plate and serve with or without whipped cream.

Varying Summer Drinks

Instead of serving iced tea, coffee or lemonade all during the season, try Apricot Punch, Orange or Peach Punch for a change. A very tempting mocha beverage can be made with rich milk and eight teaspoons of strong cereal beverage to the glass. Iced cocoa made with rich milk is also wholesome, and beloved by children.

For Meatless Summer Meals

With the vegetable menu it is nice to serve one starchy dish such as baked cheesed rice, hominy fritters or macaroni croquettes made with chopped cold macaroni, cheese and white sauce, molded into croquettes and fried crisp in butter or margarine. These "substantials" give body to the meatless meal and make it quite satisfying.

Before Strawberries Leave

For a lucious pineapple and strawberry jam, use two level cups of each fruit, chopped fine; add seven level cups sugar and mix well. Stir over hot fire, boiling very hard one minute. Remove from fire and stir in a half cup liquid pectin. Skim, pour and seal.

Keeps Cut Flowers

Drooping flowers revive quickly and last several days longer if an aspirin tablet is added to the water in which they stand.

A SWIM IS NOT A BATH

These are the days when the joyous cry, "Come on in, the water's fine!" echoes alike from the old swimming hole and the modern tiled pool, while America's favorite summer sport cools and refreshes millions.

Timely, then, is the warning issued by W. W. Peter, M. D., Dr. P. H. nationally known health authority, in a recent issue of Cleanliness Journal. "A swim is not a bath," Dr. Peter points out. "One must be very dirty to have it count even partly as a cleansing process. The secretions of the body are only to a small extent soluble in the usually cool water of the swimming pool. A swim, especially in a pool, is not even a good swim without a previous soap bath."

While no one can hope to have his own private Atlantic or Pacific, the cleanly person who shares his swim with hundreds of others enjoys it more when he knows that a preliminary bath is required of every one entering the water. This satisfaction is due in large part, this authority believes, to the fact that it is "nicer."

But strong reasons than aesthetic ones are behind the growing emphasis on the regulation of public bathing places. For years public health authorities have been aware of the health hazards of swimming pools. The possibilities of disease transference in improperly operated swimming pools are too great to allow for any standard lower than that of strict cleanliness for the bather, his suit, and the entire pool. Twenty-three states now have laws or regulations with respect to swimming pools and other bathing places. The usual requirement is that bathers must take a shower bath, using soap, before entering the pool. Health as well as general decency would seem to recommend such legislation throughout all the states.

BEWARE OF INSECTS

Do you know that insects do damage annually in the United States to the tune of between two and three billion dollars? That the damage they do amounts to a total in excess of the total household budgets of American homes, with rent or taxes thrown in for good measure?

In a word, insects literally "eat the American public out of house and home."

While the great annual fire loss of the nation amounts to $3.35 per capita, the annual insect damage costs between $20 and $30 per capita. Practically all of this damage is inflicted by invading foreign insects, which, comparatively harmless in their native habitat, are enormously destructive in this country. At the present time the government has quarantine stations at ports all over the country, where all incoming cargoes are examined in the search for incoming insect criminals.

Thousands of tons of incoming merchandise are being subjected to vigilant inspection and various fumigating processes before being permitted to enter the country. Farmers, business men and manufacturers as well as millions of friendly insects are engaged in the battle against the invaders.

Within the home the housewife must depend upon her own efforts to keep marauding insects at bay. She can swat the fly, take care of the roach and the bedbug by cleanliness and sanitation and the use of insecticides and by fumigaiton, but she has a more difficult job with the moth and the carpet beetle. Cedar chests, moth bags, moth balls and insecticides have all been used with success. Another method of prevention is in the colorless, odorless shape of liquid sprays which render the family woolens unfit for the moth-worm's consumption.

However, whatever weapons may be used, let us all join in a war on insects. It is a war worth waging!

CANDIDATE FOR COMPTROLLER IS ENDORSED

Aspirant to office of Comptroller has unqualified endorsement of local friends.

