I am happy to see that some in government circles have finally taken note of the various groups which have sprung up for the purpose of giving aid and comfort to the Viet Cong. In spite of the recent rowdy public hearing on the subject in which the ultra-liberals attempted to make Rep. Joe Pool and his sub-committee the big bad wolves, the committee approved a bill that will provide stiff fines or imprisonment for anti - Viet Nam war activities.

Anyone who watched some of the proceeding on television would have to be convinced that some of the characters questioned were badly in need of psychiatric assistance or else they were darned good actors. A tour of duty in Viet Nam might be just the cure for most of them. Hwoever, I would suggest that they be donated to the Viet Cong.

Last week brought a letter from a former Ozonan upon whom the airline strike had a profound effect. Ann Oswald, the former Ann Baggett whose husband is a pilot for Eastern Air Lines, wrote that their livelihood had been interrupted by the strike and that while the strike dragged on her pilot husband was out of a job. She sent a "hello" to her family and friends here and said she and her children expect to be here as soon as the strike ends. Since the strike was over last week we are looking forward to a visit from her in the near future.

It looks as if fall is going to arrive a little early in these parts this year; however, I'm not predicting. My grandfather always said that anyone who tried to predict the weather in Texas was a new-comer or a fool and I'm not laying claim to either. I will say we have had more rain and cooler days this year in August than at anytime I can remember.

It's funny to me how words change their meaning down through the years. I had always considered myself a moderate, and recently I see the label applied to people and ideals I have always considered pretty far to the left.

I've also thought I was a humanist until this week an application for membership in the American Humanist Association came to my attention.

I got quite a jolt when I read that membership is comprised of people who consider themselves religious liberals, atheists and agnostics. That the association is now in a concerted drive to expand and develop its youth activities to promote ethical education curricula as alternatives to religious training. That they have chapters all over the United States with new campus chapters forming every month. They are feverishly involved in cordinating civil rights activities and generally changing everything to conform to their ideas of bettering mankind. I might add that their ideas are not mine at all, so there goes my humanist philosophy.

I have firmly decided to strip myself of all labels until a new world dictionary is published. The one I use now still has all the old definitions.

Study Shows Large Area Crockett County's Ground - Water Supply Polluted, Mostly by Oil Field Waste

At a joint meeting of the Crockett County Commissioners Court and directors of the Crockett County Water Control and Improvement District last Friday, Kent Johnston, county geologist, gave a comprehensive report of ground-water conditions in Crockett county, with particular reference to sources of pollution of the underground supply.

Large areas of the county's ground-water have been polluted over the years and the creeping pollution of other areas suggests need for specific action to halt such pollution.

The meeting and report was on the eve of a show-cause hearing called by the Railroad Commission of Texas in Austin August 31 whose purpose will be to give "the operators in all oil and gas fields in Crockett County, Texas, an opportunity to show case why the use of earthen pits for the disposal of salt water should not be eliminated in these fields."

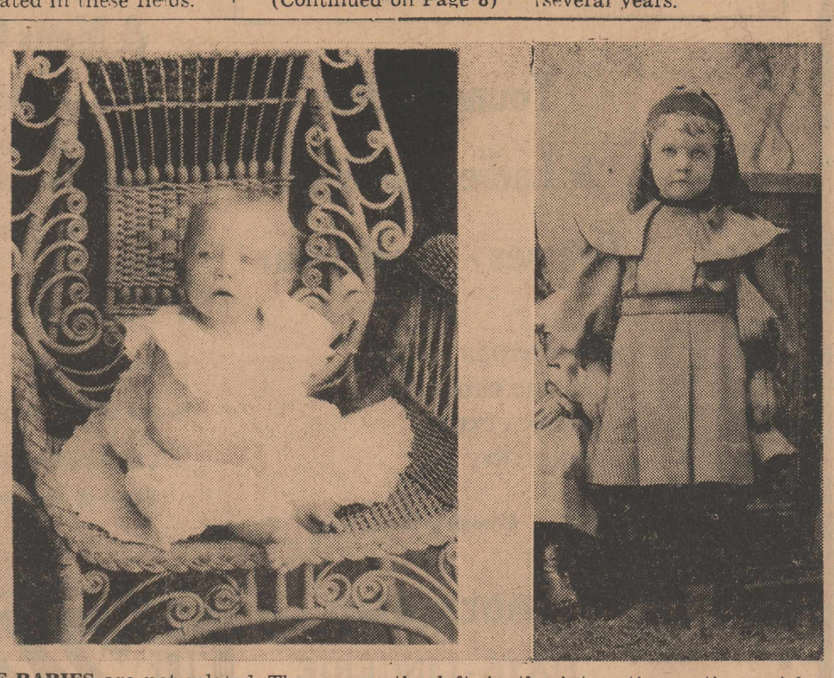

Mr. Johnston will attend that hearing as a representative of the county, he told the court.

