MUSSOLINI STRIKES BACK AT FOES WITH HARSH MEASURES

FASCIST LEADER PLANS RUTHLESS REPRESSIVE LAW

JAIL PROMISED FOR ANY
ANTAGONISTIC
SPEECH

KILLS ENEMY PRESS

ATTEMPTS TO SLAY IL
DUCE LEAD TO THE
REPRISAL

(By The Associated Press)
ROME, Nov. 5.—Mussolini, Fascist leader, today announced a series of drastic repressive measures which were approved by the cabinet sitting under the presidency of the duke himself.

All the measures, after approval by the grand Fascist council, will go to the chamber of deputies at a session next Tuesday, especially provoked by the premier.

Marsh Decrees
The decrees approved by the cabinet provide the penalty of death for every attempt to injure or molest the premier, or to strike against the Fascist regime; provide heavier penalties as much as thirty years imprisonment for direct and indirect opposition; create elaborate system of political police to watch every movement of every anti-Fascist at home and abroad and to put the opposition press out of existence.

Not since the autumn of 1925, when Fascism had apparently won a crushing victory over its foes, have Fascist leaders responded harshly against the enemies of their regime with such vigor.

With the adoption of the decrees, the opposition press will pass out of existence for the time being of all anti-Fascist periodicals are indefinitely suspended. Hereafter, it will be enough to voice an antagonistic opinion by word or writing to be considered an enemy of the regime, open to indictment by imprisonment.

Not only Italy, but foreign nations will be watched by the new political police, while suspected persons will be compelled to remain within deadlines, like former convicts or known criminals.

Anti-Fascist, allowing Italians to leave the country are annulled with the provision that anyone seeking to leave clandestinely will be liable to be shot by the frontier authorities.

CHRISTEN SHIP TODAY
Duggan Leaves to Take Part in Ceremony When "West Texas" is Launched

LITTLEFIELD, Nov. 5.—Arthur P. Duggan, president of the West Texas Chamber of Commerce is leaving Littlefield tonight for Houston, where he will make the principal address at the christening of the steamship "West Texas," Saturday morning, November 6. The West Texas Chamber of Commerce will have their official band at Houston.

ABILENE, Nov. 5.—When the steamship "West Texas" is christened at Houston tomorrow by Miss Frances Long, an Abilene beauty, W. R. Kordie, president of the Abilene Chamber of Commerce, will officially represent this city.

In the cargo are 125 carloads of freight, destined almost exclusively for West Texas points.

CREDIT FOR CROSBYTON
State Inspector Recommends Additional Tullies For High School in Report

(Special to The Avalanche)
CROSBYTON, Nov. 5.—Crosbyton high school will have 22½ additional credits if the recommendations of State Inspector Barrett pass the general board. Barrett visited the school here the past week and made a thorough inspection of the school. He was exceedingly pleased with its activities carried on by the school. Especially was he pleased by the boy scout work and included an allowance of 1-4 credit for boy scout work in the high school here.

Crosbyton now has 16 units of affiliation and both school and town people are anxiously waiting for the report of the state board on the granting of the other 6½ units.

KNIGHTS OF COLUMBUS
CONDEMN CALLES POLICY

CHICAGO, Nov. 5.—The Knights of Columbus charged the Mexican government today with violation of all the principles of civilized government but also accused any complicity in the revolution by Mexican Catholics.

Stamps Out Foes

Benito Mussolini, dictator of Italy, yesterday planned harsh measures to utterly crush his enemies, who have several times recently attempted to take his life.

PARK CONTRACT IS ENTERED BY CITY

TITLE TO PARK SITE PASSED ON;
NOW GROUND IS TO BE
CLEARED

Title of the tract of land northeast of Lubbock, which the city bought for a park site was passed on yesterday and a contract entered between the former owners and the city to complete in clearing the tract rubbish and can pile from it. The city will start work sometime in the future on the park and the grounds will be used next season by the citizens.

All the civic clubs and organizations of the city will be called upon for assistance in making the park a success. A large sum is necessary to improve the park at once, so the city will merely add improvements as they see fit and thereby have the park in continual improvement.

MONTANA DRIES QUIT
No More Arrests on Pro Law Since
Vote to Repeal It, Says
Attorney General

HELENA, Mont., Nov. 5.—Montana state prohibition law enforcement officers, halted in their activities by the majority given the measure providing for the repeal of the state liquor law, have been instructed to make no more raids and report no more arrests. Under the order of Attorney General L. A. Frost, who declared repeal of the state liquor law makes conviction impossible, when cases are called in the December term of the district court, the dry squad will devote its attention to cleaning up the old cases.

RE-SUMMON WITNESSES
Change of Venue in Morris Case Necessitates Fresh Service of
Subpoenas

AUSTIN, Nov. 5.—An application for the issuance of subpoenas for witnesses for the state in the trial of the murder charge against Rev. J. Frank Morris, will be made at the office of District Clerk S. A. Philpott, Saturday morning. It was decided Friday afternoon in a conference between District Attorney J. D. Moore, Sam Saxton and Walter Scott, the latter two from Fort Worth. The state-owned subpoenas for more than sixty witnesses for the trial in Fort Worth.

The new service is made necessary by the change of venue the lawyers filed. The case is to be tried in Austin, beginning January 10, in the criminal district court.

"LET 'EM PET"
WASHINGTON, Nov. 5.—Complaints against "petting" parties on top of the double-decked buses here and requests that lights be installed to forestall the spooks were given the cold shoulder today by the public utilities commission. One member said "let them pet" if they want to, but another commented that if lights were put on the buses "let light" in private automobiles also should be required.

Application for Charter for Cotton
Financing Corporation Expected to
Follow Bankers' Meeting at Dallas

DALLAS, Nov. 5.—Application for a charter for the \$5,000,000 cotton financing corporation being organized by the Texas Bankers' association, will probably follow a meeting of the bankers here Saturday morning. Members from widely separated sections of the state will attend already have been advised that subscription of the stock is assured.

Once organized, the corporation will be able to borrow from the International credit bank on cotton collateral enough money to make up a fund of \$5,000,000, if that much is needed to retire \$250,000 of cotton from the market at once. Withdrawal of this amount of the stock is expected to stabilize the market and bring back normal price levels.

MORE THAN HALF MILLION IS FIRE LOSS IN NATCHEZ

BLAZE SWEEPS THROUGH
HOTEL IN MISSISSIPPI
CITY

THREATENS TOWN

FLAMES FINALLY GOT UNDER
CONTROL AT
DUSK

(By The Associated Press)
NATCHEZ, Miss., Nov. 5.—Fire which broke out in the Natchez hotel shortly after 3 o'clock today appeared to be under control three hours later after gutting the hotel, threatening the business district and causing several other minor fires in the residential sections of the city.

Fire departments from adjoining towns aided in extinguishing residential district fires caused by sparks blown over the city from the hotel.

Guests of the hotel escaped in safety, many clambering down fire escapes, where passage down stairways and elevators was blocked by flames.

Shortly after 5:30 o'clock the fire still was burning in the hotel, although apparently with less fury, virtually all of the woodwork having been gnawed away by the flames and several of the walls apparently ready to collapse.

The hotel building was estimated to have cost \$500,000 exclusive of fixtures. It had been remodelled within the past few months.

Old Friends Are United After 70 Years of Silence

WICHITA FALLS, Nov. 5.—Two trails which had not crossed in 70 years came together here today at a session of the Methodist conference, when Rev. William A. Edwards, a superannuated minister of Dallas, and A. G. Chauncey, of Abilene, met by chance.

Back in 1858 Chauncey was a student in a school at Westville, La., of which the Rev. Mr. Edwards was a teacher. Their ways parted there and neither man saw nor heard of the other until a roll call today brought out the name of Edwards.

Chauncey who is 88 years old, heard it an thought out the man he thought might have been his old instructor. He found it to be so.

Edwards is 92 and is the oldest man attending the conference.

PARRISH PLANNING
RED CROSS DRIVE

"MUST PUT IT OVER", SAYS
MAYOR, WHO WILL LEAD
CAMPAIGN

"We must put over this drive," stated Mayor P. L. Parrish yesterday, in speaking of the gigantic Red Cross drive which will be launched here November 16 and 17 in an effort to raise \$4,000 for home relief. Parrish has been appointed local chairman and is now making plans to put the drive across in fine condition. He has appointed teams and captains who will work in the drive similar to the one conducted here in raising the subscriptions for the Lubbock Hotel.

"Every dollar stays right here at home," Parrish said, and laid emphasis on the fact that all the money would be used to take care of cases which arise within this city. He paid a tribute to the work of Miss Mae Murfee with the local chapter here and expressed a desire to see the work continued.

The teams will begin their work on the appointed time and an appeal will be sent out for subscriptions from all.

TWO MORE BILLED
Lucas and Lynch Held in Jail After
Grand Jury Raises Total
to 15 Indictments

The grand jury yesterday returned three indictments charging violations of the prohibition law and last night the men were in the county jail. Lucas, in two charges has been in the jail since his apprehension several days ago, unable to make bond. The other man, F. Lynch, was arrested last night. This makes a total of 15 indictments for this grand jury.

LAMESA DOCTOR ILL
Dr. A. H. Gilliam Is Stricken With
Paralysis While Driving
Automobile

(Special to The Avalanche)
LAMESA, Nov. 5.—Dr. A. H. Gilliam, well known physician, was suddenly affected by a stroke of paralysis this afternoon while in his car, and was carried to a local sanitarium for treatment. Reports from the Standiford Sanitarium are to the effect that the doctor is doing well. Dr. Gilliam suffered the stroke while driving his car, according to report, and was able to drive the machine to his home before becoming unconscious. His wife discovered his condition as soon as he drove up to the house and summoned assistance.

HOUSE INVESTIGATORS
CONFER WITH WITNESSES

AUSTIN, Texas, Nov. 5.—Five witnesses to appear next week before the house investigators committee were summoned Friday at a conference of committee attorneys.

Close to fifty witnesses have been summoned for next week. The committee Monday will resume its inquiry of state departments after a week's recess.

RAINS AID COTTON CROP

(Special to The Avalanche)
ABILENE, Nov. 5.—Light rains which have fallen over this territory in the last 48 hours will affect cotton, according to J. R. Masterson, county farm agent. Considerable cotton bolls out by heavy rains in the past will survive if the present wet weather continues.

WEATHER

Saturday: fair and warmer; Sunday: partly cloudy.

Wichita Falls: Saturday increasing clouds; Sunday partly cloudy.

East Texas: Saturday generally fair except rain on the west coast; warmer; Sunday partly cloudy; rain on west coast.

BANDITS KIDNAP MAIL CLERK IN A DARING ROBBERY

P. M. KING RELEASED AFTER
200-MILE RIDE
WITH HI-JACKERS

HE TRIED TO RESIST

TWO MEN OVERPOWERED
HIM AND STOLE MAIL
POUCH

(By Associated Press)
HIBBING, Minn., Nov. 5.—P. M. King, mail clerk, kidnaped in an automobile here late today by bandits who stole registered mail he was carrying was released by the bandits on the outskirts of Minneapolis tonight.

Numb by cold and the excitement of the hold up and the subsequent 200 mile ride southward, King had difficulty in furnishing a coherent story of the day's events.

Tells of Crime
He told of being accosted suddenly in Hibbing while following his regular routine of bringing the registered mail pouches from the railroad station to the post office. He resisted. Then, he said, a second bandit, attacked him from the rear. He ceased his resistance when he felt a gun in his back.

Thrown into the bandit automobile with the mail he was kept under the point of a gun while the driver swung rapidly through the main section of the city into the country. Speeding recklessly, the bandits reached here early tonight. Driving more cautiously as they entered the city, they stopped in the outskirts, released King, and threw the small leather registered mail pouch after him.

The holding at first was supposed to be the "shooting of a movie scene." Lacking clues as to the direction taken by the automobile, police and federal officials made little progress in their search for the bandits.

BREAKS COLLAR BONE
Miss Ruby Davis Thrown from Horse
on Johnson Ranch East
of Lamesa

(Special to The Avalanche)
LAMESA, Nov. 5.—Miss Ruby Davis, daughter of J. D. Davis, who lives southwest of town, suffered a broken collar bone today when she was thrown from a horse at the Johnson ranch about twenty miles east of Lamesa. The injured girl was brought to a local sanitarium for treatment.

FALLS TO HIS DEATH
Construction Foreman At Amargillo
in Fatal Plunge of Thirty
Feet

AMARILLO, Nov. 5.—John Zinn, 32, construction foreman for the Panhandle Construction company, was instantly killed late today when his foot slipped and he plunged 30 feet from the top of an oil tank located at Dargers, 60 miles from here. His neck was broken. Zinn is said to have moved to Dargers from Fort Worth about six months ago. He is married.

REDUCE CRUDE OIL
SHREVEPORT, Nov. 5.—Price reduction in North Louisiana and Arkansas crude oil yesterday by the Standard Oil company of Louisiana has been met by the Atlantic Oil Refining corporation and the Louisiana Oil corporation. It was announced here today. The lower prices, which approximate 35 cents a barrel affect all fields except Smackover, Bellevue and Cotton Valley.

MAYBE HE CAN SING
BUT NOT IN TRAFFIC
NEW YORK, Nov. 5.—Art and vaudeville traffic go hand in hand, Babo Marks, 25, has learned. Marks insists he is a better singer than Caruso and will give free concerts on Fifth Avenue to prove it. But the traffic cops were totally disinclined to the extent of arresting him on charges of disorderly conduct.

STUDENTS STOP SMOKING
NORTHAMPTON, Mass., Nov. 5.—In order to reduce the fire hazard, students of Smith college have voluntarily agreed to refrain from smoking in college dormitories until after Christmas holidays.

LOCAL SHRINERS TO ATTEND
AMARILLO CEREMONIAL

Lubbock will invade Amarillo this morning, November 25 when the 1926 Centennial of the Klava Shrine Temple will be held. P. L. Parrish, Oriental Guide of the Temple stated yesterday that the Lubbock delegation would attempt a grand showing and plans are being made toward that end. Besides the local Masons, a number of candidates from here will attend the ceremonial.

RAIDING JUDGE FAILS
TO CONVINCE JURY

SHERIDAN, Wyo., Nov. 5.—Testimony of District Judge James H. Burgess, who personally conducted a raid resulting in the arrest of Dick Hittick, pool room employee on charges of illegal possession of liquor failed to convict a jury that heard the judge testify that Hittick showed him his liquor cache just before the raid, was discharged after deliberating seventeen hours without reaching a verdict.

