Get Ready To Set Your VCR For Recording Graduation Tapes

Parents, families and graduates will want to be tuned to Knox City's cable channel 17 next week when the First Baptist Church will be showing taped copies of this week's school graduation ceremonies.

In an effort to make copies available to everyone, the church will show the graduation tapes so parents and friends of the graduates can watch and make their own VCR copies. Filming was done with the church's studio quality SVHS camera and remote, wireless sound equipment, and will be edited with name lines and color graphics included before being shown back over cable channel 17.

The taped ceremonies that will be shown will include the high school Baccalaureate service and Commencement exercise, the Kindergarten graduation and elementary awards program, and the 8th grade graduation.

All it will take for you to have your own personal taped copy of graduation ceremonies (free of charge) is setting your VCR to the following dates and times:

CABLE CHANNEL 17
High School Baccalaureate and Commencement
Monday, May 24, 7:00 p.m.
(approx. 1 1/2 hours)
8th Grade Graduation
Tuesday, May 25, 7:00 p.m.
Kindergarten Graduation and Elementary Awards
Tuesday, May 25, 8:00 p.m.

If you live out of town, try to make arrangements with someone who does have local cable service and a VCR who might be able to make a copy for you.

Should requests make it necessary, the tapes might be shown again at a later date.

FmHA Has Loan
Funds Available

The Farmers Home Administration has loan funds to help members of socially disadvantaged groups, including minorities, buy land for farming or operate farms in Foard and Knox counties, FmHA County Supervisor Bob Cude said.

Under this program enacted by Congress, socially disadvantaged population groups are Hispanics, Native Americans, African Americans, Asians, and Pacific Islanders.

FmHA tries to find members of those groups who are interested in farming and can qualify for an FmHA farm ownership loan. The agency can sell or lease to those who are eligible a farm held in its inventory or make a loan for purchase of land on the open market, Cude said.

FmHA can also provide other loan assistance, including operating loans, and advice, if needed, to help the borrower get started.

Persons who think they may be eligible, whether they already are in farming or would like to become farmers, are urged to contact the Farmers Home Administration county office in their area, Cude said.

Traci Fry Honored
With Ector County
Teacher Award

Traci Fry in her first year as Permian High School Journalism teacher, was one of the 25 teachers in the Ector County ISD named as favorite teacher. From the more than 1000 seniors in Permian and Odessa High Schools, 25 seniors were chosen for the Academic Excellence Award. Each student then chose one favorite teacher from their high school years.

A banquet was held at the Holiday Inn on May 4 for the 25 students, their parents, and the award winning teachers. Traci was presented a plaque at the ceremony.

On May 7, Traci and her state qualifying student (headline writing) flew to Austin, along with the five other Permian academic qualifiers and their teachers to compete in the State 5-A UIL competition.

Traci's student, Tonya Bullard, won a nationwide Quill and Scroll scholarship for one of her stories in the Permian Press. She was one of 31 winners from 590 entries encompassing 5,000 community newspapers in the United States.

Knox City High School
Class of 1993

Tracy Espinosa

It all started October 22, 1974. A baby girl was born to Alfred and Teresa DeLosRios. They named her Tracy LaDean DeLosRios. I had two years to myself and then I had a baby brother they named him Alfred Watson DeLosRios Jr.

I have went to school in Knox City - O'Brien all of my life. I have enjoyed geography and typing the most. I was nominated class favorite my freshman year.

Then my junior year I married Robert Espinosa Jr. and then on July 4, 1992, we had a little boy. We named him Robert Coletun Espinosa.

My favorite colors and black and pink. I like almost all kinds of music. I like to spend my free time with my family. My two best friends are my mom and Misty. After school I plan to move to Pampa and go to school for computers.

Misty Rocha

On December 23, 1973, I, Misty Michelle Watson was born to Tim and Ruthie Watson in Knox City. I lived in Snyder until my eighth grade year where I moved to Knox City and started high school. My father is currently employed at Speedy's. My mother and younger brother live in Haskell where she owns the Carousel. The summer after my junior year I was married to George Rocha.

After graduation I plan to move to Abilene with my husband where we will be expecting our first born.

I would like to say thanks to all my family and my husband for helping me and pushing me so hard. I could not have done it without you, I love you!