A synopsis of the report on Crockett county ground-water conditions presented to the joint meeting of the two boards by Mr. Johnston follows:

The quality of the groundwater of Crockett County ranges from excellent to unusable. Large areas of ground water have been polluted. The pollution may be considered as coming from three sources. These sources are: disposed oil field waste water, water from the Pecos River, and water from formations below the Edwards formation.

Large volumes of waste oil field water have, in the past, been disposed on the land surface. Some of the disposal methods include free flow into draws, sink holes, "evaporation" pits, and turned out onto the soil. The most recent methods of dis-

THESE BABIES are not related. The one on the left, in the interesting antique wicker chair is the daughter of a pioneer Ozona family. She was born here, spent her childhood here but lived away for a time after her marriage, returning to make her home here some few years ago. The older young lady at the right is now the widow of an early-day Crockett county rancher and mother of two children, a son and daughter, who make their homes here. The extra foot belongs to another youngster in the group picture from which the above was taken.

Judge HandsOut Sentences In 11 Co. Court Cases

Ten defendants whose cases have been pending for some time in Crockett county court had their day in court Monday when County Judge Bernice Jones heard pleas of guilty from each and sentenced each to a fine and a brief stay in jail.

All of the cases except one were for driving while intoxicated which carries with it an automatic suspension (in first offense cases) of the defendant's driver's license for a six months period. Such suspension was tacked to the sentence in each of the nine DWI cases tried by Judge Jones Monday.

Each defendant in the DW I cases received a fine of $50 and costs, and a sentence to serve three days in jail.

Some of the cases had been pending for nearly two years. The oldest case tried, filed Oct. 26, 1964, was against Jose Cruz Reyes, who entered a plea of guilty of the DWI charge.

Also pleading guilty to the DWI charges and receiving the same sentences were Preciliano B. Gomez, charge filed April 21, 1965; Frank Rodriquez Ortiz, filed May 24, 1965; Manuel Longoria, Jr., filed Oct. 18, 1965; Juan Rebelez Rodriquez, filed Dec. 7, 1965; Cayetano M. Vasquez, filed Dec. 7, 1965; Sam Beasley, filed Oct. 9, 1965; Bernabe Villarreal, filed Dec. 7, 1965; Rodolfo Cortez Enriquez, filed July 11, 1966, and Eugene Ybarra Gloria, filed Aug. 22, 1966.

Jesus Borrego, charged with assaulting an officer, was fined $25 and costs and sentenced to 30 days in county jail. Borrego was accused of throwing a rock through a Highway Patrol car window.

More than forty criminal cases still are pending on the county court docket, which will be worked off as time permits, Judge Jones said. A number of additional DWI charges are pending, plus one for assault with a motor vehicle, simple assault, aggravated assault, carrying a pistol, trespassing, child desertion and wife desertion.

WHEN DOCTORS BECOME PUBLIC SERVANTS

"Medicare", observes U. S. News & World Report, "is just getting started — and already there's pressure to broaden coverage, add more benefits. It's what happens with most new government programs." And a prominent medical educator observes, "The machinery already has been created for a National Health Service, whose aim will be to provide government-supported medicare for all." Two big questions are: What would a total health service cost; and what would it do to medical standards? Total outlays for such a service are estimated at some $48 billion a year — nearly half of the current federal budget. The ultimate impact of a National Health Service on medical standards is harder to measure.

The possible dangers and pitfall of the system are clearly indicated by the experience of Great Britain, where a National Health Service has been in force for nearly twenty years. Britain's health service is on the brink of bankruptcy, although its cost to the government will be $28 billion for 1966. But the real tragedy of state medicine in Great Britain cannot be measured in terms of cost to the taxpayers alone.

