Sue's Views

By Sue Cannon

We sat in on the school board meeting Monday night and saw six men trying to make a decision that affected the school and students as well as some of their best friends.

In all our years of covering city council and school board meetings have we ever seen such sheer torture as these men had to go through that night.

This action has resulted from legislature forcing schools to offer different programs without providing funds, inflation and the loss of enrollment in our schools. But this didn't make the board's job any easier.

Personally we hated to see the faculty cut and certainly hated to lose the Lacys, but this comes as a direct result of letting the government "help" us.

What happened to the good ole days when Americans were proud of accomplishing things as a result of hard work and sacrifice rather than "every one else is getting money from the government - we just as well get our part".

I can remember Margie Slatten stating that because "Uncle Sam" gave 2 cents on lunches that cost the students 30 or 35 cents that entitled him to tell them what they had to serve!

Now, I don't suppose that schools nowadays could operate without the help of Uncle Sam... and frankly, I think that's the way he wants it. Just another "toe hold" in the gradual take over of our free nation.

There is to be a meeting at the Business Education building, Room 57, at Texas Tech University Saturday at 1 p.m. for all those interested in bills pending in Austin, mainly the governor's bill, which he says will not cost taxpayers any more money. But when you put a pencil to it as Springlake School District did, it just about doubled the cost!

So, for those who can and are willing to take a few hours away from their own business, it might well be worth out time to go and attend this meeting and be heard! And if we can't be heard there, the 10 cent stamp will carry our thoughts to our state legislators.

It is time for action, not talk!

Corn Production Program Set Here Monday Night

A Corn Production meeting has been set for Monday, Mar. 17 in the Agricultural Community Building at Olton, according to County Extension Agent Jimmy Vanstory.

The evening event, says Vanstory, is designed to inform producers and others of latest development, methods and techniques known for production of corn on the High Plains.

Olton's Agricultural Community Building is located one block south and one block east of an intersection of Highway 70 with Farm to Market Road 168.

The 8 p.m. meeting is open to producers and others interested in improved production practices of corn, Vanstory adds. List of topics will cover the outlook for grain sorghum and corn prices in 1975, irrigating for maximum profit, controlling corn damaging insects and improved cultural practices for maximum profit.

South Plains County Extension agents of the Texas Agricultural Extension Service are sponsoring the special meeting.

Three Lubbock-based Extension specialists and an Extension county entomologist, will bring producers up to date on available information about corn insect pests common to the High Plains.

Rounding out the discussions will be Dr. James Supak, area Extension agronomist, talking about improved cultural practices which could lead to maximum profits in corn production.

Producers and others interested in corn production are encouraged to attend.

CCA Directors Board Of Meet, Make Plans For City

With only one absent member, Chamber of Commerce and Agriculture board of directors met Tuesday morning at the Dairy Mart.

Larry Garvin, president, directed a business meeting that approved routine matters and made plans for future growth and improvement of the city.

Beginning the meeting with plans for a membership drive, each member of the board accepted responsibility for definite businesses not presently participating in the Chamber.

A membership breakfast was planned for Apr. 1. The breakfast, to be prepared by members of the Board, will be served in the new Agriculture Building, corner of Ave. E and Second Street.

Authorization was given to have existing Highway signs, on the outskirts of the city, repainted.

Plans were made to name a local business to be entered in the Governor's Business Expansion contest. Delegated to the committee to select the nominee were Dale Cary, Elmer Moore and Mrs. Frances Redinger.

Some eight couples from the local Chamber have registered intentions to attend Springlake-Earth Chamber of Commerce Banquet to be held Tuesday,

April 1, in the school cafeteria of that community. Invitations are still open to others who might choose to attend.

Faculty Reduced

Reduced average daily attendance in Olton schools over the past few years finally resulted in a cutback in the number of teachers hired for the coming year.

Funds from state and federal sources provided to the school are based on the number of students. For the past several years, the number of teacher units for which the state provided funds had been reduced because of the decline in student enrollment. Local taxpayers had been picking up the tab for the difference in funding, with the same number of teachers remaining on the staff.