Melanie Rodriguez

Early in the morning on a chilly October fifteenth, Paul and Beverly Chaney were the proud parents of a little eight pound, ten ounce, baby girl. She was born in Elk City, Oklahoma, and was welcomed home by her older sister, Shana Lynette. They named this new bundle of joy and pain Melanie Kay. She lived in Oklahoma until the ripe old age of four. Then this small but quaint little family decided to move to Texas. Finally they settled in Knox City.

She grew and grew and she started pre-kindergarten. When she was five, she was visited by an alien. This little creature turned out to be her brother, so they gave him an earthly name of Paul Dwayne. As her family grew, Melanie continued to grow. She started first grade and continued on to junior high. When she was in the eighth grade she made twirler. The same year she graduated from junior high. After a long and nervous summer of wondering whether or not she would get thrown in the trash can for a freshman initiation, she started high school. Her freshman year she was a part of the drill team. She tried out again her sophomore year and made it but she changed her mind and resigned. She participated in the band for seven years as a saxophone player. She raised a pig in ag and received first in county and local. In the middle of her junior year, she got married and a little bundle of joy came her way. She is now a senior and the proud parent of a baby girl named Brittany Kae.

Melanie likes to dance and sing and listen to loud music. She spends most of her time with her daughter. Her favorite colors are emerald green, mauve, black, red and gold. She loves Italian food and she listens to a variety of music. As soon as she graduates from high school she plans to go to the Army in June. Her daughter Brittany will soon follow after she completes Basic Training and AIT.

Melanie would like to thank her friends and family for all their support and love they have given her. She would also like to give a special thanks to her mom and David. She could have never made it without yall.

Jarred Pepper

On a warm summer day in August of 1989, a small frightened young man by the name of Jarred Pepper opened the door of an old rugged Celebrity better known as "The Black Bomb" onto the green cleat ridden grass of the practice field. After struggling through the hot two weeks of two-a-day practices, school started. Soon after school began, Jarred quickly learned the "do's" and "don'ts" of high school, although he knew this he (as most delinquent males) strayed toward the "don'ts". Jarred spent many of his days of freshmen high school raising pigs, sleeping through Coach Sloan's Algebra class, and nursing the outcome of practicing football with Big Augie and Alex. Jarred and his counterparts also spent time examining the picture of an old church that hung on the wall of the principal's office trying to find the star!

The following year was a big step up for Jarred. He was proud to announce to his parents that he was now a member of the varsity football team. This meant more responsibility and a better attitude. Jarred soon learned that these two characteristics weren't so easy to come by. This year Jarred wasn't the small, timid vulnerable freshman that he was the year before and he also learned that picking and teasing didn't reap the benefit that he was looking for.

In '91, Jarred started his junior year in high school. This was a year of friendship, the PAL program was started the year before and Jarred was voted to be a member of this group. Jarred discovered six new friends. These were his peers in the PAL group. Sharing personal events and problems opened his eyes to alot of things. He also learned that no matter who you are there are people both watching you and looking up to you.

August 12, 1992, was the day Jarred was waiting for, his final year of high school. This was both a sad but yet it was also a happy year. It was a happy year because there was only nine months until he started the journey into the "real world". It was sad because we would be leaving friends and loved ones behind. Toward the end of the first semester Jarred started planning his college career. Jarred plans to attend Tarleton State University at Stephenville and major in Agricultural Education and someday plans to be an ag teacher. Jarred devoted his decision to two people because they have been so influential in the last four years of his life. "If I had to do it all again I'd do it the same, well some of it!"

A Special Thank You . . .

It is a good thing to give thanks unto the Lord, and to sing praises unto thy name, O Most High. Psalms 92 : 1

We give thanks unto the Lord, and all of our friends in Knox City and all of the surrounding area for your help to us in building a new house of worship. The Lord blessed us to move into the new Church and the first service was held on Mother's Day in the afternoon.

The building is beautiful and at this time, work is going on to complete everything. The dedication service is to be held September 5, 1993, Lord's Willing.

We invite you all to come and see and everyone is welcome to come and worship with us. For every prayer, all of your giving, labour, and buying, we thank everybody and may the Lord bless and keep you and yours.

We are now on a great finance drive to complete the work and we yet need your help.