SMALL PROFIT IN BENEFIT
AND SOMEBODY ELSE GOT IT
NEW YORK, Nov. 5.—Attachment of the proceeds of an entertainment sponsored by the Mother's memorial foundation by Queen Marie here, for which boxes were sold to have sold as high as \$1,000 each, show that \$5,165 was realized, the New York World will say tomorrow.

SPARE THE ROD
NEWARK, N. J., Nov. 5.—Glad tidings for the young Mrs. Dr. Bruce H. Robinson, public school director of the department of child guidance described by red is none.

STARTS AS PEDDLER
ENDS AS MILLIONAIRE
GREENSBORO, Pa., Nov. 5.—An estate of \$200,000 was left to relatives by the will of Wolf Daniels, who came to America 46 years ago from Russian Poland and began life as a peddler.

MILLS TESTIFIES AT
HALL MILLS MURDER TRIAL
BOMERVILLE, N. J., Nov. 5.—John Mills, husband of Mrs. Elsie Mills, the chair singer who was slain with the Rev. Edward W. Hall, four years ago, testified for three hours today, but contributed no information as to the double killing and only vague testimony as to events surrounding the tragedy.

WICHITA FALLS, Nov. 5.—Plans for a "Federation of the Northern and Southern Methodist Churches" which has been approved by the Dallas Pastors' association on November 1, and that body is submitting the present action to the district conference here.

The fight for its adoption will be led by the Rev. E. W. Abner, of Lancaster. Some opposition to it is expected to develop on the floor.

Federation Instead of Unification
of the Northern and Southern Churches
to Be Proposed at Methodist Meet

WICHITA FALLS, Nov. 5.—Plans for a "Federation of the Northern and Southern Methodist Churches" which has been approved by the Dallas Pastors' association on November 1, and that body is submitting the present action to the district conference here.

Woman Defeated

Governor Nellie Ross of Wyoming, elected in the same year that Miriam A. Ferguson was made governor of Texas, has followed the Texas woman governor to defeat. With her above is shown Frank Emerson, who will succeed her.

P. O. PREPARES FOR HOLIDAY RUSH

THREE EXTRA WAGONS, MORE
CLERKS, ADDITIONAL STA-
TIONS TO BE INSTALLED

Three wagons for parcel delivery and an extra receiving station will be installed by Postmaster John L. Vaughan here to take care of the Christmas holiday mail rush to be used for ten days. Mr. Vaughan plans for delivery of all parcels as far as possible.

With the addition of the three extra wagons, the daily parcel mail can be handled, Vaughan thinks. Arrangements will be made for a receiving station in one of the business houses, similar to the one at Abilene's store last year. The place has not been decided upon but the officials are certain that one will be secured.

Sufficient clerks will be in the office to handle all the incoming and outgoing mails, Vaughan said.

CHAS. LARIMER DIES
Veteran Railroad Executive Passes
Out At Dallas: Had Served
Six Companies

PORT WORTH, Nov. 5.—Charles James Larimer, 65, veteran railroad official who had been connected in executive capacity with five or six railroads, and who had lived here since 1875, died Friday at the home of a daughter. His career includes positions as superintendent, trainmaster and dispatcher with the Cotton Belt, Texas and Pacific, Gulf Coast, Rock Port, Worth and Denver, Price and I and G. N.

Evening worship, 7:30 p. m.

Rufus Grissom, of Abilene, representative of the Home Insurance company, was a business visitor in Lubbock yesterday.

Miss Mary Bowles Is Christian Endeavor Leader Sunday

Miss Mary Bowles will be leader of the Christian Endeavor program at the First Christian church Sunday evening with the following program being presented on the subject, "How to Make War against a War".
Leader's talk, "How does the C. E. intend to prevent war?" Miss Jessie Walker, "America first in preventing war." Leland Mast, "The people of the world would have less to quarrel about if they understood each other." Miss Eula Hicks, "Christian union can help prevent war." Miss Kathryn Mills, "More missionaries will hasten the day of permanent peace." Russel Franklin, "The spirit of helpfulness toward the less fortunate peoples of earth." Miss Lucile Barr, special number.

TO HEAR LAST SERMON IN CONFERENCE YEAR

Sunday is the last day in the conference year for Methodist churches in the Northwest Texas conference. Rev. R. E. White, pastor of the First Methodist church will deliver his last sermon for the year at the morning hour. At the evening hour Rev. D. R. Doak, Presiding Elder of the Lubbock district will preach and at the close of the service will preside over the quarterly conference. This is the fourth quarterly conference and reports for the year's work will be heard. The service should be of especial interest to all Methodists. A special invitation is extended to all unaffiliated Methodists living in the city to unite with the church Sunday.

Shell Game

—NEA, San Francisco Bureau.
Have a pearl? But be careful to you'll get a potato. For your information, the word is in the middle. If you prefer a peach, how about the girl, Miss Janis Jewett, of San Francisco?

Tech Delegates Return from Christian Conference

Miss Ruby McBride and Irwin Coleman, who attended the first south-wide student's conference which was held October 28-31 in Birmingham, Ala., have returned to Lubbock reporting that there were over fifteen hundred young people in attendance at the conference and that many Texas colleges sent from two to fifteen delegates with A. and M. college sending twenty-four, the largest delegation. The Texas group gathered in Houston and went from there in a special car.

The Woman's Day

That old, old question—is friendship between men and women? Thyrza Santer Winslow gives her answer in a current magazine. She says, "a 50-50 deal between the sexes is impossible. Either platonic friendship ripens into something deeper, or it drifts into an acquaintanceship that becomes pretty much of a bore."

And it is the man, says Mrs. Winslow, who spoils the friendship game every time. "Either he insists on trying to turn friendship into a more amorous relationship, or his love affairs with other women make him neglect his friendships almost entirely."

A smart girl, this Mrs. Winslow? By the way, have you read her book

The Morning Avalanche Menu for the Day

By SISTER MARY

BREAKFAST—Whole wheat cereal cooked with dates, thin cream, French toast, peach and orange marmalade, milk, coffee.

Tartar Sauce

One cup mayonnaise, 1 tablespoon tarragon vinegar, 1-2 teaspoon French mustard, 1 tablespoon minced capers.

Legs Are Legs—Limbs Grow On Trees New York Model Recites Experiences

He surveyed me as impersonally as a cattle dealer would look at a cow.

By MARIAN HALE

NEA Service Writer

NEW YORK, Nov. 5.—A fashion model in New York city has no modesty, but in its place she has developed a frankness and ability to look out for herself which makes modesty seem quite out of date.

I know. For two weeks I worked as a model in this city where legs are legs and limbs grow on trees. The job as a fashion model in a wholesale house is easy to get if you're the right size. Classified as columnar of newspapers are filled with requests for models at seasonal times of the year.

Models Wanted: Attractive young ladies, size 48 for first class dress house. Must be 5 feet 8 inches tall. Salary \$45.

This ad appealed to me and I got out for West 37th street and seventh avenue, the heart of the wholesale clothing district, one block west of Broadway.

The Big Parade
It was 9 a. m. Already men were lined along the sidewalks to watch the models go by. This in the morning and evening pastime of those who work in this section. They don't attempt to make dates, they are simply there to get an "eyeful."

The models like this attention. With a bored, "high hat" expression they swing about unconcerned, paying no heed to the sidewalk audience by pretending to completely unconscious of it. Tall, cream-skinned girls, models from the several hundred wholesale houses.

"Did you advertise for a model?" I asked someone from the elevator who rapidly into a room-lighted reception room on the eleventh floor of a West 37th street building.

A spare sleek man with "lape-moustache eyes" looked me over. His eyes covered me inch by inch. He turned at my shoulders and turned me around.

The Auction Block

I felt like a slave on the auction block. My self-confidence froze into embarrassment. Yet he surveyed me as impersonally as a cattle dealer would look at a cow.

I passed inspection and was led into a dressing room. Other models in scant silk slips, backs bare to the waist, were making up before long mirrors.

A white capped colored maid was arranging dresses on the rack. A "stock boy" brought in an armful and hung them up. Some of the girls were smoking. The show room was beginning to fill with buyers.

I modeled the dress for the man with the restless eyes. Walking languidly toward him, I tried to drag my toes with the gliding motion I had seen professionally was. I pivoted with arms slightly extended and moved slowly away, one hand resting on my hip.

"You're on," he told me. The man was Harry whom I later learned was noted for his choice of new models. Everyone is known by his first name. Models are "Mary" or "Helen" or "Young" never miss so-and-so.

Getting down to figures
The typical model, size 48, weighs approximately 135 pounds. The "five feet, eight inches" in the advertisement means heels included. Most other proportions average: bust 32, waist 27, hips 36, calf 12 and ankle 8. Her hair is given in a loose loop at the nape of her neck or shingled extremely. Her cheeks are usually pale, without rouge, and the bright lipstick which shapes her lips gives her a foreign, chic, appearance.

"You're going to like it here," whispered a cooing masculine voice in my ear.

It was Harry, his face on close that I blushed. So this, thought I, is the first of the romance and temptations of a model's life.

Mrs. A. G. Gillet was in Lubbock Friday from Abernathy on business.

R. F. Littleton and O. H. Pope, of Abernathy, were business visitors in Lubbock yesterday.

Glen Wallace, of Silverton, was in Lubbock yesterday, transacting business.

MUSSOLINI TO FIGHT ENEMIES

(By The Associated Press)
ROME, Nov. 5.—Benito Mussolini today had his plans ready for carrying out a program arranged with the purpose of putting down vigorously all opposition to himself and the fascist regime.

The old Mosale law, "an eye for an eye, a tooth for a tooth," it was believed, would form the basis of the idea the premier has for sweeping aside all intransigence.

Plan Retractions
The opinion was universal that Mussolini's intention is to answer the country's demand for swift punishment of attacks upon himself or the royal family and that it would be repressive.

Retractions would affect the former socialist deputy Zamboni and his alleged accomplice, General Capella, for connection with the plot to shoot Mussolini last year. (Gino Lucelli, who threw a bomb which struck the premier's automobile and exploded as it fell to the street, and Violet Gibson, the English woman, who shot the premier through the nose.

Police Reorganized
Extensive reorganization of the police to combat opposition and the expulsion of like warm or suspected members of the fascist party, are likely to be called for.

"Tomorrow," said Mussolini in an address from the balcony of Chigi palace, "we will have the acts you have been waiting."

The cabinet and the national fascist directors were called into session today and tonight the supreme body of fascist organization, the grand council, is to meet. Events thereafter likely to move quickly so that the measures agreed upon may be given to parliament, which has been called into session for next Tuesday, for enactment into law within a week.

The Trotter Trio

Answers: "A yard of pork, please," said the witty man to the butcher. The butcher turned to his boy: "Give this gentleman three pigs, please," he remarked.—Crosby.

Street Car Comes A-Calling

Two men were killed and seven others hurt when a street car left the rails and started up a mountain on the outskirts of Wheeling, W. Va. It is shown what the wreck looked like.

—NEA, Cleveland Bureau

TO RECOMMEND UNIFORM SYSTEM OF PHYSICAL EDUCATION FOR ALL SCHOOLS OF TEXAS AT EL PASO MEET

(Special to The Avalanche)
COLLEGE STATION, Texas, Nov. 5.—A uniform statewide physical education system for Texas schools and colleges, will be one of the principal questions for consideration at the meeting of the Texas State Physical Education Association to be held in El Paso on Nov. 8. John B. Bender, professor of the department of physical education at the A. & M. College of Texas, who is president of the association, has announced.

Added significance is given this movement by reason of the fact that joint conference between members of the Texas State Physical Education Association and the Texas State Teachers association which is scheduled to meet in El Paso on the same day, has been planned. The goal of the movement is legislation providing for a statewide physical education and health program, the direction of this work to be in the hands of a state supervisor of physical and health education. According to the plan in mind, such a supervisor would work through the State Department of Education. Conference with S. M. N. Morris, state superintendent of public instruction, who will be in El Paso for the Texas State Teachers association meeting on this phase of the matter has been arranged.

The Program
The official program for the Texas State Physical Education association meeting, as announced by President Bender, will include addresses by Dr. James Edward Rogers, of New York, director of the National Physical Education Service, who will be the principal speaker, and Dr. David K. Brown, professor of physical education, assistant to education, university of Texas. Dr. Edwards will speak on "Physical Education as a Teaching Profession" while Dr. Brown will speak on "Physical Tests and Measurements." General group meetings of elementary, high school and college sections will be held. The program will also include the annual election of officers.

Members of the Physical Education association have been invited to attend the session of the health section of the Texas State Teachers association which will be a part of the latter organization's meeting, thus combining for attendance at the meetings of both organizations for the program on health, a subject of mutual interest. The health section program scheduled includes the following subjects for discussion: "Disorders of the Class Room and Methods of Prevention," by Dr. Leroy Widess, health service, University of Texas; "Physical Education and the Understanding of Youth," by Dr. William Burnham, Clark University; "The Need of Health Education in the Schools of Texas," by S. M. N. Morris.

Rogers to Talk
James Edward Rogers, who will make the principal address before the Texas State Physical Education association, has been dean of the National Education School in which most of the playground and recreation superintendents and executives over the country have been trained. During the war he trained more than 2,000 war workers for War Camp Community Service, and he has helped establish playground and recreation stations in Texas. For twenty-five years he has been connected with national organizations for the promotion of education, recreation and social service. He has studied in the universities of this country and Europe. For many years he was a head worker of settlements and about twenty years ago established the first boys self-government camp in the West. He has been connected with the Boy Scout movement from the start as a scout field scout commissioner. As director of the National

Physical Education Service, he is preaching education through physical education.

In commenting on the movement to obtain a statewide physical education system for Texas, President Bender of the Physical Education association pointed out that thirty-three states of the union at present have state physical education laws and state systems. The majority of the schools in the larger cities of Texas have thorough programs of physical education and health work now, he added, including those of Dallas, San Antonio, Houston and other cities. It is the desire of the association, he said, to extend this work throughout the state.

Cooks light white and flaky!

Drive to Prevent Vare's Seating In Senate Is Opened

WASHINGTON, Nov. 5.—The drive against seating William S. Vare, Republican as the junior senator from Pennsylvania in the seventieth congress has opened.

