The Baby Page editor of the Daily Journal has set forth a set of simple rules which state that eligibles in the contest for the first boy and girl babies born in the city of Lubbock during the new year, must have their names, name of parents, address, birth certificate and doctor's report of the arrival in his hands later than January 5.

A check of both the West Texas hospital and Lubbock sanitarium and numerous physicians this morning failed to bring reports of any other births.

...Lting Of Contract For ...ocal Federal Building Expected Next Month

Definite action toward construction of a new federal building in Lubbock is expected some time in February according to a letter received in this city from U. S. Senator Morris Sheppard by E. L. Dohoney, registrar at Texas Technological college.

Senator Sheppard enclosed a letter from S. Lowman, assistant secretary of the treasury which explained that drawings for the building are well along toward completion and that the supervising architect's office expects to place the work on the market in February ... it is found possible to place the building on the market at an earlier date it will, of course, be done," the letter reads.

Delay Is Occasioned

Delay which has been noticeable was explained by Mr. Lowman as having been caused through necessity of revising the drawings to permit construction work to be started before removal of the jail building.

With reference to a letter in March which advised that it was hoped to be in position to award the contract some time in December this, however, being contingent on the removal of the obstruction caused by the county jail, you are advised that the jail has not yet

Concentration Of Government Warned Against

FRANKLIN ROOSEVELT SAYS A TOO ABSOLUTE CENTRALIZATION DANGEROUS AND LIKELY TO DEPRIVE NATION OF DEMOCRACY

(By The Associated Press)

ALBANY, N. Y., Jan. 1.—A warning against concentration of power in government and a plea for reform in local government now "archaic in design" predominated the second inaugural address of Franklin D. Roosevelt at his induction into office today.

The governor's comment on a too absolute concentralization of power came with an illustration of an incident which he said was representative of "the dangerous tendency to forget a fundamental of American democracy which rests on the right of a locality to manage its local affairs—the tendency to encourage concentration of power at the top of a governmental structure alien to our system and more closely akin to a dictatorship or the central committee on a communistic regime."

Letter Causes Address

A letter from an editor which the governor said "tearfully" informed him that all local government had broken down prompted the governor to discuss the matter in his address. The editor begged the governor, the executive said, to "usurp and assume the functions of the officials duly elected by the communities" and said the alternative would be establishment of martial law.

The governor asked his audience to note in this plea "the unconscious willingness to accept a czar or an absolute dictator in the governor's chair at Albany."

Open To Criticism

"Now, my friend was right about one thing," the governor said. "Local government as a whole is open to severe criticism and this ap-

There were but four new faces in the lineup, County Judge E. L. Pitts, District Clerk Charles Metcalfe, Justice of the Peace H. K. Porter and County Commissioner Claude Burrus.

FOUR COUNTIES TO DECIDE ON ROAD BONDS

CALLAHAN, MITCHELL, SCURRY AND GAINES VOTE THIS MONTH

January will see four West Texas counties voting on road bond issues totalling nearly two million dollars, with several other counties discussing bond issues.

First election is to be in Callahan county where on Saturday, January 3, a $1,000,000 bond issue is to be voted on.

The following Saturday, Mitchell county will vote on the issuance of $100,000 in road warrants by the county commissioner's court for the repair of lateral roads.

Scurry, Gaines to Vote

On January 17 two counties, Scurry and Gaines, will vote on issues amounting to $750,000. The former county has a $600,000 issue and the latter, one for $150,000.

Recently Stonewall and Howard counties defeated bond issues.

Lynn, Dawson, Hockley, Bailey and Lamb counties are reported talking of bond issues.

To Hear Petitions

The commissioners of Lynn are to hear petitions asking for the calling of an election to vote $800,000 in bonds for paving No. 9 across the county north and south and work on the east and west highway connecting Brownfield and Post through Tahoka.

Dawson county residents are talking of a bond issue for paving No. 9 and also the work on lateral roads and the highway to Hobbs and Seminole.

Bailey county residents are talking of a bond issue for paving the north and south county road, 36 miles long and lateral roads to

Posses Searching For Bank Bandits

LOGANSPORT, La., Jan. 1 (AP)—Armed posses today patrolled nearby highways in eastern Texas and northwestern Louisiana in search of three bandits who yesterday invaded the Logansport State Bank in this state line town and escaped with $10,201.20 in cash.

When last seen after their carefully executed robbery and hasty retreat from armed citizens advancing on the band in response to a secret burglar alarm sounded from the vault by a locked-in employe, the fleeing men in a fine automobile were headed toward Bethany and making for Texas.

TO SPEED UP ROAD WORK

GILCHRIST PLANS FOR GREATER HIGHWAYS DURING 1931

(By The Associated Press)

AUSTIN, Jan. 1.—Gib Gilchrist state highway engineer, said yesterday the highway department was making plans to speed up highway construction as a result of the federal government's action in making available $5,088,000 as aid, in addition to the regular 1931 apportionment. The additional appropriation must be used by Sept. 1, 1931, he said.

Gilchrist emphasized that the additional aid was merely a loan from the federal government to the state and would be paid back over a five-year period, starting in 1933, through reduced apportionments.

He said state highway construction in 1931 would not be as extensive in 1931 as in 1930, the state having expended approximately $6,000,000 more in 1930 than was collected. The program also will be cut by reduced receipts from the counties, from failure of many counties to vote highway bonds.

DISCOVERY OF "BUTCHER SHOP" IN ARIZONA INDICATION THAT MEN LIVED IN AMERICA AT LEAST 20,000 YEARS AGO

BY F. B COLTON,
Associated Press Science Writer

CLEVELAND, O., Jan. 1. (AP) — "butcher shop" more than 20,000 years old has been discovered in Arizona, it was reported today.

The discovery indicates that men lived in America at least that long ago, Dr. Harold J. Cook of the Cook Museum of Natural History, Agate, Nebraska, explained before the American Association for the Advancement of Science.