The wife of a British doctor. writing in a late issue of The Kiwanis Magazine, says, "Since socialized medicine was introduced in the British Isles, doctors have been struggling . . . to make a success of this all-time high in welfare service. But now they are exhausted . . . physically incapable of dealing with the workload . . . . Government directives and restrictions have robbed them of the clinical freedom essential to the practice of good medicine. They have no assurance of a decent income during retirement or the means to break the vicious cycle of an increasing number of patients and a declining number of doctors."

State medicine in Britain has demonstrated that when practitioners of the healing arts are compelled by law to become public servants medical standards inevitably decline.

TIGERS IN THE TANK?

Everyone is by now well ware that the United States Supreme Court "ain't what it used to be," Many people, however, are likely to hold the court in contempt for injudicious reasons.

For example, many were scandalized when the aging William O. Douglas once again took a bride of tender years and then announced they'd honeymoon in enemy Red China. In our estimation Mr. Justice Douglas has as much of a Constitutional right to marry and remarry as Tommy Manville or Frank Sinatra or Nelson Rockefeller. We hope that his trip to China will be a long and happy one, and trust that he takes the slowest available boat both ways.

Millions of people, terrorized by mounting crime in the streets, feel that Supreme Court decisions have contributed to this, by giving encouragement to criminals and irresponsible elements, meanwhile putting police and courts in legal straitjackets that make it all but impossible to convict even the most vicious lawbreakers.

Last but far from least, there is annoyance at the way in which our Supreme Court has handed down one decision after another favoring Communists and Communism. As a result, virtually all legislative bulwarks against domestic and imported Reds have been gutted, and there's little chance of putting any of the conspirators behind bars. So outrageous have Supreme Court decisions been in this field that there are many who firmly believe Earl Warren should be impeached. And this, too, we consider injudicious, even though we think the Chief Justice would be more in his element back in California politics.

There's a better way to do something about the Supreme Court's decisions, and this was clearly shown when Mr. Justice Brennan, at long last, fired one of his own law clerks after newspapermen began asking questions and demanding answers. The fellow's name was Michael E. Tigar, a very bright young man, but not smart enough to have kept clear of Communist activities. Included in his record was leadership of student riots at Berkeley, covering the Communist Youth Festival at Helsinki for a Communist newspaper, etc. Yet there he was, helping to draft legal decisions of vital import.

There have been rumors that there are other tigers in the Supreme Court tank, characters who can most charitably be called left-wing extremists.

How about investigating this? Judiciously, of courses.

Explorer Post Of Boy Scouts Organized Here

Explorer Post 148, a newly organized senior group of the Boy Scouts of America, has had a very active month during August. The Post sponsored by the Ozona Volunteer Fire Department, is made up of the following young men: Randy Upham, Post President (recently moved to Jal, N. M.); Don Edgerton, Vice - President; Randel Clepper, Secretary; Marlin Farris, Quartermaster; and members Joe Bob Stevens, Danny Maness, Jesse Deaton, Roddy Blosser, and Jerry Henry. The adult leaders are Kent Johnston Advisor, and Charles Edgerton, Associate Advisor.

The early part of August was spent preparing the Post's truck for future use in Post activities. A three-day outing to the Pecos River for fishing, swimming, canyon climbing, and just plain fun marked a high point for the month. The meeting for this past week was formed around a demonstration and practice session of mouth-to-mouth resuscitation and closed chest cardiac massage using a working dummy made available by the Texas Heart Association. Demonstration and practice was conducted by Lawrence Janes. Also learning and participating in the first aid session were members of the Girl Scout and Boy Scout Troops of Ozona, and members of the fire department.

Next week's activity and meeting will be centered around the formation of a Post rifle team. Future activities scheduled include more outings and further preparedness for emergency service to the community.

'Agricultural use' means the raising of livestock or growing of crops, fruit, flowers, and other products of the soil under natural conditions as a business venture for profit, which business is the primary occupation and source of income of the owner.

"(b) For each assessment year the owner wishes to qualify his land under provisions of this Section as designated for agricultural use he shall file with the local tax assessor a sworn statement in writing describing the use to which the land is devoted.

"(c) Upon receipt of the sworn statement in writing the local tax assessor shall determine whether or not such land qualifies for the designation as to agricultural use as defined herein and in the event it so qualifies he shall designate such land as being for agricultural use and assess the land accordingly.

"(d) Such local tax assessor may inspect the land and require such evidence of use and source of income as may be necessary or useful in determining whether or not the agricultural use provision of this article applies.