Following a study by the three principals, Ray Kinnison of the elementary building; Carl McClure of junior high; Robert Sivley of high school; and Superintendent Joe Turner, a recommendation was made to the board to reduce the faculty.

Supt. Turner explained to the board that based on the study made, that one teacher could be eliminated from junior high without creating a hardship on the remaining members of the faculty there, and still offer a well balanced selection of subjects needed.

He pointed out that in elementary, because of the state required bi-lingual course that must be offered, more help would be needed there.

As for the high school, a decision to abolish the counselor's post would least upset the cirriculum offered, according to the study. Although the counselor teaches Spanish, since the language is not a required subject for graduation and not required by colleges for those entering, the termination of this course would not affect students who were preparing for further education.

Based on the study and the recommendation of superintendent Turner, the board voted to reduce the faculty by two persons. After a two hour discussion, Don Muller made the motion to leave the faculty as it was, due to the fact that so many education bills were pending in Austin, and that motion was seconded by Burley Faver. Voting for the issue were Muller, Faver and Garland DePrang. Voting against were Floyd Prentice, Uil Gunter and Elmo Bryant, creating a tie vote. Breaking the tie, Royce Collins, president of the board, voting against.

Hiring of teachers followed the decision made by the board. The two teachers not re-hired were Robert Lacy, junior high coach and Science teacher, and his wife, Margaret Lacy, high school counselor and Spanish teacher.

Lacy, the last science teacher hired, was not re-hired because according to state law if there has to be a reduction in the number of teachers and there are two teaching the same subject the one last hired would have to be the one not employed.

Teachers hired include H.P. Webb Elementary teachers Mrs. Marsha Johnston, Mrs. Eloise Gallaway, Mrs. Uleta Jenkins, Mrs. Inocencia Rey, Mrs. Anne Burkhalter, Mrs. Raquel Salas, Mrs. Barbara Tollett, Mrs. LeaBelle Hooper, Mrs. Lucille Bley, Mrs. Esther Graham, Mrs. Jane Spain, Mrs. Sue Burgess, Mrs. Pat Criswell, Mrs. Nancy Nafzger, Mrs. Brenda Giles, Mrs. Oneta Gary, Mrs. Wanda Nafzger, Mrs. Lillian Rape and Jack Burkhalter.

Olton Junior High school teachers are Mrs. Jewell Brogdon, Mrs. Austa Fisher, Mrs. Bobbie Hutson, Wandie Hutson, Mrs. Barbara Kinnison, Mrs. Cathryn Lewis, David Maxey, Mrs. Laura Maxey, Mrs. Charlsey Scribner, Mrs. Martha Shackelford, Mrs. Melinda Shackelford, Olin Smith, Fred Stockdale, Mrs. Essie Lee Wozencraft, Mrs. Gayle Allcorn and Mrs. Carmaleta Barnett.

Olton High School teachers are Mrs. Jean Rodriquez, Buddy Ables, Tommy Hancock, John Paul Jones, Bill Johnston, Mrs. Evelyn Maxey, Mrs. Marilyn Miller, Lee Moore, Mrs. Robbie Sue Reed, Mrs. Betty Rich, Jim Rich, Mrs. Carol Seaborn, Larry Shackelford, Mrs. Susie Spain, Mrs. Eva Walden, Jack Williamson and Jerry Wilson.

Recommended for employment of the following teachers provided Federal funds are available were Mrs. Deborah Smith, Miss Virginia Kerr, Mrs. Judy Ables, Mrs. Pearl Moore, Mrs. Kay Jefferies and Miss Wanda Spradlin.

Virginia Moss was hired as Tax Assessor-Collector by the board.

Reports from the superintendent showed enrollment down again, lunchroom participation good, with figures still in "the black."

On the agenda was a request for a garage or carport for the superintendent's and principal's residents, but the request was tabled.

A report on 74-75 year athletics showed net revenue to total $15,450.84, with $12,771.43 from football games and $2,483.96 from basketball.

Supt. Turner reported that the school had received $5,815.84 from the Hale County school district funds, for a portion of the state school land that was sold recently. The money must be spent for capital outlay only.