Senator Norris, Republican, Nebraska, who spoke in Pennsylvania on behalf of William S. Vare, the Democratic senatorial candidate, because of alleged excessive campaign expenditures by the Republicans, declared here that Senator Vare, although technically elected, had been repudiated by the "honest patriotic people" of the state and that the Philadelphia "machine" had functioned as usual, the results in some precincts having been announced before any votes were cast.

Meanwhile the committee of seventy an unofficial body in Philadelphia was preparing to make an investigation in a number of Philadelphia precincts where Mr. Vare was not credited with a single vote.

Discussion of the Pennsylvania situation is expected to be renewed here Wednesday when the senate reconvenes as a court of impeachment to Judge George W. English, on charges of usurpation of power and other high misdemeanors. In view of Judge English's resignation yesterday and the decision of the house

managers to recommend that the proceeding be dropped, it is believed that the senate session will be only preliminary. Most senators here now agreed that the senate would accept the house recommendations.

Related and scattering returns over lineup in the seventieth house, which remains at—Republicans 236, Democrats 195, farmer-labor 2, socialist 1, and undecided 1. A total of 218 is necessary for a majority.

The senate of the seventieth congress will show 47 Republicans, 47 Democrats and 1 farmer-labor, with one vacancy from Maine to be filled at a special election on November 29.

LONGWORTH CLAIMS G. O. P. HAS MAJORITY IN HOUSE

CINCINNATI, Nov. 5.—Nicholas Longworth, speaker of the house of representatives, said today that the Republican will have a solid working majority of at least 20 in the next house.

Questioned by representative of the Associated Press Mr. Longworth said: "The Republican party will have a solid working, efficient majority of at least twenty in the next house of representatives. That means my reelection as speaker."

"It also means the re-election of John Q. Tilso of Connecticut as majority leader and the continuance of the chairman of all important committees. In other words, it means the house as it stands today will be practically continued without change."

It is their tender crispness which has made them famous

THEY are grown from our own pedigreed seeds—these tender, firm cucumbers. To guard their natural, fresh crispness, they are hurried into brine on the very day of picking. That is why Libby's maintains many country pickling stations near the fields. The special crispness of Libby's Pickles will delight you.

WILLING GIVERS—"Then the people rejoiced, for that they offered willingly, because with perfect hearts offered willingly to the Lord." 1 Chron. 29:9.

THE SPLENDID WORK OF CLUBS

Some people can see no good that might come from clubs. We think that there is much good that may come from certain kinds of these organizations. In the literary clubs there is no question that the minds of the members are brought together in the study of matters that are of importance to the community, and to the state, and nation and some extend into the international field. The various luncheon clubs for the men are working wonders toward intercity friendships, interstate and international, and it is believed that the Rotary Club is gradually working its way into an organization that will cover the world completely, that it is believed that World Peace may be the result.

Most of the misunderstanding among people we know arises largely from ignorance of other people's views and thoughtlessness in expressing our own. It is natural that we should not know the views of others unless we come into contact with them, and a casual meeting is not enough to appreciate the views of others at their just value. We should meet them often and enter into serious discussion of one subject or, better still, of many subjects. People sometimes carry their hearts, as we say, on the sleeve, but usually our real thoughts and views do not lie upon the surface. It is only when we are drawn out and when confidence is inspired that we venture to express them. We should therefore have some interest in common in order to learn to know one another as we really are and to exchange our intimate views and confidences. Meeting in the course of business, discussion questions of industry and commerce, production and manufacture, will begin a friendship which may ripen into intimacy, and our view on other questions will then begin to make their appearance. Knowledge has displaced ignorance, and understanding comes into being. It is the same thing, only on a large scale, with nations. If we look at our daily contacts, and of an evening think of the happenings of the day, we will sometimes be aware of thoughtless expression on our part more often than the part of others, which we ourselves would wish not to have said, and which, if said, we should criticize in others. And for the most part these things are said without reflection. If we had considered before we spoke we would have avoided them, and if we should meet on the morrow we would, if we be animated by good-will endeavor to give to the conversation such a turn that we might come back upon our steps, as it were, and modify without necessarily recalling the thoughtless remarks. Often, however, we do not meet on the morrow. We have already gone our different ways, and the seed of misunderstanding is sown. If we were obliged to meet as we are in industry, in commerce and in trade, the opportunity would be forthcoming, and the misunderstanding of a moment corrected by an understanding for the future. It is so with nations. The unfortunate expression causes bad feeling, and unless the opportunity of correcting it presents itself relations become strained. Nations, however, cannot act of themselves, but only by their citizens or subjects. If they come into contact with those of other nations, if there is an interest bringing them together, such as industry or commerce, and if they learn to know one another and to appreciate one another, their influence will count for the good understanding of their respective nations. The more the citizens and subjects of different countries meet on the common ground of business, the better they learn to know one another, and with knowledge comes understanding. Without good-will, everything is possible. Through contact and through understanding, friendship and good-will are begotten, and we are assured on the highest authority that peace, so necessary in every walk of life and between nations, is only promised to men and women of good-will.

MAN MUST HAVE WORK

M. Grandillon and M. Lenbeaux, two French scientists, supported by their government, experimenting on a vast scale in an effort to harness the dynamic energy of solar rays. Others have sought to utilize the tremendous forces that do the work of nature. The winds and the tides sweep all before them. Holding the tiny atom together is the entire strength of nature. When man learns to disintegrate it and loose its power pany explosives like dynamite and

T. N. T. will compare to its overwhelming energy as cap pistols to seige guns. But, is the human race ready to live without work? When some genius unlocks these tremendous sources and compels them to work for mankind, as the power plants of the present, there will be none but the slightest toil left for man. In that day they will look back in wonderment at our age, and call it the era of sweat. Henry Ford's five-day week will look like the average sentence of an American bandit. What would man do with such unbounded energy? Use it to lighten toil and sorrow and create a better race or fashion fresh implements with which to conquer the world and slay its highest creatures? At this stage of our so-called civilization the story of the Garden of Eden would be repeated with idleness, ease and lust thrusting the snake out of the drama. The intelligence that ordered this universe and understands man, whose life mocks his professed worship, is too great and too wise to curse the present race with the absence of toil.

MUCH SPACE WASTED

Entirely too much newspaper space has been wasted on the Hall-Mills murder of New Jersey, and the Almee Semple McPherson narrative from California. What is gained by keeping the wires hot on these trials escapes us. If the public wishes to read illicit relations and to puzzle over Mrs. McPherson's saint or sinner query, it would probably like many sordid and salacious tales that can be featured all over the country. Many people who read this kind of stuff as news, shudder with horror at young minds enjoying "smutty stories" and other magazines of that ilk. Every once in a while we are almost convinced that the public wants to read the detailed account of such rotten exhibits. If this is correct the public mind is filthy. Understand, we advocate no censorship of crime news. Let them be reported reasonably, not featured and played up as outstanding events in the national life.

RELIGIOUS EDUCATION IN THE NEAR EAST

Near East Relief has carried through a program of service that stands as one of the most creditable achievements of Christian philanthropy. And American Protestantism has had the larger share in the work that commends our Churches to the rest of the world. This is said not to commend ourselves or to give occasion for boasting of our superior brand of Christianity. The call of the millions who suffered in those lands out of which came our faith reached America and the American people at a time when we were better able than were other people to answer the call. We gave of our abundance—not all that we were able to give, but with a liberality that perhaps went beyond any previous giving.

There was the period of relief work when the one demand was to provide food, clothing and shelter for the millions who were destitute. Then came the period of constructive relief work, the building and maintenance of orphanages and other homes; later the training of children and young people for useful service, schools with industrial features, and other such institutions. This period is not yet at its close, but already thousands of young people have gone out able to make their way in the world. And these are of the future leaders of the Near East.

In all of the work done until now there has been more than ministry to physical needs; there has been service to spiritual needs as well. This latter is now the outstanding feature of Near East Relief. And be it said to the credit of American Protestantism there is not the effort to supplant the Churches of those lands or to build American Churches on the wreck of ancient faiths. It is a program of co-operation with Eastern Churches, this both to hold the children and young people to their own Churches and to help these Churches to meet the demands on them. With the support of the Federal Council of the Churches, the International Council of Religious Education, the American Bible Society, and other organizations a constructive training program for the orphan wards of Near East Relief has been worked out, this in co-operation with and through the Churches in those lands. A Committee on Religious Nature, with representatives of American Protestant Churches and of the Greek Orthodox, Greek Protestant, Armenian Apostolic, and other Churches of the Near East, has been organized to supply literature and to advise Near East Relief in the religious instruction of its orphan wards. It is an enterprise that must look mainly to American Protestantism for its support, and it is to the credit of our people that well-nigh all of the Protestant Churches of our country are giving their support. It is the promise of a new and better day for the Churches of our own land.

Little Avalanches

Airplanes can be spotted by a new finding machine of the Army when the hostile plane is four miles away. Automatically the machines train searchlights upon the approaching plane at the proper angle and the gunners can switch on the searchlights and train their guns in the same way. The range of the anti-aircraft guns is such that projectiles can be carried farther than it is possible to see the target used in training.

Kerosene is the new ingredient recommended by the Department of the Treasury for use in industrial alcohol so as to make it innoxious to persons. General Andrews, in charge of prohibition enforcement, says that the new material will make the alcohol so "that no human being can retain the stuff in his stomach." By doctoring the alcohol in such a manner, the temptation to secure it for beverage purposes will be lessened.

OUT OUR WAY

By Williams

LAUGHS

Qualified for His Position

A man from the city returned to his native country village after twenty years away from it, and was inquiring of Uncle Ezra about all his old schoolmates.

"What became of Tom Smith?"

"Well," said Uncle Ezra, "Tom tried farming for a while and failed, at that. Then he went to law school, and after three years trying to make a living at law in the county seat he failed at that. Then he tried publishing a newspaper and that went into bankruptcy."

"That's too bad," interrupted the man from the city. "Tom was a good fellow. Everybody liked him. I'm sorry to hear that he's such a failure."

"Failure, hell!" exclaimed Uncle Ezra. "He's our congressman!"—Saturday Evening Post.

Looking Forward

Mother: Remember, Willie, that if you save your money you may be able some day to buy a seat in the United States Senate.—Saturday Evening Post.

Simple Spellers

Some letters ought to be indorsed. "Dictated but not spelled."—Saturday Evening Post.

Marshall—The Joneses are moving from the neighborhood.

Muriel—Moving? Why, people are just getting to know them.

"That's why they're going."

Snubbed

Tid-Bits. He had been hovering near his host's daughter all the evening, and at last his opportunity came. "Might I ask you for the next dance?" he asked.

"Please do," said the girl. "I've been simply hanging to turn you down the whole evening."

SO THINK WE

We think it is a very good thing to put some folks out on a limb and make 'em work out their own salvation, in a financial way. It is the making of some folks, and it will at least show the stuff that is in them.

We think there need not have been any uneasiness on the part of the democrats of Texas that Don Moody would not be elected in the general election Tuesday, but there is one thing certain he got a scoundrelly small vote in the state. Not because it was him, but just because there was no real live interest taken in the general election.

We think Texas voters should be quite ashamed of the vote cast in the general election. It might not mean anything for any special community, but to the south and the entire state it means more than the average voter seems to realize.

We think Lubbock should at once take steps to have municipal auditorium that will seat all the people that will want to assemble for many years to come.

We think it is mighty fine that the city commission has decided to have a city park. It is something that the people are very much interested in, and something that will be a great thing for the community.

We think the committee on sidewalks recently appointed by the president of the board of City Development, should get busy and make the curbs that was suggested and see if something cannot be done to the schools.

We think the people of Lubbock have shown their interest in the Tech College in more ways than one, and now we believe that we should show an interest in the school by completing the sidewalks to the campus on several of the streets leading out that way.

We think by all means that college avenue should be paved. Wonder if something cannot be done to get this started.

We think with Nineteenth street paved and College Avenue that it would add much to the convenience of the general public and it would also be very beneficial to the property owners as well.

We think just because Al Smith was elected Governor in New York, that it is no indication that prohibition has failed.

We think that the most powerful thing on earth is truth, and it seems that people are using it less frequently now than ever before in the history of the world.

We think that practically all our troubles come from not knowing the truth.

We think that most of the shadows of life are caused by standing on our own sunshine.

IT IS REPORTED

That "bad colds" are on a rampage in the city. No doubt they are bad if there are any at all.

That several car loads of mail order catalogues have been sent to west Texas. Most of them are sent to towns where the merchants do not advertise in the local papers.

That the days of the turkey gobble are now 19.

That this life is lived with silver if we will only look for it. The sun shines many times when we do not see it because of our failure to look.

That doubt has been expressed by some that there is a Santa Claus. It

is a mighty strange thing that this question arises every year about this time. Then old Saint Nick comes along as usual about the twenty-fifth of December.

It is reported that a pure show law was passed some time back, but the trouble that no one has been found who could purify them.

It is reported that people are eating more eggs and less meat, and now add a big bunch of green peppers and lettuce, and other vegetables, and we will be happy.

It is reported that home owners are increasing each year. That's the system. The home owner is the happiest person of the two—the other being the tenant. He never knows where he will be the next month, hence can not afford to fix up the place home-like.

It is reported that the crop of good old home grown sausage is better in this country than last year's at this time, and still some folks claim that these are hard times.

It is reported that some folks just can't be satisfied. We want the price of cotton to go up and the price of turkeys to go down. It's a hard job to please everybody.

It is reported that the cox and the sow and the hen has helped some of our farmers to pay off the mortgage on the home and "little" too. We have noticed they are mighty fine mortgage lifters.

It is reported that there is fifteen million dollars worth of cotton in the South Plains. If the farmers will just catch it. We believe every pound of it should be saved. It will sell for a price, and fifteen million dollars scattered over the South Plains will give every "per capita" several dollars.

It is reported that people have run their automobiles over the school ground at the high school and cut up the grounds till they look more like the center of a round-up herd than anything else. It should be so arranged that cars can not get on the school grounds at all. Build a curb around the entire block so high that cars can not pass over it.

JUNK

Lamb County Lender:

The attic, the cellar, and sometimes a corner of the hay-mow are half-way places in most homes around Littlefield for articles that have been left only for the junk pile. Just now housewives are getting everything ready for the winter season, and as they come across articles they will not need they put them away—just take up more room—instead of stopping to consider whether they will ever really need them again or not. As a result each year finds the attic or the cellar, or the hay-mow or the coal house packed a little tighter. And with stuff that is of absolutely no value.