"(e) No land may qualify for the designation provided for in this Act unless for at least three (3) successive years immediately preceding the assessment date the land has been devoted exclusively for agricultural use, or unless the land has been continuously developed for agriculture during such time.

"(f) Each year during which the land is designated for agricultural use, the local tax assessor shall note on his records the valuation which would have been made had the land not qualified for such designation under this Section. If designated land is subsequently diverted to a purpose other than that of agricultural use, or is sold, the land shall be subject to an additional tax. The additional tax shall equal the difference between taxes paid or payable, hereunder, and the amount of tax payable for the preceding three years had the land been otherwise assessed. Until paid, there shall be a lien for additional taxes and interest on land assessed under the provisions of this Section.

"(g) The valuation and assessment of any minerals or subsurface rights to minerals shall not come within the provisions of this Section."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment to provide that all land owned by natural persons designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use.

"AGAINST the Constitutional Amendment to provide that all land owned by natural persons designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the constitution and laws of this state.

NUMBER ELEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

SENATE JOINT RESOLUTION NO. 19 proposing an Amendment to Section 49-d, Article III of the Constitution of the State of Texas, declaring state policy regarding optimum development of water reservoirs; providing for the use of the Texas Water Development Fund under such conditions as the Legislature may prescribe by General Law in the acquisition and development of storage facilities and any system of works properly appurtenant thereto; providing for the sale, lease or transfer of such facilities under General Laws; providing for long-term contracts for water storage facilities; authorizing the issuance of an additional $200,000,000 in bonds by the Texas Water Development Board upon a two-thirds (2/3) vote of the elected members of each house; providing that anticipatory legislation shall not be invalid because of its anticipatory character; providing for the necessary election, form of ballot; and proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed $200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such $200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unnappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the issuance of an additional $200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

"AGAINST the Constitutional Amendment authorizing the issuance of an additional $200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

"Section 12. The Legislature may by law provide for the creation, establishment, maintenance and operation of Airport Authorities composed of one or more counties, with power to issue general obligation bonds, revenue bonds, either or both of them, for the purchase, acquisition by the exercise of the power of eminent domain or otherwise, construction, reconstruction, repair or renovation of any airport or airports, landing fields and runways, airport buildings, hangars, facilities, equipment, fixtures, and any and all property, real or personal, necessary to operate, equip and maintain an airport; shall provide for the option by the governing body of the city or cities whose airport facilities are served by certificated airlines and whose facility or some interest therein, is proposed to be or has been acquired by the Authority, to either appoint or elect a Board of Directors of said Authority; if the Directors are appointed such appointment shall be made by the County Commissioners Court after consultation with and consent of the governing body or bodies of such city or cities, and if the Board of Directors is elected they shall be elected by the qualified taxpaying voters of the county which chooses to elect the Directors to represent that county, such Directors shall serve without compensation for a term fixed by the Legislature not to exceed six (6) years, and shall be selected on the basis of the proportionate population of each county based upon the last preceding Federal Census, and shall be a resident or residents of such county; provide that no county shall have less than one (1) member on the Board of Directors; provide for the holding of an election in each county proposing the creation of an Authority to be called by the Commissioners Court or Commissioners Courts, as the case may be, upon petition of five per cent (5%) of the qualified taxpaying voters within the county or counties, said elections to be held on the same day if more than one county is included, provided that no more than one (1) such election may be called in a county until after the expiration of one (1) year; in the event such an election has failed, and thereafter only upon a petition of ten per cent (10%) of the qualified taxpaying voters being presented to the Commissioners Court or Commissioners Courts of the county or counties in which such an election has failed, and in the event that two or more counties vote on the proposition of the creation of an Authority therein, the proposition shall not be deemed to carry unless the majority of the qualified taxpaying voters in each county voting thereon vote in favor thereof; provided, however, that an Airport Authority may be created and be composed of the county or counties that vote in favor of its creation if separate propositions are submitted to the voters of each county so that they may vote for a two or more county Authority or a single county Authority; provide for the appointment by the Board of Directors of an Assessor and Collector of Taxes in the Authority, whether constituted of one or more counties, whose duty it shall be to assess all taxable property, both real and personal, and collect the taxes thereon, based upon the tax rolls approved by the Board of Directors, the tax to be levied not to exceed Seventy-Five Cents (75c) per One Hundred Dollars ($100) assessed valuation of the property, provided, however, that the property of state regulated common carriers required by law to pay a tax upon intangible assets shall not be subject to taxation by the Authority, said taxable property shall be assessed on a valuation not to exceed the market value and shall be equal and uniform throughout the Authority as is otherwise provided by the Constitution; the Legislature shall authorize the purchase or acquisition by the Authority of any existing airport facility publicly owned and financed and served by certificated airlines, in fee or of any interest therein, or to enter into any lease agreement therefor, upon such terms and conditions as may be mutually agreeable to the Authority and the owner of such facilities, or authorize the acquisition of same through the exercise of the power of eminent domain, and in the event of such acquisition, if there are any general obligation bonds that the owner of the publicly owned airport facility has outstanding, the same shall be fully assumed by the Authority and sufficient taxes levied by the Authority to discharge said outstanding indebtedness; and likewise any city or owner that has outstanding revenue bonds where the revenues of the airport have been pledged or said bonds constitute a lien against the airport facilities, the Authority shall assume and discharge all the obligations of the city under the ordinances and bond indentures under which said revenue bonds have been issued and sold. THE VILLAGE 'SMITHIES' — This was Ozona in the early part of the century, looking north up the main street (Avenue E) from about what is now the intersection of Highway 290 and 163. The Ozona National Bank may be seen on the left at the far north end and across the unpaved street may be seen a small segment of the board fence that enclosed the park at that time. Identifiable in the picture are, second from left, Olney W. Smith, blacksmith, windmill and machine shop operator, second from right, Jim Chapman, and far right, Tom Smith, wearing the chaps-like leather apron typical of the early day blacksmith. The cut-out letter sign with the arrow points to the town's only "Garage". (Picture from the collection of the late Mrs. W. E. West and reproduced by Mrs. Ira Carson.)