Mr. J. D. Jones of Gonzales has been well known by us for [illegible] a lifetime, and he is a good man and true. He has worked in the Comptroller's department and is well fitted for the office he is seeking.

He was a prominent business man in Gonzales County for years; he is neither too old or too young, has an estimable family, and from time to time has held important places in his church.

If you have made no definite decision concerning the Comptrollership you can make no mistake in casting a ballot for J. D. Jones when you go to the polls July 28. Your vote will be appreciated by him and by us.

O. W. CARDWELL.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Kimble County—Greeting:

You are hereby commanded to summon George P. Mader, Mary Robinson, Wm. Brown, Reginald H. Elphinestone, O. B. Horning, E. H. Tomlinson, W. F. Daughty, J. E. Kamir, John C. Smith, Eugene Garrity, Alfred R. Schindler, Edgar L. Flury, Jr., L. Lichtig, Carl A. Johnson and G. H. Musgraves by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 33rd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 33rd Judicial District, to appear at the next regular term of the District Court of Kimble County, to be holden at the Court House thereof, in Junction, Texas, on the First Monday in August, A. D. 1928, the same being the 6th day of August, A. D. 1928, then and there to answer a petition filed in said Court on the 11th day of August, A. D., 1927, in a suit, numbered on the docket of said Court No. 1034, wherein T. P. Parker and Claud Parker are Plaintiffs, and H. J. McMullen et al are Defendants, and said petition alleging that heretofore to-wit, on until the 28th day of June, 1927, plaintiffs were the owner in fee simple of an undivided one-sixteenth interest in all the oil and gas and other minerals in and under or that might be produced from the following described lands, situated in Kimble County, Texas, to-wit:

Abst. No. 1023; Cert. No. 3100; Sur. No. 105; Grantee, G. C. & S. F. Ry. Co.; 487 acres.

Abst. No. 1025; Cert. No. 3051; Sur. No. 101; Grantee, G. C. & S. F. Ry. C.; 157 acres.

Abst. No. 1487; Cert. No. 1552; Sur. No. 42; Grantee, F. E. Husband; 640 acres.

Abst. No. 1489; Cert. No. 1569; Sur. No. 41; Grantee, F. E. Husband; 640 acres.

Abst. No. 1488; Cert. No. 1570; Sur. No. 43; Grantee, F. E. Husband; 640 acres.

Abst. No. 1843; Cert. No. 3051; Sur. No. 102; Grantee, J. H. Parker; 229 acres.

Abst. No. 1844; Cert. No. 3100; Sur. No. 106; Grantee, J. H. Parker; 240 acres, and containing 3024 acres of land more or less.

Plaintiffs further alleges that on the aforesaid date, to-wit: June 28th, 1927, the agent for one H. J. McMullen, through fraudulent statements with reference to the value, etc., secured from plaintiffs herein, a mineral deed to an undivided one-sixteenth interest in the aforesaid lands and further represented to plaintiffs that said mineral deed would never be placed of record in the records of Kimble County, Texas, and believing such representations to be true, the said T. P. Parker and Claud Parker did execute a mineral deed, whereby they conveyed an undivided one-sixteenth interest in all oil and gas and other minerals in and under the aforesaid lands to the said H. J. McMullen.

That thereafter, the said H. J. McMullen did cause said mineral deed to be placed upon the records of Kimble County, Texas, and is now of record in Vol. 31, page 188 of said records, and that subsequent to the filing and recording of the aforesaid mineral deed, the said H. J. McMullen did at various times execute and deliver transfers and assignments unto the several defendants herein named, an undivided interest in and to the aforesaid mineral deed covering the lands heretofore described.

Plaintiffs further allege that the claims to the title or interest in to said lands as set up by the defendants herein are fictitious, simulated and inferior to the rights and claims of plaintiffs in said lands, and is a cloud upon plaintiffs' title to their lands, and plaintiffs further ask that the defendants herein be cited to appear and answer this petition and that they have judgment as prayed for; that said mineral deed be cancelled, set aside and annulled and; and that all the aforesaid assignments be cancelled, set aside, annulled and held for naught, and that defendants be ordered to deliver possession of said premises to plaintiff, for writ of possession, for all damages prayed for; for costs of suit and for such other and further relief, special and general, in law and in equity, as the plaintiffs may show themselves entitled to and to the court seems proper and just.