In other action, the board approved the textbook committee's selections of books for school. Athletic budget, up approximately 19 percent over last year's budget, was approved, at a figure of $16,900., covering expenses for all athletic departments.

Bids for a hot water heater for the junior high building were opened and the board agreed to purchase a 250 gallon storage tank, 75 gallon heat and necessary installation accessories from Fields and Company.

The school calendar for 1975-76 was approved by the board, with opening date for students set Aug. 25. Holidays scheduled are Thanksgiving holidays, Nov. 27 and 28, Christmas holidays, Dec. 22 to Jan. 5 and Easter Holidays, April 12 to 16. School will end May 27 with granduation services May 28.

Salaries of Buddy Ables, Jim Rich, Jerry Wilson, Larry Shackelford, Olin Smith and Melinda Shackelford, Robert Sivley, Carl McClure, Ray Kinnison and Virginia Moss were reviewed and the board unanimously agreed to leave them as they stood.

In final action a bid was read for one of the lots up for sale because of taxes. The board agreed that it would be wise to look into the possibility of advertising the lots for sale and disregarded the bid for the time being.

In final action, Supt. Turner reported to the board that the governor's emergency aid fund had benefited Olton schools with a total of $29,933, which could be spent only for salares and operations.

Senior Citizens who would like to go to the doctor's office, bank, post office, visit a friend..or just "get out for ride" are invited to make use of the Mini-Bus that makes regular calls in this vicinity each Thursday.

The bus is not limited to use by underprivileged, but is serving Olton under the sponsorship of Farmers Union and the Green Thumb program. It is here for the convenience of anyone over 55 years of age, who cnnot drive, or simply needs transportation for Thursday business or errands. Service is not confined to the city limits. Calls are also made into rural areas.

Lamb County is one of the fortunate 18 counties who were first afforded this service. All costs have been paid, there is no charge to the County, nor to the individual who used its services.

The bus serves the whole county equally, one day each Littlefield, Sudan, Amherst, Earth and Olton.

Letter To The Editor

The Olton School Board had a meeting and did not rehire the Lacys.

I've got to say this. Olton School is making a big mistake by not hiring the Lacys.

Most teachers in the High School Department do not care about students as indivduals. The Lacys care for you and what you may become. They are like friends to us, the students of Olton. We try harder to learn and understand things from the Lacys because they care.

A student works harder for a teacher who cares about him, the student and not about the pay check. Most teachers just go through the movements and that doesn't cut the mustard.

The Lacys give all they have got to help you, if you are a friend or not. I can say that there aren't very many people today that are this way about people and their jobs.

I'll say this for the student body, if the Olton School Board does not hire the Lacys, they are firing the best teachers this school has and will ever have.

Who Cares,
Larry Kirk

Are You Sure?

By Rex Boyles

What has spots, four legs, and wings? A horse of course. I just put the spots and wings in there to fool you.

You don't get too many laughs with that, but the silly thing does illustrate a point. A person can take some truth (4 legs) and add something false to it (wings and spots) and the whole thing becomes a lie. I learn then that truth can be false when it's not the whole truth or when it has a certain mixture of untruth with it.

We aren't the first folks to figure that out however. Ask Adam and Eve. There they were, making it fine in God's garden, having everything they needed, and knowing just what God expected of them. God had made it "perfectly clear" that they were not to eat of a certain tree. He had also made it clear that if they did eat of that tree, they would "surely" die. Everything was going great until inslid a slimey subtle serpent named Satan. Watch him go to work. He warms up to the little lady, and says, "Go ahead and eat of that good-looking tree. When you do, you will know good and evil just like God, and don't worry you shall NOT "surely" die."

Notice what that rascal did. He took some truth and mixed in a lie, and though some of it was true, the lie in it turned the whole thing into a damning curse. Eve swallowed that mess, and because of it she lost all of the peace and comfort of the lovely garden. Just ask Eve. She'll tell you that the truth can become false when it ain't the whole truth.