Why carry this stuff over to the spring season, when you know it will be necessary to get rid of much of it? If you've some old clothes you do not need, why not pass them out to someone worthy, who would be glad to have them now that chilly weather is here? If you have articles of furniture still in serviceable condition but rendered useless by the recent purchase of other pieces, why not spend a few pennies to run a little ad in the paper? Someone may be glad to get what you are offering, and willing to pay a fair price for it. Thus the clean runs into the garage instead of the attic or cellar. They are delivered in those two places, but in the garage they come in handy in clipping off the car, or in drying it when it is washed.

Don't build a fire-trap in the house with junk that ought to be thrown away or given away or sold. Don't leave it where a stray spark may ignite it or spontaneous combustion may set it in flames—and burn down the house with contents that are worth something. Get rid of the junk now that the time for building fires is here again.

Lone Trader, King of Far-Flung Victoria Land, Deals in Cargoes 3 Years on Way

By NEA Service

SEATTLE, Wash., Nov. 5.—With all the boasted speed of modern transportation it still takes a year and more to land in New York state, condensed milk, the footgear from St. Louis and Akron—and aboard come thousands of dollars worth of fox skins and other pelts.

Another two years, or three, the furs, lined with silk, will grace beauties along Fifth Avenue.

Romance? The trade drips with it. Consider the Old Maid herself. Built of teak and mahogany, she was for years a swift "blackblinder" running shaves into her narrow hold in the South Pacific. Crammed into her farrow hold, sweating human beings groped for air in long reaches over southern seas.

Lone Adventurer

Only one small motorship makes the far, ice-bound shore settlements of Victoria Land. Her skipper, a hardy veteran of the north, is known as "The King of Victoria Land." And his ship is the Old Maid No. 2.

The king signs himself very roughly, "C. Klugeberg." That signature is known at the front door of the north pole, better than any other reading matter. Over Victoria Land's 30,000 square miles, nearly twice as large as New York state, C. Klugeberg reigns supreme. He is one of the few white men there.

Once in every two or three years the Old Maid No. 2 makes her blent here into wild harbors on the icy coast drops her hook and draws from her hold Eskimos along the shores, an excited yelp.

WASHINGTON NOTES

COOPERATION

Cooperative marketing has grown largely in the last decade, according to figures made public by the department of agriculture.

In 1915, 4,424 farmers' associations reported a volume of business reaching \$248,000,000, whereas in 1925 18,700 associations handled \$2,400,000,000 worth of business. This was an increase of \$1,700,000,000 in the ten years.

The largest gains in dollars were made by the North Central states including Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, North Dakota, Iowa, South Dakota, Nebraska and Kansas. Least per cent gains were made in the Southern states producing cotton and tobacco, while the Pacific coast states almost doubled their cooperative business.

Divided as to the crops, grain associations handled business amounting to \$750,000,000; dairy products \$250,000,000; live stock, \$250,000,000; cotton, \$150,000,000; tobacco, \$90,000,000; and fruits and vegetables \$250,000,000.

JUST FOLKS

By EDGAR A. GUEST

BOOKS

I look at my shelves of books and say: Here are my friends for a rainy day. Always faithful and always true. No matter what I myself may do. Here they are ready, neat and trim. Always on hand for my slightest whim.

Books won't quarrel and books won't sneer. Won't borrow money and disappear. Won't flatter to sell me some worthless thing. Set up a trap which they hope to spring. Books won't vary with every mood. Or poison my fire with ingratitude.

Here are my books, and they don't get drunk.

Don't come to my room and rob my trunk. Don't disappoint me by going wrong. Or playing false when my faith was strong. I can always trust them for comfort when I am sick and tired of the ways of men.

Books are constant, the while I live, Courage and wisdom and strength they give. Laughter for glad times, faith for sad. Many an hour with them all I've had. And whether the world praise me or blame. The books that I've cherished remain the same.

TECH MATADORS HOLD HILL BILLIES 0-0 TIE

WESTERNERS MEET LITTLEFIELD AT TECH GROUNDS TODAY

TECH ENTRY SUCCESSFULLY DEFENDS GOAL POSTS FROM ATTACK OF T. I. A. A. TITLE BIDDERS AT BROWNWOOD

BROWNWOOD, Texas, Nov. 5.—The Daniel Baker Hill Billies T. I. A. A. contenders for the gridiron championship and the exas Tech Matadors battled to a scoreless tie here this afternoon before a good attendance of Brownwood fans who attended the game to witness the action of the Matadors, who are being trained by former Daniel Baker coaches, Ewing Y. Freeland and Higginbotham. It was an interesting and thrilling event, and an unusual evenly matched contest. The Hill Billies worked through the initial half without making a first down against the Scarlet and Black defense; although on the other hand, the Matadors were only able to accomplish one first down on the Daniel Baker crew in the first session. Neither did the "Bull-fighters" or the Goats threaten any time during the first period.

The Matadors attempted one field goal from the 45-yard line in the latter part of the first half, but it was wide. This goal was attempted from the Hill Billies 45-yard line.

Makes Seven First Downs
An awakening was noticeable on the action of the Daniel Baker eleven as they stepped in action for the second half; they came to life and made seven first downs during the latter period. At the same time they held the Matadors to single first down. Twice the Hillies were in striking distance; but due to some doubtful thinking and headwork on the part of Villa, the Baker quarter-back, they failed in both instances. Late in the third quarter the Hill Billies made three first downs in succession and marched the ball from the Matador 15 yard line to the Scarlet and Black 15 yard line.

Tech Defense Too Much
In a full-attempt to march over the Matador line, Flack, Dimitrie half of the Brownwood College stepped for three yards; Villa called for a pass; it was passed, and Woodbridge, Tech field director, reached up to intercept it on his own eight yard line. On the next play, at the 15 yard line, the Matadors made a first down. The terminal man of Freeland's crew, pointed to the Flack 45 yard line, relieving the tension.

Again the "Marching Goats" tramped down the gridiron to the Matador 15 yard line where they were called to a halt with an almost impenetrable defense. McWilliams, Tech's quarterback, slipped through for six yards. Flack attempted a pass on an off-tackle back, but failed; it was taken down with four yards to go when Flack was called back for a field goal; it was missed by a small margin, the ball flying high and wide.

Several costly fumbles were made by the Hillies during the afternoon's performance. The Daniel Baker crew were penalized for a total of sixty-five yards; the Matadors twice for 20 yards. Two passes were attempted by the warriors of the Scarlet and Black, three of which were completed. The Hillies resisted to the aerial route on five different occasions and were successful in putting over two.

Goals Played Better Game
It is no doubt that the forward wall of the Hillies was the better of the two clubs, especially on the defense, as it was impossible for the Matadors to lift the Hillie wall to any advantage. Only two first downs were accounted for by the Flack eleven. In the last half big holes were opened for the Hillie backs, especially the ends, Trammel and Montgomery work in a brilliant manner.

Captain McInnis and Rodie, tackles for Daniel Baker, put on a gallant fight and mastered the positions in a good manner, but they were pitted against two of the most powerful tackles in this section of football do-main. In the work of Francis "Red" Carpenter and Kora Abchide, McWilliams and Flack, half backs for the Hillies, presented a good game for the fans, both hitting hard and low. McWilliams, husky back, made a kick after gain with his powerful action on off-tackle plays. Dillard, who was sent in for Hammons in the Baker line-up, reeled off several long gains while in action. Flack was a mack, man, and was held fairly well, however, he successfully gained at times during the contest.

Jennings And Stevens
"AT Jennings, who has been unable to appear in the Tech line-up for some time, played wonderful football for the Tech. Also Roy Stevens, fleet back, was played the entire session at half. Floyd "Kiddie", Twentynine, ran his club with unusual smoothness and in a very heady fashion; only one bad misadventure was credited to the youthful grid performer.

"Stacker" Hill, acclaimed as one of the strongest full in the football circles of Western Texas, played a most colorful game as safety for the Matadors. His ability in handling punts was very creditable.

The nearest Matadors marched the ball to was at the Hillie 35 yard line. This occurred in the initial quarter. After that the eleven of the Lubbock college were unable to get further.

Starting Lineup
Tech: Trammel, Left End; Jennings, Left Tackle; Aldridge, Left Guard; Reed, Right Guard; Corley, Center; Smith, Right Tackle; Carpenter, Right End; White, Quarter; Woodbridge, Fullback; Stevens, Left Half.
Hill: Daniel Baker, Trammel, Left End; Jennings, Left Tackle; Aldridge, Left Guard; Reed, Right Guard; Corley, Center; Smith, Right Tackle; Carpenter, Right End; White, Quarter; Woodbridge, Fullback; Stevens, Left Half.

Strolling Down Sport Lane With James R. Dow

It was nothing to nothing battle down on the Hill Billies' grid. At that this boy is mighty proud of our Matadors. They have fought the hardest of the state. The heralded mighty line must have found its Smith when they charged in the Smith, Reed Carpenter and Aldridge.

Well, there is one sure clinch about this "cliffhanger" situation, they have more ties than anybody—three for this season—every one of them scoreless. There is no use of these buddies getting any more ties.

It was Schneider 9-0; then it was Simmons 9-0, and now it is Daniel Baker 9-0. These Matadors are ball-headed—if they can't count, it's hard for the other team to count.

Freeland and Higginbotham are safe in Brownwood. The two were former coaches of the Daniel Baker college and have a host of friends in Brownwood—they came out to satisfy their friends and themselves also.

Lubbock, Amarillo, Plainview are in a triple tie for the Panhandle championship. The Sandies lost to Plainview with a score of 18 to 6.

The Westerners still have their chance—so do the Plainview Bulldogs. Aggie laid the scene of a tie game yesterday—the Frogs tied with the Farmers by a 13-13 count. This tie game practically put the Frogs out of the running. However, T. C. T. has not lost a conference game this season, but has tied with two teams.

Down in Waco today the fans and hide will fly—after a Bear meet. The Baylor Bruins and the Texas Longhorns tangled up in the crucial conference affair. Baylor has not lost a conference game, has tied one with the Frogs, while State has lost to the Ponies.

S. M. U.'s Mustangs are no doubt the favored ones for the game with the Rice Owls today. But the Owls have won many a game from the Ponies in former years. Heisman is likely to give the Ponies a taste of roughness.

This afternoon the Westerners will meet with the undefeated Littlefield eleven. Littlefield has scored up 113 points in six games this year and has not one of their opponents scored on them.

Payne Wood, captain of the Wildcats, will bear the offense drive to be used by the Littlefield eleven. The team has won many a game from the Ponies in former years. Heisman is likely to give the Ponies a taste of roughness.

Far be it from us to intimate that it is possible for some tennis players to make more money as amateurs than they can as professionals.

No football team ever got very far without a good line, and the same seems to go for our politicians, who speak glibly of rendering so much unselfish public service.

In certain circles the visit of Queen Marie has created a fluttering comment. And yet there is no record of the royal lady ever having expressed a melodious preference for "Horses, Horses, Horses."

Fame does flit. . . . Not many people can tell you today whether Michael Arley was a lutanawitch champion or a Broadway barkeeper.

Mr. O'Goofy wants to know if the overhead game in professional football has anything to do with the cost of operation.

The newspapers are printing pictures of Babe Ruth making up backstage. . . . It will be more interesting to see pictures of him making up with Col. Rappert after that new contract has been signed.

Never look a gift horse in the mouth. The figures, showing that four out of every five have it, are probably correct anyway.

There's a two-year-old baby in Baltimore that can whistle. . . . This ought to make him the leading two-year-old of the season in spite of all the fluttering things the turf writers have been saying about Crusader.

We see by the papers that Mr. Brown had gone into the courts to get a divorce. . . . We had hoped he would get into them to get a guardian.

There is no dope sheet by which critics must guess an outcome of the 11th. However "Old Mizzu" is heavy favorite by virtue of a clean state, which includes victories over Nebraska and West Virginia. The Tigers have tied Southern Methodist university and Tulane in inter-sectional contests this season.

APPOINT RECEIVER FOR CLEVELAND TEAM
PHILADELPHIA, Nov. 5 (AP)—Appointment of a receiver for the Cleveland Panthers and the disfranchisement of the team today caused a stir in professional football circles in this city where the Cleveland eleven was scheduled to meet the Philadelphia Quakers tomorrow.

Several thousand tickets had been sold for the contest which was to have been held in the Schuylkill-Continental stadium. In order not to disappoint the fans, officials of the Quakers arranged with the Rock Island team to play here tomorrow instead of next Saturday. The Panthers had been guaranteed \$1000 for the game here.

Tiger Runners Win
NEW YORK, Nov. 5 (AP)—Princeton cross country team defeated New York University today by a single point, 27 to 26. Individual honors went to Phil Edwards, senior star of N. Y. U., who led the pace home over the six mile Van Cortlandt park course in the fast time of 31 minutes, 29 seconds.

John Tague left yesterday for his ranch near El Paso where he will attend to business matters.

Gets Tough Break

JOHN B. SALMON

University of Arizona lost one of its greatest football players when John B. Salmon was badly injured in an automobile accident. He probably will be a cripple for life.

Salmon was quarterback on the varsity eleven and catcher on the baseball team. He is completely paralyzed as the result of the unfortunate accident.

The NUT CRACKER by Joe Williams

Mickey Walker has decided not to fight as a welterweight any more. A decision the boxing fans of the country reached for him some months ago.

The professors are still crying that football coaches are overpaid. . . . They have seen some of the teams perform this season we are beginning to think so ourselves.

Far be it from us to intimate that it is possible for some tennis players to make more money as amateurs than they can as professionals.

No football team ever got very far without a good line, and the same seems to go for our politicians, who speak glibly of rendering so much unselfish public service.

In certain circles the visit of Queen Marie has created a fluttering comment. And yet there is no record of the royal lady ever having expressed a melodious preference for "Horses, Horses, Horses."

Fame does flit. . . . Not many people can tell you today whether Michael Arley was a lutanawitch champion or a Broadway barkeeper.

Mr. O'Goofy wants to know if the overhead game in professional football has anything to do with the cost of operation.

The newspapers are printing pictures of Babe Ruth making up backstage. . . . It will be more interesting to see pictures of him making up with Col. Rappert after that new contract has been signed.

Never look a gift horse in the mouth. The figures, showing that four out of every five have it, are probably correct anyway.