Herein Fail Not but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Junction, Texas, this the 26th day of June, A. D., 1928.

Junction Trade Notes

A recent San Antonio dispatch says: "The San Antonio Chamber of Commerce is working with Houston, New Orleans, Atlanta and other cities of the South for extension of airmail from San Antonio to Los Angeles by way of El Paso—the plans to include passenger and express traffic by air in conjunction with transcontinental railways." Texas may explain the presence of the airplane which reconnoitered over Junction and vicinity for ten days or longer.

A. F. Fritz of London community on Wednesday marketed 200 pounds choice homegrown tomatoes through **Gann Grocery Company.** B. B. Reese of the Llano valley marketed "Stone-Mountain" melons from his sandy land farm. S. H. Weaver, Jr., of London sold choice "Mamie Ross" peaches through **Gann Grocery Company** Monday, and he will have Elbertas on the market in August.

Robert Goodfellow of Austin, head of sheriff's division in the Comptroller's office, and J. J. Goodfellow of San Angelo, civil engineer, were prospecting in Junction and Kimble County early in the week.

H. I. Shield of Santa Anna, accompanied by his family, is vacationing on the Llanos this week.

Mr. and Mrs. Lucien White of Coleman, after attending R. O. T. C. at Fort Sam Houston, stopped in Junction Tuesday for a visit with old acquaintances and to admire the landscapes of the Llanos.

Mr. and Mrs. J. W. Golson and R. G. Mann of Coleman, taking a brief summer vacation, were visitors to Junction this week, being attracted here by the perpetual running waters of the Llanos, the classic hills, and the invigorating skies of this scenic wonderland.

Housewives may be interested in the aluminum pie plate offered by the manufacturers of Crisco. The plate is free with a 6-lb can of Crisco. **Gann Grocery Company.**

The illustrated folder issued by the local chamber of commerce and just off the Eagle press, is replete with information and photographic views portraying the varied attractions and advantages of Junction and Kimble County. Every person interested in Kimble County should assist in circulation of the folders. A glance at the folder reveals instantly, for the reader, the following significant facts. "That Kimble County is the greatest inland vacationists' playground in the West, affording 600 miles of fresh water streams shaded by majestic pecan trees, no malaria or bad water, no tubercolars; average winter temperature 54, summer 88, no humidity, annual rainfall 26. Five highways converge in Junction, fine hotel accommodations, with tourist camps, golf and polo grounds, and every need of the traveller supplied. That Junction is one of the greatest inland wool and mohair markets of the country and the largest pecan market in the world, etc. Incidentally, the press work of the job would do credit to a shop much more pretentious than the Eagle shop.

"Everybody's Store"

PARTY

(Crowded out last week)

An enjoyable occasion was the party given Monday evening by Mrs. Crabb, honoring her house guests of San Antonio. Much merriment was caused by the number of amusing and interesting games. At the close of the evening delicious cake and iced lemonade were served.

With all the June brides that are going home to mother, the railroads are having more business than they can handle.

SOUTH LLANO NEWS

Rev. Crabb closed a series of sermons at the Evergreen school house Sunday afternoon, which had been in progress for the past week. Had splendid sermons and good attendance. We appreciate his kindness and hope to see him in our midst soon again.

Mr. F. M. Hodges is still on the sick list. Hope he will soon be the same again.

Mr. and Mrs. Frank Patterson were soliciting in our community Monday. The election is drawing close and the candidates are all getting busy.

Mr. and Mrs. Chas. Clement of Wichita Falls were week-end guests at the Dupuy ranch to his sister, Mrs. F. Blardone and aunt, Mrs. F. Dupuy.

Mr. Donald Schuhardt of Oklahoma spent a few days with parents, Mr. and Mrs. John Schuhardt, at the ranch the past week on his way to San Saba in the interest of the Pecan Association meeting there.