Bones of the huge elephant-like mammoth that had been hacked with flint knives by the ancient butchers, and some of the knives themselves, have been found in Yuma county, Arizona, by Perry and Harold Anderson, Dr. Cook said.

The knives buried with the bones show men must have lived there at the same time as the mammoths, Dr. Cook believes. Some of the mammoth bones showed evidence of having been hacked ... still fresh, or tough and "green." A bison bone evidently used in flaking off particles of flint in making the stone knives also was discovered.

"Some of the bison and mammoth bones found here also appear to have been gnawed," Dr. Cook said. He did not say whether he thought they had been gnawed by men or animals.

Adaman Club Sets Off Giant Rocket

COLORADO SPRINGS, Jan. 1 (AP)—That breathless moment when the old year died and the new year was born found eleven members of the Adaman Club on the summit of Pikes Peak setting off a brilliant pyrotechnic display for revelers.

Contrasting with arctic conditions which have greeted the mountaineers many times on their annual climb to the peak a crystal clear sky bore a moon high over the range last night. There was little snow above the timber line.

At midnight a gigantic rocket carried aloft a huge parachute flare, the Adaman Club's tribute to Roald Amundsen, who was a honorary member of the organization.

The club derives its name from the practice of admitting one new member a year.

JOFFRE STILL LIVES TODAY

REPORT DENIED THAT WAR LEADER HAD SUCCUMBED

(By The Associated Press)

PARIS, Jan. 1—Marshal Joffre, who has fought his way past death through sheer vitality for the past ten days, outlived even an apparently official report that he had died at noon today.

The report was flashed across the world, but a few minutes later an official bulletin issued by his five physicians said the marshal was still alive, resting easily although pulse and respiration were not normal.

The first report of his death, which had been expected momentarily for the past week came a little after noon. It was accepted without question for the rugged old hero's amazing vigor had baffled his doctors and they had expected that he would reach the end of his resources at any minute.

Negotiations between the owners and miners, who have struggled unavailingly over disputes of hours and wages, reached a dead lock last night as a temporary agreement expired.

Representatives of the ministry of mines made a last-minute effort to ward off the threatened tie-up, but without success. The owners refused to confer with the workers' representatives and said nothing could be accomplished unless the workers accepted a cut in wages to accompany a proposed working-time reduction. The unionists stood pat on their demand for the same pay they have been receiving.

...tardation in school work, you
...can be sure you are not hope-
lessly stupid.

You and I must enjoy some continuous success if we are to have the urge to go on striving. No one of us, faced forever by defeat, can keep plodding at his best. Great-hearted parents and teachers have been those who so set tasks for children that they are able to enjoy successes. You who have not had many discouragements have had at school lessons and assignments at which you found yourself victorious. Some of you who have met with discouragements have had teachers who forever confronted you with work on which you failed continually, and who charged you when you did not measure up, with indifference and laziness. Most of you, however, have had excellent teachers.

* * *

You can do a great deal for yourself by turning yourself more often to doing those things with which you know you have been successful. If you find history, science or English literature hard for you, almost certainly you are a poor reader. Set yourself to reading books several grades below those you are supposed to read. Then you can read with ease and pleasure. Read aloud to yourself or to any one who will sympathetically listen to you. It may help you to make it a practice to turn each paragraph on fact material or descriptive matter into a few words of your own. Then your history and science and other high school subjects will grow easier.

Learn to make yourself listen carefully in class and to know exactly what the lessons and assignments are. Save all the time and effort you can by working hard in class. The moment you find yourself dreaming during recitation or study period, "take yourself" as it were by "the nape of the neck" and bring yourself back to business.

If you fail to make a grade don't give up. When many failures at school face you, you probably will grow restless and want to leave school. You see others working and earning money, buying cars and clothes and having a good time.

* * *

To leave school is an easy means of running away from hard study. But you are no coward. You have sense, too. You don't live just for today and tomorrow. You look far into the future. Even if it takes you two or three years to make one year at school it will pay you to stick to the job.

Suppose you do quit school and land a job. When men and women are laid off at the factory you will be among the first. When big opportunities for promotion come you will have poor chances to be picked. The boy or girl with more schooling will go on and leave you trailing on behind.

The young man or woman who in the face of great discouragement sticks by the books and finishes high school at tremendous struggle has the kind of stuff that will be recognized in life. The one who runs away from hard things will, no doubt, go on doing so. Now is the time to prove to yourself the kind of material you are made of.

FIREMEN HOLD ANNUAL FETE

CITY OFFICIALS AND OTHERS JOIN IN BANQUET

Enhanced by an abundance of the "season's spirit", Lubbock firemen, city officials and invited guests Wednesday night bid farewell to the year 1930 and ushered in a new period at the annual Lubbock Firemen's banquet, which was attended by approximately 50 persons.

The affair was held in the city hall, starting at 8 o'clock, and lasting well over two hours. With Senator Pink L. Parrish as toastmaster, not one minute of the evening's program was lagging and the Senator, famed for his wit, was in the best of form for the event.

No formal program was carried out during the evening and short talks were made by a number of those present. Among the speakers were George Benson, J. J. Clements, J. H. Hankins, D. N. Leaverton, H. D. Woods, E. L. Klett, John Lemond, J. Bryan Miller, A. B. Davis, Luther Bynum, W. C. Bryan, W. H. Rodgers, Chief W. E. Twitty, Roche Newton and Alex McDonald.

One of the commanding features of the evening was a brief and silent toast offered by all standing, to Newel Bryan who was killed while in the line of duty as assistant chief of the department.