Satan tried the same old trick on my Lord. Look in Matthew 4, at Jesus in the desert. He has been there for forty days fasting and praying. In slides Satan to tempt him. First he appeals to the Lord's hungry flesh. Jesus resists. Satan comes at him again. This time Satan takes Jesus to the top of the temple and tries him by saying, If you are the Son of God, jump off, for it is written (watch that snake quote scripture), He shall give His angels charge concerning thee: and, on their hands they shall bear thee up, lest haply thou dash thy foot against a stone."

Now what Satan ~~siad~~ was true, but he didn't quite get the whole truth of the matter. Jesus does however by saying, "Again it is written, Thou shalt not make trial of the Lord thy God." Satan had some of the truth, but it wasn't the whole truth. Therefore it could not be trusted, because if it ain't the whole truth, it ain't the whole truth.

What has four legs and wings? Were you tricked by the riddle? More important, have you been tried by Satan? Are you sure what you believe is the truth? Or is it just a part of the truth? If you are not sure, you need to find out. Who are you going to ask? The only one that can really answer your question is Jesus. For your own eternity's sake check it out with Jesus. Pick up that Bible and see what Jesus has to say. If you'll check it out with Jesus, you'll be glad. I'm sure...

Everything But The Kitchen Sink

By Mozelle Trotter

"Look for the bad in people, expecting to find it, and you surely shall." I may not have that bit of wisdom exactly word for word as "Pollyanna" said it but I'm close. Did you watch that great movie Saturday night?

Hooray for NBC! And on "prime time" too! Maybe there'll be more.

At first I considered turning my dial and not watching the "children's show" and then I remembered that I'd been preaching family fare TV so I stayed tuned. Am I glad I did! Even discovered that one is never to old to enjoy the film products of Walt Disney and Pollyanna was an entire volume in philosophy and one of the better sermons on living.

You know, after helping put out a paper which makes no claims for being error free (we make our share plus a few thrown in for good measure), I decided Pollyanna's little words of wisdom I quoted above can fit any situation.

Spring! Can you really believe it? All the little blossoms all peeking out on the fruit trees and Old Man Winter isn't through with us at all!

Mother and I are off to Houston for another visit with her doctor down there and I'm expecting to find little wild flowers decorating the roadsides "down yonder." Don't you wish you could go along?

POTATOES WITH CHEESE
6 med. potatoes, peeled and sliced ¾" thick
½ t. salt
½ c. water

Place potatoes, salt and water in cooker and bring to 10 pounds pressure and cook five minutes. Cool the cooker under water until pressure goes down. Remove the potatoes and drain water off. Put potatos into a greased casserole dish. Now shake 2 T. flour and ½ c. milk until the lumps are out and also ½ t. salt and pour over the potatoes. Shred ½ c. cheddar cheese over the potatoes and cook until the cheese melts in a 350° oven. Serves 6 to 8.

PINEAPPLE CREAM CHEESE PIE - without crust
Blend in Blender:
½ c. orange juice
¼ c. lemon juice
1 t. vanilla
⅔ c. milk
10 t. sugar

Sprinkle 2 packages unflavored gelatin over 6 T. pineapple juice. Pour ⅓ c. cottage cheese to blender. Blend until smooth. Lay 6 slices of pineapple cut up in bottom of pie pan. Pour blended mixture over pineapple. Chill at least an hour before serving.

I use pineapple that is canned in its own juice. You can blend pineapple in your blender instead of placing in the bottom of pie pan if you want to.

Cards Of Thanks

We would like to thank everyone for the food, flowers, cards, visit and most all their prayers while I was in Houston recuperating from surgery. We would also like to thank the church for the flowers they sent.

Nadine and Raymond Motley

In appreciation for your loving thoughts, we would like to thank you. We thank each and every one of our friends and relatives for everything you have done for us in our time of need.

It takes something like this to make you realize just how many friends you really have, and just how much you really need them.

We extend a thank you to the Sunnyside Lions Club for the pancake supper they sponsored for Joel. We thank each one of you for your donations to help on Joel's hospital expenses.

Thank you for your prayers. We love you all and thank the Lord for you.