TIPS For Outdoorsmen

Night fishing for crappie—Fish for crappie at night when they bite best. A lighted lantern (shaded to place the boat in the shadow) will serve a dual purpose. It will attract more fish and at the same time lessen pesky insect swarms.

Marlin Fishing — You who hanker for a bit of marlin fishing had better use a pretty rugged line if you want to land your catch.

Nothing short of a 30-pound test, flourescent monofilament liine is recommended for marlin fishing, especially if you want to take home a 150-pound fish.

Increase the test weight according to your optimism.

Dark Rings in Your Boat—In these days of w despread water pollution your boat is apt to get mighty dirty, very quickly.

Mostly, this dirt takes the form of dark, slimy rings that accumulate on the hull at the waterline.

These can be removed easiest with a good scouring powder and a "Chore Girl" activated by a lot of muscle power.

Cleaning Your Boat—Your boat's exterior, the bottom in particular, can be cleaned quicker and easier if you'll don a bathing suit and do the cleaning job while you and the boat both are in shallow water.

This mainly because clean water is handy all around you — and the underwater parts of the craft are kept soft.

Salt Water Weights — The size sinker to use when surf fishing is determined by the strength of the wind and what weight of sinker the rod will cast.

Many fishermen prefer a 4-oz. weight for the usual size rod. But when the wind is high, nothing less than a 5-oz. lead is recommended.

A lot also depends on the action of your rod.

Carry weights from one to five ounces in your box to be on the safe side.

NOTEBOOK-PATTERNS FOR PROGRESS

INDUSTRIAL FOUNDATIONS

. . . to finance industrial growth

Competition between states and cities to improve their competitive abilities to attract new payrolls has increased the forming of Industrial Foundations in Texas. Many industries want and need someone else to own the land, brick and mortar, keeping their money available for plant operations. Industrial Foundations indicate the interest and desire of a community for new industry. Local citizens who participate usually figure that they get a return on their money in a Foundation by having an additional payroll circulating in their community.

— PURPOSE — is to give a community a corporate entity to assist industry to create jobs within the community — can be an existing industry as well as a new one. Foundations usually assist industry that cannot or will not use normal commercial financial institutions.

— EXTENT OF ACTIVITIES — usually are to acquire and develop industrial property . . . construct buildings for lease . . . provide funds for training workers . . . purchase machinery and equipment . . . prepare promotional material and prospecting expenses and any other function that would give the community a **competitive advantage** for a new payroll.