Those who attended last night's affair included the following: J. H. Hankins, W. H. Rodgers, A. G. Gillespie, J. A. Pressley, J. J. Graham, W. C. Bryan, L. H. Simpson, Luther Bynum, T. S. Crawford, Floyd Martin, C. G. Casey, Everett Price, Mose Hood, Scott Hollingsworth, M. J. Scot, Pat Hood, Roche Newton, W. E. Twitty, J. J. Clements, Alex McDonald, J. Bryan Miller, B. Shefrod, George Benson, Ray Spence, Alfred Parrack, Lloyd Bentley, Glenn Smith, Guy Casey, M. Long, O. R. Phillips, S. A. Wells, E. L. Klett, D. N. Leaverton, Chas. C. Watson, A. B. Davis, A. M. LAST MEMBER OF ANANIAS CLUB IS DEAD IN FLORIDA

PALM BEACH, Fla., Jan. 1 (AP)—The last member of the Ananias Club is dead.

With the passing of Dr. George Morgan Ward, pastor of Poinciana chapel, the famous Ananias club becomes just another one of the hallowed memories of the Palm Beach that used to be.

It was back in the "gay nineties" the club flourished and became famous. Its members were men who would rather in the cool of the evening tell fish stories and other yarns of the most delightful improbability.

Numbered among the members were Joseph Jefferson, the actor, Chancey M. Depew, Henry M. Flagler, Dr. Ward, Colonel Hester, owner of the Brooklyn Eagle, Judge Horace Russell, Charles W. Bingham of Buffalo, and many other notable men of the day.

Dr. Ward was brought to the chapel here by the late Henry Flagler, and died in his pastor's arms. When the Flagler will was read, it was found he had "bequeathed" Dr. Ward to the chapel for the remainder of his life.

Death ended a pastorate of more than 30 years. Dr. Ward was known as the "Bishop of Palm Beach."

No Claims Against Ford, Judge Rules

ST. PAUL, Minn., Ja. 1. (AP)—Eli F. Colby of Lake Mills, Iowa, has no claim against the Ford Motor Company, which he sued for alleged patent infringement, federal Judge John B. Sanborn ruled Wednesday.

Colby had asked damages estimated to aggregate $1,000,000, claiming the Ford Motor company had infringed on his patent for a fan pulley. Judge Sanborn found that prior patents covered Colby's invention.

PRINCESS STARTS TO SCHOOL

TOKIO (AP)—Little Princess Teru, five-year-old daughter of the royal house of Japan, is ready to enter the kindergarten at the Peresses' School. She and her one-year-old sister, Princess Taka, expect another sister or brother in March.

Agricultural societies of the Irish Free State have asked the government to impose a tariff on all foreign agricultural produce.

Archduke to Guide

A dramatic decline of fortunes from those of an Archduke to the humble status of a tourist guide is the life history of Archduke Leopold (above). He recently went bankrupt and has now been reduced to guiding tourists through the imperial castle of his ancestors.

Argentina now has the largest per capita automobile registration of any country in the Western Hemisphere except the United States and Canada.

KNIGHT ERRANT OF THE AIR SEEKING WIFE HE PICKED UP FROM HIGHWAY

(By The Associated Press)

DALLAS, Jan. 1—"A knight errant of the air related a strange story today to workers in the Dallas City welfare department, casting doubt on any opinions that "romance is dead in this mechanical age."

Not many months ago, a young mother who had been deserted by her husband was making her way from Oklahoma to Kansas along a highway, with her child, about two years old. She had been granted a divorce in Dallas and was given the money to go to Okla...

Seeing the mother and child from the air, George Flynn, the aviator, landed his craft in a potato patch, took the wayfarers aboard his aerial steed and carried them to Detroit. Later he took the girl to New York. She pleased his mother, also, and he married the girl.

A PAGE OF SENSATIONAL PRICES ON ALL PIECE GOODS LINES FROM OUR NI

Sales in this store are semi-annual events where we quickly clear our stocks with real reductions. This is our first sale since our Clean Sweep sale in July.

ANNUAL JANUARY CLEARANCE SALE

Here are the lowest prices we have ever quoted on fine high grade standard merchandise for we real more radical reductions this year for the complete Clearance we must effect

Past records of value giving in these semi-annual sales are decidedly over-shadowed in the prices you find quoted on this, and other pages, of this announcement of our Ninth Annual January Clearance Sale. Here is the reason—Clearance time is at hand again and we must quickly turn remaining stocks into cash for spring purchases. In past seasons this process required nominal reductions throughout our stocks to make them attractive to you, but this season we are faced with generally adverse conditions—a lowered buying power throughout our trade territory—a time when people are carefully considering every expenditure. We believe unusual reductions t o be necessary this season as never before if this event is to be the big successful one we are determined that it shall be. We have risen to the situation. If it takes abnormal reductions we have the nerve to make them. Here are the facts—Consider them carefully and follow your saving program by supplying your needs at these unusual reductions.

TEN OF THE REASONS WHY

The South Plains Will Prosper in 1931

And for Years and Years to Come

"Today's Far Visioned Business Man is Tomorrow's Big Business Man."—
COL. ARTHUR WOOD

(1)—If the unlimited potentialities of the Great South Plains are only capitalized upon this section can be turned into a veritable garden spot of the United States . . . a second California . . . for just under the surface of our tillable soil is an inexhaustible supply of water and natural gas enough to supply water pumps in this section for one thousand years. This project is now being exploited and the coming months of 1931 will find a new type farmer raising celery, vegetables and all kinds of truck, as well as six crops of alfalfa to the season as a result of this irrigation as has been proven on demonstration farms.

(2)—Cattle men are realizing that fattening is cheaper and that more profit is possible from South Plains feed stuffs. Cattle heretofore sent to the corn belts are now prepared for market right in the own back yard of the greatest country in the world.

(3)—Tillable soil available for colonization is greater than in any other section in the United States. Rich, producing land that enables the smallest farmer to get a start. In this great area there are only 200,000 of the 8,000,000 people of Texas as compared with 40,000,000 living in and on the same acreage in Japan.

(4)—Farming costs, due to productivity and rain fall, is minimized, consequently cotton, feed stuffs and other commodities can be raised here for less than in any other section in the world.