Singing at the school house was well attended and enjoyed by all.

Mrs. Savage has been spending a while with her daughter, Mrs. Ed Hunger.

Mr. J. W. Boone has as his guests Messrs. Harvey Lively and two of his grandsons, J. W. and Leroy, of North Texas. They are fine musicians. Had music and dancing at Mr. Boones's Saturday night for a few hours.

Mrs. M. Hagens returned Saturday night from an extended visit to points east; also Mexico.

Miss Ruby Deats returned from a visit to Junction Monday.

Troy Fleming and wife were business visitors in Junction Monday.

Ed Hunger has been quite sick, but is some better at present.

NOTICE

Persons desiring to transfer school children from one district to another, should make application to the undersigned on or before August 1, 1928.

J. B. Randolph,
County Judge.

13-3c

Mr. and Mrs. Julius Liendner and family and Mr. and Mrs. Mechal Liendner and family of Comfort, were here over Sunday the guests of Mr. and Mrs. Leo W. Dressler. They spent the day very pleasantly at Seven Hundred Springs.

LONDON LOCALS

The Baptist revival closed at the baptismal waters Monday morning at 9:30 where four were baptized, making a total of five baptisms during the meeting.

Bro. Irvins and wife and Miss Palmer left for their home at 12:15 p. m. Monday. We had the pleasure of having these good people in our home several times during the meeting; this fact we appreciate.

Several Tea Cup Mountain folks attended the revival last Sunday. Always glad for these good people to visit.

The writer has been informed that the organization of the Chamber of Commerce was perfected Friday night with Mr. G. W. Pearl president. Did not learn who the other officers and committees were. Mr. Pearl is a live wire and will be found pushing things over if he receives the co-operation of his fellows. No reason why we should not put over several things within our reach. Let's not try to reach too far to begin with. It is far better to succeed in small things than to fail in more important matters.

Fine peaches and melons are in evidence these days.

O. D. Price has been feeding the writer on corn for some time, but has now changed the diet. It is watermelons now—big fine red meated. Fine? Yes sir!

Mr. A. S. Price has bought the lease and stock of the Baker Bros. and is planning to move back to the ranch.

Mr. and Mrs. G. R. Kothmann and son visited at the home of grandpa and grandma Cummins last Saturday and Sunday.

Remember the barbecue at London July 20.

The stomach worms in sheep are giving our sheep men trouble and considerable loss. Also we hear of some cases of Charbon or Anthrox. Mr. E. I. Cummins has lost a fine male, and G. R. Kothmann a fine mare with this dread disease. Be sure you burn the dead.

We are in receipt of a notice that the Chamber of Commerce from Junction will give us a good-will visit the 18th. Will note its effect next week, but will say in advance that we appreciate this contemplated visit.

Born to Prof. and Mrs. Rex Salle on July 16th, a fine baby boy, Rex says he is sure enough a fine baby, and he will be red headed. Let all take notice.

On Thursday night, August 9, the Christian church will begin a revival meeting at the Community Hall in London. Bro. Glen Wallace will do the preaching. Let us all attend this meeting. I am sure Bro. Wallace will interest us whether we agree with him in all things or not. It behooves all Christian men and women to lend the support to every Christian move regardless of what denomination puts forth that move. Church prejudice never has and never will elevate or be a factor in the development or progress of any people or community.

Bro. Louis Pearl won the $2.50 last Saturday guessing at the number of Grains of corn the chicken would swallow. I think the rooster swallowed 91 grains and Louis guessed 90. Pretty close guess.

It is hot and dry. We need rain badly.

Home Made ICE CREAM

WITH the modern freezers for home use, it is no trick at all to make ice cream. *And what a delight it is to have all you want, when you want it!*

One of the big advantages of taking ice is that you can make ice cream *any time.* No picnic is complete without it.

Home-made ice cream is one of the most wholesome foods as well as the most delicious. It's good for everybody and especially valuable for the little ones. You never have to *urge* them to eat home-made ice cream!