There's a two-year-old baby in Baltimore that can whistle. . . . This ought to make him the leading two-year-old of the season in spite of all the fluttering things the turf writers have been saying about Crusader.

We see by the papers that Mr. Brown had gone into the courts to get a divorce. . . . We had hoped he would get into them to get a guardian.

There is no dope sheet by which critics must guess an outcome of the 11th. However "Old Mizzu" is heavy favorite by virtue of a clean state, which includes victories over Nebraska and West Virginia. The Tigers have tied Southern Methodist university and Tulane in inter-sectional contests this season.

APPOINT RECEIVER FOR CLEVELAND TEAM

Old Fires Flame on Western Grid
CHICAGO, Nov. 5. (AP)—Confederates lifted their flames tonight before homecoming crowds on four campuses where western conference eleven were encamped.

Northwestern rekindled the fire of old rivalry against Purdue, usually significant this season, because both teams aspire to capture the big ten honors. The shadows thrown by Iowa's bonfire omened to Old Gold followers ill fortune for the invading Minnesotans. Chicago's blaze lifted to the autumn sky petitions for victory over Illinois.

Notre Dame conference school piled fuel on a conflagration which tokened, welcome to the alumni returned to see Indiana routed.

Of all those campuses homecoming companies began which will reach their peak at the game tomorrow, to stem the onslaught of the Wolverines toward the big ten supremacy.

Fairstar Wins Futurity Race
BALTIMORE, Nov. 5 (AP)—Fairstar, William Dapson's fox catcher farms filly, rounounded the talent as Old Hill top today to make the Fintlec Futurity, richest of the season's eastern track stakes and bounce Mrs. Walter M. Jeffords Scapa Flow from the leadership of the two year old money winners. Running the mile in 1:40 3-5 to win by a head over Al Weston's Jopson. Fairstar took down a purse of \$55,000 for her Wilmington, Delaware owner, including a \$4,000 award to her Maryland breeding. Fairstar was bred at William Woodward's farm stud.

Japan netted \$5,000 for his performance, and H. P. Whitney's Whisker, who came far back to take show money of \$2,500 left fourth place to his stable mate, Bostonian. Fourth money amounted to \$1,000.

G. H. Roper, member of the teaching force of the Lorenzo schools was a visitor here for the past several days.

LUBBOCK AGAIN IN TITLE RACE SINCE PLAINVIEW BEAT AMARILLO, FACES WILDCATS ON LOCAL GRIDIRON

This afternoon at 3 o'clock the Littlefield Wildcats, a strong Class B aggregation, will clash with the Westerners of the local high school. The game will be played on the Texas Tech gridiron. The record accumulated by the Wildcats is more outstanding than that of the Westerners in that they have not lost a game neither have they been scored on.

Since the Plainview victory over the Amarillo Sandies the Westerners still have great chances for the district title and are working even harder than before the crucial contest with the Amarillo delegation on last week-end. Today's game with the Littlefield club will give the members of the Lubbock eleven a chance to work and institute new plays, as it does not mean the conference in the event they should lose.

It is the ambition of each member of the Littlefield team to put over the victory on the Westerners this afternoon. Never in the history of the Wildcat's clashes with the Westerners have they succeeded in the gridiron event.

Payne Wood, flashy and brilliant Wildcat and captain of the club, has shown the Westerners much to worry over in his previous years with the Littlefield club. He has been a hard man for the Westerners to handle; is a triple threat man, and is likely to break loose at any time in the game.

Besides Wood, the Littlefield coaches, have plenty of valued and experienced men to assist the captain on the field. Several of the members of the Littlefield eleven have had several years of experience in the game and are familiar with the fundamentals of the game.

The regular line-up will start for the Westerners it is thought. Even though the Littlefield school is not in the higher rated circles of football, they will give the Westerners a taste of real football this afternoon. The Wildcat's are bidding strong for the Class B championship of the South Plains district.

ARLINGTON SWAMPS PARIS
PARIS, Texas, Nov. 5 (AP)—North Texas Junior Aggies of Arlington swamped Paris Junior College football eleven, 22 to 6 here Friday afternoon. The Aggies displayed superior football throughout the game, gaining chiefly on line plungings and end runnings. Paris flashed an air attack but could not pierce the Farmer line.

A. T. Trippet of Corpus Christi is here "visiting his daughter, Miss Pauline Trippet, who is a student in the Tech.

ANNOUNCEMENT

We wish to announce to the people of Lubbock and Vicinity that you now have in your midst,—a direct—

TECHNICAL TOPICS

By C. W. RATLIFF

PARADE ARMISTICE DAY TO BE STUDENT AFFAIR ALSO

Combined with the formation of organizations of the city will be the Tech organizations in the parade which is to be held here Armistice Day. Each of the four schools of the college will be represented in the line as well as the other organizations. The Tech will be represented with a float, which will carry students representing every activity.

A meeting is called for today at 12 o'clock and final arrangements will be made for the parade among the students.

ENGINEERS TO MEET TODAY

The blue shirts have something to discuss again and a meeting has been called for all the students of the school of engineering today at 11:45 in Room 105 of the engineering building. The call which was sent out yesterday urged that every engineer be there as matters of importance are to be discussed. The first intra-mural game with the aggies is approaching and the engineers are preparing for a battle.

LIBRARY NEEDS MORE ROOM

With students sitting on the floor and some even standing, the Tech library is in dire need of more space and efforts are being made by Miss Elizabeth West to make the unit spacious enough to accommodate all of its users as soon as they arrive and the passage ways between the tables will be much smaller. With approximately 200 students using the library at all times during the morning, all space is being used.

The night library hours are proving more popular and a great number of the students are doing their studying at this time. When the first building program is submitted on the next appropriation, Miss West plans to have a library building in the front ranks.

LIBRARY RECEIVES OLD DIARY
One of the most valuable and most interesting gifts to be received by the Tech library arrived yesterday from Miss Joan Royce of England. The gift is two volumes of the diary of Mrs. Cornelia Adair, wife of John Adair, pioneer in this section and the founder of the J. A. Ranch, near Clarendon. They were sent to the library as the personal property of Miss Royce, secretary to Mrs. Adair when she was living.

The volumes date from August 30 to November 5, 1874, and give an account of a trip to the United States from England, coming through Canada and making a hunt on the way. They are copies of the original writings of Mrs. Adair and contain a preface by her telling of her reason for keeping the account. The books are for private circulation only and the Tech is considered fortunate in receiving the volumes.

Mrs. Adair, with Mrs. Charles Goodnight were the first white women on the Plains and a close friendship developed between the two. The old J. A. Ranch is still intact near Clarendon and will probably remain so, the land being only fit for ranching purposes. Since Mrs. Adair's death, the ranch has been under the supervision of the estate and has become a spot of interest to tourists in this section.

The diary is a gem of hunting accounts and a very interesting piece of Western literature. Miss West, librarian is highly elated over the gift and plans to continue collection of works of this nature.

GIRLS TO HIKE TEN MILES THIS AFTERNOON

The girls of the W. A. A. Hiking team will leave this afternoon at 1:30 for a ten-mile hike. They will go five miles out and five back, taking a small lunch. This hike is primarily a test walk as the girls will take many more during the year. Last year the girls made one fifty-mile hike, going all the way to Plainview.

Making the hiking team counts no many points on a sweater, letter or

planning on making blankets this blanket and a number of girls are sent. Requirements for a blanket included 1,200 points, as a result of many accomplishments during the year.

MOVING PICTURES TO BE SHOWN OF TECH T. C. U. GAME

Through the courtesy of the City Drug Company, a goodly number of feet of motion pictures were made at the T. C. U. game in Fort Worth last Saturday. The pictures were made with the new Pathe motion picture camera which the store is introducing to this section. Between 11 and 12 hundred pictures were made on the Fort Worth trip. Pictures of Will Rogers and the Tech band were also made.

The pictures have been sent to the company for development and will be back in a few days. They will be placed in a machine which runs with the new camera and the pictures will be shown in the show window of the store.

Merchants Dress Winter Windows

With winter slowly approaching, the merchants of the city are beginning to dress up their windows with materials, wearing apparel and articles which are in season. Every window shows the result of careful preparation by the decorator, bringing out the appeal to the passerby.

One of the most attractive windows in the city may be found in the Hemphill-Price company store. The window is decorated with large fluffy Oregon City blankets and a huge fire place adorns the center built entirely of the blankets. A glowing fire is in the hearth and the various articles are hung about. The scene presents a very pleasant appeal to the sight seer, exemplifying comfort and warmth. The window was prepared by Mrs. Tim Stovall, 1914 13th street.

W. C. T. U. SAYS THAT MODIFICATION HAS FAILED
NEW YORK, Nov. 5. (AP)—The National Women's Christian Temperance union, through its president, Mrs. Ella A. Hoel, today issued statement on Tuesday's election, declaring that "the modifications have failed again."

"Missouri, Colorado and California have defeated their initiated and mandatory referendum," Brennan of Illinois and Wadsworth of New York, active proponents of modification of the Volstead act, have been defeated. With many dry congressmen have failed at election, others have been elected and congress remains dry," the statement says.

GOOSE CREEK VOTES TO CHANGE ITS NAME
HOUSTON, Nov. 5. (AP)—Goose Creek, famed far and wide for its oil production, apparently has an urge to change its name.

Who started it is not clear at this distance but last reports were that he citizens were taking an informal vote on it. Of 100 ballots cast it appeared voters were a unit for the change but were divided on whether the new name should be Seagate, Sterling City, Sterlington, Spout, Port Bay or Rosterling.

LATTIMORE TO SPEAK AT C. I. A. MEETING
(Special to The Avalanche)

DENTON, Texas, Nov. 5.—Hal Lattimore, district judge at Fort Worth, will be the principal speaker at the Armistice Day program to be given next Thursday morning in the auditorium at the College of Industrial Arts. The day has been designated as a campus holiday at C. I. A. and classes will be suspended.

The morning program will begin at 9:30 and close at 11 a. m. It is the desire of the college authorities to make this day the principal patriotic observance of the year.

Chips On the Old Block

A glimpse of aerial warfare of the future may be gleaned from this photo, of the British dirigible R-53 ascending at the Pulham airbase, with two swift combat airplanes, swung beneath its hull. At a high altitude, the machines were successfully launched. Non-diving like plummeting away from the mother ship, they leveled off gracefully and sped away.

CANTONESE CAPTURE NORTHERN CHINA CITY

SHANGHAI, Nov. 5. (AP)—The Cantonese troops have captured Kinkiang, in the northern part of Kiangsu province, reports from that city, which bear every evidence of authenticity. Disorders resulting from the capture necessitated the landing of American, British, French and Japanese marines to guard the foreign settlement.

A supplementary report says the Cantonese fired on a British detachment.

BERRY'S RESIGNATION AS JUDGE ACCEPTED

AUSTIN, Nov. 5. (AP)—Governor Ferguson announced today that he had received and accepted the resignation of Judge E. A. Berry of the court of criminal appeals effective November 20. She said she had not considered his successor.

Legal Notice

CITATION BY PUBLICATION
THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, greeting:

You are hereby commanded to summon D. O. Williams by making publication of this Citation once each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in the said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the County Court of Lubbock County, to be held at the Court House thereof, in Lubbock, Texas, on the Third Monday in November A. D. 1926, the same being the 15th day of November A. D. 1926, then and there to answer a petition filed in said Court on the 27th day of July, A. D. 1926, in a suit, numbered on the docket of said Court, No. 1918, wherein said Court, at its aforesaid term, to Monte Barron, and none of the payments have been made by said D. O. Williams to General Motors Acceptance Corporation, who is now the lawful owner and holder of said note, to the plaintiffs' damage in the sum of \$400.00, wherefore Plaintiff prays for judgment, interest and attorney's fees, for foreclosure of its mortgage and costs of suit.

Herein, fail not, but have you before this writ, with your return thereon, showing how you have executed the same.

Give under my hand and the seal of said Court, at office in Lubbock, Texas, on this, the 14th day of October, A. D. 1926.

HERBERT STUBBS
Clerk, County Court, Lubbock County, Texas.

By Floe Swenson, Deputy.

CITATION BY PUBLICATION

THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, greeting:

You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Lubbock County, a copy of the following notice:

THE STATE OF TEXAS
To all persons interested in the estate of Rosa Lee and Willie Mae Blackburn, Minors.

Mrs. Mae Blackburn has filed in the County Court of Lubbock County, an application for Letters of Guardianship, which said application was heard by said Court, on the 15th day of November, 1926, at the Court House of said County, in Lubbock, at which time all persons who are interested in said estate are required to appear and answer said application, should they desire to do so.

Herein, fail not, but have you before said Court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court in Lubbock, Texas, this, the 23 day of September, 1926.

HERBERT STUBBS
Clerk, County Court, Lubbock County, Texas.

By Floe Swenson, Deputy.

AGGIES SEND MORE BAPTIST DELEGATES

TEXAS A. AND M. HAS TWENTY-FOUR AT BIRMINGHAM MEETING

(Special To The Avalanche)
COLLEGE STATION, Texas, Nov. 5

—Of all the Texas educational institutions represented by student delegates at the All-Southern Baptist Student conference in Birmingham, Ala., 25-31, the A. and M. college of Texas had the largest representation. Rev. R. L. Brown, pastor of the Baptist church at the college, who has just returned from the conference, reports. In all, approximately 200 students from Texas schools and colleges attended the conference, giving Texas the largest state representation. Of these, 200, the A. and M. delegation accounted for 24, including Rev. and Mrs. Brown, who headed the delegation, and twenty-two A. and M. students. The A. and M. students who attended the conference report a successful and interesting session.

Student delegates from all the southern states and from some of the northern states as well attended the conference, the total of registered delegates being 1,400. The conference concerned itself with discussion and consideration of problems having to do with campus life. Outstanding Baptist leaders of Texas who were present included: Dr. George Truett, Dallas; Dr. Lee Scarborough, Fort Worth; Dr. S. D. Brooks, Waco; Mrs. J. M. Dawson, Waco. Prominent speakers from other states included Dr. S. D.

FLOYDADA LETS SEWER CONTRACT

\$15,000 LIGHT PLANT WILL BE
STARTED BY CITY IN
NEXT 30 DAYS

Special to The Avalanche
FLOYDADA, Nov. 5.—Contract for a \$15,000 light plant to be constructed within the next thirty days, was let by the city council here Wednesday night. This decision was reached by the council after two years of study and investigation in an effort to solve the water pumping problem of the city and to meet the growing demands for a better street lighting system.