(5)—More than $7,000,000 was paid South Plains farmers last year for produce by Lubbock firms, thus showing a tremendous increase over any preceeding year and a decided gain on the output and imports of California shippers.

(6)—Dairying, yet in its twadling clothes, is soon to be a major factor in commercial life on the South Plains. Favorable weather, soil adaptable for raising feed stuffs, and vast water supply makes this rapidly growing industry one of unexemplified opportunity . . . a rare chance to produce the world's highest grade milk and creamery products in great abundance.

(7)—Typifying the above reason and making a concrete example . . . the Lamesa Milk Plant in its first year is far behind in production.

(8)—A literal criss-crossing of State and Federal designated Highways makes every town on the South Plains accessible in almost a short hour's drive from most any point.

(9)—Summing them all up for the ninth reason we find cattle, oil, feed stuffs, schools, churches, highways, railroads and all the requisites that tend to make great empires greater, and believers in the future of that set-up healthy, prosperous, and happy.

(10)—And in the 10th instance of our eulogy of the vanishing year and of the possibilities of the New Year it is needless to say that courage, a desire to win, and cooperation are the prime requisites of fitting into a boat that is moving, rapidly too, onward to the world's greatest civilized empire . . . the Great South Plains of Texas. Hoist the sails and let's all make 1931 the greatest year of them all.

(11)—Firms contributing to this page believe the written message above, have invested thousands and thousands of dollars on their belief in the South Plains and invite you aboard the prosperity train of 1931.

Divorce Percentage Increases In D. C.

WASHINGTON, Jan. 1 (AP)—The District of Columbia, stringent in its divorce laws, was reported by the census bureau today as having 1,838 divorced among its marriageable men and 2,992 divorced among its marriageable women.

The percentage divorced, one per cent of the male and 1.5 per cent of the females, is nearly twice as high as ten years ago.

Widows in the district, totaling 29,000, are three times as numerous as widowers.

To Leave Mass.

Mrs. Henry W. Peabody, of Beverly, Mass., national chairman of the Committee for Law Enforcement, has announced she would sell her Beverly home and move to Florida. Reasons for her departure were that, being bitterly disappointed over the repeal of the baby Volstead Act in Massachusetts, she had no desire to bring her children up in a State where the liquor law had been repealed.

"THRIPS" DAMAGE COCOA

ST. THOMAS, Portuguese West Africa (AP)—Cocoa plantations here are suffering from the depredations of an insect known as "thrips," a species of sap suckers. The British Gold Coast authorities have authorized a Portuguese mission to collect there a parasite which is a deadly enemy of the destructive flies.

DARWIN, Australia (AP)—Aboriginals are being enslaved by Australian cattlemen, "Darkie" Rowe, workers' union organizer, charges. ACHIEVEMENTS

OF THE YEAR

1930

The last of the unknown lands . . . a rugged continent . . . yields its frozen secrets to the last of the great explorers; and the name Byrd is added to the golden roster of Magellan, De Soto and Stanley. Twelve thousand miles away a rotting skiff is found; Gunnar Horn solves the mystery of the Andree tragedy, and the world grieves for one who tried but failed. ❖ Man knows at last the globe he lives on (Coste and Bellonte are winging tirelessly into the teeth of the great trade winds) and man is narrowing that globe with the actuality of westward flight. ❖ Meanwhile the sun's family of eight planets becomes nine; a tiny speck on a camera's plate is named Pluto; more of the outer heavens are duly catalogued for posterity. ❖ Physicians, tense, in the sick room, while a machine is enslaved to succeed where nature has failed . . . the Drinker Respirator takes up the rhythmic burden of paralyzed lungs. Jones, steel-nerved, on the fairway, four times claiming victory with stamina and skill. ❖ Triumphs, all. For some the laurel wreath of immediate acclaim . . . for others the quieter fame of passing years. For all . . . the glowing, the lasting tribute to Courage. ❖ For 1930 has rewarded . . . magnificently . . . the pluck of a chosen few. But 1931 will reward the Courage of ALL who dare to achieve. Courage . . . sand . . . grit. Needed today by a nation calling for leaders who have faith in America's future. Needed by a nation seeking men who are not afraid to fight . . . who are not afraid to achieve. ❖ For victory lies just ahead, for the taking. Gigantic, poised, the machine of American business wants only the motive power. That the courage inherent in American tradition will supply that power is certain . . . as certain as that it will reap its own reward this year of 1931.

Beginning Monday, January 5, thirteen midseason membership conferences for district two of the Texas Cotton Cooperative association are to be held, according to announcement Wednesday by C. M. Davis, manager of the Lubbock district.

Invitations have been mailed to each member and everyone of the more than 8,000 who compose the membership is expected to attend one or more of the meetings, according to Mr. Davis.

The meeting to be held in Lubbock is expected to be one of the largest. It will be held in the district courtroom January 5 at 2 o'clock and there will be a representative of the Dallas office here to discuss membership matters and other subjects.

District dates are as follows:

January 5 at Lubbock, Levelland, Memphis and Tahoka.

January 7 at Brownfield, Childress and O'Donnell.

January 8 at Littlefield and Paducah.

January 9 at Chillicothe and Lamesa.

January 12 at Plainview.

January 14 at Wellington.

In announcing the meetings Mr. Davis outlined the purposes of the conference as follows:

"1—To acquaint members with progress of organization.

"2—To refute attacks on farm board and cooperatives.

"3—To outline plans for future.

"4—To point out member's responsibilities to success of complete program.

"5—To build a membership consciousness—a militant membership—knowing what it wants and going after it.

"6—Discussion and answering of questions.

"7—Explain Texas Cotton Cooperative association's planting seed program."

Mr. Davis announced the state group had received up to and including December 20, 1930, a total of 584,551 bales of cotton that it had paid for. Of this number, approximately 75,000 bales at that time had been handled in the Lubbock district.