— ORGANIZATION — is usually by a group of businessmen who are interested in the economic growth and development of their community. A local **attorney** should prepare the application for the charter and by-laws in order to conform to state laws and internal revenue service regulations. The **local bankers'** support is very helpful in forming an Industrial Foundation.

— TYPE — of Industrial Foundations vary — profit or non-profit — stock or contributions — the type a town needs depends upon the attitude and characteristics of the local people and its competitive position with other towns to attract new manufacturing payrolls. In most cases, Industrial Foundations are only used to assist industries where labor cost is a big factor in the operation, as the payroll provided is the important thing to the economy of the community.

SENATE JOINT RESOLUTION NO. 4 proposing an Amendment to the Constitution of Texas by adding to Section 62 of Article XVI a new subsection to be denominated subsection (c), of said Section 62; authorizing the Legislature to enact laws establishing, subject to the limitations stated, a State-wide System of Retirement, Disability and Death Compensation benefits for the officers and employees of the counties and other political subdivisions of the state, and of the political subdivisions of any county.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 62 of Article XVI of the Constitution of the State of Texas be amended by adding thereto a subsection (c) which shall read as follows:

"(c) The Texas Legislature is authorized to enact appropriate laws to provide for a System of Retirement, Disability and Death Benefits for all the officers and employees of a county or other political subdivision of the state, or a political subdivision of a county; providing that when the Texas Legislature has passed the necessary enabling legislation pursuant to the Constitutional authorization, then the governing body of the county, or other political subdivision of the state, or political subdivision of the county shall make the determination as to whether a particular county or other political subdivision of the state, or subdivision of the county participates in this System; providing further that such System shall be operated at the expense of the county or other political subdivision of the state or political subdivision of the county electing to participate therein and the officers and employees covered by the System; and providing that the Legislature of the State of Texas shall never make an appropriation to pay the costs of this Retirement, Disability and Death Compensation System.

"The Legislature may provide for a voluntary merger into the System herein authorized by this Constitutional Amendment of any System of Retirement, Disability and Death Compensation Benefits which may now exist or that may hereafter be established under subsection (b) of Section 62 of Article XVI of the Texas Constitution; providing further that the Texas Legislature in the enabling statute will make the determination as to the amount of money that will be contributed by the county or other political subdivision of the state or political subdivision of the county to the State-wide System of Retirement, Disability and Death Benefits, and the Legislature shall further provide that the amount of money contributed by the county or other political subdivision of the state or subdivision of the county shall equal the amount paid for the same purpose from the income of each officer and employee covered by this State-wide System.

"It is the further intention of the Legislature, in submitting this Constitutional Amendment, that the officers and employees of the county or other political subdivision of the state or political subdivision of a county may be included in those systems regardless of whether the county or other political subdivision of the state or political subdivision of the county participates in the Retirement, Disability and Death Benefit System authorized by this Constitutional Amendment, or whether they participate in a System under the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as the same is herein amended."

"FOR the Constitutional Amendment authorizing the Texas Legislature to establish a State-wide Cooperative System of Retirement, Disability and Death Benefits for the officials and employees of the various counties or other political subdivisions of the state, or political subdivisions of a county; authorizing the Legislature to provide for a voluntary merger into the system authorized by this Amendment by those officers and employees covered by the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as now existing or may hereafter be established; providing that costs of this System shall be borne by the counties and other political subdivisions of the state and political subdivisions of the county electing to participate therein and the officers and employees covered by the System; and forbidding the Legislature from making any appropriations for the operation of this System."

"AGAINST the Constitutional Amendment authorizing the Texas Legislature to establish a State-wide Cooperative System of Retirement, Disability and Death Benefits for the officials and employees of the various counties or other political subdivisions of the state, or political subdivisions of a county; authorizing the Legislature to provide for a voluntary merger into the system authorized by this Amendment by those officers and employees covered by the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as now existing or may hereafter be established; providing that costs of this System shall be borne by the counties and other political subdivisions of the state and political subdivisions of the county electing to participate therein and the officers and employees covered by the System; and forbidding the Legislature from making any appropriations for the operation of this System."

If it appears from the returns of said election that a majority of the votes have been cast in favor of such amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have notice of said proposed Amendment and of said election published as required by the Constitution of Texas, and laws of this state.

WITH AN EYE TO PERFECTION

An artist takes a strip of glass with flaws and imperfections (something you and I would carelessly discard), and transforms it into stained glass of unbelievable beauty.