The plans include a 150 horse power Diesel engine with wiring to two wells of the city, light poles, wires and ornamental light brackets on the poles, all equipment and ready to put into operation. The total outlay will be approximately \$17,000.

GERMANS THREAT OLYMPIC MARKS

RECORDS SET BY U. S. MAY FALL
BEFORE ONSLAUGHT OF
TEUTONS

BERLIN, Nov. 5. (AP)—The close of the most successful outdoor amateur athletic season in 12 years, the German Olympic committee predicts that Germany will score at least second or third place in the Olympic games at Amsterdam in 1928, the first since German athletes are to compete since 1912.

Based on present performances, the point score of the United States stands good to suffer most. The Germans are strongest virtually in every sport in which Americans in the 1924 games carried off first. The best bid, it appears, will be made in track and field events, cycling, equestrian sports, rifle and revolver shooting, tennis, figure skating for men, soccer and fencing, with a fair chance in ice hockey, rowing and weight lifting.

Peltzer Best in Distance
Dr. Otto Peltzer of Stettin, who holds the world's record for the half mile and 1500 meter run, as well as the German records from 400 to 1500 meters, looks as the outstanding star. Peltzer turned down offers totalling \$50,000 for an American tour and has come back to a job as teacher of economics and gym director in the public schools of Wickersdorf, Thuringia, at a salary of \$75 a month.

Peltzer's chief rival is the 20-year-old Herbert Rohrer, Berlin, who faced international competitors for the first time this year at Basel, Switzerland and Paris. Heilnuth Koernig, of Breslau, also discovered this year, has defeated Hubert Hansen, of Crefeld, as champion sprinter. Koernig is credited with running 100 meters in 16.2 seconds, a tenth of a second better than Charlie Paddock's world record. In the marathons, Kurt Reischmann, of Neigen, paced the 42 kilometers in 2 hours and 41 minutes, lowering the record of Stanislaus of Finland. In the 1924 Olympic games by one minute 22 seconds.

Swimmers are Numerous
Fritz Hahnemann, of Magdeburg, who shattered a number of breast stroke records during his American tour, leads the swimmers for distances from 100 to 400 meters. Ernst Vierkotter, Cologne biker who swam the English channel, if he remains an amateur, probably will be in a class by himself in the water marathon. Others to be heard from are Hermann Hoffmisch, Leipzig, freestyle champion, Gustav Friedlich, back stroke champion, and Kurt Eckstein, Leipzig, also a backstroke man.

1. Alonius, Dr. Heinz Landmann of Darmstadt, who defeated Howard Kenyon in three straight sets, then took three out of four from Vincent Richards the next day, is generally giving a ranking position. Officially Heinz Mollerhauer is No. 1, but neither Landmann nor Otto Froberg, a detective by profession and former champion, competed in this year's championship matches at Hamburg.

Detroit specialist claims a good fisherman must have brains. If that's the case, then why did that old salt from Gloucester visit a football stadium in search of a couple of tackles?

Scholar Jailed

Because Lawrence L. Buermeyer, teacher at New York University, refused to submit to a quiz on philosophy tests, Joseph Carson, Jr. (above), social registerite and instructor in philosophy at Columbia University, New York, belabored him to the point of death with a heavily heated shoe and a milk bottle. A drinking bout gave rise to the altercation between Carson and Buermeyer who had been chums since they studied philosophy together at Princeton University nine years ago.

FAMED MINER IS IN PANHANDLE

BROKE AND HUNGRY, SAYS JOHN
COOPER, OF INHERITANCE
STORY

KEWANEE, Ill., Nov. 5. (AP)—John Cooper, Kewanee iron worker who stirred the country with his wild tale of \$9,000,000 inheritance, has again come into the limelight.

He dropped out of sight the latter part of September when he failed to come through with his fortune and when it developed that there was no money in the Detroit banks to cover \$15,000 in checks deposited in Kewanee banks. Today a Kewanee friend received a letter from Cooper in Panhandle, Texas, in which he now tells the world that he is "just a bum and an outcast." He still holds to his story that he was lost by his father and cousin to believe that he would receive a vast fortune, but now claims he was duped and that he has no hope of ever receiving anything. Part of Cooper's letter follows:

"I am a bum now and hungry. Ain't had anything to eat today and very little yesterday, but I'll find a job somewhere and send for my family. If anyone tries to get me I'll end it all as I have a bottle of poison in my coat that will kill me in a minute."

"If my wife still believes in me, put a notice in the Denver Post Sunday edition. I'll buy a copy and if I don't see it I'll know no one cares for me."

Charges against Cooper have been dropped and it is expected Mrs. Cooper and her little family of four children will communicate with the boxer and John him.

DALLAS C. C. OF C. TO FIGHT FOR SUGAR-RATE OUT

DALLAS, Texas, Nov. 5. (AP)—The Dallas Chamber of Commerce Saturday will attack the present interstate rates on sugar, in an attempt to gain a \$30,000-a-year reduction on this commodity through filing of a case with the Texas railroad commission. J. K. Moore, traffic manager, announced Friday. Lower interstate hauls are, cheaper, he said.

"Awkins aren't the only things that hang around my house," roared the girl's father as he caught a pecker, sent a bolt of lightning and threw him out of the parlor window.

GOT ACQUAINTED WITH LEAGUE

LONGHORN PROF SAYS VISIT OF
COMMITTEE TO EUROPE
VALUABLE

AUSTIN, Nov. 5. (AP)—Forging of a better acquaintance of America with the activities of the league of nations was one of the most important results of the visit of the committee sent to Europe last summer by the Carnegie Peace Foundation for the purpose of studying European politics and government, according to Dr. C. P. Patterson, of the University of Texas, a member of the party who has but lately returned. At the suggestion of Nicholas Murray Butler, president of Columbia University and director of the Foundation, M. O. Hudson, professor of international law at Harvard, selected 10 authorities to study the political situation of the continent.

Each member of the committee will receive a complete set of records of the World Court and 139 projection slides of the work of the leaders of the league.

Monographs written by members of the committee, will be collected into one volume dealing with all phases of the league of nations. Mr. Hudson will serve as editor of the book, which Dr. Patterson says, should be ready by Christmas. Dr. Patterson's monograph will be "Political Activities of the League."

At Paris, the committee studied the international institute of hygiene and the bureau of intellectual cooperation. A visit was made to the American Library service. This was founded since the war to aid the United States in getting information on French affairs. A school of library science is maintained there, and Dr. Patterson says the French, who are lacking in this particular science, are making use of it to learn American methods. In Rome the committee attended the International Institute of Agriculture.

After reaching The Hague, the committee studied the court of Arbitration, established in 1898, and the Permanent Court of International Justice. They examined at Bern, Switzerland, the Universal Postal Union.

SOVIET CIRCLES REGRET U. S. BARRING KOLLANTAY

MOSCOW, Nov. 5. (AP)—Regret and disappointment, rather than resentment, are expressed in official Soviet circles that the refusal of the American government to permit Madame Alexandra Kollantay, new Soviet minister to Mexico, to pass through the United States on her way to her new post.

Soviet authorities said that they hoped the American government, as a matter of courtesy if not diplomatic etiquette, and international usage, would extend at least issues similar visas to Americans entering Russia, or en route to the far east by way of Russia. Madame Kollantay, it was stated, will now be forced to take the long sea voyage direct to Mexico from Europe.

NICARAUGAN AIR LEADER IS KILLED

MANAGUA, Nicaragua, Nov. 5. (AP)—General Humberto Farias Diaz, aviation commander of all the government forces on the east coast and mentioned as a presidential possibility, has been killed by revolutionists.

The general was making an inspection trip last night, travelling in a small boat on the Escondido river, from Rahu to Elur Fields. The rebels were hiding on the banks of the river and fired on the boat, killing General Diaz and the boatman.

General Diaz, who is also a minister of the interior, was formerly the Nicaraguan consul general in New York and San Francisco. He was married to the former Irene Rober, of New Orleans and Blue Fields.

DEMAND HEAVY FOR ARMY-NAVY GAME TICKETS

WASHINGTON, Nov. 5. (AP)—Such is the demand for seats to the Army-Navy football game at Chicago, November 27, that Secretary Wilbur issued a statement today explaining that the usual 24 tickets allotted to all members of the Navy athletic association have been necessarily reduced 400. On October 1, the statement said, the demand for Navy seats exceeded the supply by 3,000, and since that date no applications for seats have been considered.

RESUME PICKING IN TERRY COUNTY

RAIN HOLDS UP SO THAT FARMERS CAN WORK IN THEIR FIELDS

(Special to The Avante)

BROWNFIELD, Nov. 5.—After several days of rainy weather the sky has cleared and cotton picking has been resumed and it is hoped that the bulk of the crop will be out of the way within the next few weeks. The Brownfield schools have been ordered closed each afternoon for the purpose of releasing students in order that they may assist with the harvesting as pickers are very scarce and several hundred could be used if they could be procured.

The total number of bales will be short fifty per cent of the estimate sixty days ago and may not be much in excess of the last year figure.

GRADE TEACHERS PLAN MEETING

WILL CONVEY SEPARATELY AS STATE ASSOCIATION MEETS IN EL PASO

FORT WORTH, Texas, Nov. 5 (AP)—A convention within a convention is nothing unusual, but grade school teachers of Texas are planning one expected to be of unusual success.

The Texas Grade Teachers association, largest unit of the Texas State Teachers association, is laying out programs to be held separately during convention of the parent body at El Paso three days beginning Thanksgiving. Several hundred teachers who conduct grammar school work of the state are expected to attend the banquet and program to be held Friday noon, November 26, in the El Paso Scottish Rite Cathedral.

State association headquarters here has announced some of the program. Speakers will include: S. M. N. Marks, state superintendent of public instruction; A. H. Hughes, superintendent of El Paso schools; Dr. George W. Evans, president Colorado State Teachers college; Miss Marie Huston, representing the National Education association for Texas; and Miss Edna Hunter of Fort Worth.

Miss Katie Norwood, president, and Miss Laura L. Allison, secretary, both of Austin, will make their annual reports.

Members of the organization have been asked to invite superintendents and principals to be guests at the grade school meeting. Officers of the El Paso teachers association are arranging for entertainment.

ABILENE OIL NEWS

(Special to The Avante)

ABILENE, Nov. 5.—The city well No. 1 of the Sanger Oil and Refining company, three miles southeast of Abilene, found a good showing at 1888 feet at midnight last night. However, the drill will be put down further, Chas. W. Sanger, president, said.

The No. 1 well No. 1 of the same company, four miles east of Abilene, is drilling at around 78 feet today.

Operations in the Noodle Creek field today were:

Midwest Exploration company's No. 1 Thornton, offset to Joe Winter producer, setting casing at 2,275 feet, about 230 feet above the Winter producing horizon. It is an offset well.

Phillips Tessie No. 1, south offset, drilling at 2,175.

Atlantic Producing company's Howell No. 1, three-fourths mile south of Winter producer, running 12 1/2 casing at 640 feet.

Marland's J. G. Mowbray No. 1, drilling at 310 feet.

Both the Thornton and Tessie struck heavy water flows.

FRIARS ELECT FOUR NEW MEMBERS AT STATE UNIV.

(Special to The Avante)

AUSTIN, Nov. 5.—Designated by members of Friars, honorary senior society for men at the University of Texas, as representing the most well-rounded type of college man who give promise of rendering high service to their communities after graduation from the University, four senior students have been elected to membership in that organization. They are: Hart Dyke of Orange, William E. Edkins of Houston, Ed. L. Gossett of Post, Marlon A. Olson of Chico, Dyke is production manager of the student publications at the University. Edkins is editor-in-chief of the 1926-27 Cactus, the University yearbook. Gossett is president of the Students' Association and a member of a large number of campus organizations. Olson is a prominent University debater.

ABILENE OPPOSES I. C. C. RAILROAD AUTHORITY

(Special to The Avante)

ABILENE, Nov. 5.—Abilene's opposition to authority being vested in the Interstate Commerce Commission to grant rail construction was voiced at the railroad meeting held today in Waco.

All West Texas is solidly lined up with the Mayfield bill which would transfer power from the Interstate Commerce Commission to the State Railway Commission to grant permits. With the commission favorable to petitions now being sent, a tremendous new rail development would soon ensue, it was pointed out here.

127 FINED BY ABILENE

(Special to The Avante)

ABILENE, Nov. 5.—During October 127 persons were fined in city court, total amount of the fines aggregating \$947. Speeding brought 23 and drunkenness 28 fines.

TO JUDGE POULTRY

(Special to The Avante)

ABILENE, Nov. 5.—T. C. Tallant, Edmond, Okla., has been employed as judge for the West Texas Midwest Poultry Show which will be held in Abilene, December 14-15. A judge from Texas A. and M. will judge utility and boys' and girls' club poultry at the same time.

WHILE PESSIMISTS LOOK AT "KING COTTON" AND WEEPS FLOYD COUNTY DIVERSIFIES AND PROFITS BY IT

(Special to The Avante)

FLOYDADA, Nov. 5.—While pessimists are predicting the downfall to the south on account of the low price of king cotton, farmers in the Floydada territory are busy working out their own salvation. While the county has been recognized long as the greatest diversified county in West Texas, diversification has just started. By this is meant that where the farmers have been leaning on the banker, he is now attempting to stand on his own feet.

There is no county in the west where it is easier for the progressive farmer to diversify his crops than in Floyd. This has been proven by many tillers of the soil who today are on "easy street," compared to the condition of the farmer in the south. With several crops producing a bale to the acre, forty bushels of wheat and a ton of maize and feed, there is no necessity of any complaining of pessimistic farmers in the county.

LOCAL WEATHER FOR OCTOBER

EXPERIMENT STATION GIVES OUT SUMMARY FOR MONTH

The following is the summary of weather conditions as recorded at the experiment station for the month of October, 1926:

Maximum temperature, 85 degrees.
Minimum temperature, 35 degrees.
Mean temperature, 62.53 degrees.
Mean departure from normal plus 3.54 degrees.
Maximum relative humidity, 95 per cent.
Minimum relative humidity, 35 per cent.
Mean relative humidity, 73.69 per cent.