JUSTICE GIVEN DEFENDANTS

FOUR MEN ALLOWED TO SERVE LIGHT TERMS BY JUDGE WILSON

(By The Associated Press)

FORT WORTH, Jan. 1—Justice was tempered with mercy in United States district court here Wednesday, when sentences were passed by Federal Judge James C. Wilson on four defendants, three of whom had been convicted of using the mails to defraud. The fourth had pleaded guilty to a charge of embezzling from a national bank.

Two of the defendants in the mail fraud cases were given suspended sentences, the third received a year and a day in prison and five year suspended.

Gets 18 Months

The defendant in the embezzlement case was sentenced to 18 months in the federal reformatory at Chillicothe, Ohio.

Leo F. Reardon and Joe A. Hoover, indicted jointly and found guilty of using the mails to defraud in connection with an oil promotion plan, were first to be sentenced. The government was placed under fire from the bench when Judge Wilson delivered a scathing indictment of the prosecution, terming the case one of the weakest that had ever come before him and criticising the prosecution for the form of indictment used by them.

Reardon was sentenced to a year and a day in Leavenworth on one count and to five years in the penitentiary on all other counts. The five year term was suspended by the court.

Sentence Suspended

Hoover was sentenced to a year and a day, and the sentence was suspended.

M. N. Shoemaker, third defendant in the mail fraud cases, was given a fine of $1,000 and sentenced to three years in the penitentiary, but the prison sentence was suspended. He made a statement to the court, in which he declared he had played fair with his share-holders, had done all that he had promised them he would do.

Clyde Bejew, who pleaded guilty some time ago to a charge of embezzling from the Stock Yards National bank, where he was employed was sentenced to 18 months in the federal reformatory at Chillicothe, Ohio.

Field Offices For Funds To Be Set Up

WASHINGTON, Jan. 1 (AP)—Field offices for distributing loans to farmers in drouth and storm areas from the $45,000,000 emergency appropriation will be established at Memphis, Tenn., and St. Louis, Missouri.

The St. Louis office will serve Kentucky, southern Indiana, southern Illinois, Missouri, Kansas, Oklahoma and Texas.

The St. Louis office will be supervised by T. Weed Harvey, assistant chief of cooperative extension work and that in Memphis will be under J. H. Lynch, who has been active in seed loan operations in the southeastern states for the past two years.

Rural power lines totaling 1,800 miles furnish 8,500 customers with electricity in Alabama.

"PLANT MORE TREES" IS SLOGAN OF LAMESA; PROGRAM BEING ENCOURAGED

LAMESA, Dec. 31 — (Special)— The slogan for citizens of this city for 1931 is "Plant more trees", a program which is being encouraged by the chamber of commerce and various civic organizations of the community. In the past it has been the popular belief that trees would not thrive on the South Plains, but success in growing of shade trees in this section in recent years, has demonstrated that trees will grow and thrive in Dawson county. Proper care is necessary while trees are young, and proper protection, by watering during the winter and spring months, which will insure the home owner a beautiful tree for his premises.

Among trees that grow best in this vicinity are Chinese Elms, Evergreens, Arizona Cypress, Locusts, White Maple, Water Elms and Ash.

During the next annual lawn beautification contest, sponsored by the Lamesa Chamber of Commerce, a provision will likely be made whereby entries in the competitive beautification campaign will be given higher grades, if their homes have trees surrounding them.

ROSE TOURNEY, DIXIE CLASSIC END SEASON

SOUTHWEST STARS ARE FAVORED; COAST TO DRAW 70,000

BY GAYLE TALBOT, JR.,
Associated Press Sports Writer

DALLAS, Jan. 1 (AP)—Sweet charity stood to realize a tidy sum and football fans to enjoy some choice entertainment as all-stars of the Southwest and Mid-West collided at Ownby stadium here today in the third renewal of the Dixie Classic.

The Scottish Rite hospital for crippled children received the round sum of $10,000 from last year's game after all expenses had been paid, and prospects were for a larger gallery today. For the first time since the classic was inaugurated, the Southwest eleven was a pre-game favorite, and advance sales of tickets have reflected the fact.

Stars In Line-up

However hastily thrown together and polished up by Coach Morley Jennings of Baylor University, the Southwest array stacks up as one of the most powerful ever assembled in this section. It's line-up is thickly studded with all-Southwest and all-Southern stars.

On the other hand, the Mid-West team, assembled and coached by Bob Zuppke, veteran Illionis mentor, appears scarcely as potent as those which have made the invasion for the last two years. It has impressed critics as a powerful team, but lacking the individual brilliance of the Southwest unit. The team lacks such a performer as "Pest" Welch, the All-American halfback, who led the Mid-West to a 25-14 triumph last New Year's Day.

Three Men Honored

Leading the Mid-West into battle will be three players who were voted the "most valuable" on their respective teams in 1930. Stanley Bodman, University of Illinois' tackle; George Stears, Purdue guard and Robert Clark, Northwestern center, were elected by their mates to call the coin and attend to other such important tasks.

Jack Dale, great defensive fullback of the University of Arkansas, and Buddy Hackman, stellar halfback from the University of Tennessee, will divide the executive duties for the Southwest. The pair, incidentally, promise to be outstanding stars for the "home" team.

Little Difference In Weights

From all appearances, there was little difference in the weights of the contending forces.

The starting line-ups were expected to look about like this:

Southwest — Peterson (Texas), left end; Witcher (Baylor), left tackle; Koch (Baylor), left guard; Paradeaux, (Baylor), center; Lee (Oklahoma), right guard; Armstrong (Missouri), right tackle; Lott (Oklahoma Aggies), right end; Wilson (Baylor), quarterback; Hackman (Tennessee), and Bethea (Florida), halfbacks; Dale (Arkansas), fullback.