With Love from

SENIOR CLASS NEWS By Amy Deering

"We're outta here ! !", so the saying goes. It seemed the time would never get here, but it has finally arrived. Many of we seniors are uptight and nervous about what our future holds; personally, I know I definitely am. I have really enjoyed this year. It seems like our class has become so close -- especially these last few weeks together. I think that we all realize that this is the very last time we will all ever be together as a class again. There will be class reunions, sure, but there will probably always be someone unable to attend. All of the wonderful and unique personalities that our class is made up of, has made it the most interesting and joyful class. We have had a blast as a class with only a few minor scruffs, but it has all turned for the best ! I am very proud to be a part of it!

As this week comes to an end and Saturday night approaches, I would like for my class; the class of '93, to know that I have enjoyed being a part of the class and wish every single one of my classmates all of the luck needed for them to succeed and reach their goals in life. Good luck and God bless, I have enjoyed writing for you ! !

Property Tax Protest and Appeal Procedures

The law gives property owners the right to protest actions concerning their property tax appraisals. You may follow these appeal procedures if you have a concern about:

- The value placed on your property.
- Any exemptions that may apply to you.
- The cancellation of an agricultural appraisal.
- The taxable status of your property.
- The local governments which should be taxing your property.
- Any action taken by the appraisal district that adversely affected you.

Informal Review

If you think that you have something wrong with the appraisal of your property, you may contact the Knox County Appraisal District. The telephone number is 454-3891. We will try to help you with these problems, but if we are unable to solve any questions that you have, you still have the right to file a protest with the Appraisal Review Board.

Review by the Appraisal Review Board

If you can't resolve your problem informally with the appraisal district staff, you may have your case heard by the appraisal review board (ARB).

The ARB is an independent board of citizens that reviews problems with appraisals or other concerns listed above. It has the power to order the appraisal district to make the necessary changes to solve problems. If you file a written request for an ARB hearing (called a notice of protest) before the deadline, the ARB will set your case for a hearing. You'll receive written notice of the time, date and place of the hearing. The hearing will be informal. You and the appraisal district representative will be asked to present evidence about your case. The ARB will make its decision based on the evidence presented. You can get a copy of a protest form from the appraisal district office at P.O. Box 47, Benjamin, Texas, 79505.

Note: You shouldn't try to contact ARB members outside of the hearing. The law requires ARB members to sign an affidavit saying that they haven't talked about your case before the ARB hears it.

Review by the District Court

After it decides your case, the ARB must send you a copy of its order by certified mail. If you're not satisfied with the decision, you have the right to appeal to district court. If you choose to go to court, you must start the process by filing a petition within 45 days of the date you receive the ARB's order. If the appraisal district has appraised your property at \$1,000,000 or more, you must file a notice of appeal with the chief appraiser within 15 days of the date you receive the ARB's order.

More Information

You can get more information by contacting your appraisal district at P.O. Box 47, Benjamin, Texas, 79505, Phone (817) 454-3891. You can also get a pamphlet describing how to prepare a protest from the appraisal district or from the State Comptroller's Property Tax Division at 4301 Westbank Drive, Building B, Suite 100, Austin, Texas 78746-6565.

Deadline for Filing Protests with the ARB

Usual Deadline

On or before May 31 (or 30 days after a notice of appraised value was mailed to you, whichever is later).

Late protests are allowed if you miss the usual deadline for good cause. Good cause is some reason beyond your control, like a medical emergency. The ARB decides whether you have good cause.

Late protests are due the day before the appraisal review board approves records for the year. Contact your appraisal district for more information.

Special Deadline

For change of use (the appraisal district informed you that you are losing agricultural appraisal because you changed the use of your land), the deadline is before the 30th day after the notice of the determination was mailed to you.

For ARB changes (the ARB has informed you of a change that increases your tax liability and the change didn't result from a protest you filed), the deadline is before the 30th day after the notice of the determination was mailed to you.

If you believe the appraisal district or ARB should have sent you a notice and did not, you may file a protest until the day before taxes become delinquent (usually February 1). The ARB decides whether it will hear your case based on evidence about whether a required notice was mailed to you.

Congressman Bill Sarpalius A View From the Hill

GUN CONTROL IS NOT THE ANSWER

Washington, D.C. is where much of our nation's history is made. This is also the city with the highest crime rate in the nation and the strictest gun control laws. If history is being made here, could it be that history is trying to tell us something?