Total wind run, 2,775 miles.
Normal wind run, 2,182 miles.
Total evaporation, 2,080 inches.
Normal evaporation, 2,741 inches.
Number clear days, 16.
Number partly cloudy days, 10.
Number cloudy days, 3.
Total precipitation for October, 8.40 inches.
Normal precipitation, 2.27 inches.
Total precipitation, Jan. 1 to Nov. 1, 26.62 inches.
Normal precipitation for above period, 18.36 inches.

RURAL SCHOOLS

Just perhaps the biggest boost that this county has in its rural schools, State inspectors have proclaimed Floyd county as being one of the outstanding counties in rural schools. Thirty districts in the county compose the scholastic population. Of these thirty schools, twenty are located in modern brick buildings ranging in cost from \$2,500 to \$20,000. The most recent improvement being made by the Standard community, which is just completing a \$20,000 building. This is an addition to the splendid two-story building they now have. Resulting the need of good homes for the teachers, nineteen of the districts have just built two-bayages.

The independent districts of Floydada and Lockney have progressed with the county. Floydada now has three school buildings, totaling a valuation of \$210,000. This includes the new ward school just completed at a cost of \$45,000.

With good farmers, far-sighted business men and progressive citizens, Floyd county will continue its progress regardless of the predictions of the famous cotton pessimists.

RUM RUNNER IS BATH-TUB "BEAUTY"

PIRATE CAPTAIN SETS IN BATH
TUB WHILE CREW
IMBIBE

NE WYOMING, Nov. 5. (AP)—A tale of a champagne bath tub party on a rum runner on the high seas in which a grizzled hi-jacker played the part of a bath tub girl, was revealed today in the dry, legal phraseology of two indictments returned in federal court.

The rum runner was the Elma, formerly a lighthouse tender, which sailed from Boston last May to engage in the liquor trade. She was seized by hi-jackers among the crew and the bath tub party was to seal a bond of fellowship between the opposing factions.

While the party was at its height, however, the coast guard destroyer Manning, came upon the ship off Cape Hatteras and after firing several shots halted the rum vessel.

A boarding party, full armed was sent to take possession. When the guardsmen stepped on board the captured vessel they were started to find grouped about the captain's bath tub, the combined crews with dippers in hand imbibing champagne while a grizzled and bearded hi-jacker wearing a woman's blond wig was seated in the tub.

The inspiration for the bath tub party, they explained to the coast guard officers, was obtained from radio accounts of the grand jury investigation of Earl "Charley" Smith tub party" on the stage of a New York theatre.

Two indictments were returned. One charges Walter Wiele, John Gould, Cliff C. Kinder, Cecil Kinder, obertson Anderson, Morris Peden, William Gordon, William Meldon, Thomas Murray, William Duffy, Steve Dictus and H. C. Farrington, the original members of the ship's crew, with conspiracy to violate the prohibition act and also conspiracy to commit piracy on the high seas.

The defendants named are Mark Paff, Steven Fallon, Thomas Fallon, Ernest Hanson, Lea McMillan, Russell Hodges and John Korontine.

HOLD COURT OF HONOR

Palmer, Harkey and Williams Aid
in Crosbyton Ceremonial For
Boy Scouts of That County

H. B. Palmer, scout executive of the South Plains district, L. S. Harkey, area commissioner and Rev. Luther F. G. Williams, pastor of the Episcopal church, visited at Crosbyton Thursday night where they conducted a court of honor for the Boy Scouts. Fourteen boys received awards at this meeting. The meeting was held in the auditorium of the new high school building. A deep interest was manifested, and especially so considering it was the first court of honor to be held in Crosbyton. Mr. Harkey said the thoughts and words used when their car became stalled in a mud hole while returning, would not look good in print. The mud hole was three miles west of Crosbyton.

CATHOLIC LEADER DENOUNCES ENEMIES

CHICAGO, Nov. 5. (AP)—The same forces responsible for oppression of the Roman Catholic worshipper in Mexico are seeking similarly to "soviety" Central and South America, and to root Catholicism there, James A. Flaherty, of Philadelphia, supreme knight of the Knights of Columbus, charged today at a conference of the order.

Directors and state deputies were called together here by Flaherty to push a million dollar propaganda campaign directed at counter acting the southward extension of the anti-Catholic movement in Mexico and a creation of pro-Catholic sympathy in the United States, which will compel the Mexican administration to recede from its position and which may, the lodge believes, prompt the withdrawal of American recognition of the Calles government.

TWO WITNESSES DENY SLUSH FUND CHARGES

PHOENIX, Ariz., Nov. 5. (AP)—Two witnesses who appeared today before Senator William H. King, democrat, Utah at the behest of Senator Ralph H. Cameron's counsel, categorically denied any knowledge of an "alleged" giant combination to control Arizona economically and politically.

Senator Cameron, defeated in Tuesday's election by Representative Carl Hayden, democrat, for U. S. senator, contends that money in large sums were sent into the state by outside interests to defeat him. Henderson Blackton, Phoenix lawyer who managed the campaign of E. E. Ellinwood, defeated candidate for the democratic gubernatorial nomination, denied that any of the Ellinwood campaign money furnished in a large part by James S. Douglas, cooper magnate, had been carried over into the general election campaign to further Hayden's interests. Sam Applewhite, said he had not knowledge of Douglas' expenditures in the behalf of Ellinwood because he had not received the canceled checks given the Ellinwood campaign committee.

CONFEDERATE VETERAN DIES IN ARCHER CITY

WICHITA FALLS, Texas, Nov. 5. (AP)—A. L. Llewellyn, 82, first county judge of Archer county, and one of the two survivors of company G, first Texas regiment of Hood's brigade, in the war between the states, died at his home at Archer City last night. He was born at Harpers Ferry, Va., and came to Texas when about ten years of age. His death leaves John T. Woodhouse of Wichita Falls the only survivor of company G.

FOUND GUILTY

SANTA ANA, Calif., Nov. 4. (AP)—Philip Goodwin, former priest of the American Catholic church, was found guilty by a superior court jury here today of the murder of J. J. Patterson, Los Angeles bond broker. The verdict, containing no recommendation for leniency, involves a mandatory death sentence.

Grandsons of the British King

These two young men, when they grow up, will be two of the special leaders of Europe. They're grandsons of the English king—sons of Princess Mary and Viscount Lascelles. The one playing with the train of cars is her second son, The Honorable Gerald Lascelles (that's the proper way to address him); and the other is his older brother, The Honorable G. H. Hubert Lascelles.

SUNDAY SCHOOL LESSON

General Topic: "The Fall of Jericho." Scripture Lesson: Joshua, 6: 12-26, 12 And Joshua rose early in the morning and the priests took up the ark of Jehovah.

13. And the seven priests bearing the seven trumpets of rams' horns before the ark of Jehovah went on continually, and blew trumpets; and the armed men went before them; and the rearward came after the ark of Jehovah, the priests blowing the trumpets as they went.

14. And the second day they compassed the city once, and returned into the camp; so they did six days.

15. And it came to pass on the seventh day, that they rose early at the dawning that day and compassed the city after the same manner seven times only on that day; but they compassed the city seven times.

16. And it came to pass at the seventh time, when the priests blew the trumpets, Joshua said unto the people, Shout; for Jehovah hath given you the city.

17. And the city shall be devoted, even it and all that is therein, to Jehovah; only Rahab, the harlot shall live, she and all that are with her in the house, because she hid the messengers that we sent.

18. But as for you, only keep yourselves from the devoted thing lest ye take of the devoted things; so would ye make the camp of Israel accursed and trouble it.

19. But all the silver and gold, and the vessels of brass and iron, are holy unto Jehovah; they shall come into the treasury of Jehovah.

20. So the people shouted, and the priests blew the trumpets; and it came to pass, when the people heard the sound of the trumpet, that the people shouted with a great shout and he wall fell down flat, so that the people went up into the city every man before him, and they took the city.

Golden Text: This is the victory that hath overcome the world, even our faith.

Time: The fall of Jericho took place B. C. 1453, in the first month.

Place: Jericho was six miles west of the Jordan.

Introduction—Joshua was a mighty general. He did not make the mistake which was made forty years before and try to capture Canaan from the south. The country was often attacked from that direction and it was provided with an abundance of strong forts facing that way. But the Canaanites felt themselves secure against an attack from the east by reason of the Dead sea and the deep rocky trench of the Jordan river, the river itself being swift and unfordable. Attacking from the east Joshua would strike their fort from the rear, and moreover, he would drive a wedge into the heart of the land, dividing the northern from the southern forces. Only one obstacle was in the way, and that was the formidable walled city of Jericho that confronted him across the Jordan. He could not march into the center of Canaan leaving Jericho unconquered in the rear.

Crossing the Jordan—The first stage of Joshua's conquest was the occupation of the vast trench so to speak, which parted them from the mass of the Promised Land. Between it and them lay the deep valley of the Jordan, with its mysterious river. To pass over the Jordan and go in and possess the land, was a crisis in their fate such as they had not experienced since the crossing of the Red Sea. The river was at the usual state of flood at the spring of the year, so as to fill the whole of the bed, up to the margin of the jungle with which the nearer banks are lined. On the broken edge of the swollen stream, the band of priests stood with little ark on their shoulders. At the distance of nearly a mile in the rear was the mass of the army. Suddenly the full bed of the Jordan was dried before them.

The ark stood above. The army passed below. The women and children, according to the Jewish tradition, were placed in the center, from fear lest they should be swept away by the violence of the current. The host, at different points probably, rushed across. The priests remained motionless, their feet sunk in the deep mud of the channel. Carried aloft before the priests, as they left the river bed, were twelve stones, selected by the twelve chiefs of the tribes. These were planted on the upper terrace of the plain of the Jordan, and became the center of the first sanctuary of the Holy Land—the first place pronounced holy, the sacred place of the Jordan valley, where the tabernacle remained until it was fixed at Shiloh. Three Different Jerichos.

There were three different Jerichos, on three different sites—the Jericho of Joshua's time, the Jericho of Herod

time, and the comparatively modern Jericho of the Crusaders. The village was formerly one of the most squalid in Palestine, but it has been somewhat improved.

Victory on the Seventh Day—v 15-26. "And it came to pass on the seventh day." See how the Lord honors the seventh day. This was doubtless the Sabbath, and ever since that memorable day, the Sabbath would be an anniversary of victory. It should be in every life a day of spiritual victories over the Jerichos of sin and doubt and gloom. "That they rose early at the dawning of the day." They had to make seven times the usual march besides taking possession of the city.

There was especially good reason for their early rising. "And they compassed the city after the same manner seven times." Probably by this time the people themselves were growing weary of the march. They did not understand it. It all must have appeared pointless, results and foolish.

"Lead us against the city," they doubtless implored of Joshua. "You are making us ridiculous by this absurd circling of the city. You are wearing us all out in advance. We'll soon be too tired to fight." In reality had they but known, that is exactly what was intended. The victory must be put far beyond the host of the Israelites, and must be plainly God's victory and not man's that they might learn to trust in God alone.

Utter Destruction of Jericho: v 26-27. "And they took the city." The destruction, as we learn from the next verse, was complete, including the women, the children and even the animals. This entire destruction was necessary in order to inspire fear and awe in the rest of the country. It must have saved many towns and thousands of lives by preventing useless resistance and prompting to quick surrender. There are times when severity is the truest mercy. Moreover, it is clear that the people of Jericho were a wicked race, saturated with the violence of idolatry. God could not plant and nourish a pure religion in such contamination. This was in reality, a great crisis in the world's history, and the welfare of countless millions depended upon Joshua's thoroughness. When a cancer is to be cut out, it is sinful folly for the surgeon to spare any of the infected flesh.

Special lessons.

1. It was by faith that the walls of Jericho fell down (Heb. 11:30). The Israelites showed their faith by their obedience.

2. Every obstacle which hinders goodness, every fortress which guards wickedness, is being undermined. Right rules. Wrong is doomed in this world. If you are on God's side your triumph is certain.

3. Here we find faith working by plan and system and organization. Many men, one mind, in the march around Jericho.

"As when the walls of Jericho" Down to earth at once were cast. It was thy power that brought them low.

And not the trumpet's feeble blast. Thus we would in the means be found. And thus on Thee alone, depend To make the gospel's joyful sound Effectual to the promised end."

TWO-INCH SNOW FALLS IN TAHOKA

TAHOKA, Nov. 5.—A heavy norther hit here last night and was followed by a two-inch snow.

The past week has been a bad one for the gathering of cotton as light showers have been a daily affair, the norther and snow will no doubt be the last of wet weather for some three or four weeks.

Winter wheat and other grains will be greatly benefited. The increase of wheat, oats and other grains over last year will be some 25 per cent.

Cotton acreage will be cut approximately to two-thirds of what it was last year.

PLATE GLASS PRODUCTION RECORD IN U. S. BROKEN

PITTSBURGH, Pa., Nov. 5.—All records for the production of plate glass in the United States were broken during the first nine months of 1926, when the total output reached 106,822,477 square feet. According to P. A. Hughes, secretary of the Plate Glass Manufacturers of America, the end of the current year will see the establishment of a new twelve-month production record for the manufacture of plate glass in this country.

DELAYED SHIPMENT OF APPARATUS CAUSES OPENING OF NEW TELEPHONE BUILDING TO TAKE PLACE NEXT WEEK

Due to the failure of a special shipment of subscriber and toll line apparatus to reach here yesterday as scheduled the cutover of the Southwestern Bell Telephone company from the old to the new equipment will have to be postponed from Saturday night at midnight to next Saturday, November 13, H. D. Phillips, manager of the company here stated yesterday.

"It might be possible for us to cutover without this equipment," Phillips said, "but after careful consideration of everything both from the subscribers and the company's standpoint it was decided to postpone the change."

Might Have Trouble
Should the cutover now there would be a possibility that many subscribers would have some trouble with their service for a few days until this equipment is installed and properly checked. On the other hand if we wait until this apparatus is installed and tested the cutover will be accomplished without any interruption in the service.

"We believe the public will be much better satisfied if we wait and establish the cutover without interrupting their service. By delaying the change

for a week the workmen will have ample time to double check all work and chances for errors will be practically eliminated.

Service Changes
"Next Saturday when the new equipment is put into service there will be several changes in the service which the subscribers are especially asked to note," Mr. Phillips stated, briefly, the are:

1. Under the present service when a subscriber calls a number, if that number is busy the operator informs the party calling that the line is busy. With the new equipment the calling party will hear a distinct buzzing sound if the line is busy and the operator will not report busy lines.
2. If the calling party figures the receiver hook, in an effort to improve the hearing quality of the conversation or for any other reason, the connection will be mechanically cut off. Don't jiggle your receiver hook.
3. When a line is open, that is when it is ready to receive your call, the calling party can distinctly hear the phone ringing until the party called answers.