Midwest—Rogge (Iowa), left end; Ridler (Michigan State), left tackle; Stears (Purdue), left guard; Clark (Northwestern), center; Vanyo (Ypsilanti Normal), right guard; Buttner (Purdue), right tackle; Casey (Wisconsin), right end; Jensvold (Iowa), quarterback; Kissell (Purdue), and Hinehman (Butler), halfbacks; Deig (Marquette), fullback.

Referee—Ben Lee Boynton (Williams).

SOUTHERN SUPREMACY GETS FOURTH TEST

PASADENA, Calif., Jan. 1 (AP)—Southern football supremacy which has predominated Tournament of Roses play in the last five years, gets its fourth test here today when Alabama and Washington State meet in the New Year's Day game's sixteenth renewal.

Three times in five years a team from below the Mason and Dixon line has invaded Pacific coast's grid sanctuary, to collect two victories and a tie. The Cougars from the northwest are slight favorites to break the Southern spell.

Expect 70,000

Some 70,000 of football's faithful followers will be on hand to help usher out another season of the great college sport. Weather conditions are expected to be ideal—cool with no rain.

The contest, Alabama's third in Rose Tournament play, is expected to hinge victory on the ability of either eleven to traverse the air lanes goalward, for both squads boast great lines whose stubborn defensive play made undefeated seasons possible.

Bill Tilden Expected To Turn Net Professional

FORMER AMATEUR KING TO MEET KOZELUH IN FEBRUARY

NEW YORK, Jan. 1.—Big Bill Tilden—professional tennis champion—that was the possibility that faced tennis fans today with the announcement of the latest move in Big Bill's retirement.

Tilden, who Tuesday made his farewell to amateur competition in order to make motion pictures in which tennis would play a big part, yesterday announced his intention of meeting Karel Kozeluh, famous Czecho-Slovakian professional, in a special match in Madison Square Garden in February.

Although one match by no means would make Tilden a champion among the pros no matter what its outcome might be, the fans who were saddened at the loss of the colorful figure of Big Bill from the tournament courts took hope that it might lead to a series of such matches throughout the country and eventually, perhaps, to his regular competition in the professional tournaments along with Kozeluh and Vincent Richards. Tilden, however, was inclined to put a damper on such hopes, saying he would have time for only the one match before his departure for Hollywood.

Umpires Pallbearers At Donnelly Funeral

ST. LOUIS, Jan. 1 (AP)—Eight umpires of the major leagues were honorary pallbearers here Wednesday at the funeral of their "friend," Arthur J. Donnelly, St. Louis undertaker and funeral director.

Donnelly became nationally known as "the umpires' friend." For more than 20 years the arbiters were taken to Sportsman's Park here in one of Donnelly's automobiles and returned to their hotel each afternoon of the baseball season, and Donnelly in other ways entertained them.

The unusual friendship was said to have started when Donnelly's sympathy was aroused by an attack on an umpire by irate fans at a baseball game here.

Umpires Bill Klem, George Magerkurth and Mike Donohue represented the National league at the funeral and Red Ormsby, George Moriarty, Brick Owens, George Geisel and Bill Guthrie of the American league paid their respects.

HIGH QUINTET PLAYS FRIDAY

LITTLEFIELD TEAM TO BE HERE FOR FIRST GAME OF YEAR

The Lubbock High school Westerner basketball team will meet the Littlefield High school cagers at the Tech gymnasium Friday evening in their season's debut. The game will start at 7:30.

Coach W. A. Keeling of the Westerners has been unable to match his team for preliminary skirmishes, though the squad, a large one, has been drilling faithfully for the past four weeks. The practice game with Littlefield here will bring the Westerners out for the first time this season.

An extended trip down state has been planned for the near future by the Westerners. It is thought that the team will leave about next week, playing in Wichita Falls, Fort Worth, Dallas, and coming back up via Abilene and Sweetwater.

Coach Keeling announces that his team will be open for games during the early part of next week and that any team desiring a game should get in touch with him.

OKLAHOMANS WIN HANDILY LAST NIGHT

BULLDOGS RUN SCORE UP IN LAST HALF AS TECH FALTERS

The Southwestern State Teachers Bulldogs of Weatherford, Oklahoma, stepped into the stride that has won twice as many games as it has lost during the past two seasons and flashed a brilliant offense in the last half of their game on the Texas Tech court last night to win the first local game of the season, 40 to 20.

The second and final game of the series will be played at the Tech gymnasium this evening, starting promptly at 8 o'clock.

Play Fairly Even

For the first period of 20 minutes, the teams played along fairly even, the score at the end of the first half standing 16 to 15 in favor of the visitors. But in the second half the Matadors took the floor with the air of a defeated team, and scored only five points during the rest of the melee. The Bulldogs looked good scoring 24 points in the last measure.

The Matadors of Coach W. L. Golightly, appearing in their first game of the season, showed the ill affects of too much practice without competition, having worked out regularly for a period of several weeks with no games. They took charge of things early in the game, playing a stellar defensive game for the first ten minutes while their shots managed to give them a lead for a brief time. They cracked, however, under the strain, appearing somewhat nervous and excited after the score had been tied. The offense slowed, the defense weakened, and the game was lost.

Tadlock Most Consistent

Tad Tadlock, rangy Amarillo cager, playing his last season for Tech and one of the only three returning letter men, played perhaps the most consistent game on the floor for the home club. His defensive work was good, and he managed to save a number of opposing scores by his work under the basket. Captain Clarence Hodges failed to find his old scoring form, but his absence in the lineup during the latter part of the game was keenly felt. Haden Moody, brunette sophomore, played most of the game, but took chances with long shots that counted only once.

Inability of the Matadors to make free shots count cost them not the game but a more impressive scoring record. A number of personal fouls for either side gave each the opportunity of scoring with free shots. Hodges led in the scoring for the Matadors with a pair of field goals and three free ones. Leon Fisher, letter man, scored a pair from the floor and looked good in spots until he was chased off with four personal fouls.