How do we solve the problem of violent crime plaguing our great nation? Gun control is not the answer. The criminals will always find a way to bypass that system. I believe we need stiffer and surer punishment imposed on those convicted of crimes where firearms are used. We have got to be tough and enforce the laws that are already in existence.

It's obvious the criminal justice system isn't enough of a deterrent. Just read the paper or watch the evening news. Take a look at the large number of criminals being released from jail, only to commit another violent crime, many times taking away someone's precious life.

Why isn't jail something that criminals fear? Maybe jail has become the only place where criminals can feel at home. If that's the case, we've got to find a way to improve the penal system so that those who engage in a crime where a firearm is used are appropriately penalized.

While each state makes its own laws concerning the punishment for crimes, I hope Texas and other states will take a look at California's law concerning crimes committed with a firearm. In California, if a person uses a firearm in the commission of a felony, upon being convicted, that person would receive an enhanced jail sentence anywhere from three to five years. So if the normal punishment for that crime was a ten year jail term, the person could be sentenced to fifteen years in prison. The California slogan "Use a gun - go to jail" really has teeth in it.

The Brady Handgun Violence Prevention Act is one of several gun control bills that have been introduced in Congress again this year. I plan to oppose that bill along with all other gun control legislation. The Brady Bill would provide for a waiting period before a handgun is purchased, during which a criminal background check would be performed. Ultimately, this type of system would adversely affect only the sportsman, who owns a gun for recreational purposes. The criminals would purchase their firearms illegally, as most of them do already.

Several weeks ago I attended a hearing focusing on the increasing numbers of violent incidents involving children. One of the witnesses was an 18-year old teenager who had once fallen into the wrong crowd. The boy's only constant companion now is his wheelchair. Last summer, one of the teen's friends was killed and he was paralyzed following a drive-by shooting. He is now a member of a group called P.O.W.E.R., or People Opening the World's Eyes to Reality. The group hopes to warn children about the dangers of being involved with violent behavior.

I asked the teen if he had ever owned a gun, and his answer was no. I asked him if he could get one. "Easily", he responded. And then I asked this 18-year old boy, who will spend the rest of his life in a wheelchair, "If we had a gun control law in this country where it was illegal, could you still get a gun?" Without hesitation, this young man answered, "Yes."

Gun control clearly has not worked in the District of Columbia. Every day on the news I hear about another innocent human being whose life has been taken away by an unfeeling criminal with a gun. And we all know guns are not the only weapons used by criminals. Just as many people are injured or killed with knives, hammers, and other objects. So would the killings stop if we outlawed knives and hammers? Let's start channelling our efforts to get at the real root of the problem. We don't need to control the guns, we need to control people who use them for illegal acts. The laws are there, they just need to be enforced.

Many times you hear about band-aid solutions to problems. I believe gun control would be the wrong medicine for the sickness. Instead we should focus our attention on finding a cure for the disease, and I believe the right medicine is enforcing all of our current laws and making sure those convicted receive swift and sure punishment.

Dr. Casipit To Return to Kermit

Knox County physician Calvin M. Casipit MD, has decided to return to his Kermit, Texas, practice and will be closing his Knox City office effective May 23. Patient records will be available at Dr. Shirley Barretto's office.

Stephen Kuehler, administrator of the Knox County Hospital, said, "Although we are disappointed by Dr. Casipit's decision to leave, we certainly understand his desire to return to his office practice of 10 years in Kermit."

"It has been a real pleasure having Dr. Casipit in our community. We will certainly miss him and wish him the best of luck."

Kuehler added, "We are very fortunate to have continued with our physician recruiting program and expect to soon have a new doctor to work with Dr. Barretto."

Knox City Study Club Members Attend San Antonio Convention

The Texas Federation of Women's Clubs met at San Antonio for the 96th state convention.

Those attending from the Mesquite District and the Knox City Study Club were Janoma Stephens, Mesquite District president; Winifred White, Texas Federation of Women's Clubs' trustee; and Erna Liles, the General Federation of Women's Clubs' Second Century Endowment chairman.

Others attending from the Mesquite District were Marie Ward, president of the Phoenix Club of Apsermont and Texas Federation of Women's Clubs' yearbook chairman; Pollye Wheeler of the Albany Study Club and the Texas Federation of Women's Clubs' chaplain; and Lorea Kays of the Amity Club of Moran and the Mesquite District second vice president.