And God makes possible another transformation . . . although our souls are scarred, He can help us develop into creatures of inward beauty and usefulness.

Through Him we can learn to overcome weakness with newfound strength. We can learn to have faith because we know the anguish of despair. We can learn to love—both God and man—because we know the emptiness of living without love.

Through regular church attendance and prayer, we too, can transform our flaws and weaknesses into beauty of character and fitness of purpose.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Pollution —

(Continued from Page One)

posal which are hazardous to the fresh water supply have been open pit disposal, and free flow onto the ground surface. The latter has been more common than might be imagined.

Pollution introduced from surface disposal of brine waters enter the fresh water zone of the county through any available opening. The surface formations of the county are non-productive as water bearers. These formations, however, take the brine water and conduct it to open well bores, shot holes an-plugged oil wells, and natural openings where the water freely enters the fresh water zone. The worst pollution wthin the county is in the areas of oil production which have been producing for ten years or more.

The Pecos River provides contaminants to the formations of the western part of the county. The river bed occupies the various formations along its course. Polluted water enters these formations and moves towards the south-west. Pollution from this source occupies only the western part of the county.

Trinity formation water is a brackish sulfur water. This water is generally usable only as livestock water as the taste is undesirable and the odor is objectionable. The sulfur in the water is hydrogen sulfide gas generated by the alteration of pyrites, fools gold, contained in the formation. The salinity of the water is from intra-formational contaminants which were laid down at the same time that the formation was deposited.

Water from the Trinity formation is under artesian pressure and rises in any hole drilled to the formation. A number of wells, both water wells and oil wells have penetrated this formation. Many of the wells are not cased, allowing the free inflow of Trinity water into the overlying Edwards water. This allows an intermixing of brackish water with good quality fresh water resulting in pollution of the fresh water zone. Deeper wells in the county, which are not cased properly, are allowing the inflow of water of even poorer quality into the county's fresh water zone.

Protection and improvement of the county's fresh water supply should start with the reduction of contaminants available to the surface of the land. This can be done by the county-wide elimination of open pit disposal of oil field brines. Along with the abandonment of pits should come pit destruction and mounding the old pit location with clean soil so that collection of rain fall will not move salt already in the soil deeper into the formations. Other protective measures should include: casing of well bores penetrating the surface formations and extending into the Edwards formation, plugging abandoned wells, casing wells penetrating the Trinity formation, and maintenance of injection wells and disposal systems by the oil companies. The aforementioned measures apply to water wells and oil wells alike.

Are there really any sound reasons for buying a Chevrolet in August?

GM Chevrolet Division

In a word: Six

1. Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.

2. More than likely, your present car will never be worth as much in trade as it is right now. Money—another good reason to buy a Chevrolet this month.

3. Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why . . . with buys that are better than ever.

4. If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation driving. Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.

5. You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.

6. Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.

HIGHLIGHTS AND SIDELIGHTS

From Your State Capitol

Austin, Texas — Department of Public Safety estimates that 41 persons will die in traffic accidents on Texas highways during the upcoming three-day Labor Day weekend.

"The current traffic trend indicates that Texas is headed for its third straight record high in terms of fatal accidents," says Col. Homer Garrison, Jr., DPS director. "At the present time, we are approximately 15 per cent ahead of the same time in 1965, and we are still faced with the four months of the year which generally produce the most deaths."

In an attempt to cut back on the number of accidents and deaths during the Labor Day weekend, the DPS will conduct its "Operation Motorcide". Approximately 150 uniformed officers from other DPS services will be on the road to supplement the Highway Patrol. To call public attention to the problem, each traffic death will be tabulated and the totals will be announced three times daily in Austin.

Election System Upheld — Seventh Court of Civil Appeals at Amarillo upheld the Texas "closed primary" election system, holding that members of one party cannot vote in the primary of another.

Court reversed the district court ruling that would have permitted to stand 71 votes of Republicans in the second Democratic primary for a Pampa judge.

State Democratic Executive Committee had filed a brief urging the court to uphold the closed primary system.

NUMBER FIFTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

SENATE JOINT RESOLUTION NO. 33 proposing an Amendment to Section 6, Article XVI, Constitution of the State of Texas, to authorize state participation in programs financed with funds from private or federal sources and conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities for assisting the blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipts and expenditures of all public money shall be published annually, in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in and establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped. Money accepted under this subsection is state money. State agencies may spend money accepted under this subsection, and no other money, for specific programs and projects to be conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care or treatment of the handicapped.