For the visitors, Martin, a guard, was the heavy scorer, looping the basket twice under fire and scoring four free ones. Barnes, starting forward, and Roselle, center, scored seven points each. Coach Rankin Williams placed a well-drilled, smooth-functioning crew on the floor, in good condition with half a dozen games already behind them.

Three million Christmas and New Year's cards were sent to the dead letter office in 1929 because there were no return addresses on them.

SHIRES CONFINES TALK TO SINGLE WORD; FINED $10

HOLLYWOOD, Calif., Jan. 1 (AP)—Arthur "Silent Art" Shires, the once loquacious big league baseball and minor league fighting man, confined his audible remarks in night court here last night to one word, "guilty," and paid a $10 fine for drunkenness.

Shires, arrested early Monday, after annoying police on a social visit to the Hollywood jail grinned at his bride of a month, the former Elizabeth Greenbaum of Chicago, as he took his choice of Judge Edward H. Miller's sentence, "ten dollars or ten days."

Prosecutors declined to issue a complaint against the film player and former first baseman of the Washington Senators for carrying brass knuckles, as Shires was "not a known criminal."

Released after twelve hours in jail Monday, Shires pledged himself henceforth to comparative silence.

"I knew I talked too much," he said, "but I never expected to talk myself into jail."

OLD MAN GRID ESCAPES ANY ACTION

OVER-EMPHASIS OF THI SPORT ADMITTED BUT NOTHING IS DONE

(By The Associated Press)

NEW YORK, Jan. 1.—Delegates to the annual convention of the National Collegiate Athletic Association, coaches, college officials and others closely concerned with college sports were on the way home today leaving behind the impression that old man football is a pretty good fellow after all, but that he has fallen into bad company.

Four days which saw in addition to the N. C. A. A. convention, meetings of the football coaches, football officials, the sportsmanship brotherhood and a few allied bodies, brought the verbal breezes strongly against football with few startling discoveries and almost no definite action against the game.

Somewhat Over-Emphasized

The opinion was generally held that football was being somewhat over-emphasized and that there was too much interest taken in championships and in gate receipts but that the situation was far from serious. The football rules committee pronounced its work virtually finished for a while, and other officials did little but recommend a few changes.

Yesterday's addresses by Dr. Charles W. Kennedy of Princeton, president of the N. C. A. A., and President James R. Angell of Yale struck the keynote for the week. Both urged less football practice, particularly in the spring and fall, shorter and more natural schedules and closer participation of the student in the direction and management of play. The same suggestions were urged by the coaches and at other meetings, and all followed lines of thought expounded by student publications during the past few months.

How Good Doctors Treat Bad Colds

Medical writers agree that the important point in the treatment of a cold, or cough due to a cold, is to relieve the congestion in the nose and throat, thereby preventing serious complications which may follow a neglected cold. To stop this congestion calomel was the accepted and standard remedy until Calotabs, the improved calomel compound tablet, was introduced.

Now that science has robbed calomel of its nausea and danger, making it pleasant to take and perfectly safe for general use, over forty million Calotabs are consumed in the U. S. yearly with only the most pleasant and satisfactory results. In millions of homes Calotabs have proven their superiority in the prompt relief of colds and coughs due to colds.

One or two **Calotabs** at bed-time with a glass of **sweet milk** or water. No salts necessary. No nausea nor the slightest interference with your eating, work or pleasure. Next morning the congestion has subsided, your cold or coughs is relieved, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you wish, no danger.

Get a family package of Calotabs, containing full directions, only thirty-five cents. Trial size, ten cents. At any drug store. (adv.)

plies to the cities, to the towns, to the counties and to the multiplicity of other local agencies.

"But why," he asked, "are our local governments archiac in design, unsuited for the purpose for which they are established, unsatisfactory in their functioning and profligate in the spending of the taxpayers' contributions? The answer is not hard to find. It is because the individual citizen is indifferent to his local problems."

The governor declared it would be appalling to compute the millions of dollars which taxpayers have paid for the price of their indifference.

was finally jailed for failure to pay alimony. He was committed last Sept. 23 for six months. In March he will have a chance for freedom if he can pay the $648 he is in arrears. At present, however, the prospects of getting that much money look a bit slim, he said.

"I can't pay," he said. "My only income is from renting rooms in the home my first wife gave me more than 30 years ago. That means about $10 a week. I'm supposed to pay $15 a week alimony. I used to be an engineer, but how to pay $15 a week and clear up $648 arrears out of $10 a week is getting into mathematics too high for me.

"I've learned something anyway—I'll never get married again."

communities.

Hockley Talks Issue

Hockley county, with assurances of designation of a road from Levelland to the Cochran county line, by the state, talk of bond issues to pave. The north and south highway would probably be included, connecting Brownfield on the south with Littlefield on the north and also No. 7.

Lamb county is discussing highway construction. Several county projects are being discussed and a highway to Fieldton and Olton is now under construction.

The Scurry county election is for bonds to pave No. 7 northeast and southwest to the county lines and also No. 83, the Dal-Paso Cotern highway across the county east and west.

Gaines county would surface with native caliche a highway from the Terry county line through Seagraves and Seminole to the Andrews county and another from Seagraves to Loop. This would be a county project.

NEW DISCOVERY

Continued From Page One

where the bones and knives were discovered was a well-watered flood plain when the ancient butcher shop was in operation, Dr. Cook explained. Streams were flowing across it from the mountains toward the east. All evidence indicates the flood plain existed in the pleistocene age, which extended from about 1,000,000 years ago to within 20,000 years of the present. There is no probability that the flood plain is more recent than that, he declared.

The flint knives were similar to those found at Colorado, Texas, and Torrington, Wyoming. They are well made, indicating their makers were comparatively far advanced toward civilization.