A very interesting speaker at the convention was Dr. Army Freeman Lee, founder and president of The Texas Watercolor Society. In 1984 she was elected to the Texas Women's Hall of Fame (Arts and Humanities Division).

Tuesday luncheon was very exciting and educational. The women learned all about mohair with a Treasured Mohair Style Show.

Texas, with a herd of 1,800,000 goats, is the main mohair region of the United States, producing 96% of the total U.S. mohair.

Designers are using mohair more and more due to its affinity for dyes and its being a natural fiber.

A drawing for a beautiful pink mohair sweater coat was the closing of the style show. A member of the Mesquite District, Marie Ward won the sweater with the number 28 on her identification card. The special guest of the Texas Federation of Women's Clubs' convention was the General Federation of Women's Clubs' international president, Ann Holland. Her motto is, "Concern, Courage, Commitment--a Better World For All."

The project for the two years SOAR (Stories Offer Adventure Read) with the rise of the day care center, new and challenging, opportunities for service are available to clubwomen through outreach programs, for children of career mothers whose time for nurturing the child has been severely curtailed. Members of all clubs all over the world make an impact on the lives of tomorrow's leaders by taking time to read to the children.

The Mesquite District received 33 state awards from the Texas Federation of Women's Clubs.

The Mesquite District members said that they were proud of the Albany Study Club of Albany as its yearbook received a grade of 100 on the cover and contents from the state.

Other Texas Federation of Women's Clubs' state awards were the Bluebonnet Club of Albany receiving a rating of Sweepstakes on its yearbook; the Knox City Study Club received a Superior rating with a grade of 98 on its yearbook; the Mesquite District President Janoma Stephens received a state award as the Mesquite District was 100% in reporting its workshops; the Knox City Study Club received a state award for adopting a teacher, having adopted Carolyn Brockett, a second

grade teacher in the Knox City Elementary School; the Knox City Study Club received a state award for each woman who subscribed to *The Texas Clubwoman*, which is published by Texas Federation of Women's Clubs; and the most impressive award was the Anson Study Club receiving a certificate for being in Texas Federation of Women's Clubs for 90 years, a very outstanding accomplishment.

Myrtle Jones Has Visitors At Brazos Valley Care Home

Family members and friends visiting Myrtle Jones at the Brazos Valley Care Home on Saturday, May 8, during Mother's Day weekend, included her children, grandchildren, great-grandchildren, and great-great-grandson.

Visiting were Edwin and Faye Jones, Richard LaRose, John, Frances Chilcoat, Ron Chilcoat, Gayle, Jayson, and Tony Morgan, Elaina, Ronnie, and Cody Reece, Charles, Joy, David, Jessica and Kayla Jones, Jarvis, Sheila, Duwayne Chase Polvado, Charles and Sue Nall, and Myrtle Shaw.

Tres Paul Weatherly

On Tuesday, May 11, 1993, in Amarillo, Texas, Mom and Dad Kim and John Paul Weatherly, and brother Brady Paul and sister Kelsea Kae welcomed Tres Paul to the family. He weighed in at eight pounds, four and one-quarter ounces and was 21 inches tall.

LAST DITCH EFFORT AVOIDS SCHOOL CONSOLIDATION

In one final effort to avoid massive forced consolidation of hundreds of Texas schools, the Texas Senate wrote a school finance plan and approved it by a vote of 27-4 last week. The plan moves property without moving kids so that community-based schools can be maintained all across the state.

Under Senate Bill 7, all residential and agricultural property would remain with the local tax base, but there would be a trade between about a hundred of so of the richest and poorest school districts of commercial property taxes so that every school district can be brought within an acceptable range of property wealth per pupil. Many small but property rich districts breathed a sigh of relief with passage of the measure, because provisions of the bill will allow them to raise enough money to service their high cost and

geographically disadvantaged student populations. Current allotments for technology, transportation, and the career ladder as well as the adjustments for small districts, sparse districts and the cost of education are retained.

Perhaps the best news about the bill is the fact that about 90% of school districts will be unaffected and if the bill passes the House and is signed by the Governor, schools will reopen in September. The state's educational system will not screech to a halt.

The "deal" is far from done however, because the bill must receive final approval in both houses before it can be signed by the Governor, and most importantly, it must not be rejected by the courts.

Let's keep our fingers crossed.