"The state agencies may deposit money accepted under this subsection either in the state treasury or in other secure depositories. The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the state agencies may expend the money. Money accepted under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

"This subsection does not prohibit state agencies authorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

"AGAINST the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds, obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 62 of Article XVI of the Constitution of the State of Texas be amended by adding thereto a subsection (c) which shall read as follows:

"(c) The Texas Legislature is authorized to enact appropriate laws to provide for a System of Retirement, Disability and Death Benefits for all the officers and employees of a county or other political subdivision of the state, or a political subdivision of a county; providing that when the Texas Legislature has passed the necessary enabling legislation pursuant to the Constitutional authorization, then the governing body of the county, or other political subdivision of the state, or political subdivision of the county shall make the determination as to whether a particular county or other political subdivision of the state, or subdivision of the county participates in this System; providing further that such System shall be operated at the expense of the county or other political subdivision of the state or political subdivision of the county electing to participate therein and the officers and employees covered by the System; and providing that the Legislature of the State of Texas shall never make an appropriation to pay the costs of this Retirement, Disability and Death Compensation System.

"AGAINST the Constitutional Amendment authorizing the Texas Legislature to establish a State-wide Cooperative System of Retirement, Disability and Death Benefits for the officials and employees of the various counties or other political subdivisions of the state, or political subdivisions of a county; authorizing the Legislature to provide for a voluntary merger into the system authorized by this Amendment by those officers and employees covered by the provisions of subsection (b) of Section 62 of Article XVI of the Texas Constitution as now existing or may hereafter be established; providing that costs of this System shall be borne by the counties and other political subdivisions of the state and political subdivisions of the county electing to participate therein and the officers and employees covered by the System; and forbidding the Legislature from making any appropriations for the operation of this System."

If it appears from the returns of said election that a majority of the votes have been cast in favor of such amendment, the same shall become a part of the Constitution of the State of Texas.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas be amended to read as follows:

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxpaying electors thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

have slowed down the Lion squad this week, and Gary Sutton, All-District tackle choice last year, has been held out of contact work until today, but Coach Mosley is hoping Sutton can participate against Robert Lee.

With nearly two weeks of practice behind, the Lions promise to have good size and speed this year, but appear to be short on depth, as Coach Mosley as indicated that only 21 or 22 boys will carried on the varsity squad.

Offensively, the Lions are set at ends with Oscar Flores 160, Rex Bland, 165, or Larry Kilgore, 160. At the tackles Mosley can go with Sutton, 203, Don Leech, 175, or Wesley West, 168. John DeHoyos 187, Dwight Childress 155, or Johnny Barbee, 140 will likely be at guards, and Marlin Farris, 200, or Glenn Southard, 158, will get the call at the center spot.

Lineman Bill Everett, 193 lb. senior, joined the varsity candidates last week. Everett played B-Team ball his freshman year.

In the Lion backfield appear to be set with sophomore Randel Clepper, 156, at quarterback; Thomas DeHoyos, 170, at fullback, and George Cox, 165, and Beto Ramos, 178, at the halfback spots. This backfield foursome has both size and speed and could produce a very strong rununing game from the Lions' "winged-T" or "I" formations.

Jack Applewhite, Derold Maney, Fleet Coates, and Rodney Pagan furnish backfield depth and could see extensive action as Mosley may carry only eight backs on the varsity roster.

What to do while the line is busy

1 Take for granted that whoever is talking on the line will hang up soon.

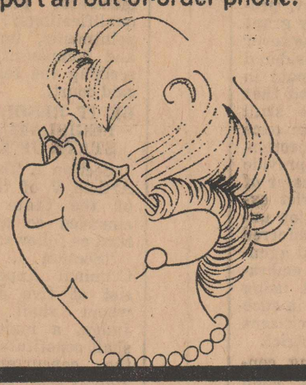

2 Hope that no one left his receiver carelessly off the hook.

3 Think about how reliable a telephone connection is once you get it. And how Gen Tel is constantly at work to modernize and improve service.

4 Be patient. After all, you may have talked for 20 or 30 minutes once yourself. So decide not to call the telephone company to report an out-of-order phone.

5 Think again about trouble-free telephone service. Then, when you get a line, think of the other party, too.