"The constantly increasing evidence of this character makes it appear that early man not only existed at a much earlier date in America than has been, until recently, commonly believed, but that he had reached a relatively high state of advancement, at least in certain directions, in pleistocene times in this country," Dr. Cook said.

been removed," the letter continues. "A revision of the drawings has made it possible to permit commencement of construction before the jail is moved. This accounts for the delay."

Explanations Asked

A number of telegrams were sent Tuesday to Marvin Jones, Morris Sheppard and Tom Connally by the Lubbock Chamber of Commerce, civic clubs and other organizations, asking for explanation of the delay and urging all haste as an aid to the local unemployment situation as well as the express need for such a building here. Answers were received Wednesday from the trio of congressmen, each stating that everything possible was being done to hasten definite action.

Appropriation for the federal building in this city was made months ago and since that time some progress has been made, with promise of final action in the near future. The building is to be located on the southeast corner of the courthouse square.

seat, took the wheel and drove rapidly away. I hurried back to the Orthwein home to give the alarm. The negro made no remark that would indicate he knew the identity of the boy whom he was kidnaping."

Five blocks from the Orthwein home, a negro and a boy were seen by bystanders to get out of the limousine and get into a smaller car. The Orthwein car was found deserted at that point.

Ransom Is Motive

Friends of the family said they could offer no possible motive for the abduction other than ransom. They said the Orthweins had not not employed any negroes for some time.

The Orthwein boy, an attractive youngster, is a skilled horseman for his age. He has won several prizes at shows. His father is vice-president of an advertising agency, a member of the exclusive Racquet Club and a graduate of Yale. His mother was Clara Busch.

Mr. and Mrs. Orthwein were preparing to receive guests when they learned of the kidnaping. Mrs. Orthwein became hysterical, and today was under the care of a physician. August A. Busch, after a brief visit to the Orthwein home, went to police headquarters here where he conferred with Chief of Police Gerk and Cheiif of Detectives Kaiser.

The trio was said by officers to have confessed to taking the articles, including which were some shotgun shells, glasses, tobacco and other items.

NEW YEAR IS WELCOMED

FOUR EVENTS IN CITY USHER IN 1931 BY MUCH GAIETY

Four outstanding events were programed Wednesday night and Thursday morning for proper greeting to the New Year, 1931, by Lubbock citizens, according to the type of entertainment desired. The annual watch party of the Allen Brothers post, American Legion, the annual Firemen's banquet and two dances, one at the Hilton hotel and another at the Uptown Dance Palace, held major share of attention in the city.

Two midnight previews were scheduled by Lubbock theaters, one at the Lindsey and another at the Lyric. Both shows drew large crowds.

Approximately 30 former service men attended the Legion party when an informal program was given, with light refreshments and sport featuring.

Younger set attended dances given by Ralph Britt and his orchestra.

Blowing of whistles and other noise making instruments welcomed the new year, starting shortly before midnight. All during the evening there was a general setting off of fireworks.

Nearly every family that had a radio tuned in on programs in observance of the new year. The peular stations had special programs.

Today Lubbock will quietly observe the occasion. The banks and the postoffice will be closed all day. Three collections of mail in the business section will be had at 10, 2 and 6. No deliveries of mail in residential sections will be made.

Business houses will not observe the day by closing, it was said last night.

Schools will hold their sessions as usual.

Police last night reported a quiet time. A group of boys were picked up by officers who reported finding them looting automobiles. The boys were being held for investigation at a late hour last night.

TOWN FOR SALE

Government To Sell Nitro, Va., To Highest Bidder

CHARLESTON, W. Va., Jan. 1. (AP)—There is a town for sale to the highest bidder.

Federal Judge George W. McClintic today made an order that will put Nitro, a litle town born of the World War, on the auction block in the government's action to foreclose a mortgage for nearly $1,000,000 which it holds against the Charleston Industrial corporation. A date for the sale probably will be set within a week.

Nitro, about 15 miles from Charleston, was built by the government at a cost of approximately $70,000,000 and was used throughout the war as a munition manufacturing center.

At the close of the war the town was sold by the government to the Charleston Industrial corporation for approximately $8,000,000. A mortgage was given for a portion of the purchase price and never has been paid off.

Better Broadcasts Planned In 1931

NEW YORK, Jan. 1 (AP)—Having greeted the new year to its liking, broadcasting has turned its activities toward making 1931 on the air a little better.

Improved programs are the objective, with all of the best features of the old year retained. In that connection it might be mentioned that Amos 'N Andy have renewed their contracts as NBC artists, although the new contract with their sponsors was signed some time ago. They are well on their way to the halfway mark as network entertainers, their popularity in radio actually dating back to the WGN days of 1925 in Chicago.

JUDGE MUST DECIDE ON WHEN A KISS LOSES ITS EFFECTIVENESS; PROBLEM

(By The Associated Press)

LOS ANGELES, Jan. 1—The question of when a kiss loses its effectiveness—legally—is being pondered by Superior Judge Gates.

Yesterday the judge allowed himself six days for the pondering.

The question came up in the action of Mrs. Susie Chiarodit to have set aside an annulment granted her husband, George Chiarodit to have thirty years her senior.

Chiarodit was granted the annulment on the ground Mrs. Chiarodit refused to live with him after their wedding day. She says Chiarodit kissed her and made love to her after she ran away.

She points out according to California law kisses annul causes for divorce, and if a party to a separation condones the offense by a display of affection the cause of action is void.

Chiarodit's attorneys argued their client is so old his kisses would make no difference.

Ford May Acquire Century-Old Bridge

FRANKLIN, N. H. Jan. 1 (AP) — Henry Ford seeks to acquire the century-old wooden bridge over the Pemigewasset river.

City officials considered a letter from W. W. Taylor, Ford's representative, in which inquiries were made concerning the price of the bridge, and its history.

The bridge will be replaced with a modern structure and its disposal has been a problem to city officials. It was understood that Ford intended to rebuild the bridge at his museum at Dearborn, Mich.