Lee and Louise Bradley and children

Words cannot express our deep and loving appreciation for your grateful concern for our son, Larry. We knew God had given us a wonderful family of friends for a purpose. We now realize more than ever that God is Love, and through His Love for us, we love one another, and we gain our strength through this love.

Thank you for your kindness and concern for our mothers. May God truly bless each of you.

Jean and James Bledsoe

We wish to express our sincere gratitude to friends and loved ones who were of so much comfort during our recent breavement. Your concern as shown through your cards, calls, visits and gifts of flowers meant so much to each of us. We are deeply grateful.

The Eldon Towery family.

H.B. Carsons Return Home

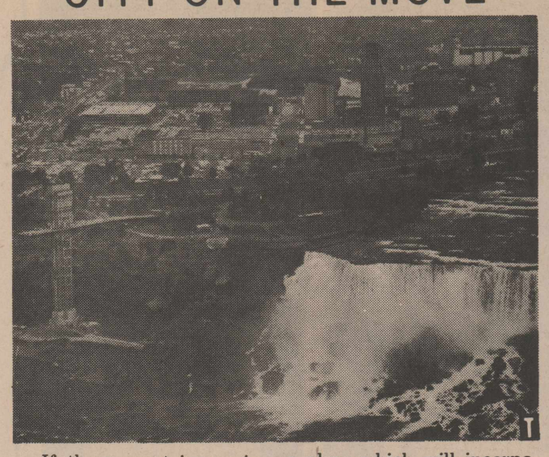

Mr. and Mrs. H.B. Carson came home Monday night from Port Isabel. During their five weeks stay they saw the U.S.S. Hope Hospital Ship brought to its final destination at Port of Brownsville Shipyards. The U.S.S. Hope was originally used during World War II.

Mr. and Mrs. Carson saw a massive oil rig which was constructed at Port of Brownsville Shipyards. This rig was taken by tug boat to the North Seas for exploratory operations. It was estimated that the voyage to that region would require a period of two to four months as the average speed would be four miles per hour.

CITY ON THE MOVE

If the present is any indication of the future, the city of Niagara Falls, New York will have a second title to add to the one it currently holds as a "honeymooner's haven." With its $200 million urban renewal program nearing completion, this tourist mecca is earning a new reputation as the convention and industrial showplace of the nation.

Some 85 acres of what once was the downtown business district have been leveled to make way for the $34 million, rainbow-shaped convention center that has facilities to handle almost any gathering. In front of the convention complex is a plaza which will incorporate an all-season ice skating rink centered around a group of islands. The plaza area will also contain a water-light-sound spectacle, amphitheater, a falling water display, Cyclorama theater-in-the-round, and gardens. The city has plans to build a glass-enclosed pedestrian mall that will run from the convention center to the Falls.

Adopting the theme of "city on the move," Niagara Falls, N.Y. is making a strong bid to place itself in the forefront of American cities with its unique combination of tourism, business and industry.

"Rhyme Of The Ancient Water Heater"

Water, water everywhere
And not a drop to drink;
And none to bathe and none to wash.
There's something wrong, I think.
Our ancient water heater,
It burst at 3a.m.
The signs of strain and stress,
I never thought to check for them.
So first thing in the morning
I'll remove this albatross.
An electric water heater
Will alleviate my loss!

TEXAS TALK

By Billy Davis

Q: I've been told some grocery stores have their own meat grades. Is there more than one system for grading beef cuts?

A: Some meat packers utilize their own grading systems known as name brand or in-house grading. However the grade you see in the supermarket is almost always that assigned the meat by the Standardization and Grading Branch of the United States Department of Agriculture. Meat products will generally carry a label reading "USDA-Choice, USDA-Prime", or whatever the appropriate grade. USDA grading is done on the basis of carcass classification and is supposed to reflect the eating quality of the meat. A USDA grading system seldom noticed by consumers is the Yield Grade. Purpose of the Yield Grade is the determination of the relative cutability of the carcass. Specifically, how much of the carcass can be used in the four major retail cuts of beef. Highest Yield Grade for beef is USDA-1. Lowest is USDA-5.