DAILY MARKET

NEW YORK COTTON
NEW YORK, Nov. 5. (AP)—The cotton market was quiet again today prices fluctuating within a range of 2 to 10 points. After selling off to 12.25 at the start, January rallied to 12.35 and closed at 12.33. General market closing quiet, at a net decline of 2 to 6 points.

The opening was barely steady, at a decline of 2 to 6 points, active months showing net losses of 3 to 8 points in early trading under over night selling from the south. Some selling for local or Wall Street account also may have been prompted by the rather easier tone of the later Liverpool market and a private report placing the crop indication at 18,224,000 bales. This report also pointed to a gain of 10,000,000 bales prior to November 1, but the figures had little effect and their failure to create more selling pressure, probably promoted covering during midday.

December rallied from 12.17 to 12.24 and March from 12.55 to 12.58, but there was a little realizing toward the close and last prices were 2 or 3 points off the best of most positions.

Another private report pointed to a crop of 17,855,000 bales, and a canvass of New York exchange members showed an average expectation that next Monday's government report will indicate a crop of 17,312,000 bales.

The small volume of business was considered by local brokers as suggesting that accounts had been fairly well cleaned up for over the week-end and Monday's report. A moderate volume of hedging was reported early, which was said to have been offset by the trade buying, and much of the later business was of a local character.

Private cables referred to the earlier steadiness of Liverpool, with London and Manchester buying on the more optimistic coal situation, and a larger inquiry for cotton cloths in Lancashire.

Exports today 34,741, making a total of 2,521,512 so far this season. Port receipts 74,613. U. S. port stocks 2,288,625.

NEW ORLEANS COTTON
NEW ORLEANS, Nov. 5. (AP)—The cotton market was very quiet today owing to the natural disinclination to trade with another government crop report to be issued Monday. Prices were supported, however, despite rather big private crop estimates by fair trade and investment buying. The market opened 2 to 3 points down, despite better Liverpool cables than day and eased off after the start to levels 2 to 5 points below yesterday's close, on the continued good weather and large crop estimates. Later in the morning the market rallied 4 to 5 points on some trade and investment buying and during most of the remainder of the session trading was very quiet with prices fluctuating within the earlier range. The extreme range for the day on December did not exceed 5 points.

Soon after the opening, December traded at 12.25, January at 12.33 and March at 12.55, or 3 to 4 points below yesterday's close. Later in the morning the market rallied, December advancing up to 12.34, January to 12.37 and March to 12.57, or 4 to 5 points up from the lows.

Mill takings for the week were large totaling 606,999 bales. The market continued to rule quiet during the final hour and closed a little under the highs. Exports for the day totaled 31,741 bales and for the week 478,862 bales.

SUGAR
NEW YORK, Nov. 5. (AP)—No change occurred in the raw sugar market today, as far as spot supplies were concerned but futures shipments were a fraction higher. The undertone was firm with continued good inquiry and sales of about 30,000 bags of Cuban for November shipments, 17,500 bags of Philippines for Jan-Feb. shipment at 4.58; and 22,500 bags of Philippines for February-March shipment at 4.62.

The reduction to 23,553,000 tons for the world's sugar crop, by a prominent statistical authority here, a decline of 424,000 tons from the previous estimate, and compared with 24,569,150 tons last year, had a stimulating effect in raw sugar futures and led to increased covering of 57,000 tons, advancing prices 2 to 3 points. The uptick, however met increased offerings and reactions followed, with the close one point net lower to 1 higher, approximate sales 42,000 tons. December closed 2.79; January 2.82; March 2.90; July 2.98.

There were no changes in the refined sugar market, fine granulated

ranging from 5.79 to 5.80 and moderate inquiry reported.

WOOL
BOSTON, Nov. 5. (AP)—Montana wools of all grades are moving with recently quoted ranges. The finer grades are receiving the bulk of all the sales. Half blood sixties have had sales that figured about 1.02 to 1.05, scored basis. Fine territory blood combing is selling at 1.05 and slightly stronger. Offerings of graded strictly fine combings are available at 1.10 to 1.12, although some of the houses are firm at their recent selling price of 1.15, on clean basis. Medium grades are less active than the fine, but values are fully maintained.

WALL STREET
NEW YORK, Nov. 5. (AP)—Wall Street statisticians figure that aggregate net operating income of the country's railroads for 1926 will establish a record of at least \$1,230,000, if they do not as well in the last quarter as in the corresponding period of 1925. Fourth quarter earnings however, are expected to be larger than the fourth quarter last year, particularly October figures, with the possibility of the total reaching \$1,250,000,000. In 1925, net for all the carriers was \$1,134,527,477.

CHICAGO LIVESTOCK
CHICAGO, Nov. 5. (AP)—Cattle, 4,000; steady, steers 7.75 @ 11.25; feeders and stockers 5.50 @ 7.50; cows 4.50 @ 5.50; vealers 11.00 @ 11.75. Hogs, 22,900; 15 to 25 cents lower; top 12.10; butchers 12.65 @ 13.00; mediums 12.50 @ 12.85; pigs 11.75 @ 12.60; sows, 11.50; estimated hoglover 4.80.

Sheep, 6,000; fat lambs strong; top 14.35; bulk, 13.75 @ 14.25; sheep steady, ewes 5.50 @ 6.75; top, 7.00; feedings 12.50 @ 12.75.

FORT WORTH LIVESTOCK
FORT WORTH, Nov. 5. (AP)—Steers characterized the cattle market here today. Calf losses averaged around 300 while cows recorded a loss of from 100 to 150. The hog and sheep trades were steady.

Around 1,200 grown cattle, 1,000 calves, 600 hogs and 275 sheep were on the market.

COTTON GOODS
NEW YORK, Nov. 5. (AP)—Cotton goods held barely steady today, traders awaiting Monday's government cotton report. Sales were light. Yarns sold more freely at low prices. Raw silk was easy. Deliveries to mills last month were the largest on record. Silk fabrics were quiet.

COFFEE
NEW YORK, Nov. 5. (AP)—Coffee futures were higher today in response to higher Brazilian cables and firmer Rio exchange on London. The close was 4 to 11 points net higher. Estimated sales 22,000 bags. Closing quotations:

CHILDREN'S ILLS

Arkansas Lady Says She Has Never Found a Better Laxative Than Theodor's Black-Draught.

Mineral Springs, Ark.—"We use Black-Draught in our family of six children," says Mrs. C. E. Nutt, of this place, "and we find it a good laxative for colds and constipation, or any other stomach disorders, and it certainly is very helpful. I have never known it to fail them. Where there are so many children, it is a good idea to keep a laxative on hand, and Black-Draught is what we use."

"I have taken it myself for indigestion. I would feel dizzy, have gas and sour stomach. I would also feel a tightness in my chest. I took a good dose of Theodor's Black-Draught when I felt that way and it would relieve me. I would feel better for days."

"My husband takes Black-Draught for biliousness. He says he has never found its equal. When he has the strict, heavy feeling, he takes Black-Draught night and morning for a few days and he doesn't complain any more. I sure do recommend Black-Draught."

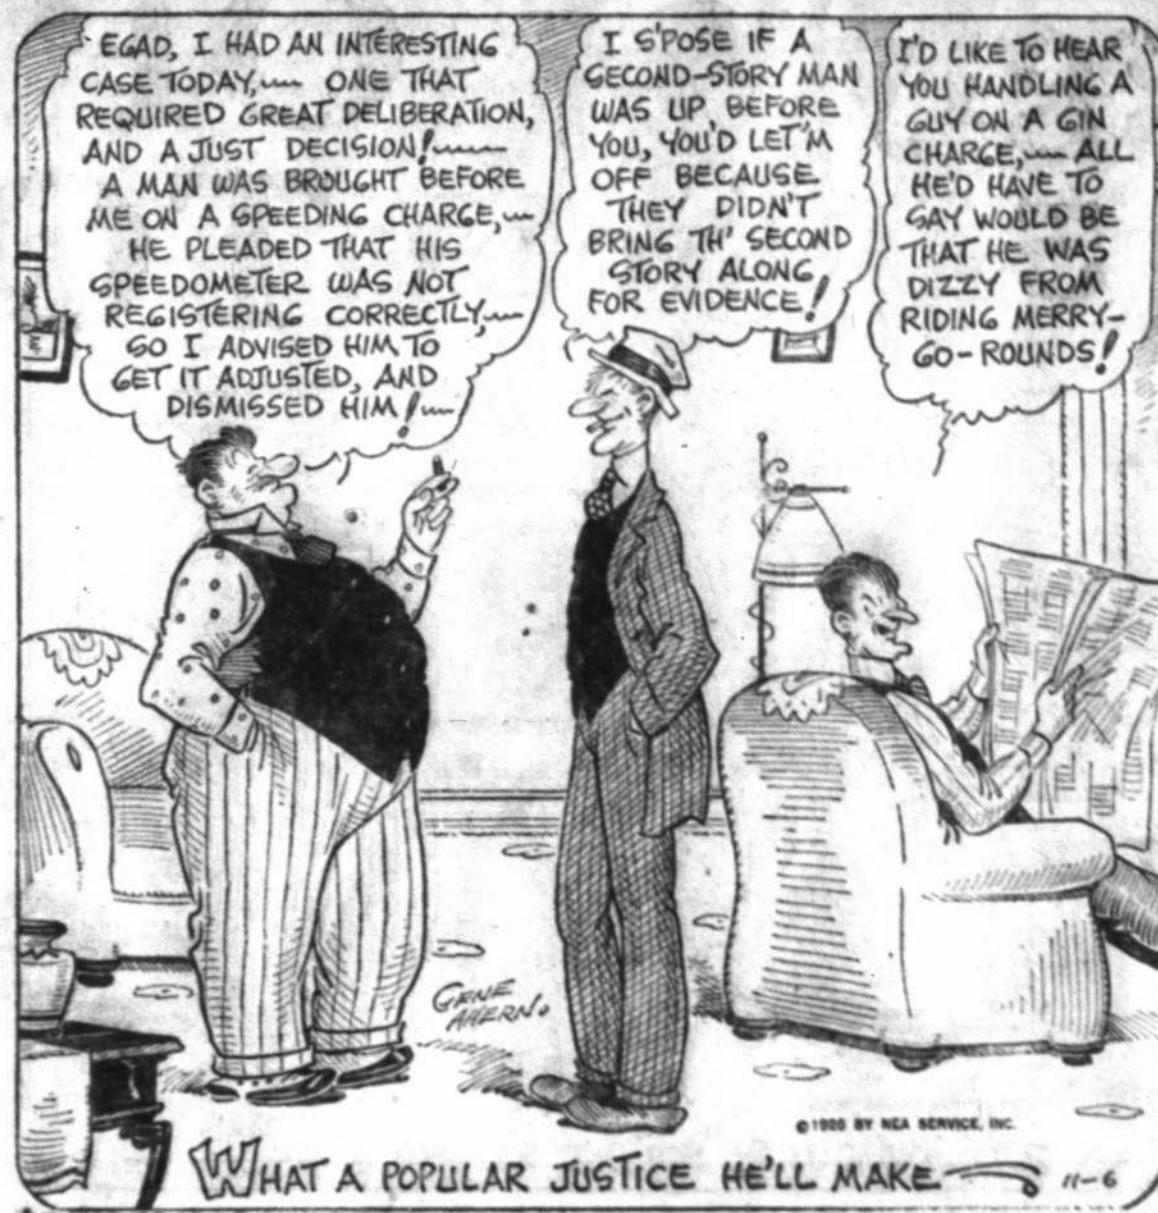

Sold everywhere. Get a package of Black-Draught today. Costs only one cent a dose.

BRADSTREET

NEW YORK, Nov. 5. (AP)—Bradstreet's tomorrow will say: Confirmation of earlier reports of a rather marked shifting of activities occurring during October, these resulting in a curious ebb and flow in surface trade currents, with net results apparently of a slowing down of the pace set in recent preceding months, come to hand this week.

Weekly bank clearings \$9,664,023, 600.

WALL STREET

NEW YORK, Nov. 5. (AP)—Completion of a merger of two of the oldest federal companies in the country, the Federal Telegraph company of California and the Bradco Products corporation of the United States, Canada and England, under the new name of Federal-Bradco, Inc., with authorized capitalization of \$10,000,000 was announced today.

COTTON SEED

NEW YORK, Nov. 5. (AP)—Weakness in land and heaviness in the crude oil position created an unsetling tone in cotton seed of today and

prices declined under liquidation by nervous sellers, closing with net loss of 2 to 10 points. Total sales were 30,500 barrels. Prime crude 7.12 1-2 bid, prime summer yellow spot 8.55; November closed 8.45; December 8.49; January 8.46, March 5.59; May 8.75.

CHICAGO GRAIN

CHICAGO, Nov. 5. (AP)—Traces of black steam rust reported developing in Argentina brought about a late upward trend in wheat values today. Closing quotations here for wheat were firm at the same as yesterday's finish to 3-5¢ higher, corn 1-2¢ to 1¢ down, oats 1-3¢ off to 1-5¢ up, and provisions unchanged to a setback of 2¢.

All deliveries of corn reached the lowest prices yet this season. Country offerings to arrive were somewhat larger, and weather conditions favorable. Pronounced strength of oats at Winnipeg upheld the oats market here.

PLANES TO NEW ORLEANS

GALVESTON, Texas, Nov. 5. (AP)—Four army planes took off from Fort Crockett this morning to take part in airport ceremonies at New Orleans. The planes were piloted by Captain J. H. Davidson, Lieut. R. F. Tensley, Lieut. A. L. Bump, Jr., and Lieut. C. R. McIver.

AT PIGGLY WIGGLY
NO. 5

This morning at 8:00 you will witness the opening of another Piggly Wiggly Store and Market which is more progress in the right direction; that progress "of Economy to the Public". Piggly Wiggly is the only system of merchandising today in existence which make a real distinction between that which is useless and that which is necessary in retail food distribution. No delivery, no telephone orders, no bad debt, no waiting to be waited on, you help yourself. Nationally known Goods—Clean Stores, enormous volume of sales at a small margin or profit to us and a saving of ponderous size to the public.
